BOTHA IS FOR PEACE.

Boer Commander Again Opens Negotiations With the British.

NEWS ELATES ENGLAND.

Press Still Calls for Unconditional Surrender but Burgers Will Likely Get Good Terms.

DEWEY THOUGHT INSANE.

Cape Town, April 10.—General Botha has reopened negotiations with the British for peace. It is understood here that although General Dewet, at his recent interview with Botha, refused to surrender, Botha regards him as irresponsible and undertakes to negotiate in behalf of the entire Boer forces. The British authorities here consider that if Botha surrenders, Dewet's following can be easily taken.

As explained here, this action was determined, in part, by General Botha's discovery at the recent meeting that Dewet's intellect has weakened, that his influence with his followers was diminishing and that the continuance of the campaign, in view of Dewet's irresponsibility, rested with Botha alone.

NEWS PLEASING TO LONDON.

London, Thursday, April 11.—The report that General Botha has reopened negotiations with Lord Kitchener is not yet officially confirmed, but it is generally credited and received with satisfaction except by the ultrajingo, who fear the government will renew the terms recently rejected.

Regarding General Dewet's mental condition, the reports have been conflicting for some time. His recent inactivity points to there being some truth in the rumors, which allege that the long continued hardship under the harassing British pursuit has unhinged his mind. On the other hand, the correspondent of The Times recently acknowledged the wonderful foresight and fertility of resources which characterized Dewet's retreat from Cape Colony.

As during the previous abortive negotiations, the British press again loudly insists on unconditional surrender, but with the budgetary necessities staring the country in the face, if the negotiations are reopened, the Boer as The Daily Chronicle remarks editorially, may reckon on fair treatment at the hands of the British.

KRUGER MAY COME IN FALL.

New York, April 10.—Charles D. Pierce, official representative in New York of the Boers, gives positive denial of the statement, cabled from Europe that Kruger would sail for the United States on May 31. "There is absolutely nothing in the story," he said. "Mr. Kruger may come here in the fall, but not sooner."

JAPAN QUIETS DOWN.

RUSSIA'S ASSURANCES ARE RECEIVED AND ACCEPTED.

Washington, April 10.—The Japanese minister, Mr. Takahira, today received official advices from the foreign office at Tokio entirely dispelling the alarming reports as to a Russo-Japanese rupture and showing that the Japanese government has accepted the latest declaration of Russia on Manchuria with the same sense of satisfaction that it received in the United States. Minister Takahira called at the state department and informed Secretary Hay of the gratifying event.

FRENCH PRIEST A CAPTIVE.

Shanghai, April 10.—Brigands have destroyed three towns in Tibet. They captured and tortured, according to French advices, a French priest named Musnot. The victory of the province of Sze Chuen, at the request of the French consul, sent a force to rescue Musnot.

ROBBER BAND SUFFERS.

Berlin, April 10.—According to a dispatch from Count von Waldsee, at Peking, Chinese robbers were surprised at Tang Shan, Fe Chi Li province, and pursued by Captain Meister, who killed twenty of them.

WANTS SHARE IN THE MILLIONS.

Hartford, Conn., April 10.—Action was begun in the United States circuit court here today by Mrs. Helen Potts Hall of New York for the recovery of her alleged share in the millions of the late George F. Gilman of Bridgeport. Mrs. Hall declares that she was the adopted daughter of Mr. Gilman and brings action against the Bridgeport Trust company, as administrator of the Gilman estate, and George W. Smith of Bridgeport, as receiver.

DONS THE STRIPES AT JO IET.

Chicago, April 10.—Michael J. Sampson, formerly auditor of the water assessment bureau, who was brought back from Europe and convicted on the charge of forgery and who was saved from imprisonment last week by a writ of habeas corpus served at the

very doors of Joliet penitentiary, was taken to Joliet today in charge of a deputy sheriff and began his sentence. It was reported to Jailer Whitman that Sampson's attorneys were about to make another effort to secure his release pending an appeal to the United States supreme court and Sampson was forthwith started for Joliet.

HAMMOND CONVICTED.

EX-LEGISLATOR FOUND GUILTY OF SOLICITING A BRIBE.

Lansing, Mich., April 10.—D. Judson Hammond, who was a member of the legislature in 1899 and who has been undergoing trial in the circuit court here on the charge of having solicited a bribe of \$500 in connection with the anti-trust bill which was before the legislature in that year, was found guilty by the jury tonight. He gave notice of an appeal to the supreme court and was released on bail.

YANG YU FATALLY HURT.

CHINESE MINISTER TO RUSSIA INSULTS LANSDORF AND IS THROWN DOWN STAIRS.

Paris, Thursday, April 11.—The Patrie today publishes a dispatch from St. Petersburg saying that the Chinese minister there, Yang Yu, had gravely insulted Count Lansdorf, Russian minister of foreign affairs, during a discussion of the Manchurian question, whereupon the count ordered his lackeys to put the Chinese minister out. Yang Yu was thrown down stairs and fatally injured.

POOL OF VESSELMEN.

INDEPENDENT SHIP OWNERS TAKE THE INITIAL STEPS AT CLEVELAND—ORE RATES FIXED.

Cleveland, April 10.—At a meeting held today to perfect the pool of independent vessel owners, nearly all the leading vesselmen at all ports were represented. An organization probably will be effected within a week, and be known as the Association of Vessel Owners. Fifteen directors were elected whose names will be given out later. The carrying charges on ore were fixed, but will not be announced at present. It is said, however, they do not differ greatly from the present charges. Officers will be elected next week.

FIRE ON A TRANSPORT.

CARGO OF THE RAWLINS IS DESTROYED AT NEW YORK AND SHIP FLOODED AND SUNK.

New York, April 10.—Fire today on the transport Rawlins at the government pier, Brooklyn, destroyed all the cargo, a large portion of which consisted of horse feed for army use. The damage to the boat is heavy. The Rawlins was to have sailed for Cuba this afternoon.

So many thousands of gallons of water were pumped into the transport's hold that she keeled over and sank. Four men were overcome by smoke. They are John Snyder and Henry Babcock, sailors; Thaddeus Skimore, a clerk; and Patrick Mason, a fireman. Snyder's condition is serious. The loss will not exceed \$50,000, but it will cost perhaps \$20,000 more to pump her out and raise her.

WASHINGTON, APRIL 10.—The war department today received the following from the quartermaster's department at New York: "The transport Rawlins caught fire today. She was flooded and sunk to put out the fire. The vessel was loaded with hay, straw, bran, oats and a general cargo of commissary stores. There were 600,000 pounds of quartermaster's supplies and 140,000 pounds of commissary stores on the ship. The Sedgwick will go to Cuba in place of the Rawlins."

GIFT OF A MILLION.

WIDOW AND SON OF THE FOUNDER TO ADD TO THE ENDOWMENT OF ARMOUR INSTITUTE.

Chicago, April 10.—The Armour Institute of this city, which owes its existence to the late Philip D. Armour, tomorrow will receive an additional endowment of a million from Mrs. P. D. Armour and J. Ogden Armour, widow and son of the founder. It is expected the money will be used to extend the scope of the institution in electrical and chemical engineering. The institute is now prospering, having an endowment of two and a half millions given by the late Phil Armour. Part of the increased endowment will be used to extend the facilities of the institute, it being difficult at present to accommodate all students desiring admission.

SOAP COMPANIES UNITE.

Chicago, April 10.—As the result of a two days' conference here, representatives of thirty-five of the largest soap manufacturing concerns in the country today effected an organization to be known as the American Soap Manufacturing association. While the members strenuously deny the association is a trust, it is admitted it is expected to eliminate the cut-throat competition. It will also take the place of the National Soap Makers' association. The officers are: President, James B. McMahon, Fairbanks company, Chicago; vice president, Richard Colgate, Colgate company, New York; treasurer, William Peet, Kansas City.

SENDS THANKS TO KING.

M. Loubet telegraphed to King Victor Emmanuel I of Italy as follows: "His royal highness, Monseigneur, the Duke of Genoa, has just presented me, in your majesty's name, the collar of the Annunziata. I hasten to offer my most sincere thanks for the high mark of esteem and friendship. I beg your majesty to accept my ardent wishes for the glory of your reign; for the welfare of her majesty, the queen; for the happy realization, now approaching, of the hope of the royal house, and finally, for the prosperity of Italy, the friend of France." M. Loubet concluded his message by saying that he had directed M. Delcasse, the French minister for foreign affairs, to present the Duke of Genoa with the grand cordon of the Legion of Honor.

At a banquet this evening in honor of the Duke of Genoa, President Lou-

GALA DAY FOR FRANCE

M. Loubet Hobnobs With Russian and Italian Naval Officers.

GREAT MARINE SPECTACLE

Squadrons of 'Ally' Czar and 'Friend' Emmanuel Visited by President and Officers Decorated.

MANY WARSHIPS IN LINE.

Paris, April 10.—The important festivities attending President Loubet's visit to the Mediterranean coast were brought to a climax today in a double naval demonstration at Ville Franche and Toulon. Both proved splendid spectacles.

M. Loubet fully appreciates the value to France of the word "Ally" in connection with the relations of France to Russia, and again took opportunity to pronounce it on board the Alexander II this morning. In responding to a toast, he said: "I am much pleased that his majesty, the emperor, has sent a squadron of his fleet to the Mediterranean coast. I am grateful for this mark of sympathy; and raise my glass to the health of their majesties, the emperor and empress, to the friendly and allied Russian nation and to the prosperity of the Russian army." Admiral Biriouff suitably responded, toasting "the president of the French republic, the prosperity of La Belle France, my second fatherland, and the glory of the French navy and army."

The ceremony of decorating Admiral Biriouff was performed in the presence of the whole ship, and the officers of the flagship were presented to M. Loubet. The Alexander II was the first of the Russian warships cheered when the St. Louis passed. After M. Loubet's departure, Admiral Biriouff entertained the local officers on board the Alexander.

MEETS THE ITALIANS.

Toulon, April 10.—The town is filling up fast and is gay with flags and festoons of the French and Italian colors. The Duke of Genoa visited the mayor of Toulon this morning and was everywhere greeted with cheers. Enormous crowds on the quays watched the arrival of the squadron escorting the president. The land batteries and the Italian and Spanish ships joined in a great salute to M. Loubet as the St. Louis entered port, passing the Italian ships, whose sides were manned by cheering crews while the hands played the "Marseillaise." The Duke of Genoa and staff, on the bridge of Le Panto, exchanged salutes with M. Loubet and the ministers.

The president landed at two and drove through streets lined with troops to the Place d'Armes, where he bestowed decorations on a number of military men. Thence he repaired to the prefecture. Great crowds everywhere heartily welcomed the president.

DUKE VISITS PRESIDENT.

The Duke of Genoa and staff left Le Panto at three, all the forty warships in the roads firing salutes. On his arrival at the arsenal the duke was received by officials and conducted inland to the maritime prefecture, where he was received with military honors.

M. Loubet sent numerous Legion of Honor decorations to Italian officers, and also bestowed Legion of Honor decorations on three officers of the Spanish battleship Pelayo. The duke, who was in full uniform, was immediately presented to President Loubet. They cordially conversed for twenty minutes, after which the duke handed M. Loubet the collar of the Order of Annunziata. The suits were then introduced to one another and the Duke of Genoa returned to his flagship with the same ceremony observed on his arrival.

M. Loubet next received the officers of the Spanish battleship Pelayo and compliments were exchanged, the representatives of each nation declaring that they rejoiced over the sympathy uniting the respective countries. The officers of the Japanese and Russian warships afterwards were introduced. Immense crowds assembled around the maritime prefecture, wildly cheering the representatives of each nation, especially the Russians. The president later returned the Duke of Genoa's visit.

SENDS THANKS TO KING.

M. Loubet telegraphed to King Victor Emmanuel I of Italy as follows: "His royal highness, Monseigneur, the Duke of Genoa, has just presented me, in your majesty's name, the collar of the Annunziata. I hasten to offer my most sincere thanks for the high mark of esteem and friendship. I beg your majesty to accept my ardent wishes for the glory of your reign; for the welfare of her majesty, the queen; for the happy realization, now approaching, of the hope of the royal house, and finally, for the prosperity of Italy, the friend of France." M. Loubet concluded his message by saying that he had directed M. Delcasse, the French minister for foreign affairs, to present the Duke of Genoa with the grand cordon of the Legion of Honor.

At a banquet this evening in honor of the Duke of Genoa, President Lou-

bet proposed a joint toast to the king and queen of Italy, former Queen Margherita, the Duke of Genoa, the royal family of Italy, the Italian nation and the Italian navy. The Duke of Genoa replied, toasting the French president, the French army, French navy and French nation. Loubet then proposed King Alfonso XIII, the queen regent, the Spanish navy and Spanish nation. The president's third toast was to the officers of the Russian navy and the foreign officers deputed to come to Toulon.

Late this evening M. Loubet received the following reply to his dispatch to the king of Italy: "I thank you excellently most heartily for your amiable message and for the cordial reception given my uncle, the Duke of Genoa, and to the Italian fleet. The queen joins me in an expression of grateful thanks for the wishes of our happiness. Accept my sincere wishes for your person and for the prosperity of France, the friend of Italy."

RUSSIANS DECORATED.

Ville Franche, April 10.—President Loubet today paid his promised visit to the Russian squadron, and during his visit decorated Admiral Biriouff and two officers with the cross of the Legion of Honor. The president subsequently sailed for Toulon. The Russian bands played the Marseillaise and their crews cheered as the French and Russian warships saluted the vessel with M. Loubet on board when it passed out.

IS A NOTED COUNTERFEITER.

MAN WHO ATTEMPTS SUICIDE ON HIS CAPTURE AT NEW YORK FOUND TO BE MUCH WANTED IN ILLINOIS AND SWEDEN.

New York, April 10.—It came to light today that a man who attempted to commit suicide by shooting himself in the head while being pursued by a crowd in West street yesterday is John Albert Skogg, wanted by the government authorities of this country and Sweden. He is a Swede, aged thirty-five, and the son of prominent and wealthy parents. He is pronounced by officials of the United States secret service as one of the most expert counterfeiters alive.

ESCAPED FROM JOLIET.

In March, 1897, he escaped from the penitentiary at Joliet, Ill., while serving a sentence for making and passing counterfeit twenty-dollar bills, and Chief Hazen, of the secret service department, has a bench warrant for Skogg's arrest issued from the United States circuit court for the Northern district of Illinois. Skogg was wanted in Sweden for the making and passing of a large number of counterfeit hundred-kroner notes, early in 1898, after his escape from Joliet.

Yesterday Skogg attempted to pass counterfeit fifty-kroner notes at a banking house in lower Broadway. The bank officials became suspicious and threatened to call a policeman, when Skogg turned and fled down Broadway, followed by two policemen and a large crowd. As the policemen caught him in West street, Skogg drew a pistol and shot himself twice through the head. He was taken to a hospital. Should he recover, which is thought likely, it is the intention to return him to Joliet.

IMPORTANT RAID A SEQUEL.

One of the biggest raids in the history of the secret service was made tonight by Chief Hazen as a result of the arrest of Skogg. Chief Hazen, following a clue found in Skogg's pocket, went to a building in Grand avenue, Brooklyn, and arrested Emil Moberg, a Swede. A complete counterfeiting plant was discovered in the house and the long-sought plates for fifty-kroner notes of the Bank of Sweden and one hundred-kroner notes of the Bank of Copenhagen were found. They were buried away with other plates one for making twenty-pound notes of the Bank of Scotland which, it is said, the secret service of Great Britain has been trying to run down.

GOTHAM BROKER A SUICIDE.

New York, April 10.—Benjamin Forst, a broker, member of the Consolidated exchange, committed suicide today in the Hoffman House by taking carbolic acid. His suspension was announced at the opening of business on the exchange today. It is the rule of the exchange that if a member has debts outstanding to members of the exchange he shall be suspended for twenty-four hours with the privilege of reinstatement as soon as he settles. Forst had outstanding debts amounting to \$100 yesterday, and this is believed to have been the cause of his suicide.

CHILD FINDS HER BODY.

Monmouth, Ills., April 10.—Mrs. S. R. Lyons, wife of the president of Monmouth college, committed suicide today by hanging herself in the attic. The body was found by the eldest of her three small children. She had been alling for some time. Friends of the dead woman declare she had been on the verge of nervous prostration for several days on account of worrying about her husband's position at the college. There has been a contest in the board of trustees for some time over the president, one faction claiming he was not a man fit to head the college. They attempted to secure his removal, but so far the friends of the president have forestalled all such attempts. A verdict of suicide was rendered tonight by the coroner's jury.

BLAZE AT ESCANABA.

Escanaba, Mich., April 10.—Fire at noon today in the Delta Hardware company's store did \$25,000 damages to the stock and building. Someone stepped on a match in the basement, causing a blaze that spread with great rapidity before the firemen arrived on the scene. The loss is fully covered by insurance.

To Mothers of Large Families.

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life.

weakness, may fill your future years with healthy joy.

"When I began to take Lydia E. Pinkham's Vegetable Compound I was not able to do my housework. I suffered terribly at time of menstruation. Several doctors told me they could do nothing for me. Thanks to Mrs. Pinkham's advice and medicine I am now well, and can do the work for eight in the family."

"I would recommend Lydia E. Pinkham's Vegetable Compound to all mothers with large families."—Mrs. CARBIE BELLEVILLE, Ludington, Mich.

MARQUETTE, MICH., APRIL 11.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The British have captured another Boer capital, but DeWet and his marauding army are still at large. It isn't very difficult to capture an abandoned town, still General Kitchener considers the taking of one of sufficient importance to cable the news of the achievement home as an important victory.

The rejection by the Cuban constitutional convention of the Platt amendment sidetracks the Cuban question until the meeting of congress next fall, as the president can do nothing more than continue the status quo in the island until further action is taken by the legislative branch of the government. The Cubans made a mistake, in our opinion, in rejecting the conditions offered them by us as a preliminary to the withdrawal of our troops and allowing them to set up a government of their own, but it is their affair and they have the privilege of managing in their own way.

Representative Chandler's railroad taxation bill is now fairly on its passage, having been reported out by the house railroad committee. In the form in which it was reported out the bill provides for having the state board of tax commissioners assess the value of railroad property, instead of having a separate board of assessors for the work, and the board is instructed to assess such property at the same rate as all other property in the state is assessed for taxation purposes.

THOSE AWFUL AMERICANS! The Montreal Herald tells this appalling tale of what Americans are doing in Canada: Who thought the claims for mines of our prosperous in British Columbia? The Americans! Who sold them to the Canadians afterward, pocketing fat profits? The Americans! Who have developed our wood pulp trade? The Americans! Who sold us the wonderful Stanley mine? The Americans! Who started the iron industry in Sydney, Cape Breton? The Americans! Who pocket the millions therefrom? The Americans! Who is the moving spirit in Sault Ste. Marie? An American! Who has obtained elevator privileges from our harbor commissioners? Americans! Who fall to build elevators, and thereby help Buffalo? Americans! Who will gobble our meat export trade? The Americans! Who have bought all our petroleum wells? The Americans! Who was called to reorganize our Grand Trunk railway? An American! What architects got the work of our largest and finest buildings? Americans! Who are quickest to appreciate and employ our smartest young men? Americans!

Wouldn't it be a nice thing for Canada to be made a part of the country which furnishes the men who have furnished the brains and money that have lifted its industries out of the rut in which they were stalled and are making them productive and valuable?

TO ENLARGE THE PIE COUNTER. The Grand Rapids Herald, which has set its face determinedly against some of the crying abuses that are growing up in the conduct of state affairs, has this comment on Senator Atwood's bill providing for state inspection of beer: The proposed inspection of Michigan-made beer will be a most righteous measure in the eyes of those who hope to land the places such legislation will create, but it will take such a violent stretch of the imagination to make the proposed inspection a sanitary measure that in common humanity its title should be changed. The bill creating a board of beer inspectors should be entitled a bill to enlarge the pie counter. This title would be short, euphonious and exactly descriptive of the measure and its intent.

Beer is more and more becoming a popular beverage, and while most of it is still passed over the bar it is rapidly winning a place in the family, at the table and in the social circle. That the beer should be pure is an important consideration, but to demand the official inspection of every gallon put forth would be a heavy burden upon Michigan brewers and a serious handicap upon them in their competition with the brewers of Chicago, Milwaukee, Cincinnati and St. Louis. If any doubts are entertained of the quality of Michigan-made beer the powers of the state food commission might be enlarged and occasional inspection of ample lots would serve every purpose, if the food commissioner had jurisdiction his authority would apply to beer imported into the state as well as the home product. It is questionable if beer inspectors appointed to inspect and to collect a fee of 1 cent a gallon upon the Michigan product would have any right to go nosing around among the kegs and bottles brought in from

other states, and the result would be that the outsiders would have an advantage of 31 cents a barrel in seeking trade in this state over the home producers.

CHRISTIAN SCIENCE.

To the Editor:—In your issue of the 12th ult., which has just come to my notice, the statement was made that the medical law lately enacted in Missouri "was based ostensibly on the declaration and position of the Christian Scientists themselves," that "one of their articles is, there is no such thing as disease, but what passes for ill are but creations of fancy." There is so much that is called Christian Science by the general public, but which has no element of this doctrine, that it is not strange that erroneous opinions are expressed concerning it by those uninformed as to its real teaching. My experience with newspaper men is, they are generally glad to be set right in matters that are claiming so much attention.

First, then, Christian Science is not in any way allied to mesmerism, hypnotism, spiritualism, Dowleism or mental science, but is, rather, diametrically opposed to all. It is founded upon the Bible and the teachings and demonstrations of Jesus Christ and upon nothing else. Every proposition made in its text book, "Science and Health, with Key to the Scriptures," by Mary Baker G. Eddy, has been, and is being, demonstrated continually throughout the world today. Its chief cornerstone is, "God is the only source of life, health and strength." It teaches that the two commandments upon which the Master said "hang all the law and the prophets," "Thou shalt have no other gods before Me" and "Love thy neighbor as thyself," must first be understood and then be kept absolutely, if man would escape the penalties involved. Christian Science teaches purity, honesty and true affection, not only in action but especially in thought. It impresses strongly upon the human mind the scriptural warning "whatsoever a man soweth, that shall he also reap." It does not teach that the human body is not subject to sickness or pain according to mortal sense, but that its unreality lies in the fact that God did not create it, for the Scriptures declare that "God saw everything that he had made, and behold it was very good." Disease is not a manifestation of life but of death, and it is to make their patients see and understand this, that many physicians try to impress upon them the study of life and its origin more than disease.

We suffer in the flesh because we have, (unwittingly it may be), transgressed the first commandment and given ourselves over to obey our bodies instead of the living God. God said "Let us make man in our image after our likeness and let them have dominion over all the earth." Christian Science understands that this commandment means that God's idea, which is ever present with each one of us, shall rule our mortal bodies. God said "Let us make man in our image after our likeness and let them have dominion over all the earth." Christian Science understands that this commandment means that God's idea, which is ever present with each one of us, shall rule our mortal bodies.

The gentleman who has gone into the new company are so confident of making from 25 per cent on their investment that but a limited amount of stock is to be placed upon the market, the price of which will be \$2.50. The company is incorporated under the laws of Delaware with 250,000 shares the par value of each of which is \$5 it is represented that the stock is non-assessable. They expect to pay the purchase price and then place \$200,000 in the company's treasury immediately in order that the mines may at once be opened on a large scale and the capacity of the present mill be increased to sixty or seventy times its present capacity. With such flattering prospects, there is reason in the argument of the prominent gentlemen who have organized the company that there is nothing of the nature of a risk in their new venture.

The undersigned, acting as financial agents, will receive subscriptions for a limited amount of the stock of above company. The company is organized under the laws of the state of Delaware with a capital of \$1,250,000, divided into 250,000 shares of \$5 each, full paid and non-assessable. The subscription price is \$2.50 per share and applications will receive attention in the order of their receipt. The sum of \$200,000 of cash or its equivalent will be placed in the treasury. The services of the most competent mining and mill superintendents have been obtained to take charge of the mines.

MOTHERS! Beware of those secret robbers of your baby's quiet and health. Those sleepless nights and long hours of tiresome vigil are caused by those terrible enemies of childhood—worms. Destroy them with WHITE'S CREAM VERMIFUGE. Price 25 cents. The Stafford Drug Co.

No Grippe, Pain Hood's Pills sold by all druggists. 25 cents

Additional.] GOES IN TURNER'S FAVOR.

DULUTH MAN WHO SUED FOR \$2,000 ON THE MASS FLOTATION LOST HIS CASE.

The United States circuit court of Massachusetts has decided in favor of the defendant in the suit of Charles H. Bradley of Duluth against A. B. Turner of Boston for \$2,000, holding that the plaintiff was not entitled to recover, thus affirming the verdict rendered at the Duluth term of the circuit court last May, when Judge Lochren directed for the defendant.

There was effected in this city recently the organization of the Los Reyes Gold Mining & Milling Co., a corporation expecting to develop a group of celebrated mines in the Parais district, state of Oaxaca, Mexico, says the Detroit Free Press. The capitalists who are interested in this \$1,250,000 company are Henry C. Potter, Jr., Charles L. Freer, Colonel Frank J. Jackson, Charles B. Warren, George H. Hopkins, Fred S. Osborne, Philip H. McMillan, George H. Russell, John T. Shaw, Edward H. Parker, Cameron Currie, Wm. C. McMillan, Cameron D. Waterman, Robert E. Plumb, C. A. Ducharme, Frank C. Andrews, Strathern Hendrick, Charles Carpenter, Julius Stroh, George M. Black and Fred Whiting, of Detroit; Wm. C. Durant, Flint; L. E. Rowley and R. C. Ostrander, Lansing, and James L. Grandison, a wealthy resident of Oaxaca, Mexico.

At the organization meeting Messrs. Russell, Carpenter, Hendrick, Stroh, Durant, Currie, Warren, Hopkins, McMillan, Rowley and Grandison were elected directors. The last named gentleman will be resident director and Mr. Russell, treasurer. The other officers will be selected by the board from the number of directors. Cameron Currie & Co. will act as financial agents and their receipts will be exchanged for stock when issued. The Union Trust Co., of Detroit, will be registrars of the stock and transfer agents, and the company will be listed on the Detroit and Boston exchanges.

The Los Reyes group of mines which is to be worked by this new company are two in number, the Los Reyes and the San Rafael, both containing 295 acres and extending over two large mountains that are twenty-five miles distant from Oaxaca. The mines have been worked before this by the Mexican way, and have proved immensely rich even at that. Nearly half a million dollars have been taken from the mines in the past thirty years by the slow and extravagant process of Indian sacking. It is claimed that there is more than \$400,000 worth of gold ore in sight at present. The presence of a swift flowing mountain stream makes the possibility of economical mining and milling attractive. There are now in process of building ten stamp mills, each having 100 tons of ore it is said to be clear gold quartz, carrying but a small percentage of iron and is therefore a free milling ore. The gold, too, is remarkably high grade, being 946 fine. Before the Los Reyes mines were purchased by the present owners they were examined by one of the most practical mining experts in the West, Lester Jackson, whose personal and professional endorsements were of the highest. One of the endorsements that gave Detroiters most confidence in the expert was a letter full of compliments and testimonials, written by Frank M. Murphy, of Arizona, a business associate of Hon. D. M. Ferry, of Detroit. Mr. Jackson was also freely endorsed by E. B. Gage and C. J. Hall, leading business men of Chicago. Mr. Jackson's estimate of the mines was very high, declaring it his conviction that they will be enormous dividend payers and practically inexhaustible. In his many years of experience as a mining expert Mr. Jackson is said to have unqualifiedly approved the mining properties, each of which has turned out to be a valuable mine. In concluding his report to the Detroit company he uses this significant language: "I unqualifiedly recommend the purchase of these properties."

The favorable showing of copper at the Triniton mine continues unbroken. No. 1 shaft is down about 600 feet, No. 2 250 feet and No. 3 below the first level. Thus far the lode shows a maximum width of thirty-four feet and a minimum of eighteen. All the shafts are equipped with hoists capable of operating to a depth of 1,500 feet. The Arcadian is stamping about 700 tons of rock daily. A part of this comes from No. 2 shaft in the old mine, and the rest from shafts Nos. 1 and 2 on the St. Mary's lode. Both of the latter have improved somewhat with depth, and results should be a little better than heretofore. The Arcadian may soon increase its working force.

Talk of a "trust" in copper, the consolidation of the American Smelting company and the Amalgamated interests being a feature therein, had much influence in advancing prices on the New York exchange yesterday. Amalgamated Copper at one time was up 5 1/2 points and Anaconda 4 1/2. The Boston market was strong in sympathy.

New hoists capable of reaching to a depth of 1,500 feet are being installed at "B" and "C" shafts at the Champion mine. All four of the shafts are timbered to the bottom and sinking continues in all of them. Rock houses to take care of the product of these shafts are in the course of construction, and the boilers and compressors are already in commission. It is believed the mine will become a regular producer, using two heads of stamps at the Atlantic mill, when the Baltic starts its new mill in July.

We understand that a nice bunch of copper ground has just been struck at the Mohawk in the fifth level of No. 2 shaft, going south. It is said to be showing up very fine with heavy copper. Last week in the exploring shaft at Tecumseh, a bunch of copper ground was run into that looked fairly well. The lode there is about eight feet wide and what the find may develop into is hard to tell just yet. Some unusually favorable reports continue to come in from the Champion mine of the Copper Range. The ground in the deepest openings shows splendid copper value and the formation is wide and apparently of great uniformity. A large amount of the mineral is heavy and runs to barrel work. A new hoisting engine has commenced to arrive at the mine and it will be installed for immediate use.

THE BOER WAR.

The latest news from South Africa indicates a speedy and peaceful termination of the conflict that has been raging for the past two years. War is a terrible thing and has slain thousands, but stomach troubles, we believe, have slain even more. When the stomach is out of order the entire system suffers and disease takes an easy hold. To insure health and long life keep the stomach in good condition by the use of Hostetter's Stomach Bitters.

THE MOST STUBBORN COUGHS resulting from an attack of la grippe or heavy cold, must yield to the wonderful healing properties of Foley's Honey and Tar, which strengthens the lungs and makes them strong. The People's Drug Store.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains, Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

BACKACHE—NO CURE, NO PAY. Your druggist will refund your money if DeBell's Kidney Pills fail to cure any Kidney, Liver, Bladder or Urinary trouble or any disorders due to Weak Kidneys, such as Rheumatism, Lumbago and Bright's Disease. DeBell's Kidney Pills is a new discovery and is the only Kidney remedy sold on a positive guarantee.—No Cure, No Pay. Price 25 cents. For sale by the Stafford Drug Co.

SPECIAL ELECTION. Municipal Improvements Bond Issue. To the Qualified Electors of the City of Marquette: Notice is hereby given that the common council proposes to borrow the sum of twenty thousand dollars for such time and at such rate of interest as may be hereafter determined, and to issue bonds therefor pledging the faith and credit of the City of Marquette for the payment of the principal and interest of such bonds; for the purpose of raising money with which to make the following municipal improvements, viz: to obtain, open and improve new streets, parks and public grounds, and to widen and improve streets and roadways and construct bridges, culverts and sewers in the city.

THE QUESTION OF RAISING SUCH LOAN will be submitted to the qualified electors of the city, for their approval, at a special election appointed and called for that purpose to be held at the city hall in said city on Monday, the 28th day of April, 1901, from 7 o'clock a. m. until 5 o'clock p. m. Said question will be printed upon the ballots and be submitted to the electors in the following form, to-wit: "Shall the common council be authorized to borrow twenty thousand dollars and to issue bonds therefor for the purpose of raising money for No. 1 municipal improvements." Dated, April 6, 1901. DANIEL S. DONOVAN, Recorder of said City.

It will hoist from a depth of 1,500 feet. The structural steel for the enlargement of the Osceola new stamp mill is arriving on the ground and the work of enlarging the structure so that the mine may increase its product of copper will be pushed to completion with vigor. A number of inquiries have recently been received asking why the stock remains around \$80 per share with such prospects ahead. Such questions are difficult to answer with any degree of satisfaction. The reasons may be many and varied. One might attribute or any other disorder of the stomach to be added later on. These heads will crush from 1,200 to 1,500 tons rock per day and bring the product of the mine to over 1,000 tons mineral per month. As the new supply of rock will come principally from the Kearsarge, it should be of much better quality, very cheaply, for the ground to be mined is not deep and of excellent quality.—Native Copper Times.

BUY FAMOUS OKEFENOKEE SWAMP.
CHAS. HEBARD & SONS INVEST
\$175,000 IN SOUTH GEORGIA.

A dispatch from Atlanta, Ga., dated the 9th, conveys the information that the famous Okefenokee swamp in south Georgia has been sold to Charles Hebard & Sons, the well-known lumbermen of Pequotting. The consideration, it is understood, is \$175,000. The swamp, it is said, was purchased for its standing timber, and after it is cleared the land will be devoted to the cultivation of sugar cane and cotton.

BOXING CARNAVAL AT HOUGHTON.
JACK ROWETT AND JIM ARNOLD TO MEET SATURDAY EVENING IN THE SQUARED CIRCLE.

A fifteen-round glove contest has been arranged to take place at the Houghton Armory, Saturday evening, between two well-known pugilists of the upper peninsula. The principals are Jim Arnold, who styles himself as the "champion heavyweight of the Northwest," and Jack Rowett, the well-known wrestler and boxer of Ironwood. As a preliminary, a six-round "go" between Joe Wadsworth of San Francisco and Frank Beaton of West Superior will be the attraction. The contest will start at 8:30 o'clock sharp. Special railroad rates will be given from all parts of the county and delegations from the several villages will likely be in attendance.

NEW STORE BUILDING.

The small structure at the corner of Sheldon and Peavable streets, Houghton, which was recently partially destroyed by fire, will be converted into a modern store building. It will be a one-story structure, instead of two, as formerly, and a plate glass front will be a feature. A twelve-foot addition will be built on the rear which will be the same in height as the front portion. The whole building will be brick veneered in accordance with the village ordinance relative to new structures erected within the fire limits. Work on the remodeling of the building will soon be commenced by the R. M. Edwards estate, which owns the property. It is not known at present who the future tenant will be. D. C. Petershan, the upholster, occupied the quarters before the fire. The structure in its present condition is an eye-sore to the public and Houghton people are pleased that a fine new building will soon replace the old one.

HE POOLED THE SURGEONS.
All doctors told Benick Hamilton, of West Jefferson, O., after suffering 18 months from Hectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest cure on earth, and the best salve in the world. 25 cents a box. Sold by the Stafford Drug Co.

LOCAL NAVIGATION OPENS

TUG CARPENTER GETS UP STEAM AND CHURNS PORTAKE LAKE WATERS—ICE GOING FAST.

The tug A. C. Carpenter, owned by Porter Bros. of Houghton, got up steam yesterday afternoon—after lying idle all winter—and started to plow through the thirteen inches of ice on the lake at the foot of Isle Royale street. It was the first tug out this year and many people watched its efforts, which were quite successful. The boat got as far as the edge of the roadway extending from the foot of Huron street across the lake to Cleaves' foundry.

At Ontonagon, the tug Framp has gone into commission and the little remaining ice is reported to be badly honeycombed. At Eagle Harbor the ice is all out of the harbor and also in the lake. The Portage ship canal is clear and although the average thickness of the ice in Portage lake is thirteen inches large openings have started at different points and are rapidly spreading.

J. C. Thompson, manager of the Western Transit company's Houghton business, yesterday received a message from headquarters to the effect that the receiving of westbound freight would commence as follows: Canal and lake from New York, April 15; local Buffalo freight, April 17; railroad and lake from all Eastern points, April 22. It is the "first gun."

HOUGHTON'S FIRE ORDINANCE.

The fire ordinance relative to the erecting of new buildings within the fire limits in the village of Houghton is proving an enigma to the common council, and it is seemingly not clearly enough stated to be understood by the trustees, who do not know where to exactly draw the line in certain cases concerning building permits which come up. Those who know the condition of the present and past state of affairs since the ordinance was passed can readily appreciate the difficulty of the trustees in applying the conditions of the law at different times.

The ordinance infers that all new buildings put up within certain described fire limits shall be protected on the exterior from danger of fire from adjoining structures or otherwise by brick veneering or some material which will lessen the danger. At any rate, wood siding or finishing for the outside is not to be allowed. For the interior of a new building no provisions are made. Where the shoe pinches, however, is in cases where old buildings are to be remodeled or enlarged. It is a question whether the ordinance applies to those structures under such conditions, but the trustees are inclined to believe it does although they are not certain. In some instances permits have been given for remodeling of buildings on which wood instead of brick was to be used. Judging by the action of the board at its meeting Monday evening, however, it is the intention of the present council to strict-

ly adhere in the future to its interpretation of the ordinance.

The law is a good one. Property owners who put up brick buildings within the fire limits are not sorry for it afterwards and the structures are a credit to the village. The ordinance does away with a lot of "shacks" that would surely be built if it were not for the restrictions described.

VETERANS WILL DANCE.

ANNUAL BALL OF THE G. A. R. AT HOUGHTON TONIGHT.

The eleventh annual ball of the G. A. R. Stiles post, No. 74, G. A. R., composed of veterans of the Civil war, will be held at the Houghton Armory tonight. The annual social affair of the old soldiers is always well attended and enjoyed, and it is thought tonight's party will be no exception to the rule, as the arrangements committee, composed of John Hummel and Joseph Haas, started early with the preparations and now has everything in readiness. Klinghammer's orchestra of Houghton will furnish the music and the Armory will be tastefully decorated. Refreshments will be served. The proceeds will be added to the treasury of the post and used to care for the sick soldiers of the society and also for death benefits. The annual ball is the only means of income the post has. For the past ten years the old soldiers have held their party in Hancock, but this year Houghton was selected.

MACCABEES TOMORROW EVE.

At the Lake Linden Opera House tomorrow night, the members of Copper tent, No. 251, Knights of the Maccabees, will give a dancing party. Arrangements for the affair are complete and it promises to be one of the best of the year. Dix's orchestra will furnish the music and Frank Pearce will officiate as prompter. The Lady Maccabees will serve supper during the course of the evening. It is expected that members of the order from all parts of the country will attend the ball.

STREET LINE EXTENSION.

The rock being used in the construction work on the extension of the street railway line to Calumet is taken from the Franklin, Jr., rockpile, a track recently laid to it being utilized in the bringing of the material to the scene of present operations. Fir timber from Washington is arriving by the carload this week, and poles and ties are coming in daily. Fifty-five carloads of standard gauge heavy rails have already been received. Skilled and common labor are both employed and the company is increasing its force of men as the work progresses. The favorable weather greatly enhances the work and there is no delay.

TO PREVENT PNEUMONIA AND GRIP
Laxative Brome-Quinine removes the cause.

NOTICE—If in want of men call up Perrault's Employment Agency, Phone 251, Calumet. (4-6-1m)

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dee Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

A conference of Portage Lake athletes for the purpose of organizing a track team was held at the Hancock Y. M. C. A. rooms last evening.

A meeting of the arrangements committee in charge of preparations for the Bachelors' second annual ball to be given at the Houghton Armory May 19 was held last evening. Invitations for the event will be issued today.

A game of indoor baseball is being talked of and will likely be arranged between the Hancock Y. M. C. A. team and the Dollar Bay Athletic association players for Saturday afternoon at 1 o'clock at the Hancock gymnasium.

A concert and lecture will be given under the auspices of the literary circle of the Sacred Heart league at the Laurium Opera House tonight. Extensive preparations have been made for the entertainment. The proceeds will be added to the church fund.

The board of county canvassers, composed of W. F. Miller of Houghton, James Hoar of Lake Linden and George C. Bentley of Hancock, has completed its work on the returns of the recent township elections and has turned the record books over to the county clerk.

A large crowd of Hancock and Houghton people assembled at the Houghton side of the county bridge last evening for the purpose of witnessing an exhibition of a new fire extinguisher. The experiment, which was tried on a considerable blaze, was a complete success.

Steps will soon be taken to incorporate the Copper Country Humane society, which was recently organized at Calumet. It is the purpose to increase the present membership as far as possible in order that enough money may be placed in the treasury to conduct a vigorous campaign in behalf of dumb animals.

The funeral of Mrs. Jerry Harrington of Houghton, who died Tuesday morning from heart trouble after a short illness, will be held this morning from St. Ignatius' church, Houghton. Mrs. Harrington was sixty years of age and an old resident of the village. She is survived by a husband and eight children.

The new library and reading rooms conducted at Lake Linden by the Calumet & Hecla company which were recently equipped with new furniture were thrown open to the public yesterday afternoon and the attendance of the employees of the mills was large throughout the rest of the day. The library will be open every day from now on.

About thirty-five of the Finnish residents of the Tamarack-Oscoda location have organized a society and are building a "temperance hall" on a well selected site between the Tamarack and Oscoda mills. It will be a frame structure, 20 by 38 feet, and will seat about 100 persons. When complete the building will be used for entertainment purposes and religious and social gatherings.

A GOOD STORY

A certain young lady in delicate health was advised by her doctor to take a half-teaspoonful of Scott's emulsion of cod-liver oil after dinner—once a day—and found herself almost suddenly growing robust.

So small a dose is by no means the rule; the rule is whatever the stomach will bear—not more. Another rule is: take it on every least occasion, but not too much; don't overdo it.

Small's Laundry.

Will send you a little to try, if you like.
SCOTT & BOWNE, 409 Pearl street, New York.

A regular meeting of the literary and debating society of the Hancock Y. M. C. A. was held at the association rooms Tuesday evening. The special feature of the program was a debate on the question: "Resolved, That trusts are detrimental to the interests of the country." The affirmative and negative were argued by two teams, each composed of two members, and the former received the decision. The next meeting will be held in two weeks.

There is some talk at Lake Linden of organizing a stock company, with a capital of several thousand dollars, for the purpose of purchasing and remodeling the present opera house into an up-to-date theatre. It is said the project is meeting with favor and that definite steps toward that end have already been taken, some of the stock having been subscribed. The village is certainly in need of a modern opera house and present prospects are good that plans for one will soon be made.

A CARD.

FILIPINOS LOSE CASH.

Three Staff Officers With \$40,000 Are Captured Near Manila.

AN OFFER TO AGUINALDO.

Liberty in Return for Tino's Surrender Said to Have Been Promised—Natives for Naval Service.

500 NOW TO BE ENLISTED.

Manila, April 10.—Lieutenant Mapes, of the Twenty-third infantry, has captured 500 of insurgent funds and taken as prisoners three officers belonging to General Callies' staff, the captures being made today near Manila.

AGUINALDO KEPT IN HIDING.

It is stated that before Aguinaldo is liberated he will be required to obtain the surrender of General Tino, the noted insurgent leader. The officials are acting with a great air of mystery, which is causing considerable local comment and creating the idea that something is being concealed. Aguinaldo cannot yet be seen by newspaper men and obviously will be kept in seclusion until there have been some definite developments, which are expected momentarily.

COCK FIGHTING AGAIN ALLOWED.

Under the old regulations, cock pits will be re-established in Manila. The widow of Captain Lara of the Manila police, who was assassinated, has been granted the exclusive cockpitting privilege by the provost marshal as compensation for the murder of her husband, who was the commander of the native police. This is the first time that the Americans have granted permission for cock fighting in Manila. It is the national sport of the Filipinos and there probably will be legislation in regard to it in the future.

NOW ORGANIZING PANAY.

Iloilo, Island of Panay, April 10.—The United States Philippine commission, on board the transport Summer, arrived here this afternoon and at a meeting of delegates from the villages of Iloilo province, held in the theatre here, Judge Taft outlined the purposes of the commission. The municipality of Iloilo gave a ball and banquet tonight to the commissioners. All the provinces in Panay island will be organized under the civil government.

NATIVES TO MAN GUNBOATS.

Washington, April 10.—Secretary Long has cabled instructions to Rear Admiral Remey, commander-in-chief of the Asiatic station, to enlist 500 natives of the Philippines for service on the former Spanish gunboats and other small vessels which are to be maintained exclusively in the Philippines. These men will form the nucleus of an important service composed solely of enlisted men. Rear Admiral Crownsfield, chief of the bureau of navigation, believes that, beside resulting in the government obtaining efficient services, the employment of natives will spread respect for the American flag and create a strong feeling of loyalty.

Americans in the Philippines, especially those serving in the firearms, become quickly debilitated, and it is necessary to send them to the United States or Japan to recuperate. The Filipinos are acclimated, and if they do become ill it will be an easy matter for them to recover in the Philippines. No difficulty will be experienced in obtaining trained men. There is no law specifically authorizing the enlistment of Filipinos, but it is pointed out that, whether the supreme court adjudges the natives foreign or citizens, it makes no difference in this case, as almost one-fifth of the enlisted men of the navy are of foreign nationality.

Cures Night Colds

How will your cough be tonight? Worse, probably. You can stop it any time. Then stop it tonight. You will cough less and sleep better, and by tomorrow at this time you will be greatly improved.

Ayer's Cherry Pectoral

cures night coughs, day coughs, all kinds of coughs. Help Nature a little and see what she will do for you. Three sizes: 25c, 50c, \$1.00. If your druggist cannot supply you, send us \$1.00 and we will express a large bottle to you, all charges prepaid. Be sure and give us your nearest express office. J. C. AYER CO., Lowell, Mass.

PREDICTED GOEBEL'S MURDER.

REVIVAL OF THE TRIALS BRINGS OUT SENSATIONAL STATEMENT INCRIMINATING FORMER GOVERNOR TAYLOR. Frankfort, Ky., April 10.—Ex-Governor W. C. Bradley, who was chief counsel for ex-Governor Taylor in the gubernatorial contest case before the legislature last year, gave sensational testimony this afternoon in the trial of Captain Garnett D. Ripley, charged with conspiracy, with others, to bring about the murder of William Goebel. Bradley detailed a conversation he had with Captain Ripley while the latter was in charge of a military company during the occupancy of the state capital by the Taylor troops last spring, in which Ripley told him of frequent conferences with Governor Taylor prior to the assassination.

The witness said that Captain Ripley told him he was in the executive office the day before the shooting and complained to Governor Taylor because he had not called on his (Ripley's) company, and asked him when he should have his company ready. "Governor Taylor replied, 'My God, haven't you brought them yet?' Goebel will not live twenty-four hours," declared the witness. Judge Yost, associate counsel with Bradley in the contest case, according to the witness, was present and heard the conversation.

The witness stated that on Jan. 25, the day a trainload of mountaineers arrived, some one told him that parties in the crowd were waiting in front of the state house to kill Goebel. The defense asked the witness if he knew anything connecting Ripley with these occurrences, and Bradley said Ripley had none as far as he knew. He said Ripley's company was disbanded about that time. A number of other witnesses testified.

GIVES WANNING TO CATHOLICS.

DANGER OF THE DESTRUCTION OF THE CHURCH EDUCATIONAL SYSTEM SEEN BY DR. CONATY—AN IMPORTANT CONFERENCE.

Chicago, April 10.—"Entering upon the new century, the Catholic educational system in America must be prepared to meet difficulties that will test its strength to the utmost. The unification of education under state control has established a mighty machine of secularized instruction which threatens to destroy all private efforts either on the part of individuals or church. It is important to meet unification, to so strengthen the Catholic educational system that it may defend itself against all attacks and have established a mighty machine of secularized instruction of its people from the dangers of non-religious education."

CHURCH SPENDING MILLIONS.

"To offset these conditions," said Dr. Conaty, "the Catholic church spent last year in the United States twenty-five millions on education, chiefly on parochial schools, exclusive of what was spent in academies, collegiate and university education. Notwithstanding the serious demands made upon her for church and charitable development, she has under educational training over a million pupils. Of these about ten thousand receive collegiate instruction under her direction."

Dr. Conaty contended that a most important issue in Catholic educational work is in the development of the Catholic high schools, which are necessary links between the parochial schools and Catholic colleges. He closed with a strong appeal to the colleges to be loyal to one another and be loyal to the university.

Rev. James A. Burns, president of Holy Cross college, Washington, spoke on "The Catholic High School Movement." A communication was read from the papal delegate, Archbishop Martinielli, expressing hearty sympathy with the purposes of the conference, especially the unification and coordination of Catholic educational work. A similar message was received from Cardinal Gibbons.

Papers were read on "The Teaching of Science" by Henry J. Delack, of St. Louis University; "St. Louis University," by President L. A. Delurey, of Villanova college, Villanova, Pa. Greetings were cabled the pope at Rome.

NOTABLE WASHINGTON BALL.

Washington, April 10.—The ball given tonight by the French ambassador in honor of the French naval officers and cadets of the training ship Duguay Trouin, now lying at Baltimore, was one of the most brilliant social events Washington has seen in a long time. Something of international significance was given to the affair by the entwining of the French tricolor and the American stars and stripes in the presence of nearly the entire membership of the president's cabinet and their wives and in the fraternizing of officers of all branches of the U.S. military and naval service with their companions in arms from the sister republic of France. The handsome interior of the French embassy was elaborately decorated for the occasion.

MONKS USED GUNS.

Madrid, April 10.—A hostile demonstration took place today at the monastery of Paramon, near Oporto, Portugal. The monks replied with gunshots, whereupon the mob stoned the building. A number of persons were wounded. No headaches in Carvalho's cigars, sweet and mild.

PROSPECT OF WARINSTEEL

Control of Colorado Fuel & Iron Secured by John W. Gates.

NOW A FOE TO THE TRUST.

All Mines in Santiago, Cuba, Bought by the Pennsylvania Company. Also an Independent.

MANY MILLIONS INVOLVED.

Chicago, April 10.—It is reported here on good authority that John W. Gates and his associates, Messrs. Lambert and Ellwood, have secured control of the Colorado Fuel & Iron company and will use the property to compete with the new United States Steel corporation. It is an open secret that Mr. Gates' relations with the steel trust are unfriendly, since he did not go on the directors, as was expected, and it is known that he has been a heavy seller of steel trust stock this week.

Just what the purchase of the control of the Colorado company, which was obtained in the open market, cost, is unknown. The absorption of the stock has caused an advance of 20 points in both common and preferred issues. The company has \$17,000,000 of common outstanding and \$2,000,000 on which 8 per cent cumulative dividends are paid. Control could have been bought for between \$5,000,000 and \$10,000,000. Mr. Gates is admitted, even by those who are not his friends, to be one of the most able steel and iron men in the country. He has vast personal wealth and always has been able to command large resources. Besides that, he is grouped around him as his closest business associates a number of steel and iron men with whom he has been identified for years in successful business ventures.

HAS FIRM HOLD IN THE WEST.

It is admitted that the Colorado Fuel & Iron company occupies a strategic point which the "trust" does not reach. Its plants are all in Colorado and are in a better position to ship material to Oriental countries, considering the heavy cost of transporting across the continent, than the Eastern trusts. The "trust" are. The company controls by lease the only anthracite coal fields west of Pennsylvania.

This is not the first time Mr. Gates has looked Westward keen for business. When the agitation for a Pacific ocean cable was under way Mr. Gates was chairman of the American Steel & Wire company, and he planned to erect a plant at San Francisco in order to bid for the contract of manufacturing the cable.

The significance of Mr. Gates' appearance as an independent steel manufacturer is that he almost certainly would be antagonistic to the "trust." Of the companies that have not gone into the combine two of the most important—the Tennessee Coal & Iron and the Republic Steel & Iron—are believed to have friendly working agreements with the Morgan interests.

CUBAN MINES GOBBLED.

New York, April 10.—It is stated that the Pennsylvania Steel company has bought the entire stock of the Spanish American Iron company, and thus became the owner on April 1 of the iron mines in the province of Santiago de Cuba. The Pennsylvania Steel company is now in course of reorganization, and is to have a capital stock of \$24,000,000. The price paid for the concern is reported to have been between \$1,000,000 and \$2,000,000. The Pennsylvania is one of the companies that has not gone into the United States Steel corporation, and there was talk today that by this purchase the company fortifies itself, as there are unworked ore bodies in the Spanish-American property which it is thought are ample to supply the entire requirements of the steel trust.

WALL STREET STOCKS STRONG.

New York, April 10.—Speculative manipulation for an advance was renewed in force today and the stock market resumed much of the same appearance as it had during the excited speculation last week. London helped to this result by some rather emphatic advances in the international stocks before the opening here, which perhaps was incident to the fortnightly settlement now in progress on the London Stock exchange.

The market opened here in a fairly buoyant condition, the congested buying causing running sales of several thousand share blocks in a number of stocks at the opening at advances from 1 to 2 points. This materially higher level of prices attracted some large selling to realize, and the tone became rather nervous for awhile, as shown in the wide and frequent fluctuations in some prominent stocks. But the speculative leaders seemed to be again well supplied with resources and they supported the market with great confidence and undiminished prices with boldness. An advance in the call loan rate helped to precipitate a lively realizing movement during the last hour which cut into the prices all around and made the closing easy.

the control of the gold, silver and copper product were the leading influences in the day's speculation as far as it was due to any specific influence at all. Burlington rose an extreme of 6 1/2 points to the new record price of 92, while Northern Pacific came within a small fraction of par. The whole granger group was affected by sympathy; Northwest preferred made a notable advance of 15 points, while St. Paul & Omaha rose 8. Amalgamated Copper gained 5 1/2 on large dealings and Anaconda 4 1/2. Texas Pacific was largely bought at an advance of 2 1/2 points on talk of the exchange of two shares of stock for one of Missouri Pacific. As an outgrowth of these movements, the Southwesterns, grangers and Eries were all strong and active. Special features of strength were Consolidated Gas, which rose 7 1/2 points; Brooklyn Union Gas; General Electric, 6, with a reaction of 5; Tobacco, 3 1/2, ex-dividend; Pullman, 3 1/2, and Chicago Terminal Transfer preferred 4 1/2. Evansville & Terre Haute jumped 7 points, allowing for the 1 1/2 per cent quarterly dividend.

Table with columns for various stocks and their closing prices. Includes Am Zinc, U S Oil, Cent Oil, etc.

RANGE OF MONEY RATES.

New York, April 10.—Money on call, steady, at 4 1/2 per cent; last loan, 6. Prime paper, 3 1/2 per cent. Exchange, steady, demand at \$4.87 1/2 and sixty days at \$4.84 1/2. Bar silver, 59 1/2.

GOVERNMENT CROP REPORT.

CONDITION OF WHEAT BETTER THAN AVERAGE, BUT THE FLY IS ALARMINGLY PREVALENT. Washington, April 10.—The April report of the statistician of the department of agriculture, made public this afternoon, shows the average condition of winter wheat on April 1 to have been 91.7, per cent, against 82.1 on April 1, 1900, 77.9 at the corresponding date of 1899 and 82.9 as the mean of the April averages for the last ten years. The averages in the principal states were: Pennsylvania, 89; Ohio, 83; Michigan, 72; Indiana, 89; Illinois, 82; Texas, 63; Tennessee, 81; Missouri, 98; Kansas, 105; Nebraska, 100; California, 100; Oklahoma, 97. While the general average condition—91.7—is the highest since 1890, the report also indicates that the crop reported from an almost unprecedentedly large number of states.

The average condition of winter rye on April 1 was 93.1, against 84.8 on April 1, 1900, 84.9 at the corresponding date of 1899 and 85.3 as the mean of the April averages for the last ten years. In New York and Pennsylvania, it was 92; Illinois and Kansas, 100; Indiana, 98, and Michigan and Ohio, 90.

Pending the forthcoming publication of the census report on livestock, the department has issued a general notice or correction of the department's figures for the year 1900, the statistician has temporarily discontinued his own estimates of the number and value of farm animals. The reports received from correspondents, however, indicate that the actual number of livestock at the close of the past winter, the losses by disease and exposure have been much below the average of a series of years.

GRAIN MARKETS STEADY.

Chicago, April 10.—The wheat trade today was of moderate volume, the feeling was steady to firm, the closing being 3/4 per cent higher. The feature was the covering of several of the larger shorts, there also being moderate commission house buying. The opening was weak, influenced some by cables, but the market soon became firm, and the offerings were well taken and the prices advanced to 70 1/2 for May. At Liverpool, spot was down 1/2 penny, with futures 1/4 per cent lower. The outside markets were weak. The seaboard reported thirty-eight boatloads accepted.

In corn there was just a fair trade, the market being moderately active and within 1/2 per cent range. The feeling was easier on the whole, the closing showing May off 1/4 and July about 1/4 lower. There was country selling and some increased offerings locally, the start being weaker. The decline was checked on support by bull interests. The feature was the changing of May into July, the discount at one time being about 78. The country offerings were very moderate. Spot at Liverpool was 1/4 penny lower, with futures 1/4 per cent higher. The clearings were moderate, at 348,000 bushels, and twenty boatloads were reported accepted on the coast. The strength of provisions possibly was an indirect help to the market. Oats were active, with renewed selling by the same interests which have been selling for the last few days. There also was liquidation by small holders. Shorts and shippers were good buyers.

Table showing grain market data: Opening, Highest, Lowest, Closing for May Wheat and May Corn.

My Lady's Breakfast is Well Served

Stale bread for breakfast is barbarous; hot, yeast-risen rolls are dyspeptic.

ROYAL BAKING POWDER

adds anti-dyspeptic qualities to the food and makes delicious hot-bread, hot-biscuit, rolls, muffins or griddle cakes, whose fragrance and beauty tempt the laggard morning appetite, and whose wholesome and nutritive qualities afford the highest sustenance for both brain and body.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, as reported by Paine, Webber & Co.: Adv. 154 @ 157 O D. 34 @ 34 1/2

TELEGRAPHIC NEWS CONDENSED.

New York, April 10.—Captain Jos. M. Trowbridge, United States army, retired, is dead at Brooklyn, aged seventy-six.

Burlington, Ia., April 10.—"Farmer" Burns tonight defeated Oscar Wasem, Iowa's champion wrestler, getting two out of three falls.

Magnolia, Ark., April 10.—Will Black and Henry Wilson, negroes, were hanged here today for the murder of Ivy Young, near Buckner, Columbia county.

New York, April 10.—James M. Barr was elected first vice president and general manager of the Seaboard Air Line railway at a meeting of the directors today.

New York, April 10.—Dr. William Jay Youmans, for many years editor of The Popular Science Monthly, died today at his home at Mt. Vernon, a suburb of this city, from typhoid fever.

Monterey, Cal., April 10.—While the condition of George Q. Cannon is somewhat improved tonight, it is thought he is steadily growing weaker and that the end cannot be far away.

Paris, April 10.—Le Siecle, the leading Dryfusite organ in France and the most persistent champion of Great Britain in the Transvaal, today announces its failure and sale at auction.

Louisville, April 10.—Tom Cough of Dunkirk was tonight given the decision over Eddie Connelly of New Brunswick in the eleventh round. Connelly was all but out and the police stopped the fight.

Norfolk, April 10.—A boiler at the plant of the Builders' Manufacturing company exploded today, killing W. S. Harriet, night watchman, and Turner Butler, colored, and injuring several others.

London, April 10.—A St. Petersburg dispatch announces that Lagowski, the provincial official who recently attempted to assassinate Privy Councillor Pobiedonostzev, has been sentenced to six years' penal servitude.

London, April 10.—General William Booth, of the Salvation Army, is today celebrating his seventy-second birthday. Telegrams of congratulations from all parts of the world are coming in. The general is in good health.

Vancouver, B. C., April 10.—The Royal City, a small steamer plying on the Fraser, was burned at Mission Junction, B. C., today. Two of the crew—Frank Edwards and Paul Horton—were burned to death. The steamer was valued at \$15,000.

Beaumont, Tex., April 10.—The largest sale yet reported in the Beaumont oil district was made today when \$1,250,000 was paid for the property of the Texas Western Oil company, formerly the Southwestern Oil company, of Cor-

TEN CARS DESTROYED.

FIRE FOLLOWS TRAIN WRECK IN CALIFORNIA—FIVE MEN HURT. San Miguel, Cal., April 10.—The night express from Los Angeles over the new Southern Pacific coast division to San Francisco was wrecked near Bradley this morning. One passenger and four trainmen were injured. Five started in the wrecked mail car, and it, the baggage car and seven tourist coaches were burned.

The injured are: Baggage Master Watson, bruised on body and internally injured; Charles Conroy, trainman, both legs broken, feet crushed; F. F. Higgins, brakeman, head and arms badly injured; Thomas Murray, baggage man, slightly cut and bruised; John R. Rebstock, passenger, Mt. Vernon, knee cap broken.

SMASH-UP ON THE ALTON.

Pontiac, Ills., April 10.—The south-bound Alton limited was wrecked at Cayuga, a flag station five miles north of here, today. The most severely injured are: Mrs. Collins, St. Louis, face fractured and body bruised; Dr. Fitzpatrick, Pontiac, head bruised. The train was running at a high rate of speed over some new track when a spreading rail led the cars down on the roadbed, throwing several coaches from the trucks and severely bruising several passengers.

TAX ON MINERAL WATER.

ENGLISH GOVERNMENT SAID TO BE CONSIDERING IT. New York, April 10.—Sir Michael Hicks-Beach is said to be considering the advisability of putting a small tax on mineral waters, says the London correspondent of The Tribune. There cannot be any doubt that such a tax would bring in a large sum of money to the treasury. In London alone \$20,000,000 is now spent annually on mineral waters by consumers, while it has been computed that in the whole United Kingdom eight times that amount is spent, and besides the enormous quantities of mineral water consumed at home, more than a million dozen were exported last year. At the present time mineral waters pay nothing to the revenue, and they could with advantage to their quality bear some portion of the burden of extra taxation that will have to be imposed.

"STICK TO IT."

Geo. L. Heard of High Tower, Georgia, writes: "Excuse me for writing on my baby covering his entire body. Under treatment of our family physician he got worse as he could not sleep for the burning and itching. We used a box of 'Banner Salve' on him and by the time it was gone he was cured. The doctor seeing it was curing him said, 'Stick to it for it is doing him more good than anything I have done for him.'" The People's Drug Store.

Get What You Ask For!

When you ask for Cascarets Candy Cathartic be sure you get them. Genuine tablets stamped C. C. C. Never sold in bulk. A substitute is always a cheat and a fraud. Beware! All druggists, etc.

For coughs and colds there is no medicine so effective as BALLARD'S HOREHONUD SYRUP.

It is the ideal remedy. Price, 25 cents and 50 cents. The Stafford Drug Co.

time at low rate of interest. For particulars
enquire at office of Peter White. (4-1-17)

MUCH WORK; LITTLE WAR.
This Has Been Lieutenant George E.
Ball's Military Experience
of Late.

HE WRITES INTERESTINGLY OF LIFE
AT HIS NEW POST.

Finds Much Fine Hunting and Reports That
Philippines Are Uniformly Peaceful and
Disinclined to Belligerent
Operations.

HE IS NOW CUT OFF FROM THE WORLD.
The following letters, in diary form, from
Lieutenant George E. Ball to
Mrs. D. H. Ball, will be found instructive
and interesting:

"Guinayangan, Tayabas Province,
"Feb. 5, 1901.
"Dear Mother:—We have been here
since Saturday and have just got
things in running order.
"It has been raining a good deal since
we came, but there has been very little
to call us out so we haven't minded it
very much.
"Yesterday afternoon we went out
hunting, the doctor and I, and got nine
fat ducks in less than half an hour.
There is a little swamp about half a
mile back from here where there are
about two or three hundred ducks all
of the time. They have been shot at
very little so that they do not fly a
great way. They circle right over
head, making very pretty wing
beats. This afternoon I am going over to
try for some pigeons, of which there are
a great number around here. The three
of us are planning a trip to a place
about ten miles distant where we can
get some deer and wild bear shooting.
There are no insurgents in this part
of the country so that our work, as re-
gards patrolling, is very light.
"Feb. 6. I just have to sigh when I
think of all of the fine shooting we
are having here and father and Everett
can't get any of it. As the doctor says,
"There are just oodles of ducks" in the
swamp back of us and the pigeons are
as large and fat as chickens.
"Last evening the doctor and I went
out for an hour and he shot two fine
big pigeons that made a good meal for
the three of us.
"Today the captain and the doctor
went out. I have heard four or five
shots so I suppose I'll have to go out
with a bull-cart very soon and bring in
the game. We have made a rule not to
shoot more than we need and thus we
will always have plenty.
"We have a little rain every day, but
the soil is very sandy here and it is
very quickly dried up again.
"The sea bathing is not good on ac-
count of the jelly-fish, of which there
are great numbers. They have painful
stings.

A LONELY POST.
"Feb. 7. This is a lonely little post,
when all is said and done. If it weren't
for my work I wouldn't know what to
do. I suppose I could find something
to do, but I am very glad that I am
kept busy.

"The only thing I am waiting for
now is my promotion and that may
send me to another station. Not that
I want to move again right away, but
there are other places where I could
be more comfortably situated and I
wouldn't be so far out of the world.
"I was just figuring up tonight and I
discovered that I am completing my
seventeenth month here. Just about
two years ago I was in Washing-
ton with you, father and Grace.
"By the way, I have a lot of new
titles to hitch onto my name. I am
quartermaster commissary, summary
court officer, inspector of customs and
guardian of the post. My duties as in-
specter of customs and captain of the
port will not make me consume much
midnight oil, however. I have now
held every position in the army that a
line officer can hold under ordinary cir-
cumstances. As commissary my pay
will be increased \$100 per month, so there
is some compensation, but I hardly ex-
pect to hold my present job very long.
If I continue as I have done in the past
and move every two months I shall
only have this month and March to
spend here. That has been a good
thing in one way; I have had an even
proportion of good and bad posts and
I have not stayed a long time in some
miserable hole the way some people
have had to do. The only trouble is
that these lone stations, while nice to
look back upon, are rather unpleasant
while we are going through the ex-
periences of living in them.

"There was a mail due in Manila on
the first of February, but it hasn't ar-
rived here as yet and, from all we can
learn, we will not receive it for a week
or two longer. Maybe you think it
won't be welcome when it comes!
"This place is beginning to make me
feel a little queer, as if I would like
to go home for a while. I guess I must
be homesick. Well, I didn't get much
exercise today and probably my liver
is not in good condition.

OUT OF THE WORLD.
"Feb. 8. I went out this afternoon
on a little hunting expedition with the
doctor and we got four fine fat
pigeons. We only had one gun so we
couldn't do very much, but we found
the place where the pigeons have head-
quarters and after this we shall go
right there. Heretofore we have wasted
lots of time hunting along the road.
"We received a telegram this morn-
ing stating that the army bill had be-
come a law, which made us all feel
very happy. As I figure it now I won't
be officially notified of my promotion
until the volunteers have had their ex-
aminations. Of course my pay as a
first lieutenant will start from the date
of the passage of the bill, but I can't
draw it until I have been officially no-
tified. I do not expect to hear any-
thing about it for two or three months,
at the least, but of course I am willing
to be agreeably disappointed.

"I notice that the new bill makes
provision for native troops, and I think
I shall make a try for a captaincy as
the bill provides that the native troops
shall have, for captains, officers of the
regular army. I think there will be
other officers of my regiment who will
try for the native troops. If there is
no immediate prospect of our going
home I think I would like a little ser-
vice with them. I have one or two
other schemes on hand and if they fail

through and there is no prospect of
going home I think I shall have a
friendly chat with Dean Worcester and
Judge Taft and see what they can do
for a poor, old soldier.

"Just to show you how cut off we are
from the world, except by telegraph,
I will say that Captain Wilhelm was
ordered to go to the Philippines on
opportunity. That was last Sunday morn-
ing and, from all we can learn, there
will be no boat here for at least a
week more so that he will not arrive
in Manila until almost three weeks
after the receipt of the order. Of
course he could go about thirty miles
over the mountains by almost impos-
sible trails to Antimonan and then
about as far again to Lucena and take
a boat from there, but he would gain
little or no time by so doing so that
his only practical course is to wait for
a boat here.

"We have a little stream near our
house that has a most beautiful little
pool for bathing. It is only knee deep,
but the water is cool and pleasant.

AN EXTENDED TRIP.
"Feb. 10. Still no boat. I am becom-
ing very impatient for my mail, but
that doesn't seem to hurry up the boat
any.
"We have adopted the plan now of
going in bathing every morning at
eleven. There is a long pier in front
of the house and we go in from there.
At high tide the water is over my
head. We can swim with perfect ease
and without cutting our feet on the
rocks and shells on the bottom.
"I am expecting to make a march to
a town on the other side of this penin-
sula. There is a detachment of our
company there and the captain wants
me to go and see how it is getting
along. It is about fifteen miles from
here as the crow flies, but by the road
it is about forty miles. I go from
here to San Narciso by boat, about
twenty-four miles, and then across the
peninsula to Mulanay and from there
along the shore to Catanauan, where
the detachment is located.
"I shall take a shot-gun along and
try to bag a few deer, as I have been
told that there are many in that sec-
tion.

"Feb. 12. Night before last we were
invited over to the house of a wealthy
Filipino to hear some music. He had
two daughters who were very enter-
taining. One played on the harp and
the other sang.
"This same man has a step-son with
whom the doctor and I are quite friend-
ly. Yesterday we took him out hunt-
ing and he has invited us to go out
to his plantation about ten
miles from here to hunt deer and wild
beast. In fact, we have planned sev-
eral fishing and hunting trips with him.
"Last night I went around with the
doctor while he was with some pa-
tients. At one place they had two lit-
tle boys who played on the violin and
guitar interchangeably. Neither of
them was over eight years old.

FILIPINO BEDDING.
"This morning our Filipino friend
sent two mats and pillows over to the
captain and myself. You know that the
native beds are made of cane, like the
seat on a chair, and over that a mat is
spread. It is a hard bed, but very
comfortable in this warm climate. I
imagine that you wouldn't like such a
bed, but I have seen some of the
Oriental now that I am accustomed to
it and prefer it to any other. Of course
I have one blanket under me and an-
other over me nowadays because this
is the so-called cold season of the year.
"During May and June I shall not
need anything but the mat under me.
"We had another fine swim in the
bay today. It was a pretty dull place
here at first, but we have discovered
so many amusements that the days
are not long enough to crowd in all we
have to do. Of course we are busy
with our work all the morning and
sometimes a good part of the afternoon
so that we can only have an hour or
two in the afternoon and the evenings
for amusement.

"The launch with my mail has not
arrived yet and many eager glances
are cast toward the mouth of the bay

ODD GIFTS FOR M'KINLEY.
New Orleans, April 10.—If President
McKinley takes with him from New
Orleans all of the odd gifts which
of the people of the city are preparing to
give him he will have to have a
small-sized menagerie train attached
to his special when he proceeds west-
ward. Among the list of gifts which
will be offered him are a large alliga-
tor, a tame pelican, the few children of
state of Louisiana, an immense black
swamp rabbit, revered by the negro
believers in voodooism; one of two old-
colored swamp snakes, also considered
significant of the voodoo; an Indian
crane from the Bayou Teche, the coun-
try of Evangeline; a curiously wrought
manuscript from the people Catholics of
New Orleans, a transcript of the origi-
nal session of the province of Louisi-
ana from France to the United States;
a relic of the barbarism of the Spanish
inquisition in Louisiana; and a com-
plete voodoo outfit from Marie Lacart,
a voodoo priestess of New Orleans.

RICE HEARING RESUMES.
New York, April 10.—The taking of
evidence in the commitment proceed-
ings in the case of Albert T. Patrick,
the lawyer accused of having caused
the death of William Marsh Rice, the
Texas millionaire, was resumed today
before Justice Jerome. The witnesses
who testified were Captain James A.
Baker, Jr., the lawyer of Houston,
Tex., named as executor in the Rice
will of 1886; Annie McHugh, Bessie
Power and Leah Petzner, telephone op-
erators; Dr. Edward J. Donlin, former
deputy coroner, who performed the
autopsy on the body of Rice; and
Dr. Hamilton Williams, who assisted
Donlin in the autopsy. Today's testi-
mony was unimportant.

KINDERGARTEN CONVENTION.
Chicago, April 10.—Three hundred
and nine women and one man arrived
in Chicago today as delegates to the
eighth annual convention of the Inter-
national Kindergarten. The women
came from all parts of the United
States and Canada and the man from
Philadelphia. He is Professor Daniel
Bacheler. The first session of the
convention, held tonight, was taken up
with addresses of welcome. Miss
Laura Fisher, superintendent of the
public school kindergartens of Boston,
spoke on "Some Misconceptions of Kin-
dergartens." Dr. Arnold Tompkins,
of the Chicago Normal school, dis-
cussed "Egoism and Altruism" as orga-
nic factors in education. The presi-
ding officer was Miss Caroline T.
Haven of New York, president of the
international organization.

BEST WAY TO CURE BACKACHE.
Backaches are caused by disorders
in the kidneys. Foley's Kidney Cure
will make the kidneys right. Take no
substitute. The People's Drug Store.

Half the ill that man is heir to come
from indigestion. Burdock Blood Bit-
ters strengthens and tones the stom-
ach; makes indigestion impossible.

for some sight of it. So far as I can
learn the launch has not even started.
I can't understand the cause of the
delay, but there must be some reason
for it.

"Feb. 13. This morning my young
Filipino friend sent me two canes, one
of ebony and one of palm. They are
very pretty. I have quite a collection
of canes now. I have three from Cor-
regidor, one from Manila, and one from
Lipa and now these two new ones.

USED THE GUN.
"This afternoon I went out hunting
for ducks, but not finding any in the
lake we turned our attention to pigeons
and were fortunate enough to get six.
We, the doctor and I, took our friend
Janaro and his brother Jesus with us.
We had a splendidly offered and
chances to try our guns, but they both
had invariably refused. Today I made
up my mind that Janaro would take a
shot if I had to put the gun against
his shoulder and pull the trigger my-
self. On our way home we heard a
pigeon in the woods and I literally
threw the gun at him and made him
come in with me and take a shot. He
had used a shot-gun before so I knew
that he could shoot. After a good deal
of hard work we finally located the
bird and he brought him down. He
was quite pleased with his success too,
I think.

"Last night the doctor and I were
at his house and he asked me if I
would take him along when I go to
Lopez, a town on the Pacific coast al-
most due north from here. He has a
sweetheart living there and he said he
would not have a "bait" and a general
time. I want to go to Lopez very
much because it is a very pretty place.
They say it is very "alegre" (happy)
there and they have a "baile" every
Wednesday evening. I don't see why
I couldn't have been sent there to take
charge of the garrison.

"Last night there was a wedding in
the village. I didn't attend, but I saw
them making preparations. They
cooked up cows, pigs and chickens and
had a regular barbecue.

"Feb. 15. At last! We received a
telegram last night stating that the
launch would leave today and we
expect it in the morning. All day
we have been busy getting reports and
official mail ready to go. It reminds
me of the night before Christmas at
home because we are all busy writing
letters and there is an air of subdued
excitement about the place.

"I expected to go to Catanauan to-
morrow if it hadn't been for the boat,
but of course I am going to wait and
read my mail now and so I will not go
until next Wednesday or Thursday.

"Captain Wilhelm leaves for Manila
tomorrow, so I will be in command of
the post. He may not come back as he
expects to be made commissary of the
regiment, and in that case, I may have
command of a company again. At
least, I shall have the command for a
month, but in order to get the in-
creased pay it is necessary to hold the
command for three months.

"You haven't seen anything of a first
lieutenant's commission with my name
on it have you?"

Cuts, wounds, burns, sprains and
bruises quickly heal if you apply BAL-
LARD'S SNOW LINIMENT. Price
25 cents and 50 cents. The Stafford
Drug Co.

WORK ON H. CASKADE. S. BLUMENTHAL & CO. FAIL.

THE MOORE MINE STARTING UP AND THE RICHMOND WILL BE REOPENED SOON—MUCH LUMBERING THERE THE PAST SEASON.

Palmer is likely to experience a very prosperous season, as matters there are looking now. The news of the re-opening of the Moore has been received with much joy by the residents, and yesterday came information that work will be resumed at the Richmond at a near date. George Maas has secured an option on the Primrose mine from Mrs. Joyce and there is more than a possibility that he will do some work at the property the coming summer.

There is a strong movement on foot among his friends to settle his affairs before the date of the sale and enable him to continue in business. One who is on the inside informs The Mining Journal that this movement will probably prove successful. Mr. Blumenthal has been in his present location for the past six months and previous to a month ago was doing a very fair business. Mrs. Blumenthal died at that time and other troubles came thick and fast, and as a result he has not been able to attend to his business as closely as its condition required. The trade has fallen off to a marked degree until the last week there has been practically none, and it was only a question of time when the failure would be announced.

As has been already stated in The Mining Journal, the American Steel & Wire company will operate the Moore as soon as that property can be got in readiness for active mining. There are about twenty-five men employed there at present and more will be added as soon as they can be advantageously worked. They are stripping the snow from the pit and connecting steam pipes and working at other necessary jobs which must be completed before ore can be taken out. The Mining Journal is informed on good authority that the company has issued orders for a shipment of 50,000 tons from this pit the coming season. This will give steady employment to quite a force of men. The ore on this range is well graded but also low in phosphorus and is used as a "sweetener" for the Mesaba ores. When the production of the latter ore was curtailed last summer the Moore was shut down. It is now announced that the Mesaba ore will be in great demand this summer and that every ton which can be shipped will be used. This would mean the continuance of operations at the Moore all the season.

A LIFE AND DEATH FIGHT. Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says: "Exposure after pneumonia induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for consumption which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00 Trial bottles free at the Stafford Drug Co.

TOO MANY COWS. Now that the snow is gone the annual complaint against the cow nuisance is being aired. It is a standing joke in this city that the bovines have more rights than those who pay taxes, and there is no one who will deny that they fully utilize them. One does not have to walk a thousand miles to encounter twenty cows and sometimes a larger number may be met with in a much less distance. There is no other conclusion to be reached than that they are a great nuisance and that the poundmaster should take active steps to keep them in restraint. This is, perhaps, the worst season of the year for them, as it is too early to turn them into the fields and too late to keep them in their barns. The result is that they are everywhere and into everything. The Ishpeming cow greatly resembles a goat in at least one respect—she eats anything which comes in her way, from the cat to the old bits of harness. If the poundmasters were all clever he would look after the all-pervading "bossy," as there is a not inconsiderable rakeoff on all bovine wanderers run in.

A CLEAR BRAIN and healthy body are essential for success. Business men, teachers, students, housewives, and other workers say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that tired feeling.

ISHPEMING IN BRIEF. A. C. Ludington of Marquette was in the city yesterday. George R. Persons got back yesterday morning from his Duluth trip. L. J. Brazill of Marquette paid Ishpeming a visit yesterday morning. "Cracker Wad" was a business visitor in the city yesterday afternoon.

A son was born to Mr. and Mrs. Henry Hill of Jasper street yesterday afternoon.

The Ishpeming Light Guards are planning for a ball which will be given in the near future. Mrs. W. J. Richards of Aurora, Ill., is visiting her mother, Mrs. Pearce of this city, for a few days. Henry Schoenfeld of the Schoenfeld Importing company, Milwaukee, transacted business in this city yesterday.

A son was born to Mr. and Mrs. Charles Keast of North First street this week. Mother and child are doing well. Nels Mowick has accepted a position with the Neenah Wisconsin company of Neenah, Wis., as salesman for Northern Minnesota, and the upper peninsula. Fred C. Bennett has returned from his copper country trip. Mr. Bennett rendered a solo at the concert given by the Sons of St. George of Houghton Good Friday evening.

M. Rice, advance agent for Hoyt's "A Milk White Flag" was in the city yesterday on business connected with his production, which will be presented here in the near future. Mrs. M. J. Taylor holds her millinery opening today, tomorrow, and Saturday at her store on Main street. She has recently been in Chicago where she secured the latest designs for summer wear, and which she has on display for all who are interested.

There is a dog running around the streets which is decorated with a red ribbon and the owner would like very much to recover him. Anyone seeing such an animal will confer a favor on the owner and "L. J." by communicating with The Mining Journal. "Uncle Josh Sprucey" is one of the old-fashioned rural characters which

are so popular with theatre patrons everywhere. He can be seen at the opera house Saturday afternoon and evening. Matinee prices are 25 and 10 cents and those which prevail in the evening are 25, 50 and 75 cents. Seats are on sale at Tillson's.

Manager Butler of the opera house states that Ishpeming play lovers have in store for them a genuine treat in the form of a world renowned play "Christian." This world renowned play will be produced here next Tuesday evening and will no doubt be greeted by a record-breaking house as it fully deserves everyone's patronage. The company which presents it is one of two which Lieber & Co. have on the road this season, and those who are familiar with things theatrical will know what an enviable reputation the company bears as a theatrical caterer. Lionel Adams, who plays the part of John Storm, has been very successful in it for the past two years.

TO CURB A COLD IN ONE DAY. Take Laxative Bromo-Quinine Tablets.

The ladies should inspect our new line of silk skirts. The stock is large and embraces pretty patterns. F. Braastad & Co. (2-11-17)

While below recently I purchased a larger and better line of millinery goods than I have ever before shown. The ladies of Ishpeming and vicinity are invited to call at my old stand on First street. MRS. A. DEADMAN. (4-6-17)

Our carpet sale is a big success. We are saving patrons money on every purchase. F. Braastad & Co.

"I had piles so bad I could get no rest nor find a cure until I tried De Witt's Witch Hazel Salve. After using it once, I forgot I ever had anything like Piles."—E. C. Bice, Somers Point, N. Y. Look out for imitations. Be sure you ask for DeWitt's. Stafford Drug Co. H. N. Meloche, Ishpeming.

Many people suffer untold tortures from piles, because of the popular impression that they can not be cured. TABLET'S BUCKEYE PILE OINTMENT will cure them. It has met with absolute success. Price, 50c. In bottles, tubes 75c. The Stafford Drug Co.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c. 25c. I. C. C. C. Co., druggists refund money.

SCHOOL BONDS FOR SALE. ISHPEMING SCHOOL DISTRICT NUMBER ONE.

The Board of Trustees of Ishpeming School District Number One of the City of Ishpeming, County of Marquette and State of Michigan, will receive at the office of the Director, at the Peninsula Bank, Ishpeming, Michigan, until twelve o'clock noon of April 15, 1901, sealed proposals for forty-five thousand (\$45,000) dollars four per cent semi-annual coupon bonds of said district, dated April 15, 1901, and due in installments of nine thousand (\$9,000) dollars on the first day of March in the years 1912, 1913, 1914, 1915, 1916, 1917 and interest payable at the office of the Treasurer of said school district in the City of Ishpeming.

Said bonds will be issued in denominations of one thousand (\$1,000) dollars each, and were authorized pursuant to the terms of said act by the Board of Trustees of said School District at an adjourned regular meeting thereof, held on March 18, 1901. The total bonded indebtedness of said School District at this date is \$218,000. The above bond issue will pay all floating debt of the City of Ishpeming and interest thereon at the date of this date, \$118,000.

The valuation of property in the City of Ishpeming for purposes of assessment in the year 1900 was \$2,500,000. The valuation of school property belonging to said School District, barns and grounds, without furniture or fixtures, is \$18,000.

No bond issue of said city or said School District has ever been contested. No indebtedness of said city or said School District has ever been in default. The population of the City of Ishpeming by its 1900 census is 2,500. The school district comprises the City of Ishpeming. A certificate for \$50 should accompany each proposal.

The Board reserves the right to reject any and all bids. Dated Ishpeming, Mich., March 20, 1901. For the Board: GEORGE HAYDEN, Chairman Finance Committee. (3-27-17)

The N. Laughlin Co-Operative Store.

On and After April 1st, 1901,

my general merchandise store, the largest by all odds of any in the city, will henceforward be conducted on the lines of a Co-Operative store.

All those that trade with me now, as well as those who wish to do so, will receive the same interest on their purchases as will be given by the Ishpeming or Negaunee Co-Operative stores. When enough of the stock is subscribed for, the entire business will be turned over to the subscribers.

The stock in all departments is complete and includes Dry Goods, Clothing, Hats and Caps, Carpets, Boots and Shoes, China, Glassware, Woodenware, Tinware, Hay, Flour, Feed, Groceries and Provisions, Meat Market, etc., etc.

Any other information in connection with the business can be had at my store.

N. Laughlin.

"COME TO DETROIT."

ALL BUSINESS HOUSES INVITE OUR RETAIL DEALERS.

NO NEED OF BUYERS SEEKING ELSEWHERE.

The State Metropolitan Contains Everything they Require, Best Goods at Lowest Prices.

The stability and excellent reputation of the wholesale houses of Detroit preclude any necessity of going elsewhere for whatever goods our retail dealers may require at any time. The financial and manufacturing institutions of Michigan's metropolis are not excelled for enterprise and fair dealing in the United States. Our readers in business can be as well served in Detroit as anywhere, and they can deal with home concerns located close by. The Detroit houses named below invite their trade and will describe it. These firms refer to long lists of old customers throughout the West as their most potent recommendation. Beginners in business cannot do better than to open correspondence with these excellent houses at once. The information which experience and judgment may impart, is to be had by our readers for the asking. That such knowledge is highly valuable to those starting out in business lines, is obvious. We commend the idea to all whom it may concern, and can assure them that trade relations with the houses below will always be satisfactory.

A SHOCKING ACCIDENT.

THREE-YEAR-OLD CHILD OF BENJAMIN COX HAS BOTH LEGS CUT OFF BY A STREET CAR ON CYR STREET.

A shocking accident occurred here yesterday noon at half-past twelve o'clock on Cyr street. Woodland David, the three-year-old son of Mr. and Mrs. Benjamin Cox was run over by a car and received injuries to both legs which were so serious that it was found necessary to amputate them.

The car which leaves the Breitung House at 12:24 p. m., in charge of Motorman W. S. Karmode and Conductor Herbert Gallagher was coming down Cyr street very slowly and had reached a point about 150 feet south of the Northwestern crossing when the little fellow, who was playing in the street with about a dozen other children, started across the track directly in front of it. Karmode did his best to stop the car, but was not successful until one of the wheels had passed over the boy. When he was picked up it was found that both legs were nearly severed from the body and there was also a slight bruise on the head.

The pain of the motor car was so intense that the little fellow would try to cross the track. Just as the car came abreast of him, the boy started across. Karmode put on the brakes hard, but only succeeded in bringing the car to a standstill after one of the heavy wheels had passed over the child.

Those who witnessed the accident do not place any blame on Karmode, as they say that he did all in his power to prevent the accident. He is a neighbor of the Cox family and feels terribly over the affair. He ran a car in Douglas, Isle of Man, for three years and never had an accident. He has been with the company here but six months and takes the matter deeply to heart. He made a report to Superintendent Pearce as soon as he reached Ishpeming and was allowed to continue his runs for the rest of the day. There will probably be no investigation, as it was the opinion of all who saw the accident that no one was at fault except the little fellow himself.

Cox is a miner employed at the Hartford. He is an old resident of the city and is well known by everyone. Both he and Mrs. Cox are very high respected by the fearful mishap.

Mr. and Mrs. F. D. Davis went down to Chicago Tuesday evening for a week's visit with friends.

The house on Jackson street owned by Dan McKennan of Iron River and occupied by Mrs. Steele is receiving a new shingle roof.

The piano pupils of Miss Maud Nelson of Ishpeming gave a very pleasing recital at the home of Mrs. Thomas Pellow Saturday afternoon.

Frank Sharon is having his double ribs repaired and put in readiness for the summer campaign. He will move his sleighs out of the barn today.

A large plate glass window in the store of Muck Bros. was broken Tuesday evening by a gang of boys who were fooling around there. They settled.

Daniel Taylor and his brother Charles returned from Chicago yesterday morning. Dan is still very weak, but seems to be on the high road to recovery.

Edward, the fifteen-days-old child of Mr. and Mrs. Charles Patterson of Case street, who died Tuesday afternoon, was buried in the Negaunee cemetery yesterday afternoon.

The Odd Fellows are planning on a celebration for Friday, the 26th, which will be away ahead of anything of the kind they have heretofore attempted. That date is the 32nd anniversary of the founding of the order. There will be an entertainment in the hall and a banquet at the Gardfield house to which

Upper Peninsula News.

The Cuff mine at Iron Mountain will soon be operating again. A few men have been put to work making the necessary minor repairs and within a few days a small force of miners will be employed. Men will be taken on as there is room for them and it is said that before the end of sixty days there will be 200 hands at work. Iron Mountain business men are immensely pleased at the prospects of continuous mining at this property.

James O'Connell of Iron Mountain, one of the members of Company L, recruited largely in Marquette county, which served with the Michigan Volunteers all through the Spanish-American war, died at Menominee Saturday as a result of malarial fever contracted during his campaigning. He never recovered from this disease and it is said that the statement that it caused his death is no exaggeration. The funeral was held Tuesday, the remains having a military escort to the grave.

Captain John Dunn, an aged mariner who sailed one of the first boats that entered Menominee harbor, died very suddenly at the Newberry hospital for the insane, of fatty generation of the heart, Monday morning. Captain Dunn was sent to that institution some two weeks ago. He was eighty-four years of age at the time of his death and his first trip into Menominee harbor was made some forty years ago. He was sailing into that port when the first lumber mill was built and he loaded lumber from his saw on his craft by means of lighters. Captain Dunn was on the water for nearly sixty-one years and he spent the best part of his life at Menominee.

John Rochon, one of Menominee's early settlers, but of late a merchant at Waukegan, was killed by a south-bound Northwestern train at Spies avenue in Menominee about 11 o'clock Monday evening. He was walking on the track and he did not observe the train until it was nearly upon him. Being corpulent, he was unable to get out of the way. He was struck fairly and was hurled thirty feet, his skull being fractured and he receiving other injuries which caused his death instantly. Rochon lived in Menominee as early as thirty-five years ago, being one of the first settlers at that city. He was sixty-three years old. He was an eccentric man and he had never married.

A. M. LaCourt and James Carey of Sagola were in Iron Mountain this week. They have been cruising on the Fence river and they report that the wolves have been playing havoc with the deer. They say that it was nothing unusual for them to find partially devoured carcasses in the woods and that in two days the ran across some thirteen such carcasses. In one instance they came upon a wolf in the act of tearing a deer to pieces. The wolves seem to be more numerous than ever before and the \$15 bounty paid by the counties does not seem a sufficient inducement to lead the hunters to take up the task of clearing them out. Many people advocate raising the bounty to a figure large enough to attract the sportsmen to this work.

Professor B. S. Hopkins, instructor in science in the high school in 1897, principal and head of the Latin department in '98, has been elected superintendent of the schools at Menominee to succeed O. I. Woodley, resigned. He was the unanimous choice of the members of the board of trustees. There were over eighty applicants for the position, among them many men of state prominence in educational circles. Superintendent Hopkins' advancement in educational work has been rapid. He was graduated from Albion college with honors. During the past year he has been pursuing special work at the Columbia university, New York. He is a conservative man, with a world of latent power, and everyone at Menominee thinks that the trustees have chosen well.

Edward Sharick, who was brought to Menominee recently to answer to a charge of seduction, has been bound over for trial at the May term of circuit court. The hearing was held this week. Sharick did not stand up in the evidence was somewhat sensational. Miss Mary Orth, the complaining witness, is nineteen years old. She was employed as servant girl at Albert Brandt's farm near Fairbairn last summer when she met Sharick. She testified in part as follows: "I first met Sharick in May, 1900, at Mr. Brandt's farm. He courted me and in July we were engaged and I accepted a ring from him. Under the pretense that we were to get married we left the farm for Hermansville, and from there drove to Powers. We went to the Pontiana Hotel where Sharick registered as Mr. and Mrs. Edw. L. Sharick, of Buffalo, N. Y. In the morning about 10 o'clock Sharick came for me and we went to a vacant store building where a man representing himself to be a justice pronounced some form of a marriage vow. We returned to the hotel, and I understood we were legally wedded. The next morning Sharick went to Marinette, returning in a day, and in four days we came to Menominee to visit my sister, Mrs. McAllister, who lives in Frenchtown, and to whom I introduced Sharick as my husband. We remained at Mrs. McAllister's and one morning Sharick left saying he was going to Marinette to settle up with the Fence River Logging Co. I have never seen him since."

B. Presson, Pressonville, Kana, writes: "Nothing like Foley's Honey and Tar" is the universal verdict of all who have used it. Especially has this been true of coughs accompanying a gripple. Not a single bottle failed to give relief. The People's Drug Store.

A KANSAS MINISTER.
Rev. L. S. Coulton, of Circleville, Ky., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

Heching pills? Never mind if physicians have failed to cure you. Try Doan's Ointment. No failure there. 50 cents, at any drug store.

APPLICANTS ARE NUMEROUS.

THE COUNCIL WILL HAVE PLENTY OF WORK AT ITS FIRST MEETING THIS EVENING.

The first meeting of the new council is booked for this evening and to judge from the number of petitions which the city recorder has on file the aldermen will have a merry time of it. There are several applicants for every one of the offices in the gift of the council, and many of the expectant ones must necessarily be disappointed. Mayor Connors is expected to announce the make-up of the various committees at this evening's meeting and there is much speculation concerning them. There are so many new members of the board this year that the complexion of the committees will be materially changed.

All the present office holders are candidates for re-election and the general opinion seems to be that they will, for the most part, be continued in their respective positions. Marshal Tom Gribble has no rival, and is therefore reasonably sure of retention, and Superintendent of Water Works Christ Hanson is slated to stay in the place he now fills. Ted Gaffney of the electric light plant will also be retained, but there may be changes in the other employees, with the exception of those of the fire department. Fred Roberts is running against the present incumbent, Stephen Thomas, for street commissioner, but nothing is known of his chances. There are eleven candidates for places as night watchmen. The engineers at the water works have two competitors who are making a stiff play for those places, and the fireman and bucking eleven men for retention of their jobs. Michael Curley has two contestants for his berth as janitor of the city building, but his chances of holding the place are considered good. One bid of \$75 for street sprinkling has been received. Last year the work was done for \$60 by Tom Bashaw. This evening will see every contest settled and the mayor and council may be depended on to do the wise and right thing in filling the places at their disposal.

GLORIOUS NEWS.

Comes from Dr. D. B. Cargile, of Washita, L. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctor could give no help, but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, itching scalp, rheumatism, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by the Stafford Drug Co.

DON'T WEAR GLASSES!

Unless you know they fit and are doing you good. For glasses are ground in so many combinations that it is a rare thing to find two people who can wear the same glasses and get good results. If you come and see me I can tell you what you need.

TO MAKE UP THAT SLATE.

Alderman Will Assemble in Star Chamber Session for That Purpose Saturday.

DISPOSITION OF THE MARSHALSHIP ABSORBING TOPIC OF INTEREST.

The incumbent E. E. McIntosh, Timothy Maney and James Maloney are all in the race and there seems to be doubt as to the outcome.

NOW THE OTHER PLUMS WILL FALL.

The members of the new council will assemble in executive session Saturday evening for the purpose of ascertaining just where they stand, preliminary to the first regular meeting to be held Monday night.

People generally have been much concerned with Mayor Mangum's appointments since the result of the municipal election became known. Possible slates and combinations have been the subjects of discussion and rumors of the end mayor's intentions.

The other possibilities are Timothy Maney and James Maloney. Last spring, when the marshalship was being buffeted about from pillar to post, Mr. Maloney would not allow his name to be used, although he could have been named when there would be no fight now as his reappointment would have followed as surely as day follows night.

It is currently reported that Mayor Mangum is inclined to favor the latter candidate and that, in all probability, he will submit his name to the aldermen. The temper which prevails at the star chamber session Saturday night may have considerable to do with his ultimate decision.

This follows largely on account of the disinterested campaign being put up by Marshal McIntosh. This gentleman points out several good things that he has accomplished during his incumbency and no one denies that he has been a good official.

Comparatively little interest is manifested in the disposition of the other plums, but still people are wondering where they will fall. Here again little is known officially or with certainty.

There are numerous names mentioned in connection with the street commissioner'ship and it is claimed by people who "know" that Mr. French the incumbent, will be given the vacation which will be of at least twelve months duration.

Controller Franklin E. Bay is said to have a sure thing. No one seems to have designs on his official shoes.

Rumor says that when the smoke of the first meeting of the new council blows away a number of new faces will be seen in the "administration."

How true are the statements to this effect is a matter of conjecture which can only be determined at a later date.

DEATH OF PROF. OLCOTT.

Well-Known Educator Expires at Ann Arbor—To Be Interred Here.

A dispatch to The Mining Journal from Ann Arbor announced that Professor Harlow Olcott died in that city yesterday afternoon at 4 o'clock, but gave no further particulars, except that the body will be brought here for interment.

OUTLOOK STILL ROSEATE.

Copper Tone and News Seems Favorable to Higher Prices.

There was nothing in the copper situation yesterday to discourage holders. On the contrary all influences seemed to be making toward a better market and improved quotations.

COLLEGE SONGS TONIGHT.

M. C. M. Glee and Mandolin Clubs at the Opera House.

Marquette people should give the Glee and Mandolin clubs of the Michigan College of Mines a hearty welcome at the opera house this evening on the occasion of their second annual visit to this city.

"THE CHRISTIAN."

It Will Be Presented Here the Evening of April 19.

Contemporaneous authors and operatic managers have all admitted that the greatest success of the modern stage is "The Christian"; moreover, the continuous patronage of the public attests to its wonderful merit and vitality.
