## THE DIFFERENCE

Between ready-made and ready-to-wear is very marked.

The first is made ready to be worn, regardless of either style or fit; the second is ready-to-be-fitted properly, to the taste as well as to the form of the wearer, and that's the STEIN-BLOCH CLOTHES.

The man who does not know Stein-Bloch clothes does not know how perfectly and fashionably he can dress for a small price, for he can buy

Suits, . \$15.00 to \$25.00  
Top Coats, 15.00 to 25.00

## CZAR SENDS GREAT ARMY

Will Have 300,000 Men in Manchuria by the End of May.

## NEW CRISIS AT PEKIN

Punishment of Boxer Leaders Finds an Obstacle in Russia's Protection of Prince Tuan.

## WARNING BY WALDERSEE.

London, Friday, April 5.—"By the end of May," says the Daily Graphic's correspondent at Moscow, "the Russian army in Manchuria will number three hundred thousand men. It is understood the Russian minister for war reckons upon the possibility of having to dispatch an army corps southward into Corea."

## CHINA'S REFUSAL NOT FINAL.

The Reuter Telegram company has received the following dispatch from Pekin: "China's rejection of the Manchurian convention appears to be of a rather temporary nature, leaving the matter still open to future discussion."

## RUSSIA STANDS BY TUAN.

PUNISHMENT OF BOXER LEADERS AGAIN THE ISSUE AT PEKIN

Berlin, April 4.—The Pekin correspondent of the Frankfurter Zeitung wires the substance of an interview he had with the German minister to China, Dr. Munster von Schwartzstein, who is represented as having said that great difficulty was caused by the question of punishing the guilty. Russia will not abandon Prince Tuan, because she owes Manchuria to him. It is impossible to designate Prince Tuan as a rebel, inasmuch as the emperor dowager is still so powerful. She will continue to direct with Prince Tuan China's future fate. The developments regarding Prince Tuan's negotiations with Russia fully explain the impossibility for Russia to abandon him.

## SENDS APPEAL TO KAISER.

London, Friday, April 5.—The correspondent of The Daily Chronicle at Berlin cables that "Count von Walderssee has sent an urgent telegram to Emperor William imploring him to endeavor to hasten the negotiations for the withdrawal of the allied troops on the ground that it is impossible to prevent quarrels between the soldiers of the different nationalities which might at any moment lead to serious trouble."

## PUZZLE FOR WASHINGTON.

CHAFFEE ASKS INSTRUCTIONS AS TO RAISING OF FORTS AND ESTABLISHMENT OF POSTS.

Washington, April 4.—General Chaffee has cabled the war department from Pekin that the military commanders representing the foreign powers there are now considering the question of disposing of the Chinese forts and establishing fortified posts at proper intervals along the route from Pekin to the sea. He seeks instructions for his guidance.

A rather difficult question is involved in General Chaffee's request for instructions. As to the treatment of the Chinese fortifications, no particular difficulty is involved, for the state department has clearly set out its view that these should not be destroyed, but simply dismantled. As to the establishment of posts, it is probable the United States will, on its part, persist in the policy of declining to maintain a permanent military establishment in China.

Meanwhile the war department is pushing its preparations for the complete evacuation of China by the American forces, save only the legation guard, and it is now stated that everything will be in readiness to embark General Chaffee's army at Taku for Manila on May 30.

## POLICY IS DETERMINED.

Later—This evening, after the subject had been well considered at the White House as well as at the state and war departments, instructions were cabled to General Chaffee.

The text of these is withheld, but it is stated they were drawn upon the lines of the instructions sent to General Conger at the time he accepted the joint agreement under which the negotiations of the ministers at Pekin were to be conducted. It so happened that the reservations which Mr. Conger was to make in that case were precisely the subjects which are now before the military commanders at Pekin, namely the destruction of the Chinese fortifications and provisions for armed international posts along the route from Pekin to the sea.

General Chaffee, as already indicated, favors the disarmament of the forts, instead of their destruction, but cannot participate in the establishment of armed posts. He will, however, remain in conference exerting his best efforts to ameliorate the conditions along the lines indicated.

Coffeyville, Kan., April 4.—Unknown persons broke into the city jail last

night and stole several gallons of whiskey and other liquors that had been captured in a "joint" Monday.

## FOILED BY COLLEGE PRESIDENT.

INTERRUPTED ELOPEMENT OF FIVE YOUNG LADIES THE SENSATION IN KENTUCKY.

Chicago, Friday, April 5.—The correspondent of The Chronicle at Owensboro, Ky., telegraphs as follows: A sensation that happened at Bowling Green last Saturday night held the undivided attention of the grand jury today and became public property despite the utmost endeavors of many people of influence to have the details kept secret. The affair comprehends the interrupted elopement of five young women from Potter college, Bowling Green, one of the prominent seminaries for young women in the South.

About midnight, five young men, all members of wealthy families, drove in carriages to the college and, with leaders, aided four of the young women to leave the building by climbing through second-story windows. While assisting the fifth to reach the ground, the young men made so much noise that President Cabell was roused. Seizing a shot gun, the president began shooting at the young men, who returned the fire. Two of the young men were wounded, but the president was not hurt. The girls screamed, but returned to their rooms and the swains went away without them.

The girls are members of the best families in Kentucky and it indicated

## HAVE PAPER VALUE OF OVER \$1,000,000.

Railway Bonds, Thought to Have Been Deposited in 1873 to Cover Treasurer Gage's Shortage, Found in a Chicago City Vault.

Chicago, April 4.—Bonds having a paper value in excess of \$1,000,000 were found today in a vault in the office of the city comptroller by members of the accounting firm of Harkins & Sells, which is engaged in some expert work on the books of the city of Chicago.

The bonds were issued in 1873 by the Chicago & Great Western Railroad company, a corporation which never had any connection whatever with the present Chicago Great Western Railroad company. They bear 7 per cent interest and will mature in 1902. They have undoubtedly remained in the vault ever since the present city hall was first used.

There are 249 bonds, each being of the denomination of \$1,000, and payable at the office of the Farmers' Loan & Trust company of New York. The first two interest coupons upon each of the bonds had been cut off. The first coupon on the bonds called for the pay-

## KRUGER CONSIDERING IT.

STATES HE MAY MAKE A VISIT TO THE UNITED STATES.

Paris, Friday, April 5.—The Matin's correspondent at Utrecht says: "President Kruger, in the course of an interview today, said that nothing had been decided on the subject of a visit to the United States, but he would undertake it if his strength permitted and if he could hope for some advantage to the cause."

## BOTHA'S LETTER PUBLISHED.

London, April 4.—The letter of the Boer commander-in-chief, General Botha, to Lord Kitchener, preliminary to the peace negotiations, from which the opponents of Colonial Secretary Chamberlain hoped to obtain some clue to the reason for the failure of the conference, was published as a parliamentary paper this morning. The letter fails to throw light on the failure of the conference.

## PLAGUE SITUATION BETTER.

Cape Town, April 4.—Two deaths from the bubonic plague and one suspected case were officially reported today, the lowest record since the outbreak of the disease.

## WITH MULES FOR BRITISH.

New Orleans, April 4.—The steamer South American cleared today with a thousand mules for Cape Town.

## GOULD INJUNCTION DISSOLVED.

COUNTRESS DE CASTELLANE TO BE PAID HER ENTIRE INCOME.

New York, April 4.—The appellate division of the supreme court today handed down a decision dissolving the injunction in the case of Anton J. Ditmar against George J. Gould et al. trustees under the will of Jay Gould. The case was before the court of appeals on an order continuing the injunction granted by Justice Fitzgerald which limited the amount to be paid to Countess de Castellane to \$300,000 per year pending the trial of action. Under the decision of the appellate division, the trustees may pay the countess her entire income.

## TO BUILD CRUISER MILWAUKEE.

THREE BIDS FROM TWO FIRMS OPENED AT WASHINGTON.

Washington, April 4.—Bids were opened in the office of the secretary of the navy today for the contract to build the protected cruiser Milwaukee, otherwise known as protected cruiser No. 21. There were two bidders and three bids, those of the Union Iron works, San Francisco, and Cramp & Sons, Philadelphia, the latter firm submitting two separate proposals. The Union Iron works offered to com-

plete the cruiser in thirty-six months for \$2,825,000, according to the department's specifications.

Cramp & Sons proposed to build the ship for \$2,740,000, the total available sum at the disposal of the department, on the condition that the secretary will apply to congress for an appropriation of \$300,000 additional to bring the total up to \$3,040,000, claiming it is impossible to build the required vessel for less than the latter sum.

The second bid submitted by the Cramps is, in the event of the fact proposal being rejected, to build a smaller cruiser and a slower one for the \$2,740,000 available.

## WANTS AUTOPSY PERFORMED.

LADY COOK ASKS THAT BODY OF HUSBAND BE EXHUMED TO QUIET SUSPICION AGAINST HER.

London, Friday, April 5.—The Echo says it understands that, in consequence of certain unpleasant rumors, Lady Cook, widow of Sir Francis Cook (formerly Tennie C. Clifton), has applied to the home secretary to have the body of Sir Francis exhumed. Sir Francis Cook died Feb. 17. The friends of Lady Cook say the false stories have been circulated by a person not related to Sir Francis but who was disappointed at not being remembered in the will. Lady Cook desires that the exact autopsy of her husband's death, which was senile decay, shall be officially certified to her so afterwards nothing can be alleged against her. The relations between Lady Cook and her late husband's family are quite cordial.

## TODAY'S WEATHER.

Washington, April 4.—The following is the weather bureau's forecast for Friday: Partly cloudy Friday; Saturday, rain; variable winds.

## MEET WITH REVOLVERS

Feud Between Two Oklahoma Women Culminates in a Duel.

## ONE IS BADLY WOUNDED.

Anxious for Recovery, However, That Battle Be Renewed and Husbands Are Looking for Each Other.

## WHOLE TOWN TAKES SIDES

Chicago, Friday, April 5.—A special dispatch to The Record-Herald from New Kirk, Oklahoma, says: Mrs. Eliza Seiglin and Mrs. Daughson fought a duel with revolvers at twenty paces today. Mrs. Seiglin is now in a hospital dangerously but not necessarily wounded. Two of her opponent's shots lodged in her breast, but she is able to talk volubly and is anxious to recover that she may again fight Mrs. Daughson.

The duel grew out of a long-standing feud between the women, jealousy being the original cause. Mrs. Seiglin has frequently endeavored to arouse the temper of her neighbor by various means, the most effectual being the claim that she (Mrs. Seiglin) could take Mrs. Daughson's husband away from his wife any time she wanted.

## SEVERAL SHOTS EXCHANGED.

Mrs. Daughson finally appealed to the courts, and this forenoon Mrs. Seiglin was fined \$300 for trespassing upon the Daughson property and inciting trouble. As soon as she paid the fine Mrs. Seiglin drove to the Daughson home and invited her rival to come out and fight a duel. Mrs. Daughson promptly accepted the challenge and came out armed with a revolver. The women faced each other at fifty feet and began shooting, the signal being given by the daughter of Mrs. Seiglin, who accompanied her from town. Each fired three shots without effect. Then Mrs. Daughson got the range and fired two shots in quick succession, both striking Mrs. Seiglin in the breast. She fell and Mrs. Daughson assisted in carrying her into the house, where a physician dressed the wounds, after which she was conveyed to the hospital.

Now the husbands of the women are seeking each other, vowing to kill on sight. The partisans of each woman are also furnishing up their weapons and seeking an excuse to shoot somebody.

## BLOODLESS LOUISVILLE DUEL.

Louisville, April 4.—General John B. Castleman, colonel of the First Kentucky regiment and later appointed by President McKinley a brigadier general of volunteers, and Walter B. Forrester, managing editor of the Louisville Commercial, fought a bloodless encounter on the street today. Bad feeling was developed between them during the Spanish-American war.

## STRAIGHT KILLS FOR FORTY.

201 SHOOTERS TAKE PART IN THE GRAND AMERICAN HANDICAP.

New York, April 4.—The shoot for the Grand American handicap, which was postponed from yesterday, began this morning and was continued to dusk this evening. With the exception of a brief interval in the middle of the day, the shooting at live birds kept up without interruption, nearly five thousand birds being trapped. The weather conditions were anything but conducive to the comfort of the gunners, 201 of whom tried conclusions for championship honors. When the shooting was discontinued this evening there were twenty men with straight scores of twenty kills each and fifty-three with nineteen each.

Those with clean scores were: Stevens, Guilford, Conn.; Pearce, Jersey City; Naumann, San Francisco; Knowlton, New York; Fox, Baltimore; Jones, New York; Pierce, Wytheville, Va.; Duncan, Louisville; Gilbert, Spirit Lake; Bond, Jessup, Md.; Boss, New York; Emmers, Royersford Pass; Morrison, St. Paul; Von Longere, Chicago; Townsend, Omaha; Henry Newark; Gottlieb, Kansas City; Mackay, Minneapolis; Quimby, Newark; Alabaster, Chicago; Merrill, Milwaukee; Schimmel, Eaton; Johnson, Atlantic City; Hoffman, New Germanstown; Barto, Chicago; Comstock, Racine; Parmalee, Omaha; Altire, Woodlyn, O.; Poole, Portofino; Feigenbaum, Newark; Wagner, Washington; Lockwood, Jamaica; Trunbauer, Royersford; Griff, New York; Gekler, Philadelphia; Von Longere, Orange, N. J.; Hickman, Kansas City.

## BULLET MISSED THE CZAR.

ANOTHER ATTEMPT AT ASSASSINATION, FOLLOWED BY SUICIDE, THE STORY FROM VIENNA.

London, April 4.—A dispatch from Vienna says the report is published there that an officer of the Gendarmerie entered the czar's study yesterday and fired at him with a revolver, that his majesty was not hit and the officer committed suicide. The story is doubted.

READY TO ACCEPT IT.

The railroads, through their legal representatives, have in an informal way notified the legislature that they will make no fight against the enactment of a law providing for the taxation of railroad properties on an assessed valuation.

In discussing this question some time ago The Mining Journal predicted that a law to tax railroads and other corporations of a kindred nature on their assessed valuation would be passed by the legislature at this session.

The railroad people do not concede that the ad valorem plan is the better one for the purpose of taxing railroad properties and others in the same class.

may be fully and fairly tested. There should be no juggling with the people in this matter, for all they want is fair taxation for all classes of property in the state.

CAUGHT A DREADFUL COLD. Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1638 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day."

ICE IS BREAKING UP. The Great Lakes Will Soon be Open for Navigation.

Following is the weather bureau's summary of the present ice conditions on the great lakes: "The reports indicate that the ice is breaking up over the Superior, while over the east portion the field extends from Marquette to Whitefish point. There has been no material change in the St. Mary's river, except that the ice field has moved away from the mouth. In Green Bay the ice is slowly melting but the cold night has stiffened the ice somewhat.

COPPER COUNTRY NEWS.

[Additional.]

COPPERDOM BREVITIES. Rev. R. M. Scott, of the Portage Lake Baptist church, will arrive at Hancock this week with his family from his old home in Minnesota.

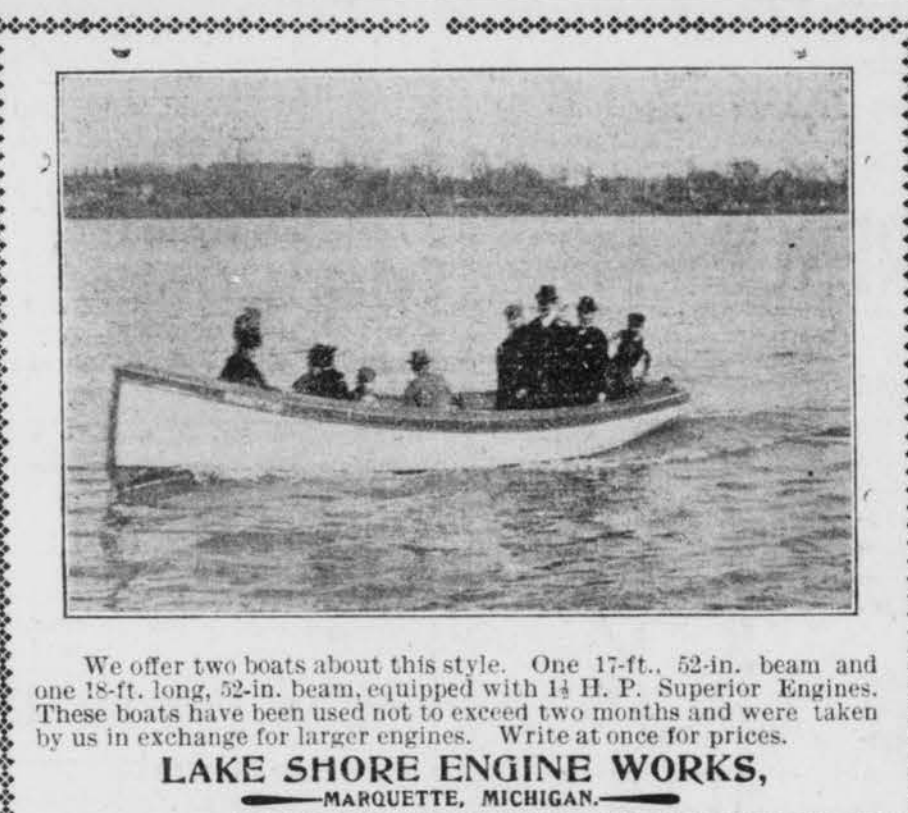

This is the time of the year when the graduating classes of the several high schools throughout the county are preparing for the all important day in June when the seniors graduate.

The Copper Country Humane society is now a permanent organization and from now on will exert all its power toward making the lives of dumb animals in copperdom easier than those of men.

The copper country boys of the Thirtieth regiment, which recently reached San Francisco after service in the Philippines, are expected here about Tuesday of next week.

At the meeting of the village council of Hancock Wednesday afternoon when the paving question came up for discussion, it was estimated that the cost of paving per front foot would be \$3 for any material.

When asked yesterday as to the library project, mention of which has been made before in these columns, Mayor A. J. Scott of Hancock, who recently sent a request to Andrew Carnegie for a donation for the establishment of such an institution, remarked that he thought the village needs a "stronger pull" before the money is forthcoming.

We offer two boats about this style. One 17-ft., 52-in. beam and one 18-ft. long, 52-in. beam, equipped with 14 H. P. Superior Engines.

LAKE SHORE ENGINE WORKS, MARQUETTE, MICHIGAN.

thought he will be favorably inclined toward helping the village in that respect. The steel magnate will certainly find that Hancock is well prepared to maintain a library.

There is a rumor at Duluth that D. M. Philbin, formerly superintendent of the South Shore road and now superintendent of the Eastern Minnesota—one of Jim Hill's feeders—will be chosen president of the Duluth & Iron Range.

Many applications for teachers' positions in copperdom schools are being received at the offices of the superintendent. There seems to be plenty of the profession who would like teaching in this section of the country.

What has become of the project of the Kerridge opera house? It is a question that is being asked by Hancock people. A rumor is afloat that the plan has fallen through and that the house will not be built.

The prosperity of copperdom is made known in several ways, but prominent among them all is the active campaign that will take place in the building line in the various villages during the coming summer.

## STATE SENATE PASSES IT.

MINING COLLEGE APPROPRIATION BILL CARRYING \$195,000.

A brief telegram received at Houghton yesterday conveyed the welcome news that the state senate had passed a bill making an appropriation of \$195,000 for the Michigan College of Mines at Houghton. Presumably the house has yet to act upon the measure.

## LIKELY TO SKIP PORTS HERE.

It is not thought likely that the Plant River Miami, which is to be brought from the Atlantic for service on Lake Superior by the Northern Steamship company, will make the Portage Lake ports. The schedule calls for two round trips a week between Duluth and Mackinac, where the Miami connects with the North West and North Land for Chicago or Buffalo. This means quick sailing and likely no stops, save at the Soo, en route. The Miami is one of the palatial coast steamers which has been used in the excursion business between Florida ports and the West Indies. She is the first passenger boat to be brought to the lakes from the coast and on account of her depth it was doubtful at first whether or not she could be brought up the canals.

## CONFERENCE OF ATHLETES.

A meeting of all Portage Lake young men who are interested in any way in athletics has been called by Secretary W. H. Wing, of the Hancock Y. M. C. A., for Saturday night. It will be held at 8 o'clock at the association rooms. The purpose of the meeting is to consider the project of organizing a track team for the coming summer. In the event of it being a "go" a field day will be arranged for some time during the month of June. Baseball and football also will be incidentally discussed. Mr. Wing is confident that the material at Portage Lake is good for a first-class track team and it is evident that he is right. It is hoped by many enthusiasts of genuine sport that the scheme will not fall through.

## COPPER GOSSIP.

Captain Dunn, of the Belt, yesterday stated that subscriptions for the stock would likely close tomorrow.

Heine's Montana Ore Purchasing company has declared the regular quarterly dividend of \$1 per share and \$2 extra.

The Atlantic product for the first three months of this year aggregates 77 1/2 tons; last year it was 78 1/2, and five years ago 72.

No quotations will be received at the copper country brokers' offices today or tomorrow on account of Good Friday. The Boston stock exchange will be closed.

The only business transacted at the Butte annual meeting Tuesday was the reelection of the directors. Those present were Wm. G. Rockefeller, P. P. Adickes, Wm. G. Riley, Jas. Phillips, Jr., and Adolph Lewissohn.

The work of changing the track in D shaft at the Atlantic mine for the new six-ton capacity skips is under way. The change will restrict production temporarily. When the new hoist begins to operate in May, however, the present output of rock from the mine will be increased 10 per cent.

As was reported in The Mining Journal on the 1st, Wolverine's March output was 24 1/2 tons. This compares as follows: 1900, 23 1/2 tons; 1899, 21 1/2; 1898, 21 1/2; 1897, 18 1/2, or a gain of nearly 150 per cent in five years. For the first quarter of this year, Wolverine has produced 72 1/2 tons; last year, 66 1/2, and five years ago 30 1/2.

It is reported that the March mineral product of the Franklin did not exceed 190 tons including mass and barrel copper. About 900 tons of rock has been treated daily. This would indicate a mineral return of about eight-tenths of 1 per cent. A sharp bear drive on Franklin has been a feature at Boston the past few days.

The Calumet & Hecla is now quoting copper at 17 1/2 cents as its price for copper. It is said it is sold up to July 1.

The "Street" does not take kindly to the fact that in March the exports of copper from this country at 6,624 tons were the smallest for any one month in six years. Notwithstanding this, however, the Calumet & Hecla and other American copper producers have advanced the price of Lake copper—Boston News Bureau.

The annual report of the Centennial shows a balance on hand on Jan. 1 of \$242,994, which will be increased this month on the payment of the assessment of \$2 on the 90,000 shares outstanding. During the year ended Feb. 28 total openings amounted to 7,940 feet. The quality of the rock continues to improve with depth, as indicated by the mill returns, which show a gratifying increase over last year's figures. G. G. Endicott and W. B. Mosman were elected directors to succeed Wil-

Ham A. Hazard and E. S. Clark; total vote, 71,269 shares.

Copper was 2c, 6d higher at London yesterday, to £68, 15s for spot and £69, 6s, 3d for futures, but was quoted as dull at New York on a basis of 17 cents for Lake.

## COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dea Postoffice Building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 378.

Sam Byrne, of Paine, Webber & Co.'s Houghton office, left yesterday for a five days Chicago trip.

Arthur Ferguson of Houghton left for Hot Springs, Ark., Wednesday and will remain until his health is improved.

Today is Good Friday, and owing to that fact many of the copper country stores and other places of business will be closed.

Special services will be held in the Pewabic M. E. church at 10 o'clock this morning. Rev. Mr. Pascoe will conduct them.

The two-months-old child of Mattie Hickman, of the Atlantic, died Wednesday. The funeral was held yesterday afternoon.

Lesling Karger of Houghton leaves today for San Francisco and other Western points to be gone for a considerable time.

The Houghton village council held a regular meeting at the fire hall last evening. The usual run of routine business was transacted.

Houghton lodge, F. & A. M., will hold a special meeting tomorrow night for work in the third degree. Monday night another session will be held for the same work.

The funeral of Henry Erikka, who was killed by a fall of ground in the Franklin mine Tuesday evening, was held at the Finnish church, Hancock, at 2 o'clock yesterday afternoon.

At the Trinity Episcopal church, Houghton, the program for today is: Morning prayer and litany and sermon, 10:30 a. m.; service of the three hours agony, 12 m. to 3 p. m.; evening prayer and sermon, 7:30 p. m.

Alexander Lind, familiarly known to his copper country acquaintances as the "count," was tried in Judge LeGendre's court yesterday on the charge of securing money under false pretenses from a Calumet party some time ago.

AQUINALDO NOT COMING.

Reports Declared Unfounded by Secretary Root—More Light on the Commissary Frauds.

Washington, April 4.—Secretary Root today pronounced the stories that Aquinaldo had been invited to come or was coming to the United States in the immediate future as baseless.

VOLUNTEER OFFICER ACCUSED.

Manila, April 4.—Lieutenant Frederick Boyer, of the Thirty-ninth Volunteer Infantry, chief commissary for the Southern Luzon, has arrived at Calamba, province of La Guana, where he has been charged with misappropriating fifty cases of bacon and with other irregularities. It is alleged the shortage in the commissary Department of Manila aggregates \$185,000. In contrast with the scandals in the commissary department, the collection and administration of the insular funds are matters for congratulation. The accounts of the new custom house, the accounts revenue department and the license office have been inspected and are reported perfectly straight.

FILIPINOS NAME THE OFFICERS. TEXT OF THE ACTS FOR THE ORGANIZATION OF THE GOVERNMENTS IS MADE PUBLIC.

Washington, April 4.—Copies of important acts of the Philippine commission providing for the organization of municipal and provincial governments in the archipelago have been received at the war department.

The act for the organization of municipal governments does not apply to the city of Manila nor to the settlements of non-Christian tribes, for which special legislation will be enacted. But all pueblos (towns) shall be recognized as municipal corporations, adhere to their former names and continue to hold all property rights vested under the former organization.

The government proper of each pueblo is vested in a president, vice president and a municipal council chosen at large by the qualified electors for a term of two years after the first Monday of January next after their election. The councilors elected for 1901 will divide themselves into two classes, the first set vacating their seats on the first Monday in January, 1902, and the second set the year after their successors have been chosen and qualified, so that one-half the council will be chosen annually.

The municipalities will be divided into four classes, those containing not less than 25,000 inhabitants to have eighteen councilors; those containing 18,000 and less than 25,000 to have fourteen; those containing 10,000 and less than 18,000, ten; and those with less than 10,000 inhabitants, eight.

The qualifications of the electors authorized to choose the officers of a municipal government are that they shall be male persons over twenty-three; must have a legal residence in the municipality in which they exercise the right of suffrage for a period of six months preceding the election, and must not be citizens or subjects of any foreign powers. Those disqualified from voting include delinquent taxpayers of taxes levied since Aug. 13, 1898; insane or feeble-minded persons; those who have violated the oath of allegiance to the United States; those who, after the first of April, were in arms against the sovereignty of the United States, and those who in any way aid or promote insurrection. Municipal officers shall not be clerics, ecclesiastics or soldiers in active service. The officers of each provincial government are to be provincial governor, secretary, treasurer, supervisor and fiscal.

VALUABLE TRACT IS FOUND.

EXPLORATION MADE IN ONTARIO REVEALS EXISTENCE OF RICH FARM AND TIMBER REGION.

Montreal, April 4.—As the result of a recent exploration made by the Crown Lands department of Ontario, it has been ascertained that there exists an immense valuable tract in the northern part of the province. It consists of a tract of arable land stretching from Quebec boundary to the state of New York, and comprising an area of 15,680,000 acres. The soil is nearly all suitable for farming purposes and the region is well watered. The climate is reported to be favorable to the growing of grain and root crops. One of the most important discoveries made by the explorers was the location of a great pulp wood forest north of the ridge extending across the districts of Nipissing, Algoma and Thunder bay. The timber embraces all the common pulp woods. It is generally of good quality, usually thick on the ground, and ranges in size up to three feet in diameter. In the district of Nipissing an extensive pine forest was explored and estimated to contain about 3,000,000,000 feet. The Ontario government intends to open up this rich district for settlement.

New York, April 4.—A pouch with more than 200 letters from Chicago and other Western points addressed to persons or firms in this city was found on Ocean Grove beach, N. MENACING TO BRITISH.

NAVAL ACTIVITY BY FRANCE IN THE SOUTH PACIFIC.

London, Friday, April 5.—The Times has received the following from its correspondent at Wellington, New Zealand: "France, after establishing a naval station in the Pacific and increasing her warships to five within a few weeks, is now engaged in strengthening her land defenses. This action is regarded as menacing to British interests in the South Pacific."

125 MILES AN HOUR.

THAT THE SPEED OF A NEW ELECTRIC LINE IN GERMANY.

Washington, April 4.—Consul General Guenther, at Frankfurt, writing to the state department regarding Berlin-Hamburg rapid transit, says that experiments are now being made by Siemens & Halske of Berlin with electric trains having a speed of 125 miles an hour. The main objects of these experiments is to complete the technical arrangements for the wheels necessary on account of the greatly increased rotation. The experiments have demonstrated that the rate of speed designated can be attained without difficulty. The quick succession of trains (intervals of six minutes), however, makes it imperative that the tracks be kept clear at all times while being operated. For this reason, the three-track system must be adopted and switches are to be avoided.

The total length of the line will be about 156 miles, and the estimated cost is \$23,000,000.

BLIZZARD IN SOUTH DAKOTA.

WEST VIRGINIA ALSO SUFFERED AND FLOODS ARE FEARED.

Miller, S. D., April 4.—Rain is being followed this afternoon by a snowstorm the like of which has never prevailed here during the winter. It is quite cold.

Aberdeen, S. D., April 4.—A driving northeast snowstorm began at noon today. Several inches of snow have fallen and the storm still prevails this evening. Stock will suffer to some extent, but farm grass lands are freely benefited. The storm is general in the northern part of the state.

Wheeling, April 4.—Reports from all parts of West Virginia that have been kept back by broken wires tell of severe snow, rain and wind storms all over the state. Much alarm is felt that there will be a flood in the Ohio valley. All the streams in the upper portion of the state are bankfull and lumbermen are suffering great losses.

Morgantown, W. Va., April 4.—The snow is fifteen inches deep in the mountains six miles from here and towns in that section are isolated. The people make the trails to make their trips through the drifts and the roads are impassable.

MILLIONAIRE RICE'S MURDER.

HINTED IN COURT THE STATE HAS EVIDENCE CORROBORATING THE VALET'S CONFESSION.

New York, April 4.—There were at least two incidents today in the cross-examination of Jones, valet and secretary of the aged Millionaire William Marsh Rice, which rose above the ordinary. One was a remark made by Justice Jerome, who presides at the hearing, which probably shows why Lawyer Patrick, accused with Jones of the murder of the former Texas, has all along taken the accusation of Jones against himself with a demeanor almost bordering on contempt.

Attorney Moore, for the defense, had asked that when the hearing closed for the day it not be resumed until Tuesday. Justice Jerome seemed willing, and then added: "It is necessary that Jones' testimony, as to this much, should be corroborated. He being a self-confessed accomplice, his testimony alone is not enough upon which to hold Patrick." Attorney Moore tersely added to this, "We understand that, and we suppose the district attorney does, too." Tonight those who are watching the case closely are wondering what corroborative testimony the state will introduce to sustain the statements of Jones.

PATRICK SHOWS HIS NERVE.

The other incident brought out in the clearest light the indomitable nerve of Lawyer Patrick. In the face of the reiterated story of Jones that Patrick had instigated the forgeries and the actual murder, the latter took his place in the court proceedings with the utmost nonchalance. At one point it became necessary that the statement made by Jones be read and it was given into the hands of one of the counsel for the defense for that purpose. This was the statement in which the valet claimed that Patrick had killed Rice and which he has since denied. The reader hesitated and stumbled over the written words. Suddenly Patrick spoke up, exclaiming, "Here, I guess I can make it out. I'll read it." This was agreed to and, in a loud, clear voice, Patrick read Jones' version of the last moments of Rice's life.

At another point in the proceedings Justice Jerome gave his estimate of Jones with characteristic terseness. Attorney Moore had been asking the witness with questions tending to bring out the valet's lying propensities. He showed that Jones had deceived his relatives and friends since his incarceration, but Justice Jerome remarked: "This witness is a weak, unfortunate man. He is a self-confessed murderer and deserves contempt, but I will not allow you to insult him."

There was little new matter brought out at today's hearing.

Helena, Mont., April 4.—Mrs. William Hancock and her husband recently quarreled and Hancock told her they were not legally married. She took his word for it and married a man named McCall. Hancock had both arrested and Mrs. McCall today pleaded guilty to bigamy and was sentenced to three months in the penitentiary.

FIRE IN THE TILDEN MINE.

150 Men Caught Underground in a Burning Shaft but All Escape in Safety.

Bessemer, Mich., April 4.—Shaft No. 7 of the Tilden mine is on fire. One hundred and fifty men are underground, but as the shaft is connected with No. 6 there is no danger of loss of life.

Later—An opening has been effected in No. 6 shaft. All the men in the barn, 600 feet below, were found alive but nearly suffocated, as the entire mine was filled with smoke.

In No. 7 shaft, the compressors have been started to keep out the smoke. The shaft is still burning and the extent of the loss is unknown, but it is not expected to spread, as the shaft is very wet. Still the downward current of air may keep the fire burning for several weeks.

The blaze was originated by one of the tenders starting a fire in a shanty to keep warm.

The strike at the Muren mine is due to the intention of the company to discharge one of the top men. At the Skellett mine the strike is due to a demand by the drivers for an increase in wages.

WINTER NAVIGATION FEASIBLE.

STEAM SCHOONER MAKES A CRUISE IN ST. LAWRENCE GULF.

Montreal, Que., April 4.—The steam schooner La Presse seems to have demonstrated the practicability of winter navigation in the St. Lawrence gulf. Since her departure from Quebec on March 7 the boat touched successively Loso Brouillons, St. Irene, Murray Bay, Tadoussac, Rimouski, Manicouagan, Godbout, Pointe Des Monts, Pontotoco and Seven Islands. These hundreds of miles have been covered by La Presse nearly all along through broken ice fields and floes of three, four and five inches thickness. A single stretch of eighty miles was accomplished without injuring the boat in any way, not delaying her more than could reasonably be expected on a steamer of such small tonnage. Patches of clear water are plentiful enough in winter below Quebec, but as the object of the cruise was to try the resistance of ice, La Presse of course purposely avoided them, and that accounts for her slow progress. A second impediment to her fast sailing was the task she had undertaken of carrying and distributing mail all along the north shore, where regular mail boats are never to be seen before the end of April. Everything taken into consideration, La Presse expedition already may be pronounced a great success, as it proves the practicability of winter navigation in the St. Lawrence gulf and river below Quebec; the more so on account of the cruise having been undertaken in March, which is, according to the best authorities, the worst month of the year.

REMOVED BY M'KINLEY.

EFFICIENT CONSUL IN GERMANY TO MAKE ROOM FOR AN INCOMPETENT? PLACE-HUNTING.

Chicago, April 4.—Wm. E. Curtis telegraphs as follows from Washington to the Record-Herald: "The president has again surrendered to the office-seekers, and has removed George Sawyer, consul at Blauhaufen, Germany, to give a place to E. A. Crevy of Bridgeport, Conn., a politician, for whom the senators and representatives from his state desire to secure an office. There are no charges against Mr. Sawyer. On the contrary, he is described by Consul General Mason of Berlin as one of the best men in the service. The opinion of Mr. Mason is endorsed by Major Williams, the special agent of the treasury department at Paris, whose business is to prevent frauds upon the customs; by Mr. Chance, chief of special agents of the treasury department at Washington, and finally by Secretary Gage and Assistant Secretary Spaulding of the treasury department, who testify cordially to his efficiency and fidelity as an officer."

"One would naturally suppose that such a man would be rewarded instead of punished by his government. But Mr. Sawyer is a Democrat. Nine years ago he was guilty of writing for a Democratic newspaper in Connecticut, and was appointed to the consular service by a Democratic president. For two years Senator Platt and Senator Hawley of Connecticut, two distinguished statesmen of the highest integrity and purity of purpose, men who would resent an insinuation that they could be guilty of wrong, have been trying to persuade the president to remove Mr. Sawyer and appoint a friend of theirs in Bridgeport to his place.

"The president has resisted their demands for two years, but his moral courage has finally given out. He has called for Mr. Sawyer's resignation and has notified Mr. Crevy to appear at the department of state for examination. Mr. Crevy may be an excellent man, but he is entirely without experience and has no qualifications for the place he is to fill. He cannot speak the language of the country to which he is appointed; he knows nothing whatever about the duties of a consul, nor about the methods used by the manufacturers in their efforts to defraud the government. In other words, he is thoroughly incompetent, and under any circumstances it will be at least seven years before he can reach the same efficiency for which Mr. Sawyer is commended. President McKinley is aware of that fact, and in making the removal and appointment considers only the claim

CLEVELAND'S EXAMPLE.

"Early in the administration of President Cleveland, Consul General Mason at Frankfurt, who is generally considered the best man in the service, was notified that his resignation was expected, and that a Mr. Rapp of Illinois was his successor. He was packing up his goods when Mark Twain happened around that way and visited the consulate. Being informed of the situation the latter wrote a letter to Ruth Cleveland, the baby daughter of the president, telling her that he could not interfere in matters of patronage because he was a mugwump, but he considered it a shame that a man of experience and ability like Consul General Mason should be turned out of office simply because some Democrat who knew nothing about his duties wanted the place. He said that he was acquainted with a great many consuls, and that Captain Mason was the best he had ever known, and if her father ever consulted her about the consular service he suggested that she advise him not to disturb good men merely to give places for politicians.

"About a month later Mr. Clemens received a little note in President Cleveland's handwriting, in which Miss Ruth Cleveland presented her compliments to Mark Twain, thanked him for calling attention to the threatened removal of Consul Mason, and said that if he knew of any similar cases the president would be glad to hear from him. Consul General Mason is still in the service, and has since been promoted to Berlin."

Chicago, April 4.—In wheat today there was a very good trade and the fluctuations were quite frequent. May selling at 71½ and 72½ and closing at 72½, or ¼¢ lower than yesterday. The transactions were mainly local, with the sentiment somewhat more bullish early, but later the situation changed and the prices again sagged lower. Comparatively lower cables and the better feeling in coarse grains started the market ¼¢ higher. Shorts were the best buyers; many of yesterday's sellers covered. At Liverpool, spot was ½ penny lower, with futures off ¼. The receipts in the Northwest were about 200 cars short of last year and the seaboard claimed ninety-two boatloads taken yesterday, making about two million bushels in two days, and this also helped values. After the demand from the shorts was satisfied, there was renewed selling and the bears set in and got May back to 71½. Price current was bearish. The clearings were 247,000 bushels and fifty-eight boatloads were reported accepted on the coast.

Corn was excited, though it opened nervous, with the prices irregular. The sentiment was less bearish and the prices averaged higher. May ranged between 42½¢ and closed about 1½¢ higher. The chief feature was changing. Buying of May and selling of July. The cables were fairly firm, the acceptances small and the receipts moderate. At Liverpool, spot was ¼¢ penny lower, with futures unchanged. The clearings were 342,000 bushels and twenty-six boatloads were reported accepted on the coast.

Oats were active in a general way, with large changing from May to July, the former being bought and the latter sold at ¼¢ difference. There was considerable commission house selling and large covering by shorts. The prices advanced ¼¢ in sympathy with corn and closed with a net gain of ¼¢.

BEAR ATTACK DENOUNCED.

The attempt to crush Phillips, the young "corn king," reached such a sensational point yesterday as to bring to Phillips' side a strong ally in the person of President Warren of the board. "It is shameful," said President Warren, "that any concerted attempt should be made to break a young man like Phillips, and if it is being made I hope it will fail. The board needs men who have the ability to broaden its trade by bringing business to it, and no one can deny that Phillips has done this. It is disgraceful that the country traders should be brought into the market and then a plan deliberately made to freeze them out. Getting money by means of a sandbag or a piece of lead pipe is just as honorable." Many members of the board agree with the president's opinion of the campaign started with the apparent object of crushing Phillips.

WALL STREET STOCKS.

New York, April 4.—Today was one of extreme nervous tension in the stock market. The prices fluctuated in an unprecedentedly violent and erratic manner all day. The speculative spirit had apparently run wild and no fears seemed too great to attempt the feverish imagination of the excited speculators.

The boldness and recklessness of the manipulation probably never have been equaled on the New York Stock exchange. Blocks of thousands of shares of stocks were tossed backward and forward, and millions of dollars were ventured with no more concern than though pennies were being pitched. A sudden and violent advance in any stock was sufficient to attract an overwhelming following in which a scam-

The speculative spirit had apparently run wild and no fears seemed too great to attempt the feverish imagination of the excited speculators.

**SWANSON DECLARED ELECTED.**

COMMITTEE APPOINTED TO RECOUNT VOTES FINDS THAT THE CITIZENS' CANDIDATE HAD A MAJORITY OF ONE.

August Swanson, the Citizens' candidate for alderman in the Fifth ward, who contested the election of James B. Quayle, the Labor party's nominee, was declared to be the duly elected officer by a special committee appointed by the city council to investigate the affair. The returns Monday night gave Quayle a majority of one, but the recount showed that there was a mistake in the report as rendered by the election inspectors and they reversed the decision, giving Swanson the office. Four defective ballots were discarded. The final and correct vote was: Swanson, 103; Quayle, 102.

**MANY IMPROVEMENTS.**

LAKE SUPERIOR IRON COMPANY HAS DONE MUCH CONSTRUCTION AND REPAIR WORK DURING THE WINTER.

There have been many improvements undertaken and carried through in the yard of the Lake Superior company during the winter, which have greatly increased the efficiency of the different departments. Many of the old buildings have been practically rebuilt, some have been added to, and there is much work laid out for foreman carpenter Evan Paulsmoe and his men before the plans are completed. There is always considerable work to be done about a mine on the surface, but this winter has been an exception with the company and a tour of the yard of the Hard Ore mine will attest to the truth of this statement.

**FINANCIAL COUNCIL MEETING.**

NOT MUCH BUSINESS TO TRANSACT AND THE MEETING WAS SHORT—SMALL-POX WATCHMEN GET EXTRA PAY.

There was but one important happening at the meeting of the council held Wednesday evening, and that would not be of much interest had not there been so much discussion over the matter. Alderman Cronin introduced a resolution to the effect that the men who were employed by the health department to stand watch over houses containing cases of small-pox should receive three dollars a day for their work instead of two. This resolution was unanimously carried. This proposition has been up at every regular meeting of the board since the first of the year and has been repeatedly thrown down, not because the members were opposed to it, but because no one seemed to care to move a settlement on the basis of three dollars a day. It was finally referred to the health committee and was reported out by that body with the recommendation that it be acted on favorably.

**THE BEST REMEDY FOR RHEUMATISM.**

Quick Relief from Pain.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from each and every attack. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. I recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by the Stafford Drug Co.

**SCHOOL BONDS FOR SALE.**

ISHPEMING SCHOOL DISTRICT NUMBER ONE.

The Board of Trustees of Ishpeeming School District Number One of the City of Ishpeeming, County of Marquette and State of Michigan, will receive at the office of the Director, at the Peninsula Bank, Ishpeeming, Michigan, until twelve o'clock noon of April 15, 1901, sealed proposals for forty-five thousand (\$45,000) dollars four per cent semi-annual coupon bonds of said district, dated April 15, 1901, and due in installments of nine thousand (\$9,000) dollars each, on the first day of March in the years 1912-1913-1914-1915-1916 principal and interest payable at the office of the Treasurer of said school district in the City of Ishpeeming.

Said bonds will be issued pursuant to an act of the Legislature of the State of Michigan approved January 22nd, 1898, entitled "An act to authorize the Board of Trustees of School District Number One of the City of Ishpeeming to borrow money for the funding of float ng indebtedness incurred on account of necessary construction of school buildings and for extraordinary expenses and to issue bonds therefor," which act authorizes the issue of \$45,000 of bonds on a vote therefor by the Trustees of said district.

Said bonds will be issued in denominations of one thousand (\$1,000) dollars each, and were authorized pursuant to the terms of said act by the Board of Trustees of said school district at an adjourned regular meeting thereof, held on March 18, 1901. The total bonded indebtedness of said school district at this date is \$9,000. The above bond issue will pay all floating debt. The total indebtedness of the City of Ishpeeming at this date is \$115,500.

The valuation of property in the City of Ishpeeming for purposes of assessment in the year 1900 was \$5,500,000.

The valuation of school property belonging to said School District, buildings and grounds, without furniture or fixtures, is \$175,000.

No bond issue of said city or said School District has ever been contested. No indebtedness of said city or said School District has ever been in default.

The population of the City of Ishpeeming by last census is 1,070. The School District comprises the City of Ishpeeming. A certificate for \$500 should accompany each bid.

The Board reserves the right to reject any and all bids.

### CLEVERLY EXECUTED ROBBERY.

A YOUNG WOMAN SHOWS MARKED ADROITNESS IN THE ROLE OF A SNEAK THIEF.

Mrs. Al Maitland was the victim of a sneak thief who did her work with consummate skill and audacity yesterday afternoon. Mrs. Maitland was entertaining some ladies who were calling on her about 2 o'clock when a young woman presented herself at the house, introducing herself as a friend of Mrs. Maitland's mother at Menominee. She was warmly welcomed by the unsuspecting lady, who invited her into the parlor to join her other guests. The visitor said she had got her feet wet on her way from the depot and asked permission from Mrs. Maitland to go to the latter's room to change her stockings. Not imagining the character of her unexpected caller, Mrs. Maitland showed the young woman, who was neatly dressed and appeared entirely respectable, to her room up stairs, bidding her to make herself at home, and then returned to her guests. After some time it occurred to her that her caller from Menominee was making rather a protracted stay up stairs, and she ran up to the room to see how the young woman with her wet feet was getting along. She found nobody in the room. Her visitor had gone away unceremoniously, but not empty-handed. Mrs. Maitland's gold watch and several valuable articles of jewelry had vanished with her. She had thoroughly looted the drawers and took everything she could safely attempt to carry off when she departed. The officers were at once notified and a search for the thief was instituted, but up to a late hour last evening she had not been captured. It was learned afterward that the young woman had been boarding for a week or so past at the Brelling House, and it is evident that she had carefully planned the robbery which she so skillfully executed. It is hardly possible that she can escape, but she almost deserves to for her extraordinary nerve and cleverness. Later—the culprit was captured late last night by Marshal Gribble on Snow street, in the west end of the city, and proved to be Myrtle Oulette of Menominee. When arrested she was looking for lodgings, not daring to return to the hotel. Gribble's work in landing the thief so promptly was greatly commended. Miss Oulette will have her hearing in Justice Tratten's court this morning, and as she confessed stealing the jewelry she runs a good chance of spending some time at the Marquette branch prison. All the articles stolen were recovered.

Does it pay to buy cheap? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then get Green's Great Peppermint Cure. It is the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup" it not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. The Stafford Drug Co.

ISHPEMING IN BRIEF.

The mines will be closed today.

Rev. J. J. Langan visited Marquette yesterday.

This being Good Friday, the stores will be closed all day.

T. K. Begole of Marquette was in town yesterday afternoon.

Peter Gummerson has accepted a position with John W. Jochim.

Remember that the barber shops will close this noon at 12 o'clock.

George R. Persons went below Thursday evening on business.

The Misses Rogers are spending their vacation at their home in Escanaba.

Charles Johnson will repaint his building on Cleveland avenue next week.

Fred C. Bennett went up to the copper country yesterday morning on business.

Mrs. A. B. Eldridge and Miss Richardson of Marquette visited in the city yesterday.

Mrs. James Pearce and daughter were visitors in the city yesterday from Marquette.

N. P. Flodin, of the Lake Shore Engine works, Marquette, did business in the city yesterday.

Joseph Comer, manager for F. W. Read & Co. at Michigamme, was a visitor in the city Thursday.

George McDonald, of the Regent mines, was up from Negaunee yesterday afternoon on business.

Trombley's orchestra has been engaged to play at a dance in Crystal Falls next Tuesday evening.

The Salvation Army will give a service of song in the barracks this evening to which all are invited.

F. W. Read & Co. have brought their horses in from the woods. They are said to be in excellent condition.

The Swedish Home society has been making great preparations for its entertainment, which will be held in the society hall this evening.

Fred Williams, cashier for F. W. Read & Co. in the firm's Negaunee office, who has been very sick for some weeks past, is at his desk again.

J. Sellwood & Co. have a very pretty show window on the grocery side. It is filled with potted plants of every description and makes a most pleasing sight.

The Chancel society of the Grace church will hold one of those sales of pies and cakes in H. P. Heyn's store tomorrow morning from ten until twelve.

R. P. Bronson, writing from Lake Maitland, Fla., states that the mercury is always 90 degrees in the shade and that both he and his family are having a splendid time.

Charlie Cole holds the record for being the first man to bring out his wheel. Mr. Cole was seen riding down Main street yesterday afternoon, and he says the going isn't half bad.

Miss Eva Davis' millinery store has been crowded all this week, the occasion being her Easter opening. Miss Davis is showing some very beautiful hats and is taking a gratifyingly large number of orders.

Mrs. I. Lallerstedt held a very successful Easter opening yesterday in her millinery parlors in the Jones block. Mrs. Lallerstedt is showing all the latest styles in that line and is taking many orders.

Plans for the Easter party of the "Regulars," which will be held in Anderson's hall a week from tomorrow evening, are well under way, and it promises to be a great affair. Invitations will be out Tuesday.

The three days' services at the Swedish Mission church will commence this morning. President J. Buork and Prof. Nivall of Chicago will arrive in the city this morning. A special service, to which everyone is invited, will be held Sunday afternoon at 3 o'clock.

The ladies of the Grace Episcopal church are making great preparations for their rummage sale and it promises to be one of the most successful that has ever been held here. It takes place either the last of this month or the first of next. Those who have old junk of any description which they do not care to retain, would please the ladies by communicating with either

Mrs. E. C. Cooley, Mrs. H. F. Heyn, Miss Carrie Sweet or Mrs. F. P. Tillson. Articles for the sale may be left with Miss Sweet at her residence on Barnum street.

Mrs. M. J. Taylor, the milliner, is receiving the new goods she purchased while below. She spent much time selecting a line that will surpass anything she has previously shown. Her assortment of pattern hats is large and very complete. Mrs. Taylor will be prepared to announce the dates of her spring opening within the next few days.

Prof. Corwin and Frank Watters leave this morning for Escanaba to attend the oratorical contests which will be held in that city this evening. Watters will deliver the oration which he delivered at the contests held here last week, his theme being "The American Volunteer." He goes to the fray with the support of the entire city and if he returns a winner the town will be his. Miss O'Leary had intended to accompany him, but her sickness prevents this, and Prof. Corwin goes in her stead.

**LAKE ST. WORK APPROVED.**

Marquette & Southeastern People May Now Proceed With Council's Authority.

J. F. NEIDHART TENDERED HEARTY VOTE OF THANKS LAST EVENING.

He Has Been First Three-Term Mayor of the City; Under His Direction Aldermen Have Worked Harmoniously and All Has Been Well.

**MAYOR MANGUM WILL CALL NEXT SESSION**

The old council held its final meeting last evening and when the aldermen came together again they will assemble at the call of Mayor Mangum. Last evening the city fathers transacted a considerable batch of business with notable expedition.

Joseph F. Neidhart, who has been mayor of the city for the past three terms, presided over the deliberations and drew a hearty vote of thanks from the council.

Mr. Neidhart goes out of office as the only three elected mayor in the history of the city. He has proven a valuable official and under his direction the council has worked harmoniously and his administrations have progressed without regrettable incidents.

No fault can be found with the management of municipal affairs during the many months when he has been the responsible head of the government.

Last evening J. F. Deimling transmitted a profile showing the present grade of Lake street and the proposed grade of the new Marquette & Southeastern road to the council, accompanying it with a letter explaining in detail the company's intentions as to construction on that thoroughfare.

The profile and explanations were satisfactory to the aldermen, who approved the following resolution:

"Resolved, That permission and authority is hereby granted the Marquette & Southeastern Railway company to make the changes in the grade of Lake street from Walnut street to Whetstone brook, and to make the changes in the dock approaches mentioned in the letter of J. F. Deimling, chief engineer of said company, to the chairman of the street committee, in accordance with the profile and sketches submitted with said letter: Provided, that said company shall grade, curb and macadamize at its expense those portions of said street wherein the grade is changed and shall satisfy all legal claims of the owners of the property along said street for damages, if any, occasioned by such change of grade; and, provided, that a stone retaining wall, with coping one foot above the grade of the street roadway, with close iron fence at least four feet high thereon, be constructed along the west side of the roadway where the same shall be constructed below the street grade south of Superior street."

**THE BEST BLOOD PURIFIER.**  
The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at Stafford Drug Co.'s drug store.

Cuts, wounds, burns, sprains and bruises quickly heal if you apply BAL-LARD'S SNOW LINIMENT. Price 25 cents and 50 cents. The Stafford Drug Co.

**MANY NEW FACES.**

They Will Be Seen on Supervisors' Board for Ensuing Year.

A considerable list of new supervisors was chosen in the elections held throughout the county Monday of this week. County Clerk Ross is yet to ascertain what the electors in Skandia and Turin townships did. Returns from the former township do not specify as to the vote on the township officers and the report from Turin has yet to be received. Leaving out these precincts, there are twenty-one hold-over supervisors and sixteen new men, many of whom will take seats on the county board for the first time.

The new supervisors are: Marquette, Frank Frei and Abe Agnew; Negaunee, which has a complete new representation, Anthony Richards, J. E. O'Donnoghue, William J. O'Meara, Joseph Barabe and Richard Roberts; Ishpeming, James Trebilcock, John Lindberg, Joseph Hodgson, R. T. Smith and C. F. Dustanson; Forsyth township, John Thomas; Michigamme, C. F. Sundstrom; Negaunee, John Stickney, Jr.; Tilden, John Trebilcock.

W. H. Johnston, who has been chairman of the board for the past twelve months, resigned his seat when he determined to become a candidate for the mayoralty of Ishpeming. His successor is James Trebilcock. Mr. Johnston's resignation makes necessary the selection of a new chairman. It is likely that some old member of the board will be honored with this position.

County Clerk Ross is waiting for the returns from Turin township to make up a full statement of the vote on the state ticket and the amendments to the state constitution. Both the amendments carried in this county and the Republican state ticket was approved by a big majority, although, of course, it is not nearly so large as is the case when an election possesses some real importance or significance.

**GOOD FRIDAY.**

It Will Be Observed With Special Services Today.

Good Friday is one of the big church days of the year and it will be observed by a number of Marquette congregations with special services. At St. Paul's and St. Peter's cathedrals its passing will be marked by particular pomp. Some of the churches had special services yesterday. At St. Peter's a pontifical high mass was sung. Preparations for elaborate Easter observances are in progress at all the churches and, if the weather favors, the Lenten season will be ushered out with a glorious burst of new millinery and joyous song.

**EASTER FLOWERS.**

At Stafford's greenhouses were never better than they are this year. Our cut flowers are strictly fresh and choice. We meet all competition on prices and are prepared to fill all orders. We also offer a very fine lot of blooming plants. Come and see our Easter display. (4-2-4t)

**A KANSAS MINISTER.**

Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

Sampson—I believe women should be treated same east as west. How is that? Why, give them Rocky Mountain Tea, the greatest spring blessing women have. 35c. The Stafford Drug Co.

**CITY BREVITIES.**

Weather forecast: Increasing cloudiness. Stationary temperature. Increasing easterly winds.

John Nesbitt and Ira A. Clark were down from Negaunee yesterday.

J. H. Larochele will hold his millinery opening today and tomorrow.

T. G. Sullivan left for Munising yesterday after transacting a couple of days' business in Marquette.

Officer Treverra brought a jar down from Ishpeming yesterday to serve a short term in the county jail.

The Ladies' Aid society of the Presbyterian church will meet this afternoon with Mrs. Anderson, 905 Pine street.

The Ladies' Aid society of the M. E. church will meet this afternoon with Mrs. Charles Geil, 620 North Third street.

County Clerk Ross issued a marriage license to Matti Latturi and Helena S. Hangasmaa of the Winthrop location yesterday.

Hugh McMillan, of the Western Union office, left last evening for Des Moines, Ia., where he will spend a couple of weeks visiting his people.

The Ladies' Aid society of the Baptist church will meet at the church parlors this afternoon at 3 o'clock to arrange for the Easter sale to be held Saturday afternoon and evening.

Lenten services will be held at the Swedish Lutheran church today at 10:30 a. m. In the evening there will be a festival at 7:30 o'clock. The Busy Bee society and the choir will participate. All are invited.

A Good Friday Lenten service will be held in the German Lutheran church this evening at 7:30 o'clock. All will be welcome. An Easter Sunday service will be held at 9:30 a. m. Sunday school will be held at 11 a. m.

The storm sheds are coming down rapidly all over the city. That at the government building was removed yesterday. The balmy weather of the past few days has effectually convinced people that the storms for this winter are over.

Mrs. Timins died yesterday morning at St. Mary's hospital. Heart trouble caused the end. She was aged fifty-four years and leaves three sons and one daughter. The funeral will be held Saturday afternoon at 2 o'clock from St. Peter's cathedral to the old Catholic cemetery.

The Marquette high school will not have a representative in the oratorical contest to be held at Escanaba at an early date. The sentiment of the young people was unfavorable to participation this year. The contest will lie between a number of the other prominent schools of the upper peninsula.

The Lake street work of the Marquette & Southeastern railroad is advancing with fair speed. Blasting powder is now frequently called into requisition and many cords of stone are being removed. There is several week's work ahead at the point where the men are now working. A second gang of labor is employed at the No. 4 dock where it is necessary to make a number of changes in the approach.

Your money back if you do not find goods bought of us just as represented. See our assortment of Manhattan Negligee Shirts, the latest styles for spring. GOODING & ORMSBEE, 127-129 Washington St.

**Announcement Extraordinary!**

New York, April 2, 1901.

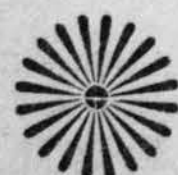

Phenomenal opportunities which have been created during the past ten days in the New York market to buy the latest and most demanded styles in spring and summer Dry Goods, Silks, Woolen Dress Fabrics, Wash Goods and Tailor-Made Gowns will enable us to place on our counters in a few days the most elegant and varied collection of bewildering attractions which we have ever shown.

The price will be the lowest shown by any competing city dry goods house. The great fashionable Broadway Dry Goods House of James McCreery & Co. are retiring from business, and have just placed on the market thousands of dollars' worth of the latest creations in new fabrics. It has been my good fortune to be here at this time and make large purchases. This will enable us to mark our goods at wholesale prices.

A very large retail city store which had just placed their order for Tailor-Made Suits, Skirts and Jackets, failed during the past week, before these goods were delivered, and the manufacturers sold me the entire order at a Discount of 33 1-3%. I shall mark every garment at exactly manufacturer's price; positively the greatest opportunity to buy Ladies' Ready-to-Wear Apparel ever offered our patrons.

During the past few days the cotton market has been very inactive, and prices have declined materially.

Our misfortune in coming to market so late has proved a blessing in disguise. Our salesrooms should be crowded from morning until night with buyers from fifty miles around. These are not idle words. One visit to our store will convince the most sceptical. Out of town trade who cannot come to Marquette should order samples quickly. Watch our announcement in this space.
