SCORE DIE IN FLAMES.

Rochester, N. Y., Orphan Asylum Destroyed Early This Morning.

EXPLOSION AIDS IN HAVOC

Fire Spreads With Great Rapidity and Nineteen of the Children Are Known to Be Victims.

SUFFER AN AWFUL FATE.

Rochester, N. Y., Tuesday, Jan. 8.—Fire broke out in the hospital section of the Rochester orphan asylum, in Hubbell Park, at 1 o'clock this morning, and the flames spread rapidly to the other sections of the institution. It is known that nineteen children have perished, and it is feared many more victims may be reported later.

The fire was first discovered by two men passing the asylum. They hastily ran in an alarm and then turned their attention toward arousing the nurses and children. A terrific explosion was then heard, and in a moment the entire hospital section was in flames.

On the arrival of the fire apparatus a general alarm was sent in, calling out the entire department. Smoke began pouring out of every window in the main building, and the screams and frantic cries of the children could be heard.

The work of rescue began with a will. Children and nurses were carried from the building in an unconscious condition, some dead. Ambulances from the city, St. Mary's and the Homeopathic hospitals were summoned, and the victims removed to the several institutions. There were 109 children at the hospital and a corps of about thirty nurses and attendants. Two of the women attendants are among the dead.

The origin of the fire is not known at this time. The property loss probably will exceed \$20,000.

BRYAN AND TILLMAN.

ARE THE STARS AT A DEMOCRATIC BANQUET AT OMAHA.

Omaha, Jan. 7.—The tenth annual banquet of the Jacksonian club of Nebraska was held tonight at the Millard Hotel. The occasion was one of interest on account of the presence of William J. Bryan, who responded to the toast of "Democracy," and Senator Benjamin R. Tillman, whose address was on "The Democratic Party, Its Duty and Destiny."

Tillman paid his respects to ex-President Cleveland, whom he said was not trying to get forward to save the party. He said he refused to compromise with Cleveland and declared it was a presumption to attempt to say what shall be the duty of the party four years hence. He declared no one could attempt now to say what should be the policy toward "our destiny," said he, "must be defined by principles which have guided the party since its foundation."

Omaha, Tuesday, Jan. 8.—Colonel Bryan began his address at 1:30 this morning. He asserted he was by no means a politician, and that each following campaign would find him arrayed on the side of the Democracy. "I would rather continue to lose," said he, "than surrender any of the principles for which we have fought. The situation was as dark in 1872 as now, but we honestly won in 1876. We are still in the right. The platform that was right when written at Kansas City is right now."

CONCESSION BY TURKEY.

SAFE CONDUCT ISSUED FOR THE NEW CONSUL AT HARPOUT.

Washington, Jan. 7.—The Turkish government has furnished Dr. Thomas Norton, who was appointed United States consul at Harpout, what a safe as traveling papers, constituting a safe conduct to enable the doctor to proceed to his post. There is reason to believe that this action forecasts compliance by the Turkish government with the request of the state department for a regular exequatur for Dr. Norton.

REVIEWED BY M'ARTHUR.

5TH VOLUNTEER INFANTRY ABOUT TO SAIL FOR HOME.

Manila, Jan. 7.—General MacArthur, accompanied by his staff, reviewed the Thirty-seventh regiment of volunteer infantry on Luneta field this afternoon. All the companies being together almost for the first time since the regiment was organized. After the review General MacArthur, in a farewell address, congratulated the officers and men on their bravery, discipline and judgment, concluding his remarks with a hearty "God bless you, comrades." The Thirty-seventh will sail for home on the transport Sheridan Thursday.

REBEL LEADERS TO BE EXILED.

It is announced that General MacArthur will deport to the island of Guam the earliest opportunity twenty-six of the Filipino leaders, including General Ricarte and Pio Del Pilar and the agitators Mabini, Ocampo and Trias. Others will follow them in exile. They will be detained until peace is established.

BRINGS 437 SICK SOLDIERS.

San Francisco, Jan. 7.—The transport Sherman arrived today, twenty-one days from Manila. She had on board twenty-nine cabin passengers and 490 soldiers, of whom 437 are sick. Six soldiers died on the trip.

LA FOLLETTE IS GOVERNOR.

WISCONSIN'S NEW EXECUTIVE TAKES THE OATH OF OFFICE.

Madison, Wis., Jan. 7.—The inauguration ceremonies for the state officers here at noon today were without dispute, and were impressive. Governor-elect Robt. M. LaFollette was presented to Chief Justice Cassidy by Governor Scott. The governor's presentation speech was condensed into a few words, to the effect that Mr. LaFollette had a certificate of election and he "understood he was ready to take the oath of office and assume its duties." Mr. LaFollette was the first native of the state to be elected governor and received the largest vote ever cast for any candidate.

OTHER NEW CHIEFS TAKE REINS.

Bismarck, N. D., Jan. 7.—Governor-elect White and the other state officials took the oath of office today in the presence of a large number of spectators. The first meeting of the legislature will be at noon tomorrow, when the two houses will organize formally.

Salt Lake, Jan. 7.—Hebert M. Wells today inaugurated governor of Utah. Imposing military and civic ceremonies marked the occasion.

Pierre, S. D., Jan. 7.—Congressman R. J. Gamble was today selected as the unanimous choice of the Republican caucus for United States senator.

EX-SENATOR DUBOIS THE CHOICE.

Boise, Ida., Jan. 7.—Ex-Senator Fred T. Dubois was nominated by the joint caucus this morning for United States senator.

DENIES CHINA'S REQUEST.

EXPEDITIONS OF THE TROOPS CANNOT BE STOPPED, DECLARES COUNT WALDERSEE.

Pekin, Jan. 7.—Count von Waldersee says that China's request, through her representatives at foreign courts, that the expeditions should cease cannot be complied with at the present. No expeditions, he asserts, are sent out without adequate cause. Where there are scenes of bloodshed or disorder, troops are sent to interfere, this being the only means of preventing outrage. He declares the expeditions are not intended for punitive purposes, but merely for police purposes, with a view of giving the necessary protection to life and property.

TRADE TREATY PROPOSED.

Shanghai, Jan. 7.—Sir Ernest Mason Satow, British minister to China, has proposed to the other foreign envoys a draft of the new commercial treaty with China based upon the following conditions:

Freedom for all coasting vessels.
Freedom for all vessels on inland waters, and especially the Yangtze River.
Permission to import foreign salt.

The adoption of regulations encouraging Chinese investments in foreign concerns.
Steps extending China's exports and imports.

Protection of trade marks.
Protection of treaty ports.
The draft has not been accepted by the powers, and the discussion regarding it has been postponed.

TELLS OF AWFUL MASSACRE.

London, Tuesday, Jan. 8.—A sister of charity, writing from Maison de Jesus Enfant, at King Fu, Nov. 29, describes the massacre at Wan Kin of a hundred little boys. Some of them, she says, were roasted alive in the church. Others escaped to the orphanage outside the city, but all were killed and the place burned. "Despite the threats of torture and the frequency of most painful deaths," the sister declared, "their apostasy was wonderfully rare."

VICEROYS OPPOSE THE TERMS.

Pekin, Jan. 6, via Shanghai, Jan. 7.—The report that the Chinese court has instructed the Chinese peace envoys to refuse to sign the joint note of the powers to China is confirmed. The court referred to the objections of the southern viceroys, which are the same as the court has. Prince Ching, however, has informed the court that it was too late, and a reply from the court is expected shortly.

TO TREAT AT WASHINGTON.

London, Tuesday, Jan. 8.—The United States government has proposed to the powers, says the Washington correspondent of the Daily Mail, "to transfer the Chinese negotiations from Peking to Washington."

DEFEATED BY BOERS.

Kitchener Reports Heavy Loss to a Small British Column.

INVADERS STILL ADVANCE.

Boasted by Burgheers the Present Raids Are but Preliminary to an Invasion in Force.

DEWET IS TO LEAD IT.

Piquetberg Road, Cape Colony, Jan. 7.—The Boers boast that their present incursion is only a big patrol, preparatory to an invasion in force by General Dewet. The latter's influence over the Dutch is so enormous that there is no doubt his actual presence would result in a general rising. The Dutch have unbounded faith that if he had a sufficient supply of arms and ammunition Dewet, who is regarded as the Napoleon of the campaign, would even now be able to bring the war to a successful termination.

KITCHENER REPORTS FIGHTING.

London, Jan. 7.—Reporting to the war office today, Lord Kitchener says: "Saturday a force engaged Delarey's and Steenkamp's commandos at Nauwpoort. The enemy was forced to retire northward. Our casualties are reported slight. A Boer doctor admitted twenty Boers had been killed or wounded. Commandant Dupre was taken prisoner."

"It appears from reports of wounded who have arrived at Helbron that a detachment of 120 men belonging to Knox's command came in contact with a superior force near Lindley. I regret to say that Captain Laing and two other officers and fifteen men were killed and two officers and twenty men wounded."

AFRIKANDER LEADER JAILLED.

Cape Town, Jan. 7.—P. H. Malan, editor of the principal Afrikaner newspaper here, has been arrested on the charge of seditious libel, consisting of reflections upon the conduct of General French and his troops. He is a member of the Cape parliament and his arrest has long been demanded by the extreme loyalists.

Martial law has been proclaimed in the districts of Galvina, Clan William, Diquetburg, Tubbagh, Pearl and Steel-enbosch.

At a meeting of the Afrikaner members of the Cape parliament today it was resolved to send Messrs. J. X. Morriam, former treasurer of Cape Colony; J. W. Sauer, former commissioner of public works, and J. H. Hofmeyer to England to represent the state of affairs in South Africa to the government, parliament and people of Great Britain.

General Brabant has arrived here to complete the organization of the colonial forces.

It is reported that fifteen hundred Boers are nearing the town of Sutherland, and that other parties are close upon Richmond. The invaders have reached Calvinia and are expected at Clan William within a few days.

Scouts report that Boer commandos under Delarey and Steenkamp are in the Bufferspoort district, numbering 5,000.

WANTS \$100,000 FROM PORTUGAL.

DR. MAULEY OF CHICAGO, IN RED CROSS SERVICE, GROSSLY TREATED IN THAT COUNTRY.

Dalton, Ga., Jan. 7.—Dr. Herbert McAuley of Chicago is in the city, the guest of his brother, the mayor of Dalton. Twelve months ago McAuley enlisted in the Red Cross service at Chicago, with other surgeons and nurses, to go to South Africa. He alone continued in the Red Cross, the others taking up arms with the Boers.

About eight weeks ago, he says, while enroute home with other Americans, he was summarily arrested in Portugal and incarcerated, he alleges, without cause. He made complaint to the American consul, who, with an interpreter, went before the governor, who would order no release unless McAuley were accompanied by a Portuguese soldier until his ship sailed. This McAuley refused.

According to his statement, when he was incarcerated about \$10,000 worth of surgical instruments and medicines belonging to him and the Chicago Red Cross society were confiscated. After two weeks he was put on a vessel for Australia and given first-class passage and 200 Kruger sovereigns left for him by General Botha.

At Paris Dr. McAuley made another complaint to the American authorities. Secretary of State Hay cabled him there, McAuley says, to give out no information, but to report directly to Washington, which he did a fortnight ago. The matter is now in diplomatic channels. McAuley demands \$100,000 indemnity from the Portuguese government.

ARMY OFFICER IN TROUBLE.

CAPT. KING, IN CHARGE OF GOVERNMENT WORK IN ALABAMA, CHARGED WITH EXTORTING MONEY FROM A CONTRACTOR.

Mobile, Ala., Jan. 7.—Secret Service Agent E. R. McAdams today arrested in this city C. W. King, quartermaster and supervisor of government work at Fort Morgan, Ala. Captain King had, it is alleged, just received a thousand dollars in bills from J. H. Hobson, a contractor on government work at the fort. The money was found on his person.

Hobson testified at the preliminary examination before Commissioner Rickaby that for some time he had been having trouble in carrying out his contracts, about 50 per cent of the material he furnished being rejected as unsatisfactory. About eight months ago King approached him and substantially said that if he would make an arrangement with him he would not be so hard on him. The amount mentioned by King was \$3,000. A compromise was finally reached on the basis of \$3,000. Hobson paid King \$500 in October, the same amount in November and \$1,000 today.

King was bound over in the sum of \$10,000. He is a volunteer officer and enlisted at Dubuque in 1898, receiving the appointment as captain and assistant quartermaster. He served in Porto Rico during the war. He has a wife and two children and has been well received here socially. He is said to have well-to-do relatives in Iowa.

COLORADO JANITOR'S CRIME.

KILLS GIRL STUDENT AT INDIANAPOLIS AND ALSO HIMSELF.

Indianapolis, Jan. 7.—Norris Jones, colored, shot and killed Miss Eliza Newkirk, white, of Friendsville, Ills., here tonight. An hour later he fired a bullet into his own brain, dying instantly. Miss Newkirk had been a student at the Vorhis business college, where until this morning Jones was employed as janitor. He was discharged for some cause or other, but whether Miss Newkirk had anything to do with it or not is unknown. Tonight he went to the house where Miss Newkirk lived. When she came to the door he drew a revolver and fired without saying a word.

FATAL QUARREL OF DOCTORS.

Alexandria, La., Jan. 7.—Dr. S. D. Beville was shot and killed by Dr. C. J. Gremillion on a street here today. The physicians quarreled over a patient, Beville charging Gremillion with underhanded methods in securing the dismissal of Beville by the family.

KID M'KOY MARRIES AGAIN.

IS WEDDED AT BOSTON TO HIS LATELY DIVORCED WIFE.

Boston, Jan. 7.—Normal Selby ("Kid" McCoy) and his former wife, Julia, were remarried at the Gould Hotel tonight by Rev. William T. McElveen. The bridegroom's presents to his wife is said to have been a certified check for \$10,000 and a diamond ring and pin worth \$1,800.

RAILWAY MAGNATE WEDS.

Boston, Jan. 7.—A. B. Stickney, president of the Chicago Great Western railroad, was quietly married to Miss May Crosby, daughter of Judge Josiah Crosby of Dexter, Me., at the home of Rev. Thos. Van Ness in Brookline this evening. After a brief New York sojourn, a Mediterranean trip is contemplated.

PRESIDENT IS ILL.

HAS A COLD THAT WILL PREVENT THE TRIP TO CANTON.

Washington, Jan. 7.—President McKinley has a slight cold and is denying himself all calls. The cold is not serious and will not interfere with the reception to the diplomatic corps to be given at the White House Wednesday night. President and Mrs. McKinley have abandoned their proposed trip to Canton on Thursday, when they were going to attend the funeral of the late assistant paymaster, Barber, nephew of Mrs. McKinley.

Speaker Henderson was today again detained at home by illness and Mr. Dabell presided over the house. Secretary Hay is also still indisposed and did not go to his office today.

VENEZUELA SLOW TO ACT.

THREE AMERICAN WARSHIPS ENROUTE TO SEE ABOUT THAT ROW OVER ASPHALT.

Willemstad, Curacao, Jan. 7.—United States Minister Loomis, at Curacao, Venezuela, according to the latest advice received here, has not yet succeeded in obtaining justice for the asphalt company in its dispute with the local authorities, and the situation is regarded as critical. Three American warships are either at Lagayra or on their way, and the Americans are complaining at the alleged delay in obtaining protection for their interests. The local authorities, it is added, have encouraged the natives to invade the company's plant.

WIFE CHARGED WITH MURDER.

CORONER'S JURY IN THE RICHARDSON CASE RETURNS A SENSATIONAL VERDICT.

Savannah, Mo., Jan. 7.—The coroner's jury in the case of Frank L. Richardson, the millionaire merchant murdered Christmas evening, returned a verdict this afternoon charging that "Mr. Richardson came to his death from a pistol shot fired by his wife or by some person known to her and unknown to the jury." The verdict has created a profound sensation. Mrs. Richardson was arrested tonight and gave bond for \$1,000. Her preliminary hearing was set for the 16th.

YOUR BODIES ARE TEMPLES. Do you believe that statement? But you only realize in part the obligations implied by it. Do you keep that temple of the body clean? If not, the defilement attaches to every service of the temple. Disease of the stomach and other organs of digestion and nutrition, affects the mind as well as the body. The dull mind, stupified by poisonous gases, enters on its service without desire, and accomplishes it without delight. A healthy body and a clear mind result from the use of Dr. Pierce's Golden Medical Discovery. It removes the clogging and poisonous impurities from the stomach, stimulates the flow of the juices necessary to digestion and increases the blood supply in quality and quantity. The "Discovery" is strictly a temperance medicine and contains no alcohol or whisky, neither opium, cocaine, nor other narcotic. "I had suffered from indigestion and only those who have suffered from it know what it really is." writes M. J. Ryan, of 105 East Genesee Street, Syracuse, N. Y. "I had severe attacks of headache and dizziness with cold hands and feet; everything I ate distressed me, bowels were constipated and I was growing very thin and nervous. I cannot half express the bad feelings I had when I commenced taking Dr. Pierce's Golden Medical Discovery. I took nine bottles of the 'Discovery.' I commenced feeling better with the first bottle and kept on improving. Now I am so greatly improved in health my friends often speak of it."

The people of Muskegon have no doubt of the existence of trusts in this country since the tin trust gobbled the recently established tin plate mills there, presumably with the intention of closing them down and getting rid of competition from that quarter. The closing of the Muskegon tin plate mills would throw a large force of men out of employment and very seriously affect the business interests of that city.

Another of the anti-Quay Republicans in the Pennsylvania legislature has gone over to the boss and will vote for him when the senatorial election comes up in the joint session. He explains that he signed an agreement to support the caucus candidate of the party for the senatorship, and subsequently signed an agreement to vote against Quay. Now he finds himself in the predicament of being obliged to break one or the other of these pledges, and as the one binding him to support the caucus nominee was made first he will abide by that. There is a legislator with a conscience for you!

About as wicked a little conspiracy as we have heard of recently was that in which the janitor and a couple of clerks in the Miller mercantile house at Houghton engaged lately. It was bad enough to rob their employer and then set fire to his store in the hope of concealing their thefts, but to supplement that by endeavoring to have Miller and his wife convicted of having fired the store themselves in order to get the insurance on the stock was the acme of cold-blooded villainy. The three persons implicated in the dastardly plot deserve the severest punishment that can be visited on them under the law.

The office seekers are making life a burden for Governor Bliss. They haunt him night and day. The governor could relieve himself of their importunities by announcing that no man who chases an office too persistently will get an appointment from him. That would send the pestilent gang about their business in short order and would give the governor some time for proper consideration of business of the state. When Rich was governor we didn't hear so much about how the place hunters annoyed him. He dealt with them in a decided way and to that fact was due in no small measure the success of his administration.

The Boston Herald opines that the ship subsidy bill "has not only been defeated for this session of congress, but it is the last that will be seriously heard of the measure." The Herald's optimism is cheering but we doubt that a scheme in which so many influences potential at Washington are interested has been disposed of so easily. The men who have big jobs to work through congress never sleep, while these who seek to guard the treasury from indefensible raids upon it are frequently caught napping. The subsidy scheme may be shelved for the short session but it will be heard from again.

A recent exhibition of bad judgment by British officers in China causes the Boston Journal to drop these caustic remarks: That repulsive act of the British officers in Pekin—the desecration of the Temple of Heaven, the Chinese holy of holies, by a vulgar farce—shows how impossible is all the talk about an Anglo-Saxon alliance. It would have been the gravest of blunders if our national administration had tied us up to British diplomacy during this eastern crisis. President McKinley and Secretary Hay have very sensibly preferred to go ahead in their own way, and the result of our independent course, now substantially accepted by all the powers, although Great Britain hung out against it almost to the last, is splendid confirmation of the administration's judgment.

The Mining Journal's subscription receipts for December exceeded those of any previous month since the paper was established. The fact speaks for itself of the popularity of the paper and the growth of its business. The Mining Journal is furnished to only those who pay promptly, the publishers having long since learned that the poorest kind of an asset a newspaper can have is a string of subscription accounts against persons who are either unable or disinclined to pay for it. The value of a subscription list to a newspaper is measured by the money it brings in, and it may be added that those who don't pay for their paper do not increase its value to advertisers, for those who seek to beat the publishers are not the kind of people who make good customers for those who use its advertising columns. Governor Stone of Pennsylvania states a plain truth in urging the advisability of having United States senators elected by direct vote of the people when he says that under the present method of choosing them "candidates for the legislature are now too frequently selected by reason of their supposed friendship for or opposition to some candidate for the United

States senate," and that because of this "their qualifications to properly legislate for the districts which they represent are too often forgotten or ignored." There are so many instances of this that it is needless to cite cases proving the validity of the objection raised by the Pennsylvania governor to the present method of choosing our United States senators. In many of the states the election of a majority of the members of their legislatures last fall turned wholly on the senatorial issue. Candidates were nominated for legislative seats primarily with regard to having them support the choice of the party managers for the senatorship, and with little or no regard for their fitness for legislative work. This works an injury to the state, and also makes it all the more difficult to secure the election of the best men for seats in the United States senate. The change advocated by so many of our leading men is sure to come, and it cannot come too quickly for the public welfare.

OUR CHIEF DANGER. Being asked by one of the New York dailies to state what he considers the chief danger of the republic to be, ex-Senator George F. Edmunds made this response: "Ignorance, greed, the centralization of wealth and of social and political power, and the consequent effacement of that equality of position and opportunity which liberty and justice cannot exist." Who can deny that this danger confronts us as a nation? A few men today control each of the great wealth-producing industries of the country, in one way or another. The farms are not syndicated or worked under combinations, but the farming interest is about the only great one which is not controlled from the bottom up by powerful combinations, and even the farmers are at the mercy of combines which regulate the price which they receive for their produce, so that industry feels the blighting influence of combination to control it for sordidly selfish purposes the same as the rest.

Answering the same question, President Hadley of Yale says that our greatest danger lies in "legislation based on the self-interest of individuals or classes, instead of public sentiment and public spirit." Of the truth of this there can be no question. The individual, no matter what his abilities or qualifications, is no longer a force in public affairs unless he is supported by the political bosses, for without their aid, let his talents and reputation for integrity be what they may, he cannot rise as a publicist. Candidates for great offices are not sought because of their personal fitness for high station, but on account of their ability to "put up" liberally for the party's campaign expenses, and we all know how campaign funds are applied.

With ignorance at the bottom, indifference in the middle and greed at the top, there is nothing very encouraging in our political life, and it is not to be marveled at that the best brain and best conscience of the country are no longer to be found in the highest places, or that thoughtful men are beginning to wonder if free institutions can long withstand the destroying forces which are sapping their vitality by vitiating the vital current from which their strength is derived.

FOR CHILDREN Nothing that comes in a bottle, is more important for children than Scott's emulsion of cod-liver oil. And "important" means that it keeps them in even health. Whenever they show the least disturbance of even balance of health, it promptly restores them. It is to be used as a food, whenever their usual food does not quite answer the purpose of food. We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

an important reflux homeward of our securities. Both London and Berlin have not so extraneous a market for purchases of our stocks and bonds, to which they still cling in hope of a further rise in prices. And both those markets are threatened with sharp irregularities, if not worse; it is therefore to be expected that any positive results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no good to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at the Stafford Drug company. Sault Ste. Marie. ACTING MAJOR SCRANTON.

Judge E. S. P. Sutton is in receipt of a letter from Captain G. G. Scranton, of Company G, Thirtieth U. S. Volunteer Infantry. The captain has been ordered to Leucan to assume command of the Second battalion and is acting major. He has also been ordered to hold a municipal election in Leucan, which is a city of about 12,000 people, and establish civil government. The popular captain will no doubt be quite at home in the election business. He reports that the Thirtieth regiment will embark for home about July 1.

HAZING AT WEST POINT

Cadet Burnham Declares It Has Been Practiced in Brutal Form.

EVIDENCE IS SENSATIONAL

Uppopular Class Men Made to Eat Soap, Exercise to Exhaustion and Go Through Other Punishments.

ROUGH TIME FOR VICTIMS.

Philadelphia, Jan. 7.—According to the testimony adduced before the congressional investigating committee which is inquiring into the charges of hazing at the West Point Military Academy, Oscar L. Booz of Bristol, Pa., and John E. Breth of Looma, Pa., had a rough time of it during their "plebe year" at the institution.

The star witness of the day was Cadet Anthony Burnham, son of Judge Burnham, of the court of appeals of Kentucky, who was Booz's tent-mate while in camp. Burnham said he went to West Point in June, 1898. He asked Booz to become his tent-mate when they went into camp in July of that year. Booz, he said, was up to the standard of the other cadets.

HAD FUN WITH HIS NAME. The older cadets had a lot of fun with Booz on account of his name. This upper class men and a cadet named Bettison in particular, Burnham said, ordered the new cadets to do various things to see if the new men would obey them. He did some of the things asked of him, but finally refused to do more, believing the upper class men were only trying to harass him.

Booz was ordered out to fight by "the fighting committee." Burnham did not know any of the members of this committee. After the contest Burnham saw Booz lying in his tent. He looked dejected and had been crying. Booz told him he had been "called out" and that he had received a blow in the stomach which rendered him absolutely helpless.

The upper class men kept taunting him and saying he would make no soldier. This was kept up until he resigned. Burnham said that Booz, like all the other classmen, was always tired out by the severe routine of camp. Keller, his opponent in the fight, was an expert with his fists. Burnham said, and a fine gymnast. Booz studied little on account of his eyes. On this account he stood low in his class.

FED WITH TOBACCO SAUCE. Oscar also told Burnham how the upper class men had told him (Booz) to take tobacco sauce. Booz, said Burnham, was given a small bottle of tobacco sauce and told to take all of it before he left the table. He took it by the spoonful. On one occasion Booz told him that he had put a lot of the sauce on a piece of steak, intending not to eat it. An upper class man noticed this and ordered Booz to eat the steak.

Oscar told Burnham that the stuff was ruining his stomach. Burnham said he had also taken the tobacco sauce, but never more than a drop at a time. He did not know that physical violence was ever used to induce Booz to take it.

Colonel Dick asked, "If complaint had been made do you think Cadet Booz would have been treated better?"

WOULD HAVE MADE IT WORSE. "Booz was very unpopular, and if he had made complaint he would have been treated still worse."

"Do not the officers of the academy try to prevent hazing?"

"They do, but of course the officers are not always around when the hazing is going on. When any hazing is in progress a number of the cadets are usually on duty to watch for the officers and warn the hazers if one should come along."

While Burnham was in the fourth class, a period about twelve months.

OLD WORLD VS. THE NEW

Senator Lodge Says Trade War for Supremacy Is Already On.

SEES VICTORY FOR THE U.S.

Is a Great Position, but He Warns Against Its Perils—Pleas for the Army and Navy.

MUST PREPARE FOR FOES.

Washington, Jan. 7.—A notable speech was delivered in the senate today by Senator Lodge of Massachusetts. Addressing the senate on the amendment of the military committee to the bill providing for the reorganization of a veterinary corps, he discussed briefly the Philippine question and the necessity for an army of a hundred thousand men. In conclusion, he drew a brilliant word picture of the commercial future of the United States, declaring that a trade conflict with Europe had already begun, and could result only in the commercial and economic supremacy of this country over the entire world.

During the afternoon the senate ratified the committee's proposition to eliminate the house provision for the establishment of a veterinary corps in the army, while Senator Teller of Colorado gave notice of a substitute he will offer for the entire pending measure, continuing in full force and effect the act of March 3, 1899, increasing the size of the army, for three years from July 1 next.

MR. LODGE'S NOTABLE SPEECH.

Addressing the senate in opposition to the proposition to establish a veterinary staff corps, Senator Lodge stated that he believed in giving proper pay, and even the rank of veterinary surgeons, but he denounced as "bitterly unjust" to the officers of the regular army the effort to create as colonel, majors and captains men who were to be taken out of civil life and placed them in authority over men who had devoted their lives to army affairs.

Discussing the general features of the measure, Senator Lodge said he did not think any American citizen honestly believed the liberty of the people was menaced by an army of 100,000 men. As to the situation in the Philippines, the senator maintained that "organized rebellion has ceased and the local George Washington is in hiding." In his opinion, at the end of two years the force in the Philippines could be reduced materially and at the end of four or five years the force probably could be reduced safely to 20,000 men.

"I am no alarmist and have no fears that we are in danger of a war with anybody," said Senator Lodge, "and I do not believe there is a nation on the face of the earth that has any desire to attack us; but no man can tell what may happen at any time."

WARNS AGAINST EUROPE.

"We have come in the process of our development until we have expanded far beyond our own markets commercially and are breaking into every market of the world. It is part of our economic development. We are marching along toward the economic supremacy of the world, in my judgment."

LOOK AT EUROPE; COMPARE IT WITH THE UNITED STATES. IT HAS BEEN WORKED OVER FOR A THOUSAND YEARS AT LEAST IN AN ENDEAVOR TO DRAW OUT ALL ITS RESOURCES.

"The acceptance of the offer of the unknown writer leads to the belief he has placed a price on his knowledge of the crime and has taken this means to protect himself from discovery, as he is known to Mr. Cudahy as a man who has advertised in his letter an advertisement which was considered favorably."

NEW IDEAS IN SHOE COMBINE.

Columbus, O., Jan. 7.—The scope and aims of the National Shoe company, which is to be incorporated this week with a capital of \$3,500,000, under the laws of Delaware, were unfolded today by R. F. Wolfe, of the Wolfe Bros. Shoe company of this city, one of the principal promoters. Mr. Wolfe said:

"The new company will completely revolutionize the manner of conducting the shoe business of the country. But, first of all, I want it understood that it is not a trust. It is, in fact, directly opposite to the general purposes of such combinations, and is designed to benefit, and not oppress, the retailer and the consumer. It is our plan to have all the leading factories of the country in the company."

"After the companies have been re-elected we shall establish depots in each of the larger cities of the country, which will be distributors for all the factories interested, and retailers will replenish their stocks from them without waiting weeks for orders to be filled, as they do now. This will eliminate the middleman, greatly reduce the number of traveling salesmen and save the factories fully 15 per cent in placing their product on the market, all of which will be beneficial to the consumer. Each of the factories in the company will retain its independence and be operated just as now. The promoters of the enterprise will hold a meeting in Boston this week and plans will be fully perfected."

BISHOP NINDE AT REST.

Detroit, Jan. 7.—After an impressive funeral service had been conducted over the remains of Bishop W. N. Ninde of the M. E. church at the late residence today, they were removed to the Central M. E. church. Here they lay in state for two hours while a continuous procession of people of all classes and creeds passed slowly by. At two the funeral services proper were held in the church.

ADVANCE IN SUGAR PRICES.

New York, Jan. 7.—The Evening Post today says: "Announcement was made today that all the refineries have advanced all grades of refined sugars 10 points. The reason given by the refiners for the advance was that great many orders received shortly after the opening of the day put them in an oversold condition. In other quarters it was intimated the advance of today was an ominous indication of the settlement of the sugar war."

RAILWAY DEAL CONFIRMED.

Philadelphia, Jan. 7.—At the conclusion of the meeting of the board of directors of the Reading company today, the following official statement was given out: "A meeting of the board of directors of the Reading company was held at its office today. A proposition from J. P. Morgan & Co. of New York for the sale of a majority of the capital stock of the Central Railroad of New Jersey was submitted. President Harris recommended that the proposition should be accepted as the two properties can be managed in connection with one another to the best advantage, virtually supplement to one another, giving his reasons in detail. After full consideration the officers of the company were authorized to arrange for the purchase of all day long."

After the meeting adjourned no further statement of what transpired could be obtained.

WALL STREET IN A FRENZY.

New York, Jan. 7.—Today's stock market had all the characteristics of what is usually called a trader's market. But everything was on a gigantic scale and the movement of prices was on a correspondingly large scale. The speculative character of the market was clearly indicated in the inconformity of the prices. Not only was there lack of stability for any considerable period, but no movement was consistent beyond a short length of time. Losses were recovered and gains lost, and there were strong rallies from the reactions. All this made the utmost excitement and confusion in the market all day long.

DELUGE OF BUYING ORDERS.

It is only once or twice in a generation that such nervous anxiety and uncertainty is reflected on the stock market as were shown during this period of opening reaction today. The prices jumped about in a most violent and erratic manner in wide intervals. Gradually the fact began to emerge that there were brokers on the floor who had apparently orders to take all offerings at a certain level of prices below the market. The course of prices thereupon grew gradually steadier and then moved upward with an impressive surge. Baltimore & Ohio was the first point of aggressive strength. It had risen 1 1/2 points at the opening, but had lost all but a fraction. Its upward sweep carried it 5 1/2 over Saturday's level.

With the appearance of anything like leadership in a given stock, or with the first sign of manipulation for an advance, a perfect horde of speculators were ready to rush pell mell to buy the same stock. None of those advances was well held and the process of profit-taking cost them all the way from 2 to nearly 5 points. But even at that reaction many handsome net gains were conserved for the day.

BELIEF IN RAILROAD "TRUST."

The grangers were foremost in the middle advance, three leading members of the group—Burlington, Rock Island and St. Paul—advancing 6 to 8 1/2 points. Later in the day the anthracite coal roads, which have not hitherto moved largely in sympathy with the Readings, New Jersey Central and the Erie, made impressive progress upwards. Delaware & Hudson rose no less than 2 1/2 points and Lehigh, Erie and Ontario & Western 3 1/2. These were the most striking movements of the day. The list of stocks which lost as much as 3 points and a fraction is a long one, and the stocks which did not fluctuate a point or over were very few.

It was evident that the developments in the railroad world are looking toward a vast consolidation. The acquisition of the Pennsylvania Coal company by the Erie and of the Central Railroad of New Jersey by the Reading was regarded in the speculative world as a prelude to further important developments in the anthracite carrying properties, and ready evidence is given to almost any sugges-

HOUSE SETTLES IT TODAY.

FINAL VOTE ON THE REAPPORTIONMENT WILL BE TAKEN.

Washington, Jan. 7.—The animated debate in the house on the reapportionment of the senate was closed today by a unanimous vote today that the final vote be taken before the session closes tomorrow.

It was expected that there would be a sequel today to the exciting clash between Messrs. Hepburn of Maine and Hoar of Illinois, the latter made no effort at rejoinder and contented himself with the direction of the measure toward the final vote. He expresses confidence that the bill bearing his name will be passed tomorrow, although there may be a slight change in an additional member to Florida, Colorado and North Dakota, bringing the total membership up to 360.

PROPOSES A SMALLER HOUSE.

During today's debate, Mr. Hepburn of Iowa declared the house was no longer a deliberative body, having become so bulky as to lose its deliberative functions. Moreover, the representative character of a member of congress had become merged and lost in this unwieldy body, so that individual action became impossible. He expressed his belief that it would be better to decrease, rather than increase, the size of the house. The whole scheme of the place of the house under the constitution, Mr. Hepburn declared, was subverted, destroyed and annihilated by the rules of the house, by which no member was able to be heard on any measure without the consent of the officials and committees to whom the power was surrendered. The members of the senate were interested in seeing the house membership further increased, for that carried with it an increase of influence and power of each individual senator and a further domination of the house by the senate.

Mr. Groom of Pennsylvania favored the Hopkins bill and gave an interesting comparison between the workings of the house in the early days, when the membership was far more limited, with the disorderly and unrepresentative character of the body today.

KNOCKS OUT SUBMARINE BOAT.

Boston, Jan. 7.—Submarine warships such as the Holland boat have been rendered useless, it is claimed, by an invention of the inventor of the cataphract, and Arthur J. Mundy of this city. By means of the invention, an extremely delicate and sensitive machine, the signals of an approaching submarine boat could be heard in time for the vessel to avoid it, or to destroy it, provided this latter ship were equipped with the invention.

Henry M. Whitney, commander; A. P. Nazzo, U. S. N.; Professor W. C. Sabine of Harvard and Professor W. Y. Allen have signed a report of a steamer engaged for the purpose at distances of one and one-half, four and eight and twelve miles in the open sea.

PLATT HAS RAILWAY SCHEME.

WAR ON EXPRESS MONOPOLY PLANNED BY THE SENATOR. New York, Jan. 7.—Senator Thomas C. Platt has determined to buy a railroad in order that his United States Express and National Express companies a monopoly of the New York and Albany business, now controlled by the latter.

Unable to have goods transported between these cities over the lines of the New York Central, Mr. Platt is negotiating to build, construct, and control various electric railways stretching along the east bank of the Hudson from Albany to New York. The Vanderbilt interest is directly opposed to him, but according to reports, he is sure to win.

POPE IGNORES HIS DOCTRINE.

Rome, Jan. 7.—Notwithstanding the discomfiture of physicians on account of the unusually severe weather, the pope attended the Epiphany at St. Peter's last evening. Fifty thousand persons enthusiastically acclaimed him.

Strangers will find Heppner's a very convenient place in which to get a light lunch.

SALES RECORD AGAIN BROKEN.

The day's record of business was carried far beyond the previous high level, the aggregate sales footing up 2,147,000, compared with 1,877,000 shares on last Friday, which made the record up to that time.

MONEY AND METALS.

New York, Jan. 7.—Money on call today ruled easier, at 3 1/4 per cent; last loan, 3. Prime paper, 4 1/2 per cent. Exchange, firm, demand at 4.86 1/2 and sixty days at 4.82 1/2.

This was a day of small things in the market for metals. Speculation was almost entirely lacking, but general undertone was about steady on firm reports from abroad.

Copper was a shade firmer, at 47 1/2, 108 at London, but was inactive and nominally unchanged here, at 17 cents for Lake Superior and 16 1/2 for castina and electrolytic.

The domestic iron markets were without important changes. Pig iron warrants were quoted at \$9.50@10.50, Northern foundry, \$15.00@16.50; Southern foundry, \$14.50@15.75, and soft Southern, \$12.00@15.75. The English markets were dull. Glasgow was quoted at 55s 3d and Middlesboro at 48s 5d.

WAR ON THE BUCKET SHOPS.

Chicago, Jan. 7.—William S. Warren was today unanimously re-elected president of the board of trade for the year ending this year. This means a continuance of the aggressive attitude of the board in its fight against the bucket shops and the resulting controversy with the telegraph companies over the distribution of its quotations.

DAY IN THE GRAIN PITS.

Chicago, Jan. 7.—The wheat market was active today, with the feeling nervous and the price fluctuations covering 1 1/2@1 3/4 range. The feeling was strong and weak by turns, and the close showed January 1 1/4 lower and May off 1 1/4@1 1/2. The news at hand was rather divided and the trade was held to a steady, but weaker tone.

The opening was steady, but weaker tone followed, influenced to some extent by a decline at the Northwest, liberal arrivals in that section and a disappointing showing at Liverpool. Local professionals led the selling, the demand coming chiefly from commission houses. Spot at Liverpool was unchanged to 1/2 penny higher, with futures up only 1/2 penny. The rally after the early dip was due in part to free purchases by concerns credited with being long and heavy purchases by the Southwest. There was some reinstating of long lines and stocks, which also aided in the upturn. The clear with the reported eighteen boatloads.

Corn was active, with a good commission house business. The feeling was quite bullish at times and May advanced to 38 1/2, reacting to 38, and closed at 38 1/2. The close showed January 1/4 better, February 1/2, and May 1/4 higher. The market was inclined to follow wheat, but light country offerings, the prospect of soft weather, poor grading and firm cables helped the values. The exports were 276,000 bushels. The seaboard reported forty-five boatloads and the seaboard reported eighteen boatloads.

Oats were active and advanced 1/2 cent, closing at the highest on the crop, but reacted 3/4, closing with a gain of 1/4. There was active investment buying, large covering by shorts and free selling by longs. The seaboard clearances were 183,000 bushels.

The leading futures ranged:

BOSTON COPPER QUOTATIONS.

The closing prices of the Boston copper stocks yesterday, as furnished by Paine, Webber & Co., Marquette, Mich., were as follows:

SECRETARY LONG AWARDS CONTRACTS TO THREE CONCERNS.

Washington, Jan. 7.—Secretary Long today sent out formal notice to the Bath Iron works, the Newport News Shipbuilding company and Moran Bros. of Seattle that they have each been awarded a contract for the construction of three battle ships upon the conditions already set out relative to the cost. Moran Bros. have accepted the award.

GETS BIG ARMOR CONTRACT.

Pittsburg, Jan. 7.—The Carnegie Steel company has received the contracts for furnishing the steel plates and shapes for the three battle ships now in course of construction, the Carnegie Steel company and Ohio. Most of the steel for the six monitors being built will also be furnished by that company.

The three battle ships will require 8,000,000 pounds of ship plates, which are used throughout the vessel, mostly in the interior, and 2,000,000 pounds of unusual sizes, making a total of 11,000,000 pounds that the three will need, exclusive of the armor plate.

The contracts for the ship plates, etc., have been placed with the Carnegie company by the Carnegie Ship Building company and the Newport News Ship Building company, which have the vessel contracts.

It is reported, but the report lacked verification, that the Carnegie, Bethlehem and Midvale companies have reached an agreement regarding armor plate by which the Midvale company will not build its plant, as was proposed. This would give the Carnegie and Bethlehem companies a continuous monopoly, which they have heretofore possessed. They have had an agreement on prices.

CALLENDER—MYSTERY SOLVED.

BODY OF THE MISSING YALE GRADUATE IS FOUND—HAD KILLED SELF WHILE INSANE.

Providence, R. I., Jan. 7.—The mystery surrounding the disappearance of Robert Callender, the twenty-five-year-old son of Walter Callender, head of the house of Callender, McAuliffe & Troup, has been fathomed. The young man's body was found in the town of Cranston late last evening. He had, while laboring under the great responsibility attached to the local store, which is included in the very wealthy Scotch syndicate. A reward of \$1,000 had been offered. He was a graduate of Yale.

A PROMINENT CHICAGO WOMAN SPEAKS.

Prof. Roxa Tyler, of Chicago, vice-president of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by The Stafford Drug Co.

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and promoting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect, safe, and effective laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the company printed on the front of every package.

ALIENATED A WIFE'S AFFECTION. ACTOR BRINGS SUIT FOR \$50,000 AGAINST A MICHIGAN MAN ON A SERIOUS CHARGE.

The following special sent out from Spokane, Wash., under date of Jan. 2, has been going the rounds of the metropolitan dailies the past few days:

"Frank Hodges, an actor, has begun suit against Ed E. Carpenter, a mining man of Republic, Mich., asking \$50,000 for alienation of his wife's affections. Hodges claims that the woman eloped with Carpenter from a town in Michigan three years ago, taking with him Hodges' eleven-year-old child and that he has been trying to trace them ever since."

SOCIETIES ELECTED OFFICERS. Lily tent No. 155, Independent Order of Rechabites, held its regular monthly meeting Friday night, when the following officers were elected: Shepherd, John Morris; chief, Charles Langdon; deputy ruler, Thomas H. Carlyon; recording secretary, Richard Coles; treasurer, John Kennaugh; financial secretary, Joseph Hoeking; levite, James Brew; inner guardian, W. H. Bartley; outer guardian, Joseph Williams; trustees, William W. Nicholas, Charles H. Trewern and Joseph Atwell; superintendents of juveniles, Richard Coles, Charles Langdon, W. H. Bartley and Charles H. Trewern.

The Young Men's club of the National recently held its regular meeting and elected officers as follows for the ensuing year: President, Frank Moody; vice president, Peter Cardem; recorder, Victor Fredlund; financial secretary, Isaac Scottie; treasurer, Charles Fryck; sergeant, Adolph Longberg; master-at-arms, Andrew Koski; captain, Frank Lassenius; first master of guards, Isaac Walkama; second master of guards, Jacob Harvala; sentinel, John Granholm; picket, Thomas Hemming.

At a meeting of the local Finnish tent of the Maaccabees held last week officers for the ensuing year were elected. The following were the ones selected: Past commander, Jacob Kammen; commander, Andrew Lind; lieutenant commander, Alex. Dahlstern; record keeper, John Nurmi; finance keeper, John T. Niemi; physician, Dr. W. S. Prioste; sergeant, Jacob Longberg; master-at-arms, Andrew Koski; captain, Frank Lassenius; first master of guards, Isaac Walkama; second master of guards, Jacob Harvala; sentinel, John Granholm; picket, Thomas Hemming.

QUESTION ANSWERED. Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. The Stafford Drug Co.

ST. JOHN'S FRIENDS SURPRISED. The announcement in yesterday's Mining Journal of the arrest of Dennis St. John, charged with arson, caused much surprise here. St. John is known to a number of Ishpeming people. He resides here for some time prior to his removal to the copper country, fifteen or more years ago. While here he held a position as clerk with Morris Lesser, who conducted a clothing and gents' furnishing goods business in the Mitchell block now occupied by H. F. Leyl. He was also in the employ of Ed Kennedy for a time while Mr. Kennedy conducted a clothing business in his block on Main street.

NOT IN BROKERAGE BUSINESS. It has been rumored in business circles here the past few days that the local brokerage office conducted by A. R. Jones & Co. would soon pass under control of the Miners' National bank. This is not true. An official of the new banking corporation yesterday advised The Mining Journal that there is no foundation whatever for the report. He further stated that he wished it understood that the Miners' National will confine its business strictly to banking.

INSPECTED THE BUILDINGS. John Lacey, chief, William Trembath, assistant chief; J. B. Pearce, secretary; Thomas McNamara, treasurer; Thomas Sullivan, ex-treasurer; Michael Cashen, engineer, and Anton Hanson, street commissioner, inspected the fire department's buildings, also took an inventory of the equipment yesterday. The apparatus was found in good order and the buildings are in no need of repairing at this time. The firemen were well pleased with the condition in which they found everything. The trip to the buildings was made in the firemen's "red wagon," which was recently put on runners.

AUTHORIZED TO SELL. Rev. C. O. Dahlen, pastor of the Swedish Baptist church, has been authorized to dispose of the church and parsonage, with the lot on which they stand, 100 by 100 feet in size, at the corner of Division and First streets. The price asked is \$8,500. When the location and the available ground is taken into account it must be admitted that the figure set by the church people is very reasonable. On the opposite corner the Finnish Mercantile association owns a site on which its business block is located. It is twenty-four feet less in width than the church ground and \$3,500 less paid for it. This is a higher price, ground room and buildings considered, than the Swedish Baptist people are offering their property for. The dwelling on the west end of the lot is in fairly good condition and it will not need repairing for some time to come.

As soon as the property is disposed of a new site for a church will be secured. The church building is not in good condition and the members of the congregation believe it will be almost as cheap to erect a new one as to repair the old one.

ISHPEMING IN BRIEF.

George Hayden left for Chicago Sunday night on a business mission.

A. E. Williams of L'Anse spent Sunday in Ishpeming, visiting friends.

The Snow Shoe club held a meeting at its new club house last evening.

Dr. Felch is again on duty at the hospital after an illness of about a week.

Dr. McBurney, whose home is at Amasa, visited Miss Mary Donahue here Sunday.

Miss Abbey Small, who was visiting friends in Rhineclaire, Wis., arrived home yesterday.

The hook and ladder company and also the hose company held a business meeting last night.

Greg Donahue returned to Houghton Sunday night to resume his studies at the College of Mines.

Miss Anna Haslam, who spent her holiday vacation in Duluth, returned to this city yesterday.

Katherine McVichie left last evening for Wells college after spending the Christmas vacation in this city.

Judge J. C. Funston is visiting his grandson, J. Gillette of Marquette. The judge will return to Ishpeming today.

The funeral of Charles Charles, who died Friday at Deer Lake, was held yesterday from St. John's church in this city.

Dr. V. H. Vandeventer, who for the past week has been suffering from a severe attack of mumps, was out for the first time yesterday.

The Gaynors will give a lesson and hop next Friday evening at Anderson's hall. The City band orchestra will furnish music for the dance.

The new fire patrol has been placed on runners. Several prominent members of the department were out riding in it yesterday afternoon.

Ross Rule, Douglass Anderson, Max Barbour, Eldred and Neils Robbins and Henry Devine all left for Ann Arbor yesterday, after having spent the Christmas holidays at home.

The examination in the case of George King, charged with stealing a coat from Kahn & Skud, was adjourned until Jan. 19 by Judge Donahue on motion of the defendant's attorney, M. H. Crocker.

The remains of Simon Donovan, who died last Wednesday at Butte, Mont., were given sepulture here yesterday morning at 8:30 o'clock. The funeral took place from St. John's Catholic church.

F. B. Baird of Buffalo, lessee of the East New York mine, and A. M. Bigelow, the owner, were here Saturday. They inspected the property while in the city. The mine will be wrought all winter.

Charles Rourke, who was one of Ishpeming's earliest settlers and is remembered here by quite a number, died recently at Butte, Mont. The deceased left here for the west about twenty years ago.

George B. Sedgwick yesterday adjusted the loss by fire on the stock and fixtures of E. F. Murray. The policy was with the Cooper Fire Insurance company. Mrs. Taylor's loss was settled Saturday by a representative of the Penn Fire Insurance company, who came here for that purpose.

Will Bryden, who left here before Christmas for a visit to relatives in Canada, got back Sunday evening and was accompanied by a bride. A party was given last evening at the home of James Bryden, brother of the groom, in honor of the bride and Mrs. John L. Bohn, who will soon return to her home in Milwaukee.

Miss Emma Downing, daughter of the late O. E. Downing, for many years a prominent citizen of Ishpeming, was married on the first day of the year to Myron G. Spawn of Beloit, Wis., the ceremony taking place at the home of the bride's mother in Chicago. The bride taught school here for a number of years before the family moved from the city.

The ladies of the county can now get their tailor-made garments at J. H. Mortley's. An expert is in charge of the new department. (1-4-1f)

You will never get the small-pox if you drink pure white malt whisky; for sale by P. H. Donahoe. (1-3-1f)

Upper Peninsula News.

Rob Hill was drowned at Escanaba Saturday afternoon while skating. His age was twelve years.

The Northern Michigan Benefit association has been organized at Manistowick. Officers were elected last week. The association already has 218 members and it is growing rapidly. It will carry on a regular insurance business with the upper peninsula as a field. W. R. Hardy is the manager.

Parties at Bark River are thinking of putting in a grist mill at Iron River. As there are a great many farmers in the vicinity there is no reason why such a mill should not make good money after a few years. At first it would not be profitable, as the wheat would have to be shipped in, but after the farmers began to put in crops of this grain it would have all the business it could handle. An enterprise of this description would be a great benefit to Iron River.

The Bird Iron company of Crystal Falls has been incorporated under the laws of the state of Illinois with a capital stock of \$50,000 to develop the Voss property near that city, and its name will be changed to The Bird, after Second Vice President Bird, of the C. M. & St. P. railroad. The officers of the new company are: George B. Penwell, president; E. E. Crepin, treasurer; M. S. Sanders, secretary; Arthur E. Buzzo, superintendent. The directors are George B. Penwell, E. E. Crepin, R. Floyd Clinch, M. S. Sanders and John Crerer. The Bird is a new property discovered last year and has shown up so far a very high grade bessemer ore.

Mackinac Island is enjoying quite a building boom. The work in progress on the Grand alone is enough to give the town the appearance of thrift and activity—men excavating, laying foundation walls, moving buildings to other sites, teams arriving and unloading lumber, and a small army of carpenters as busy as bees. But there are other places where the work is being pushed, though not on so pretentious a scale. The Lake View Hotel addition is quite an important work, and the new houses of J. W. Davis and Mr. Gallagher, now up and enclosed, give employment to many men. The Lorain L. is far busier than at any time last summer, bringing from 50,000 to 75,000 feet of lumber daily from Mackinac City.

Niagara seems destined to be a town of considerable importance. A large amount of building has been done during the past two or three months. A large store building two stories high, 40x80 feet, with four departments has just been completed by T. D. McNulty. The paper mill company has just finished a big warehouse and a new two story school house with four rooms has just been occupied. A new two story hotel building with all the modern improvements is the pride of the place. The paper mill company recently finished 100 cottages for its men while it has also built a big addition to its boarding house. Everything about Niagara looks like business and prosperity.

There is every prospect that the Iron Mountain abduction case in which James Davis and Rosie Schroder figure will be settled out of court. The terms of the proposed compromise are that the marriage of Davis and the Schroder girl will be declared null and void,

the pending abduction case against him nullified, and that he will be released from custody provided that he will return to his first love, Mary Troyan, marry her and give a good and sufficient bond for the support of herself and child. Mrs. Roushia, mother of the Schroder girl, does not seem anxious to go on with the case, and would doubtless drop it if she felt sure that Davis would never again disturb her domestic tranquility. She has stated that she would be sorry to see him go to the penitentiary, it being very evident that she has relented toward him. The only trouble it seems in the way of the compromise is Prosecuting Attorney Hammond. He does not look kindly upon the efforts being made to get the matter out of court and is afraid that such a settlement would not meet the ends of justice. But a tender spot in his heart may yet be reached and the way cleared for a new start in life for all concerned.

LINGERING LAGRIPPE COUGH.
G. Vacher, 157 Osgood St., Chicago, says: "My wife had a very severe case of grippe, and it left her with a very severe cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Price 25c and 50c. The People's Drug Store.

In pulmonary trouble, the direct action of BALLARD'S HOREHOUND SYRUP upon the throat, chest and lungs, immediately arrests the malady by relieving the distress, cutting the phlegm and freeing the vocal and breathing organs. Price 25 and 50 cents. The Stafford Drug Co.

A MOST WONDROUS CURE.
Eminent Physicians Pronounced it Consumption.

Dr. C. D. Warner, Coldwater, Mich. Dear Sir:—I have received great benefit from your White Wine of Tar Syrup. I had cough and the doctors gave up all hopes of my recovery and pronounced it consumption; I thought that it was death for me. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I took one and one-half bottles and am cured entirely. Such medicine I can recommend to those who are afflicted as I was.

Very respectfully yours,
JOSEPH E. UNDERHILL.

NOTICE.
MINERAL RANGE RAILROAD COMPANY—Notice is hereby given, upon the request of the holders of more than one-fourth of the capital stock of the Mineral Range Railroad company, that a special meeting of the stockholders of said company will be held at the office of the company in the Nester Block in the city of Marquette, Michigan, on the 15th day of January, 1901, at two o'clock p. m. for the purpose of providing means, by mortgage or otherwise, for paying the indebtedness necessarily incurred and to be incurred for completing, finishing and operating the railroad, for the construction of extensions already authorized and for improvements and betterments, and for such other matters in connection therewith as may be properly come before the meeting. Dated, Marquette, Mich., Dec. 12, 1900.

A STARTLING INCREASE.

DEATH RATE OVER THREE TIMES WHAT IT WAS FOUR YEARS AGO.

The recorder has just completed his report showing the death rate for the year 1900. It is a very interesting document. The report discloses a startling increase in the mortality of the city during the past four years. From a death rate of one-half of one per cent in 1897 the mortality has increased to nearly two per cent. This is an increase of over 350 per cent since '97. No cause is assigned for the increased mortality by the recorder, who merely furnishes the statistics.

The deaths during the year closing Dec. 31, 1900, reached 132. Of these 57 were children under five years of age; 17 persons over fifty years of age and 58 persons between the ages of 5 and 50 years. The percentage for each class as given by the recorder is as follows:

Children under five years of age, 43 per cent.
Between the ages of five and fifty, 44 per cent.
Over fifty, 13 per cent.

It will be seen that the greatest mortality is of persons between the ages of 5 and 50, and among children the mortality is greatest under 5 years of age. A very small percentage, between the ages of 50 and 75. The children's deaths occur mostly among infants under one year of age. The causes for this are numerous. Lack of proper nourishment and care and children's diseases are the principal ones.

Never before in the city's history has there been so many deaths in a single year as occurred here in 1900. Yet there was never a time when there were fewer fatalities from unusual causes. There has been no epidemic of any kind except the small pox, and there have been no deaths from that malady.

Taking for a basis, a population of 7,000, the death rate in Negaunee for the past four years has been as follows:

No. of deaths.	Percentage.
1897.....	34..... .005
1898.....	73..... .01
1899.....	77..... .01
1900.....	132..... .019

By this table the increase in the death rate can be readily seen. In 1898 the death rate was over a hundred per cent greater than in 1897, and again in 1900 a large gain is shown over the mortality the preceding year.

When the health officer's attention was called to the recorder's report by a Mining Journal reporter he said: "The increase is, indeed, large. What my opinion of its cause is I will make public in a day or so, when my report for the year 1900 is complete. I am busy working on it now. Until it is ready for submission I do not care to be interviewed."

MISS GAFFNEY MARRIED.

The following mention of the marriage of Miss Josephine Gaffney, for many years a resident of Negaunee, and John F. Martin of Green Bay, taken from The Advocate of that city, will be read with interest by the young lady's many friends in the upper peninsula.

"St. John's Catholic church at 5 o'clock Tuesday morning, Father Casal pronounced the words that made Miss Josephine A. Gaffney and John F. Martin husband and wife. The ceremony was performed in the presence of a large number of friends and relatives of the contracting parties. Miss Eleanor Gaffney attended her sister as maid of honor. E. B. Martin, brother of the groom, performed the office of best man. Following the marriage ceremony, a reception was held at the home of P. H. Martin, where the wedding dinner was served. Only relatives and very intimate friends, about sixty in number, were invited to the dinner. The out of town relatives present were Mr. and Mrs. Fred Reinhardt of Marquette, Mich.; Mr. and Mrs. Frank Martin of Shawano, Wis.; Mrs. John Winter of Chicago; Mrs. P. Martin and Miss Kate Martin of Crookston, Minn.

"The couple received numerous handsome and valuable wedding gifts. Mr. and Mrs. Martin left in the afternoon for a short northern trip. They will be at home after Feb. 1, at 401 Crooks street, where they have furnished a suite of rooms.

"The couple who figured as principals in the first marriage solemnized in Green Bay in the Twentieth century are among the best of the city's young people. The bride is a daughter of Mrs. C. Gaffney, of 720 South Jefferson street. She is a decidedly attractive young woman of the brunette type and is popular in society and church circles. She possesses a soprano voice of rare richness which has often been heard in concerts and at other public gatherings. Mr. Martin is the junior member of the well known law firm of Wigan, Martin & Martin and in point of ability is recognized as a leader among the younger members of the legal fraternity in "Green Bay."

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness, and all diseases of the throat, chest and lungs are surely cured by it. Call on the Stafford Drug company and get a free trial bottle. Regular size 50c and \$1. Every bottle guaranteed, or price refunded.

FUNERAL HELD YESTERDAY.

James Cavanaugh, the old soldier who dropped dead Friday night, was buried yesterday from St. Paul's Catholic church. The services were conducted by Rev. Father Langner, the pastor. Members of the local G. A. R.

WANTED IN NEGAUNEE.

George King, who was arrested by Marshal Farm of Ishpeming for stealing a coat from Kahn & Skud, is wanted here for a similar offense. Marshal Gribble has had a warrant for his arrest for the past two weeks, but has been unable to find his man.

WILL GIVE A PARTY.

The Ladies' guild will give an elaborate dancing party on Jan. 18. Every member of the organization is working diligently to make the affair a success. Tickets can be procured from any of the members. The admission is one dollar a couple. The party will be one of the society events of the season and all who can should attend, as a good time is assured.

PARIS EXPOSITION PRIZES.

The United States received more prizes at the Paris exposition than any other nation, except France, the total being 1,981. It is also a remarkable fact, that though the inhabitants of every country suffer from digestive troubles, and though every clime offers some alleviative therefrom, it remains for America to produce an absolutely reliable remedy for such common diseases. This remedy is Hostetter's Stomach Bitters. Half a century ago, it was placed upon the market, and from that day to this, it has never been equalled. It has an almost unparalleled record for the cure of dyspepsia, indigestion, constipation, sick headache, sour stomach, peptic, heartburn, nervousness, fatigue, insomnia, or any other disturbance of the stomach. Be sure to give it a trial.

LOCAL L. CONICS.

Hoyt's "A Day and a Night" played to a very good house Saturday night. The six inches of snow which fell here Sunday was very welcome, as sleighing for the past week has been poor.

Rachel Lancaster of Marquette spent Sunday in Negaunee. The other Marquette people registered at the Brechtling House were J. W. Spear and the Misses Lucy M. Westlake and Della McCallum.

G. L. Kuhlman intends to resume his auction sales immediately after the pay days at the mines, provided he does not find a buyer for his stock in the meantime. He would like to dispose of the goods to one of the local merchants and will sell at a low figure.

NEW ALPINE TUNNEL.

One of the recent enterprises in Alpine mountain engineering projects is that a line connecting St. Didier and Chamoniex can be operated, says the New York Post. The Val d'Aosta railway now has an extension to St. Didier, while there is a branch of the Paris, Lyons and Mediterranean line which is carried into Chamoniex valley. The plan has been proposed by an Italian engineer, M. Cedate, and it is said that of the sixteen kilometers of connecting line there would be thirteen kilometers of tunnel with a maximum elevation of 1,000 meters. It is proposed to employ the water power found on the other side of the mountain in abundance to generate electricity to operate the line.

Mrs. Charles Corwin of Lansing is mourning the loss of her diamonds and husband. The sparklers and the man went away together. The former was located in a pawn shop but the latter can no where be found. Mrs. Corwin recently began a suit for divorce, which explains the action of her errand spouse.

The Walden Shoe Factory, Grand Haven's newest manufacturing institution, will be in operation in two weeks. The machines are now being taken to that city from Griggsville, Ill. This factory will give employment to 150 people and when it runs full force will turn out 400 pairs of shoes daily. The members of the shoe company are four brothers, who have grown up in the business.

Mrs. Rebecca Zeran, wife of the postmaster of Prescott, Ogemaw county, was picked up at Bay City Friday in a demoted condition. She attempted to board a train, saying she wished to go to Battle Creek, but having no ticket was not allowed to pass the keeper at the gate. She is subject to spells of dementia. Her husband has been notified. He supposed she was visiting friends at Standish.

Burglars broke into the office of Frank Miller at Vassar Friday morning about 3 o'clock and blew open his burglar-proof safe with nitro-glycerine. The burglars obtained about \$300 in cash and carefully removed the shells from the notes and valuable papers. The safe is a complete wreck. All the windows in the office were blown to pieces. This is the second time Mr. Miller's office and safe have been burglarized.

The Grand Haven tannery, which has been idle since spring on account of the failure of the company that operated it, is once more in operation, having been purchased by the Eagle Tanning Co., of Chicago. It will be consolidated eventually with the tannery at Whitehall, which the company also owns, and converted into one big tannery at Grand Haven. Fine leather, such as is used in making pocketbooks, will be manufactured principally.

A young man who was hunting called on a family named Colton, of Crystal township, Negaunee county, Tuesday last, and carefully removed the shells from his fowling piece. Putting them into the pocket of his hunting coat, he hung the latter up and left the room. A 5-year-old boy climbed up, got the shells and put them into the gun, when the falling hammer discharged the load. The charge cut the jugular vein of his 24-year-old sister, inflicting a wound from which she died within an hour.

Superintendent Norton of the Jackson high school has for a number of years advocated changing the age at which children are admitted to the public schools from five to six or seven years. The Jackson board of education has adopted a resolution favoring the change to six years, and has instructed Mr. Norton to correspond with the superintendent of public instruction and other educators with a view to introducing an amendment to the school law in the present legislature, making the change.

While a force of men were repairing an old warehouse of the Deering Harvesting Co., at Jackson Saturday forenoon the building collapsed and five workmen were buried in its ruins. Four of the men were not seriously injured, but one, Geo. M. Gardner, was unconscious when extricated from the debris, and as he is well along in years it is feared his injuries may result seriously. The building had been previously shaken by a wind storm and had since been unoccupied.

Alexander McDowell, son of an ex-deputy sheriff of Detroit, is in jail at Jackson charged with burglarizing a Jackson saloon of \$18 in money and a quantity of cigars. It is thought McDowell is one of the gang that committed a number of burglaries at Jackson a few weeks ago. Constable Rosenkrantz ran down his man at Detroit and made the arrest there. His clue was obtained through a plugged twenty-five cent piece which was among the plunder taken from the saloon.

Pearl Adams, a pretty waitress at the Southern Michigan hotel at Coldwater, has been close to death since Christmas, the result of a desperate attempt to end her troubles by taking poison. The young girl and her sister have been employed at the hotel for two or three years and their prepossessing features and modest, lady-like ways made them strangers with the employer and guests. Miss Adams, it is learned, became infatuated with a young man, and finding that she would be disappointed made the rash attempt to take her life.

L. H. Field, owner of the largest dry goods house in Jackson, has announced that on February 1 he will organize his business on profit sharing lines with his employees. The plan to be pursued by the firm has not yet been definitely settled. For two years the house has been run on a modified profit sharing plan, whereby the seventy employees participated in the profits, and February 1 this idea will be extended so that employees will actually own a share of the business. The corporation will be known as the L. H. Field company. The capital stock will be \$100,000.

Peter Vance committed suicide Friday morning at his home, three miles west of Ann Arbor, by cutting his throat from ear to ear with a razor. The body was discovered in the woodshed by the hired man. Vance was unmarried, and was a brother of Jos. Vance, the late law librarian of the university. The latter had always been the wages he earned freely to his brother, in order to keep the place up, and the only reason anybody can attribute for the deed is that Peter brooded over his brother's death until he became temporarily deranged. He was about 70 years of age.

Saturday on the farm of Kias Kamp, just west of Grand Rapids. The Holland interurban electric road crosses the Kamp farm, and when Kamp refused to give or sell the right of way, condemnation proceedings were had to secure it. Kamp did not propose to recognize the court's authority in the matter, however, and when the construction gang reached Kamp's farm he and his wife were out with guns and clubs. The sheriff's force had a lively scrimmage, in which Deputy Barker's ribs were broken, before Kamp was lodged in jail.

During the past few years, it is alleged, the trespass laws of the state have been indifferently enforced. Trespasses on state lands have been common, and while a large amount of trespass fees have been collected many violators of the laws have escaped. Land Commissioner Wiley proposes to try a new plan. Instead of one state trespass agent the commissioner will name three district agents who will look after violations of the laws. One agent will have equal authority with the others, and they will all be under the personal supervision of the commissioner. The proposed method will not increase the expense, but it is believed that it will greatly increase the efficiency of the work.

A peculiar case from the Oakland county poor house has just come to light. On Wednesday of last week Mrs. Tilden, 53 years of age, one of the inmates of the house, represented to the keeper that she was tired of staying there and if he would take her to the home of a Mr. J. W. Bird, she would get along nicely. Mrs. Tilden was suffering from dropsy and when the house was reached had to be carried in. There she was left. She provided to be a total stranger to the Birds but they cared for her two days and two nights, when it was learned that she had five children. One lives near Uniontown and an attempt to locate the county house was directed to take the unfortunate woman there, which was done.

A woman armed with a hatchet and a revolver made things lively in a Durand saloon Saturday. She is the wife of a man named Ed. Ware, and her worse half is accustomed to spending much of his time in drinking places. Having reason to believe that he was enjoying himself with ribald companions at a certain resort much favored by the bibulously inclined, Mrs. Ware provided herself with the hatchet and revolver and sought the saloon in question. Entering the bar room, she pointed the revolver at the bartender, ordering him to produce her wayward hubby and telling him that if he didn't do it promptly she would fill him with lead first and then proceed to chop up the furniture of the saloon with her little hatchet. The husband was brought forth and delivered to his plucky wife instant and was marched home in triumph, the woman brandishing her revolver and flourishing her hatchet as she escorted him along the street. The bartender says he is going to find some other occupation, as selling drinks to men whose wives go in search of them armed with such an assortment of dangerous weapons is too warm a business for him.

SECOND CITY IN LUZON.

Lieutenant George Ball is Now Located in Lipa in the Province of Batangas.

ITS 45,000 PEOPLE ARE INSURGENT SYMPATHIZERS.

Representative Families Seem to Have but Little Use for American Soldiers and They Hold Themselves Aloof from the Officers.

THERE IS MUCH ACTIVE CAMPAIGNING.

Second Lieutenant George Ball, who is serving with the 21st Infantry which is stationed in the Philippines, is in line for a first lieutenancy and his promotion cannot now be delayed many months.

His numerous friends will be pleased to learn that his conscientious, reliable service is about to obtain this reward. Lieutenant Ball is now located at Lipa, Batangas Province, having recently been transferred from Manila.

Manila, P. I., Nov. 2.

Dear Mother:

There are big preparations being made for an active campaign this fall and as soon as the election is over the procession will be held. Mr. Arthur will be in the field again and everyone who can go will be out. I think the campaign this fall will be short and sharp. I think it very improbable that Aguinaldo will be taken alive. In fact, I am generally believed that he is dead now, but of course no one knows for certain.

Nov. 4. The 14th Infantry is expected here on Wednesday and we expect to leave very soon after that date.

Last Thursday evening our regiment held a grand ball. I couldn't go, but every one said it was the swiftest affair ever given in Manila. The decorations were very fine and no expense was spared. We are going out into the country and this was our formal farewell.

I can't begin to tell you how proud I am of our regiment. People here say that we are just like a large family and that when we leave our absence will be felt. Officers say that whenever they see a well-dressed, fine-looking soldier, who salutes properly, they know before they see the numbers on his hat that he belongs to the 21st.

HIS FIRST LIEUTENANCY.

Nov. 11. There has been nothing to write about lately. We are still here waiting for the 14th. We are expecting the arrival of the Warren today or tomorrow, but we know nothing about when it will arrive and I read in the papers this morning that the 14th might not come after all. I have made up my mind to go away now and I shall be somewhat disappointed if I don't go. However, if disappointment comes I shall try to bear it with becoming fortitude.

I went out to Judge Taft's to a reception a short while ago and on last Thursday evening the officers of our regiment were invited over to Gen. Bell's, the provost marshal general. We had a fine time dancing, etc., until about twelve.

We are feeling very jubilant over McKinley's re-election and I can not see my first lieutenancy looming up on the horizon. I am less than sixty from promotion and if the army is increased at this coming session of congress I will be a first lieutenant within three months and if there is no increase I shall get the promotion within six months.

Nov. 14. The Warren has just come in with the 14th on board and I am expecting orders every minute to pack up. The regiment will go to Batangas Province and I expect to be stationed in Lipa, the finest town outside of Manila. I am just tickled to death at getting out of this district. I have been on duty constantly for two months and I want a little rest. There are expressions of regret on all sides at our going away. They say, "We will miss you more than any other regiment that has ever been here."

ARRIVAL IN LIPA.

Lipa, Batangas Province, P. I., Nov. 27. Dear Mother: Here I am in Lipa! We arrived last Thursday and this is the first chance I have had to write to you. I am not settled yet, but I got out my writing materials today so that you would not be disappointed in your expectation of receiving a letter from me on the next transport, leaving here Nov. 30.

Well, as usual I have been given a lot of work. I am collector of internal

revenue, in charge of the post exchange, post treasurer, and in charge of the post bakery. These are in addition to my regular duties. However, I am not complaining because I am having new experiences and if I am kept busy I won't have time to imagine that I am overworked. I wanted the collectorship because it will assist me to some extent, and all the other duties are those that I would have at any post and are part of the routine.

We left Manila for Batangas early Monday morning a week ago and arrived in Batangas the same afternoon. Tuesday, Tuesday night and Wednesday morning we were busy unloading and Wednesday afternoon at about half past two we started for San Jose on our way to Lipa. We reached San Jose after a march of eleven miles, at about eight and stayed over night. There I met a doctor I used to know in the Volunteers and he gave me a fine supper and a bed. The officers there were very hospitable and treated us finely. At half past seven we started for Lipa and we made the seven and one-half miles in a very short time. We had a cool breeze all the way.

SECOND CITY IN LUZON.

Lipa is the second city in Luzon in population and wealth. It is situated about eighteen and one-half miles from Batangas in a northerly direction and is about fifteen hundred feet above sea level. The thermometer varies from 65 to 90 and there is almost always a cool breeze. At night blankets are a necessity and even in the day time I have been chilly. The population is about 45,000 and they are insurgent sympathizers or active insurgents, almost to a man. However, they have never fired a shot or committed any overt acts. There are six or eight families here who are very wealthy and very aristocratic. They keep by themselves much of the time and are rarely seen in public. They travel a great deal and are really representative Filipinos.

I have met one or two of the men, but the women do not care to associate with us, so I shall not try to become acquainted with them. I suppose it is because they are very partisan that they act that way.

There is one little fellow here who was met on our train when he heard the Gatling guns he became tired and came home. He is now very good.

We have two companies of infantry and a troop of cavalry and nine officers, including the doctor. We are scattered out around the town so that we don't see very much of each other just now, but very soon we are going to have a mess for six of the officers and thus we will be brought together more. The regimental commander and the adjutant and quartermaster have a mess by themselves. Every afternoon our band gives a concert and it makes things very pleasant. The natives enjoy the band very much.

The regimental commander says that he is going to give a ball and invite the leading people. I don't believe that they will come though.

You ought to see how this town has been shot up. Almost every house has one or more bullet holes in it and some of the houses are fairly riddled. All of this shooting occurred in '96 at the time of the revolution. Our troops had not fired several miles from here last January but the town was taken with no firing at all.

SHORT COUNCIL SESSION.

There was a Great Paucity of Business Last Evening.

The aldermen held a brief session last evening, only a small amount of business being presented for their consideration. An adjournment was taken at 10 o'clock.

Quite a batch of health bills were introduced. They totalled somewhere in the neighborhood of \$1,000, the principal items being the accounts of Health Officer Brown and the man and woman who have charge of the pest house. The health committee reported that it had taken no steps to provide a detention hospital to be used instead of the pest house at the Marlowe place, it being considered that the present facilities are adequate in view of the diminution in the number of cases of small pox. There are now only a couple of patients under the care of the health officer. It is expected that a sufferer will be brought down from Ishpeming today, as all the cases in the county might as well be placed in charge of one physician, thus cutting down the expenses. The disease is now pretty well under control throughout the county and it is believed that the worst of the epidemic is passed. There will probably be a few additional cases of small pox before spring, but no general outbreak of the disease is anticipated.

The liquor bond of Joseph L. Cronin and Phil Trombley was approved. They are about to open a saloon here.

The committee on ordinances, rules and legislation was charged with the duty of inspecting the city charter with a view of ascertaining if there is any pressing need of changes, and it was instructed to report back to the council at its next session. If any amendments are required steps will then be taken to have them presented to the state legislature at the present session.

Alderman Jones presented a demand from the residents in the vicinity of the corner of East Ohio and Spruce streets for an electric light for that point. It was approved by the aldermen and the proper committee was instructed to see that it is provided at once.

The street railway company was given permission to suspend the operation of its Washington street line as soon as the heavy storm block that thoroughfare with such quantities of snow that the expense of opening the tracks would be all out of proportion with the revenues and to keep it closed until the spring breakup. Alderman Asire, speaking for the street railway company, stated that the cars would be operated just as long as the present fine weather continued. This line has been enjoying a very fair patronage during the past few days. When its operation is suspended Manager Mitchell of the skating and curling rink will operate a bus line from Front street.

The ordinance granting the Marquette & Southeastern railway the right to cross Hewitt avenue, Pine and Crescent streets came up for its final reading last night. It was approved by a unanimous vote.

This is a week of prayer for the Evangelical churches. The first union

service was held at the Presbyterian church last evening. The Methodist, Presbyterian and Baptist congregations participating. Rev. H. E. Purinton of the Baptist church led the meeting. A large assemblage was present. On the conclusion of the service the improvements at the Presbyterian church were inspected with great interest. It had been planned to have the three congregations hold separate services tonight and Thursday night, but the first union meeting was so largely attended and the interest displayed was so marked that they have decided to continue the union services during the remainder of the week. The meeting this evening will again be held at the Presbyterian church. The subject will be "Prayer for a church which, through faith in Christ, and by the indwelling of the Holy Spirit, shall be wholly Christian, doing God's will and winning the world to Christ."

CHICKEN PIE SUPPER.

It Will Be Served at Morgan Memorial Chapel Wednesday Evening.

A Marquette man glanced at the vacant seats in the opera house the night of the Oberlin Glee Club concert, and said to his companion, "I bet the Young Women's Guild will give an oyster supper before long." He was betting on a sure thing. The supper will take place at the Morgan Memorial chapel tomorrow evening, but instead of being a plain oyster affair, it is to be a chicken-pie-oyster-supper, and it will be a good one. Those who wish to entertain a few friends will find it an excellent plan to invite them to partake of this supper. The young ladies will be on hand to serve from five until all the supper is eaten. The price of this repast will be twenty-five cents.

A FATAL JOKE.

Moses Patterson Was Hung up "Just for Fun."

The following Marquette despatch in Sunday's Milwaukee Sentinel concerns the victim of a practical joke which was perpetrated, if it is remembered rightly, in one of Goodman's camps in the western end of this county. The affair creating much comment at the time: "Moses Patterson, a well-known resident, died here Saturday. His death was indirectly caused, it is said, by an occurrence in a lumber camp near Marinette, Mich., about six months ago. The men in the camp for a joke strung Patterson up to a tree. He feared an actual hanging and, although not injured, the shock was serious. His mind became deranged, and today he died suddenly of a rupture of a blood vessel in the head. The men who perpetrated the alleged joke were arrested, but they were afterwards discharged."

TRIBUTE TO MRAK.

He Was a Gifted Scholar and a Gentle Humanitarian.

The Detroit Journal recently contained the following glowing tribute to the memory of the late Bishop Ignatius Mrak:

"The evangelizing forces of the Catholic church sustained an irreparable loss in the death of Bishop Ignatius Mrak who labored for years in the diocese of Marquette to build upon the foundations laid by the Jesuits. He was a gifted scholar, a gentle humanitarian and a self-sacrificing great whose mission was to cement in bonds of unity and love the members of his diocesan flock. He might have remained with his books, a patient recluse, enjoying the sweets of literature and the championship of wise and cultured churchmen, but by voice he abandoned the place of his nativity to enter the comparative wilds of Michigan to uphold and strengthen the church to which his life was dedicated. He had the true missionary spirit, tact and devotion. His labors were not spectacular, but the fruit of them may be seen in the splendid line of churches that extends from the Sault to the portals of the Zenith City of the unsalted seas."

MUST ATTEND SCHOOL.

No Boy Under Sixteen Years Will Be Allowed to Work.

Traut Officer Bob Humes is about to begin an active campaign against all youngsters under sixteen years of age who are not attending school. Before the Christmas holidays he did some good work with the result that a large number of incorrigible truants reported at the several buildings and were regularly enrolled. The offenders of this class who are now at large are comparatively few. They will be run down at once while Mr. Humes also contemplates remedying another abuse. The law expressly provides that all young people under sixteen years of age shall attend school regularly while it makes it a misdemeanor for any parent or employer to prevent or interfere with such attendance. This misdemeanor is punishable by a fine of \$50. There are many people in Marquette who have children of school age in their employ. Mr. Humes proposes to enforce the law and he desires to give all offenders notice to discharge any of their employes who may be under sixteen years in order to avoid being requested to take this course. He says that if the exigencies of any case should demand such procedure he will institute action against the person who refuses to observe the requirements of the law.

MORIARTY'S STATEMENT.

He Credits Charges Against Freeman to Mosher.

Sunday's issue of the Milwaukee Sentinel contained the following Crystal Falls despatch relative the Marquette prison scandal:

Regarding the charges of malfeasance in office preferred against Warden Freeman of the Marquette prison, H. Moriarty, a member of the board of control, says that they come as a complete surprise to him and that he credits them to the work of the deputy warden who, he believes, has been occasionally at work for the past few months to undermine Mr. Freeman. This much was known to Mr. Freeman some time ago and by him communicated to some of the members of the board who advised to keep the matter quiet and keep watch. Mr. Freeman seems to have done so. The board of control consists of P. O. Clark of Marquette, John Hennes of Menominee, H. Moriarty of this city and Gov. Bliss, who is ex-officio a member of the board. The board individually and collectively have had great faith in Mr. Freeman whom they believed to be a good official. The charges of breeding dogs and rabbits and keeping a sale stable are treated lightly by Mr. Moriarty who says that the dogs owned by a certain inmate and their presence kept prisoners from attempting to escape. The rabbits have been bred and used as food for the prisoners and the teams have been used to work about the farm and grade down the hill about the prison. He says that the charges of malfeasance in office are kept prisoners from attempting to escape. IMPORTANT POSITION.

James S. Doyle is Master Mechanic on the Manhattan Elevated.

James S. Doyle, formerly a Marquette man who recently left Chicago to accept the position of master mechanic with the Manhattan Elevated in New York, is filling his important post with entire satisfaction. The following account of the official test of the new motor train with which the road has just been equipped is from a New York paper: "Thirty-five miles an hour was reached by the new motor train in its first official test on the elevated road. The train wound out of the city and on the street yards, after which it made four trips up and down the Second Avenue line between Sixty-fifth and Ninety-second streets. The people in houses along the line hung out of the windows to see; but no longer in astonishment, for the engineers and mechanics of the Manhattan Company have been running their strange looking train up and down the track for several days. A large number of guests who rode on the train worked up great enthusiasm over its performance.

"The brand-new train presaged a change which those who know of old the elevated system will think incredible. The train consisted of two power-cars and four coaches, all new and brilliantly painted. Twenty sixteen candle-power electric lights were in each car, and further contrivances under the seats for heating. The looking guards in the company's employ, number-plated carefully polished and shoes varnished, opened and shut doors which ran easily on wheels.

When James S. Doyle, master mechanic of the road, pulled the controlling lever into the first notch, he started the train on a smooth and steady course. The first trip consumed no more than four minutes. Doyle pulled over his lever to the last notch, and the train glided along at thirty-five miles an hour when the engineer's brakes were applied, no agonized grinding and crunching resulted.

"The train was propelled by two motor-cars, one at each end, enabling the train to go in either direction without changing power. The two motor-cars are connected by a cable through which passes the current taken up from the rail by the shoe of the leading car.

"Two large controlling-boxes, as big as over-sized trunks, and a lever as long as a man's arm, are the visible driving agents. The engineer draws the lever of the leading car into the first few notches, the electric current passes through the four motors of the leading car, and then by way of the connecting cable passes through the motors of the rear car. This is what the electricians call "in series." But when the lever is drawn clear over, the motors are operated "in parallel," or simultaneously, and great speed results. The trains will require but one man to do the operating, and that man will control both motor-cars from the forward one.

"The electric current is also sent through a pump-engine, which produces compressed air for the brakes. Heretofore vacuum brakes have been used; henceforth the new trains are to be fitted with what are called the straight-air brakes. The former depended on creating a vacuum in the cylinder of the breaking apparatus; the latter utilizes exactly the opposite principle. Where before only fifteen pounds pressure per square inch was obtainable, the new brakes will apply no less than thirty. Trains can be stopped, the electricians say, within a train-length, going at a speed of twenty-five miles an hour. By making it unnecessary to shut off the power while the train is still several rods from the station, much time will be saved.

"One of the engineers of the Manhattan told what the new trains are expected to do. He said: 'In the express trains special provision will be made to maintain the high speed now reached by the steam locomotives. Local trains will easily make fifteen miles an hour where now they make twelve. From the Battery to One Hundred and Fifty-fifth street will be run in forty minutes, instead of forty-nine.'
