Wm. E. Coffin, New York, Files a Petition in Bankruptcy.

ASSETS BUT \$25 IN CASH.

Ironwood City a Creditor of the Former Banker and Promoter to the Extent of \$115,000.

WANTS DEBTS WIPED OUT.

New York, April 12.—William E. Coffin of this city, who was a former partner in the banking house of Coffin & Stanton, today filed a petition in bankruptcy with liabilities of \$4,151,000 and assets of \$25.

The petition names hundreds of creditors whose claims range in amount from the hundreds of thousands to a few dollars. The largest of the creditors who hold no security are the city of Santa Cruz, \$332,000, and the city of Ironwood, Mich., \$115,000, these sums being due to the respective municipalities on contracts for bonds purchased. The petition states that among the contingent liabilities is a note payable to Russell Sage for \$12,000. Many of the creditors have long since placed their claims in the form of judgments and have realized a certain percentage on the securities held by them.

DEBTS FROM OLD FIRM.

Mr. Coffin's counsel said today that the liabilities were all from the Coffin & Stanton days, and that no liabilities had been contracted by Mr. Coffin since then. He explained that it was simply an action on the part of Mr. Coffin to take advantage of the new bankruptcy law and thus clear himself from the enormous liabilities of the defunct firm, for which he, under other circumstances, would be liable. Coffin & Stanton were bankers and promoters, with offices at 72 Broadway, Oct. 6, 1892. Walter Stanton, the junior member of the firm, applied to Judge Lacombe, of the United States circuit court, to have a receiver appointed with a view of winding up the firm's affairs. It was alleged that Stanton's dissatisfaction with Coffin's management of the business brought about this movement. The immediate cause, however, of the failure of the firm was said to be the refusal of the Bank of Manhattan company to extend further credit to the banking house. Judge Lacombe appointed Newman Erb receiver.

CHINA SLATED FOR HEAVY TAX.

MINISTERS FIND THAT \$300,000,000 IN GOLD CAN BE RAISED WITHOUT INJURING HER RESOURCES.

Peking, April 12.—The committee of ministers which has been considering China's financial resources has reached the conclusion that, based upon what information thus far obtainable, three hundred million dollars in gold can be raised without injuring China's resources. The examination by the committee into the subject is thus far incomplete.

ENGLAND WHO BAFFLED CZAR.

London, Saturday, April 12.—The viceroy of Nankin has received a letter from the British government which says the Shanghai correspondent of The Times, "congratulating him upon the success in preventing the signature of the Manchurian convention."

The Times, commenting editorially upon its Shanghai dispatch, says: "No doubt a similar letter was sent to the viceroy of Woochang. It is a gratifying sign that the British government is alive to the actual facts of the situation and knows to what quarter it can effectively turn for support in combating Russia's designs."

OPPOSES CASH INDEMNITY.

Great Britain not yet definitely estimated the money indemnity she desires China to pay. The Associated Press is informed that the government adheres to the belief that little can be gained by insisting upon cash payments from China, and though the government regrets that this possibly will be cause for delay it continues to instruct the British minister to China, Sir Ernest Sartorius, to try and induce the powers to demand for greater privileges instead of money.

WATCHDOG OF COREA.

Regarding Japan's attitude toward Russia, the opinion in Downing street inclines to the belief that Japan, in common with the other powers, is satisfied with what is termed as Russia's backdown, but that Japan will continue to keep a sharp eye on Corea and have no hesitation in threatening hostilities should Russia menace that country.

AMERICAN ROBBERS TAKEN.

Berlin, April 12.—According to a dispatch from Peking to the Cologneische Zeitung, a robber band of four Americans and four Chinese was recently captured by a German outpost at Tung Kia Fu, west of Tien Tsin.

In high official circles in Berlin, the reports published in the American press to the effect that the Washington government is opposing Germany's claim for Chinese indemnity are described as erroneous.

CANAL NEGOTIATIONS ON.

London, April 12.—The negotiations on the Hay-Pauncefote abrogation of the Clayton-Bulwer treaty are progressing, though they have not yet passed the tentative stage. The representative of the Associated Press is informed that they are being conducted on the quid pro quo basis and that no other method of abrogation will be considered by the British government. The foreign office hopes that a settlement satisfactory to both the United States and Great Britain will be arrived at before Congress reconvenes.

BLOODY BATTLE IN ARABIA.

Bombay, April 12.—Ibu Rashid has recovered the kingdom of Nejd, central Arabia, after defeating Mabaronk, sheik of Koweyt, who recently seized the city of Nejd and deposed Rashid after a pitched battle. The army of Mabaronk was lured into a narrow gorge, where Rashid's hordes swooped from the mountains and overwhelmed their enemies. Fugitives who had reached safe ports declare that five thousand men were killed. The fate of Mabaronk is unknown.

NO DISCONTENT IN FORTO RICO.

Washington, April 12.—The state department today received a dispatch from Speaker Rossy, of the Porto Rico legislature, expressing gratification at the news that Governor Allen will return to the island and denying that there is dissatisfaction, discontent and destitution in the island.

ROYALTY IN CEYLON STORM.

Colombo, Ceylon, April 12.—The Duke and Duchess of Cornwall and York landed here this afternoon and were accorded an enthusiastic reception. While the reception was in progress a storm swept over Colombo and a number of natives were injured near the royal pavilion.

DEFEAT FOR EDDIE SANTRY.

Denver, April 12.—Young Corbett of Denver won an easy victory over Eddie Santry of Chicago tonight before the Colorado Athletic association, knocking him out in the second round of a ten-round fight.

GAGE BUYS BONDS.

Washington, April 12.—The secretary of the treasury this afternoon purchased a million dollars' worth of short-term 4 per cent. bonds at the same price paid for the last bonds purchased.

WICHITA, KAS., APRIL 12.—A dispatch received here tonight from El Reno says that four men have been arrested for the murder of T. M. Pemberton near Weatherford last night and that a lynching was expected before a noon. The men were wildly excited. Earlier in the night the report reached El Reno that the lynching had taken place, but it has since been denied. The names of the men are not known. The purpose of the murder was robbery.

ELECTROGRAPH TEST A FAILURE.

Chicago, April 12.—Failure tonight greeted a test which drew a number of men of science to the Quadrangle club, University of Chicago. It was an effort to transmit and receive half-tone pictures by telegraph between Columbia University, New York, and the University of Chicago. The instrument, or electrograph, had worked successfully over distances of several hundred miles, but tonight, owing to the induction of the wires in New York, it would not record the thousands of fine dots of which the pictures are composed. Further tests will be made when the conditions are more favorable.

BAD FLOODS IN KANSAS.

Wichita, Kas., April 12.—The Arkansas river is out of its banks tonight and policemen are guarding the ends of every bridge to keep the people from crossing. Two bridges are under water, the approaches to two have been washed away, the island went under water after its inhabitants escaped and the night force at the water works is imprisoned in the middle of nearby island. For five days rain has been falling continually and a hundred thousand acres of farm lands are under water. No fatalities have been reported. The water is still rising.

MANGLED BY A TIGER.

Indianapolis, April 12.—Frank C. Bostock, proprietor of the zoo, was attacked by the tiger "Rajah" this morning and dangerously injured while putting the beast through a course of training. Bostock will lose his left arm and right foot, while the leg is badly mangled.

TURKISH MOSLEMS REVOLT.

London, Saturday, April 13.—The Daily Express publishes the following telegram from Vienna: "The Moslem population of Adachale island near the Iron Gate of the Danube, has rebelled. Troops were called out, but met with resistance. Sixteen Moslems were killed."

DESPERATE FIGHT WITH BURGLARS.

Pittsburg, April 12.—Early today, Thomas D. Kahney, a grocer, was shot and instantly killed by one of three burglars. This afternoon officers attempted to arrest the men and in the melee Detective "Paddy" Fitzgerald was shot and killed and two other off-

COUNTING ON EARLY PEACE

British Government Decides to Send No More Troops to Africa.

SOME ALARM IN NATAL.

Native Ministers Stirring the Blacks With "Africa for the Africans" Talk—Plot Against Kruger.

ALLEGED ATTEMPT TO KILL

London, Saturday, April 13.—"A serious seditious movement," says the Pretoria correspondent of The Daily Mail, "is spreading among the natives. It is headed by native ministers who preach the doctrine of Africa for the Africans and incite the natives to throw off European control. The authorities are carefully watching the propaganda, but are reluctant to interfere through fear of making martyrs of the ring-leaders."

PEACE MAY BE NEAR.

The Daily Express this morning says it understands that the government has decided to cease sending reinforcements to South Africa.

"The police of this city," says the Amsterdam correspondent of The Daily Express, "recently got wind of a contemplated attempt upon the life of Kruger. One person was arrested and is said to have made a confession."

BOER POPULATION MOVED.

Cape Town, April 12.—A dispatch from Nylstroom, Transvaal Colony, states that all the inhabitants of that place have been sent to Pretoria. Nylstroom is eighty miles north of Pretoria on the railroad.

PITCHED BATTLE FOUGHT.

Whitesburg, Ky., April 12.—Two men have been killed and two wounded in a fight between Sheriff John W. Wright and his deputies, on the one side, and desperadoes who robbed and murdered aged Mrs. Jennina Hall and her son, on the other. The fight occurred on a mountain top between Boone's fork and Milestone creek.

Wright and his posse started out several weeks ago to capture the gang, who had cruelly tortured and murdered the aged widow and her son and burned the bodies with the little but in which they lived. Yesterday John and Morgan Reynolds, Isaac and Cresel Potter and George Newsome were located by the posse in a rendezvous on the top of a mountain. Morgan Reynolds, Newsome and Isaac Potter went away, and while they were gone the officers suddenly confronted Creed Potter and John Reynolds, and all of them, ten in number, opened fire.

The desperadoes replied with rifles and revolvers and more than three hundred shots were exchanged at a distance of less than a dozen paces. Reynolds received serious, if not fatal, wounds in his left shoulder and retreated, leaving Potter alone. The latter's ammunition soon gave out and he, too, went into hiding. Of the posse, Will C. Wright, aged eighteen, was killed by a steel bullet which passed through his abdomen. Isaac Millard, aged twenty-one, was shot through the heart, and a third man, named Osborne, was struck in the right leg and severely hurt. Young Wright joined the posse about a month ago to avenge the murder of his father. W. S. Wright, whom the gang assassinated a year ago.

The fighting was heard a distance of thirteen miles. It was at first feared the posse had been defeated, and Governor Beckham was telegraphed to send state troops to capture the gang. When it was learned, however, the posse had been victorious, another message was sent to the effect no troops were needed.

Frankfort, Ky., April 12.—The Lexington and Louisville batteries of the Kentucky State Guard were today put in readiness to be sent to Letcher county, where the sheriff and two deputies are reported killed while trying to arrest several mountain desperadoes charged with the murder of Mrs. Jennina Hall and her son. The county judge wired for troops, fearing further trouble, but later news was to the effect the troops were not needed and that they not be sent.

NEW JERSEY ROAD STRIKE GROWS.

Wilkesbarre, Pa., April 12.—The tie-up in the car shops of the Central Railroad of New Jersey at Ashlie is now complete. Today the machinists, blacksmiths and laborers joined the car men who went out yesterday. A few men still remain at work, but the officials concluded to shut down the works and notices were posted to that effect this afternoon. About 85 men are now idle, and at a meeting of the strikers tonight they resolved to stay out until the discharged men are reinstated.

JERSEY CITY, APRIL 12.—Representatives of the Central Railroad of New

Jersey and its employes held two lengthy conferences today, but tonight the conferees confessed no material progress toward settlement had been made.

AGUINALDO'S SUCCESSOR.

PARIS REPORT NAMES MAN WHO HAS ALREADY SURRENDERED.

Paris, April 12.—Senior Agonello, agent of Aguinaldo in Paris, states that he received a cablegram this morning announcing that the Filipino General Sandico has been elected to succeed Aguinaldo as commanding general of the Filipino forces, as well as dictator, during the continuation of the insurrection. Sandico belongs to a distinguished family, is a man of energy and is well educated, speaking several European languages.

On the 8th inst., an Associated Press dispatch from Manila announced that General Sandico had surrendered to the American authorities at Cabanatuan, island of Luzon.

AVALANCHES IN COLORADO.

WORK TRAIN IS BURIED BY ONE, KILLING THREE MEN.

Denver, April 12.—A huge mass of snow and rocks swept down from the mountain near Adelaide, on the Florence & Cripple Creek railroad, today, burying a work train, killing three men and seriously injuring four others.

ALARM FOR MINERS.

Buena Vista, Colo., April 12.—A report has reached here that a huge avalanche sweeping everything before it came down Italian mountain in Taylor Park, about forty miles west of this place, and that several lives were lost. On this mountain several mines have been in operation all winter, employing about three hundred men. Owing to the great distance of the mountain from any point of communication with the outside world and the vast amount of snow on the range between here and the mountain, several days may elapse before the facts are learned. About the same time last year a snow slide came down the mountain, killing four men.

G. MOTT WILLIAMS PROTESTS.

JOINS WITH OTHER BISHOPS IN REMONSTRANCE TO DR. CLARK AGAINST HIS CLAIM TO BE AT HEAD OF EPISCOPAL CHURCH.

Indianapolis, April 12.—The Protestant Episcopal Bishop McLaren of Chicago, Grafton of Fond du Lac, Nicholas of Milwaukee, Williams of Marquette and Francis of Indiana and co-adjutor Bishop Williams of Nebraska and Anderson of Chicago today sent to Bishop Clark of Rhode Island, presiding bishop of the Protestant Episcopal house of bishops, a protest against his use of the title "presiding bishop of the church" which, it is claimed, is in an official communication published in the church organ of December "disclaiming any responsibility for the violation of the rubrics and the introduction of vestments having no authority or use in the church" which he claimed were introduced on the occasion of the consecration at Fond du Lac, a few months ago.

At the consecration, copes, mitres and episcopal staffs were used, the service was interpolated with special rubrics and, in the language of a prominent Episcopal clergyman of this city, "things were interjected that were not desirable nor legal." In the official communication for the presiding bishop in which he formally made disclaimer of responsibility for their interjection or use, and his signature to this disclaimer as presiding bishop, of the church brought out the address forwarded today by the eight bishops.

NEGRO HAS CHARMED LIFE.

Sylvania, Ga., April 12.—Kennedy Gordon, a negro, who, it is alleged, on Monday attempted to assault the daughter of David Cowart, was arrested Tuesday in North Carolina, given "a chance for his life." The negro made an effort to escape, when two loads of buckshot were fired into his body and the negro was left supposedly dying. Yesterday he appeared at Rockyford and was placed under arrest. Last night a crowd took charge of Gordon to take him to Fort. After crossing the river a number of shots were fired. No member of the posse has returned, but it is reported the negro was lost.

HUSBAND ACCUSED OF MURDER.

Mason, O., April 12.—Mrs. John McClung, wife of a wealthy retired farmer, was found dead in her bed this morning with her head crushed, and her husband has been arrested, charged with the crime. Early this morning McClung called on Mrs. Baysore, who occupied part of the house, and told her his wife had been murdered while he was at the barn looking after some stock. The coroner held an inquest and directed that McClung be arrested on the charge of murder. McClung is said to be worth a hundred thousand dollars.

TODAY'S WEATHER.

Washington, April 12.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Saturday and Sunday; variable winds.

Cheyenne, Wyo., April 12.—At Evansport today, the jury in the case of Harry Lyons, alias Tear, charged with murdering John Wheeling at Hilliard twenty-five years ago, returned a verdict of not guilty. Lyons was arrested at Lead City, S. D., last December after a chase which covered a period of twenty-five years and reached to almost every civilized country on the globe.

Copper Country Department

(Additional Copper Country on Page 2)
RAILS NOW GOING DOWN.

100 MEN ENGAGED IN THE WORK ON THE CAR LINE EXTENSION.

A gang of 100 Italian laborers, brought to copperdom for the purpose, has commenced the work of laying the street car tracks on the extension to Calumet. The grading is already complete for a distance of three miles, and work in all branches will be pushed with still greater vigor until the cars are running to the county metropolis.

FOR CHURCH AT TRIMOUNTAIN.

The Methodists of Trimountain are considering the building of a church; in fact, steps in that direction have already been taken. A society was recently organized which has fifteen charter members, with promise of more, and plans for the raising of funds are now in preparation. Rev. Mr. Gillingham, of the Atlantic, is prominent in the movement.

BOXING CONTESTS TONIGHT.

At the Houghton Armory tonight, a fifteen-round glove contest between Jim Arnold, "champion heavyweight of the Northwest," and Jack Rowett, the well known boxer and wrestler of Ironwood, is slated to take place. Indications point to a big attendance, much interest in the "go" being taken by local sports. Railroad rates will be given from all parts of the county and good-sized delegations are expected from the several villages. A preliminary six rounds will be fought between Joe Wadsworth of San Francisco and Frank Beaton of West Superior.

PLENTY OF SNOW AT CALUMET.

The streets of Hancock are dry and dusty, and bicycles are being used. In great contrast to this, is the condition of the streets at Calumet, fifteen miles distant. The thoroughfares of that village are still covered with snow and ice of considerable thickness. School-craft clearing at that place is reported to have from six to eight feet of ice still remaining. The clearing is acknowledged to be one of the worst places in the county for snow and ice during the winter.

Although the ice has entirely disappeared from Portage Lake near the county bridge yet the roadway—a few rods east of the open water—extending from the foot of Huron street, Houghton, across the lake to Cleaves' foundry, seemingly remains firm and people continue to walk over it. However, the trip is dangerous and those who make the attempt run a big risk.

Even the most vigorous and hearty people have at times a feeling of weariness and lassitude. To dispel this feeling take **HERBINE**; it will impart vigor and vitality. Price 50 cents. The Stafford Drug Co.

FIFTY PRIZES TO BE GIVEN.

ST. JOSEPH'S CHURCH FAIR HANCOCK, OPENS NEXT SATURDAY.

The bi-annual church fair given by the ladies of St. Joseph's parish, Hancock, will open at Germania Hall a week from today—April 29—and will continue until the following Saturday. The attractions will be along the usual lines. A musical program, instrumental and vocal, will be presented in a changed form each evening of the week, while the ladies will be prepared to show a full and varied stock of fancy articles made by them during the months of preparation. Fifty prize articles will also be on hand to be awarded to those holding tickets having the successful numbers. The congregation and friends of the church are anticipating a most pleasurable fair.

ADOPTED BY A CHINAMAN.

General G. W. Bailey, better known as "Tank Kee," will address the boys and girls of Portage Lake at the Y. M. C. A. rooms, Hancock, this afternoon. His subject will relate to the youth of China. The general's lecture this evening will treat of Chinese money, the price of labor and goods, the marriage and other social customs, the wedding of Chop Dollar's son, his courtship, the feast, food, and music. Much interest is being taken in the talks, as the life of the lecturer has been an unusual one. Left an orphan in China when three years old, he was adopted by a wealthy Chinaman and raised by him. The boy grew up to learn the manners and customs of the country and had all the advantages of education. Later he became a general in the Chinese army. With all his experience and knowledge of the country, General Bailey is able to make his lectures most interesting and they are made more attractive by the many curios which he uses all through the course of his talks.

"ULTIMATUM" TO THE RIVALS.

Nathan Haas, who recently assumed the management of the Houghton Light Infantry indoor baseball team in place of Irving Shields, who is busily occupied in selecting the Michigan mineral exhibit for the Pan-American exposition, has sent word to the Calumet Rivals that the game between the two clubs must be played Tuesday night of next week at the Houghton Armory or the Houghton team will disband for the season. To date each team has won two and lost two games in the series between them and the Houghton boys are anxious to settle the championship of the county either one way or the other.

TO PREVENT PNEUMONIA AND GRIP.

Laxative Bromo-Quinine removes the cause.
NOTICE—If in want of men call up Perrault's Employment Agency, Phone 231, Calumet. (4-9-1m)

METROPOLIS HAS TROUBLES.

A crisis has been reached in Laurium council affairs, and President Fiege and Alderman Faucett have tendered their resignations, which have been accepted. The gentlemen positively refused to further continue their relations with municipal affairs, and hence the rest of the board could do nothing but say "amen" and make arrangements for the special election at which the successors will be chosen. The old board members and those newly elected could not agree, and there is where the trouble arose.

The agitation aroused at Calumet over the opposition to Superintendent Frank W. Cooley, of the public schools, still continues to be a topic of great interest there and the people are becoming much wrought up about the matter. Stories are now being circulated, it is said, by teachers in regard to the actions of other teachers and the practice is creating much ill feeling. It has gone to such an extent that those who are being maligned threaten to hold an indignation meeting for the purpose of considering and taking some action in regard to the charges against them. Meanwhile the general public is watching with curious eyes the outcome of it all. It would be better for the schools of Calumet if the present trouble is quickly and amicably settled. The situation is to be greatly regretted.

HANCOCK HIGH SCHOOL NOTES.

The Juniors are holding rehearsals of their class play which will be given Tuesday evening, April 23.

William Chamberlain is reported as being much improved and his friends hope to see him at school in a short time.

The physics class recently visited the street railway power house for the purpose of inspecting the dynamo and motors. It also inspected the electric light plant at Houghton.

Miss Hillyer, a teacher in the Baraga schools, and Miss McLaughlin of Bessemer visited the high school Monday. Candidates for the baseball team were out for light practice yesterday afternoon. As there are many applicants for the different positions considerable rivalry is being manifested. This will be the first nine to be organized in the school for a number of years. The manager states he would like to correspond with other schools of the county to arrange for a schedule of games.

FOR BLEEDING PILES.

Those famous little pills, DeWitt's Little Early Risers, will remove all impurities from your system, cleanse your bowels, make them regular. Stafford Drug Co. H. N. Meloche, Ishpeming.

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dee Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 278.

George Shepard, the former Baraga ball player, has declined the Des Moines offer and will play shortstop on the Duluth team again this year.

Rev. K. A. Myers, of the Good Will farm, will go to Marquette today to look into the case of a child who will in all probability become an inmate of the institution.

Arthur T. Ellsworth, the Hancock druggist, will put his soda water fountain into commission this morning. Carnations will be given to each customer today.

The Foresters of Kearsarge will give a concert, of which vocal and instrumental music and recitations will be features, at their hall this evening. The public is invited.

Good progress in the construction of the Copper Range coal docks is being made by Contractor C. J. Johnson of Houghton. The foundation of the piles is about complete.

Tonight's meeting of the St. Patrick's Benevolent society of Hancock may be the last after thirty-five years of existence. It has done great good by its fraternal benefits.

Preliminary work preparatory to the remodeling of the partially burned Edwards building, corner of Pawabic and Sheldon streets, Houghton, has started. The debris is being removed.

The funeral of the late Mrs. Peter O'Brien, of the Quincy, will be held from St. Patrick's Catholic church, Hancock, this morning at 9:30 o'clock. Rev. Father Atfield officiating.

Irving Shields of Hancock, assistant to James R. Dee, of the Pan-American exposition commission, is busily engaged in collecting copper specimens for the Michigan mineral exhibit.

Albert J. Vieno and Miss Emma M. Barrow, both of Sidnaw, and Antti Falo of Hancock and Miss Santakarina Karwanen of Oskar received marriage licenses yesterday at the county clerk's office.

A dancing party will be given in Kahler's Hall, South Lake Linden, tonight by the Lake Linden Mannerchor Liederkranz. Music for the event will be furnished by Professor Roese's orchestra.

The Michigan College of Mines Glee club returned from its Ishpeming and Marquette visit yesterday. Last evening the boys gave their entertainment under auspices of the Calumet High school auditorium.

The five Peterson children, mentioned in yesterday's issue as being found in a most deplorable condition in their Hancock home, will be taken to the Good Will farm Monday morning. In the meantime they are being provided for by Mayor A. J. Scott.

The calendar for the April term of the circuit court, which convenes next

week, has been compiled. It presents a long list of both civil and criminal cases. The sessions will be very interesting this term, owing to the number of important criminal cases on the docket.

Howard Small, proprietor, and Fred Casterlin, manager of Small's laundry, Houghton, left yesterday afternoon for Chicago, where they will purchase additional machinery for the plant. This is preparatory to the enlargement of the laundry recently described by The Mining Journal.

The entertainment which was to have been given at St. Patrick's Hall, Hancock, April 28, for the benefit of the Good Will farm, will take place at the Houghton Armory on the same evening instead. The program will consist of both vocal and instrumental selections, and a special feature will be Draper's Juvenile band of Calumet.

R. G. Lee & Co. of Houghton is prepared this morning to serve ice cream soda and all other popular drinks of that nature. The company has its ice cream factory, which is one of the largest and best in the upper peninsula, in commission and ready to supply the wholesale trade. Carnations will be given away to all customers.

A small force of men yesterday started the task of repairing the brick work on the steeple of St. Patrick's Catholic church, Hancock, which was loosened by a heavy wind storm about a month ago. At that time many of the brick fell, leaving a considerable space on the spire bare. The work of putting up the stagers in order to reach the place was a difficult undertaking.

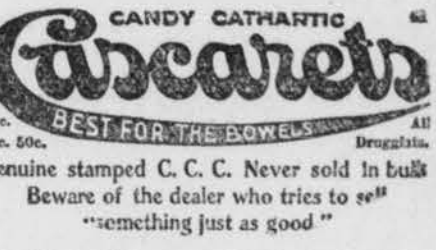

Secretary W. H. Wing, of the Hancock Y. M. C. A., is disappointed because the attempt to organize an athletic club at Laurium has fallen through, as he thinks it will likely put a damper on the interest in the organization recently formed at Hancock. It is the intention to arrange a led meet, but if the young men of the several villages fail to organize the plan may be abandoned.

HE FOOLED THE SURGEONS.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest cure on earth, and the best salve in the world. 25 cents a box. Sold by the Stafford Drug Co.

THE MOST STUBBORN COUGHS resulting from an attack of la grippe or heavy cold, must yield to the wonderful healing properties of Foley's Honey and Tar, which strengthens the lungs and make them strong. The People's Drug Store.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

CANDY CATHARTIC

Rest and most stylish turnouts. Orders over either phone promptly attended to. (5-33-17)

ARE MAKING EARLY START

Maccabees Have Already Decided How to Finance the 1902 Great Camp.

THEY WILL ISSUE 3,500 SHARES OF STOCK AT \$1 PER SHARE.

There is Much Interest Among Members in Elz Meeting. Although it is a Year Ahead, and They Are Bound to Make it a Great Success.

CO OPERATION OF AUXILIARY LADIES.

Last summer when the Marquette Maccabees captured the 1902 Great Camp and Great Hive of their order they embarked on one of the biggest undertakings in the history of the small cities of Michigan. They did not do this hastily or without careful consideration. They surveyed the ground attentively, decided that Marquette could handle the big meetings successfully and then instituted a campaign among the delegates to the last Great Camp which speedily put all the other cities out of the running and demonstrated to the Maccabees from the state at large that the Marquette brethren are capable of accomplishing anything they undertake.

Marquette's Great Camp and Great Hive are still a full year in the future, but the Queen City Maccabees have already undertaken the work of preparing for the big meetings. They realize that they have assumed a tremendous contract and they see that there is everything in an early start. Thus, they have their plans for financing the Camp well formulated and it will not be long before the first money begins to flow into the treasury.

Arrangements to date have been in charge of a ways and means committee composed of three members from each of the Marquette Maccabee organizations, the Queen City, Pere Marquette and Superior tents and the Busy Queen and Superior hives. This committee has formulated the plan for financing the meeting and it has accomplished other good work. It has had no executive power. It has merely suggested ideas, which have, invariably, been approved, to the various tents and hives.

It is the intention to soon supersede these ways and means committee with a general committee, empowered to act executively, absolutely and finally for all the Marquette Maccabees. A meeting of the members of the several tents and hives will be called shortly for the purpose of making up this committee. When it is organized the direction of all work looking toward the Great Camp will be transferred to it and through its compactness it will be well qualified to dispose of all questions expeditiously and satisfactorily.

WILL SELL STOCK.

The principal source of the revenue required to make the big meeting the desired success will be the sale of stock. There will be no begging lists circulated about the city. Instead Maccabees and business men will be asked to buy stock according to their means. The issue is of 3,500 shares, at \$1 a share. As all this stock can be sold without difficulty the Maccabees will have a neat nest egg of \$3,500 to start with. This being the case, with the additional sums which will be forthcoming from various sources, they do not anticipate that they will have any difficulty in financing the big meeting.

The plan of issuing stock to defray the expenses of gatherings in which the general public has with entire success. It is to be pursued at Crystal Falls in raising the funds requisite for the next tournament of the Upper Peninsula Firemen's association. In many instances of well managed gatherings it has been the experience that stockholders get some return from their paper through the ability of the executive committee to make money during the progress of the events which they are financing.

The Maccabees hope that this will be the case in Marquette and some of their members are quite confident of this happy result. They point out several ways in which the general committee will be able to make money during the progress of the Great Camp and Great Hive and they firmly believe that the holders of the Marquette stock will get some part of their dollars back.

It is expected that all Maccabees who are not business men will subscribe for at least one share of the stock issue and it is anticipated that in a great many cases the subscribers will take two or more shares. One object of getting the stock on the market at this

early date is to permit an immediate canvass of the members. The moving spirits argue that all the Maccabees will now purchase at least single shares and that, a few months hence, it will be possible to call on them for additional money, should it be required.

Those who are most interested in the preparations for the Great Camp and Hive are possessed with the laudable intention of, as far as possible, making it a Maccabee's affair and the business men and other citizens of the city will be touched up as lightly as possible. The council will likely be asked for some kind of an appropriation, which will undoubtedly be forthcoming on demand.

MEMBERS GREATLY INTERESTED.

The Maccabees are taking hold of the preliminary preparations for the big meeting with an energy and interest which foretells its entire success. It might be supposed that they would be apathetic at this early date on the principal that the Great Camp is still too far in the future, but the reverse is the case. They pay careful attention to all discussions of preparations and manifest a disposition to do everything in their power to advance the work. This spirit makes the labor of organizing the committees and getting things moving comparatively light, a fact which the prime movers in the preparations gratefully acknowledge.

The lady Maccabees will not be found shirking their share of the work. They will be shoulder to shoulder with the men all through the next twelve months and their co-operation and labors promise to be invaluable. They are now projecting a fair for the purpose of raising funds for the meeting. It will be held some time during the next fall or winter and it will be one of the largest events of the nature in the history of the city. It is expected that its receipts will reach record breaking figures, as all holders of the Great Camp stock will feel particularly interested in making it a success on the principal that the more money the ladies make the less their certificates will cost them.

Many other things of interest in connection with the 1902 meeting might be enumerated, but it is a little early yet and sufficient has been said to show that the Maccabees fully realize what they have before them and that they are wholly imbued with the purpose of making their meeting one of the most successful in the history of Michigan fraternals.

TEN YEARS SERVICE.

Present Plant at Street Railway Power House Has Withstood It.

Superintendent Mellin of the Marquette & Presque Isle Street railway has completed the task of moving the new boilers and engine to the power station. They are now at its doors, ready for installation. Masons will be put to work on the foundations for the new equipment Monday and no time will be lost in setting it up, ready for service. It is anticipated that a couple of weeks will be required for the work.

As soon as the new plant is in running order the burden of operating the street car system will be thrown onto the new boilers and engine. It has been ten years since they were installed and during the intervening period they have never received attention beyond minor repairs.

The plant has needed a complete renovation for some time and this fact was largely instrumental in deciding the street railway directors to purchase the additional equipment about to be installed. There was some consideration of suspending the operation of the street cars for a month while the old plant was being whipped into shape, but it was decided that, inasmuch as it would only be a question of time when more power was needed, it would be preferable to increase both the engine and boiler capacity forthwith.

When the old plant is put in its original condition the power house will be admirably equipped for a long period to come, that is as far as engine horse power is concerned. It must be remembered that the purchase of the proposed new 300 horse power generator has not yet been authorized, although it is hoped that an order will shortly be placed. Superintendent Mellin is very anxious to see this generator go in. He says that the line will have no difficulty with the projected improved car facilities, in handling the heaviest summer business if it is installed, while, on the other hand, without it the road will be as badly handicapped during the next few months as it has been at any time during past years.

HIGH PRESSURE DAYS.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business and society more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

Mrs. J. No matter what causes facial eruptions, absolutely cleanses the inside and out is the only way to cure them. Rocky Mountain Tea taken this month will drive them away. 25c. Stafford Drug Co.

"Last winter I was confined to my bed with a very bad cold on the lungs. Nothing gave me relief. Finally my wife bought a bottle of One Minute Cough Cure that effected a speedy cure. I cannot speak too highly of that excellent remedy."—Mr. T. K. Houseman, Manatowney, Pa. The Stafford Drug Co. H. N. Meloche, Ishpeming.

MARQUETTE IS ALL RIGHT.

Cleveland-Cliffs People's Plans Will Be Carried Out.

The Mining Journal is authorized by Mr. William G. Mather, president of the Cleveland-Cliffs Iron company, to state that his concern has in contemplation no deal with the United States Steel Corporation which will in any manner interfere with, or change, its plans for the construction of the Marquette & Southeastern railroad and establishing a charcoal furnace here in Marquette. He so assured the editor of this paper yesterday and he stated further that within a very few days he would be prepared to make an announcement which would effectually remove any fear that even the negotiation of the big corporation for the Cleveland-Cliffs properties would result to Marquette's disadvantage through the abandonment of the project of locating a charcoal furnace here, on the plan heretofore outlined in these columns.

PRICES NOT DEPRESSED.

Realizing in Amalgamated Group Failed to Affect Them.

Coppers held up well yesterday in the face of heavy realizing in the Amalgamated group. The tone of the market was strong and the prospects apparently good. Faine, Webster & Co. said: "Continued heavy realizing in the Amalgamated coppers failed to depress prices and this leads to a belief here that the Amalgamated interest will continue active factors in the market. The lake copper has been more active this afternoon and most of the offerings of the South Range stocks around the present prices appear to have been absorbed. We believe that the speculative interest will shift from one group of stocks to another in the coppers, just as it did in the New York stocks on the advance, and that the good medium low priced stocks will soon receive their share of attention. The South Range stocks look cheap to us. Money has been higher today, loaning at 6 per cent. on call. This may have an unfavorable effect on the New York market."

Hayden, Stone & Co., wired the Laidley Commission Co.:

"We get it from good sources that Amalgamated will sell much higher and that it will be a feature of the market this summer. The public are not large holders of coppers, but the insiders seem to be desirous of keeping the public out. We believe some deal will be announced before long. Montana is the cheapest stock, considering the investment returns."

W. W. RICHARDSON DEAD.

Former Marquette Man Answers to the Final Summons at Spokane.

Word has been received that the death of W. W. Richardson, formerly of Marquette, occurred at Spokane, Wash., last Saturday morning, after an extended illness, during which the deceased suffered from a complication of dropsy and Bright's disease. Mr. Richardson was father-in-law to Geo. W. Hoag, who died in Washington a couple of years ago. Mr. and Mrs. Richardson followed Mr. and Mrs. Hoag about a year back. The deceased was well known in Marquette and the announcement of his death has been received with much regret by his acquaintances. He was a member of one of the local tents of Maccabees, in which he carried \$2,000 insurance.

PAULIST FATHERS.

They Open a Mission at St. Peter's Sunday Morning.

Two well known Paulists, Fathers Daugherty and Conway, open a two weeks' mission at St. Peter's cathedral at the high mass service Sunday morning at 10:15 a. m. This is the first time that any of the Paulist fathers have held a mission in Marquette and the congregation of St. Peter's may esteem itself fortunate in the visit of two such eloquent and scholarly divines at Fathers Daugherty and Conway. Detailed announcements of the mission services will be made later.
