MRS. NATION STIRS CITY.

Puts in a Busy Sunday at Topeka Along Her Usual Lines.

IS FOUR TIMES ARRESTED.

Smashes a "Joint," Also Bars in Hiding, and Breaks Into Cold Storage Plant in Quest of Liquor.

ARMY JOINS IN CRUSADE.

Topeka, Kas., Feb. 17.—Mrs. Carrie Nation put in a busy Sunday today, and as a result the capital city has experienced more genuine excitement than can be remembered by the oldest inhabitants.

Mrs. Nation succeeded in having the contents of a notorious "joint" smashed, broke into a cold storage plant in search of liquor, ruined the mirrors of several bars stored in a livery barn, addressed a large mass meeting and was arrested four times.

Tonight Mrs. Nation announces she will begin tomorrow morning where she left off today, and will not rest until all the saloons of Topeka have been closed.

EARLY START MADE.

This morning at six Mrs. Nation sallied forth from the state house grounds at the head of five hundred men and women, all armed with hatchets and axes, and moved on the "joints" of the city. In the crowd there were a number of students of Washburn college, some of the ministers of the city and a number of professional and business men.

The crowd marched in perfect military order down Kansas avenue to the place on East Sixth street kept by Ed Murphy. Here the march was commenced without preliminary.

Mrs. Nation, brandishing a new hatchet, headed the onslaught, uttering words of denunciation against the "joint" keepers as she deftly sent the weapon through the first plate glass window on hand. Others followed her lead and quickly the glass was soon crashing to the ground on all sides. Next the door was smashed in with an ax, and the beer kegs, bottles, mirrors and everything smashable attacked. At the end of five minutes what was one of the city's best furnished "joints" was in complete ruins.

LIME OF THE LAW NABS HER.

Mrs. Nation was arrested before she could strike a second blow, and as she was led away she shouted to her followers to continue the work.

At the police station, the crusade commander was released and promptly hurried back to her work. She entered a livery barn in which some bars had been stored, and smashed them. Then, at the head of twenty-five of her stoutest-hearted followers, she went to Moser's cold storage plant and entered in search of liquor she thought had been stored there.

This time Mrs. Nation was arrested by the county authorities and was taken to jail in a patrol wagon. It was afternoon before the crusader was released on bond, and after taking dinner with Sheriff Cook she went to the First Christian church, where she was accosted by an officer with a warrant and taken to jail again.

She stayed this time for two hours and finally her bond was signed by one of the "jointists" of the city, a prominent negro politician.

The gathering of the clans this morning at the court house was orderly, each individual having been taken to a specific company and the place for which had been previously designated.

LEADER OVERSLEPT.

When all was in readiness it was found that Mrs. Nation was not present, but after an hour's wait she hurried up, declaring she had overslept. "Joint" smashing, she explained, had gotten to be such an ordinary affair with her that she never had occasion to lose any sleep on account of the excitement it would cause. Two by two, and with no excitement, weapons in hand, the crowd moved out on its mission of destruction. In front proudly marched Mrs. Nation, with her hatchet raised. Behind her came Mrs. Rose Christ and Miss Madeline Southard, who accompanied her on her trip to Chicago, and Dr. Eva Harding. Next came six Washburn college boys bearing an immense battering ram.

As they entered Kansas avenue some of the women wanted to stop to demolish a drug store which has a reputation for selling liquor, but Mrs. Nation had other plans. When the crowd reached Murphy's joint four policemen stood guard and commanded the people to stand back. "Smash, smash, smash," called out Mrs. Nation. "Don't pay any attention to them."

BATTERING RAM UTILIZED.

The boys with the battering ram came forward, and in less than time it came to rest on the big plate glass win-

dows were shattered into a thousand fragments. Two of the policemen grabbed Mrs. Nation and started off to the police station. She waved her arms frantically and called out to co-workers: "Oh, keep it up. You can do it without me. Praise God, keep it up; keep on the smashing, you don't need me."

The leader's injunction was obeyed with energy. Then the crowd marched to the state house square and talked over the situation. Rev. E. W. Emerson, Mrs. Nation's manager during her recent trip, called upon the crowd to desist, telling them the entire city was now awake and further action would be useless. Dr. Eva Harding, however, engaged in a spirited argument with the minister, during which some choice compliments were passed. "What was left of the crowd then dispersed.

FINDS BARS IN STORAGE.

Mrs. Nation had been released from prison after being held but a few minutes, had gathered a few followers and had led the way to a livery stable where some bars were stored. After some parleying Mrs. Nation located the fixtures in a little room back of the office and proceeded to demolish the mirrors. She then led the way to the Moser cold storage plant.

While searching this place the sheriff placed her under arrest on a warrant sworn to by the storage people, charging the breaking of a lock. When Mrs. Nation again started for the center of the city—after dinner, as above related—she was confronted with a third ar-

rest, this time on a warrant for entering the Murphy joint.

During the afternoon Mrs. Nation appeared and urged the audience to follow her in smashing more saloons, but as she emerged from the building an officer in waiting placed her under arrest for the fourth time.

Two thousand persons followed Mrs. Nation. The officer was obliged to draw his pistol to keep the crowd back and it was with the utmost difficulty the jail was reached. Here the street was packed full, and it took much hard work by the police with the vigorous use of clubs to get an opening in the crowd sufficient for Mrs. Nation to enter.

The city is excited tonight, but no more raids are expected until tomorrow.

STAGE JOB FOR MRS. NATION.

TERRY M'GOVERN COMPANY OFFERS HER \$150 PER WEEK.

Kansas City, Feb. 17.—Mrs. Carrie Nation has received an offer of \$150 a week to join the Terry M'Govern company, playing "The Bowery After Dark." Her part, if she accepts, will be to rush in, hatchet in hand, during the dive scene in the first act, and demolish the place in her best style. Between acts she will deliver a lecture to the audience on the evils of intemperance. It is desired that Mrs. Nation join the company in St. Louis this week.

ALLIES PLAN EXPEDITION.

Troops to Move in Force on Sian Fu, the Present Capital, to Bring the Court to Time—Prospect of Serious Fighting.

Pekin, Feb. 16, via Shanghai, Feb. 17.—A few days ago Count von Waldersee wrote to the generals under his supervision notifying them to have all their available troops ready in two weeks for an expedition lasting eighty days. Today General Chaffee and also General Voyron, the French commander, received letters asking their cooperation and expressing a desire to know what forces they can spare.

In commencing his letter to General Chaffee, the field marshal says, "Owing to the unsatisfactory nature of the negotiations for peace, also to circumstances rendering such a course advisable, it will probably be necessary to resume the military operations on a large scale, especially toward the west."

It is not thought likely that General Chaffee will agree to such a plan without instructions from Washington. The French commander, however, is expected to do so.

VOYRON MAY LEAD IT.

Count von Waldersee's plan contemplates the offering of command of the expedition in the first instance to Sir Alfred Gaselee, the British commander; but it is believed that, in view of his recent illness, General Gaselee will inform the count he is unable to accept the command. In that event, it will be offered to General Voyron provided the French fall in with the arrangements which Count von Waldersee believes will be the case. Such an offer

CAUGHT BY FOLDING BED.

LUMBERMAN JAMES STEWART KILLED AT MINNEAPOLIS.

Minneapolis, Feb. 17.—James Stewart, a retired lumberman, aged sixty, was killed at his home early this morning by the collapse of a folding bed.

PAT CROWE STORY A HOAX.

IOWA EDITOR MANUFACTURED THE YARN TO HELP FILL OUT THE COLUMNS OF HIS PAPER.

Chicago, Monday, Feb. 18.—A special dispatch to The Times-Herald from Waterloo, Ia., says:

Editor Van Metre, of the Waterloo Tribune, whose reported interview with Pat Crowe and the confession from him in regard to the Cudahy kidnaping case has gone broadcast over the country, today declared the whole matter a hoax. In his explanation of the story, the Iowa editor says that the day of the publication of his paper—Saturday—found him without enough matter to fill the columns and that, believing it would not be taken seriously, he wrote and published the Crowe yarn.

SHAFTS BEING FLOODED.

IMPOSSIBLE TO RESCUE THE BODIES OF THE SIXTY-ONE MINERS LOST IN VANCOUVER ISLAND FOR SOME DAYS YET.

Vancouver, B. C., Feb. 17.—Additional details continue to come from the Union mines on Vancouver island, where the terrible fatality occurred Friday. The accident has thrown the towns of Cumberland and Nanaimo into a state of gloom.

The Canadian Pacific's steamer Tartar arrived at Vancouver this afternoon from the coaling station at Union, twelve miles from Cumberland. When the Tartar left Union early this morning the latest news from the shaft was that the flooding process was being continued. The fire was still burning, although less vigorously, and by tomorrow it was confidently expected the fire would be extinguished. It will be several days, however, before the bodies of the sixty-one entombed miners can be recovered because after the fire has been completely smothered it will be necessary to pump out the water before a rescuing party can enter.

The mayor of Vancouver has already taken steps to aid the bereaved families, and other cities have taken similar action. In the meantime Premier Duns-

DEWET IN TIGHT FIX.

Kitchener Arrives in Cape Colony to Superintend the Pursuit.

SEVERAL FORCES IN CHASE.

Cordon Established by the British in the Transvaal Is Smashed, One Commando Breaking Through.

A SNUB FOR SIR ALFRED.

Sydney, N. S. W., Feb. 17.—Sir Alfred Milner, British minister to the government of New South Wales of his intention to send an officer to recruit in Australia for the South African constabulary, the government has replied that the colony objects to such proceeding.

London, Monday, Feb. 18.—Dispatches from Pretoria announce that the Carolina commando has broken through General French's cordon westward. The British under General French have been advancing eastward, with a front of a hundred miles, in the eastern portion of the Transvaal, driving the Boers before them.

KITCHENER LEADS THE CHASE.

A dispatch to The Daily Telegraph from De Aar, Cape Colony, the 16th, confirms the report of the arrival there of Lord Kitchener and his staff to superintend the chase of General Dewet. The correspondent says:

Dewet's force is now denuded of almost all transport vehicles and his horses are exhausted.

Other South African dispatches report several columns pursuing Dewet, whose exact whereabouts, however, are not indicated.

GIVEN A FINANCIAL ADVISER.

The war office has made the following announcement: "Lord Kitchener, having expressed a desire for a financial assistant, in view of the heavy expenditure proceeding in South Africa, the secretary of state for war has appointed Guy Douglas Arthur Fleetwood Wilson, under secretary of state for war, to proceed to South Africa to act temporarily as financial adviser to Lord Kitchener. Mr. Wilson leaves Saturday."

PACIFICATION OF BOERS REMOTE.

REALIZED BY THE LONDON OFFICIALS THAT MUCH WORK STILL FACES KITCHENER.

London, Feb. 17.—The hopes that the turning point of the war in South Africa is in sight now permeating the editorials and inspiring the markets are probably doomed to disappointment. The pacification of the Boers, if accomplished, will be a slow matter, which decisive engagements can effect but little. The war office expects from General Kitchener no stroke such as settled forever the future of the Soudan.

The heads of Great Britain's war department scarcely know more than the public, except that the stern, laconic commander of the troops in South Africa is busily engaged in systematizing his huge forces for an extended campaign. In him they trust implicitly and no amount of taciturnity makes their faith waver, though they read with regret articles leading the public to believe that the Boers are likely to be soon snuffed out by one or several engagements. During the month General Kitchener has had the command in South Africa he has been applying his energies to prepare for events six months hence, rather than to dealing with the emergencies of the present.

The secretary of state for war, William St. John Broderick, and his fellow cabinet ministers, believe the same resistless progress which comes only by the perfection of every minor detail of the machinery, will eventually reward General Kitchener's patience, as it did in the Soudan. But in private conversation they frankly confess it is utterly impossible to speculate on the time which must elapse before the end is achieved, and it is quite wrong to attribute undue importance to isolated British victories. Even the capture of Dewet, they now think, would only in a small degree hasten the pacification of the extended territory which is in such a hostile condition. When the republics become in fact instead of in name colonies of Great Britain, General Kitchener will be the man who will get the credit, and on whom the rewards will be heaped.

PLAGUE ON THE INCREASE.

REPORTED SPREADING AT CAPE TOWN TO ALARMING EXTENT.

Paris, Feb. 17.—The government having been advised through the French consular at Cape Town that the bubonic plague is spreading in that city to an alarming extent has issued quarantine orders to French ports in communication with South Africa and with British ports suspected of contamination.

DOCK WORK AT A STANDSTILL.

Cape Town, Feb. 17.—Another death from the bubonic plague has occurred here and two fresh cases are reported. The discharging of ships is at a standstill.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system.

Mr. E. E. Kelly, of Urbana, O., writes: "I had eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed."

Richard T. Gardner, Florence, S. C., suffered for years with boils. Two bottles of S. S. S. cured me, and my skin is as clear and smooth as any one's."

DAILY MINING JOURNAL

A Morning Paper Published by The Mining Journal Co. (Limited).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$3.00; Per year, by mail, \$30.00.

MARQUETTE, MICH., FEB. 18.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

We notice that many of the delegations to the Republican state convention being chosen in the counties of the lower peninsula are instructed to support Judge Montgomery for a second term on the supreme bench.

Montgomery seems to be most popular where he is best known, which may be safely taken as evidence of his worth.

The probability is that he will receive a re-nomination, and The Mining Journal believes he is well deserving of that mark of confidence in his integrity and ability.

Mr. Bryan has some admirers who seem incapable of learning anything from experience. They are already declaring that he will and must be the candidate of the party for the presidency in 1904.

This is an exhibition of irreverence that would credit to the most rabid of our Populists. There was a time when it would be all that a man's head would be worth in England to speak that way of the king and the ceremonial with which royalty loves to surround itself.

The report that President McKinley declines to consider the Hon. Benton Hanchett for the position of attorney general of the United States because of his age excites no little indignation at Saginaw, the venerable jurist's home, where he is greatly loved and respected.

The objection to Mr. Hanchett said to be raised by the president is absurd, in view of the fact that he is a man in full possession of his powers, and unusually well preserved for his age.

It is not in the whole country a man better fitted for the position of attorney general than he, and we doubt if the president is really aware of his standing and capability if he has made the objection stated to considering him available for the place mentioned.

Tax Commissioner Oakman says his title to a place on the commission is good and that he isn't going to surrender his "sit" until he has to.

Mr. Oakman's claim is that he was confirmed by the senate and was thereupon commissioned by the governor, hence that no vacancy exists in the office he has been holding and that the appointment of a commissioner to succeed him by Governor Bliss is without force and effect.

He says he will take his case into the courts and feels confident of being able to hold his job. After having confirmed his appointment the senate reconsidered its action, and if it had power to do this his title to the office stands on the same basis as those of his associates on the old commission.

The question is a nice one, and will probably have to be decided by the courts, for Oakman likes his place and will not give it up until he is obliged to.

Professor E. F. Johnson of the law department of the state university decides to accept the appointment to a supreme judgeship in the Philippines which has been tendered him by the president there will be both rejoicing and regret among the many friends he has made in Marquette—rejoicing because of the honor that has come to him and regret that it will take him 7,000 miles away.

Professor Johnson is a member of the state board of education, and in that capacity assisted in launching the Northern Normal school, which has its seat in this city. He has taken great interest in the school, and spent several days here recently studying its needs so as to be able to aid more effectively in getting the legislature to provide for them.

He is a man of splendid ability, fine presence and courtly manner, and if he consents to take the position offered him by the president he will fill it capably and honestly. The appointment is an excellent one.

The Detroit News thinks the new state tax commission is well made up, as appears from this mention of its members in that paper:

Judged by their past records, and the popular estimate of their character and abilities, the newly appointed state tax commissioners make up a body much superior to anything the public had a right to expect from the influences that shape the policy of the present state administration.

Mr. Lawson was obviously selected because of the familiarity with mining properties that came to him as a result of his incumbency of the office of commissioner of mineral statistics.

Indeed, he is considered by many the last incumbent of that commissioner-ship whose administration proved of any usefulness to the state. He is a man of fairness and scholarly attainments, and is not identified in the public mind with offensive participation in practical politics or of factional partisanship.

Mr. Dust's qualifications have heretofore been discussed. He may be ultra conservative, but efficiency and good taste have marked his long career in local affairs. Mr. McLaughlin is young, ambitious and intelligent.

Certainly he is favorably regarded. The commissioners enter their offices with a great opportunity before them. If they refrain from excessive playing to the galleries and exercise good judgment and impartiality, they will be able to give the people the great achievement of equal taxation and remove from the realm of demagoguery that much discussed and much abused issue.

The freedom of speech permitted in Great Britain is given a fair illustration in the comments passed on the king's speech at the opening of parliament, and on the gorgeous ceremonies attending upon his accession to the throne.

About the most rasping criticism of the new king and the pageantry which marked the opening of parliament the other day was that of James Kier Hardie, who represents the socialistic and labor element in the house of commons. Said he:

It reminded me of a glorified circus parade. In the very first lines of the king's speech we find hypocrisy. He pretends to be sorrowful because of the death of the queen, but takes the star role in a series of demonstrations exciting in vainglorious pomp.

Semi-state ceremonies should have satisfied the king as long as we still have in our ears the funeral dirges of the queen. His majesty's speech amounts to nothing. It voices the statesmanship with which we are all too familiar. However, in its references to South Africa there seems a suggestion that the government might find a way to give the Boers self-government immediately if they would submit.

This is an exhibition of irreverence that would credit to the most rabid of our Populists. There was a time when it would be all that a man's head would be worth in England to speak that way of the king and the ceremonial with which royalty loves to surround itself.

NEW PLANS OF THE STEEL TRUST.

The Combine Now Seeks to Absorb All the Great Steel Making Concerns of the Country and Place Them Absolutely Under One Management.

The Cleveland Plain Dealer prints a letter from New York outlining the plan of the steel trust of which obtaining control of the Carnegie plant forms a part, that gives much interesting information relative to the aims of Mr. Morgan and those associated with him in the mammoth enterprise which he has organized.

The plan provides for the purchase by stock of each of the companies to be taken in. The capitalization of the new company will therefore be about equal to their combined capitalizations.

Anyone who desires to retain his old stock will, of course, be able to do so, but I think that the stockholders of all the old companies, without exception, will decide that it is to their advantage to make the exchange.

"The minority stockholders will have their stock valued on the same basis as Mr. Carnegie. Obviously, in a matter of this kind, everything must be done fairly and equitably and all will get the same price, except that Mr. Carnegie receives bonds while the minority holders are paid in stock in the new company.

The Carnegie company is being taken in at a handsome price, and the other concerns will no doubt expect like generous treatment. The prices of their stocks will be based upon inventories of their assets and upon their respective earning powers."

No authoritative statement is obtainable as to the exact capitalization of the new trust, despite all reports that profess to come from official sources. It may be stated, however, that the price set on Carnegie stock is now positively known to be \$1,500 a share, and that, contrary to first expectations, Mr. Carnegie receives \$25,000,000 in cash.

The Lake Superior Consolidated Iron Mines is a company operating and owning large iron ore mines on the Mesabi range, Minnesota, and leases some of its mines to the Carnegie and other interests. It controls the Duluth, Missabe & Northern railway from Duluth to Mountain Iron, Minn., and the owners of its stock have steamships which swell the number of steamships controlled by the trust to over 100.

planters claim that the secretary's ruling has diminished their profits over a million dollars by lowering the price of sugar here. The secretary says he will let the matter go to the courts, holding now that the sugar is subject to the additional tax.

Washington dispatches state that this will bring reprisals on the part of Russia, and will materially affect the exports to that country of our manufactures of locomotives, railway material and agricultural implements, and that these interests are bringing strong pressure to bear to secure an interruption of the Russian policy which will exempt imports from the additional tax.

The interests of these manufacturers and those of the sugar planters of this country thus conflict, the latter insisting upon getting all the protection to their product possible, and the former apprehensive that a strict interpretation of our law will injure their foreign trade.

It is the peculiar fate of all these devices of men to avert the natural processes that there is always a missing link somewhere.

PNEUMONIA CAN BE PREVENTED

This disease always results from a cold or an attack of the grip and may be prevented by Chamberlain's Cough Remedy. That remedy was extensively used during the epidemics of La Grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which is the most certain preventive of that dangerous disease.

Chamberlain's Cough Remedy has gained a world wide reputation for its cures of colds and grip. For sale by the Stafford Drug Co.

ANNOUNCEMENT.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price, including the spray tube, is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the mucous membrane and changes them to a natural and healthy character. Ely Brothers, 55 Warren St., N. Y.

EDUCATE YOUR KIDNEYS.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys. But now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

If you are sick or "feel badly" begin taking the famous new discovery DeBills' Kidney Pills because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone, 25 cents per box. The Stafford Drug Co.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

G. A. Roberts of Lintner, Ill., suffered four years with a wad in his stomach and could not eat. He lost sixty-five pounds. Two bottles of Dr. Caldwell's Stryp Pepsin restored his appetite, cured his stomach trouble and today he is well and hearty and says he owes his health to Dr. Caldwell's Stryp Pepsin. (The Stafford Drug Co.)

Don't irritate your lungs with a stubborn cough when a pleasant and effective remedy may be found in BAL-LARD'S HOREHOUND SYRUP. Price 25 cts. and 50 cts. The Stafford Drug Co.

STRUCK BY STREET CAR.

FINNISH WOMAN PAINFULLY INJURED AT WEST HANCOCK.
A Finnish woman residing at Dollar Bay was thrown from a cutter in Quincy street, West Hancock, and struck by a passing street car about 5 o'clock last evening. The woman was severely cut about the forehead, face and back of the ear. She was rendered unconscious and was at first taken for dead, but was finally aroused.
The accident happened in front of William Washburn's residence. The street car was going east and the horse and cutter, with the woman and her husband as the occupants, going west. The horse became frightened and backed as the car approached, the cutter struck the car and the woman jumped, being hurled alongside the car. The car was stopped and the passengers rendered all assistance possible until medical aid was summoned.
The woman was taken to the Finnish college, near by, and Dr. Gardner called. Later she was removed to her home. Her injuries are not very serious.

NEW BRANCH OPENS TODAY.

NELSON MORRIS & CO. WILL ENTERTAIN MEAT DEALERS.
Nelson Morris & Co. of Chicago will open their branch meat house in Houghton today, the management having been busy for over a week preparing for the event. Many of the meat dealers of the county will be present to inspect the full line of meats that was recently received as representative of the stock that will be kept on hand from now on. Samples of the provisions will be given out and the visitors will also be treated to cigars and refreshments. A fine display of dressed meats is ready for exhibition, as is also the equipment with which the company will handle its stock here.
S. E. Noble of Chicago is the new manager and is an expert in his line of business. He is prepared to give meat dealers good service. Mr. Noble has been in Houghton during the week getting the plant in readiness for today's opening. The office force has arrived from Chicago and will be ready for business this morning.
The company's Houghton branch house is complete and well adapted in every way to the uses to which it will be put. The capacity of the storage room is 100 dressed cattle. The other apartments are very desirable. The structure was built early last fall, and as it commands a central location and faces the tracks of the Mineral Range railroad will be convenient for both customers and company.

MAJOR SEARS'S SUCCESSOR CHOSEN.

CAPTAIN GAILLARD TO BE SUPERVISOR OF GOVERNMENT WORK IN THIS DISTRICT.
A dispatch from Washington announces that Captain David Gaillard, of the corps of engineers of the United States Army has been ordered to Duluth to take charge of the Lake Superior district, which is now in charge of Major C. B. Sears, and which is to be turned over to Major Daniel Lockwood of St. Paul. Captain Gaillard, it is expected, will arrive at Duluth in the course of a few weeks. He is at present stationed at Washington, where he is detached from the engineer corps temporarily, and is assistant engineer to the commissions of the District of Columbia.
Major Sears expects to leave Duluth this week. The exact date is not yet fixed, but he thinks he will leave on Washington's birthday, which will be next Friday. He will sail from San Francisco on March 1. He would like to have visited the East and spent a short time with his son and his son-in-law, having never met the latter, but the request of the department is that he get to Manila at the earliest possible date, and he is wanted to leave on March 1, so the pleasure of meeting his daughter-in-law must be postponed to some future time.
The office will be turned over to Major Lockwood about the middle of this week. It would be very pleasing to the office force, it is stated, if Captain Gaillard would arrive in time to have the transfer made direct to him, but this is not thought to be at all likely, and a double transfer will be necessary.
Major Sears was tendered an elaborate banquet by the citizens of Duluth Thursday night and will be given another complimentary farewell banquet before he leaves Duluth. This one will be given by the employees who have served under him, his immediate assistants. They number about eighteen and the function will take place at the Spaulding this evening.
Major Marr and B. Kent, of the Houghton office of United States army engineers, left for Duluth last evening to attend this evening's banquet.

PROF. MARINO SOON TO LEAVE.

HIS APPEARANCE TONIGHT THE LAST AS THE BAND'S LEADER.
Tonight at the masquerade ball given by the Houghton firemen will be the last appearance of Professor V. F. Marino as leader of the Houghton Concert band. He will leave about the first of the month for St. Paul to consider a position as the head of a musical organization there that has been offered him. If things are not to his liking at that city Professor Marino will go to Victor, Col., where a position awaits him. Mr. Marino has been the leader of the Houghton Concert band since it was organized. He has made the band what it is, and today it is one of the best in the upper peninsula. The family of Professor Marino will reside in Houghton until May 1, when they will join him at either St. Paul or Victor.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

ABRAHAM HELD FOR TRIAL.

BOUND OVER TO THE CIRCUIT COURT IN BONDS OF \$1,000.
The case of Samuel Abraham, the clothing merchant of South Lake Linden who was arrested recently on a charge of receiving stolen goods said to be taken from the Miller store, Houghton, occupied the day in the court of Justice Finn at Hancock Saturday. The attorneys for the defense late in the afternoon moved that the case be dismissed on lack of sufficient evidence, but the judge overruled the request and Abraham was finally bound over to the next term of the circuit court in the sum of \$1,000 was secured by Abraham, with William H. Roberts of Hancock as security.
The proceedings at the hearing of the case were very interesting. Nothing but the state's evidence was taken Saturday, the attorneys for the defense merely subjecting the witnesses to very severe cross-examinations. The witnesses for the state were L. Miller and wife, Lena Miller; William Hanson of Lake Linden, a Hancock & Calumet railroad building clerk, and John Slattery, a South Lake Linden lawyer.

MAY ORGANIZE TRACK TEAM.

MINING COLLEGE STUDENTS TO MEET TODAY AND DECIDE IT.
A meeting of the student's organization of the Michigan College of Mines will be held at the college at 3 o'clock this afternoon for the purpose of considering the advisability of forming a track team and the question of entering the indoor athletic meet which will be held by the Hancock Y. M. C. A. in the spring. It is expected that the meeting will be largely attended and considerable interest will be shown in organizing a track team, which question was raised by President Smith of the student organization. The material for the various sports which will be included in it at the coming indoor meet is good and it is almost certain that the institution would send a good set of athletes to the meet if the question to come up this afternoon is favorably decided. If the right spirit is shown practice will be started at once by those who will seek positions on the team.

INDOOR BALL PLAYERS SURPRISED.

CALUMET RIVALS' DEFEAT BY THE LIGHT GUARDS NOT LOOKED FOR AT HOUGHTON.
To say that the members of the Houghton Light Infantry's indoor baseball team were surprised and wonderfully taken back when they heard of the defeat of the Calumet Rivals at the hands of the Light Guard nine by the score of 27 to 11 at the Calumet Armory Friday night, is putting it mildly. The defeat is a bad thing for the Rivals just at the time it places that team in a bad light as far as a claim to the county championship is concerned, and on the other hand introduces a team that was scarcely known to exist before the Friday match was played. The Light Guard has been playing very well at the last minute as a "dark horse" and one that the Houghton boys may well be afraid of.

CARNIVAL OF FUN.

FIREMEN'S MASKED BALL AT HOUGHTON THIS EVENING.
The annual masquerade ball of the Houghton firemen's company will be held at the Houghton Armory hall tonight. The arrangements, which have been under way for some time, are complete and according to the plans the affair of tonight will be one of the most brilliant successes in the social world this season; the ball is sure to be the most elaborate ever given by the Houghton firemen. The work of making the first decorations at the hall will be done today, and by this evening everything will be in readiness for the carnival of fun.
It would hardly be possible to estimate the number of people that will be in attendance, as the dance has been so widely advertised and so many tickets sold that it is difficult to say how many will go. A large number will mask and take part in the dancing, while many others will simply be present to watch the fun. Large delegations of firemen and friends of the Houghton company will attend from all parts of the county. A special feature of the ball will be done today, and by this evening everything will be in readiness for the carnival of fun.
It would hardly be possible to estimate the number of people that will be in attendance, as the dance has been so widely advertised and so many tickets sold that it is difficult to say how many will go. A large number will mask and take part in the dancing, while many others will simply be present to watch the fun. Large delegations of firemen and friends of the Houghton company will attend from all parts of the county. A special feature of the ball will be done today, and by this evening everything will be in readiness for the carnival of fun.

GOOD GAME TOMORROW.

Tomorrow night at the Houghton Armory the Calumet Rivals and the Houghton Light Infantry teams will face each other for the third and deciding game. The Houghton boys are picked to win by Portage Lake enthusiasts, and are in fine trim. If the game is won by them they will be a step closer to the championship goal, the only stumbling block then in the way being the Calumet Light Guard team. If the Houghton boys lose the game on its merits, they will be decidedly out of the race for the county supremacy and the contest for that place will be between the two indoor baseball organizations of Calumet. There is a great deal of enthusiasm being manifested in tomorrow night's game.
The Rivals are in good condition to put up one of their best games, as practice by the team has not been neglected. The men will come to Houghton tomorrow night at 7 o'clock and shortly after seven o'clock in the evening will be accompanied by about 200 "rooters." That will ensure plenty of "yelling" support while the match is in progress and with the additional noise that no doubt will be made by the Houghton enthusiasts the clamor ought to have effect in a splendid exhibition of the national game indoors. The armory will be packed to the doors it is thought.

MAY PLAY LIGHT GUARDS.

Next Friday is Washington's birthday, and as it will be a holiday with the majority of the people at Portage Lake an indoor baseball game for that night at the Armory is being talked of by the Houghton Light Infantry team. Before the Calumet Rivals were defeated by the Calumet Light Guard team, the Houghton boys were anxious to arrange a match with the Lake Linden club, but since the Light Guard has come out on top the Houghton team wants to meet that organization, possibly on Friday night at the Armory. The contest is now being negotiated for and likely it will be arranged.

WORKING DAY AND NIGHT.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changes weakness into strength, listlessness into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25c per box. Sold by the Stafford Drug Co.

QUIRK WILL RUN AGAIN.

HOUGHTON VILLAGE TREASURER IS OUT FOR RENOMINATION.
George N. Quirk, the present village treasurer of Houghton, desires that he be re-elected for the office. Mr. Quirk is in the field for a renomination. He has faithfully served the village in his present capacity and is deserving of another term.

SHARES ON A FIRM FOUNDATION.

APATHY OF THE "POWERS" A DRAG NOW ON SPECULATION.
It is generally realized that the market for the copper shares rests upon a firm foundation and that conditions, technical and otherwise, are excellent. Mr. Quirk is in the field for a renomination. He has faithfully served the village in his present capacity and is deserving of another term.

THINKS QUINCY WORTH \$200.

ONE CLOSE TO THE MANAGEMENT SAYS PROFITS ARE \$15 TO \$18.
One close to the management of the Quincy Mining company tells the Boston Journal that "large as was our January output, 975 tons, I look to see the February figures still larger, notwithstanding it is a short month."
"With the continuation of a 17-cent copper market throughout the current year Quincy should easily earn anywhere from \$15 to \$18 per share. Of this amount say \$3 per share, or \$300,000, will be added to treasury surplus, leaving from \$12 to \$15 per share for distribution to stockholders."
"Intrinsically Quincy shares should sell for above \$200 per share, and if the present activity is sustained, I look to see that price easily reached. Copper stocks in general should sell at a much higher level in view of the 17-cent market which has lasted for two or three years, and the fact that it bids fair to continue indefinitely."
"All our construction expenses are now paid for, but we will continue to add to our treasury account in anticipation of the possible need of additional stamps within a couple of years to meet our increasing production. With our No. 8 shaft in commission, from which we expect excellent results, we will need a still further increase in our stamping facilities."

NOTED AT THE MICHIGAN.

At the Michigan mine, says the Ontonagon Herald of Saturday, the work of unwatering the old mine goes ceaselessly on night and day, the pumps taking out about 250 gallons every minute. "An" shaft will be resumed by the end of next week providing nothing unforeseen occurs. The drift in this shaft at the fourth level going east is looking good and drifting at this point westward has been resumed. The total length of the adit on the south bluff now is 500 feet and it is thought that the Mass vein will soon be encountered. A great deal of speculation is being indulged in by people as to how rich these veins on the south bluff will prove to be, but it is known that wherever they have been penetrated on the range they have proved to be rich in copper. These veins, together with the developments in the mine when that is unwatered, will furnish enough surprises, it is thought, for the most ardent admirer of the "mother" of copper mines.

NOT LESS THAN \$100 PER SHARE.

PRESIDENT PAYNE DECLINED TO SELL HIS COPPER RANGE.
Regarding rumors of a change of control of the Copper Range and Baltic companies, says the Boston Journal, it may be of interest to know that not long since President Payne was offered the neighborhood of \$50 a share for the control of the Copper Range company. He informed the would-be purchaser that his stock was not for sale at less than \$100 a share. The report recently made by Captain Parrall of the Bigelow properties, the contents of which report are known only to a favored few, accounts for much that has transpired in the stock in the last week or ten days.

COPPER GOSSIP.

The Osceola lode at the Allouez is showing considerable good ground at the tenth and eleventh levels.
The United States production of copper in January aggregated 22,673 tons, the exports totalled 10,093 tons.
At the Centennial, the Kearsarge lode is improving with depth, resembling the best of the stopes at the Wolverine.
The developments at the Victoria the past few months, especially the striking of heavy copper in No. 2 shaft, go to show that the property is traversed by rich lode veins with.
Operations have not been suspended at the Arnold mine, as recently rumored. A small force of men is employed underground and enough rock mined to keep the mill running during the day shift. The men recently laid off, most of them surface men, will be taken back in the spring.
Arthur E. Maas of Negaunee, who has been in the employ of J. N. Lonsyear of Marquette in exploratory work for some time past, has taken a position with the Shannon Copper company of Oregon. The company wired President McNair of the college for a man the latter part of the week and Mr. Maas was chosen for the place upon recommendation of the president.
Ever since the Arcadian mill was started the employees were allowed pay for two shifts for every Saturday of work. At the last pay day—Friday—the envelopes containing each man's

ICEMEN TICKLED.

CONDITIONS GOOD FOR THE HARVESTING OF A GOOD CROP.
The ice on Portage lake is now twenty-three inches thick and the harvest of the icemen is going on merrily. The weather of the past two weeks has been ideal for the work and consequently the icemen are feeling happy. The several buildings at Portage lake used for the purposes of ice storage are not as yet filled but at the present rate of cutting it will not take long to accomplish that. The quality of the ice this year is exceptionally good, being "clear as a bell" all through. Last year at the building of the summer there was a considerable shortage in the supply of ice in the copper country. The demand was good owing to the hot weather and consequently much ice had to be shipped to copperdom because of the famine. On account of the dealers putting up an extra large amount of ice this winter no shortage during the coming summer is expected.

A BRIDGE SUGGESTION.

In commenting upon the announcement to the effect that the Copper Range railroad would be extended to Calumet during the coming summer, the Calumet Evening News makes a good suggestion concerning the Portage lake question. If the plan outlined were followed it would do away with the speed legislation now necessary to give the Copper Range road an equal right of way over the present structure. The News says:
"The Evening News makes the suggestion that the county of Houghton, assisted by the revenue afforded by pleasure almost fear to use the bridge. The new bridge should have double tracks for trains on its railway right-of-way. Such a condition of roadways would make a vast difference in business coming to Calumet."

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dea Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.
Miss Amy Lang of Marquette is visiting Houghton friends.
J. H. Rice of Houghton left for a business trip to Chicago last evening.
Lillian tent, K. O. T. M., South Lake Linden, will hold a regular weekly meeting for the initiation of candidates tomorrow evening.
John Rundle, of the Quincy location, addressed the men's meeting of the Y. M. C. A. at Hancock held at 4 o'clock yesterday afternoon.
J. P. Petermann and A. J. Rule, of the Lake Superior Produce & Cold Storage company, Houghton, are in Minnesota on business for the concern.
The Mining Journal's copper country branch office, room 3, postoffice building, Houghton, is open each evening from 7 until 8 o'clock. Call or telephone 376.
A meeting of the members of the Women's league of the South Lake Linden church will be held at the home of Mrs. Peter Anthony, South Lake Linden, Thursday.
Walter Fitch of Champion, a member of the board of control of the Michigan College of Mines, visited the school Saturday.

THE FUNERAL OF THE LATE MRS. ROWE.

The funeral of the late Mrs. Rowe of Lake Linden, who died at the home of her daughter, Mrs. C. J. Williams, Thursday evening, was held at 2 o'clock yesterday afternoon from the Lake Linden Methodist church. Interment took place in Maple Hill cemetery.
The students of the Finnish college, Hancock, gave a concert for the benefit of the institution in the auditorium of the college yesterday afternoon. An excellent musical program was rendered. About two hundred friends and well-wishers of the school were present.
The second section of a class from the Michigan College of Mines under the direction of Professor F. W. Sperr visited at the Atlantic mine Saturday and examined the underground workings. The other section of the class went to the mine on the same mission a week ago. Both were very enjoyable trips.
Harry Corson Clarke will be seen in "What Did Tompkins Do?" at the Houghton Armory Opera House Wednesday evening. Tickets are now on sale at Krohn's drug store. Some very clever specialties will be introduced in the comedy, the roles of which afford good opportunities for all members of the company.
The young people of the new St. Anna church, Calumet, will give a concert for the benefit of the church at the Calumet theatre tomorrow night. An elaborate program, including a French and an English drama, will be presented. Rehearsals have been going on for some time and the entertainment promises to be a big success.
At the last meeting of the village council of Laurium the result of the election on the question of bonding the village for \$100,000 was canvassed and declared in favor. The money will be used for village improvements. The bonds will soon be issued by the council as all the necessary preliminary steps to that end have been taken.
The remains of John Hanner, who died from typhoid fever at South Lake Linden Thursday night, were buried yesterday afternoon in Mount Calvary cemetery, South Lake Linden. Services were held at St. Cecilia's church and Lillian tent, K. O. T. M., South Lake Linden, of which Mr. Hanner was a member, attended the funeral in a body.
The funeral of the late Mrs. Anne Kasper, a well-known Hurontown lady, who died at that place from a complication of diseases Saturday afternoon, will be held from the St. Ignace church, Houghton, tomorrow morning. Burial will take place in Forest Hill cemetery. Mrs. Kasper was thirty-six years of age and leaves a father, mother and one brother. Her sudden death was a surprise to her many friends at Hurontown.
The members of the Ladies' society, composed of the celebrated Smith Sisters, left for Superior last evening to give an entertainment. The sextet gave the final entertainment of the People's Lyceum course at Houghton Saturday night that was one of the best on the list. The program, which was rendered in an excellent manner, was well appreciated by the large number present. The lyceum course was a brilliant success this year and it is hoped that a similar one will be arranged next season.
The Calumet Junior basket ball team of the Y. M. C. A. of that place defeated the junior team of the Hancock Y. M. C. A. by the score of 12 to 6 in a match game played at the Hancock Y. M. C. A. gymnasium Saturday afternoon. It appears that the Hancock youths are not as well versed in the science of the game as are their opponents and more practice will have to be indulged in before the team can hope to win from the Calumet organization. Another game will be arranged for a near date.

THE EXECUTIVE BOARD OF THE Y. M. C. A. OF HANCOCK WILL HOLD A MEETING AT A NEAR DATE FOR THE PURPOSE OF SELECTING DELEGATES TO REPRESENT THE HANCOCK ASSOCIATION AT THE STATE CONVENTION TO

be held at Ann Arbor Thursday, Friday, Saturday and Sunday.
Superintendent F. G. Goggin, Jr., of the Atlantic mill at Redbridge, who was operated upon for appendicitis Thursday night in Houghton, is thought to be well on the way to recovery.
A party will be given by the Social Skating club at the Palace ice rink, Hancock, this evening. Music will be furnished by the Quincy band and a good time is guaranteed all who attend.
The Clara Mathes Comedy company opens its week's engagement at St. Patrick's Hall, Hancock, tonight. The company's repertoire of plays is up-to-date and popular with theatre lovers. The members of the company are said to be very clever.
Captain Hendricksen, Lieutenants Shields and Hecker and Sergeant Frimodig of Company G, Houghton Light Infantry, left yesterday for Grand Rapids, where they will attend the governor's reception to be given by the Grand Rapids battalion.
The funeral of the late Mrs. Rowe of Lake Linden, who died at the home of her daughter, Mrs. C. J. Williams, Thursday evening, was held at 2 o'clock yesterday afternoon from the Lake Linden Methodist church. Interment took place in Maple Hill cemetery.

RIVER BILL IN DANGER.

Fate Depends Upon How Heavily the Senate Loads it Down.

HOUSE IN FIGHTING MOOD.

Will Contest Action of Upper Branch on Several Measures, Notably the War Tax Reduction.

EXTRA SESSION IS LIKELY.

Washington, Feb. 17.—The senate will devote practically all of its time during the present week to appropriation bills. The postoffice appropriation bill probably will be taken up tomorrow upon convening, though it may give place to the consular and diplomatic appropriation bill.

The amount of time to be consumed in discussing these measures will depend largely upon the bill with reference to the ship subsidy bill. So long as the Democrats feel that the subsidy bill is to be pressed in case of a lull they will insist upon debating all measures presented.

GOOD-SIZED ROWS SLATED.

The last week but one of the present session of congress will be an exceedingly busy one in the house. The appropriation bills, so far as the house is concerned, are in fairly good shape. The last of them—the general deficiency bill—will follow on the heels of the sundry civil bill, which is about half completed. These bills and conference reports will be given the right of way over everything else.

There are many knotty problems to be solved in connection with the appropriation bills over the differences between the two houses, and many good-sized rows are promised. The ultimate fate of the river and harbor bill probably depends upon how heavily it is loaded when it comes back from its passage. The biggest fight between the two houses, from present appearances, will likely occur over the war revenue reduction act.

Tomorrow is suspension day, and the bill appropriating five millions for the St. Louis exposition will be on its passage. The program with reference to this and other measures may be materially modified if it becomes certain before March 4 that an extra session is to be called, as it is asserted President McKinley told several senators yesterday he would do. The call, if issued, is looked for about Feb. 20.

TO DEAL WITH CUBA.

The president has seldom been known to talk so freely with members of congress and other public men on any question he had in contemplation as he now talks with them concerning an extra session of congress. He has apparently been revolving the subject in his own mind for the past month and for that length of time has talked more or less pointedly with his callers. Senators and representatives have, however, thought until within the past day or two that the extension of the session could be avoided. Even now, there are many who refuse to believe that the call will be issued. Those who have talked with the president in the past day or two are not of this opinion. They say that he announced definitely his determination to ask congress to come together as soon after the completion of the Cuban constitution as might seem expedient.

The only apparent object of the president is to have the Cuban question considered and it is his desire to have congress share the responsibility of deciding what steps shall be taken with reference to Cuba, regardless of the date.

Keep Coughing

Only keep it up long enough and you will succeed in reducing your weight, losing your appetite, bringing on a slow fever, and making everything exactly right for the germs of consumption. Stop coughing and you will get well.

Ayer's Cherry Pectoral

cures coughs. An ordinary cough disappears in a single night. The racking coughs of bronchitis soon quiet down. And even the coughs of consumption are either completely checked or greatly lessened.

Three sizes: 25c., 50c., \$1.00.

tails of the constitution. He has not as yet indicated a time when he should expect congress to meet, and this he has not expected to do until the Cuban constitutional convention shall complete its work.

WOULD BE LENGTHY.

The prediction is general that in case an extra session is called it will extend well into the summer. It is not believed that its deliberations could be confined to Cuba but that the Philippine question, the anti-trust bill and the subsidy bill (if that should fail to be disposed of at the present session) would all come in for a share of attention. Many of the leading Republican senators are using their utmost endeavors to avert the call.

IS LYNCHED BY MOB.

LOUISIANA NEGRO PAYS PENALTY FOR FIENDISH CRIME. New Orleans, Feb. 17.—Thos. Jackson, colored, was lynched today at St. Peter. Jackson murdered Alexander Bourgeois, an engineer, whom he induced to ride on a railway tricycle with him, then returning and butchering Mrs. Bourgeois and her two babies. The motive was robbery.

MURDER IN NEBRASKA.

Nebraska City, Feb. 17.—Hall Frampton, colored, killed his stepdaughter tonight while the latter was attempting to shield her mother, with whom Frampton was quarrelling. There is talk of lynching Frampton.

POLICE GUARD GO'RAM HOTELS.

CHICAGO FIREBUG GANG SAID TO BE HEADED THAT WAY. New York, Feb. 17.—The big hotels of the city are fairly alive with detectives tonight. The National Hotel Men's association has informed the New York association that the band of incendiary "crooks" which has been at work in the hotels of Chicago has started for New York.

Their plan is for one man to take a room, start an incendiary fire and escape. When the other persons in the hotel run out of their rooms in alarm the "pals" of the "firebugs" rush in and rob. The gang is said to number about twenty men. The police have descriptions of some of them and the names of a few.

EXIT CHIPPEWA COUNTY.

SLATED FOR A LOWER PENINSULA CONGRESSIONAL DISTRICT ACCORDING TO CHASE OSBORN. Menominee, Mich., Feb. 17.—Chase S. Osborn telegraphs the following political news: "When the new reapportionment is made Chippewa county will in all likelihood find itself in a congressional district with lower peninsula territory. It is almost sure to be cut off the upper peninsula. It will have a representative of its own, as well as Delta and Menominee. Houghton will have three and Marquette county the same as at present, two representatives. Chippewa county is likely to be placed in a senatorial district composed of Chippewa, Schoolcraft, Mackinaw, Luce, Alger, Emmet and Cheboygan counties. Another senatorial district is likely to be made of Menominee, Delta, Dickinson and Iron counties. But it is all uncertainty yet."

BUYING HIS POLAR SUPPLIES.

EXPLORER BALDWIN TELLS OF HIS NORTH POLE EXPEDITION. Philadelphia, Feb. 17.—Four portable houses, two steam launches, a complete photographic apparatus, fifty tons of dog food—this comprises the list of supplies which Evelyn B. Baldwin, Arctic explorer and meteorologist, expects to purchase in Philadelphia for the use of the Baldwin-Ziegler polar expedition. Mr. Baldwin registered at the Hotel Walton last night and opened negotiations with local merchants. "Everything points to the middle of June as the date of our sailing from New York," he said. "The America is the permanent expedition ship and will carry thirty men in her crew. We shall go around the North Cape, Norway, to some point in Russia, from which we strike northward, past Nova Zembla to Franz Josef Land. Here the two vessels will part company. The America will continue northward and the members of the expedition will struggle to attain the North pole by land or sea. We shall carry provisions sufficient to last two years."

BRUSH WITH FILIPINOS.

TROOPS SURPRISE A BAND AND WOUND A CHIEFTAIN. Manila, Feb. 17.—Eighty men of the Fifth United States infantry and a detachment of scouts yesterday surprised the insurgent leaders Villagor and Alejandro near Patadora. Villagor was wounded. Many insurgent officers are surrendering.

INSULT TO AMERICANS.

The cashier of the Hong Kong bank at Manila, A. Ross, recently wrote a letter which was published in the South Australian Register, accusing the United States Philippine commissioners of being short-sighted, ignorant and incapable, saying the government here is much deceived, asserting that a crisis exists and that the banks and British merchants maintain a hostile attitude toward the government. Ross also said the English club here considered General MacArthur, Judge Taft and Rear Admiral Remy unfit persons for English gentlemen to meet socially.

SHEBOYGAN FACTORY BURNS.

Sheboygan, Wis., Feb. 17.—The enameling plant of the Kohler, Hayssen & Stehn company was destroyed by fire today. The loss is \$75,000.

TODAY'S WEATHER.

Washington, Feb. 17.—The following is the weather bureau's forecast for upper Michigan: Generally fair Monday, except snow flurries along Lake Superior; Tuesday, fair; fresh north to northwest winds.

RULES WITH ROD OF IRON

Dictator Weyer Making His Presence Felt in Spain.

PEOPLE OF MADRID COWED

Freedom of Speech and Action Cut, News Suppressed and Calm Prevails Only on Surface.

PLANS TO PROLONG REIGN

Bayona, Feb. 17.—The tranquillity that prevails in the capital is only on the surface. The people of Madrid are cowed by Weyer's drastic measures. The former captain general of Cuba is at his old work of suppressing news and gagging freedom of speech and action. No news is allowed to be sent from Madrid or the provinces to the outside world. No statement of the real state of matters is permitted to be published by any newspaper, under penalty of suppression and trial by court-martial.

The sudden departure of the Casertas has added fuel to the popular indignation at the marriage of Prince Charles of Bourbon to the princess of the Asturias. The people despise the lack of pluck displayed by the royal bridegroom and ridicule him and his bride for their hasty and private departure from Spain.

General Weyer proposes to prolong his dictatorship till the end of the month in order that he may play the part of protectorship to the dynasty and retain his position as head of the Madrid garrison.

It is the intention of the queen regent when Premier Aznaraga resigns office this month to appoint Senor Silveira as the head of another conservative cabinet unless the renewal of the liberal agitation forces her to call on Senor Sagasta to form a ministry.

IN LIMBO AT CHICAGO.

MEN WHO ROBBED PEORIA INTERNAL REVENUE OFFICE ARE CAUGHT BY FEDERAL OFFICERS. Chicago, Feb. 17.—The secret service officials declare they are confident they have captured the three men who robbed the internal revenue office at Peoria, Jan. 25, of \$35,000 in stamps. The men under arrest are John Dehanty, James McVeay and John Reagan, who were held today on a charge of attempting to sell washed stamps.

OVER A BILLION IN DEPOSITS.

MARK PASSED FOR FIRST TIME IN NEW YORK'S HISTORY. New York, Feb. 17.—For the first time in the history of New York bank deposits yesterday passed the billion dollar mark, aggregating \$1,011,329,005. This was the most interesting feature of the week's remarkable bank statement which showed an increase of \$19,336,000 in loans and \$16,735,100 in deposits. The expansion in loans was generally attributed to payments on account of the steel deal.

SILK WORKERS OUT ON STRIKE.

BUT ONE MILL RUNNING IN THE LACKAWANNA VALLEY. Scranton, Pa., Feb. 17.—Every silk mill in the Lackawanna valley is now idle by reason of strikes, excepting the Klotz mill at Carbondale, where the employees continue working pending the arbitration of difficulties by Rev. Father Coffey.

WHOLESALE JOB OF EXECUTION.

KANSAS PENITENTIARY WARDEN WILL HAVE IT SHOULD PROPOSED NEW LAW PASS. Topeka, Kas., Feb. 17.—The Kansas legislature will in all probability make some modifications in the present capital-punishment law, with a view to making it more efficient. The lives of forty-seven men hang on the action of the legislature—men who have been sentenced to hang on the gallows, and who are now confined in the penitentiary at Lansing. The new law may compel the signing of the death warrant of these forty-seven men. If so, the new warden of the penitentiary will have a wholesale job of execution on his hands.

ONLY ONE WANTS TO DIE.

Forty-six of the number are exceedingly anxious that the capital punishment bill shall not pass the legislature, but the remaining one, Taylor Cook, says he wants to be executed, and he has importuned the last three warden of Kansas to sign his death warrant, but each has refused.

OBITUARY.

London, Feb. 17.—Sir Francis Cook, who in 1882 married Miss Tennessee Clatfin of New York, died this evening.

MCUTCHEON VERY ILL.

Chicago, Feb. 17.—Nathaniel Swift, brother of Gustavus F. Swift, the millionaire packer, died today from congestion of the brain, aged sixty-three.

CONFESSED TO SAVE HIS SISTER.

There are some sad cases among these death prisoners. One that is attracting special attention with the prison officials at this time is that of George Stevens, sent in from Montgomery county in March, 1896. Stevens and his sister were living together and

RAN INTO A WASHOUT.

LIMITED EXPRESS WRECKED ON THE SOUTHERN PACIFIC—FOUR DEAD; SIX INJURED. San Francisco, Feb. 17.—The Southern Pacific's eastbound limited express, which left here at 10 o'clock yesterday morning, was wrecked at Mills City, Nev., last night. The fireman and three passengers were killed and the conductor, engineer, a brakeman, two postal clerks and one passenger injured. The dead: ADOLPH BISENGER, MRS. ADOLPH BISENGER, San Francisco. CLINTON R. COULTER, San Francisco. B. WHITTAKER, fireman.

All the passengers were badly shaken up. The train ran into a washout caused by a cloudburst. All trains, east and west, were abandoned for forty-eight hours.

INDIGNANT AT THE KING.

COMMONERS WAXING WROTH BECAUSE OF EXCLUSION FROM THE HOUSE OF LORDS. London, Feb. 17.—Intense feeling against those responsible for barring the majority of the members of the house of commons from the house of lords at the opening of parliament on Thursday still continues to find expression among the members of the lower house. John Burns, labor member, said to the correspondent this morning: "The king commanded us to attend in the house of lords. We attempted to obey and got into a football crush, which, indeed, did not lack much of being a slugging match. Meanwhile the king and queen, arrayed like stage folk, sat on their thrones looking straight at us. "Several members received painful injuries to their ribs. Many suffered sorry disarrangements of their top hats and frock coats. Dunbar P. Barton, Q. C., attorney general for Ireland, got caught in the maelstrom and escaped only through the aid of a giant Nationalist who might have stopped John L. Sullivan in his palmist days. "The house police tried to restore order, but were knocked down and trampled on. Most of the members who are capable of reducing themselves to very small dimensions, came off unhurt. "From the beginning of the ceremonies in connection with the queen's death the members of the house of commons have been snubbed. They were hurried during the funeral procession through London, having been assigned to seats commanding a view of nothing but the sky. The house of lords, Thursday, had no room for anybody else after provision had been made for English peeresses and American beauties."

BLACK MARBLE FIND.

ONLY DEPOSIT IN THIS HEMISPHERE REPORTED FOUND IN BAYFIELD COUNTY, WIS. Duluth, Feb. 17.—E. A. Shores, the Ashlund, Wis.) lumberman, was in the city yesterday and announced that black marble has been discovered in Bayfield county about sixty-five miles from this city, and that the Western Range Iron company, of which he is a member, owns the land in which the marble is found and will begin very shortly to quarry it.

THOUSANDS TO LOSE POSITIONS.

CONSOLIDATION OF RAILROADS A BAD BLOW TO EMPLOYEES. New York, Feb. 17.—Fully fifty traffic officers of the railroads operating in the western, central and trunk line territory have been in New York within the past few days, and these men have talked freely, though unofficially, of the prospect of sweeping reductions in the working forces of all the roads involved in the big consolidation, and "community of interest" deals.

TESLA TALKS OF NEW TELEGRAPH.

DESCRIBES PROPOSED SYSTEM OF SYMPATHETIC VIBRATION—SAYS IT IS A SUCCESS AND WILL REPLACE CABLE LINES. New York, Feb. 17.—Nikola Tesla announces that his system of wireless telegraphy will be at the world's service in about eight months. Some of the machinery is now being constructed, and for the rest of it contracts will soon be awarded.

TAKEN BY THE "TUNE."

At a distant point from the transmitter, say in London, for instance, a receiver is set up. This is adjusted so that its vibrations are in unison with the vibrations of the transmitter. Being in "tune," as Tesla calls it, the receiver catches up from the earth the currents from the particular transmitter across the opposite side of the Atlantic, magnifying them many thousand times.

EXPLAINS HIS PLAN.

In telling of the satisfactory outcome of his work on his wireless telegraph system and of his future plans in regard to putting it to commercial use, Mr. Tesla made the following statement: "Three distant experimental evidences of the practicability of my plan were obtained, each of which would have been sufficient to inspire me with confidence of success. One of these evidences was my discovery of the stationary electrical waves in the earth which I have already published and which demonstrates in a positive manner that vibratory currents can be transmitted through the terrestrial globe just as through a wire to the greatest distances.

WALL STREET STOCKS.

New York, Feb. 17.—Trading in stocks was much confused Saturday, the various developments perplexing speculators who played both sides of the market during the course of the short session. The bank statement was considered very bearish and led to considerable selling. At the close, net losses were the rule, ranging over a point in many issues.

a man who was stopping with them was killed. Stevens is confessed to murder in the first degree and took all the responsibility of the crime on himself, thus saving his sister from a trial even as an accomplice. The sister died some time ago and on her deathbed made a written confession, stating that she was the one who had committed the murder. An effort is now under way to get a pardon for Stevens, and it has the support of the county attorney and others connected with the death sentence. Stevens is now thirty-two years old and has learned the tailor trade during his nearly five years' incarceration.

The "star" convict of the forty-seven and of the entire 1,006 is John Collins, who was taken to the penitentiary from Topeka March 27, 1889, under sentence of death for the murder of his father. The state university, and his crime attracted the attention of the nation.

A LITTLE BIG WASTE.

DISTINGUISH between economy and wisdom. Sitting at home to save shoe-leather is economy, but it is scarcely wisdom. In the same way, doing without Ivory Soap is economy but it isn't wise; your risks are greater than all possible saving. Every cheap soap contains free alkali. Now, free alkali will eat its way through the new oil cloth on the kitchen floor. Imagine, then, what it will do in a single Monday's washing! Is such economy wise?

methods for securing complete privacy and non-interference of messages, for only after this was assured could I hope to make a wireless transmission to great distance a practical success. These have, now been so far perfected that the same privacy is practicable as in transmission over a private wire.

"Another feature of great importance in the commercial exploitation of the system was the simultaneous transmission of a number of messages by the same apparatus, and in this direction I was fortunate enough to find a happy solution."

"What must a company operating with your system have in order to transmit messages, for instance, from New York to London?" was asked.

"The stations at either side will have to have a transmitting and receiving apparatus. The essential part of the transmitter is a circuit, which is connected to the ground at one of its ends and to a conducting surface at the other end, which is carefully adjusted so as to respond freely to the vibrations of the primary source of currents. Under these conditions currents of enormous intensities are produced in the circuit, which pass away through the ground in all directions, which are in ever widening circles, over the surface of the sea.

"Suppose the transmitter in New York is controlled by the key of the operator. Each time he depresses the key these ripples spread over the globe and reach London, where a receiving circuit arranged and connected similarly may be located. This receiving circuit is tuned with the greatest care to the vibrations of the transmitter.

MORE RAPID THAN CABLES. "No message can be caught or read except by those receivers which are designed for the purpose. In time of war still more rigorous measures would be adopted to exclude the possibility of the messages being read by others, and I have evolved some plans which would make the privacy absolute. The transmission will be much quicker than through the cables, because the later are handicapped by what is known as electrostatic capacity. In the beginning I propose to resort to the instrument which I have now used, and I have evolved some plans which would make the privacy absolute. FOR SALE: Driving and Draft Horses to suit any wants.

Upper Peninsula News.

Friday morning Treasurer Uddenberg, of Iron Mountain, leveled on the belongings of the John Gately company for a claim of unpaid taxes amounting to \$9.72, with 4 per cent interest added. This is an installment concern which has operated all over the upper peninsula. The Iron Mountain treasurer intends to see that it pays all the tax levy.

It is said that the small lumber jobbers of the upper peninsula have been operating at a good profit this winter because of the favorable weather, and it is still progressing steadily. The ice roads are in fine condition throughout the lumbering districts and it is expected that the season will continue for a number of weeks.

There is much speculation at Iron Mountain relative to the whereabouts of Ed Shaw. About Christmas he hurriedly departed, leaving his trunk and effects at his boarding house and he has not been heard from since. He was employed at the Chapin mine and there is still a small unclaimed balance of wages due him with the company. He has never written for it or given any instructions concerning its disposition.

City Treasurer Brown at Menominee asserts that he will proceed to seize the property of all parties who are delinquent on the amount of their assessments. People are inclined to regard his threat as a jest but he says that it is made in earnest and that it will be executed should the occasion demand. The Menominee tax levy amounts to \$155,000 and but \$117,000 has been collected to date. The period for collections closes March 1.

James F. Pelnar, a Menominee grocer, who branched out into the bottling business nine months ago, is about to increase the size of his plant, his trade having been successful away beyond his expectations. First he bottled blueing, ammonia, horseradish and catsup. He is now planning to add spices and extracts, as well as package goods, to his line. What was an experiment nine months ago has already developed into a big business, with fine prospects of further growth.

A strong effort is being made to get the Wisconsin and Michigan legislatures to authorize the counties of Marquette, in Wisconsin, and Dickinson, in Michigan, to levy a tax for the purpose of building a bridge over the Menominee river from Quinnesec to Niagara. The bridge, if built, will extend from the foot of Quinnesec street to one of the Niagara thoroughfares. It will shorten the road one and a half miles and will do away with the necessity of crossing the railroad near the Niagara paper mill.

Several big lumber deals are pending at Menominee which will likely be closed this week. Edward Hines and Isaac Baker, buyer for the Hines Lumber company, of Chicago, are in that city figuring for the purchase of the 1901 cut of the N. Luddington company's mills. The Chicago firm handled the cut of 40,000,000 feet last year and it will likely buy it again this season. A number of other firms are also represented in Menominee. A well known lumberman says that the stock of pine logs this winter will be as heavy as in 1900 and that more cedar and hemlock will be logged.

AMERICAN GROWN TEA.

Shortly after James Wilson became secretary of agriculture he became convinced that tea culture in the southern states could be made a profitable industry. He now believes his theory has been demonstrated by the results obtained at the experiment station in the Pinehurst Gardens in South Carolina. The tea raised there in 1899 sold for over \$3,500, some of it bringing \$1 a pound. The American product is said to be superior to any of the imported black teas. Last year the yield was 12 per cent greater than in 1899 and was sold in bulk at a price that netted a handsome profit. The experiments of the last three years seem to prove that a good grade of American tea can be grown at a cost not exceeding 15 cents a pound and that it can be sold in bulk at from 30 to 50 cents a pound. As the yield averages 400 pounds to the acre the profit on this basis would be from \$60 to 175 per cent.

Secretary Wilson is now preparing to use \$5,000 appropriated by congress by sending out a large number of tea plants to the agricultural colleges in the gulf states. He believes it will soon be demonstrated that tea can be raised with profit all over the south, possibly including states as far north as Tennessee and Missouri, and that in time the United States will cease importing tea and will become an exporter of that article. Already one or two companies with large capital have been organized to establish tea plantations.

The experiment is interesting and commendable, but it is still rather early to take the sanguine view entertained by Secretary Wilson. The American people imported 96,384,698 pounds of tea in 1900, and the quantity would have been somewhat larger but for the duty of 10 cents a pound. Even if the tea growing experiment should prove a partial success, it would require many years before the United States could raise even a respectable fraction of the tea it requires for home consumption. The task is not so great as would be that of raising the 738,000,000 pounds of coffee consumed annually by Americans, but the tea importers need feel no alarm for their industry at present.—Chicago Tribune.

AN EXTRAVAGANT CONGRESS.

The fifty-sixth congress will make a stunning record for profligacy in expenditure. At its first session it appropriated \$710,000,862. The estimated appropriations for the present session aggregate \$743,574,894, not including deficiencies of \$30,000,000 which already exist and deficiencies of \$10,000,000 which are likely to occur. The total expenditures will amount, on this basis, to \$1,493,525,656. In addition the ship subsidy bill and the Nicaragua canal bill, the former providing for a yearly expenditure of \$3,000,000 and the latter \$20,000,000, may be passed, while the promoters of the Pacific cable project will not be satisfied with less than

\$20,000,000. In that event the grand total for the fifty-sixth congress would be \$1,543,525,656.—Baltimore Sun.

KRAUT FOR THE KAISER.

Foreign nations have been startled at the way the Yanks invade All the marts across the ocean And scoop in a lot of trade. For the foreigners are waiting That they're being undersold And that right at home they're losing Business which they long controlled.

Yankee steel and iron products, From big engines down to tools, Are now rushed across the waters To where-old Britannia rules. And in that and other countries There's demand for Yankee wheat, Yankee coal and Yankee cotton, Yankee fruits and Yankee meat.

All these facts have been amazing To the lands beyond the sea, And they've wondered and they've worried O'er this Yankee energy. But the greatest surprise, There is not the slightest doubt, Is that order from the kaiser For two thousand tons of kraut.

Yankee kraut! Well, did you ever? Yankee kraut for Germany! For the country where kraut makers So long claimed supremacy. 'Twill be sent to German soldiers, And they'll swallow it with zest, For the ever watchful kaiser Planned to serve them with the best.

BAD TIMES FOR ENGLAND.

Sheffield Already Feels the Pinch in the Iron and Steel Trade.

The iron and steel trades of Sheffield have made a bad start in the new century. There is a depression in them which affords a marked contrast with the opening months of last year, when every shop and factory was working at high pressure. Naturally there is much speculation in commercial circles as to whether the depression is only temporary or has come to stay. Pessimism is the common attitude, only a few imagining that with the settlement of South Africa trade will wake up.

The common belief is that the cycle of prosperity is at an end, and that the lean years are upon us. Showing as they do that the exports for December represented an increase of a million and a half of money, the recent Board of Trade returns appear on the surface to be highly encouraging. On examination, however, they prove to be exceedingly disappointing from the point of view of those who are interested in the Sheffield industries. The figures record a decrease of nearly half a million in the value of metals and manufactures exported from that city and district.

Sheffield supplies the major part of the unwrought steel sent to foreign countries, and this item is particularly unsatisfactory. Not only is there a reduction of more than one-half in the tonnage sent abroad in December, but the imports of the same kind of material increased to much larger extent, namely, from 3,440 tons to 23,034 tons. The falling off in the exports relates to nearly every market which has been in the habit of coming to Sheffield for high-class steel. There were heavy drops in the export of pig iron, railway material, bar, angle, bolt and rod iron, hoops, sheets and plates and manufactures of iron and steel. Such statistics as these naturally cause a good deal of uneasiness.—London Express.

It follows the flag, Manila, P. I. The soldiers coming here ask us to order Rocky Mountain Tea, speaking highly of this remedy. By steamer ten gross, Mizellux Co. The Stafford Drug Company.

Have You A Good Appetite?

Do you feel like eating a square meal three times a day? If not, YOU'VE GOT DYSPEPSIA. Have you a sense of fullness after eating, a bad taste or bad breath, are you weak or despondent? If so, YOU'VE GOT DYSPEPSIA.

JOHNSON'S DYSPEPSIA CURE

Positively relieves every form of Dyspepsia quickly and permanently. To Invalids, chronic Dyspepsia and sufferers from all varieties of Dyspepsia it gives a normal appetite, strengthens the digestive organs and helps digestion. By furnishing plenty of wholesome, well-digested food it relieves all stomach disorders, clears the brain, keeps the blood healthy, strengthens the nerves and tissues and sustains the whole system. We guarantee a cure when directions are followed.

Get it from People's Drug Store, Marquette; J. M. Perkins, Negaunee; Dr. H. N. Meloche, Ishpeming; Sole Agents.

Popular Prices, 10c., 25c., 50c. Made by THE JOHNSON LABORATORIES, Inc., Philadelphia, Pa.

ADAMS AND JEFFERSON.

Story of Their Estrangement Over Former's Action.

The story of the quarrel between John Adams and Thomas Jefferson is very interesting, and in answer to an inquiry I would say that it was an attempt on the part of Mr. Adams to appoint a number of his friends in different sections of the country to life positions upon the bench just as his presidential term was ending, and Mr. Jefferson's was beginning, that led to it.

A few moments before the expiration of the sixth congress in 1801 an act was passed creating a number of new districts and circuit courts. Mr. Adams selected the judges from among his friends and political supporters and had their commissions prepared before he approved the law. At that time it was the practice of congress to adjourn at midnight on the 3d instead of at noon on the 4th of March, as at the present, and the term of the president expired at the same moment. Mr. Jefferson, being aware of the intentions of Mr. Adams, gave his watch to Levi Lincoln, who had been selected for his cabinet, and told him to take possession of the office of secretary of state when the hands pointed to midnight. Mr. Lincoln obeyed instructions, and instructed Chief Justice Marshall, who was acting as secretary of state, in the act of attesting the commissions of the new judges with the great seal of state. A few had been completed, but the greater part lacked the seal. Mr. Lincoln entered Judge Marshall's office without warning and said:

"I have been ordered by President Jefferson to take possession of this office and its papers."

"Mr. Jefferson has not yet qualified as president," exclaimed the astonished chief justice.

"Nevertheless he considers himself an executor or trustee and instructs me to take charge of the archives of this department until he is duly qualified."

"But it is not yet 12 o'clock," said Judge Marshall, taking out his watch. "This is the president's watch and judges the hour," said Mr. Lincoln.

Justice Marshall carried away the commissions that were executed with the men who received them were afterwards known as "Adam's midnight judges."

Mr. Jefferson considered this an infringement of his prerogatives and an invasion of his authority as president, and for many years he and Mr. Adams were bitterly hostile, although he continued to correspond with Mrs. Adams in a friendly manner. On the other hand Mr. Adams was offended with Mr. Jefferson because of the removal of his son, John Quincy Adams, who was registrar of bankruptcy at Boston. Mr. Jefferson afterwards explained that he was not aware that the young Adams who held the office was a son of the ex-president or he would not have removed him. A reconciliation was brought about by D. Benjamin Rush, for which Mr. Jefferson was prepared by a sympathetic letter from Mrs. Adams at the time of the death of her daughter, Mrs. Epes.

The letter of Dr. Rush to Mr. Adams urging the reconciliation is one of the most eloquent appeals that can be imagined. He says:

"Follow laborers in erecting the fabric of American liberty and independence, fellow sufferers in the calamities and falsehoods of party rage; fellow heirs of the gratitude and affection of posterity, and fellow passengers in the same stage which must soon convey both to the presence of the judges with whom forgiveness and the love of your enemies is the condition of your acceptance, embrace—embrace each other, bedew your letters of reconciliation with tears of affection and joy."

Mr. Jefferson and Mr. Adams resumed their correspondence and friendly relations until their death, which occurred on the same day, but some of Mr. Jefferson's partisans refused to approve the reconciliation, and when one of his most ardent worshippers was informed that Mr. Adams died on the same day and almost at the same hour as Mr. Jefferson he exclaimed in a passion: "It was a d-d Yankee trick."—Chicago Record.

"NOW READY!"

THE COPPER HANDBOOK

BY HORACE J. STEVENS, DEPUTY COMMISSIONER OF MINERAL STATISTICS.

The most complete compendium of the

Lake Superior Copper Mining Industry

Ever published. Complete and accurate descriptions of the mines and their managements. Statistics from the opening of the mines to the present time. History of Copper mining in Lake Superior. The past, present and future of copper, copper mines and of copper shares. Information of every kind regarding the copper mining industry, written and compiled by the best authority on the subject in the state.

A book of nearly 400 pages of valuable information.

A Nerve Builder.

Health is not a question of muscle and sinew, but of resistance and endurance. It is nerve-force that gives to the body that strength and vigor to withstand the buffetings and hardships of life and resist the encroachments of disease. When headaches, nervousness, indigestion, loss of sleep, anxiety and worry sap the nervous powers; when the restless twitchings of the muscles, the throbbing of the heart, the irritability of temper and the depression of spirits proclaim the approach of nervous prostration, it is time to call a halt. The worn-out nerves must be rebuilt and the resistive strength fortified before health and vigor can be restored.

"I had an awful dizziness in my head, palpitation of the heart, was nearly blind and could not walk. My mind was weakened and wandering and my nerves were broken down completely. When the doctors failed to help me I began taking Dr. Miles' Nerve and the first day I was better. I improved right along and was soon a strong, healthy woman again."

Mrs. Wm. ROBERTS, Elmwood, Ills.

Dr. Miles' Nervine

is a preventive and a cure for nervous prostration. It builds up the nerve forces of the system, stimulates digestion, assists nutrition and overcomes disease.

Sold by druggists on a guarantee. DR. MILES MEDICAL CO., Elkhart, Ind.

UPPER PENINSULA FARED WELL.

GIVEN A GENEROUS SHARE OF OFFICERS BY THE STATE CAMP OF MODERN WOODMEN.

The annual State Camp of the Modern Woodmen of America was in session at Jackson on Wednesday and Thursday of last week. Officers for the ensuing year and delegates to the National Camp, which will be held in St. Paul in June, were elected. There were upwards of one hundred and forty delegates in attendance and the business of the meeting was despatched with promptitude and intelligence.

There was a contest for the office of head physician between six doctors of the state. It was necessary to make eleven ballots before a choice was reached. Dr. T. W. Martin of Portland was the successful contestant. The State Camp merely endorses the candidates for this office and the National Camp does the electing. Other officers chosen were: State consul, A. M. Fleischmann, of Reed City; state clerk, Ed J. Butler, of this city; advisor, Jessie D. Rogers of Big Rock; banker, W. M. Sterling, Escanaba; escort, G. Hirschberg, Bailey; watchman, H. E. VanderPolter of Schoolcraft county, and sentry, J. W. Ellett of Three Rivers.

Ex-Senator Samuel McKee of Kalamazoo was elected delegate at large and M. R. Carrier of Lansing was endorsed by the camp for head auditor. There was a hot fight between Mr. Carrier and the present incumbent of the office, ex-Senator Emory Townsend of Saginaw, and it was necessary to take two ballots before it was decided. The first ballot resulted in a tie, but on the second Mr. Carrier led by six votes.

The following delegates from the upper peninsula were elected to attend the session of the national camp at St. Paul on the thirteenth of June: W. M. Sterling, Escanaba; Albert Hass, Marquette; W. E. Steckerbauer, Calumet, and Dr. J. S. Nitterauer, Ontonagon. When the question of endorsing a candidate for state deputy came up State Clerk Butler read the following letter, which he had previously received from Head Consul Northcott, Feb. 5, 1901.

"Greenville, Ills., Feb. 5, 1901. "Ed J. Butler, State Clerk, Ishpeeming, Mich.:

"Esteemed Neighbor: I desire to express to the delegates to the state camp at Jackson my hearty congratulations upon the magnificent growth of the Modern Woodmen of America in Michigan during the past two or three years. The growth and prosperity of the order in your state is unequalled by that of any other state during that period. I deem it no more than proper and just to pay a high tribute to the energy, loyalty and capability of State Deputy Charles J. Byrns. He has won the respect and admiration of the head officers connected with the administration of our beloved order and his work in Michigan has been of the highest character. He has brought his state up to the third rank in the United States in the last year and this is a splendid result, when we consider that it was done in competition with other states that had better opportunities. I extend to your state camp my most hearty congratulations upon the progress of the order in Michigan.

"With kindest regards I am "W. A. Northcott, Head Consul.

During the reading of this letter Mr. Butler was interrupted several times by the applause of the enthusiastic audience, and when it was finished there were cries of "There's no use to vote; he is elected already." It is needless to say that Mr. Byrns was unanimously endorsed by the camp and that Head Consul Northcott will lose no time in reappointing him. There was a general disposition on the part of the delegates to refuse renominations to officers, but this was not apparent in the case of Mr. Byrns. The upper peninsula has done particularly well in the elections and the delegates from this section are feeling well content over their success.

There was a banquet on Wednesday evening at which the Jackson degree team gave an exhibition drill which was much enjoyed. Many brilliant speeches were delivered on this occasion; among them was that of Mr. Byrns, who spoke on the progress of Woodcraft in Michigan. One interesting feature of his address was his statement that in the last two years the membership of the order had increased from fifteen to thirty-two thousand in this state alone. The sessions closed on Thursday and most of the delegates left the next day for their homes. Mr. Butler arrived home yesterday morning. He made a flying trip to Lansing before his return.

RED HOT FROM THE GUN. Was the ball that hit G. B. Stedman of Newark, Mich., in the Civil war. It caused horrible ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures cuts, bruises, burns, boils, felons, corns, skin eruptions. Best pile cure on earth. 25c a box. Cure guaranteed. Sold by the Stafford Drug Co.

WILL LECTURE THIS EVENING. Ex-Senator William E. Kenney of Ireland, will deliver a lecture on "Ireland, its History, People and their Characteristics," tonight in the opera house. He comes under the auspices of the St. John's church and brings with him the highest recommendation from all who have heard him. Senator Kenney is a rapid talker, but his hearers have no trouble in following his discourse. His subject is one that is full of interest for all and all should embrace this opportunity of hearing Mr. Kenney. Tickets are on sale at the hall for twenty-five cents.

AMERICA'S Greatest Medicine is Hood's Sarsaparilla, because it possesses unequalled curative powers and its record of cures is GREATEST.

The new line of white goods which F. Braustad & Co. recently purchased in the New York markets is now on the shelves. The ladies are invited to call.

LA GRIPPE QUICKLY CURED. "In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the magic, and I have never been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by the Stafford Drug Co.

ANOTHER OLD RESIDENT GONE. The many friends of John Francis were pained to learn of his death which occurred Saturday morning at his residence on South Pine street. Mr. Francis had been a resident of this city for about eighteen years and was well known and much respected. He was a miner employed by the Lake Superior Iron Company. Mr. Francis leaves a wife and three children. They are also two brothers, James and Thomas, who are old pioneers, having been here for the past twenty-five years. Mr. Francis was a Mason. The funeral will be held from the Methodist church at 2 o'clock, and the interment will be in the Ishpeeming cemetery.

DOES IT PAY TO BUY CHEAP? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the most severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Boschee's German Syrup" It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. The Stafford Drug Co.

LAST OF THE SERIES. The Zenda club will hold its last dance before Lent this evening in Anderson's hall. This club was organized this winter for the express purpose of holding dances and it has amply fulfilled its mission. From the start its dances have been very pleasant. The city band orchestra has been engaged for this dance and all may feel sure that this part of the program is in good hands. A light supper will be served in the hall during the evening. This is the last dance which will be given in the city before the Lenten season opens and a large number of lovers of dancing will avail themselves of this opportunity to take a final whirl at "the giddy."

THE MODERN WAY Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

A finer line of embroideries than can now be seen at Braustad's has never been shown in the county. (2-11-14)

The new things in gingham at Braustad's must be seen to be appreciated. Just added to the stock. (2-11-14)

HAVE YOU TETTER? All druggists are authorized by the manufacturers of Boro-Carbol Salve to refund money when it fails to cure any case of Tetter, no matter of how long standing. Cures ordinary cases in six days the worst cases in fourteen days. Price 25 cents per box. The Stafford Drug Co.

SHOULD A MAN BE VAIN? Certainly he should. He should have ambition to look well and feel good, which he cannot do unless he digests his food. Dr. Caldwell's Syrup Pepsin aids digestion, clears the head, keeps the bowels regular and makes a man feel at peace with the whole world. Try it. The Stafford Drug Co.

ISHPEMING IN BRIEF.

Henry Harwood is a victim of the grip.

Mrs. William Cox is visiting friends in Calumet.

M. A. Kahn, of the firm of Kahn & Skud, is in the east on a purchasing trip.

This evening will be ladies' night at the snowshoe club and a tramp is planned.

A. E. Clark, of the London Assurance company, transacted business in town Saturday.

T. F. Cole, general superintendent of the Oliver Iron Mining company, was in the city Saturday.

Mrs. T. A. Felch entertained at cards on Saturday afternoon at her home on Euclid street.

"The Boys' Dancing" club held a very successful dance in A. O. U. W. hall Saturday evening.

The Gaynors gave a farewell party to their children's class in Anderson's hall Saturday afternoon.

Ex-Senator William E. Kenney, who will deliver a lecture on Ireland in the opera house this evening, arrived in the city Saturday.

Matt Dennison, state recorder of the O. H., left Saturday evening for Detroit, where he will attend a meeting of the state officers.

The dance which will attend the young married ladies gave in Anderson's hall Saturday evening was largely attended and a pleasant time was spent by all.

Miss Abbie E. Smith has resigned her position as teacher in the schools and left for Virginia City, Montana. Miss Smith has accepted a position in the schools of that city.

Patrick Whalen of Republic, Mrs. Martin Dee of South Lake Linden and William Dee of Butte City, Mont., attended the funeral of Mrs. Dee in this city Friday morning.

Felix Gaynard and Miss Josephine Hines were united in marriage at the home of the bride's parents Saturday evening. Rev. Desilyva of St. Joseph's church performed the ceremony. A wedding supper was served.

"The Doctor's Warm Reception" will hold forth at the opera house tomorrow evening. Prices are fifty and seventy-five cents. Seats on sale at Tillson's. The play is a good one and should bring out a good house.

The W. C. T. U. will meet with Mrs. J. C. Altschwager at her residence, 626 North Third street, tomorrow afternoon at half-past two. A fine program will be rendered and refreshments served. A collection will be taken up.

The last case of small pox was discharged from quarantine on Saturday afternoon. This was the case of Mrs. Richards, who lives on Second street. There have been fourteen cases of the disease in the city in the past few months and the discharge of this patient marks the end of the second epidemic.

Horace W. Outhouse has for sale some Belgian hares. They are of the finest breed and the prices are moderate. The raising of these animals has become an important industry in some sections of the country. To have a pair of Belgian hares is to be in the swing for the keeping of these pets is the latest fad.

All who are interested in the schools should not fail to attend the first public entertainment which the pupils have given this year. They will present the Greek play Antigone and a Gypsy chorus. Despite the many other attractions booked for the evening, the managers of this entertainment feel sure that it will be well worth seeing and hearing. The price of admission is twenty-five cents and the curtain will rise promptly at 8 o'clock. The cast of characters appears in another column.

Services were held over the remains of John and William Harris, who were killed in the East End mine of the Lake Angelina company Friday morning in severe throat and lung troubles. "Boschee's German Syrup" It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. The Stafford Drug Co.

Horace W. Outhouse has for sale some Belgian hares for sale. Prices from \$5 to \$50 per pair. (2-18-14)

Braustad is making a special run on carpets. A new line just received from New York. (2-11-14)

If you want the best liquors you can find them at P. H. Donahoe's.

NEW HORSES JUST IN. Parties wanting heavy horses will find a fine lot of them at Kaufmann & Son's stables on East Pearl street, Ishpeeming. No finer horses have ever been brought to the city. (2-8-24)

A KANSAS MINISTER. Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases."

Are you restless at night, and harassed by a bad cough? Use BAL-LARD'S HOREHOUND SYRUP. It will secure you sound sleep, effect a prompt and radical cure. Price, 25 cents and 50 cents. The Stafford Drug Co.

SPREAD OF THE CONTAGION. In the richly furnished little room at the back of her millinery establishment at the mistress thereof, meditating in luxurious content upon the bustle of the day, which had been unusually large.

A few hats and bonnets, it is true, upon which the profit was hardly more than 200 per cent, had been sold, but they were old stock. The comparative loss on those had been fully offset by orders for a dozen or more fairly creations at the customary rate of increase over actual cost, and a satisfied smile rested upon the smooth, round features of Mme. Plum Pious, the acknowledged artist in gorgeous headgear.

There was only one sales girl on duty all the others having gone home, and when the front door opened and five or six men came in the madame hastily left her boudoir and went forward.

"Are you the owner of this establishment?" inquired the man who appeared to be the leader, in a gruff voice.

"Yes, sir," she replied. "What can I do for you?"

"You acknowledge, then," he rejoined, turning a wild, frenzied gaze upon the showcases that lined the room, filled with costly specimens of the milliner's art. "that you carry on this unrighteous, home-destroying business, this fruitful source of poverty, crime, and suicide! Woman! Woman! Is there no way of reaching your heart? Do you ever stop to think of the happy homes you have broken up, of the prosperous men you have driven to bankruptcy, of the terrible evils you spread in the land by catering to your sex's fondness for extravagance and gaudy display? Comrades, why do we waste a moment in useless delay? Let the work of destruction begin!"

Six hatchets, which had been concealed beneath their overcoats, flashed in the air, and the maddened men rushed at the showcases.

Their weapons crashed hideously through the plate glass.

They broke all the furniture in the establishment, piled bonnets, hats, ostrich feathers, artificial flowers, and costly furberies without number in a heap on the floor, scattered them in savage glee, unrolled bolt after bolt of silk ribbons, which they used as lassos to drag down the plaster casts on the shelves, and unheeding the shrieks of the terrified woman they chopped the counters into kindling wood.

Then, having reduced the interior of Mme. Plum Pious's emporium to a condition of hopeless chaos the Bankrupt Husband's Association of Millinery Smashers gave three rousing cheers for home protection and reform, concealed the hatchets again under the overcoats, and went forth to renew the crusade at the millinery establishment in the next block—Chicago Tribune.

PRESERVES WOOD.

Creosote Unites With the Tissue and Prevents Decay.

The Century Dictionary says: "Wood treated with creosotes is not subject to dry rot or other decay." Trautwein states that creosote is the best wood preservative known. Cabot's famous creosote single stains take their name from this wellknown ingredient. The stain unites with the vegetable tissue, forming a leathery compound which resists organic decomposition. These stains are very much cheaper than paint, which latter has only a temporary effect as a preservative. They cost from one-fourth to one-half less, and require no skill to put them on. They are non-inflammable. Cabot's stains come in about two dozen shades, and are applicable to all wood and brick work. Their excellence has, of course, induced imitations, which should be promptly declined. Of equal merit are Cabot's Creosote Farm and Fence Paint, Cabot's Fire-Proof Paint, Cabot's Mortar Color and Cabot's Sheathing and Deansing "Quilt." These goods are manufactured by Samuel Cabot, Boston; Brady & Co., Detroit, who are distributing agents for Michigan, will mail handsome descriptive booklets on request.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

'BECAUSE I LOVE YOU'

PRODUCTION OF THIS POPULAR DRAMA ON FRIDAY EVENING WAS AN ARTISTIC SUCCESS.

The Negaunee Dramatic club did itself proud last Friday evening when it presented that most popular comedy drama, "Because I Love You." MacDonald's Opera House was crowded to the doors with a gathering which was thoroughly in sympathy with the performers. Standing room was at a premium and the applause was so frequent that the performance was delayed time and again. The club had been rehearsing for about six weeks and each member of the cast showed the result of skillful training and conscientious work.

"Because I Love You" is a drama written in four acts. The situations are very strong and the interest of the onlooker is kept at a white heat throughout the play. The climaxes are very effective and the plot is the neatest description so common in the modern drama. The usual love story is constantly in evidence, but its windings are a little out of the ordinary run. The comedy element is also strongly brought out, and the humor of the piece was keenly enjoyed by all.

The Gypsy tinkler, the Irish whose actions are very eccentric, the Irish major, a darky servant and a giddy old maid made fun enough for the most exacting.

The course of events carried one from an old Virginia tavern, through a residence in the Blue mountains, to a typical southern plantation, and in the last act a painter's paradise is depicted. The musical numbers were finely rendered and much appreciated. Miss Cyr as Imogene Courleigh, a wilful, wayward and wealthy southern girl, easily carried off the honors of the evening. The character was carried well, and though Miss Cyr's voice was somewhat weak, she made everyone feel the part as well as see it. Her costumes were very pretty and fetching, as were all those worn in the play.

T. E. Ludlow as Horace Warner, an artist and accidentally a married man, left nothing to be desired in his rendition of the part. His was a most difficult character, calling, as it did, for a somewhat affected pose, but this he assumed with the greatest ease. All the other characters were taken with equal care and success and the performance as a whole was a decidedly artistic production.

There have been many requests for another performance, but the club feels that this will be impossible, as the opera house cannot be hired again before Lent and after that season of the month past and the management feels that it can promise everyone a royal good time. Nothing to ensure the comfort of any guest has been overlooked and the indications are that the function will be a large success. The music is the best that can be procured. Trombly's orchestra, including piping, and all the other details are completed in an elaborate manner. The tickets are on sale for one dollar.

The Ladies' Auxiliary will serve a supper in the hall, for which a charge of twenty-five cents a plate is to be made. This hall is the center of the winter's social season and those in charge are sure that all lovers of dancing will remember this fact and will fill the hall. Those in charge of the arrangements are, Messrs. Hassett, Calligan, Shea, D. and J. Harrington and Driscoll. The reception committee is made up as follows, Messrs. Moriarty, Lavelle, Shea, Gannon, Millroy and McDonald. The following members will have a floor in charge: Lavelle, Kelley, Calligan, Ryan, Shea and Gorman.

LOCAL LAONICES.

Miss Louise Tourville is a victim of the grip.

Spring suits are now in order. H. J. Petersen has his new stock to show the trade.

The dance of the Danish Brotherhood which was held in Johnson's hall Saturday evening was a very successful affair.

Stock in the Negaunee Co-operative society is being disposed of in a remarkably quick manner. All signs point to a very successful institution.

Captain Thomas Tibbett left the city Saturday morning for Crystal Falls, where he goes to take charge of a mine for the Oliver Iron Mining company.

Charles Taylor left for Chicago Saturday morning. His brother Dan was to undergo an operation for appendicitis at the Providence hospital in that city yesterday.

Though Saturday was the Chinese New Year, they did not stop work. Saturday is a difficult day for a man who is in the laundry business to shut off steam.

A large crowd went to the Finnish concert in the opera house Saturday evening. The program, which was carefully prepared and quite lengthy, was heartily appreciated by all present.

The funeral of Annie Johnson, who died Thursday afternoon at 1 o'clock of typhoid fever in a Chicago hospital, was held from the Swedish Lutheran church yesterday afternoon at half past two. News of her death reached here Thursday evening, and Charles and Mary, brother and sister of the deceased, left that evening for Chicago. They returned Saturday morning, with the body. Miss Johnson was about thirty years of age. She formerly resided in this city, and left here but two years ago. She was highly thought of by all who knew her and her death will be keenly felt by her many friends here.

HOW'S THIS?

We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable and financially able to carry out any obligations made by their firm.

W. C. Truax, Wholesale Druggists, Toledo, O.

Walding, Kinnam & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system.

Price 75c. Sold by all drug stores. Testimonials free.

Hall's Family Pills are the best.

WILL DANCE TONIGHT.

THE A. O. H. BALL WILL BE GIVEN IN THE OPERA HOUSE THIS EVENING.

Division number two of the A. O. H. will give a ball in MacDonald's Opera House this evening. Preparations for this event have been under way for a month past and the management feels that it can promise everyone a royal good time. Nothing to ensure the comfort of any guest has been overlooked and the indications are that the function will be a large success. The music is the best that can be procured. Trombly's orchestra, including piping, and all the other details are completed in an elaborate manner. The tickets are on sale for one dollar.

ANGOVE & THOMAS.

Located in the Mulvey block, are conducting a first-class saloon, where you can always find the best wines, liquors and cigars. (2-6-1m)

Faults of digestion cause disorders of the liver, and the whole system becomes deranged. **HERBINE** perfects the process of digestion and assimilation, and thus keeps pure blood. Price 50 cts. The Stafford Drug Co.

\$50 FOR A BOTTLE OF MEDICINE.

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now as healthy as I, but I would not be without the medicine if it cost fifty dollars a bottle.

Wm. H. Farris,
Chn. Bd. Tp. of Wilton, Monroe Co., Wis.

MICHIGAN CLUB BANQUET

Detroit, Michigan, February 22nd, 1901.

For the above occasion, the D. S. & A. Railway will sell tickets to Detroit, Mich., and return via Mackinac City at rate of single fare for the round trip. Tickets will be on sale Feb. 21 and will be good for return passage until the 25th, inclusive. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (2-18-3d)

BETTER RAILROAD SERVICE.

Marquette and Ontonagon Counties Brought Closer Together Than Ever Before.

The opening of the recently completed Mineral Range extension by the D. S. & A. railway on Monday next from Keweenaw Bay will be a great event for the towns of Marquette county, as it will bring them in close touch with the growing and progressive towns of Mass City, Rockland and Ontonagon.

The train leaving Marquette at 7:00 a. m., Negaunee 7:45 a. m. and Ishpeming 7:55 a. m. will make close connection at Keweenaw Bay (daily except Sunday) with the day express from Calumet arriving Mass City 11:57 a. m., Rockland 12:15 p. m. and Ontonagon 12:45 p. m. Returning, the train will leave Ontonagon 1:35 p. m., Rockland 2:05 p. m. and Mass City 2:23 p. m., arriving Keweenaw Bay 4:00 p. m. and connecting with the train from Calumet due at Ishpeming 4:50 p. m., Negaunee 7:00 p. m. and Marquette 7:35 p. m. (12-20-17)

CHANGE OF LOCATION.

Charles Mattson, who conducts a butcher shop near the head of Iron street, will move this week to the Truman block on Case street. Mattson has been in business less than six months but has built up such an extensive trade that this change of base is made necessary. He will branch out during the summer and intends to materially increase his stock.

HOW TO CURE THE GRIPPE.

Remain quietly at home and take Chamberlain's Cough Remedy as directed, and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip not one case has ever been reported that did not recover. For sale by the Stafford Drug Co.

TABLER'S BUCKEYE PILE OINTMENT is no panacea, but is recommended for Piles only. These it will cure. Price 50 cents in bottles; Tubes, 75 cents. The Stafford Drug Co.

COPPER COUNTRY NEWS.

(Continued.)

for as yet, but that will probably be done soon. Yesterday afternoon a number of contests were held between those who were present with their horses and cutters. The sport, which is indulged in nearly every winter, is largely enjoyed.

Mrs. William White, who lives with her daughter, Mrs. Gribble, in East Houghton, fell down a flight of stairs Saturday morning and suffered a fracture of the forearm. She mistook the door leading to the stairs for the one opening into her granddaughter's room, which she intended to enter. The mistake was noticed too late and Mrs. White lost her balance and fell. Considering the severity of the accident the lady, who is nearly ninety years old, is resting as well as can be expected.

The remains of John Prinks, who died in the county jail Saturday morning, will be buried today in potter's field. He was about fifty years of age. Prinks was found suffering with pneumonia at the jail last Monday and was afterwards taken to the hospital and given lodging and medical aid in the county jail. The disease was firmly fastened on the man and nothing could be done for him. The remains were taken to August Krelvitz's undertaking rooms, whence the funeral will take place. It is not known whether or not Prinks had any relatives in this section of the county.

FIRST AND FOREMOST in the field of medicine is Hood's Sarsaparilla. It possesses unequalled merit and cures all blood ailments or is promoted by impure or impoverished blood, including rheumatism, dyspepsia, catarrh.

All liver ills are cured by Hood's Pills. 25c.

BOERS HAVE SHARP EYESIGHT.

Why It is Superior to the Vision of English Soldiers.

Sir Redvers Buller's statement that the ordinary Boer could see a man coming towards him two miles before the English could see him, has excited neither surprise nor skepticism among the eye specialists.

"Really," said a high authority to a Daily Mail representative, "if you apply your common-sense to the matter you will see it must be so. The Boer is, comparatively speaking, a barbarian. At least he has few indoor occupations and does little reading. For generations he has been training himself to see long distances, for his livelihood depends upon sighting his cattle or on tracking down game. Mr. Atterton will never possess such fine vision until his conditions of life approximate those of the Boer. Like all civilized people his vision is confined to a limited range. Even at the butts he is not called upon for any very special efforts of long sight, and he is not there often."

The fact was mentioned that several officers had come home from the war with greatly improved eyesight. Some, who had worn glasses, now found their sight quite cured, and attributed the fact to the effect of the fine, clear atmosphere of theveldt.

"A clear atmosphere," said the authority, "would be an important factor in sighting the enemy, of course; but the real fact is that these officers have benefited by their experience in South Africa. It is all a question of the ciliary muscle. The ciliary is an involuntary muscle—one of the few muscles we cannot control. Its function is to adjust the vision to different distances, and it acts something like the screw of an opera glass. At long ranges there is practically no call on the ciliary muscle, but when, for example, you want to read, it screws up until the proper focus has been obtained. I have known too much study to induce a kind of artificial shortsight, easily cured by months of rest. We use our ciliary muscle too much—the Boer hardly at all."—London Daily Mail.

BUNSEN'S CREAM CATARRHAL.

Cures catarrh easily and pleasantly. Contains no mercury or other drug. Is quickly absorbed. Gives instant relief. It opens and cleanses the nasal passages, softens the membrane, and restores the senses to taste and smell. Regular size 50 cents. The Stafford Drug Co.

All the healing balsamic virtues of the Norway pine are concentrated in Dr. Wild's Norway Pine Syrup. Nature's own remedy for coughs and colds.

Children who are troubled with worms are pale in the face, fretful by spells, restless in sleep, have blue rings about the eyes, bad dreams, variable appetite, and pick the nose. **WHITE'S CREAM VERMIFUGE** will kill and expel these parasites. Price 25 cents. The Stafford Drug Co.

Children never cry very loud for it, but they do like Dr. Calumet's Syrup Pepsin. Ask the Stafford Drug Co.

CHANGE IN TIME TO THE SOO.

On and after Monday, Feb. 18, 1901, passengers for Sault Ste. Marie from stations west of Soo Junction who go east on No. 2 train from Marquette 1:30 p. m. will be carried via Trout Lake and the Soo line, arriving 7:55 p. m. instead of 8:55 as at present.

No. 8 train (from Marquette 5 a. m.) will continue to run direct via Soo Junction on present schedule.

The train service from Sault Ste. Marie to Soo Junction will be continued on present time table. There, however, will be only one train east bound from Soo Junction to Sault Ste. Marie (No. 3) and the traveling public is requested to bear this in mind when desiring to reach Sault Ste. Marie via Sault Ste. Marie, Brimley and Bay Mills.

A new train service will be inaugurated between Mackinac City and Sault Ste. Marie on the above named date. Trains will leave Mackinac City 7:25 a. m. and 4:20 p. m. and will arrive Sault Ste. Marie 10:55 a. m. and 7:55 p. m., affording Sault Ste. Marie a better train service than ever before from the lower part of the state. (12-15-17)

BE IN STYLE.

Don't laugh at fashion. Don't discourage ambition. Don't hinder progress. Try to be affable. Look on the bright side. Strive to be happy. Enjoy life. Keep healthy, which you can do by using Dr. Caldwell's Syrup Pepsin according to directions. It is an absolute cure for Constipation, Indigestion, Stomach Troubles and Sick Headache. The Stafford Drug Co.

ABOUT COUGHS AND COLDS.

Bunsen's Pine Tar Cough Honey relieves the worst cough or cold almost instantly. Continued use will cure any cold, however severe or of however long standing. It will positively prevent the many dangerous results of half-cured colds or coughs. The best is the cheapest. Take Bunsen's Pine Tar Cough Honey. The Stafford Drug Co.

READ THE PROOFS: United States Official Report

MADE TO COMMISSIONER OF THE UNITED STATES, General Land Office, Washington, D. C.

by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin Silliman, who spent several months there, then being connected with the United States Surveying Corps, and in his official report says: "Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a sluice, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved method of river mining. The thickness of the Rio Grande gold gravel exceeds in many places 600 feet, or nearly three times that of the like beds in California while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered."

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined the thickness of the same in the line at my command the character of the gravel and its contents of gold. Nothing I am persuaded, since the discovery of California and Australia, is comparable for its measurable resources of gold available by the hydraulic process to the deep layers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this company the richest and most extensive known.

CAPITAL STOCK, \$2,000,000
Fully Paid and non-assessable, par value \$1.00 each share.

One half the entire capital stock has been placed in the hands of investors as a working capital. To complete necessary duties and place on the river bed several gold steam dredges, the company now offers

A Limited Number of Its Shares at 50c Per Share.

After sale of which price will be advanced to \$1.00 PER SHARE.

Application should be sent promptly. Write for prospectus. Make checks, money orders payable to...

PLACER GOLD MINING CO.

7 Exchange Place, Boston, Mass.

EXHIBIT OF FIVE MOTORS.

Lake Shore Engine Works Will Send It to Sportsmen's Exposition at Chicago.

NUMEROUS INQUIRIES AND NEW BUSINESS SHOULD RESULT.

Manager Blomstrom Is Compiling First Engine of the "1901" Model, Which Embodies Several Improvements, and His New Reversible Coupling.

IT WILL BE POPULAR WITH LAUNCHMEN

The Lake Shore Engine works are a little livelier than ever just now. This is putting it pretty strong, as the plant has been a busy place for an extended interval lately.

Shipping has been progressing steadily. In the last few weeks some twenty engines have been sent out in response to orders from parties who desired them for immediate use or who did not care to take chances on a delay in the spring.

The pumping engine will be an odd number at the exposition, but it is being sent down as a curiosity to demonstrate the possibilities of the development of the gas engine and, as such, it will likely receive its full share of attention.

A NEW MODEL.

Manager Blomstrom is now building a "eight horsepower engine which he calls the "1901" model. While it does not differ from the engines now in use in any important principle still it embodies a number of improvements which will make it more marketable.

It is fitted with a new invention, for which Manager Blomstrom has sought a patent. This is a reversible coupling. Martin A. Sweder's reversible coupling has been described at some length in the columns of The Mining Journal. Its principle is friction. Mr. Blomstrom employs gearing to obtain results. He has not yet tested his device under conditions resembling those which will surround it if it is placed in successful use, but to all the trials in which it has been used it has responded satisfactorily, and little doubt is expressed of its practicability.

Mr. Blomstrom is quite confident that it will answer the end and that the time will come when it will be fitted to all the Superior engines.

Much has been written and said concerning the desirability of a reversible coupling for use on gas propelled marine engines. It will permit of the use of a solid wheel and will give the launchman a more reliable and stronger motor, while the gain in speed and ease of handling will be marked.

OTHER CHANGES.

Other changes in the new model will be received with favor. There is an innovation in the manner of procuring the electric sparks which is an improvement. For some time past the body of the double and triple cylindered engines has been made in one casting instead of in two or three castings, as was formerly the case. This change gives an engine which is more pleasing to the sight.

While the first motor of the new model has not yet been finished some twelve of the new design are now in hand and henceforth the improvements will be incorporated in the entire product of the Lake Shore Engine works.

WHY IT SUCCEEDS.

Because it's for One Thing Only and Marquette Is Learning This.

Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills do one thing only. They're for sick kidneys.

They cure backache, every kidney ill. Here is Marquette's evidence to prove it. Mr. C. C. Young of 127 E. Michigan street, painter and decorator, says: "I had such pains through my back and joints at times that I could scarcely keep at my work. The kidney secretions became affected, were highly colored, unnatural, irregular and deposited a heavy dark sediment. I could not rest comfortably at night, lay awake for hours at a time and was rarely able to secure more than three or four hours sleep during a night. I saw Doan's Kidney Pills advertised, procured them at the Stafford Drug Co.'s store and began to use them. I felt relief almost at once. They relieved the irritated condition of my nerves. I was able to enjoy a good night's rest and arose in the morning feeling strengthened and refreshed."

been numerous and valuable and others are being introduced as fast as they can be worked out.

RAILS AND TIES. They Are Ordered for the Marquette & Southeastern Road.

The officers of the Marquette & Southeastern railroad have been losing no time lately. While actual work on the proposed new line has been suspended, they have been bending all their energies to a preparation for starting operations in real earnest when it is finally decided to go ahead.

The new company has contracted for all the steel which will be needed to complete the line to a junction with the Munising road. Arrangements it would also be completed to obtain the ties. Of these, some 80,000 will be required.

There has been considerable inquiry here of late concerning the operations of the new corporation. People have been anxious to know when it would resume work on the line, being considerably disappointed with the suspension of operations which took place several weeks back.

LITTLE CHANGE.

Coppers Ran on About the Same Saturday.

There was little change in the copper situation Saturday. The market was fairly strong and the brokers professed a belief that the realizing was about over. It is generally expected that the quotations will show marked improvement this week.

"The tone of the market for coppers continues to improve and Copper Range, Baltic and Trimountain are still the leaders in public favor.

Mr. Larkie is well known in Marquette and there is general satisfaction that he is going to step up a notch. He has been a valuable employee for the South Shore and his place will be hard to fill.

"HIS EXCELLENCY," GOVERNOR.

Frank Long's Company Will Present It This Evening.

Frank Long's Stock company will open its week's engagement at the opera house this evening, presenting the well known melodrama, "His Excellency, The Governor."

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering.

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine, and has the satisfaction of knowing it has absolutely cured thousands of hopeless cases.

CITY BREVITIES. Yesterday's temperature: 7 a. m., 13 degrees; noon, 21 degrees; 7 p. m., 24 degrees; maximum, 26 degrees; minimum, 13 degrees.

There will be a private party at the club house Tuesday evening.

The Superior tent, K. O. T. M., will hold a social dance at Fraternity hall.

The weather Saturday was mild enough for advanced spring. The air was soft and balmy.

Mrs. Jerry Farrell of Duluth, Mrs. Joseph Courtney, Miss Marie L'Hullier and Miss Emma Laroux spent yesterday in Ishpeming.

It is understood that Dan Sullivan of the Hotel Clifton will be found "long" on "coppers" this morning.

A considerable number of skaters were on the ice on the bay Saturday evening. It was well covered with snow but this didn't appear to make much difference.

The Marquette Ideal orchestra leaves for Crystal Falls at 8:20 o'clock this morning. A number of Marquette people will accompany it.

The A. O. U. W. hall will hold a social at the A. O. U. W. hall this evening. Good music will be in attendance and refreshments will be served.

"The Doctor's Warm Reception" was witnessed by a fair gathering Saturday evening. It is a farce comedy of the slapstick, horseplay variety.

A deed recording the transfer of a tract of land, formerly owned by Jane O. Macomber of Negaunee, to the Oliver Iron company has been registered with J. H. Primeau.

Observer Patrick addressed the members of the High school arena on weather forecasting Friday evening.

Two employees of the Rochester Bridge & Iron Works of Rochester, N. Y., are in the city for the purpose of riveting the pipe which will be used in the construction of the new intake.

Those toothsome popcorn fritters, Fresh every morning at Fred Donkers. (2-12-10)

Kindles anew the fires of youth. It's the head of the works. The main spring of life. Rocky Mountain Tea made by Madison Medicine Co. The Stafford Drug Company.

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures cramp, heals burns, wounds of every sort.
