WAR COSTLY TO BRITISH.

Official Reports Show 13,000 Deaths, Over 800 of Them in January.

PORTUGAL ASKS FOR AID.
Boers Are Threatening Lorenzo Marques and It is Said a Squadron Has Been Sent There.

DEWET PLANS ANNEXATION
London, Wednesday, Feb. 6.—The war office issued a very heavy South African casualty list yesterday, showing, in addition to thirteen killed and seventy-seven wounded in action, eighty-two deaths from disease during the present month.
Last month, thirty-one officers and eight hundred non-commissioned officers and men were killed in action or died from disease.
The total death list from the beginning of the war shows 12,989 victims.

London, Feb. 5.—It is reported in London that Boers, commanded by Blake, are threatening Lorenzo Marques, and that Portugal has requested British assistance. It is further asserted that a British squadron has been ordered to Lorenzo Marques.
Later—the foreign office has received official confirmation of the reports concerning Lorenzo Marques.
A special dispatch from Cape Town says that General Dewet, according to Cape Town reports, intends to annex various districts of Cape Colony and then commander men and supplies, although he is now urging the colonists not to join him.

ENGLISH LOSSES THIRTY.
Cape Town, Feb. 5.—The Boers captured two hundred British when they rushed Modderfontein on Jan. 20. The prisoners were subsequently released. Thirty British were killed or wounded.
The newly formed guard for the Rand mines left Stellingbosh for Johannesburg on Wednesday.
An order has been gazetted permitting the importation of goods into the Transvaal, subject to military permit.
Officials have been despatched to watch all bays along the west coast of Cape Colony against the landing of mercenaries or arms.
With the exception of one, all the guns of the British cruiser, *Sibille*, wrecked last month near Lambert's Bay, have been recovered.

GERMANS RALLY FOR BOERS.
Frankfort, Feb. 5.—At a meeting of Boer sympathizers here today, attended by five thousand persons, a resolution was adopted appealing to Great Britain to stop the war in South Africa. Christian Dewet, nephew of the Boer commander, who present, was carried around the hall on the shoulders of the promoters of the meeting.

FOUND FARMS ALL DESERTED.
Clan William, Cape Colony, Feb. 5.—Colonel Brander has driven the Boers out of Varrhynsdorp, capturing a number of wagons and a quantity of merchandise. All the farms in this region are deserted. The only person found, except armed Boers, was an English governess at one of the farms.

DIE IN HOTEL FIRE.
Two lives lost and fatal injuries to three other persons at Binghamton, N. Y.
Binghamton, N. Y., Feb. 5.—Harry Severson, a musician, and Sid Holland, a horseman, lost their lives and three others were fatally injured in a fire which destroyed the Exposition Hotel today. There were twenty-five persons in the building, most of whom escaped, many leaping from the second and third stories.

Syndicate Headed by J. Pierpont Morgan Secures Control of the Great Steel Company—A Colossal Deal in Interest of Peace in the Trade.

New York, Wednesday, Feb. 6.—The Tribune this morning says: "Negotiations for the sale of Andrew Carnegie's controlling interest in the stock in the Carnegie Steel company were brought to a successful conclusion Monday, J. Pierpont Morgan and his associates being the purchasers. The terms of the transaction cannot at this time be announced, but the transaction is a colossal one, rivaling the recent change of control of the Southern Pacific when that property passed into the hands of Union Pacific interests."
"Mr. Carnegie held nearly 54 per cent of the \$160,000,000 of Carnegie company

MEET WITH CHINESE ENVOYS.
DEFINITE TERMS OF PEACE EXPLAINED BY THE MINISTERS OF THE POWERS AT PEKIN.

Pekin, Feb. 4, via Shanghai, Feb. 5.—The Chinese plenipotentiaries, Prince Ching and Li Hung Chang, had a protracted meeting this morning with the foreign envoys.
The names of twelve prominent Chinese officials were submitted with the request that China keep faith with the powers and punish the persons named commensurately with their offenses. The Chinese plenipotentiaries replied that China's earnest hope was to carry out fully the demands of the powers, and that she felt sure the punishments which were to be inflicted would be satisfactory.

TWO ALREADY DEAD.
It was discovered that two of the twelve persons named are already dead. In certain cases the Chinese plenipotentiaries gave reasons why the punishment inflicted should be banishment, and not death, asserting that in these cases they particularly desired banishment because the persons in question were so closely related to the throne.

After a long conversation on the subject the foreign envoys should draw up a full list of all the accused officials, both national and provincial, with indications specifying the guilt of each and a statement of the punishment required, which then is to be presented to the Chinese plenipotentiaries for definite action.

Li Hung Chang, who is very weak from his recent illness, had to be carried out in the British legation. He is unable to walk, but his head seems as clear as ever.
The foreign envoys are impressed with the evident desire of both Prince Ching and Li Hung Chang to come to terms.

AS TO EVACUATION.
Prince Ching asked whether, provided China showed by every means in her power the desire to carry out the terms of the joint note, the foreign troops would leave Peking. The foreign envoys replied that this was a subject they could not discuss beyond saying that, if everything were satisfactory, they believed the powers would begin to withdraw the troops early in the coming spring, but that this depended largely upon the Chinese themselves.

Prince Ching and Li Hung Chang said they desired to know the names of the places where guards are to be kept for the purpose of maintaining communication with the sea, in accordance with the terms of the joint note. They were informed that this was a subject regarding which the military authorities had more accurate knowledge than the envoys, but that at the present no determination had been reached.

PROBLEM OF THE GUARDS.
Prince Ching was anxious to know what provision would be made to control the legation guards and prevent them from disturbing business. He asked if the guards would be allowed large of all parts of the city. To this inquiry the reply was given that the

cess Louise and Princess Beatrice and includes liberal legacies for the Duchess of Albany and a number of the late queen's grandchildren. The bulk of her private fortune, however, goes to King Edward, while both Balmoral and Osborne house are given to the king. Two small houses on Osborne estate are given to Princess Beatrice.

LIFE SENTENCE FOR YOUTSEY
SLAYER OF GOEBEL HEARS THE VERDICT OF THE COURT.

Georgetown, Ky., Feb. 5.—Henry E. Youtsey, convicted of the murder of Wm. Goebel, was arraigned before Circuit Judge Cantrill this afternoon and sentenced to life imprisonment. He said: "I am innocent. I have been convicted by base and infamous subornations of perjury."
No appeal will be taken and the prisoner will be taken to the state prison in a day or two.

WRECKS SENATE SALOON.
Place Reopens Later and Does a Rushing Business, Giving Away Bits of Glass as Souvenirs.

MANY FIGHTS IN STREETS.
Topeka, Feb. 5.—Mrs. Carrie Nation, accompanied by two other women, started on a saloon-smashing tour at 5 o'clock this morning.

At the first place reached a man within bolted the door and the women were unable to enter.
At the second place—the Senate saloon—after smashing the slot machines, fixtures and liquors, the colored porter took away Mrs. Nation's hatchet. In the scuffle the latter was struck in the temple by the hatchet, but she was not seriously hurt. Finally the porter fired his revolver at the ceiling and attracted the attention of policemen, who took the women to the police station, where a praise service was later held.
The Senate saloon was later raided by Chief of Police Stahl.

MECCA OF THE CURIOUS.
The news of Mrs. Nation's raid soon became known and people commenced to drop into the "joint" to see the wreck. In a short time the crowd became so large that it required four bartenders to wait on them. The bartenders gathered up bits of glass from the broken mirror, giving away a small piece with each glass of beer. A man stationed at the front of the door cried: "Souvenirs with each and every glass of beer."
Those who did not drink begged for souvenirs. Small pieces of glass sold for five cents. At 10:30 Chief of Police Stahl and several officers dispersed the crowd and arrested the head bartender.

CRUSADER ARRESTED.
Mrs. Nation was arrested tonight on a warrant sworn out by the proprietors of the Senate saloon, charged with malicious destruction of property. Bond was placed at \$100 and the trial set for Saturday.

Numerous fights took place during the day over the merits of Mrs. Nation. Kansas avenue, the principal street of the city, has been lined all day with excited groups discussing the situation and more than one blow has been struck.

DULUTH'S ELECTION QUIET.
MAJORITY OF THE SPOILS, HOWEVER GO TO REPUBLICANS.

Duluth, Feb. 5.—The municipal election for minor offices was very quiet today, the only contest of importance being in the First ward, where W. S. Moore, a prominent marine man, defeated both the Republican and Democratic nominees. The political honors are about evenly divided, the successful candidates being:
Municipal Judges—W. D. Edson and N. A. Gearhart, Republican.
Comptroller—W. S. McCormick, Republican.
Treasurer—F. Voss, Democrat.
Four Republican and three Democratic aldermen were elected.

DRINKS CARBOLIC ACID.
MRS. BERTHA FOX OF PHILADELPHIA ATTEMPTS SUICIDE AFTER GIVING POISON TO CHILDREN—ONE LITTLE TOT DEAD.

Philadelphia, Feb. 5.—Mrs. Bertha Fox, aged twenty-six, was found in her home tonight writhing in agony from the effects of a dose of carbolic acid, while in a crib near by lay the body of her two-year-old child, killed by the poison, and on the floor beside her was her boy, John, aged four, unconscious from the same cause. The woman's husband, John Fox, was discovered in bed in a drunken sleep. Mrs. Fox and son were conveyed to a hospital, where their condition is regarded as critical. It is believed Mrs. Fox administered the poison.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. The legislatures of Delaware, Nebraska and Oregon are still wrestling with senatorial deadlocks, and all because some men have developed in the Republican party in these states who imagine themselves larger than the party. They should be allowed to remain at home, for men of that stamp are of no benefit to the party in the senate of the United States, or anywhere else.

One significant fact brought out by Mrs. Nation's crusade against the saloons in Kansas is that although selling liquor is unlawful in that state the traffic has existed there to a flourishing degree. This establishes that "prohibition doesn't prohibit" the use of intoxicating beverages, just as the advocates of the license system have always maintained.

A disquieting fact is thus noted by the Minneapolis Tribune: Miss Zimmerman, the Cincinnati girl who a little while ago wedded the duke of Manchester, carried off almost the last duke gentleman remaining in the English matrimonial market. The two English dukes who are still unmarried cannot really be considered eligible, since one of them shows decided symptoms of insanity and the other is an invalid. So there is no immediate prospect of any more Anglo-American duchesses.

As the supply of capable young Americans who are able to provide for their wives by their own exertions still holds out, the sensible American girls who are willing to take on themselves the cares and responsibilities of married life need not worry.

A resolution providing for submission to a vote of the people of an amendment to the constitution of the state prohibiting the use of free passes on the railroads by state officials has been ordered to a third reading in the assembly of the Wisconsin legislature. Both parties in that state stand committed to making it unlawful to accept free passes, and the resolution is likely to be adopted, though the members of the legislature are not enthusiastically in favor of it. If the amendment goes to the people it is easy to guess what their vote on it will be. The free pass for officials of the state will go out of circulation in Badgerdom. Next to the pleasure of riding on a free pass oneself comes that of obliging everybody else to pay fare.

The British parliament will be asked to grant the new king a yearly allowance of \$3,000,000, with \$50,000 additional for the maintenance of the Duke of York and his family. Besides this, it is expected that provision will be made for the payment of the debts contracted by King Edward while he was Prince of Wales. What disposition will be made of the great fortune accumulated by the late queen during her long and glorious reign is not yet known, but it would seem that the king's share of it should be sufficient to enable him to pay off his indebtedness, so that he could make a clean start in his new position. "Uneasy lies the head that wears a crown," the proverb reads, but another running like this might be formulated: "Calloused are the backs that bear the burden of maintaining a throne."

As was predicted when navigation closed in December and the total of the lake shipments of iron ore was ascertained, the rail shipments for 1900 bring the total for the year to over 19,000,000 tons. The shipments by rail for the year footed up 489,078 gross tons, which brings the total output of the Lake Superior iron mines for the year up to the magnificent figure of 19,655,293 gross tons. The output of the Lake Superior iron field for the last five years has been about 71,000,000 tons, as against 100,000,000 tons for all the years between 1855 and 1895, inclusive. The Mesaba range mines furnished about 41 per cent. of the production of last year, which was distributed as follows among the five ranges: Marquette, 2,457,522; Menominee, 3,261,231; Gogebie, 2,875,295; Vermilion, 1,655,820; Mesaba, 7,809,535.

NO SORE SPOTS ON THEM. Taking notice of a comment of ours on a dispatch sent out from Sault Ste. Marie, setting forth that the people of Chippewa county feel so sore because of the political treatment they have received as part of the Twelfth congressional district that they are rather pleased than otherwise over the prospect that their county will be made part new district in which there is a preponderance of lower peninsula votes, the Sault Ste. Marie News makes this statement: The Marquette Mining Journal discusses the statements of a local correspondent of The Detroit Tribune to the effect that Chippewa county is dissatisfied with being a part of the Twelfth congressional district and seeks a place in the proposed new re-appointment away from the upper peninsula. The only fault that we find with The Mining Journal's treatment of the question is its assumption that the correspondent of The Detroit paper has correctly stated the local senti-

ment. When the Martindale re-appointment plan was first proposed this paper printed it and took a position against the proposition to remove this county from the upper peninsula district. That is still our position and we believe it is in accord with the desires of the people of this section. Chippewa county congratulates itself that it is a part of the splendid upper peninsula and the oldest and first known part of it and congratulates itself too, that it cannot be dragged from its geographical lease either in winter or summer. The powers that be may juggle us about politically. We are not strong enough to prevent that. So we must be philosophical. Wherever we find ourselves, we will be content and will do our best to hold our own but we will not be really happy unless we remain a part of an upper peninsula congressional district. There are no sore spots on Chippewa or any of its citizens as yet. It is concerned, and of course we will not worry about the future.

Archibald McMillan, editor of the Bay City Times-Press, and one of the best known of Michigan's old newspaper men, is dead. Mr. McMillan was born in Detroit in 1837. He learned the printing business on the Jackson Patriot. He served with distinction during the rebellion, and had been in active newspaper work the greater part of his life. The first Baptist church edifice was partially burned Sunday afternoon. The fire caught from the main furnace in the center of the building. The freestone, done at considerable cost a few years since, is completely destroyed, and the pipe organ, valued at \$1,000, is destroyed. The loss is estimated at \$4,000, and is fully covered by insurance.

John N. Cannon, of Oxford, aged 55 years, owner and editor of the Oxford Globe for the past 40 years, fell down cellar and broke his neck Saturday morning. He was intending to take a special car to Orion with the Macca-bees to attend a funeral, and went down cellar to prepare a lunch to take with him. His body was found by his wife. It is thought he died instantly. Extensive deposits of marl of rich quality have been found near Orangeville, Barry county, on the banks of Fish lake. Several hundred acres of the deposits are awaiting development, and it is believed that parties interested in building cement factories are planning to construct a factory at Orangeville and utilize the valuable discovery. The marl is 20 feet thick on some of the land and experts who have examined it and the extent of the territory covered say there is enough here to harvest a barrel per day factory running the length of an average life. During a family row on the farm of Levi Morningstar, three miles east of Sparks, Saturday afternoon, Morningstar fatally shot his son-in-law, James Vanderhoof. He was arrested and has been lodged in the county jail at Grand Rapids. Morningstar claims that his son-in-law went home intoxicated and began to abuse his wife and himself, and that when his actions finally became intolerable he took a gun with the intention of shooting it out of the open door to frighten him into submission. When the gun was discharged, however, the young man swung round in front of the muzzle and received the entire charge in the face. During the past week the Orosco & Corunna Electric company has been granted franchises to run an electric road through the township of Caledonia, Venice and Vernon, and the villages of Vernon and Durand. This will give the company a road 20 miles in length. At present it is but four miles long. The engineering work will begin next week. The present road will be laid as soon as the frost is out of the ground. The line runs through a good farming country, and it is planned to do the company's business as a passenger business. The company expects to ask franchises from Fenton west to Durand, in the event of which a boom for the Long Lake resorts is a certainty at no distant day. The Anheuser-Busch Brewing company of St. Louis, Mo., has decided to back its agent, F. H. Boos, at Battle Creek, in a fight against the effort to compel him to pay a license of \$500. He has been paying a wholesaler's license of \$65 a year, but the county prosecuting attorney thought that he ought to pay the manufacturers' license of \$500 and the state's attorney general sustained the county prosecuting attorney. When this became known, W. H. Cook, an agent of the Anti-Saloon league, swore out a warrant against Boos. The case was postponed until the latter could hear from the brewing company, and the word is that it will be made a test case and carried to the supreme court.

A NIGHT OF TERROR. "Awful anxiety was felt for the widow of the brave General Burnham of Michigan, Me., when the doctors said she could not live," writes the Detroit News. Lincoln, who attended her that fearful night. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying it had cured more than once saved her life, and had cured small doses and your White Wine Tar Syrup has cured them all." The Stafford Drug company.

Dunlap, of Mount Vernon Mo., says: "My children were afflicted with a cough resulting from measles by which the intelligence of the people generally may be increased, are an element of strength to the nation instead of a menace to the institutions under which it has flourished so wonderfully."

Lower Michigan News.

Two salt blocks are being erected at St. Charles, Saginaw county, by the St. Charles company. They will be completed in March. Each block will have a capacity of 300 barrels of salt every 24 hours. Land Commissioner Wildey has just ordered legal proceedings commenced against Joseph Smith of Pennville, Allegan county, for trespass on state tax homestead lands. It appears that Smith took up a homestead. He failed to comply with the law requiring occupancy, but skinned the land of all the timber he found on it.

Speaker Henderson of the House of Representatives has announced himself opposed to having congress convened in extra session. He has plainly told the president that a special session will not be necessary, and that it would be unwise and impolitic to have it held. The speaker says that the house has done unusually well so far during the short session, being now far ahead in its work of the record made by previous ones. If the senate does not do its duty in forwarding the appropriation bills and other necessary legislation the house should not be made to suffer for the dereliction of that branch of congress, in his opinion. If the senate will the Speaker bill providing for government of the Philippines it will clothe the president with ample power for the conduct of civil affairs in these islands he avers, and there is nothing urgent enough in the situation in Cuba to warrant calling a special session to meet it.

The belief prevails very generally that if a special session is called it will be because of the failure of the ship subsidy bill to go through at this session and for the purpose of giving its backers a chance to work it through the new congress before its members get their bearings. It would assuredly be "unwise and impolitic" for the president to strengthen the suspicion that he is willing to go to an extreme length to enable some of his close political friends to fasten a piece of objectionable legislation on the country. Speaker Henderson has counseled him well in advising him against calling a special session, and he should hearken to a warning dictated by regard for both his administration and the Republican party.

CARNEGIE'S MUNICIPALITY. If Andrew Carnegie has managed his business affairs so well that he has piled up an immense fortune it must be conceded that he is furnishing a splendid example to other wealthy men in the use that he makes of his money. He has given over \$12,000,000 to founding and providing for the maintenance of public libraries alone. He has done more than any other one man in the United States to place the great industry with which he is particularly identified on a basis that enables America to compete with England and Germany as a producer of iron and steel for the world's markets, and this has provided steady and profitable employment for thousands of American workmen who would otherwise be compelled to seek work in other fields already overcrowded.

Not only that, but he has inculcated new and practical ideas of the obligations of wealth, in his writings and by word of mouth, which must bear good fruit. We confess to a steadily growing admiration for the character of this grim and grizzled iron king, who is much nearer to being a real king than many a wearer of a royal crown, and believe that the day is at hand when the vast good that he has done and is still doing will receive ample and generous acknowledgment from the American people, in spite of a tendency that is gaining some headway among them to regard the acquisition of wealth, even in a manner entirely legitimate and praiseworthy, as a crime against society. It is not by the mere accumulation of money through ability to comprehend inviting opportunities, and capacity for the organization and successful conduct of great enterprises, that men become dangerous to the state and its people. It is by a bad or selfish use of wealth after it has been acquired that it becomes a source of danger. Men of large means who use their surplus wealth as Mr. Carnegie is making use of his, to provide enlarged opportunities for those who must live by the labor of their hands, and the means by which the intelligence of the people generally may be increased, are an element of strength to the nation instead of a menace to the institutions under which it has flourished so wonderfully.

NORWAY PRESSING ITS CASE.

It Means Either Equality With or Separation From Sweden. The determination of Norway to maintain its position as an equal of its partner, Sweden, and not to acknowledge inferiority in any respect, has threatened a crisis in the dual monarchy. The stult of government for the latter affairs is at the Swedish capital and the king keeps his residence there. In the discussions between the local governments of the two kingdoms, the monarch of both has generally sided with Sweden, because of his closer relations with that kingdom, and this has brought the king and his Norwegian people into sharp collision, although the latter profess allegiance and respect for the king personally.

Now the Norwegian papers are publishing an article by Captain Torkildsen in which it is strongly urged that in all parties in the Norwegian legislature should unite to pass a law compelling the king to live six months yearly in Norway, thus placing his Norwegian kingdom on equal terms with Sweden. If that is done, the king will have to choose between his personal wishes and Swedish law on one side and Norwegian law on the other. He should refuse to comply with the law of the Norwegian kingdom, he will violate his oath to the people of that nation and they will have a pretext for refusing their allegiance.

The Norwegians are an exceedingly independent people, in reality more republicans than monarchists. They would be at a disadvantage in many respects in case of a war with Sweden, but they could give the Swedes a hard fight if there should be no interference from without. They have been so anxious to have the Norwegian understood by the world that the national legislature last year voted a considerable sum for the preparation of a handsome volume in connection with the Norwegian exhibit at the Paris exposition. In this volume, intended to be distributed free, it will do the most good for the enlightenment of other people concerning Norway, its resources, its history and its people, particular attention is paid to an exposition of its political institutions and its relation to the monarchy. That part of the volume was clearly intended as a brief for Norway in its case against the king's unwilling world—Cleveland Plain Dealer.

The regular monthly meeting of the Hancock village council will be held tonight at the village building. The most important matter to come up for consideration is that relating to the plans of the new pump house which will soon be built to house the new pump recently received.

Miss Grace Cavan will hold her last dancing assembly for the winter at the town hall in Hancock Thursday evening. The affairs have been largely attended and the one tomorrow, it is expected, will be made unusually pleasant by the presence of an even larger number than ever before.

The two men—Cody and Appleton—who were so seriously injured by an explosion in a shaft at the Adventure mine Saturday morning, are now inmates of St. Joseph's hospital at Hancock. They were brought to Hancock over the Copper Range Monday afternoon. Both men are in bad shape.

The committee of the state legislature which is to visit Houghton for the purpose of looking over the situation relative to the establishment of a fish hatchery on Portage lake, a bill having recently been introduced in the house to that effect, is due tomorrow. The solons are at the Soo today. They will either arrive in Houghton tomorrow noon or in the evening. The committee is the last to visit the institutions of the upper peninsula this winter.

ALL "WILD" OVER COPPER. FRANTIC RUSH FOR MINERAL LANDS ON THE DOUGLAS COUNTY RANGE.

The head-of-the-lake towns are "copper crazy" and the last few days have witnessed a great stampede for copper lands. The excitement is described in the following dispatch from Ashland under date of the 4th inst.

"The constant explorations for copper south of Superior for over a year past and recent finds of considerable magnitude, together with the reported fact that the Calumet & Hecla people are investing in all prospective copper lands they can find in that region, has caused no end of excitement at the head of the lakes.

"It is said that Mr. Lamb expressed his disapproval in strong terms of the report to the effect, that Edward Floyd had resigned as president of the Mass company because he was not in accord with the directors.

"For months the papers have been talking copper but all of a sudden within a week's time the people have become greatly excited. Hundreds of people are roaming over the reported copper fields and every bit of government land in that region is being eagerly taken up.

"The enthusiasm of the Superiorites has infected residents here and today about fifty Ashland men took up claims on the Douglas county copper range, Ashland and Superior are copper crazy.

"The reports of geologists who have been over Douglas county, the present seat of fortune, claim for it riches equal to the Calumet & Hecla mines of Upper Michigan."

CHEERS FOR THE KAISER.

London Demonstrates the Place He Has Won With Englishmen.

GREAT POPULAR FAREWELL.

Ovations Mark His Progress to the Station, Where He Exchanges Affectionate Adieus With King.

HE SAILS FOR HOME TODAY.

London, Feb. 5.—Emperor William has returned to the imperial yacht Hohenzollern, at Port Victoria, on his way home, after receiving from the London crowds demonstrative expressions of their approbation of his prolonged visit to England.

The emperor's passage through London, however, was somewhat marred by bad weather, but unmistakable evidence of the place he has won in the hearts of the English people was seen in the affection with which he was bidden farewell by King Edward, the Duke of Connaught and other members of the royal family.

A naval parade greeted the emperor's arrival at Port Victoria, when all the war vessels dressed ship, this being further evidence of the exceptional official cordiality existing between the two countries.

Emperor William was accompanied by Crown Prince Frederick William and the Duke of Sparta.

SHOUT THEMSELVES HOARSE.

It was at the Charing Cross railroad station, subsequent to luncheon at Marlborough house, that the chief ovation occurred. Crowds packed densely cheered lustily as each state carriage containing members of the German suite passed and shouted themselves hoarse when, behind a brilliant escort of Life Guards, Emperor William, King Edward, Crown Prince Frederick William and the Duke of Connaught drove up in the same carriage. The Archbishop of York, Field Marshal Roberts, the lord mayor and many distinguished people, including the members of the German embassy and a number of officers, had gathered on the platform to bid farewell to Emperor William.

The kaiser was in the highest spirits. He talked, laughed and shook hands all around. King Edward was equally cheerful. He appeared to be in better health than for weeks past. After an affectionate farewell between the two monarchs the train started out amid the playing of national anthems by the band of the Coldstream Guards and the cheers of the people. King Edward ran forward to take a final grip of Emperor William's hand, which was held out of a window.

KAISER IS TICKLED.

It was evident that no one was better pleased at the day's proceedings than Emperor William himself. A number of German detectives ceaselessly followed in the emperor's footsteps and started the imperial train before it boarded. Emperor William wore the British field marshal's uniform and King Edward and the Duke of Connaught wore German uniforms.

MCKINLEY TO VISIT THE WEST.

Berkeley, Cal., Feb. 5.—President Wheeler of the University of California has received a telegram stating that President McKinley will accept his invitation to address the students of the university on commencement day, May 15. This is taken to indicate that President McKinley's proposed trip to the Pacific coast will be made despite reports to the contrary.

DEMOCRATS NAME PLACE AND DATE FOR STATE CONVENTION.

Detroit, Feb. 5.—The Democratic state central committee today decided to hold the state convention for the nomination of a supreme court justice and university regents at Grand Rapids on March 6.

BRITISH TROOPS MENACED.

SIGNS OF AN UPRISING ON THE AFGHAN FRONTIER.

Moscow, Feb. 5.—Sensational accounts from Bombay say that the Afghans tribes on the border are in a state of unrest. It is feared that they may attack the British frontier guards. The situation is said to be dangerous. A new famine seems unavoidable and the prospect has added to the chance of an outbreak. The British troops are said to be insufficient to cope with the prospective trouble.

FIGHTING FORCE OVER 10,000,000.

SECRETARY ROOT GIVES FIGURES ON THE MEN AVAILABLE FOR MILITARY SERVICE.

Washington, Feb. 5.—Secretary Root has transmitted to congress a communication showing the strength of the organized militia and the number of men available for military service. The available force in the states is 10,254,943, while the available force of the states and territories, including Hawaii, Porto Rico, and Alaska, is 10,432,043, and the entire enlisted force is 11,937,777.

NEBRASKA DISGUSTS HANNA.

OHIO SENATOR, IT IS SAID, WILL TAKE A HAND IN THE SENATORIAL FIGHT.

Lincoln, Neb., Feb. 5.—The senatorial deadlock here has been enlivened by the report that the administrative forces at Washington and the members of the Republican national committee in particular, are disgusted at the situation in Nebraska, which they consider is being uselessly prolonged. It is stated that Mr. Hanna, who takes to himself considerable pride and credit for Nebraska's recent conversion to the republican party, has personally interested himself in the matter and will wait but a short time for a settlement without his interference. He will then send a representative to Nebraska to take a hand in the situation and effect an immediate conclusion. This would mean a great advance in G. D. Meiklejohn's stock, as he is the administration candidate.

GREAT WIRE DEAL SLATED.

CANADA CONSIDERING THE PURCHASE AND OPERATION OF THE DOMINION SYSTEMS.

Ottawa, Ont., Feb. 5.—While the report that the government is preparing to buy all telegraph and telephone companies and that an inventory is being made to ascertain their value is a little ahead of the facts, it is not only the nationalization of the telegraphs and telephones but of railways as well, and private members of parliament have endeavored repeatedly to test the feeling of the house of commons on the subject.

ST. LOUIS HAS MONEY RAISED.

BILL FOR GOVERNMENT AID FOR THE FAIR NOW TO BE PRESENTED TO CONGRESS.

Washington, Feb. 5.—The secretary of the treasury has written Representative Tawney, chairman of the Louisiana Purchase exposition committee, that he has received satisfactory evidence that the Louisiana Purchase exposition company has raised the ten million dollars required as a pre-requisite to government aid.

TWO COMPANIES TO CONSIDER.

The Great Northwestern Telegraph company and the Canadian Pacific Railway company practically control all the wires in Canada. The valuation of the property of both concerns is being made quietly, and should the arrangements between the government and these two companies be completed at an early date, it is said that a bill dealing with the subject will go before the next session of the Dominion parliament. In case of a difference arising over the amount to be paid the arbitrator will be an expert of the imperial government telegraph service.

FUNDS NOW AVAILABLE.

Until the present Liberal government came into office it has not been possible to talk purchase. With a surplus running from \$6,000,000 to \$7,000,000 for 1900-1901, and a prospect of an equally large surplus for 1901-1902, the plan, it is said, seems feasible.

MILES STILL TO COMMAND.

President Sends in His Name as Lieut. General of the Army.

LONG LIST OF PROMOTIONS.

Senate Passes Anti-Hazing Amendment and Asks Reasons of Editor Rice's Deportation from Manila.

M'ARTHUR GOES UP A PEG.

Washington, Feb. 5.—The president today sent the following nominations to the senate:

To Be Lieutenant General—Major General Nelson A. Miles.

To Be Major General—Brigadier General Samuel B. M. Young, Colonel Adna R. Chaffee, Brigadier General Arthur MacArthur.

To Be Brigadier General—Colonels John C. Bates, Lloyd Wheaton, George W. Davis, Theodore Schwann, Samuel S. Sumner, Leonard Wood, Robert H. Hall, Robert P. Hughes and George M. Randall; also Major Wm. A. Kobbe, Brigadier General Frederick D. Grant and Captain J. Franklin Bell.

REVERSE FOR SUBSIDY BILL.

BY VOTE OF THE SENATE IT IS SUPERSEDED AND DAY GIVEN OVER TO APPROPRIATIONS.

Washington, Feb. 5.—The senate today passed the District of Columbia appropriation bill and an identical bill making appropriations for the support of the West Point Military academy.

During the day the ship subsidy bill, by the vote of the senate, was formally laid aside and superseded as unfinished business.

When the senate opened, Senator Chandler of New Hampshire presented the credentials of his successor, Judge Henry E. Burnham, and Senator Teller called up and spoke upon his resolution calling upon the secretary of war for information concerning the reports of the deportation of George T. Rice, editor of a Manila newspaper, to the United States. The resolution was agreed to.

The District of Columbia appropriation bill was taken up, being passed at 5 o'clock, the senate then turning its attention to the West Point bill. The amendments suggested by the committee on military affairs, including that prohibiting hazing, were agreed to. Senator Foraker offered an amendment providing for the appointment of four cadets from Porto Rico and Senator Allen an amendment requiring cadets upon entering West Point to take an oath not to engage in hazing; but without acting upon either the senate adjourned.

GREAT WIRE DEAL SLATED.

Ottawa, Ont., Feb. 5.—While the report that the government is preparing to buy all telegraph and telephone companies and that an inventory is being made to ascertain their value is a little ahead of the facts, it is not only the nationalization of the telegraphs and telephones but of railways as well, and private members of parliament have endeavored repeatedly to test the feeling of the house of commons on the subject.

ST. LOUIS HAS MONEY RAISED.

BILL FOR GOVERNMENT AID FOR THE FAIR NOW TO BE PRESENTED TO CONGRESS.

Washington, Feb. 5.—The secretary of the treasury has written Representative Tawney, chairman of the Louisiana Purchase exposition committee, that he has received satisfactory evidence that the Louisiana Purchase exposition company has raised the ten million dollars required as a pre-requisite to government aid.

Mr. Tawney says the secretary's letter is conclusive and satisfactory assurance that the St. Louis authorities have complied with their part of the project and that it is now incumbent upon the government to comply with its part as pledged in the last civil sundry appropriation act.

The committee today perfected the bill and, by a vote of six to two, ordered it reported favorably. Two Democrats—Messrs. Williams of Mississippi and Otey of Virginia—voted against the bill. During the afternoon ex-Governor Francis, ex-Representative Cobb and Charles W. Knapp of St. Louis saw the speaker, who promised that time would be given for consideration of the bill as soon as the condition of appropriation bills permitted.

POSTAL EMPLOYEES ASSAILED.

PRACTICE OF FORMING UNIONS IN INTEREST OF LEGISLATION SCORED IN THE HOUSE.

Washington, Feb. 5.—The house today continued its discussion of controverted questions in connection with the postoffice appropriation bill.

Mr. Griggs of Georgia spoke against the organizations of postal employees, formed with a view to forcing legislation in their interest, such as increasing their salaries and, in some cases, creating civil pension lists.

Mr. Moody of Massachusetts discussed the question of railway mail pay from the standpoint of a member of the joint postal commission, while Messrs. Brownwell of Ohio and Gaines of Tennessee assailed the appropriation for special mail facilities from New York to New Orleans.

TAX ON 'BUCKET SHOPS.'

HEAVY ONE DEMANDED BY CHICAGO BOARD OF TRADE MEN AT WASHINGTON.

Washington, Feb. 5.—President Warren of the Chicago Board of Trade and other members of that institution are here endeavoring to secure a tax of 1 per cent. on transactions which take

place in "bucket shops." The war revenue repeal measure provide a tax of one one-hundredth of 1 per cent on transactions of this kind, while the board of trade has multiplied the rate 100 times. Senator Mason is being appealed to by the business-men of Chicago and says he will do what he can to have the bill changed to meet the wishes of the board of trade.

OUTBREAK IN BOLIVIA.

ANOTHER OF THOSE SO AMERICAN DISTURBANCES BEGINS.

Lima, Peru, Feb. 5.—Advices from Bolivia report serious disturbances near Challana, twenty-one miles from LaPaz. The Bolivian government has sent troops to restore order. The origin of the trouble concerns questions arising out of the management of the India rubber properties of the district.

RUSSIAN ORDERS BOOKED.

CZAR TO SPEND \$2,500,000 FOR RAILWAY EQUIPMENT, PART OF IT IN THE UNITED STATES.

Moscow, Feb. 5.—Prince Khilkoff, minister for ways of communication, has assigned \$45,000,000 rubles (\$22,500,000) for the purpose of purchasing passenger and freight cars and engines for Russian railways. Part of this order has already been placed in the United States.

COMBINE IN FURNITURE.

OPTIONS ON FOURTEEN GRAND RAPIDS PLANTS ARE GIVEN.

Grand Rapids, Mich., Feb. 5.—H. A. Marston has secured options on fourteen furniture factories in that city, including all the large ones, and left today for New York to confer with Charles R. Flint relative to combining them. The concerns are capitalized at \$5,000,000, and have an estimated output of \$6,000,000. The options are given to May 1.

MAKES HAZING A CRIME.

NEW JERSEY HOUSE UNANIMOUSLY PASSES THE MEASURE.

Trenton, N. J., Feb. 5.—The house of the assembly today almost unanimously passed a bill making hazing a misdemeanor. The Democratic minority leader, Mr. Marks, mildly opposed the act on the ground that hazing was the pranks of irresponsible young men and it would be wise for New Jersey legislators to move cautiously in supporting such a sweeping measure.

WOULD ABOLISH SMALL TYPE.

NEW YORK LEGISLATOR INTRODUCES A FREAK BILL THAT HITS THE DAILY PRESS.

Albany, Feb. 5.—Assemblyman Wauhope Lynn of New York introduced a bill tonight which can be classed a freak. It purports to amend the public health law and provides that books, newspapers and literature shall not be published in type smaller than eight-point (two sizes larger than used by the average daily paper), of which the lower case alphabet measures not less than fourteen ems. The lines shall be separated by at least two ems. The standards of health shall enforce the provisions of the section, and has it in its power to adopt regulations exempting certain kinds of printed matter, and may on petition grant written permission to use a smaller or more condensed type.

BETTER THAN MRS. NATION'S PLAN.

JUDGE LAMSON OF CLEVELAND WOULD LEGALIZE THE BURGULARIZING OF SALOONS TO PUT AN END TO THE BUSINESS.

Cleveland, Feb. 5.—Judge A. W. Lamson has a plan for abolishing saloons, which he claims would be far more effective than the hatchet crusade of Mrs. Nation.

"My plan of doing away with the saloons is to exempt them from the protection of the burglary act," said Judge Lamson today. "Ninety-nine burglaries out of 100 are committed upon saloons and if liquor establishments were not protected by the burglary law they would be put out of business. If such a state of affairs existed in Cleveland, there would not be a saloon left here in a week. Of course there would be considerable trouble for a few days, but the saloons would be abolished without the expense of 1 cent to the city or state."

STANDARD OIL IN TEXAS.

IT CUTS PRICES OF PETROLEUM TO DISCOURAGE INVESTORS.

Dallas, Tex., Feb. 5.—Men who are contemplating investing in oil prospects are surprised at the action of the managers of the pipe line at Corsicana, who have cut the price of heavy crude petroleum from fifty cents to twenty-five cents per barrel, and of light petroleum from ninety-six cents to eighty cents per barrel.

As the output of the Corsicana fields is in the hands of the Standard Oil company, these heavy cuts are estimated to be part of the plans of the Standard people to discourage Texas investors from going into the independent oil fields and thus retard development of competition.

NEW STEAMSHIP LINE.

PHILADELPHIA-HAMBURG SERVICE TO BE INAUGURATED BY THE BALTIMORE & OHIO ROAD.

Philadelphia, Feb. 5.—President Cowan and Vice President Murray of the Baltimore & Ohio company announce that on March 10 the first sailing of a new steamship line from Philadelphia to Hamburg will take place. The new steamship line will be known as the William W. Brauer line, and will be operated in conjunction with the Baltimore & Ohio railroad. Four steamers of 5,000 tons capacity each have been secured and new steamers will be added as rapidly as possible, as it is contemplated to institute other lines from Philadelphia to the important ports of Europe. The managers of the Baltimore & Ohio road state that they have determined to make a bid for a large percentage of the export trade from this port as well as the large freight business from Philadelphia to all sections of the South and West.

5,000 Filipinos Join Federal Party in the Island of Marindique.

ENDS OUTBREAK THERE.

Big Insurgent Camp, Together With Much Supplies, Destroyed by the Troops in Southern Luzon.

TREND STILL FOR PEACE.

Manila, Feb. 5.—An agent of the Federal party, who returned here today after organizing branches in the island of Marindique, has brought rolls containing five thousand signatures to membership. He says this will result in the termination of the insurrection in Marindique.

The new camp of General Trias, commanding the insurgents in the Southern district of Luzon, which was occupied by 250 men, with 120 rifles, under Colonel Gomez, was captured and destroyed Sunday by the Forty-sixth regiment. A number of houses, the large barracks and quantities of supplies were destroyed. The occupants escaped, except one man who was killed and two men who were wounded.

The enemy's losses in the Department of Visayas for January, in deaths, captures and surrenders, were 54 officers and 560 men and 240 stands of arms.

MORE EDITORS IN TROUBLE.

The editors of three of the dozen Spanish papers in Manila are liable to be deported to the island of Guam. Senior Salas, editor of El Diario, whose paper was suspended on Friday last by the provost marshal, has been kept in custody since then. He shows no indication of penitence. His paper twice has been suppressed and he only resumed publication a few months ago. Provost General Bell said today that the true reason for Salas' action was that he was on the verge of financial dissolution and, after having been warned, he published denunciations of the Federal party's peace efforts on purpose to be suppressed and then pose as a martyr. The Spanish papers which are ostentatiously sympathetic with Salas' course are being closely watched for seditions.

Senior Buencamino is endeavoring by letters and circulars to spread his ideas in the provinces.

WILHELMINA WEDS TODAY.

THE HAGUE DONS HOLIDAY ATTIRE AND PEOPLE CELEBRATE THE COMING MARRIAGE.

The Hague, Feb. 5.—The festivities in connection with the marriage of Queen Wilhelmina to Duke Henry of Mecklenburg-Schwerin tomorrow are on in full force. The town is crowded in the center of the town and in the neighborhood of the palace are decorated with pine branches, flags and flowers, and orange blossoms are to be seen everywhere. The street hawkers are doing a rushing trade in cockades, while the people are highly enthusiastic. All the embassies, the banks and hotels are tastefully decorated with roses and banners, the decoration of the Russian and German embassies being particularly noticeable.

ROYAL GUESTS ARRIVING.

Numerous royal personages are arriving at The Hague to attend the wedding. Her majesty, attended by the queen mother and Duke Henry, met daughter, Grand Duchess Helene, and his son, Grand Duke Boris, at the railway station yesterday afternoon. Others who have arrived are Princess Louise of Wied, the hereditary Prince and Princess of Wied, and the Prince and Princess of Benthien-Stolberg. Last evening 400 singers and four bands, accompanied by 170 torchbearers, serenaded her majesty at the palace. Upon the conclusion of the singing the crowd, which numbered 75,000 persons, burst into cheering. The queen appeared upon a balcony and thanked them. Her voice displayed deep emotion. Later the queen and her fiancé, escorted by twelve noblemen and fifty Hussars, drove to view the illuminations, which were splendid. The Binnen-Hof was lighted by a hundred thousand candles. The couple was everywhere received with joyful cheers.

Queen Wilhelmina and Duke Henry have received the Roumania Grand Cross of the Order of the Star and Duke Henry the Swedish Seraphim Order.

GALA SHOW AT THEATRE.

This evening additional guests arrived at the palace and there were more chorale serenades. At 8 o'clock a state banquet was given at the palace in honor of the foreign envoys, while earlier in the day there was a reception at the German legation.

The gala performance at the theatre presented a brilliant spectacle. The house was draped in pale blue and flowers were everywhere in profusion. At half-past nine two officials, bearing candles, ushered in Queen Wilhelmina, who was attired in white satin and lace and wore a diadem of brilliants and a pearl necklace. Duke Henry followed, wearing the uniform of a rear admiral. Then came the Grand Duke of Mecklenburg, Duke Adolph Frederick of Mecklenburg, Duchess Maria, Prince Albert of Prussia, the queen's mother, Grand Duke Vladimir of Russia and other princely personages. The old theatre was crowded with ministers, diplomats and officers, all in full uniform.

The city was again magnificently illuminated tonight. During the afternoon the queen and duke drove out to neighboring villages.

BREAK IN BRASS GOODS TRUST.

AMERICAN PIN COMPANY GIVES NOTICE OF WITHDRAWAL.

Waterbury, Ct., Feb. 5.—It is announced here that the combination of manufacturers known as the Brass Goods association is practically dissolved by the action of the American Pin company of this city in declaring its intention to withdraw from the combination Feb. 15, because of its alleged inability to obtain orders at the schedule of prices fixed by the association.

The firms involved in the association include the American Pin company, the Burbecker & Rowland Manufacturing company of this city, the H. L. Judd company, Wallingford, Ct.; P. C. Richards company, Winsted, Ct.; Turner & Seymour Manufacturing company of Torrington, and the Gould-Merseau company and Kroder & Reubel company of New York. The association was formed a year and a half ago to fix the prices of upholsterers' trimmings. It is supposed that the action of the American Pin company will mean a break in the price schedule.

Say, Charley, what makes you so late for supper tonight? Why, I just dropped into the Aetna Life Insurance company's office for a few moments to give Mr. Vandenberg explain their new policy. I found it so interesting that I took it up at once. Oh, I am delighted to know that you have insured in the Aetna, for papa always said the Aetna was his favorite company; and when he died they paid the insurance so promptly that I cannot help admiring the management of that company. A Nervous Heart

Like all other organs of the body, the heart is controlled and regulated in its action by the nervous system. So absolute is this nervous control of the heart, and so readily does it respond to impulses of the mind, that its pulsations are fast or slow, strong or weak, according to the emotions that are in control. Fear, anger, sorrow, worry, anxiety, care, low spirits and mental or bodily overwork have a very depressing effect on the heart nerves. Those persons whose nerves are so weak or so exhausted that the heart's action is disturbed on every slight occasion, or who are irritable, nervous, restless and cannot sleep at night, will find quick and lasting relief in DR. MILES' NERVINE.

"Extreme nervousness for years finally affected my heart and I suffered from smothering and fainting spells. I would become cold and lifeless, unable to speak or move and suffered intense pain. That I am well now and enjoying better health than in twenty years is due entirely to Dr. Miles' Nervine. It is a wonderful remedy."
Mrs. LIZZIE PAINTER, Carmi, Ills.

Dr. Miles' Nervine

Makes weak nerves strong, builds up the worn-out brain-cell, and nourishes, fortifies and refreshes the entire system. To-day is the best time to begin.

THE ARISTOS Gold Mining Company

Owning Big Horn Mountain Tunnel and Veneta Vein, 200 acres situated on the Western Slope of Pike's Peak, in the Famous Cripple Creek Gold Mining District.

THE SAFEST OFFER EVER MADE TO INVESTORS.

100,000 Shares Preferred Stock at 25c per Share.

It is printed on each Certificate that subscribers to the above Preferred Shares will be entitled to receive in Dividends the full amount of money invested, before other stockholders receive any returns, signed by the President of the Company.

This District Produced More Gold in 1900 than any other in the United States.

This property consists of 300 by 200 feet, or 200 acres, of gold land. The mine has been worked. The feature of this mine is the Veneta Vein, 20 to 40 feet in width, and is certainly one of the strongest veins in this famous district. There are some other openings on this famous vein, the one in which assays in gold from \$12 to \$100 per ton. The property is advantageously located for development by tunnel, which will make it possible to produce an enormous amount of ore daily, the unitary varying from 20 to 600 tons per day. The development by tunneling is the most economical and advantageous manner of working this property.

At a distance of 800 feet the TUNNEL will intersect the Veneta Vein at a depth of about 650 feet and will also intersect several other veins. The TUNNEL will cut the Big Horn Mountain 2,100 feet deep and will give this Company 2,000,000 tons of ore, worth over \$20 per ton.

The new railroad, now practically completed from Colorado Springs, called the Colorado Springs and Cripple Creek road, passes within 200 feet of this tunnel. Adjoining this property is the Colorado Springs TUNNEL Company. In this property, at a depth of 40 feet, the Veneta Vein was cut. At this point the vein was fully 20 feet in width and its value from \$50 to \$1,000 per ton.

There are already in operation, mills and smelters sufficient to treat the output of this property which gives at once cash returns.

Capital Stock, \$1,000,000. Par Value, \$1.00 per Share.

100,000 Shares Preferred Stock at 25c per Share.

In buying this stock the purchaser owns a direct title in the Company's property. This Company offers you no watered stock, but a legitimate high grade gold mining investment in the Cripple Creek District.

The above offer of preferred dividends is an assurance of early returns. After additional shares are issued, this property will be earning dividends almost equal to its Capital Stock.

A MASS MEETING.

ONE IS HELD IN BRAASTAD'S CLUB ROOMS TO DISCUSS THE SKI TOURNAMENT.

The meeting held Monday evening to talk over ways and means for the ski tournament was well attended. All present showed great enthusiasm and promised to take hold and help the enterprise along. A number of plans came under discussion bearing on the management and the location problem was also mentioned. All these questions were left in the hands of committees which were appointed. A permanent organization was effected, with Carl Telefun as president, Albert Aas secretary, and Erick Hoyseth treasurer. These gentlemen, together with W. H. Johnston and D. D. Randall, constitute an executive committee. An arrangement was made of five was made up as follows: Lars Hoyseth, chairman; Ole Aas, Emil Polsmoe, Ole Sundlie and Christ Presthus. The following is the make-up of the soliciting committee: W. H. Johnston, chairman; Arvid Braastad and A. J. Yungbluth.

The executive committee will have charge of the financial affairs of the tournament. It will also select the prize, arrange for any excursions which may be run and keep track of the business end generally. To the arrangements committee is left the selection of the hill and the supervision of it when the run is made. It is easy to guess what the duty of the soliciting committee is. The list has already been started with a contribution of \$50 and there is little doubt that enough money will be collected to defray the expenses of a first-class tournament. The selection of judges was left for a later meeting of the committee, as was also the question of a banquet. That this affair will be run on the broadest plan is a surety and it is certain that each and every member of the committee will work together to secure the best results. The secretary was instructed to open a correspondence with parties in Red Wing immediately and determine the conditions on which some famous riders of that town will come here. The general sentiment of the meeting favored bringing at least two professional riders here who would be paid a stipulated sum and be debared from competition for the prizes. The original scheme was that only one rider be brought from outside and he could give an exhibition. But it was conceded that one man would not race to his best ability and that it would be much wiser to have a professional race, the biggest end of the purse going to the winner but with something for the other contestant. This matter has been left in the hands of the committee, which will act for the best interest of the tournament.

The arrangements committee will look over the various hills in the vicinity and decide upon the most suitable one; this decision will not be made public until just before the race, as the local riders would be practicing on the run and so become accustomed to all its intricacies and thus would have an unfair advantage over the outside competitors. The soliciting committee was hard at work yesterday and money was coming in quite freely. A meeting of all the committees will be held Friday evening in the club rooms, when more definite particulars of the arrangements can be given out.

The Viking Ski club of this city is preparing to enter the contest and the members are not without preparation if reports are true. There are a number of first-class riders in this club who are in the habit of riding every Sunday afternoon. A jump of fifty feet is nothing to some of them and they all say that this can be bettered. There is a club in Champion which contains some good riders and the Vikings will challenge them. All who wish to compete will hand their names and ages to the secretary, Albert Aas. It is expected that there will be a junior race for boys under eighteen, though this has not been fully determined as yet. The last tournament cost in the vicinity of \$700, but it is thought that this one can be conducted much more cheaply. The cheer of the partying the hill is a big item which will be eliminated, as the Lake Superior Iron company has promised to furnish all the help required. That company will also supply the necessary lumber and runway fixtures. The amount of the prize cannot be determined at present because the committee does not know how much it will have to expend and for this reason it is earnestly urged that all who contemplate helping the movement along in a financial way will do so at their earliest opportunity.

COLD STEEL OR DEATH.

"There is but one small chance to save your life and that is through an operation," was the awful response set before Mrs. I. E. Hunt, of Lima Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure Stomach and Liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50c at The Stafford Drug Co.

A PIONEER BURIED.

The funeral of the late Carl Gustaf Malmgren was held from the Swedish Lutheran church yesterday afternoon at two o'clock. The church was crowded with relatives and friends of the deceased. Many beautiful flowers were sent. A special quartet sang at the services. Burial was in the Ishpeeming cemetery. Mr. Malmgren's sons, Victor of Manitowish, Albert of Marquette and Dr. Anderson of Minneapolis, were present. Sletus, who lives in the west, was unable to come.

INQUESTS HELD IN ISHPEMING SINCE JANUARY FIRST WERE NOT CONDUCTED ACCORDING TO LAW.

At the meeting of the auditing committee of the board of supervisors, which was held in Marquette last Saturday, the fact was made known that the present coroner, Maurice Wolner, is not legally qualified for the office. Wolner is on his second term, he having been reelected last fall. He neglected to qualify on January first and to furnish bonds, and in consequence has not been the legal coroner of the county, though he has served as such. Just why he failed to qualify and to furnish bonds is a question which he will have to answer at the meeting of the full board which will be held this morning. There has been a large number of inquests during the past month and they are open to contests on the ground of his neglect to comply with the law. It is not thought that this will be done, as they were of the usual order, with the possible exception of him and who will endeavor to deprive him of the office. As the bond required is \$10,000, Wolner may have some trouble in furnishing it. At the session of the auditing committee Saturday the various bills in connection with these inquests came up for approval and all but the personal charges of Wolner were allowed. His bill amounts to about \$100 and the full board may decide not to pay it. In the event of the office becoming vacant no special session will be necessary, as which some famous riders of that town will come here. The general sentiment of the meeting favored bringing at least two professional riders here who would be paid a stipulated sum and be debared from competition for the prizes. The original scheme was that only one rider be brought from outside and he could give an exhibition. But it was conceded that one man would not race to his best ability and that it would be much wiser to have a professional race, the biggest end of the purse going to the winner but with something for the other contestant. This matter has been left in the hands of the committee, which will act for the best interest of the tournament.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible, if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Bosche's German Syrup." It not only heals and stimulates the tissues to destroy the germ, but it also relieves inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. ISHPEMING IN BRIEF.

Frank Tremblay is recovering from an attack of the grip.

J. F. Van Brocklyn is around again after a very severe attack of the grip.

Graham Pope of Houghton was a visitor in the city yesterday.

Dr. W. S. Picotte is expected back from his Canadian trip today.

The two cases of small pox which the city contains are convalescent.

A. H. Montgomery of Marquette transacted business in the city yesterday.

The Gaytons will give their regular lesson and hop Friday evening in Anderson's hall.

Among the Grand Rapids visitors in the city yesterday were H. J. Cheney and J. A. Gouzeley.

Monday evening was ladies night at the Snow Shoe club and the members enjoyed a long tramp.

N. P. Flodin, of the Lake Shore Engine Works, Marquette, was a business visitor in town yesterday.

Mike Mikkonen died Friday at his home on Jasper street of pleurisy. The funeral was held Sunday.

Matt Richards, Adolph Beerling, and Samuel Parks, dry man at the Cliff shaft, are all wrestling with the grip.

Ingebrekt Qvaal, who underwent an operation at the hospital last Friday for strangulated hernia, is doing well.

A large gathering attended the entertainment and ball which was given by the W. B. C. in Anderson's hall Monday evening.

There were fifteen deaths in the city last month. This is a decrease of three from the quota for the corresponding month last year.

Albert Louenstein, Frank Erditz and Wm. Farr, of the Menominee River Brewing company, are in the city. They will superintend the erection of the machinery in the new bottling works building which the company owns on Pearl street.

Mr. and Mrs. Fred Tomsson, Mr. and Mrs. J. L. Bradford and Dr. and Mrs. Jarvis gave a card party to their married friends last evening. It was held in Mildon's hall which was very prettily decorated for the occasion. There were twenty tables and the evening was very pleasantly spent by all.

There was much guessing going on yesterday as to the reason for raising the flag over S. Johnson and company's store. It was an easy guess, however. It was flying in honor of the first evening on which the stores close at six o'clock. It was rumored about the store yesterday afternoon that it would be half-masted on all other days.

Will Mitchell and Tom McWhirter left this week for South Africa. Both men have been employed as diamond drill runners at the Cleveland-Cliffs exploration in Negaunee and will follow the same line of work in their new field. Mitchell played on the line with

the Rough Riders last fall and will be remembered by all foot ball enthusiasts.

LA GRIPPE QUICKLY CURED.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe" says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by the Stafford Drug Co.

Upper Peninsula News.

This week papers were filed in a suit brought by the thirty-four bondsmen of the late Joseph Fleishman. The suit is to recover a shortage of \$2,200 in 1898, at which time G. A. Biesch, J. W. Wells and David Barclay were bondsmen. The case will be argued at the May term of circuit court.

William Lehmann, Sr., of Menominee, now smiling in his eighties, a native of Prussia, was the first citizen to take out his full citizen papers in Menominee county, and they were granted him by the late Judge Goodman on May 9, 1864. He took out his first papers in Chicago in 1854. The old gentleman has always been a loyal citizen to his adopted country, and is still an enthusiastic believer in republican institutions.

Several lumber sales of good dimensions were made at Menominee last week, and from the influx of buyers in that city of late there is every indication that some big deals will be closed soon. Last week the Sawyer-Goodman company sold 2,500,000 feet of the 1901 season's cut of elm lumber to Francis Beldier & Co., Chicago. There are rumors current that the Hines Lumber company will again buy the season's cut of the N. Ludington company.

Word has been received from R. E. Gjelsteen of Menominee that the transport bearing the Thirty-seventh United States Volunteers will reach San Francisco from Manila this week. Mr. Gjelsteen has been in the volunteer service in the Philippines for two years or more, and has held the position of hospital steward. He will reach Menominee some time next week. The Thirty-seventh regiment, of which several Menominee boys are members, will be transported soon, and the boys are expected by March 1.

Monday morning lighthouse keeper Captain Young received formal orders from Lieutenant Simmons of the lighthouse board, to extinguish the harbor lights and muffle the fog horn at Menominee for the winter. The same order was received by the keepers at Green and Chambers islands. The order was late in coming because the department had no official information that the Ann Arbor boats would not run to Menominee any more this winter. The keeper, Captain Young, and assistant, M. Stevenson, will be employed all winter at the station.

The police committee of the common council is getting right after the members of the force at Iron Mountain. The city clerk has been ordered to hold back the officers' pay for the January work. It has been customary to turn over the checks at the first of each month without waiting for the session of the common council but the police committee is now "investigating" the department and the money is withheld until its suggestions are made when the officers were given raises they agreed to turn all fees over to the city. This has not been done in some instances and it is desired to ascertain how much the officers owe the city before settling the last pay roll. The committee will report on this matter at its next session and it is said that there will be some interesting disclosures.

Paul Brunette, a woodsman whose home is near Duck Creek, Brown county, Wis., was terribly injured at Nathan Monday. He was in the saloon of Erickson and Anderson. The latter have a large and ferocious bull dog. Some one warned Brunette to look out for the animal. To show his utter unconcern Brunette laid down on the floor beside the dog. The latter waited just a few seconds and then pounced on the man. He fastened his jaws in Brunette's throat and tore away the skin and flesh. The injured man's cries of terror brought several to his rescue but the dog was by this time infuriated and with great difficulty dragged off. One side of Brunette's neck and part of his face was torn away. The jugular vein was also lifted out but fortunately was not torn. He is not expected to live.

"Don't Speak to me."

Overwrought Nerves.

As soon as a woman's nerves become excited by some feminine disorder, she loses control of her speech. She has no patience with anybody or anything. The ones she loves the best are the ones to whom she talks the meanest. Trifles light as air drive her almost frantic. She is worse than crazy, because she knows what she is doing and can't help it. She doesn't have hysteria and doesn't have fainting spells. She is nervous, horribly nervous. Does she get sympathy? Oh, yes, she gets sympathy for awhile, but she acts so outrageously that everybody keeps out of her way as much as possible. After a while they begin to think she's malicious and could do better if she tried real hard. She has turned her best friends against her.

This woman is sick with about the most discouraging sickness women can have, and there is a person who understands her case better than any one else in the world. That person is Mrs. Pinkham. The nervousness comes from some derangement of the feminine organs, and is constantly fed and made worse by the constantly developing disease. Female diseases never get better of themselves. They must have proper treatment. Ordinary physicians do not know how to grapple with these diseases of women. Out of the hundreds of thousands of women Mrs. Pinkham has cured, not one in five hundred tried her advice or her medicine until they had exhausted the skill of their own physician, sometimes of several physicians.

Mrs. Pinkham's address is Lynn, Mass. Her advice is prompt and free to all suffering women.

You may not know that your nervousness comes from female troubles. Your doctor may not know it. He may tell you it does not; but does he cure you? Does he help you any? Mrs. Pinkham will tell you the truth about yourself, and you'll believe her. Don't throw your life's happiness away and make yourself unlovable, when a little diligent heed to Mrs. Pinkham's advice will drive away your nervousness by removing the cause of your trouble.

Read carefully the letters from women Mrs. Pinkham has helped.

After thirty years of success in curing women's ills, can you not believe it worth while to test the virtues of

Lydia E. Pinkham's Vegetable Compound?

\$5000 REWARD

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank of Lynn, Mass., \$5,000, which will be paid to any person who can show that the above testimonials are not genuine, or were published before obtaining the writers' special permission.—LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass.

Heartfelt Stories from Cured Women.

"DEAR MRS. PINKHAM:—I feel it my duty to write and tell you of the benefit I have received from your wonderful remedies.

"Before taking your Vegetable Compound I was a misery to myself and every one around me. I never laid my aching head upon my pillow without wishing I could die. "I suffered terrible pain in my back, head, and right side, was very nervous, would cry for hours. Menses would appear sometimes in two weeks, then again not for three and four months. I was so tired and weak, could not sleep nights, sharp pains would dart through my heart that would almost cause me to fall. I was so poor and white that my folks thought I was going to die. My mother coaxed me to try Lydia E. Pinkham's Vegetable Compound. I had no faith in it, but to please her I did so. The first bottle helped me so much that I continued its use. I am now well and weigh more than I ever did in my life. "Your remedies deserve the highest praise."—MRS. WINIFRED ALLENDER, Farmington, Ill.

MRS. WINIFRED ALLENDER

"DEAR MRS. PINKHAM:—It gives me great pleasure to tell you how much your Vegetable Compound has done for me. I had been a sufferer for years with female trouble. I could neither read nor sew but a few minutes at a time without suffering terribly with my head. My back and kidneys also troubled me all the time. "I was advised by a friend to take Lydia E. Pinkham's Vegetable Compound. I had no faith in it, but decided to try it. After using one bottle I felt so much better that I continued its use, and by the time I had taken six bottles I was cured. There is no other medicine for me. I recommend it to all my friends."—MRS. SARAH SWODER, 103 West St., La Porte, Ind.

MRS. SARAH SWODER

"DEAR MRS. PINKHAM:—I am very grateful to you for your kindness and the interest you have taken in me, and truly believe your medicines and advice are worth more to a woman than all the doctors in the world. For years I had female troubles and did nothing for them. Of course, I became no better and finally broke down entirely. My troubles began with inflammation and hemorrhages from the kidneys, then inflammation, congestion and falling of the womb, and inflammation of ovaries. I underwent local treatment every day for some time; then after nearly two months the doctor gave me permission to go back to work. I went back, but in less than a week was compelled to give up and go to bed. On breaking down the second time, I decided to let doctors and their medicine alone and try your remedies. Before the first bottle was gone I felt the effects of it. Three bottles of the Compound and a package of the Sanative Wash did me more good than all the doctors' treatments and medicine. The first remark that greets me now when I go to any place is, 'How much better you look!' and you may be sure I never hesitate to tell the cause of my health. I have gained twelve pounds during the last two months and am better in every way. Thanks for your kind attention and advice."—MRS. E. J. GOODEN, Ackley, Iowa.

THE FIELD DAY.

HIGH SCHOOL BOYS ARE ALREADY DISCUSSING PLANS FOR THE MEET.

High school boys are busy with plans for the meet which is booked for Union Park the last of May. They are, one and all, heartily in favor of such a contest and feel confident that they will make a good showing. There is an abundance of good material in the school and that it will be brought out to its full capacity there is no question. Superintendent Greening will have charge of the coaching and he feels that Marquette administered the boys last spring. The late Mr. Krogman always maintained that there are some fine athletes in the school here, Mr. Greening is of the same opinion. The boys will not begin active training for some time yet but when they do get down to work they will be plenty of it and very little let up. There has always been much rivalry between the sister cities but for some years nothing has been done to decide which is the better in an athletic way. Now that the chance to settle this is in sight and it will not be allowed to slip by without a definite result, the opinion seems general that even if Ironwood, Menominee, Calumet and the schools of the twin cities were the only ones to enter, the meet would be a big success. However, it is very unlikely that there will be so few entries, as the general sentiment of the whole peninsula seems to be in favor of a general field day meet. The boys of the local school may do a little training from this time on but no steady work will be done until some six weeks before field day.

WILL PARTICIPATE.

PEOPLE OF NEGAUNEE MUCH INTERESTED IN THE COMING SKI TOURNAMENT IN ISHPEMING.

The news that Ishpeping is to have a ski tournament in the near future caused no little comment in this city. There is an abundance of dormant enthusiasm which only needs a starter to awaken. Skiers and sking have not been talked of much this winter but now the boys are looking for their skis and preparing to get into steady practice for the races. Negaunee will certainly make a try for a few of the prizes which will be put up and her chances for securing some of them are fairly good. None of the arrangements are concluded as yet and perhaps it is a little early to say what will be done, but the well known pride which this city possesses is sure to bring her into prominence in the races. And this pride will send a goodly delegation of enthusiasts and backers to the neighboring city who will yell with the best of them.

The place where the tournament will be held has not been settled on yet, but a hill between the two cities is under serious consideration and should that locality be chosen many Negaunee people would attend and who would otherwise not go. There is no ski club in town at this time but the chances for forming one are good and then there may be some challenges exchanged between the towns of this section.

PNEUMONIA CAN BE PREVENTED.

This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. That remedy was extensively used during the epidemics of La Grippe of the past few years, and no single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. Chamberlain's Cough Remedy has gained a world wide reputation for its cures of colds and grip. For sale by the Stafford Drug Co.

HORSESHOERS' INSTALL.

The Negaunee and Ishpeping Horse-shoers' Protective Association met in Andrew Hall's shop in Ishpeping last Saturday evening. The following officers were elected and installed: August Jacobs, president; Al Storey, vice president; H. Anderson, secretary; Humphrey Lucas, corresponding secretary; John Aullswiger, treasurer. The next meeting will be held at the shop of Humphrey Lucas on Friday night of this week at 7:30 p. m. Plans for bringing about an organization of the Marquette horse-shoers will be discussed, and a committee will probably be chosen to place the matter before the Marquette brethren. All blacksmiths are cordially invited to attend the meeting.

KIDNEY TROUBLE

Like most serious diseases, often has so small a beginning as to pass unnoticed. Generally it starts with a cold, followed by a chilly feeling and pain in the small of the back. The kidneys then become weakened, and are unable to perform their natural work of filtering the blood, in consequence of which the blood is pumped back through the body with all the wasted tissue, Uric Acid and other impurities which it has gathered, and which rightly should have passed off through the kidneys.

The effect of this is disastrous, producing a complication of the severest forms of kidney trouble, including Bright's Disease, Bladder troubles, Gout, Rheumatism, Diabetes, Gravel, Scalding of the Urine, etc. These serious complications

Can be Cured by

Only a remedy which will act swiftly, safely and surely. It must get at once to the seat of the disease, speedily remove it (without driving it simply to some other organ), strengthen and heal the kidneys and assist them to perform the work imposed by nature of filtering the blood and ridding it of all impure and waste matter. Such a remedy is

JOHNSON'S Kidney Pills.

They contain nothing that can in any possible way derange or injure the system. They simply assist nature to utterly expel all poison from the system and heal the wounds consequent on its presence. The first few pills have the effect of immediately cleansing the kidneys of every impurity, and gradually they so heal and strengthen the organs that they can perform their whole duty unaided.

JOHNSON'S KIDNEY PILLS have absolutely cured the severest forms of kidney disease. They have never failed with proper use, and we guarantee a cure whenever directions are followed, or your druggist will refund your money.

ELIMINATE SECTION 7.

When This Is Done Hawkers and Peddlers Ordinance Will Be Fairly Efficient.

CHANGE WILL CERTAINLY BE APPROVED BY THE ALDERMEN.

When It Is Made the Business Men Will Be Able to Get After Some Outside Dealers Who Now Do Big Business in Marquette Without Paying Taxes.

CLARK & PEARL'S OPINION

The Merchants' association expects to obtain relief from a number of outside hawkers and peddlers who are trading on the toes of Marquette business men by eliminating Section 7 from ordinance No. 24, an ordinance relative to hawkers and peddlers. This matter was brought up at the council meeting Monday evening. Immediate action was not taken, owing to a discussion which arose among the aldermen. It was referred back to the committee on ordinance and legislation which will report to the aldermen at the March meeting. Then, it is almost certain, the charter will be modified as the Merchants' association desires.

The association is now thoroughly informed as to where it stands, having procured an opinion from the lawyers and peddlers regulations of the city charter from Clark & Pearl. This firm says that when Section 7 of ordinance No. 24 is eliminated the provisions of the Marquette charter will afford the business men all the protection they can get without the adoption of measures which would very probably be found to conflict with the provisions of the United States interstate commerce law.

The objectionable section reads as follows: "This ordinance does not apply to the selling, or offering for sale, of live stock, vegetables, fruit, berries, milk, butter, eggs, fresh meat or fresh fish, wood, hay, or other farm products."

It was designed as a protection to farmers residing near the city and to small traders who are residents of the city. Like many other ordinances, its scope is much greater than was originally intended and it has been found in practice to protect a number of outside dealers whose principal occupation is rubbing it in to the Marquette retailers.

THEY CAN'T TOUCH THEM.

An inspection of Section 7 shows that the business men are very inadequately protected. There is no limit to its specifications, thus the wholesale fruit dealers can bring in carloads of apples and hawk and peddle them scot free of any license under a provision which was only intended to give the farmers of the vicinity the privilege of selling their fruit without interference.

This is just what they have done in practice. The same is true of the live stock men. They bring in carloads of horses and, year in and year out, they do thousands of dollars worth of business in the city without putting up a cent toward defraying the expenses of the municipal government. This same protection is extended to dealers in all descriptions of farm produce should they desire to avail themselves of it but it has been the experience that the fruit and live stock men have been the particular gainers.

According to the charter the council has abundant power to regulate hawking and peddling. It is defined by the following ordinance: "The council shall have the power to license hawkers, peddlers and pawn-brokers, and hawking and peddling, and to regulate or license the sale or peddling of goods, wares, merchandise, refreshments, or any kind of property or thing, by persons going from place to place in the city for that purpose, or from any stand, cart, vehicle, or other device in the streets, highways, or in and upon the warves, docks, open places or spaces, public grounds or buildings in the city, or from boats in the harbor; all persons selling goods, wares, merchandise, or refreshments, or any kind of property or thing, by peddling, or from any stand, cart, vehicle, or other device in the streets, highways, or in and upon the warves, docks, open places or spaces, public grounds or buildings in the city, or from boats in the harbor; shall be deemed hawkers and peddlers within the meaning of this chapter."

Speaking of this chapter and of the general ordinance relative to hawking and peddling Clark & Pearl say: "This ordinance seems to have been drawn so as not to conflict with the decisions from which we have quoted above; and we think that these charter provisions could be enforced under the Michigan decisions, there being no discrimination between the resident and non-resident parties, and the rates to be paid under the provisions of the ordinance seeming to be reasonable."

MUST WINK AT FARMERS.

The only thing that can be done to insure the merchants more protection is to eliminate Section 7 from the ordinance relative to hawking and peddling, with the understanding that the small dealers resident in the city and the farmers from the neighboring territory will be allowed to carry on their trading as they have been doing for years immemorial. Then the merchants will have an opportunity to get after the fruit and live stock men, and other traders, who have been having things all their own way of late. It will then be possible to collect reasonable license fees in the discretion of the council.

CHASE S. OSBORN.

He Will Lecture on Mexico at Presbyterian Church Friday Evening.

The lecture of Hon. Chase S. Osborn, state railroad commissioner, at the Presbyterian church next Friday evening should not be forgotten.

Mr. Osborn, in his modesty, does not forward batches of press notices of his discourse and he invariably refers to it as his "little talk" on Mexico. His newspaper and political friends are well acquainted with his skill as a platform speaker and they know that his lecture is sure to be a treat as he has visited Mexico thoroughly. His talk will be illustrated with a fine lot of stereoscopic views.

DIED YESTERDAY MORNING.

Accident in Which John Trumble Was Injured Terminates Fatally.

John M. Trumble, a railroad man who was hurt at Michigamme late Saturday night, died at St. Mary's hospital at 4:15 o'clock yesterday morning as a result of his injuries. Trumble was a freight conductor. At the time of the accident he was switching his train around a log train. It was about 11:30 o'clock in the night and he was standing on the platform of his caboose. He was caught by a car loaded with logs wider than was anticipated and his right leg was horribly mangled, the side of the caboose being practically torn out. As soon as Trumble's plight was discovered he was given every attention and Sunday morning he was brought to St. Mary's hospital here. There was no attempt made to amputate the injured leg as it was realized from the first that Trumble could not survive. He was unconscious most of the time he lingered.

Trumble was a man of twenty-eight years, was married and he leaves a wife and one daughter, a little child of seven months. He was a member of the St. Ignace tent, K. O. T. M., and also of the Brotherhood of Railroad Trainmen, in which orders he holds insurance policies that will give the widow \$2,400. He has been a conductor in the employ of the South Shore road for the past two years. He was well known and liked among the railroad men as he was a man of many sterling traits of character. He also possessed a general acquaintance in Marquette where he had the respect of all who knew him. His loss will be felt and sincerely regretted. The funeral will be held at 9 a. m. Thursday morning from St. Peter's cathedral, with interment in Holy Cross cemetery.

DIED ON THE TRAIN.

Remains of Lumberman Named Furnace Brought in Last Night.

A lumberman named Furnace was the victim of a fatal accident at the camps of the Bay Shore Lumber company, thirty miles from Michigamme, yesterday morning about 10:30 o'clock. Death did not result immediately and an effort was made to get him to a point where he could receive medical aid. He was driven into the railroad. He was still alive when he was placed on the train which arrives here at 7:40 o'clock, but he died shortly after. His remains were brought on to this city, where they have been prepared for burial. They were accompanied by one of the men from the camps. He is not acquainted with the people of the deceased woodman and he knows very little about him, as the unfortunate fellow had only worked in the camps where he was killed five days previous to the occurrence of the fatal accident. He was a man, he believes, Furnace hailed from some point below Bay City. At the time he received the injury he was working on the bank, unloading logs from the sleighs. A couple of logs rolled over his body, badly lacerating and tearing the inner side of his right leg between the knee and the hip. The slash was a terrible one and the loss of blood was great. It was seen that if the fellow could not be taken to some point where he could receive medical aid that his death was a certainty. Accordingly the horrible wound was dressed in the best possible manner that the rude appliances available would permit and the effort to bring him through to Marquette was made with the above detailed result. If medical aid had been available at the time of the accident the man's life would doubtless have been saved. He simply died of death.

HE FORMERLY LIVED HERE.

Ole Selland Assaults an Aged Uncle Near Hart, Mich.

Ole Selland is in custody at Muskegon, charged with an unprovoked and murderous assault on P. D. Wamsey, his aged uncle who resides in Claybanks township, Muskegon county. Selland lived in Marquette for a year or more about four years ago. He is a telegraph operator and while here he was employed with the Western Union company. He took The Mining Journal's Associated Press report. He was a good operator but he was generally regarded as a dull boy. He had his mother with him. She was suffering from a mental derangement.

Selland's assault on his uncle was committed last Wednesday. He has lived in Chicago lately and he has been employed by the Postal Telegraph company. He was visiting Wamsey at the time of his outbreak. He was sitting with his uncle near a stove when suddenly, without a word of warning, he seized a stick of wood and began to pound his aged relative. Mrs. Wamsey's screams aroused the neighbors, but before they arrived Selland had made good his escape. He was chased for ten miles when his track was lost. A telegraph operator at Big Rapids Junction gave the tip that led to his arrest. As Selland was walking through the junction he noticed his bloody clothes and notified the officers. Wamsey is seventy-five years of age and he is reputed to be a wealthy farmer. He is of large size, which alone saved him from being killed by Selland's pounding. His injuries are very serious and it is feared that they will result fatally. Selland has stated that he wanted to pound some sense into the old man's head. He had been taking heavy doses of quinine for the grip prior to the assault and it is thought that he may have been suffering from temporary insanity at the time of his outbreak.

FINISHED UP YESTERDAY.

Legislators Departed on the 1:30 and 3:05 O'clock Trains.

With the exception of Representative Hunt and Professor Johnson of Ann Arbor, the state legislators and the members of the state board of education left Marquette yesterday. These two gentlemen remaining over in the city until today. The great body of the visitors left for Lansing or their homes in the lower part of the state on the 1:30 o'clock train. Representative Gordon accompanied this party. Representatives Hearst and McFarlan left at 3:05 for the copper country where they will await the arrival of the fisheries committee.

The legislators and the members of the state board of education spent most of yesterday morning at the Normal, leaving after 10 o'clock for the branch of state prison which was inspected with interest. At the Normal the first favorable impression of the visitors were strengthened and they appeared greatly pleased with everything about the institution. The training school was brought out for their benefit and they had an opportunity to inspect its workings. They also visited the regular Normal class rooms.

A gathering of the Normal young people and instructors in the assembly room was addressed by Superintendent of Instruction Delois Fall and by other members of the party, all of whom were heard attentively and with interest. During their two visits at the Normal the members of the legislative committee and of the state board of education took advantage of the chance to inspect the new school as well as the dormitory very thoroughly. They gained an intimate acquaintance with the institution and will return to Lansing well posted as to its growth and needs.

Gentlemen who met and consulted with the members of the party state that the Normal made a most favorable impression on the visitors and they are confident that it will be treated generously in the matter of the appropriations for which it is looking. It is to be hoped that they are prognosticating correctly for the school needs the north wing and also the \$5,000 which it is desired to expend on the grounds.

OPERA HOUSE TONIGHT.

Gavin Spence and Miss Flora MacDonald, the well known Scottish entertainers from Edinburgh, will appear at the opera house this evening under the auspices of the Woman's society of St. Paul's cathedral. Mr. Spence and Miss MacDonald have appeared together all over the country with general success and they have the reputation of being the best Scotch entertainers who ever visited the states. The Woman's society was fortunate in securing a date from them and they should be greeted by a full house. The Windsor (Ont.) Record said of a recent engagement: "Gavin Spence, the great Scotch tenor, assisted by Miss Flora MacDonald, a Scotch lassie, gave a high-class entertainment under the auspices of the Young People's society of the Epiphany church, in the opera house, to a large crowd last evening. The program consisted of Scotch songs and dances, interspersed with instructive and pleasing Scotch stories. Mr. Spence has a very fine and easy way of speaking, and by a single gesture can produce mirth or make a hushed silence. For one hour and a half he held his audience, which was composed of the elite of the town, and which displayed its appreciation of every number rendered by hearty applause and encores. Mr. Spence also helped us to understand the Scotch phrases, for he invariably preluded his songs by an explanation in English of all the dialect words. Miss Flora MacDonald, who accompanied him, has a remarkably plaintive and sweet voice, and she won her way into the hearts of the audience at once."

STRONG BUT SLOW.

There was nothing particularly new in connection with the copper market yesterday. The good tone of the last few days continued and the general feeling was very bullish. Paine, Webber & Co. said: "There continued to be a slow but steadily increasing interest in the Lake group of coppers. People are coming to understand that Michigan coppers should be strengthened rather than depressed by the heaviness of the Butte group. A lack of water and unfavorable legislation in Montana will naturally tend to curtail the production of copper and guarantee the Lake mines a strong market in which to sell their output. We expect to see all of the Lake coppers sell higher. James Lewis & Son, the English copper brokers, predict that there may be a copper famine before the end of the present year. The decline in Butte came after the circulation of a report that a large short interest, supposed to exist in the stock, would be squeezed. Traders who bought the stock for a quick turn found plenty for sale. It is stated that there are more stockholders in Boston & Montana now than a year ago. The Tamavack people claim they have no plans for building another mill but that they will build if the occasion requires it. Better buying of low priced coppers was the feature today. Winona was particularly firm."

Hayden, Stone & Co. wired the Laidley Commission company: "Coppers had a much better look yesterday and today. No pressure to sell was noticeable, and buyers had to bid prices up to get them. There is nothing unsatisfactory in the copper situation and a boom must come. We are big bulls on coppers and believe that now is the time to buy. When they start, they will go so quickly you can't get aboard. Buy all good coppers now and hold them."

St. Mary's guild of St. Peter's cathedral will meet with Mrs. N. M. Kaufman this afternoon at 2 o'clock.

James H. Thompson of Everett, a member of the state board of education, is in the city. He arrived yesterday.

The sale of the Lobb estate of Ne-gaunsee, which was set for the court house yesterday, has been postponed until next Tuesday.

All Maccabees are requested to meet at their hall Thursday morning at 8 o'clock sharp to attend the funeral of Sir Knight John Trumble.

Ten crisp one dollar bills, on exhibition at Bigelow's, are the prizes for the masquerade which will be held at the rink tomorrow evening.

The Ladies' Aid society of the Presbyterian church will give supper at the church parlors Tuesday evening, Feb. 12, from 5:30 to 8 o'clock.

There will be a masquerade at the ice rink tomorrow evening. The management is offering the usual prizes. It is said that there will be a large number of maskers.

The prices of the Spence-MacDonald entertainment at the opera house this evening are seventy-five and fifty cents. There has been a good demand for the tickets and there promises to be a good attendance.

The fire department responded to an alarm turned in from the corner of Fifth and Ridge streets yesterday morning about 10 o'clock. A chimney fire was the cause of the commotion and it was completely extinguished by the time the department reached the dwelling.

F. D. Davis, county commissioner of schools, was in the city last evening. He is spending his spare time looking after his interests in connection with the approaching convention at which the title to the office he now holds will be in question. He is a candidate for re-nomination.

There was ice on the lake as far out as could be seen yesterday. The sharp frost Monday night caused it to form rapidly and the body kept on increasing all day yesterday without cessation. If the cold winds, without heavy winds, for a day or so it will be possible to travel a number of miles, out toward open water, on the ice.

One of the best equipped insurance offices in northern Michigan is room one of the Savings Bank building, now occupied by F. H. Vandenberg, general agent for the Aetna Life Insurance company. Mr. Vandenberg has been in the life and accident insurance business during the past two years is remarkable. He has recently had his territory extended into the state of Wisconsin.

John Jones, receiver of the land office, has just received a letter from Senator James McMillan informing him that John R. Hanley, employed in the Marquette postoffice as a clerk, is a mail service. Mr. Hanley made application for the transfer some time ago and he is pleased with the prospect of the change as it carries with it a goodly increase in salary and fine chances of promotion.

E. H. Towar, vice president of the First National bank, leaves today on an extended vacation tour. He will be accompanied as far as Detroit by Mrs. Towar. They will meet the Misses Belle and Madge Towar, who are visiting friends. Miss Madge Towar will join her father and they will leave on a tour abroad. Mrs. Towar and Miss Belle will depart for the south to spend the winter. Mr. Towar and his daughter will visit on the continent and the British Isles, spending considerable of their time in England. Mr. Towar has richly earned his vacation as he has applied himself assiduously to a conduct of the affairs of the First National bank for several years past. He will be absent from Marquette until May 1 and he anticipates a thoroughly enjoyable trip.

A MOST WONDROUS CURE. Eminent Physicians Pronounced it Consumption. Dr. C. D. Warner, Coldwater, Mich. Dear Sir:—I have received great benefit from your White Wine of Tar Syrup. I had a cough and the doctors gave up all hopes of my recovery and pronounced it consumption; I thought that it was death for me. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I took one and one-half bottles and am cured entirely. Such medicine I can recommend to those who are afflicted as I was. Very respectfully yours, JOSEPH E. UNDERHILL, Doland, South Dakota. The Stafford Drug Co.
