AGUINALDO MAY COME.

Said President Has Granted His Eager Desire to Visit America.

FRAUDS ARE EXAGGERATED

Probably Due to Irregularity in the Sales of Rations Saved by the Soldiers Cables MacArthur.

BIG PANAY FORCE YIELDS.

Manila, April 3.—Chief Justice Arellano, who administered to Emilio Aguinaldo the oath of allegiance to the United States government, described today to the Associated Press the conditions leading up to the attending ceremony, which was semi-private.

ASTONISHED AT POLICY. Listening with deep interest, Aguinaldo finally exclaimed, "I never believed the Americans to be so fair and liberal." Before the conversation ended he agreed to take the oath of allegiance, and this was immediately administered.

PEACE NEGOTIATIONS NEAR END. As soon as the generals of the powers notify the ministers as to what disposition is desired of Articles 8 and 9 of the protocol—regarding the forts and the garrison of the road to the sea—everything will be practically concluded except the indemnity, the only claims not ready by the British, German and Japanese. The Germans say they will be ready in two days and the Japanese assert they will be ready at a moment's warning.

CONCERNING THE FRAUDS. Washington, April 3.—The following cablegram was received today from General MacArthur, at Manila: "Brigadier General Hughes reports the surrender at Banga, northwest Panay, of thirty officers, 185 men and 105 rifles. General Kobbe reports that twenty-one men have surrendered in northern Mindanao.

CONCERNING THE FRAUDS. Washington, April 3.—The following cablegram was received today from General MacArthur, at Manila: "Brigadier General Hughes reports the surrender at Banga, northwest Panay, of thirty officers, 185 men and 105 rifles. General Kobbe reports that twenty-one men have surrendered in northern Mindanao.

CONCERNING THE FRAUDS. Washington, April 3.—The following cablegram was received today from General MacArthur, at Manila: "Brigadier General Hughes reports the surrender at Banga, northwest Panay, of thirty officers, 185 men and 105 rifles. General Kobbe reports that twenty-one men have surrendered in northern Mindanao.

CONCERNING THE FRAUDS. General Kobbe reports that twenty-one men have surrendered in northern Mindanao.

army regulations and be subject to court-martial.

SICK PERCENTAGE BUT 6.89. General MacArthur cables that the number of sick in the Philippines is 2,533 in hospitals and 908 in quarters, the percentage being 6.89.

REBUFF FOR FRANCE.

RUSSIAN FLEET QUITS TOULON AS A PROTEST AGAINST THE NEGOTIATIONS WITH ITALY.

Toulon, April 3.—There is much comment here tonight at the strange and unexpected order received by the Russian admiral to leave Toulon with his fleet, presumably in order to avoid meeting the Italian squadron here. The Russian fleet arrived in these waters to participate in the fetes attending President Loubet's visit.

WARNING FROM THE CZAR.

Paris, Thursday, April 4.—The withdrawal of the Russian squadron at Toulon," says the Libre Parole, "is a brutal disavowal of our government by our allied nation and a condemnation of our policy toward Italy. Moreover, it is a threatening warning from the czar."

Paris, 3.—The fetes at Toulon next week are now the chief topic of interest in the French press and a subject much discussed in political and diplomatic circles.

PEACE NEGOTIATIONS NEAR END. As soon as the generals of the powers notify the ministers as to what disposition is desired of Articles 8 and 9 of the protocol—regarding the forts and the garrison of the road to the sea—everything will be practically concluded except the indemnity, the only claims not ready by the British, German and Japanese. slan demonstration at the same port. Although there is no question of alliance between France and Italy, yet the meeting of President Loubet and the Duke of Genoa will be an incident of the first value, because it will officially mark the opening of a new era of good feeling between the two countries.

GIVES CONTROL OF COAL TRADE.

SAID VANDERBILTS HAVE SECURED DELAWARE & HUDSON.

New York, Thursday, April 4.—The World this morning says: "The Vanderbilts have secured control of the Delaware & Hudson railroad by the purchase of a majority of the capital stock in the open market, and the terms are being discussed on which the New York Central will take control.

ROAD DEAL DENIED. The Herald, however, this morning says that "President Calloway, President Olyphant, and numerous officials and directors of the road unite in saying that there is not a word of truth in the rumors bearing upon the acquisition of lease of the Delaware & Hudson."

INTEREST AT WASHINGTON. Washington, April 3.—Great interest was manifested in official and diplomatic circles tonight over the Associated Press report from Peking that the Chinese have finally determined not to sign the Manchurian agreement. No official information has reached this government or the principal foreign embassy. The Russian ambassador, Count Cassini, was surprised, as he had hoped for the successful conclusion of the convention. Russia, he said, had informed the Chinese government she did not mean to take Manchuria, her desire being to make such arrangements as to avoid a repetition in the future of the Boxer troubles last summer.

REPORTS ROUT OF ROBBERS. Berlin, April 3.—The war office today received a dispatch from Count von Waldersee formally reporting the defeat, on March 31, of a thousand Chinese robbers by a company of Germans seven miles north of Tien Tsin. He adds that the robbers are being pursued, also that a detachment of infantry, at the request of the Chinese local authorities, has been sent from Tien Tsin to Hwang Sun and Liu Ting Kan to protect the inhabitants from robbers.

CAPE TOWN'S PLAGUE EPIDEMIC. VICTIMS TO DATE NUMBER 107, WITH OVER 300 CASES. Cape Town, April 3.—The total number of deaths from the plague is one hundred and seven, including twenty-two Europeans. There have been 315 cases.

QUARRY TRUST NOW. NEW YORK COMPANIES TO COMBINE WITH \$1,500,000 CAPITAL. Rochester, April 3.—Plans have been perfected by which, before business opens this spring, all the stone quarries in western New York, about seventy-five in number, producing Medina block paving stones, will be formed into a combination with a capital of a million and a half.

MAYNARD GOES FREE. CASE AGAINST THE FORMER ATTORNEY GENERAL IS THROWN OUT ON A TECHNICALITY. Lansing, Mich., April 3.—The case of ex-Attorney General Fred A. Maynard, who was indicted by the late grand jury of Ingham county for defrauding the state, the specific charge being the falsifying of pay rolls, was thrown out of court by Judge Weist today as to what shall be considered public money, and also designated the officers who receive and disburse the same; that the fictitious pay roll did not in itself constitute a warrant on the state treasury for the payment of moneys. The court stated that the indictment should be brought forward in order to hold Maynard made out the office pay roll for an employee at the rate of \$125 per

month and drew this sum from the state, paying the employe \$75 per month and retaining the balance. The prosecuting attorney declared that these fictitious pay rolls extended over a period of years, during which Maynard was in office.

MORE LIGHT ON RICE PLOT

Valet Jones Completes His Story of the Murder of Aged Millionaire.

TESTIMONY IS UNSHAKEN.

Admits, However, It Is With Hope of Being Saved from Electric Chair That He Confesses.

BAD FOR LAWYER PATRICK

New York, April 3.—Charles F. Jones, who was valet and secretary to William Marsh Rice, the aged millionaire who, according to Jones' confession yesterday, he murdered by the use of chloroform in September last, finished his testimony today on direct examination in the proceedings before Justice Jerome charging Attorney Albert T. Patrick with the murder.

Even more illustrative of the caution and thoroughness in which the alleged plot was conceived and carried out by these men was another incident related by Jones. The manager of Rice's estate in Texas, Cohen, was in the habit of making a check out in his name for his salary to Rice monthly. When one of these checks came along, after Rice had signed it and given it to Jones to mail, he turned it over to Patrick in order that the latter might practice on the signature. The next check from Cohen was signed with a forgery of Rice's name and sent along, in order, by its passage through the banks in Texas, they might test the merit of their forgery. The experiment was a success and gave them confidence in the greater forgeries yet to come.

FORGED SIGNATURE TESTED. Even more illustrative of the caution and thoroughness in which the alleged plot was conceived and carried out by these men was another incident related by Jones. The manager of Rice's estate in Texas, Cohen, was in the habit of making a check out in his name for his salary to Rice monthly. When one of these checks came along, after Rice had signed it and given it to Jones to mail, he turned it over to Patrick in order that the latter might practice on the signature. The next check from Cohen was signed with a forgery of Rice's name and sent along, in order, by its passage through the banks in Texas, they might test the merit of their forgery. The experiment was a success and gave them confidence in the greater forgeries yet to come.

MARQUETTE, MICH., APRIL 4.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It is reported that the Spaniards are amazed at the capture of Aguinaldo by General Funston and his little party. That achievement should not have excited much surprise among the people of Spain after the experience they had of the valor and address of American soldiers during our war with them.

The Tanner ring in Chicago met with a hearty repudiation in the municipal election of Tuesday, when their candidate for mayor was put to sleep by Harrison. While it is true that Mayor Harrison has not made the best record possible as chief executive of that sinful municipality, we believe he is a safer man in the mayoralty than his opponent would be. If the Republicans allow bad men to be foisted on their party for important positions they deserve such punishment as was meted out to them in Chicago Tuesday, when they lost the mayoralty because they had put up a candidate for it who was believed to have been forced on the ticket by an unscrupulous ring of corruptionists who favored him because they knew they could use him if he should be elected. The Republicans of Chicago had a chance to have as their candidate a man of unquestioned integrity and fine ability, who would have been elected if they had made him their nominee. They turned him down for a trickster, and the people turned their candidate down Tuesday. There is a lesson for them in the result of the election that they will heed if they are wise.

Our advantage over England for the production of iron and steel is shown by the decision of a British concern which manufactures crucible steel to establish a branch plant in the United States. The managing director of the firm of W. Jessop & Sons of Sheffield, Mr. S. J. Robinson, is now in this country for the purpose of selecting a location for a plant which that concern proposed to establish in this country. The reason given for this step is that the tariff duty on this grade of steel shuts British makers out of the American market, and that to do business in the United States it is necessary to manufacture here. The fact stated is fairly conclusive proof of the efficacy of the protective tariff for the creation in this country of industries which would be impaired, if not destroyed, by foreign competition. It may be argued that a branch of a foreign establishment will not really be an American industry, and that the profits it will make will go abroad, but the labor employed in it will have to live here and the wages the men employed in it will earn will be spent here, and that is better than to have both labor and profits go to build up the wealth of another country.

Sentiment among the better class of Cubans is said to be rapidly taking form favorable to the acceptance of the Platt amendment fixing the terms on which the United States government will withdraw its troops from Cuba and allow its people to take charge of their own affairs. If this should be done it will be a happy solution of the Cuban question, as we will obtain some compensating advantages for our enormous expenditure in blood and treasure to relieve Cuba from the oppressive rule of Spain, while our pledge to the world when we engaged in that war will be made good. The rest can be left to time. That the Cuban people are ready for self-government we do not believe, but if they are permitted to make the experiment they cannot but feel that we have dealt with them fairly and honorably, and when they grow tired of trying to govern themselves they will naturally come to favor annexation. If annexation should never come, well and good, for we can get along very well without Cuba, and it will be better to have the island a friendly independent nation than a sullen and turbulent dependency or state. We have territory enough of our own as it is, and can well afford to let the Cubans make the experiment they seem to have set their hearts on trying, for the indications are that it is only a road, and the safest one, to annexation.

HURTS THEIR PRIDE. Our Dominion neighbors are much disturbed just now over a small matter which touches their national pride. The government has just had issued a new four-dollar bill which is a very handsome piece of paper currency, but it doesn't take well with the Canadians in spite of its artistic beauty simply because the vignette on one of its comfortable looking sides is an engraving showing the canal and locks on the American side of St. Mary's river. The feeling excited by this little compliment to the United States is expressed quite fully by the Toronto Express in this article: Uncle Sam is not usually partial to Canadian money, but our new four-dollar bill will have his best wishes for an enduring circulation. On its honest

LAWSON TO SEND A CANOE.

WILL ATTEMPT TO LIFT THE ROYAL CHALLENGE CUP.

Boston, April 3.—Thomas W. Lawson and B. B. Crowninshield will figure in another international aquatic contest, the former as backer and the latter as designer. They will be in the positions of challengers, not defenders, better one except in a first-class newspaper that goes into the homes of all the people? Our circulating medium, especially in the denominations that are most in demand, is a capital advertising medium. The American canal at Sault Ste. Marie is beautifully displayed on the considerable issue of four-dollar bills our finance department will just let loose. Who would travel by the Canadian canal after the Canadian government gave such a certificate as to the superiority of the American lock? It is true that our own canal is a grand work, one of the wonders of engineering science, but the government fancied the one on the other side of the river more. As these four-dollar notes pass from hand to hand, the wistful gaze of those who part with them will rest on the American lock—the gateway through which the government would direct their travels. Since they came into office the Canadian ministers have tried to forget their old disparaging language about our canals, and have lately spoken very favorably of these. But money talks. A picture of our Sault canal, or of some other great Canadian work or scene, should occupy the place given to the American canal. This foreign canal lock depicted on our four-dollar bill is a humiliation to us. That picture is a record of blundering or something worse that will never be forgotten. Specimens of these four-dollar bills will be preserved wherever there is a collection of monetary curiosities. The people of Sault Ste. Marie are deeply offended at the government for its selection of the American canal as the object most worthy of depiction on its new issue.

SCARED DESPOTS. Emperor William of Germany has created a sensation among his subjects by an address which he delivered to one of his favorite regiments a few days ago, in the course of which he hinted at the possibility of a revolt against the imperial authority among his people, and dwelt on what the duty of his soldiers would be if that came to pass. Their duty would be to shed their blood and give their lives if necessary in defense of their emperor and his house, he admonished them, and he expressed confidence in their ability and willingness to put down any uprising that might take place among the people.

It was a singular appeal to come from the ruler of a country in which there are as yet no open indications of revolutionary tendencies among the masses. That he made it argues that the emperor has not the confidence a ruler who knows his motives to be good should have in a people so disposed to loyalty, and so disinclined to adopt revolutionary methods, as are the Germans. The recent attempt by a demented individual to do him personal injury must have unbogged the German emperor's mind, or he would not have been so indiscreet as to insult his own subjects by throwing doubt on their devotion to him and his house.

By showing himself fearful of a revolt against his authority he encourages those among his subjects who may have designs against him, and which he told his soldiers they must keep themselves in readiness to stamp out in blood if necessary, to engage in treasonable plotting, and discloses a want of the kind of courage a man should possess to be fitted for the arduous task of holding together an empire built on the law of force.

It was very unwise on his part, also, to acknowledge, as he did, that he relies for the security of his throne on the power of his army rather than on the affection of his people. Since he expects so little from the great body of his subjects who are in civil life he will give him little in the way of confidence and love. If he proposes to rule by the sword he must place his entire reliance on his army and navy, for the mass of the German people will not slavishly carry their loyalty to one who spurns it.

The Russian czar, another of the world's despots, is having a bad time of it just now on account of the widespread dissatisfaction existing among his subjects. He fears assassination and there is a movement against him that permeates all classes and which threatens to cause him much trouble. The despots all over the world are finding much to cause them anxiety in the temper of their subjects, while the republics are peaceful and prosperous. Our president is not worrying the least bit about his personal safety, and he finds no occasion to tell the officers and soldiers of our army that their main duty is to protect him and his from the American people. The contrast between the condition of things in this country and in those ruled over by autocrats serves to show how the desire for liberty is growing everywhere, and how insecurely grows rest in our day on heads that wear them unworthily.

You cannot enjoy perfect health, rosy cheeks and sparkling eyes if your liver is sluggish and your bowels clogged. DeWitt's Little Early Risers cleanse the whole system. They never gripe. Stafford Drug Co. H. N. Meloch, Ishpeming.

THE MOST STUBBORN COUGHS resulting from an attack of la grippe or heavy cold, must yield to the wonderful healing properties of Foley's Honey and Tar, which strengthens the lungs and makes them strong. The People's Drug Store.

For sale by the Stafford Drug Co.

COPPER COUNTRY NEWS.

Additional.] PRESAGES PEACE IN MONTANA.

HEINZE AND THE ANACONDA SAID TO BE ORGANIZING A NEW \$10,000,000 COMPANY.

It is announced at Butte on good authority that the recent big mining transfers by F. A. Heinze and others to the Nipper Mining company are preliminary to the formation of another great mining corporation, with \$10,000,000 capital, headed by O. H. P. Belmont and backed by others of financial prominence. It is stated that some of the properties in controversy between Heinze and the Anaconda company, notably the Nipper, will be put into the new company, and that the Anaconda will take stock for its interest in the property. It is also said that the deal presages a settlement in the near future between Heinze and the Anaconda.

Heinze has purchased from T. L. Hodgins a property for \$40,000, an interest in the L. E. R. for \$30,000, and a half interest in the Nightingale for \$4,000 from Steve S. Raymond. He purchased an interest in the Shawwaer for \$65,000. He also secured the interest of Carlos Warfield and C. R. Leonard in the L. E. R. for \$4,500 each, and for \$128,000 he transferred to the Nipper Consolidated Mining company all of the L. E. R. and the Nipper, a fourth in the Farnell and a half in the Nightingale.

MINE PRODUCTS. The Quincy Mining copper output for March compares as follows: 1901, 1900, 1899, 1898. 3 months, 3,183 2,556 2,591 2,458. The Baltic March output compares as follows in tons of mineral: 1901, 1900, 1899. 3 months, 435 155 249.

COPPER GOSSIP. The directors of the Parrot have declared a regular quarterly dividend of \$1.50, payable April 29 to stock of record April 13.

RED HOT FROM THE GUN. Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil war. It caused horrible ulcers that no treatment helped for 22 years. Then Buckle's Arnica Balm cured him. Cures cuts, bruises, burns, boils, felons, corns, an arm and hand being bruised and cut. Erika was about twenty years old and had not been in this country long.

BACKACHE—NO CURE, NO PAY. Your druggist will refund your money if DeBell's Kidney Pills fail to cure any Kidney, Liver, Bladder or Urinary trouble or any disorders due to Weak Kidneys, such as Rheumatism, Lumbago and Bright's Disease. DeBell's Kidney Pills is a new discovery and the only Kidney remedy sold on a positive guarantee—No Cure, No Pay. Price 25 cents. For sale by the Stafford Drug Co.

NOTICE FOR BIDS UPON SCHOOL DISTRICT BONDS. More than a two-thirds majority of the qualified legal voters of the School District of Ontonagon Township having voted at a legally called special meeting of said district, called and held for that purpose on the 22nd day of March, A. D. 1901, to borrow the sum of Ten Thousand Five Hundred Dollars and to issue the bonds of said District therefor, payable in five annual installments of Twenty-one Hundred Dollars each and to bear interest at rate of six per cent. per annum, payable annually, therefore by virtue of such authority and in pursuance of the provisions of Act No. 176 of the public Acts of Michigan for 1891, and in accordance with the provisions of the Board of Education, Ontonagon, Michigan, and be marked on the outside "Bids for School Bonds." Said Board reserves the right to reject any or all bids.

Said School District is a Township School District and is organized under the provisions of Act No. 176 of the public Acts of Michigan for 1891, and in accordance with the provisions of the Board of Education, Ontonagon, Michigan, and be marked on the outside "Bids for School Bonds." Said Board reserves the right to reject any or all bids.

Since they came into office the Canadian ministers have tried to forget their old disparaging language about our canals, and have lately spoken very favorably of these. But money talks. A picture of our Sault canal, or of some other great Canadian work or scene, should occupy the place given to the American canal. This foreign canal lock depicted on our four-dollar bill is a humiliation to us. That picture is a record of blundering or something worse that will never be forgotten. Specimens of these four-dollar bills will be preserved wherever there is a collection of monetary curiosities. The people of Sault Ste. Marie are deeply offended at the government for its selection of the American canal as the object most worthy of depiction on its new issue.

SCARED DESPOTS. Emperor William of Germany has created a sensation among his subjects by an address which he delivered to one of his favorite regiments a few days ago, in the course of which he hinted at the possibility of a revolt against the imperial authority among his people, and dwelt on what the duty of his soldiers would be if that came to pass. Their duty would be to shed their blood and give their lives if necessary in defense of their emperor and his house, he admonished them, and he expressed confidence in their ability and willingness to put down any uprising that might take place among the people.

It was a singular appeal to come from the ruler of a country in which there are as yet no open indications of revolutionary tendencies among the masses. That he made it argues that the emperor has not the confidence a ruler who knows his motives to be good should have in a people so disposed to loyalty, and so disinclined to adopt revolutionary methods, as are the Germans. The recent attempt by a demented individual to do him personal injury must have unbogged the German emperor's mind, or he would not have been so indiscreet as to insult his own subjects by throwing doubt on their devotion to him and his house.

By showing himself fearful of a revolt against his authority he encourages those among his subjects who may have designs against him, and which he told his soldiers they must keep themselves in readiness to stamp out in blood if necessary, to engage in treasonable plotting, and discloses a want of the kind of courage a man should possess to be fitted for the arduous task of holding together an empire built on the law of force.

It was very unwise on his part, also, to acknowledge, as he did, that he relies for the security of his throne on the power of his army rather than on the affection of his people. Since he expects so little from the great body of his subjects who are in civil life he will give him little in the way of confidence and love. If he proposes to rule by the sword he must place his entire reliance on his army and navy, for the mass of the German people will not slavishly carry their loyalty to one who spurns it.

The Russian czar, another of the world's despots, is having a bad time of it just now on account of the widespread dissatisfaction existing among his subjects. He fears assassination and there is a movement against him that permeates all classes and which threatens to cause him much trouble. The despots all over the world are finding much to cause them anxiety in the temper of their subjects, while the republics are peaceful and prosperous. Our president is not worrying the least bit about his personal safety, and he finds no occasion to tell the officers and soldiers of our army that their main duty is to protect him and his from the American people. The contrast between the condition of things in this country and in those ruled over by autocrats serves to show how the desire for liberty is growing everywhere, and how insecurely grows rest in our day on heads that wear them unworthily.

LAWSON TO SEND A CANOE.

WILL ATTEMPT TO LIFT THE ROYAL CHALLENGE CUP.

Boston, April 3.—Thomas W. Lawson and B. B. Crowninshield will figure in another international aquatic contest, the former as backer and the latter as designer. They will be in the positions of challengers, not defenders, better one except in a first-class newspaper that goes into the homes of all the people? Our circulating medium, especially in the denominations that are most in demand, is a capital advertising medium. The American canal at Sault Ste. Marie is beautifully displayed on the considerable issue of four-dollar bills our finance department will just let loose. Who would travel by the Canadian canal after the Canadian government gave such a certificate as to the superiority of the American lock? It is true that our own canal is a grand work, one of the wonders of engineering science, but the government fancied the one on the other side of the river more. As these four-dollar notes pass from hand to hand, the wistful gaze of those who part with them will rest on the American lock—the gateway through which the government would direct their travels. Since they came into office the Canadian ministers have tried to forget their old disparaging language about our canals, and have lately spoken very favorably of these. But money talks. A picture of our Sault canal, or of some other great Canadian work or scene, should occupy the place given to the American canal. This foreign canal lock depicted on our four-dollar bill is a humiliation to us. That picture is a record of blundering or something worse that will never be forgotten. Specimens of these four-dollar bills will be preserved wherever there is a collection of monetary curiosities. The people of Sault Ste. Marie are deeply offended at the government for its selection of the American canal as the object most worthy of depiction on its new issue.

SCARED DESPOTS. Copper Country Department

(Additional Copper Country on Page 2.)

BRIDGE CONTROVERSY AT END.

RAILROADS AND COUNTY COME TO TERMS AT CONFERENCE.

The special committee of supervisors, appointed at the last meeting of the county board of Chairman John Duncan for the purpose of looking after the county's affairs in the Portage lake bridge matter which concerns the right-of-way over the span, held an important conference with the representatives of the Mineral Range and Copper Range—the two railroad companies involved—in Gray Hair & Rice's office at Houghton yesterday morning.

The object of the meeting was to make satisfactory agreements between all three parties as to the future use of the bridge in regard to railroad companies and also to make clear the county's right in being the sole owner of the structure. The gathering was simply the closing chapter in the bridge tangle which for a considerable time worried the members of the county board, the railroad companies and the legal fraternity. At the last county board session, however, the matter was amicably settled to the satisfaction of all concerned and the finishing touches only—such as terms and regulations between the companies and the county—were left to complete the story.

It was agreed that the Mineral Range road pay \$500 per year to the county for the use of the bridge and assume all perils that may be occasioned by navigation. The Copper Range will use the same bridge and pay the Mineral Range terms as may be agreed upon. If the government requests a wider draw, the county and the railroads will each pay one-third of the cost, but the Mineral Range will still retain its responsibility.

L. M. & L. S. T. Co.'s FIRST BOAT.

The Lake Michigan & Lake Superior Transportation company announces that the first boat on the line to leave Chicago for Duluth this spring will be about April 22. The vessel is expected to arrive at Portage Lake four or five days later, bringing it to Houghton on April 26 or 27. When all conditions are favorable, the boat would naturally make better time, but owing to drift ice it is expected that at least four days will be taken for the trip.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo-Quinine Tablets.

B. Presson, Pressonville, Kans., writes: "Nothing like Foley's Honey and Tar" is the universal verdict of all who have used it. Especially has this been true of coughs accompanying la grippe. Not a single bottle failed to give relief. The People's Drug Store.

HANCOCK COUNCIL TACKLES PAVING

IS DECIDED TO SIT NEXT MONDAY TO LAY PLANS FOR SUBMITTING THE BONDING PROPOSITION TO PEOPLE—CREOSOTED BLOCK SEEMS TO LEAD.

"Shall we pave Quincy street?" "Shall we bond the village for the necessary money with which to pave Quincy street?"

Those were the questions that came up yesterday afternoon in one of the most important council meetings ever held in Hancock, as far as the future interests and welfare of the village is concerned.

It was decided after some discussion to hold a special meeting of the council next Monday, when plans will be made to submit the question of bonding the village for paving purposes to the people, they to decide pro or con. The discussion of paving naturally reverted to the different materials, and all were spoken of, letters read and experiences related. The creosoted wood block, it seemed to be the impression, may be compromised upon, as it appears more in general favor with the council.

MAYOR PREFERENCES ASPHALT.

When asked by The Mining Journal yesterday as to what is his attitude on the paving question since his trip to Chicago and Milwaukee, Mayor A. J. Scott said: "I have not learned anything about asphalt or brick that I did not know before. I have gone through the mill before, and very thoroughly, and although my trip was not made for the purpose of looking into the paving question especially, what I did see and hear was simply a repetition of what has gone before. I have not come back to 'plug' for asphalt. If they want brick, I'll favor it—all I am anxious for is that something be done as soon as possible."

That something should be done and directly is the opinion of the many Hancock people. Nothing was ever accomplished by mere talk, and thus far that is about all that has taken place in the village in regard to the paving proposition. Mr. Scott yesterday again talked in favor of asphalt to The Mining Journal and firmly believes that the material is the only one best adapted for Quincy street. He thinks that in a few years asphalt will be even more popular than it is now, as cities throughout the country are extensively using it.

Nothing definite was said at yesterday's council meeting concerning the paving material, though the creosoted block seemed most favored. Mr. Scott's arguments in favor of asphalt were strong. At the very outset of his remarks, however, he stated that he did not propose to fight for that material, but would be satisfied with the rule of the majority. He emphasized the fact that there is good and bad asphalt—the same as in any

other paving material—and any city in laying it should be careful as to what grade is procured.

When asphalt is ready to put on the street it should be seen that it is spread evenly and, where there is to be heavy teaming, at least two and a half inches thick. A good company—one that can be well relied upon—would see that defects were eliminated, and if asphalt is chosen care should be taken in the selection of the right concern to do the work. The same thing will apply to all other companies dealing in the different kinds of materials for paving.

Mr. Scott stated that he had found asphalt cheaper than brick, a first-class brick pavement being equal in cost to a cheap asphalt pavement. The difference in price between the best grades of each material is considerable. Mr. Scott thinks, however, that the transportation charge on the brick from the East to Hancock would amount to a high figure. It is estimated by a brick company that 2,800 tons of brick are required for Quincy street and the amount would be a big load for any vessel.

COPPERDUM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Deo Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

A. J. Scott of Hancock has returned from his trip to Chicago and Milwaukee.

A meeting of the village council of Houghton will be held at the fire hall tonight.

The supreme court has reversed the decision in the case of the Village of Red Jacket vs. Plinton.

At the Calumet Light Guard Armory last evening, an inspection and drill of Company E, Third infantry, M. N. G., was held.

The funeral of Giles Allan, the three-months-old son of John W. Hunsberger of Hancock, who died Sunday last, was held from the residence Tuesday.

Captain Guillard of Duluth, who has succeeded Major Sears in charge of government work in this district, was in Houghton yesterday visiting Major Marr.

John L. Pasanen has resigned his position with the Finnish Trading company of Hancock and has taken a place in the clothing department of Miller's department store, Houghton.

Three marriage licenses were issued yesterday at the county clerk's office. Those who received them were: Bamis Truitt of the Wolverine and Miss Angelida, Chatel of Laurum; George E. Blue of Hancock and Miss Myra Clever of Houghton, and Wilfred Lagines of Red Jacket and Miss Alice Brunette of Tecumseh.

The funeral services over the remains of Clyde Dunstan, the seven-year-old son of Thomas Dunstan of Lake Linden, who died while an operation was being performed on him for throat trouble at the Calumet & Hecla hospital Tuesday morning, will be said by

Rev. M. Metcalf at the home this afternoon. Interment will take place in the old Lake Linden cemetery.

At the Hancock council meeting yesterday, the plans for the new pumping house station were submitted. Bids will be called for later.

Hancock and Houghton people are taking notice of the fact that the main streets, although muddy owing to spring thaws, are not as bad in that respect this year as they were last. It is owing to the street car tracks, as the water naturally follows the groove made by each rail. At certain places a small ditch leading from the track to the gutters is made which allows the water to run off.

Owing to the melting snow and ice, the thoroughfares both in the villages and in the county at large are not in the best of condition and the several village and township authorities will have their hands full the next month or so getting the roads back into shape. Several of the highways between the villages are said to be in bad condition, the one between Lake Linden and Calumet being the worst. Deep holes at various places are reported to be a feature and it is held that they are not safe for heavy teaming.

A fine location for a dry dock, which has been favorably spoken of as one of the future possibilities for Portage Lake, is said to be at the mouth of the Pilgrim river, about a quarter of a mile east of the Isle Royale mill. An ideal dock, it is said, could be erected there, as the space of ground is plenty large enough. As it is near the river no pumping of water would be required. The current of the stream could be used instead and arrangements made so that the water could be let in and out at will. Thus far the location is the best one yet spoken of for the purpose.

As has been stated before, Secretary W. H. Wing, of the Hancock Y. M. C. A., is exceedingly anxious to have the Portage Lake athletes organize a track team with which to compete with other copperdum teams during the coming summer. It being Mr. Wing's intention to arrange a field day for the latter part of May or the first of June, He would like a meeting of all interested in the project this week, but thus far no date has been set for it. Mr. Wing has found but little time to see all the boys for the purpose of hearing their opinions on the subject and requesting them to be present at the meeting when it is called. As far as The Mining Journal knows, the plan would be heartily in favor with most of the young men who have any particular ability in track team work. The summer will be dull in outdoor sports if something of the kind is not arranged and it would be well for the young men themselves to help out in the matter as best they can—at least by attending a preliminary meeting.

A lazy liver makes a lazy man. Burdock Blood Bitters is the natural, never failing remedy for a lazy liver.

WANTED—A steady barber for steady job at \$14 per week. Apply Century Barber Shop, Houghton. (4-2-34)

AN UNPARALLELED OPPORTUNITY

—FOR—

Cigar Smokers.

TEN THOUSAND CIGARS,

IN BOXES OF 50,

At Prices Less Than Cost.

Such to-the-heart cutting of cigar prices has probably never before been known in the copper country and a similar offer may never again be made. The brands are all well known and the goods standard. Here they are with the prices at which they will go while they last:

TEN-CENT STRAIGHT BRANDS.

Per box of 50.
LaVineda (regular price \$5.00).....\$3.50
Quellette's Havana Smokers (regular price \$5.00)..... 3.50

MILLER'S DEPARTMENT STORE.

BAD STORM IN THE EAST

Pittsburg the Center of a Blizzard That Does Great Havoc.

LOSS IN THE CITY \$250,000.

Other Districts Likewise Suffer from the Heavy Snowfall and Rail Traffic is Blocked.

MUCH DAMAGE TO WIRES.

Pittsburg, April 3.—Pittsburg today was the center of a snow storm that began early in the morning and continued with great force until it had done thousands of dollars' worth of damage, rendering useless for a time every electric wire in the city...

The storm passed to the eastward and all suburban towns in that direction suffered proportionally with this city. Wilkinsburg, Braddock, Homestead, Duquesne and McKeesport all report business at a standstill for a portion of the day...

All the railroad trains from the east are hours late, having encountered in the mountains snow ten to fifteen inches deep. The Western Union and Postal Telegraph companies have suffered heavily.

DENMARK'S ELECTION SURPRISES.

Copenhagen, April 3.—The elections to the folkething have resulted in a sweeping victory for the opposition and an overwhelming defeat for the government. Of 119 constituencies, the opposition, composed of the Leftists and Reformists, have carried twenty-three, the Moderate Leftists fifteen, the Social Democrats fifteen and the Rightist or Ministerialists eight.

NEW ARMOR PLATE PROCESS.

Pittsburg, April 3.—The Carbon Steel Company believes that it has solved the problem of cheaper armor plate. J. W. Anderson, general superintendent of the company, has been at work for a number of years on a secret process of manufacture and information from an authoritative source is that recent experiments made by him were entirely successful and confirmed his faith in the new process.

Talk About It

That's always the way with our Hair Vigor. When persons use it they are always so highly pleased with it that they tell their friends about it.

If your hair is short, too thin, splits at the ends, is rough, or is falling out, our Hair Vigor will perfectly satisfy you.

If your hair is just a little gray, or perfectly white, Ayer's Hair Vigor will bring back to it all the dark, rich color it had years and years ago.

One dollar a bottle. If your druggist cannot supply you, send for one and we will express it to you at our charges prepaid. Be sure and give us your nearest express office.

MORTALITY THIRTY PER CENT.

FAMINE AND TYPHUS RAGING IN RUSSIAN PROVINCES.

Odessa, Thursday, April 4.—Famine and typhus are raging throughout the governments of Kherson and Bessarabia and portions of the governments of Kieff and Taurida. The mortality is 30 per cent of the entire population.

COSTLY PRAIRIE FIRE.

DISTRICT TWO MILES WIDE AND TEN LONG SWEEP IN SO. D. HARON, S. D., April 3.—A prairie fire this afternoon swept over a stretch of country east of the Chicago, Milwaukee & St. Paul railway, starting a few miles south of Virginia and traveling north ten or twelve miles. The burned district is two miles wide. Several farmers have suffered heavy losses. Thousands of tons of hay were destroyed.

BRITISH FURNACES CLOSING.

GLASGOW, April 3.—At a conference of the Lanarkshire coal masters today, it was decided to refuse the striking iron miners' proposals, and a protracted strike is anticipated. Iron furnaces and steel works are closing tonight in several centers, while coal in Glasgow rose six pence a ton today.

PEACE IN INDIANA.

TERRE HAUTE, Ind., April 3.—At the final meeting today between representatives of the six thousand miners in the Indiana bituminous fields and the operators, the miners surrendered to the operators on the claims for the purchase of powder and the threatened strike was averted. By the agreement the miners for a year must buy powder from the operators at \$1.75 instead of in the open market. The mines will resume immediately.

MARKSMEN PICK TEAM.

TO SEND TEN MEN TO BUFFALO AND LATER TO ENGLAND. NEW YORK, April 3.—Owing to bad weather, the Grand American handicap, which was to have been shot off at the Interstate Park today, was postponed until tomorrow.

PLENTY OF IRON ORE YET.

LAKE SUPERIOR REGION HARDLY SCRATCHED OVER SAYS P. M. PRESCOTT OF MILWAUKEE. MILWAUKEE, April 3.—Milwaukee men who have studied the iron mining industry place little credit in the story from St. Paul that the mines of Wisconsin and Northern Michigan will give out within twenty years. Predictions of the failure of the iron mines have been in circulation periodically ever since iron ore was discovered in the Northern country. Yet new iron ranges have been discovered from time to time and the increase, with few exceptions, in 1881 3,000,000 tons of iron ore were shipped out of the iron country, and it was believed by many at that time that the high tide of the industry had been reached. Last year the output was about 15,000,000 tons and is still on the increase, with few exceptions, and there is every reason to believe that there are new ranges yet to be discovered. Even the known ranges are not thoroughly explored, and there is every reason to believe that they contain numerous deposits of ore of which nothing is known at present.

COAL STATIONS FOR THE NAVY.

WASHINGTON, April 3.—The state department and the navy department have agreed to carry out a policy, under consideration for a number of years but not actively entered on until after the Spanish-American war, of establishing a chain of United States coaling stations around the world. It is understood that negotiations are in progress for the acquisition of a station in the Azores from Portugal and for one on the island of Curacao, just off the coast of Venezuela, from Holland.

NEGOTIATIONS ON TO SECURE PORTS IN A CHAIN THAT WILL GIRDLE THE GLOBE.

There is reason to believe also that communications have been exchanged with other governments to secure available places, strategically situated, to be used by the American navy for coal depots. The negotiations with Ecuador looking to the transfer of the Galapagos Islands to the United States have not been dropped. In all these individual cases the state department is endeavoring to acquire sovereignty over the stations desired, and not the mere right to occupy them.

ST. LOUIS ALL DEMOCRATIC.

ST. LOUIS, April 3.—Complete returns show that the entire Democratic ticket was elected yesterday by eight thousand majority. The house of delegates is also Democratic.

AN EXCELLENT COMBINATION.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y. For sale by all Druggists.—Price 50c per bottle.

PHILLIPS HARD HIT.

Big Operators Get After the Young Speculator With a Vengeance.

MONEY ORDER RATES CUT.

IMPORTANT AGREEMENT JUST MADE WITH CANADA.

Washington, April 3.—It is announced today that arrangements have just been concluded between the United States and Canada under which all postal moneys sent between this country and Canada go at the domestic rate of three-tenths of 1 per cent, instead of at the international rate of 1 per cent, as at present. This concession is regarded as more important to the money order business than any action taken since the inception of the system.

CHICAGO COUNCIL REPUBLICAN.

POLITICAL OPPONENTS OF THE MAYOR HAVE A MAJORITY OF 10.

Chicago, April 3.—The city council elected yesterday, which probably will be called upon to decide the question of the extension of the street railway franchises and other public grants worth many millions, is Republican by a majority of ten.

KNOCKOUT FOR KANSAS SALOONS.

TOPEKA, Kas., April 3.—The results of the various elections show that the prohibitory sentiment is still in the ascendency. Numerous cities went straight Republican and in nearly every case the Republican candidates were law enforcement people and their election is counted for a victory for that element.

RESULT AT DENVER.

DENVER, April 3.—Practically complete returns show that Wright, Republican was elected mayor yesterday by about a thousand plurality over Wells, Democrat. The remainder of the Republican ticket had pluralities of 5,000. The board of supervisors is solidly Republican and the board of aldermen consists of nine Republicans and seven Democrats.

ST. LOUIS ALL DEMOCRATIC.

ST. LOUIS, April 3.—Complete returns show that the entire Democratic ticket was elected yesterday by eight thousand majority. The house of delegates is also Democratic.

COAL STATIONS FOR THE NAVY.

WASHINGTON, April 3.—The state department and the navy department have agreed to carry out a policy, under consideration for a number of years but not actively entered on until after the Spanish-American war, of establishing a chain of United States coaling stations around the world. It is understood that negotiations are in progress for the acquisition of a station in the Azores from Portugal and for one on the island of Curacao, just off the coast of Venezuela, from Holland.

NEGOTIATIONS ON TO SECURE PORTS IN A CHAIN THAT WILL GIRDLE THE GLOBE.

There is reason to believe also that communications have been exchanged with other governments to secure available places, strategically situated, to be used by the American navy for coal depots. The negotiations with Ecuador looking to the transfer of the Galapagos Islands to the United States have not been dropped. In all these individual cases the state department is endeavoring to acquire sovereignty over the stations desired, and not the mere right to occupy them.

ST. LOUIS ALL DEMOCRATIC.

ST. LOUIS, April 3.—Complete returns show that the entire Democratic ticket was elected yesterday by eight thousand majority. The house of delegates is also Democratic.

AN EXCELLENT COMBINATION.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

at the same time. The opening was 1/2% lower under a rush of selling and stop-loss orders, with May down to 42. Later it recovered to 43, but again broke badly, selling off to 40% @ 4%, and closed at 41% bid, about 1% lower than Monday. Long corn came out in large quantities, part of the Baltic, and the market was broken in the surrounding pits, weak cables and better weather were the main bear influences. Shorts came in on the decline and brought about the reaction. The exports were liberal, at 751,000 bushels.

In oats there were net losses of 3/4c for April and May and 1/2c for July. The market closed about 3/4c above the low figure. Great excitement and activity attended the rapid movements in the market. There was some liquidation and some short selling. The Southwest sold freely, also local bulls, shorts were the primary buyers on the decline, taking profits.

The leading futures ranged:

Table with columns: Commodity, Price, Change. Includes May Wheat, May Corn, etc.

The movement of flour and grain was:

Table with columns: Commodity, Receipts, Shipments. Includes Flour, Wheat, Corn, Oats.

WALL STREET STOCKS.

New York, April 3.—Today was a record day in many particulars on the New York Stock exchange. The extent and variety of the price movement rarely if ever has been equalled in a bull market, although the crumbling of prices in a panic has occasionally caused wide variations.

The bull element fought unsparringly and through a stunning avalanche of offerings which were hurled upon them on the rise; and they lavished their resources apparently with abiding conviction that the astounding rise in prices, now so long continued, is destined to be indefinitely furthered. That the speculative spirit is still rampant among a large circle of the public was obvious from the large and eager following which was attracted by any show of strength at any point in the list.

It was also a marked characteristic of the market that the dealings were heavy and predominant in a limited number of stocks, and that general speculation was decisively influenced by the movement in these. Two stocks stood out conspicuously even in this list, the price movement in which was astonishing throughout. These are Delaware & Hudson and Rock Island.

Rock Island was under rather severe pressure at the opening and was forced 1 1/2 points under last night. It was not until late in the day that it assumed the leadership of the market, when it was rushed up by rapid stages on the purchases of blocks of a thousand shares to 121, at which point it closed at the extreme rise from the lowest.

There were kindred movements like these elsewhere, both among the grangers and coalers. The buying of the grangers seemed to be based largely on the general consideration of the large earning power of that group of railroads. The movement resulted in an extreme advance of 8 1/2 points in Burlington; in St. Paul & Omaha, 6, with preferred 4, and in St. Paul, 2 1/2, with preferred 3 1/2. The rise in Lackawanna was obviously in sympathy with that of Delaware & Hudson, and extended to 6 1/2. People's Gas became very buoyant at the last and rose an extreme of 4 1/2 points in sympathy with Rock Island. Missouri Pacific went up 3 1/2 and Illinois Central 2 1/2.

There was enormous profit-taking during the day and only a few stocks escaped without serious inroads upon their best prices, the reaction extending to as much as 5 points in Delaware & Hudson and large amounts in other volatile stocks. Call money ruled steady, at 2 1/2 @ 3 per cent.

MORE TAXES FOR BRITONS.

AT LEAST \$100,000,000 ADDITIONAL MUST BE RAISED—BUDGET OF A BILLION IN SIGHT.

London, April 3.—Financial experts estimate that at least \$100,000,000 must be raised by fresh taxation next year, even if \$50,000,000 can reasonably be expected from the existing basis of taxation and another \$250,000,000 be added to the national debt. These figures forecast a budget of \$1,000,000,000. Estimates like these hold out little hope for any class of taxpayers, and considerable consternation is being spread by the area of indirect taxation.

FRANK J. CHENEY.

Sworn to before me this 6th day of December, A. D. 1886.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday:

Table with columns: Commodity, Price, Change. Includes Am Zinc, U.S. Oil, etc.

WHEN BABY HAS THE CROUP.

How many anxious hours are spent by mothers when Baby has the croup. And how many times the anxiety and the tender care go all for naught, because the treatment given is not right. Thoughtful Mothers know the worth of Bunsen's Pine Tar Cough Honey in cases of Croup or Pneumonia and prefer it above all others. Price 25 and 50 cents. For sale by the Stafford Drug Co.

MORE LIGHT ON RICE PLOT.

October next. Jones, according to the defense, was the arch conspirator and Patrick only the innocent tool of the villain. The greatest stress will be laid upon the fact by the defense that Jones is a self-confessed perjurer, and in consequence his testimony and confessions should obtain no credence.

TELEGRAPHIC NEWS CONDENSED.

New York, April 3.—J. Pierpont Morgan called for Europe today on the Teutonic.

Omaha, April 3.—William R. Learn, judge of the police court, died today from apoplexy.

Youngstown, O., April 3.—Mrs. Maria Todd, widow of Ohio's famous war governor, died tonight, aged eighty-eight.

Marseilles, April 3.—Five thousand dock laborers presented themselves for work this morning. Four thousand were employed.

Paris, April 3.—The minister for the marine, M. De Lanessan, has ordered the construction of twenty additional submarine boats.

New York, April 3.—Lazard & Freres have engaged a million in gold bars at the assay office for shipment to Paris by tomorrow's steamer.

Madrid, Thursday, April 4.—Yesterday's cabinet council approved the basis of the treaty of peace and friendship between Spain and the United States.

Danville, Pa., April 3.—Dr. Johnson, a physician at the state hospital for the insane, was stabbed to death tonight by an insane Italian patient named Capello.

Dallas, Tex., April 3.—H. C. Henderson, the self-accused "Cudary kidnaper," today pleaded guilty to the charge of theft and was sentenced to two years in the penitentiary.

Philadelphia, April 3.—The board of directors of the Reading company, at a meeting this afternoon, accepted the resignation of President Jos. S. Harris and elected Geo. F. Baer to succeed him.

Phoenix, Ariz., April 3.—By the premature explosion of a bomb in Senator Clark's mine at Jerome, today, Joseph Izeloff and James Rooney were blown to fragments and several other miners injured.

Beaver Dam, Wis., April 3.—The strike of the employees of the Malleable Iron company was settled today by the state board of arbitration. The men were granted an increase in wages and other concessions.

Paris, April 3.—It is announced at a sitting of the Academy of Sciences that M. Curie, a chemist, has separated a new gas from radium. This gas is intensely phosphorescent, and will glow for months in the dark.

Chicago, April 3.—The threatened tie-up of all the brick yards in the vicinity of Chicago was averted today by the amicable settlement of all the differences existing between the brick manufacturers and employers.

Marion, Ind., April 3.—Victor Shultz, a mail carrier, tonight shot and killed his wife; fatally wounded W. A. Eikenberry, a boarder in the family, who attempted to interfere, and then cut his throat. Shultz and Eikenberry will die; no motive is known.

Omaha, April 3.—A cablegram today announces the death from consumption at Nassau, Bahamas islands, of Captain William W. Marsh, president of the Union National bank of Omaha and treasurer of the Omaha Street railway. He was aged sixty-nine.

Victoria, B. C., April 3.—Oriental advances today are that while demolishing a temple in Peking, some foreign soldiers blew up a large hall with dynamite, two coolies and some soldiers being killed or wounded by the explosion. Four foreigners were found among the debris afterwards.

Springfield, Ills., April 3.—As a sequel to controversy over a land boundary, B. P. Caldwell, a prominent land owner near Manchester, was struck on the head today by I. N. Swartwood, a neighbor, dying soon afterward. Swartwood escaped and is being pursued by the sheriff with bloodhounds.

Washington, April 3.—A cablegram was received at the state department today from Minister Allen, at Seoul, Corea, stating briefly that the McLeavy Brown difficulty had been satisfactorily adjusted. Brown, who is an Englishman, is in charge of the Korean customs, and his removal was sought by Russia.

London, Thursday, April 4.—The correspondent of The Morning Leader at Vienna cables that "at Smyrna, on the strength of rumors that Jews murdered a Greek lad for ritual purposes, ten thousand infuriated Greeks moved on the Jewish quarter. Turkish troops charged the mob with bayonets, one person being killed and fourteen others wounded."

Davenport, Ia., April 3.—The Furniture Manufacturers' association of the Northwest was organized here today, the officers being: President, H. A. Grabel, Clinton; secretary, G. W. Knostmarr, Davenport; treasurer, C. B. Quick, Burlington. Several other Iowa cities were represented at the meeting, also Grand Rapids, Minneapolis and Chicago. The next meeting will be held at Dubuque on the 24th.

Springfield, O., April 3.—George W. Thatcher, charged with forging notes to the amount of \$300,000 on the late P. P. Mast, was arraigned today and bound over in \$10,000 to the grand jury. The Merchants' Association, of which Thatcher is agent, was represented at the hearing and it was stated it will back Thatcher and that it believes the notes genuine, being given by Mast because he could not pay the interest on the balance of the \$600,000 which he secured from the Mercer heirs' estate.

These horrid fits of depression, melancholy, low spirits, and suicidal irritability, that sometimes afflict even good-tempered people are due to the blood being permeated with black bile. HERRINE will purify the blood, restore health and cheerfulness. Price 50 cents. The Stafford Drug Co.

A KANSAS MNISTER.

Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

KEEP YOUR BLOOD CLEAN

Upper Peninsula News.
The Leisen & Henes Brewing company and the Menominee River Brewing company are malting, and this work will continue for several weeks. Both breweries use nearly 50,000 bushels of barley yearly. Part of this cereal is furnished by Menominee, Marinette and Door county farmers, but the greater part is shipped from Chilton, Wis.
Monday evening Alex Stewart of Menominee left for Cape Nome, where he will seek a fortune. Mr. Stewart will spend several months at Dutch harbor in the employ of a sealing company before continuing the journey to Cape Nome. Mr. Stewart was in the United States hospital service at Cape Nome in the spring of 1900, and located several gold claims which he expects to develop.
Bill No. 1024, entitled "A bill to detach certain territory from the township of Spaulding in the county of Menominee and to organize the township of Perron therefrom," has passed the house by a unanimous vote, this in spite of remonstrances from all parts of Menominee county and the adverse resolutions of both the Democratic and Republican conventions. The bill will go to the senate for consideration. It is said that its defeat is likely.
Menominee now has a new city charter which will become operative as soon as passed upon by the legislature, and which has some new provisions that will be economical. It will be sent to the legislature at once for enactment. Some provisions will be of great benefit to the city. Important changes are made, among them being the establishment of a board of library trustees, regulations of the mayor's veto power, and a provision to make tramps work.

D. A. Stewart, formerly treasurer of Dickinson county, who has been working on the organization of a state bank for Norway, has completed the hardest part of his task and he reports that the entire capital of \$25,000 has been subscribed. It will probably be a month before the details in connection with the bank's organization are completed, but it is expected that its doors will be opened for business about May 1. It is said that the bank is assured of a prosperous and successful business.
It is reported that the Chicago, Milwaukee & St. Paul railway will be built to the Niagara river in this season. The proposed route is via Norway, thence across the river at Sand portage, up the river to Niagara and the E. Brown's spur, a point about five miles south of Iron Mountain on the present line of the road, thus forming a loop which will take in the mines at Lake Antoine, Lake Fume, Quinnesec and Norway. This arrangement will cut the road in direct competition with the Northwestern at the principal industries in that section.
There is a movement among Irish Catholics at Escanaba who have been members of St. Joseph's parish for years to separate from that congregation and organize a church of their own, to be presided over by an Irish Catholic priest. Bishop Egan's consent to the proposed change must be obtained and a petition outlining the present conditions and the steps it is desired to take will be forwarded to him within a few days. The Irish American members of the congregation are dissatisfied because the church is presided over by a priest of the Franciscan order who preaches in German.
John Harper, who has been serving in the army of occupation in the Philippines, arrived in Iron Mountain this week, his term of enlistment having expired. He was mustered out Jan. 10. When he landed at San Francisco he weighed ninety-five pounds, but he now tips the scales at 125 and he is the picture of health. During the last few weeks of his Philippine service his company was stationed back from Manila in the interior where it was constantly short of rations. When the company reached Manila after being relieved from duty there were but twelve men fit for duty.

The health department officials of Menominee county, including the city health officer and supervisors, report that there have been 3,900 vaccinations in the county since Jan. 1, and that hundreds are being subjected to the influence of antitoxine daily. Drs. McVoy and Sawbridge were busy at Tulo, Bagley, Carney and Nadeau all last week, vaccinating people. At Tulo one small-pox case has been discovered, and everybody is being vaccinated. Grave fears of a bad epidemic are entertained. The schools in Tulo may be closed. In all parts of Menominee county a general vaccination has been ordered.
Surveys were commenced last week for the extension of the Escanaba & Lake Superior road to Boney Falls, fifteen miles, on the Escanaba river, where a tremendous water power will be developed, and a paper mill built. Chief Engineer Burlington and Assistant H. E. McClintock are in charge of the survey. The extension will be built early in the spring, also an extension of eight miles to penetrate further into the big hardwood tract. Within another year a big paper mill will be built at Boney Falls by the corporation which controls the railroad and the L. Stephenson company. The water power will be developed at an expense of nearly \$400,000.
The Menominee and Marinette Vessel Leaders' union have refused to sign an agreement proposed by the Lumber Carriers' association to work for 45 cents per hour. At a recent conference at Menominee representatives of the Longshoremen's union at the principal points on Lake Michigan discussed matters with the executive committee of the Lumber Carriers' association which was organized in Detroit Jan. 17. The lumber carriers agreed that as freight rates were somewhat lower this year the wage scale should be equalized, not particularly to reduce it in any way. Representatives of the labor unions at Escanaba, Marquette, Gladstone, Masonville, Marinette, Green Bay and Cedar River were there and, on the advice of National President Daniel Keef, agreed to work for 45 cents per hour. The Twin City unions were called into the conference, but refused to be

Wires a Source of Trouble.
Few Copper Quotations Received Yesterday Were Bad.

There was trouble with the eastern wires yesterday and as a result the brokers got but indifferent service over their leased lines. Few quotations came in but they were sufficiently numerous to show that the market was in a poor way. A. R. Jones & Co. said of wheat:
"Monday's bearishness carried over until this morning, enforced by weak cables, fine weather, etc. It brought a sorry opening all round but the break did not stop with the opening. Both July and May wheat opened lower, rallying later, when a second wave of liquidation set in and carried May back to 71½ before the buying set in to rally prices. Everybody wanted to get out of long wheat. Good buying developed on splendid export showing and the market looks right for a smart reaction tomorrow. Buy wheat on the breaks regardless of the calamity howlers."

governed by its action, and boited. The unions will hold a meeting April 6 when their wage rate will be determined. It is certain the rate will be 55 cents or more.
Running sores, ulcers, boils, pimples, etc., quickly cured by Banner Salve, the most healing salve in the world. A sure cure for piles. The People's Drug Store.

J. G. BLAINE OPENS TAILOR SHOP.
New York, April 3.—James G. Blaine, Jr., has opened up a ladies' tailoring establishment here on Thirty-third street, just opposite the Waldorf-Astoria under the firm name of Sheehan & Blaine. His opening up a shop has caused a good deal of talk among New York and Washington society people. It is believed that his action is the result of his reported engagement to Miss Martha Hichborn, the daughter of Admiral Hichborn. Young Blaine has never been in trade before and has always been one of the society leaders.

SMALLEST BABY IN COUNTRY.
New York, April 3.—Mrs. Samuel Smith, who left Patterson a short time ago to live in Newark, has given birth to what is believed to be the smallest baby in this country, if not in the world. The child weighs but fourteen ounces. The tiny mite is the third child born to the Smiths. The eldest, a girl of four, is a perfectly formed and healthy child. The second was born with neither arms nor legs. The little girl just born is perfectly formed.

GERMAN LOAN POPULAR.
Berlin, April 3.—A new imperial 3 per cent loan of three hundred million marks was offered today, and the directors of the imperial bank this evening estimated that the subscriptions amount of over 462,000,000 marks. Numerous subscriptions were received from England, the United States, France and Belgium.

NEW BANK FOR NORWAY.
Iron Mountain, Mich., April 3.—A state bank with a capital of \$25,000 will be organized at Norway tomorrow. Dan A. Stewart, former county treasurer of Dickinson county, will be the cashier.

QUESTION ANSWERED.
Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of anything but August Flower for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of the liver, stimulate the nervous system, and give relief to the system, and that is all they had when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. The Stafford Drug Co.

TODAY'S WEATHER.
Washington, April 3.—The following is the weather bureau's forecast for Upper Michigan: Fair Thursday, warmer in western portion; Friday fair, winds becoming fresh easterly.
Many people suffer untold tortures from piles, because of the popular impression that they can not be cured. TABLET'S BUCKEYE PILE OINTMENT will cure them. It has met with absolute success. Price 50 cents in bottles, tubes 75c. The Stafford Drug Co.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heals burns, cuts, bruises, sprains. Instant relief.
Mothers! Beware of those secret robbers of your baby's quiet and health. Those sleepless nights and long hours of tiresome vigil are caused by those terrible enemies of childhood—worms. Destroy and remove them with WHITE'S CREAM VERMIFUGE. Price 25 cents. The Stafford Drug Co.

Eczema, scald head, hives, itchiness of the skin of any sort, instantly relieved, permanently cured. Doan's Ointment. At any drug store.

MARQUETTE, MICH., WATER BONDS.
The board of Fire and Water Commissioners of the city of Marquette, Mich., will receive at its office in the City Hall, Marquette, Mich., until 6 o'clock p. m. of April 5th, 1901, sealed proposals for \$55,000.00 refunding water bonds, 4 per cent semi-annual coupon bonds, dated April 1st, 1901, due April 1st, 1916, denomination \$1,000.00, principal and interest payable at the office of the city treasurer of Marquette, Mich.
A certified check for \$500.00 to accompany each bid.
The right to reject any or all bids is reserved.
E. B. PALMER, President.
JOHN P. KERN, Secretary.
(3-11-2tw)

Lower Michigan News.

The wholesale slaughter of sparrows in Cass county has resulted in the advent of more bluebirds in that vicinity than have been seen there for many years. Other song birds are also beginning to return in considerable numbers.
San Jose scale has just been discovered on plum and peach trees south of Benton Harbor in Berrien county, and great devastation has already resulted. Milo Jennings will pull up 600 diseased trees at once and John Shouffer will take up a large orchard. Other farmers are losers.

Wheat in Branch county is in excellent condition, having safely passed through the winter frosts. The heavy covering of snow during February and the first half of March completely protected it, and if the Heesian fly does not injure it this spring it will yield well. Farmers report most wheat fields in good condition.

Harvey Cole of Wheatfield, Ingham county, brought down a big golden eagle by shooting it in the wing, but was unable to approach the bird without placing himself in danger of laceration by its beak and talons. He finally solved the problem of getting it home alive by pushing a long stick toward it. The bird grasped the end and hung on tightly while Cole carried it home.

Nothing has yet been heard by his wife from Clyde Francis, manager of the Angelus Publishing company of Detroit, who mysteriously disappeared from that city two weeks ago. Mrs. Francis and her two children are living with her father, a short distance from Portland. They have been there for several months. It is thought possible by his family that Francis may have wandered to Wyoming, where he was located a year ago.
John Zill, a boy aged fifteen years, whose home is in West Bay City, had a peculiar experience the past week. About two years ago he was taken suddenly ill and was operated upon for appendicitis. He seemed to entirely recover. A few weeks ago he was taken with sharp pains in his side. He thought he could feel a sharp point in his side, but not until a few days ago did he venture to make a thorough search for it. He then pulled from his skin a needle an inch and a half long. Zill has no idea how the needle got into his body.

Among the marriage licenses recently issued at Cassopolis was one to Frank E. Tietzort of Volinia and Mary E. Tietzort of Decatur. In May, 1880, this couple was married in Volinia. They lived together for many years, but an estrangement came and they separated and were divorced. In October, 1891, Tietzort was united in marriage to Mrs. Emma Tietzort, with whom he lived until her death. His first wife remained unmarried and the other night the former husband and wife appeared before Rev. F. C. Colvin at Cassopolis and were married, and will commence their journeyman painter at Saginaw quit work Monday morning. This was in accordance with the threat last week if the demands for an eight-hour day at 25 cents per hour were not complied with. The master painters probably agree to this, inasmuch as that the journeymen shall not take contracts. The journeymen contend that some members of the master painters' association never employ outside help, and do all the work themselves, therefore they should not be allowed to be a member of the master painters, on Saturday signed the scale as presented by the journeymen, being the only one to do so. The master painters have expelled him from membership.
Through the suggestion of Captain Chester Harding of the corps of engineers for river and harbor improvements along the east shore of Lake Michigan the \$2,500 has been allotted to the Muskegon harbor on the emergency fund created by the river and harbor bill of last year. This sum becomes immediately available for emergency work on Muskegon harbor and will be used to have needed dredging done as soon as this work can be started. This remains an unexpended balance of \$400 in the fund heretofore appropriated by congress for this harbor. With the \$2,500 above secured will make a total of \$2,900, which is thought to be enough to pay the expense of dredging to keep the harbor channel all right for this year.

Those famous little pills, DeWitt's Little Early Risers, will remove all the purities from your system, cleanse your bowels, make them regular, Stafford Drug Co. H. N. Meloche, Ishpeming.

Perfect womanhood depends on perfect health. Nature's rarest gift or physical beauty comes to all who use Rocky Mountain Tea this month. 35c. The Stafford Drug Co.
V. B. Conklin, Bowersville, O., says: "I received more benefit from Foley's Kidney Cure than from months of treatment by physicians." The People's Drug Store.
It's the little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds. Dr. Wood's Norway Pine Syrup.

Cuts, wounds, burns, sprains and bruises quickly heal if you apply BALLARD'S SNOW LINIMENT. Price 25 cents and 50 cents. The Stafford Drug Co.

\$50 FOR A BOTTLE OF MEDICINE.
This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She was so well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.
Wm. H. Farris.

Park and Cemetery Commission Proceedings.

—Office of the—
Park and Cemetery Commission.
Marquette, Mich., April 1, 1901.
The regular monthly meeting of the Park and Cemetery Commission was held this day at 2 o'clock p. m. at the office of the secretary.
Present, the mayor, Joseph F. Neidhart, and Daniel W. Powell. The meeting was called to order by the secretary.
The president being absent, Joseph F. Neidhart was elected president pro tem.
The reading of the minutes of the last two meetings was passed.
The secretary presented the pay roll and bills for the month of March, properly verified, as follows:
Pay roll, labor, feed for animals, \$137.25
David Murray, 9.00
Mining Journal Co. Ltd., publishing proceedings of the meeting, 2.10
On motion of Mr. Powell, the same were approved and allowed and the secretary instructed to draw orders on the city treasury in payment of same.
There being no further business before the board, the meeting was adjourned.
DANIEL W. POWELL, Secretary.

EASTER FLOWERS.
At Stafford's greenhouses were never better than they are this year. Our cut flowers are strictly fresh and choice. We meet all competition on prices and are prepared to fill all orders. We also offer a very fine lot of blooming plants. Come and see our Easter display. (4-2-17)
GIVEN UP TO DIE WITH CROUP.

Mrs. P. L. Corder of Mannington, Ky., writes: "My three year old girl had a severe case of croup, the doctor said she could not live and I gave her up to die. I went to the store and got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." The People's Drug Store.

Ishpeiming and Vicinity.

J. E. NE COLLINS RESIGNS. A BASEBALL TEAM.

ISHPEMING'S SUPERINTENDENT OF SCHOOLS YESTERDAY TENDERED HIS RESIGNATION AND SAME WAS ACCEPTED BY THE BOARD OF EDUCATION.

The Mining Journal regrets having to announce that Superintendent J. E. NeCollins of the Ishpeiming schools has tendered his resignation, to take effect at the end of the present term.

While in Chicago last week Mayor Braastad, chairman of the committee on teachers, met one of the directors of the book concern and heard from that gentleman's own lips what the firm would offer the superintendent.

The position which the superintendent will take in New York is a very responsible one. As is well known the American Book company is the largest and most important concern of the kind in this country.

During Mr. NeCollins' residence in Ishpeiming he has endeared himself to the people generally. He is a good school superintendent and it is with the deepest regret that the members of the board of education accept his resignation.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling.

During Mr. NeCollins' residence in Ishpeiming he has endeared himself to the people generally. He is a good school superintendent and it is with the deepest regret that the members of the board of education accept his resignation.

William Mennie of Butte is spending a few days with his brother John in this city. Miss Nellie Kane has accepted a position with Kahn & Skud, in their dry goods department.

The Zenda dancing club will give a promenade in Anderson's hall on the evening of April 23. J. H. Mortley can give employment to two or more tailors. He would like vest and pants makers.

Miss Clara Mandeville, a teacher in the public schools, left last evening for a visit with friends in Chicago. The stores will remain open until the close of business this evening, as they will be closed all day tomorrow.

The council will meet this evening to canvass the vote of the city election. The last meeting of the old council was held last evening.

Mr. and Mrs. Andrew Swanson are to be congratulated on the birth of a daughter, who came to gladden their home Tuesday evening.

Miss Eva V. Davis' millinery opening is attracting the attention of many Ishpeiming ladies. She has a very attractive assortment of pattern hats and novelties.

John Mufgur returned yesterday morning from Chicago, where he went to arrange for the shipment of a carload of rail. The consignment will arrive this morning.

W. P. Kinsman, manager of the Ishpeiming Co-operative society, left last evening for Chicago where he will purchase goods for the new Negaunee store of the society.

George Voelker has had erected a sign advertising a very popular brand of whiskey. The sign extends over the sidewalk for a distance of five feet and is illuminated by incandescent lamps.

August Saunders, formerly of S. Johnson & Co's, is at present making collections for several of the merchants of the city. Mr. Saunders has taken a course in that work in the American Police and Secret Service school.

will make a visit to their old home in Sweden together. Miss Sodergren expects to be away for some months.

Alex Erickson, the original bike man, is hard at work repairing disabled wheels. Alex's shop is filled with specimens of the silent steed and those who are thinking of having their bikes attended to would do well to bring them around soon.

The S. M. Stevens' lodge, Brotherhood of Locomotive Firemen are planning for a most enjoyable dance to be held in the rink in Marquette next Monday evening.

Tom Gallagher, who travels in this vicinity for W. J. & H. B. Russell of Appleton, is laid up with an attack of appendicitis and expects to undergo an operation next week.

Our carpet sale is a big success. We are saving patron money on every purchase. F. Braastad & Co.

MILLINERY OPENING TODAY. I take this means of extending to the ladies of Ishpeiming and vicinity an invitation to attend my Easter millinery opening today and tomorrow.

The ladies should inspect our new line of silk skirts. The stock is large and embraces pretty patterns.

WANTED—A good girl for general housework at Dr. G. G. Barnett's. Apply before April 15.

WANTED—At once, a good vest maker and also a tailor to work on pants. Enquire of J. H. Mortley, Ishpeiming.

WANTED—Agents to canvass on portraits and photo buttons. Expenses advanced. Ladies or gentlemen accepted; if the latter, must be steady and sober.

SCHOOL BONDS FOR SALE. ISHPEMING SCHOOL DISTRICT NUMBER ONE.

The Board of Trustees of Ishpeiming School District Number One of the City of Ishpeiming, County of Marquette and State of Michigan, will receive at the office of the Director, at the Peninsula Bank, Ishpeiming, Michigan, on the 10th day of April, 1901, sealed proposals for forty-five thousand (\$45,000) dollars four per cent. semi-annual coupon bonds of said district, dated April 15, 1901, and due in installments of nine thousand (\$9,000) dollars each, on the first day of March in the years 1912-1913-1914-1915-1916; principal and interest payable at the office of the Treasurer of said School District in the City of Ishpeiming.

Said bonds will be issued pursuant to an act of the Legislature of the State of Michigan, approved January 22nd, 1901, entitled "An act to authorize the Board of Trustees of School District Number One of the City of Ishpeiming to borrow money for the funding of floating indebtedness incurred on account of necessary construction of School buildings and for extraordinary expenses and to issue bonds therefor," which act authorizes the issue of \$45,000 of bonds on a vote therefor by the Trustees of said District.

Said bonds will be issued in denominations of one thousand (\$1,000) dollars each, and were authorized pursuant to the terms of said act by the Board of Trustees of said School District at an adjourned regular meeting thereof, held on March 15, 1901. The total bonded indebtedness of said School District at this date is \$30,000. The above bond issue will pay all floating debt. The total indebtedness of the City of Ishpeiming at this date is \$15,500.

The valuation of property in the City of Ishpeiming for purposes of assessment in the year 1900 was \$2,502,500.

The valuation of school property belonging to said School District, buildings and grounds, without furniture or fixtures, is \$15,000.

Wanted issue of said city or said School District has ever been contested. No indebtedness of said city or said School District has as yet been in default.

The population of the City of Ishpeiming by last census is 1,100. The School District comprises the City of Ishpeiming, verified check for \$30 should accompany each bid.

The Board reserves the right to reject any and all bids. Dated Ishpeiming, Mich., March 20, 1901. For the Board, GEORGE HAYDEN, Chairman Finance Committee.

ON THE ANXIOUS SEAT.

THOSE OFFICERS OF THE CITY WHO RECEIVED APPOINTMENT FROM THE COUNCIL ARE SPECULATING ON THEIR CHANCES.

Now that election is over and the excitement it created has died down somewhat, speculation turns on the selections to be made for appointive offices in the gift of the mayor and council. The first meeting of the new council will be held within a few days, probably on the second Thursday of the month.

HUMORS COME TO THE SURFACE.

They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

LOCAL LAOCONICS.

George Maas was in the Queen City yesterday.

Joseph Trathen visited Marquette yesterday.

The mines will all be shut down tomorrow, Good Friday.

The public schools closed yesterday afternoon until Monday.

Ira A. Clark went down to Marquette yesterday morning on business.

Lewis Corbett went down to Crystal Falls yesterday morning on business.

Isaac Isaacson is erecting a large barn in the rear of his property on Peck street.

A number of the local Elks went to Ishpeming Tuesday evening to attend the meeting of the lodge there.

Mrs. J. M. Perkins, Mrs. Samuel Mitchell and Miss Myrtle Mitchell left Tuesday evening on a trip to Chicago.

Mr. and Mrs. Frank Koob, Jr., are receiving congratulations upon the birth of a ten-pound boy, who arrived yesterday morning.

J. C. Mick, heretofore day operator at the South Shore station, has been transferred to the Marquette office. C. B. Taylor takes his place here.

Mr. and Mrs. Bert Jones, who have been spending a few days with Mrs. Jones' parents in this city, returned to their home at Iron Mountain Tuesday.

The snow has entirely disappeared from the road to the Buffalo and the cycle enthusiasts are overhauling their wheels preparatory to the coming campaign.

John McAuliffe has resigned his position as fireman at the electric light plant to accept a similar one at the Negaunee mine. Fred Robart takes his place.

The rumor which was current around town yesterday, to the effect that the Regent mines would start a night shift next week, is declared unfounded by officials of the company.

The "D. B." club held congratulatory services in the club rooms last evening. The occasion was the election of its president, Barney McNally, to the office of school inspector.

George Bennett has resumed his old run on the copper country train over the South Shore. Mr. Bennett is one of the oldest conductors on the road and very popular with the traveling public.

Times are improving. Several local landlords raised the rent on their stores this week. The Savings bank people will have the pleasure of paying \$300 more every year for their store and many other merchants are equally hard hit.

The regular monthly meeting of the Negaunee club was held last Monday evening, when the following applicants were elected to membership: C. B. Driscoll, Harry Nightingale and James Elliott. The club has a membership of nearly seventy and is in a flourishing condition. New applications are received almost every day.

The dance which the S. M. Stevens lodge, B. of L. F., will give in the Casino rink at Marquette next Monday evening promises to be a strong attraction for many dancers of the city. Quite a number are planning to go down, as the dance promises to be one of the most enjoyable ever given in that city.

B. O. Greening has secured an extension of time in which upon peninsula athletes may enter the state contests, from May 14 until May 20. This was granted by the chairman of the athletic board, Harris P. Ralston, as a special favor to the boys of this section, as their meet will not be held until May 18. If Negaunee or Ishpeming win the meet they will very likely be represented in the state contests at Ann Arbor.

TO PREVENT PNEUMONIA AND GRIP. Laxative Bromo-Quinine removes the cause.

EYES ARE ACCOMMODATING. They'll see, perhaps, through a pair of glasses picked from a basket. But nature beats a sheriff in collecting her debts. Bring your eyes to me and have them fitted correctly. Each eye should be tested separately and glasses ground to fit. If your eyes trouble you come and see me.

T. E. LUDLOW, Optician, At Perkins' drug store, Negaunee. (3-29-1m)

For Easter we will have a nice line of Easter lilies, roses, carnations, daffodils, hacinths and other flowers. Artistic designs furnished. Palms and flowering plants always on hand at the Elliott greenhouses, Negaunee. Mail orders have prompt attention. (3-27-tf)

"I have been troubled with indigestion for ten years, have tried many different diets, spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken. I feel more like a boy than I have felt in twenty years." Anderson Riggs of Sunny Lane, Tex. Thousands have testified as did Mr. Riggs. Stafford Drug Co. H. N. Meloche, Ishpeming.

THE WORLD'S IRON.

Our Race With Great Britain for Leadership.

"Four hundred years ago the entire world produced and found use for 60,000 tons of iron annually; today it produces and uses 49,000,000 tons every year, a growth so marvelous as to surpass belief were it not verified by figures which cannot be disputed. Four hundred years ago the United States was not in existence; in 1855 iron ore was discovered in what is now North Carolina and the first attempt to manufacture it was made in Virginia in 1818. In 1843-45 a blast furnace was built at Lynn, Mass., and three years later a forge was erected. Interference by legislation of the British parliament stopped the work for a time but it was resumed later, and in 1740 1,000 tons of iron were produced. In 1790 the United States gave to the world 30,000 tons of iron, and was exceeded among iron producing countries by Great Britain, France and Germany. In 1880 it produced 40,000 tons, and in 1890, after a Titanic race of over 100 years, we forged to the front and led the leader of the world of nations with the production of 9,202,703 tons, an increase over the British output of 1,308,489 tons. We held the lead for three years, but in 1884 we lost it to gain it again in 1885, to lose it in 1886, but in 1887 we led again, and again in 1888, and in 1889, with our output of 15,629,703 tons, exceeding that of Great Britain by 4,315,384 tons, we have put our great competitor out of the race. This excess over Great Britain's product is greater than our entire annual output of but fourteen years ago. Verily for the youngest of the great nations with the production of 9,202,703 tons, an increase over the British output of 1,308,489 tons. We held the lead for three years, but in 1884 we lost it to gain it again in 1885, to lose it in 1886, but in 1887 we led again, and again in 1888, and in 1889, with our output of 15,629,703 tons, exceeding that of Great Britain by 4,315,384 tons, we have put our great competitor out of the race. Verily for the youngest of the great nations with the production of 9,202,703 tons, an increase over the British output of 1,308,489 tons. We held the lead for three years, but in 1884 we lost it to gain it again in 1885, to lose it in 1886,

BUYS 200 FEET MORE PIPE.

New Forty-Two Inch Intake Will Now Be Extended That Additional Distance.

GILLESPIE AND COMPANY WILL FURNISH THE MATERIAL.

Original Intention of Building Crib at Outer End Has Been Given Up and the Pipe Will Be Firmly Anchored in the Bed Rock.

WORK SHOULD BE UNDER WAY JUNE 1.

The board of fire and water commissioners has ordered 230 feet of forty-two inch pipe from Gillespie and company of Pittsburgh, it being the intention to extend the proposed new intake that additional length. There is now on the ground at the pumping station 2.5 feet of pipe supplied by the Rochester Bridge & Iron works.

Both Gillespie and company and the Rochester Bridge & Iron works were wired queries as to how soon they could supply the additional pipe. The latter concern wanted a couple of months time and the Gillespie people promised to have it on the cars at Pittsburgh by May 1. Their proposition was accepted. The pipe will cost \$5.75 a foot at Pittsburgh and the transportation charges will amount to 34 cents per hundred pounds. The contract price for the 600 feet now on the ground was \$5.99 per foot, delivered in Marquette.

When the improvement is completed Marquette will have intake capacity ample for a city of a couple of hundred thousand people, as it is estimated that it would be possible, if it were necessary, to pump daily 35,000,000 gallons of water through the two intakes, which will have a combined diameter of sixty-six inches. As the capacity of the present pumping plant, 6,000,000 gallons daily, is not taxed it may be seen that the improvement will give Marquette a big margin for growth. When it is completed the only change that new conditions may require will be a further extension of the new forty-two inch pipe.

WILL BE NO CRIB.

The fire and water commissioners first figured on building a crib at the outer end of the new intake. They have decided to forego this plan and to anchor the end of the pipe on the bed rock of the lake bottom. This change has been approved through the advice of F. W. Cappellet of Minneapolis, who has just departed for his home after a couple of days' consultation with the board. Mr. Cappellet is preparing the specifications for the contract of laying the new intake.

He has had experience with cribs at the outer extremities of feed pipes for pumping stations and he has found them unsatisfactory in the winter season. He strongly advised the board against pursuing its original plan of building one and demonstrated by outlining certain facts that had not occurred to the members that his suggestion that the cost of the crib be expended in a further extension of the proposed new intake was sound. Accordingly the crib was given up and the additional pipe ordered. It will cost somewhere about \$1,400 or \$1,500, this being approximately the sum which would have been required for the erection of the crib. Thus the change in the plans is to be attended by no increase in the expense of completing the improvement.

Yesterday Superintendent Kern was busy taking soundings over the line where it is proposed to lay the new pipe. He ascertained that by leading the second intake a little south of the pipe now in use its outer end will be 24 feet 4 inches of water, whereas the present pipe lays in but 22 feet 8 inches. At the point where the end of the new intake will rest there is a clean bottom of bed rock to which it will be firmly anchored.

BY JUNE 1.

Work on the improvement should be under way by June 1. The board will advertise for bids on the contract of laying and trenching the pipe as soon as the specifications are received from Mr. Cappellet and it is not anticipated that these will be long forthcoming. The work will not be surrounded by any unusual conditions or difficulties and there should be a fair number of bids, among which it should be possible to find an acceptable proposition.

Advertisement for Bigelow & Co. Jewelers and Stationers, featuring cut glass and sterling silverware at cut prices.

The contract should be let some time in the middle or latter part of May. It is anticipated that Gillespie and company will fill all the terms of their agreement without delay. They were bidders on the original 600 feet of pipe and if they had been awarded the contract it is likely that all the annoyances consequent on letting it to the Gillette-Herzog people of Minneapolis would have been avoided. There is no particular hurry about the intake now as the board has all summer in which to prepare for the next winter season. Nevertheless, it will be the policy to get the pipe under water with the greatest possible expedition.

GETS COUNTY SEAT.

That of Alger Will Be Removed from An Train to Munising.

Munising will henceforth be the county seat of Alger. It was a foregone conclusion that the proposition to move the county offices there from Au Train would have the approval of the voters. The majority in its favor is said to be approximately 200 votes. The change will be a good thing for Munising as it means that the considerable business incurred in transactions with the county officials will be conducted there, while the erection of a new county building is one of the necessities of the change. The Cleveland-Cliffs people settled any question of the removal when they gave the proposed change their endorsement. Then there is no logical reason why Au Train should have the county seat. It is a few minutes ride from the station, and Munising people are pleased with the outcome of the election. They think they have captured a considerable plum.

IN A SECOND-LIFE BOAT.

Lake Shore Engine Works Will Install One of Its Motors.

The Lake Shore Engine works were commissioned this week, by the United States government, to install another of their 12 horse power engines in a thirty-four-foot fibronaut similar to that in use at this station. The boat will be shipped here in the course of the next ten days and, after the engine is installed, will be sent to one of the lifesaving stations in the east, probably on the Atlantic coast.

The "Superior" engine is acquiring an enviable reputation at many points. The company received a letter this week from a gentleman who has been cruising in Cuban waters. He writes as follows: "The little engine received much favorable comment in Havana harbor. The Spanish health and customs officials abandoned their own boat, and visited the boats in port in my vicinity. I went with them, and in a few minutes had them each instructed as to the manner of running the engine. They were greatly delighted with the ease with which the boat was handled and, like children with a new toy, took delight in visiting the different vessels in the harbor and displaying their efficiency as engineers."

CONFIDENT OF PROSPERITY.

Munising People Expect Great Things of the Cleveland-Cliffs People.

A big party of Cleveland-Cliffs Iron company officials visited Munising a few days ago, meeting the citizens of the village and talking over matters of common concern. The visitors gave the residents of Munising assurances of plans for the future which made them confident of the continued prosperity of their home city. The Munising News quotes President W. G. Mather as follows:

"It will be the policy of our people to build up Munising. We have over \$1,000,000 invested here, and Munising is the natural distributing point of the products of our possessions in this vicinity. We own a great deal of valuable land in Munising, and of course the development of her resources and the growth of the land itself means an increase in the value of our property here and that is what we want to see."

"It is our intention to put a man on the road next summer whose business it will be to induce new industries to locate here and who will bring settlers in. We have a vast area of some of the finest agricultural lands to be found anywhere and these lands will be placed within easy reach of all those who wish to come here and build homes for themselves. The time is coming when the agricultural resources of the upper peninsula will be an important factor in its development. We need factories and wood-working enterprises to work up the timber, and there is an unlimited supply, and there is a magnificent harbor here. Bringing shipping by water in competition with the railroads will assure manufacturers cheap freight rates. We want mills here but we believe that other wood-working industries are of more lasting and permanent benefit to the community. In fact it is our intention to open up all the timbered territory in this vicinity, but of course it will take a little time to accomplish this. It cannot be done all at once. It is not our policy to start up a boom and announce that we intend erecting a furnace here one day and having it knocked in the head the next, but we do intend to promote a healthy growth which will be permanent by inducing various kinds of industries to locate and work up the timber. We are not in that line of business ourselves. We prefer others to come here and manufacture the hardwood."

"We intend to convert Grand Island into a summer resort. Of course this will take a little time but now that we have acquired about the entire island we shall soon be able to carry out our plans in this respect. We may not immediately begin the erection of a large summer hotel as has been rumored but you can say that we will establish a resort there."

"We will have a connection with the Marquette & Southeastern railroad by the first of September," continued Mr. Mather, "and this will give you direct communication through to Marquette and Ishpeming and will open up a fine stretch of territory. On the east branch we will soon have one hundred and fifty men at work and that means a population of about three hundred in the wood camps. We want your merchants to have that trade. There is no reason why it should not come to Munising as well as to go to some other place. What you need is complete harmony and unity and the ut-

most good feeling among your citizens so that all can pull together for the welfare and advancement of the village."

WORKING DAY AND NIGHT.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changes weakness into strength, listlessness into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25c per box. Sold by the Stafford Drug Co.

CITY BREVITIES.

Weather forecast: Fair, probably followed by rain, increasing easterly winds.

Yesterday's temperature: 7 a. m., 38 degrees; noon, 41 degrees; 7 p. m., 38 degrees. Maximum, 47 degrees; minimum, 37 degrees.

H. O. Young was down from Ishpeming yesterday.

F. A. Bell of Negaunee transacted business here yesterday.

A regular meeting of the Merchants' association will be held in the band room of the city hall Friday evening at 8 o'clock.

Miss Mable Murphy, who has been visiting relatives and friends in Chicago the past three months, arrived home yesterday.

All those who have donations for the Epworth League bazaar will please leave them at the church parlors during the forenoon.

Miss Charlotte Reichman, of the corps of high school instructors, left for Chicago last evening to spend the short Easter vacation.

Don't forget the handkerchief sale held by the ladies of the Epworth League in the M. E. church parlors this afternoon and evening.

County Clerk Ross issued marriage licenses to Emiel Van Linden and Antonia Van Olden of Marquette and Fred D. Libby and Emma Mercier of Champion yesterday.

Frank Hoard is to move his bicycle repair shop to the Pendell block on Superior street. It is at present located in the building adjoining the Hotel Clifton on the south.

The second dance in the series of subscription parties will be held at Fraternity hall next Wednesday evening. As it is the first assembly dance to be held after Easter Sunday it is expected that the attendance will be unusually large.

There will be no school sessions today and Friday, the holidays constituting the Easter vacation, which is shorter than usual this year on account of the extra time taken at Christmas. Work will be resumed in all departments Monday.

J. M. Longyear lost a valuable team of horses at the Yellow Dog river a number of days ago. They were hauling wood over the ice and they went through the treacherous footing. It was impossible to rescue them. The ice had been weakened by the soft weather.

The breakup is about an accomplished fact. Sleights and cutters have given place to wagons and carriages as the snow has practically disappeared about the city. In the woods the roads are beginning to show the effects of the continuous thaw and what little sleighing is left is very poor.

March was an average month as far as temperature was concerned. The mean temperature was 24 degrees, compared with 23.1 degrees for a period of thirty years. The precipitation was 2.72, compared with an average precipitation of 1.98. There were but four clear days in the month, eight being partly cloudy and nineteen cloudy.

Jacob Rose calls attention to a very instructive exhibit at his store of the process of manufacture in its various stages, of the celebrated Soroasis shoes, showing the amount of hand work and the skillful methods employed in the manufacture and finishing of that make of woman's footwear. He extends a cordial invitation to everybody to see the exhibit.

An Easter gift is quite as essential to the happiness of the children as are their Christmas presents. The ladies of the Baptist church will have on sale at the church parlors next Saturday afternoon and evening many things suitable for such gifts—decorated eggs, toys, candies, etc., besides fine baking, cakes, rolls, and articles of needle work and fancy work.

The Michigan College of Mines' Glee and Mandolin clubs will be heard at the Marquette opera house at an early date. There are twenty-six members in the glee club and twelve in the mandolin club. The program will consist of a diversity of vocal and instrumental selections in which all tastes will find something to enjoy. In the second part the members of the club will be attired in their mining clothes.

The council holds its regular April meeting this evening. It will also be the last session of the old council. The vote in Monday's election will be canvassed. This formality of endorsing Recorder Donovan's figures will occur in the recorder's office, after which the aldermen will proceed with the consideration of the regular business upstairs. The first session of the new council will be held on the call of Mayor-elect Mangum. Its date will depend on the time when he completes his slate of appointments and committees.

Your dollar will go farther here (quality considered) than any other store in town. See our new spring suits for men and boys. GODDING & ORMSBEE, 127-129 Washington St.

Sampson—I believe women should be treated same east as west. How is that? Why, give them Rocky Mountain Tea, the greatest spring blessing women have. 35c. The Stafford Drug Co.
