

THE QUACK'S PLEDGE.

Toward the end of the last century the Edinburg police, such as they were at the time, were puzzled by a number of robberies which baffled their shrewdest investigation.

One night in March, 1788, the excise office was broken into. The thieves were, however, scared off before they could break the strong boxes open, and carried away only £16 in money.

Brown contracted for a pardon as payment of his evidence, and accused several parties. The chief one, however, he did not name, but under threat of exposure strove to blackmail him.

This person's name was William Brodie. He was born of respectable parents, and filled the office of deacon, or master of his corporation. On the father's death the son succeeded to his business and preserved it; for, though there were surmises that his private habits were dissolute, and that his love of gambling led him occasionally into very improper company, he was noted for punctuality in his trade.

When Brodie found things becoming hot for him he fled, and the whole mask of his apparent respectability was shattered.

The first witness against him was a widow lady of his acquaintance. She lived alone, attended only by a female servant, and being one Sunday unable to go to church from indisposition, was, during her servant's absence there, surprised to see a man with a crape on his face enter the room in which she was sitting.

A perfect flood of astounding revelations followed. It appeared from these that he was the suggester, and in some instances the perpetrator, of the shop robberies, and always a sharer in the plunder; and that the secrecy with which they had been effected arose from the opportunities which as a tradesman, he had of getting access, when employed to execute work in them.

He had been assured by a French quack of the latter being able to restore him to life. Immediately on being cut down his body was hurriedly carried to his workshop, where this empiric is said to have made a hopeless effort at bleeding it. But the guardians of the gibbet had done their work too well. The quack's patient was as dead as the most defunct nail in his coffin.

It is to be hoped that the poisonous Ague medicines have had their day. Arsenic and quinine are not desirable commodities to carry about in one's system, even for the sake of temporarily displacing the malarial poison which produces Fever and Ague.

Brodie was brought back to Edinburg, where, along with one Smith, who kept a grocer's shop in one of the lowest districts of the town, and who had been one of his associates in the robbery of the excise office, he was in August, 1788, brought to trial for that offense.

In the interval between his sentence and execution Brodie received the visits of a clergyman and an attorney, who, in the former's case, were of a jovial and cheerful nature. On the day before his execution one of his friends remarked to him on the fatal consequences of his having been connected with bad women.

"Yes," he replied, using again the words of his favorite Gay, "tis women that seduces all mankind." An hour before his death he took a beef-steak and glass of wine, and during this last repast made some ludicrous remark to his humble and penitent companion. But, at a parting from his natural daughter, a child of ten years of age, he embraced and blessed her with emotion.

"George, do you know what that is?" "No," said Smith. "Then I'll tell you; they are drawing out the fatal beam on which we are to die."

On the morning of his execution he had his hair dressed and powdered, and soon after a clergyman entering and offering to pray with him he desired it might be as short as possible. There were more than 40,000 spectators of the scene, and at the first view of this immense multitude, and the apparatus of death, he exclaimed, "This is awful!" But his levity of conversation was soon resumed. On passing a gentleman whom he knew, and who expressed his grief at seeing him in that situation, he replied, "This is fortune

THE LAKE SUPERIOR SHIP CANAL, RAILWAY AND IRON CO.

450,000 Acres of Land in the upper peninsula of Michigan for sale or lease.

IRON MINES, COPPER MINES, SILVER MINES, SLATE QUARRIES, MARBLE QUARRIES, SANDSTONE QUARRIES, MILL SITES, WATER POWER.

FURNACE LOCATIONS (with fuel), PINE TIMBER, CEDAR TIMBER, POPLAR TIMBER, HARDWOOD TIMBER,

1,500,000,000 feet of PINE TIMBER owned by this company.

These lands were selected by experts, for mineral or timber, at a time when but very little land had been purchased from the Government in the vicinity, consequently the lands of the company are invariably the most desirable for either minerals or pine or other timber in the district in which they lie.

Menominee Iron Range, Gogebic Iron Range, Ontonagon Copper District, Silver District of Iron River.

THE MINERAL LANDS of the company are now offered for lease, on reasonable terms, and options given for purposes of examination. Eight of the best and largest mines in the Menominee iron district are on the lands of this company; i. e. East Vulcan (two mines), New Vulcan, Curry, Norway, Cyclops, Ludington, and Sturgeon—and this number will undoubtedly be increased during the present year.

For terms, lists, etc., apply to J. M. LONGYEAR, Agent, Marquette, Mich. 640y

[First publication May 21, 1881.] CHANCERY SALE.—In the Circuit Court for the county of Baraga, in chancery. Eben Snow, complainant, vs. Margaret Hurley, widow and executrix of the last will and testament of Timothy T. Hurley, deceased, Timothy Hurley, Peter White, trustee, Samuel P. Ely, trustee, Anna Mary Haesley and Emma Helen Rademacher, defendants. Notice is hereby given that in pursuance of a decree of the said court, made and entered in the above entitled cause on the twenty-sixth day of January, A. D. 1881, Cornelius D. Shea, sheriff of said county of Baraga, appointed in said decree a special commissioner of said court to make such sale, will sell, at public auction, to the highest bidder, on Tuesday, the fifth day of July, A. D. 1881, at five o'clock in the afternoon, at the front door of the court house in the village of L'Anse, in the county of Baraga and state of Michigan, (that being the place where the circuit court for said county is held) all those certain pieces or parcels of land known and described as follows, to-wit: The east half of north-west quarter and south-west quarter of north-west quarter of section seventeen (17), and the east half of north-west quarter of section eighteen (18) in township forty-eight (48), north of range thirty-two (32) west.

Dated, L'Anse, May 13th, 1881. CORNELIUS D. SHEA, Sheriff and Special Commissioner.

# The Mining Journal.

ISHPEMING, JUNE 25, 1881.

TALK about business—Myers, Wright & Co. retailed 400 dozen eggs in one day last week.

S. D. WADSWORTH left for Denver, Col., yesterday, to try his fortunes in the western country.

It is very seldom that cattle, hogs or geese are seen upon our streets, all owing to an efficient poundmaster. Even the cows on Strawberry hill are scarce this summer, and the residents of that portion of the city are not compelled to improvise salt licks at the doors of their neighbors in the next block in order to get a night's rest.

The work of pumping out "A" shaft was begun yesterday. The pumps which are to raise the 900 feet of water out of the shaft have been placed on a pontoon constructed of four kerosene barrels. By this means they lower themselves with the water, and don't require moving about. It is expected to reach the bottom in about a week.

THE teachers engaged for the coming school year are Professor H. Olcott, principal, Miss A. Olcott, preceptress, and the following assistants: Miss Downing, Miss Coulter, Miss McDowell, Miss Maggie McGinty, Miss Gleason, Miss Nora Dee, Miss Hannah Gray, Miss Maggie Gray, Miss Annie Mullins, Miss Menadue and Miss Nellie Fisher. The retiring teachers are the Misses Donahoe, Stevens, Mellen and Amy. Miss Donahoe is retained for the year following if she chooses to teach then, having been given a year's leave of absence.

"Did you hear of the terrible accident on the Northwestern railway?" asked a Main street merchant of a passer-by the other day. "No," answered the other hurriedly, getting excited, "what was it?" "A train ran off the track below the Menominee range yesterday, making a total wreck of two cars," said the first speaker, looking very serious. "Twenty lives were lost." "Twenty lives lost!" ejaculated the other, almost losing breath, "great heavens, what a calamity. Were any from Ishpeping?" "Yes," replied the merchant, looking still more serious, "six belonged to Ishpeping, or rather to an Ishpeping man. Mr. Ham lost six head of cattle, and fine animals he says they were, too." Before the latter sentence was completed by the mercantile wag, his victim was making tracks down the street, supremely disgusted, and never looked around till he passed the Commercial house corner. The accident referred to was caused by a freight train jumping the track and wrecking several cars filled with live stock.

DILLON.—The houses before which John Dillon, supported by Forhan's dramatic troupe, played Monday and Tuesday evenings, would have been considered good by the ordinary theatrical trash with which Ishpeping is generally entertained. But, for a troupe such as this one, the houses were decidedly slim. Ishpeping, which gives packed houses to snide minstrel shows, whose immense mines are compelled to suspend work on account of the arrival of a one-horse circus, does not patronize one of the best comedians in the country when he comes here. Talk about first-class entertainments; people don't patronize them when they come here. Those who did go to hear Dillon enjoyed a theatrical treat which seldom falls to the lot of Ishpeping people unless they go to the large cities. Of this celebrated actor and his wonderful art of making every one laugh nothing new can be said. He was in good spirits, and seemed to do his very best. He is supported by a first-class company, every member of which won the praise of the audience. The bills on both evenings were good. Those who attended were very appreciative, and gave repeated demonstrations of their satisfaction. Those who remained away missed the best theatrical performances ever given in Ishpeping. They will make up, however, by coming out when the next threadbare, dead-broke troupe comes along with the rag-tag of the profession, and then they will again complain that first-class entertainments give us the go-by.

FOR five years, says Mr. J. Echter, this city, I have been afflicted with rheumatism, and for two years have had a sore on my leg the size of a silver dollar, which nothing would heal. St. Jacobs Oil cured the rheumatism and healed the sore.—Harrisburg (Pa.) Independent.

## NEW GOODS

## BULLOCK'S LATEST IMPROVED DIAMOND POINTED ROCK DRILLS.

LITTLE CHAMPION.

Prospecting, mining, shafting, tunneling, draining, quarrying and sub-marine blasting. The accompanying cut represents my new drill, "The Little Champion," for shafting or underground prospecting. This machine has

ALL OF MY LATEST IMPROVEMENTS, including Trunk Engines, with balanced slide valves to use either steam or compressed air economically. It has also my "Pat. Hinged Swivel Head," "Pat. Thrust Register," (for indicating the thickness of each strata), "Pat. Roller Thrust Bearing," and "Pat. method of changing the feed while the drill is running."

The drill rods are all fitted with "Pat. Bayonet clutch couplings," which uncouple by giving the rods one-fourth of a turn. THE HIGHEST TESTIMONY AWARDED THEM FOR RAPIDITY OF EXECUTION AND ECONOMY OVER ANY OTHERS IN USE.

For prospecting, these drills accomplish the most IMPORTANT RESULTS otherwise wholly unattainable. By their use only can mines be penetrated to a depth of from one to TWO THOUSAND FEET through the HARDEST ROCK, at any angle, taking out a core the entire depth, fully developing the strata passed through. Tunnels driven and Shafts sunk in from one half to one sixth of the usual time, by using these machines in connection with our Pat. Long Hole Process.

**THE MINING JOURNAL.**

NO PAPER SENT TO ANY AD DRESS UNLESS PAID FOR IN ADVANCE.

SUBSCRIBERS ordering their papers transferred from one address to another should be sure to give the name of the postoffice to which the paper is being sent at the time, in order to secure prompt attention, as otherwise the mail clerk may have to search through the entire list to find the name.  
**PARTICULAR NOTICE—**The MINING JOURNAL will not be sent to subscribers after the expiration of the time subscribed and paid for, unless the subscription is renewed. Subscribers can always know when their subscription expires by comparing the number of the printed address on their papers with the corresponding number on their receipts.

All letters of a business character, such as advertisements and communications intended for the columns of this paper, should be addressed to "THE MINING JOURNAL," and not to the editor personally, as is often the case. Only letters of a personal or confidential nature should be addressed to A. P. SWINEFORD.

All advertising sent from abroad must be paid for in advance, whether coming direct from the advertiser or through an advertising agency. Orders from advertising agents will not be accepted, or receive any attention whatsoever, unless based on our regular rates, less the usual commission and accompanied by the cash. This rule is imperative, and will not be departed from under any circumstances.

Patented at the Post Office at Marquette, Mich., as second-class matter.

The Fayette furnaces are both out for repairs.

The Carp River furnace is receiving a new hearth, and will have her fires relighted in about two weeks.

STILL another discovery of ore is reported to have been made on the Teal Lake range, this time by Ben. Neely, on a 40-acre lot just south of the Cambria. The new find is said to promise well.

ONE pit of the Argyle (old Edwards) has been unwatered, and Capt. Bale, the superintendent, expresses the belief that he will be able to mine and ship from 5,000 to 10,000 tons the present season.

THE Excelsior furnace has not been blowing lately, owing to the fact that the stack was found to be making water so badly that she had to be blown out until the fault could be found and remedied. J. B. Lyons has been placed in charge, and the stack, it is expected, will be ready for the blast in the course of two or three weeks.

A NEW and important discovery of ore is reported to have been made on the north half of the north-east quarter of section 8, town 41, range 28—on lands recently purchased by Hon. Edward Breitung from J. H. Jacobs, Esq., and in which Hon. J. F. Colwell owns an undivided one-fourth interest. Mr. Colwell, through whose direction the explorations were carried on, informs the MINING JOURNAL that the developments so far reveal a deposit of very fine blue ore, 70 feet wide, which has been opened by test pits and trenches over a length of 250 feet. A new company will be organized, under the name and style of the Hecla Iron Company, and it is the intention to push the work of development as rapidly as possible. The many friends of Mr. Colwell will be more than pleased to learn of his good fortune—no man is more deserving.

RELIABLE advices to the MINING JOURNAL are to the effect that the Indiana mine, on the Menominee range, is assuming majestic proportions. A cross cut from the bottom of the shaft has been driven nearly twenty feet in ore of the best quality, and as yet the drift has not encountered either the foot or hanging-wall. The work thus far done certainly leaves no room to doubt the existence of a large deposit on the Indiana tract, and the owners are, with good cause, exceedingly jubilant over the prospects. Kruse & Travers, formerly of Marquette, but now of Chicago, are large shareholders. Lewis & Wood are at work on an adjoining tract, with a good show for finding an extension of the Indiana vein. The Indiana will, it is claimed, be ready to ship ore as soon as the necessary railway facilities can be secured.

THE Chicago mine has passed into the hands of the Chicago Mining company, of which the following directors were chosen at a meeting of stockholders, held at Negaunee on the 22nd inst.:—Wm. Sturges, John N. Glidden, D. F. Wadsworth, James F. Foley, John Q. Adams, J. F. Stevens and W. C. Calhoun. At a subsequent meeting of the directors the following officers were chosen:

President—Wm. Sturges, Chicago;  
Vice President—J. F. Stevens;  
Treasurer—D. F. Wadsworth;  
Secretary—W. C. Calhoun;  
Manager—Jas. F. Foley.  
The new company is a strong one, and recent developments at the mine shows it to be one of much promise. The selection of Mr. Foley as manager insures the rapid and economical development of the property, and the MINING JOURNAL will miss its guess if the Chicago does not soon take a prominent position among the hematite mines of this district.

THE old Cleveland mine leads the shipping list with lake shipments aggregating 45,638 gross tons up to and including June 22. The Lake Superior follows with 43,221, and the Republic comes next with 42,900 gross tons. During the same period last year the Republic shipped 67,971, the Cleveland 62,852, and the Lake Superior 44,211 gross tons. These figures, however, show that the Lake Superior more nearly holds her own than any of the larger mines in the district—showing, really, considering the lateness of the season, an increase over her output during a corresponding period last year.

It is proper to say that lake shipments were begun three weeks earlier last year, and that the falling off in shipments is more than counterbalanced by the larger amounts of ore in stock at the mines.

SHIPMENTS.—The following is a statement of lake shipments of iron ore for the season of 1881, up to and including June 22, 1881:

ESSENA- MARQUETTE DISTRICT.	
Angeline	2,131
Barran	6,819

Total pig iron	1,059
Carp River Iron Company	1,954
Ore to local points	10,410
Total ore, pig iron and quartz	158,799

A falling off of 54,555 gross tons.  
The following is a statement of shipments made from the Menominee Mining Company's mines by lake, from opening of navigation to Wednesday June 22, inclusive:

Name of Mine.	Gross Tons.
Chapin	33,064
Cyclops	4,288
Florence	11,232
Norway	32,499
Quinnesec	18,489
Vulcan	25,407
Total	129,199

An increase of about 5,000 tons over a corresponding period last year, notwithstanding the late opening of the season of navigation.

DETROIT is beginning to look this way for trade once more, prompted thereto by the reasonable certainty of direct railway communication with the upper peninsula before the end of the present season of navigation. There are some live, wide awake, liberal wholesale dealers in Michigan's commercial metropolis, but the trouble they will experience in securing the trade of the liberal business men of the upper peninsula will be the difficulty they will have in distinguishing them from the greater number of close-fisted old fogies in the same city whose only conception of how to make money is to give as little as they can for all they can possibly get. A canvasser for the MINING JOURNAL recently interviewed the Detroit wholesale dealers and solicited their advertisements for a publication of large circulation just issued from this office, and a copy of which will go into the hands of every person directly or indirectly interested in mining affairs on Lake Superior. In most cases he was received courteously, though a large majority did not think the proper time had come to make a public bid for the business of this region. Some few liberal dealers and manufacturers gave their orders cheerfully at regular rates, and not a few avowed their intention to avail themselves of the advantages offered by the MINING JOURNAL, as an advertising medium, in the near future. The conduct of one firm, however, Standart Bros., hardware dealers, was such an extraordinary character, viewed from a Lake Superior standpoint, as to entitle it especial mention. They were anxious to secure Lake Superior trade, of course, and really offered to advertise, if the canvasser would take the order at a discount of 33 per cent. from regular rates, and agree not to admit the advertisement of any other house in the same line of trade! They would take a full page, and pay ten dollars for it, provided all others in their line were kept out! It is, perhaps, just as well that the Standart

Bros. shouldn't advertise for Lake Superior trade. Our people wouldn't be very apt to appreciate the liberality of a firm that higgles about the price of a fifteen dollar advertisement, and at the same time insists upon a monopoly of the publication in which it is to be inserted. It is to be hoped that there are not many Standart Bros. firms in the list of Detroit business houses.

DETROIT wants more and better hotels, though the press of that city seems to think if Luther Becher could be made to lose his grip on the Biddle house, the desideratum would be reached. Luther has a long lease of the Biddle, and won't keep the house open himself or permit any one else to do so. It may well be questioned if a man has any more legal than moral right to tie up property like the Biddle house, to the very great injury of his neighbors, to say nothing of the public generally. Whether he has or not, Beecher is apparently gaining such a hold on the affections of the Detroit people that they hate him now, they will certainly love him when he dies with an affection no less fervent than they now entertain for slippery Joe himself. He has wealth enough, notwithstanding the large outlay occasioned by his cussedness to insure a first-class funeral, if a sufficient number of mourners can be found—and not one, but at least a dozen first-class funerals is what Detroit needs more than anything else, except a railway bridge or tunnel.

THE War department has lately issued a circular in which it requests all newspapers, in the interest of the widows and orphans of soldiers and disabled soldiers themselves, to give the subject matter the widest publicity possible, and as the MINING JOURNAL is one of that sort, it hereby notifies its 6,000 or more readers that there is now pending in the war department, a great number of volunteer pension claims which cannot be satisfactorily verified for want of information which missing records of discontinued volunteer commands would afford, and it having transpired, in many instances, that officers of the late volunteer forces have still in their possession, or under their control, books and other records pertaining to their corps, divisions, brigades, regiments and companies, their attention is called to the fact that all such books and records should be sent to the department; and they are earnestly requested to cause the same to be forwarded without delay to the adjutant general of the army, Washington, D. C., who will pay the express or mail expense of sending.

The editor-in-chief has effected an arrangement which will relieve him from general editorial work, and enable him to give exclusive attention to the mining department from and after the next issue of the MINING JOURNAL. It is his desire to greatly improve that department of the paper, and with that end in view he will visit all parts of the iron mining districts during the summer, taking in the new developments, those north-west of Florence, and most probably the Agogeebic region. The public may depend upon impartial and truthful reports concerning all new properties coming within his personal observation, and he will rarely, if ever, make any report except it be based upon a close personal examination—and then the authority for any statement made will be given. He hopes thus to very materially enhance the value of the MINING JOURNAL as a truthful exponent of the rapidly growing iron mining interests of the Lake Superior region.

THE ancient and dilapidated town of Superior City is having a boom of goodly proportions just now. Half the real estate in town—and it's a big one on paper and covers a heap of ground—has been given to the Northern Pacific railroad company, who will make it a point on their main line, and their real lake terminus, Duluth having to be content with a branch. We all know what a railroad company can do for a town when it tries, and we'll bet dollars against cents that Superior will in a very few years be the "commercial metropolis" at the head of the great unsalted sea. It will be the city, of which Duluth will be a quiet, but always rather pleasant suburb!

CAPT. G. D. JOHNSON, for many years superintendent of the Lake Superior mine, but of late years a resident of Utah, is in the county once more, and will spend the summer in an effort to develop an iron mine in the neighborhood of the Magnetic and Cannon.

MR. Senator Logan is dangerously ill at her home in Chicago.  
—Griscom, the Chicago faster, lost twenty-seven pounds in twenty-two days' fasting.  
—Adeline Patti has at last decided to visit the United States with her manager.  
—A Mrs. Andrews attempted to commit suicide by throwing herself in the river at Cleveland, O., because her first husband, whom she supposed dead, turned up after she had married another fellow. Too many husbands don't usually affect 'em in that way.

THE new iron steamship Brunswick is on her first trip to Duluth, with a cargo of 1,531 bushels of coal, drawing only eleven feet nine inches of water. She is easily handled, and uses little fuel.  
—J. D. Loring has been appointed general superintendent of the Chicago & Northwestern Railway, and will enter on the discharge of his duties July 1st.  
—Now there's a wife for a poor man! A woman in Tennessee recently gave birth to seven children at one inning, and it is feared that one or two of the brood managed to get away. The story is vouched for by the physician in attendance at the time, and several reputable gentlemen who have seen the collection of infants, and who unite in the opinion that some of the youngsters will necessarily have to be nursed from a bottle—in fact, from several bottles.

THE population of Ireland has decreased a quarter of a million in the last ten years.  
—Hensley, formerly a Houghton county attorney in the Detroit jail, having been held for trial after examination on a charge of obtaining money under false pretenses, and being unable to give the amount of bail required—\$1,500.  
—V. B. Cochran, Esq., of Negaunee, qualified as superintendent of Public Instruction last Tuesday, and at once entered upon the discharge of his duties.

There is trouble between the French and Italians, at Marsailles, and several regiments of troupes are necessary to keep the peace. It is all owing to some members of an Italian club having hissed some French troupes returning home from Algiers.  
—Ex-U. S. senator Henry S. Lane, of Indiana died early in the week. While his funeral was in progress on Tuesday his partner, Col. C. Wilson, also died.  
—The safe of J. D. McDonald, contractor on the eastern division of the D. M. & M. R. R., was broken open and robbed of \$1,500 a few nights ago.  
—Duluth is wrestling with another paper railway project. Some days ago it was announced that \$5,000,000 had been subscribed in Boston for the purpose of building a railway from the "zenith" to Wimpel, but the Boston newspapers say they are unable to find the persons by whom that or any other amount has been subscribed for such a purpose. It was, probably, only one of the shrill notes of the whistle with which Duluth is trying to braze up her falling commerce.

A Georgia youth named Thomson procured the indictment of his own mother, on the charge of having committed adultery. She was acquitted, and if there is anything that will tend to allow the suspicion that the "shotgun" policy has been abandoned in the south, it will be found in the fact that the young scoundrel is still permitted to carry his body unburdened with a well deserved burden of the heaviest kind of lead.

Lane, the Detroit printer who tried to poison a man named Allen, with whose wife he was in love, and who confessed his crime, after being arrested, refuses to eat anything, except the glasses from his spectacle, which he broke up fine and swallowed. He still lives, however, though it is to be hoped that he may succeed in starving himself to the death he so richly deserves.

SEXUUS N. Wilcox and Dr. Alexander C. Bell, prominent Chicagoans, were drowned in Lake Superior, while attempting to cross the mouth of the Manitowish river in a heavy sea, on Friday last. Mr. Wilcox was one of the heaviest lumbermen in the northwest, and his death was the cause of profound sorrow in the city of his home, where he was a member of the board of park commissioners.

THE Pond divorce case is drawing its nasty length along on the Supreme court at Boston. The Pond in question is the doctory major who traveled heretofore last summer as agent for Beecher, who, however, is not mixed up in the marriage. Pond charges his spouse with having been unfaithful to her marriage vows, which is always an unpardonable offense against the husband "who knows how it is himself." If a fair exchange is no robbery, Pond ought no more to be awarded a divorce than to be immediately transported to heaven in a gilded chariot. To those who know him, the idea of his suing for a divorce on the ground of adultery appears most ridiculously absurd—they can but conclude that whatever the facts in this particular case, the wife, though a brazen harlot, has been "more sinned against than sinning."

MR. Sir Roger Tichborne, who tells a very strange story, has turned up at San Diego, Cal. He was recently visited by the Duke of Sutherland and Dr. "Bull" Run Russell, who seem to have been much impressed by his story, and who have mailed a statement of his case to England.  
—They can pay their money and take their choice—of weather. While people in this latitude are wearing ulsters and burning coal to keep warm, those of New Orleans are wearing chunks of ice in their hats to ward off sunstroke, of which there have been a number of fatal cases.

THE senatorial squabble still continues in the New York legislature. Ex-Vice-president Wheeler says the only way out of the difficulty is to elect as one of the senators any man in such a case Conkling would name a certain ex-senator more closely related to himself than anybody else.  
—Early on Wednesday morning a party of some twenty men, citizens of Lamont, went with teams to the jail at Grand Haven, Mich., for the purpose of taking out and lynching Voskamp, the murderer of Lyman Cady. The keys to the jail were obtained by false representations, and the cell keys taken by force. The sheriff's wife gave the alarm to the night police, who sounded the fire alarm which frightened off the twelve would-be lynchers who remained outside the jail. The lady then turned the key and made prisoners of the eight men inside. They were taken before a justice of the peace, who held them in the sum of \$16,000 each for trial at the next term of the circuit court.

—There were eleven cases of sunstroke in New Orleans on Wednesday, four of which proved fatal.  
—The British steamer Naples landed nine hundred Chinamen at San Francisco on Wednesday.  
—Colonel Cash, the bloodthirsty South Carolinian who in a duel shot and killed the man Shannon, has been acquitted.

COMMON COUNCIL.—A special meeting of the Common Council of the city of Marquette was held at the city hall on the 16th day of June, 1881, on the requisition of the mayor.  
The roll being called and a full council present, the regular order of business was suspended and the mayor explained that the object of the meeting was to amend section two of an ordinance relative to grading and macadamizing Rock, Fisher and Fourth streets so as to authorize the council to take the necessary steps to grade and macadamize those streets to the width of twenty-six instead of twenty feet, as specified in the original ordinance. It was then moved that the street committee be authorized to cancel the contracts previously entered into for grading and macadamizing Rock, Fisher and Fourth streets, which being carried and the contracts canceled accordingly, it was ordained that section 2 of the ordinance relative to grading and macadamizing Rock, Fisher and Fourth streets be amended so as to read 26 feet instead of 20 feet, and that the recorder be requested to advertise for proposals for the work.

Section three of an ordinance relative to ponds and poundmasters was amended so as to read as follows:  
It is hereby ordained by the Common Council of the City of Marquette: That section three of Ordinance number Seven, relative to Ponds and Poundmasters, as adopted August 2nd, 1876, be and is hereby amended so as to read as follows:  
SECTION 3. No Horse, Ass, Mule, Swine, Cattle, Goat, Cat or Dog shall be run at large in the city of Marquette, within the following described boundaries, to-wit: Commencing at Lake Superior, at a point at the saw mill of the Marquette Lumber company, in said city, thence along the foot of the bluff to a point where Michigan street intersects the line, thence through the center of Michigan street to Seventh street, thence

through the center of Seventh street to a point where the line, if extended, would intersect the line of the street between the center of said bluff to a point on Lake Superior where the same empties into said lake, and thence along the shore of said lake to the place of starting. And none of the above mentioned animals except swine shall run at large within any part of the city at any hour.  
Moved by alderman Lyons and seconded by alderman Pickands, that a committee of three, of which the mayor shall be chairman, be appointed, whose duties it shall be to move and repair the dwelling house on the city lot, and procure material and build a city engine house on the city lot, under plans and specifications to be approved by the council at their next meeting.  
The motion being carried, the mayor named alderman Lyons and H. E. Warner as members of said committee.  
The council then adjourned to June 28th, 1881, at 7:30 P. M.  
JOHN G. O'KEEFE, Recorder.

**FUN WITH THE BOYS.**  
FLORENCE.—From the News: The hotels are crowded with guests. Goes in for a big Fourth of July celebration. The reason that they will not have a circus. The Presbyterian church has been newly carpeted. Good and substantial sidewalks are being built all about town.—Duncan McMillan has 60 men employed in grading the new branch railroad.—Two miners died in the Norway mine last week, from suffocation, produced by poisonous gas from a discharge of nitro-glycerine.—Laborers on the branch railway struck for higher wages one day during the week; they got their time and money.—Offers to be the editor of the Mining Gazette. The new pair of boots that the Saginaw pine slanders will never build one mile of the O. & N. R. R.—The week has raised the "heavy rains of the week" have raised the streams so that "hung up" logs can move on to their appointed end.—Don't think about Fourth strike the village with sufficient force to do any permanent damage.—The body of Albert Whalen, recently drowned on the drive, has been recovered and forwarded to the home of his parents.—John Dillon pleased the Florentines in his representations of "Swamp, the Yankee" and "Handy Andy."—Duncan A. McMillan and Miss Anna Carney were made one flesh by the Rev. Father Mozier, on Wednesday.—Agent Morrison don't allow profane or obscene language around the depot, especially in presence of ladies. One day last week he had to clear out a crowd of low-lived pimps with an iron club; they will use better language in the future when at the station.  
The News also furnishes us with the following items of interest in and about Commonwealth: Eighty-five car loads of ore leave the mine daily.—A vein of ore has been struck in the shaft at the south-west end of the mine, and runs south-east and north-west.—The mammoth ore pocket holds 500 tons.—The train roads to the ore pockets have been completed.—The mine is lighted by a new process of gasoline, which is found successful.—Some talk of building a Catholic church.—DeLorimer & Richards, late of Marquette, have already established a good business.—The company will probably build a large boarding house for the accommodation of their men.  
L'ANSE.—The Bee, after three months of labor in moving, has finally opened, and is running shop at the county seat. The editor, in his announcement of the change, says: "The Bee is at last established at L'Anse, we trust permanently, and shall be glad to have any of our friends drop in and see us at any time. We shall be glad to receive items of interest to lighten our editorial labor, but the most interesting item that we think of just now is one of Uncle Sam's two dollar notes. But come any way whether you have it or not." If the man Kinney will brace up and be eminently able to give, take the word for it he will not want for two dollar notes. The citizens of L'Anse have long wanted a paper, and now that they have one will give it the support it merits. If it merits much, much it will get; if it merits little, it will get very little. Kinney has it in his power to do either.

THE Linda house parlor has a new upright piano. Downs will eventually get things into shape. This last addition gives us the desire to spend another evening under his hospitable care and roof.  
ONTONAGON.—From the Miner of the 18th inst.: Mr. and Mrs. Mercer and daughter reached home on the tug Maytag, Sunday.—A new man will be sent by the government to superintend the harbor improvements, in place of Col. Bradley.—The severe winter has killed all the tame plum trees and a great many cherry and apple trees. Farmers and gardeners are apprehending trouble from grasshoppers, large swarms of which have recently hatched out.—The six boilers and the smoke-stack for Rich Bros. mill arrived on the propeller Arizona on Monday.—The O. & N. R. railroad "magnates" arrived on Sunday, and there was commotion in the village.—John Bogardus, a former Ontonagon business man, died recently at his home in Chipewaga, Canada. He was 55 years of age.  
MR. Balcom is telling of some really wonderful facts that have been made by the use of the mineral water from the Waukula mine. If this water really possesses such curative properties, we would suggest that some organized effort be made to have it analyzed, examined and introduced, in order to ascertain and test its real merits. There seems to be no doubt, from what we have heard of it, that it does possess properties that make it at least a beneficial agent in kindling diseases and dropping complaints. If so, it can be made a source of much profit to some enterprising man or men and be of great benefit to the town.

AN assessment of one dollar per share has been levied upon the capital stock of the Aljoux Mining Co., payable at the office of the company in New York, on or before July 8th, 1881, with interest at six per cent. after that date.  
The new owners of the Nonesuch mine have taken possession, and commenced work. Work on the site of the new mill has also commenced. The Miner says: "We may now consider the question of the rapid development of the Nonesuch mine settled beyond doubt, and we shall watch with interest the progress made."  
ESCANABA.—The Port says that Prof. Northrup has been engaged as principal of the school for another year.—St. Joseph's (Catholic) church is happy over the restoration of Father Langner to the pastorate.—Oscar Nelson, employed on the pier to unload ore, fell into a pocket on Wednesday, receiving a broken arm and some bruises.—The Ludington house will change hands on the 25th, Mr. Gates, formerly of the Duluth place, taking possession. The house will be overhauled and improved.—A J. Harding has a piece of fast horse flesh which he calls "Nellie."—Frank Roach, brakeman on ore train No. 52, had his leg broken by falling between the engine and an ore car, on Monday. The leg has since been amputated.—The Jackson furnace at Fayette is now out of blast and undergoing repairs which will require two months' time to complete.—Chaplain McCabe has been in Escanaba. He raised \$1,000 among the Methodists with which to pay off the church debt.—The Tilden house has a new bus.—Fayette will celebrate the Fourth.

THE arrangements for the celebration of the coming national holiday are nearly completed. The Negaunee band has been engaged, Mr. John Power will deliver the oration, and the Escanaba club will give an exhibition game of base ball. The day will be ushered in with a national salute, games of all sorts will be held, and the hours, and a ball in the evening will wind it up.  
The schooner Golden West, of and for Chicago, sprung a leak just as she had completed her cargo, on Tuesday, and as her pumps could not keep her free, was moved from her berth at No. 2 dock upon the middle ground between

NO'S 2 and 3 where water. Her crew sent a tug and some five men. The Froysterian have decided to have the school building at church edifice. A day evening for the plans.  
Superintendent J. N. Miller, Miss Nellie Conn, on Wednesday 7 a. m. of the succeeding day, the schooner was loaded with 3,054,000 tons, and for many years.

There seems to be no doubt, from what we have heard of it, that it does possess properties that make it at least a beneficial agent in kindling diseases and dropping complaints. If so, it can be made a source of much profit to some enterprising man or men and be of great benefit to the town.

AN assessment of one dollar per share has been levied upon the capital stock of the Aljoux Mining Co., payable at the office of the company in New York, on or before July 8th, 1881, with interest at six per cent. after that date.  
The new owners of the Nonesuch mine have taken possession, and commenced work. Work on the site of the new mill has also commenced. The Miner says: "We may now consider the question of the rapid

No. 2 and 3 where she sunk in fourteen feet of water. Her owner was immediately notified and sent a tug and steam pumps.  
The Presbyterian church society, having become too numerous for their present quarters, have decided to rebuild and enlarge their church edifice. A meeting was held on Saturday evening for the purpose of agreeing upon plans.  
Superintendent Linsley, accompanied by his sister, Miss Nellie, returned from Meriden Conn., on Wednesday.  
Between 7 a. m. on Monday last and 7 a. m. of the succeeding day there was hoisted through the ore docks into vessels 17,000 tons (21 cargoes) of ore—the largest day's work on record. At that rate the Northwestern could handle and ship, in a season of 25 weeks, 1,000,000 tons, and we expect to see it done before many years.  
The "So."—The News of the 15th records an accident at the upper entrance to the new lock, by which a laborer named Thomas Jones was almost instantly killed, by being struck on the head by a piece of timber falling from the top of the pier.  
Duncan McIntyre, Esq., vice president of the Pacific railroad, stopped in town a few days this week. He says that his company will shortly construct a road to the Sault.  
The ground in the skating rink has been covered with saw-dust, and is now being let to neatrical troups. Of the experience of one troupe the News says:  
The Enoch Arden troupe has been playing here during the week, and find the building very satisfactory in every respect. But the board roof, designed to shed snow, is not water-tight in all its compartments, and when the rainy season set in the other evening during the play great consternation prevailed. The audience, as far as supplied, raised their umbrellas and supplemented the roof, while those less fortunate humped up their hats. The play went bravely on between the drops, but the most natural acting of the evening was when the hero, arrayed in a low-necked dress, leaped forward to weep, and a small stream of Lake Superior rain water descending through the roof traversed her spinal column.  
Work on the new Catholic church is being pushed vigorously.  
The Ste. Marie has made her regular trips to the "cities of the straits" this week, and has been doing a very satisfactory business.  
The News states that the persons property was not transferred to the government along with the canal; it has been stored in a building erected for that purpose, until the state authorities order some disposition of it. By the way, Mr. News, what disposition is to be made of the surplus earnings?  
Farmers are still exultant and boast the finest prospect for crops ever known in this section.  
Gen. Duffield, representing parties who have an eye on the magnificent water power at the "So." has been in that burg making some survey. The parties who take hold of that enterprise will find it a bonanza; the time is coming when its water power will make Sault Ste. Marie one of the principal manufacturing centers of the Northwest.  
The work on the new locks has been progressing very favorably and rapidly during the past week. Both cribs, or piers, at the west end are completed and are being filled with rock. The one on the north side of the east end is done, and on the south side commenced, while the work on the gates is being pushed with great rapidity. Williams & Upham's dredge has commenced excavating at the east end, and Noble seems determined to get the locks ready for operation at the earliest possible date.  
The News says that ground will soon be broken on the Ontonagon & Brule River railroad, at or near Ontonagon, and that the watchword is "business." No one will object to the Brule river company breaking ground when and where they please, but "business" will not probably commence in dead earnest until it comes to select the lands which the legislature has attempted to steal on its behalf. Then there'll be music, if, indeed, the bossant refrain of "the rogues' march" isn't owner played for the benefit of the would-be and grabbers.  
MUNISING.—Some parties have recently been looking over the Munising furnace with a view to purchasing it.  
The track of the D. M. & M. R. R. will soon be laid to No. 2 Kilns, near this place.  
Scour your pop-guns and sharpen your harpoons, ye disciples of Nimrod and Isaac Walton: "Gh up and get," ye denizens of forest and stream, at the time come when it will be too late to flee the tender mercies of ye sportsman.  
The hay crop never promised better in this section. Present appearances are that there will be over 150 tons of timothy cut, though here are only four one-horse farmers in the entire township—a township large enough for a state twice the size of Rhode Island or Delaware.  
The Williams estate was closed out to the heirs, in payment of legacies due them. We understand that the property will soon be advertised in the MINING JOURNAL to be disposed of at private sale. A splendid chance for a speculation.  
Ed. C. Cox, Jr., killed a bear at Ontonagon a few days ago, weighing about 240 pounds, and rounded another two days later. Bear steak gratis.  
Pay-day on the D. M. & M. R. R. comes round as sure as fate, and the needful falls inglingly into the pockets of the navvy. McDermid & Hendrie are pay-as-you-go sort of fellows, and subject to no discount.  
Frank Cameron reports the finding of three deer carcasses just before the snow had left the ground, which had been killed by the wolves. Only the livers had been eaten, which shows the abundance of food at the disposal of these beasts of prey. He also found the remains of several deer which had been killed in camping from the Forest City depot.  
The forests hereabouts are now the most desirable place in the world in which to spend the summer. During a recent tramp we saw only one black fly, two mosquitoes and one house fly, though we had a good many fish bites.  
As a good and law-abiding citizen, we say let the severest penalties of the law fall on the head of the pot-hunter who dares to slay a leecher out of season. As a man and a philanthropist we say further, secure the venison if you are hungry, send us a juicy piece of the addle, and you will find us oblivious of everything except the fact that you is a very good article of diet. Whose ox is gored?  
He walked to the store dressed in perspiration and a pair of overalls, six feet two; a raw hat crowned a dilapidated head, and the man looked for all the world like the forerunner of a sickly sucker season. We would not have given a pewter nickel for all there was in him. He carried a small grip-sack, and asked for a cake of soap—and truly no man ever needed it more than he did. In the course of an hour the tramp emerged from temporary concealment another man, as it were—with tanned up collar, and side-whiskers combed and dled so slick that a fly would be in danger of breaking its neck if it attempted to gain a foothold upon it. Coat, pants and vest were suitably neat and of the most approved cut and make. In the last case the apparel proclaimed the gentleman. Since then we have been puzzled to decide whether the dignity is in the man himself, or in the clothes! We give it up. Moral—don't judge an explorer by his clothes just when he comes out of his woods.  
Lisle Thread Gloves, Silk Gloves and Lace Mitts, in all the seasons colors, set up at James Morgan's Dry Goods and Millinery house, 336 and 338 East Water street, Milwaukee, Wis. His great sale of summer dress goods continues. Mr. Morgan never had such a large trade in Silks, Cashmeres, Table Cloths, and in fact in all the departments, as he is having at present.

**BUSINESS NOTICES.**  
E. O. STAFFORD & Bro. have just received a fine stock of Knife, Waste and Lunch Baskets. 675tf

INSURE in the Detroit Mutual Benefit Association. R. J. COOK, Agt., 651tf Marquette.  
FOR SALE.—One 20-horse power Root boiler in good condition, at our Negaunee brewery. (669tf) MEESEKE & HOCH.  
WAGONS.  
I respectfully call the attention of the public to one of the best-built wagons that has ever come into the county, built by B. F. & H. L. Sweet, of Fond du Lac, Wis., the celebrated Common Sense Sleigh Builders. The whiffletrees are so arranged that they will hold up the wagon tongue for the horses, and prevent them from having sore necks, which is a large item to every man who owns a team. This wagon is built of the very best stock-hickory axles, Menasha spokes, bent rims, screw rivets each side of spoke, so there is no chance for rim to split. Parties will do well to buy the very best wagon in the market, and save money by doing so, instead of buying the old style wagon when they can get the celebrated Sweet wagon for the same price. Orders taken for the above wagon, including Delivery Wagons, light and heavy Spring Trucks, Buggies, &c. Every wagon warranted. T. MORGAN, Agt., 672tf Marquette, Mich.

**New Advertisements.**  
**BRICK YARD.**

C. Caldwell, William McComber and Daniel McComber, all of Chocomaug township, Marquette county, Mich. 675w5  
H. H. STAFFORD, Register.  
LAKE SUPERIOR IRON CO.—At the annual meeting of the stockholders of the Lake Superior Iron Company held at Boston, June 15, 1881, it was voted that the secretary be ordered to call a special meeting of the stockholders on the twentieth day of July next, to consider and act upon the subject of an increase of capital. Pursuant to the above vote, stockholders are hereby notified that a special meeting for the purpose in said vote mentioned, will be held on Wednesday, July 20th, 1881, at eleven o'clock in the forenoon, at the office of the company, No. 37 Franklin street, Boston.  
A. C. TENNEY, Secretary. 675w4  
Boston, June 16, 1881.  
[First publication June 11, 1881.]  
CHANCERY SALE.—In the circuit court for Marquette in Marquette, in chancery, James Sheehy, complainant, vs. Frank G. Johnson and Louisa Johnson, defendants. Notice is hereby given that pursuant to a decree of the said court, made and entered in the above entitled cause on the fifth day of April, A. D. 1881, J. James E. Dalliba, a circuit court commissioner in and for the county of Marquette, Michigan, will sell at public auction, to the highest bidder, on Tuesday, the twenty-sixth day of July, A. D. 1881, at ten o'clock in the forenoon, at the front door of the court house in the city of Marquette, Michigan, (that being the place where the circuit court for said county is held), all that certain piece or parcel of land situate and being in the city of Negaunee, in the county of Marquette and state of Michigan, described as follows, to-wit: Lot number eighty-seven (87) in "Iron" being a subdivision of that part of the village (now city) of Negaunee included in the north-west quarter of the south-west quarter of section number six (6), in township number forty-seven (47), north of range number twenty-six (26), west. A map of said subdivision is recorded in the Registry of Deeds of said county, in Liber "F" of deeds, on pages 465 and 466, to which record for further particulars as to size and boundaries of said lot, reference is hereby made.  
Dated, Marquette, Mich., June 8, 1881.  
JAMES E. DALLIBA, Circuit Court Commissioner in and for Marquette county Michigan. 675w7  
W. P. HEALY, Complainant's Solicitor.  
[First publication June 4, 1881.]  
STATE OF MICHIGAN, COUNTY OF MARQUETTE, ss. In the matter of the estate of Myrtle Campbell, a minor, by the honorable Judge of Probate for the county of Marquette, in said Marquette county, Michigan, in said Marquette county, on Monday, the eighteenth day of July, A. D. 1881, at ten o'clock in the forenoon, subject to all incumbrances of mortgage or otherwise existing at the date of sale, the following described real estate, situate in the county of Marquette, and state of Michigan, to-wit: The north-west quarter of the south-west quarter of section twenty-eight (28), in Township forty-seven (47) north, in Range twenty-four (24) west. 675w7

NEGAUNEE.

NEGAUNEE will celebrate the Fourth at the Driving park.

FIREMEN'S ball at Winter's hall on Friday evening, July 1st.

REV. MR. DAVIS will conduct services at the Presbyterian church (Winter's hall) to-morrow evening.

Mrs. J. Q. ADAMS and son are visiting relatives in Connecticut. Mr. Adams returned from there on Tuesday.

THE cornet band will blow music at the Escanaba celebration on the Fourth, but they should have been kept at home.

MR. HARRY MERRY has arrived home from the military academy at Morgan Park, and will abide with us until the beginning of the next school year.

JOHN ELLIS, driver of an ore cart at the South Jackson, fell from his cart last Saturday morning and had his foot run over, and crushed in a frightful manner.

HON. WM. H. BARNUM, chairman of the national democratic central committee, who has been looking after his various interests in this county, left for the east on Tuesday.

THE contract for building the new school house in the Rolling Mill district was to have been let yesterday. The board will push the building so that it may be ready for use by the opening of the school year.

MR. T. M. WELLS, who for eight years past has been connected with the Iron Cliffs store, will sever his connection with that company to accept the position of cashier to the Chicago Mining Company.

ON the property of Mr. J. B. Maas, east of the Chicago mine, the explorers, on Wednesday, struck a body of ore, which appears to be a good quality of blue hematite—the same as found in the Chicago mine.

P. C. J. MILLER has succeeded in turning the old Tivoli on Iron street, into something several degrees above the ordinary beer saloon. The lunch counter is a new feature, and persons stopping over for trains will find Miller's lunch to be "away up."

A LETTER from Nat. D. Moore, late of this city, but now residing in Ashland, Wis., informs us that his eldest daughter, Elizabeth Jane, aged two years, died on the 13th inst., of diphtheria. The friends of the family here will sympathize with the bereaved ones.

A CRAZY drunk Frenchman made the pedestrians near Main street and Pioneer avenue turn pale at the stomach Thursday by the promiscuous shooting of a five-ply blunderbuss. His funny work was stopped by the marshal who conducted the drunken "Frenchy" to the jail.

At the conclusion of the Wednesday evening performance of "Babylon," Rev. P. R. Parrish, on behalf of the volunteer members of the company, in an appropriate speech, presented Mr. and Mrs. Baker with a nickel alarm clock and jewel case. Mr. Baker acted surprised and pleased, and we guess he was in earnest in the latter.

FROM the testimony in the case of Andrew Nolan, of the Bessemer, for supplying a careless miner with common sense through the instrumentality of a shovel applied to the head, it appeared that Andrew had another reason—wanted to lay out his man before he got laid out himself—and the jury called the assault "in self defense" and let Andrew go.

THE oratorio of Babylon was rendered successfully in Winter's hall on Monday, Tuesday and Wednesday evenings, and before audiences which, if not large, were composed of people who went away delighted. The music was all good, and some of it better, and the teachers and scholars are all deserving of much credit. The person who would find fault with the entertainment would grumble were he going to be hung.

THE game of billiards between Lew Wyler, of Milwaukee, and William F. Chrum, at the Breitung house last Wednesday evening, was drawn at 11 o'clock, neither party having made six strings. The game was to have been 500 points for \$50 a side—but the marshal and his city ordinance, you know. At the time the game was stopped Wyler lacked two points of six strings, while Chrum lacked but one and had the inning.

AFTER several of the young "kids" in the habit of boarding moving trains about the yard have been made to climb the golden stair in the most approved fashion of railroad accidents, perhaps the saved ones may be induced to quit the practice. Nothing short of a little "blood letting" will do it, though. Parents unwilling to make the sacrifice would do well to fence in their children, and provide them with the means necessary to get up an amateur circus.

THE base ball club had accepted a challenge from the Escanaba boys to play them a match game on the Fourth for a purse of \$200, before it was known that any celebration would be had at home. If they can honorably withdraw from the Escanaba game

they will do so, but if they cannot, will endeavor to play the Escanaba club in the morning of the day so that they may return in time to take in the games here in the afternoon. Should this programme be carried out, however, it cannot be expected that they will appear at their best, as one game in a day is work enough for one club. The boys will order new uniforms, much the same in style as the present, but the caps of each will be of a different and distinct color.

SAD FATALITY.—Mr. Thomas Trembath, an old and highly respected resident of this place, and for nine years past an employe of the Jackson iron mine, was instantly killed by being struck on the head by falling rock while at work in No. 7 pit last Monday morning. The remains of the unfortunate man were taken to his home, and kind friends did everything in their power to comfort the sorrowing wife and relatives. Deceased was a brother to Mr. James Trembath, proprietor of the Jackson house; was a kind, open-hearted, true, and industrious man, and possessed the esteem and confidence of all who knew him. The funeral, held on Monday at the M. E. church, was very largely attended, and the sorrowing wife and relatives have the sympathy of the entire community.

THE inquest in the case of the infant found in Teal Lake last Friday was postponed from Monday until yesterday, but too late for the MINING JOURNAL to get the verdict. The post mortem examination showed the child to have been born alive, and that it had lived at least twelve hours. Marks on the throat indicated that it had been choked before consignment to the water, and that it is a bad case of infanticide there is no reason to doubt. Although every effort has been made to get at a clue that would lead to the apprehension of the guilty party or parties, and a reward of \$200 offered for the evidence to convict, none has yet been found. The excitement and indignation over the affair will not die out soon, and there is but little doubt in our mind but that the murderer will yet be caught.

DUMPED.—A young man occupying the highest position in—a buggy, and driving a horse belonging to Dr. Heaton, of Stoneville, had a narrow escape from kingdom come last Sunday. While driving into the city on the Ishpeming road, the horse became alarmed at the odor of the young man's breath, and started at a lively rate for an antidote without thinking of the expense. At the M. H. O. crossing the fiery, untamed steed wheeled upon the track and toward the east, and upon reaching the spot where the embankment is highest, made a leap down the side, the chariot and horseman tumbling after in a most beautiful manner. The runaway was seen from Iron street, the crowd soon gathered to the spot, the horse, buggy and man were swept together carefully, and an invoice taken. The horse was cut severely and disjointed so that his future usefulness is a matter of doubt; the man bit the dirt, got sand in his hair, lost his temper, and swore; the buggy—paralyzed, all broke into smithereens and beyond redemption. Will the salary of the driver for the next six months be sufficient to liquidate? We doubt it.

SPORTING.—Mr. J. F. Stevens has purchased of Capt. J. P. Mitchell, an undivided half interest in the Negaunee driving park, and these gentlemen have gone to work with the determination to put the track and grounds in first-class order, so that in another week gentlemen who own fast horses can have opportunity to exercise them as on a fine half mile track as can be found in the upper peninsula. The track has been widened, so as to give ample room for four sulkies to move abreast without danger of collision, and a large force of men and teams have been put to work hauling hematite ore for a top dressing, which other men are busy in spreading. As soon as this work is completed, heavy rollers will be brought into requisition and the track thoroughly rolled and hardened. The fences and buildings will be repaired also, but the principal work and expense will be upon the track, which will be in readiness for the Fourth of July trot. Heretofore there has been little to encourage gentlemen of means, who love good horse flesh, to gratify their taste for driving, but this work of Messrs. Mitchell and Stevens will tend to bring the horses here and thus open the way for a gentleman's sport, which, if properly indulged in, is eminently proper, as well as exhilarating.

WE WILL CELEBRATE.—Negaunee is coming to the front this year with the boss Fourth of July celebration, and don't anybody forget it. Through the efforts of some gentlemen, who we will not name, a grand celebration, and one that it will pay the entire county to turn out and see, will be held on the driving park grounds. The sporting features of the celebration will consist of horse racing, Cornish wrestling, base ball, etc. The first horse race, free to all, best three in five, will be for a purse of \$150; the first prize to be \$75, the second \$50, and the third \$25. The second race, for a purse of \$100, will be open to all horses that have not beaten 3:10; the first prize to be \$50, the second \$30, and the third \$20. The third race will be for Shetland ponies, only, and for a purse of \$18; the first prize to be \$10, the second \$5, and the third \$3. The

committee in charge of the horse racing are C. H. Call, Marquette, J. P. Outhwaite, Ishpeming, and J. F. Foley. The base ball tournament will be under the supervision of Messrs. Geo. O. Houston, P. B. Kirkwood and J. M. Gannon. The tournament will be open to all non-league clubs, and as an inducement for them to attend and take part in the games the committee in charge of the celebration have decided to offer a purse of \$100, the first prize to be \$50, the second \$30 and the third \$20. The Cornish wrestling matches will be under the supervision of Mr. Wm. Verran, John Penglaze, of Ishpeming, and Capt. J. P. Christopher, of Michiganame, and as an encouragement for entries in this sport a purse of \$100 will be offered, the first prize to be \$50, the second \$35, and the third \$15. Other field sports will also be provided, and everything done to make the day one of sport. Entries for the various contests may be made on application to Capt. J. P. Mitchell. No Negauneeite need go from home to celebrate the Fourth this year. The whole county will be here.

[To the Editor.] I hardly feel like trespassing upon your space for a matter that may seem to you very commonplace; but to me it was an incident of such an uncommon character that I can hardly forego its mention. I refer to the funeral services connected with the death of a gentleman recently killed in a mine at this place. My business carried me along one of the business streets at quite a distance from the house, when my attention was arrested by a solemn chant floating in the air, and turning my eyes in the direction whence it came, I saw the cottage where the dead man lay, and around it on all sides the hill was black with people, from whose voices came that wondrous and melancholy song for the dead. I inquired of a bystander why they were singing, and he informed me that in the manner of conducting a Cornish funeral, and that they sing all the way to the grave; so I waited for the close and noticed that the hearse went from the house empty, followed by all that great concourse of people, and these followed by the bearers carrying with slow and solemn steps the loved and lost. Through all the melancholy march the musical dirge continued—a sad wail for the dead. In all my life I have never been so sadly impressed with a funeral ceremony, and only write you this because, to some of your readers it will be a new thought of death. "ALEXIS."

THE TABLES TURNED.

A communistic person identified with the dangerous classes of the Comstock, and notorious for his disregard of truth and contempt for vested rights, has just returned from a visit to San Francisco. This morning he endangered the good name of the Chronicle by entering its editorial room. The nihilist declared that he had "a good thing on Stanford and Steve Gage," but he supposed the Chronicle, like the rest of the corrupt and time-serving press, would be afraid to publish it.
