BOER EYES ON NATAL.

Kitchener Reports a Concentration in Force Near the Border.

SECOND INVASION FEARED.

Meanwhile British Offensive Operations Have Ceased Preparatory to Final Effort in the Field.

HARD FIGHT IN TRANSVAAL

London, Jan. 17.—The Evening Standard says it hears that a number of Boer prisoners have escaped from Ceylon.

PEACE ENVOY A PRISONER.

Standerton, Transvaal, Jan. 15, via Cape Town, Jan. 17.—Boer women, brought in by the military, report that William Steyn, who was appointed a delegate of the Boers here to ask the fighting Boers to surrender under Lord Kitchener's proclamation, was made a prisoner and sent to Pretorius, accused of high treason. The Boers are still active around Standerton.

TRANSVAALERS CONCENTRATING

London, Jan. 17.—Lord Kitchener, telegraphing from Pretoria under date of Wednesday, says the concentration of 3,000 Boers at Carolina (Transvaal) is reported; that Colville's mobile column was engaged near Van Tondershoek, the Boers being driven off with heavy loss, and that 200 Boers entered Aberdeen yesterday and looted stores, but retired on the arrival of a hundred British infantry.

MARTIAL LAW EXTENDED.

Cape Town, Jan. 17.—Martial law has now been proclaimed in every part of the Cape Colony except in districts of Cape Town, Simonstown, Wynberg, Port Elizabeth and East London. It has also been proclaimed in Tumbuland and Griqualand East and East and West Pondo land. It has been proclaimed unlawful for any person in the Cape peninsula, except officials and regular or irregular troops, to possess arms and ammunition or other.

WEYLER PLAN IN OPERATION.

Pretoria, Jan. 16, via Cape Town, Jan. 17.—Boer families and their stock are being systematically herded into concentration centers from all over the country. They are kept in camps and fed. Those who surrender voluntarily are supplied with full rations and those whose husbands are still in the field are provided for on a reduced scale, which is raised when the husbands are being systematically herded. Every opportunity is offered to the refugees to work for pay and for special privileges. Prominent burghers who have surrendered are allowed to visit the camps in order to ascertain the facts as to the treatment.

BOER ATTACK FRUSTRATED.

Standerton, Transvaal, Jan. 15, via Cape Town, Jan. 17.—Colville's mobile column, marching from New Denmark to Viaklaagte, was attacked yesterday by a thousand Boers divided in two forces of 500 each. The Boers made an attempt on the baggage, the other on the cavalry, constituting the rear guard. The cavalry was compelled to retire until protected by four companies of rifles, hidden behind a ridge, who were waiting with bayonets. The Boers then made a speedy retreat, leaving several dead and wounded from the heavy British fire. Eventually both attacks were repulsed, the Boers losing heavily. The British were not able to pursue the Boers owing to the necessity of protecting their baggage. Their casualties were one killed and fifteen wounded.

STIRRING APPEAL BY BOERS.

London, Friday, Jan. 18.—Lord Roberts, who was entertained privately at a dinner last evening by the United Service club, the guests including the Prince of Wales, the Duke of York, the Duke of Cambridge and some three hundred officers, has issued from the war office a stirring appeal to the country for prompt response to the call for 5,000 yeomanry, whose past services in South Africa he highly commends to the gratitude of the nation.

The authorities continue to hold a hopeful view regarding the South African situation, but seem to recognize that vigorous measures are necessary. The proclamation of martial law throughout almost the whole of Cape Colony, Lord Kitchener's strong measures against the population of the republics, the placing on reduced rations of wives of men in the field, and similar measures go to show that there is still heavy work ahead.

KITCHENER LAYING PLANS.

The British offensive operations have ceased for the present. It is supposed Lord Kitchener is collecting his strength for a final effort to crush or capture the commandos by a repetition of the tactics which caused the surrender of General Cronje and General Prinsloo.

It is alleged that the Boers who are concentrating at Carolina and Ermelo are preparing to descend into Natal. A casualty list issued yesterday shows that the Boers have released 297 British captured at Helvetia and Belfast. The facts regarding the capture at

Belfast have not yet been allowed to transpire.

It is asserted that more heavy naval guns will be landed at the Cape.

MOVEMENTS OF INVADERS.

Information as to the doings of the invaders is hard to obtain, but it is clear that they are getting very little help from the Dutch. Twice they have attempted to capture Barkley East, but both times were repulsed. For three days they occupied Sutherland, but cleared out on the approach of a British column. Small scattered parties are reported operating in various parts of the Ceres district. Apparently the invaders have abandoned the idea of attacking Clan William on finding the town well defended. A commando of a thousand has been active in the Richmond district, but there the Boers have secured only 100 Dutch recruits.

SENATOR CULLOM WINS OUT.

IS UNANIMOUSLY NOMINATED AS THE REPUBLICAN CANDIDATE.

Springfield, Ills., Jan. 17.—The joint Republican caucus this evening unanimously nominated Shelby M. Cullom for the United States senate to succeed himself. No other name was presented to the caucus.

LINCOLN DEADLOCK STILL ON.

Lincoln, Neb., Jan. 17.—The vote on senator today was as follows:

NO CHANGE IN DELAWARE.	

DOVER, DELA., JAN. 17.—THE VOTE ON

joint ballot today for United States senators showed but little change in the deadlock between the Addicks and anti-Addicks factions of the Republican majority.

MARVIN KUHN IS TAKEN.

Logansport, Ind., Jan. 17.—Marvin Kuhns, the desperado who has terrorized northern Indiana for weeks and boldly defied the officers of two states, by singular fatality finds himself in the Cass county jail in the very town in which he made such a desperate battle for life. Kuhns and his brother, who was released from the Columbus prison shortly after Marvin escaped, were taken after a desperate fight last night at Green Hill.

KUHNS AND HIS BROTHER STOLE A TEAM

at Plymouth on Sunday night and started south. Ex-Sheriff Marshall and Marshal Chaney formed a posse, surrounded the house in which the men were located and rushed in at midnight. Before he was finally overpowered Kuhns shot H. Volt and Lewis Hawkins and was himself shot in the head. None were fatally injured.

RIVAL SUITOR SUSPECTED.

INDIANA MAN MYSTERIOUSLY SHOT AT FIANCEE'S HOME.

Rushville, Ind., Jan. 17.—Harvey, popularly known as "Kud," Whitton of this city was mortally wounded by an unknown assassin today at the home of his fiancée, Miss Neff. A rival suitor is suspected.

TRIES THE GAS ROUTE.

Paris, Ky., Jan. 17.—N. A. Brown of Battle Creek, Mich., traveling for New Orleans liquor firm, attempted to commit suicide at the Hotel Fordham this morning by inhaling gas. He will die.

HE DIES ON THE GALLOWS.

St. Paul, Jan. 17.—A Regina (N. W. T.) special dispatch announces that Morrison, who harked to pieces with an axe last June several members of the McArthur family, was hanged this morning.

MILITIA TO TAKE A HAND.

KENTUCKY TROOPS ORDERED TO SCENE OF RIOT AT CORBIN.

Lexington, Ky., Jan. 17.—Roger D. Williams, colonel of the Second regiment, Kentucky State Guard, received orders this evening to take Company M of the British steamer Frigate, Five to Corbin over the Chesapeake & Ohio railroad at 8:45. Sixty-five men go.

LIST OF CASUALTIES.

Corbin, Ky., Jan. 17.—As a result of last night's riot, Miss Susan Cox, an innocent bystander, was killed by a stray bullet; Sutton Farris was killed by the explosion; James Shotwell was fatally injured and three or four other men were seriously hurt, and a store was wrecked by dynamite.

DEADLY PLAGUE AT HULL.

DISEASE TO WHICH TWO MORE SAILORS SUCCUMB MUCH WORSE THAN BUBONIC PEST.

Hull, England, Jan. 17.—Two more deaths have occurred among the crew of the British steamer Friary. Five of the crew are isolated. At a meeting of the sanitary authorities of the port this evening Medical Officer Mason said the disease which had attacked the crew was pneumonic plague, which is more malignant than the bubonic plague.

FLOURING MILL BURNS.

Waverly, Ills., Jan. 17.—The Merchant Milling company's flouring mill was destroyed by fire today, causing an estimated loss of \$150,000.

PERIL SEEN BY GROVER.

Ex-President Breaks His Long Silence With a Vigorous Speech.

IMPERIALISM HIS THEME.

Talks of Britain and America, Once for Peace, Now "Killing Natives to Possess Their Lands."

PLEAS FOR CONSERVATISM

New York, Jan. 17.—The Holland society held its sixteenth annual dinner at the Waldorf Astoria tonight. Rev. Dr. Henry Van Dyke, president of the society, presided. On his right sat ex-President Cleveland, with Tunis G. Bergen at his left. Covers were laid for 300 and all the places were taken. The speakers were Grover Cleveland, Dr. A. W. H. Smith, and Chas. W. Layton.

Ex-President Cleveland said, in part: "I am convinced that the art of making after-dinner speeches without distress is for me a sealed book; and as years pass, I am only saved from complete wretchedness in my efforts in that direction by the kindness and toleration of those who are good enough to listen to me.

"I cannot resent the charge that I am apt to preach a sermon on occasions of this kind, for I am afraid of this accusation is justified. At any rate, I am quite willing to take a humble place among the sermonizers, in this time of headlong national heedlessness, and invoke the cultivation of Dutch conservatism.

"This is the kind of conservatism that counts the cost, but for the sake of the principles of freedom will disregard the cost; that lays out a voyage by chart and compass and follows the chart and compass to the end; that loves liberty and national happiness which rest upon tried and sure foundations; that teaches reverence for national traditions and encourages the people's satisfaction with their country's mission. It is the kind of conservatism in which our Constitution had its birth and which thus far has been the source of our nation's safety and strength—the conservatism of justice, of honor, of honesty, of industry, of frugality, of contented homes.

STRANGE VOYAGE UNDERTAKEN.

"In this assemblage of those who know so well the meaning of these things, the question is suggested, whether in the present conditions, this conservatism characterizes the conduct or guides the sentiment of our people. There can be but one answer to this question. Conservatism has in a great degree been jauntily cast aside or condemned as opposed to our country's welfare and glory. A strange voyage has been entered upon without count of the cost, without chart and compass. The restraints and limitations of our Constitution have become galling and irksome under the temptations of national greed and aggrandisement. Our old love of peace, honor and justice has been weakened and frugality and contentment are not now traits inseparable from American character.

"A war even with the world's advanced civilization may still be sometimes necessary or justifiable; but whether necessary, justifiable or not, the demoralization that follows in its train can never be eradicated. It teaches bloody instructions which, in a country whose citizens do the fighting, cannot fail to leave their impress, for a time at least, upon public and private life in time of peace.

"Thirty years after the close of the war for the preservation of the Union, a treaty of arbitration was formulated between the United States and Great Britain which, if completed, would have gone far toward removing every pretext of war between the two countries. Thus these two great English-speaking nations then assumed the leadership in the path of peace and in advocacy of the abolition of war with the hope and expectation that the example would be followed by other nations and that the more general adoption of arbitration as the means of settling international disputes would result in a great advance toward the abandonment of war throughout the world. This treaty failed of confirmation in the senate of the United States.

A STRIKING CHANGE.

"Less than five years have passed, and these English-speaking champions of peace arbitration are still operating in parallel lines, one in the Philippines, the other in Africa; but they no longer are for peace and arbitration. Both are killing natives in an effort to possess their lands. This indicates a sad relapse; and in our case, it is a most serious one.

"If England succeeds in her attempt in South Africa, she will but add another to her list of similar acquisitions and a brave people will have been subjugated; and because of our engagement in a similar venture in another quarter they will miss the expressions of American sympathy which we are accustomed to extend to those who struggle for national life and independence.

"On the other hand, with success in our subjugation effort, a new, untried and exceedingly perilous situation will be forced upon us. We can conquer the

Philippines and, after conquering them, can probably govern them. It is in the strain upon our institutions, the demoralization of our people, the evasion of our constitutional limitations and the perversion of our national mission that our danger lies. As a distinguished bishop has said, the question is not what we shall do with the Philippines, but what the Philippines will do to us.

MOMENTOUS PROBLEM.

"Our country will never be the same again. For weal or woe, we have already irrevocably passed beyond the old lines. A republic will in some sort be saved. Shall it be only in name, and semblance, with a fair external appearance but with germs of decay fastened upon its vitals; or shall it, though changed, still survive in such vigor and strength as to remain the hope and pride of free Americans? The problem is a momentous one. Its solution depends upon the extent to which the old patriotism and good sense of our countrymen can be rescued from the impending danger.

"Thus these are sober days for the thoughtful citizen; days for preaching; days for sermonizing. If we are to be saved from disaster, it must be through the cultivation and enforcement of that conservatism which has made our congenial home in the Holland society. In the midst of the reckless tumult and confused rage of national greed and bloodiness, this conservatism should defiantly stand forth and demand a hearing.

"Let it be known that American freedom and popular rule cannot perish except through the madness of those who have them in their keeping, and by the blood and sacrifices of our fathers, by the lofty achievements of the free institutions they established, by our glorious victories of peace, and by our reliance on the promises of God, let Dutch conservatism enjoin upon our people the faithful discharge of their sacred trust."

KANSAS MAYOR RESIGNS.

HAWATHA ALDERMEN REFUSED TO LEAVE REVIVAL TO ATTEND COUNCIL MEETING.

Hawatha, Kas., Jan. 17.—Because a majority of the city councilmen refused to leave a revival meeting to attend the regular weekly council meeting, S. Hunter, mayor, has tendered his resignation. Unable to secure a quorum to transact business, Mayor Hunter sent the sheriff to the revival to compel the councilmen to present themselves at the city hall. The majority sent word they had to attend the revival and could not come.

OUTBREAK AT STANFORD.

JUNIOR IS DUCKED IN THE LAKE BY ANGRY STUDENTS.

Stanford University, Cal., Jan. 17.—The feeling against those who have been condemning the action of President Jordan broke out this afternoon among the students. C. D. Montgomery, a junior from the University of Kansas, was seized by a party of fifty or more students and ducked in the lake back of the university. The feeling against Montgomery was caused by his radical talk condemning Dr. Jordan and the university management.

Mr. E. E. Kelly, of Urbana, O., writes: "I had eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

CRIMINAL DOCKET MADE UP. LIST OF THE PERSONS TO BE TRIED IN CIRCUIT COURT.

The criminal calendar for the January term of circuit court, which opens next Monday morning, was completed yesterday. Following are those who are to be tried and the charges against them: Dennis St. John, arson. Louis LaFortune, larceny. Charles Schmidt, cutting off marks upon saw logs. Michael Gilbert, assault with intent to rob. John Munti, reckless use of firearms. Ole Moon, reckless use of firearms. Joseph Barney, reckless use of firearms. Matt Gorshe, bastardy. Joseph Rilston, bastardy. William Williams, bastardy. David Lewis, bastardy. William Wilson, bastardy. Alfred Felcan, bastardy. Emil R. Wolf, keeping saloon open Sunday. George Sangrette and Oscar Sangrette, keeping saloon open Sunday. William Sullivan, abduction. John England and Albert Cook, attempt to break a safe with intent to commit the crime of larceny. Hadley D. Sumner, murder. Noticeable among the cases are those of the Miller fire conspiracy, in which Dennis St. John is charged with arson, and Louis LaFortune with larceny; the William Sullivan abduction case; and Hadley D. Sumner, to be tried for the murder of young Benny Martin at Calumet during a chivari at the wedding of Sumner's sister not long ago.

COSTLY TO THE RAILROADS. FOOT OF SNOW FELL DURING STORM STARTING TUESDAY.

The amount of snow that had fallen up to noon yesterday since the storm began on Tuesday night, according to figures given out by Dr. R. B. Harkness of the Houghton weather bureau, was twelve inches on the level. As the storm was accompanied by a severe wind the snow piled up to a height of high in places in the open and some of the drifts were from three to four feet high. Yesterday morning many people were engaged in shoveling away the snow at their homes and the street railway and railroad companies had extra large forces of men to clear their tracks. The street railway company managed the snow in a commendable way and in such manner that the running of the cars was not hindered. The snow plow was put in commission and kept at work continuously. An unusually large number of men were put to work on the double track at Hancock, where the snow seemed to be piled higher than in other places along the line. As fast as it was shoveled to the sides of the street the snow was put into sleighs and hauled off. The railroad companies feel the cost greatly on account of the expense. Both on the Copper Range and on the South Shore the trains were on time all while the storm was raging, and that fact means much for the way in which the snow was handled. In talking with a railroad official yesterday it was informed that the storm would cost the railroads of the upper peninsula in the neighborhood of \$15,000 or \$20,000. A great expense is always incurred in handling the amount of snow such as fell in general over the upper peninsula tracks of the various railroad companies. Many additional men have to be employed, more fuel is needed, less cars are pulled and "double headers" are more numerous when a bad storm is raging. Because of those facts much money is lost and more time is needed in which to deliver freight at its destination.

AN UNJUST MEASURE. RAILROAD MAN SAYS PROFITS WOULD BE NO MORE WERE PASSENGER RATES CUT.

In speaking of the expense to the railroads incurred by a snow storm such as the upper peninsula has experienced during the past two days, a railroad man yesterday remarked that it would certainly be very unjust to the companies were a law passed by the legislature of Michigan reducing the rates from 4 to 3 cents per mile—now charged to passengers riding over the lines in the upper peninsula. The railroads in the lower part of the state rarely suffer from a bad snow storm. They save that additional expense that naturally follows a heavy fall of snow in the upper peninsula. If the fare were reduced the profits of the companies would be but small indeed, if any, and the companies naturally would not try as hard to give excellent service.

Copper Stocks.

In the latter respect the Copper Range railroad is a model as it has given the people in the places along its line the very best of service. Considerable of the South range properties held by what may be termed the working class of people in the copper country, and owing to the great benefit that the local line has done for copperdom the people of this region do not want to see the rate of travel reduced a cent. The Copper Range railroad opened up the great South range district to the whole country. It has greatly enhanced the working and developing of the rich mines in that region and is also a cause for further exploratory work and the flotation of old properties that would have been worthless had the railroad not been built. The importance of the South range properties to the country is appreciated by the people in copperdom and much of the interest and speculation that is now accruing from those mines is due largely to the Copper Range railroad. The road to the Winona mine is now easy by means of the Copper Range trains where a year ago the trip from Mass City to the property had to be made by sleigh and at times that method of travel was impossible. An expensive stage fee—\$3—was charged to any person who wanted to drive from Houghton to the Winona property a year ago.

HOUGHTON DOWNS LAKE LINDEN. 34 TO 8 THE SCORE OF THE INDOOR BASEBALL MATCH.

The indoor baseball game at the Houghton Armory Opera House last night was a decided success, both as regards the financial part and the true athletic spirit. The contest was between the Lake Linden Athletic association and the Houghton Light Infantry (Company G) Athletic association teams. The full nine innings were played and the final score was 34 to 8 in favor of the Houghton boys. The visiting nine was accompanied by a number of supporters who came to cheer on their players. They they did in good style. The Houghton enthusiasts were out in larger numbers than ever and the sudden boys were lacking for "rooters." Houghton put up the same fast and snappy game that it did when the team played the Calumet nine. Decided improvement in the playing at some of the positions were very noticeable. The men stick together well and their team work is excellent. The line-up of Houghton men was composed of two regular players, no changes having been made since the last match. The accommodations for spectators in the way of seating room were excellent. The stage was arranged like an amphitheater, having one row of seats above the other, so that all who were located there would have no difficulty in seeing every play. At the sides were the "bleachers," marked off in front by wire netting which served as a protection to those present from being struck with the ball.

BOND MEASURES PASSED. HOUSE AT LANSING CONSENTS TO THE PROPOSED HANCOCK AND LAURUM LOANS.

News was received yesterday that the house of the state legislature has passed Representative Kerr's bill authorizing the village of Laurum to borrow \$100,000 for street improvements, also Representative Rulison's bill providing for the raising of a loan of \$15,000 by school district No. 1, Hancock. The measure undoubtedly will be ratified by the senate.

EXPRESS COMPANY MATTERS. S. A. Davis of St. Paul, general superintendent of the Western Express company, arrived in Houghton Wednesday night to aid Traveling Auditor Ford, who has been in the village for some time, in straightening out the matters of the company since the fire in the Young building.

MAY BE ARRAIGNED TODAY. The hearing of Dennis St. John, charged with arson of the Miller store, Houghton, is set for today in Justice Miller's court.

HOUGHTON AT LAKE LINDEN. The popular indoor baseball is firmly rooted in Houghton. Those who enjoy a good exhibition in the line of athletic sports are taking a deep interest in the game and hope that the various copper country teams will keep up the good start they have made to afford wholesome athletic enjoyment to the interested public.

RAIDED BY THE SHERIFF. One of the periodical raids on the questionable resorts at Houghton was made by the sheriff Wednesday evening. The places kept by Nellie Clark and Frankie McDonald being those concerned. Four inmates were corralled in one house and six in the other. The prisoners were tried in Justice Brand's court at Houghton yesterday, fined \$10 and the costs each ordered to leave town.

COPPERDOM BREVITIES. The Mining Journal, M. W. Youngs, representative, has established an office in one of H. J. Stevens' suite of rooms on the second floor of the Dea (postoffice) block, Houghton. All handling business with the paper are cordially invited to call. Telephone No. 376.

SKATING MATCH SATURDAY. The skating race that was to have taken place at the Twin City ice rink, Houghton, Wednesday night between Amos Bree of Houghton and B. M. Pattison of the Michigan College of Mines and which was postponed, will be pulled off at the popular resort tomorrow night. The management of the rink was wise in putting off the contest as Wednesday night was exceedingly stormy and there would have been but a slim crowd. Saturday night is a good one to have the race and a large number of spectators will no doubt see it. The Michigan College of Mines students will turn out in force to "root" for their fellow students and the Houghton people who attend will urge Bree on to victory, as he is a favorite, naturally, because he is a Houghton boy.

THREE-DAY RACE POSTPONED. The three-day race that was announced in The Mining Journal to take place at the Twin City ice rink commencing last night and continuing this evening and tomorrow has been postponed to the last three days next week. In the meantime entries will be received.

SNYDER VERSUS CAMERON. There will be a special attraction at the Palace ice rink, Hancock, tomorrow night. A Snyder of Hancock and Alex. Cameron of Calumet will race a half mile for a purse of \$25.

GREAT INTEREST IN A. T. C. A. The directors of the Y. M. C. A. of Hancock held a meeting at their headquarters Wednesday night for the discussion of matters of importance and

interest of the society. The subject of athletics was naturally taken up, as it is proving of more than unusual interest to the members at present. The directors are very much pleased at the turn athletic sports have taken during the past four or five months, and on Wednesday evening took occasion to thank the members of the Y. M. C. A. football team and the Portage Lake hockey seven for the interest and enthusiasm they have aroused for the games. The directors are in favor only of true sport and the right athletic spirit connected with it, and in that respect the two teams spoken of have not been lacking. They also consider the various games as an attractive and interesting feature to the young gentlemen who are members of the Y. M. C. A. and for that reason are doing all in their power to have the sport continue. As spoken of in yesterday's issue, the society will organize a basketball team and will try to arrange games with other copperdom players.

MACHINERY BEING OVERHAULED. ACTIVE MINING WORK WILL SOON BE UNDERTAKEN AT THE BELT-MINING MISCELLANY.

Active preparations are now going on at the old Belt property for the mining operations that will soon be commenced. Captain W. A. Dunn, who has the property in charge, yesterday informed The Mining Journal that the mine would be ready for active development work in about three weeks. The considerable amount of machinery at the Belt, in a fair state of preservation, much of which is available for a modern mine. The outfit includes a mill, with two Ball stamps, also three hoists of considerable size, a good air compressor, mine pumps, locomotives, rock cars and dwellings. A considerable amount of money, however, will have to be spent to fit the property for actual production. All of the old shafts will be worked for all their worth. Seven men, skilled mechanics, are now at work on the machinery getting it in usable shape. Materials are being hauled to the property every day. The water in the shafts will be tackled first, and when the workings have been drained active mining will be inaugurated. The Belt mine, including the Penn, Bohemian, International and Great Western properties, has always been considered one of the more important of the little mines and one that was sure to be floated at some earlier or later date. Of the group making up the Belt, the Penn is generally considered the most promising. Early in the eighties the properties composing the Belt were bought by an English company, which instead of spending money for underground operations to discover the actual worth of the mine, spent a great amount on surface improvements. The result was that the owners failed to realize a profit on the copper, which was produced at an actual cost of nearly ten thousand dollars per ton, or at the rate of five dollars per pound. Had the money expended on surface been spent underground, and vice versa, the Belt would have had the chance to prove its actual worth. GREAT FUTURE FOR OSCEOLA. It is stated that the new addition of the Osceola's stamp mill will not go into commission until toward the end of the present year, and that in the meantime the mine will be developed and equipped to supply rock for the increased milling capacity. The Osceola completed and began operating its new three-head mill nearly a year ago. Its extension will have four heads, giving it seven in all, and when it goes into commission it is probable that the old mill, which is still running, will be abandoned. Experience has demonstrated that the modern heads treat the rock much more economically and satisfactorily than the old.

GREAT INTEREST IN A. T. C. A. The directors of the Y. M. C. A. of Hancock held a meeting at their headquarters Wednesday night for the discussion of matters of importance and

noon. The main question involved in all of them is whether the persons who took out titles to the homesteads under consideration had complied with the law in order to hold them. The examinations of the three contests before the county clerk were long and a great deal of exhaustive testimony was brought in. The ruling in the cases will be given out by the register and receiver of the United States land office at Marquette to whom the testimony was forwarded. Lithographs of Rev. Fr. Francis Clement Kelly, a chaplain in the late war, who will lecture under auspices of the People's Lyceum course at the Houghton Armory Opera House next Tuesday evening, were placed in the Houghton stores and offices yesterday. Father Kelly was the chaplain for the Thirty-second Michigan volunteer regiment in the war with Spain and during that time acquired much insight into the soldier's life. He lectures in an eloquent and at the same time in a very entertaining manner, being naturally witty. Father Kelly is sure to be greeted by a large audience.

years. Its discovery has practically doubled the available reserves of the mine by giving us a combined lode from nine to twenty-five feet wide. Our explorations on the Glen property have not developed much of value. The south crosscut is being extended, and will soon encounter at depth a lode that we have opened to some extent on the surface and found to contain a good quantity of copper. Superintendent Hooper says the stamp mill question will have to be given consideration soon; and it undoubtedly will be early in the coming summer.

3-HEAD MILL FOR ADVENTURE. The directors of the Adventure Consolidated Mining company have decided to build a three-head stamp mill, with a capacity for handling 1,500 tons of rock daily. They have not as yet decided on a site for their mill, however, but they have three under consideration, and will probably make a selection within a few days. The Adventure has pushed development work very rapidly during the past year, and now has, it is stated, nearly 10,000 feet of new openings. The management feels certain that it will experience no difficulty in supplying the new stamp mill with rock when it is ready for operations. The mill will be built during the coming summer.

COPPERS GROWING IN FAVOR. Boston brokers, according to The Journal of Tuesday, are still reporting that the amount of stocks being carried by them on margin is relatively small; that their customers, while showing an increased interest in the copper shares and expressing great faith in them, are as a rule, disinclined to venture heavily as yet. The past few days has brought more inquiry for the better class of coppers, but it is clearly manifest that the Standard Oil forces are holding the market in check. This came out very plainly on Saturday in connection with the Boston & Montana fluctuation and it is also discernible in the Amalgamated manipulation. The best opinion now is that this restraining pressure will not be applied much longer, and with the general market in its present favorable condition, it is probable that, once it is removed, the whole group will become decidedly active and very strong. As one prominent broker well puts it: "Conditions were never better for a good movement in the copper shares than at present, and I do not see how one can much longer be prevented."

A LIFE AND DEATH FIGHT. Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for consumption, which completely cured me. I would not be without even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00. Trial bottles free at the Stafford Drug company.

DUNSTAN ON THE VICTORIA. Ex-Lieutenant Governor Dunstan of Hancock, president of the Victoria Mining company, who is now in Boston, tells The Financial News that the showing at the mine is very favorable. "The rock," said he, "is well filled with heavy copper, and we are satisfied that we have a valuable mine. You will remember that we struck a south branch or division of the lode in our crosscut about a year ago. This appears to have been located by the miners who worked on this lode in former

GRIP BELTS THE CONTINENT. RAVAGES OF DISEASE REACH FROM ATLANTIC TO PACIFIC.

New York, Jan. 17.—Grip has now belted the continent with a band of illness that is 300 miles wide at its eastern end.

Here in New York there are now about 250,000 cases of grip, bronchitis and pneumonia, and at least 100,000 of these are true cases of the grip.

As is usual, the grip began its attack on America's eastern shore, and traveled rapidly westward, narrowing its track as it proceeded through New York, Pennsylvania, Ohio, Indiana, Illinois, Iowa, Nebraska and on to the Rocky mountains.

There is hardly a settlement within the indicated belt that is free from the malady and the present indications are that it is spreading.

HOUSEHOLDER RESIGNS.

A SENSATION SPRUNG AT THE MEETING OF THE DIRECTORS OF THE PENINSULA BANK. The banks of Ishpeming are furnishing lots of surprises these days, not the least of which is the resignation of D. P. Householder as cashier of the Peninsula bank, which was tendered the directors of that institution at their meeting last Wednesday to take effect Feb. 1. Mr. Householder's resignation was accepted. Mr. Householder has been cashier of the bank since 1895 and the patrons will regret his decision to sever his connection with the institution.

The following officers and directors were chosen at the meeting: Wm. Sedgwick, president; Otto Eger, vice president; Ernest A. Manger, cashier; John Welch, assistant cashier, and Robert Maxwell, Timothy Hughes, Otto Eger, Herman Jaedcke, George Thoney, H. H. Mildon, Wm. Sedgwick, Joseph Mitchell of Beacon, and Wm. Anderson of Negaunee directors.

A committee composed of A. W. Myers, Timothy Hughes and W. S. Nelson was appointed to meet the committee which the Clerks' union chose the other day and lay this proposition before them.

The Clerks' committee met yesterday and drew up an agreement the substance of which is that the stores shall close at 6:30 each night except Saturdays, pay days, from the 15th of June until the 4th of July, and from Dec. 15 until the first of January. This agreement is in the hands of the printer and upon its completion the committee will circulate it among the merchants and doubtless some compromise will be effected.

The following letter was handed to the Mining Journal reporter yesterday afternoon: "To the Business Men of Ishpeming:—I would like to make a suggestion regarding this agitation on early closing. Every clerk should be on duty at 7 a. m. sharp. There should be an hour for dinner, commencing at 12 m. All clerks shall return to work at 1 p. m. and shall remain until 7 p. m. when the stores shall close for the night. This rule shall hold good every night except Saturday and pay days, when the stores shall close from 6 until 7 p. m. and be open until the close of business."

"A BUTCHER." INQUEST ADJOURNED. The inquest in the case of Matt Meehan, killed in Section 16 mine last Tuesday evening, was held in Justice Kennedy's office yesterday afternoon and was adjourned until Monday at the same place. Nothing beyond what The Mining Journal published in its issue of yesterday was brought to light. The following is the make-up of the coroner's jury: Joseph Hope, John Manley, John Muford, Cornelius Kennedy, Patrick Collins and Patrick Cronin.

THE MOTHER'S FAVORITE.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given to infants to a babe as to an adult. For sale by The Stafford Drug Co.

This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by the Stafford Drug company.

LAST OF THE DIVIDEND PAID.

The last installment of 50 cents on the second dividend paid by the Negaunee & Ishpeming Street Railway & Electric company was paid to the stockholders yesterday. The residents of the twin cities have reason to feel proud of this company for the good showing which it has made of late years, more especially since the new management took control. A few years ago street railway stock was worth less than \$10 per share, while now it is selling above par, which is \$25, and is not offered freely at that price.

MERCHANTS HOLD A MEETING.

AN AGREEMENT FOR EARLY CLOSING OF THE STORES DRAWN UP.

The Merchants' association held a meeting, Wednesday evening in the Swedish Home hall for the adoption of a constitution and by-laws and also to form some plan regarding early closing of their stores. The attendance was the best which the association has had since its organization and the best of feeling prevailed throughout. Every merchant was agreed that early closing is a needed reform and the only discussion was raised when the time and dates were spoken of. Some were in favor of closing at 6 o'clock every evening but Saturday and pay days and the nights just preceding the holidays, but the opinion was in the majority and first of January. This agreement was expressed their views the following resolution was unanimously adopted:

"Resolved, That we are willing to close our several places of business Tuesday and Thursday evenings at 6 p. m. and Friday evenings at 7 p. m., except on pay days, Saturdays and the evenings before the holidays."

A committee composed of A. W. Myers, Timothy Hughes and W. S. Nelson was appointed to meet the committee which the Clerks' union chose the other day and lay this proposition before them.

MICHIGAMME.

MICHIGAMME PICK-UPS.

Victor Oberg, who is teaching school at L'Anso, was down from there Sunday last on a visit to relatives.

Mrs. William Dowder, who spent the past two months or so with relatives in Duluth, has returned from there.

Joseph Thoney and bride arrived here Monday from points down the line, where they visited relatives since the day they were married in Ishpeming.

T. H. Harris, the Negaunee commission man, called on his patrons in Michigamme Wednesday. Tom enjoys a very nice trade in this end of the county.

A number of Champion young people attended the dancing party given at Odd Fellows' hall under direction of the Michigamme band last Saturday evening.

Otto Ostermeyer, freight conductor on the South Shore line, has been transferred from Michigamme to the copper country. His wife left early in the week for Wakefield, Wis., where she will spend a month or more visiting relatives.

John Dahlstrom of Ishpeming did business here Wednesday. He supplies the greater part of the pop and other soft drinks that is used in the town. Mr. Dahlstrom enjoys a very good business in all three towns in this end of the county.

There is a great deal of rabbit hunting here these days. It is said that rabbits are quite plentiful in the swamps near the town. Hardly a day passes but a number are brought in by the men and boys who spend their leisure time in the woods hunting.

Will Lyons, who came down from Duluth to see his mother, returned Tuesday. Mrs. Lyons fell down stairs a short time ago and sustained painful, though not serious injuries. She is getting along very nicely, much to the satisfaction of her many friends here.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but always inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. The Stafford Drug Co.

Coughs and colds come uninvited, but you can quickly get rid of them with a few doses of BALLARD'S HOREHOUND SYRUP. Price 25 and 50 cents. The Stafford Drug Co.

Don't let the little ones suffer from eczema or other torturing skin diseases. No need for it. Doan's Ointment cures. Can't harm the most delicate skin. At any drug store, 50 cents.

A TWENTY-POUND BABY

can take Dr. Caldwell's Syrup Pepsin with as much safety as benefit. It suits as an adult. It is a mild liquid laxative and children thrive upon it. Syrup Pepsin assists nature in cleansing the system, and its use is not attended with any of the unpleasant gripings and nauseating effects caused by the use of pills or so-called cathartics. Try a 10c size bottle (10 doses 10 cents.) Also sold in 50c and \$1 sizes by The Stafford Drug Co.

A WHOLE FAMILY.

BAD COMPLEXIONS

Dry Thin and Falling Hair and Red Rough Hands Prevented by CUTICURA SOAP

MILLIONS Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, in the form of baths for annoying irritations, inflammations and chafings, or too free or offensive perspiration, in the form of washes, for ulcerative weaknesses and for many sanative antiseptic purposes which readily suggest themselves to women, and especially to mothers, and for all the purposes of the toilet, bath and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying and beautifying the skin, scalp, hair and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., 25c., the BEST skin and complexion soap and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humor, \$1.25, Consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA OINTMENT (50c.), to instantly relieve itching, inflammation and irritation and soothe and heal, and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A SINGLE SET, costing but \$1.25, is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humors, with loss of hair when all else fails. Sold throughout the world.

WHAT A DELIGHTFUL LADY HAS TO SAY OF DR. BRUESS' REMEDY.
Duluth, Minn., Sept. 18, 1900.
I am very willing to testify as to the great merits of Dr. Bruess' P. P. R. Remedy, now on sale at Boyce's drug store. I had caught a severe cold and had intense pains in my chest and bronchial tubes with much hemorrhage and sore throat.
Nothing relieved me until, induced by a lady friend, I tried this great remedy, and the "trial bottle" gave me instant relief and cured me. It is the best remedy I know of for the above ailments and is an absolute cure, if taken according to directions.
No Liniment equals it. Respectfully,
Mrs. Wm. Butchart, No. 127 E. 3rd St.

ALL PAYING THEIR TAXES.

NEGAUNEE'S CITY TREASURER HAS NO COMPLAINTS TO OFFER BECAUSE OF SLOW PAYMENT OF TAXES THIS YEAR.

It has been many years, according to those who have had to do with the collection of taxes for an extended period, since the property owners of this city have paid their taxes as promptly as they are doing this year. And with few exceptions all seem satisfied with the assessed valuations of the individual as well as corporation properties.

The Oliver Iron company's officials are anything but satisfied with the way that corporation's properties here and at Ishpeming were assessed. Had the roll been permitted to stand as the city assessors of these two cities had made them up the Oliver people would have been perfectly satisfied.

The Oliver company voluntarily paid the full amount of the taxes levied on its properties in the city. It is the valuations on the assessor's rolls, but refused to settle the difference between the assessor's figures and the increased valuations made by the state tax commission. The increase was about 47 per cent. Upon refusal to pay the additional taxes, the city levied on the account of the taxes here. This resulted in bringing the full payment, though the 47 per cent. was paid under duress. By this the company will have the right to appeal to the courts at any time within the next six years for the recovery of additional money paid on account of the taxes levied on the valuations of its properties made by the tax commission.

Officials of the Oliver company have contended ever since the tax commission visited this section that the valuations of its properties in this and other counties were assessed in proportion to their real value than were the properties of other corporations. This is why the company is protesting on the increased valuation. An official of the company recently said that had the valuations been kept down to what the company considered reasonable the taxes would have been paid in full without protest. He also said it was understood for some time before the tax commission visited this section that the Oliver company would not be overlooked when the mining properties up here were being assessed.

The Cleveland-Cliffs company has paid its taxes in full voluntarily. No protest was made, though the officials felt that they were really paying more than they should. That company's valuations were also advanced considerably by the state tax commission.

All the other corporations operating mines in Negaunee have settled their taxes without protest. Some of the individual property owners whose valuations were raised several hundred per cent. have taken the same course as the Oliver company.

As for the real estate owners, they have no complaints to make. In fact they are getting off with lighter taxes this year than have been levied on them for several years. In some cases the reductions have been 50 per cent., and in others about 25. Most of the business men, however, are paying higher taxes this year than they did last. The valuations of several of the merchandise stocks were raised considerably, and in consequence the rate of taxation is higher. But the business people are not complaining, as they feel that their taxes are not altogether out of proportion when they consider how the mining people have had to "dig up."

The payment of taxes under duress was started by the Chapin Iron Mountain. The law is such that the corporations have a chance to receive additional tax money within six years, provided they take the matter into court. It is pretty well understood that if the valuations are reduced this year the recovery of the additional money paid in taxes on last year's roll will not be attempted by the companies now protesting.

DRILLS WILL BE RUNNING SOON.

The task of preparing the drills for operation on the tract the Cleveland-Cliffs company holds under option in the northeast part of the town was being pushed vigorously Wednesday and yesterday. Ten sleighloads of material were hauled from Ishpeming to the site Wednesday and work was at once started on setting up the drills. Every one in Negaunee is discussing this latest piece of good news in a very favorable manner, and hope almost amounts to conviction that ore will be found in sufficient quantities to warrant the opening of a mine in this locality.

Quite a number of people braved the cold yesterday and watched operations, such is the interest manifested in this new venture of the staunch old Cleveland-Cliffs company. Other corporations are reported to have been eager to secure this property, but the farsightedness of the Cleveland-Cliffs people enabled them to see the value of the proposition quicker than the others, and so they nailed it.

FIRST REAL BLIZZARD.

Negaunee was visited by the severest storm of the winter Wednesday night and yesterday morning. The weather has been decidedly "grippy" for the past few days but when the weather prophets ran into the fog of Tuesday they repeated the old adage, "a winter fog will freeze a dog," and hustled for their fur overcoats.

Sure enough, in a few hours the mercury had dropped 20 degrees and the air was full of snow and a vicious wind from the north was coming in via the

WATER GOING DOWN.

The Negaunee mine management has worked unceasingly since the mine was flooded to get rid of the water. The boiler was immediately started and succeeded in keeping the flow under control Wednesday night. The Cannon pump was put in operation and during the night its work was felt, as the water commenced to go down. Yesterday one of the mine officials stated that he thought the men would be able to return to work the first of next week.

PLANS FOR THE ANNUAL BALL.

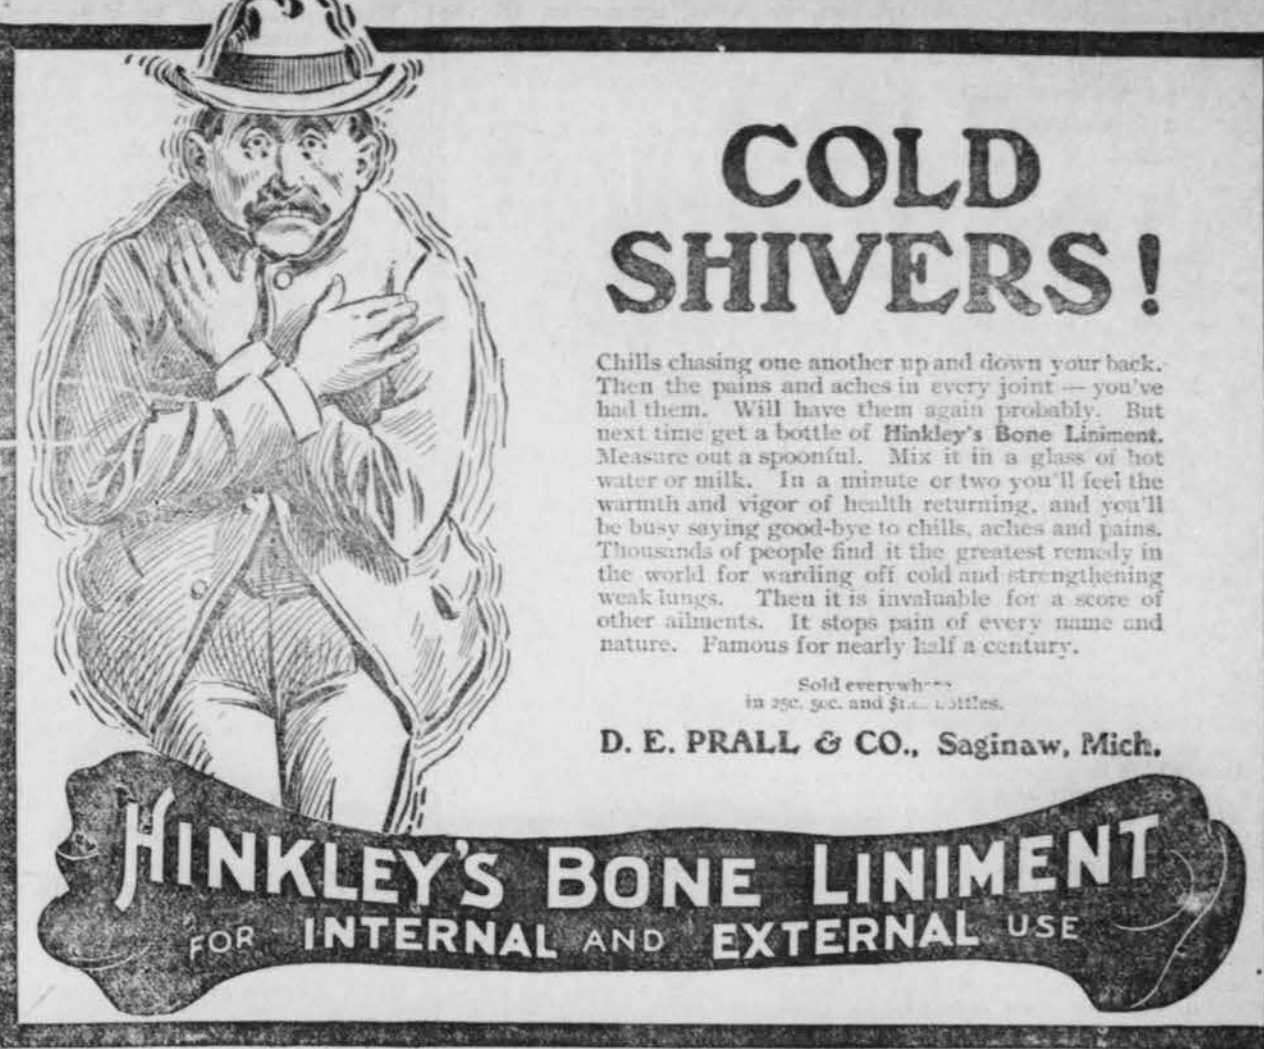

Though the annual meeting of the fire department will not occur until Feb. 19, when plans will be discussed and committees of arrangement will be appointed, the annual ball is a much talked of topic in department circles. This function is to be held on Easter Monday in MacDonald's opera house, which has already been engaged. The 'City band will furnish the music and it will readily be seen that this part of the affair is in good hands. At the annual meeting officers will be elected for the ensuing year, and other business will be transacted.

A PROMINENT CHICAGO WOMAN SPEAKS.

Prof. Roxa Tyler, of Chicago, vice-president Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by The Stafford Drug Co.

LOCAL L. CONICS.

Miss Lucy Green left for Chicago last evening. The employees of the Queen mines will be paid tomorrow. Engove & Thomas have opened a saloon in the Mulvey block. W. H. Dunham of Menominee transacted business in town yesterday. Mrs. White of Green Bay is visiting her sister, Mrs. J. D. Clark, for a few days. Conrad Beth was registered at the Breitung house from Green Bay yesterday. The employees of the Negaunee mine were paid for their December labor Wednesday. Among the Detroit visitors in town yesterday were J. K. Courtney and L. E. Corrigan. Miss Kate Matland went to Chicago Wednesday evening, where she will spend a few days. F. M. Beney, the popular insurance man, went down to Escanaba yesterday morning on business. Ernest Kline and Miss Sarah Rosen were married at Manistique last Tuesday. Mr. Kline holds a position with Rosenberg Bros. After a short wedding trip Mr. and Mrs. Kline will reside in Negaunee. Richard Copes, the ice dealer, is rapidly filling his ice houses with first class ice from Teal lake. Mr. Copes has, in previous years, run short in his supply toward the latter part of the season, and he is doing his best, with quite a force of men, to guard against such an occurrence the coming summer.

CHAMPION.

MAY RACE THEIR NAGS. LOCAL HORSE OWNERS TALK OF PULLING OFF SOME TALK ON LAKE MICHIGAMME.

There has been a great deal of horse racing talk in Champion the past few days. Jake Levine's store is headquarters for the horsemen who are endeavoring to arrange a series of races on the lake at a near date. Several have fast nags. That is, a horse in less than six minutes, though it is not certain that some of them slated for speed work will get over a mile course in that time. Jake Levine is looked upon as manager of the proposed racing events. He is the most enthusiastic one of the bunch, though Mike Connors, George Huber, Archie Abbott and Tom Wallace are doing their best to encourage the sport and bring the horse owners together. A race between the horses owned by Connors and Huber is down for next Sunday afternoon, provided the weather is favorable. Levine is backing Connors' horse for \$25 and Mr. Huber is putting up the money on his own nag. There was a dispute early in the week as to who should drive the nags. Mr. Huber said he didn't care to take a chance behind his "flyer" and he proposed allowing his boy to drive. It is claimed by Levine and Connors that the boy can get better speed out of the animal than his father, and for this reason Huber would have a slight advantage. Connors is willing to drive his pacer, but in case Huber insists on his nag being driven by the boy the former will turn the job over to Levine. If that should happen there would be sport. While Levine professes to be something of a jockey his friends declare that he will need the entire course, as there is no road in this part of the county wide enough for him when he is holding the reins on a horse that can travel better than ten miles.

The winner of this race is to be challenged by Adolphus Levine the liveryman. He has a horse that he thinks can "do" anything in the village. Then comes Eugene Marshall, the Beacon liveryman. He also has a horse that he prizes as being "the only" speedy nag in this part of the county. Marshall says he has \$50 to put up against Lavigne's trotter in case the latter's horse beats the winner of the Connors-Huber match. It is conceded that both the liverymen have good horses and in case a race is arranged between them some money will change hands.

Levine winds up his list of racing propositions with a wager that Tom Wallace's "Sam" can do any horse in the place. Now Wallace has nothing to say about his nag, only that he is much interested in the effort will be made to clear a mile course on the lake. A scraper run over the surface a few times will put it in good trim, as there is not a great deal of snow on the ice. Meanwhile the arguments and wagers will go on until it is likely that when the time for the first race to be pulled off is announced there will be more than \$100 up in side bets. At this time everything depends upon the weather. If a lot of snow falls it will be a difficult matter to clear a course. The races will attract large crowds as much interest is manifested, especially by the men in the lower part of town.

NEW BOARDING HOUSE.

CHAMPION IRON COMPANY HAS LET CONTRACT FOR A LARGE BOARDING HOUSE—OTHER IMPROVEMENTS.

Something like \$10,000 worth of new building and repair work has been planned by the Champion Iron company. The work on the new building to be erected, as well as the improvements to be made, has been fairly well started and it will be some time before Contractor A. P. Wilson, who has been given the contract, will finish his work. A new boarding house for employees of the company will be among the most important structures. It will be 35 feet in length by 24 wide, two stories in height, with stone basement, and located immediately west of the Co-operative store. A dwelling, which has been occupied for some time past, was removed from the location early in the week and placed on a foundation

WILL GIVE A BALL.

The members of the Champion lodge of the United Workmen recently decided to give a ball at the town hall on the evening of Jan. 25. The lodge usually manages to give at least one ball each year, sometimes two. Their last party took place about a year ago, and although the night was one of the stormiest of the year, the attendance was large. Good music will be provided and all who come out will be given a good time. The tickets will be \$1 per couple and refreshments will be served in the hall.

At the regular meeting of the Workmen society on Friday evening of last week the following officers were installed for the ensuing year: Past master workman, Dennis Lacroix; master workman, Daniel Toms; foreman, Alex. Forzette; recorder, Walter Mikkelson; financier, Charles H. Rohl; overseer, Mike Cronin; outside watchman, Victor Westerback; inside watchman, Jake Koskinen; physician, G. D. Beech; representative to the grand lodge, Dennis Lacroix; alternate, Daniel Toms.

GROUND STILL CAVING.

The unsettled ground about the opening caused by the recent cave-in at the Champion mine is still dropping. A couple of workmen were underground one day this week and they went within a short distance of where the dirt dropped. They could hear the loose stuff coming down, though not in large quantities. It is not yet considered any too safe for men to attempt to recover the bodies of the two men who lost their lives there on the last Saturday of the old year.

PENCIL POINTS.

A few children of the village are ill with scarlet fever. M. C. Quinn and wife spent Sunday with relatives in Ishpeming.

Some of the local people have procured several good kodak pictures of the big hole caused by the cave-in at the Champion mine. A good view of the opening can be had from the south side.

The employees of the Champion mine were paid Tuesday for last month's labor. Business was quite lively in town the balance of the week in con-

sequence of the distribution of the cash.

Miss T. Blaney has been ill and unable to attend to her regular duties in the Champion postoffice the past week or more.

Dr. Van Riper, who hails from the lower peninsula, has taken a place at the Champion hospital as Dr. G. D. Beech's assistant. The young physician comes highly recommended.

WITH STATE LEGISLATURE

Marquette and Its Municipal Boards Will Transact Business During This Session.

THE LIBRARY TRUSTEES HAVE ALREADY BEEN ACCOMMODATED.

Fire and Water Commissioners Will Ask for a Change in Provision Governing Manner of Approval of Propositions for Bond Issues.

MONEY FOR NEW SCHOOL BUILDINGS.

Marquette, its boards and commissions, will do considerable business with the state legislature at its present session. Not a little legislation will be sought and, likely, obtained. The library board has started the ball and has retired from the field with its demands satisfied. It asked for a measure empowering its members to sell or mortgage the Washington street library building for the purpose of raising funds to be used in the erection of the structure which it is proposed to build at the corner of Front and Ridge streets, on the lot so generously donated by Mr. and Mrs. J. M. Longyear for that purpose. This legislation went through both houses immediately on presentation and the trustees are now at liberty to dispose of the Washington street property at their pleasure.

Before the legislature adjourns it will be asked to consider two other measures from Marquette and, also, to pass several more or less important amendments to the municipal charter. The bills will be presented at the investigation of the school trustees and the members of the board of fire and water commissioners, both bodies seeking to do away with hindrances which are now a curb on their plans for carrying out projected work.

The charter can stand tinkering up in several particulars and it has practically been decided that several changes and additions will be proposed. City Attorney Brown is busy looking into the matter, examining the present charter and also the general law for the government of municipalities. He is making notes and drafts of new provisions which he will present to the committee on rules, ordinances and legislation to which the matter was referred. The next session of the council and prepare a report which will be presented to the aldermen for their discussion and approval. All the changes will be in the nature of improvements and the additions to, or alterations of, the present charter will be calculated to obtain and insure a more satisfactory administration of municipal affairs.

FOR THE WATER BOARD.

City Attorney Brown has just completed a measure on the request of the board of fire and water commissioners which will be forwarded to Lansing to be introduced at this session of the legislature. It is designed to relieve the board from the embarrassing position in which it was put by the objection of the Trowbridge, Niver company of Chicago to the ambiguous construction of section of the city charter relating to the manner in which proposed bonds shall be approved, the Trowbridge, Niver people having purchased the issue which is to provide funds for the completion of the water works improvements.

As this provision stands today, it is to the effect that proposals to bond the city must be approved by a majority of the voters. It was objected that this provision might be interpreted to mean a majority of all the electors of the city instead of the number which saw fit to vote on the bonding proposition. It was pointed out that less than a hundred voters paid any attention to the question of the issue at the election in which the last bonds were approved and it was suggested by the Trowbridge, Niver company that under the circumstances, they could not see how they could take the bonds.

The amended section will be so plain that it will defy misinterpretation. It will specify explicitly that the approval of a majority of the electors voting on the question will be sufficient to legalize any bond issue.

Another new provision will relate to refunding issues which may have expired. The board will be empowered to do this at its own discretion.

It is likely that the Trowbridge Niver people will be willing to accept the water bonds when the new legislation is secured as all their objections will then have been met. It would be quite within the power of the board to compel their acceptance as they have been fairly purchased.

SCHOOL BOARD'S MEASURE.

The measure which will be presented to the legislature by the school board has not yet been framed. It is being prepared by City Attorney Brown. Its passage will be sought, in order that

IF WOMEN ONLY KNEW.

What a Heap of Happiness It Would Bring to Marquette Homes.

Hard to do housework with an aching back. Hours of misery at leisure or at work. If women only knew the cause; Backache pains come from sick kidneys.

Doan's Kidney Pills will cure it. Marquette people endorse this. Mrs. Wm. McLean of 433 Jackson street says: "There was a heavy aching pain across the small of my back and through the groin, and a dull tired feeling all over me. The kidney secretions were irregular and highly colored. I could not rest at night, and rose in the morning feeling more tired and unrested than when I went to bed. I also suffered from spells of headache every few days. In fact was rarely free from them. Doan's Kidney Pills advertised for just such troubles. I procured a box from the Stafford Drug Co., and began to use them. I felt better after a few doses, and continuing the treatment I was cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

THE TRUSTEES MAY BE IN A POSITION TO RAISE THE MONEY REQUISITE FOR A COMPLETION, OR PARTIAL COMPLETION, OF THE NEW GROUP OF SCHOOL BUILDINGS PROJECTED FOR THE RIDGE STREET LOT, ONE OF WHICH HAS ALREADY BEEN FINISHED.

The trustees are at the end of their string as far as raising money on bond issues is concerned and the proposed legislation is necessary to prepare for undertaking the remainder of the work.

Both this bill and that to be submitted by the fire and water commissioners will be approved without hesitancy. Any changes in the city charter which the council may decide to seek will likewise be approved without question or discussion.

HERE NEXT WEEK.

Joint Legislative Committee Leaves Lansing Monday.

According to Lansing reports, the joint legislative committee which will investigate the Marquette prison scandal will leave the capital Monday, in which event they arrive here, ready to take up its labors, Tuesday. The house has just passed a resolution offered by Representative Waterbury empowering the house committee to take testimony, subpoena witnesses and compel their attendance by an officer of that legislative body.

It is understood that the joint committee is composed of unbiased, fair minded men who will come to Marquette to do the fair thing by everyone concerned. It is also asserted that the investigation will be very thorough and that a vindication for Marquette is not far off. It is likely that the investigation will consume several days as much testimony will be heard.

SAME OLD TALE.

Coppers Continued to Slumber Yesterday.

There was absolutely nothing new in coppers yesterday. The whole list slumbered without any well defined signs of awakening. Hayden, Stone & Co., wired the Laidley Commission Co.

"Coppers are very dull but they are strong. We believe a boom must soon come and advise buying the best stocks on all recessions. Clark's election yesterday brings the boom much nearer."

A. R. Jones & Co. said of wheat: "The fact that cables showed small sympathy with yesterday's break here set traders guessing and brought the opening prices a shade better than last night but no substantial support appeared. A decline again set in, not stopping until 7 1/4 was registered as the low mark. There stop orders were well taken care of and the pressure eased, with a resulting bulge to 75 cents at the close. In this advance corn strength cut no small figure. It is safe to say that weak holders have been shaken out. The market is also oversold. We would buy it on these breaks regardless of statistics."

"HALLO BILL"

Farce Comedy at the Opera House Last Evening.

"Hallo Bill," presented at the opera house last evening, was an uneven farce. At times it was really good but it frequently fell off in intrinsic merit and in execution. The cold weather prevented a large attendance, although the goodly gathering that turned out to "A Hole in the Ground" might have waited for "Hallo Bill" with profit.

Blakie Blakemore was "Bill," a very prince of farce comedy lars. He was responsible for most of the merriment and was favorably received. He is an entertaining comedian. His methods are original and unique and he has several good farcical scenes of which he takes full advantage. His strongest support came from Aubrey Noyes. The other men of the company were superior to the supporting players of the opposite sex.

"Hallo Bill" offends to some extent in the direction of coarseness. There are a few lines which could be cut out to the betterment of the play. The why of the title may well be called into question. It is suggestive of broader farce than is really purveyed in the comedy and it undoubtedly keeps many fastidious theater goers from witnessing the comedy. The better parts of the performance were heartily enjoyed last night and the assemblage had only regrets when the lower levels were reached.

BEST STORM YET.

Considerable Snow Fell Wednesday Night and Yesterday.

The storm which blew Wednesday night and part of yesterday was a mild blizzard. The snow fall was the heaviest experienced so far this winter and there was a heavy fall of wind. As a result the wintry blanket on the ground is considerably thickened while there are not a few drifts to be found. A few more similar storms will suffice to give Marquette a very creditable winter dress, one that has been woefully lacking to date. The winter so far has been a good deal of a travesty but there may be a change from now on.

Marquette got the fog end of the storm which was much more severe in other parts of the peninsula. However, at its worst it was not heavy enough to materially impede or interfere with railroad traffic and all trains travelled on time. In the city the street car line was somewhat drifted up at points and no little work was required to open it up. This was done quickly and without great difficulty, as the snow was dry and light.

The change in the weather is generally welcomed as most people would be perfectly satisfied with a good, stiff winter for the remaining weeks of the season. The banana belt weather does not strike a popular chord. The lumbermen are greatly pleased at the advent of snow and colder temperatures as they are right into their hands. They sincerely hope that the present conditions will continue for an indefinite period.

My heart and hand another claimed. His plea had come to late. It's over thus with people without the pluck and vim.

CITY BREVITIES.

Weather forecast: Snow flurries and warmer; winds becoming variable.

Yesterday's temperature: 7 a. m., 11 degrees; noon, 10 degrees; 7 p. m., 8 degrees; maximum, 11 degrees; minimum, 8 degrees.

J. C. Ulrich is confined to his home with a slight illness.

J. H. Quinn of Ishpeming was a Marquette visitor yesterday.

Morse hose company will hold a meeting at 8 o'clock this evening.

The Marquette Hardware company will henceforth close its store at 6:30 o'clock.

There was a supper at the Snow Shoe club house last evening. It was well attended.

C. M. Gooding left for Chicago last evening. He will be absent for about two weeks.

County Clerk Ross was under the weather yesterday. He was confined to his home.

Mr. and Mrs. Peter Byrne of West Ohio street entertained a number of their friends at a card party last evening.

The Ladies Aid society of the Baptist church will meet in the basement of that church this afternoon at 2 o'clock.

The Young Woman's guild will meet this afternoon at 2 o'clock with Mrs. Hall, corner of Hewitt avenue and Spruce street.

M. D. Warren of the Superior House, formerly of Flint, is gradually recovering from a severe attack of the grip and erysipilas.

James Bice, traveling engineer for the South Shore road, arrived here from the copper country last evening on official business.

The Ladies Aid society of the Presbyterian church will meet this afternoon at 2:30 o'clock with Mrs. Boven, 129 East Arch street.

Harry Lee, proprietor of the New Linden Hotel at Lake Linden, formerly employed at the Hotel Marquette here, was in the city last evening.

The last three days have been unusually dull in the register of deeds' office where there is usually a big press of work. Only a couple of deeds have been recorded this week.

Representative John R. Gordon was in Marquette yesterday, having come up from Lansing where he is attending the session of the state legislature. He has gone on to Duluth.

Oliver Bertrand of Benton, Cal., arrived in Marquette yesterday morning to visit his aged father, Joseph Bertrand, whom he has not seen in twenty years, and his brothers and sister, Mrs. E. Henne.

One of Mrs. Ernest Rankin's stories is published in the current number of "The American Boy." Mrs. Rankin is a frequent contributor to a number of periodicals and there is a constant demand for all her literary productions.

The fire alarm gave four strokes shortly before 2 o'clock yesterday afternoon. A number of the department members turned out but they found that there was nothing to do. Crossed wires were responsible for the taps of the bell.

The ice at the curling and skating rink is now in fine shape for both sports and large numbers of people have been out the past few evenings. The cold spell has sufficed to put the floor in first-class condition. The rink is rapidly gaining a regular patronage. The Washington street car line was not operated yesterday but still many skaters sought the resort.

Now that the Washington street car has been taken off that line a bus will run to the curling and skating rink between the hours of 2 and 6 p. m. and 7 and 10:30 p. m. The fare will be the same as on the street car, five cents each way. This accommodation will give the general public ready access to the rink.

The Soo train, due here at 10:40 p. m., did not come through Wednesday night. It was prevented from leaving the Soo by the derailment of a passenger on one of the bridges just outside that city. The locomotive was placed in such a position that the time required to lift it on the rails and removing it from the main track was very protracted. The through travellers were greatly annoyed at missing a day.

At the regular review of the Busy Queen live No. 1, L. O. P. M., the following officers were elected for the ensuing year: Commander, Frances V. Salter; lieutenant commander, Annie H. Anderson; record keeper, Alvina Pedlar; finance keeper, Josephine Bertrand; chaplain, Jennie Wright; mistress of arms, Mary Gammie; sergeant, Julia Sharland; sentinel, Maudie Ludington; picket, Thresa Anthony.

The snow plows were brought out yesterday for the second time this winter. There was considerable work for them. The city is about to be provided with a third plow. It will be of the latest improved design and will be more valuable and serviceable than either of the pair now in use. When it is received the city will be divided into three districts, after which it will be possible to clean all the walks in twenty-four hours, instead of taking two days to the work, as is now the case.

Marquette county Elks are not manifesting the degree of enthusiasm over the coming Milwaukee meeting which is apparent in the copper country. It is proposed to send a goodly delegation headed by the Calumet and Hecla band, from that section. There is talk of a special train. The antlered herds are taking hold of the plan with great vim and it is asserted that they will travel in the best of style. It is likely that there will soon be an awakening among the Elks in this country. It would seem that on account of the accessibility of Milwaukee there should be a large representation from this range at the gathering.

Monday morning W. W. Dixon, principal of the Quinnes school, was at home rendering aid. He put a large pan of lard in the oven, and when the oven door was opened the lard ignited, and burned Mr. Dixon's hands and face in a horrible manner. He will be confined to his bed for some time.

Mr. and Mrs. J. W. Wells, daughter Miss Edna and son Ralph, of Menominee, will sail for a four months' tour in Europe and Northern Africa Jan. 31. It will virtually be a cruise as most of the time until Naples is reached will be spent on the same steamer. The first stop will be made at Madeira. The countries bordering on the Mediterranean sea will be visited. At Alexandria the party will be joined by Lieutenant Dan Wells, who is about to leave the volunteer service in the Philippines. All the continental countries and England, Ireland and Scotland will be visited. Mr. Wells has projected a delightful trip.

Ex-Mayor J. W. Wells of Menominee has received a cablegram from his son, Lieutenant Dan Wells, who is serving with the Thirtieth regiment, U. S. Volunteers, in the Philippines to the effect that his regiment will sail for the states at once. It is said that the transports will probably start their journey this week. Lieutenant Wells, John McMillan, Dan Irvine and other Menominee boys have now been in active service in the Luzon for three years and they have participated in some lively skirmishes. The boys are satisfied with their army experience and will not re-enlist when they are discharged. Lieutenant Wells has already handed in his resignation, which has been accepted. The soldiers should arrive in Menominee about the middle of February.

A daring hold up occurred at Ironwood Tuesday night when two men entered Lee & Tenneson's butcher shop at 6:15 o'clock. Mr. Tenneson was the only one in the place at the time when two men, respectfully dressed, came in. Mr. Tenneson asked them what they wished. They immediately pulled out revolvers and ordered him to hold up his hands. He complied promptly. Then they instructed him to open the safe. He did so and as one of them ransacked it the other was busily helping himself to the cash register's deposit. After securing \$148 in silver they made good their escape. Two men under suspicion have been arrested at Ashland, but as yet are not identified. The men must have been green hands at the game for the simple reason that they had waited until Saturday for their trick they might have secured ten times the amount obtained, as the mines pay their hands the last of this week.

Iron Mountain people are laughing over the mishaps of Thomas Patton, formerly superintendent of schools in that city, whose memory, by the way, does not seem to be cherished with particular regard. Patton is a medical student at the university. He spent his vacation in Leslie and while he was there a case of smallpox developed in the boarding house where he was staying. The place was immediately quarantined and the former professor escaped and boarded an Ann Arbor train, eluding the officers. As soon as he was missed the telegraph wires were kept hot with messages in an endeavor to locate him. The authorities at Ann Arbor were notified of the case and they were waiting for Patton at the depot where they received him, gently escorting him to the pest house. He raged and fumed in vain and was safely deposited in a place where he will have plenty of time to reflect on his indiscretion.

Sheriff James Rowe, of Bad Axe, Huron county, from whose custody William F. Berney and Mamie Deno escaped Monday night at Waukegan is a much chagrined official and it is said that he will spend almost any sum of money to effect the recapture of his late prisoners. He took the pair into custody at Crystal Falls and started for Bad Axe with them in charge. He did not make much progress on his journey as they escaped him at Waukegan in Dickinson county. When the train arrived in Iron Mountain, before the escape was accomplished, Chief Harvey boarded it to see Rowe. He found him sleeping while the prisoners had the liberty of the train. Harvey woke them up with some difficulty and it was apparent that he was wearing the edge off a mild jag. Harvey warned him to be careful of his prisoners as they were a slippery pair but his advice did not fall on very fertile ground and at Waukegan, when the sheriff was taking another command, the couple slipped from the train and were very shortly gliding along to Pembine, in Wisconsin, which they reached without interruption. Sheriff Rowe is serving his second term and his friends are at a loss to understand his indiscretion. He is now the laughing stock of the entire country from Powers to Crystal Falls.

A SURE KIDNEY CURE

Johnson's Kidney Pills are a sure, safe and permanent cure for every form of kidney disease, including Bright's disease, congestion of the kidneys, bladder troubles, dropsy, gout, rheumatism, gravel, diabetes and all ailments and blood impurities which are directly or indirectly caused by deranged action of the kidneys.

Johnson's Kidney Pills do not injure the kidneys in any way, nor do they drive the disease into another organ, but by easy, safe action they REMOVE the disease, help and heal the kidneys and enable them to properly perform their work of cleansing the blood of wasted tissue, uric acid and all other impurities.

The dose depends on the state of the disease and the age of the patient. Children should take one pill a day, adults, 2 or 3 at least three times a day; large, strong men can take 4 pills at least three times a day, until the disease is broken, when the dose can be reduced. The first few pills will immediately cleanse the kidneys of all poisonous secretions, and the organs will gradually become strengthened and helped so that they can finally perform their work unassisted.
