## IS VICTIM OF A MOB.

Negro Who Killed Miss Finklestein Lynched at Terre Haute.

## CONFESSES TO THE CRIME.

Crowd, First Repulsed by the Guards, Gets Reinforcements and Batters Down the Jail Doors.

## IS HANGED AND CREMATED

Terre Haute, Ind., Feb. 26.—Justice swift and terrible was meted out today to George Ward, the negro who murdered Ida Finklestein, the school teacher, by shooting her and cutting her throat yesterday.

In a few hours after his arrest an angry mob battered down the doors of the county jail, dragged the miserable prisoner to the Wabash bridge, several squares away, and hanged him to the bridge draw. Not content with the hanging, the crowd cut the corpse down and, laying it on a sand bar under the bridge, kindled a fire and cremated the remains.

## COUNTY JAIL STORMED.

At noon a crowd outside the jail, numbering several hundred, battered down the iron doors but were driven back by Jaller O'Donnell, who fired over the heads of the mob. Deputy Sheriffs Cooper, Hessel and LaFoy were struck by scattering shot and slightly injured, but nobody in the crowd was hurt.

The crowd kept on growing and the excitement increased, and at 12:35 o'clock this afternoon another crowd, irresistible in numbers, attacked the jail, battering down the doors, securing possession of the keys and entering the room where the prisoner was being kept, fighting with the desperate ferocity of a beast at bay. A blow from a hammer felled him to the ground. A noose was quickly adjusted to his neck and the mob started with its victim toward the Wabash bridge. The feeble resistance made by the wretched creature after the blow with the hammer was soon quieted by the savage blows of the mob.

Face downward, he was dragged to the drawbridge. Many are of the opinion the fellow was dead before the scene of the hanging was reached. However, the rope was thrown over one of the upper beams and the body drawn up. It had been swinging in that position but a short time when some suggested burning at the stake as the nearest approach to the proper explanation of the awful crime. The suggestion was adopted unanimously and a fire was quickly kindled on the bank of the river just south of the west end of the bridge.

THOUSANDS SEE CREMATION.

Into the fire the body, bearing no sign of life, was thrown and faggots piled upon it. The body was in a horizontal position, the feet protruding at one end, the head at the other. There was no attempt at disguise on the part of any member of the mob.

The east bank of the river and the bridge were crowded with thousands of men, women and children, gazing at the awful spectacle of a human body being consumed in the vengeful flames. The souvenir fiend was on hand in force, and fragments of the wretched murderer are now scattered broadcast.

At three there was nothing left of the body except a small section of the trunk and the back of the head. Women came to the scene by scores and elbowed their way into the inner circle of spectators, undeterred, apparently unmoved by the horror of the spectacle. They watched and waited and came and went while the flames did their work, and when the last fragment of the body was consumed the crowd still lingered, still augmented by new arrivals, satisfied to gaze upon the ashes of the tragedy.

Ward was aged twenty-seven and leaves a widow and two children. He served a jail sentence in 1889 for larceny. The leaders of the mob are unknown, and as public sentiment upholds the lynching no prosecutions are expected.

## WHITE MAN IS STRUNG UP.

Scranton, Miss., Feb. 26.—John Knox, a white man, was lynched here tonight for the murder of Don Davis, his twelve-year-old stepson.

The mob was made up of about one hundred men. They were fully armed. They caught and bound the sheriff and his deputies and battered down the jail door, soon securing the prisoner. After Knox was strung up a fusillade was fired into his body.

Knox made no protest on the way

out of the jail, simply repeating the words, "I did not mean to do it." He was addicted to drink and killed Davis while drunk. A month ago he married Mrs. Davis, the widow, who was many years his senior and ran a boarding house. Yesterday he quarreled with his wife and in his anger seized a rifle and shot the boy.

## BOERS MAY SURRENDER.

RUMOR OF AN ARMISTICE CIRCULATED AT LONDON.

London, Wednesday, Feb. 27.—The Daily Chronicle this morning publishes under reserve, a rumor that Lord Kitchener has met Commandant General Louis Botha and arranged the terms for the surrender of the Boers, and that an armistice of twenty-four hours was granted the Boer commandant general to enable him to consult with the other commandants. According to The Daily Chronicle, a cabinet council yesterday considered this new turn of affairs.

## CONTRADICTORY REPORT.

"It is reported that General Louis Botha is now between Ermelo and Middeburg," says a despatch to The Daily Mail from Pietermaritzburg, "and that two peace delegates from Belfast—Messrs. De Koch and Meyer—have been shot."

Paris, Feb. 26.—Havas' agency has received the following from Lorenzo Mar-

ques: "The Portuguese government has sent a strong guard on board the Benguela to accompany the Boer refugees to Lisbon. The prisoners will be sent to Peniche. The Benguela sailed this evening."

## MILLIONAIRE'S STRANGE ACT.

BURNS SECURITIES THAT OTHERS COULD NOT ENJOY HIS FORTUNE AND KILLS HIMSELF.

Leghorn, Italy, Feb. 26.—Signor Nagliuri, a millionaire, committed suicide here today, having previously destroyed Turkish securities of the value of two million lire in order that no one might enjoy his fortune.

## SHORT SPELLING TABOOED.

EDUCATORS IN SESSION AT CHICAGO DEAL IT A BLOW.

Chicago, Feb. 26.—A heavy blow was dealt the proposed system of phonetic spelling today, when the department of superintendence of the National Education association, in session in this city, refused by the vote of 105 to 77 to allow the question to be taken into consideration by a committee of the best educators in the country.

## TODAY'S WEATHER.

Washington, Feb. 26.—The following is the weather bureau's forecast for upper Michigan: Partly cloudy Wednesday and Thursday; rising temperature Thursday; fresh westerly winds, becoming southeasterly.

## THIRTY-FIVE MINERS PERISH.

Their Charred Bodies Still in the Colliery at Diamondville, Wyo., in Which the Fire Is Raging—Shaft Is Sealed.

## Cheyenne, Feb. 26.—The worst disaster in the history of coal mining in Wyoming since the Almy horror, eight years ago, occurred at Diamondville last night, when fire broke out in Mine No. 1 of the Diamondville Coal & Coke company. Thirty-five miners perished, and their charred bodies are still in the mine.

The fire was first discovered shortly after the night shift had commenced work. Its cause is not known, but the flames made such progress that only one man escaped. John Anderson was frightfully burned in running the gauntlet of the flames. He is unable to give an account of the accident other than that he was suddenly confronted by a wall of fire and smoke and, wrapping his head in his overcoat, he ran in the direction of the mine entrance.

The first intimation the miners in the other entries had of the fire was when they saw flames rushing in an upper level, his clothing in flames. He fell unconscious and was carried to the mouth of the mine. The alarm was sounded, and hundreds of miners at

## work in the mines and on the outside rushed to the rescue of their imprisoned comrades.

The fire had already made such headway that it was impossible to enter the rooms, and the entire night was spent in confining the fire to two entries, while this morning it was necessary to seal them up to prevent the flames spreading to other parts of the mine. This step was only decided upon after all hope of saving the lives of the men had been abandoned. It may be several days before the barricades can be removed and the chambers explored.

Superintendent Snodden has made a careful count and believes that thirty-five men lost their lives, instead of fifty, as has been reported. The relatives and friends of the entombed miners, who were all foreigners, rushed to the mine, frantically waving their hands and crying to the mine officials and miners to save their dead ones. Many women were slightly injured in the crowd and by falling over obstacles in the darkness.

## STEAMER NEWARK WRECKED.

U. S. SHIP COMES TO GRIEF IN PHILIPPINE WATERS.

Manila, Feb. 26.—The steamer Newark, of the quartermaster's department, been wrecked on Catanduanes island.

## DEPOSITORS MUCH EXCITED.

PRIVATE BANK AT ASHLEY, ILL., CLOSES ITS DOORS.

Centralia, Ill., Feb. 26.—The Centennial bank at Ashley was closed today and the depositors are greatly excited. No statement is obtainable. Edmond Palmer, a Chicago capitalist, is president and sole owner. The bank carries about \$36,000 deposits.

## BLAZE AT MINNEAPOLIS.

MANY FIRMS IN THE WINDOW BLOCK ARE BURNED OUT.

Minneapolis, Feb. 26.—The Window block, Second avenue south and Washington avenue, was completely wiped out by fire this evening, entailing an estimated loss of a hundred thousand dollars. The Garrity block, adjoining, also was badly damaged, while a dozen small business firms were burned out.

## DETROIT'S FIRE LOSSES.

Detroit, Feb. 26.—The losses by fire in Woodward avenue this morning are: Grinnell Bros., pianos, \$100,000; Tuomey Bros., ladies' furnishings, \$10,000; Weston Estate, building, \$5,000. All are fully insured.

## TWO GIRLS 'DIE IN FLAMES.

PERISH IN A BURNING FACTORY AT WAUKEGAN, ILL.

Chicago, Feb. 26.—Roy Sampson, a workman, threw a lighted match in a barrel of celluloid scraps in the Waukegan organ-stop factory of R. Allen today and as a result two young women employees were burned to death and three other persons injured. The dead: GERTRUDE WELLS, aged twenty-two; JENNIE WELLS, aged seventeen.

The injured: Charles Aldea, foreman; Charlotte Kendall, and Roy Sampson.

The fire originated on the second floor of the main building, a two-story frame structure. The girls rushed for the stairs, but escape was already out off. It was only fifteen feet to the snow-covered ground, and Miss Kendall called to the girls to jump. Jennie Wells started, but drew back, while Gertrude Wells made no effort to leave the window.

The loss is estimated at fifteen thousand.

## THROWS CHILDREN IN RIVER.

ACT OF A PITTSBURGH WOMAN BELIEVED TO BE INSANE.

Pittsburg, Feb. 26.—Mrs. Maggie Dutherson, aged twenty-six, believed to be insane, this morning threw her two children, aged two and four, from a bridge into the Monongahela river. Before she could follow she was arrested. Boats put out rescued one of the children, the other being drowned.

## SPANISH CABINET QUILTS.

EXPECTED MINISTERIAL CRISIS COMES TO A HEAD.

Madrid, Feb. 26.—Lieutenant General Azcarra formally presented the resignation of the cabinet today to the queen regent, who informed him that she would confer with the president and former presidents of the senate and with the leaders of the minority tomorrow. It is believed the ministerial crisis will be solved Friday.

## STEAMER WRECK LOCATED.

SEARCH FOR BODIES OF THE VICTIMS NOW TO BEGIN.

San Francisco, Feb. 26.—The Pacific Mail company today definitely located the exact position in which the wrecked steamer Rio de Janeiro is lying, but the exact depth of water over her has not been determined. If it is found the water pressure is not too great to permit of divers working efficiently, a corps of divers will be set to work within a few days to release from the vessel all the bodies which may be entangled in the rigging or imprisoned in the cabins of the steamer.

## CIVIL RULE FOR FILIPINOS.

GOVERNMENT SET UP IN THE PROVINCE OF BULACAN.

Guliguito, Bulacan province, Feb. 26.—The United States Philippine commission has arrived here from Manila and organized a provincial government for this province, which until recently was controlled by the insurgents. Insurgent Colonel Morels is still operating with a band of 300 men in a portion of the province. Nevertheless the sentiments of peace and satisfaction with American sovereignty appear to be as prevalent here as in the provinces in which governments have previously been organized.

## LUTHERANS TAKE THEM IN.

La Porte, Ind., Feb. 26.—The Illinois conference of the Swedish Lutheran church adjourned tonight. The following congregations were taken in: Metropolitan, Mich., and Whitefish, Mich.

## EXECUTED AT PEKIN.

Two of the Guilty "Boxer" Officials Lose Their Heads.

## DECAPITATED IN PUBLIC.

Former Grand Secretary Meets His Death Fearlessly While Other Is Stupefied With Opium.

## ALLIES ARE IN CHARGE.

Pekin, Feb. 26.—Chih-Siu, former grand secretary, and Hsu Cheng Ye (son of the notorious Hsu Tung) were publicly beheaded today. The street in which the execution took place was guarded by French, German and American troops. The condemned officials were taken to the ground in carts, escorted by a company of Japanese infantry. Chih-Siu met his fate in a dignified manner, walking from the cart calmly and fearlessly. Hsu Cheng was stupefied with opium. They were both dressed in Chinese official costumes, without, however, insignia of their rank.

## HEAVY FIGHTING REPORTED.

London, Wednesday, Feb. 27.—"It is reported that heavy fighting has taken place between the French and Chinese near Cheng Ping Fu," says the Peking correspondent of The Morning Post. "Count von Waldersee, it is understood, is issuing orders for the cessation of hostilities. But these orders do not refer to the preparations for the projected expedition to Sian Fu."

## CARRIE NATION EDITS PAPER.

WHISKY ADVERTISEMENTS A FEATURE OF THE ISSUE—HER DAY AT PEORIA, ILLS.

Peoria, Ills., Feb. 26.—Mrs. Carrie Nation was in charge of The Journal here today. Aside from writing eight columns of editorials, she wrote an account of her smashing career. The paper is twelve pages in size instead of eight. Whisky firm advertisements are a feature, one concern having an entire page.

## VISITS SEVERAL SALOONS.

Mrs. Nation rounded out her first day in Peoria by a lecture at Ross Hall, after which she visited several of the leading saloons of the city. The firm place visited was that kept by P. A. West. She demanded that the proprietor remove a large oil painting of "The Nymphs and Satyr." West promised to remove it and she went to a variety theatre next door. Here she witnessed an act and, then mounting the stage, delivered a red-hot address. After addressing a large audience at the Auditorium theatre she retired for the night.

## JOINT SMASHER CONVICTED.

Topeka, Kas., Feb. 26.—Balf Stark was found guilty tonight of helping to smash the Murphy "joint" Feb. 17. Stark accompanied Mrs. Nation and her home defenders on their raid.

## ASKS GRAND JURY INQUIRY.

GRAND RAPIDS CITY COUNCIL REQUESTS THAT THE SALISBURY SCANDAL BE PROBED.

Grand Rapids, Mich., Feb. 26.—At a special meeting of the city council tonight resolutions were adopted requesting the Kent county circuit judge to call the grand jury to investigate the scandal in connection with the proposed letting of the four-million-dollar contract to furnish this city with a pure water supply. City Attorney Salisbury was present and made a brief statement, which was a plea for sympathy, claiming that he would be exonerated of the charges of embezzling the fifty thousand dollars. He gave no explanation of the deal.

## SOMALIS SLAUGHTERED.

150 KILLED BY BRITISH EXPEDITION WHICH LOST SEVENTEEN IN SLAIN ITSELF.

Mombassa, East Coast of Africa, Feb. 26.—The British expedition of five hundred men, after making an eighty-day march of 114 miles into the Somali country to punish the tribesmen for killing Sub-Commissioner Jenner, was attacked Feb. 19 at Sannasa, twenty-nine miles from Affmudu, and lost seventeen men killed, including Lieutenant Colonel Maitland. The Somalis were beaten off with the loss of 150 men killed. The cattle captured on the march were stamped and lost. The expedition has returned to Affmudu.

## CROATE LACK POWER.

CANAL NEGOTIATIONS ARE TRANSFERRED TO WASHINGTON.

London, Feb. 26.—The Nicaraguan canal negotiations have been, or are on the point of being, entirely transferred to Washington, as Ambassador Choate is not empowered to deal with the suggestions of the British government.

Pittsburg, Feb. 26.—John Tibby, a prominent glass manufacturer, died tonight.

When the Hair Falls Out... accompanied by mucous patches in the mouth, eruptions on the skin, sore throat, copper-colored spots, swollen glands, aching muscles and bones, the disease is making rapid headway, and far worse symptoms will follow unless the blood is promptly and effectually cleansed of this violent destructive poison.

My Condition Could Have Been No Worse... In the fall of 1897 I contracted Blood Poison. I tried three doctors, but their treatment did me no good; I was getting worse all the time; my hair came out, ulcers appeared in my throat and mouth, my body was almost covered with copper-colored spots and offensive sores.

SSS is the only pure vegetable blood purifier known. \$1.00 is offered for proof that it contains a particle of mercury, potash or other mineral poison.

SUBSCRIPTION RATES: Per month, by carrier \$0.60 Per year, by mail \$6.00

MARQUETTE, MICH., FEB. 27. Entered as mail matter of the second class in the postoffice at Marquette, Mich.

THE L. S. P. A. MEETING. There was a fair attendance of members of the Lake Superior Press association at Menominee Monday, to participate in the midwinter meeting of the organization, and the session proved of very great interest and value.

Several papers by members were read, and were discussed with much interest at the session, and not the least entertaining part of the program was the relation by Editor Fifield of his experiences during forty-three years in the newspaper business and a talk given the assemblage along the same lines by Hon. Jas. A. Crozier.

THE GRAND RAPIDS SCANDAL. An odorous scandal, involving the city attorney of Grand Rapids directly, and bringing other prominent persons in that city under suspicion, has just been unearthed. It appears that there was a scheme formed some time ago by a wealthy contractor of Omaha and others to secure a contract for installing a new city water works system at Grand Rapids at a cost of \$4,000,000.

As part of the scheme to get the contract for the Omaha contractor, Guy C. Barton, and those associated with him in the deal, a "boodle fund" of \$125,000 was provided to be used in procuring the necessary legislation first and favorable action afterward by the Grand Rapids authorities, and \$50,000 of this, it would appear, was placed in charge of the Grand Rapids city attorney, Salsbury, "to be placed where it would do the most good" in furthering the scheme.

The plot was one to rob that city of about \$1,000,000 through the connivance of its legal adviser and by making use of the state legislature, and it is to be hoped that every person in any manner connected with it will be brought to justice and punished as severely as the law will permit. Salsbury still holds the money and puts up a bold front, but there is hardly a doubt that he went into a scheme to rob his own city in collusion with the Omaha contractor, and when that fell through undertook to make away with the \$50,000 confided to him for use in corruptly securing the contract for putting in the water works system, believing his associates in the gigantic piece of rascality would be deterred by fear of exposure from proceeding to extreme

lengths to force him to return it. It is a case of rogues falling out, evidently, and it would seem that the city of Grand Rapids has cause to felicitate itself on the shrewdness of Representative Burns in making the change that he did in the bill placed in his keeping, which blocked the game and led to the unveiling of the infamous job which a foreign contractor and its city attorney put up to beat the municipality out of a cool million or more.

Marquette is going to score something of an advance during the current year, unless The Mining Journal is sadly at fault in its forecast of what the immediate future has in store for the city. There are some valuable industrial enterprises all but certain to be established here this year, which will, when in operation, add greatly to the business and population of the Queen City. It has long been the dream and hope of our people that some day Marquette would be the seat of iron and steel manufacturing enterprises of no small magnitude. That expectation is in a fair way to be realized if the city does what is necessary to ensure the location here of the furnace industry that will form the nucleus of an extensive iron manufacturing plant.

CHANGES IN INDUSTRY. "It is impossible for some of our statesmen to realize the changes which have taken place in American industry in the last twenty years. I notice, for example, that some members of the Senate are still of the opinion that Russia will not do this and Russia dare not do the other. They say that the same vessels now building along the lakes for ocean service and adding the four under way in England for work here. These fifty-five ships are valued at \$11,000,000 and will add 3,000,000 tons to the capacity of the fleet.

LEADS WORLD IN EXPORTS. FIGURES THAT SHOW THE UNITED STATES' BIG GAIN IN TRADE. Washington, Feb. 26.—It is now shown conclusively that the United States stands at the head of the world's exporting nations. Complete figures for the calendar year 1900, when compared with those of other nations, show that our exports of domestic products are greater than those of any other country.

AGRIANS FIND NEW ALLIES. "Remember our old-time antagonists, the agrarians, we have always against us. But in Germany, for instance, the commercial and manufacturing elements have kept them under some sort of restraint. Now that the foreign manufacturer is hurt there is danger that he will join issues with those who do not want our food products."

BOND ISSUE. The City of Marquette, Michigan, will receive at the office of the city controller, Marquette, Mich., until Monday, March 4, 1901, at 8 o'clock p. m., sealed proposals for \$100,000 four (4) per cent semi-annual coupon "General Expense" bonds of said city, to issue in denominations of \$500 and bear date January 1, 1901, and to be due January 1, 1911, payable, principal and interest, at the office of the City Treasurer, Marquette, Michigan. Bids must be for the immediate and unqualified purchase of said bonds, payment to be made to the City Treasurer within three (3) days after notice of acceptance of bid.

"Woman's Work is Never Done." The constant care causes sleeplessness, loss of appetite, extreme nervousness, and that tired feeling. But a wonderful change comes when Hood's Sarsaparilla is taken. It gives pure, rich blood, good appetite, steady nerves.

ROBERT P. PORTER SOUNDS A NOTE OF WARNING—URGES COMMERCIAL TREATIES. New York, Feb. 26.—Commercial warfare to be waged by the combined powers of Europe against the United States is imminent, unless immediate steps are taken to avert the danger, according to Robert P. Porter, who recently returned from a long visit to the continent.

Prompt closing of reciprocity treaties with the principal powers, which will guarantee minimum duties and favorable treatment, Mr. Porter claims, is the only certain way to avoid the threatened tariff war. "The agrarians, who long have been in check by the manufacturers, now are likely to secure the support of the latter class, whose trade is beginning to suffer from competition with products of the United States. With these united, Mr. Porter says, the European governments will be compelled to take action which may result in practically the total exclusion of American goods from their markets."

MORE BOATS FOR THE LAKES. OVER FIFTY-FIVE NEW STEAMERS WILL JOIN THE FLEET. Duluth, Feb. 26.—There will be fifty-five more ships in the lake fleet this coming year than last, eliminating the steel vessels now building along the lakes for ocean service and adding the four under way in England for work here. These fifty-five ships are valued at \$11,000,000 and will add 3,000,000 tons to the capacity of the fleet.

AGRIANS FIND NEW ALLIES. "Remember our old-time antagonists, the agrarians, we have always against us. But in Germany, for instance, the commercial and manufacturing elements have kept them under some sort of restraint. Now that the foreign manufacturer is hurt there is danger that he will join issues with those who do not want our food products."

Bids must be for the immediate and unqualified purchase of said bonds, payment to be made to the City Treasurer within three (3) days after notice of acceptance of bid.

SMITHSONIAN INSTITUTION IN RECEIPT OF GENUINE PRIZE. Washington, Feb. 26.—Three Peruvian mummies, just received at the Smithsonian Institution, are looked upon with some awe, as they are certainly 370 years old, if not more, dating from the time of the Spanish invasion, or previous. The Society of Anthropology was treated to a séance at the opening of one of these prizes a night or two ago, and it proved a veritable morgue, containing the body of a woman and two babies, probably a mother and children. The bodies were embedded in a padding of leaves, and this in turn bound about with a piece of goods, not unlike burials held in place by a rope wound about it.

IT IS A PLEASURE TO SMOKE THE LaFlor de Sheridan, LA VINEDA, A HIGH-GRADE CIGAR. A CLEAR HAVANA CIGAR. Manufactured by JAMES W. SHERIDAN, 76-78 Wabash Ave, Chicago. M. C. SCULLY, SOLE AGENT FOR UPPER MICHIGAN, WISCONSIN AND MINNESOTA. N. B.—We Handle a Complete Line of Cigars of all Kinds.

VALUABLE RECORDS STOLEN. MANY DOCUMENTS TAKEN FROM THE BASEMENT OF THE NATIONAL CAPITOL. Washington, Feb. 26.—The house committee that has been rummaging among the dusty volumes that have been stored in the dark corners and damp rooms of the basement of the capitol, have discovered a wholesale robbery of government documents. The loss will amount up into the thousands of dollars—just how much the committee is yet unable to ascertain.

MAYOR CROZE PULLS OUT. IS NOT IN THE FIELD FOR A RENOMINATION THIS YEAR.

Mayor Croze of Houghton yesterday informed The Mining Journal that he would not be in the field again for a renomination this year. The announcement will come as a surprise to his many friends, who have counted on his running again. Mr. Croze has made an efficient official and would likely be renominated if his name was presented at the caucus, which it yet may be, although contrary to his wishes.

The Houghton village council will meet this evening to choose a date for the caucus at which nominees for the several village offices will be named. Thus far everything in the way of election talk has been rather quiet.

ATLANTIC MAN ARRESTED. OTTO LEMKE IN CUSTODY FOR STRIKING A WOMAN.

Sheriff Willis yesterday afternoon arrested Otto Lemke, of the Atlantic mine, on a charge of assault and battery entered on complaint of Mrs. George Spranger, also of the Atlantic. It is said that Lemke struck Mrs. Spranger with his fist and knocked her down, the assault occurring Monday afternoon. The affair happened at the home of Mrs. Spranger's mother, where Lemke is a boarder. Mrs. George Spranger's house was on a visit to the latter when Lemke struck her. It seems that the man had trouble with the husband of Mrs. Spranger and took out vengeance on the latter.

NOT A COUNCIL JUNKET. TRIP BY CITIZENS THE PLAN FAVORED BY MAYOR SCOTT.

The Mining Journal erred slightly in the article referring to Mayor A. J. Scott of Hancock favoring a junket trip to several cities to investigate the paving question—recently published in these columns. Mr. Scott favors a junket for a party of citizens of Hancock, instead of members of the council, and in that respect he was misunderstood by the reporter. The statement that Mr. Scott favored the council making the trip may have led a number of people to believe that the expenses of the visit to the cities were different kinds of pavements could be seen would be paid from the treasury of the village. The mayor believes that several prominent business men of Hancock could be prevailed upon to make the junket in the interests of the village and pay their own expenses.

MATCH, MAYBE, TONIGHT. A hockey game was arranged last week to be played tomorrow night between the Hancock and Dollar Bay clubs at the Palace ice rink, Hancock, but nothing in regard to the contest has been heard of since that time.

CONGREGATIONAL CONVENTION HELD AT THE LITTLE TOWN. A council of the copper country ministers of the Congregational church, called by the Congregational society of Redridge for the purpose of receiving the new organization as a church society and extending to it the fellowship of all the churches of the denomination in copperdom, was held yesterday afternoon and last evening at the little village.

REDRIDGE SOCIETY ADMITTED. CONGREGATIONAL CONVENTION HELD AT THE LITTLE TOWN.

The gathering of the Congregational clergy from Hancock, Red Jacket, Chassel, Lake Linden and South Lake Linden was a most successful one, considered from the standpoint of the object for which the assemblage was called. All the necessary business was conducted in the afternoon and the ceremony itself took place during the evening. Rev. Dr. Hunter of Calumet was to have been present to deliver a sermon, but was compelled to remain at home on account of sickness. His place was taken by Rev. Frederick Bagnall, who is superintendent of the Congregational missions throughout the upper peninsula. His remarks were appropriate to the occasion. Rev. Edwin More welcomed the new society into fellowship by a short address. Several others present were called upon to speak and all in all a program well suited to the reception of the new organization was given.

INDOOR BALL GAME IS CLOSE. SECOND NINE OF THE HOUGHTON INFANTRY DEFEATS THE NEW CITY TEAM BY ONE TALLY.

The Houghton city indoor baseball team played its first regular game last night with the second nine of the Houghton Light Infantry at the Houghton Armory. The contest resulted in a victory for the Light Infantry by the score of sixteen to fifteen.

FAST BALL TEAM ASSURED. PORTAGE LAKE FANS TAKE HOLD OF THE PROJECT WITH ENTHUSIASM—MORE DETAILS.

Houghton and Hancock are practically assured of a baseball team during the coming season that the "fans" need not be ashamed of. The interest which has lately been aroused in the outdoor game is spreading and will, it is the opinion, result in the organization of one of the fastest aggregations of players in the upper peninsula and the putting of the Hancock Driving park, where the games with visiting teams will be played, in the best condition.

TALKS OF MICHIGAN MINE.

OLD MINNESOTA WORKINGS WILL SOON BE REACHED SAYS SUPERINTENDENT BRADY.

Superintendent Sam Brady, of the Michigan Mining company, was in Detroit Monday with blue prints showing the progress of work up to date. He says B shaft is now over 900 feet deep and the water in the old mine is down to the fourth level. This enables the management to drift on the fourth level west from A shaft, a work which was suspended on account of having cut water there.

"The work of sinking A shaft will soon be resumed," said Mr. Brady, "and in about two or three weeks after resumption we shall be able to reach the big stope on the Calico lode, on our fifth level. The lode was worked at an early day and will open up about 475 feet of ground in length of stope and drifting. Our drift east on the fourth level from A shaft is showing excellent, in fact, better than the third level."

MASS MILL STARTS JULY 1. A. B. Turner, one of the leading directors of the Mass Consolidated Mining company and a member of the brokerage firm of A. B. Turner & Bro. of Boston, who had been in Houghton since Monday conferring with President C. A. Lamb of the Mass and Managing Director A. Matthews concerning the property, left last evening for the East. Mr. Lamb accompanied him.

SCHOOL "GYM" OPE'S SATURDAY. CLASSES TO BE ORGANIZED. GEO. WILLIAMS IN CHARGE.

The Houghton high school gymnasium will open its work at 2 o'clock Saturday afternoon. The pupils will be organized in classes according to age and physical condition. The apparatus is all installed and is equal to that in any high school gymnasium in the country. George Williams, who has had years of experience in the work, will have charge.

COPPERDOM BREVITIES. The copper country branch office of The Mining Journal is located in Room 2, second floor of the Dew Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

WORK OF REMODELING DOWN STAIRS PORTION UNDER WAY. Work on the remodeling of the downstairs apartments of the Houghton Armory has been commenced by William Hooper of Houghton and the improvements will be quite extensive and when complete the rooms will show a cheerful and neat appearance and be much more comfortable than they now are.

THE APPETITE OF A GOAT. Is envied by all poor dyspeptics whose stomach and liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful stomach and liver remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25c at the Stafford Drug Co.

DRYING PREPARATIONS simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. All druggists sell it at 50 cents or it will be mailed by Ely Brothers, 65 Warren St., N. Y.

A KANSAS MINISTER. Rev. L. S. Coulton, of Circleville, Mo., says: "Dr. Warner's Pure White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases."

BE IN STYLE. Don't laugh at fashion. Don't discourage ambition. Don't hinder progress. Try to be affable. Look on the bright side. Strive to be happy. Enjoy life. Keep healthy, which you can do by using Dr. Caldwell's Syrup Pepsin according to directions. It is an absolute cure for Constipation, Indigestion, Stomach Troubles and Sick Headache. The Stafford Drug Co.

Children who are troubled with worms are pale in the face, fretful with spells, restless in sleep, have blue rings around the eyes, bad dreams, variable appetite, and pick the nose. WHITE'S CREAM VERMIFUGE will kill and expel these parasites. Price 25 cents. The Stafford Drug Co.

Let Your Bundle Come to the Best Laundry in the County.

We have every modern means for doing good work and saving the clothes. Our new domestic finish is the most comfortable for gentlemen's linen—prevents shirts from bulging and saves the cloth.

Small's Laundry.

Upper Peninsula News.

Aside from the schools of Escanaba and Gladstone, Delta county has fifty rural schools, scattered about in different points, with enrollments varying from one pupil to 132.

A proposed plan to install a municipal lighting plant at Iron River is meeting with much favor and it is believed that it would be approved by a good margin were it submitted to a vote of the taxpayers. It is expected that steps will be taken to put the matter before the public.

Joe French was arrested at Iron Mountain for forging his brother's name to a check for \$25 Thursday evening. He was confined to the jail as soon as his crime was discovered. As the brother does not wish to prosecute and as the bank officials do not care to push the case he will likely escape punishment.

Stanley J. Rodebaugh and Richard Manning were convicted of burglary in the Gogebic circuit court at Bessemer Saturday. Rodebaugh was sentenced for fifteen years and Manning eleven. They are professionals. Manning has just completed a term in the Stillwater prison and Rodebaugh had escaped from the same institution for the hold-up of Aaron Tenyson in his place of business in Bessemer one month ago when they secured \$100. Rodebaugh and Manning were captured in Houghton county.

The end of the task of probating the estate of the late Joseph Fieschman is as yet far off. The hearing has been postponed several times to allow matters which had to come up in circuit court to be settled. Some of these cases may go to the supreme court with the result that their settlement will be greatly delayed. Nearly all the claims have now been paid. The estate is valued at \$80,000 and the assets are figured up at \$8,000. If the creditors get ten cents on the dollar, it will be exceeding expectations.

The interior of Delta county's court house will present a greatly changed appearance when court convenes within its precincts. It is being renovated and the evidences of the fire which came so near wrecking the building at the first of the year will be effaced. The repairs and improvements will cost about \$3,300, which is \$600 more than was received from the insurance companies. The old seats will be replaced by 200 handsome oak opera chairs. The new court room will present a handsome appearance.

The Wisconsin & Michigan railroad promises to become an important factor in the ore carrying business from Lake Superior to Chicago and the east. The road now runs from Peshtigo on Lake Michigan to Faithorn Junction and will be extended as speedily as possible to Iron Mountain and beyond. A car ferry line and independent steamers run from Chicago to Peshtigo making connections there with the Wisconsin & Michigan. This water connection enables the road to make lower rates from or to Chicago than can be made by the all rail lines.

George and Charles Engel of Mendon, Mich., will erect a sixty barrel roller grist mill in Newberry next spring and will operate a small saw mill in connection. The citizens will give a \$1,000 cash bonus and a free site. The mill will be located by the side of the asylum spur of the South Shore road and it will be in running operation by October 1, so as to take care of next fall's crops. Building operations will be commenced by May 1. The location of the mill at Newberry is expected to draw trade, which is now diverted to other markets, to that place.

A disastrous fire occurred at Iron Mountain Saturday morning, the loss being estimated at \$5,000. The blaze was located in the two story building owned by the Hagemester Brewing company and used by Sol Noble as a storage room for vehicles and a paint shop. The lower story was filled with buggies and carriages. The structure and its contents were a total loss and the firemen had a hard struggle to prevent the destruction of adjoining property. They did fine work and they deserve great credit for preventing the blaze from developing into a ruinous conflagration.

One of the boldest cases of incendiarism in the history of Menominee county resulted in the destruction of the sawmill built by Tutts & Son, near Cedar River early Friday morning. The building was set on fire and it was completely destroyed. The loss will reach \$15,000. This mill was only completed Wednesday, when the last piece of machinery was put in. The owners had a big stock of pine on hand and expected to commence operations this week. When the fire was discovered about 2 o'clock the building was a mass of flames and the walls were falling. The ring of shots from a revolver by the firebugs awakened some of the residents and the fire was discovered. By the time the fire was reached by the men it was a total loss. The

SAMPSON IS SCORED.

Bitterly Denounced in the Senate by Allen of Nebraska.

"CONCEITED ASS; COWARD"

Admiral's Objection to Promotion Because a Gunner "Lacks Social Graces" Causes the Roast.

CALLS OFFICER A SNOB.

Washington, Feb. 26.—An incident that bordered on the sensational was a feature of the proceedings in the senate today. It was a denunciation of Admiral Sampson by Senator Allen of Nebraska.

ference report upon the District of Columbia appropriation bill was agreed to, as was also a partial report of the conference on the postoffice appropriation bill.

PROCEEDINGS SUMMARIZED.

Consideration of the army appropriation bill was resumed early in the session. Senator Morgan being entitled to the floor to continue his speech begun yesterday.

Senator Wolcott next presented a conference report on the postoffice appropriation bill. He explained that the conference committee had agreed upon all the points of difference between the two branches with the exception of two.

When consideration of the army appropriation bill was resumed, Senator Morgan yielded the floor temporarily to Senator Allen for the latter's denunciation of Admiral Sampson.

Continuing his address, Senator Morgan protested against imposing the views and demands of this government upon Cuba.

SUZERAINTY OVER CUBA.

Administration's Policy, as Expressed in the Amendment, Virtually an Ultimatum—Independence Under Certain Conditions.

Washington, Feb. 26.—The future relations between the United States and Cuba proposed in the amendment to the army bill just submitted to the senate are recognized on all sides as a masterly statement of the Cuban policy of the administration.

SNOBBISH ARISTOCRACY.

Senator Allen said that the endorsement proved beyond the shadow of a doubt that there was a snobbish aristocracy in the navy that is detrimental to the country represented by this officer and other like officers.

Senator Morgan rose to resume his speech, Senator Allen remarked: "I want to say to Admiral Sampson and to his friends, that I am responsible for what I say."

Charles Morgan, gun captain of the cruiser New York, whose promotion to ensign is objected to by Admiral Sampson on the ground that Morgan lacks the social graces which he believes a naval officer should have.

IMPORTANT TO PHILIPPINES.

SENATE REGULATES THE SALE OF PUBLIC LANDS AND THE GRANTING OF CONCESSIONS.

Washington, Feb. 26.—An important amendment to the Philippine amendment to the army appropriation bill was agreed to in the senate today.

That the government of Cuba shall never enter into any treaty or other compact with any foreign power which will impair or tend to impair the independence of Cuba.

That said government shall not assume or contract any public debt, to pay the interest upon which and to make reasonable sinking fund provision for the ultimate discharge of which the ordinary revenues of the island, after defraying the current expenses of government, shall be inadequate.

That the government of Cuba consents that the United States may exercise the right to intervene for the preservation of Cuban independence, the maintenance of a government adequate for the protection of life, property, and individual liberty, and for discharging the obligations with respect to Cuba imposed by the treaty of Paris on the United States, now to be assumed and undertaken by the government of Cuba.

That all acts of the United States in Cuba during the military occupancy thereof are ratified and validated, and all lawful rights acquired thereunder shall be maintained and protected.

That the government of Cuba will execute and as far as necessary extend the plans already devised, or other plans to be mutually agreed upon, for the sanitation of the cities of the island, to the end that a recurrence of epidemics and infectious diseases may be prevented, thereby assuring protection to the people and commerce of Cuba, as well as to the commerce of the Southern ports of the United States and the people residing therein.

That the title of Pines shall be omitted from the proposed constitutional boundaries of Cuba, the title thereto being left to future adjustment by treaty.

That, to enable the United States to maintain the independence of Cuba and to protect the people thereof, as well as for its own defense, the government of Cuba will sell or lease to the United States lands necessary for coaling or naval stations at certain specified points, to be agreed upon with the president of the United States.

That by way of further assurance the government of Cuba will embody the foregoing provisions in a permanent treaty with the United States.

Whether an extra session of congress will be necessary to pass the proposed

Hon. Frank G. Clark, late representative from New Hampshire. Those who paid tribute to the memory of Mr. Clark were Senators Gallinger, Clay, Heitfield, Kean, Dewey, Thurston and Chandler, and then, at 6:22 o'clock, the senate took a recess until eight.

At the close of the night session the indications were that the vote might be reached upon the pending bill and amendments perhaps tomorrow. It seemed likely that no further serious opposition would be encountered, although no definite agreement for a vote has been reached.

During the evening Senator Turner of Washington made a legal and constitutional argument against the conference upon the president of the power contemplated by the Philippine amendment.

During the day a bill was passed for the relief of parties for the property taken from them by the military forces of the United States. The bill provides for payment for horses taken from Confederate soldiers after the surrender of General Lee.

The senate in executive session tonight confirmed all the naval nominations and promoted ten in except those of Admirals Sampson and Schley.

LENTZ AGAIN AGITATES HOUSE.

CHARGES THE WITHHOLDING OF A SPEECH ATTACKING HANNA AND A BIG ROW ENSUES.

Washington, Feb. 26.—The house was the scene of a sensational incident late this afternoon which threw that body into a violent state of excitement. For an hour the storm raged, ending abruptly when adjournment was taken upon motion of Mr. Payne, floor leader of the majority.

Mr. Lentz, the Ohio Democrat who has created many sensations during his service in the house, stirred the Democrats to the fever pitch by rising to a question of privilege, alleging that a speech he had turned over to the public printer under general leave to print had been withheld from the record and

had been turned over to General Grosvenor of Ohio by the speaker. The nature of the speech was not developed during the events that followed, but it was learned that it was an attack upon Senator Hanna and the methods by which he was elected to the senate.

The speaker explained that it had been represented to him the speech reached upon the privilege of the house, and he had directed that it be withheld until he could look over it. Pressure of business had prevented him doing so, however, and only twenty minutes before, he said, he had directed that the speech go into the record, believing that if it contained anything offensive it could be stricken out of the record by the house later. Intense excitement followed.

Several points or orders were made by Republicans, but the speaker declined to sidetrack the account of that way, taken, however, that a proceeding of proposition of some kind must be before the house. Thereupon Mr. Richardson, the Democratic leader, offered a resolution declaring that the speaker had no right to withhold speeches. Against this the question of consideration was raised by Mr. Lacey, and by a strict party vote the house decided not to consider it.

Amid still greater excitement and confusion, Mr. Richardson offered another resolution condemning the speaker to sidetrack the account of that way, taken, however, that a proceeding of proposition of some kind must be before the house. Thereupon Mr. Richardson, the Democratic leader, offered a resolution declaring that the speaker had no right to withhold speeches.

Against this the question of consideration was raised by Mr. Lacey, and by a strict party vote the house decided not to consider it.

Earlier in the day a partial conference report on the Indian appropriation bill was agreed to and the bill sent back to conference. The Western members made an ineffectual effort to accept the senate amendment appropriating \$100,000 for irrigation experiments on the Gila river in Arizona, but were defeated, 58 to 97.

The conference report on the naval bill was beaten on account of an item creating assistant chiefs of bureaus in the navy department; and a motion to accept the senate amendment authorizing the construction of three additional submarine boats was pending when the row above mentioned was precipitated by Mr. Lentz.

POOR SHOW FOR EXPO. BILL. ST. LOUIS MEASURE MAY FAIL BECAUSE OF THE SUNDAY CLOSING AMENDMENT.

Washington, Feb. 26.—Speaker Henderson today referred to the Louisiana position bill, with the senate amendments appropriating \$250,000 for the Charleston exposition and providing for the closing of the exposition on Sunday, to the special committee which reported the bill. The bill has been opposed by the speaker's table for several days in the hope it could be gotten into conference by unanimous consent.

The objection from Mr. Shepard of Texas at the close of yesterday's session, however, has compelled it to go to the committee. One of the friends of the bill today said that the only chance for the bill seemed to depend upon the senate's recalling of the bill and striking out the amendments.

VANDERLIP RESIGNS. ASSISTANT SECRETARY OF THE TREASURY ACCEPTS POSITION WITH A LARGE CORPORATION.

Washington, Feb. 26.—The resignation of Assistant Secretary of the Treasury Vanderlip was announced today. His successor probably will be announced tomorrow.

It is Mr. Vanderlip's intention to sail for Europe soon to make a study of the financial and industrial affairs of England and the continent. It is understood that upon his return he will be identified with a large Western corporation, the offer of which position he has held under consideration for several months.

Mr. Vanderlip retires from the department of his own free will with the confidence and high regard of both the president and the secretary of the treasury. It is understood that Milton E. Ailes will succeed Mr. Vanderlip. He is aged thirty-four and a native of Sydney, O.

HIS DEATH WAS SUDDEN. Hot Springs, Ark., Feb. 26.—A. P. Trude of Chicago, son of Lawyer A. S. Trude, died suddenly at a hotel here today.

CUBANS MAY NOT ACCEPT. That the Cubans will accept these conditions in the treaty is not generally believed. On the contrary, it is understood that certain sections of this statement of policy have been inserted for the express purpose of being used as traders both in congress and with the Cubans.

For instance, the sovereignty of the Isle of Pines was left obscure by the Paris treaty. It was entirely an accident, as the island has always been treated as a part of Cuba. The island is not worth much, as it is surrounded by extremely shallow water, but its ownership is left open in the statement of policy, so that it can be used with the Cubans, who, of course, would insist on possessing it merely from a sentimental point of view.

There are other things in the statement of policy which are intentionally left vague. The discretion is generally left with the president, who is to decide whether the Cubans finally meet these conditions or not. Thus there will be an opportunity for him to make certain concessions which probably will be insisted upon by the Cubans, but he will not concede anything which will impair the right of the United States to oversee the new republic, so far as relates to the protection of life and property and to difficulties with foreign countries.

TROOPS TO STAY AWHILE. The question of the extra session cannot definitely be decided until the army appropriation bill has not only passed the senate with these amendments but has been steered safely through the conference. Whether there is an extra session or not the army of the United States will not be withdrawn from Cuba until the new republic agrees to a condition of affairs which gives to the United States suzerainty rights over Cuba, substantially on the lines laid down in the statement of policy submitted to the senate.

TRAIN IS DERAILED.

Every Passenger Injured in a Wreck on the Wabash Road.

SEVERAL FATALLY HURT.

Six Cars Leave the Track and the Rear Pullman Rolls Down a Steep Embankment.

BROKEN RAIL THE CAUSE.

Goshen, Ind., Feb. 26.—Westbound passenger train No. 3, on the Wabash, scheduled to arrive in Chicago this morning, was wrecked two miles west of Millersburg at 8:35 o'clock this morning. All the passengers were more or less hurt, and several will probably die from their injuries.

LIST OF THE VICTIMS.

The injured are: J. M. Warmley, Buffalo. Miss Julia Collie, Rochester. John Blomberg, Chicago. Miss Annie McDonald, Anaconda, Mont. Henry Kerschke, Wilkesbarre, Pa. Abraham Fowler, Creston, Ia. Fred E. Porter, South Dakota. Daniel McLaren, Lanark, Ont. A. C. Smith, Denver. Charles Bogart, Chatham, Ont. W. L. Combs, Washington. John A. Lorimer, Chicago. Mrs. Lorimer; will die. Mrs. F. E. Barber, Chicago. C. W. Evans, Boston, Mass. George Dorsey, Boston. T. Kassing, Waseca, Minn.; serious. F. M. Grossman, Chicago. J. A. Sellman, baggage man on the Erie road. Rev. J. W. Vanderlip, Ransom, Kas. Mr. and Mrs. D. Emerson, Buffalo. Ida C. Bender, Buffalo. Professor S. H. Rowe, New Haven, Conn. Mr. and Mrs. W. H. Elbrose, Omaha, Neb. and six-month-old babe. S. T. Greenfield, Chicago. M. A. Jaspian, Johnstown, N. Y. Mr. Evans, San Francisco. H. E. Brown, Leesburg, Ind. G. H. Clark, Toronto.

ENGINE ALONE STAYS ON.

The accident was caused by a broken rail. The engine passed over the break in safety, but the six cars following left the rails and one of them—the rear Pullman—rolled over on its side and slid down the twenty-five foot embankment.

The railroad officials were prompt in securing medical aid, and in a short time surgeons were hurrying to the scene in special trains from every available point in northern Indiana. Hotels at Millersburg and Benton, several miles distant, were turned into hospitals.

No deaths are thus far reported, but some of the injured are in critical condition.

CROYNSKI IN HARD LUCK.

TEXAS GOVERNOR CAUSES PUGILIST'S ARREST FOR FIGHTING—A PENITENTIARY OFFENSE.

Galveston, Tex., Feb. 26.—A penitentiary sentence is the outlook confronting Pugilist Joe Croynski and Jack Johnson, a negro. Last night when Croynski knocked out Johnson before the Galveston Athletic club a squad of Texas rangers dashed into the ring and arrested the contestants.

The arrests were made at the instigation of Governor Sayers, who had counsel and witnesses at the ringside. Today Croynski and Johnson were held in bonds of \$5,000 to await their hearing. The penalty under the Texas law for engaging in a prize fight is from two to five years in the penitentiary at hard labor. It is likely the promoters of the fight will also be arrested.

TWO BOUTS AT MEMPHIS.

Memphis, Feb. 26.—Al Weing of Buffalo knocked out Dick Moore of Brooklyn in the fourth round before the Phoenix Athletic club tonight. Steve Crosby of Louisville and "Young Peter" Jackson of San Francisco fought ten rounds to a draw.

FIGHT IN CHICAGO SUBURB.

Chicago, Feb. 26.—Clarence Forbes defeated Thomas Cody after ten rounds of rattling fighting tonight at Lyons suburb. There was no attempt at interference by the authorities.

THOMPSON LADS AT LINCOLN

NEBRASKA REPUBLICANS TAKE TWO MORE FRUITLESS VOTES.

Lincoln, Neb., Feb. 26.—The Republican senatorial caucus was in session until nearly midnight tonight, but only two ballots were taken, a number of members explaining their attitude, deploring the continued deadlock and inviting concessions. The second ballot resulted:

Table with names and vote counts: Thompson 39, Melkjohn 23, W. H. Crouse 13, Crouse 13, Rosewater 15, Martin 5, Hinshaw 8, Kinkaid 2, Harlan 2, Wheeler 2, Dietrich 1.

Before and after trying other remedies use Rocky Mountain Tea this month. 'Twill keep you well all summer. A great saving blessing. Stafford Drug Co.

No deaths are thus far reported, but some of the injured are in critical condition.

CROYNSKI IN HARD LUCK.

TEXAS GOVERNOR CAUSES PUGILIST'S ARREST FOR FIGHTING—A PENITENTIARY OFFENSE.

Galveston, Tex., Feb. 26.—A penitentiary sentence is the outlook confronting Pugilist Joe Croynski and Jack Johnson, a negro. Last night when Croynski knocked out Johnson before the Galveston Athletic club a squad of Texas rangers dashed into the ring and arrested the contestants.

The arrests were made at the instigation of Governor Sayers, who had counsel and witnesses at the ringside. Today Croynski and Johnson were held in bonds of \$5,000 to await their hearing. The penalty under the Texas law for engaging in a prize fight is from two to five years in the penitentiary at hard labor. It is likely the promoters of the fight will also be arrested.

TWO BOUTS AT MEMPHIS.

Memphis, Feb. 26.—Al Weing of Buffalo knocked out Dick Moore of Brooklyn in the fourth round before the Phoenix Athletic club tonight. Steve Crosby of Louisville and "Young Peter" Jackson of San Francisco fought ten rounds to a draw.

FIGHT IN CHICAGO SUBURB.

Chicago, Feb. 26.—Clarence Forbes defeated Thomas Cody after ten rounds of rattling fighting tonight at Lyons suburb. There was no attempt at interference by the authorities.

THOMPSON LADS AT LINCOLN

NEBRASKA REPUBLICANS TAKE TWO MORE FRUITLESS VOTES.

Lincoln, Neb., Feb. 26.—The Republican senatorial caucus was in session until nearly midnight tonight, but only two ballots were taken, a number of members explaining their attitude, deploring the continued deadlock and inviting concessions. The second ballot resulted:

Table with names and vote counts: Thompson 39, Melkjohn 23, W. H. Crouse 13, Crouse 13, Rosewater 15, Martin 5, Hinshaw 8, Kinkaid 2, Harlan 2, Wheeler 2, Dietrich 1.

Before and after trying other remedies use Rocky Mountain Tea this month. 'Twill keep you well all summer. A great saving blessing. Stafford Drug Co.

FATAL ECONOMY.

VERY old maxim declares that it isn't economy to pick up pins; the time is worth more than the pins. Similarly it is not true economy to do without Ivory Soap; your health requires the daily removal of the bodily excretions which are discharged through the pores of the skin. These tiny mouths must be kept open, and they should be opened only with a pure soap. IVORY SOAP—99% PER CENT. PURE.

TO FIGHT AMERICAN LEAGUE

PLAYERS AGREE TO ASSIST THE NATIONAL MAGNATES—A SURPRISING DEVELOPMENT.

New York, Feb. 26.—For nearly seven hours today the committee appointed by the National league to hear the demands of the players' association has been closed by the occupants, while the sheriff, who has been caring for prisoners at his own expense, threatens to turn them loose and close the jail in order that he may get out and earn money to support himself and his family.

After the conference Zimmer said he thought it is clear that nearly everything asked for would be granted. He said there was but one hitch, but he declined to name it. It was said tonight that the hitch came about over the proposition of the players to submit all disagreements to the arbitration committee. The magnates are said to oppose as impractical.

A report was current that the magnates had agreed to accept the players' demands provided the latter agreed not to sign with any organization not playing under the National agreement. This, it is claimed, would be almost a death blow to the American league.

ZIMMER ADMITS IT.

The president of the Protective Association of Baseball Players, and as his authorized representative, I hereby agree, in return for concessions granted by the National league and the American Association of Professional Baseball Clubs, that all National league and Eastern league players who may sign American league contracts will be suspended pending action by the Players' Protective association as a body.

This agreement means the players will stick to the league in its fight with Ban Johnson.

BANDITS TERRORIZE TOWNS.

KANSAS POSSE CORALS THEM, HOWEVER, KILLING ONE AND CAPTURING THE OTHER THREE.

Sedan, Kas., Feb. 26.—Sheriff Taylor and his posse arrived here today with Sid Appleby, Sol Appleby, Arle Benning and a dead man named Reed, having captured the prisoners after a pitched battle with them in which Reed was killed.

The prisoners, while under the influence of liquor, last night terrorized the citizens of Wanneta, Cedarville and nearby towns by riding through the streets, firing off pistols at random. The sheriff's posse surrounded the bandits early this morning, and when Reed was ordered to surrender he drew a revolver and was killed.

BLOODY FLORIDA BATTLE.

Live Oak, Fla., Feb. 26.—Yesterday Henry J. Platt, a naval stores operator on the Suwannee river, was shot by an unknown negro who escaped but was overtaken by Sheriff Mathis and a posse last night. A demand to surrender was replied to with shots and Sheriff Mathis fell mortally wounded. After being shot the sheriff fired on the negro, killing him. Platt is still alive, but cannot recover.

MURDER AT PARIS, ILL.

Paris, Ill., Feb. 26.—Harry Pollar today fought a quarrel with Charles Boswell crushed the latter's skull with a brick, causing instant death. Pollar was lodged in jail but escaped. A sheriff's posse is in pursuit.

CONTRACTORS HOLD KEYS.

REFUSE TO GIVE UP COURT HOUSE AT SPRINGFIELD, ILLS., UNTIL MONEY DUE IS PAID.

Springfield, Ills., Feb. 26.—Sangamon county is still involved in a middle over the remodeling of the courthouse. The building was practically completed today, but the contractors, the Warren Roberts company of Chicago, still hold the keys and claim \$12,000 still due on the building. The supervisors have deducted some four thousand dollars for "extras and delays" and refuse to pay it. A special meeting of the county board was held tomorrow to settle the question as to the relative authority of two committees to contract for carpels, linoleum and curtains for the building, over which a fierce war has been raging, resulting in the letting of two sets of contracts.

MINNESOTA COUNTY BANKRUPT.

JUDGE AND OTHER OFFICIALS QUIT AND SHERIFF THREATENS TO TURN PRISONERS LOOSE.

St. Paul, Feb. 26.—Beltrami county, in the northern part of Minnesota, is bankrupt, and unless the legislature passes a bill for its relief a condition will prevail bordering upon anarchy. The county judge and the jurors drawn for the present term of court have gone out on a strike because there is no money with which to pay them. Nearly all of the county offices have been closed by the occupants, while the sheriff, who has been caring for prisoners at his own expense, threatens to turn them loose and close the jail in order that he may get out and earn money to support himself and his family.

There is not a stick of firewood in any of the county offices, and if the officials should return, and none of the dealers will furnish any unless they are paid the cash, which, of course, so long as there is no money in the treasury, they cannot get. Merchants refuse to accept county warrants for groceries, etc., and have none of the \$23,000 worth of warrants outstanding are not at the present time worth the paper upon which they are written.

The situation has developed into an every-man-for-himself race for life. Persons who have money are holding it to it, and those who have none are trying in vain to borrow enough to carry them through the winter. The situation is badly strained and there is no relief in sight.

The trouble is caused by a decision of the county allowing various logging companies doing business in Beltrami county to avoid paying their back taxes, upon which the county depends for its revenues.

Nearly all of the prominent men of the county are now here and will go before the legislature in an endeavor to have a bill passed that will allow the county organization to be continued.

COLLEGE CONFERENCE.

TENDENCY OF GRADUATES TO MIGRATE IS THE TOPIC.

Chicago, Feb. 26.—Representatives of the fourteen colleges composing the Association of American Universities opened a meeting in Haskell Hall at the University of Chicago today by discussing for several hours the tendency of graduate students to migrate. The opening argument was presented by Professor Ira Remsen of Johns Hopkins University, who spoke in favor of migration.

GOOD NEWS COMES FROM THOSE WHO TAKE HOOD'S SA-SAPARILLA FOR SCROFULA, DYSPEPSIA AND RHEUMATISM.

Reports agree that HOOD'S CURES

DEMOCRATIC COUNTY CONVENTION.

A Democratic convention for the county of Marquette, Mich., will be held at Andrew's hall at the city of Ishpeming, on Saturday the 2nd day of March, A. D. 1901, at 1:30 o'clock in the afternoon, for the purpose of selecting fourteen delegates to attend the Democratic state convention to be held in the city of Grand Rapids on the 6th day of March, A. D. 1901, also to nominate a candidate for county commissioner of schools, and to transact such other business as may come before said convention. The several cities and townships will be entitled to representation in said county convention as follows:

Cities—Ishpeming, 23 delegates; Negaunee, 11; Marquette, 19. Feb. 21, 1901. Townships, Champion and Tilden, 3 delegates each; Michiganme, 2; Republic, 4; Choccolay, Ely, Forsyth, Humboldt, Ishpeming, Marquette, Negaunee, Richmond, Sands, Scandia, Turin and West Branch, one each.

Dated, Ishpeming, Mich., Feb. 21, 1901. T. J. DINDON, Chairman County Committee. P. F. SMALL, Secretary.

MORGAN'S BIG STEEL TRUST.

PROMOTER ANNOUNCES ITS CAPITAL AS \$1,100,000,000.

New York, Feb. 26.-J. P. Morgan this evening authorized the Associated Press to state that the capital issue of the United States Steel corporation would be as follows: Bonds \$300,000,000 Preferred stock 400,000,000 Common stock 400,000,000

WALL STREET STOCKS.

New York, Feb. 26.-A large proportion of the dealings in the stock market today again centered in the steel stocks. An official statement issued by the banking house having the negotiations for the consolidation in charge, giving the terms of the exchange of the securities of the present companies into those of the proposed new company, dashed all speculative enthusiasm over the steel stocks.

As all the stocks get from par to 125 per cent new securities in exchange, with additional benefits in some cases, it is clear that on a basis of equal value for the properties concerned the new stocks should sell lower than the average prices of the present stocks.

Of the common stocks, the highest is Tin Plate, which sold last night at 89, and the lowest is American Hoop, which sold at 35. There were a few railroad stocks which were notably strong. In view of the greater importance and greater dealing in the steel stocks, and their need of support, the assumption is not a violent one that a purpose to sustain the general market had something to do with the advance in some of the railroad stocks.

Of the steel stocks, Steel & Wire was most under pressure, dropping at the last 4 1/2 below last night after being vigorously supported about 4 1/2. National Tube is 3 1/2 points lower and preferred 3 lower than last night.

CHICAGO GRAIN MARKETS.

Chicago, Feb. 26.-In wheat today there was a moderate trade, the range being about 1/2 c. The transactions were largely local and the feeling fairly steady. Elevator interests purchased on a moderate scale. The close was the same as yesterday. The principal bull factor was a large decrease in the world's available supply, as reported by Bradstreet's. Small receipts at the Northwest also had stimulating effect.

In corn, there was just a fair trade, the range being 1/2 c. The sentiment was rather more mixed, commission houses as well as floor traders and professionals being on both sides of the market. The feeling was easier on the whole and the close for May at 41, sellers, or 1/4 c lower than yesterday.

FAIR EXCHANGE.

A New Back for an Old One-How it is Done in Marquette.

Sometimes the back aches with a dull, indescribable feeling making you weary and restless; sometimes pain shoots across the region of the kidneys, and again the loins are so lame to stoop is agony. No use plastering or rubbing the back in this condition. You cannot reach the cause. To exchange a bad back for a new and stronger one, follow the example of this Marquette citizen:

Mr. Lewis Longtime, of 116 Rock street, employed on the L. S. & I. R. R. says: "If I caught the least cold or did any heavy lifting I suffered from a bad attack of backache. I soon became tired from lying in one position at night and in the mornings I felt unwell. The kidney secretions were highly colored and unnatural. I saw Doan's Kidney Pills highly recommended, went to the Stafford Drug Co. and procured a box. On taking them my kidneys were soon rendered active; the secretions became normal, the pain disappeared from my back and my whole system was toned up."

BOSTON COPPER QUOTATIONS.

Table with columns: Commodity, Price, Commodity, Price. Includes items like Adve, Arc, Ash, All, etc.

MARKET LOOKED PROMISING.

Apparently There Are "Good Times" Ahead in Coppers.

Coppers looked well yesterday. The strength of Wolverine was one of the features of the market but the entire list appeared to be prospering. Paine, Webber & Co. said: "Traders showed an increased disposition to get out of the New York stocks and buy the copper today."

Hayden, Stone & Co. wired the Laidley Commission Co.: "As the adjournment of the Montana legislature approaches coppers are in demand and the general feeling is that they will go higher. The extent of the increase continues strong on rumors of increased dividends. The weakness of Anaconda and Amalgamated during the past few months has been caused by liquidation from London accounts. Considering the favorable conditions of the copper industry and the large sum of money that has been expended during the last few years in this direction, coppers should surely sell higher."

LAKE SUPERIOR CLASS.

It Has 25 Members at the Michigan Sovereign Consistory. The Michigan Sovereign Consistory opened its mid-winter class at Detroit Monday. It will continue its sessions Wednesday and Thursday. The Lake Superior class, including all the upper peninsula men, will have twenty-five, or more, members. The Detroit and Bay City candidates will give the entire class over fifty members. James Mayworm opened the work in the Lodge of Perfection Monday afternoon and continued it in the evening. Yesterday afternoon and evening the Council degrees were conferred. Wednesday morning the Chapter grades will be exemplified by Wm. R. Dunn, and the Consistory work will be commenced in the afternoon. The conferring of the Consistory grades will be continued Wednesday evening and Thursday afternoon. Lunches will be served Wednesday at 5 o'clock, also on Wednesday at 1. A banquet will be served at the close of the reunion Thursday. The degrees to be worked in full include those of secret master, perfect master and intimate secretary in the Lodge of Perfection; knights of the east or sword and prince of Jerusalem

WONDERFUL CURES BY PAINE'S CELERY COMPOUND.

The Greatest of All Remedies Endorsed by the Bishop of Burlington.

in the council; knight of the east and west and knight of Rose Croix in the Chapter; grand pontiff, Noshchite or Prussian knight, knight commander of the temple, grand elect knight kadosh and sublime prince of the royal secret in the Consistory. The knight commander of the temple degree has been conferred in full but once in Detroit, and the rendition thereof caused an interest that causes the older members of the Consistory to look forward with eagerness to its repetition.

A number of Marquette men are included in the membership of the Lake Superior class. CITY BREVITIES. Weather forecast: Generally fair; stationary temperature; northwest wind.

F. A. Bree of Negaunee was here yesterday. J. A. Cleary of Escanaba was in the city for a few hours yesterday. The usual number of up-the-road attorneys and jurymen attended circuit court yesterday.

County Clerk Ross issued a marriage license to John Elmes and Nellie Johnson of Republic yesterday. St. Mary's guild will meet this afternoon at 3 o'clock with Mrs. Erbeling, at her home on Superior street. A Lenten service will be held at the German Lutheran church Thursday evening at 7:40 o'clock. All are invited.

Among the Ishpeming people registered at the Hotel Marquette yesterday were M. E. Sly, Thomas Hughes and C. T. Knies. All members of Queen City tent, K. O. T. M., are requested to be at their hall tonight at 8 o'clock. There will be initiation and special business.

There is considerable good skating on the bay, some patches of ice being smooth and glary. Adventurous skaters seek them out and enjoy the sport although the number who go to this trouble to skate is small. E. W. Kibby of the Soo News and J. W. Wilson of the Lake Linden Times were in Marquette a few hours yesterday. They were on their way home from the Menominee meeting of the Lake Superior Press association.

The shipment of pipe for the new intake which was received here a few days ago has been taken to the pumping station and it is now being riveted into the proper lengths. Additional pipe is expected shortly, only two car loads now being on the ground. A pleasant surprise party was held Monday evening at the home of Mrs. Guillard, 216 Alger street. Misses Johnson, LaMoon, Reidy and Zietler, Normal school students, were the young ladies for whom the affair was arranged. The evening passed merrily with various games. Refreshments were served before the party broke up.

The contract between the electric light and power commission and the Upper Peninsula Brewing company, for the installation of the municipal power at that concern's plant has been signed. The brewing company has ordered the two motors which will be used to operate its plant. The commission is figuring on extending its wires to the brewery. It may make some arrangement with the telephone company to use its poles or it may put in its own line.

The fisher street sewer has been on a rampage the last few days and residents in the vicinity of the corner of Front and Fisher streets have been hard. The Marquette Hotel has had the lion's share of trouble. Its cellar was flooded Monday night to such an extent that the furnace fires were put out and they could not be relit until late yesterday afternoon, when the "flood" had been partially pumped out. The Summit House is also inconvenienced by the trouble. The city officials are making every effort to clear the sewer of the obstruction, and it is expected that it will be opened up and put in running operation today.

A fair house followed Tomkins through a hot typical farce comedy adventures at the theater last evening. There was nothing in the play which served to mark it out from other attractions of a kindred nature, although the company was probably better than the average. As usual there was a smattering of rot introduced by the specialty work which might well have been cut out. When will the thick skulled managers tire of the effort to cram cheap variety theater stuff into the ears of people who do not care for it and do not want it, just for the sake of guessing to the extent that amusement. Most of the comedy attractions here of late have offended in this respect until an absolutely clean play would be a welcome novelty.

Imparts fascination to all woman-kind, makes the form conform more clearly to the ideal of an artist. That's what Rocky Mountain Tea does. Stafford Drug Co.

PROVOST VIGOR BITTERS, THE GREAT CURE FOR ... LaGrippe, Cold, Indigestion. ... FOR SALE AT ALL DEALERS.

No remedy in the world means so much to the sick and suffering as Paine's Celery Compound. No remedy in the world has been indorsed and recommended by men and women whose only motive is their love for their fellowmen, and the hope that what Paine's Celery Compound has done for them, it may do for the readers of their testimonials. Paine's Celery Compound is not a patent medicine, and must be distinguished from patent medicines. It is a prescription which is put within the reach of every man and woman in the civilized world-the prescription of the greatest of American physicians-the crowning result of his years of study and experience. It is the wonderful prescription of Prof. Edward E. Phelps, M. D., L.L. D., of Dartmouth College. The following letter from Bishop Michaud, one of the ablest priests in the Roman Catholic Church in this country, tells on its face of his kind-hearted desire to be of service to the people, and breathes a sincerity that can leave no doubt in any one's mind of the great superiority of Paine's Celery Compound over all the so-called remedies that have recently been clamoring for attention by adroit and showy advertisements: Wells & Richardson Co. Gentlemen:-I have been asked why I recommended Paine's Celery Compound, and I desire to put on record frankly my reasons for this endorsement, hoping that my words may inspire those readers who need health and strength with faith to try Paine's Celery Compound and prove to themselves its worth. At the Fanny Allen Hospital, an institution in which I am deeply interested, Paine's Celery Compound has been used successfully. The Sisters of Mercy at Mount St. Mary's Academy, on Mansfield Ave., rely upon Paine's Celery Compound as a tonic and strength-giver. In my own household, one of the domestic has taken Paine's Celery Compound for liver trouble of long standing, and says: "It has done more good than any other medicine." Several priests have spoken to me in praise of this remedy, and I believe it has the confidence of my associates. Even did I not know from personal observation of the worth of Paine's Celery Compound, I should feel like praising it for the simple reason that it is prepared by the Wells & Richardson Co., a firm whose members I have known for nearly a quarter of a century, and in whom I have perfect confidence. Very truly, JOHN S. MICHAUD, Coadjutor bishop of Burlington. There is no household in the land that can honestly afford to be without this remedy. It is a simple matter to test its astonishing efficacy.

MARQUETTE OPERA HOUSE ONE NIGHT SATURDAY, MARCH 2. THE THEATRICAL EVENT OF THE SEASON. ENGAGEMENT EXTRAORDINARY! Of the Eminent Romantic Actor Frederick Warde.... WITH MR. AND MRS. E. R. **MAY GET A NEW LIBRARY.**

HINTS OF A DONATION MADE IN THE COUNCIL MEETING SATURDAY EVENING WHICH MAY COME TO SOMETHING.

There was more "on" at the special meeting of the council Saturday evening than was anticipated. The session was called for the purpose of considering amendments to the city charter but a surprise was sprung on the members when W. H. Johnston asked permission to be heard. Mr. Johnston went on to say that there was a possibility that the city would receive a donation for a new public library building provided it would agree to expend ten per cent of the cost of the building, annually, for its maintenance.

This proposition was looked upon with great favor by those present, but they were unable to act upon it as the meeting was held under a special call and only the charter amendments could be considered. There is no provision in the charter for a public library, but the present library has been in existence for over twenty years and its expenses are borne by the general fund. Last year the library cost the city about \$1,400 and this year the amount required will be perhaps \$100 more. If a building was erected at a cost of \$20,000 the amount to be expended annually would be \$2,000. Those of the city officials who have considered the question think that the additional \$500 would be very well spent indeed.

The present library rooms are inadequate and it is only a question of a few years when larger and better quarters will have to be procured. While Mr. Johnston does not want it understood that there is anything sure about this donation, still it is not thought that he would say anything about the subject were he not sure of his ground. He is connected with a company, the head of which is famous for his donations for the establishment of libraries throughout the world and it is not a far cry to guess where the donation would come from.

The council did all in its power at Saturday's session when it voted in favor of an amendment to the charter providing for a library and for a separate fund for its support.

The other amendments were prepared by the city attorney. They provide for changes made necessary by the growing needs of the city. They provide for putting a number of kindred subjects, now scattered throughout the charter, under one head so that if they are adopted the charter will be virtually rewritten and some unnecessary matter eliminated. The charter provides for a street commissioner and also for one to be in charge of the city streets. The latter office has not been filled for years and is quite useless. The street commissioner works under the supervision of the board of public works—another item which is not embodied in the present document. This is specified in one amendment.

Representative Charles J. Byrns will present these amendments to the legislature and it is not anticipated that he will have any trouble in getting them through. A motion was made to lay these amendments before the voters and to have them posted in conspicuous places around the city but it was lost by an overwhelming vote. The council then adjourned.

At the regular meeting in March the matter of the library will in all probability come up and there is little doubt that the council will take favorable action.

**A PLEASING BANQUET.**

Hematite camp No. 1125 held a regular meeting in its hall Monday evening. It was well attended. After the business session was over the members indulged in various games and later in the evening a hot lunch was served by the committee that has these affairs in charge. This banquet was much enjoyed by the participants and plans for more in the near future are already under way.

One amusing feature of the banquet was the lack of butter. It seems that one of the committee was delegated to furnish this very necessary article, but he failed to get around. The committee of those present was appointed to look him up and they did so yesterday with such effect that he is mortally sorry that his memory played him the trick it did.

**DOES IT PAY TO BUY CHEAP?**

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Rosche's German Syrup" It not only cures but it warms the tissues to destroy the germ disease, but allows inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. The Stafford Drug Co.

A swell line of embroidery and lace curtains are included in F. Braastad & Co.'s new goods just coming in. (2-11-1f)

**"MAN AMONG MEN."**

Frank E. Long and company presented this stirring drama at the opera house Monday evening. The players were greeted by an audience which completely filled the theater and all were well satisfied with the performance. Mr. Long was eminently satisfactory in the role of the hero, General Western. His hearers followed his lines closely and did not let a single one of the many situations escape them. Miss Nan Sullivan made a very pleasing character of Ethel Crompton and was in full sympathy with those in front of the foot lights. The other members of the cast were very satisfactory and Long may be congratulated on so successful an opening night.

The play which was to have been presented was "The Planter's Wife," but a few minutes before the curtain rose the lights of the theater were made to make a change in the program. "Man Among Men" has not been presented in this city for two years and those who were present seemed to think that Long had made a mistake in letting it lie idle for such a long period. This evening "The Fatal Card" will be the bill and it promises to be fully up to the standard of the Long performances.

**A LIFE AND DEATH FIGHT.**

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for consumption which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00 Trial bottles free at the Stafford Drug Co.

**PNEUMONIA CAN BE PREVENTED**

This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. That remedy was extensively used during the epidemics of La Grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. Chamberlain's Cough Remedy has gained a world wide reputation for its cures of colds and grip. For sale by the Stafford Drug Co.

**A BIG LOAD OF LOGS.**

There was an exhibition load of logs hauled from Camp No. 2 of the Dead River Mill company to the landing the other Sunday which is believed to be the largest record. There were one hundred and ten logs on the sleigh and they would measure up in the neighborhood of eleven thousand feet of lumber. The load was hauled to its destination without mishap, which is considered no small feat.

The Dead River company is doing a great deal of work in the section of the country north of the city this winter. The company has about two hundred and twenty-five men in the woods distributed between four camps. There were formerly five camps but Camp No. 2 has been broken up and the men sent to the others. Besides the men, there are very nearly fifty teams at work and it takes five blacksmiths to take care of them.

An immense amount of standing timber is being cut and the logs are piled at the landing twenty-five feet high.

**HE FOOLED THE SURGEONS.**

All doctors told Renek Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed, but he cured himself with five boxes of Bucklen's Arnica Salve, the surest pile cure on earth, and the best salve in the world. 25 cents a box. Sold by the Stafford Drug Co.

**\$50 FOR A BOTTLE OF MEDICINE.**

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.

THE ARISTOS Gold Mining Company

Owning Big Horn Mountain Tunnel and Veneta Vein, 200 acres situated on the Western Slope of Pike's Peak, in the Famous Cripple Creek Gold Mining District.

THE SAFEST OFFER EVER MADE TO INVESTORS.

100,000 Shares Preferred Stock at 25c per Share.

It is printed on each Certificate that subscribers to the above Preferred Shares will be entitled to receive in Dividends the full amount of money invested, before other stockholders receive any returns, signed by the President of the Company.

This District Produced More Gold in 1900 than any other in the United States

This property consists of 200 by 300 feet, or 200 acres, of gold land. The mine has been worked. The feature of this mine is the Veneta Vein, 30 to 40 feet in width, and is certainly one of the strongest veins in this famous district. There are some fifteen openings on this famous vein, the ore in which assays in gold from \$12 to \$100 per ton. The property is advantageously located for development by tunnel, which will make it possible to produce an enormous amount of ore daily, the quantity varying from 2 to 600 tons per day. The development by tunneling is the most economical and advantageous manner of working this property.

At a distance of 800 feet the TUNNEL will intersect the Veneta Vein at a depth of about 680 feet and will also intersect several other veins. The TUNNEL will cut the Big Horn Mountain 2,100 feet deep and will give this Company 2,000,000 tons of ore, worth over \$10 per ton.

The new railroad, now practically completed from Colorado Springs, called the Colorado Springs and Cripple Creek road, passes within 200 feet of this tunnel. Adjoining this property is the Colorado Springs Tunnel Company. In this property, as a depth of 400 feet, the Veneta Vein was cut. At this point the vein was fully 20 feet in width and its value from \$20 to \$1,000 per ton. There are already in operation mills and smelters sufficient to treat the output of this property which gives at once cash returns.

Capital Stock, \$1,000,000. Par Value, \$1.00 per Share.

100,000 Shares Preferred Stock at 25c per Share.

In buying this stock, the purchaser owns a direct title in the Company's property. This Company offers you no watered stock, but a legitimate high grade gold mining investment in the Cripple Creek District.

The above offer of preferred Dividends is an assurance of early returns. After additional machinery is erected, this property will be earning dividends almost equal to its Capital Stock.

TWO DESCRIPTIONS LEFT.

ALL THE OTHER PROPERTIES AROUND TEAL LAKE REGARD-ED AS DESIRABLE HAVE BEEN SOLD.

With the sale of the half acre owned by David J. Lloyd to the Oliver Iron Mining Company, there is left in that section of the territory about Teal Lake only two lots. These holdings are about an acre owned by Samuel Redfern and a lot of the same size held by the Macomber estate.

Judging from the prices which have been paid for the other properties in that vicinity, these lots will not go at a sacrifice. The land owned by Mr. Redfern lies between the land bought from Winter & Suss and the Lobb estate holding with a frontage on the lake. It lies in the center of the properties which both the Oliver and the Cleveland companies have been after and will doubtless bring a good figure. The slice of the Macomber estate which is yet on the market is situated near the old sawmill site and is a three cornered piece. It lies on the north of the strip owned by the Jackson Iron Company, and this too will bring more than a fair price.

It is a singular chain of circumstances which has led to the disposal of these lands at such high figures when only a few months ago they could have been bought for a mere song. The sale of the Lobb estate holdings in that vicinity to the Cleveland-Cliffs Iron Company for \$15,000 is a great piece of luck for Mrs. Lobb, for now she obtains enough from this particular property to clear up an acre of the indebtedness of the estate, with something over, and she still has the buildings and lands in the city proper, from which she derives a snug income.

David Lloyd is regarded as the most fortunate man in these parts today. The price paid him for half an acre of land which up to this time was considered almost worthless, \$8,500, comes to him almost as a gift. Up to date there has been \$24,000 expended on the eastern shores of the lake for about forty acres of land and in all probability this amount will be increased to fifty thousand when all the holdings are gone.

If there is one man in the city who doubts the future of Negaunee he cannot be located. One and all are expressing confidence that this city will in a few years be the top notch of the range. Of course there is a possibility that no ore may be found in the different explorations, but unless there were strong grounds for a staunch faith in the prospects two such organizations as the Cleveland-Cliffs and the Oliver companies would not be spending so much money in the explorations.

It is the current belief that ore has been found in at least two holes on the Maas exploration, though this rumor cannot be verified. Other sections of the city are under discussion in mining circles and within a few days The Mining Journal will be enabled to publish the news of another deal which has an important bearing on the future of Negaunee.

The mines which are now working are preparing for the busiest season in their history, and if some of the old mines which have been idle, or practically so, for the past few years are not reopened in the very near future it will be a great surprise to all.

LA GRIPPE QUICKLY CURED.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe" says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, and which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by the Stafford Drug Co.

WORK BEGINS TODAY.

Eight men will be put to work on that portion of the Seager estate which George Maas and his associates have under option. A shanty was erected this week and another is nearing completion and all the necessary arrangements are being attended to. The men will live on the location and the work will be pushed with the least possible delay. Test pitting will be started first but it will not be long before a drill will be running if all signs do not fail. There is every indication that this property will be thoroughly explored and if there is ore there, George Maas will find it.

FIRST AND FOREMOST in the field of medicine is Hood's Sarsaparilla. It possesses unequalled merit and cures all diseases caused or promoted by impure or impoverished blood, including rheumatism, dyspepsia, catarrh.

All liver ills are cured by Hood's Pills. 25c.

ANGOVE & THOMAS.

Located in the Mulvey block, are conducting a first-class saloon, where you can always find the best wines, liquors and cigars. (2-6-1m)

Frequently accidents occur in the household, which cause burns, cuts, sprains, and bruises. For use in such cases BALLARD'S SNOW LINIMENT has for many years been the constant favorite family remedy. Price, 25 cts. and 50 cts. The Stafford Drug Co.

SHOULD A MAN BE VAIN?

Certainly he should. He should have ambition to look well and feel good, which he cannot do unless he digests his food. Dr. Caldwell's Syrup Pepsin aids digestion, clears the head, keeps the bowels regular and makes a man feel at peace with the whole world. Try it. The Stafford Drug Co.

LOCAL LAOCNICS.

Isaac Rosen is in Chicago on a purchasing trip.

George Billee of Michigamme was in town yesterday.

L. T. Sterling of Iron Mountain was a business visitor in the city yesterday.

Miss Mary Curley has returned from a lengthy visit with friends in Houghton.

Miss Rose Lemire has accepted a position as clerk in Prosecuting Attorney Bell's office.

F. D. Davis is in Chicago attending the three days meeting of the National Educational association.

Thomas Long was the successful man in the drawing in H. J. Petersen's suit club Saturday evening.

Chris. H. White was in the city transacting business and visiting his brother-in-law, J. D. Clark, yesterday.

J. D. Clark left for his future home in Minneapolis last evening, having been delayed one day, Mrs. Clark and the children accompanied him.

The funeral of the late Leonora Choquet will be held from the Catholic church this morning at 9 o'clock. Interment will be in the Negaunee cemetery.

John Dudley of the Winthrop has bought the horse, cutter and harness which the Gerehty's were raffling. The money paid for tickets has been returned to the buyers.

F. M. Beney is the champion pool player of the Negaunee club. He was matched to play "M. Wells but Mr. Wells left town before the game could be played and Mr. Beney won by default.

A party of four Finnish residents of the city left yesterday morning for the Cleveland-Cliffs camps near Munising. This makes a total of sixteen men of this nationality who have gone to that section to work.

There was a thin audience at the presentation of "What Did Tomkins Do?" in the opera house Monday evening. It seemed to be the general verdict that the company was away above the piece, and the next time Harry Corson Clarke comes this way he will do well to find a more suitable setting for the display of his talent as an actor.

The last reports were paid to the remains of Mrs. Montgomery Carmichael yesterday afternoon. Services were held at her late residence on Case street shortly after noon and the body was taken to Marquette in the afternoon, where it was laid beside that of her husband, Rev. Dr. Smith of the Presbyterian church conducted the services. There were many beautiful floral decorations, both cut flowers and set pieces.

THE MODERN WAY

Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

BUNSEN'S CREAM CATARRHAL

Cures catarrh easily and pleasantly. Contains no mercury or other drug. Is quickly absorbed. Gives instant relief. It opens and cleanses the nasal passages, always inflammation, heals and protects the membrane, and restores the senses to taste and smell. Regular size 50 cents. The Stafford Drug Co.

BETTER RAILROAD SERVICE.

Marquette and Ontonagon Counties Brought Closer Together Than Ever Before.

The opening of the recently completed Mineral Range extension by the D. S. S. & A. railway on Monday next from Keweenaw Bay will be a great event for the towns of Marquette country, as it will bring them in close touch with the growing and progressive towns of Mass City, Rockland and Ontonagon.

The train leaving Marquette at 7:00 a. m., Negaunee 7:45 a. m. and Ishpeming 7:55 a. m. will make close connections at all points. (except Mass City Sunday) with the day express from Calumet arriving Mass City 11:57 a. m., Rockland 12:15 p. m. and Ontonagon 12:45 p. m. Returning, the train will leave Ontonagon 1:35 p. m., Rockland 2:05 p. m. and Mass City 2:23 p. m., arriving Keweenaw Bay 4:00 p. m. There connecting with the train from Calumet due at Ishpeming 6:50 p. m., Negaunee 7:00 p. m. and Marquette 7:35 p. m. (12-20-1f)

LOW-ROUND TRIP HOMESEEKERS' RATES.

On the first and third Tuesdays of each month up to and including June, 1901, the D. S. S. & A. railway will have on sale to nearly all points in the United States, British Columbia, Canadian Northwest, etc., round trip homeseekers' tickets at rate of single fare, plus \$2. for the round trip. Tickets will be good for return passage to twenty-one days from date of issue. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (1-30-1f)

ONE-WAY SETTLERS' RATES TO THE WEST.

On Feb. 12th, 19th and 26th, March 5th, 12th, 19th and 26th and April 2d, 9th, 16th, 23rd and 30th, 1901, the D. S. S. & A. railway will have on sale one-way settlers' tickets to points in Minnesota, North Dakota, Manitoba, Idaho, Washington, Oregon, etc., at very low rates. Tickets will be good for stop-overs at certain points. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (1-30-1f)

Lower Michigan News.

An Orion man experimented in the use of salt in raising potatoes last season. A few rows of hills in a field he salted thoroughly, and these rows yielded more and better tubers than the unsalted rows. Having used the salt during a dry spell, he claims that it kept the hills moist. Another thoroughly satisfactory result was that the salted rows were untouched by the pestiferous potato bug.

Prof. M. E. Cooley defends the high salaries paid to employees of the tax commission, who appraised the railroad property of the state, by calling attention to the fact that they were engaged because of the special fitness for the work and not because they were applicants. He declares that the railroads would have contested the accuracy of the results if incompetent men had been employed.

For some time a "green goods" game has been operated in the vicinity of Niles. Several persons there have received letters offering to sell counterfeit bills in \$50 lots for \$20, and in \$25 lots for \$10. The police claim that they have succeeded in capturing the alleged syndicate in the person of Arthur A. Haven, a factory employe, of South Bend, Ind. It is thought he has many victims. Haven is 35 years old and married.

Prof. Clinton D. Smith, director of the M. A. C. experiment station, says that the results of experiments in growing alfalfa in Michigan have been extremely disappointing. Good stands have been secured many times only to have the crop die out within a year or two from freezing or some other cause. In one instance a fine stand was secured over a full acre, and three or four good crops were cut the same year, but by the middle of the following May there was scarcely a living root left. On other plots it has maintained itself fairly well, but on the whole it has proved to be an extremely treacherous plant.

W. G. S. Miller, a college student who has been a cripple since he was 8 years old, was operated on at a Chicago hospital last week and is rapidly recovering.

When very young Miller had a fall and the left hip was dislocated. The physician in attendance, through carelessness, did not observe this until it was deemed too late to remedy it. Since then Miller has been a cripple. The case came under the notice of Dr. Butler of the sanitarium, and Miller decided to undergo an operation and now he bids fair to be able to recover his walking power. Miller is a good student, and with the exception of his one trouble, a giant in form. He is a member of the sophomore class.

Charles Osborne, the missing Michigan Central engineer, was found dead in bed at the Hawkins House at Ypsilanti Sunday evening. Friday night he registered as J. C. Smith, of that city, and paid for supper and lodging. He left before breakfast. Saturday night he returned and registered as J. C. Smith of Chicago, and paid for supper and lodging. He appeared to be all right. His room was not entered till night, when he was found dead. Papers on the body identified him as Osborne. Packages labeled morphine and strychnine were found in his pockets. The strychnine was unopened, but the morphine had all been taken. No messages or letters were left. Osborne had been missing from home for 10 days, and traces of him had been found at Ann Arbor and Milan. He was undoubtedly deranged.

Henry Coney, a prominent business man of Ionia, committed suicide at the Kellogg sanitarium in Battle Creek Saturday. Coney was a married man 35 years of age and went to the sanitarium five weeks ago for treatment, but not as a mental patient. He had a regular attendant who slept with him nights. At 2 o'clock Saturday morning the attendant awoke and found Coney walking on the floor. Coney said that he was all right and requested the attendant to go back to bed, which he did. About 3 o'clock the attendant was awakened and heard Coney breathing heavily, and discovered that he was bleeding profusely at the throat. A physician was summoned and found that the man had severed the jugular vein with a pen knife. When an attempt to care for him was made he became unmanageable, this bringing on a hemorrhage, which caused his death. The man was evidently temporarily insane.

Niles has a memory prodigy in the person of William Putnam, who is in the employ of Uncle Sam as a mail carrier. In 1891 he won an Oxford bible as a prize for reciting the golden texts and titles of Methodist Episcopal Sunday school lessons. Five years later he won a prize gospel story of the life of Christ, for reciting 2,000 scriptural verses. Since that time he has learned more verses and now can recite 5,000. He is thoroughly posted in histories and can tell the date of any event of consequence. He can recite the entire constitution of the United States with its amendments in five different hymn books that have at different times been used in the M. E. church. He knows the title and number of every song, and at meetings, if anyone wants to know the number of a certain song, all they have to do is to furnish the title and Mr. Putnam will tell it, or if they tell the number he furnishes the title.

HOW TO CURE THE GRIPPE.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. This remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip not one case has ever been reported that did not recover. For sale by the Stafford Drug Co.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

COAL IN ARTIC REGIONS.

Recent Discoveries in Spitzbergen and at Other Points.

To obtain fuel from the arctic regions seems almost a paradox, but our Berlin correspondent informs us that good seams of coal have been found on the western side of Spitzbergen, and are to be worked on the most approved business principles. That carboniferous rocks existed in the island has been known for some time, but during the last summer experts were dispatched from Norway to ascertain whether the mineral was sufficiently abundant and accessible to be worth working. Their reports are most favorable. Good furnace coal has been found in Green harbor, on the south side of the entrance of Ice fjord, which pierces so deeply into the western flank of the principal island that the latter is almost cut up into three parts by the meeting of inlets from opposite coasts.

At another place in the same fjord three of the seams are from six to nine feet thick, and as they are above sea level, must crop at the surface. The larger and eastern part of Spitzbergen is more or less a plateau, and the strata are horizontal, ranging from the period anterior to the carboniferous to that in which our chalk was deposited. The western part is mountainous, and consists of older crystalline rocks, but uplifted parts of these sedimentary strata here and there rest upon them, as is the case where these seams have been discovered. In such circumstances the fields are likely to be limited in extent, and the seams may be tilted at high angles or broken up by faults. Still, as the coal can be worked by adits, its accessibility and the consequent economy in labor will be a compensation. These discoveries make it highly probable that larger, and perhaps richer, fields exist in the eastern part of the island, which, however, will be less easily reached.

The effect, direct or indirect, of the gulf stream opens the west coast of Spitzbergen in summer, but the other is more difficult of approach. It is stated that even in the sheltered ice fjord the coal cannot be shipped directly from the land, and the piers must be removed before winter, during parts of which work will have to be suspended. But when the coal has been followed for some little distance from the surface, there will be nothing to prevent the miners from going on even in December. The ground, no doubt, is permanently frozen for a considerable depth, but the temperature will rise steadily as the distance from the surface increases, and will be uniform. After a while the mine will be more comfortable than any house. It is the party will wade in the island from the first, and the longer they can work the more healthy they will be.

But Spitzbergen may not be the only arctic island in which coal occurs, though perhaps it is the most favorable for commercial purposes. The fuel may be found in Franz Josef Land; beds full of fossil plants occur near Eira harbor—of later date. Indeed, but in rocks which elsewhere occasionally produce coal. From Nova Zembla Col. Feilden brought back specimens of plants which experts are signed to an age very near that of our English coal beds, and other localities could readily be named. But these masses of fossil vegetable matter indicate curious changes in the climate. Nowadays nothing bigger than the stunted pole willow grows in Spitzbergen. Even in the extreme north of Norway the hardy birch is dwarfed. Yet these ancient plants formerly almost rivaled forest trees, and the change was late in coming. A temperate climate existed as far north as the seventeenth parallel, and in Greenland beds of brown coal were formed even in the tertiary era. At that time the plane, the magnolia, and the vine flourished in the latitude of Disco bay.—London Standard.

KIDNEY TROUBLE

Like most serious diseases, often has so small a beginning as to pass unnoticed. Generally it starts with a cold, followed by a chilly feeling and pain in the small of the back. The kidneys then become weakened, and are unable to perform their natural work of filtering the blood, in consequence of which the blood is pumped back through the body with all the wasted tissue, Uric Acid and other impurities which it has gathered, and which rightly should have passed off through the kidneys. The effect of this is disastrous, producing a complication of the severest forms of kidney trouble, including Bright's Disease, Bladder troubles, Gout, Rheumatism, Diabetes, Gravel, Scalding of the Urine, etc. These serious complications

Can be Cured by

Only a remedy which will act swiftly, safely and surely. It must get at once to the seat of the disease, speedily remove it (without driving it simply to some other organ), strengthen and heal the kidneys and assist them to perform the work imposed by nature of filtering the blood and ridding it of all impure and waste matter. Such a remedy is

JOHNSON'S Kidney Pills.

They contain nothing that can in any possible way derange or injure the system. They simply assist nature to utterly expel all poison from the system and heal the wounds consequent on its presence. The first few pills have the effect of immediately cleansing the kidneys of every impurity, and gradually they so heal and strengthen the organs that they can perform their whole duty unaided.

JOHNSON'S KIDNEY PILLS have absolutely cured the severest forms of kidney disease. They have never failed with proper use, and we guarantee a cure whenever directions are followed, or your druggist will refund your money.

GRADING CONTRACT LET.

McDonell Bros. & Co. of Grand Rapids Will Build the New M. & S.-E. Railroad.

THEY WILL EMPLOY SEVERAL HUNDRED MEN, BEGINNING WORK AT ONCE.

The Firm is Well Known in Michigan and Has Already Done Work for the L. S. & I. Road on the Line and at Ne-gaunee and Ishpeming.

CONTRACT TO BE FULFILLED BY SEPT. 1.

Yesterday Superintendent Harris of the Marquette & Southeastern road announced that the contract for grading the new line from the southern limits of the city of Marquette to a junction with the Munising railway had been let to McDonell Bros. & Co. of Grand Rapids.

It has been understood, in a limited circle, that this disposition of the contract had been decided on but things were not ripe for the announcement until this week.

The Mining Journal is informed that work will be commenced immediately. Mr. Archibald McDonell is expected here today or tomorrow to make the preliminary arrangements and dirt will be flying at the expiration of a few days.

There will be employment for a large force of men. It was stated yesterday, although no representative of the contractors has yet to give positive information, that 500 or 600 laborers will be needed on the line.

McDonell Bros. & Co. will have until Sept. 1 to put the route in readiness for the steel. They should have no difficulty in finishing up by that date but they will have a large margin of spare time. It will be necessary for them to employ a goodly force and to push work without cessation to comply with the terms of the contract.

It is given out that camps will be erected between here and the junction with the Munising road. The number of these camps has yet to be determined. It will depend on how the contractors decide to place their men and pursue their work. These matters will be decided when their representatives reach the ground.

McDonell Bros. & Co. stand high among the Michigan railroad contractors. There is a solid firm. They have, from time to time, undertaken much important work in various parts of the country and their contracts have always been filled in an entirely creditable manner. They are no strangers in this county, having done important work for the L. S. & I. railroad. They replaced the bridges at the Rainy creek with the sand fills, a big and expensive improvement which put the line in first class condition. They also laid considerable track at the Queen mines, Ne-gaunee, and they ran a new spur into

Don't irritate your lungs with a stubborn cough when a pleasant and effective remedy may be found in BAL-LARD'S HOREHOUND SYRUP. Price 25 cts. and 50 cts. The Stafford Drug Co.

the Lake Angelina property at Ishpeming. Thus, the officers of the Marquette & Southeastern line are well pleased that the contract for the construction of their new line should fall into the hands of men with whom they are well acquainted and in whom they have implicit confidence.

SEVEN SHORT BRIDGES.

There is 20.34 miles of grading to be done, this being the distance from the city limits to the desired junction. The route, as marked out by the surveyors, does not offer any great obstacles to be overcome by the contractors. If anything, it is a little better than the ordinary run of railroad routes in a country which has a topography resembling that of the upper peninsula.

The Mining Journal is informed that there are some 300,000 yards of rock and earth to be removed from the places where cuts will be necessary. None of the fills will be particularly difficult. There will be seven bridges on the line. They will have a total length of 250 feet, which will give them an average length of a little over thirty-five feet. It has practically been decided to build these structures of iron, thus making them indestructible by fire.

The new road will not offer any very heavy grades, the worst being one per cent, or fifty feet to the mile. This will mean a line which can be operated easily and economically.

LAY ITS OWN TRACK.

The Marquette & Southeastern company will lay its own track. This work will be under the supervision of its officers and its men will be employed on it, their labor being supplemented by that of whatever additional force it is necessary to employ. It is desired to open the new road for operation with the least possible delay and track laying will be commenced as soon as it is feasible.

As mentioned above McDonell Bros. & Co. have agreed to complete the grading by Sept. 1. If this contract is fulfilled to the letter the Marquette & Southeastern people say that they should have their first trains running through to Munising by Nov. 1. They confidently expect, if all goes well, that the conductor will be able to say "all aboard" on that date.

The news that the contract has been let and that work will be undertaken on the grading immediately will be most welcome to Marquette people as the employment of such a large number of men in a country neighboring to the city will mean a number of months of lively business. The force which the contractors will employ will be largely from this city. Large numbers of men have been anticipating this work with considerable anxiety and they will be pleased to learn that their "time" can now begin in a few days.

MITCHELL IS CHAMPION.

He Took the Two-Mile Event by Half a Lap Last Evening.

George Mitchell of Marquette is now entitled to the skating championship of the upper peninsula for the season 1900-01. He won the honor last evening by taking the two-mile race, the second event in the only series of championship races held in the upper peninsula this year or, for that matter, in many years. He won it from a field of six racers, including the best known skaters in the upper country, in as fast and honest a race as was ever pulled off in any rink.

His closest competitor for the victory was Fredstrom of Calumet, who fulfilled his promise of the first evening by putting up a swift, strong race. He ran even with Mitchell, following his pace, for upwards of twenty laps and was only left behind in the far end of the rink, when Mitchell succeeded in gaining about half a lap.

The men started from the same side of the rink last evening. Doby had the pole, Fredstrom was second; Mitchell, third; Troyer, fourth; Thompson, fifth, and Gilmore, sixth. Troyer was not in very good trim, owing to his mishap of the previous evening, which kept him from entering the mile event, but he made a very good showing early in the race leading the bunch for several laps. He has been in his usual condition he would have skated strong to the finish.

The men had a good start and for three or four laps they swung around the rink in a bunch. Gilmore was the first to lose ground and before the end of the first mile he had been lapped. He sustained one fall, but picked himself up and was in at the finish. As the race warmed up Mitchell and Fredstrom pulled away from the other men and it was seen that if the winner of the mile event was to be humbled that Fredstrom would have to do it. The contest between these men was the feature of the race. Mitchell made practically all the pace, but Fredstrom followed him closely, being a fast and effective skater. However, he lacked the steam that was put into Mitchell's efforts, this becoming apparent toward the end of the second mile when the latter pulled away and clinched the championship medal. Both Mitchell and Fredstrom lapped the other skaters and were gaining more distance on them at the finish. Thompson lost interest in the event toward the end of the second mile and ceased his fruitless labors. Doby finished third, Thompson fourth. The time was 6:09. Mitchell was given an ovation on the conclusion of the race. He was vociferously cheered and, not content with howling their congratulations at him, a large number of his young friends picked him up, lifted him to their shoulders and carried him in a triumphal procession around the rink.

The two championship races passed off nicely. The skaters were gentlemanly in their demeanor on the ice and there was no fouling or jockeying, there also being an absence of any unfriendly personal feeling. No disputes have marred the sport which has been entirely creditable to the management of the rink and the participants.

As the championship has been settled the two and a half mile event set for tonight will be cancelled in favor of a half mile race. This short event will give any of the men who are strong sprinters a chance to come to the fore. This race should be the most exciting of the week. Certainly it will be the fastest. It is said that Mitchell will be given a hard run for the honors as a couple of the outside skaters are great sprinters. Thompson is said to put up a wonderful half mile race.

On Feb. 28 George Mitchell and Peter C. Doby will appear in an exhibition at Escanaba. On March 4 and 5 they will be at Gladstone.

ELLSWORTH GETS A YEAR.

The circuit court concerned itself with one criminal case yesterday morning. It was that of the People vs. Henry Ellsworth, charged with assault with intent to kill. A second count, charging the careless use of fire arms, was substituted for the more serious charge and he pleaded guilty. Judge Stone sentenced him to a year's residence in the mansion across the bay. Ellsworth was arrested in Republic the early part of this month.

In the afternoon the jury in the case of George W. Shaw vs. Thomas Cook, was called. This case was tried in the last term of court but the jury could not agree on a verdict. Cook is a Choccolay farmer and the point at issue is the ownership of a horse which is claimed by both the plaintiff and the defendant. The trouble arose from a business transaction. Little difficulty was experienced in getting a jury and the hearing was on all afternoon. It will be finished today.

The case of George Shaw vs. Francis W. Sambrook will be opened this afternoon. A jury will be drawn but it is not likely that it will be possible to complete the hearing as Mr. Shaw is bringing in witnesses from lumber camps many miles distant from Marquette.

Monday in the case of the People vs. James Rickaby the prisoner pleaded guilty. Sentence has not yet been pronounced. Rickaby was charged with forgery. The other cases on the criminal docket have all been continued.

Yesterday Judge Stone admonished the jurymen against talking with any of the parties to suits on in the court concerning their cases. He wants no trouble on this score.

When you want a physic that is mild and gentle, easy to take and pleasant in effect use Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free. Every box guaranteed. For sale by The Stafford Drug Co.

PROHIBITION CONVENTION.

A mass convention of the Prohibition party for the county of Marquette is hereby called to meet at 407 East Michigan street, in the city of Marquette, in said county, on the 28th day of February, instant, at 8 o'clock p. m., for the purpose of placing in nomination candidates for county officers, and the transaction of any other legitimate business.

Dated, Marquette, Michigan, Feb. 19, 1901.

HARVEY BURRIGHT HATCH, Chairman County Committee.
