Another boat containing Third Officer Holland and J. K. Carpenter got away, but was drifted around close up under the bow of the steamer. As the forward end of the vessel plunged downward, the prow caught the small boat and cut it in two. Two of the men in the boat were uninjured and swam away from the sinking steamer just in time to avoid being caught in the swirl caused by the settling of the big ship. Carpenter was picked up by another boat; the fate of Holland is not known, but he is supposed to have perished.

The forces that accomplish the greatest good in the world are the silent ones. Under strong nerve influence the various organs of the body perform their duties noiselessly and without friction. But let the nerve-force become weak and exhausted and headache, neuralgia, irritability, loss of appetite, indigestion, insomnia and nervous prostration proclaim their loud protest. There is another silent force that works to overcome these troubles.

General Land Office, Washington, D.C., by a Geologist and Wining Expert of worldwide reputation. Professor Benjamin silliman, who spent several months there, then being connected with the United States Surveying Corps, and in his official report says: "Here are courtless militons of tons of rich gold quartz reduced by the great forces of pature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a sludge, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved method of river mining. The thickness of the Rio Grande gold gravel exceeds in many places 600 feet, or nearly three times that of the like beds in California while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered. "I have made a reconnais and of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. Nothing, I am persuaded, since the discovery of California and Australia, is comparable for its measurable resourses of gold available by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mixing experts of national reputation pronounce the property of this company the richest and most extensive known.

## WOMAN'S KIDNEY TROUBLES

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing this Fatal Woman's Disease.

Of all the diseases known with which the female organism is afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's lease of that property. There was ills—Lydia E. NEW CENTURY OPENS AUSPIC-OUSLY FOR NEGAUNEE AND in the city yesterday. THE PROSPECTS ARE THAT A BUSINESS BOOM IS ON.

The new century has certainly started in well in this city. A great many in Gladstone this week. ransfers of property have taken place nd options on important mining proprties have been numerous. The city vas started when the fact that the Cleveland-Cliffs Iron company had secured an option on certain lands in the astern part of the town, became known. As soon as this deal was conunmated that company lost no time in getting down to active operations and oday it is on the verge of starting the drills proper, for it is currently reported that one stand pipe is down 246 feet and has reached the ledge. Should ore be found in sufficient quantities on this property, hundreds of thousands of dollars will be distributed around the city. These options call for good returns and if the exploration makes good, many Negaunee people will have their bank accounts materially increased. Hard upon the Cleveland-Cliffs deal came the informaan option on the East Jackson mining property. Mr. Neeley has done nothng towards opening this mine, but it is a well known fact that a prominent mining company of this vicinity is investigating the matter with a view to buying, and it will not be long before days of the winter. Friend in Need is a Friend Indeed

The Dyspeptic feels friendless-and needs a friend badly. His dyspepsia robs him of his health, disarranges his digestive organs, disorders his stomach, disturbs his head. The consequences are bad-something must intercede to save him.

## JOHNSON'S DYSPEPSIA CURE

Is the Dyspeptic's best and strongest friend. It acts quickly, surely, easily. Cures the Dyspepsia, relieves the digestive organs, puts the stomach in order, clears the head. Then the Dyspeptic's well. And he doesn't forget what cured him.

OUR STRONG GUARANTEES

To persons who have once used JOHNSON'S DYSPEPSIA CURE, we need guarantee nothing, a trial convinces because it cures, and a cured dyspeptic never asks for further proof of a remedy's efficacy. But to such as have never used our cure, chronic sufferers from dyspepsia who have tried scores of other preparations without relief, and who have perhaps lost hope of ever being rid of indigestion, we extend the following guarantees, backed by the enviable reputation which has been established for our products:

Guarantee 1. That JOHNSON'S DYSPEPSIA CURE is prepared from the best ingredients and compounded so perfectly and carefully that it cannot fail to give satisfaction in every case for which it is Guarantee 2. JOHNSON'S DYSPEPSIA CURE is

not merely for temporary relief, but for permanent cure, and will sustain every claim if used sufficiently and in accordance with instructions which come in JOHNSON'S DYSPEPSIA CURE is a speedy, per-
