COPPER COUNTRY NEWS.

COPPER COMBINED EFFECTUALLY. HOW A BOSTON AUTHORITY SIZES UP THE COMBINE SITUATION.

The particulars of the Amalgamated-Montana-Bessemer deal are out at last, that is the official announcement is made, giving the right to shareholders of the two companies last named to deposit stock for exchange at a later date into Amalgamated shares on a basis not indicated, or to receive a definitely stated amount of cash per share as an option.

After varying fortunes, due largely to the irrefragable Heinze, with disappointing price fluctuations in Amalgamated stock, the great combine again is in readiness to carry out its great scheme, and the Montana field comes under its sway.

The United States production of copper (long tons) for March, 1901, aggregated 23,384 tons, compared with 21,999 tons the previous month, and 23,253 tons for March, 1900.

Officials of the Calumet and Hecla refuse to discuss the report that General Superintendent Whiting will leave the employ of the company the first of next month.

(Additional Copper Country on Page 2.)

JURY FINALLY SECURED.

TRIAL OF THE SUMNER MURDER CASE ON IN CIRCUIT COURT.

A jury was secured in the Sumner murder case at 11 o'clock yesterday morning. The case was opened by the prosecution. County Attorney Larsen is being assisted by A. B. Miller, a criminal lawyer of Ironwood. Four witnesses—Dr. W. K. West, of the Calumet & Hecla staff, giving expert testimony; John Sundberg, a member of the charitable party; Livingston Warham, one of the wedding party, and August Bbeck, marshal of Red Jacket at the time. The facts of the shooting were brought out. There is great interest in the trial and the court room was crowded with curious people.

\$500 FIRE IN HOUGHTON.

Fire broke out in the one-story addition to the rear of the Grass confectionery store on West Sheldon street, Houghton, shortly before 9 o'clock yesterday morning but was put out by the department soon after its arrival at the scene. The apartment in which the blaze took heading was used for living purposes, having two bedrooms. The explosion of a lamp in one of them was the cause of the fire, the alarm being given by one of the occupants of the building, all of whom made haste to leave the structure. The firemen turned out with their usual promptness and soon had three streams of water playing on the burning building which soon had effect in quenching the blaze. No damage was done to the front portion of the structure, which is of two stories, but it is estimated that the damage by smoke, fire and water to the addition in the rear will reach \$500. That part of the building was gutted and the furnishings destroyed.

AT CRYSTAL FALLS TODAY.

The executive committee of the Upper Peninsula Firemen's association, of which Casper Brand is a member, will be at Crystal Falls today for the purpose of transacting necessary and important business in regard to this year's tournament which is to be held at the Menominee range town. The members of the committee are R. G. Jackson of Negaunee, president; G. F. Van Wick of the Soo, first vice president; Casper Brand of Houghton, second vice president; T. J. Flynn of Negaunee, secretary; and M. V. Mullally of Marquette, treasurer. The gentlemen are "the power" of the tournament, which is to be held at a schedule of the events, attend to all complaints and virtually control the entire affair.

If troubled by a weak digestion, loss of appetite, or constipation, try a few doses of Chamberlain's Stomach and Liver Tablets. Every box warranted. For sale by the Stafford Drug Co.

OLD WATER TANK PUMPED OUT.

APARTMENT IT OCCUPIES AT THE HOUGHTON VILLAGE HALL NOW TO BE USED AS A STORAGE ROOM—DETAILS OF PLAN.

The large tank in the apartment underneath the first floor of the Houghton village hall, which was used during a period of years for water storage purposes in case of fire, was pumped out the fore part of this week. The reservoir has been out of use ever since the water works system was installed, and as it was no longer of any value the water that had remained in it for a considerable time was ordered pumped out. Years ago when Houghton was without a system of water works for adequate fire protection, it was found necessary to take steps to have a supply of water ready at some central point in the village at which an engine could be stationed to pump the water into hose that would reach to a considerable distance. After the village hall was built it was found that the natural springs located directly on the spot could be utilized to good advantage. The large tank, extending for nearly the entire length and width of the building, was then built of brick and concrete. The water from the springs soon filled it and as the capacity of the reservoir is several hundred thousand gallons, plenty of water was always ready in case of a fire that could be reached by hose from the engine house. The scheme worked fairly well, but at the same time it had its disadvantages. After the water works system was installed the big tank was no longer of any use, but the water was left in it. It was not thought of to any extent until recently, when the present council took the matter up for consideration. Several members were of the opinion that the tank filled with water was a bad thing for the hall and also for the health of the occupants of the same. One councilman, who knew the circumstances of the case well, having looked into it with all thoroughness, reported that for several years past the water in the tank had been leaking through the sides, a supply from the springs taking its place. That which escaped flowed away under the foundations and had effect in putting them in bad shape. The council then saw the necessity of having the tank pumped out and keeping it empty and hence ordered it to be done. As the village hall is greatly lacking in storage room, it is the intention of the board to convert the apartment where the tank is located into a place for storage purposes. A door will be cut into the side of the foundation facing Huron street and the room supplied with a board floor and other improvements made which can be done at a small cost.

About three years ago considerably over a thousand dollars were spent by the village in repairing the foundation at the southeast corner of the building. The stone had fallen away

and the cause of it was found in the water from a spring near by flowing under the foundation and against it. The wearing powers of the running water soon became evident. The corner was fixed up, but nothing was done with spring and the water still keeps flowing in the same way as before. It is only a question of a short time when the foundation will again need overhauling at that point, and to prevent it something will soon be done. The spring has been located and the water from it will at a near date be turned from its present course into a sewer. Houghton is badly in need of a new hall. Nearly every tax-payer sees the necessity of that. Money is paid out at regular intervals for repairs on the old structure, which in several portions is in bad shape. Nothing, however, can be done toward the building of a new hall this year, as all the available money at the council's command will be spent in other and more necessary directions. It is the opinion of the trustees that Houghton tax-payers would not stand for another bond issue at present, as the village already has \$35,000 out on paper; the last payment of which falls due in 1927. The village is in good shape as far as its bonds are concerned, but even so people do not wish to add to the amount when it is as high as this.

HOME TALENT TO PRESENT IT.

"All the Comforts of Home," that delightful farce comedy which will be presented at the Houghton Armory Opera House at a near date by the best of home talent in Hancock and Houghton, is being rehearsed at the moment. The play is to be put on under auspices of the Ladies' Guild of Trinity Episcopal church, Houghton, and the members of that organization intend making the production the greatest dramatic success ever attempted in the copper country. The principal workers or active members of the guild: Mrs. J. W. Alt, Miss Mary Edwards, Miss Agnes Van Orden, Mrs. J. H. Wegner, Mrs. E. C. Taylor, Mrs. F. J. Voith, Mrs. William T. Gray, Mrs. William Metzger, Miss Mina Wallace, Miss Alice James, Mrs. W. R. Waskam and Miss Kate Mills. Those who will take part in "All the Comforts of Home" are for the most part known in amateur dramatic circles at Portage Lake and each is especially adapted to the character selected. It is the intention to get special scenery for the piece, as much of that at the opera house is not suited to the needs of the play and hence cannot be used. Portage Lake people will look forward with pleasure to the night of the production, which will be announced later.

BRIDGE BEING REPAIRED.

The Mineral Range railroad company has a gang of men at work on the approach to the north side of the county bridge. New timbers are being put in to strengthen that portion of the span. The timber is Washington fir and was shipped to Portage Lake just previous to the commencement of the work on the approach to the south side of the bridge which is now complete.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley Street, Saugerties, N. Y.

WILL BE PAVED WITH BRICK.

LITTLE DOUBT THAT THAT MATTER WILL BE SETTLED FOR QUINCY STREET, HANCOCK.

It is generally understood from the discussion concerning the subject at the last meeting of the Hancock council, that the trustees are in favor of or rather compromised on cressed wood block as the pavement for Quincy street. The Mining Journal, however, is informed from several different sources that the material is not as well thought of by most of the largest owners of Quincy street property as is the vitrified brick. Indications seemingly point to brick as standing at the top of all other materials in favor, and it may now be stated without hesitancy that Quincy street, if paved at all, will be of brick. The members of the common council do not pretend to be dictators in any sense and are willing to abide by the wish of the majority in spite of their own personal preferences. All the trustees hope is that the main business thoroughfare of the village will be paved whether it be of brick, cressed wood block, asphalt, macadam, asphalt bricks, or any other composition.

In regard to the issuing of bonds, Mayor A. J. Scott yesterday said that the amount would not be greater than \$50,000. If the issue carries the bonds will likely be purchased by local banks and made redeemable in one or two years at a rate of interest of 5 per cent. Then the village can draw out the money as needed and pay interest only on the amount taken from the bank. The cost of paving will not be paid for all at one time, but will likely be divided into three payments, one-third directly after the work is complete and accepted and the other two-thirds in two years' time, the village itself being reimbursed by the property owners. The fact that the money for paving will likely be secured at home and not from outside parties will no doubt be pleasing and satisfactory to the Hancock tax-payers who will pay for the Quincy street work. The village at present is \$20,000 in debt, which is a small sum considering the improvements that have been made and in comparison to the debt of other copperdom towns. Next year half of that amount falls due and will be paid without any trouble. The remaining \$10,000 will not have to be paid until 1907.

Many Hancock people have the impression that it is a bad thing at any time to bond the village for the purpose of borrowing money for public improvements and think it would be much better to wait until the money required is in the treasury. If that plan were followed, it is safe to say, as a prominent Hancock gentleman yesterday remarked, that municipal improvements made would be very few. He further stated that even if the money already in the treasury were ample to make a certain improvement, it would not be right to pay all of it out for the work. The benefits caused by making improvement are not only enjoyed by the residents of the present day but also by those to follow—improvement is a permanent one—and the latter should share with the former in paying for the same. That is the theory upon which the bonds usually are issued, as the money borrowed on them is paid back by taxation spread over a certain period of years.

In regard to the present case, Mayor Scott will soon call a meeting of the board to decide whether bonds be issued for paving purposes; when this is determined, and if the issue is ratified by the tax-payers, then the paving material will be decided upon finally in line with the wishes of the Quincy street property owners, which material undoubtedly will be vitrified brick.

LUTHERAN CONFERENCE.

A five days' conference of the ministers of the Norwegian Lutheran church of northern Wisconsin and the upper peninsula will be held at Calumet, commencing today and lasting until Tuesday evening of next week. The meetings, which will be held at the church on Seventh street, will be attended by members of that denomination from all parts of northern Wisconsin and Michigan. Much important business will be transacted, and the affair promises to be one of the largest conventions of that nature yet held in copperdom.

BACHELORS' BALL TONIGHT.

The Bachelors of Houghton will hold forth at the Houghton Armory tonight, it being the occasion of their second annual ball. The event is expected to be the swellest social event of the season in Houghton and perhaps the most enjoyable. The music and decorations will be a feature. The former will be supplied by one of the Calumet & Hecla orchestras, and the name alone is enough to signify the quality of the music. The hall will be decorated to-day by George E. Carter, the Hancock painter and decorator. White and blue will be the prominent colors, the monotony of which will be broken by colored electric lights and evergreen and flowers in profusion.

SUNDAY SCHOOL CONVENTION.

The Sabbath school convention of Houghton county will convene at the Hancock M. E. church at 2 o'clock this afternoon. Most of the delegates will arrive in Hancock this morning and during the two-days stay there will be entertained by the people of the village. The business session of the convention will be held at 4 o'clock this afternoon, when it is expected a successor will be chosen to the late E. F. Sutton of Lake Linden, who was the association's president. The children's mass meeting, to be led by Rev. Alfred Day of Detroit, general secretary of the State Sunday School association, at 4:30 o'clock will likely prove interesting, as the reverend gentleman is well versed in proceedings of the kind. The address at 8:15 o'clock by Professor F. S. Godrich of Albion college, on the subject "On Horseback Through Palestine," will be the most entertaining feature of the evening.

THAT THROBBING HEADACHE.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. Small's Laundry.

PROBING THE INFANTICIDE.

The coroner's jury which was impaneled to look into the mystery surrounding the finding of the body of the infant alongside the railroad track near the Mohawk mine location last Monday continued the proceedings in the case yesterday afternoon. Witnesses were examined and some evidence in regard to the circumstances of the discovery obtained. It is said that although the evidence is not convincing, yet suspicion points to well-known people of the location as being implicated in the matter.

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Doe Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

Mrs. John Dee of Houghton left Wednesday night for a visit to Chicago.

Presiding Elder C. M. Thompson of Marquette will speak at the Boston location tonight.

Hoyt's "A Milk White Flag" holds the boards at the Armory Opera House, Houghton, tomorrow night.

Passenger traffic on the Ontonagon "Cannon Ball" of the Mineral Range road has increased considerably of late.

John L. Passanen and Miss Elsie Pykkonen, both of Hancock, were married at the Finnish church, Hancock, Wednesday night by Rev. Mr. Beck, the pastor. The couple will live at the Quincy.

The Hancock Elks held another interesting session at their lodge rooms last night and initiated two new candidates. The membership of the order in Hancock now numbers nearly 130 and is constantly increasing.

"The Christian" was presented to a large audience at the Houghton Armory Opera House last night and

those who saw the play were well pleased with its rendition. The company is all that it was advertised to be.

Tonight General G. W. Bailey, who is giving a series of lectures on Chinese subjects at the Congregational church, Lake Linden, will talk on the government, school system, laws, punishments, social customs, toilet of a lady, Chinese cleanliness, dress of male and female, small-footed women and the destruction of female children.

On account of the ship carpenters' strike at Chicago, and the marine engineers' strike as well, it is not thought likely that the first boat from that place will reach Houghton until the first of the month. It is probably just as well, however, for it is considered doubtful whether a vessel could get through the ice this side of the canal much before that time.

A second baseball team has been organized at Lake Linden and the rivalry between the two on the diamond this year will be spirited. The members of the new aggregation are business men of the village who are not novices in the game by any means. Lake Linden is now ready for an active baseball campaign and promises to give other copper country teams a hard run for the county championship.

The funeral of the late Mrs. Mary Sullivan of South Lake Linden, who died Wednesday morning from pneumonia after a long and lingering illness, will be held this morning from St. Cecilia's church. Burial will take place at the Hancock cemetery. Mrs. Sullivan was an old resident of the copper country. She was aged sixty-seven years and leaves two sons and two daughters, of whom all but one, Mrs. Philip Donovan of South Lake Linden, reside in other states. Mrs. Sullivan was well known in Hancock.

Even the most vigorous and hearty people have at times a feeling of weariness and lassitude. To dispel this feeling take HERBINE. It will impart vigor and vitality. Price 50 cents. The Stafford Drug Co.

GROCERY PRICES!

Since the opening of our grand establishment we have done a remarkable business in our Grocery Department. Handling the goods as we do, buying and selling for spot cash, and purchasing the goods in carload lots, enables us to sell cheap. Our small margin of profit we ask for goods places us above local competition. We recognize no one as a competitor in the copper country. Our motto will always be to undersell.

MISSION SERVICES.
There is no diminution in the interest in the Mission being held at St. Peter's under the direction of the Paulists, Fathers Conway and Doherty; on the contrary it is on the increase. The morning services are largely attended by the regular parishioners of St. Peter's and the capacity of the auditorium is taxed each evening when the priestly orations are preached, the assemblies including fair proportions of non-Catholics of all professions and beliefs.

WHAT DOES THIS LACK?
Surely Marquette Readers Cannot Ask for Better Proof.
The Marquette readers may ask for more convincing proof than testimony published from representative residents of neighboring cities but as the proof offer has been decidedly convincing in Escanaba it should carry considerable weight in Marquette.

A MILK WHITE FLAG.
Patrons of the theater will be treated to Hoyt's "A Milk White Flag" on Monday evening. The production, which is the biggest and best of all Hoyt's plays, has been on the road for several seasons, and wherever it made a second or third appearance it was greeted with large houses each time. It is a farce which is enjoyed by all.

Take No Chances
WHEN buying clothes ready-to-wear. There is only one sort that will never disappoint you in the excellence of the fabrics, correctness of the style and general value-for-price, and that sort bears this label.

We have sold this make to our most particular customers and have never heard anything but commendation from the wearers.
The man who has been paying his \$15 or \$20 for a Suit or Top Coat of the ordinary "ready-made" sort, and who is now buying Stein Bloch clothes, realizes how much more style, comfort and service he is getting for the same price.
Suits, \$15 to \$25
Top Coats, \$15 to \$25
And Your Money Back for the Asking.

HOW TO SAVE MONEY
VISIT THE BIG STORE OF
D. SEIDENFELD, FRONT STREET, MARQUETTE.
We invite your attention to our great bargains in all classes of
DRY GOODS.
Good Calicoes at 4c per yard
Good Gingham at 5c, 6c and 7c per yard
Yard-wide Sheeting at 3c, 4c and 5c per yard
Pure Linen Crash at 5c per yard
Table Linens, Napkins and Towels at lowest price ever known.
Dress Goods and Silks.
We invite your attention to the grandest collection of choice up-to-date Dress Goods and Silks shown by any store in the state.
Ladies' Tailor-Made Suits.
We offer you a great chance to select your spring tailor-made suits from the handsomest assortment of strictly tailor-made suits we have ever shown. Fifty styles to select from. We offer a large lot of ladies' tailor-made suits at \$5.00, \$7.50, \$8.50, \$10.00 and \$12.00, well made in every respect. These prices are from \$2.00 to \$5.00 lower than you can secure of any other house. You can't afford to buy a suit until you have first seen the beautiful styles we offer you.
Ladies', Men's and Children's Shoes.
We have the largest shoe department in Marquette, and our prices are far below all competitors. We offer first-class shoes for ladies and misses at \$1.50, \$2.00, \$2.50 and \$3.00, each grade being from 50c to 75c under the ordinary shoe store price. Buy your shoes of us and save money. We ask your attention to our Men's Shoes at \$2.50 and to our celebrated Levis Broxholm and Venor & Montgomery, the best shoes on earth for the money.
Men's and Boys' Clothing.
What we have said about our shoe department can also be truthfully said of our men's and boys' clothing department. It is the largest in Marquette, Mich., and our prices are the lowest. We offer men's all-wool suits at \$4.90, \$6.90, \$7.90 and \$10.00, worth from \$2.00 to \$4.00 more. We buy in quantities direct from the manufacturers at spot cash and this is why we can save you so much money.
Don't mistake the place. We are on Front Street, next to Freeman Bros., Marquette, Mich.
Big One Price Cash Store. **D. Seidenfeld.**

MINES ARE CONNECTED.

PASSAGE FROM THE BLUE TO THE PRINCE OF THE REGENT GROUP IS EFFECTED.

Wednesday evening saw the completion of a work at the Regent mines which has been under way for the best part of six months.

The Blue shaft has always contained a skip and a cage, but henceforth there will be two skips located on the level.

Work on the drift was started in the workings of both mines about six months ago and has continued without interruption since.

The additional skip will be immediately located in the Blue shaft and it will be then possible to hoist considerably more ore.

ROBBED THE GRAVE.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition."

MANY GO TO ROSSLAND.

Nine people left here for Rossland, British Columbia, this week and there are more who will leave for there within a few days.

THE BEST REMEDY FOR RHEUMATISM.

Quick Relief from Pain. This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption.

STARTING MORE DRILLS.

The Oliver Iron Mining company located a drill on the Lucy property yesterday, and as the distance to the ledge is not great it is expected that the drill will be running in the course of a few days.

test the deposit. Events will take a more definite turn in the next few days and The Mining Journal readers will then be informed as to what course the company intends to take with that property.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles.

LOCAL LAOCONICS.

Gas Sun's minstrels will be at the opera house on the 26th inst.

Superintendent of Bridges Noon of the South Shore was in the city yesterday.

Nicholas Reichel of Keweenaw Bay is spending a few days with friends in the city.

WILL BE OPEN BY APRIL 20.

Weather Bureau Thinks That Obstacles to Lake Navigation Will Soon Be Passed.

IT HAS ISSUED ITS LAST REPORT ON ICE CONDITIONS.

First Boat Should Arrive in Marquette Some Time During the Next Ten Days, as the Chances Seem to Favor Fairly Early Opening This Year.

STRAITS AND LOCKS NOW PASSABLE.

The date for the general opening of navigation is drawing an apace. The weather bureau, in its current report, announces that it will make no further observations of the ice conditions, as it is of the opinion that the great lakes will all be navigable by the 20th of the month.

It is likely that the first boat of the season will make Marquette harbor some time within the next ten days. Last year she was the Pontiac and her whistle was heard easily the afternoon of the 24th. It is yet too early to foretell with any certainty the date of the arrival of the first craft this year, but there is now reason to believe that people who have been predicting a late opening have been shooting somewhat wide of the mark. The arrival of the first boat may be delayed a few days later than usual, but it does not appear, in view of the fact that the Soo locks are open and that the straits are now clear of ice, as reported in Wednesday's press dispatches, that the discrepancy is going to be very great.

Following are the weather bureau's latest observations on the ice conditions:

"The reports indicate that the ice fields are disappearing over western Superior, while over east portion the fields are about the same size but are slowly wasting away. The ice in the St. Mary's river is decreasing steadily, and a passage can be forced by the latter part of the week; the locks will be ready by Thursday. The ice field at the foot of Lake Huron has decreased in size during the week and the bridge has been broken, and much ice has run down the river, but none was running out of the lake Monday; the field extends up to about Lexington, and with strong southerly winds will probably move out. There is very little ice reported in Lake Erie, the large field at the east end has moved out and is breaking up so that but little obstruction would be offered to vessels. There is very little ice in Ontario and navigation is practically open on that lake. The display of storm warnings has been resumed on Lakes Michigan and Huron and will be resumed on the 20th on Erie and Ontario, and on Superior with the opening of the locks at Sault Ste. Marie. It is anticipated that general navigation will be resumed on or about April 20th."

The particulars for the Lake Superior ports follow:

"Duluth (15)—Considerable open water in west portion of Superior bay. Harbor ice averages 19 inches in thickness; outside field extends about seven miles out, the outer half being heavy pack; ice generally honeycombed and black; no ice in sight at Two Harbors.

"Bayfield—Ice rotting fast and honeycombing, so that it would go out now with a strong south wind.

"Washburn—Ice honeycombed, and has not broken up, yet.

"Houghton (15th)—Portage lake clear for a mile opposite station, with solid ice to east and west of the open space; no ice reported at ship canal or Ontonagon.

"Whitefish Point—Bay ice solid but rotting fast; ice up the lake breaking up and not a very heavy body in sight.

"Sault Ste. Marie (16th)—Solid ice from Point Iroquois northward, and clear from Point Iroquois to Mud lake; some open water in Mud lake. Lock will be ready Thursday, 18th."

NOTABLE ATTRACTION.

One of the best theatrical offerings of the year will be at the opera house this evening, the bill being no other than Hall Caine's great drama, "The Christian." This play has been presented with uniform success in this section and it is described as one of the most pretentious attractions that has ever been brought onto the upper peninsula. It will be witnessed by a packed house. "The Christian" is not a play which has a special patronage, its vogue is universal, the highest

firm in the United States and that means the world, for there are no firms in Europe who direct a number of traveling organizations. Liebler & Co. own and direct two companies playing "The Christian," two playing "Lost River," James O'Neill in "Monte Cristo," James A. Herne in "Sag Harbor," Sarah Cowell LeMoine in "The Greatest Thing in the World," Viola Allen in "The Palace of the King," also "Les Miserables," "Mr. Van Bibber," "The Adventures of Francois" and "The Mantle of Elijah," making thirteen of the most magnificent theatrical attractions on the road. It is pleasant to note that the foundation of the firm was "The Christian," the net earnings of which have turned over \$150,000.

THE BEST BLOOD PURIFIER.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier on the market. Samples free at Stafford Drug Co.'s drug store.

THEY RESTED YESTERDAY.

Coppers had a comparatively quiet day. There was some little reaction noticeable, it being attributed to realization at the prevailing good prices. Faine, Webber & Co. said:

"The largest interests in the coppers have continued to wait today and have, apparently, been picking up good stocks on all reactions. The Trimountain heaviness has seemed to help Baltic and Copper Range. E. Rollins Morse and brother were the largest buyers of Range today. Boston and New York traders are becoming heavily interested in coppers on the belief that prices will continue strong until after the Butte-Montana deal is announced, two or three weeks hence, and that the most active market and highest prices are yet to be seen. We are bullish on all of the good lake coppers and particularly on Baltic and Range."

Hayden, Stone & Co., wired the Laidley Commission Co.:

"We do not expect a very active copper market until we hear how the Butte-Montana deal comes out. Old Dominion is cheap and, although it is being hit pretty hard by the newspapers, the stock is being bought by people who know. We hear that Amalgamated will be advanced again and of course this will mean higher prices for coppers generally. The Lake coppers will be taken hold of. We advise buying Mohawk."

Werner is making a photograph for fifty cents per dozen.

What you get for your money is as important as what you pay. The R. L. Francis Co., bicycle repairer, corner Front and Bluff streets, invites all its friends and patrons to inspect its spring stock. The repair department will be conducted along the same lines as last season, insuring high-grade work at a reasonable price. (4-6-1m)

I am making a general reduction on all sizes of photographs. Werner.

Rocky Mountain Tea will cure your rheumatism, indigestion, constipation, all blood diseases if taken this month. 35c. Stafford Drug Co.

Smoked by many, praised by all. Carvalho's hand made cigars.

NOTICE OF DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the limited partnership heretofore existing by and between the undersigned, and entered into on the first day of November, A. D. 1899, for the purpose of retailing dry goods, millinery, carpets, rugs, upholstery and kindred lines of merchandise, in the City of Marquette, Marquette County, Michigan, which said limited partnership was formed under the provisions of Chapter 106 of the Compiled Laws of the State of Michigan of 1897, and Acts Amendatory and Supplementary thereto and was to continue from October 1st, 1899, to Oct. 1st, 1901, has this day by mutual consent been dissolved.

A. T. Van Alstyne will continue the business and will collect all the accounts and pay all the liabilities of the firm.
Signed, ALBERT T. VAN ALSTYNE,
MARY H. LONGYEAR.

Dated at Marquette, Mich., this 25th day of March, A. D. 1901. (4-14-30m)
