The stomach is more often overworked than any other part of the human body. Countless numbers of people eat too much, and nearly every person in the world eats things that do not agree with the system. The stomach is the first organ to feel the evil effect and to suffer. The overplus of food and the things that are unwholesome, or often mildly poisonous, are emptied right into the stomach, and it is given the impossible duty of digesting and assimilating all this Teams skipped by Otto Fowle and stuff. Is it any wonder then that the stomach suffers? Is it any wonder that it needs relief? When a man is overworked in this fashion he simply breaks down. Who can wonder then that the stomach is deranged by this unjust burden and must refuse to do its work? the Algoma Central railway, yesterday

It is because of this ignorant and unnatural eating that most people are afflicted with some sort of stomach trouble, which is usually followed by liver or bowel complaint. For this reason nearly everybody needs a stomach regulator to strengthen and invigorate the stomach and enable it to do its work well. In this situation

JOHNSON'S STOMACH TABLETS

are the best possible remedy, because they give quick, sure and permanent relief. They act directly on the stomach, assisting it to rid itself of waste food and poisonous matter. They heal and strengthen the inflamed or weakened surface of the stomach, give fresh vigor to the whole organ and aid it in its work of separating the strength and nourishment in the food from the waste matter so that the valuable parts may be turned in new, healthy blood, bone, flesh and muscle. In this way it keeps men, women and children strong and healthy.

JOHNSON'S STOMACH TAB-LETS are invaluable in all cases of malaria, indigestion, constipation, diarrhoea, biliousness, and every form of stomach, liver and bowel trouble. They are unequaled for this purpose and never fail to effect a swift and lasting cure when the directions are faithfully followed.

As a gentle laxative JOHNSON'S STOMACH TABLETS are without an equal. They never fail to cause a movement of the bowels, no matter how acute the case may be They can also be used as a purgative by doubling or tripling the dose. If people could be made to realize how important to the health is the regular movement of th

We propose to supplant the labor of fifty to seventy-five alien Chinese in Houghton county by the same number of American men and women, to whom we offer desirable employment at living wages in large, well-lighted, airy rooms and under perfect sanitary conditions.

Aside from the fact that with the aid of the most modern labor and fabric saving machinery, we are turning out the best work in Michigan. The vast difference between our large and perfectly ventilated work rooms, compared with the unspeakable squalor of a Chinese laundry, should, apart from all other conditions, give us the preference "by a large majority." To this end we ask your co-operation and patronage. Our perfect system of delivery guarantees satisfactory service.

MINING JOURNAL: WEDNESDAY MORNING, JANUARY 2, 1901.

The two years past that we have given special sales on Muslin Underwear were events. of special interest to the ladies of Marquette, but we were then selling goods at a profit, to be sure at a small profit and much less than you had been accustomed to pay, but this SALE will be a new departure.

> Hundreds of new garments bought only a few weeks ago for our regular January Sale, and on which we had expected to make a fair profit, will be sold this week at MANUFACTURERS' PRICES.

We shall devote eight counters to these goods, thus giving buyers an opportunity to see the entire line. If you are nterested in these goods, do not wait, thinking the afternoon will be time enough, as many lines of these goods will be sold before ten o'clock. Ladies who have availed themselves of these sales heretofore will surely be in attendance early.

THE GREATEST VALUE IN GLOAKS WE EVER PLACED

Your choice of HUNDREDS of Stylish Jackets

This is the GREATEST CLOAK OFFERING of the Season.

It means a great loss to us, but we must sell them at some price. Beginning today we will close at six o'clock every night except Saturdays.

In the vast retail establishments of large cities, many women are employed as saleswomen.

Men formerly held the positions that women now hold, and while women's organism is less strong than men's, they are expected to do the same work. Their duties compel them to be on their feet from morning to night, and many of them, in a short time, contract those distressing complaints called "female diseases."

Then occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhœa, general debility, and nervous prostration.

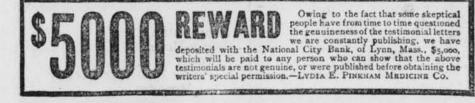

They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness.

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this. They also prove the value of Mrs. Pinkham's advice.

"DEAR MRS. PINKHAM:-I take pleasure in writing you a few lines thanking you for your advice. I did just as you told me in taking your medicine, and owe my life to you. You are like a mother to your sex. I was awfully sick, was all run down and felt sick all over. I looked like a person brought out of the grave. My face was as white as the driven snow. was always tired after doing a little work and would have to sit down. I was troubled terribly with headaches and my appetite was not good; also, troubled with shortness of breath something awful for about a month. I could not go up one flight of stairs without being tired and having to stop to get my breath. I was feeling just as miserable as could be. I took two bottles of Lydia E. Pinkham's Vegetable Compound and cannot express my thanks to you for what your medicine has done for mo."-MISS M. F., 35 Devon St., Grove Hall, Roxbury, Boston, Mass.

"I Can Work Every Day in the Week Now."

"DEAR MRS. PINKHAM :-- I write this letter for you to publish for the beacht of poor, suffering women. Lydia E. Pinkham's Vegetable Compound has done me a great deal of good. I have taken three bottles and feel like a new woman. When I began the use of your medicine I was hardly able to be up; could not do half a day's work. I ached from head to foot, was almost crazy, had those bearing-down pains, and stomach was out of order. Now all of these troubles have left me and I can work every day in the week and not feel tired."-MRS. JENNIE FREEMAN, 402 Pennsylvania Ave., Lima, Ohio.

PLETE HOLIDAY.

There Were Three Midnight Services in Marquette Churches Monday While Dancers Sped the Parting Year at Fra-

The new year and the new century started in with the coldest weather which has been experienced here this winter. The temperatures registered Monday evening were low and it did not require much of a weather prophet to predict that the mercury would drop away below zero before morning. Ten and eleven degrees below were registered very early and, while it warmed up toward midday, still, the New their homes by warm firesides. At no time during the day did the mercury mount much higher than ten above. The festival was observed as a day of complete rest and business of all kinds was suspended. In the aftermany Marquette ladies receiving their Friends. Special services in most of the churches attracted general attention in the morning. The 11 a. m. service at St. Paul's cathedral was one of the most claborate, the music being particularly notable in that it was fur-
