As alley-way from Spring street to Superior, immediately in rear of the Front street stores, has been run through during the week, and will be a great advantage to the merchants. The alley cuts off ten feet of the city lot next west of the city hall, and for this the city receives \$600.

WITH the close of every month the landed possessions of Uncle Samuel, in the upper peninsula, grow beautifully less, and the lands that have for ages been occupied solely by the bear, deer, skunk and odoriferous musk rat are passing into the hands of the pioneer for home and farm purposes. During the month of May the sales of upper peninsula lands by the register of the land office in this city amounted to 41,428 acres, 4,260 acres of which were sold to actual settlers.

CHAPLAIN McCabe, of Philadelphia, the secretary of the Church Extension society of the M. E. church, will spend ten days in the upper peninsula, beginning with Sunday, the 12th inst. The reverend gentleman will visit those of the upper peninsula churches that are embarrassed by debt, and make an effort to free them. He will spend next Monday evening with the society in this city, and will deliver a lecture. He is an eloquent speaker and should be heard.

JAMES SHORE, drunk on Thursday evening; lodged in jail; had no money, and was let go under suspended sen-tence; Owen Curran, drunk and disorderly, sentenced to twenty days in jail; Michael O'Hara, drunk and disorderly, and a bad case on general principles, was given his choice to either get out of the city in an hour's time, or take a year's term in the house of correction; he got out.

EARLY on Monday morning it was found that seventeen cows and one voke of steers had found their way into the city pound on Bluff street. How the main construction in the structure is a quantity of the structure is quantity of t NAL paid them a visit, for the purpose of getting their story. Both men are above the average common sailor in intel igence, and both conversed in a free and intelligent manner, devoid of excitement as to the cause of their being jailed. Johnson, who appeared to be spokesman for the two, claimed that their watch was from 12 M. to 6 P. M., and each alternate six hours-that they had been on duty, scraping masts and other work, without rest, from 2 o'clock A. M. on Saturday until 4 o'clock A. M. on Sunday, during which time they had passed the Sault and reached the lake. At the hour last above mentioned they were ordered to make sail, but being exhausted from their twenty-six hours of constant labor, they demurred, and went to their bunks. On being reported by the mate, the captain, they claim, went to the hold and jerked Roberts out of his bunk, threw him to the floor and attempted to strike him, when Johnson interfered and took the captain off. They also state that after this the captain went on deck where he procured a revolver and, on returning, demanded that they should go on deck. They again refused, when the captain discharged them, and they were allowed to take rest to their heart's content till they reached this city, when they were arrested and put in jail. Both men claim that they did not refuse to work, but stated to the first-officer that they were exhausted and could not. They seemed to have enough knowledge of maritime law to believe that they would have to pay the penalty for their disobedience. Margaret Wareous,

THE CIRCUS.-Beckett's circus, the first to visit Marquette since June. 1879, reached here on Monday on the steamer Granite State-a boat chartered by Mr. Beckett to carry his troupe and equippage to lake ports-and on the following day gave an afternoon and evening performance to a tent full of people on each occasion. The MINING JOURNAL reporter has never been em-ployed as a circus critic, and perhaps is not as competent to judge of such per-formances as he would be had he given the subject more attention; but if the performance pleased the balance of the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did him and he given the sudjence as it did he JOURNAL reporter has never been em-

At this point Mr. Mapes Cinders thirsts for gore, and so great has in no other way than by tapping the fly brush of some gentle street bovine, whose beauty he should so hate to molest. But to the point. During our long and chequered career of unrequited toil, not a week has passed but that with it some second-hand threats of annihilation, contemplated by some son of a ham, have reached our ears. They have usually been given us through the instru-mentality of a "mutual" friend, and, conse-quently, the issue has never been brought to a head. Now, if these persons, who have real or fancied grievances, will make their threats to Cinders personally, he will see that they get their stomach-full of satisfaction, if he never lays up a cent, and is compelled to go without save the hearse fee.

The powers that be are not sufficient to control the small boy to-day, and you that have the mastery might as well give him his way without murmuring, for if you don't he will take it, and then there will be hard feelings in the family. The circus is here and the boy has made up his mind to go, and go he will if he wears blisters on his beam end for will if he wears bisters on his beam end for the next fortnight, or lives on half rations for the succeeding month. Mr. Henry Blenhuber, of Marquette township, will lose a large acreage of early potatoes, which he had thought would be ready for the market in about four weeks. The corn was also badly wilted by the frost, as so also was the bean and other crops. Oats and other grains were not injured. The man of family who had toiled early and late during the past few weeks that he might have green "garden sass" of his own raising, did not feel in his best mood as he stood in the kitchen door Monday morning contemplating the ruin Jack had done. Vennor predicts another frost to-morrow morning, and it would be a good scheme for farmers to lay in wait for Jack with a

refreshments. We had hardly stopped, when a boy came hurrying through the car inquiring if Mr. Tyke was aboard. "That's my name," I answered. "Here's a telgram for you." I tore it open, as the boy hurried into the next car as if to deliver another message. Mine was this: "Marwick is on the train w th you, and will get off at —. He wears a slouch hat and grav coat, is thick-set and bandy-legged, and has a slight stoop in the shoulders; also carries a black leather satchel. Arrest him on sight. BEAKES." I bustled out, and the very first person I encountered tallied so exactly with the description in the telegram as to leave no doubt I had found my man. He made no attempt to flee, but ad-vanced boldly, looking me directly in

the face. "You're my prisoner!" I said, ab-ruptly seizing his collar. "That's what I call cheeky!" he replied, pulling loose, and tackling me, adding: "I rather think you're my prisoner!"

prisoner !" A vigorous scuffle ensued. For a time neither of us went further than trying to keep his hold on the other. But my opponent lost temper at last, and planted a blow of his right fist di-rectly over my right eye. I "countered" on his nose, "tapping the claret" freely. Both called on the by-standers for as-sistance; but they only formed a ring and exhorted us to "go it." And we were "going it" lively, when a sharp voice brought us to an armis-tice.

"Hello!-what's this?" inquired a keen-eyed, jolly-faced man, in whom I recognized Captain Beakes, my chief, whose name was to the telegram. "I-I've got him!" I said, out of

RESOLUTIONS of respect adopted by Ishpeming Lodge No. 314, A. F. and A. M., to the memory of Daniel H. Wood :

M., to the memory of Daniel H. Wood: WHEREAS, It has pleased Divine Providence to remove by death from our midst, and from a promising career of usefulness, our brother, Daniel H. Wood, in his early manhood: *Resolved*, That his untimely death is deplored as an irreparable loss to our order. That we are thus deprived of a beloved brother in whose honor we had confidence, in whose fu-ture, bright with promise, we had great hope, in whom, living, we had benefit and comfort, and whose death we sincerely mourn. Though his hody we have consigned to the earth, yet his memory will be cherished in our hearts for-ever.

Resolved, That these resolutions be published and a copy thereof be furnished to the family of the deceased: and, in token of our sorrow, that our halls be draped in mourwing.

ISHPEMING takes the prize for a circus town. When Beckett's band paraded the streets Thursday, they found them all crowded, the town being full of people who had come from the outcountry-like people, too, who came world with their best clothes on and brought their families with them. From early morning the roads leading into the city were lined with people coming in all sorts of conveyances and on foot. Big women with little children, old folks and young ones tramped through the

dust and under the warm sun for miles

So fascinated while the spangled horses and their tin-helmeted riders are in town. One would think that a circus ought not to interfere with work at the mines; the night force could go by day and the and day, must " knock off " in honor of a little circus and cause a delay to the mines and railroads entailing a loss of thousands of dollars to the corporations. To return to the circus, it is conceded to be a good one by the large crowds which went to see it. The performance was fair, though the performers are not all the best of their kind. A STUBBORN FIRE.-The sounding

quarter before ten Saturday evening last,

and the simultaneous illumination of

the sky in the northwestern part of

town, aroused our citizens to a sudden

realization of the fact that there was a

fire. An alarm was immediately given and a wild stampede made toward the

shaft-house over A shaft, which was

enveloped in flames. A thrill of hor-

ror ran through every human frame at

shaft, but the fact that the week's work

had been finished half an hour before,

and that there were no men at the bot-

tom when the fire broke out, being com-

municated, left no cause for uneasiness

on that score. The flames spread with

wonderful rapidity, an adit level 30 feet

from the mouth of the shaft making a

draft that turned the building into an

impromptu furnace stack. There was,

luckily, no wind, and the flames shot

straight upwards, while the sparks wavered in the motionless atmosphere

and fell in a shower beside the burning

building, making a grand and beautiful spectacle. Men were on all the neigh-

boring buildings wetting down the

roofs, but the danger was so slight that

they soon came down. The fire de-

partment brought two streams to bear

BAYFIELD.-The proprietor of the Press has bounced Stinkfield, its late editor, and the paper comes to us considerably improved in tone and ability.

ASHLAND. - The Press notes the fact that the four-syllable hotel has been opened for the summer season, better than ever prepared for the accommodation of guests. It is, perhaps, the largest and best-conducted hotel on the lake, notwithstanding its jaw-breaking name. Congressman Pound writes that he has se-

The Press prints Dr. Arthur Holbrook's annual letter commending Ashland as the Mecca to which all hay feverites should hasten The bill is now pending in the senate and all the appliances necessary to make a successful at the first approach of a warning succeed. As steal are brought to bear to secure its final a hay fever antidote the climate of Ashland isn't to be sneezed at.

> MENOMINEE.-H. O. Fifield, for the past two years local editor of the Herald, has purchased the paper, and is now sole editor and proprietor. "Hank" is not only an industrious newsgatherer, but one of the raciest writers in the Northwest, and the Herald can but improve with the change. We like the lad, and hope he may be blessed with the most abundant success in the discharge of his increased editorial duties and responsibilities.

A black stocking with yel ow snakes coiled around the leg is the latest novelty. When the girls get to wearing these slockings thousands of men will be anxious to see snakes. Or, was it his purpose to make the next legislature convenes; then we shall be open for a full discussion of the subject. ...

MICHIGAMME.-Cold weather, and heavy frosts have been numerous the past week.

Michigamme now has a uniformed juvenile base ball club, and the Pinafores will soon have a second nine. Signor Bosco, the journeyman juggler, wiz-

ard, &c., held the last of a three evenings' en. tertainment at Odd fellows hall last Monday evening, and although the "show" was below the average the audiences were of fair size, The last evening closed with a prize waitz, Mrs. Bassett taking the lady's prize, and Emil Croll the gent's.

The water is now out of the Spurr mine, and everyone here hopes to see a large force of men at work there soon. 'A party of men is at work exploring in

Spurr township for Mr. Wetmore, and. judging by the specimens exhibited, have the best of indications. The mine here is now shipping from sixty to

seventy cars per day.

Two trains of cars, loaded with logs at Three Lakes, arrived at the mill Sunday. Many additional players have recently been added to our brass band, and it is now under the efficient management of Mr. Richard Pauli. We understand the band is now ready to fill any engagements at low rates, which latter may be ascertained by addressing the lea ler. The late frosts have done considerable injury

to gardens in and about our town. Mr. Davis, agent of the Spurr mine, went to Chicago by last Sunday s train.

Our highway commissioner is doing some telling work on our several streets, and it is to be hoped he will repair the road leading to

the cemetery-now the worst in town. It is understood that while two of Negaunee's heavy men were here, recently, they proposed to back the Negaunce base ball nine against our Pinafore club for one hundred dollars, but it is not certain that the P.'s will accept, as they are all very conscientious boys-will be content to win twenty-five dollars at a time and

consider it sufficient. The person saying Michigamme has not her proportionate number of dam-sel()s will find a decidedly gigantic job on his hands should he ever return. The appearance of a large amount of fire-

crackers is the only forerunner we yet have of per gets here now so that we can preserve a coming 4th of July. The yet undecided question seems to be: "Shall we celebrate ?" TURBURY SAME A USE

EXTRACT FROM REPORT OF THE COMMISSIONER OF INTERNAL REVENUE: TREASURY DEPARTMENT, OFEICE OF INTERNAL REVENUE; WASHINGTON, D. C., January 20, 1880. } Messrs. LAWRENCE & MARTIN, 111 Madison St., Chicago, III.: GENTLEMEN: I have received a "certified formula" giving the ingredients and relative pro-portions used in the manufacture of an article which you advertise and sell under the name of "TOLU, ROCK and RYE." This compound, according to your formula, in the opinion of this office, would have a sufficient quantity of the BALSAM OF TOLU to give it all the advantages ascribed to this article in pectoral complaints, while the whisky and the syrup constitute an emulsion rendering the compound an agreeable remedy to the patient. In the opinion of this office, an article compounded according to this formula may properly be classed as a medicinal preparation under the provisions of Schedule A, following Section 3,457, U. S. Revised Statutes, and when so stamped may be sold by Druggists, Apothecaries and Other Persons without rendering them liable to pay special tax as liquo dealers. Yours Respectfully, (Signed) GREEN B. RAUM, Commissioner.

THE laying of the corner stone of St. Peter's cathedral will occur at 3 o'clock on Sunday afternoon, the 19th inst. The Rt. Rev. Bishop Hogan, of Kansas City, Mo., will preach the sermon. Bishops of other dioceses are also ex-pected to be present.

THE Sault mail, which arrived here Thursday evening, did not reach the post-office till half-past 11 the next day. People hereabouts are beginning to seriously question whether they have any rights which the Transit company and its agents are in the least bound to respect. The Fashionable CLOTHIER! to respect.

A YOUNG Frenchman from Chocolay township brought a fourteen year old girl to the city on Tuesday, and to the house of a clergyman to whom he stated that his object was matrimony. On enquiring the infant's age the elergyman refused to marry them, and the young man went away sorrowful. The child will grow, Frenchy, so brace

THE most cowardly scoundrel, male or female, is the person who writes abusive anonymous letters to others. If the person who recently addressed such a letter to a lady living in the up per part of the city will discover his or her identity, he or she will be taught a lesson, free gratis, that will be of inestimable value in this life and the one to come.--Com.

AUSTIN S. RANALL, corporal of Co. E. 102nd regiment Ohio volunteers, Lunsford H. Stanley, private in Co. K. 18th regiment Michigan volunteers and James Norton, private in Co. F 1st regiment Michigan sharpshooters are ordered to report to Dr. H. S. Taft this city, for examination for pen-sion. The doctor has no knowledge of the whereabouts of these men, and it would be well for them to report to him at as early a day as possible.

THE sheriff of Schoolcraft county brought to the city on Tuesday and lodged in jail a farmer named Frede-rick Woodward, who lives in the vicin-ity of Manistique. Woodward will remain in jail until the next term of the circuit court for that county, where he will be arraigned on complaint of bis wife for a rape committed on his his wife for a rape committed on his 14-year old step-daughter. The pun-ishment of this brutal ravisher should be no less severe than that of his colleague, Jones, awaiting trial for mur-der committed in the same county, and both should be sent up for the balance of their natural lives.

AT a special meeting of the common council Thursday evening, the following contracts for street improvements were awarded: For macadamizing and grading Rock and Fisher streets and Third and Fourth streets, south of Washington street, to P. O'Keeffe, at sixty-four cents per foot. For macadamizing and grading Fourth, Fifth and Sixth streets, between Washington and Ridge streets, to Charles Bohn, at eighty cents per foot. For construct-ing sewer on Ridge street, from Blecker to Cedar streets and thence to the lake, to Powell Bros., at eighty-nine cents per foot in sand, and forty cents additional through rock. MARQUETTE real estate continues to look up. At the real estate agency of A. Mathews we learn of two sales of the same property, at an advance, within a period of one week; also of in-stances of parties refusing prices at which they have but recently been advertising the property for sale. Mr. Mathews also reports numerous appli-cations for tenement houses which he cannot furnish, every tenantable build-ing being occupied. In some instances old buildings without doors or win-dows are occupied. We notice, too, that a number of our cittzens who have heretofore lived in rented houses are purchasing homes of their own-certainly a good feature, and evidence of the permanent growth of our city. U. S. COURT.—The summer term of the United States court for the north-ern division of the western district of Michigan was held in the U. S. court room, this city, beginning with Tuesday and ending Thursday noon of this week, Judge Withey, of Grand Rapids, pre-siding. She was also very much troubled with corns and bunions. It was with great difficulty that she could walk, and sometimes when she would visit her husband's shoe store or any of her children, she could not get home again without assistance, and often when she was walking along the streets she would be seized with such acute pain that she was compelled to stop in at the neighbors on the way until she got better. Some two weeks ago she heard of ter. Some two weeks ago she heard of the wonderful cures St. Jacobs Oil was effecting and she at once commenced to use it and experienced great relief immediately. The pains have left her feet and ankles and the inflammation has left the corns and bunions. She is now tripping up to her husband's shoe store and out to see her children with-out experiencing any pain.—Wilming-ton (Del.) Daily Republican. DR. O. D. JONES, DENTIST,
