

CORRESPONDENCE.

REPUBLIC.

Considerable hilarity on Christmas day. Those Christmas carols by the mob on the street Christmas were a little lapsed and unsteady, but the intent was good.

Frank Weinberg led Miss Borg to the matrimonial altar one day last week and then and there, in the presence of the parties, promised to love, honor and protect the lady right along regular after this. The lady agreed to attend to his socks and suspender buttons, and have dinner on time. They have the JOURNAL'S blessing.

MARRIED.—At Republic, Dec. 26, 1882, at the residence of Mr. George Gill, by Rev. T. Wilkinson, Mr. Thomas H. Williams and Miss Rebecca Gill.

Master Peter Pascoe returned home from Lake Forest school last week, for a two weeks' holiday vacation. Pete looks healthy and happy and has made good progress in his studies. He hopes to fit himself for the profession of mining engineer some day. Should his present notion stay by him until he is ready for college, he proposes to attend a celebrated New York institution, which has the reputation of turning out first-class men in that line.

The turkey shoot came off as advertised. Distance, 250 yards. Six turkeys rewarded the skill of five marksmen, these being Wm. Tucker, Jno. V. Trembath, John Funcheon, Thos. Irwin and G. Gamble. The first named four brought down a turkey apiece and the last, but not least skilful, of the crack marksmen captured two. We have a list of names of local shots who can pick a deer's eye out at 80 rods, but who failed to get a bird, which we would publish but that 'tis half a mile long.

Louis Johnson's new temperance room is dubbed the opera house. Dances are held quite frequently there, and the lady report was times. Louis sets up oysters, etc., on call. Drop in and see him.

The Christmas Sunday school picnic in the town hall Christmas night was much enjoyed by the little folks; and, though there was lots of hard work about it, the superintendent, teachers and parents felt repaid in the pleasure it gave them.

Mr. Stodden reports as doing well his boy, who had a leg broken by the cars not long since.

The law suit of Mrs. Lettche against Philip Lambert on Tuesday was of more than usual interest, as the fair reputation of the lady was at stake. The verdict of the jury completely exonerated Mrs. Lettche, and left no doubt but that Lambert is a fit subject for the state prison.

We hear a rumor of a dance to be given by the band boys New Year's night.

The infant child of Mr. and Mrs. Cumming, after a peculiarly painful and lingering illness, died last Monday of cerebro-spinal meningitis.

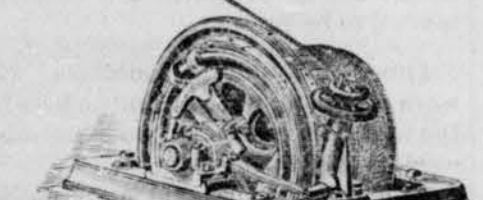

Oscar Davidson, the old reliable Oscar, is back again with us to stay, and has his old place as station agent Tyler's assistant.

Job, Labold is home, and on the sick list. His right name is Joe, but the nature of his malady—boils—authorizes the scriptural appellation. The only difference between our Job and the old original is that the patient in the book had boils and patience, while our man has plenty of boils but no patience. The difference, however, is immaterial, as boils are the principal thing in a matter like this.

Slattery came very near being kicked to death by a mule last Wednesday. He was kicked by a horse and had an arm broken, also receiving a bad bruise in the side, and having his scalp gashed to the bone in two or three places. He was carried in for dead, but came to in five minutes and forbade anybody to sell a coffin to his wife, as he would not pay for it. The doctor then pronounced him in his usual frame of mind, and prognosticated a speedy recovery, in which his opinion is now shown to have been correct, as Mr. Slattery is considered out of danger.

D. 1882, there will be sold at public vendue to the highest bidder on the premises, in the village of Michigamme, in said county, on Monday, the fifth day of January, A. D. 1883, at 10 o'clock in the forenoon of that day, the following real estate, to-wit: The east half of lot number sixteen of the village of Michigamme, subject to all incumbrances by mortgage or otherwise existing at the time of sale, and also subject to the right of dower of the widow of the deceased father of said minors.

SAM'L DISHNOW, Guardian of said Minor, Dated Marquette, Dec. 20th, 1882. [5507f]

SALE OF REAL ESTATE BY GUARDIAN, State of Michigan, county of Marquette, ss. In the matter of the estate of Edwin O. Quarters, a minor. Notice is hereby given, that in pursuance of an order granted to the undersigned, H. H. Stafford, guardian of the estate of said Edwin O. Quarters, a minor, by the Hon. Judge of probate for the county of Marquette, on the 11th day of December, A. D. 1882, there will be sold at public vendue, to the highest bidder, at the front door of the county of Marquette, in said state, on Monday, the 25th day of January, A. D. 1883, at ten o'clock in the forenoon of that day subject to all incumbrances by mortgage or otherwise existing at the time of sale, the following real estate, to-wit: The undivided one-half of lot number thirteen (13), of block number one (1), of the Cleveland Iron Mining company's addition to Marquette city, and frame buildings thereon.

H. H. STAFFORD, Guardian of the Estate of said Minor, Dated December 12, 1882. [5267f]

CHANCERY SALE.—In the circuit court for the county of Marquette, in Chancery, Louis Knepp, complainant, vs. William Green Janz, Fred H. Wheeler, David Buses, Thos. Ellis and Joseph Winter, defendants. Notice is hereby given that in pursuance of a decree of the said court made and entered in the above entitled cause on the eleventh day of November A. D. 1882, I, James E. Dalliba, a circuit court commissioner in and for the county of Marquette, Michigan, will sell at public auction to the highest bidder, on Tuesday the sixth day of February, A. D. 1883, at ten o'clock in the forenoon, at the front door of the court house in the city of Marquette, in the county of Marquette and state of Michigan, (that being the place where the circuit court for said county is held) all that certain piece or parcel of land, situate in the county of Marquette and state of Michigan, known and described as follows, to-wit: Lot number six (6) of block number five (5) in the Pioneer Iron company's plat of the village (now city) of Negaunee.

JAMES E. DALLIBA, Circuit Court Commissioner in and for Marquette county, Michigan, Dated Marquette, Mich., December 10th, 1882. [5519f]

CHANCERY SALE.—In the circuit court for the county of Marquette, in Chancery, Edward H. Hall, complainant, vs. Markow H. Crocker and Mary N. Crocker, defendants. Notice is hereby given that, in pursuance of a decree of the said court, made and entered in the above entitled cause on the second day of December, A. D. 1879, I, James E. Dalliba, a circuit court commissioner in and for the county of Marquette, Michigan, will sell at public auction, to the highest bidder, on Tuesday, the twenty-third day of January, A. D. 1883, at ten o'clock in the forenoon, at the front door of the court house, in the city of Marquette, in the county of Marquette and state of Michigan, (that being the place where the circuit court for said county is held, all that certain piece or parcel of land known and described as follows, to-wit: Lot number sixty-one (61) in the city (formerly village) of Ishpeming, according to the plat of said village (now city) recorded in the office of the register of deeds of the county of Marquette, in liber J of deeds, on pages 358 and 359; said premises being situate in the county of Marquette and state of Michigan.

JAMES E. DALLIBA, Circuit Court Commissioner in and for Marquette county, Michigan, Dated Marquette, Mich., December 6, 1882. [5517f]

PROBATE ORDER.—State of Michigan, county of Marquette, ss. At a session of the probate court for the county of Marquette, held at the probate office, in the city of Marquette, on Friday, the twenty-second day of December, in the year one thousand eight hundred and eighty-two. Present, Hon. Edward S. Hardy, Judge of probate. In the matter of the estate of John Clune, Annie Clune, Catharine Clune and Cornelius Clune, minors. On reading and filing the petition, duly verified, of Thomas Clune, guardian of said minors, praying that he may be licensed to sell certain real estate belonging to said minors for reasons set forth in his said petition. Thereupon it is ordered, that Monday, the fifteenth day of January next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said minors, and all other persons interested in said estate, are required to appear at a session of said court, then to be held at the probate office, in the city of Marquette, and show cause, if any there be, why the prayer of the petitioner should not be granted; and it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the MINING JOURNAL, a newspaper printed and circulated in said county of Marquette, three successive weeks, previous to said day of hearing.

EDWARD S. HARDY, Judge of probate. (A true copy.) E. S. HARDY. [553-w4]

PROBATE ORDER.—State of Michigan, county of Marquette, ss. At a session of the probate court for the county of Marquette, held at the probate office, in the city of Marquette, on Monday, the fourth day of December in the year one thousand, eight hundred and eighty-two. Present, Hon. Edward S. Hardy, Judge of probate. In the matter of the estate of Robert Roberts, deceased. On reading and filing the petition, duly verified, of Griffith Powell and John Francis, praying that James P. Edwards may be appointed to administer the estate of said deceased. Thereupon it is ordered, that Tuesday, the second day of January next, at ten o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be held at the probate office in the city of Marquette, and show cause, if any there be, why the prayer of the petitioner should not be granted; and it is further ordered, that said petitioner give notice to the persons interested in said estate of the pendency of said petition and the hearing thereof, by causing a copy of this order to be published in the MINING JOURNAL, a newspaper printed and circulated in said county of Marquette, three successive weeks previous to said day of hearing.

EDWARD S. HARDY, Judge of Probate. (A true copy.) E. S. HARDY. [551w1]

STATE OF MICHIGAN—TWENTY-FIFTH JUDICIAL CIRCUIT, in Chancery. Suit pending in the circuit court for the county of Marquette, in chancery. At Marquette, on the twenty-fifth day of November, A. D. 1882, August Guetel, complainant, vs. Mary Guetel, defendant. It satisfactorily appearing by affidavit that the defendant, Mary Guetel, is a non-resident of this state, but a resident of the state of Wisconsin. On motion of C. M. Babcock, solicitor for complainant, it is ordered that the said defendant, Mary Guetel, her appearance in this cause to be entered within four months from the date of this order, or in default thereof, that the said bill be taken as confessed by the defendant, Mary Guetel. And it is further ordered that within twenty days from the date of this order, the said complainant cause a notice of this order to be published in each week for six weeks in succession, or that he cause a copy of this order to be personally served on the defendant, Mary Guetel, at least twenty days before the time above prescribed for her appearance.

JAMES E. DALLIBA, Circuit Court Commissioner in and for Marquette county, Michigan, C. M. BABCOCK, Complainant's Solicitor. A true copy. Wm. Rowland, County Clerk. [550w7] Marquette, Mich., Nov. 25, 1882.

STATE OF MICHIGAN—TWENTY-FIFTH JUDICIAL CIRCUIT, in Chancery. Suit pending in the circuit court for the county of Marquette, in chancery. At Marquette, on the eighth day of December, A. D. 1882, Alexander Bengley, John Bengley, Joseph Winter, William T. Reese and Donald T. McDonald, complainants, vs. Charles M. Wheeler, James H. King, J. W. Willard, Thomas Parvill, Besmer Iron Company and the Teal Lake Iron Mining company, defendants. In this cause it appearing from affidavit on file, that the defendants, James H. King and J. W. Willard are not residents of this state, but are residents of the state of Ohio. On motion of Ball and Hanscom complainant's solicitors, it is ordered that the appearance of said non-resident defendants, James H. King and J. W. Willard, be entered herein within four months from the date of this order; and in case of their appearance, they cause their answer to the bill of complaint to be filed, and a copy thereof to be served on the complainant's solicitors within twenty days after service on them of a copy of said bill, and notice of this order; and in default thereof, said bill will be taken as confessed by said non-resident defendants. And it is further ordered, that within twenty days the complainant cause a notice of this order to be published in the MINING JOURNAL, a newspaper printed, published and circulated in said county, and that said notice be continued therein, once in each week, for six weeks in succession, or that they cause a copy of this order to be personally served on said non-resident defendants at least twenty days before the time above prescribed for their appearance.

Prospecting, mining, shafting, tunneling, draining, quarrying and sub-marine blasting. The accompanying cut represents our new drill, "The Little Champion," for shafting or underground prospecting. This machine has

ALL OF OUR LATEST IMPROVEMENTS, Including Trunk Engines, with balanced slide valves to use either steam or compressed air economically. It has also our "Pat. Hinged Swivel Head," "Pat. Thrust Register," (for indicating the thickness of each strata), "Pat. Roller Thrust Bearing," and "Pat. Method of changing the feed while the drill is running."

The drill rods are all fitted with "Pat. Bayonet clutch couplings," which uncouple by giving the rods one-fourth of a turn. THE HIGHEST TESTIMONY AWARDED THEM FOR RAPIDITY OF EXECUTION AND ECONOMY OVER ANY OTHERS IN USE.

For prospecting, these drills accomplish the most IMPORTANT RESULTS otherwise wholly unattainable. By their use only can mines be penetrated to a depth of from one to TWO THOUSAND FEET through the HARDEST ROCK, at any angle, taking out a core the entire depth, fully developing the strata passed through.

Tunnels driven and shafts sunk in from one half to one sixth of the usual time, by using these machines in connection with our Pat. Long Hole Process.

AGENTS FOR Worthington's Duplex Pressure Pumps. THE BEST MINING PUMP IN USE. Also Water's Perfect ENGINE GOVERNOR. Most durable and economical Governor ever invented.

THE BRUSH ELECTRIC LIGHT APPARATUS. ("LIGHT FOR THE WORLD.") For lighting Mines, Smelting Works, Furnaces, Foundries, Machine Shops, &c., &c., &c. Gives a CLEAR WHITE LIGHT. Cheaper than oil or gas, and from THIRTY TO ONE HUNDRED TIMES THE POWER.

The Mining Journal.

ISHPEMING, DECEMBER 30, 1882.

The firemen cleared eighty six dollars by their recent ball.

The roller skating rink is losing its attractiveness, and will probably close down.

The French society hop occurred at Austin's hall last evening, and was well attended.

MR. HIRAM ECKERT, late proprietor of the Commercial house, has accepted a position as traveling salesman for N. K. Fairbanks, Chicago.

In our reference to the hospital last week we made the mistake of publishing the name of Dr. L. D. Cyr, of Negaunee, as one of the faculty. The name should have been that of Dr. Sears.

A NEW hard wood floor is to be put in Austin's hall as soon as the lumber now ordered is delivered. Mr. Ham intends to "fix up" the hall in other particulars, and when the work contemplated is completed, it will be much more desirable for party gatherings.

ASSIGNED.—On Thursday morning Mr. John Funcke, the groceryman on Division street, made an assignment to justice Con. Kennedy for the benefit of his creditors. Mr. Funcke will, however, be able to meet all his obligations at the rate of one hundred cents on the dollar, and his creditors won't be allowed to do any grumbling. The immediate cause of his failure was the collapse of the Commercial house, the late proprietor of which owed Mr. Funcke nearly five hundred dollars, only part of which is secured—and that only so as to be available after some time to come. We don't feel as sorry for Mr. Funcke's failure as we would over that of some men, for the reason that he has no particular love for the grocery business, and was anxious to retire—not to idleness, but to engage in a new business that will bring to him a much larger income and more freedom from care.

It might have had a serious ending for both the parties—probably would have had but for the premature discharge of the pistol which Thomas Johns pulled on Thomas Simons in James Wadge's saloon, on Division street, last Tuesday evening. Both men had been drinking until the quarrelsome, unreasoning stage of inebriation had been reached, when they got into an altercation over a trivial matter that led to bitter words. Something Simons said incensed Johns to such a degree that he reached for his hip pocket to draw a pistol which he carried. In pulling it out he in some way discharged the weapon, the bullet entering the fleshy part of his own thigh. This ended the quarrel between the men, which was declared "off." The row occurred a little after six o'clock, and during the absence of Mr. Wadge, the proprietor, who had gone home to supper, else, we feel it due to him to add, the wrangling pair would have had to quit quarreling or leave before the pistol practice began. Mr. Wadge doesn't permit such foolishness in his place when he is there to prevent it.

THERE was quite a congregation of men assembled on the corner of Main and Division streets last Tuesday afternoon, but when an aged pilgrim by the name of Bill Meehan got it into his head that he must have a fight, and began pulling off his coat for a skirmish, the crowd got larger and assumed the proportions of a mob. William was slightly under the influence of "lush," or he undoubtedly would not have been so eager for a battle. He harangued the mob for a while by calling them all sorts of vile names, and challenging any man in the crowd to match him. Said he was 63 years of age, but that he was good for any blank dash man in the city. Most of the crowd thought him funny; others thought him a great man, and yet others acknowledged that in his younger days he was a bad man to handle. As the crowd was mostly composed of young men, many of whom were giants in size, no one could be induced to accept the doubtful honor of "pounding the stuffin' outen" an old man who has one foot in the cemetery. The sight was disgusting in the extreme, and although Bill held his auditors for a good half hour, no policeman appeared to gather him in.

It is none other than gratifying to the MINING JOURNAL to hear of the successful holiday trade enjoyed by those of our business men who planted their advertisements in these columns, but especially are we pleased that most of them have not neglected to place a part of the credit for their prosperity where it belongs. The men who advertise are the ones who get the trade in this age, because it is those who use printer's ink who have something to sell at a bargain. The circulation of the MINING JOURNAL in Ishpeming, as well as elsewhere, is steadily increasing, and to those who depend largely on local trade the paper presents a desirable advertising medium—to prove which we only need cite the list of leading business firms whose announcements can be found in our pages. But our business men do not care to confine their trade to the city—they rather seek business from all quarters, and as the circulation of this paper is double that of any other in the county

at large, it has, in consequence, just double the value as a medium of carrying information. We don't often speak of this circulation of ours, but when we do we have something tangible to talk about.

DURING the temporary suspension of active mining operations at the Lake Superior mine the numerous employees of that corporation are afforded an excellent opportunity to renew acquaintance with their families, many of whom get little of the society of husbands and fathers while mining work is being pushed. Although the time thus spent is in one sense a loss, yet by a right use of these hours of idleness may be made measureably profitable. Many of the laboring men are careless as to the claims of home, and oft, as soon as the evening meal is over, seek company on the street or in the various resorts about town, thereby robbing their families of attentions they have a reason and a right to expect. There is another class, however, that will profit by this season of rest, by making it the occasion of looking after the interest of their loved ones, and storing their minds with knowledge other than that which comes to them in the ceaseless rounds of every day toil. These latter are of is not the kind that find time to grumble on account of the "lay off," for they are prudent men and have had a thought for the morrow. The mine will re-open again on the 6th prox.

THE custom of receiving calls on New Year's day will be generally observed by the society ladies of Ishpeming the present season, and many of them will join with neighbors and friends in their respective circles in receiving together at the home of some one lady. Where this is done it is expected that gentlemen of society, whether acquainted with all or only one or two of the ladies, will pay their respects and offer the compliments for the season just opening. In a city the size of Ishpeming, where society circles are not large, and other modes of communication are ample, the custom that prevails with some newspapers, of publishing a list of the ladies who will receive, seems to us in bad taste, as it makes an unnecessary display of names in public print, and thereby partakes too much of an invitation to the general public. This opinion is also generally held by the ladies themselves, who reluctantly allow newspaper men to make use of their names. Gentlemen who could not call on any other day of the year may, in some instances, call upon ladies on New Year's, but the cases are rare, and this can only be done when they are certain that the call is agreeable to the ladies. The number of gentlemen who will make use of the day for calling purposes is quite large, embracing most of our professional and business men, as well as clerks, and mechanics. It is a most beautiful and appropriate custom, and when properly observed tends greatly to the development of our social natures. We are social beings; let us demonstrate the fact by laying aside our bearishness, our business and our troubles, and giving ourselves up to pleasures and comforts of our own homes, and the proper greeting of friends at their firesides.

THE case of the people vs. Joseph J. Monahan, for selling liquor without license, came up for hearing in justice Young's court on Wednesday, but, owing to the absence of the defendant, was postponed until the 6th prox. Monahan bought the Club saloon from Mr. Hunt, and then started in selling liquor on the license already held by Hunt, which will not run out until some time in May next. As soon as Monahan was notified that he could not sell under the Hunt license he immediately applied for and obtained an individual license from the county treasurer, subject to the approval of his bonds by the city council. Whether a point will be made against Monahan because he sold before his bonds were approved or not we do not know, but it probably will. If so it will be the first step of the kind yet taken by the authorities, and, being made against a stranger, looks much like a desire to keep the man out of town. Perhaps every saloon that exists in Ishpeming to-day has sold liquor pending the examination and approval of the owner's bonds, and we are not sure but that where parties have heretofore bought out established stands they have continued selling on licenses already taken out by former owners. We haven't any acquaintance with this man Monahan, but we know him to be a welcome guest of Ishpeming sports when there is any horse racing on the cards, and these same sports, to our knowledge, have never refused to take his money. He keeps a poker room in Escanaba—and will keep one here, mayhap—but beyond that and his selling liquor he has no design of going. A poker room is alleged to have been a part of the "Club's" appointments heretofore, and if any of our respectable poker players couldn't find a game there they were seldom compelled to hunt long for another place of meeting. We don't take up the cudgel for Monahan, for we consider him a dangerous man for any community to harbor, but we do object to this "sitting down" on a man without a more definite knowledge of his intention to commit a wrong than can be got from street talk, predicated on his previous bad reputation.

ISHPEMING, L. S., MICH., NOVEMBER 17, 1882.

We have a nice fresh line of White, Blue, Gray and Silver Gray Blankets, also of Quilts, from \$1.40 to \$2.75 each, and Steam-cured Live Geese Feathers.

In Flannels, Canton Flannels, Waterproofs, Ladies' Cloths, Jeans, Linseys, and goods of this class suitable for the season, we are just in receipt of fresh supplies.

German Socks, Buckskin Gloves and Mitts and heavy Hosiery and Overshoes are all the go now—we have lots of them.

A lot of Trunks tarnished by smoke, which we had not room to show at the late sale of damaged goods, are still on hand and will be sold at a big discount.

Winter Apples are not very good this year. There are only a few varieties which will keep. We have a supply of the best keepers. We don't quote prices, but you will find us always as low as our neighbors, and on many things lower. Don't imagine because people quote you prices they are low, or lower than others. In most cases we see they are not.

Your money will always buy most goods at the Rock Store, C. B. MYERS.

P. S.—Fresh in, a lot of Collars, Ties, Mufflers, Gloves, Mitts, Lace Goods, Ribbons, Suspenders and Handkerchiefs; also a lot of Fancy Cakes for the Holiday trade.

Awards at the Cincinnati EXPOSITION.

DETROIT, MICH., OCTOBER 9, 1882.

In justice to our patrons and the line of goods they sell, we are proud to inform them that Garland Stoves and Ranges were awarded two first premiums and two medals, at the Cincinnati exposition, one medal being the only gold medal offered to manufacturers of cast iron stoves, and consequently the highest award in this class; the other a silver medal, which of itself is equal to the highest award received by our competitors, clearly vindicating the position taken that Garland Stoves and Ranges carried off the highest honors of the exposition, over all the leading manufacturers of the country, proving incontrovertibly that Garland Stoves and Ranges are immeasurably superior to all their competitors; the same has been proven in all parts of the Union. Wherever Garland Stoves and Ranges have been exhibited, they have been awarded first premiums, where offered, including all the leading expositions, state and county fairs throughout the country. They received six first premiums at the California state exposition, and the only first premium at the Minneapolis exposition, etc.

It was admitted by the visitors at the Cincinnati exposition, that our display of Stoves and Ranges was the finest display ever made there. We have had the same photographed, and are now figuring for copies to be sent to all our customers, which, if carried out, will be sent as promptly as possible.

Respectfully,
MICHIGAN STOVE COMPANY,
Detroit, Chicago, Buffalo.

These Stoves are only sold in Ishpeming by JOHN W. JOCHIM

72151

JUSTICE CONRAD CARLSON, the newly elected municipal judge, has rigged up a bench and bar in his office in the McKay block, and as he sits, stern and severe in his high back chair, and listens attentively to the plea of the prisoner at the bar and the words of eloquence which burst from the hash-trap of the attorney, he sort of impresses one with a conviction that his judicial ability will be found equal to all demands upon it. We guess our friend Conrad has struck his gait.

Tillson's Tales

Consist of short but truthful stories telling where you may buy the choicest articles for holiday gifts. The tales are many, and if told, would fill many a volume, but as they are of interest to all just at this time we give but a sample or two—as feelers—for the benefit of people of all ages, from the oldest man or woman to the youngest child in its cradle. Our stock of Fancy Articles consists of a choice variety of Toilet Cases, in Plush and Leather, for both Ladies and Gentlemen; also beautiful Odor Cases, Jewel Cases and Velvet Frames. Our Book Stock contains volumes especially adapted to the season. Illustrated Gift Books for adults and children; Fine Art Books, and choice editions of all the Poets. Our stock of Dresden China is very large and contains many choice articles. If you have children of your own, it will stand you in hand to look at my stock of Doll Babies; if not, and you want, for various and sundry reasons, to get "solid" with some one else's children, my stock of Doll Babies is at your service. At any rate, do not forget to see my immense assortment of Holiday Goods.

F. P. TILLSON,

THE MINING JOURNAL.

Entered at the Post Office at Marquette, Mich., as second-class matter.

MINE and furnace agents and superintendents will confer a special favor on the MINING JOURNAL if they will, without delay, fill out and return to this office the blanks sent them a fortnight ago.

ORE is still being shipped to local points from the Florence, and some other Menominee range mines. CURRY mine shipments in 1882, 1,374 gross tons—a falling off of 4,160 tons as compared with last year.

BESSEMER mine output in 1882, 27,494 gross tons—all shipped by lake, and an increase of 10,776 tons over the 1881 product.

TOTAL shipments from the Michigan mine in 1882, 43,712 gross tons—a falling off of 13,560 tons as compared with 1881.

THE New York mine report shows an increase of 6,317 tons as compared with the output in 1881, in which year she shipped 50,489 tons.

THE Columbia reports a total product of 12,066 tons in 1882—enough, it is intimated, to insure a reasonably fair dividend to shareholders.

TOTAL shipments from the Republic mine in 1882, 235,109 gross tons, as compared with an output of 233,786 tons last year—an increase of 1,323.

THE McComber shipped 38,339 tons by lake, and 2,067 tons by rail direct to furnaces—a total of 40,406 tons, and an increase of 12,355 tons over the 1881 product.

THE Florence furnace made and shipped 5,400 tons of pig in 1882. The stack is, comparatively, a small one, and the figures given denote good work.

THE shipments from the Milwaukee mine are reported at 33,347 tons by lake, and 7,544 tons by rail direct to furnaces—a total of 40,891 tons as against 31,635 tons in 1881.

BOSTON, 18,245 gross tons in 1882—enough upon which to predicate a dividend—should the surplus not be required in making further mine improvements and additions to machinery, as it probably will be.

THE Humboldt has shipped this year 43,463 gross tons—which is an increase of 17,161 tons over last year's output, and a result which must, on the whole, be very satisfactory to shareholders.

E. J. MAPES, Esq., has secured a lease of a tract of land adjoining the Alex. H. Dey mine on the east, and will at once proceed to explore it with the aid of a diamond drill. The land is well situated, and there is every indication that the Dexter and Dey vein runs through it.

REPORTS from the Indiana mine are still of a favorable character, a small force of men raising and stocking a daily average product of about 75 tons. The new find to the north-west of No. 1 shaft, on the hill, continues to expand, and bids fair, in itself, to develop into a mine of goodly proportions.

TOTAL shipments from the Champion mine foot up 150,000 gross tons, of which amount 3,604 tons was shipped direct to furnaces by rail. These figures show an increase of 13,582 gross tons over the product of 1881 (which was the largest previous year), and swells the aggregate product of the mine since the beginning in 1868, up to 1,134,916 gross tons.

JAS. LAUGHLIN, JR., of the celebrated firm of Jones & Laughlin, proprietors of the American Iron Works, died at his residence in Pittsburgh, on the 18th inst., at the advanced age of 78 years.

THE output of the Iron River mine, which was not supplied with railway facilities until late in the fall, is given at 29,115 tons for 1882. The Nanaimo (pronounced Na-ny-mo) in the same district, sent away only 2,480 tons, the railroad not having been finished to the mine in time to enable the management to do more this year.

ACCORDING to the Railroad Gazette, there have been 9648 miles of new railway laid this year, against 7601 miles reported at the corresponding time in 1881, 5836 miles in 1880, 3594 miles in 1879, 2243 miles in 1878, 1994 miles in 1877, 2283 miles in 1876, 1264 miles in 1875, 1808 miles in 1874, 3606 miles in 1873, and 7065 miles in 1872. This year's mileage so far is more than one fourth greater than that of 1881, and nearly eight times as great as that of 1875, when new construction was at its lowest point.

THE Palmer (Pittsburgh & Lake Superior) has achieved a larger product this year than ever before, with the single exception of 1873, when a number of openings in the lean ore formation were wrought under lease.

AT last accounts the drift from the bottom of the 50 foot shaft, at the Bailey find, section 1, town 42, range 33, about three-fourths of a mile from the Union mine, showed 15 feet of clean ore, of a quality as good as any yet found in the Crystal Falls region.

THE Argyle reports shipments of 8,411 tons by lake, and 4,010 tons by rail to local furnaces—a total of 12,421 tons, which, but for the difficulties that the management has had to contend against, and the extraordinary expense attendant upon the task of getting a badly gutted mine back into a workable condition, would have been sufficient to enable it to declare a comfortable dividend; and it is by no means certain that a reasonably fair profit may not, nevertheless, be realized.

THE Concentrating company shipped a product of 1,177 tons of concentrated ore as a result of an experimental run of its works at Negaunee—a fact which proves conclusively that the works are a success, or can, with a few changes, be made such. The works are now idle, and will remain so until spring, it being the intention to make some necessary changes and improvements during the winter.

THE following is a statement of ore, pig iron and quartz carried over the D. M. & M. R. R. during the year just closing:

Table with 3 columns: Name of Mine, IRON ORE, Gross Tons. Includes entries for McComber, Milwaukee, Columbia, Cleveland, Lake Superior, Lovell, Detroit, Winthrop, Argyle, Columbia, Champion, Dalliba, East Champion, Jim Pascoe, Total, and Pig Iron.

THERE is now being manufactured at the Iron Bay foundry a large new plant of machinery for the Republic mine, which will consist of two 20x30 engines, and four of Merritt's interior friction hoisting drums, each 12 feet in diameter—the largest in the iron district, except the Lane drums at the Lake Superior, which are of the same size.

A SALE of a three-fourths interest in what is known as the "Pay find," on sections 17 and 19, town 47, range 45, Agogeeb district, together with 1,065 acres of land in that vicinity, was sold last week to a syndicate of capitalists, represented by Chas. L. Colby, Esq., president of the Wisconsin Central Railway Co.

JAS. LAUGHLIN, JR., of the celebrated firm of Jones & Laughlin, proprietors of the American Iron Works, died at his residence in Pittsburgh, on the 18th inst., at the advanced age of 78 years.

WE expect to be able to lay before the readers of the MINING JOURNAL next week, our usual statistical tables, which will show not only the product of the upper peninsula mines and furnaces in 1882, but for each and every year since the first mining venture was inaugurated in 1847-8.

to date at the end of each succeeding year, and who has been given credit therefor by the state geologist, and commissioners of mineral statistics and immigration, and all the leading class publications of the country, as well as by honest members of the state and local press.

THE New York Herald rises to remark that "more than three-quarters of the yield of the United States is 'mined in Michigan, and is what is called 'native' copper—that is, pure metal, which requires none of the treatment that elsewhere causes a large proportion of the cost of production. If many small mines throughout the country can smelt poor ores 'at a profit, certainly the Michigan companies should be modest enough 'to be thankful for their superior 'prosperity, and hope only that the 'protection' may not be lessened."

ONTONAGON COPPER NOTES.—At the National mine which has recently been unwatered, the Miner says partial examination shows a good block of ground in the bottom drift, both east and west of the shaft. A large amount of work remains to be done however, before the workings will be in shape for an active prosecution of mining operations.

A SPECIAL meeting of the shareholders of the West Chapin mining Co. is called to meet in Detroit on the 9th of January, for the purpose of amending the articles of association, and the transaction of such other business as may properly come before the meeting.

OF these new processes, the one in operation at the Elk Rapids furnace consists simply in capturing and condensing the waste gases from the ordinary coal-firing kilns, of which there are 25, of the square or oblong pattern.

was cut by what was intended to be, if barren of results, the very last effort on the part of the present company, and had it not then been found, as it might easily not have been, this immensely valuable property would have been abandoned, and those who have realized handsome fortunes out of it would have been losers instead of gainers by an enterprise which in the beginning was no more, and for some time after promising than are the new explorations to the west and north of it.

IT all goes to show that a large part of the commodity vulgarly called "sand" is just as requisite as money and energetic push in the sometimes vexatious search for the hidden treasures of this region. It may cost considerable money to find the ore on the West Chapin and West Ludington properties, and a goodly supply of "sand" may likewise be necessary to buoy up the hope which is sometimes deferred till it makes the heart sick, but that it will be found, sooner or later—possibly with small expense, and in short time, is a question which, in the opinion of the MINING JOURNAL, admits of scarcely a single doubt.

THE very great value of the hard wood forests of the upper peninsula is but just beginning to be appreciated. It is a question if an acre of good hardwood land is not to-day worth as much, intrinsically, as an acre of the very best pine, if indeed no other use is found for the former than that of fuel for the blast furnace, and the utilization of its by-products secured in the process of charring.

There is now being manufactured at the Iron Bay foundry a large new plant of machinery for the Republic mine, which will consist of two 20x30 engines, and four of Merritt's interior friction hoisting drums, each 12 feet in diameter—the largest in the iron district, except the Lane drums at the Lake Superior, which are of the same size.

OF these new processes, the one in operation at the Elk Rapids furnace consists simply in capturing and condensing the waste gases from the ordinary coal-firing kilns, of which there are 25, of the square or oblong pattern.

HERE we have \$352,900 in assessments levied, collected and nearly all expended in a single year, without the return of a single dollar. It will be observed, too, that these assessments commence with No. 18, thus indicating that there had been no less than seventeen previous ones, the amount of which is not given.

about twenty per cent. of the contents of each. The distillate thus brought over contains our wood alcohol in a dilute condition. This we pass through a large 100 foot condensing box to the alcohol-house, where it is rectified. What is left in the still we draw off into receiving tanks holding 70,000 gallons. From them we draw off our acetate liquor into evaporators. In these evaporators we boil off the watery diluent until what remains is in the form of a rich syrup.

Concerning the Mathieu process of carbonization in retorts, elaborate plants for which, with the necessary chemical works, have been, or are being, put in at the St. Ignace and Newberry furnaces, the MINING JOURNAL is pleased to elaborate paper from the pen of L. P. Dodge, Esq., constructing engineer, under whose direction the works at St. Ignace were built, and it therefore defers any attempt at a description of its own, which would, with the data it has at hand, be necessarily incomplete, if not inaccurate as to details.

This tells the story of how money is made in the great silver fields of the far west. The Eureka (Nevada) Sentinel gives the production of ten mines on the Comstock lode, together with the cost of production as follows:

Table with 3 columns: Mine Name, Gross value or yield, Total cost production. Includes entries for Union Consolidated, Opit, California, Beecher, Crown Point, Confidence, Consolidated Imperial, Kentucky, and Yellow Jacket.

There we have it in plain figures—\$375,175.60 worth of the precious metals, as a yield of ten mines at a cost of \$514,971.28—a clear loss of \$129,795.68 in three months! We are beginning to believe the oft repeated assertion that "every dollar made in silver and gold mining costs two" is a true one.

Table with 2 columns: RECEIPTS, EXPENDITURES. RECEIPTS includes Balances at date of last annual statement, From assessments, No. 18, levied March 13, \$1 per share, No. 19, levied June 5, 50 cents per share, No. 20, levied August 4, \$1 per share, No. 21, levied Oct. 11, \$1 per share. EXPENDITURES includes Salaries and wages, Supplies and miscellaneous, Sierra Nevada, Mexican & Union shaft company, Suro Tunnel company, Office expenses, Interest and exchange, Advertising assessments, Legal expenses, Superintendent's balance, Cash on hand.

HERE we have \$352,900 in assessments levied, collected and nearly all expended in a single year, without the return of a single dollar. It will be observed, too, that these assessments commence with No. 18, thus indicating that there had been no less than seventeen previous ones, the amount of which is not given.

DRY GOODS AT COST AT MALLANNEY'S

As I am obliged to reduce my stock to less than half its present size before transferring the business to my successor (Jan. 15), all goods will be sold at

Actual Cost

For the next thirty days. Our stock is full, fresh and well assorted. Come and get the benefit.

J. MALLANNEY.

QUINN BROS. & CO.

Call your attention to their splendid new stock of Dry Goods, Notions and Fancy Goods which is now complete in every department, besides many new novelties that have just been added for the holiday trade. In the following goods they are offering extra inducements for the next 30 days, being anxious to reduce their stock:

Ladies' and Misses' Cloaks and Dolmans—a large stock which will be sold low.

The largest stock of Ladies' Mink and Seal Sets in the city. Prices from \$5 to \$50.

A choice selection of Silk Handkerchiefs, Mufflers and Neck Wear of every description. Silks, Satins, Velvets and Plushes in all colors.

Ladies, remember that we keep the celebrated Ball's Health Preserving Corset—the best corset known to the trade—always on hand! Every pair warranted satisfactory or money refunded.

Respectfully,

QUINN BROS. & CO.

REMEMBER

WE WILL NOT BE UNDERSOLD!

"The old year dieth; And the forests utter a moan, Like the voice of one who crieth In the wilderness alone. 'Vex not his ghost!'"

MR. AUBREY GARNIER spent Christmas with his parents in Escanaba.

THE sixth annual ball of the local division Ancient Order of Hibernians will occur at Gylling's hall on New Year's night.

MR. A. B. ELDREDGE and wife have spent the entire holiday season with friends in Fond du Lac, Wis., from which place they are expected to return on Monday.

LITTLE early, but we wish you all a happy New Year. There are many who will not have a happy one, however, for the reason that they won't begin right.

VERILY IshpeMING is getting to be the centre of art. Mr. Wm. Farrell, architect, of this city, has received orders for plans for an elegant dwelling from Mr. A. J. Agnew, of Stevens Point, Wis., the same to be built the coming spring.

WILLIAM RAYNE, an old Scotch pilgrim, whose appearance in police court is looked for with the regularity of pay day, and always on the same charge—drunkenness—was on the last occasion given a sentence of seven days at the city woodpile by justice Carlson.

ON January 15th the dry goods stock of J. Mallanney will be transferred to Mr. A. W. Noble, and until that date the stock now in hand will be closed out at actual cost. This is no sale of remnants of shelf-worn goods, but an actual cost sale of a freshly bought stock. It's Mr. Mallanney's parting benefit to his friends.

WHAT a lofty conception of the Savior of mankind a large class of our people must have—as instanced by their manner of observing the anniversary of his birth? To get themselves full way up to the neck of whisky and beer, then weep because their capacity will not allow of more, is one way to herald the advent of a Savior.

THE musicians composing the Scandinavian brass band gave their friends and patrons a pleasant social hop in Austin's hall last Tuesday evening, on which occasion the members of the musical company appeared in their new uniforms—looking magnificently "swell." A goodly sized gathering was in attendance, and from some of those present we learn that a most enjoyable and profitable time was had.

MR. FRANK P. MILLS JR., of Crystal Falls, spent Christmas, as well as a few days just before and after, among his numerous friends and acquaintances here. Bear-ly anything had been heard of Mr. Mills since his contribution to the zoological garden in connection with the IshpeMING foundry, some time last summer. The magnificent gift at that time made is now a wanderer upon the face of the earth.

OUR accident insurance agent, Mr. Charles Hayden, is just now enjoying a brief respite from the labors of his agency, visiting with his parents and friends in the southern Michigan home from whence he came. The vacation has been earned, and now that Mr. Hayden has succeeded in building up a business that will hold together without his constant care, we trust he will find opportunity to take more recreation.

ANDREW NELSON, of Champion, came down to attend the dance last Tuesday evening, but got too drunk, and the patrolmen gathered him in. At justice Carlson's court on the following morning he put up sufficient "dust" to liquidate the fine and costs taxed by his honor, and was allowed to go his way back to Champion rejoicing. He didn't have the dance but he had its equivalent in fun—an elegant jamboree.

NELS CLIFTON & Co., of the cheap Star clothing emporium, are offering special inducements to purchasers at this season. The remainder of their large stock of ready made garments will be sold at greatly reduced prices during the next 30 days. They also have in stock a fine assortment of boots and shoes and gents' furnishing goods, which will also be disposed of at advantageous figures to the purchaser. This is a genuine stock reducing sale, and means money saved to those who are in want of goods.

THOSE who love to extract pleasure from sleigh rides can now do so after the most approved fashion—either singly or in groups—by calling on the liverymen Waiseth & Tislov. These gentlemen have just added to their barn stock several new and elegant sleighs and cutters, and as their st-

pers are the liveliest to be found in the city, their stable is a good one to visit when you are in want of a rig. One fine three-seated barouche, which has but just been added to their outfit, is particularly desirable for parties who wish to enjoy a family ride.

THE Chicago Madrigal club will occupy the boards at Austin's hall on New Year's night (Monday), and a musical treat such as is seldom enjoyed in this city is promised. It is unfortunate that the troupe could not have secured another evening, as the day itself, if observed in the truly orthodox way, is quite enough to tire the frames of those of our people who dote most upon artistic music, and from whom the company expects most by way of patronage. However, concert such as we have ample reason to expect is a most excellent "night-cap" for a day like New Year's, and we bespeak for the company a full house. If you have not yet secured seats you can get them at Tillson's.

WHAT appears to be an utterly needless alarm seems to have seized upon a portion of the laboring men of this city, many of whom are looking for a reduction of wages. The wages now paid unskilled labor, as well as skilled labor, while not low, are yet low enough, and we think there is no disposition on the part of individuals or corporations doing business in this city to "cut" the established scale. The fears of the laboring classes, so far as we can learn, appear to be groundless, and the agitation, which seems to emanate from the unindustrious few, should pass unheeded. Disasters have sometimes been talked into existence, and it certainly is not policy to anticipate a storm of ruin which as yet shows no signs of gathering.

THE celebration of midnight mass at the Catholic church on Sunday night last was attended by an audience which completely filled the immense church, many being brought out by the announcement that several selections of music would be rendered by the IshpeMING sextette, an instrumental musical organization of recent formation, and under the leadership of Prof. Chas. A. Fohrman. If the popular commendation which is awarded the sextette be any criterion, then we may say that the members acquitted themselves in a most artistic manner, rendering, respectively, "The heart bowed down," from Bohemian girl; Balfe's "Shepherd's evening song;" "Oft in the stilly night," and "the Warrior's adieu Quickstep." It was the first appearance in public of the sextette.

THERE hasn't been anything to trouble the youngsters this week—not even the day school—and they have been only too numerous upon the street. Kids with dogs and bob-sleds have held carnivals this week for a fact, and what a general prayer of thanksgiving will ascend when the bell tolls for their re-assembling in the school-room! We like kids when administered in moderate quantities, but when whole acre lots of 'em are let loose we unite with the immortal apostle to the Mormons in saying "good Lord deliver us." IshpeMING has more kids to the square rod than any other city this side of Marquette, anyhow. In fact there are whole families here who don't think of much else but raising them. But of course we must have "kids," else what would the future generations do for drunkards and law-makers and editors, and all the various other citizens who go to make up the average community?

SALOONISTS and dealers in the "weed" do not look forward to the coming first few days of the new year with any expectation of a rich harvest of "s' ekels," for they know that this is the annual "swearing off" time—the season when both young men and the more advanced pilgrims vow that they will never, no never, by the eternal, indulge in anything that taxes them alike health and pocket and brings no return. All intend to "brace up" and lay by their earnings, and "so live that when the summons comes to join the innumerable" host of spotless cherubims, they will be found in a condition of purity; their breaths untainted by gin cocktails, and their garments guiltless of the vile odor of stale tobacco smoke. The intent is noble, lofty and deserving of commendation; but, then, it is a fact that not one-tenth of those who thus resolve ever keep their self-imposed obligations. Men who have thoughtlessly contracted a useless habit—one which clings to and becomes part of them—cannot, do not, or will not, break it off unless they are compelled to, and then only after the most difficult struggle. Hence the causelessness of the fears of those who make a living by dealing in the articles referred to. There will be a few days of lull in their business, but the boys will all come back, and when they do come they will make up for their abstinence by an even more reckless indulgence. We haven't much faith in the permanence of New Year's day resolutions; nevertheless we would not disparage the custom of resolving to do better, as by so doing we might be interfering with the internal improvements of his Satanic majesty's domain, for is it not written that "hell is paved with good intentions?"

Charles L. Sheldon, BOOTS AND SHOES.

Now on hand, a full assortment of Warm Lined Slippers, Childrens' Slippers, Ladies' Kid Opera Slippers, several varieties of Gents' Hand Sewed Shoes, in the latest Styles, Gents' Patent Pumps, a large variety of Gent's Calf and Kip Boots, Mining Boots, Boot Paces, German Socks, Neipps, &c., &c.

ISHPEMING, MICH.

ROBERT MAXWELL,

IshpeMING and Republic,

DEALER IN

FURNITURE,

AND

Funeral Director,

Is prepared to arrange for funerals anywhere and at any time. Bodies embalmed if required. Parties in any part of the peninsula should telegraph me at once at IshpeMING to have their orders promptly filled.

ROBERT MAXWELL.

NEGAUNEE.

REV. MR. DAVIS, and Rev. L. E. Lennox have both been ill this week, but not seriously so.

MR. AND MRS. SNOW, of Greenfield, Mass., are the guests of their daughter, Mrs. Edward Blake.

The children of the Episcopal Sunday school were banqueted at Winter's hall on Wednesday evening.

AGENT DOUGHERTY, of the C. & N. W. R'y, and his family, are enjoying a vacation visit at the home of parents in Elgin, Illinois.

THE MINING JOURNAL collector will be around next week, and you fellows who are in arrears for subscriptions may as well prepare to do your part.

AN oyster supper for the benefit of the sisters of St. Joseph was the order at Winter's hall on Tuesday evening. It was not the large success that had been anticipated.

ALTHOUGH the Presbyterian church is so far completed that the society intends occupying it one week from tomorrow, it will not be ready for dedication until two or three weeks later.

COMPARATIVELY few strangers are within our gates at present, and the commercial traveler, so numerous at all other seasons, is not here at all. A short interlude of bliss to the business man.

THE sympathy of the community goes out to Mr. F. B. Nickerson, of the C. & N. W. railway, who has been called to Meridian, Conn., to attend the funeral of his mother, who died suddenly.

OVER at the South Jackson location there is scarcely a house that contains children that doesn't contain whooping cough. The "whoopers" are also quite numerous throughout the city proper.

THE midnight mass at the Catholic church on Sunday night brought out a congregation completely filling the immense church edifice. Many of those in attendance were Protestants, who went out of curiosity.

THE third in the series of club parties under the auspices of the Negaunee social club was given in Winter's hall on Thursday evening. Not only were our own society people generally present, but a considerable number from other places besides.

IT was a happy gathering of children that assembled at the Methodist Episcopal church Christmas festival last Monday evening. The presents to each pupil were of a nearly uniform value and all useful. The occasion proved all that was anticipated.

THE regular weekly meeting of the Chautauqua Literary and Scientific circle was not held on Wednesday evening. At the next meeting the circle commences the study of geology, with Prof. Whitney as instructor. The interest of the circle is being kept up.

TOMMY FLYNN and his fellow sportsmen have arranged for a grand dog trot, to take place on Iron street next Monday afternoon. Considerable money has been raised to provide prizes for the winning pupps, and a day of much sport is promised. The kids are already busy practicing with their steeds for the forthcoming meeting.

THE appointment of Prof. V. B. Cochran, of this city, as register of the land office at Marquette, is announced. The position, which is a high salaried one, is at present held by Mr. H. H. Stafford, who has resigned on account of ill-health. Prof. Cochran is the present state superintendent of public instruction, having just been elected to that position for a second term. His appointment to the registership will receive the approval of the masses.

MR. EDWARD LOBB, of this city, is now engaged in the manufacture of a superior quality of ginger ale and other temperance beverages, including root beer. In this new departure from his regular line of business Mr. Lobb is well qualified to excel, having, besides the requisite machinery for its manufacture, a thorough knowledge of the art. When it becomes widely known among consumers that Mr. Lobb is sending out these drinks we believe his beverages will be in great demand—in fact will become even as popular as the gentleman himself.

CALLING will not be largely indulged in by gentlemen of this city on New Year's day, although some few will make that pleasant custom the order of the day's business. On the other hand the ladies are not making any extensive or general preparation to receive their gentlemen friends, as the children in most families have got the whooping cough. This last remark is not made to scare the boys away, for most of them have had the malady, but if any of them haven't it will serve as a warning. Calling is a nice custom for New Year's day, as it affords an excellent opportunity to gather in freelunches, with the bill of fare something above the average.

MR. HARRY DE VERE, whilom townsman and good fellow generally, has been in the city a few days during the past week, visiting old friends and viewing his former stamping ground, which same he acknowledged to be greatly improved since the time of his departure two years ago. Mr. De Vere

is now part proprietor of the Jenkins house at Iron Mountain, and, by what we learn from other parties, has been greatly prospered in the matter of this world's goods since leaving Negaunee, being considered at his town "on the range" one of the solid men of the burg. It does Negaunee people proud to see their old friend, and he can't come any too often to suit them.

HON. JNO. Q. ADAMS, our new member of the legislature, left for the seat of that assembly on Thursday. That Mr. Adams will faithfully represent the interests of the upper peninsula at Lansing this winter we have no doubt, and our people can safely trust to his discernment. He leaves thus early for the seat of government in order that he may look the ground over and become acquainted with men and measures that will be presented. He assures us that he is pledged to no senatorial candidate, but will cast his vote in support of the person whom he thinks will best represent the great and varied interests of the state. Mr. Adams also goes loaded with several bills of his own framing, which he will present on the opening of the legislature.

How some of the "far downs" of this city manage to attain to the average of life, and yet live in all the dirt and foul air that they keep within their houses, would tax the brain of a greater savant than the writer to explain. Having occasion to visit a family of this class during the week, we found the mother sitting in a small, hot room, with several little children around her, and another, sick and wasted, was upon her lap. While waiting for the head of the family, we almost smothered and had to put our head through the door to get a breath of fresh air. The place was a veritable hog pen, and had we biceps to back the impulse it is possible we might have more than entertained the notion of taking the "old man" of the family down and rubbing his nose in some of the—the filth.

"CHRISTMAS comes but once a year," but the worst of it is, when it gets here it lasts several days, and those who would be satisfied with a moderate indulgence in its festivities are forced, by the action of certain reckless elements of the body politic, to keep it up most of the week, thereby unloading them for the comparatively less important holiday of New Year's. There is a large class that couldn't think of passing the holiday season without indulging in a prolonged drunk, thus stopping, to a great degree, the various industries where they are employed, and making it necessary for the decent portion of the community to lay aside everything else and look after rioters. The only persons to whom the week intervening between Christmas and New Year's is of any financial benefit are justices of the police courts and saloonists. Had the authorities done their whole duty, the profits accruing to the former would almost be equal to the gains of the latter. The authorities have been very lax in their dealings with street drunks during the past week.

WHY east Iron street should have lost its attractiveness as a thoroughfare has long been a mystery which we were unable to solve, but light has at last come to us, and what was once obscure is now made plain as day. Henry Atkinson owns a William goat, of the Angora breed, and the odor that arises from the said William, permeating the air for a block in either direction, is too much for the average man or woman to encounter and retain their peace of mind, hence they shy off into the back streets. The glue factory we have not but the Angora William goat we have with us in all his odoriferousness, so what need we care what people say of our lack of enterprise! This William is a great pet of Mr. Atkinson, but he should bear in mind that the masses cannot well afford to build patent air purifying devices on their noses. We would not have the goat suppressed, but would simply suggest to the owner the propriety of bottling up a portion of the odor and sending it to the managers of certain glucose factories as an antidote for their complex smells. There's millions in such a scheme.

WETTSTEIN'S celebrated museum of minerals was taken possession of by the sheriff one day last week, at the instance of a Chicago jewelry firm to whom Mr. Wettstein owed \$240—the same being the remnant of an old debt. Since the sheriff took the keys the museum has been closed, pending a settlement of the difficulty, which we are assured will be speedily adjusted. It appears that there is a mortgage on the stock and fixtures, held by friends of Mr. Wettstein here, amounting to \$3,800, and it is understood that the Chicago firm will have to take care of this mortgage in case it attempts to dispose of the stock—a matter it will find hard to do at a profit, considering the peculiar character of the goods. Since the attachment the Chicago firm has offered to settle with Mr. Wettstein for half the amount of the claim, but that gentleman is not disposed to acquiesce. Mr. Wettstein has struggled hard to establish his museum on a paying basis, and was just on the verge of seeing the light of a new day when thus overtaken. His establishment is pointed to with pride by our citizens, many of whom do not realize the difficulties and financial losses which have been sustained in making it what it is today. It is to be hoped that the matter may be settled and the museum allowed to go on in the hands of Mr. Wettstein, and the general opinion is that the only loss the proprietor will sustain is that of his holiday trade.

L. D. CYR'S Holiday Announcement!

The experience of the past several holiday seasons has taught us that there is a large portion of our people whose taste, in the various and sundry fancy, ornamental and useful articles which go to make up the catalogue of Christmas gifts, is somewhat beyond the line carried by the ordinary dealers. To meet the demands of this higher taste has been our aim this season; and at the same time we have not forgotten to lay in an immense supply of the cheaper grade of goods. We aim to supply the whole people, and we have the stock to do it. The beautiful custom of sending Christmas and New Year Cards will be more than ever observed this year, and in anticipation of an immense local demand we have cards ranging in price from 5 cents to \$11. To enumerate the articles in our stock would require twice the space of the MINING JOURNAL, but we will call especial attention to our stock of Children's Toys, Cups, Saucers and Vases, Dressing Cases, Toilet Sets, Photograph and Autograph Albums, Party Fans, Placques, etc., etc. Also a full stock of Jewelry and Silver and Silver Plated Ware.

L. D. CYR, Negaunee.

H. M. ATKINSON, Heavy Draught Horses

LaBelle Wagon! BEST IN THE WORLD. All kinds of fine family carriages constantly on hand and sold cheap. MINING TIMBER A SPECIALTY. J. H. GILLETT, MANUFACTURER OF LUMBER, LATH, SHINGLES, SIDING AND FLOORING. NEGAUNEE, MICH. 693y

CHRISTMAS day was the appointed time for the skating rink opening, but it failed to open as announced, the weather being so open that it couldn't. Ice is an essential thing in the economy of a skating rink, and there wasn't frigidly enough in the entire district Christmas day to produce a cake of it the size of a dinner plate. Anything in the future that depends on ice may be put in the category of uncertainties in this climate. It's but now and then that we have the sort of weather required to raise an ice crop.

THE January thaw was a little premature this season, and we are afraid was not received in that spirit of meekness which should characterize business men and christians. The former prefer sang weather during and after the holidays. They are better prepared to take rain in their along toward spring.

BUSINESS NOTICES.

A LARGE line of flooring, ceiling and siding for sale by J. H. GILLETT.

CHICAGO NEW BOARD OF TRADE.—On Wednesday, Dec. 13th, the corner stone of the new Board of Trade, Chicago, was laid with interesting ceremonies by its members and their invited guests. This will be the finest Commercial Exchange Building in the world, and the west may well be proud of it. Chicago's commission merchants are everywhere noted for their enterprising, push and energy. The advertisement of one of them, Messrs. Fleming & Meridian, has been running in our columns for several months. This firm, in addition to their warehouse and receiving business, have ably met the needs of those who desire to speculate safely with small and medium amounts. Their Fund W., which has sold regular monthly profits to its patrons for the past twenty months, is firmly established. It is certainly a safe and conservatively managed.

DRY SLAB WOOD \$2.50 per Cord, or \$3.50 for one and one-half cords. Leave orders at Ransom, Burris & Marsh's saw mill, or at store of Westlake & Bronson. [741F]

WATCHES cheap at Conklin's. CONKLIN will furnish ANY MAKE of piano or organ, and will take old instruments in part payment.

SPECIAL NOTICE.—I take the pleasure of informing the public to look out for H. S. Benjamin, of Milwaukee, as the agent of the Brown patent sleigh knee, as a noted schemer, in trying to mislead and deceive the public, in stealing the advertisement and well known reputation of the Sweet loose-jointed Common Sense sleigh. In trying to force his sleigh knee on the market, this schemer tells us that his sleigh has been thoroughly tested in the logging and mining regions, when he well knows that there is not a log sleigh in use, and it is not likely that lumber companies will do their logging in the summer season to accommodate Benjamin in testing his so-called log sleigh, as it was patented May 9th, 1882. Don't be deceived by this wanton schemer when he tells you that they are loose-jointed, etc., when he well knows that he can't build a loose-jointed sleigh under the Brown patent sleigh knee, unless he steals the right from Sweet to do so. I hold a copy of the so-called Brown sleigh knee patent, that I just received from the patent office, and in all the claims set forth there is not one word or claim about a loose-jointed sleigh, or anything that will warrant him in building one. So much for H. S. Benjamin and his east knee. T. MORGAN. Agent for Sweet's loose-jointed sleigh. The only first-class sleigh in the market, and don't you forget it.

1967 Prizes, amounting to \$35,500. Application for rates to clubs should be made only to the office of the Company in New Orleans. For information write clearly, giving full address. DR. J. W. KERMOTT'S

STRICTLY VEGETABLE ACT WITHOUT PAIN.

MANDRAKE PILLS, CURE Sick-Headache, Dyspepsia, Liver Complaint, Indigestion, Constipation, and PURIFY THE BLOOD. NOTICE.—Without a particle of doubt, Kermott's Pills are the most popular of any on the market. Having been before the public for a quarter of a century, and having always performed more than was promised for them, they merit the success that they have attained. Price, 25c. per box. For sale by all druggists.

LAH DE DAH LINGO.—Was there ever a more remarkable creature than the young man of to-day? I greatly wonder at him when he wears that so low as to be almost flat and shoes so sharp as to be nearly tragic, but it is when he talks that I find myself most amazed. I had the pleasure of sitting in a car on the west side elevated road on Thursday, when a youth from Yale strode in and discovered an acquaintance in the person of a young New Yorker who sat opposite me.

"Well, fur charity's sake!" yelled the youth from Yale. "when d' you blow in?" He was tall, was the youth from Yale, with a sharp nose, very tight trousers, a microscopic moustache, a very short coat and an English hat. "Some one's left the door open," he continued, looking around with a broad and comprehensive smile at the passengers, "and this curiosity has blown in."

This brilliant sally was received by the New York young man with grins of delight. He retorted with epigrammatic brilliancy: "Ah, go chase yourself around your feet!"

Upon this she shook hands warmly; man's furtive blows at each other ribs and sat down together. They both stared at the passengers for some time, expecting them to go into transports of merriment, but somehow the passengers did not look joyful, but gazed at each other sadly and with apprehension.

"Oh, you coy darling!" piped the New Yorker, in a voice supposed to mimic femininity. "Why have you not written me? Morn, noon and eve have I longed for a word from thee, gentle Joe."

"Yes, an' you got left, Orlando." "When d' you cum down?" "Last eve. Got on an awful bad with the boys, and was to be at fourteen o'clock. A. M., with a head the size of a balloon jib on a nobleman's yacht. When I fell out of bed for breakfast this morning what do you s'pose I got?"

"Got left." "No, no, dear son; I got a note from a gay deceiver, asking me to call around an' take her an' a man to the polo grounds to see the foot ball match."

"D' you take her?" "Bet her sweet life I didn't. Sent a note sayin' 'I'm no hog; I'll take you, but I draw a line at the old woman.'" "Nothing mean about you, if you are beautiful."

"Well, she must think I'm a bloomin' chump to lug the entire domestic establishment to the game. By the way, Rosalind, get onto this hat, will you?" "Oh, you sassy devil, it's English an' your mother is hungering for bread. However, yer bound to keep up with the style, I see."

"Well, there's snow in bed when I get left. It was quite chilly a little while ago, though. I was going down Madison avenue when my eyes lighted on a coy and giddy dame—a perfect fairy, by George! I said, 'I will have recourse to a wily plot, oh, had I crossed the street, forged ahead, came over to the near side again and wandered casually back, so as to give her an opportunity to 'sow me in all my native grandeur and beauty.'"

"Oh, you sweet thing!" "Well, I gave her a good chance to get mashed on my shape, an' then raised my newly gotten tile and said, 'pleasant evening?' Well, sir, she just raised her eyes slowly and gave me the coldest cut you ever saw in your life. 'Pshaw, it makes my head swim to think of it.'"

"What did you say?" "I did the brat act again and gently murmured, 'good evening.'" "After this the New York young man recounted several thrilling experiences with beautiful girls who had been madly in love with him at various times, in a voice distinctly audible throughout the whole car. They were evidently the sons of wealthy parents, and had been given every advantage but that of careful training. I should imagine that the best thing to do with them would be to give each one a thorough spanking and put him to bed until he has learned the English language.—Brooklyn Eagle.

"ROUGH ON RATS."—Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers. 15c. Druggists.

A LATERAL TRANSLATION.—When Billy Root was a little boy he was of a philosophical turn, and always wanted to know almost everything immediately. He could not wait for time to develop his intellect, but he crowded things and wore out the patience of his father, a learned savant, who was president of a livery stable in Chicago. One day Billy ran across the grand building sign generally represented as a tape worm in the beak of the American eagle. Billy asked his father what "E Phuribus Unum" meant. "I admire your strong appetite for knowledge," Billy said. Mr. Root: "you have a morbid craving for cold hunks of ancient history encyclopaedia that does my soul good, and I am glad, too, that you come to your father to get accurate data for your collection. That is right. Your father will always lay aside his work at any time, and gorge your young mind with knowledge that will be as useful to you as a farrow cow. 'E Phuribus Unum' is an old Greek inscription that has been handed down from generation to generation, preserved in brine, and signifies that 'the tail goes with the hide.'"—Bill Nye.

THE CONDUCTOR.—I had been suffering with a severe cold for several days, and was so hoarse I could not speak above a whisper. Nov. 16th I met one of Dr. Warner's agents on my train. He handed me a bottle of White Wine of Tar Syrup and one hour after taking the first dose my hoarseness commenced to leave me. In twenty-four hours my voice was quite clear and natural and the cold nearly cured. It is the best remedy I ever saw. Respectfully, C. W. WARREN, Conductor, Chicago & Northwestern R. R. Winona, Minn., Nov. 29, 1879.

A PHILADELPHIAN tells the press a characteristic story of Daniel Webster. The statesman's father was a great lover of military musters. One day, when he was going to training, he gave Daniel and his brother Ephraim a quarter apiece to spend as they pleased. At night, he called his two boys to him and asked them what they had done with their money. Daniel was very ready to tell. He had bought cakes, cider, etc., and had a good time. But Ephraim refused to tell how he had disposed of his wealth. His father insisted, and at last he reluctantly confessed that he had loaned it to Daniel.

"BUCHUPATBA."—Quick, complete cure, all annoying Kidney, Bladder and Urinary Diseases. \$1. Druggists.

ITEMS OF INTEREST.

NOTHING is ever lost by being pleasant and agreeable. You ask for two pounds of steak—no more, no less. One butcher grows that he can't cut off just two pounds, and you leave him, thoroughly vexed. At the next stall the man of meat hears your request with unruffled visage, cuts a pound and a half, slips it into the scale and out again in double-quick time, rolls it up neatly, and says, with a sweet smile: "Just two pounds, m'sam." He is the man who succeeds.—Boston Transcript.

THE purity and elegant perfume of Parker's Hair Balsam explain the popularity of this reliable restorative.

"How beautiful the dome of heaven this evening!" said Annetta, as she leaned heavily on his arm. "The stars seem to look down upon us." "O, yes," said practical John, "it's impossible for them to look up to us, you know. They can't."

A DELICIOUS appetiser, that ensures digestion and enjoyment of food; a tonic that brings strength to the weak and rest to the nervous; a harmless, barbaic cure that don't constipate; just what every family needs—Parker's Ginger Tonic.

THE remark of the pious Aeneas, the classic exclamation, "Horresco referens," I should like to relate to you, as the equivalent of the modern expressions, "I should blush to murmur," "I should titter to ejaculate," etc.

"The woman who seeks relief from pain by the free use of alcoholic stimulants and narcotic drugs, finds what she seeks only so far as sensibility is destroyed or temporarily suspended. No cure is ever brought by such means, and the longer they are employed the more hopeless the case becomes. Leave them alone, and believe in the wisdom and use Mrs. Pinkham's Vegetable Compound.

MILLIONS of packages of the Diamond Dyes have been sold without a single complaint. Everywhere they are the favorite dyes.

"That butter is all right," said a boarding house keeper; "it is firkin butter, and tastes a little of the wood that's all." "If that's the case," replied the boarder, "I'm a contractor, 'I should like to get some of that wood to make railroad bridges out of."

JOHNSON'S ANODYNE LINIMENT is one of the few really valuable patent medicines which we always take pleasure in calling attention to. It is both for internal and external use and is worth more to a family than a whole medicine chest.

"Why is a young man like a kernel of corn?" asked a young lady. "Because," said another, "he turns white when he pops."

IMPURE blood is the cause of more misery than any other source of disease, but this fact is often overlooked. Parson's Purgative Pills will make new blood, and the entire system in three months, taken one a night.

SAID a farmer who was given to long drinks, to a brother agriculturist: "What breed of cattle would you advise me to adopt?" "Short horns," was the significant reply.

MECHANICAL ORGUMENT.—The most wonderful musical instrument ever made. Plays automatically any tune that was ever written. The Orgument is a rod instrument on the principle of the cabinet organ, but with this difference, that no previous knowledge of music is required to play the most difficult pieces. A child who has no knowledge of music can execute the most difficult airs with all the skill of the most accomplished musician. Plays religious, sentimental and dancing music with equal skill. Suitable for the parlor, chapel, lodge or ball-room. The sweetest toned instrument ever heard of. The admiration of all. The Orgument is simple in principle, strong in construction and durable in every part. Will not get out of tune or require repairs, even if used constantly. The music is produced by sheets of perforated paper. This paper is of great strength and durability and will not wear out. The number of tunes being unlimited, any person can play the latest compositions of the day without the trouble of learning them. The price of the Orgument is \$8.00, but during this month, in order to increase our holiday trade, we will send the Orgument complete with choice selection of tunes, on receipt of Six Dollars (\$6.00). The Orgument has a very handsome black walnut case, highly polished and elegantly ornamented with gold. It is the perfection of mechanism, and will last a lifetime. Every instrument shipped without delay, and guaranteed perfect in every respect. Extra tunes (several hundred in number) supplied at 4 cents per foot. Send for catalogue of extra tunes. Receipt by postoffice order or registered letter. The firm is reliable.—Boston Globe.

Can and will do all they promise.—Chicago Herald. A rare bargain.—Philadelphia Record.

ROBERTS & CO., 7 Murray St., New York. 74833000

GEN. BUTLER took some friends out riding one day last fall at his country seat, in an old family carriage that looked as if it had come out of the ark. "General," said one of the party, "wherever did you get this trap?" "It was my father's," said Butler, laughing, "and has been in the family fifty years; but they say around here that it stole it at New Orleans."

A CARD.—To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you. FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, Station D, New York City.

"WELL," said a philosophic friend to an invalid, "had you a good night last night?" "No; I never suffered so in my life." "Humi! That's better. But—brightening up—'you know a bad night is better than no night at all.'"

"WISE men say nothing in dangerous times." Wise men use nothing in dangerous diseases but the most approved remedies. Thus Kidney-Wort is employed universally in cases of diseased liver, kidney and bowels. It will cost you but a trifle to try it, and the result will be most delightful.

An old gentleman of this vicinity, who has got some way beyond the nineties, and is only a few per cent. below the par which we all ought to reach before we render the final account, was discussing political and social questions with his grandson a few days since. The old man and the young one differ on almost everything except poetry and eloquence and family affection. At the close of the discussion the elder said: "I think I shall come round to your opinions, my boy, for I find I am getting into my second childhood."—Newburyport Herald.

SPARKLING eyes, rosy cheeks and clear complexion only accompany good health. Parker's Ginger Tonic better than anything, makes pure, rich blood and brings health, joyous spirits, strength and beauty. Ladies try it.—Bazaar.

It was the house of the bride's parents after the wedding. On the table were exposed the costly presents. Two gentlemen were examining them. Said one of them suddenly: "These you say are the bride's presents, but what does the groom get?" "Oh," replied the other, "he gets the woman." First gentleman: "Is that all? Poor fellow!"

SKINNY MEN.—Wells' Health Restorer restores health and vigor, cures Dyspepsia, Impotence, Sexual Debility. \$1.00.

SPEAKING of love scenes between actors, a writer in The New Orleans Democrat says he knew two actors of the opposite sex who positively disliked each other, but were forced by their parts into the most devotional tenderness of conduct. One night as he was playing at love she was to rush into his arms. Being a true artist, she did her work with energy, and between speeches he muttered: "You need not swallow me." She replied, "you are too bitter a dose." While holding her in fond embrace, wrapped in delicious transport, he growled in a whisper: "Don't let me so hard against a man." "You are paid for holding me, and I intend you shall earn your salary," she replied. She married another actor, and clings still to the dislike for the man with whom she plays.

BROWN'S PATENT IMPROVED Common Sense Sleighs FOR TEAMING, LOGGING AND MINING. These sleighs have been thoroughly tested in the logging and mining regions, and have proved superior to any other sleighs heretofore used. They are loose jointed, the runners acting independently of each other. We claim for them superiority over all other loose jointed sleighs for the following reasons: They have a solid cast iron knee made in one piece, making them much stronger and less liable to get out of repair than any sleigh having the knee in two or more pieces. The knees are all alike, insuring uniformity of bearing, so that the sleigh must run correctly. It is the cheapest single team sleigh that can be made, has a less number of pieces, is less liable to breakage and is more easily repaired if broken than any other loose jointed sleigh. We also handle a full line of light business sleighs, pleasure sleighs, swell body, Portland, and other styles of cutters, and shall be pleased to quote lowest prices to dealers, lumbermen, miners, etc. Send for circular and prices to H. S. BENJAMIN, 191 and 193 Second St., MILWAUKEE, WIS.

PATENT NEW IMPROVED HYDRAULIC FEED DIAMOND PROSPECTING AND WELL-BORING MACHINE. Improved Core Lifter, and Improved Lifting & Safety Clutches. For contracting or price of Machines, enquire of G. F. CASE, P. O. Box 440, Ishpeming, or SULLIVAN MACHINE CO., Claremont, N. H.

Brandies, Gins, Jamaica Rum, Sherries, Ports, AND ALL KINDS OF CORDIALS. Brandenburgh Freres' CLARET, and G. H. Mumm & Co's CHAMPAGNE, C. Lauterens Sohns' RHINE WINES, L. Brunningshaus' BURGUNDY WINES. Domestic, Key West and Imported Cigars.

PETER DOLF, Dealer in Hardware, Stoves and Tinware. Agent for the celebrated ACORN STOVES AND RANGES. Manufacturer of TIN, SHEET-IRON AND COPPER WARE. Cor. Front and Washington streets, MARQUETTE, (661) MICHIGAN.

KIDNEY-WORT IS A SURE CURE for all diseases of the Kidneys and LIVER. It has specific action on the most important organ, enabling it to throw off torpidity and infection, stimulating the healthy secretion of the bile, and by keeping the bowels in free condition, effecting the regular discharge. If you are suffering from biliousness, dyspepsia, or constipation, Kidney-Wort will surely relieve and quickly cure. In the Spring to cleanse the system, every one should take a thorough course of it. SOLD BY DRUGGISTS. Price \$1. KIDNEY-WORT
