# The Mining Journal.

PUBLISHED BY A. P. SWINEFORD. Devoted to the Iron and Industrial Interests of the Country. TERMS OF SUBSCRIPTION: THREE DOLLARS PER YEAR. TWENTY-NINTH YEAR. MARQUETTE, LAKE SUPERIOR, MICHIGAN, AUGUST 7, 1875. NEW SERIES--No. 368.

### CITY AND COUNTY.

**SERVICES AT THE CATHEDRAL.**—Masses, 8 and 10:30 A. M.; Vespers and Benediction, 7:15 P. M.

**SERVICES AT THE ST. PAULS' EPISCOPAL CHURCH.**—The hours of divine service on Sundays are as follows: 10:30 A. M., and 7:30 P. M.; Sunday school at 12 M., except on communion Sundays, when it meets at 12:30 P. M. Services in Swedish language on 1st and 3rd Sunday, at 2 P. M., in same church. Strangers in the city, and all others, are cordially invited.

**FIRST M. E. CHURCH, CORNER FRONT AND RIDGE STREET.**—The public are welcome to any of the following exercises: Preaching every Sabbath, 10:30 A. M., and 7:30 P. M.; Sabbath school 2 P. M.; Fayette Wyckoff, superintendent. Sunday class 9 A. M., 12 M., 3 P. M.; woman's class, 3 P. M.; Wednesday general class 1 P. M., first Sabbath in each month. Prayer meetings 7:45 P. M., Tuesdays and Thursdays.

**MARQUETTE, HOUGHTON & ONTONAGON R. R.**  
GOING WEST.  
Accommodation..... 5:25 A. M.  
Mail..... 7:45 A. M.  
Express..... 8:40 P. M.  
GOING EAST.  
Accommodation..... 9:25 A. M.  
Mail..... 5:00 P. M.  
Express..... 8:10 P. M.

**MARQUETTE POSTOFFICE.**  
MAILS ARRIVE.  
From South, East and West..... 8:10 P. M.  
From Munising and Ontonagon..... 5:30 P. M.  
From Harvey, Tuesday, Thursday and Saturday..... 5:30 P. M.  
MAILS CLOSE.  
Going South, East and West..... 7:30 A. M.  
Going Munising and Ontonagon, Monday and Thursday..... 7:45 A. M.  
Going Harvey, Tuesday, Thursday and Saturday..... 7:45 A. M.  
Office open fifteen minutes after distribution of eastern mail.  
Postoffice and money order office open from 8:50 A. M. to 6:30 P. M.

The first importation to Marquette direct from France arrived at this port on Saturday last, and consisted of two barrels of red wine.

FREEMAN BROS. have the contract for grading and macadamizing Superior street from Lake to Front, which is a sure guaranty that the work will be well and properly done.

A BALL for the benefit of the French Catholic fair was given at Mather's hall, Monday evening, and netted a very handsome sum, which was turned over to the ladies of the society.

ON Wednesday last, while a train of empty ore cars was backing into the Republic mine, a horse belonging to the Republic company got upon the track, and the cars passed over him, throwing a number of them into the ditch and obstructing the track for a short time.

MR. JACON FRIE has the permission of the common council to erect a frame building adjoining his brick block on Front street, the same to be veneered with brick as soon as the wooden walls are finished. It will fill the gap north of the Jackson cut, and, together with the new opera house, will give that part of the street a much more substantial, business-like appearance. It will be completed and occupied before the snow flies.

**BUSINESS.**—The *Home* says it sends ten *Homes* to Marquette to where we send one *MINING JOURNAL* to Ishpeming. We might, considering the compliment thus paid to the intelligence of our people as compared with those of Ishpeming, be inclined to mention the matter and let it drop; but we want to make it stronger by asserting that we circulate in the city of Marquette, more *MINING JOURNALS*, to paying subscribers, than the entire weekly edition of the *Home*. On the other proposition we will wager Mr. Morley \$25, the money to go to any charitable purpose he may name, that we send to bona fide Ishpeming subscribers twice as many *MINING JOURNALS* as there are *Homes* distributed through the Marquette postoffice; the wager to be decided by the sworn statement of the postmasters of the two cities. What say you, Mr. Morley? Will you shut up or put up?

WIKAK is that legislative party—made up of the lawmakers of Michigan—due at this point! Last winter our solons were invited to visit this section the present summer.—*Houghton Gazette*.

The above serves to remind us that the time is close at hand when the legislative excursion party is to be here. The excursionists are to leave Chicago on the 17th of August, stop at Green Bay over night, and arrive at Marquette the evening of the 18th. The party will consist not only of the members of the legislature and officers thereof, but will be accompanied by the governor and nearly all the state officers, the judges of the supreme court, several of the circuit judges, the president and some of the professors of the state university, the president of the agricultural college; also our senators and representatives in congress, and representatives of the press from every part of the state. Many of these gentlemen will be accompanied by their ladies. We think we are within bounds when we venture to assert that not more than one in every twenty of the party has ever before visited this part of the state. Notwithstanding a large portion of the party will be legislators, we are sure that the company will contain many men of intellect, worth and high standing. In the party there will be men from every city and county of the lower peninsula. Their stay here will necessarily be brief. Now, in view of all this, does it not behoove Marquette to be "up and dressed?" Ought we not to clean our streets, alleys and yards, and put our houses and stores in order, to make things look as inviting and decent as possible? Let the mayor and common council see if they have not some duties to perform in the premises. Let every citizen and his family resolve that for once, if never again, they will be hospitable and generous, polite and attentive. We know that the lively stable men and the railroad companies will do their whole duty. Our citizens should plan a trip on the lake to the Pictured rocks or to Stannard rock. The two "Fishers" should prepare their cartridges, the band should polish up their instruments, as well as study up their notes; the water commissioners should see that the hose companies and the water pipes are in order; the military should be "up" in drill—in fact nothing should be left undone that can be done to show these lower peninsula visitors that Marquette is within the pale of civilization.

### CINDEIS.

—Who ever imagined he had lain down among thieves, and then forgot that he had thrown his money under the bureau for safe keeping?

—Our Andrew says there is no less than three distinct gripes and a whole night of agony in each, and every particular cucumber brought to this market.

—There is a lull in the silver stock sales, and very few transactions are reported. Can't our friend Mead come down here and knock the bottom out of it some more?

—It is reported that the Scranton gentlemen now sojourning at Iron river, waiting for a test of their rocks at the silver works, have sent for their knitting, and will stay all summer.

—It is said that there isn't anything slower than molasses in January, but there is. It's the silver reduction works at Iron river; and that's about six months slower than a dumb waiter.

—The meanest man in the United States is George W. Peck of the *La Crosse Sun*. When a country editor makes a fling at him, George replies in Latin, and you ought to see that country editor jump up and down and swear!

—He's a fancy bar tender and slings gin for his board and lodging. The other day he was h-a-r-d offering to bet fifty dollars that he had more money than somebody else who had just been displaying a roll of borrowed currency. His employer has our sympathy.

—Some of the people at the Sault have on hand considerable amounts of the late "iron money," and it is said to witness the weak and enervated manner with which they apply to a Marquette man for information regarding the "Collins" and "Michigan" company's scrip.

—An elderly overgrown female, with a superabundance of flesh, and very dirty hands, has established herself in the city as a professional fortune teller. There ought to be some local or general law under the provisions of which she could be given about ninety days at the wash.

—The legislative excursionists, accompanied by the state officers and half a hundred editors, will be here on the 18th. To be forewarned is to be forearmed. It is just as well to have your shot guns well primed, and at the same time be careful not to leave any valuables lying around loose, or within their reach.

—Travelers who pass the station of Michigan might not consider the place as being of any considerable importance; but from the car window we have witnessed an amount of kissing going on (when the train arrives), until it almost seemed as if our sorrows were greater than we could bear.

—When Russell, of the *Fund du Lac Journal*, awakens in the morning, he is obliged to look at his boots for over five minutes, to make perfectly sure they are not a pair of black cats, and even then he picks them up carefully and empties them out of the window, to get rid of anything which may have crawled in during the night.

—Don Henderson will probably be here with the legislative excursionists—that is if he succeeds in passing all the saloons on the route. The announcement of his coming may be accepted as positive proof that he has succeeded in wresting from the grasp of an aversive washer-woman the nether garment which has so long been in dispute—or that, having been persuaded to take a bath, he has accidentally found the one he lost several years ago.

—A Front street man was engaged in dragging some large cakes of ice across the sidewalk, when the tongs slipped and he fell against a young lady with a pull-back dress. She sat down on a couple of dogs who were negotiating peace through war, and a fat man lost his balance and toppled over upon the whole mass. This was last week, but even yet vagrant boys are hunting about the spot for bits of miscellaneous debris and occasionally meeting with success.

—The *Chicago Times* tells of a young man who came across a gray hair in some very yellow butter at one of the numerous hash fondlises, with which Chicago is infested. The landlady remarked that she thought she had picked 'em all out. He remarked, "that'll be all right; it's fashionable now to have silver threads among the hair." We imagine he would have made a similar remark had he seen that gray headed old sinner "smoking love" to that red-headed girl, at the last Sunday-school picnic to Grand Island. What was really said on the latter occasion can be furnished by the captain of the boat.

—It was the first time he had ever been married—there must be a first time to everything—and he was under the impression that it was necessary to obtain a marriage license. The clerk could have told him different, but instead, he simply removed from a large bible at hand the family register, which contained room for the names of the husband and wife and fourteen children. This he forwarded to the expectant groom as a license, with the request that he would be as expeditious as possible in filling it out. For over an hour the poor fellow wrestled with the document, and when the clerk informed him that \$16,000 bonds would be required for the faithful filling up of the blank spaces, the now desperate and maddened candidate for matrimony actually meditated death by his own hand and a suicidal grave.

—The sole object and aim in life with the Wilcox boys was to own a blooded dog—a fighting dog—a dog whose earthly existence should be as completely wrapped up and saturated with blood as that of a savage. They had been amassing a sum of cash for years, and their wish was at last realized. There were no less than seventeen dogs in the community, against whom the Wilcox boys entertained a foul and desperate purpose. Every one of these seventeen dogs had whipped "Tige," the kind and gentle old mongrel who had been their companion and playmate for years, and now that the long hoped for bull-terrier had arrived from the Chicago dog-fancier, they used to get around behind the kennel and fairly hug each other in anticipation of the fun ahead. They wanted to name him "Death," "Frustric Acid," or something of that kind, but their father suggested a mild and deceitful course, and they called him "Mose." He was a savage looking brute, for a fact, and the boys used to sit for hours feeling him bits of raw meat and admiring the bloodfulness of his eyes and the almost deadly glistening of his fangs. At last they took him out for a stroll and exercise, and right in the middle of the road they met Dakin's boys with Cesar, the terror of the whole settlement. The Dakins commenced to yell and hurrah and "sick-em!" It was entirely unnecessary—the new dog of the Wilcox boys simply turned half round in the road, and seemed to be intently regarding the clouds. He appeared to be waiting for something. He couldn't exactly make out the prognostics of the weather, and seemed to be contemplating the approach of a shower. All at once he became aware of the existence of old Cesar, who was walking about with his eye turned venomously sideways upon the bull-terrier, and uttering a low, threatening growl. "Better take care of that 'ere cur," said Tom Dakin; "old Cesar don't fancy new dogs much, and he'll churn him but butter if he gets a hold on him." Dan Wilcox put his hands in his pockets, sauntered about carelessly and remarked, "O, I guess he's all right. I don't believe Mose'll fight—never knew him to fight—he's a quiet, peaceable cur, and just as like as not they'll make friends." "Not much; old Cesar never makes friends with a new dog without a fight, and—there they go!"—by jingo! Shall I pull Cesar off?" "No," said Dan, "Mose has never bit, and he might as well learn something now, if he's ever a-going to." "You mustn't blame me," said Tom, "remember I warned you," and a deprecating smile which couldn't half conceal his enjoyment of the fight,

beamed thinly through his apology. It did beat all how that he held his own with old Cesar. The Wilcox boys leaped against the fence and smiled faintly at the manner in which Mose would fasten upon an ear or a leg, and once when he actually clutched Cesar by the throat and floundered him over the ground, they laughed. Inwardly they were in perfect spasms. The Dakin boys crowded around their dog and looked sad. He was getting mangled—there was blood all over his head and throat, and his eyes had a green and desperate look. They encouraged him to a gigantic effort, but that infernal cur snapped him by the leg and broke the bones square off. With a howl of pain he turned upon three legs, and ignominiously fled the field! It did beat thunder. Then the Wilcox boys threw themselves on the ground and screamed, and tore out handfuls of grass, and rolled over and kicked each other. They were actually suffocating, and when reason had partially returned and they were able to lean up against the fence, weak and exhausted Tom Dakin and his brother were out of sight. Then they went through the community and paid off old scores, until the owners of other dogs began to shoot at Mose, and lay for the Wilcox boys with clubs and brick bats, and their lives became a burden, and they engaged their uncle Benjamin here in town to take the dog off their hands. The uncle hadn't been informed that Mose was a fighting dog, and the very first day he sallied out with the bloodthirsty cur at his heels, a general skirmish began all along the line. No less than fifteen fights occurred, Mose always coming out ahead, and along towards evening a general riot sprang up, in which every owner of a dog took part, and after being kicked and mauled about for half an hour Uncle Ben was dragged off to the lock-up, and Mose was soon after shot in the head with a meat axe, for "killing" four pounds of steak from the counter of a butcher shop and neglecting to render a satisfactory equivalent, which he could easily have done.

—On one of the down trips of a Union line steamer recently there were very few passengers—only one lady and about half a dozen gentlemen. One of the latter who rejoiced in the somewhat extensively patronized name of Smith, and whose father is noted as much for his wealth and prominence as the son is for his insufferable vanity and lack of perception, found the time hanging on his hands like the weight of a millstone, and repeatedly appealed to the captain, steward and clerk for the means whereby to while the hours away. Young Smith detested reading, and it somehow happened that an enjoyable game of cards could not be improvised. His importunities at last became a bore, and the captain and clerk cast about them for some means of amusing the young man. The lady retired to her cabin, and the captain, who she wasn't that kind of a girl—and the clerk suggested that they put up a job on the supercilious scion of the noble house of Smith by a conspiracy, to the end that he might be entertained. The plan was accordingly arranged, and the lady being informed of the part she was expected to play, readily consented. "My dear Smith," said the clerk, "how would you like an introduction to my ward, Miss Butler, a niece of Gen. Benjamin F. Butler, the hero of New Orleans, and late member of congress from Massachusetts?" Smith was touched—he could see gratitude beaming from every eye, he had two eyes! He said, "O, if you only would!" "Certainly, certainly—come along, Miss Butler, Mr. Smith—Smith, Butler." And he left them. You should have seen the agony young Smith put on around that lady. He could no more have seen through her character than he could have seen through the great wall of China. He simpered, smiled, and anticipated her slightest wish, prostrated the deck, and pointed out the various objects of interest along the coast; and the young lady was so appreciative, and seemed to be impressed and doted by his manners and conversation! Had her character been suddenly revealed to him then and there, he would have moiled in his tracks. The captain, clerk and steward would occasionally cast a glance in their direction—a glance as all they were able to cast at one time—and then rush into the saloon and hit each other on the back and swallow their handkerchiefs, and then gradually quiet down and—take a drink. At the table Smith did the honors with a grace and tact that was beautiful in its chevalier-like devotion, feeling that the eye of every man around the board was fixed upon him in the balustrade of hate and green with the malice of envy. "Did Miss Butler approve of champagne?" "Certainly." "Water, two bottles of green seal, with ice and silver." And so that animated squash kept the ball rolling all the way down the lakes until the steamer reached Detroit. In parting from his fair companion, Smith begged the happiness of calling upon her and continuing the acquaintance at her own home, and with a half reluctant sigh, her trembling little hand withdrew from his, leaving therein a card containing her address—41 John R street! After supper, having arranged his toilet in the most exquisite taste, he sallied out. Following him at a distance were the three officers of the boat, weak and exhausted by repeated fits of hysteria, supporting each other as best they could, and who were the manifestation of our national motto, "United we stand, divided we fall." They watched him enter, and leaped up against the fence to await developments. It was just as they expected. In about two minutes the door opened and a woman appeared—she was carrying Smith out on a chip!

### [To the Editor.]

**YE COUNTRY COUSIN FROM ISHPERING VISITETH YE CITY OF MARQUETTE.**—Given, a pair of spanking bays, a breezy morning, clear sunshine, urbane driver, three passengers, and hurrah for Marquette! Splendid road all the way, so we were informed. The only drawback was the promise advice of friends—one thought the old road best, whilst another attested to the desirability of the new. We tried the new to our sorrow. Smoke in the distance, growing in intensity and volume, made us fear danger ahead; but not dreaming of real danger, we found ourselves suddenly enveloped in a black cloud of smoke, while the heat from the fires on each side of the road became unbearable. A crack of the whip, a wild plunge through smoke so dense that for a minute we could not see even the horses—a flash of heat, and we were safe. This trifling episode only added zest to our enjoyment, and like Don Quixote our courage arose with the occasion, and we felt that we could conquer any number of windmills. As we neared Marquette the scenery became more picturesque and romantic, for although we have "traversed the mountains of the old granite state, where the hills are so lofty, magnificent and great;" have bowled merrily along the banks of the lovely Wissassickon; have glided dreamily down the beautiful Hudson, and lingered amid the luxuriant foliage under a tropical sun, yet it was reserved for us to find between Ishpeming and Marquette nature in her divinest mood. Some magic wand must have touched the grand old rocks; some subtle agency must have been at work, even under the snow, to cause such a profuse variety of lovely foliage to spring forth. The rocky cliffs were almost concealed by moss and vines and tall trees. Then, on, and the forests hemmed us in, and silence rested over all. Could it be possible that away off in

the noisy world there were famishing souls, hungry to see and know more of God's universe, starving, dying, misunderstood by the hurrying crowd, whilst here is rest, peace! The sun twinkled down through the leaves, and the patches of blue sky came and went through the branches of high trees. Forgotten now the outside world, with its wrangling and discordant notes; forgotten false friends and weary heart aches; forgotten—bump! "Corduroy road," shouts the driver; "straighten up!" Jolt! bump! bump! "Gracious me!" sighs a bundle of nerves—unfortunately one of us. "How would you like to be a soldier and ride over just such roads for miles, suffering from wounds, and a southern sun burning down upon you?" questions the jolly individual next to us, who is disposed to make the best of it. We submitted serenely after this to any amount of promiscuous mixing up of our little crowd. But the blue waters of Lake Superior dazzles our eyes. You who daily look out upon its gleaming; who have watched every day the "state-ships sail in," and perhaps "louged for the touch of a vanished hand;" have listened to the harbor's bass moaning, will, perhaps, mildly wonder that strangers, viewing it for the first time should be so enraptured—should look in wonder at the beautiful city, with its numerous church spires and handsome residences, denoting culture and refinement—should marvel at the clean streets and well kept door-yards—should be bewildered by the sight of elegantly dressed ladies, promenading the well-paved walks. Not that we expected to encounter wild Indians in woodland attire, but we certainly did not expect such strong evidences of wealth and prosperity so far north.

A beautiful repast refreshed the inner man, and we were directed to start out on Washington street and we would be all right for Ishpeming. We followed directions, but somehow the road had a curious way of turning around. The nervous passenger suggested that perhaps we were not on the right road. "Right road? no doubt of it; horses go by instinct—Morgan breed. Note their small, well-formed heads, intelligent eyes, graceful curve of the neck—will take us straight through without a hint from the reins." By the way, we should think people living on cross-roads would print, in largest characters, on the gate post, where each road led to and the distance to be traveled, rather than be routed out at all hours to answer the same question; for though it may all be familiar enough to the "old inhabitant," a stranger gets bewildered. We were not so much bewildered as we were exasperated, when, after a five mile ride, we found ourselves approaching once more the beautiful city of Marquette. We will always have our own private opinion of Morgan horses, after this.

Once more we faced for home. "Pass through the stone quarry, then the cemetery, and you can't miss it." We did manage to get through the stone quarry, but suddenly the horses paused (pure instinct, you know) on the brink of a deep, dark dam—a delightful place, no doubt, for Shakespearean youths to dabble their feet in on a warm summer day, and dream idle dreams—but horrible to contemplate with two fractious horses, and a high-strung female screaming, "We will all be drowned! let me out! I will get out!" She got out. In due time the cemetery was passed, and we could not lose the way if we tried.

Incidentally we would mention that we took pity on a poor printer and gave him a ride. He proved very useful in running ahead of the horses, to see just the quantity and quality of fire and smoke necessary to pass through. Once he was gone so long that we feared he had succumbed to the smoke, and we could not help thinking what a blessed thing it would be for the *Home* to have a first-class item to enlarge upon with its usual brilliancy.

The last half of the ride was very delightful, as a lady held the ribbons, and although real dangers, such as railroad crossings and pitch-holes, were driven recklessly over, she evinced a woman's perversity in being alarmed at trifles. "Night puts on her sable jacket buttoned up with stars," and the horses, whose instinct probably assures them that they are out "on tick," are anxious to be stabled; so, with an apology for prolixity, we subside.

### THE EXCURSION.

—On Monday last the steamship *Sparta* was tendered by Capt. McKay and Mr. J. C. Morse to the Sunday school and parishioners of St. Paul's Episcopal church, of this city, and their friends. Though the notice was very brief, about three hundred and seventy-five adults and children embarked on her for a ride upon the lake. The day was all that could have been desired and Pictured Rocks were seen to their best advantage, the boat running as close to them as safety would warrant.

Of the natural beauty of the passage by Grand Island, Munising, Ontonagon, etc., no words can give any correct idea, and the entire voyage of over one hundred miles was simply magnificent. The boat stopped for one hour at Munising, and almost all the passengers were glad to avail themselves of the opportunity of visiting the location. A band of music, furnished by some gentlemen of the congregation, enlivened the day and contributed to the enjoyment of both old and young. Though there was but little chance to extend the invitation to any great extent beyond the congregation of St. Paul's parish, yet quite a number of the adults and children of other religious bodies, as also many tourists from the hotels of the city, participated in the pleasures of the day. The whole affair was pronounced enjoyable by all who attended, and no accident, rough weather, or other event occurred to mar the festivities.

As the party neared the landing, on their return, the following resolutions were submitted by Rev. B. F. Fleetwood and unanimously adopted:

WHEREAS, Captain McKay and Mr. J. C. Morse kindly tendered the use of this steamer, free of any expense to the Sunday school and parish of St. Paul's church, Marquette, therefore be it

Resolved, That we return them our sincerest thanks for this contributing to our comfort and enjoyment; also, that we acknowledge our thankfulness to our Heavenly Father for His guidance and protection, and for bringing us back in safety to our haven where we would be.

**OUR HOTELS.**—Looking at the hotels of this city in the aggregate, and even without comparing them to those of other places of equal pretensions, they are indeed something in which the city at large may justly feel a degree of pride and satisfaction. In fact, several years may yet go by and the same extraordinary growth attend the city in the future as in the past, without their falling into insignificance or the demands of travel call for more ostentation. They were, it would seem, at the time of their construction, built in anticipation of future requirements as well as of present need, and although the annual business has been of the most encouraging nature—sufficient at all times to return a satisfactory recompense on the investments made—yet, so commodious are all the arrangements that a considerable and unlooked for increase in the way of travel must be forthcoming ere additional accommodations will be wanting.

Cozzens' Hotel, formerly the "Lake View," is perhaps first in order, on account of its permanency—being not only first-class in all respects, and of metropolitan appointments, but being continued in all departments, without lessening or abatement of its attractions, during the winter as well as summer. Occupying a central location, it is naturally made the headquarters of all those business men who, from any cause whatever, find boarding preferable to maintaining establishments of their own, and also securing a large share, if not indeed a preponderance, of the transient business travel from the railroads and steamers. The Cozzens House is of brick, five stories in height, with basement, contains eighty rooms, and includes coarsely, two cottages. Altogether, it has a capacity for the entertainment of from 125 to 150 guests, and is decidedly the most comfortable stopping place in the city during the winter months, and equally so as elsewhere during the summer. A fine observatory, commanding an extensive view of the lake and country for miles in all directions, surmounts the roof, and from this fact and its commanding situation it obtained its former title of the "Lake View House." The furnishing throughout is elaborate and rich, and the table d'hote, for which bills of fare are daily printed at this office, is notably extensive and contains all the seasonal delicacies served in the most inviting styles by the best of cuisine artists. Mr. Cozzens reports the season's business as of unusual briskness, and little inferior to that of last year.

The Northwestern Hotel, Farnham Lyon, proprietor, situated near the beach, just far enough from the central portion of the city to be retired and free from the noise and confusion of railroads and the bustle of business, is one of the most delightful summer retreats in the whole lake region, and has long been a popular resort for tourists and those coming to the city for the purposes of pleasure, recreation and health. The main portion of the hotel is of large and roomy dimensions, three stories in height, and contains, besides elegantly furnished parlors and commodious dining hall, forty suites of comfortable and well furnished sleeping apartments, office and reading room. An extensive adjunct of the hotel, two stories in height, is occupied, on the first floor, as a billiard parlor and sample room, and on the second as sleeping apartments for guests. In the rear are large adjoining, devoted to laundry, kitchen, etc., and occupied by the numerous servants of the house. In connection with the hotel proper, and separated by only a few feet, are three cottages designed for the use of families or those guests who are accompanied by children. Cottages A and B contain six rooms each respectively, and C seven. The capacity of the hotel for the accommodation of guests is, therefore, between 125 and 150. The cuisine of the Northwestern is excellent, and a number of our city residents, during the summer months, while the hotel is open for the reception of guests, embrace the opportunity of patronizing the table in preference to maintaining a kitchen andarder of their own. The arrangement of the system, with gas, water, and the usual concomitants of a first-class metropolitan hotel, are in every way excellent. The pleasant and attractive position of the Northwestern recommends it instantly to all those who come hither for a more or less extended sojourn. Situated in a grove of magnificent trees, and surrounded by pleasant and extensive grounds, wherein are arranged fountains, swings, rustic seats and arbors, croquet lawns, etc., and looking out from the gravelly beach far over the lake to shores dimly seen in the distance, no more sequestered and romantic spot could have been chosen for its site, or one more to be prized by all who can truly appreciate nature in all her loveliness.

The Tremont House, situated on Superior street, F. P. Naehr, proprietor, is next in order in the way of prominence, and claims the attention of all those who seek an economical, and at the same time, comfortable hotel. It is three stories in height, aside from a half basement containing billiard parlor and sample room, and is furnished throughout in a tasty and attractive manner. Everything about the premises is tidy, neat, clean and orderly, and denotes the presence of thorough management and an appreciation of the wants of the traveling public.

The Summit House, formerly the headquarters of a large class interested in the iron business, explorers, etc., has been closed for lack of patronage, and its trade naturally seeks its better prototype, the Tremont.

The National Hotel, on Spring street, P. J. Carey proprietor, is of considerable proportions, and for cheapness and excellence of fare commends itself to those who desire an orderly, well kept hostelry, with good, substantial meals and comfortable rooms and beds, with moderate charges.

There are other houses throughout the city for the accommodation of transient guests and regular boarders, which are of more or less excellence, but which cannot be here enumerated. Taken on the whole, Marquette is abundantly supplied with places of public entertainment, of grade and prices to suit each particular class, and a capacity not likely to be overtaxed until some new impetus shall turn upon us as a new and augmented influx of travel and population.

ADDITIONAL local on eighth page.

ERIN.

I stood beside Killarney's lakes,
When autumn tints were in the air,
And emerald awnings shimmered on the lakes...

Of Moore and his warm patriot strain,
"The flag that once thro' Tara's Halls,"
The minstrel boy, who e'er again...

I thought of Erin's classic word,
That braved a furious frowning court;
Of tones that all the nation heard...

I thought of many a merry day,
Of laugh and jest and humorous wit,
Of Irish jigs and reels, and play...

Of jaunty car and kettle red,
Of sparkling eyes for mischief made;
Of Boyne, where Celtic blood was shed...

And as I gazed on Erin green
The waters of the lake were stirred,
A sunset shed a dazzling sheen...

Farewell, sweet land, to sorrow born,
A soul-felt tear is freely thine;
A soul-felt tear is freely thine...

A hard, close man was Solomon Ray—
Nothing of value he gave away;
He hoarded and saved...

The hard-earned dollars he toiled to gain
Brought him little but toil and pain;
For little he spent...

Such was the life of Solomon Ray—
Ten years went by and his hair grew gray;
His cheeks grew thin...

But he died one day, as all men must,
For life is fleeting and man but dust;
The heirs were gay...

And that was the end of Solomon Ray.
They quarreled now who had little cared
For Solomon Ray while his life was spared...

Yet men will cheat, and pinch and save,
Not carry their treasures beyond the grave;
All their gold some day...

Like the selfish savings of Solomon Ray.
LITTLE Billy was very cross and tired
The other night, and he wanted his father...

How THE HINDOOS REGARD WOMEN.—The famous
passage of the Padma Parana, translated by
Abbe Dubois, has been part of the domestic code...

THE COLONEL'S HAT.—Col. Bangs is very bald,
and in order to induce his hair to grow again he is

Give us a cool thousand or two this warm weather.

J. MAHONEY, editor of the JOURNAL, is at the Commercial in Chicago. When did A. P. sell out?

The school house is being repaired and thoroughly cleaned preparatory for the winter session of school.

NO LOSELYOUNG is building a new store on Pearl street, just in the rear of Girzikowsky's jewelry store.

M. MORRISON, a miner at Iron Mountain, had an eye put out while sledging ore last week. He now lies in the hospital.

LAST week candles sold as high as twenty-five cents each, owing to the large demand and limited supply of a peculiar kind.

THERE is a great probability of finding coal oil with the rest of our valuables. A company ought to be organized to bore for it.

THE foundation for the Baptist parsonage is up, and the building will be, when completed, a neat addition to that part of the city.

TO GET a "card" of some folks is about as hard as trying to pass off a Sunday school medal at a jeweler's for a ten-dollar gold piece.

DEBQUE, Iowa, claims to have, near by, a mineral cave where is exposed 3,000,000 tons of ore. Let's move our town down there.

LAST Sunday over eleven hundred persons signed the temperance pledge at the Catholic church—one of the results of the late mission meeting.

DRESSES so scanty that one can neither walk nor sit down in them, and so long that it is impossible to raise them in walking, are the style for this week, and a striking one it is.

THE Cleveland Iron company is building a track to the Marquette mine, where they have stocked 5,000 tons of Lake Sally ore, which is sold to eastern parties, to be shipped immediately.

ANNANIAS and Sapphira, biblical characters, were suddenly bottled up, all for one peculiar peculiarity of theirs. You need not tremble, however, for the day of judgment is not yet.

THE Marquette, Houghton & Ontonagon railroad has just completed a new watering place for the engines. Steam horses require provisions as well as any other man or beast.

THE girls now use the strength they used to use on their corsets to pin their skirts back, and the first thing we know the doctors will be out with pamphlets condemning the practice.

FIRES are increasing near Deer Lake. They are said to be miles in extent and doing great damage. The conductors on the Chicago & Northwestern Railway report fires all along the route to Escanaba.

THE Canadian money-order blanks are received and now on sale at the postoffice. The government is thinking of making postal savings banks out of our postoffices. This will be a good thing, and as safe as the United States itself.

NEGAUNEE girls who have been for some time planning back their skirts so tight, now extend the fashion to their ears. A great shadow was immediately removed from off the city, and, in consequence, the sun once more shines on the streets.

A FRENCHMAN was picked up on the street Monday night by the "watch" in an insensible condition, from an overdose of that stuff for the sale of which licenses are issued by the city. He had fifty dollars and a gold watch on his person, all of which were saved.

A PARTY of excursionists on special train arrived in the city Monday. Several of the ladies rode in town on the cow-catcher of the engine. The entire party dined at the Barnum, strolled around town in a sort of free and easy negligee, visited the New York mine, scrambled over the rocks, picked up specimens, and vanished as they came, by the C. & N. W. R. R.

CROQUET players think each other "scratch," "push," and "cheat." The games are ridiculously interesting at times. A small boy might make wages by hiring himself out to some of the fair ones to swear for them when they make a miss-shot. The weather is uncomfortably warm and many poor shots are indulged in, huge thoughts are thought, and some capital talking done.

MRS. HARRINGTON, of the Cleveland mine, fell from the sidewalk opposite the Presbyterian church, on her way home Saturday night from the cathedral, and broke her arm near the wrist. The walk at this point has been raised to the new grade, several feet above the old level, and abruptly stops, the end being boarded up to prevent pedestrians from falling. Mrs. Harrington is quite an aged lady.

LARGE fires have been raging in the woods north and east of the city during the past week, and are still burning. Great damage is being done to standing timber. It is remarkable the dry weather we are now having; the iron mines have never been bothered so little with water as this summer. The copper stamp mills at Houghton and vicinity are obliged to shut down for want of it. Berries of all kinds are only half developed, and our agricultural resources are nipped in the bud—"gone to grass."

CHICAGO has a marquis for boot-black—some Frenchman.

THE Catholic mission has gone from here to Negaunee where they hold a short session.

AUGUST has two moons, making the month a good one for lovers and luna-tical people.

It's a query which is the most important—a game of croquet or a pet dog with a broken leg.

SUBSCRIPTIONS for the MINING JOURNAL are only three dollars per year—IN ADVANCE—that's the main point.

CAPT. JOHNSON, while driving down the street, accidentally ran over a child, but doing no harm save frightening both.

GENOA, the birth place of Christopher Columbus, is going to send a delegation with relics to the centennial, which is highly proper.

The old post office and drug store are being raised to the proper grade. They had to rise in the world as well as the balance of the street.

The dance at Austin's hall, under the new social club, began and ended O. K. on Tuesday evening. Full house, good music and handsome girls.

The pin-back feature of the ladies' dresses is most curious. Looks as if the hoops, bustles and extra skirts had busted, leaving the collapsed remnants—behind.

SECTION 19, belonging to the Superior mine and worked under Capt. Tracy, has commenced to raise ore with steam power, the engine starting last Wednesday.

DELINQUENTS who are fifty cents behind at the post office find it difficult to open the lock boxes. William knows what's the matter, and one quarter rent remedies the difficulty.

JOHN STEVENS and Miss Mary Augwin, of the New York mine, were married by Mr. Johnson, in Negaunee, on Saturday last. In the evening a grand old chivari was indulged in by the boys, which brought out the bride and groom with two kegs of beer. A good time was had and the crowd quickly dispersed to their homes.

At the game of base ball between the Humboldts and Ishpeblings our boys had an easy victory, although at the beginning their opponents were seven ahead. The accident probably somewhat unnerved the Humboldt club, the score at the end being 14 to 25.

THE new five cent postage stamps have arrived at the postoffice. They are good for postage to the following countries: Germany, Austria, Belgium, Denmark, Egypt, Spain, Great Britain, Italy, Norway, Sweden, Turkey, Switzerland and Hungary.

The color is a dark blue, and the design a full face form of Gen. Zachary Taylor. The department has discontinued the publication of seven, twelve and twenty-four cent stamps, and the two cent stamp will hereafter appear in vermillion instead of brown.

There is no mining news, no sale for ore. Pig iron dull. Humboldt reports the closing of the Washington mine. Here's richness for those who have been working there. Labor is monotonously plenty and cheap, muscle nothing to compare with capital; brains, sentiment and feelings nowhere equal to pork, beet and flour. Hope and expectations nearly sick, with plenty of grasshoppers, potato bugs, debts, and traveling agents soliciting orders, thick and disagreeable. The accumulations of the past good times are wearing away slowly, and six months of winter approaching. These are probabilities, unless the weather changes very quick.

The postoffice department are issuing stamped envelopes with the new five cent stamp in profile and in different sizes, which will be a great convenience to our foreign population. A new business envelope is lately issued, being 3/4x5 1/2 inches, and designated as Commercial, No. 45. Business men should try them. The color of stamped envelopes is changed from amber to blue, rendering them less transparent. The new postal cards are to be issued August 1st. The money order system, which now extends its business to Canada, is going to be an important part of the service. It has its own bureau, chief clerks, and there is scarcely a country in the world that it cannot reach through existing treaties with the old world. The business in this city is quite large, and is steadily growing.

GEO. SAMPSON, an old resident, and for eight years a contractor at the Cleveland Iron mine in this city, was killed by an accidental explosion on Monday afternoon last. Mr. Sampson was charging a hole with glycerine at the bottom of No. 5 incline, when the charge not going down as easily as usual he picked up the "swab-stick" to force it home, when an explosion occurred, and he was instantly killed by a piece of rock which struck him under the right nostril and passing upward pierced the brain. There were no other marks found on his person. The force of the explosion was so great that it threw the body fifteen or twenty feet against the wall of the pit. R. J. Williams, standing near by, was severely hurt in the face and cut by the flying rocks. No other damage was done. Mr. Sampson leaves no relatives in this county. He was buried on Tuesday last from the Methodist church.

OUR FIRE DEPARTMENT.—The paraphernalia and apparatus of this city for the extinguishment of fire is the most complete of any in the Upper Peninsula. The Holly water works system which runs through Pine, Main, Division and Pearl streets, in a four-inch pipe, with hydrants at every corner. The No. 3 Sibley steam fire engine, capable of throwing three streams; the Superior foundry pump, of two stream power; the 2,900 feet of four-ply double capped hose, three hose carts, hook and ladder wagon with over 400 feet of extension ladders, and ten fire hooks; the twenty-five men in good training and well officered, all go to prove the truth of the above assertion, and actual service in two fires, where the flames were not allowed to spread further than the building in which they originated, demonstrates beyond a doubt the capability of the department. The engine house and hook and ladder shed are situated corner Main and Division streets. The engineer, Mr. Oudekirk, has rooms there, and the engine is kept in continual readiness for use. In five minutes from the first alarm she will always be found ready to do her duty. The officers are, J. P. Outhwaite, chief engineer; A. A. Anderson, 1st assistant; H. H. Meldon, 2nd assistant; W. F. Swift, foreman; P. H. Devine, 1st assistant; E. Morley, 2nd assistant; Jas. Toner, foreman hose company, and

Peter Devine, foreman hook and ladder company. Peter Oudekirk is engineer and J. Orthey fireman. The company go out for practice once every month. They are uniformed, and have a working suit for business and one for dress occasions. Opposite the Engine House, and over Kirkwood's, the department have rented a suit of rooms—reading room and parlor—where the members of the company meet and have a social time. The cost of the engine and hose is about \$7,125, and is of late make, combining all the improvements, utility and beauty of the Sibley Manufacturing company's artists. We are indebted to the city council for all this efficiency, and if the taxes are a little high, take heart, and remember you might be burned up if it were otherwise.

PERSONAL.—C. MERRYWEATHER and wife were riding out the other day, when the horse took a backing fit and bucked off a precipice, breaking the carriage, but not injuring the occupants.

JUDGE HUBBARD, of Iowa, with a large party of tourists, are visiting this great iron center.

CHAS. MITCHELL, son of Capt. J. P. Mitchell, of Negaunee, dislocated his right elbow and severely strained the tendons from thence to the shoulder, while playing ball in this city on Saturday last.

J. O. ST. CLAIR and wife were riding home from the ball grounds on Saturday last, when the horse took fright from a passing train and became unmanageable. The driver leaving his seat (as also did Mr. and Mrs. St. Clair, in order to save themselves,) gave the team a chance to run things their own way, which they did most effectually, completely demolishing the carriage, a very fine one, and the property of Mr. Longsdorf.

PROF. DISTERNEL is again around for items for his map. He is going to make Ishpebling his grand center and the Barnum the center of Ishpebling.

A MARINE editor at Cincinnati dares to say that there is not a steamboat man on the Western rivers who would not die rather than tell the truth.

IRON MANUFACTURE.—The history of the growth of the iron manufacture in the United States within the last fifty years exhibits a remarkable progress. From a production of 54,000 tons in 1810, it had become 165,000 tons in 1820, 347,000 tons in 1840, and 600,000 tons in 1850, as near as can be estimated. In 1860 it had reached 919,570; in 1870, 1,865,000; and in 1872, 2,889,070 tons; while the reduced production of 1873, 2,666,434 tons, shows already the effect of the depression under which the iron interests of the country still suffer. Of the production of 1873, very nearly one-half was made in Pennsylvania, and not less than 1,249,970 with anthracite, while the total amount of charcoal made pig iron was only 324,157 tons, to which are to be added 50,000 tons of malleable iron made by the direct process in bloomeries. The importation of foreign iron and steel for 1872 was 795,655 tons; for 1873, 371,164 tons; and for 1874, less than 200,000 tons. From the figures for 1872 and 1873, we may conclude that the consumption in the United States was then equal to about 5,000,000 tons of iron yearly.—Harper's Magazine for June.

In 1860 it had reached 919,570; in 1870, 1,865,000; and in 1872, 2,889,070 tons; while the reduced production of 1873, 2,666,434 tons, shows already the effect of the depression under which the iron interests of the country still suffer. Of the production of 1873, very nearly one-half was made in Pennsylvania, and not less than 1,249,970 with anthracite, while the total amount of charcoal made pig iron was only 324,157 tons, to which are to be added 50,000 tons of malleable iron made by the direct process in bloomeries. The importation of foreign iron and steel for 1872 was 795,655 tons; for 1873, 371,164 tons; and for 1874, less than 200,000 tons. From the figures for 1872 and 1873, we may conclude that the consumption in the United States was then equal to about 5,000,000 tons of iron yearly.—Harper's Magazine for June.

IRON MANUFACTURE.—The history of the growth of the iron manufacture in the United States within the last fifty years exhibits a remarkable progress. From a production of 54,000 tons in 1810, it had become 165,000 tons in 1820, 347,000 tons in 1840, and 600,000 tons in 1850, as near as can be estimated. In 1860 it had reached 919,570; in 1870, 1,865,000; and in 1872, 2,889,070 tons; while the reduced production of 1873, 2,666,434 tons, shows already the effect of the depression under which the iron interests of the country still suffer. IRON MANUFACTURE.—The history of the growth of the iron manufacture in the United States within the last fifty years exhibits a remarkable progress. From a production of 54,000 tons in 1810,

MINING JOURNAL.

MARQUETTE, MICHIGAN, AUGUST 7, 1875.

THIS mark in red on a subscriber's paper will indicate that the time for which the paper was ordered and paid for has expired.

No. 2 STACK of the Pioneer furnace is undergoing repairs, and will receive a new hearth before again being blown in.

THE total shipments from the New York mine from lake ports, up to and including August 4th, were 31,875 gross tons.

THE total lake shipments of the Barnum, up to and including August 4th, were 20,737 tons, notwithstanding the Home says they were 25,000 on the 28th of July.

THE Morgan furnace, which went out for repairs a few weeks ago, was lighted again on Wednesday. She has a new hearth, and will probably make her first cast to-day.

WORK at the Winthrop has been resumed with a force of about thirty miners. All the ore that can be mined the present season has been sold, and shipments will be made principally via Escanaba.

THE Cleveland leads the van in shipments this year. Her total exports from the two ports of Marquette and Escanaba, up to and including the 4th, were 64,245 gross tons.

STOPPED WORK.—Operations at the Washington mine were suspended on Saturday last, and all the men discharged. It is not probable that work will be resumed until there is a revival of trade sufficient to warrant an increased production of ore.

THE rolling mill furnace made 1,129 tons of Bessemer iron in the month of July, and is now making an average daily yield of forty tons. We regret to say that Mr. Thomas Jewell has resigned his position as local superintendent.

BAY FURNACE.—No. 2 stack of the Bay furnace is doing remarkable work. She made in the month of July 1,018 gross tons, though obliged to stop seventeen hours for repairs to machinery. Last week she made 2,461 tons of which 2,351 tons was No. 1, and the balance No. 2, with a consumption of a little less than 101 bushels of coal to the ton.

STILL another silver company has been organized in this county, called the Pittsburgh Silver company, of which the following named gentlemen have been chosen as directors.

BACON, stand up! We have a few leisure moments and a small amount of space which we can devote to your benefit. We want to talk to you. We're not going to get into a passion, because it's not our style.

thought Mr. G. had an amiable disposition—that he was a kind-hearted, generous man, whose only aim was to get rid of his money as easily as possible—and now we know it. Not to know it, would imply a doubt of your own veracity, in which we are loth to believe there is the slightest impediment.

incapable, as your career before coming here abundantly shows, of even running a saw-mill—except it be to "run it into the ground."

But Bacon, my boy, you did a foolish thing when you rushed into print, for the purpose of forcing yourself and your mine into notoriety. You made a mistake, when the editor of the MINING JOURNAL in the discharge of his duty as a journalist, had spoken of your mine as he found it, you wrote or caused to be written articles first for one paper and then for another, making the broad, bold assertion, that your ore was "equal to the best No. 1 first class ores of the district."

Just a word privately, Bacon. We don't mean to be personal, and not for the world would we say anything to hurt your sensitive feelings. We rather like you; you're a genius in your way; and you're an exceedingly witty fellow, with all your other good qualities of head and heart.

HON. JAY A. HUBBELL, centennial commissioner for the Upper Peninsula, has issued the following circular: Governor Bagley has designated the undersigned as a commissioner on centennial for the Upper Peninsula of Michigan under the provisions of the act passed at the last session of our state legislature.

Arizona has an appropriation of \$5,000, and Nevada \$20,000, and, among other things, they propose to erect a small quartz mill on the exhibition grounds for the reduction of ores from the great bonanzas of the Comstock. They also propose to place on exhibition a ton of silver bars.

California will be largely represented both in her gold and silver products. Also, Oregon, Idaho and Montana, with their gold and silver ores, dust and nuggets. Colorado has an appropriation of \$50,000, and Wyoming will bring her precious metals, coal and iron.

One word more, Mr. Bacon. You have indulged in some strictures on our management of the Keystone mine. Let us compare notes. We are not a miner; we have never professed to be one. Our relations with the mining interest for the past eight years have, however, been such as to give us a pretty good knowledge of iron ores; we profess to know good ore when we see it.

Just a word privately, Bacon. We don't mean to be personal, and not for the world would we say anything to hurt your sensitive feelings. We rather like you; you're a genius in your way; and you're an exceedingly witty fellow, with all your other good qualities of head and heart.

HUBBELL, centennial commissioner for the Upper Peninsula, has issued the following circular: Governor Bagley has designated the undersigned as a commissioner on centennial for the Upper Peninsula of Michigan under the provisions of the act passed at the last session of our state legislature.

Arizona has an appropriation of \$5,000, and Nevada \$20,000, and, among other things, they propose to erect a small quartz mill on the exhibition grounds for the reduction of ores from the great bonanzas of the Comstock. They also propose to place on exhibition a ton of silver bars.

California will be largely represented both in her gold and silver products. Also, Oregon, Idaho and Montana, with their gold and silver ores, dust and nuggets. Colorado has an appropriation of \$50,000, and Wyoming will bring her precious metals, coal and iron.

Michigan ought not to lose this opportunity, and we of the Upper Peninsula cannot afford to do so. You are therefore respectfully invited to participate in the centennial celebration and world's fair to be held at Philadelphia in 1876.

As there is no time to lose, you will, as soon as possible, send us a list of minerals, materials, etc., and the amount of space required to exhibit them. As we will have a great variety, and the allotment of space restricted, none but specimens of scientific and industrial value should be carried forward.

REMARKABLE.—A correspondent of the American Manufacturer gives the following interesting statement regarding the Emma furnace, belonging to the Union Iron Works company, Cleveland, which will be read with interest by furnace men in this region.

SHIPMENTS. Table showing iron ore and pig iron shipments from Marquette, Cleveland, Lake Superior, etc., up to August 4, 1875.

L'ANSE.—The following shows the amount, in gross tons, of ore shipments from the port of L'Anse for this season, up to Wednesday, August 4th.

GRAND ISLAND.—The following are the shipments, in gross tons, from the Grand Island furnaces this season up to August 4, 1875.

THE DISTRICT.—The following table will show the total shipments, in gross tons, from the Lake Superior iron district for the season of 1874, up to August 4th, 1875, and those for a corresponding period last year.

ESCANABA.—The following table shows the shipments of iron ore from the port of Escanaba for the season, up to and including Wednesday, Aug. 4th, 1875.

COPPER.—The following shows the gross shipments of copper from Portage Lake since the opening of navigation.

IRON MARKET.—C. E. Bingham & Co., dealers in pig iron and iron ore, Cleveland, furnish us with the following quotations:

Table listing various iron products such as Bessemer iron, pig iron, and their prices.

Table listing various iron products such as Bessemer iron, pig iron, and their prices.

Pickands and Morse. The quiet assumption of importance on the part of Mr. Adams, in this affair, has made him the laughing stock of our people generally.

ANDREW JOHNSON, United States senator and the last of the ex-presidents, died at Carter's Station, Tenn., on Saturday last, of paralysis and heart disease combined. Up to within a few hours of his prostration and death he had been in usual good health, and the manner of his taking off was, therefore, both sudden and unexpected.

L'ANSE.

Last Tuesday we visited L'Anse\* in the new county of Baraga, and under the guidance of Messrs. Scott and Smith were shown about the place and its environs, finding much that is worthy of note and of interest to the outside public and general reader. The early history of the county of Baraga, lately a part of Houghton, is interesting in the matter of many Indian settlements, and the peculiarities which usually attach to the coming together of that race and the whites.

At a point some two miles above the village of L'Anse is situated the old trading post of the Northwest Fur company. In order to ascertain its antiquity we applied for information to an intelligent appearing Indian of some fifty years, who stated that it had been standing between forty and fifty and two hundred years—somewhere about that length of time. It is certainly of considerable age, and an old resident fixes the date of its construction as the year 1822.

cannot be disputed. In the course of time, and when the condition of trade shall warrant the construction of additional furnaces, capital will assuredly observe the availability of this point, the inducements of which are so manifold, and act upon the advantages here presented.

The slate interest, both at this point and Huron Bay, is of the most encouraging character, and in connection with which there is much to be approved and some things to be criticised as well as regretted. It certainly seems to have been an oversight that, previous to the building of the state road between L'Anse and the Huron Bay slate quarries, a tram road or railroad was not constructed in its place or in conjunction therewith.

There are, at various points on the coast of the bay, outcrops of sandstone, of fine texture and uniform color. Not until lately, however, has any attention been paid to these plainly visible deposits; but during the past week Mr. T. T. Hurley, of Marquette, has placed a force of men at work uncovering the surface of the deposit owned by him, at a point two and one-half miles from the village.

The county of Baraga, created by the last legislature from a portion of Houghton, and containing an area of twenty-four townships, although its boundaries have not yet been surveyed and established, was organized by the election of proper county officers on the first of May last, and contains within its limits a number of varied and important interests—iron, slate, sandstone, timber, plumbago, and it is believed, silver.

The village of Baraga, situated on the bay opposite L'Anse, contains some two hundred inhabitants, whose chief occupations are farming and lumbering. There are around the village a number of fine farms, which have always been notably productive and profitable to their owners.

25,000 feet per day, containing all the latest improvements in saw mill machinery, and at present is running on full time, under the management of W. I. Chase, under contract of a certain amount per thousand.

The village of L'Anse has a population of about 1,000, which is only a slight falling off from its palmy days. The loss of population is only in the way of those who were employed at this point during the construction of the railroad, and not on the part of settlers or those who had been established in any of the business interests of the town.

During the present summer George Wooliscroft & Co., have resurrected the old brick yard near the village, which had formerly been attempted by unsuccessful novices. The machinery, now on the ground, has all been imported by Mr. Wooliscroft from England, with the exception of the engine manufactured by the Iron Bay foundry Marquette, and is of the latest pattern and most modern appointments.

The harbor of L'Anse is one of the best on the lake. So completely "land-locked" is the bay that during the most tempestuous storms, no matter from what point the wind may be blowing, vessels lie at perfect ease alongside the piers without being compelled to go outside and drop their anchors.

The most extensive mercantile firm in the line of general goods is the firm of Smith & Co. Their stock, which occupies two large buildings, store and warehouse, consists of dry goods, groceries, provisions, clothing, hats, caps, boots and shoes, powder and fuse, furniture, crockery, glassware, books and stationery, cattle, horses, carts, wagons, hay and grain, pine and hardwood lumber, and in fact everything required by the general public, except hardware.

The firm of Holland & Scott, dealers in shell and heavy hardware, ship chandlery goods, and manufacturers of tin, copper and sheet iron ware, is among the more prominent and enterprising business houses of L'Anse. The business of the house is under the personal supervision of Mr. J. N. Scott, Mr. Holland, who is president of the Mineral Range railroad, and also senior member of the firm of Holland, Cardell & Co., resides at Hancock.

The Lake Linden Hotel, Brown, Butler & Blake, proprietors, is the most commodious and popular hotel of the place, and is being run in a manner which elicits the commendation of all who have been its patrons.

Peter Ruppe, dealer in general merchandise, also doing an extensive business, is one of the leading and prosperous merchants of the place. Pemblethly & Brennan, dealers in general goods, retain their extensive business with the public, and from appearances are prospering in spite of the hard times and the dull condition of affairs generally.

A. F. Iler conducts the exclusive business in drugs and medicines, and has succeeded in making his place a popular resort by the sale of the latest periodicals and newspapers, soda water, etc. He also receives subscriptions and keeps on sale the MINING JOURNAL.

John Brady, dealer in dry goods, groceries and provisions, although of less pretensions than other firms, does a fair business in his several lines, and has the confidence of the community in all his transactions.

prosperity of the place, and have, by their uniform accommodation and enterprise, contributed largely to the present status of business affairs in L'Anse. The management of the business is under the exclusive control of E. L. Mason, who is supervisor of L'Anse township and president of the county board.

A splendid new steam fire engine, with 800 feet of hose, and cart, together with a thorough organization, is ample protection for property in case of fire. An inexhaustible supply of water, from two adjacent creeks, the lake and a reservoir, is always available, and the danger to be apprehended from conflagrations is, therefore, not great.

The Lloyd House, Samuel Lloyd, proprietor, is second to none in the village in the way of entertainment, and the traveling public will find this a pleasant and agreeable hostelry. Mr. Lloyd is at present engaged in making considerable improvements both in and about his premises.

In concluding this article, too much cannot be said respecting the beautiful scenery which meets the eye at every turn in the changing scenes of the magnificent bay and diversified shores. The gorgeousness of a summer sunset on the tranquil waters of L'Anse bay, the hazy atmosphere mellowing the distant hills, the green robes mantling the shores and reflected in the mirror-like waters, all form a picture upon which the artist would dilate with rapture, but scarcely be able to reproduce on canvas.

MICHIGANISMS.

JUDITH MARSHTON, of the supreme court of this State, is visiting the friends he left in Ireland when he was a raw, ragged, barefooted boy.

THERE are seven hundred and sixty convicts in the state prison, with as many more individuals seeking admission through the courts.

ANSEL J. SMALLER, of Leslie, got tangled up in a cultivator, when his horses ran away, harrowing up the old man's body so that he died two hours afterwards.

THE DETROIT Free Press says Ida is troubled by a dark, slate-colored worm. Ida is a village in Monroe county, and the worm is doing much damage to corn and oats.

J. W. MCGIBBON, of East Sardinia, thought he could get away with five roughs, but instead of doing so the roughs got away with his right ear, leaving him disgraced for life.

A SERVANT girl at Owosso, while breaking an egg the other day, found inside the shell a live snake about four inches in length. Had she come across a full grown anaconda the thing would have been more remarkable.

Mrs. FOLEY, Mrs. JAY and Mrs. HORNBERY, of Bay City, went out for a ride on a hand car. Mrs. Hornberry & Mrs. Foley fell off and the car passed over them, killing the latter almost instantly, while the former was seriously injured.

HE couldn't have been as light as a feather is generally supposed to be, or he wouldn't have been so badly hurt as to place his life in jeopardy. We allude to Frank Feather, of Berlin Springs, who fell from a hay loft to the barn floor on the 27th ult.

Dakin, a credit agent for a wholesale house, who had been on an extensive and successful professional tour of the Lake Superior district, stopped at the South for two days on his return to have a mild and gentle blow out. He said he wanted to see himself off.

THEY had a colored lawyer down at Linden, named S. B. Thompson, and he is likely to remain there sometime, unless he is eloquent enough to convince a jury that he hasn't been guilty of embezzlement, on which charge he is now locked up in jail.

BURROWS, the roaring whangdoodle orator of Kalamazoo, has gone to California to stump the state for one of the political parties. California will confer a favor on Michigan if she presents sufficient inducements to make the blatherer a permanent resident of the golden state.

THEY have a granary proddy down at Linden where they store out eight acres of wheat with an old fashioned grain cradle in a little less than ten hours. Now mark the prediction: that fellow will be a member of the next legislature—he has developed just the stuff that lower peninsula legislators are made of.

THE DETROIT Commercial Advertiser finds space between its multiplied advertisements of "gifts to subscribers" to say that the legislative excursionists come to Marquette "and thence by steamer visit the iron, copper and silver mines." etc. Now, we'd like to know where Marquette and the iron mines are, anyhow.

TWO young men of Lapeer are great jokers. Recently one of them dressed as a bride and the other as a groom, in company with a jolly lot of their companions, proceeded to the office of a justice of the peace and were duly pronounced man and wife. In order to effect this excreting farce they were obliged to commit perjury, but perjury is a light affair when compared with a joke of such grossness.

FILDER FRONT, whose head is frosted over with the snows of seventy-two winters, fled into Holly the other day, in a search of the wife and children he abandoned twenty-two years ago. He found the wife a-lep in the church yard, his children grown up and married, and his former home the property of strangers. He won't be likely to run away again, now that the old woman is dead.

COL. MARE FLANIGAN is a cork-legged soldier who has filled the position of collector of internal revenue for the Detroit district the past eight years. But he isn't collector so much as he was, General Trowbridge, being too good sound legs under him, and being better capacitated to physically serve the government in conventions has been given the place, and the maimed soldier is turned out upon the charities of a cold, uncharitable world. Verily, republics are ungrateful.

LOWRY TAYLOR and DAN HILTON, grangers, were hoing corn last Sunday, down at Stoney Creek. Hilton couldn't "hold his row" with Taylor, and waxed wroth about it—so wroth, in fact, that he waxed Taylor in the back of the head with his agricultural implement, laying him out in a straight row with the waving corn. The hoe has been extracted, and hopes are entertained that the local grange will not be put to any expense for mourning goods which would necessarily have to be purchased from the odious middle men.

THIS is the way they make converts down at St. John. A blacksmith named Baker was an unbelieving scoffer at religion, and in a discussion with a preacher of the United Brethren persuasion, heaped dead loads of sarcasm and abuse upon the churches generally. Finding reason and persuasion of no avail, the good brother pitched in and gave the unbeliever a dreadful pummeling. The blacksmith is now a firm believer in the doctrine of muscular christianity, and the brethren are united in upholding the conduct of their preacher—who, by the way, should be sent around to convert Tom Allen, Morrissey and the other bruisers of the prize ring.

E. A. LINCOLN is a commercial blunderer, representing a Chicago firm. He was recently in Flint, and is most probably there still, owing to a little accident which befel him. He made a call on Mrs. Helen Clark at an unreasonable hour, and tried to force an entrance into her house. But it wasn't the house he was looking for, and Mrs. Clark wasn't that kind of a woman. Lincoln has a bullet in his back now, and Mrs. C. is under bonds to appear for trial—though why, where, how, or under what law it is wrong or illegal for anybody to shoot a Chicago blunderer, at any hour of the day or night, we are at a loss to find out.

DRIFT.

—Eugene St. Vincent is the name of a Detroit scavenger.

—Moriev says: "We send ten copies of the Home to Marquette." Good enough.

—A Depers base ball club is named the Invisibles. They are probably of the same color as the grass.

—Delano, secretary of the Indian frauds, was assessed \$33,000 for political purposes, and the amount was paid by the ring.

—The monument to Edgar A. Poe will be dedicated in September. Isn't there some other brilliant drunkard to whom a monument can be erected?

—We don't want to be inquisitive, but really would be obliged if the Detroit News would keep us a little better posted in regard to its circulation.

—Every well regulated family, religiously inclined, ought to be without one—the official report of the Beecher trial, which is offered at the low price of \$4.00.

—We're to be in fashion at last; the new style of pants-ones are of the pattern we have always sported, and all we'll have to do is to pin or tie them back.

—An exchange says that a certain Ohio senator "has the ear of the country." We always supposed the senators own ears were all and more than he could carry around with comfort to himself.

—The editor of the Fond du Lac Journal records a sad case of intemperance, wherein he shows a brother journalist to have been blind drunk, and gloomily adds, "we are afraid we are all going to the devil."

—A Waukesha girl attempted to wear shoes and stockings every day, but the young men and maidens gathered around and ducked her in a frog pond, and she doesn't affect her "pull back" arrangements any more.

—And now Stanley, the explorer, is lost. Why not make up a purse and send Eli Perkins or Joaquin Miller after him? If they get lost it won't be necessary to send anybody to find them—their loss would be our gain.

—The duke of Montrose wants to marry the heiress of Paran Stevens, the great hotel keeper, provided she has money enough to warrant the sacrifice on his part. He is wonderfully poor and aristocratic, and she is a dumpling of the first water—it she marries him.

—The two great political parties are beginning to strip for the contest of 1876. The Democracy have expelled Morrissey, the bruiser, from its councils, and the Republicans are actually beginning to prosecute the radical thieves who have so long preyed upon the treasury.

—Now there is the Chicago Times made superlatively happy once again by a suit for libel. It has had more than twenty of 'em the past two years, but somehow or other manages to keep right along the same as if it hadn't stepped on the valuable character of a single individual.

—Russell, of the Fond du Lac Journal, says what he may have been thinking of at the time hasn't anything to do with it. He wrote "troussens" as plain as plumbago could make it—"was the intelligent composer who made the fair bride blush when she read of her own bridal 'troussens.'" Too thin—won't wash.

—It begins to look serious for the Turkish arms in Herzegovina. Popopolje has risen. Just as soon as we learned that Popopolje had risen, it seemed as if life had little remaining which was worth living for, and we could have gladly welcomed death instead of an insurrection from the—from the people of that—that—place.

—The crew of the lost ship Florida which sailed from New Orleans for California in 1849, has just been discovered on a hitherto unknown island in the Pacific ocean, where they have resided solitary and alone during the past twenty-five years. They declined to return to their friends, saying they had rather bear the ills they have than fly to others they know not of.

—For the information of the editors of the Duluth Herald and Newark Sunday Call, we desire to make what we think perhaps a startling revelation—that if there is anything new under the sun, our drift is new; and a settled, sadness of pall-like gloom rushes athwart our soul when we contemplate their columns remarking, as it were, with stolen greatness—our greatness.

—An exchange cites as a problem for physiologists the case of a Chinaman and negro woman who were married in Arkansas a year ago. Their first child's hair and its complexion is white. We don't see anything in that problem requiring the intervention of science for a solution. Some white man has been fooling around the domestic hearth of that heathen Chinese!

—The Green Bay Advocate says that city has lately been the scene of numerous incendiary fires, and that nothing can be done to detect the guilty parties. If the authorities would contrive some method by which to "put out" that nose of Titon's, and restrain him from going about poking it into other people's business—places, those "incendiary" fires would soon cease.

—Plymouth church voted to raise Beecher's salary to \$100,000 a year, but the brethren don't come down with the cash as cheerfully as anticipated, and the church property is to be mortgaged for \$80,000. The church also proposes to raise a fund for the benefit of Bessie Turner—but what is to be done for Eliza Bethel T. isn't stated. Perhaps the church expects Beecher to devote a part of his hundred thousand to her support.

NEWS SUMMARY.

Titon's lawyers have served notice on counsel for Beecher to answer in a new trial on the first Monday of September. It seems to be pretty conclusive at last that gold has been found in the Black Hills in quantities which are really encouraging. Col. Baker, the English army officer who recently made improper demonstrations toward a young lady while they were riding together in a railway coach, has been fined £300 and sentenced to imprisonment for a term of one year. A bottle was picked up on the lake shore at Chicago during the week, containing a scrap of paper supposed to have been written by the lost Journal reporter who accompanied Donaldson. It read: "July 16, 2 A. M. We cannot stay up more than an hour longer, as the gas is rapidly escaping. N. S. G." The finder verifies his statement under oath.

BUSINESS NOTICES.

BUY your coal before snow comes, and get it dry, screened and cheap. All sizes and best grades for sale by F. B. SPEAR & CO. 36874.

JACKSON is selling Flannels, Prints, Cottons, Gingham, Shawls, Saques, Gloves, Hosiery, Ties, Belts, Ribbons, Shirts, Hats, etc., etc., at less than cost, to close them out. 36714.

JACKSON'S 60 day sale will soon be over. Only a few days more and then parties that have not improved the golden opportunity will very much regret it, for every one is talking about the low prices at Jackson's, and piles of goods are being sold every day. Everything is marked down very, very low. 36714.

DENTISTRY.—Office on Front street, opposite Cuzzens' Hotel. 335ms. H. BARNES.

GO TO JACKSON'S for Dress Goods at less than half price—or only a few days more. 36714.

BOATS.—Pleasure boats, both sail and rowing, are kept by me at my place near Grace furnace, and also in front of the Northwestern hotel. The boats are all new, first-class in every respect, and change moderately to suit the times. Tourists and strangers please take notice. I am the only person in Marquette who keeps an extensive line of boats for hire. 36714. JOHN OUDOTTE.

\*French—signifying "The Bay."

A GAMBLER'S STAKE.

The Marquis Angelo Foscarini had been traveling throughout Europe for several years, sanitary measures inducing him to visit Paris. To the gay metropolis he was accompanied by his daughter, the beautiful Olympia, she being the only issue of three most unhappy marriages.

ment. Foscarini returned their gaze with one of sovereign contempt and indifference. Then turning to Le Roy he said, "Be it as you wish."

ment. Foscarini returned their gaze with one of sovereign contempt and indifference. Then turning to Le Roy he said, "Be it as you wish."

Legal Notices.

DISSOLUTION.—The partnership heretofore existing between the undersigned, under the name and style of the Messrs. J. J. Wood and S. Bailey, this day dissolved by mutual consent—the business of said company to be hereafter carried on by A. P. Swineford, who assumes the payment of all just claims against the late firm, and is authorized to collect the debts due to become due.

STOCKHOLDERS MEETING.—Notice is hereby given that a special meeting of the stockholders of the Ontonagon and Silver Mining Company will be held at the office of Daliba & Mages, in Marquette, Michigan, on Monday evening, August 16th, at 7 o'clock, P. M., for the purpose of changing the name of the company, and for the transaction of such other business as may legally come before the meeting. By order of the board of directors.

STATE OF MICHIGAN, COUNTY OF MARQUETTE.—At a session of the Probate Court for the county of Marquette, holden at the Probate Office in the City of Marquette, on Wednesday, the 14th day of July, A. D. 1875.

Present, Hon. Edward S. Hardy, Judge of Probate. In the matter of the estate of Peter Adelsberger, deceased. On reading and filing the petition, duly verified of said Peter Adelsberger, deceased, and the issuance of letters testamentary, pursuant to the directions and provisions of said will of said decedent.

REGISTRAR NOTICE.—To the Qualified Electors of the Fourth Ward of the City of Marquette, Michigan:—Notice is hereby given that the Aldermen of the Fourth Ward, acting as a Board of Registration under and by virtue of an act entitled, "An act further to preserve the purity of elections and guard against the abuses of the elective franchise by a registration of electors," approved February 14, 1875, as amended by Act 191, session laws of 1875, approved March 29, 1875, will meet at the House in said Fourth Ward on Monday, August 9th, 1875, from 8 o'clock in the forenoon, until 8 o'clock in the afternoon, for the purpose of registering the names of the voters not already registered, when and where all persons entitled to use the elective franchise, under article seven, section one, of the constitution of the State of Michigan, must register their names, to entitle them to the privilege of voting under said act.

IN THE MATTER OF THE ESTATE AND GUARDIANSHIP OF AGGIE D. DEAN AND JOHN P. JONES, MINORS.—Notice is hereby given to the creditors of the estate of Aggie D. Dean and John P. Jones, minors, praying for an order of sale of certain real estate belonging to said wards, that it is necessary and should be beneficial to said wards that such real estate should be sold. It is hereby ordered that the notice of sale of the said real estate, and all persons interested in the said estate, appear before this court on Monday, the twenty-third day of August, A. D. 1875, at 10 o'clock A. M., at the court house in the city and county of Marquette, then and there to show cause why an order should not be granted for the sale of such estate. And it is further ordered that a copy of this order be published at least three successive weeks before the said day of hearing in the Mining Journal, a newspaper printed and published in said city and county of Marquette.

OFFICE OF THE METROPOLIS IRON COMPANY, MARQUETTE, MICH., July 31, 1875. Notice is hereby given that by order of the Board of Directors of the Metropolitan Iron Company, standing in the names of residents of the Upper Peninsula of Michigan, forfeited for non-payment of assessments, of the said company, in the city of Marquette, Marquette county, Michigan, on the first day of September, A. D. 1875, at 10 o'clock A. M., unless sooner paid, the following assessments will be assessed with interest and legal charges thereon.

NOTICE OF MICHIGAN, COUNTY OF MARQUETTE.—At a session of the Probate Court for the county of Marquette, holden at the Probate Office in the City of Marquette, on Saturday, the seventeenth day of July, A. D. 1875, in and to the effect that the undersigned, Edward S. Hardy, Judge of Probate, in the matter of the estate of ALMENA LA DOO, deceased. On reading and filing the petition, duly verified, of Helen Mabel Dunn, of Republic township, representing among other things a document purporting to be the last will and testament of the said Almena La Doo, deceased, and all other persons interested in said estate, are required to appear at a session of said court, to be held at the Probate Office, in the city of Marquette, and show cause, if any there be, why the prayer of the petitioner should not be granted; and it is further ordered that the said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof by causing a copy of this order to be published in the Mining Journal, a newspaper printed and published in said county of Marquette, three successive weeks previous to said day of hearing.

SPECIAL ASSESSMENT NOTICE.—Notice is hereby given that the Special Assessment Roll for the general and macadamizing of Spring Street, from Front to Third streets, and also for constructing sidewalks on both sides of said street, adopted by the Common Council of the city of Marquette, Michigan, on the 26th day of June, A. D. 1875, at 7 o'clock, P. M., at which time the said Common Council will meet at the Council Chamber for the purpose of considering the final confirmation of said assessment roll. By order of the Common Council.

EXECUTOR'S SALE OF FINE TIMBERLANDS. By virtue of the power vested in me as executor of the estate of Nicholas Hicks Graham, deceased, I will offer for sale at public auction at the front door of the Court House in the city of Marquette, on Monday, the 9th day of August, 1875, at 12 o'clock M. of said day, six parcels of land, situated in the county of Schoolcraft, and described as follows:

1st. All that certain piece or parcel of ground described in warrant 21,039, dated the 15th day of August, A. D. 1869, recorded in volume 68, page 236, in the land office at Washington, and located upon the east half of north of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

2d. All that certain piece or parcel of land described in warrant 24,414, dated 15th day of August, A. D. 1869, recorded in volume 68, page 330, in the land office at Washington, and located on the east half of the southwest quarter of section 12, in township 46 north, of range 19 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

3d. All that certain piece or parcel of land described in warrant No. 25,502, dated the 15th day of August, A. D. 1869, recorded in volume 68, page 325, in the land office at Washington, and located upon the south half of the southwest quarter of section 21, in township 47 north, of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

4th. All that certain piece or parcel of land described in warrant No. 27,244, dated August 15th, A. D. 1869, recorded in volume 68, page 325, in the land office at Washington, located upon the north half of the southeast quarter of section 12, in township 46 north, of range 19 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

5th. All that certain piece or parcel of land described in warrant No. 27,329, dated August 15th, A. D. 1869, recorded in volume 68, page 325, in the land office at Washington, located upon the northeast quarter of section seven, in township 46 north, of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

6th. All that certain piece or parcel of land described in warrant No. 37,738, dated August 15th, A. D. 1869, recorded in volume 68, page 327, in the land office at Washington, located upon the north half of the southwest quarter of section 21, in township 47 north, of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

These are among the finest timber lands in the Upper Peninsula, having been selected fifteen years ago with special reference to their ultimate great value by reason of their close proximity to one of the finest natural harbors on the lake.

TERMS OF SALE—CASH. Bids for the purchase of these lands at private sale may be addressed to the undersigned in care of A. P. Swineford up to the day of sale, August 9th.

WILLIAM BRICE, Executor of the estate of Nicholas Hicks Graham. July 13, 1875.

If you want a choice creek of fresh butter go to Shaw's, 175 Washington street, dealers in groceries and provisions.

Legal Notices.

DISSOLUTION.—Notice is hereby given that the partnership heretofore existing between J. J. McNamara, E. M. Wood and S. Bailey, under the firm name of J. J. McNamara & Co., has been dissolved, Mr. Bailey retiring from the firm. The business will be continued under the same firm name by the undersigned.

1500 BUILDING LOTS FOR SALE on and north of Mount Vernon Street, City of Marquette. To parties building immediately long time will be given on the lots, and the interest in advance upon prices will be sufficient to secure the lots. The price to be paid in monthly installments as desired by the purchaser.

ELECTION NOTICE.—To the Qualified Electors of the Fourth Ward of the City of Marquette, Michigan:—Notice is hereby given that a special election will be held at the House in the Fourth Ward of said city, on the 10th day of August, A. D. 1875, to fill the vacancy occasioned by the removal of Alderman Burr Hursley from said Fourth Ward. JOSEPH H. PRIMEAU, Recorder.

REGISTRAR NOTICE.—To the Qualified Electors of the Fourth Ward of the City of Marquette, Michigan:—Notice is hereby given that the Aldermen of the Fourth Ward, acting as a Board of Registration under and by virtue of an act entitled, "An act further to preserve the purity of elections and guard against the abuses of the elective franchise by a registration of electors," approved February 14, 1875, as amended by Act 191, session laws of 1875, approved March 29, 1875, will meet at the House in said Fourth Ward on Monday, August 9th, 1875, from 8 o'clock in the forenoon, until 8 o'clock in the afternoon, for the purpose of registering the names of the voters not already registered, when and where all persons entitled to use the elective franchise, under article seven, section one, of the constitution of the State of Michigan, must register their names, to entitle them to the privilege of voting under said act.

IN THE MATTER OF THE ESTATE AND GUARDIANSHIP OF AGGIE D. DEAN AND JOHN P. JONES, MINORS.—Notice is hereby given to the creditors of the estate of Aggie D. Dean and John P. Jones, minors, praying for an order of sale of certain real estate belonging to said wards, that it is necessary and should be beneficial to said wards that such real estate should be sold. It is hereby ordered that the notice of sale of the said real estate, and all persons interested in the said estate, appear before this court on Monday, the twenty-third day of August, A. D. 1875, at 10 o'clock A. M., at the court house in the city and county of Marquette, then and there to show cause why an order should not be granted for the sale of such estate. And it is further ordered that a copy of this order be published at least three successive weeks before the said day of hearing in the Mining Journal, a newspaper printed and published in said city and county of Marquette.

OFFICE OF THE METROPOLIS IRON COMPANY, MARQUETTE, MICH., July 31, 1875. Notice is hereby given that by order of the Board of Directors of the Metropolitan Iron Company, standing in the names of residents of the Upper Peninsula of Michigan, forfeited for non-payment of assessments, of the said company, in the city of Marquette, Marquette county, Michigan, on the first day of September, A. D. 1875, at 10 o'clock A. M., unless sooner paid, the following assessments will be assessed with interest and legal charges thereon.

NOTICE OF MICHIGAN, COUNTY OF MARQUETTE.—At a session of the Probate Court for the county of Marquette, holden at the Probate Office in the City of Marquette, on Saturday, the seventeenth day of July, A. D. 1875, in and to the effect that the undersigned, Edward S. Hardy, Judge of Probate, in the matter of the estate of ALMENA LA DOO, deceased. On reading and filing the petition, duly verified, of Helen Mabel Dunn, of Republic township, representing among other things a document purporting to be the last will and testament of the said Almena La Doo, deceased, and all other persons interested in said estate, are required to appear at a session of said court, to be held at the Probate Office, in the city of Marquette, and show cause, if any there be, why the prayer of the petitioner should not be granted; and it is further ordered that the said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof by causing a copy of this order to be published in the Mining Journal, a newspaper printed and published in said county of Marquette, three successive weeks previous to said day of hearing.

SPECIAL ASSESSMENT NOTICE.—Notice is hereby given that the Special Assessment Roll for the general and macadamizing of Spring Street, from Front to Third streets, and also for constructing sidewalks on both sides of said street, adopted by the Common Council of the city of Marquette, Michigan, on the 26th day of June, A. D. 1875, at 7 o'clock, P. M., at which time the said Common Council will meet at the Council Chamber for the purpose of considering the final confirmation of said assessment roll. By order of the Common Council.

EXECUTOR'S SALE OF FINE TIMBERLANDS. By virtue of the power vested in me as executor of the estate of Nicholas Hicks Graham, deceased, I will offer for sale at public auction at the front door of the Court House in the city of Marquette, on Monday, the 9th day of August, 1875, at 12 o'clock M. of said day, six parcels of land, situated in the county of Schoolcraft, and described as follows:

1st. All that certain piece or parcel of ground described in warrant 21,039, dated the 15th day of August, A. D. 1869, recorded in volume 68, page 236, in the land office at Washington, and located upon the east half of north of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

2d. All that certain piece or parcel of land described in warrant 24,414, dated 15th day of August, A. D. 1869, recorded in volume 68, page 330, in the land office at Washington, and located on the east half of the southwest quarter of section 12, in township 46 north, of range 19 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

3d. All that certain piece or parcel of land described in warrant No. 25,502, dated the 15th day of August, A. D. 1869, recorded in volume 68, page 325, in the land office at Washington, and located upon the south half of the southwest quarter of section 21, in township 47 north, of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

4th. All that certain piece or parcel of land described in warrant No. 27,244, dated August 15th, A. D. 1869, recorded in volume 68, page 325, in the land office at Washington, located upon the north half of the southeast quarter of section 12, in township 46 north, of range 19 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

5th. All that certain piece or parcel of land described in warrant No. 27,329, dated August 15th, A. D. 1869, recorded in volume 68, page 325, in the land office at Washington, located upon the northeast quarter of section seven, in township 46 north, of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

6th. All that certain piece or parcel of land described in warrant No. 37,738, dated August 15th, A. D. 1869, recorded in volume 68, page 327, in the land office at Washington, located upon the north half of the southwest quarter of section 21, in township 47 north, of range 18 west, in the district of lands formerly subject to sale at Sault Ste. Marie, now Marquette, Michigan, containing 80 acres.

These are among the finest timber lands in the Upper Peninsula, having been selected fifteen years ago with special reference to their ultimate great value by reason of their close proximity to one of the finest natural harbors on the lake.

TERMS OF SALE—CASH. Bids for the purchase of these lands at private sale may be addressed to the undersigned in care of A. P. Swineford up to the day of sale, August 9th.

WILLIAM BRICE, Executor of the estate of Nicholas Hicks Graham. July 13, 1875.

If you want a choice creek of fresh butter go to Shaw's, 175 Washington street, dealers in groceries and provisions.

SERVICES AT PRESBYTERIAN CHURCH.—Presbyterian services will be held in St. John's Episcopal church, Negaunee, next Sunday, at 10:30 A. M., by Rev. J. D. Dulles. All are cordially invited to attend.

K. OF P.—Pioneer Lodge, No. 23, K. of P., meets every Wednesday evening at 8 o'clock in their castle hall, opposite Iron Chis office. M. H. Crocker, P. C.; Jno. Herman, C. C.; P. B. Kirkwood, P.; Ed. C. Anthony, V. C.

In Connecticut there is one divorce to every nine marriages.

ACTIVE men, it is said, wear boots; they can't stop to tie shoe strings.

THE Rolling Mill mine paid up for June, last Saturday, the 31st ultimo.

ANOTHER wrestling match is projected here, to come off about the 20th inst.

DIED, at Menominee, Michigan, August 3rd, 1875, Mrs. Morris Dundee, formerly of this city.

MESSRS. HEYN & Co. are reducing their stock of dry goods, etc., to make room for fall goods.

ANSWER to enigma in last week's JOURNAL: "Hematite." Three correct answers received.

SOME choice specimens of beaver "chawing" are on exhibition at Gerke & Patst's cigar manufactory.

WE'VE got some new "smoking" tobacco in town. If you don't believe it, look at that elegant show card in Seass' window.

THE Cardiff giant went off Thursday morning. He has gone to Green Bay, Wis., to meet P. T. Barnum's hippodrome.

THE boys were out with the fire engine last Monday, and were well satisfied with its work. In fact, she never did better.

"CLEANLINESS is next to Godliness," was uttered by Matthew Henry, a learned and pious preacher of the seventeenth century.

FISHING excursions are all the rage just now, and anglers are meeting with good success, as a rule; better than usual this season.

MARRIED.—On Saturday, July 31st, 1875, by the Rev. J. M. Johnson, Negaunee, Michigan, Mr. John Stevens to Miss Mary Angwin.

AN English major has been discharged for cheating at cards.—Ez. He must have swindled a superior officer—wonder if he was pedro?

GO to Taylor & Cochran's and examine that new and choice stock of confectionery, picture books, etc. Children cry for them.

ACCIDENT.—Mr. Charles Mitchell had his left arm dislocated at the elbow, last Saturday, while engaged in playing base ball at Ishpeming.

CHARLES SUNDBERG has disposed of his saloon to Mr. August Olson, his former clerk. Mr. C. has thoroughly refitted and repaired the place.

THE Indian commissioners are holding their meetings at Saratoga. A most pleasant combination of business and pleasure. Oh, to belong to that commission!

WOODPECKER SOUP.—This rare and until recently undiscovered delicacy, bids fair to rival all its competitors soon. For particulars, enquire of H. D. Mike, at the corner store.

BLIND TOM's concert was listened to by a crowded house, last Wednesday evening, and all went away declaring themselves highly pleased with the really wonderful performance.

THE vestry of St. John's church warn all boys against further mutilating and breaking the windows of that edifice. Anyone caught engaged in so doing will be punished to the extent of the law.

DIED.—We regret to announce the death of Joseph Trezona, an old and highly respected citizen of Negaunee. His death occurred August 1st, 1875, resulting from cancer of the stomach. Funeral August 1st.

WHEN we see a certain quartette of young gents wending their way to Engels' bowling alley, it is not difficult to prognosticate as to which one will have to remunerate the proprietor. "Good exercise, though!"

A GENTLEMAN who resides at Lake Fairbanks (Goose Lake) informs us that there is an abundance of game in that locality. Deer, partridge, bear and speckled trout can be found in that vicinity. Now, all get your guns and fishing tackle in readiness, and have a few days sport.

A FISHING party left here a short time since, taking with them one pound of crackers, one half dozen sandwiches and two suspicious looking jugs—capacity two gallons each. They remarked, on leaving, that food was abundant where they were going, but they were afraid as to water. Too bad, gentlemen.

A VERY interesting mission service has been held at St. Paul's (Roman Catholic) church, in this city, during the past week. Rev. Father Henneberry visited us, and it is conceded on all hands that a vast amount of good was accomplished by his efforts. Some three or four hundred people took the temperance pledge and, it is to be hoped, will have grace to keep it. Father H. is a very eloquent speaker.

THE "Olympic Club" is the title of a new organization in Negaunee. Its purposes are purely social, embracing a library, reading room, billiards, etc. They have secured a suite of rooms in Mulvey's block, which are expected to be ample for their present needs. The following officers have been elected: Glad N. Smith, president; J. M. Gannon, secretary; Norman McLeod, treasurer. The club starts out with a good list of officers, and will undoubtedly prove a success.

SEASS has four handsome pictures on sale at the Opera cigar store.

MR. CHARLES GERKE is home again from a business trip to Houghton.

THE Negaunee Junior base ball club advertise a grand ball to come off Friday evening, August 6th, at Sterling's hall.

GIVE a helping hand to a poor struggling fellow and heaven will surely reward you. Remember a kick will surely return to you with interest.

MIKE quietly stole an umbrella last Thursday and put a sign on it, "Mortgage Sale." Bad boy! Those ladies will never trust you more.

LAST Thursday we were visited by a fine and long needed shower, making vegetation look much better, cooling the heated air and laying the dust.

JOHN TEAHAN, an employe of the Pioneer mine, was slightly injured by a falling rock, last Thursday evening, which inflicted a wound on his head.

ONE of our boys, who has been there, says Duluth is a most delightful place. You get up in the morning and go a fishing, and if you have the good luck to take any fish, you have breakfast, and if not, why you must wait for dinner and repeat the experiment.

ENIGMA.—I am composed of fourteen letters: My 1, 2, 4 is a domestic fowl.

My 11, 5, 3, 7, 12, 14 is something which makes times a little livelier in Negaunee.

My 5, 6, 7, is a conjunction.

My 13, 12, 11 is a short sleep.

My 10, 5, 11 is a representation of the land and water.

My 10, 9, 11 is used in scrubbing.

My 13, 5, 14 is a negative.

My whole is the name of a prominent mercantile firm in Negaunee. Answer next week.

WE exceedingly regret to announce the intention of Drs. L. H. and A. Broeder of leaving Negaunee. These gentlemen have resided here for some time past, and have gained for themselves an enviable reputation as surgeons, dentists, and general gentlemen. They propose to visit France, eventually locating at Brussels, Belgium, for the practice of their profession. People in want of dental work should call on them soon, as they intend leaving some time next month.

A MAN came into our office the other day offering a patent money drawer for sale! We gazed at him for a moment to see if he was in possession of his full mental faculties, and as he seemed to be we gently remonstrated: "We are newspaper men and ain't got any use for money drawers, and if we should buy one, we would be in about the same fix as the man owning but one suit of clothes who purchased a trunk in which he proposed to keep his things." He saw the point, and silently folded, etc., and quietly stole, etc.

RETURNED.—Dr. Kelly has once more returned from a visit to his mining location at Goulaiz Bay. He reports having discovered a rich vein of minerals, in which gold, silver and copper ores are distinctly traceable. He has decided to offer the entire "location" for sale, in order to give capitalists an opportunity of developing the mine. Five hundred thousand dollars is the sum asked for complete possession. Specimens of the ore can be seen at this office by those interested in mineralogy.—Sault Ste. Marie (Ont.) Northern Light.

PERSONAL.—Wm. E. Remington, Esq., left town Tuesday last, on a visit to his friends in Chicago.

WM. HOPKINS, Esq., and family left Negaunee for a home in Grass Lake, Jackson county, Mich., last Thursday. Mr. H. has resided here for the past ten years.

MR. C. C. EDDY and John Q. Adams, Esq., returned from the far west last Tuesday evening. It is said they have great expectations in the Occident, and we hope so, as they are deserving of success.

W. T. MATTHEWS, of Salt Lake, was in Negaunee visiting friends, this week.

PROMINENT on the St. James register this week were W. K. Sibley and T. S. Kirkwood, Chicago, and Miss Chase and Mrs. Whitehead, of Ann Arbor, Mich.

L. E. PLATT, Beaver Dam, Wis., S. C. Smith, Ashtabula, O., "Blind Tom" and party and S. D. De La Veigne, Milwaukee, were at the Jackson house this week.

THERE was an attempt at burglary last Tuesday night, which resulted rather badly for the would-be burglar—in fact, fatally. A certain young man whom we will call by the romantic name of Smith, for short, might have been seen meandering homeward some time in the small hours, a little unsteady in his locomotive organs. After a time he got into the house, and finally reached his room, removed his boots, etc., and was about to jump into bed to court sweet Morphine's charms, nature's sweet restorer, balmy sleep, when a strange noise reached his ear. "Some one's trying to break into the house," thought he. No sooner had the thought struck him, than a tremor ran over his manly frame, and a cold perspiration started on his haughty brow; but arming himself with a navy revolver and a formidable scalping knife, he started for the back door, whence the sounds proceeded. Soon, crash! went the window; a dark form entered, but probably did not see Smith, who was crouching in a corner, taking a deadly aim at the intruder. The weapon was discharged directly in the face of the intruder, and an unearthly yell was heard, which called in the neighbors. Sentinels were posted around the house to prevent the possible escape of the thief, and search was made for him throughout the house. Traces of blood revealed the fact that he had retired to a small closet off the kitchen; the door was opened, and there the breathless spectators saw stretched out at full length upon the floor, as dead as a stone, a very large black cat!

IN the office of one of the hotels, recently, a gentleman snapped his finger to a boot-black, and as he put his foot on the box, he said: "You look like a good, smart boy." "See here, mister!" replied the boy as he rose up, a brush in either hand, "I've had that game played on me a dozen times, and now I want to know whether this is a cash shine or whether you're going to pat me on the head when I get through and tell me that I'll be governor some day?"

AN exchange says: "There is great excitement in Marquette over the discovery of silver on Iron river, Ontonagon. The vein of rock is said to yield \$10 to \$50 per ton." This would have been news two years ago. Why don't you take the Marquette Mining Journal and keep posted.—New Era.

NEGAUNEE BUSINESS ITEMS.

WEITSTEIN.—No name is uttered with such unbounded reverence and affection in the land of the "Alpine Heights" and pristine watches, and no one family has ever produced so many members distinguished, through a course of three or four centuries, for their achievements in the sciences and arts as that of Weitstein. The undersigned has the documents to show that the watchmakers of the same name who are acquiring prominent reputations in different parts of this country as superb mechanics and progressive agitators and educators, and a self made men who devote their life to their art, are direct descendants of this illustrious family. (See Chambers' or Appleton's Enc.) Three of these brothers, including the undersigned, were initiated into the secrets of the manufacture and restoration of watches by J. F. Weber, of Berlin, and in the gold and silversmith's art, of which not one watchmaker in a thousand knows the simple rudiments—under F. Lorenz, of Vienna, both famous for exquisite workmanship and as the makers of the noted bracelet having a repeating watch in the clasp, and of the minute watch in a ring, made for the Czar of Russia. With spirits nearly crushed by the savage severity of the discipline of a long German apprenticeship for which his principals tried to make amends by presenting him with the movement of the aforesaid bracelet-watch, a marvel of minute workmanship, but of an active and ambitious nature, the undersigned was led to adopt the life of a recluse, and to surrender every other consideration to the one aim of attaining to the highest possible degree of perfection in his craft.

After he had thoroughly mastered the art of restoring defective watches and mechanisms of all descriptions to their original harmony and working order, and of manufacturing and renewing jewelry and working in the precious metals, he turned his attention successively to engraving, to gilding and electroplating, to optics, to lapidary work and other branches of his art, and to complete his training, studied mechanics, metallurgy, chemistry, mineralogy, etc., while yet scarcely out of his teens.

Then, lamenting like Alexander, that there was nothing more to conquer in his sphere, and having found to his mortification that the honest, consummate and thoroughbred disciple of the German school could make but poor headway against the fast and Frenchy knights of the tweezers, and their unscrupulous and superficial but more lucrative modus operandi, he madly resolved upon the exploration and subjection of a still greater domain—the language of his adopted country—and has devoted the leisure time of ten years to becoming a proficient in the language that he might "hurl the thunderbolts of his wrath" against the abuses and iniquities so prevalent in his craft.

One science only will one genius fit, So vast is art, so broad the human wit.

Weitstein has demonstrated that a man can become an adept in more than one art, but after having sacrificed 18 years of his best life, prospects such as few young men have had, fortune, friends, social instincts, all and everything to his art, he finds himself at last a mere shadow of his former self, with nothing but the satisfaction of knowing that his reputation as a watchmaker and jeweler is unsurpassable and unassailable, and that he can—so short the step from the sublime to the ridiculous—make any mortal "vamos" who may be "fools" enough to say "ho!" to him.

Negaunee, July 20th, 1875.

GUSTAVUS A. WEITSTEIN.

WE don't believe, though we see it in print, that there is a man in Chicago who regales his canine pet daily with a mess of needles, nor one in Vermont who feeds his geese on iron filings and gathers steel pens from their wings; nor a third party in the "Hub" who has invented a machine which gulps a clogged or broken down watch like an alligator does an old boot, and after chewing it up thoroughly, ejects it as bright and nimble as new. But what we all do believe, and what is being whispered from mouth to mouth throughout the entire peninsula, is that no matter how rusty, how battered up, or how dilapidated an originally good watch, clock or music box, or any delicate thing of ornament or use has become, consign it but to the capricious man of the human machine performing its magical operations which 18 years of self-sacrificing, all absorbing endeavor at improvement and perfection have made the non plus ultra of mechanical efficiency, at the corner jewelry store of Ed. Girzkowsky, and with the aid of its complete appliances and facilities, its fine tuning, polishing and other lather, etc., it will re-fashion and rejuvenate it in a twinkling and turn it out as neat and nobby as a coffin plate, and as "stoddy on the go" as the "Wandering Jew." 366

NOTICE.—I wish to inform my friends and patrons and the public generally, that I have secured the services of Mr. Andrew Polymata, a practical watchmaker of the Geneva school.

Mr. Polymata was awarded the prize medal at the Paris exhibition of 1867, and also at St. Petersburg, Russia, in 1871; and he was employed quite recently by the Messrs. Tiffany & Co., Union Square, New York.

He is a gentleman of high attainments in his profession, and does not need fulsome advertisements to brace up a poor business reputation, as some watch botches in this city seem to require.

Every description of fine watches, chronometers, singing birds, musical boxes, traveling clocks, automatic and musical clocks carefully repaired and restored. Every description of Jewry repaired also. Prices moderate, and to suit the times. Having been greatly annoyed by second-rate workmen, I am determined in future to employ none but first-class workmen, such as Mr. P., and assure my customers that their wants shall be faithfully and honestly attended to. Give me a call, and you shall be convinced of the truth of these statements.

CHARLES SUNDBERG, Negaunee, July 24th, 1875. 366w4

Negaunee Advertisment.

Real Estate, Exploration

AND

MINING

Intelligence Office,

NEGAUNEE, MICH.

The subscriber has opened an office at Negaunee for the purchase of real estate, and the exploration of mineral, pine and timbered lands on the Upper Peninsula. Parties wishing to have lands examined and reported upon, either in respect to their mineral or timber resources, will be liberally treated with, and correct reports will be given in all cases. Being myself an old explorer, having spent many years in the woods, during which time I have located some of the most valuable iron lands on the Marquette Range, and being assisted by a corps of old and faithful explorers, I confidently offer my services to all who may wish to entrust their explorations to my care.

I have now for sale MINERAL LANDS, on the Marquette Range, to which I invite the attention of iron men seeking investments. ALSO PINE LANDS in various parts of the Upper Peninsula, selected with the greatest care, and because of their great prospective value.

Correspondence solicited, and the best of references given if required.

"DEAD STROKE" POWER HAMMER. IMPROVED ADJUSTABLE CRANK. STRIKES BLOW HEAVY ON LIGHT, FAST OR SLOW. Prices Reduced Jan. 1st, 1875. The Hull & Belden Company, Danbury, Ct.

CHICAGO & NORTHWESTERN RAILWAY.

THE TRANS-CONTINENTAL ROUTE, ETC. This great corporation now operates over two thousand miles of its own road, and has "running arrangements" over nearly eight hundred miles of road owned by other Companies. Taking Chicago as its starting point, the various lines owned by this Company radiate north, north-west and west, like the fingers on the human hand. With one line it reaches MILWAUKEE, FOND DU LAC, GREEN BAY and MARQUETTE. With another it runs through MADISON, the capital of Wisconsin, ELOY, and to ST. PAUL and MINNEAPOLIS. Another of its lines stretches far across Illinois, Wisconsin, Minnesota, and terminates in Central Dakota. Still another runs from Chicago through ELGIN and ROCK FORD to FREEDPORT, and with connections there for Galena, Dubuque, etc. Still another line of this corporation runs northwardly through JANESVILLE, FORT ATKINSON, WATER TOWN, to Fond du Lac, and beyond. However, the greatest and most important of the roads of this company, is their Omaha and California line, or as it is called, "THE TRANS-CONTINENTAL ROUTE." This last named is the Pioneer line between Chicago and Omaha. The track is of the best steel rail, and is well ballasted, and as few from dust as a road can be made. The bridges are strong and durable, and all the appointments are first-class in every respect. The trains that run over this road are made up of elegant new Pullman Palace Drawing Room and Sleeping Coaches, built expressly for this line, luxurious, well lighted and well ventilated Day Coaches, and pleasant lounging and smoking cars—all built by this company in their own shops. The cars are all equipped with the celebrated Miller Safety Platform, and patent Buffers and couplings, Westinghouse Safety Air Brakes, and every other appliance that has been devised for the safety of passenger trains. All trains are run by telegraph, and are so regularly on time that one could safely set his watch by their arrivals or departures. In a word this GREAT LINE has the best and smoothest track, and the most elegant and comfortable equipment of any road in the West, and has no competitor in the country. It is eminently the favorite route with Chicagoans traveling west, north, or north-west, and is acknowledged by the traveling public to be the popular line for all points in Northern Illinois, Wisconsin, Minnesota, Northern Michigan, Dakota, Western Iowa, Nebraska, Wyoming, Colorado, Utah, Montana, Idaho, Nevada, California, and the Pacific Slope. All railroad ticket agents can give you information about this line and the time of its trains. If you are going west, north, or north-west, you should try this route.

Look out for them! We are informed that about half a dozen three card monte men, with their harlots, have made temporary lodgment in the city.

THE MICHIGAN.—An item, concerning the U. S. war steamer Michigan, written by an attaché of this office, found its way into these columns last week, which had it not escaped our attention, would not have been printed.

Excursion.—The excursion down the lake on the 4th inst. was worthy of note. Several reasons made it enjoyable to participate in, and good to think about.

Three gentlemen of high rank in this city, consisting of a M—t m—r, the c—y a—y, and c—y r—r, accidentally met at the corner of Main and Front streets about half past 7 o'clock, P. M.

COMMON COUNCIL.—At a special meeting of the common council of the city of Marquette held at the council chamber on Saturday July 31st, A. D. 1875, at 5 o'clock in the afternoon, the council was called to order by the mayor, and the roll being called by the recorder, there were present, aldermen Ralph, O'Keefe, Cook and Levy; absent, aldermen Oakes, Fraser and Mulally.

On motion of the recorder the committee on police, claims and grievances was discharged from the further consideration of the petition of Jacob Frei, asking permission to build a frame building 30 feet front by 18 feet in depth, south of his brick block, situated on the southwest corner of Washington and Front streets.

METEOROLOGICAL TABLE.

Table with columns: Day and date of observation, Time of observation, Thermometer exposed, Corrected barometer, Direction and force of wind, Velocity per hour, Weather.

PROPOSALS

Will be received at this office until 12 o'clock noon Monday, the Thirtieth day of September, 1875, for the purchase of the

Real Estate and Mining Plant of The Bohemian Mining Co., Situated near the village of Maple Grove, Ontonagon county, Michigan, and in event of no proposal made being satisfactory to the Board of Directors, then said Real Estate and Mining Plant will be sold at

PUBLIC AUCTION

To the highest bidder, at 12 o'clock noon Thursday, September 23, 1875, at the Company's Office, 110 South Fourth Street, Philadelphia. Terms will be liberal.

STOCKHOLDERS' MEETING.—Notice is hereby given that the adjourned annual meeting of the stockholders of the Winthrop Iron Company, for the election of Directors and the transaction of such other business as may legally come before it, will be held at the office of the President, 81 and 83 Washington street, Chicago, Illinois, on the fourteenth (14) day of September, A. D. 1875, at 10 o'clock, M. A. B. MEEKER, Sec'y. Chicago, July 31, 1875.

CHANCERY SALE.—In pursuance and by virtue of a decree of the Circuit Court for the county of Marquette in chancery, made on the twenty-ninth (29th) day of July, A. D. 1875, in a certain cause therein pending, wherein Balthasar Neidhart is petitioner and Joseph F. Freilang is defendant, under Chapter 215 of the compiled laws of 1871, notice is hereby given that I shall sell at public auction to the highest bidder on Friday the seventh day of September, A. D. 1875, at ten o'clock in the forenoon, at the front door of the Court House in the city of Marquette, in the county of Marquette and State of Michigan, all the right, title and interest of the said defendant in and to certain parcels of land and the buildings and other improvements therein lying and being in said city, described as lot forty-nine of Harlow's fourth addition to the village (now city) of Marquette aforesaid. Dated Marquette, August 3rd, 1875. PARKS & HAYDEN, CHARLES CROWLEY, Solicitors for Petitioner. (28846) Sheriff.

STATE OF MICHIGAN.—In the Circuit Court for the County of Marquette: At a special session of the Circuit Court for Marquette county, convened and held at the Court House, in the city of Marquette, in said county, on Thursday, the 29th day of July, A. D. 1875, present, Hon. James O'Grady, Circuit Judge. In the matter of the proceeding of Joseph Rose and Alphonse Rose, partners, vs. the tug "John Chassel." On reading and filing the return of William O'Brien, Deputy Sheriff of said county, showing that return has been made to the warrant heretofore issued in said proceeding, according to the provision of Chapter 210 of the compiled laws of this State, and on reading and filing the certificate of Francis M. Moore, the clerk of this court, showing that the tug "John Chassel" has not been bonded by any person, as provided in said chapter, and on motion of Cochran & Cochran, attorneys for claimants, Joseph Rose and Alphonse Rose, it is ordered that said clerk cause notice to be given as required by said Chapter 210, by causing a copy together with the notices containing the names of the complainants of said watercraft, the port to which she belongs, a statement of their alleged claim with the amount thereof, and a citation thereon, to be published in the county of Marquette, in a weekly newspaper printed in the county of Marquette, that being the county in which said warrant issued, and that this order, together with said notice, be so published and inserted in said paper three times, and that the said clerk cause the same to be so published within ten days from the date hereof. A true copy—F. M. MOORE, Clerk. JAMES O'GRADY, Circuit Judge.

In pursuance of the foregoing and above order, made and entered in the Circuit Court for the county of Marquette, on Thursday, the 29th day of July, A. D. 1875, notice is hereby given that Joseph Rose and Alphonse Rose, partners, under the name, style and firm of Rose Brothers, claim a lien upon the tug "John Chassel," of the port of Marquette, Michigan; said tug being a water craft of above five tons burthen and registered as No. 75,259, which said claim of said Rose Brothers is for work done by said Rose Brothers as ship carpenters in repairing and outfitting the tug "John Chassel" between the third day of March, A. D. 1874, and the nineteenth day of June, A. D. 1874, and to the amount of Three Hundred and Twenty-eight Dollars and seventy-four cents. Therefore, all persons concerned are hereby notified and cited to be and appear before our Circuit Court for the county of Marquette to intervene for their interest on the thirtieth day of August, A. D. 1875, or said claim will be heard *ex parte*. FRANCIS M. MOORE, Clerk of the Circuit Court for the County of Marquette, COCHRAN & COCHRAN, Attorneys for Claimants. 36843
