PERIL SEEN BY PINGREE.

Says Great Revolution Will Sweep Country Unless Conditions Change.

HIS INAUGURAL A HOT ONE

Senate, Press, Courts and Corporations, Including Mining Interests, Bitterly Scored by Retiring Governor.

ECONOMY URGED BY BLISS.

Lansing, Mich., Jan. 3.—Both houses of the Michigan legislature assembled in joint session today to hear the inaugural message of ex-Governor Pingree and the inaugural message of Governor Bliss.

Mr. Pingree prefaced his message with some extemporaneous remarks, in which he attacked the courts, the legislature and the press. He also urged that the legislature appropriate sufficient money to amply pay the expenses of the governor, saying it had cost him \$40,000 during his four years' term of office.

HITS AT THE SENATE.

In his inaugural, ex-Governor Pingree took up the subject of "equal taxation," reviewing all the steps that had been taken to date toward increasing the amount of taxes paid by the railroads and other corporations. Said he: "The lesson to be drawn from the history of the contest for equal taxation is that if the people wish this great problem to be satisfactorily settled, they must center their efforts upon the election of a senate which shall be less subject to the seductive arguments of the railroads and other wealthy and powerful interests and more responsive to the wishes of the people."

The message urged that the legislature adopt a resolution requesting congress to call a convention for the purpose of proposing an amendment to the Constitution providing for the election of United States senators by popular vote. Municipal ownership of public utilities and the furnishing of street car transportation were advocated, and the charges of extravagance in the conduct of the state government were denounced. Mr. Pingree urged ample appropriations for the state institutions, and particularly for the insane asylums, which he said are much overcrowded. Shorter legislative sessions were also advocated by the retiring governor as a means of economy, and in this connection he recommended that the legislators be paid a fixed salary of not less than \$1,500. This, he thinks, would mean economy in the long run in that the work would be accomplished in less time than now.

Mr. Pingree favored, also, the removal of the state capital to Detroit or Grand Rapids, or if not that, then the erection of a new capitol building at Lansing, the present one being far too small. He thinks that either Detroit or Grand Rapids would donate a site and erect a \$5,000,000 building if it were decided to move the state headquarters.

MINING INTERESTS ATTACKED.

Forest preservation and the work of the fish commission were endorsed, and the ex-governor took the following fling at the upper peninsula mining interests: "The suggestion has been frequently made during the past few weeks that the board of state tax commissioners be increased so that the mining interests of the state capital to Detroit or Grand Rapids, or if not that, then the erection of a new capitol building at Lansing, the present one being far too small. He thinks that either Detroit or Grand Rapids would donate a site and erect a \$5,000,000 building if it were decided to move the state headquarters."

"If, however, this plan is to be recommended by the incoming administration and if your body is to be requested to increase the tax commission, I see no reason why the same favor should not be shown to the smaller property owners as to the rich and powerful interests. If the mining companies are to have a representative on the commission, it is only just that the farmers have a representative, also the clerks, the bookkeepers, the grocers, the workmen, the stove manufacturers, the furniture manufacturers, the shoe manufacturers, and so on."

"I earnestly hope that the suggestion to increase the commission will not be made, and if it is that you will not act favorably upon it. I cannot but believe that it is made for the purpose of nullifying the law and leading eventually to its repeal—a consummation which, in view of the work of the commission during the past year, is being devoutly prayed for by those who

(Continued on Page Five.)

DUKE HENRY IS WROTH.

HOSTILITY OF THE DUTCH PARLIAMENT IN THE MATTER OF HIS FUTURE POSITION NETTLES QUEEN WILHELMINA'S FIANCE.

London, Friday, Jan. 4.—A special dispatch from Berlin reports that Duke Henry of Mecklenburg-Schwerin, whose marriage to Queen Wilhelmina of Holland has been announced for Feb. 7, has left The Hague indignant at the tone of the parliamentary discussion on the subject of his future position.

Whether this is true or not, there is no doubt that there has been endless trouble connected with the projected marriage. Queen Wilhelmina has contrived to get up as much fuss about the style of precedence as that experienced in England in 1849, when Queen Victoria married Prince Albert of Saxe-Coburg. Queen Wilhelmina wished Duke Henry to be created prince consort, and have precedence over her mother, but she was overruled on both points.

On the other hand, her majesty's solicitude for her future husband's pecuniary comfort has by no means been equal to her solicitude for his dignity. She has even up her original proposition to settle a large sum on him out of her private fortune and now proposes that parliament settle £16,000 per year on him, payable if he survives her. While the latter is alive Duke Henry will get nothing according to this plan. There is a very strong feeling in Holland that no allowance for the duke should be asked from the country, considering the vast property at the disposal of Queen Wilhelmina. Duke Henry's private fortune is inadequate for him as prince consort, and he will practically be dependent on his spouse.

The Hague, Jan. 3.—The second chamber today adopted without amendment the various articles approving the queen's marriage to the Duke Henry of Mecklenburg-Schwerin. It is said the duke feels hurt because the parliament will not grant him a large allowance and the title of royal highness.

URGES AN ANTI-KIDNAPING LAW.

DIETRICH, REPUBLICAN, TAKES OATH AS NEBRASKA'S CHIEF.

Lincoln, Jan. 3.—Charles H. Dietrich was inaugurated governor of Nebraska before the joint session of the legislature in the hall of the house of representatives at three this afternoon. The ceremony was short and simple, occupying but a little over an hour and being limited to the reading of the inaugural message of Governor Poynter and the inaugural address of Governor Dietrich. The latter makes a record in brevity, containing about a thousand words, limited to state matters.

The governor's most urgent recommendation to the legislature is to "provide relief for the supreme court, now far behind with its work, by empowering it to create a board of referees to act until a constitutional amendment can be submitted increasing the number of judges. He favors reasonable appropriations to advertise Nebraska at the Buffalo and St. Louis expositions, a new board of control for the state institutions, a law permitting surety bonds for state officers at the expense of the state, the erection of monuments to the heroic dead, and a strong anti-kidnaping law.

The governor's reception tonight in the senate chamber was largely attended. The presence of General Fitzhugh Lee, of the Department of the Missouri, with his staff; the governor's guard, and members of the state militia added brilliancy to the spectacle. The reception was followed by an elaborate ball at the Lincoln Auditorium.

TAXATION PROBLEM IN MAINE.

Augusta, Jan. 3.—Dr. John F. Hill took the oath of office as governor of Maine today. Governor Hill advocated the taxation of interests now escaping the burden.

Concord, N. H., Jan. 3.—Chester B. Jordan was inaugurated governor of New Hampshire today. Governor Jordan's inaugural address protested against allowing the railroads to pay the salaries of the railroad commission and called for larger appropriations for Dartmouth college.

GOV. CRANE INAUGURATED.

Boston, Jan. 3.—Governor W. Murray Crane and Lieutenant Governor Bates were sworn today.

MICHIGAN INDIANS IN LUCK.

\$45,000 FOR QUIT CLAIM DEED TO CHICAGO LANDS TO BE PAID THE POTTOWATTAMIES.

Hartford, Mich., Jan. 3.—The Pottowattamie tribe of Indians, residing in this vicinity, was notified today that the \$45,000 promised it for a quit claim deed to certain Chicago lands on the lake front are now ready for payment. This is the first notice the tribe members have had that they will get the money. It will be divided equally among about 300 men, women and children, the survivors of the once famous tribe.

GETS A POST IN PORTO RICO.

JAS. F. HARLAN OF ILLINOIS NAMED AS ATTORNEY GENERAL

Washington, Jan. 3.—Among the nominations which the president sent to the senate today was that of Jas. F. Harlan of Illinois to be attorney general of Porto Rico.

DRANK WOOD ALCOHOL.

Little Rock, Ark., Jan. 3.—Four prominent farmers of Sevier county are dead as a result of drinking wood alcohol at a holiday gathering. The dead: W. C. Baker and Alfred, John and James Dickey. Ten others are seriously ill, several being at the point of death.

COLONIALS MOBILIZING

Hundreds Rallying at Cape Town and Elsewhere to Battle Invaders.

LONDON MORE CONFIDENT

Activity of the South African Recruiting Creates a Better Feeling, Despite Progress of the Raiders.

ROBERTS AT WAR OFFICE.

London, Friday, Jan. 4.—The advices from Cape Town this morning are more hopeful, owing to the active recruiting of local forces in all quarters, and a better feeling prevails in London, based upon the prospect of Lord Roberts taking the reins at the war office.

From Sydney, N. S. W., it is reported that there is quite a rush of men there anxious to join the new contingents, five thousand having volunteered.

The reports of General Kitchener's conference with the burghers also tends to remove anxiety. According to The Daily Express, Lord Kitchener has warned the mine owners that they must not count upon military protection.

GREAT ACTIVITY AT CAPE TOWN.

Cape Town, Jan. 3.—The military authorities are preparing for all contingencies, and it has been decided to transfer the Boer prisoners from the camps to transports.

Farmers coming in at Carnarvon describe the Boers as traveling in parallel columns, with numerous flanking parties, sweeping the country of horses, plundering the loyalists and carrying off everything eatable. It appears that they are accompanied by strings of pack horses lightly loaded.

Coleberg telegraphs that Kitchener's command is crossing the Middleburg district but is getting few, if any, recruits.

TOWN GUARD ORGANIZED.

Here in Cape Town such business men as are unable to leave are organizing a town guard, composed of leading citizens.

The commercial companies have asked the mayor to call a mass meeting to urge the government to suppress the disloyal newspapers and proclaim martial law.

The British battleship Monarch today landed men and guns to relieve the troops for service northward. It is believed the guns will be sent up the country.

Five hundred citizens enlisted today, the enrollment being very active. It is hoped the first batch of mounted men will leave within three days for Worcester. They are to hold the passes of the Hex River mountains and protect the railway tunnel. The organization is rough and ready, not troubled much with drill or special uniform, and horses are scarce. Six thousand, five hundred South African irregulars have been recruited during the last eight weeks.

BECHUANALAND IN REVOLT.

A commando is supposed to be in the mountains dividing Middleburg and Graaf Reinet, but cannot be exactly located. The invaders in the West, who were expected at Frasersburg today, have altered their course and are now moving in the direction of Williston, to the northwest. The British have occupied Frasersburg.

The Boers in Bechuanaland have been again joined by the inhabitants, who once before rebelled. Commandoes are reported to be at Bilkfontein, Botha, and Daniels. Their objective is to be Griquatown, which is occupied by the British.

The Boers in the Transvaal have been exceedingly active for the last week or so, daily attacking trains, convoys and isolated posts. In most instances they have been repulsed, and the railways are now working more regularly.

LAURIER SENDS MESSAGE.

Sir Wilfrid Laurier, the Canadian premier, replying to Sir John Gordon Spriggs' thanks to the Canadian contingent, cables the Cape Colony premier as follows: "Canada will be repaid for the little she has done if her example helps to bring peace, harmony and confidence among all her majesty's subjects in South Africa."

(Continued on Page Five.)

TRUCE IN SUGAR-COFFEE WAR.

ANOTHER REPORT THE GREAT BATTLE, WHICH HAS COST \$25,000,000, IS NOW TO END.

Chicago, Jan. 3.—The Tribune will print the following tomorrow: "Private advices have been received in Chicago that the war between the great sugar and coffee trust—a battle which has been stubbornly fought for more than three years between Henry O. Havemeyer, on the one side, and John Arbuckle, on the other, and which has cost these two rivals approximately \$25,000,000—is to be brought to a close.

"Negotiations have been closed in New York and Chicago whereby the Arbuckles will nominally give up sugar roasting and become the dictators in the coffee trade, while Havemeyer and the sugar trust will practically give up the coffee roasting plants acquired in the effort made to crush John Arbuckle and will handle only the sugar business. Each will, however, continue in the business of his rival in a small way, compared to their holdings of the last three years.

"To this end the big coffee roasting establishment of W. F. McLaughlin & Co. of this city, one of the important 'independent' houses in the coffee world, is to pass into the control of the Arbuckles through the hands of the Havemeyers. The Arbuckles are also to get the Woolson Spice company, with mills at Toledo. In exchange, the Arbuckle brothers' sugar refineries pass to the Havemeyers."

BISHOP NINDE IS NO MORE.

WELL-KNOWN METHODIST PRELATE FOUND DEAD IN BED AT DETROIT—HEART DISEASE.

Detroit, Jan. 3.—Bishop W. X. Ninde, aged sixty-eight, of the Methodist Episcopal church, was found dead in bed at his home here today. It is thought the cause of death was heart trouble. The deceased had been a bishop of the Methodist church since 1884, and was widely known throughout the United States. He leaves a wife, three sons and a daughter.

FATAL SLEEP OF ACTRESS.

Chillicothe, Mo., Jan. 3.—Jessie E. Clark, the actress, whose stage name was Violet Creagan, was found dead in her room in a hotel here today, death resulting from the use of ether, believed to have been taken to relieve headache. She had relatives in Baraboo, Wis., who, however, have not been located. The woman's five-year-old child was unable to give any names.

SUICIDE AT KANSAS CITY.

Kansas City, Jan. 3.—Emmett Phillips, aged forty, claim adjuster for the Kansas Southern railroad and son of United States District Judge John F. Phillips, was found dead in a room in the Blossom House in this city tonight as a result of strychnine poison.

BOSTON'S SIX-DAY BIKE RACE.

WALTHOUR AGAIN GAINS THE LEAD, ABOUT TEN FEET.

Boston, Jan. 3.—Bobby Walthour left no doubt as to his position at the close of the fourth day, or forty hours, of the riding at the Park Square Garden tonight. He had a good ten feet lead on Stinson, who was his closest competitor. With the exception of a few brief moments during the evening, the day was quiet in the extreme. About ten there were a number of warm sprints, but otherwise the evening was much like the afternoon.

The scores at the end of the fourth day are as follows:

	Miles.	Laps.
Walthour	759	4
Stinson	759	4
McLean	759	4
McEachern	759	4
Downey	759	4
Fischer	759	4
Babeock	758	7
Muller	749	2
Kaser, the German, who led yesterday, has withdrawn.		

BIG TRUST IN PLOWS.

COMPANY CAPITALIZED AT \$65,000,000 IS ORGANIZED.

Chicago, Jan. 3.—The Chronicle tomorrow will say: "A combination of the plow companies of which there have been rumors for two or three days, will be organized next week with a capitalization of sixty-five million dollars. The Chicago men who have been the prime movers in the preliminary negotiations stated yesterday that all obstacles to the consummation of the deal have been removed. Thirty-one firms are said to have agreed to enter the new concern, which probably will be called the American Plow company."

THIEVES RAID OHIO VILLAGE.

ROB A SAFE AT CAVETTE AND TERRORIZE THE CITIZENS.

Lima, O., Jan. 3.—The village of Cavette, near Van Wert, was thrown into a fury of excitement this morning by the appearance of a desperate gang of eight or ten robbers who aroused the town by promiscuous shooting and blowing open the safe of Horgan's general store. They secured about \$500 in cash, besides a lot of valuable papers. About a hundred shots were exchanged between the robbers and citizens, but no one was hurt. The thieves escaped.

THREE MORE LONDON FAILURES.

LONDON, JAN. 3.—Three additional failures were announced today in connection with the suspension of the London and Globe Financial company.

TIGHTER MONEY IN LONDON.

London, Jan. 3.—The Bank of England's rate of discount was raised from seven to eight per cent today.

DAILY MINING JOURNAL

Queen Victoria has knighted Hiram S. Maxim, the inventor of the Maxim gun.

Australia's federation became a consummated thing on New Year's day.

"I want," says ex-President Harrison, "to save my veneration for the men who made us a nation and organized the union under the constitution."

Governor Bliss has announced the appointment of Tom A. Hanna of Iron Mountain to the office of state commissioner of mineral statistics.

The exhortation of the retiring governor is a warm state paper. The late chief executive calls attention to many things which he regards as abuses, and there are enough of these on his showing to make appear that the state is in a bad way.

Before it can be said that the world is again better than it was, it is necessary that the state is ended. His final message discloses a desire on the part to pull the "tongue down on himself and his enemies as he goes out of the doorway, but the strength of a Samson is not to be had, and the world will stand, though it may need a little finalization.

There are a number of anti-Quay Republicans in the legislature, but the candidate's friends claim that he is assured of enough Democratic support to give him a majority on the first ballot when the legislature takes up the matter of choosing the senator.

PROTECTION THAT HURTS. The Marquette Review gives this passage from a letter received from a representative of one of the Atlantic coast ship yards, which will be read with interest.

THE FORESTRY PROBLEM

The forestry problem is one of such vast importance, not only because of the commercial value of the timber itself, but also because of the influence of the forest upon the climate and the soil.

Forestry experiments were begun by the Michigan Agricultural College in 1874, when Dr. W. J. Beal, professor of botany, set the first trees in the college arboretum.

In 1894 the state board of agriculture authorized the director of the experiment station "to place the forest area of the college farm in such a condition as to illustrate as far as possible the most advanced methods of production of wood for commercial purposes."

Just east of this large forest wood lot number 2, which in 1885 was set out in pine, with a few deciduous trees, has been made of the timber growth on each ward, special trees have been marked, calibrated and otherwise measured.

So much for what has been done at the college station. It is to be noted that the Michigan Agricultural College also claims priority for work in forestry, done in the sand barrens of northern Michigan in 1888.

THE MONEY OF THE WORLD. The director of the mint has reported to the treasury that the amount of gold in the world is estimated at 1,000,000,000 ounces.

Our silver men, in the days of their "wildcat" days, were always denouncing the "gold bug" which, according to them, was the cause of all our troubles.

IF YOU SMOKE

Mr. and Mrs. W. D. Donaldson and Mr. and Mrs. John H. Roe returned yesterday from Marquette, where they attended a large family reunion at the home of Messrs. Donaldson and Roe.

Geo. Kemp has about closed a deal for the purchase of Frank Perry's handsome residence property at the corner of Army Place and Bingham avenue.

Two new boats. Captain Kean departed yesterday for Toledo, where he will oversee the construction of the new steam ferry for the Arnold line and a new ferry for the Sault Ste. Marie Ferry company.

TO BE MARRIED SOON. Miss Bertha Bernier, who recently resigned her position as stenographer in the office of prosecuting attorney John A. Steffen, and Chas. E. E. Fiehrer, the efficient salesman at W. W. Campbell's grocery store, are to be united in marriage in the near future.

SAYS NO TO THE SENATE

President Declines to Give the Result of the Inquiry in Cuba.

AGAINST PUBLIC INTEREST

Plan of Cutting the Southern Representation is Sprung in the House—Voted Down Temporarily.

ARMY BILL AGAIN TAKEN UP

Washington, Jan. 3.—The president today sent a message to the senate declining to comply with the resolution requesting the transmittal of the Lawshe report in regard to the irregularities in connection with the postal affairs in Cuba.

ROUND FOR THE SOUTHERN STATES

Washington, Jan. 3.—The radical element among the house Republicans who favor the cutting down of the representation from the Southern states in which franchise is abridged, suffered defeat today because a number of their colleagues refused to act with them.

ISSUE A SURPRISE.

The issue was precipitated quite unexpectedly. The leaders had decided that the reapportionment bill should be taken up today, but before it could be called Mr. Olmstead of Pennsylvania offered, as a matter of privilege, a resolution reciting the alleged abridgment of suffrage in Louisiana, Mississippi, South Carolina and North Carolina and directing the committee on census to investigate and report the facts to the house in order that the constitutional basis of representation could be established for those states.

The resolution created a sensation, and it was a surprise even to several of the Republican leaders. The leaders on the Democratic side sought in vain to head off the resolution with points of order, but the speaker ruled against them and they then began to filibuster, openly avowing they would fight every proposition looking to a reduction in the representation from the Southern states to the bitter end.

Several of the Republicans were secretly in sympathy with them and their indifference to the fate of the Olmstead resolution in the end gave the opposition the victory of today.

Many of these Republicans quietly paired with absent Democrats, leaving their absent colleagues unpaired. As a result, when the question of consideration was raised against the resolution, it was defeated, 81 to 83. The vote was a strict party one. Two Republicans—Messrs. Landis of Indiana and Mann of Illinois—answered present, but did not vote.

WHY THE DEFEAT.

The story of the defeat is found in the absences on both sides who were unpaired. Thirty-two Republicans were absent, unpaired, against sixteen of the opposition. Those absent and unpaired were: Republicans—Boutelle (Maine), Brooks, Brown, Burkett, Calderhead, Clark (New Hampshire), Dahle, Samuel Davesport, Dick, Fowler, Gardner (New Jersey), Hawley, Hoeffcker, Knox, Lovimer, Lowderslager, McLean, Metcalf, Miller, Mondell, Morgan, Needham, Otjen, Parker, Prince, Russel, Showalter, Smith (Illinois), Sprague, Stevens (Minnesota), Wadsworth, Wagner.

Democrats—Barber (Pennsylvania), Bardley (New York), Brewer (New York), Catchings, Gaston, Gayle, Glynn, Leavy, May, Meekinson, Sheppard, Stallings, Wilson (South Carolina), Zeigler, Silver (Republican—Willson (Idaho).

COMPLICATES THE SITUATION.

The situation with reference to the reapportionment bill is greatly complicated as a result of the infection of the Olmstead resolution, but Chairman Hopkins, however, is confident of victory for his bill. He thinks the Olmstead resolution may pass in the full house and an investigation may be made, but that the matter will end

SENATE TACKLES ARMY BILL

SUBSIDY PLAN IS RELEGATED AND NEW INSTALLMENT OF PHILIPPINE DEBATE BEGINS.

Washington, Jan. 3.—Without a murmur of dissent, and without a word of comment, the senate today displaced the shipping subsidy bill from its privileged position, as unfinished business, and substituted for it the army reorganization bill. Since the second day of the present session the shipping bill had been unfinished business with the understanding that it should not interfere with the consideration of the army reorganization bill or of the appropriation bills.

During the discussion of the army measure the opposition senators indicated that their line of attack upon the bill would be against the creation of a large, permanent standing army. There was an intimation that objection would not be offered to a temporary measure to provide an adequate force to maintain the authority of the United States in the Philippines.

After some discussion of the status of the army bill and the amendments made by the senate's committee, the bill having originated in the senate and been amended by the house, which offered the substitute for it and returned it to the senate practically as a new bill, Senator Pettigrew demanded the reading of the measure in full.

Senator Bacon inquired who would have discretion in fixing the strength of the army.

"The president of the United States," replied Senator Proctor. "Aguldino will have something to say about it," interjected Senator Hawley.

Senator Bacon retorted hotly. He had, he said, the question in good faith and resented the jocular interjection of Mr. Hawley. The bill involved not only the serious question of the size of the army, but whether it should be the recognized policy of government that the chief executive should have unlimited, unbridled, uncontrolled power—absolute power—to increase at will the army of the United States.

Senator Hawley disclaimed any intention of being uncivil to Senator Bacon. He had meant to convey the idea that the cause of the Filipino insurgents might be the determining factor in the size of the army.

Senator Allison maintained that it was not the purpose of the military committee the idea of the bill that the discretionary power of congress should be taken away and conferred upon the president. He held that the strength of the army from year to year could be determined by the appropriations for the army made by congress. Thus congress at all times would determine finally the size of the army.

At 2 o'clock Senator Frye, president pro tem, laid before the senate an unfinished business the shipping subsidy bill. Senator Hawley asked for unanimous consent that the shipping bill be laid aside temporarily and that consideration of the army bill proceed.

"I object," shouted Senator Pettigrew. Senator Hawley then moved that the senate proceed with the consideration of the army bill.

"Will that motion, if carried, have the effect of displacing the subsidy bill as unfinished?" inquired Senator Bacon.

"It will," replied the chairman. Without division the motion prevailed and the army bill became unfinished business.

Senator Bacon said he was ready to vote for a bill providing an adequate army for the present needs of the government, but limited as to the time of its operation. He was irrevocably opposed, he declared, to the present bill because it fastened upon the country for all time an immense standing army. He expressed perfect willingness to support that construction in its maintenance of its authority in the Philippines, though differing from its Philippine policy; but the danger was that the army would be increased eventually to one of several hundreds of thousands and that would dominate the country.

Senator Hawley said the necessity for an adequate army was evident to all. Said he: "We are not altogether out of sight of some possibility of war with some of the European powers. We do not know. They are in a great deal of trouble there. I understand, and they look with very great jealousy upon our talk of the Danish islands, our talk about acquiring other territory." He said that all that is possible is being done to win the hearts of the Filipinos, but that with some of them the progress was necessarily slow because of the past experience of the people with their rulers. He said the senate military committee was unanimously of the opinion that a strong army should be kept in the Philippines.

Senator Carter defended the proposed increase of the permanent army in view of the temper of the Philippine people. The Filipinos, Senator Carter argued, should be made to understand once and for all that it is the purpose of the United States to maintain law and order in the Philippines, and he thought the most effective way in which to do that was to permanently increase the army.

After some routine business had been transacted Senator Daniel called up and had read the resolution adopted by the house of representatives upon the death of the late Representative R. A. Wise of Virginia. The senate adopted similar resolutions and, as a further mark of respect, the senate adjourned.

DELAYED HONORS FOR SHAFER.

SENATE MILITARY COMMITTEE AGREES TO HIS RETIREMENT AS A MAJOR GENERAL.

Washington, Jan. 3.—The senate committee on military affairs today agreed to accept the amendment suggested by Senator Daniel to the army reorganization bill for the retirement

of General Fitzhugh Lee and General Jas. H. Wilson as brigadier generals and also agreed to the amendment for the retirement of General Shafter as major general.

TO FIX LEVEL OF THE LAKES.

The river and harbor committee today adopted a provision authorizing the president to negotiate for fixing the level of the great lakes, as follows: "That the president of the United States is authorized, by diplomatic negotiation or otherwise, to enter into such arrangement as will secure, as far as possible, the maintenance of a substantial level in the great lakes and the continuous waterways between the United States and Canada."

ANOTHER HAZING INQUIRY.

CONGRESSIONAL COMMITTEE TO TACKLE THE BOOZ CASE TODAY.

Philadelphia, Jan. 3.—The congressional investigation committee recently appointed for the purpose of inquiring into the case of Oscar L. Booz, the former West Point cadet whose relatives believe came to his death as a result of hazing at the military academy two years ago, assembled at the Lafayette Hotel in this city tonight. The committee, which consists of Charles Dick of Ohio, chairman; Edmund H. Driggs; New York; Irving P. Wanger, Pennsylvania; Walter L. Smith, Iowa, and Bertrand L. Clayton, New York, held an executive session at which the preliminary arrangements for taking the testimony were made. The committee will begin the taking of testimony tomorrow at Bristol, the home of the Booz family.

FRENCH FLEET TO MOBILIZE.

MINISTER FOR THE MARINE ISSUES AN UNEXPECTED ORDER.

Paris, Jan. 3.—The minister for the marine, M. de Lanessan, has issued unexpected orders for the mobilization of the entire Mediterranean fleet at Toulon on Tuesday, Jan. 15. The order includes torpedo boats and auxiliaries.

The mobilization order is not understood in Paris, as it cannot be connected with the regular annual maneuvers, which do not take place until midsummer. It is generally believed, however, that M. de Lanessan desires to exhibit the resources of the navy and its ability to mobilize at a rendezvous without a given time. Under M. de Lanessan's administration many reforms have been instituted, and he has for some time been desirous of testing the naval staff.

IMPORTS, SALT FROM PORTUGAL.

ARMOUR PACKING COMPANY DECLINES TO PAY THE TRUST PRICES IN THIS COUNTRY.

Kansas City, Mo., Jan. 3.—A large shipment of salt from Lisbon, Portugal, for the Armour Packing company has just begun to arrive in Kansas City. Thirty-five cars have reached here and twenty-five cars are on the way. Each car is loaded with from thirty-five to forty tons of the salt, all in bulk.

The purchase of this enormous quantity of salt by the Armour company was provoked by the high prices demanded by the salt trust in this country. Salt might have been bought from the Hutchinson (Kas.) companies. The Armour company uses about fifteen carloads a week. James Ferrell, purchasing agent for the company, said:

"Prices are now \$5 a ton, a figure so high that we were forced to do something desperate to escape the payment of it. Instead of buying salt at a point 29 miles from Kansas City we have sent more than 5,000 miles to another country for it, and after paying steamer and freight rates and a custom duty of 8 cents a hundred, we are still able to save money. This shows what an outrageous profit the salt trust makes in this country."

TODAY'S WEATHER.

Washington, Jan. 3.—The following is the weather bureau's forecast for Upper Michigan: Occasional snow showers, colder in western portion. Friday: east to northeast winds becoming northerly and brisk on the lake; Saturday, occasional snows, probably, along the lake shore.

DIES IN A RUNAWAY.

Cody, Wyo., Jan. 3.—John Deinkorn, a wealthy ranchman, was killed and his companion, Toby Cross, fatally injured in a runaway here today.

80 and Not Gray

"I have used Ayer's Hair Vigor for a great many years, and although I am past eighty years of age, yet I have not a gray hair in my head."—Geo. YELLOTT, Towson, Md., Aug. 3, 1899.

Ayer's Hair Vigor always restores color to gray hair. We know exactly what we are saying when we use that word "always."

It makes the hair grow heavy and long, too, and stops falling of the hair. Keep it on your dressing-table and use it as directed.

One dollar a bottle.

If your druggist cannot supply you, send us \$1.00 and we will express a bottle to you, all charges prepaid. Be sure and give us your nearest express office.

CHAFFEE NOT INVOLVED.

Raids of Chinese Towns Under Guise of Punitive Expeditions Not Participated in by U. S. Troops.

CHURCH MEN UNDER FIRE.

Paris, Friday, Jan. 4.—Le Journal this morning reports: under reserve the death of Count von Waldsee, the rumor being that he was killed by an officer of the allied troops, though the circumstances have not been related. It is said the rumor is current in Berlin, where it has not been confirmed.

IS JAILED FOR BIGAMY.

G. W. HOWARD, A PROMINENT EASTERN ELECTRICAL ENGINEER, IN SERIOUS TROUBLE.

New York, Jan. 3.—George W. Howard, a wealthy civil and electrical engineer, a graduate of Dartmouth college, and member of the Reform club of this city, was arrested last night in his rooms at the New Amsterdam Hotel. The charge against him is that of bigamy.

The women who, it is said, have been deceived by him are two. One, and the latest to be married to him, is Helen Hawkes Howard, of Brooklyn, whose father is Henry Hawkes, deputy commissioner of highways and a rich resident of Brooklyn. The other woman to whom Howard was married, according to the story told by Magistrate Brenner of Brooklyn today, was before her marriage Anna Kay, a graduate of Wellesley college and the daughter of an Episcopal clergyman. The warrant for Howard's arrest was obtained by Henry Hawkes, the father of Howard's second wife.

Howard came to this city from Boston about two years ago to represent the Whitney-Widener-Elkins syndicate. He received a salary of \$15,000 a year as consulting engineer for the syndicate. Howard until recently was vice president of the Engineers' club of this city. In Brooklyn he met Helen Hawkes, who was an exceptionally pretty girl of seventeen. Miss Hawkes' family is wealthy and stands high socially in Brooklyn, and in a few months they were engaged to be married. The pair were married on Sept. 19 last in St. Joseph's Roman Catholic church. Bishop McDonnell and Vice General McNamara were some of the church dignitaries present.

Soon after the pair returned from their wedding journey Howard moved to the New Amsterdam Hotel in Manhattan, and after that made frequent trips to Boston. A detective hired to shadow him told Magistrate Brenner that he followed Howard to Boston to the Hotel Touraine, where he left his luggage, and thence to 63 Vanauken street, East Cambridge. The detective continued: "I found an investigation that he called there to see a Mr. George W. Howard; that he was known there as her husband; and that the nine-year-old child who was with her was George W. Howard's child."

Mr. Howard no longer refused to believe his husband was leading a double life, but at last consented to communicate with Henry Hawkes of Brooklyn and became convinced. Both the Mrs. Howards are ill with shock.

MRS. NATION GETS BAIL.

JAILER REFUSES TO RELEASE HER, HOWEVER, BECAUSE OF THE SMALL-POX QUARANTINE.

Wichita, Kas., Jan. 3.—Dr. Brown, an attorney for Mrs. Carrie Nation, the saloon wrecker, appeared in court yesterday afternoon with a bond for his client. After legal sparring the bond was presented to Sheriff C. W. Simmons, who approved it. Dr. Brown then went to the county jail and asked for Mrs. Nation's release.

"We cannot let her out because the jail is quarantined against small-pox," said Jailer Dick Dodd. "I do not believe this jail contains one case of any kind of contagious disease," replied Dr. Brown, "and we think this quarantine is simply a scheme to keep Mrs. Nation from enjoying her liberty."

"Well, if you get her out," retorted the jailer, "it will be by force."

"We may do that if she is not turned loose by legal process," her attorney said. He was backed in his assertions to release her forcibly by his twenty or thirty women members of the local W. C. T. U. Many W. C. T. U. women met in front of the county jail in the afternoon and held a prayer meeting. The jailer continued obstinate, however, and Mrs. Nation is still in jail.

AMERICAN MEAT FOR RUSSIA.

CHICAGO PACKING CONCERN GETS A CONTRACT TO SUPPLY THE CZAR'S ARMY THAT OPENS AN IMMENSE NEW FIELD.

Chicago, Jan. 3.—Signatures have been affixed in this city to a great international contract and a Chicago packing firm will supply the Russian government this year with 1,500 barrels of a specially prepared meat to feed the soldiers of the czar's army. The terms of the contract will exceed \$100,000 and was eagerly sought by the representatives of almost everyone of the great Chicago packing concerns, but was won by Arthur C. Bourington, representing Swift & Co. The vast field for supplies in Russia and Siberia

CHRISTIAN SCIENCE ROW.

Omaha, Jan. 3.—Ex-Judge Joseph R. Clarkson, who has been a pillar of Christian Science and has been regarded as one of its staunchest disciples and one of its most forceful lecturers

has presented his resignation from the Christian Science society and the lecture board. He declares the reason for his resignation is that Mrs. Eddy is now employing improper methods in teaching Christian Science. Ex-Judge Clarkson is not yet ready to say how he disagrees with Mrs. Eddy.

GO TO DRILL IN EUROPE.

FAMOUS ZOUAVES OF AURORA, ILLS., CHAMPIONS OF AMERICA. START ON TRIP ABROAD.

Aurora, Ills., Jan. 3.—The famous Aurora Zouaves, the champions of the United States, have left this city for New York city. They will sail on Tuesday morning for Europe to fill a five weeks' contract with an American circus now playing in Vienna. They have secured other bookings, however, and expect to be gone for at least a year, possibly two years. The drill team is composed of seventeen men and Captain A. H. Taebble. They are the pick of the whole company of forty men and are as proficient in the various maneuvers as long years of practice can make them.

The Zouaves were organized in 1833. From the first they became prominent because of the wonderful accuracy and precision of their drill. Since they won the championship of the United States it has never been wrested from them, although nine teams have gone after it. The Zouaves are not professional and do not desire to be classed as such. They have, however, had short engagements on various occasions.

LONG RANGE RIFLE FIRING.

Some Experiments as to Its Military Value.

That the modern magazine rifles are capable of carrying long distances has been borne out by the Boers having been able to inflict considerable damage upon the English at a range hitherto deemed impossible, and this fact has been specially emphasized in those cases where they have had an opportunity of previously ascertaining the correct range. In the British army the soldier has never been drilled in rifle fire at a greater range than 1,000 yards. To exactly ascertain the efficacy of rifle fire at a long range, Sir William Butler, former commander-in-chief of the South African forces, has been carrying out some interesting experiments at the Aldershot camp. A body of infantry were supposed to be marching in columns over an open space, the range of which was known to another force holding an entrenched position a considerable distance away.

SECRET PROCESS INVOLVED.

A new process of packing and pickling meat, discovered and perfected in the houses of Swift & Co., was an important factor in the awarding of the contract. The process is a secret of the firm, and it is said that the problem of transporting the packed meat any distance and through any climate, from the steppes of Siberia to the hills of Afghanistan, without affecting the quality of the supplies, has been solved.

The contract for all food supplies to the Russian government is now held by a Russian firm of Vladivostok, in which, it is said, several of the great military officials of the empire are interested. The contract has been held for years, but some time ago an agency of the Russian firm was established in Portland Ore., through which the American supplies had been purchased. No great contracts had been given to the American packers, who for a long time had been eager to enter the new field, but one month ago the intimation was given that a large contract must be filled.

CUBAN AID FOR UNCLE SAM.

CONSTITUTIONAL SESSION CONSIDERS IMPORTANT POINTS.

Havana, Jan. 3.—The Cuba constitutional convention is considering two promulgations of the future relations between Cuba and the United States. One of these affirms, in the first place, an acceptance of the Monroe doctrine and the establishment of friendly relations with all nations, together with a resolution to proceed in all cases in complete accord with the United States. In the second place, it proposes to put at the disposal of the United States a portion of the seacoast of any bay on the north coast and of two bays on the south coast for naval stations, together with concessions of defense and sanitation. In the third place, it declares that Cuba will place itself on a war footing to help the United States in case such assistance should be needed, while a fourth proviso is an amplification of the first, second and third.

MURDER MYSTERY THICKENS.

St. Joseph, Mo., Jan. 3.—The prosecution in the Richardson murder mystery was greatly disconcerted tonight by the turn of events. The revolver which was supposed to have been used in the crime was claimed by its owner, John Lemon, aged twenty-two, who says the weapon was stolen from his buggy on Christmas evening while he was attending an entertainment at the opera house, accompanied by a young woman. His evidence has been verified.

STRIKE AT OHIO GLASS WORKS.

Barnesville, O., Jan. 3.—Over 300 employees of the new Eastern Ohio window glass factory have gone on a strike. They complain of the quality of the glass produced and refuse to work longer unless there is an improvement, claiming they are unable to work satisfactorily with it.

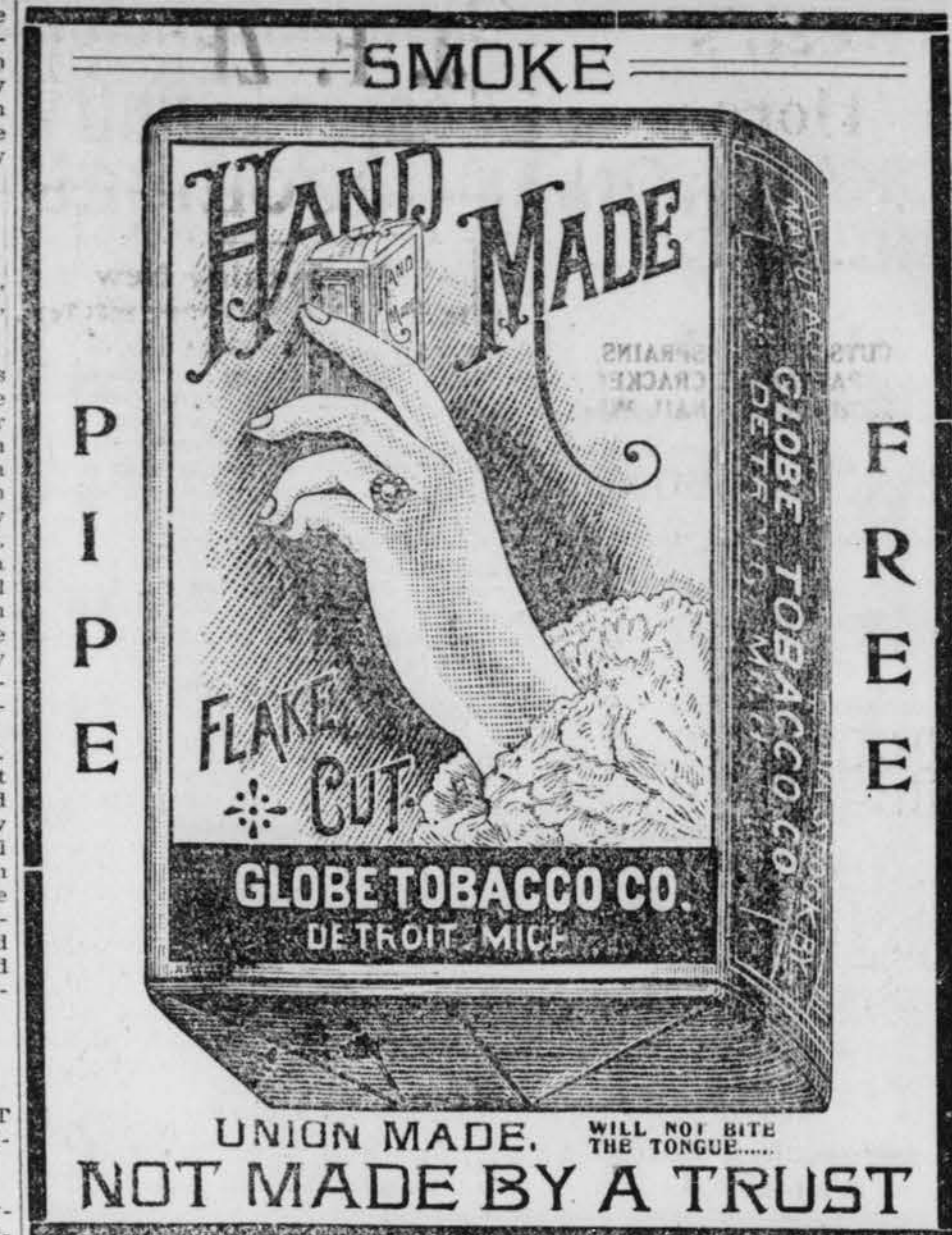

Later—The strike has been settled, the company guaranteeing the men 75 cents per box and operations at the factory were at once resumed.

GEORGIA NEGRO LYNCHED.

Rope Ga., Jan. 3.—Geo. Reed, a negro charged with the attempted assault of Mrs. J. M. Loy last night, was hanged today to a tree, after which his body was riddled with bullets, by a mob of 150 men.

Constipation neglected or badly treated, leads to total disability or death. Rocky Mountain Tea absolutely cures constipation in all its forms. \$5c. Stafford Drug Co.

TO LICENSE UNDERTAKERS.

BILL WHICH PROVIDES FOR THE EXAMINATION OF EMBALMERS WILL BE INTRODUCED IN THE LEGISLATURE.

The upper and the lower peninsula undertakers' associations have jobs in Lansing in the interest of an examination bill which they hope the legislature will pass at this session. The bill requires that all embalmers and undertakers shall pass a satisfactory examination by the state board of health before engaging in the business of embalming or preparing for burial the bodies of persons dying from contagious diseases; also that undertakers shall be prohibited from preparing such bodies for burial. It does not interfere with ordinary cases, applying only in those in which death has resulted from a contagious disease. The bill is considered a meritorious one and is favored by most of the undertakers in this section. Representative G. J. Evans is working for it, and there is little or no doubt that it will be passed substantially as introduced. It does not provide for any special appeal of cases that it is executed, and is placed under the jurisdiction of the state health officer.

WILL DO LADIES' TAILORING.

J. H. Mortley announces in his advertisement in this issue that he is about to open a ladies' tailoring establishment in connection with his gentlemen's tailoring business. He has secured the services of H. Malin, late of Chicago, who comes highly recommended as an expert in that line of work. He has been employed in some of the largest and best ladies' tailoring houses in Chicago, and has done work in all departments, from sketching to fitting and cutting. Mr. Mortley sought to secure Mr. Malin for some time before he finally succeeded in getting him. During the past year or more many of the ladies of this city and Negaunee have asked Mr. Mortley why he did not add a ladies' department to his establishment, all expressing the belief that the venture would be a paying one. It will be the only one of the kind in the county, and with such a man as Mr. Malin in charge the work should be crowded constantly. Mr. Mortley expects to open the new department in rooms on the second floor of the Jones block. He has a promise of the place and will take possession of it and occupy them. Meanwhile orders for ladies' garments will be received at Mr. Mortley's place in the Nelson block. A line of goods has been ordered and will be ready here for the inspection of the ladies at any time now. It is a splendid line of goods.

USED A KNIFE.

In a saloon on East Front street, Wednesday evening Herman Panta stabbed Joseph Mietman several times in the abdomen, cutting him quite severely. The injured man was removed to his home, where his wounds were dressed by physician Deputy Marshal Dean. Heard the noise in the saloon and rushed in to see what was the trouble. Panta had just completed his work and the injured man was lying on the floor, bleeding. Panta, at once placed Mietman's assailant under arrest. It was not without some difficulty that Panta was persuaded to accompany the officer, but the deputy's strong arm soon ended the discussion.

WILL HAVE A NEW CHURCH.

SWEDISH BAPTIST CONGREGATION WILL BUILD A NEW PLACE OF WORSHIP.

The Swedish Baptist congregation here, humbling about thirty families, will have a new church in the near future. This was decided on at the annual meeting of the trustees, held last week. When the new church will be built or where it will be located, has not yet been determined. No active work has been done until the site where the old church stands is sold.

FREE AT NEW CLUBHOUSE.

The Ishpeming Golf and Snowshoe club opened its new clubhouse, located between Ishpeming and Negaunee, last evening. Shortly before the reception fire was discovered between the ceiling and the second floor. The joint close to the chimney had ignited from the heat, and the fire was first discovered by one of the club members. The chimney is built of single brick and the heat from the fire in the large fireplace caused the blaze. The timely discovery of the fire and the green condition of the material in the building was all that saved the clubhouse from total destruction. The fire was extinguished by the fire department. The chimney is built of single brick and the heat from the fire in the large fireplace caused the blaze. The timely discovery of the fire and the green condition of the material in the building was all that saved the clubhouse from total destruction. The fire was extinguished by the fire department.

A PROMINENT CHICAGO WOMAN SPEAKS.

Prof. Roxa Tyler, of Chicago, vice-president Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine used in my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill and time and suffering, and I would be glad to recommend it to all who suffer without this splendid medicine again."

ISHPEMING IN BRIEF.

Herbert Ball, of Hancock, was here yesterday in order to see about the James H. Crozer of Menominee was in Ishpeming yesterday.

desire to be vaccinated at the county expense should call on him before that date.

While moving Sheriff Ponglase's household goods to Marquette Wednesday the driver of one of Hodgkins' teams dropped a valuable rug somewhere between this city and Negaunee. A reward is offered for its return.

The South Shore is offering a special rate of 50 cents for the round trip to all who wish to attend the late Bishop Mark's funeral at Marquette tomorrow morning. The train leaving here at 7:30 should be taken by all wishing to hear the services.

Miss Nellie Kennedy entertained about a dozen of her girl friends Wednesday evening in honor of Miss Eliza Ames. Among the present were the Misses May Kalkin, Rita Schilling, Grace Gouraud, Eliza Ames, Elsie Proulx, Margaret LaFroche, Emelia Ames and Ella Jacobs.

The Long company will produce "The Modern Galatea" this evening. The play is entirely new to local theatres and it is said to be a strong one. There is a great deal of clean comedy all through the piece. It is said to be one of the very strongest bits of the week.

Sam Apostle, of the candy firm of Apostle & Treas, has purchased the interest of his partner and will continue the business on his own account. Treas goes to Houghton, where he will open a candy kitchen. He is a good candy maker and will doubtless do well in the copper country town. During the holiday season the firm disposed of a large quantity of candy.

At a recent meeting of the congregation of the Swedish Lutheran church during the following officers were elected: Deacons, John Wahlstrom and Albin Forsberg; trustees for three years, August Swanson, Charles Bergquist and G. A. Lindholm; delegates to the Illinois conference, A. W. Johnson, alternate, John Lindstrom, superintendent of the school, A. W. Johnson. The regular meeting at which the reports of officers and trustees will be read and audited will be held the first Thursday in February.

THE ARCTIC SYBARITE.

So much has been written of the Eskimo ("husky") dogs and dog sleds of the north that they may well be mentioned here, if only to show the idea of luxury which many of the factors and traders of the Hudson's Bay territory entertain. Some of the "rattlers" in their caribou, swan and fur, is driven by an engine on foot, who dashes along at a great pace. The caribou is skinned and there are Russian bells on the collars of each of the long pack of dogs, while the harness is a mass of beauty and tassels. No longer when he loaves at night at a post does he partake solely of the simpler fare it can furnish, nor even when he camps out in the wilderness must he be content with what his gun can bring down, in addition to the primitive necessities. For now, either under the caribou seat or in an additional sled behind, there is a good supply of canned meats and vegetables, products of Chicago and Ontario, and, moreover, his driver is his cook. In the open air he will be dainty kindled by the fire, and his food, and even eggs, will be fried and hot "flapjacks," that delectable fritter of the factor's palate. At night, enveloped in his furs, and maybe, reclining on a hastily constructed bed of balsam boughs, the last vision before his eyes close upon the scenes of dreamland will be the scintillating splendor of the aurora borealis, whose purpling waves alternate with bars of vivid light so rapidly and in such volume as to make the beholder almost believe that nature speaks, although the silence all-penetrating—all pervading.

A POWDER MILL EXPLOSION.

Removes everything in sight; so do drastic measures. Both are mighty dangerous. Destroy the delicate machinery of your body with casomel, rotten oil or aloes pills, when Dr. King's New Life Pills, which are gentler as a summer breeze, do the work perfectly. Cures headache, constipation. Only 25 cents at the Stafford Drug company.

Stonemasons and carpenters wanted at Champlain. Apply to A. P. Wilson, 111 East Michigan street, Marquette. (1-3-0)

Ladies' tailor-made garments of all kinds turned out by J. H. Mortley. The ladies are invited to call. (1-4-0)

Terrific plagues, those itching, pestering diseases of the skin. Put an end to misery. Deans' Ointment cures. At any drug store.

"HACKING COUGH" is immediately relieved, and permanent cures by "Bismuth's Pine Tar Cough Remedy" cures when all others fail, and when once used is always recommended. Throatitis who are constant sufferers from "Lingering Coughs and Colds" find Bismuth's Pine Tar Cough Remedy the most effective and safe. For sale by the Stafford Drug Co.

Ladies' Tailor-Made Garments.

I wish to advise the ladies of Marquette county that I am now prepared to turn out TAILOR-MADE GARMENTS of all kinds. H. Malin, an expert fitter and cutter, is in charge.

A CALL IS SOLICITED.

J. H. Mortley.

BISHOP HAD A TIME LIMIT.

Anyone who knows the bishop of London at all well also knows his extreme readiness in repartee, relates Lord M.A.P. In the great story at Lambeth epigrams pour from his lips as he smokes cigarette after cigarette. Not long ago, in an ordination examination for priests' orders, a candidate asked the examining chaplain for a personal interview with the bishop during the time set apart for one of the papers.

"I am sorry to say, my lord," said the young deacon, "that I have not had sufficient time to get up this paper," mentioning the subject which was set for that writing.

"Indeed, my lord," replied the bishop, "that is very curious. I myself find that there are only twenty-four hours in the day. Surely you have had all the time there is."

Such a remark from Mr. Creighton, who is popularly supposed to be actually the busiest man in London, goes far to show why he can today sign himself "M. Lomax."

RICH, WARM, HEALTHY blood is given by Hood's Sarsaparil, and thus it protects the system from colds, fevers, pneumonia and other diseases that quickly overcome a weak and debilitated system.

The favorite cathartic is Hood's Pills. 25c.

The ladies of the county can now get their tailor-made garments at J. H. Mortley's. An expert is in charge of the new department. (1-4-0)

HOME FROM CENTRAL AMERICA.
RALPH WILCOX BACK FROM NICARAGUA, WHERE HE WAS EMPLOYED ON CANAL SURVEY.

Ralph Wilcox, son of Rev. Wilcox, pastor of the Methodist church of this city, has returned from Central America, where he has been working for the past seven months. Mr. Wilcox was running a diamond drill for the canal commission which has the work of making the survey for the new canal in charge. He is not very favorably impressed with Nicaragua or its people, and was greatly pleased to return to this country. In an interview with a Mining Journal reporter Mr. Wilcox said:

"I have just returned from Nicaragua, where I have been working for the canal commission, drilling for dam and lock sites. Neither Nicaragua nor its people suit my tastes. I don't like the country. It is low and unhealthy, and not the high, mountainous country the people of the north imagine it to be. The average height above the sea is about sixty feet. There is not a day in the whole year that it doesn't rain, and the rains are not like those we have up here, but continuous down pours which last for several hours. The sun will shine immediately after the rain, but the temperature is almost unbearable. The country is no place for a northerner."

"There are a few farms in the vicinity of the approved canal route but they are not kept in good condition. The owners plant the seed and let the weeds grow. They do not use any industry and thrift down south like there is in the northern states, and we cannot blame the inhabitants for the climate is not conducive to making one industrious."

"The mining enterprises are mostly controlled by British capital and are confined to gold and silver mining. The great difficulty is in getting men to do the work for the natives are too lazy to labor and white men cannot endure the climate. There is some American capital invested, but when compared to the British investment is quite small."

"However, I think that these active work is being put into the mining industry and other enterprises."

Mr. Wilcox says he is pleased to be home again. Although a pretty cold in this country the climate suits him far better than the excessive heat and dampness of the tropical regions.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box, 25c.

A TWENTY-POUND BABY
can take Dr. Caldwell's Syrup Pepsin with as much safety and beneficial results as an adult. It is a mild liquid laxative and children thrive upon it. Syrup Pepsin assists nature in cleansing the system, and its use is not attended with any of the unpleasant gripings and nauseating effects caused by the use of pills or so-called cathartics. Try a 10c size bottle (10 doses 10 cents.) Also sold in 50c and \$1 sizes by The Stafford Drug Co.

AUGUST FLOWER.
"It is a surprising fact," says Professor Hutton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy for dyspepsia, berated liver and stomach, and for constipation. I find for tourists, soldiers, sailors or for persons in any position where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not disturb the system by frequent use, and is excellent for four stomachs and indigestion." Sample bottles free from Stafford Drug Co. Sold by dealers in all civilized countries. Get Green's Prize Almanac.

MINERAL RANGE RAILROAD COMPANY
Notice is hereby given upon the request of the holders of more than one-fourth of the capital stock of the Mineral Range Railroad Company, that a special meeting of the stockholders of said company will be held at the office of the company in the Nester Block in the city of Marquette, Michigan, on the 15th day of January, 1904, at 10 o'clock P. M. for the purpose of providing for the liquidation of the company, or otherwise, for paying the indebtedness necessarily incurred and to be incurred in operating its railroad, for the construction of extensions already authorized, and for such other purposes as may be deemed proper by the stockholders in connection therewith as may properly come before the meeting.

Dated, Marquette, Mich., Dec. 12, 1903.

All exclusive features of these itineraries of leisurely travel, morning stories, the special train starts Tuesday, January 23, from Chicago.

Tickets include All Expenses Everywhere.

These select limited parties will be under the special escort and management of Lawrence Tourist Association. Read Campbell, general manager, 1422 Marquette Building, Chicago.

Itineraries, maps and tickets can be had on application to Agents of the Chicago, Milwaukee & St. Paul R'y. (12-15-10)

REPUBLICAN NOTES.
The small box score has practically died out in Republic.

Miss M. H. H. of Calumet, who visited Republic friends at a few days' interval the holiday season, has returned to her home.

Miss Margaret Swartzler, who spent New Year's here, the guest of Mr. & Mrs. Hocking, returned to her home in Negaunee Wednesday.

Mrs. George Jones and her daughter, of Ishpeming, have been guests of Mr. & Mrs. George Voyer at the Park House during the week.

Nearly all who spent the holidays with relatives and friends in Republic have left for their homes. There were more visitors than usual in some places.

A number of entertainments to take place this month, and next before sets in, are taking shape. There will also be some dramatic parties conducted by local organizations.

Captain Alfred Newell, who, with wife and son, William, who spent the holidays in Republic with Mr. & Mrs. A. Hocking, returned to their home in Negaunee Wednesday.

Frank Kennedy and Abel L. Smith, of the first bargaining club's party at Ishpeming on Friday evening, left

LOCAL LACONICS.
John E. Carroll of Dollar Bay was in Negaunee yesterday on business.

Austin Parrell of Gladstone was in Negaunee for a few hours Wednesday.

Val. Mueller, and wife, who have been visiting friends in Milwaukee, their former home, got home Wednesday.

Jacob Davison and wife left on Wednesday to spend a week or more visiting Mrs. Davison's brother at Lake Linden.

Mrs. Collier, formerly a Negaunee school teacher and now a resident of Soud City, is here visiting her parents, Mr. and Mrs. E. Ober.

The Christmas cantata, "Santa Claus and His Elves" which was rendered at the McDonald Opera House Christmas night, will be repeated Saturday evening at the Methodist church. Admission for all, ten cents.

A card party was given by Miss C. Willette at her home on Park street in honor of her brother George, who is visiting here. Miss Lehuillier of Marquette and Miss Joseph of Dollar Bay were among the guests from out of town.

The Knights of the Macabees entertained the lady Macabees at the A. O. U. W. hall last Wednesday evening. Installation of officers took place. Deputy Great Commander Patterson of Marquette was present to install the newly elected officers. A short musical program was rendered, after which a lunch was served by the knights. Dancing followed and the party did not break up until well along toward morning.

REPUBLICAN.
NEW SOCIETY HALL.
A STOCK COMPANY COMPOSED OF WOODMEN WILL PROVIDE THE VILLAGE WITH A NEW ASSEMBLY ROOM.

The different societies of the village will rejoice in the announcement that the members of the Woodmen of the World, a fraternal organization of America have organized a stock company for the purpose of building a new assembly hall.

At the last meeting of the committee an adjournment was taken, all present were enthusiastic and a good start toward carrying out the plan had been made. A number volunteered to take stock in it, and others said they would get out and work among the membership with a view to raising as large a sum as possible to begin with.

The new hall will be about 60 feet in length by 25 in width. A few feet will be taken off the floor proper for the front platform, which will be stationary. The other platforms, however, will be movable.

The new hall will fit a want that has been much felt. At present there is not more than one good lodge hall in the town and at times an additional place has been urgently needed. It is certain that a number of the societies will enter into a contract with the Woodmen for rental of the place. The Woodmen will use it one evening in each week and all other nights it will be for rent to other societies.

The floor space of the new hall will be sufficient to admit of the proper expansion of the societies work. Some of the societies have had to abandon the use of their parlor halls altogether on account of the limited space available at their present meeting places. This is especially true of the Woodmen. Their own work is considerable but they are not able to do it properly.

The Woodmen propose to get to work without delay in making final preparations for the erection of the new hall. They are anxious to get the place up and ready for use as soon as possible. They have surrendered the lease of their present meeting place with the understanding that their own hall will be ready for occupancy before long.

After the construction work on the hall has been well started the members will devise plans for the dedication of the building.

WILL PRODUCE A PLAY.
At the last meeting of the dramatic club of the local camp of the Modern Woodmen of America the members decided to produce a play at the town hall, during the evening before the close of the winter. A committee composed of Al. Hocking, Dr. May, Charles Munson, P. White, John Peterson and Emil Carlson was chosen to select a suitable play and make arrangements for its production. A play will be selected. One that will require the assistance of at least three or four ladies will be chosen. Books have been sent for and the play will be started on the rehearsal.

AT THE SHERRY SHOP.
A number of citizens who have been greatly enjoyed the turkey shoot which Henry Marks conducted at the Bay New Year's Day. The cold weather did not keep the most enthusiastic hand and those who were some days shooting before the turkey and chicken were captured by Mr. Marks conducted a turkey shoot on the Sunday before Christmas. They did not realize enough of money to pay his expenses as the men who handled the rifles seemed to shoot better than usual that day but he had better luck on New Year's day.

NO RIGHT TO UNLINES.
The woman who is lovely in face, firm and temper with always a friendly but one who would be attractive must keep her health. If she is weak, sickly and thin, she will be nervous and irritable. If she has constipation or indigestion, she will be nervous and irritable. If she has a headache, she will be nervous and irritable. If she has a nervous system, she will be nervous and irritable. If she has a nervous system, she will be nervous and irritable.

HOW'S THIS?
We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

MOSHIER'S HEAD FALLS.

Warden Freeman Has Dispensed With His Services as Deputy at the Branch Prison.

ACTION IN CONSEQUENCE OF PINGREE'S CHARGES.

Which are Substantially as Outlined in Yesterday's Mining Journal, Are Given With Close Detail in the Ex-aggeral Message.

IT WAS READ AT LANSING YESTERDAY.

Ex-Governor Pingree's exaugural message, in which is embodied the serious charges against Warden George Freeman of the Marquette prison outlined in yesterday's issue of The Mining Journal, including the appended statements, a pamphlet of ninety-four pages and, as might be expected from its source, it is full of interesting reading matter and will be perused in its several parts with considerable zest by those who receive copies of it. Of course it is heavily charged with the essence of Pingreeism. Pingree's touches are found on every page. He discusses the various questions of public concern with which his administration of the executive office during the past four years has been prominently identified. The substance of the message are equal taxation, primary election reform, popular election of United States senators, municipal ownership, the finances of the state, the legislature, war claims, Cheboygan Indians, state tax advertising, salt inspection, law removal of the state officers, forest preservation, county agents, Pan-American exposition, civil war battlefields monuments, war histories, salary amendment-attorney general, the case of the fraudulent purchase of the military property, extension of hours for voting, pardons and paroles, forms of pardons and conclusion.

HIS PET HOBBY.

The ex-governor has touched on most questions of public import. His pet hobby of equal taxation comes in for the lion's share of attention. Its discussion takes up eight pages of the message. Next in importance is the section devoted to pardons and paroles in which the former executive enters into an elaborate explanation and defense of his course in turning such a large number of criminals out of the penitentiaries. It is in this section that he enters on the charges preferred against Warden George Freeman.

The ex-governor's charges against this official constitute the only arraignment of a public servant for breach of trust to be found in his message. In other parts of the exaugural he has confined his discussions to abstract questions, not venturing his dissent against particular individuals to the extent of charging them with malfeasance in office. This fact accents the charges against Warden Freeman and increases the likelihood that they will be taken seriously. It is rather anticipated that an investigation will be demanded.

WHAT PING SAYS.

The Mining Journal here publishes the section of the message relating to the Marquette prison and its management. "There is too great a disposition among the managers of the prisons to prevent the granting of executive clemency in the cases of those prisoners who are abandoned and expelled from the workmen. The ambition of the prison management is to make as good a showing as possible in the matter of the earnings of the institution from its manufacturing contracts. The following astonishing statement appears in the recent official report of the warden of the State House of Correction and Branch of State prison in the upper peninsula: "The greatest difficulty that we have to contend with is not having inmates enough. At the present time we could furnish employment for 200 more men."

"I desire, also, to recommend the enactment of a law providing for the abolition of the State House of Correction and Branch of State prison in the upper peninsula. If the affairs of the state were run strictly upon the business principles given to a private enterprise this institution would have been abandoned long ago. There has never been a time when the prisoners confined in it could not have been accommodated in the state prison at Jackson or the house of correction and reformatory at Ionia. I am aware that the upper peninsula prison is used for the worst class of criminals, but there is no reason why commitments cannot be made, so that first offenders and cases easy of reformation can be confined in the House of Correction, etc., at Ionia, and the more

THE PERFECT WAY.

Scores of Marquette Citizens Have Learned It.

If you suffer from backache There is only one way to cure it. The perfect way is to cure the kidneys. A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only. Are endorsed by Marquette people. Mr. Thomas Price of 141 W. Ridge street employed on the L. S. & M. R. R. as locomotive freeman, says: "For a year I was bothered off and on a good deal with pains through the small of my back and in the kidneys. At times when I stooped I could hardly straighten again and my cold or sudden change in the weather aggravated my condition. I saw Doan's Kidney Pills advertised, and went to the Stafford Drug Co. and procured a box. I soon felt they were benefiting me. I have no hesitation in saying that they did me a lot of good."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y. sole agents for the United States. Remember the name Doan's and take no other.

hardened or habitual criminals at Jackson. The number of prisoners in the Marquette prison is only 220. "All of the expense of salaries and maintenance of officers, keepers, guards, etc., of the Marquette prison could be saved by abolishing this prison.

"As you well know, all of our insane asylums are overcrowded, and hundreds, if not thousands, of insane persons are confined in county jails and county asylums because there is not room enough to care for them in state institutions. With but little reconstruction the Marquette prison could be converted into an asylum for the chronic insane, and the best interests of the state require that this should be done. I am aware, however, that strong political influence will be brought to bear to prevent this. It is for you to say whether political considerations or good business judgment should prevail in this matter."

SPECIFIC CHARGES.

"I desire to also call your attention to the management of this institution, which, in my opinion, needs careful investigation. Recently complaint has been made to me charging the warden with drunkenness and malfeasance in office. Specifically, it is alleged that he is engaged in breeding and raising a large number of thoroughbred southern bloodhounds, used in the days of slavery, which should not be bred in any town, much less in a state institution. Belgian hares and pigeons; that the care of these animals is performed by convicts; that they are fed at the state expense; that they are housed in buildings erected at state expense by convict labor, and that the proceeds from the sale of these animals is not credited to the state, but to the warden.

"I am further informed that the warden practically operates a sale stable at the state expense, more than thirty horses being handled there within as many days; that the warden has had printed at the state expense various pamphlets and books, which include testimonials concerning dogs and rabbits, and a book known as "Freeman's Calendar," designed for use by bankers and accountants.

"All of this, it is alleged, is personal to the warden, and the state prison shop books show no charge against him. It is alleged that the composition of the "calendar" would cost more than \$200 and was first submitted to local printers and afterward done at the prison.

OTHER MATTERS.

"I cannot too severely condemn the present system in vogue at Marquette of feeding convicts in their cells. This is a custom observed in no other prison in our state and scarcely outside of Siberia or the Philippines. I have been informed by one convict who served eighteen months in this place that he was never out of the line or out of the walks except on legal holidays. Think of it. These men have no recreation or exercise out of doors from one year's end to the other. They get up in the morning, eat in their cells, march to work and return to eat in their cells, march back again to work with supper awaiting them at night, and all in a little pen not much wider than a narrow cut.

"The men at Marquette are sullen, ill-conditioned and wretched. Scarcely anything is done to bring them to a realization of their wrong-doing, except by harsh measures. I contend that such is not the best means of reforming wrongdoers, and earnestly urge your honorable committee and correction of some of these practices. We would not treat animals in this manner. I recommend most urgently, however, that this prison be abolished as absolutely unnecessary. In this connection, I wish to call your attention to the cells in our prisons. These cells are six feet and six inches high, eight feet and five inches deep, and three feet wide, not fit for cows or horses. If, as a state, we have any consideration whatever for humanity or decency, the boards of our prisons should be directed to set the prisoners at work tearing down these old cells and building new ones—large enough and arranged to accommodate human beings, and not beasts. The finest prison in the world is in London. The brick was made by prisoners, and all of the construction done by them, except the making of castings, etc. There is no reason why all of the changes and repairs in our state prisons should not be made by the convicts, instead of letting their services on contract to private corporations for 25 cents per day."

MOSHIER'S HEAD FALLS.

Warden Freeman decapitated his deputy, Eugene Moshier, yesterday, when he informed him that his services were no longer required at the prison. It was rumored up town early in the morning that this resignation had been requested. When seen by a Mining Journal representative, Mr. Freeman said that the report was true. He declined to talk concerning the removal, contenting himself with asserting that his action would be explained in the course of an investigation which he expects will be instituted at a not very distant date. He says that he will request that the charges against him be probed with the purpose of arriving at the truth. It is said that the investigation will have to be made by or through the board of control.

While Warden Freeman was unwilling to say that his removal of Deputy Moshier had any connection with these charges still the public interest in linking the two things together. To a man certainly justified by the facts in the case, while, in any event, it is just the kind of surmising that Marquette people are doing at this particular time.

There is a great and absorbing interest in the question which ex-Governor Pingree has opened and until all the ins and outs of the game are made public the developments will be awaited with an eager curiosity.

FUNERAL ORATION.

Bishop Richter of Grand Rapids Will Deliver It.

Arrangements for the funeral of Bishop Ignatius Mrak are being completed as rapidly as the exigencies of the case will permit. It is not known at this writing just what pretenses will be in Marquette tomorrow morning but the clergy of the diocese will certainly be well represented while it is likely that a number of outside bishops will be here. Bishop Richter of Grand Rapids has already manifested his intention of being present and he has been appointed to deliver the funeral oration.

This afternoon the remains of the dead bishop will lie in state at St. Peter's cathedral where all will be permitted to gaze on the placid features of the second ruler of the diocese of Sault Ste. Marie and Marquette, was associated with the famous Bishop Baraga in much of his great and good work with the Indian missions.

Saturday, beginning at 9.30 a. m., a solemn requiem pontifical high mass will be sung in which all the visiting prelates and clergyman will participate. It will resemble the last rites of the burial of the late Bishop Verin and if it lacks the great interest which was possessed by that event it is only because Bishop Mrak has been removed from the public eye and active work so long that his name, to many people, is a mere memory which, in many cases, has hardly been associated with a corporal being.

His death, however, has revived old remembrances and hundreds of people who recall the days of his active labors will hasten to attend the funeral services. There promises to be quite an attendance from points outside Marquette. The peculiar interest which attaches itself to the service will doubtless tax the seating capacity of the cathedral.

Bishop Mrak will be laid to rest in the bishop's vault where lie the bones of Bishop Baraga, the first ruler of the diocese of Sault Ste. Marie and Marquette and Bishop Verin, a little more than a year deceased, to whom he resigned the cares of the episcopal office when encroaching years warned him to lay down the burden.

GOOD CROWD OUT.

New Rink Opened Auspiciously Last Evening.

The skating and curling rink at the old Polygonal works' building was opened auspiciously last evening, a good crowd being present and all seeming to enjoy their sport on the ice. Travel set towards the rink shortly after 7 o'clock and for upwards of two hours the street car on the Washington street line had all the business it could handle while large numbers walked to the rink. Manager Mitchell had a bus in service at the terminal of the street car line which carried all passengers to the entrance.

The ice was in excellent condition when the skaters took possession, while it was so well frozen and hard that it stood the wear well and was in very fair shape all through the evening. The majority of skaters kept on the ice reserved for the public although one-half of the inner enclosure was reserved, the curlers occupying the other half.

While there was a sufficient number of skaters at the rink to comfortably fill the floor space still many people were present who had no intention of skating, having turned out to watch the sport and the curling and to inspect the new rink. The curlers attracted considerable attention, the game being a good deal of a novelty here. Sides were chosen and the play was kept up during the entire evening, the players profiting under the expert instruction of Danran No. 4. The ice was hard and glary and could not be improved on. It is thickening rapidly and if the cold weather continues it will soon be fairly heavy.

FOLLOWED NEW YORK.

Coppers Sold Off Rather Rapidly Yesterday.

For a change coppers sold off a little yesterday, following the lead of the New York market. The setback was not severe and is not given any particular significance. A. R. Jones & Co., said: "Notwithstanding Lawson's advice to buy coppers they sold off rapidly after the opening. This decline was due mostly to the break in New York market. The copper situation is very strong and we think a boom must come. The stocks that will have the biggest rise are Old Dominion, Copper Range, Trimountain, Osceola, Centennial, Mohawk and Baltic. We advise their purchase on all declines."

"It looked last night as though wheat had steadied but today it showed the worst kind of a rattle-dazzle. The crowd was slightly bearish at the opening, although the trade was smaller than for the week. We look for a steadier market tomorrow. Purchases around today's close should result profitably."

If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at the Stafford Drug company's store.

NOTICE.

Marquette, Mich., Jan. 3, 1901. Notice is hereby given that the annual meeting of the stockholders of the Lake Shore Engine works, for the election of directors and the transaction of other business, will be held at its office in the city of Marquette, in the state of Michigan, on the third Monday of January (the 21st), A. D., 1901, at 2 o'clock p. m.

CITY BREVITIES.

Weather forecast: Snow flurries and not so cold; increasing southerly wind. Yesterday's temperature: 7 a. m., 3 degrees; noon, 12 degrees; 7 p. m., 17 degrees; maximum, 17 degrees; minimum, 3 degrees.

D. J. Norton of Even was in Marquette yesterday. F. W. Menzies was down from Ishpeming yesterday.

M. P. Rossiter and wife of Munising were in the city yesterday. The Young Woman's guild will meet with Mrs. Ormsbee this afternoon at 2 o'clock.

J. M. Edgerton and Benjamin Neely were Negaunee visitors in Marquette yesterday. A number of Marquette young people will go to Ishpeming this evening to attend a dance.

The fourth of the series of Masonic dances will be held this evening. The attendance promises to be large. Simon Pape is visiting relatives in Chicago. On his way home he will stop off at Milwaukee for a few days.

Miss Flora M. Mowbray, of the Normal school faculty, returned yesterday from Chicago, where she spent the holiday vacation with her parents.

Miss Martha Ackerman, a member of the Normal school corps of teachers, got back yesterday from Ill. Her old home, after spending the holidays there.

Grafton lodge of the A. O. U. W., has presented John Stenglein, master workman, with a beautiful combination bookcase and writing desk in appreciation of his services in behalf of the order.

Sheriff John Pengelase moved his family to the official residence last evening. Most of his household effects have been transferred to Marquette and he will be comfortably settled at an early date.

A farmer named Skoglund was injured at the Carp bridge Wednesday night about 8 o'clock. His horse ran away, the crash coming on the bridge. He was taken to St. Mary's hospital where his injuries, which were not serious, were dressed.

County Clerk Ross issued marriage licenses to A. F. Mattland of Negaunee and Fannie M. Sommerville of Menominee, William E. Brown of Ohio, and Emma A. Andrew of Ishpeming and Pierre LePine of Michigamme and Magistrate Carrier of Champion yesterday.

The city's part of the road which will give Sands' farmers access to Marquette is now well advanced toward completion. It is possible to use it. There will be a couple of weeks' more work done this winter before Street Commissioner French disbands his force.

The electric stove has been in position in the intake at the pumping station on the street car line. The stove was calm enough to permit of placing it. The wires are extended to the shore but it will be impossible to complete a circuit until a transformer now in shipment is received. It is expected daily. The stove will be ready for operation.

The members of the Merchants' association of Marquette are the picnic smoker at the Snow Shoe club house this evening. It is desired that there be a large attendance so all are requested to arrange their time so that they can be present. There will be indoor sports and a diversity of other amusements. Refreshments will be served during the evening.

There was good skating on the bay yesterday and a fair quota of people took advantage of it. The water for a large expanse inside the breakwater was covered with a good body of ice, although the skaters for the most part confined their operations to the north side of one dock No. 4. The ice was hard and glary and could not be improved on. It is thickening rapidly and if the cold weather continues it will soon be fairly heavy.

THE JOHN HANCOCK MUTUAL Life wants a manager for the upper peninsula; a rare opportunity for an ambitious producer of business. Charles L. Vieman, state agent, Chamber of Commerce, Detroit. (12-22-2w)

Drop in to Heppner's and prove for yourself if they do not make the best oyster stews in the town.

ANNUAL MEETING.

First National Bank, Marquette, Mich., Dec. 6, 1900. The annual meeting of the stockholders of the First National bank of Marquette, Michigan, for the election of directors, and for the transaction of any other business which may properly and legally come before said meeting, will be held at the banking house of said bank on Tuesday, January 8, 1901, between the hours of 10 o'clock a. m. and 12 m. of said day.

At said meeting a proposition will be submitted to amend article three (3) of the articles of association of said bank, so that said article shall provide for six (6) directors instead of five (5) as at present. E. H. TOWAR, Vice President. F. J. JENNISON, Cashier. (12-8-1m)

A Strong Stomach Johnson's Stomach Tablets. The stomach is one of the most important parts of a man. Here it is where his food is carried in order that the strength and nourishment may be abstracted from it and sent to all parts of the body in the form of new, healthy blood, bone and tissue. The remainder of the food—the worthless part—is passed off through the intestines. It is the business of the stomach to attend to this separation. But when the stomach is weak or deranged, when it has been neglected or abused, then it cannot do its work well, the good food is imperfectly separated from the bad, every part of the man suffers, and he becomes weak, unhealthy and despondent. At this point, or before, if he's wise, he calls Johnson's Stomach Tablets to his relief. And what a relief! They get at once to the right spot. They act quickly, directly, surely, harmlessly. They cleanse, heal and strengthen the stomach. They put it in good order, so that it can digest and separate the good food again and thus supply the man with fresh blood, tissue and bone. This is what he needs. It replaces the wasted matter in the body, gives him health and strength to live, and makes him feel the way a strong, healthy man ought to feel. JOHNSON'S STOMACH TABLETS should be used frequently by everybody. Nearly every one suffers from some form of stomach trouble in a greater or less degree. The stomach is in such constant use—working long after you are through eating—and is so easily deranged, that it needs a frequent regulator to give it strength and tone. Nothing fills the bill so well for this purpose as JOHNSON'S STOMACH TABLETS. They are perfectly harmless, though invariably effective, and the good they do the stomach in a very little while is surprising. JOHNSON'S STOMACH TABLETS are a permanent and unfailing remedy for malaria, indigestion, constipation, diarrhoea, biliousness, and all stomach, liver and bowel complaints. Taken according to directions, they never fail to effect a complete and lasting cure. Everybody should keep them close at hand and use them at the first sign of approaching illness. Taken in this way, they will save a good many dollars on the doctor's bill. An ounce of prevention is worth a pound of cure. We guarantee a positive cure, or your druggist will refund your money. Get them from The People's Drug Store, Marquette; J. M. Perkins, Negaunee; H. N. Meloche, Ishpeming. Sole Agents. Popular Prices, 10c., 25c. and 50c. Made by The Johnson Laboratories, Inc., Philadelphia.
