BREAK FROM THE CHURCH

Catholic Supremacy in the Philippines in Serious Jeopardy.

MONASTIC REIGN OPPOSED

Resolved by Thousands of Natives That the Friars Must Go or Catholicism Be Abandoned.

CONSULS URGE CIVIL RULE

Manila, Jan. 29.—Dr. Kruger, the German consul general here, has cabled to the Berlin government asking that the German ambassador at Washington be instructed to diplomatically urge the passage of the Spooner bill. Two mining corporations organized in Germany are anxious to begin operations in the Philippines, but cannot do so until the status of the mining claims is established by a permanent government. Similar action probably will be taken by the British consul.

AS A TRIBUTE TO VICTORIA.

General MacArthur has issued orders that all duty throughout the division, excepting the necessary guard and field duty, be suspended on the day of Queen Victoria's funeral. At reveille the national salute will be fired and single guns will be fired half hourly between sunrise and sunset, when a salute to the union jack of forty-five guns will be fired.

REBEL AGAINST THE FRIARS.

Senor Buencamino and some of the other Filipino leaders in Manila have about decided to become Protestants and are considering the organization of an evangelical church. In an interview today Senor Buencamino said he had learned that the pope had decided to restore the friars to their former position in the Philippines, and added that the Filipinos would not submit to that and the effect would be that they will shortly leave the Catholic church in further great numbers.

THE REAL TROUBLE WHICH IS CAUSING THE threatened schism does not lie with the church, which is sincerely loved, but with the friars, whose return to the provinces, backed by Archbishop Chappelle, is the cause of constant agitation among the Filipinos, who are rapidly absorbing liberal ideas. So much has been written about the general hatred of the friars here, and the sincere desire of the enlightened Filipinos for the complete separation of church and state, that Americans must realize the gravity of the situation from a religious standpoint.

THE FEDERALS HOLD THAT THE friars must be permitted to return to the provinces. Catholicism, they say, is essentially and honestly loved, and the church can accomplish the greatest peace, not through the friars. Leading Federals, representing the strongest political organization, which is rapidly spreading throughout the archipelago, seem to be resolved upon the complete elimination of the friars or the renunciation of the church of Rome.

WADE AND LUDLOW WILL REPLACE TWO OTHER GENERALS.

Washington, Jan. 29.—By direction of the president, Brigadier Generals James F. Wade and Wm. Ludlow will be relieved from their present duties and ordered to San Francisco in time to sail on the first transport from that port after March 1 for Manila to report to the commanding general of the Division of the Philippines for assignment to duty.

GENERAL WADE IS NOW IN COMMAND OF THE Department of Dakota and General Ludlow is stationed at Washington. Major General E. S. Otis, commanding the Department of the Lakes, will upon the departure of General Wade assume temporary command of the Department of Dakota.

THE DETAIL OF GENERALS WADE AND Ludlow to duty in the Philippines will enable the department to relieve two general officers on duty there and give them assignments in the United States. It is probable that Major Generals Lloyd Wheaton and J. C. Bates will be among the first of the high officers relieved.

REGIMENTS OF FILIPINOS.

GEN. MACARTHUR TO BE AUTHORIZED TO ENLIST TEN OF THEM.

Washington, Jan. 29.—Immediately after the passage of the army reorganization bill Secretary Root will cable (Continued on Page Five.)

STANDS BY MAYOR VAN WYCK.

GOETHAM COUNCIL DECLINES TO DO HONOR TO THE QUEEN.

New York, Jan. 29.—Prior to the meeting of the council today, Councilman Stewart M. Brice, son of the late Calvin S. Brice, announced that he intended to offer a resolution to the effect that, as a mark of respect, the mayor be requested to lower the flag over the council chamber to half-mast until after the funeral of her late majesty, Queen Victoria. Councilman Brice slowly arose to read his resolution, but Councilman Murray forestalled him by moving adjournment, which was carried despite the expostulations of Brice.

BRITISH COLUMNS UNITE.

TASK OF DRIVING BOERS FROM CAPE COLONY NOW TO START.

Carnarvon, Cape Colony, Jan. 29, via Cape Town, Jan. 29.—It is understood the Boers are entrenched at Calvinia, which serves as their base. The district already there plentiful supplies of food and remounts.

Clan William, Jan. 29.—Bethuen's column, after a heavy march, has joined DeLisle's column. Colonel Bethuen is now in command and it is understood he will undertake what is recognized as the extremely arduous task of driving the Boers out of Cape Colony.

MILNER PUZZLES LONDON.

PROCLAMATION OF THE KING AS "LORD OF THE TRANSVAAL," THOUGHT EXPRESSIVE OF WEAKNESS IN AFRICA.

London, Wednesday, Jan. 30.—King Edward's speech to Crown Prince Frederick William of Germany, when investing him with the insignia of the Order of the Garter, is approved on all sides as furnishing additional proof of friendly relations between the new monarch and Emperor William.

MAKES EDWARD COLONEL.

Berlin, Jan. 29.—The Militair Wochenblatt, the official military organ, announces that Emperor William has appointed King Edward VII to be chief of the late Queen Victoria's Dragoon Regiment of the Guard.

QUEEN PLANNED OWN FUNERAL.

DIRECTIONS OF VICTORIA, WRITTEN IN 1862, TO BE PRACTICALLY CARRIED OUT.

London, Jan. 29.—"Queen Victoria's explicit directions as to her funeral written in 1862," says Truth, "have not been altered in any material respect. It was her wish that the ceremony should copy that of Prince Albert's burial as far as possible. The queen will be the first English sovereign who was not buried at night and by torchlight."

SALUTES BY WARSHIPS.

Minute guns will be fired from all the ships at Cowes, commencing when the Alberta leaves Trinity pier. Each ship will cease fire immediately the end of the procession passes her. When the procession has passed the battleship Majestic the forts and ships in Portsmouth harbor will commence firing minute guns and continue until the Alberta is alongside. No standards will be displayed. The ensigns and union jacks will be half-masted, but the admiral flags will be fully hoisted. As the procession passes each ship its crew will present arms and then rest on reversed arms until the procession has gone, the bands meanwhile playing funeral marches.

HOUSES BEING DRAPED.

London, Wednesday, Jan. 30.—In London active preparations for the funeral of the queen are being made all along the route. Houses are being draped and seating accommodation being provided. The committee of ladies has obtained permission to hang wreaths of evergreen along the line, one to each lamp post, all being three feet in diameter and of uniform pattern.

About thirty-five hundred troops will be engaged in the procession from Osborne to Cowes. Ten thousand volunteers will be employed along the line of route in London in addition to twenty thousand regulars. Some disposition will likely be caused by the statement that no photographs will be allowed to be taken of the procession from Osborne to Cowes. The war office has invited the colonial officers and soldiers in England to take part in the funeral procession.

CZAR'S ENVOYS COMING.

St. Petersburg, Jan. 29.—Grand Duke Michael and the Grand Duke of Hesse have started for London to attend the funeral of the queen.

GET HEAVY SENTENCES.

Slayers of Jennie Bosschietter Go to Penitentiary for Long Terms.

THIRTY YEARS FOR THREE.

Half That Time to Be Served by the Fourth Man, Who Turned State's Evidence—Hard Labor for All.

STATEMENT BY PRISONERS

Paterson, N. J., Jan. 29.—Walter C. McAlister, William A. Death and Andrew J. Campbell, found guilty of murder in the second degree for killing Jennie Bosschietter on Oct. 18 by the administration of chloral and subsequent assault, were today sentenced to thirty years' imprisonment at hard labor. George J. Kerr, the other defendant, was sentenced to fifteen years' imprisonment at hard labor.

The outcome of the case against Kerr was somewhat unexpected. The defendant was brought into court yesterday and pleaded guilty merely to the charge of assault, the indictment against him for murder being not pressed by the prosecuting attorney. Speaking of the case, Judge Dixon said: "If I had been a jurymen, my verdict would have been, at least as concerns Death, Campbell and McAlister, them to the gallows."

RESIGNED TO THEIR FATE.

McAlister, Death, Campbell and Kerr made a statement to the public this afternoon. It is their first utterance since their arrest and was issued on the authority of the counsel for all four men. It is as follows: "We are resigned to our fate and propose to face the future with manly hearts, dark as it is. We have felt heretofore that it was useless to say anything to relieve our situation, as the storm of public indignation was such that anything said by us would have been misinterpreted. We feel no resentment and have no criticism to make, but we want to thank the newspapers of Paterson for their sense of fairness and absence of malice in dealing with the case.

"We could say many things that would tend to abate the public indignation, but we propose to bear our punishment in silence. We propose to earn the three days per month which the law permits for good behavior in the state prison and hope and pray that the community will suspend final judgment until, by good conduct and proper lives, we will earn their commendation. We are content to suffer ourselves, but we keenly feel the awful sorrow brought upon our families and friends, who have stood so nobly by us through it all.

"Never at any time was there any ill feeling between ourselves, and we never had occasion to say things about each other in an effort to secure individual advantage. We feel we have been victims, to a great extent, of the unreasoning outside opinion, which was based upon the wild and inflammatory reports printed in the metropolitan papers to satisfy the morbid taste."

FATHER OF KERR DYING.

While Judge Dixon was sentencing the prisoners, Hugh Kerr, father of George, lay dying within a stone's throw of the courthouse. Kerr is dying because of the disgrace of his son. George did not know until tonight that his father was ill, and equally ignorant of his son's sentence will the father remain.

SEVERE COLD IN GERMANY.

ICE AND FLOODS DO GREAT HAVOC AND RELIEF IS ASKED FOR THE MANY SUFFERERS.

Berlin, Jan. 29.—The severe weather continues throughout Germany and many additional details are published today. The damage seems to have been the greatest in the East Prussian district and at Leer and Emden, where ice and floods have wrought enormous injury although there has been little loss of life. The new harbor at Leer has been destroyed.

INDIAN TROUBLES AT END.

MARSHAL CONTROLS SITUATION AND TROOPS ARE TO RETURN.

Henrietta, L. T., Jan. 29.—United States Marshal Bennett has the Indian situation in complete control and it has practically been decided unnecessary to send the troop of cavalry under Lieutenant Dixon into the interior. The soldiers, however, may remain here several days as a precautionary measure.

TOLSTOI TAKES TO HIS BED.

FAMOUS AUTHOR AND SOCIALIST REPORTED VERY ILL.

St. Petersburg, Jan. 29.—Count Tolstoi is again seriously ill.

MRS. SNELL'S WILL STANDS.

CHICAGO JURY GIVES VERDICT IN CASE INVOLVING \$300,000.

Chicago, Jan. 29.—Mrs. Henrietta Snell's will stands. The jury today agreed upon a verdict, rejecting the claim of Mrs. Snell Stone to a share in the estate. By its verdict the jury holds that Mrs. Snell was sane when she made the instrument leaving \$300,000 to the grandchildren and that Mrs. Stone's claim to be her child was not proved.

The trial, which had been running for three weeks, was the second sensation that the Snell family furnished. The first was the murder of the West side millionaire, Amos J. Snell, on the night of Feb. 7, 1888. In his life he recognized Mary Snell Stone, wife of J. A. Stone, as his daughter and left her a proportional share of his big estate. The first knowledge the public had that his favorite child was not the daughter of Henrietta Snell came with the filing of the will of the widow a year ago.

FOOTPADS SPREAD TERROR.

MURDER NOW MARKS THEIR CAMPAIGN AT KANSAS CITY.

Kansas City, Jan. 29.—A. L. Hoyet, a grocer, who was brutally assaulted in his store by a robber last night, died tonight. The people of the two Kansas Cities are thoroughly aroused because of the many brutal assaults by footpads during the last two months. Half a dozen women have been struck down and seriously wounded, while Mrs. Mary Bolder, who was assaulted by footpads a month ago, is now insane as a result.

OFFICER KILLS ASSAILANT.

Memphis, Jan. 29.—Joe Knight, a notorious character, was shot and killed today by Police Sergeant Perry. Perry arrested Knight last evening for an assault on a woman. This morning Knight was released on bond and attempted to shoot the officer.

CARRIE NATION VISITS JAIL.

FURNISHES APPLES AND BANANAS TO TOPEKA PRISONERS.

Topeka, Kas., Jan. 29.—Mrs. Carrie Nation has been busy today along lines of moral persuasion but has pursued nothing in the way of forcible tactics. She called upon the sheriff, county attorney and probate judge, urging each to enforce the law against the "legal sale of liquor."

Mrs. Nation also visited the county jail and furnished a bushel of apples and a large bunch of bananas to the inmates. She addressed the prisoners, asking them how many were in jail by reason of the twenty-seven inmates attributed their arrests to liquor.

HEAVY LOSS AT DES MOINES.

EARLY MORNING FIRE DESTROYS PROPERTY WORTH \$682,000.

Des Moines, Ia., Jan. 29.—A fire which broke out at 3 o'clock this morning completely destroyed the six-story department store of Frankel Bros. and badly damaged surrounding buildings. The loss is \$682,000, with an insurance of \$600,000. The Frankels' loss is \$450,000; insurance, \$300,000.

The destruction of electric, telegraph and telephone wires by the fire caused the temporary abandonment of the street car service and the operation of many factories dependent upon the wires for their power.

RUNS \$400 TO THE TON.

RICH FIND OF GOLD QUARTZ REPORTED IN THE KLONDIKE.

Victoria, B. C., Jan. 29.—The steamer Amur today brings news that on Jan. 22 quartz running \$400 to the ton was found in the Klondike.

IMPORTANT RAILROAD DEAL.

MANITOBA BUYS NORTHERN PACIFIC LINES IN THE PROVINCE.

Winnipeg, Jan. 29.—The Manitoba government has purchased the lines of the Northern Pacific in this province. Such was, in brief, the announcement made today by Premier Roblin. There is no doubt of the deal, but the details remain secret. It is reported the price paid is about six million dollars, and that the lines will be leased to Mann & MacKenzie for a term of years in return for lower wheat rates and other concessions.

GALVESTON'S RIG RELIEF FUND.

GOVERNOR SAYERS REPORTS THE RECEIPT OF NEARLY \$2,000,000.

Austin, Jan. 29.—Today Governor Sayers sent a message to the Texas legislature making a report of the fund subscribed to relieve the flood sufferers last September. The report states that \$978,414 were received by the governor, and the funds received at Galveston, Houston and other places increased the amount to \$1,988,414. Every nation in the world contributed in some manner to the funds.

PARIS TRAVEL AT STANDSTILL.

GENERAL STRIKE ON UNDERGROUND ROADS IS DECLARED.

Paris, Jan. 29.—A general strike of the employes of the underground railroads has been declared. Traffic is at a standstill.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on. Mr. H. T. Shobe, 274 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and a sign of the embarrassing disease has never returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Bad blood makes bad complexions. S. S. S. purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body. If you have Eczema, Tetter, Acne, Salt Rheum, Poriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

DAILY MINING JOURNAL.

Subscription Rates: Per month, by carrier, \$0.60 Per year, by mail, \$6.00

MARQUETTE, MICH., JAN. 30.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

And now it is proposed to have a law requiring a license for the privilege of fishing with a hook and line in any lake or stream in Michigan. A law of this kind would call for a small army of officers to enforce it, of course.

What to do with Mrs. Nation is the question that bothers state, county and municipal officials in Kansas. She is the most irrepressible proposition in the role of a crank the state has developed in years, and it has produced some exuberant specimens of the kind since it was admitted to sisterhood in the union.

The American Wire & Steel company is getting to be a large factor in the iron mining industry on the Mesaba range. It has just obtained control of the Chisholm property, the fourth that it now owns on that range.

Was it only a bluff, after all? Pittsburgh dispatches state that negotiations are pending which, if successful, will result in the abandonment by the Carnegie company of its scheme to put in an extensive steel tube plant at Conneaut, Ohio.

Should the legislature enact these measures, the state will be protected in some quarters, but in the due course of time the state may be prevailed upon to enlarge its sphere of usefulness sufficiently to protect the public from insidious encroachments on every hand.

A board of physicians having power to pass on the eligibility of candidates for matrimony is the most radical step yet proposed in the direction of exerting governmental supervision over the natural rights of the individual.

With the fate of George A. Nowett still in the balance, the interests of the upper peninsula, so far as matters of taxation are concerned, are also unsettled. Not that the upper peninsula really cares much about such matters but they do very much as a cause for argument between conventions.

Feb. 5 has been fixed as the date for the wrestling match between D. A. McMillan of San Francisco and Melvin Marsh of Decorah, Ia. The match will be for \$100 a side, best three in five falls, catch-as-catch-can.

tion of the tax burden of the state. But they rise up in wrath when any board from the lower end of the state assumes to assess their property, and their indignation is always the greater when they realize that they have no representative on that board.

It is another case of taxation without representation. If the upper peninsula can't have a representative on the tax commission, it will throw all the tea over into the harbor.

Without commenting on the qualifications of Mr. Newett for the position, The Tribune sees no objection to the appointment of just such a man as the miners want, if such a man can be found.

Perhaps such a man as the upper peninsula claims to want—again for bearing to touch on Mr. Newett's qualifications—would find even more than \$70,000,000 of property to add to the tax rolls.

Wisconsin is in a fair way to afford ample protection to its citizens, through the enactment of license laws, designed to confine various professions, trades and occupations to those able to qualify before an examining board.

ESTIMATED THAT IT DREW 1,900 PEOPLE TO THE ARMORY. The Soo Military band's masquerade ball and carnival of fun at the Armory Monday evening was a howling success.

FIRE PLOT THICKENS.

Grover Merchant Arrested for Receiving Goods Stolen from the Miller Store.

OTHER PARTIES ALSO IMPLICATED IN THE CONSPIRACY.

Detective Mayotte, After Weeks of Investigation, Makes Sensational Disclosures in the Now Famous ARSON CASE.

ROBBERY ON FOR MANY MONTHS.

A new sensation was sprung last night in the Miller case at Houghton. A deep fire conspiracy was revealed, involving wholesale robbery and arson which leads to three states and implicating merchants and clerks as the chief conspirators.

The Miller store was robbed since last winter, and several copper country merchants are involved in the alleged deal. Goods were taken from the store continually by clerks and placed in the hands of merchants who, in turn, either kept them in stock or shipped them.

Samuel Abraham, a South Lake Linden clothing merchant, was arrested last night on the charge of securing stolen goods by Sheriff Willis and Frank O. Mayotte, a private detective employed by Miller and working under the advisement of Prosecuting Attorney Larson and Attorney Rees, counsel for Miller.

Abraham claims innocence, but the whole alleged conspiracy has been revealed by Mayotte, who has been working on the case since Nov. 11. LaFortune's confession was made on Jan. 6. The latest developments now strengthen his story and put St. John deeper into the case.

Goods were taken from the store from Sept. 27 to Oct. 14 and shipped to South Lake Linden to Abraham, through St. John. The fire occurred Oct. 15, and on the Sunday before the fire large quantities were sent to Abraham. On Jan. 10 inquiry was made by Mayotte of Abraham as to the goods brought there on Oct. 14, but the detective could get no satisfaction.

Mayotte knew where the goods were, however, having previously obtained permission from the South Shore to inspect the shipping books.

It was found that a case of goods had been shipped to The Grand Department Store at Burlington, Ia., from Abraham. The box was traced to Chicago. There is no intercepted by the Northwestern road officials by order of Prosecuting Attorney Larson.

Mr. Miller went to Chicago, where he identified the goods as belonging to Lena Miller, his wife. After giving bond for indemnity to the railroad company, the case was returned to Houghton, addressed to Mr. Larson, who recommended the complaint against Abraham.

The preliminary hearing of Abraham will be held in Justice Finn's court at Hancock this morning. Other surprises are in sight for the near future.

COLLEGE AWAITS THE VERDICT.

INVESTIGATING SOLONS START BACK FOR LANSING.

The visiting solons who made up the investigating committee to look into the needs of the Michigan College of Mines as concerns the appropriation of \$195,750 asked for by the board of control in their special car yesterday afternoon enroute for Lansing. The work at the college yesterday was completed in the early afternoon, the entire morning having been taken up by the legislators at the school.

After the work of the students in the various departments had been observed and the careful management and arrangement noted, conferences relating to college affairs were held between the members of the board of control, the faculty and the solons. It was then that the great needs of the institution were carefully explained and reasons for the why and wherefore given by President McNair, of the school, and the members of the board of control. The latter also told why the appropriation asked for was placed at a higher figure than ever before and expressed themselves as pleased that special investigation had been ordered.

The appropriation which it is hoped to secure for the construction of additional buildings and further improvements was divided into several sums, each of which is to be used for an especial advantage. These items were placed before the solons for inspection. It was also shown to the legislators just how much the usual appropriations to the school have fallen short according to the amount of taxes paid in by the state at large and by Houghton county alone. The comparison between the amount of revenue secured by the state from taxation and the sum of money that the Michigan College of Mines gets as an appropriation now and then is not a good one, as the favor is greatly on the state's side of the ledger.

The members of the faculty and board of control were evidently very satisfied with the investigation of the legislators and are hoping for a favorable report upon the return of the latter to the state capital. Although the solons would not express themselves directly regarding their findings it is believed from hints let slip by the board of control that the report to the college to the extent expected. At least, the friends of the institution are seemingly confident that the appropriation will not be cut.

The visitors were accorded every cordiality by the people of Houghton during the stay in the village and the solons and their ladies appreciate that fact. Could the party have remained a while longer a banquet would have been tendered but that part of the program had to be given up by the members of the reception committee be-

cause of the fact the visitors intended leaving yesterday afternoon.

The report of the legislators will be awaited with no little degree of anxious anticipation by the people of copper-

FE CING CLASS THE LATEST.

IT IS TO BE ORGANIZED BY PORTAGE LAKE YOUNG MEN-CAPABLE INSTRUCTOR HERE.

A fencing class is to be organized in Houghton and Hancock. This decision by the young men of Portage Lake was arrived at yesterday and the project will now be pushed to a successful end. The class, which will be organized as soon as possible, will include the members of the Hancock football team of last fall and possibly the boys of the Houghton Athletic and Amateur Athletic association. The matter has not as yet been broached to the latter, but it is likely they will readily take up with the idea.

The instructor will be C. W. Matheson, a well-known Houghton young man. Mr. Matheson is well up in his art. He was the fencing instructor of the Royal Regiment, Canadian Infantry, for eighteen months and was a member of that body for three years previous to his removal to the copper country not long ago. After his term of enlistment had expired, Mr. Matheson took up a private course in fencing from one of the greatest masters in the world for a period of nine months. The classes instructed by Mr. Matheson in the army aggregated a total of eighty-four men, who were placed in three divisions. During his service in the army Mr. Matheson was a sergeant major.

It has been generally understood for some time in Portage Lake athletic circles that Mr. Matheson was a clever man with the foils and it was on that account that the matter of organizing a class was discussed. The sport is an attractive one, being novel and somewhat out of the ordinary run of things. Mr. Matheson will instruct a class of twenty-five members. If there are other young men who wish to take up the work another class will be formed. It is the present intention of the promoters of the scheme to have the lessons conducted either at the Houghton Armory or at the Y. M. C. A., Hancock. That part of the program will depend greatly upon who are willing to accept the matter, either options in regard to the matter. Mr. Matheson yesterday informed The Mining Journal that if the classes are organized, as one at least will be, the boys can count on three months of solid work.

A MATCH TOMORROW NIGHT.

It was yesterday decided that the hockey match between the Portage Lake and Laurium teams will be played tomorrow night at the Palace Ice rink, Hancock. The date was changed from Friday to Thursday night on account of other events which will take place on Friday evening at the rink of the Portage Lake camp. Modern Woodmen of America, is to give an at St. Patrick's Hall, Hancock; the Calumet & Hecla band gives its annual ball at Calumet on that evening, and the students of the Hancock High school have a skating party at the Twin City Ice rink, Hancock. There are several other parties, all of which would interfere with the plans of those who desire to see the hockey contest.

DULUTHS ANXIOUS TO PLAY.

According to the Duluth News-Tribune, the polo and hockey players of that city are figuring on accepting the challenge of the Portage Lake Hockey team and are anxious to play at Houghton. The Duluth players were out practicing Sunday morning for the first time this winter, and at last it looks as if Duluth will have a team. That it will be a good one there is no doubt, for the very best material is obtainable. Those who showed up for practice were Carroll, DiMarco, Lloyd, Winters, Lemieux and some of the younger members of the team.

"The practice was fast and with a few more days on the ice," states The News-Tribune, "the locals will get into their old-time form, which means a succession of victories. What prompted the players to get out for practice is the fact that the teams in the peninsula of Michigan are anxious for games and have sent challenges to Duluth. The only thing that has kept the different teams from organizing was on account of there not being a suitable place to play here. The practice was at the Lime Kiln rink, but this would not answer in a regular game, where so few spectators could be accommodated. However, the Duluths will have their first games away from home. They play either polo or hockey, but prefer the former."

LAY DEFEAT TO UMPIRE.

The defeat of the Houghton Light Infantry indoor baseball team at Calumet by the Rivals of that place Monday night is attributed by the Houghton players to the umpire. It is thought in many of the enthusiasts that the defeat is all right in a way. Had the Calumet Rivals defeated the interest that now exists in the sport would not have dwindled, as it would have meant that the Houghton club had earned the supremacy of the county. As the situation now stands, however, more interest than ever will be taken in indoor baseball both by Houghton and Calumet people. It will also mean harder practice on part of the Houghton nine at least.

BON AMI MAKING A RECORD.

LITTLE STEAMER STILL IN COMMISSION ON LAKE SUPERIOR.

A new navigation record has been established at Duluth and it was accomplished by the steamer Bon Ami. She has been plying continually for nine months and a half between Duluth and north and south shore points on Lake Superior, and she may round out a full ten months before she goes into "winter quarters." It is certain that the Bon Ami will continue making trips until next week, and if she keeps them up until the middle of February it will give her a record of ten months of uninterrupted navigation, beginning with the middle of April last year.

IT SAVED HIS LEG.

P. A. Danforth of LaGrange, Ga., suffered intensely for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in ten days. For Ulcers, Wounds, Burns, Boils, Pain or Piles it's the best salve in the world. Cure guaranteed. Only 25 cents. Sold by The Stafford Drug Co.

Heckman, who was arrested last week, is out on bail to the amount of \$1,000.

The story of the assault was given in detail by The Mining Journal in a previous issue. Heckman and Emjari will be arraigned on a charge of assault by the justice of the peace at Finn's court this morning. It is not unlikely that Heckman and Emjari will be bound over to the spring term of the circuit court.

TRONCES THE STUDENTS.

HANCOCK HOCKEY TEAM DEFEATS MINING COLLEGE-4 TO 0.

The newly organized hockey teams of the Michigan College of Mines and Hancock played their second game of the season at the Palace Ice rink before a good sized crowd last evening. The result at the end of forty minutes of hard playing stood 4 to 0 in favor of the Hancock team. It was a good, clean game, and the Hancock team showed surprising team work.

The match was very interesting from a spectator's point of view, although scientific hockey was at a premium, the game being more like "slimy" contest. However, that was to be expected, as the boys are just learning the game. The material in each seven is good and in a comparatively short time with practice should develop into first-class players. The boys intend to practice regularly, with particular attention to team work, as that is about the most important part of the sport.

The College team line up as follows: Smith, goal; Campbell, point; Wilson, coverpoint; Botsford, Richards, McEwen (captain) and Bennett, forwards. A game will probably be arranged between the Hancock team and the Atlantic hockey seven at the rink at the latter place next Saturday night. Negotiations between the two managers are now under way.

NOVEL RACE TO TAKE PLACE AT HOUGHTON THIS EVENING.

A somewhat novel race will take place at the Twin City Ice rink, Houghton, tonight. Asmond Bryce of Houghton and John St. Antoine of Lake Linden will do the contestants. Bryce is the champion one-mile skater of Houghton county and St. Antoine the champion one-half mile skater of Michigan. The latter will run five laps while Bryce skates seven and one-half laps. St. Antoine has never been defeated in a race on these terms, but Bryce will do his utmost to accomplish the feat tonight. The men will race for a purse, the winner to take all. Owing to the prominence of Bryce and St. Antoine in the athletic world and the novelty of the race a large number of spectators will no doubt witness the contest.

VEIN NEARLY SEVENTY FEET WIDE.

NEW LODE STRUCK AT THE WINONA MINE PROVE A BONANZA-COPPER GOSSIP.

The Statist of Boston in its yesterday's issue published the following from its Houghton correspondent: "At the Winona mine the diamond drill has found the new lode, which is located a quarter of a mile from the old workings and has shown a width of slightly over seventy feet. This vein is the widest ever discovered in that portion of the copper country. The drill core has disclosed copper from the foot to the hanging wall. For the first twenty feet and the last twelve feet it showed liberal quantities of copper of various grades. It is believed that the management will start a new shaft on this vein after the snow is gone. The discovery of this new vein means much to adjacent properties."

FRANKLIN JUNIOR.

No. 1 conglomerate shaft at the Franklin Junior is being cut down and timbered up. The sawmill at the Franklin is at work cutting timber which is to be used for the skipways and the lining of the shafts. It is now thought that on account of the work being carried on so rapidly and without setback or accident that hoisting from No. 1 shaft will commence in about thirty days, sooner than expected. Everything is in readiness at the stamp mill for the treatment of the extra amount of the Franklin Junior rock and the present month's showing of the mine will be one of the biggest in its history, probably equal to that of the Wolverine's.

WISCONSIN COPPER.

Superintendent McDonald of the Chippewa mine, near West Superior and in which vicinity J. M. Longyear of Marquette has just purchased 15,000 acres of mineral lands, on Monday night in the city and another batch of acres taken from the last shaft sunk at the mine. They were found, upon examination, to be much richer in both copper and gold than any that had been brought in heretofore. It is estimated that the samples brought in will average from \$40 to \$60 per ton in gold alone.

RHODE ISLAND.

No. 1 shaft of the Rhode Island mine, about 2,000 feet north of the Franklin Junior, is showing in good ground. The Rhode Island is working on the same amygdaloid and Peninsula conglomerate lodes as the Franklin.

COPPER SITUATION.

The copper metal market, like the market for the copper shares, is a dull and waiting one, states The New England Statist in its issue of Monday. The undertone of strength shown by the latter finds a parallel in the former. Both are resting pending the completion of negotiations between the Amalgamated-Heineze parties. Manufacturers, both at home and abroad, are holding aloof from the market in the hopes that matters will take a turn whereby they will be able to fill their orders under the current level of prices, but, as supplies on hand are very light, as a rule, it is not believed that they can pursue this course very much longer.

On the other hand, the producing companies are anything but burdened with supplies and are rushing their products to the smelters as fast as they can, in order to be in a position to meet the heavy demand which is expected to materialize before long.

IT SAVED HIS LEG.

P. A. Danforth of LaGrange, Ga., suffered intensely for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in ten days. For Ulcers, Wounds, Burns, Boils, Pain or Piles it's the best salve in the world. Cure guaranteed. Only 25 cents. Sold by The Stafford Drug Co.

From 12 to 2 P. M.

WE SERVE A REGULAR

TABLE D'HOTE DINNER,

Eight Courses, Including Wine.

The Price Is 50c "Per."

A HIGH-GRADE CIGAR. A CLEAR HAVANA CIGAR.

Manufactured by JAMES W. SHERIDAN, 76-78 Wabash Ave, Chicago.

M. C. SCULLY, SOLE AGENT FOR UPPER MICHIGAN, WISCONSIN and MINNESOTA.

N. B.—We Handle a Complete Line of Cigars of all Kinds.

That this demand will be precipitated in the event of early settlement with Heineze is the general opinion, and it must come regardless of developments in that quarter is equally accepted as a certainty, for the manufacturers cannot hold off indefinitely.

During the past few days, would-be buyers have been testing the market. One of the local producing companies has received a bid of 16 1/2 cents per pound for a round lot of the metal. The offer was refused. Some small transactions in Lake were made during the past week at 16 1/2 and 16 3/4 cents, but no important sales were recorded. These transactions were for cash and immediate delivery. Holders of the metal have refused to consider anything below 17 cents as a price for future delivery. It is understood that the Calumet & Hecla company is holding firmly to this quotation.

Copper interests in general can see no reason for changing the previously expressed opinions to the effect that the coming year may be expected to show a strong and stable market for the metal. The renewal of the contracts between Senator Clark and the United Metals Selling company has materially strengthened this opinion.

THE MOTHER'S FAVORITE.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by The Stafford Drug Co.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

HUMPHREYS' Witch Hazel Oil

THE PILE OINTMENT. One Application Gives Relief.

It cures Piles or Hemorrhoids—External or Internal, Blind or Bleeding, Itching or Burning, Fissures and Fistulas. Relief immediate—cure certain. It cures Burns and Scalds. The relief instant. marks said to be peculiar to the English port. The Indians have known of the mirage, which is seen from mid-June to mid-July in each year, for generations.

AMERICANS IN GRAVE PERIL.

LITTLE BAND GUARDING ASPHALT CONCESSIONS IN VENEZUELA MENACED BY INSURGENTS.

Port of Spain, Trinidad, West Indies, Jan. 29.—According to advices received today from Caracas, a trustworthy engineer who has arrived there from Piche Lake reports the situation desperate. He says 150 English negroes, who were employed to do police duty, fled when the insurgents began firing into the jungles.

INSURRECTION STILL SPREADS.

Information has reached Port of Spain that the insurgents have retaken Curapao and will attack Cumana soon. Steamers are not allowed to land passengers or mails at Curapao.

RADICAL CHANGES BY MINERS.

INDIANAPOLIS, Jan. 29.—A constitutional amendment presented to the convention of United Mine Workers of America today, providing an increase in the salaries of the national officers, provoked a long argument and resulted in the salaries remaining as they were last year.

POWER TO STRIKE NO LONGER IN THE PRESIDENT'S HANDS.

Indianapolis, Jan. 29.—A constitutional amendment presented to the convention of United Mine Workers of America today, providing an increase in the salaries of the national officers, provoked a long argument and resulted in the salaries remaining as they were last year.

MANY THOUSANDS IN PRIZES.

DETROIT, Jan. 29.—Late this afternoon the stewards of the Grand Trotting circuit decided upon the following dates for next season's race meetings: Detroit—July 15 to 29. Cleveland—July 22 to 27. Columbus—July 29 to Aug. 3. Buffalo—Aug. 5 to 19. Glens Falls—Aug. 12 to 17. Readville—Aug. 19 to 24. Providence—Aug. 25 to 30. Hartford—Sept. 2 to 6. Syracuse—Sept. 9 to 13. Terre Haute—Sept. 20 to Oct. 5. The following purses and stakes were announced: Detroit—\$50,000; six stakes. Cleveland—\$40,000; six stakes. Columbus—\$35,000; six stakes. Buffalo—\$35,000; six stakes. Glens Falls—\$30,000; eight stakes. Readville—\$50,000; six stakes. Providence—\$40,000; six stakes. Detroit—\$50,000; six stakes. Terre Haute—\$30,000; four stakes. An application for dates was received from the Oakley Park association of Cincinnati and referred to a committee to investigate with power to award it one of the open weeks. If the committee is satisfied with the showing made by Cincinnati's association, that city will be taken into the grand circuit next year as a permanent member.

MIRAGE OF RHIS'OL, ENGLAND.

SCIENTISTS GOING TO ALASKA TO INVESTIGATE PHENOMENON.

Victoria, B. C., Jan. 29.—It is announced that during the coming summer—about June—a party of scientists will leave for the Big Glacier on Mount Fairweather, where the "Silent City of Alaska" is seen every year about that time. The expedition, which is backed by some Californians who are interested in science, will carry tents, photographic and surveying apparatus; in fact, it will be fully equipped to investigate the phenomenon of the big mirage which stretches for a distance of five miles across the great glacier of the Alaskan mountains.

WORK BEGUN WITH PRAYER.

FACTORY OWNER IN INDIANA ENGAGES A MINISTER TO PREACH TO THE EMPLOYEES.

Washington, Ind., Jan. 29.—L. H. Creager, who owns an extensive stove and heading factory in this city, this morning started his fifty employees to work with a fifteen-minute religious service. The Rev. I. L. Gorby, pastor of the First Presbyterian church, has been employed for one month to deliver short sermons every morning, and if the sermons prove to do good the minister will be kept on the factory payroll indefinitely.

BIG PONTON IS LAUNCHED.

BOAT BRIDGE SPANS THE MISSISSIPPI AT PRAIRIE DU CHIEN.

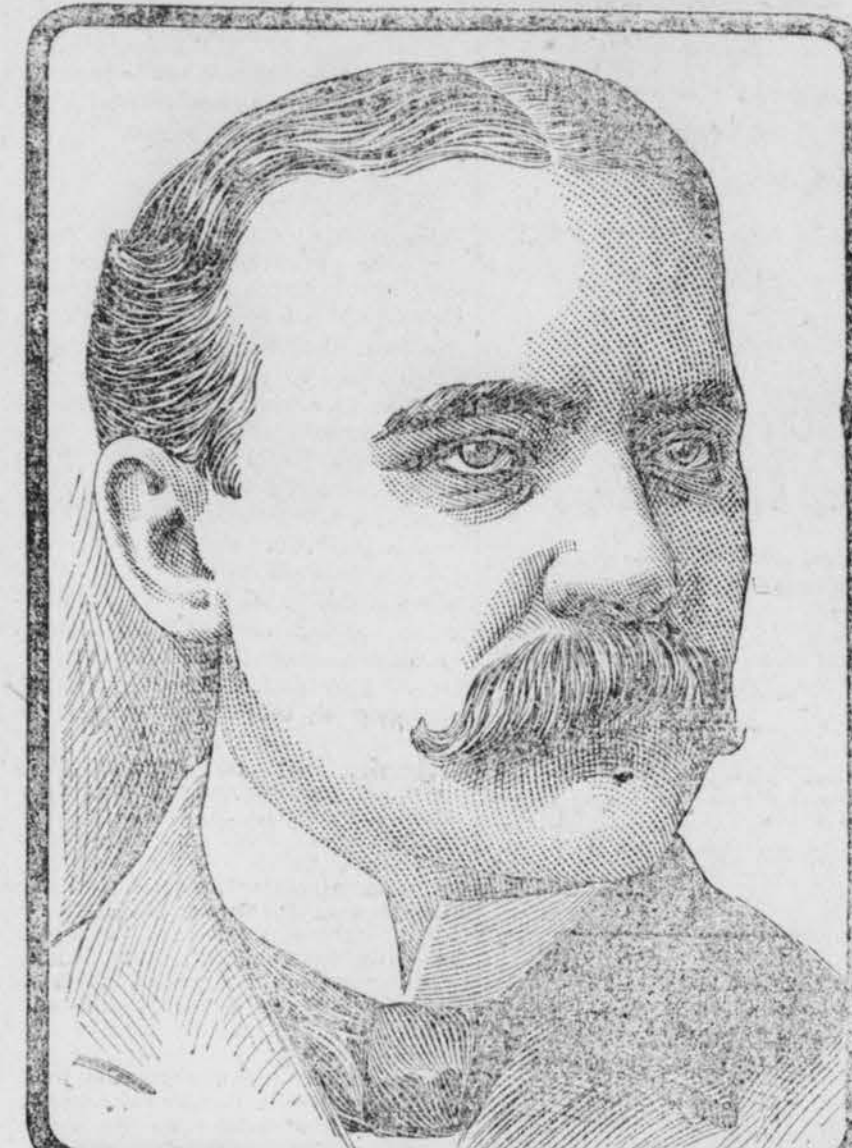

Prairie du Chien, Wis., Jan. 29.—The new ponton across the Mississippi was successfully launched today. The ceremony being witnessed by about 1,800 people. This ponton is 408 feet long, 40 feet wide, and has a draft of 12 inches. The cost of the structure is about \$40,000. It was named Fort Crawford.

KIDNAPERS SENTENCED.

Berlin, Ont., Jan. 29.—The men who kidnaped the daughter of Mrs. Abel

THE ONLY REMEDY THAT ALWAYS CURES.

Senator Dwyer Gives Full Credit to Paine's Celery Compound.

Paine's celery compound has been for years, and is now, the general prescription of the most eminent practitioners of medicine in this country.

Senator Dwyer had used various medicines, and he had done him no good. Just how Paine's celery compound was first brought to his attention, he does not remember.

Senator Dwyer has held many positions of trust, both in the city and state. Elected southwest town clerk, before he had concluded his term Mayor Washburne appointed him superintendent of the city water office.

It is a peculiar fact," said Detective Frank D. Mitchell the other day, "that the general public has an entirely erroneous idea as to the nature and characteristics of the bloodhound.

The average bloodhound is no more to be dreaded so far as his fierceness is concerned than a pug. He is a saunt, rawboned creature, with a head running to a peak; sleepy eyes and long, pendulous ears.

Bloodhounds are not of much use in tracking criminals in a city, or where there is comparatively dense population, as the numerous cross-trails confuse them.

Washington, Jan. 29.—The following is the weather bureau's forecast for Upper Michigan: Occasional snows Wednesday; northerly winds, becoming northwesterly, fresh to brisk on the lakes. Thursday, fair in the interior; snow flurries along Lake Superior.

This is the season when one appreciates a well made cup of coffee, such as can be found at Hepper's.

BREAK FROM THE CHURCH.
 (Continued from Page One.)
 permission to General MacArthur to organize ten regiments of Filipino infantry and cavalry.
 This action will be taken upon the recommendation of the Taft commission. The commission says that while the American soldier is unsurpassed in war, he does not make the best policeman in the Philippines. Native troops should be in the main, the commission believes, he officered by Americans. Certainly this should be the case as to their field officers and company commanders. Lieutenants might be Filipinos and provision might be made, it suggests, for the promotion in the event of faithful or distinguished service.
 "We have made investigations as to the probable cost of one of these native regiments," the commission continues, "and have reached the conclusion that it will not exceed \$350,000 gold per annum, and perhaps will be something less. This estimate is based on the assumption that the privates will be paid \$10 Mexican a month, non-commissioned officers somewhat more, and that a special and cheaper ration, suitable to native tastes and habits, will be used in lieu of the regular army ration. Colonel C. A. Woodruff, chief commissary of the Philippines, informs us that a ration can be supplied at a cost of a fraction less than 13 cents gold a day."

ADMIRAL KAUTZ RETIRES.
 Real Admiral Albert Kautz, who has just been relieved from command of the Pacific station, was placed on the retired list today on account of age.

HAS HANDS AND FEET.
SPECIMEN OF PECULIAR FISH FOUND IN FLORIDA WATERS.
 Jacksonville, Fla., Jan. 29.—Something new in the way of Florida fishes or reptiles was caught by Alfred Lucas while serving in Nassau Sound, near Fernandina, the other night. It was a fine specimen of the perlophthalmus family, a species that are supposed to be confined strictly to the African waters.
 This specimen is a fine one. It has arms and elbow, with wrist and five-fingered hand, like its African cousin. It is also fitted with members under its chest, with membranous feet for walking—these feet having separate and distinct toes.
 The head is not so sharply cut down as its African prototype. The face has a more intellectual appearance, so to speak, and its eyes are more human-like. The anal fin is prehensile at the points and aids the fish in climbing, but here the arm and hand have not been developed.
 The fish has been preserved in alcohol and photographs sent to the Smithsonian Institution at Washington for examination.
 If you ladies think sores, pimples and red noses look well with a bridal veil and orange blossoms, it's all right. Yet Rocky Mountain Tea would drive them away. See The Stafford Drug Co.

ONLY CADET NEVER HAZED.
CAPT. SCHOEFFEL THE MAN WHO WHIPPED EVERYTHING IN SIGHT AT WEST POINT.
 New York, Jan. 29.—Captain Frank Schoeffel of the Ninth Infantry has the distinguished record of being the plebe who whipped "everything in sight" who fought five men "to a finish" in one day and "knocked out" his most accomplished adversary after twenty-eight rounds, and as the only student at West Point who never was hazed. In the army he has gone right ahead whipping Spaniards, Filipinos and Chinese Boxers impartially whenever opportunity offered.
 Captain Schoeffel is 6 feet 1 1/2 inches in height, is aggressively redheaded and comes of fighting stock, being the son of Colonel Francis A. Schoeffel of Rochester, N. Y. When Frank decided to try for a West Point cadetship, in 1887, he already had his growth. He had heard something of West Point's physical standards, as well as its intellectual requirements, so he went into systematic training. He ran many miles daily along the canal path, he swung Indian clubs and dumbbells, he punched the bag, skipped the rope and took boxing lessons from the best instructor in Rochester. When he entered West Point he was promptly "called out."
 History mercifully conceals the names of the thirty men whom Schoeffel met successively before he had established his right to immunity from prosecution. He left marks on most of them, "knocked them out" in from one to twenty-eight rounds, and during the engagements of the year he supplied material for at least one ward in the hospital with great regularity. One particular obnoxious upper classman, with the reputation of a bully, angered Schoeffel, who told him plainly he was not fit for the company of gentlemen. Of course the bully had to fight, which pleased Schoeffel greatly. With neatness and precision the Rochester warrior decorated first one eye and then the other. Then he spoiled two front teeth. Finally the bully was carried to the hospital.
 Before Schoeffel had compelled recognition as the undisputed fistic champion of the academy, his friends of the upper class subjected him to the trying ordeal of meeting five picked bruisers successively in a single day. This feat was expected to humble his pride, but Frank sent one after another down and out and then asked if anybody else had aspirations. After this his supremacy was very generally conceded and he had some available time for study.
 So deep an impression did Frank Schoeffel's prowess have upon his comrades that when a few years later his brother Bernard came along as a plebe and the cadets observed that the stripling was built on the same lines as the redoubtable Frank and learned that he had enjoyed similar athletic privileges, he was accepted on his own merits and did not have to fight his way to fame. The elder brother had established the family's status in a class by itself and it has always stood unchallenged.
 Fresh oysters received every other day at Cameron's Creamery.

ADVANCE PRICES \$2 PER TON.
ACTION ON DIVIDEND, HOWEVER, POSTPONED BY THE DIRECTORS OF THE STEEL & WIRE CO.
 New York, Jan. 29.—The directors of the American Steel & Wire company issued a statement to the stockholders this afternoon that action on the dividend question had been postponed until the meeting of the board next March. The board voted to advance prices on standard goods \$2 per ton, effective at once. The statement to the stockholders for the year ending Dec. 31 shows net earnings of \$8,002,129, of which \$1,000,000 were marked off for depreciation.

MONEY AND METALS.
 New York, Jan. 29.—Money on call today ruled steady, at 1 1/2 per cent. Prime paper, 3 1/2 @ 4 per cent. Exchange, firm, demand at 44.57 1/2 and six days at 44.84 1/2.
 In the absence of demand, the local copper market today was, on the whole, a nominal one as far as prices were concerned. The market ruling about unchanged, at 17 cents for Lake Superior and 16 1/2 cents for casting and electrolytic. The cables, however, showed a loss of 2s. 9d. to 2 1/2 s. 9d. at London, which served to create a weak undertone to the local situation.
 The domestic iron markets were quiet and about steady, at unchanged prices. The English markets were lower, Glasgow closing at 52s. 2d, and Middlesboro at 46s. 4 1/2 d.
CHICAGO GRAIN MARKETS.
 Chicago, Jan. 29.—The wheat market was quiet at times today, the volume of business being only moderate and largely for local account. The feeling, nevertheless, was firm and, after a fluctuation within 1/4 cent range, the market closed 3/4 @ 1/2 better. The principal help came from the English cables, which showed unexpected strength; at Liverpool, the futures were unchanged to 1/4 penny higher, with spot a shade down. The spot interest bought and many of yesterday's sellers covered short lines. The Southwest also bought. The clearings were small, at 22,000 bushels, and the seaboard reported ten boatloads accepted.
 In corn, the volume of business was smaller than yesterday, the range being 3/8 cent. The market was easy, though the close was only 1/4 @ 1/2 lower. The country acceptances were more liberal and the cold weather, present and prospective, is expected to improve the grading. The feature to the early trade

WALL STREET STOCKS.
 New York, Jan. 29.—The stock market was again dominated by St. Paul today, with some incidental disturbance from the erratic fluctuations of Steel & Wire. These two stocks really made the market and the prices moved somewhat narrowly and on a small volume of transactions in sympathy with them throughout the day.
 Southern Pacific was a notable exception to the general tendency of the market. It was bought largely all day and in the late dealings rose an extreme of 1 1/2 points, to 47, carrying some other stocks, notably among the granagers and Pacifics, with it. But renewed weakness in the two leaders carried the prices, except for Southern Pacific, down again, leaving only a few insignificant net gains among the larger list of losses.
 Mobile & Ohio made a very notable rise of 6 1/2 points, accompanied by rumors of absorption and control by the Illinois Central. New York Central gained 2 points on very light transactions, and Manhattan and Leather showed signs of strength. American Express gained 4 1/4 points without any explanatory news.
 The opening break in St. Paul was the violent, the stock dipping 4 1/2 to 150, under pressure of heavy blocks to sell. Later in the day it got as high as 153 and wavered uncertainly between

that and 151, closing with a net loss of 3 1/2 points.
 In Steel & Wire the low point made was 36, soon after the opening, and the stock then rebounded to above 41 before the announcement was given out that the promised statement would be withheld until 3 p. m., instead of being published at eleven. During the afternoon the stock got as high as 41 1/2, but closed at a net loss of 3/4.
 Closing prices were as follows, Faine, Webber & Co., Marquette, reporting the figures:
 Am Zinc. ... 9 1/2 Leather. ... 14 1/2

ELECTROCUTION FOR FERRELL.
GOVERNOR REFUSES TO INTERFERE FOR MURDERER.
 Columbus, O., Jan. 29.—Governor Nash has refused to interfere in the case of Rosslyn H. Ferrell, and the latter will be electrocuted in the Ohio penitentiary on March 1. The governor told a jury and the board of pardons had passed upon the case and that he saw no reason for interference. Ferrell's crime was the deliberate murder of Express Messenger Lane.
NERVOUS troubles are cured by
 Hood's Sarsaparilla, which enriches and purifies the blood. It is the best medicine for nervous PEOPLE.
AN OPEN LETTER.
 Mr. Chas. W. Cameron, Marquette, Mich.
 Dear Sir:—I am much pleased to see the increase in your butter and egg trade. You should have no trouble in working up a nice trade on eggs, as the eggs I send you are strictly fresh. Hens are laying nicely and I look for no trouble in the future. Wishing you every success, I remain,
 Yours truly,
 A. A. MANTHEY.

 Heppner carries a complete line of holiday candies and cakes.
 In pulmonary trouble, the direct action of BALLARD'S HOREHOUND SYRUP upon the throat, chest and lungs, immediately arrests the malady by relieving the distress, cutting the phlegm and freeing the vocal and breathing organs. Price 25 and 50 cents. The Stafford Drug Co.

COLOR OF GOLD COINS.
 Reasons for Differences in Tint of Coins of French Mintage.
 Some time ago a Frenchman placed together a number of gold coins of French mintage of the beginning, middle and end of the last century. He was much surprised to see that they differed in color. He set about finding out the reasons for this difference, and the results of his investigations have been published in La Nature.
 There is a paucity about the yellow of the ten and twenty-franc pieces which bear the effigies of Napoleon I and Louis XVIII that is not observed in the gold of later mintage. One admirer of these coins speaks of their color as a "beautiful paleness" and expresses regret that it is lacking in later coins. The explanation of it is very simple. The alloy that entered into French gold coins of those days contained as much silver as copper, and it was the silver that gave the coins their interesting paleness.
 The coins of the era of Napoleon III were more golden in hue. The silver being somewhat out of the alloy.
 The gold coins of today have a still warmer and deeper tinge of yellow. This is because the Paris mint, as well as that in London, melts the gold and the copper alloy in hermetically sealed boxes, which prevents the copper from being somewhat bleached, as it always is when it is attacked by hot air; so the present coins have the full warmth of tint that a copper alloy can give.
 If the coins of today are not so handsome in the opinion of amateur collectors as those issued by the first Napoleon, they are superior to those of either of the Napoleons in the fact that it costs less to make them. The double operation of the oxidation of the copper and cleaning it off the surface of the coin with acids is no longer employed; and the large elimination of copper from the surface of the coins, formerly practiced, made them less resistant under wear and tear than are the coins now in circulation.

Drop in to Heppner's and prove for yourself if they do not make the best oyster stews in the town.
 The worst after effects of Influenza arises from deranged functions of the liver. Clear the blood at once with HERBINE, for it will strengthen the liver to withdraw from circulation the biliary poisons. Price 50 cents. The Stafford Drug Co.

PNEUMONIA FOLLOWS LA GRIPPE

but never follows the use of
FOLEY'S HONEY AND TAR

STOPS THE COUGH AND HEALS THE LUNGS

PNEUMONIA is treacherous for it often happens that heart failure ensues after the patient is supposed to be on the road to recovery--the recent death of P. D. ARMOUR is an example of this.
 We emphasize the fact that **Foley's Honey and Tar** if taken in time affords perfect security from serious results of an attack of La Grippe or Pneumonia.
J. W. BRYAN of Lowder, Ills., writes: "My little boy was very low with pneumonia. Unknown to the doctor we gave him **FOLEY'S HONEY and TAR**. The result was magical and puzzled the doctor, as it immediately stopped the racking cough and he quickly recovered."
DR. C. J. BISHOP, Agnew, Mich, says: "I have used **FOLEY'S HONEY and TAR** in three very severe cases of pneumonia with good results in every case. There is nothing so good."

CONTAINS NO OPIATES. CURES THE MOST STUBBORN COUGHS
TAKE NO SUBSTITUTES IN PLACE OF FOLEY'S HONEY AND TAR.

G. VACHER, 157 Osgood St., Chicago, says:
 "My wife had a very severe case of la grippe, and it left her with a very bad cough. She tried a bottle of **FOLEY'S HONEY and TAR**, and it gave immediate relief."

In and About Negaunee.

CHAS. FOHRMAN, WHO IS WELL KNOWN IN MARQUETTE COUNTY, IS PRESIDENT OF THE COPPER CLIFF MINING CO. STRUCK IT RICH.

The news that Charles A. Fohrman has struck a good thing in South Dakota has caused general satisfaction among his many friends throughout the county. Mr. Fohrman came to Ishpeming in 1873 and opened a music store.

In 1890 he left Ishpeming for Iron Mountain, being of the kind who are always seeking new fields. The last enterprise with which he was connected was an opera which he and his brother brought out in Marquette in the spring of that year.

Coming back to the states, he traveled extensively through the western portion of the country, meeting with all kinds of adventures and little success. In June '99 he started for the Grand Encampment copper fields of Wyoming, which were then the Mecca of all fortune hunters.

The Adelphi roller rink will be open every week day evening from 7 to 10 o'clock until further notice. Good skates always on hand. Ladies free, skates included, every evening. (1-29-1c)

LOCAL L.-CONS. Peter Trudell is on his usual trip to Iron Mountain. F. M. Bney visited his branch office at Escanaba yesterday. Joseph Richardson of Michigan is spending a few days in town.

There was a dress rehearsal Monday evening for the comedy, "Because I Love You." The Cambria and Lillie mines have stopped shipping ore to the furnace at Marquette.

Street Commissioner Thomas had a large gang of men at work yesterday clearing away the snow from the gutters. A "hobo" was taken before Justice Trathen yesterday morning on the charge of vagrancy.

There is considerable of a laugh going the rounds about four young men ladies to go on a straw ride Sunday evening. When the four came around with the girls refused to go and the boys had to enjoy their ride alone.

There are many world-famous mines in the near neighborhood of Mr. Fohrman's find, chiefly among which are the Independence and Wolfram. Mr. and Mrs. Fohrman make their home in Marquette.

ON A PRIVATE MASQUERADE. Last Friday evening the pupils of the Gaiety dancing class will give a masquerade ball. It will be held in the hall, the grand march starting soon after 8 o'clock.

PREVENTED A TRAGEDY. Timely information given Mrs. Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A dreadful cough had long kept her awake every night.

BETTER RAILROAD SERVICE. Marquette and Ontonagon Counties Brought Closer Together Than Ever Before.

Upper Peninsula News.

Work was commenced Monday morning building camps on the right of way, back of the Indiana mine, for the use of the construction crews which will be employed on the St. Paul extension from Iron Mountain to Norway.

Amberg is looking forward to an era of industrial activity, and its inhabitants are much elated over the prospect. The Amberg Granite Co., has been awarded the contract for furnishing granite for the mammoth building to be erected in Chicago by the Tribune company.

Richard Dickson, a popular young resident of Quinnesec, committed suicide Friday night by shooting himself through the head. Death did not come instantly, so the sufferer was removed to the St. George hospital at Iron Mountain where he died Saturday morning.

The Michigan Telephone company at Ironwood will in all probability have a strong competitor soon. The People's Telephone company, which has 1,600 phones at Duluth and many in various other cities, proposes to extend its system to Ashland early in the spring and then build through to the range town.

SEEK CHARTER CHANGES.

City Attorney Brown Has Drawn Up New Ordinances for Approval of Legislature.

THEY WILL BE PRESENTED AT LANSING DURING THE PRESENT SESSION.

One Will Require the Registration of All School Electors Whose Names Do Not Appear on the Regular Ward Poll Books—It Will Effect the Women.

COUNCIL'S CONTROL OF RAILROADS.

The present session of the state legislature will be asked to approve a number of minor changes for Marquette's municipal charter.

None of the changes are of great importance but they will do much toward making the city's charter a more efficient document while one will call for a marked change in the manner of conducting the election of school trustees.

The other ordinances relate to the duties of constables, the control of the council over the condition of the roadbeds of railway lines using the city streets, the matter of interest on delinquent special assessments and the adjustments of disputes relative line fences.

DUTIES OF CONSTABLES.

As the charter stands today it contains nothing defining or explaining the duties of constables in any considerable matter but one which it has been decided to remedy, now that the council has decided to ask alterations of the charter.

It has been the experience, from time to time, that disputes have arisen among property owners relative to the construction and maintenance of line fences.

The new ordinance provides for the appointment of fence viewers to hear their views may be necessary to adjust differences arising between citizens of the city.

The courts have ruled in numerous instances that under its present charter regulations the city of Marquette is not competent to charge or collect delinquent special assessments. It is important that those who delay in paying these special assessments should be made to suffer for their procrastination, hence the change which will improve the present provision.

THE RAILROAD ORDNANCE.

The ordinance relative to the power of the common council over the lines of the railroads using the city streets is an important measure, designed to secure the municipality's rights. It will give the council power to see that the public thoroughfares are kept and the ground occupied by their rails and ties in good condition.

For instance, if all goes well with the Marquette & Southeastern's plans its tracks will be extended along Lakeside street before the lapse of many months. It is very likely that the council will request that they are kept level with the grade of the thoroughfare so that carriages and wagons can drive over them.

The requirement that all voters in the school trustee elections must register unless their names are on the regular ward poll books will result in an earlier interest in school election matters. Now candidates are rarely announced until the day before, or the day of, the election.

UNDERTONE IMPROVING.

One of These Days There Will Be Big Money in Coppers.

Coppers continue discouragingly dull but the brokers console themselves with the belief that they see the undertone steadily improving and that things are shaping for a boom. Paine, Webber & Co., said: "Although copper continues very dull today, the market for them had a slightly stronger undertone. The miscellaneous odd lots offered for sale were absorbed and in Copper Range, Winona, Franklin, Isle Royale, Montana, Anaconda and Yreka there were some buyers who were not afraid to pay fractionally higher prices. The stronger New York market is encouraging the copper interests and we shall be surprised if we don't see higher prices in some of the specialties before the end of this week."

loans. The decline in Calumet & Hecla came on scattered offerings of small lots of stock.

Hayden, Stone & Co., wired the Laidley Commission Co: "Practically no business was done on our local exchange today. It was hard to get quotations. Conditions are still strong and warrant a rise but no one seems willing to start a boom. There is no pressure to sell and this is a good sign. A boom must come and the risk is very small to buy now. Later we hope to see a good market but just when we cannot say."

LAMPS ARE ALL RIGHT.

Sixteen Candle Power Incandescents Up to Standard.

A representative of the Bryan-Marsh company put a photometer through its tests as a part of the equipment of all the members of the electric light and power commission. A photometer is a device for ascertaining the exact amount of light given out by any incandescent lamp. It was demonstrated that the so-called sixteen candle power lamps in use here actually are up to standard, the tests showing that their efficiency was rather better than that of the average lamp.

An incandescent globe, of sixteen candle power, which had been in use for two years was tested by the photometer. It was shown that it only cast candle power of light while the wattage required to obtain this result was greater than the wattage required to operate a new sixteen candle power globe. It is likely that the board will provide itself with a photometer as they are a part of the equipment of all first class plants.

WILLIAM ROBSON.

He Died in Knox County, Ill., the Fifteenth of This Month.

William Robson, one of the leading citizens of Knox county, Ill., died at his home at Wataga on the fifteenth of this month, the disease which carried him off being diabetes, complicated with asthma, from which he had suffered for years, and a severe cold, caught shortly before New Year, which caused his lungs to fill up.

The funeral of Mr. Robson's death was received with a great deal of regret in Marquette where he has been well known on account of his regular summer visits, made in an effort to obtain relief for his hay fever. Mr. Robson's visit to Marquette extended over a period of thirty years. His home was here last summer. The following sketch of his life appeared in The Weekly Republican-Register of Galesburg.

William Robson was the son of John and Mary (Brown) Robson, and was born near Newcastle, Durham county, England, September 5, 1831. He received a practical education in a select school in England and also in the cattle business in Newcastle. He came to the United States with his parents, and lived first at Beaver Point, Beaver county, Pa., in the spring of 1850, the family arrived in Knox county, and lived on a farm south of Galesburg until the year 1854, when they removed to Rio township. His mother died in 1853, and his father died in Galesburg, aged 87 years. Mr. Robson for several years lived in Galesburg and learned the building trade there. He was first married in April, 1857, to Miss Jane Goff, daughter of Louis Goff, one of the early settlers of the county, and for many years a justice of the peace in Rio township. Two children were born to them, Cora Alice, and John L. Robson, of Omaha, who married Miss Jessie Murdoch of Galesburg. Mrs. Robson died in 1867. In November, 1871, Mr. Robson was married to Miss Elizabeth Gordon, daughter of Peter Gordon, of Copley township, one of the earliest settlers and large land owners of the county. Of this marriage three children were born: Gordon, who died in October, 1881, aged eight years; Edward Percy and Henry Stewart Robson.

Most of his life Mr. Robson has been actively and successfully engaged in farming. His first farm of 190 acres was in section 11, Rio township. On this he erected buildings, hewed and saved from native timber. In the spring of 1857 he moved to this farm and lived there until 1854, when he bought 250 acres of prairie land of the C., B. & Q. at Wataga. This tract he improved, making it his home, and being very successful, added to it 530 acres. He thus had a farm of 800 acres lying in one body near Wataga. Between Galesburg and Henderson he owned another farm, one of the oldest in the county. Mr. Robson engaged largely in the feeding of cattle and was very successful.

Mr. Robson and his brother, John, now a resident of Galesburg, were associated for 21 years in raising stock and in large farming operations with never a scratch of a pen between them by way of keeping accounts, a remarkable instance of fraternal confidence. About the year 1884, they determined to divide their property, which consisted of nearly 2,000 acres of land in different farms in Knox and Mercer counties, with hundreds of cattle and hogs at various feeding grounds. Starting out on horseback one morning, they finished at noon, giving each other a claim deed, in connection with which no dissatisfaction has ever arisen.

Mr. Robson never sought office; yet he was public spirited and the people sought to make use of his business knowledge and ability. As school director and highway commissioner he rendered valuable services. He was year after year an influential representative of his town and often of his

county in political conventions. In 1878 he was elected a member of the board of supervisors and was retained continuously until 1899, when his health was such that he declined to serve longer. His services were at all times valuable. He had a prominent part in the building of the court house and in the construction of the additions to the almshouse, of the committee on which he was chairman for twenty years. His supervision of the affairs of this important institution was marked by firmness, integrity, and faithful adherence to sound business methods. He was regarded as one of the safest and ablest men on the board.

SATISFYING PERFORMANCE.

"A Lady of Quality" Drew a Big House.

Eugenie Blair, supported by a very fair company, gave a satisfying presentation of "A Lady of Quality" at the opera house last evening. The attendance was all that could be asked, as the seating capacity was taxed. The play was well mounted as to scenery and the costumes, both of the men and the women, were unusually numerous, fresh and pretty, several of Miss Blair's gowns being veritable creations.

Miss Blair is an entirely capable actress. The character of Mistress Clorinda Wildairs offers a wide scope for her emotional ability and her interpretation of it about exhausts the possibilities. Miss Blair received several curtain calls last evening. Her leading man, James Carow, gave her very good support as Sir John Oxon, the rake and trickster who all but worked her ruin. The remainder of the company was made of people who are well qualified to fill the demands of the several roles.

CITY BREVITIES.

Weather forecast: Partly cloudy and colder; brisk northwest wind.

Yesterday's temperature: 7 a. m., 11 degrees; noon, 13 degrees; 7 p. m., 9 degrees; maximum, 15 degrees; minimum, 9 degrees.

St. Mary's guild will meet this afternoon with Mrs. J. J. Connelly, East Arch street, at 2 o'clock.

The land office was supplied with an outfit of Wellsbach burners yesterday. A number of desk lamps were put in.

E. L. Bacon, proprietor of the York Hotel at Kenton, returned home last evening after attending to some business matters here.

County Clerk Ross issued a marriage license to Johan A. Kewell and Pauline A. Ulrich yesterday. The former lives in the Marquette, the latter in Chocoyau township.

The funeral of S. N. Bronson was held from the First Baptist church yesterday afternoon. It was attended by a large number of the deceased's oldtime friends.

The marriage of Henry Dutmer and Miss Mathilda Alt was celebrated yesterday morning. The couple are absent from the city on a wedding trip, having departed immediately after the ceremony.

Queen City tent, No. 48, K. O. T. M., will give a social dance at Fraternity hall the evening of Wednesday, Feb. 13. Tickets, including the lunch, will be fifty cents. There will be good music.

Judge Stone heard the arguments for a rehearing in the case of the Hebbards vs. George W. Shaw at the county house yesterday. It was recently tried in the circuit court, Mr. Shaw getting a verdict.

There will be a meeting of the Merchants' association at the city hall at 8 o'clock this evening. Business relative to legislation which will be sought from the present state legislature will come up.

The members of the Epworth League of the M. E. church have arranged for a snow shoe tramp Friday evening, leaving the church at 8 o'clock and returning to the church where a lunch will be served. All members are invited to be present and participate in the tramp.

The special committee on small pox accounts spent yesterday at the court house looking over the bills which will be presented to the next session of the board of supervisors. Supervisors J. H. Rought, D. F. Morgan and Mark Elliott and Prosecuting Attorney Frank Bell were down. The committee will report to the board next Wednesday.

The race at the ice rink this evening promises to attract a large attendance as it is the first time in years that sport of this description has been offered in Marquette. Entries will be received from local skaters only. The management is offering some handsome prizes and there should be a goodly number of competitors. The band will be present, as usual, this evening.

A recital, given by Miss Olivier's school of music, will be held at the Morgan Memorial chapel Saturday evening. This will be an opportunity of encouraging the efforts of young debutants and of enjoying the talent of more mature musicians. Among those who will participate in the program are several favorites with the Marquette musical public. The recital will begin promptly at 8 o'clock. The admission will be twenty-five cents.

If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at the Stafford Drug company's store.
