RAILROAD DEAL A GO.

St. Paul-Great Northern
Agreement Said to
Be a Fact.

STEP IN A GIGANTIC POOL.

Leading Systems to Combine for Business and Economy and Many Heads Are to Fall.

MORE DETAILS ANNOUNCED

Milwaukee, Jan. 9.—The Evening Wisconsin today says that it is prepared to state on the best of authority that the deal involving the St. Paul, Great Northern and Northern Pacific railroads has gone through. The contact is an agreement between the principal owners of the properties by which certain terms as to earnings, etc., will be carefully carried out and strictly adhered to. The combination of roads is really in the form of a gigantic pool as to business and earnings, giving each other all the business east and west bound they can control.

PRESIDENT HILL EXPLAINS.

New York, Jan. 9.—James J. Hill today outlined what he and his associates in the giant railroad "community of interests" are trying to accomplish. Instead of a combination of the great roads under one system, he said, he was trying to bring about an agreement between certain of the big systems in the Northwest by which "friction" will be prevented and the roads operated more economically. He denied he was here to see Messrs. Morgan and Rockefeller.

NORTHWESTERN LINE IN DEAL.

New York, Thursday, Jan. 10.—The Mail and Express says: "Wm. K. Vanderbilt's plan for welding together the Union Pacific and Chicago & Northwestern railroads, which he conceived more than a year ago, is now about to be carried out. When it is completed it will be found that the Vanderbilts will have a through trans-continental line of their own from the Atlantic to the Pacific ocean. No one original scheme was to lease the Union Pacific to the Northwestern, but it is not yet certain whether this will be done or not. Control of the former will be acquired through the purchase of a majority of the Union Pacific stock, this being done in the open market, which accounts for the big jump in price during the last two days."

50,000 TO LOSE JOBS.

Chicago, Jan. 9.—The Record says: "The financial powers controlling the destinies of the great railway systems of the nation are reported to be sharpening their axes preparatory to bringing about one of the biggest economic reforms in the history of American railroad operations. The keen edges of the implements are intended for the necks of the vast army of traveling passenger and freight agents and other officials directly engaged in the solicitation of business for the lines. Should the axes be brought into service as the reports say, the official deprivation of more than 50,000 men and the annual saving of millions of dollars to the carrying companies will be the result."

The reports of the intention of the railroads to bring about the new reform came as a result of the recent big deals, engineered by J. Pierpont Morgan, James J. Hill, John D. Rockefeller and others. That there is in existence an understanding of some character among the roads of the country, especially the great competitive carriers, is regarded as certain in view of present conditions. The maintenance of rates by both the so-called "weaklings" and the strong lines is taken as an evidence of the existence of some kind of an agreement regulating the handling of traffic. Occasionally reports of rate-cutting are circulated, but these reports are regarded as but parts of a strategic scheme to keep the general public in the dark as to the true condition of affairs. Most classes of traffic are maintained by the weaker lines as well as by the stronger and more attractive carriers.

"Railroad officials who do not enjoy the full confidence of the executive officers in all matters give considerable credence to the reports. They point out that if the reported deal whereby the Erie, the Great Northern, the Northern Pacific and the St. Paul lines soon would be working hand in hand were carried out the need of soliciting agents for transcontinental traffic would be slight if any at all, figuring that such a combination would have control of such traffic. It would be necessary, however, to retain some of the traveling passenger and freight agents, especially in the sections where further building up of business is most desired."

PHIL ARMOUR'S FUNERAL.

Chicago, Jan. 9.—Private funeral services at the late residence and public services at the Armour mission over the body of Philip D. Armour were held at 11 and 2 o'clock, respectively, today. The body lay in state at the Armour mission from noon until two and was viewed by thousands of people. The services were of the simplest

character. The interment was in the family lot at Graceland.

ARE ALLIES NO LONGER.

FRANCE AND RUSSIA SAID TO HAVE VIRTUALLY CUT LOOSE FROM EACH OTHER.

Paris, Jan. 9.—In view of the statements of the anti-republican press, corroborated by the utterances of the Novoe Vremya at St. Petersburg, that the Franco-Russian alliance is practically ended, messages passing today between the French minister for foreign affairs, M. Delcasse, and the Russian minister for foreign affairs, Count Lamsdorff, attain more than usual significance.

M. Delcasse, congratulating Count Lamsdorff on his appointment as minister for foreign affairs, recalls their close personal friendship, which he believes will be utilized for the common interests of the countries. Count Lamsdorff expresses a sincere desire to contribute to the consolidation of the Franco-Russian alliance, which has united the two countries. It is noted that the words "alliance" or "allies" are not contained in the dispatches.

EX-REBS HIT AT M'KINLEY.

NEW ORLEANS CAMP OF CONFEDERATE VETERANS PROTESTS AGAINST PRESIDENT'S ATTENDANCE AT THE REUNION
New Orleans, Jan. 9.—At a meeting today of Camp Army of the Tennessee, United Confederate Veterans, the strongest Confederate association in North America, a resolution offered by General Stephen Charlton, commander of the camp, protesting against the proposed invitation to President McKinley to attend the Confederate reunion to be held in Memphis this spring was unanimously adopted. General Charlton explained it was understood the president would be invited to Memphis, and the resolution was intended simply as a warning to Memphis not to do it.

FOR MRS. NATION'S RELEASE.

PROCEEDINGS ARE STARTED IN THE KANSAS SUPREME COURT.

Topeka, Kas., Jan. 9.—Habeas corpus proceedings were started in the supreme court today to secure the release of Mrs. Carrie Nation, the W. C. T. U. leader, from the Wichita jail, where she is confined for attempting to demolish a saloon. The petition, which was filed on behalf of David Nation, claims the saloon keepers have no rights under the law and therefore Mrs. Nation cannot be held for trying to destroy an illegal traffic. It claims she is confined to jail by a bogus small-pox quarantine after she has offered sufficient bond for release. The supreme court will hear the case on the 12th.

CANADIAN TROOPS LAND.

WARMLY GREETED AT HALIFAX ON RETURNING FROM AFRICA.

Halifax, Jan. 9.—The second Canadian contingent returning from South Africa landed today amid scenes of great enthusiasm.

MORE BRITISH CASUALTIES.

London, Jan. 9.—The British casualties in the fighting on the 5th between Colonel Babbington's forces and the Boers under Generals Delarey and Steinkamp at Naauwpoort, when the burghers were forced to retire, are announced at twelve men killed and thirty-three wounded.

CZAR TO FIGHT THE PLAGUE.

SENDS AGENT TO PACIFIC COAST WITH UNLIMITED POWERS.

St. Petersburg, Jan. 9.—In consequence of the fresh severe epidemic of plague, Prince Alexander Petrovich has been dispatched to the southeastern governments with unlimited powers to combat the outbreak.

DEATH AT CONSTANTINOPE.

Constantinople, Jan. 9.—One death from the bubonic plague is officially reported here. Precautions are being taken and all arrivals are medically examined.

PINGREE CASE ADJOURNED.

EX-GOVERNOR MOVES TO QUASH THE CONTEMPT PROCEEDINGS AND THE HEARING GOES OVER UNTIL NEXT SATURDAY.

Lansing, Mich., Jan. 9.—Ex-Governor Pingree appeared in the circuit court this afternoon to answer to the charge of contempt as the result of his utterances in an interview given a Detroit paper. His attorney immediately moved to dismiss the proceedings, alleging lack of jurisdiction of the court for the same reasons presented in the supreme court yesterday, when it was asked to dismiss the case. The hearing on the motion was set for next Saturday.

FIRE LOSS HALF A MILLION.

EARLY MORNING BLAZE IN ERIE BASIN, SOUTH BROOKLYN.

New York, Jan. 9.—In an early morning fire in Erie basin, South Brooklyn, today, Beard's shipping stores were partially destroyed, the excursion steamer Idlewild burned, one fireman injured and close upon fifty seamen narrowly escaped with their lives. The loss is estimated at \$500,000.

AMERICA'S OLDEST MASON.

B. LAING DIES AT CHICAGO, AGED 107 HUNDRED
Chicago, Jan. 9.—John B. Laing, believed to have been the oldest Free Mason in the United States, died here today, aged 107 years. Laing joined his order in Scotland in 1820.

CANTEEN TO BE NO MORE.

Senate Votes Decisively to
End the Liquor Traffic
in the Army.

RATIFIES PLAN OF HOUSE.

Charge the Saloon Interests Are Back
of Fight for Abolishment Figures in the Extended Debate.

PRESIDENT IS SCORED.

Washington, Jan. 9.—The army canteen is to be abolished, as the senate today, by a decisive vote, concurred in the house provision relative to the proposition. Only fifteen votes could be mustered in the senate in favor of the canteen, while thirty-four were cast against it.

Most of the time today was occupied by Senators Teller of Colorado, Pettigrew of South Dakota and Butler of North Carolina, who all opposed the adoption of the senate committee's amendment which provided for the continuance of the canteen. Beyond disposing finally of the canteen question, the senate accomplished little and it seems doubtful whether the final vote upon the measure will be reached before Friday or Saturday.

MANY SENATORS SICK.

When the senate convened vacant seats were numerous, many senators being away, several confined to their homes with grip.

The reapportionment bill was received from the house and referred to the committee on census.

A resolution was adopted calling upon the president to furnish the senate copies of all the papers and correspondence in the department of state relating to the action taken by the department to obtain an adjustment of the claims of B. R. Henry and other American citizens against Great Britain in regard to lands in the Fiji islands.

At the conclusion of routine business, the consideration of the army reorganization bill was resumed, the pending question being upon the committee amendment striking out a clause in the provision abolishing the canteen or post exchange in the army.

Senator McCumber of North Dakota attacked the amendment and urged the adoption of the house provision entirely abolishing the canteen. He declared that a great majority of the deaths in the army was due directly or indirectly to the use of intoxicants.

WOULD CLOSE MANILA SALOONS.

Senator Teller of Colorado said no attack was being made upon the post exchange, but merely upon the beer-selling part of the exchange. He believed the canteen system was vicious, and that a great majority of the deaths in the army was due directly or indirectly to the use of intoxicants.

Senator Lodge deprecated the establishment in Manila of American bar rooms.

Senator Gallinger said he had been told by prominent officers of the army that the 400 or 500 American saloons in Manila were licensed by the American government, and he believed they could be completely abolished.

Under the command of General Ludlow, the establishment of saloons had been absolutely stopped in Havana.

Senator Foraker, explaining that he was compelled to be absent from the chamber during the remainder of the day, said that if he were present when the amendment was voted upon he would vote against the committee amendment which continues the canteen.

the attorney general to write an opinion in support of his refusal.

"Oh now, the senator does not mean that the president dictated to the attorney general the nature of the opinion he should write?" protested Senator Spooner of Wisconsin.

"Well, I don't know whether he did or not," responded Senator Pettigrew. "I wouldn't say he did, then," suggested Senator Spooner. Senator Pettigrew read and commented upon the opinion of the attorney general upon the law relating to the canteen passed by congress last year.

HOW THEY VOTED.

After Senator Butler of North Carolina had then addressed the senate in support of the house provision relating to the canteen, the roll call amendment of the committee was laid on the table, the vote being:

Yeas—Allen, Allison, Bard, Bate, Berry, Beveridge, Burrows, Butler, Chilton, Clay, Daniel, Debois, Dooliver, Fairbanks, Foster, Frye, Gallinger, Hale, Hansbrough, Hoar, Jones (Ark.), Lodge, McCumber, McCumber, Nelson, Perkins, Pettigrew, Platt (Conn.), Platt (New York), Simon, Teller, Towne, Turley, Wellington—24.

Nays—Caffery, Clark, Cockrell, Elkins, Hawley, Heitfeld, McLaurin, Mallory, Morgan, Pettus, Pritchard, Sewell, Shoup, Spooner, Stewart—15.

TEXT OF THE PROVISION.

The effect of the vote is to restore to the bill the house provision abolishing the canteen as far as any kind of intoxicants are concerned. As the section now stands in the bill it reads as follows:

"The sale or dealing in beer, wine, or any intoxicating liquors, by any person in any post exchange or canteen or army transport or upon any premises used for military purposes by the United States is hereby prohibited, and the secretary of war is hereby directed to carry the provisions of this section into full force and effect."

Senator Proctor, on behalf of the military affairs committee, offered an amendment providing how volunteers in the Spanish and Philippine wars may be appointed to grades of lieutenant in the regular army. It was laid over until tomorrow, and the senate, at 5:25 p. m., held a brief executive session and adjourned.

EFFORTS AT RESCUE FRUITLESS.

LITTLE HOPE OF SAVING THE PEOPLE ON BOARD THE RUSSIA

Marseilles, Jan. 9.—All efforts to reach the steamer Russia, which stranded Monday near Farman with fifty passengers and a crew of forty hope seem to be in the water. The vessel is in the bay of the life-savers to throw a line over the vessel, as she is driven nearer shore.

GALE ABATING; HOPES REVIVE.

Later—The Russia signalled at 3:30 this afternoon that up to that time no one had perished. Later a message said: "The passengers are kept below, but all the crew are at their posts. The captain and officers are lashed to the bridge. The seamen tried to construct several rafts, but as they neared completion they were washed away."

During a lull the men on shore succeeded in getting a life line to the Russia, but it snapped as it was being pulled on board. Other similar attempts have failed, but a more hopeful feeling prevails in view of the abatement of the gale.

The cruiser Galitche and a tug with rocket apparatus left the Russian arsenal tonight in an attempt to rescue the passengers, who are chiefly colonial functionaries and soldiers.

MORE CANALS FOR GERMANY.

PLANS OF THE GOVERNMENT EXPLAINED IN THE DIET BY CHANCELLOR VON BUELOW.

Berlin, Jan. 9.—The imperial chancellor, Count von Buelow, in the lower house of the diet today strongly supported the claims for the protection of agriculture. He disclaimed the slightest intention of encouraging the estrangement or separation of the east and west, which, he said, were destined to support each other. With a view to soliciting agriculture in the east and industry in the west a series of further schemes had been bound up in the Rhine-Elbe canal project, of some interest to navigation, but chiefly for the benefit of tillers of the soil, by the establishment of a continuous network of waterways, advantageous to all parts of the empire, opening industrial territory in the west to the agricultural products of the east. Count von Buelow declared that prudent consideration for the financial situation and the tax-bearing capacity of the country ought to secure the passage of the bill. Ample time ought to be taken to carry out the works. The government hoped for a favorable vote, free of party lines, as it was satisfied the welfare of the monarchy was the guiding star of all.

ALVORD PLEADS GUILTY.

EMBEZZLER OF \$700,000 IS ARRAIGNED IN NEW YORK.

New York, Jan. 9.—Cornelius L. Alvord, Jr., former note teller of the First National bank, was arraigned before Judge Thomas in the United States circuit court today and pleaded guilty to the three counts of the indictment charging him with the embezzlement of \$700,000 from the bank named. Alvord will be sentenced on the 15th.

SALL CLUB FOR MINNEAPOLIS.

SIoux CITY WESTERN LEAGUE FRANCHISE IS TRANSFERRED.

St. Joseph, Jan. 9.—Announcement was made today that the Sioux City Western League baseball franchise had been formally transferred to Minneapolis during a secret session of the league representatives on Tuesday. The Pueblo franchise probably will be transferred to Sioux City.

A Ray of Light

For woman's guidance is found in the fact that Dr. Pierce's Favorite Prescription cures female weakness and the diseases of the delicate womanly organs which darken the lives of so many women with suffering and sorrow.

I was troubled for three years with ulceration and female weakness and my doctor gave me but little relief, writes Mrs. Lulu Hunter, of Allenton, St. Louis Co. Mo. I saw an advertisement in the paper of Dr. Pierce's Favorite Prescription. I began the use of it about a year ago.

FAVORITE PRESCRIPTION MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

ILLUSTRATED CATALOGUE FREE. Smith Premier Typewriter Co. 416 Broadway, Milwaukee, Wis.

DAILY MINING JOURNAL. A Morning Paper Published by the Mining Journal Co. (Limited.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

SLIGHTLY MISUNDERSTOOD. We notice that several of the papers of the state construe the introductory statement with which the commissioner of mineral statistics prefaces his report for 1899-1900 to be an argument for the arbitrary abolition of the office which he now holds.

The utility of the office ceased when the mineral resources of the state began to be developed. Before capital sought employment in iron and copper industries, it was wise to exploit the richness of the state's mineral wealth.

Mr. Russell's report is unquestionably one of the most comprehensive reports of the kind ever prepared and yet under the law it can be reproduced for public distribution to the extent of 1,000 copies only—a number too small to be available for advertising purposes.

In commenting on the introductory in question, The Daily Mining Gazette of Houghton says:

It is rather startling to find a state official arguing for the abolition of his "job," but that is the case with the present commissioner of mineral statistics, James Russell, of the Marquette Mining Journal, who takes occasion in his official report to the governor, soon to appear from the press, to air his well known views concerning the present utility of the office which he holds.

It will be noticed that the Journal falls into the same error as the Daily Mining Gazette, i. e., the assumption that the commissioner "recommends" and advises the abolition of the office. As a matter of fact, the commissioner contents himself with stating facts going to show that the very great usefulness the office once indisputably possessed has ceased with the necessity for it that existed when it was established, and suggesting that if it is continued provision should be made for preventing the state from being defrauded by future commissioners who may think that drawing the salary attached to it as the principal duty devolving on them.

In his final report the outgoing auditor general, Mr. Dix, makes some good suggestions to the legislature looking to giving the auditor-general greater power over the work of supervision of accounts which he is expected to authorize payment of. Publication of laws in the newspapers at the expense of the state, should be stopped, he says. There are other large expenditures by the state for the purpose of keeping party organs going that it would be well to look into closely.

That some of the former commissioners have actually failed to make and print any report at all in years for which they drew the full annual salary of \$2,500 ought to be evidence enough that the office needs looking after. Nor is there any check on the commissioner to ensure that he prints the 1,000 copies required by the law creating the office and defining the duties of the commissioner.

THE UPRIGHT MEN FALL. Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling.

Persons who lead a life of exposure, are subject to rheumatism, neuralgia and lumbago, will find a valuable remedy in BALLARD'S SNOW LINIMENT. It will banish pains and subdue inflammation. Price 25 and 50 cents. The Stafford Drug Co.

AN ORDINANCE. An ordinance authorizing the construction of a railway line crossing Hewitt avenue, Crescent street and Pine street.

A WHOLE FAMILY. Rev. L. A. Dunlap, of Mount Vernon, Mo., says: "My children were afflicted with a cough resulting from measles, my wife with a cough that had prevented her from sleeping, more or less, for five years, and your White Wine of Tar Syrup has cured them all."

TRIED FIVE DOCTORS. Mrs. Frances L. Sales of Missouri Valley, Ia., writes: "I had severe kidney trouble for years, had tried five doctors without benefit, but three bottles of Foley's Kidney Cure cured me."

Constipation. Headache, biliousness, heartburn, indigestion, and all liver ills are cured by Hood's Pills. Sold by all druggists. 25 cents.

Upper Peninsula News.

The Walpole mine near Iron Mountain will again be operated, after being shut down for two months. Monday night the pumps were started up to unwater the mine. This work will take at least a month, when the mine will again be worked with a full force.

The order of the Menominee school board that the pupils be vaccinated has been generally obeyed, eighty-five per cent. of the pupils enrolled having complied. Vaccinations continue and the authorities are taking every precaution to prevent the disease being brought to that city.

Chas. Peterson, a section foreman on the Quinnesec Logging Co.'s narrow gauge road, was seriously injured and passed away. He was standing on the platform of the car, when the car was being coupled on and one of the rails which extended over the car next to the caboose was driven back and struck Peterson in the thigh and passed through it, breaking the thigh bone, and badly mangled the flesh.

The city fathers at Iron Mountain held a long drawn session Monday evening that was full of unusual incidents. Fifty-seven residents of the west side, whose homes are in the vicinity of the building which is now used as a pest house for small pox patients, petitioned that a new pest house be established at some point more distant from the city.

It is believed in Menominee that an unidentified man found dead in an Indiana avenue lodging house, Chicago, Sunday morning, is Charles Bernard, the well-known timber estimator of that city. The reports in the Chicago papers were to the effect that the man was apoplexiated, and that, from marks on the clothing, he evidently came from Menominee.

Pepsin preparations often fail to relieve indigestion because they can digest only uncooked foods. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat. Stafford Drug Co. H. N. Meloche, Ishpeming.

Persons who lead a life of exposure, are subject to rheumatism, neuralgia and lumbago, will find a valuable remedy in BALLARD'S SNOW LINIMENT. It will banish pains and subdue inflammation. Price 25 and 50 cents. The Stafford Drug Co.

Constipation. Headache, biliousness, heartburn, indigestion, and all liver ills are cured by Hood's Pills. Sold by all druggists. 25 cents.

Sault Ste. Marie. WEDDED LAST EVENING.

Miss Lillian Stonehouse and A. R. Waterbury were united in marriage last evening at the residence of the bride's sister, Mrs. R. Bishop, 402 Maple street, Rev. C. B. Steele officiating.

The athletic entertainment at the Army Tuesday evening was a fine success. The attendance was very good and the program better. The So. Military band was at its best and rendered many excellent selections.

The contest between the John Mackin and Ed Ellworth teams resulted in a victory for the former by the score of 12 to 10. The players were John Mackin, Al Fogarty, Wm. Boulier and Doc Campbell, Ed Ellsworth, Fred Hall, Ed Van Wyck, Herb Ryan and Archie McInnis.

Albert Hammond died yesterday noon at 625 Bingham avenue after a several weeks illness with typhoid fever followed by pneumonia. The deceased leaves a wife and a small daughter. He came here from Philadelphia a couple of years ago and was employed as manager of a steam shovel for the E. D. Smith company.

A CARD. We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold.

LOCK CITY NOTES. Dr. Peake of Brimley was in the city yesterday. G. F. Van Wyck has moved to 517 Division street. Bert A. Lord has been on the sick list for a few days.

Charles Holiday has been under the weather for a few days. A. Eph. Fydel is quite sick in his room at the Franklin Hotel.

Miss Mae McInnis was numbered with the sick ones yesterday. Captain Ed Rains departed yesterday afternoon for Port Huron to take charge of the steamer Progress.

Chas. A. Boyle returned yesterday from Mount Vernon, O., where he visited with his parents for three weeks.

Miss Mayme Stanley entertained a few friends with a dinner party at her home on Carris street Tuesday evening. The ladies of the Presbyterian church announce a big and novel event for Feb. 11 which is to be called "A Dollar Party."

The future rehearsals of the Sault Ste. Marie Oratorio society will be held in the high school room of the Central School building.

Frank Murphy, the brakeman for the Michigan Lake Superior Power company who was so seriously injured several weeks ago, is able to be out again.

T. N. Case of Owosso is expected to arrive in the city today to open a tailoring establishment in the store room recently vacated by Jas. W. McTavish in the Case & Ellis block.

A letter has been received from Jos. Rouleau, a member of the Thirtieth Regiment in the Philippines. At the time of writing Joe had been sick for some time in the hospital at Manila and was about to sail for home.

A HACKING COUGH. Is immediately relieved and permanently cured by Bunsen's Pine Tar Cough Honey. It cures when all others fail, and when once used is always recommended. Thousands who are constant sufferers from Lingular Coughs and Colds find Bunsen's Pine Tar Cough Honey the surest, safest and best. 25 and 50c. For sale by The Stafford Drug Co.

RHEUMATISM CURED IN A DAY. "Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Frank Pendill, Druggist, Marquette.

NOTICE. Marquette, Mich., Jan. 3, 1901. Notice is hereby given that the annual meeting of the stockholders of the Lake Shore Engine works, for the election of directors and the transaction of other business, will be held at its office in the city of Marquette, in the state of Michigan, on the third Monday of January (the 21st), A. D., 1901, at 2 o'clock p. m.

J. E. SHERMAN, Secretary.

Upper Peninsula News.

He was standing on the platform of the car, when the car was being coupled on and one of the rails which extended over the car next to the caboose was driven back and struck Peterson in the thigh and passed through it, breaking the thigh bone, and badly mangled the flesh.

The city fathers at Iron Mountain held a long drawn session Monday evening that was full of unusual incidents. Fifty-seven residents of the west side, whose homes are in the vicinity of the building which is now used as a pest house for small pox patients, petitioned that a new pest house be established at some point more distant from the city.

It is believed in Menominee that an unidentified man found dead in an Indiana avenue lodging house, Chicago, Sunday morning, is Charles Bernard, the well-known timber estimator of that city. The reports in the Chicago papers were to the effect that the man was apoplexiated, and that, from marks on the clothing, he evidently came from Menominee.

Pepsin preparations often fail to relieve indigestion because they can digest only uncooked foods. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat. Stafford Drug Co. H. N. Meloche, Ishpeming.

Persons who lead a life of exposure, are subject to rheumatism, neuralgia and lumbago, will find a valuable remedy in BALLARD'S SNOW LINIMENT. It will banish pains and subdue inflammation. Price 25 and 50 cents. The Stafford Drug Co.

AN ORDINANCE. An ordinance authorizing the construction of a railway line crossing Hewitt avenue, Crescent street and Pine street.

A WHOLE FAMILY. Rev. L. A. Dunlap, of Mount Vernon, Mo., says: "My children were afflicted with a cough resulting from measles, my wife with a cough that had prevented her from sleeping, more or less, for five years, and your White Wine of Tar Syrup has cured them all."

TRIED FIVE DOCTORS. Mrs. Frances L. Sales of Missouri Valley, Ia., writes: "I had severe kidney trouble for years, had tried five doctors without benefit, but three bottles of Foley's Kidney Cure cured me."

Constipation. Headache, biliousness, heartburn, indigestion, and all liver ills are cured by Hood's Pills. Sold by all druggists. 25 cents.

If You Smoke Come and see us, for we have everything in CIGARS, TOBACCOS AND PIPES.

If You Are a Musician Remember us. We have everything in MUSICAL INSTRUMENTS, SHEET MUSIC, ETC.

ECZEMA NO CURE NO PAY. Your druggist will refund your money if Boro-Carbol Salve fails to cure. Ringworm, Tetter, Old Ulcers and Sores, Pimples and Blackheads on the face, Itching Humors, Blind, Bleeding or Itching Piles, and all skin diseases no matter of how long standing. Price 25 cents. For sale by The Stafford Drug Co.

BETTER RAILROAD SERVICE. Marquette and Ontonagon Counties Brought Closer Together Than Ever Before. The opening of the recently completed Mineral Range extension by the D. S. S. & A. railway on Monday next from Keweenaw Bay will be a great event for the towns of Marquette county, as it will bring them in close touch with the growing and progressive towns of Mass City, Rockland and Ontonagon.

HOUGHTON TEAM THE WINNER. TO BE ARRANGED TODAY. JANITOR LA FORTUNE'S HEARING SET FOR THIS AFTERNOON.

The first game of indoor baseball to be played in the copper country took place at the Houghton Armory Opera House last night. The two opposing teams were the mines of the Calumet Rivals and the Houghton Light Infantry (Company G) Athletic association.

The contest, which was an exciting one from start to finish, ended in favor of the Houghton team by the score of twenty-three to thirteen. The boys as a rule played great team work, but Calumet showed lack of practice. Mr. Condon of Hancock umpired the game, and the teams lined up as follows: Houghton—Croze, catcher; Murphy, pitcher; Funkey, first base; Brand, (captain), second base; Currie, third base; Wier, right shortstop; Obenhoff, left shortstop; Conway, Brown and O'Leary, fielders.

HOKEY MATCH NO. 2. PORTAGE LAKE CLUB AND A CALUMET TEAM LIKELY TO MEET TOMORROW NIGHT.

In all probability there will be a hockey game at the Palace rink tomorrow night between the Portage Lake team and one from Calumet. The captain of the two aggregations are negotiating with each other to have the match and if arrangements can be made the contest will be pulled off. The success of the last game will no doubt bring out a larger crowd at tomorrow night's contest than was present here, as the popularity of hockey is well established in athletic circles of Portage Lake. The Portage Lake boys will put up a better and faster match than they did with the Dollar Bay team, as they have been practicing for better team work and science.

BASEBALL LEAGUE PROJECTED. PORTAGE LAKE TEAM GIVEN A PLACE IN A PROPOSED NORTHWESTERN ASSOCIATION.

According to a special dispatch to the Chicago Tribune from Duluth, Minn., Donahue, the Chicago baseball catcher, arrived there Tuesday to meet Ted Sullivan yesterday by appointment to discuss plans for the formation of a Northwestern baseball league to embrace Duluth, Superior, Ashland, and possibly Marquette, Green Bay, Oshkosh and Houghton, and Hancock, the latter two places to jointly own the team. Donahue says if sufficient interest can be aroused in the project, and he thinks there can, he would like to come to Duluth to manage the team, to be managed by Frank Wade, manager of the Duluth-Superior aggregation of last season.

WHERE WE ALL GO. "A Hole in the Ground" with its burly burly of fun in a rural railroad station, where Playwright Hoyt congregate the characters in his play to congregate, will be the attraction at the Houghton Armory Opera House next Tuesday night.

The piece, which will be presented by an excellent company, is proclaimed an uproariously funny farce, abounding in innocent humor and varying situations, interspersed with bits of melody and novel specialties. That the play will be accorded a warm reception when produced in Houghton is evidenced by the unusually heavy demand for seats in advance.

MORE STREET CARS RECEIVED. Two new cars for the street railways arrived yesterday and two more are due today. They will be put in commission when a change of schedule will be made.

LA GRIPPE coughs often continue for months and sometimes lead to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar affords positive protection and security from these coughs. The People's Drug Store.

HAVE YOU KIDNEY TROUBLE? Weak and unhealthy kidneys are responsible for many kinds of diseases and if permitted to continue much suffering with fatal results is sure to follow. In taking Bright's Kidney Pills you afford natural help to nature for Bright's Kidney Pills are the most perfect healers and gentle aid to the kidneys that are known to medical science. Try them today, 25c. per box. For sale by The Stafford Drug Co.

ANOTHER COPPER PROPOSITION. OLD EVERETT PROPERTY, NEAR ELM RIVER, TO BE FLOATED.

The old Everett mine, better known as the Shawmut, in Sections 9 and 10 in 62-36, between the Elm River and Wyandott creeks, will be floated again under the same management at a near date. This fact was positively stated yesterday by a man well versed in mining. The Winona lode runs through the property, which lies north and east of the Winona mine. Further to the south and west of the Everett, in Section 17, but also in 62-35, the conglomerate lode struck about two years ago by Jerry Shanahan and T. Dooling of Portage Lake shows up well in fine copper. The vein, which looks to be one of the best ever encountered in that region, will undoubtedly be tested during the coming summer. Negotiations are pending at present to secure an option on Section 17 and adjoining land. Mr. Shanahan owns part of Section 17 and some of the adjoining property is held by Mr. Dooling. Nothing is positively known about the width or even richness of the lode, as it has not yet been entirely uncovered, and prospects can only be judged from surface results.

COPPER IN 1900. The production of copper during the year just closed was in one sense a disappointment, says The Engineering and Mining Journal. The output of the United States was very large, but showed only a moderate increase over the total of 1899, notwithstanding the opening of new mines and the inducements for larger production offered by the continued great demand for the metal.

C. W. BLODGETT A BENEFICENT. GENERAL RAILROAD AGENT IS MARRIED AT WAUKEGAN, ILLS.

C. W. Blodgett, the popular and well-known commercial agent in Houghton for the Chicago & North-western road, got back Tuesday for a few days from a visit to Chicago. Some of his friends had heard shortly before his return that the genial agent had been married while away. When asked as to the fact and congratulations offered Mr. Blodgett admitted all. The news of the marriage will surprise many of his friends as but few of them had any thought as to the intentions of Mr. Blodgett in a matrimonial way. Mr. Blodgett's bride was formerly Genevieve Smith, one of Waukegan's (Ills.) loveliest daughters. The marriage ceremony took place at the home of the bride's parents on the evening of Jan. 2. Only immediate relatives and friends were present and the affair was kept strictly quiet. Mr. and Mrs. Blodgett will leave on Jan. 16 for a wedding trip to New Orleans and will remain there for the rest of the month. Mr. Blodgett is undecided whether he will make his home here or at Chicago, but thinks he will choose the latter place.

IS BRANCHING OUT. SMALL'S LAUNDRY ESTABLISHES AN OFFICE AT CALUMET.

Small's laundry is branching out in business. The latest move on part of Mr. Small was the taking of steps toward the establishment of a branch office at Calumet. William Foley of Houghton, who has resigned his position in the business office of the Houghton Mining Gazette, will have charge of the Calumet branch. He takes hold today. Houghton's thrifty laundry is steadily growing. A large force is now employed and the wagons collecting and delivering the laundry have, since the plant opened, been increased from two to four. There are twenty-three on the pay roll at present, where at first there were fourteen. On Monday "No. 4" wagon commenced to regularly collect the laundry and delivery of packages at the following places: Atlantic, Baltic, Tri-mountain and Copper Range on Monday and Thursday; Quincy, Arcadian and Hurontown on Tuesday and Friday; and Dollar Bay and Isle Royale on Wednesday and Saturday. Several of those places will find it an excellent service and one which will be appreciated. The laundry has seamstresses who sew up all torn garments, put on new neckbands, sew on buttons, etc. This "sprinkle" caught the eye of several of the ladies who have done so and in every case someone was always on hand to take them around and explain how "it's done." It can readily be seen by those who go through the laundry that the new methods and latest improved machinery in use will make all washables last twice as long.

The Chinamen of Houghton and Hancock, who had a monopoly on the laundry business before the Houghton steam plant started, are beginning to get anxious and are using every effort to hold their old position. Several of the Celestials have been around soliciting the past two or three days and have found it a hard matter to find any business to speak of. It is only a question of a short time when the prediction of Mr. Small, that of supplanting the fifty or seventy-five alien Chinese in the copper country by American workmen, will be carried out to the letter. The yellow fellows will have to go.

This season there is a large death rate among the children from croup and lung trouble. Prompt use will save the little ones from these terrible diseases. We know of nothing so certain to give instant relief as One Minute Cough Cure. It can also be relied upon in gripe and all throat and lung troubles of adults. Pleasant to take. Stafford Drug Co. H. N. Meloche, Ishpeming.

In pulmonary trouble, the direct action of BALLARD'S HOREHOUND SYRUP through the throat, chest and lungs, immediately arrests the malady by relieving the distress, cutting the phlegm and freeing the local and breathing organs. Price 25c and 50c. The Stafford Drug Co.

AFTER LAGRIFFE—WHAT? Usually a racking cough and a general feeling of weakness. Foley's Honey and Tar is guaranteed to cure the "grippe cough" and make you strong and well. The People's Drug Store.

THINKS STOCKS WILL BOOM. Paine, Webber & Co., Boston, yesterday advised its local offices that it thinks the decline has about run its course, and advises buying on all breaks; that the reaction is healthful and will bring on new buyers.

MONTANA SITUATION BETTER. Speculative circles at Boston are feeling much better now since it has developed that Senator Clark, and not F. A. Heinze, will control the legislature of Montana. F. E. Corbett, private secretary to Mr. Clark, was chosen by the fusion caucus for speaker of the house over the Heinze candidate John MacGinnis, vice president of the Montana Ore Purchasing company—

the vote of twenty-four to fifteen. The result assures Clark's control of the legislature and also his election as senator. Copper interests at Boston feel that the Amalgamated and other mining interests in that state will fare much better in Mr. Clark's care than they would be likely to if Heinze dominated the situation. Clark is a broad-gauged business man, the possessor of great wealth and extensively interested in industrial undertakings. That he can be depended upon to throw his influence against anarchistic and revolutionary legislation would seem to go without saying, according to The Financial News. It is the consensus of State street that the Amalgamated situation is beginning to clear.

QUOTATIONS IN 1899. The representative of The Mining Journal yesterday secured some figures from a well-known Hancock dealer in copper stocks which may be of some interest to those directly interested in the "coppers." The figures consist of the quotations on Jan. 1, 1899, for several mines in the copper country, Calumet & Hecla was then at 31; Franklin, 25 1/2; Quincy, 13; Atlantic, 27; Alouez, 5 1/2; Huron, now part of the Isle Royale, 8 1/2; Osceola, 47; and Tamarack, 15. The price of copper at that time was 16 cents a pound and at present it is 17. The Calumet & Hecla was getting out about 4,000 tons of copper per month.

WRITES OF THE MOHAWKITE. PROF. G. A. KOENIG DISCUSSES THE NEW MINERAL FROM A SCIENTIFIC STANDPOINT. The American Journal of Science for December contains a paper by Professor Geo. A. Koenig, of the Michigan College of Mines, on "Mohawkite" and the "stibio-domeykite" discovered by him in material submitted by the management of the Mohawk mine. He also describes some other minerals which the professor succeeded in forming in his laboratory. These compounds are of considerable economic and scientific interest. The professor is still at work on experiments in connection with them and is obtaining results which will be announced probably later in the year. Part of the paper referred to above which may be of interest to a number is as follows: "The knowledge of the existence of copper arsenides in the Keweenaw copper formation is as old as the mining operations in this region themselves. In the matter of occurrence there are two points to be noted: First, the arsenides are not found in the bedded deposits of native copper, but always in fissures intersecting the beds; second, the veins have thus far only been observed in the lower beds, near the foot of formation to the southeast. Arsenic, however, is found in the smelted and refined copper of all the mines. This element is a minimal amount in the copper from the great conglomerate of the Calumet & Hecla mine and becomes a maximum in the copper from the amygdaloid beds of the lower measures, on which Mohawk, Wolverine, Arcadian, Sheldon-Columbia, Isle Royale, Atlantic, Baltic Champagne, etc., are located. The Sheldon-Columbia location near the shore of Portage Lake in the village of Houghton, was the first mine which furnished copper arsenides, notably domeykite. The larger part of the specimens in collections come probably from this mine. White arsenic was found in a quartz vein in dark melanophyre, not far from the present Mohawk, but the existence of any copper rock was not suspected at that time at that point. Several masses of domeykite have been found in the drift on the Hancock shore of Portage Lake, very much decomposed, cuprite and arsenates being the chief products. In the spring of 1898 the opening of a new street in East Houghton, on the old Sheldon-Columbia location, disclosed a quartz vein containing some foliated domeykite. A few specimens were gathered and have come into collections. A similar vein has been known for years on the old Huron location, now the southern end of the Isle Royale property. Algodonite was found in the Pewabic mine, located on the Quincy amygdaloid, and which lies about 5,000 feet higher than the Isle-Royale amygdaloid. In developing the Mohawk property a cross vein at right angles to the copper-bearing amygdaloid was met in December, 1899. This cross vein was from twelve to fifteen inches wide when struck, but has since shown very varying dimensions. In a gangue of quartz and calcite the copper arsenides have been found in this vein more abundantly than in any of the locations mentioned above. Early in January 1900, Mr. Smith, superintendent of the Mohawk mine, sent me a solid piece weighing from four to five pounds, with the request to make a thorough investigation and report. On Jan. 18 I reported to Mr. Smith that the mineral substance which he had sent me was a new mineral species. I would call it mohawkite. Later on I received other material from Mr. Smith in which I identified an antimonial domeykite, for which I propose the name stibio-domeykite, and also some very peculiar intimate mixtures of mohawkite with white arsenic. It appears that the stibio-domeykite is the more prevalent of the arsenides, and not the mohawkite as was thought at the start. The vein has since been traced to the outcrop where it was found to form a ridge owing to the quartz in the gangue."

RED HOT FROM THE GUN. Was the ball that hit G. V. Steadman of Newark, Mich., in the Civil war. It caused horrible ulcers that no treatment helped for 20 years. Then Buckley's Arsenic Salve cured him. Cures cuts, bruises, burns, boils, felons, corns, skin eruptions. Best cure on earth. 25c. a box. Cure guaranteed. Sold by the Stafford Drug company.

J. A. Lambert of Rachel, N. C., writes: "I heartily endorse Foley's Kidney Cure. It does what you claim it will do, and there is nothing equal to it, and I thank you for the good it has done me." Access to substitute, The People's Drug Store. TABLET'S BUCKEYE PILE OINTMENT is the only remedy for blind, bleeding or protruding piles, indorsed by physicians; cures the most obstinate cases. Price 50 cents in bottles, 75c. The Stafford Drug Co.

We Mend Your Linen

Sew on buttons, put on new neckbands, etc. If you'll give us a chance we'll take such good care of all of your linen, you'll never miss the darning girl of the old home. Besides, our new methods will make all your washables last twice as long. Our employes are WHITE, not yellow. Wagons call anywhere.

SMALL'S LAUNDRY. PHONE 400.

TRY THE LaFlor de Sheridan, LA VINEDA, A HIGH-GRADE CIGAR. A CLEAR HAVANA CIGAR. Manufactured by JAMES W. SHERIDAN, 76-78 Wabash Ave., Chicago. M. C. SCULLY, SOLE AGENT FOR UPPER MICHIGAN, WISCONSIN and MINNESOTA. N. B.—We Handle a Complete Line of Cigars of all Kinds.

COPPERDOM BREVITIES. The Mining Journal, M. W. Youngs, representative, has established an office in one of H. J. Stevens' suite of rooms on the second floor of the DeWitt (postoffice) block, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

Ed LaClair was a Hurley visitor in Houghton yesterday. J. E. Reau of Marquette was a Hancock visitor yesterday. R. T. Looney of Houghton was an Ishpeming visitor again yesterday.

J. M. Hayden and W. F. Harlow of Ishpeming were Houghton visitors yesterday. Yesterday was a beautiful day at Portage Lake, a great change from the blizzard weather of Tuesday having taken place.

J. F. Jackson, engineer for the Wisconsin Bridge & Iron Works, returned to Houghton Tuesday night after an Eastern trip. A marriage license was yesterday issued by the county clerk to Walter Alex Liljequist and Miss Mary Pesonen, both of Kenton.

Owing to the illness of Miss Grace Cavan the usual weekly dancing assembly will not be given at the Hancock city hall tonight. Sheriff Wills will take Isaac Adolph, whose mind is deranged and who has been confined in the county jail since Jan. 1, to Newberry today.

The annual meeting of the stockholders of the Portage Lake National Bank was held Tuesday. No changes were made in the election of directors and officers.

Ralph Moore of Marquette, representative in the upper peninsula for the Remington typewriter, returned home yesterday after a business trip in the copper country.

The Y. M. C. A.'s general reception at the headquarters at Hancock last evening was a success in every respect. A large attendance of those interested in the welfare of the organization was present.

J. K. Brown of Hancock, master mechanic of the Hancock & Calumet railroad, got back yesterday from Cass City, Mich., where he was recently called owing to the serious illness of his mother.

The January term of the circuit court will open at the court house on Friday, Jan. 18. The sessions promise to be quite interesting owing to recent developments in the Miller fire conspiracy case.

A party of Hancock young gentlemen who spent their holiday school vacation with their people went back to college at St. Paul yesterday. They are Messrs. McDonald, Finn, Rourke, Scallion and Harrington.

The funeral of the late Clovis Tourangeau will be held from the house, Houghton, at 2 o'clock this afternoon. Rev. Mr. Moon, pastor of the Methodist church, will officiate. Burial will take place at Forest Hill cemetery.

Twenty-eight passengers changed cars yesterday at Mass City from the Copper Range train to the South Shore train for Ontonagon. The number was an unusually large one and shows the increasing travel over the Copper Range.

The Houghton county bar association will hold its annual meeting and banquet at the Douglass House, Houghton, tonight. All the prominent lawyers of the county and elsewhere who are members of the organization are expected to be present.

A regular monthly meeting of the Hancock common council was held at the village building yesterday afternoon. A good attendance of members was present and the regular routine of business was transacted. Nothing out of ordinary interest was done. A goodly number of bills were allowed.

On account of a slight mix-up in notes the representative of The Mining Journal made a rather amusing error in the article concerning the Michigan

ARTESIAN WELL WATER, CHOICE MALT AND HOPS AND KNOWING HOW TO BREW IT, MAKES THE SUPERIOR STOCK BEER. SOLD EVERYWHERE IN THE PUREST AND BEST MONEY CAN BUY. BOSC BREWING CO. KANSAS CITY, MO.

FIGHT ON IN THE HOUSE.

Opposition Crops Out Against the River and Harbor Bill.

MICHIGAN MEN DIVIDED.

Measure Attacked With Vigor by Mr. Corliss for Ignoring Great Lakes Deep Waterway Project.

SORENESS AMONG MEMBERS

Washington, Jan. 9.—The house today considered the river and harbor appropriation bill. Little progress was made.

In a bill carrying such vast sums for local improvements, many localities are bound to be disappointed and there is considerable soreness among the members who fail to get what they want.

Mr. Burton, chairman of the committee on rivers and harbors, who is in charge of the bill, made an elaborate explanation of its provisions, while several Western members assailed it for not providing for irrigation and reservoirs.

Mr. Burton discussed at some length the boundary line beyond which the federal government should not go in improvement works, local, private and municipal.

Mr. Burton discussed at some length the boundary line beyond which the federal government should not go in improvement works, local, private and municipal.

Mr. Burton discussed at some length the boundary line beyond which the federal government should not go in improvement works, local, private and municipal.

by that dams would not affect the lake levels at high water.

Mr. Corliss of Michigan denied that the committee had shown favoritism to particular localities and defied Mr. Corliss to particularize.

THREAT BY SMITH. H. C. Smith of Michigan remarked sarcastically upon the lack of harmony in the Michigan delegation, as a result of which, he said, he would at the proper time move to strike from the bill the appropriation for half a million for improvements on Detroit river according to Plan "A."

After remarks by Messrs. Newlands of Nevada and Richardson of Tennessee the house, at 5:05, adjourned.

COLONIAL POLICY AIRED.

SUPREME COURT HEARS FURTHER ARGUMENT IN THE PORTO RICO CUSTOMS CASES.

Washington, Jan. 9.—Upon the reopening of the United States supreme court today, R. F. Couderc, Jr., resumed his argument in the Porto Rican cases, continuing his contention that Porto Rico is not a foreign territory and hence it is incompetent for the government authorities to levy and collect duties on articles from Porto Rico to New York.

Before taking up his argument Mr. Couderc, in response to a question by Justice Brown as to whether a country can cease to be a foreign country and yet not be part of the United States, expressed the opinion that such intermediate condition might exist temporarily. In such cases, he said, there would still be a foreign element to be reckoned with and our assumption of authority would be military in character.

In case of acquisition, the dividing line was passed when the treaty of acquisition was signed and ratified. This, he asserted, had been done in the case of Porto Rico in the treaty of 1898. By the treaty Porto Rico became as much part of the United States as California had become by treaty proceedings subsequent to the war with Mexico.

Mr. Couderc then resumed his regular argument, taking up the question as to what part of the Constitution applies to Porto Rico, following his brief closely. He was subjected to a number of questions from the bench and obtained leave to file a supplementary brief, which, it is presumed, will reply to them.

Mr. Couderc was followed by Alphonse C. Hart, who spoke especially of the Armstrong case, in which the question involved is the collection of duty on goods shipped from New York to Porto Rico. He contended that the Constitution of the United States extends over every portion of the national domain, whether state, territory or district. He also argued that the president, being an executive officer, had no right to impose duties on commerce between Porto Rico and "other parts of the United States" by an executive order after the ratification of the Paris treaty. There was no such thing as divided sovereignty—half empire, half republic; half Spanish, half American.

H. H. Ward, counsel for Dozier, Smith & Co., laid especial stress upon the fact the provision of the Porto Rican law providing for the collection of duties is separate from the other parts of that law and that it is limited in operation in point of time to March 1, 1902. He characterized it as a makeshift to provide revenues for the island of Porto Rico and said it was, therefore, not entitled to the same favorable presumption it otherwise would have been. The provision was to his mind a plain violation of the Constitution.

Solicitor General Richards then began the presentation of the government's side of the controversy, giving especial attention to the effect of the ratification of the Paris treaty upon the relations of this country and Porto Rico. He contended that the power which is being exercised by the president and congress amounts to saying that ceded territory becomes, by the act of cession, an integral part of the United States to which the Constitution, of its own force, applies, placing the people, property and ports on an immediate equality with ours, also extending the constitutional limitations to such countries. If this is the case, said Mr. Richards, the treaty-making power, in acquiring territory, was necessarily limited to providing for the mere act of cession.

Mr. Richards argued that newly-acquired territory becomes, "not a part of, but a possession of the United States, territory belonging to the United States." He contended that the president has not the power to extend the limits of the United States, but that the legislative branch of the government may do so upon whatever terms it may see fit. He said the parties to the treaty both knew the location and condition of the islands acquired by the war with Spain and would not permit their incorporation into the United States and the application to them of those of our laws which the Constitution requires to be uniform throughout the United States.

Mr. Richards was about half concluded when court adjourned.

BIG ORDERS FOR ENGINES.

TWO RAILROADS CONTRACT FOR SIXTY-ONE LOCOMOTIVES.

Chicago, Jan. 9.—Forty new engines have been ordered from the Pittsburg Locomotive works by the Illinois Central road. The contract calls for the earliest possible delivery of thirty moguls, five ten-wheel "passenger" and five six-wheel "switchers." The order involves an expenditure of more than \$350,000.

The order is one of the largest given by any railroad in a long time, and the engine-building concern, working to its full capacity, expects to have most of the locomotives delivered by April 15. The moguls will tip the beam at 167,000 pounds in working order, 145,000 pounds being on the drivers. The cylinders will be 20.25 inches, the drivers 56 1/2 inches in diameter and the steam pressure 200 pounds.

The passenger engines will weigh 145,000 pounds, 116,800 pounds of this weight being on the driving wheels. The drivers will be 19 1/2 inches, the cylinders 69 inches in diameter and the steam pressure 200 pounds. The switch engines will weigh 118,000 pounds. It is said that most of the moguls will be pressed into service in the near future in this state, and that the switch engines will be used in the local yard work.

The Baltimore & Ohio Southwestern has given the same concern an order for twenty-one new engines, with the understanding that it be filled as soon as possible. In building the sixty-one engines for the Illinois Central, the locomotive concern will use about 19,000,000 pounds of material.

BOXER FORTRESS TAKEN. WALTERS REPORTS ON THE RECENT GERMAN VICTORY.

Berlin, Jan. 9.—The war office tonight received the following from Count von Waltersdorff, dated Pekin, the 8th: "The fortress Ho Pa, which was stormed the 3d, was the headquarters of newly organized bands of Boxers. Over a thousand men held the mission district and they were planning a march on Yen King and Chau Ping."

WILL FIGHT PIPE TRUST.

Carnegie to Build a Big Plant at Conneaut, Lake Erie.

TO BE LARGEST IN WORLD.

Works Will Stretch Over a Mile of Lake Front and Will Involve Expenditure of Many Millions.

COMBINE TO HAVE A RIVAL.

Pittsburg, Jan. 9.—President C. M. Schwab announces that the Carnegie company will erect the largest pipe plant in the world. It will give serious opposition to the National Tube company, the \$90,000,000 combine now controlling the pipe trade.

For over a year the Carnegie company has contemplated, according to President Schwab, entering into lines of manufacture other than those in which it has been engaged hitherto, and the first step in carrying out the purpose is to be taken at once by the establishment of the largest pipe and tube manufacturing plant in the world at Conneaut Harbor, O., which is the Lake Erie terminal of the Carnegie-Pittsburg, Bessemer & Lake Erie railroad, 153 miles from Pittsburg.

BUYS A BIG TRACT. The company has purchased 5,000 acres of land immediately east of Conneaut harbor docks, and a large part of this tract will be utilized as a site for the tube works. It is the expectation to rush shipments during the lake navigable months—April to December—and thus reduce transportation charges to not over one-third, or even one-fourth of the rates now charged for rail shipments. The Bessemer railroad at present runs hundreds of empty cars daily to Conneaut, and with the works on the lake shore completed the road will have a back haul of coal and coke, the transportation of which will virtually cost nothing. From Conneaut water communication is sure to New York, Boston and other Eastern points, via the Erie canal; also the large cities on the Great Lakes, including Chicago, Milwaukee, Cleveland, Buffalo and other points.

Said President Schwab: "The works will stretch over a mile of the lake front and will be the most extensive and complete plant of its kind ever erected in the Carnegie combine. In the scale of pipe and tube manufacturing from the ore to the finished product, the general system of operation will be continuous, the ore being unloaded from vessels at one end and being worked through the successive stages of manufacture from ore to direct line to the finished pipe and tubing at the other end. Electric power will be principally employed for running machinery. The blast furnaces to be built will probably exceed in size and capacity the two great stacks now being erected by the Carnegie company at Rankin. The investment exclusive of the ground will reach about \$12,000,000."

BUILDING COAL ROAD, TOO. The Carnegie company is also going into the coal trade. Work began today on the construction of the Monongahela Southern railroad, which is to be built from a point between Homestead and Duquesne southward into the Washington county coal fields. It is estimated that the line, which will be 100 miles long, will cost about \$5,000,000.

WALL STREET STOCKS. New York, Jan. 9.—After a short preliminary contest today with the reactionary forces, the stock market resumed its recent bull characteristics. There was prompt and striking reaction to the demagogic strength of the bull leaders finding no difficulty in running the prices up by rapid stages several points in any stock in which they began bidding for shares.

The influence of these tactics was so strong as to sustain an influence on the rest of the market that the interests long on stocks had no difficulty in marketing enormous holdings without notable effect on prices. The bears who sold the market yesterday were forced to cover in some disorder. The sustained strength in the market cannot be entirely accepted without making due allowance for the persistence of the large short interest at all the present stages of the rise.

Notwithstanding the repeated backsets of the bears, they were still active today. They effected some declines at the opening, aided by the lower range of prices for Americans in London and by the acute weakness of a few stocks, especially National Tube on the announced projects for building a great tunnel by the Carnegie interests. This caused a break of 4 points in National Tube common and of 1 1/2 in preferred. The Rubber stocks fell 2 1/2 for common and 3 for preferred, and there was a drop of 3 1/2 in Lake Erie & Western.

Excepting Rubber, there were good rallies in all these, in sympathy with the general strength developed. Missouri Pacific was again easily the leader of the market and was lifted in the afternoon 5 1/2 points more above last night's level. The so-called Gould Southwesterns all advanced from 2 to 2 1/2, while Manhattan and Western Union also gained 3 and 2 1/2 points, respectively. Also conspicuous in the long list of stocks that advanced were Louisville & Nashville, with a rise of 3 1/2 points; Delaware & Hudson, 4 1/2; Ill-

WILL FIGHT PIPE TRUST.

Carnegie to Build a Big Plant at Conneaut, Lake Erie.

TO BE LARGEST IN WORLD.

Works Will Stretch Over a Mile of Lake Front and Will Involve Expenditure of Many Millions.

COMBINE TO HAVE A RIVAL.

Pittsburg, Jan. 9.—President C. M. Schwab announces that the Carnegie company will erect the largest pipe plant in the world. It will give serious opposition to the National Tube company, the \$90,000,000 combine now controlling the pipe trade.

For over a year the Carnegie company has contemplated, according to President Schwab, entering into lines of manufacture other than those in which it has been engaged hitherto, and the first step in carrying out the purpose is to be taken at once by the establishment of the largest pipe and tube manufacturing plant in the world at Conneaut Harbor, O., which is the Lake Erie terminal of the Carnegie-Pittsburg, Bessemer & Lake Erie railroad, 153 miles from Pittsburg.

DEATH OF A CONGRESSMAN.

Peterboro, N. H., Jan. 9.—Congressman Frank G. Clark died tonight, of quick consumption. He had been a candidate for United States senator to succeed Mr. Chandler, but withdrew four days ago.

PRESIDENT ON THE MEND.

WASHINGTON, Jan. 9.—At 10 o'clock this morning Secretary Cortelyou reported that the president had passed a very comfortable night and his case was yielding readily to treatment. No unfavorable symptoms have appeared.

Later—the president has had a restful day and his case is progressing favorably. Dr. Rixey is satisfied with the manner in which the gripe is responding to the treatment. Tonight it was said at the White House that the president has had no fever today and is steadily improving.

SALT SAVES NEVILLE.

A salt solution has been administered to Representative William Neville of Nebraska, who was taken sick in this city a week ago with hemorrhage of the lungs. In three days he had lost four quarts of blood, and his life was despaired of. Dr. W. Wayne injected three pints of salt solution into the patient's cellular tissues Saturday. The patient revived, and on Monday two quarts more of the solution were administered. Dr. Wayne said tonight that unless Mr. Neville should suffer another severe hemorrhage he would recover. Mr. Neville delivered sixty speeches in thirty days, and near the close of the recent campaign ruptured an artery in his left lung.

DECLARES HIS INNOCENCE.

ALLEGED BY CAPTAIN KING HE HAS BEEN VICTIMIZED. Fort Dodge, Ia., Jan. 9.—Dr. Wade King today received a telegram from Captain Cyril W. King, his son, who is in jail on warrants, Northern Territory, \$15,000; Southern Territory, \$14,500; and soft Southern, \$13,000.

CHICAGO GRAIN MARKETS.

Chicago, Jan. 9.—In wheat today the market was not as broad and the volume of business smaller than of late, but the undertone was none the less nervous. Fluctuations were frequent and within 1 1/2 range. January closed 1/2 lower and May the same. The start was weak, with local operators the principal sellers, the decline being the main factor. At Liverpool, futures were down 1/2 penny, with spot unchanged. Several large commission houses purchased freely at the decline, as did professionals, and shorts covered, resulting in a cent advance. The Argentine news was considered bullish and helped to bring about the upturn. The clearings were liberal, at 567,000 bushels, and the seaboard reported fifteen boatloads accepted. Weakness at Minneapolis was due of the late bear influences and induced local selling on a more aggressive basis than for some time.

There was a good, active trade in corn, with a large volume of business, particularly early in the session. The feeling was a little unsettled, but firm on the whole, the close showing January unchanged, February steady and March 1/2 higher. The start was easier with wheat, and on lower cables and better acceptances from some sections of the interior. The offerings were liberal, especially of May. At Liverpool spot was steady to 1/4 penny lower, with futures steady to 1/4 lower. Professional general buying, the demand being supplied by commission houses and longs. Thirty boatloads were taken on the coast.

Oats were active, but the trading was not as large as of late. The market opened 1/2 lower, advanced 3/4 and receded, closing steady to 1/4 higher. The rally was in sympathy with corn and the break at the last because of the same influence.

The leading futures ranged: —May Wheat— Opening, Highest, Lowest, Closing. 77 1/2 78 1/2 77 1/2 77 1/2

—May Corn— 28 1/2 29 1/2 28 1/2 28 1/2

The movement of flour and grain was: Receipts, Shipments. Flour, barrels, 113,000 55,000

Wheat, bushels, 215,000 25,000

Corn, bushels, 488,000 127,000

Oats, bushels, 533,000 302,000

BOSTON COPPER QUOTATIONS.

The closing prices of the Boston copper market yesterday, as furnished by Paine, Webber & Co., Marquette, Mich., were as follows: Advance 10 1/2 @ 10 3/4; Arc 17 1/2 @ 18; All 3 1/2 @ 3 3/4; Arn 4 1/2 @ 5; Alt 2 1/2 @ 2 3/4; Baltic 2 1/2 @ 2 3/4; B & M 3 1/2 @ 3 3/4; B & W 7 1/2 @ 8; C & H 8 1/2 @ 9; Cont 2 1/2 @ 2 3/4; Cop Rg 3 1/2 @ 3 3/4; Frank 17 1/2 @ 18; Isle Roy 37 @ 38; Mass 12 1/2 @ 13 1/2; May F 2 1/2 @ 2 3/4; Mex 2 1/2 @ 2 3/4; Mich 5 1/2 @ 6; Old Col 3 1/2 @ 4; Old Dom 3 1/2 @ 4; Ore 1 1/2 @ 1 3/4; Par 4 1/2 @ 5; Quincy 17 1/2 @ 18 1/2; R 1 1/2 @ 1 3/4; Amal 9 1/2 @ 10 1/2; S F 6 1/2 @ 7; Tam 2 1/2 @ 2 3/4; Tri-M 2 1/2 @ 2 3/4; U S 1 1/2 @ 1 3/4; V 1 1/2 @ 1 3/4; W 1 1/2 @ 1 3/4; Woly 4 1/2 @ 5; Wrand 1 1/2 @ 1 3/4; E 1 1/2 @ 1 3/4; Bing 1 1/2 @ 1 3/4; Coch 1 1/2 @ 1 3/4; U S M 9 1/2 @ 10; Cent Erka 2 1/2 @ 3.

BADGER SOLGONS ORGANIZED.

Madison, Jan. 9.—The Wisconsin legislature organized at noon today. J. J. McGilvie of Black River Falls was elected president of the senate and George H. Ray of La Crosse speaker of the house. The governor's message will go to the legislature tomorrow.

TODAY'S WEATHER.

Washington, Jan. 9.—The following is the weather bureau's forecast for Upper Michigan: Occasional snow.

PHILIPPO FORTS TO BE CLOSED.

STEPS TAKEN TO MORE EFFECTIVELY PREVENT COMMUNICATION BY THE INSURGENTS.

Manila, Jan. 9.—The military government is considering the question of closing certain ports in the southern islands in order to prevent more effectively communication between the insurgents. The port of Ubay, Bohol island, already has been ordered closed.

CHANGE IN JUNTA CHIEFS.

London, Jan. 9.—Dr. Apacibio, the Filipino leader, arrived here yesterday from the United States and today proposed to Paris. He is expected to replace Senor Aguinaldo, Aguinaldo's agent here. Dr. Apacibio was formerly chairman of the Philippine junta at Hong Kong, and it is reported that Aguinaldo will succeed Apacibio at Hong Kong.

RESOLVES FOR THE REBELS.

Jefferson City, Mo., Jan. 9.—A resolution was adopted today by the Missouri house of representatives memorializing congress to allow the Philippines to establish a government of their own.

CONGRESSMEN AT WEST POINT.

WORKING AT THE ACADEMY INVESTIGATING THE HAZING INQUIRY COMMITTEE.

West Point, Jan. 9.—The congressional committee investigating the charges of hazing at the West Point academy arrived this afternoon and were met with military honors and a salute of seventeen guns. The chief witness examined was Colonel Mills, superintendent of the academy. He gave the committee a general idea of the workings of the academy and the rules and regulations governing. The witness covered during the testimony before the military court of inquiry on Dec. 29 last, after which the committee went through the barracks and inspected the quarters of the men. At the gymnasium, Herman Koehls, the swordmaster and instructor in gymnastics, explained the exercises through which new-comers are required to go. The committee then passed through the cadet commissary, the workings of which were thoroughly explained. The congressmen watched the proceedings in the mess hall with interest and asked questions of the cadets in charge of the several tables.

TRIBUTE LEVIED ON VICE.

HOW AN ENORMOUS CORRUPTION FUND IS COLLECTED IN NEW YORK BY TAMMANY HALL.

New York, Jan. 9.—Startling disclosures regarding the system of black mail levied on vice and crime in this city have been made by a man who has long had prominence as a successful gambler. His story, which is in the nature of a voluntary confession, has been told to W. M. K. Olcott, former district attorney. Proofs have been furnished and more will be forthcoming, if demanded.

It is computed that a corruption fund of \$5,000,000 was collected last year. Of this vast sum one-half was the result of the levy made upon gambling houses and kindred establishments. Among his associates the man who has made the revelations to Mr. Olcott has been respected as one whose word is never to be doubted.

He was in business in New York for many years, but recently quit, rather than longer submit to the extortion and blackmail which had month after month become a heavier burden. This man sold his gambling house for much less than he believed it to be worth. He is now in position to bid defiance to those who so long preyed upon him, and is anxious to obtain revenge. This he freely admits.

He does not fear those whom he has exposed, and he stands ready, so he has told Mr. Olcott, to expose the men who have robbed him. He has given names, and he has surprised Mr. Olcott with the proofs which he possesses. It has not yet been determined what final use will be made of the information which he has given.

Not long ago the Tammany anti-vice committee, of which Lewis Nixon is chairman, obtained possession of facts which proved that at least 100,000 were collected in the form of blackmail from the gambling interests last year. Mr. Nixon was both astonished and shocked by the condition of affairs, which was so much worse than he had believed existed.

By the confession made to Mr. Olcott and other facts which have been established, it is now shown that the Tammany committee with its estimate fell far below the true aggregate of the amount of blackmail.

So exact is the system of extortion in operation that the commission which assesses, collects and divides the blackmail funds, knew in advance just what the profits for the year would be. This city was blocked off into districts, and a levy was made upon each for a given sum. The money was obtained by compelling the violators of the law to pay in proportion to their earnings. The entire amount was divided into 28 parts for the purpose of distribution. Of these parts, four went to a man whose consent had to be obtained before the system could be put into operation. He simply pocketed his share and looked happy.

Others were compelled to accept

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known candy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxatives and present them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and without irritation to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its action on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the most delicate and purely are obtained from natural and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get the beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

A MILLIONAIRE'S HOBBY. Charles W. Fullerton, the Chicago millionaire who died last week, was a man who would stop at no expense to defeat those who he thought were trying to impose on or cheat him, says the Inter-Ocean of the city.

699 four years ago in building a private water works on his Highland Park estate because the town authorities over- charged him \$7 on his water bill.

The summer home of the Fullertons at Highland Park is one of the hand- somest in the neighborhood. The grounds contain many acres along the Sheridan drive, and it was the hobby of Mr. Fullerton to raise flowers and vege- tables. To carry on this extensive gardening much water was necessary.

Mr. Fullerton had a veritable network of pipes, with tents running a few inches below the surface throughout the garden, so that the garden was never dry, and plants and vegetables grew like magic. Water charges were naturally large, but they were paid without a murmur until Mr. Fullerton became convinced that he had been overcharged.

For four years these private works have supplied abundant water to the Fullerton gardens. True, the interest on the money invested in the system amounted to more each year than the water-bills had in former years, to say nothing of the salary of the engineer, most of fuel and other expenses, but Mr. Fullerton had carried his point, and he was willing to pay for it. He had de- prived the town of an illegitimate reve- nue and had shown the town authori- ties that he could not be trifled with, and that was worth \$25,000 to him.

Our preparations for the Holidays are now com- plete. Our foreign and domestic purchases have all arrived and been placed on sale; and altogether we exhibit an assort- ment which is note excelled in Variety and Richness any- where upon this Continent.

AT THE HEAD. Charlton, Gilbert & Demar Do a Big 1900 Business.

The well known firm of architects Charlton, Gilbert & Demar, with offices at the Soo, Hancock, Marquette and Milwaukee, had an unusually fine business in the year just closed. In a recent issue of the Milwaukee Sentinel there was given a list of 1900 Milwaukee architects, and it was ap- peared the statements of the aggregate, in dollars and cents, of the work which they had done both in and outside of the city during the year 1900. On the totals of Milwaukee and outside work Charlton, Gilbert & Demar led the list with \$400,000 in their credit al- though they made no statement of their Cream City work, their attention being directed particularly to the out- side field. At the end of 1899 the firm stood in the second place.

Charlton, Gilbert & Demar are prob- ably the best known architects who operate extensively on the upper peninsula. They have prepared plans for many of the finest buildings in this section and their work has been uni- formly of a high grade of originality and architectural skill. Several of the most highly respected buildings in Marquette have been erected in pursuance of their designs while by far the most preten- sive group of buildings which the city will boast for many years to come will be completed in accordance with their plans, namely the ward-high-mountain training schools group west of Marquette, nearly opposite to the old high school on Ridge street and of which one building, the Froebel school, is about to be occupied. The firm's many friends throughout this section will be greatly pleased to learn that it led the list of Milwaukee architects in 1900 and will wish it a more successful run of business in the year which has just been opened.

AND IT CAME TO "PASS." "Exchange of courtesy," which in the parlance of every well regulated railway passenger office, means nothing less than a pass over certain sec- tions of the line or the whole system, as the case may be, adds much work to the men of rates and destinations, but it is not frequent that acknowl- edged is made in quite such charac- teristic form as that of the passenger department of the Canadian Pacific.

There are some who pass the bottle, there are some who pass away, or pass us by upon the street; we pass the time of day; and some may pass a wormy plague, or some disease, or some one may pass a jack-pot, or an ac- (up on the quiet).

There are those who, in their anger make a quick pass at a foe—others pass examinations, sometimes when they do not know.

There are others who pass opinions in their self-conceit and pride, there are those—both priest and levite—those pass by the other side.

There are those who pass their rivals in all struggles here below, there are others who pass people to the circus or the show.

But the hose of our passes is the one that passes me from the shore of old Atlantic plumb to the Pacific sea.

Storied passes have been fought for by the legions fierce of old—and our boys are storming passes in the Africa's land of gold; and the passing war is bitter, may it gain that perfect peace (that which passes understanding when earth's loveless wars shall cease).

For I love not warlike clamor, though for some it hath a zest—and to me the pass Pacific surpasses all the rest.

A MILLIONAIRE'S HOBBY. Charles W. Fullerton, the Chicago millionaire who died last week, was a man who would stop at no expense to defeat those who he thought were trying to impose on or cheat him, says the Inter-Ocean of the city.

699 four years ago in building a private water works on his Highland Park estate because the town authorities over- charged him \$7 on his water bill.

The summer home of the Fullertons at Highland Park is one of the hand- somest in the neighborhood. The grounds contain many acres along the Sheridan drive, and it was the hobby of Mr. Fullerton to raise flowers and vege- tables. To carry on this extensive gardening much water was necessary.

Mr. Fullerton had a veritable network of pipes, with tents running a few inches below the surface throughout the garden, so that the garden was never dry, and plants and vegetables grew like magic. Water charges were naturally large, but they were paid without a murmur until Mr. Fullerton became convinced that he had been overcharged.

For four years these private works have supplied abundant water to the Fullerton gardens. True, the interest on the money invested in the system amounted to more each year than the water-bills had in former years, to say nothing of the salary of the engineer, most of fuel and other expenses, but Mr. Fullerton had carried his point, and he was willing to pay for it. He had de- prived the town of an illegitimate reve- nue and had shown the town authori- ties that he could not be trifled with, and that was worth \$25,000 to him.

Residents of Highland Park were as- tounded one day to see preparations for the building of an independent water works begun on the Fullerton estate on the lake shore. A large water main was laid far out into the lake, and a high tower erected a little distance back from the bluff. A complete sys- tem of mains and smaller pipes was laid, reaching every part of the estate. A dynamo was installed in the water- tower to furnish power to run pumping machinery, the extra space in the structure finished off into billiard and clubrooms, and the tower was given an ornamental appearance as possible. Then an engineer was installed, and the town authorities were notified to disconnect their water mains from the Fullerton property.

GROWTH OF THE LAKE COMMERCE.

Its Marvelous Development During the Latter Part of the Last Century.

In an article dealing with some of the remarkable developments of the Nineteenth century the Marine Review of Cleveland treats as follows of the growth during the last fifty years of the lake traffic:

SEVENTY years ago the woodsman's axe had not felled a single tree along the shores of the greatest of them—the majestic Lake Superior. Indeed that same condition was literally true fifty years ago. The development of lake commerce dates from the time that iron ore was discovered in the upper peninsula.

breakfast and the graceful, aristocratic Mr. Doherty talking in the most refined way to the court. As he laid down a doctrine of law, O'Connell, with marked contempt, cried with his mouth full of bread and milk: "That's not law!"

Again and again he interrupted, but always the decision of the judges up- held him and affirmed the error of his antagonist. He was still more success- ful when the witnesses fell into his hands for cross-examination. They told, or tried to tell, the same story upon which the former prisoners had been convicted, but O'Connell so badgered, tripped and terrified them

We Are Selling

ALL HEAVY GOODS

AT A BIG REDUCTION.....

TO MAKE ROOM FOR OUR ...NEW SPRING STOCK...

F. BRAASTAD & CO.

PLEASING TO ALL.

The cook likes to prepare our meats. He knows they will have the right taste and be satisfying. He likes to cook them, because he knows you will enjoy them. The cuts we serve you will make you happy—nice meats before cooked, excellent when served—that's our motto.

T. Hughes & Son. General Merchandise and Meat Market.

I. E. SWIFT CO. ISHPEMING AND HOUGHTON

CARRY THE ONLY STOCKS OF HEAVY HARDWARE AND MINING SUPPLIES IN THE UPPER PENINSULA. FULL ASSORTMENT AT BOTH PLACES. SHELF HARDWARE, STOVES AND TINWARE AT HOUGHTON.

Quality best and prices right. Estimates cheerfully furnished on all goods. Look us up when in the market and save accumulating dead stock. We carry the stock and stand the declines for you.

... No Water! ...

Frozen pipes again! Now, don't swear, but send for us by mail, telephone or messenger instantly, and get the "trouble" remedied in quick order. We are "yours to command" for hurry jobs of plumbing, gas or steam fitting and you may rest assured the work will be well done, no matter how large or small your requirements may be. Modern sanitary systems of plumbing installed at reasonable rates.

WHEN IN DOUBT, TRY STRONG AGAIN! Sexine Pills. They have stood the test of years and have cured thousands of cases of Nervous Diseases, such as Debility, Dizziness, Sleeplessness and Variocoele, Atrophy, etc. They clear the brain, strengthen the circulation, make digestion perfect, and impart a healthy vigor to the whole being. All druggists and chemists are checked for genuineness. Unless patients are properly cured, their condition often worsens them into Insanity, Consumption or Death. Mailed sealed. Price \$1 per box; 6 boxes, with iron-clad legal guarantee to cure or refund the money, \$5.00. Send for free book. Address: Sold only at People's Drug Store, Marquette.

Ishpeming and Vicinity.

CAPTAIN WALTERS RESIGNS. HE SEVERES HIS CONNECTION WITH THE BOARD OF PUBLIC WORKS AFTER A LONG AND VALUABLE SERVICE.

Captain Thomas Walters' resignation as a member of the board of public works will be referred to the common council by that body this evening. It would have been acted on last night had a quorum of the aldermen assembled to transact business. As Captain Walters urgently desires that he be released from all duties of a public nature it will doubtless be accepted. It is understood that ill health is the cause of its being tendered. Captain Walters has served on the board for some ten years. He has been a most valuable member of that body and his loss will be greatly regretted.

BACON'S SUCCESSOR NAMED. J. L. GREATSINGER OF DULUTH TO SUCCEED D. H. BACON AS PRESIDENT OF THE MINNESOTA IRON COMPANY.

A short time ago the announcement of D. H. Bacon's resignation as general manager of the Minnesota Iron Company's affairs was made in this department of The Mining Journal. This came in the nature of a surprise to Mr. Bacon's old friends and acquaintances on this range, though all were pleased that since he is about to leave that corporation's employ it is to take a more lucrative position.

The Duluth papers of recent date contained the announcement that J. L. Greatsinger, president of the Duluth and Iron Range Railway company, had been chosen to succeed Mr. Bacon. It is said that this selection caused no little surprise on the range where the Minnesota people are operating mines. The names of at least three or four very prominent mining men were mentioned as having an eye on the place, but Mr. Greatsinger was not spoken of in the connection. Mr. Bacon's successor is credited with being an excellent man, and although much of his work has been in railroading it is believed he will give the best of satisfaction in his new position. Mr. Greatsinger is a self-made man. Thirty years ago he began at the bottom round of the ladder, taking a position as fireman on a locomotive. The change takes place today.

WERE MARRIED LAST NIGHT.

Joseph A. Thoney and Sarah McKnight, both of Michigamme, were married at 8 o'clock last evening at the home of the bride's uncle, J. C. McCutcheon, 176 Bluff street, by Rev. A. P. Atwell, pastor of the Episcopal church. Rose McDonald of Marquette was bridesmaid and Harry Bending, from the same city, was best man. The bride was attired in a brown traveling suit and carried a bunch of American beauty roses. Miss McDonald was dressed in a white gown trimmed with lace and she also carried a bouquet. The house was decorated for the event with flowers and plants. There was an arch of ground pine and carnations under which the bridal party stood while the ceremony was being performed. After the marriage the party adjourned to the Nelson House, where supper was served. The dining room was decked in flowers, smilax and ferns, and looked very beautiful. From 9 o'clock until a late hour the guests feasted, then departing for their homes. About forty guests attended the wedding, many of whom were from Marquette and Michigamme.

BE SURE that your blood is rich and pure. The best blood purifier, enricher and vitalizer is Hood's Sarsaparilla. Be sure to GET HOOD'S.

The ladies of the county can now get their tailor-made garments at J. H. Mortley's. An expert is in charge of the new department. (1-4-1f)

You will never get the small-pox if you drink pure water. (1-3-1f)

Such little pills as DeWitt's Little Early Risers are very easily taken, and they are wonderfully effective in cleansing the liver and bowels. Stafford Drug Co. H. N. Meloche, Ishpeming.

DAHLSTROM HAS RESIGNED. N. J. ROGERS SUCCEEDS HIM IN THE MANAGEMENT OF THE BROKER'S OFFICE.

Gus Dahlstrom, who for the past six months has had charge of the brokerage office of A. R. Jones & Co. of Chicago, has resigned his position and N. J. Rogers is now conducting the business. Friends of Mr. Dahlstrom have known of his intention for some time, and he has frequently expressed a desire to engage in another business. On the first of the month he presented his resignation to take effect as soon as arrangements could be made to turn the office over to his successor. It was with great regret that it was accepted. During his management the business has greatly increased. Mr. Dahlstrom was very popular with his customers and for this reason the firm was desirous of keeping him in its employ, but he could not be induced to remain. What interest he held in the business was purchased by Lester Laidley of Marquette, who has charge of A. R. Jones & Co.'s operations in that city. Mr. Laidley will run the office in this city in connection with the Marquette concern. N. J. Rogers will be his assistant manager here, and will look after the Ishpeming business.

Mr. Dahlstrom has been with the company since last July and worked here with C. F. Hampton, who left to accept a position with the same concern at Milwaukee. When he left Mr. Dahlstrom took charge of the business and has managed it since.

There was a rumor in circulation here yesterday to the fact that the Laidley Commission company would have charge of all the affairs of A. R. Jones & Co. on the upper peninsula. When asked to confirm it, Mr. Laidley replied that at this time he would rather not speak of the matter. "I have been appointed manager of the office at Ishpeming and will have charge of the business at this end of the line. From now on all sales will be made here, and all checks in the afternoon and checks will be mailed from the Marquette office before the close of the business. This will save customers the inconvenience of waiting two or three days for their money, as is the case when the accounts are kept in Chicago. We are going to open an office at the 500 in a month or so, of which I shall also have charge. We hope to do a large business down there."

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness, and all diseases of the throat, chest and lungs are surely cured by it. Call on the Stafford Drug company and get a free trial bottle. Regular size 50c. and \$1. Every bottle guaranteed, or price refunded.

MISTAKE IN RECORDS.

A mistake was discovered yesterday in the death rate as published in The Mining Journal for the year 1897. The rate as given was .004 per cent, or, in numbers, fifty deaths. This is all the recorder's books show, but a list of deaths had been kept only from August of that year, or for but five months of the year. The number of deaths for the whole year is much greater, but what the rate was cannot be ascertained, as no record appears for the first seven months of the year. The same mistake was made in the Neegaunee report, as that city commenced keeping a record at the same time Ishpeming did.

STOPS THE COUGH AND WORKS OFF THE COLD.

Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

Such little pills as DeWitt's Little Early Risers are very easily taken, and they are wonderfully effective in cleansing the liver and bowels. Stafford Drug Co. H. N. Meloche, Ishpeming.

ISHPEMING IN BRIEF.

Thomas P. Lang of Marquette was in the city Tuesday.

Thomas E. Kelly of Menominee was a visitor in the Hematite City yesterday.

Thomas J. Shirk, whose home is in Marquette, was here Tuesday on business.

Svend Johnson is confined to his home, suffering from a severe attack of the grip.

V. F. Engstrom of Calumet spent a few hours in Ishpeming Tuesday transacting business.

T. W. Smith, assistant superintendent of the South Shore line, is spending a couple of days in Duluth.

A marriage license was issued yesterday to William J. Hill and Elizabeth E. Cardew. Both live at the Winthrop.

C. F. Sundstrom, who resides in Michigamme, was in this city for a few hours yesterday looking after business matters.

James Nesbitt, who for the past two weeks has been visiting friends and relatives in Neegaunee and Ishpeming, has returned to his home in Calumet.

The clerks in S. Johnson & Co.'s store drove out to the Ropes gold mine Tuesday evening, where they were entertained by Captain Thomas Robbins. A turkey supper was served.

This is the week of prayer in the Protestant churches all over the country. In this city services are being held every night in all the churches, special services having been arranged.

Mrs. William Richard and her two children, who have been visiting with Mrs. Richard's mother, Mrs. George Martin, Sr., for the past three months, will return in a short time to their home in Colterville, Cal.

William Munroe, representing W. H. Edgar & Co. of Detroit, who are among the largest sugar brokers in the country, was in Ishpeming Tuesday calling on the merchants. While here he disposed of a carload of sugar.

Jesse Coogan of Milwaukee, head of the firm of Coogan & Strohenke, of that city, was in town for a few hours yesterday examining the heating and power plant in the manual training school. The plant was placed in the building by his firm.

Rev. Carl Schuch of St. Joseph, Mo., could not accept the call from the Bethaney Swedish Lutheran church owing to sickness in his family. Rev. J. V. Isaacson, who comes from Medford, will arrive here Feb. 24 to take charge of the parish.

Eight members of the local camp of the Modern Woodmen of America will attend a county convention at Marquette this afternoon for the selection of two delegates to represent the county at the state convention to be held early next month at Jackson.
