GREAT LOSS BY FLOODS.

Damage in the Pittsburgh District Is Two to Three Millions.

WHOLE VALLEY IS SWEPT.

Disaster Now Being Spread Down the Ohio, While Other Rivers Also Are Raging Torrents.

THOUSANDS TAKE TO HILLS

Pittsburg, April 21.—Pittsburg and Allegheny are tonight slowly emerging from the flood. At 8 o'clock p. m. the river is receding a foot per hour. Conservative estimates are that the damage in the district will foot up two to three millions. Fifty thousand workers are suffering enforced idleness. While there has been a greater flood at this point, there never was one that caused so great a loss or discomfort. This is due to the denser population and to the fact that all the manufacturing plants on the river have been in active operation, most of them working day and night until the rising waters put out the fires and drove the workers to higher ground. Over fifty manufacturing plants have been flooded wholly or in part.

Railroads Big Losers.

The loss to the railroads entering Pittsburg from the flood, landslides and wrecked bridges aggregated a large sum. On the Fort Wayne the worst trouble was a snow blockade between Salem and Massillon which began Saturday morning and tied up the road for twenty-four hours. The Pittsburg & Lake Erie has experienced similar trouble. Five trains have been blocked at Windom for twenty-five hours. The water is two feet deep on the Lake Erie tracks at some places but the trains got through. Big landslides occurred on the Pittsburg & Lake Erie and Baltimore & Ohio, and also on the Pan Handle. At Skobs, the Lake Erie road received its most serious landslide, one hundred feet of the westbound track being carried fifty feet down a steep bank, the whole face of the bank slipping down into the river. Five miles of the Pittsburg, Bessemer & Lake Erie tracks were either under mud or water. The bank was continually sliding down onto the tracks and a big force of men could not keep them clear. The damage to the telegraph lines along the roads is enormous. The trains are now running on all roads, but no attention is paid to schedules. The submerged districts today were the scene of abject misery. The cellars and first floors of stores and dwellings were covered with water. Where the flood subsided it left behind a greasy, yellow scum three inches deep. The damage to furniture at Allegheny is estimated at \$100,000. In Pittsburg the loss to residences and stores and the cost of cleaning up will amount to a quarter of a million. At noon today the first three tiers of chairs at the baseball grandstand were under water and the bleachers were floating all over the diamond.

Destruction at Cleveland

Cleveland, April 21.—The fierce storm of wind and snow that swept over northern Ohio yesterday gradually subsided today. Notwithstanding the heroic efforts of the telegraph and telephone companies to repair the prostrated wires, there has thus far been little improvement in the service. The trains on practically all the roads are running about three hours behind schedule and the traffic on the city streets and car lines has been badly crippled all day as a result of the deep snow. A large section of the city is still cut off from wire connections with the fire department. The residents on the river front streets began moving upstairs this afternoon. It is expected the gas and electric lights will be shut off soon, leaving the city in darkness. Backwater is causing much damage, extending out into the country for miles.

Cincinnati, April 21.—While close, observing rivermen tonight are confident that the high water record of 1884 will not be broken unless another mountain flood soon reaches Pittsburg, it is evident that much damage will be done before the present rise is exhausted. While the water has begun to fall at Pittsburg, heavy rains last night and today along the Ohio valley have caused great apprehension. Merchants and manufacturers in the lower part of the city have been working all day preparing for the worst. The Sunday excursion season was to have started here today, but navigation was stopped before the boats could pass under the bridge.

Portsmouth, O., April 21.—The residents of the small river towns in this county are tonight moving to the hills, over eight hundred families having been driven from their homes. At Sedville and Wheelersburg, the situation is serious, all the people there now living in tents.

Disaster in West Virginia. Wheeling, W. Va., April 21.—The city is entirely cut off from outside communication by rail and only the big tugs are able to run. Inmate residents along the river bank are firing frequently at boats because of the swell from them washing the foundations away from their houses. In Wheeling, Bellairs

Bridgeport, Benwood and Martin's Ferry five hundred houses have been entered by water and most families are moving to the upper floors. Nearly every manufacturing plant in the Wheeling district is shut down and the aggregate cost of the flood will be at least a hundred thousand.

Huntington, W. Va., April 21.—The Ohio has passed the danger line of fifty feet and is still rising three inches an hour, with the Guyandotte, Big Sandy and other rivers also rising rapidly. Fully ten feet more water is expected here. Great damage has resulted throughout the southern and central portions of the state and there is much suffering among people compelled to seek quarters in the hills. Carter Slatington and John Swanson have been drowned.

Parkersburg, W. A., April 21.—The loss by the flood here today is estimated at a quarter of a million. The lower business district is under water and many houses have washed away. Two men were drowned in the little Kanawha.

Havoc in New England. New Haven, Conn., April 21.—Reports from around the state tonight show that the damage done by the floods resulting from rain of the last thirty-six hours have been very serious. The worst situation is in Wethersfield, where Highland lake threatens to overflow at any hour. If this occurs, it is feared terrible loss of life and property will ensue. At Derby, the river has done considerable damage, flooding factories and cutting off communication. The lower portion of the country is completely under water.

Springfield, Mass., April 21.—A dam at Middlefield gave way this afternoon and several houses were washed out, the people being driven to the hills. Heavy Snow at Erie. Erie, Pa., April 21.—The snow storm Friday night and Saturday and the sleet storm Saturday night were the worst known here in sixty years. There was twelve inches of snow on the level and during Saturday the trolley lines could not operate. Grounded live wires caused two fires. There were two freight wrecks on the Lake Shore at Girard Junction directly due to the storm. Today rain has been falling.

ROW AT DUTCH PALACE.

Wilhelmina Declines to Pay the Debts of the Prince.

Paris, April 21.—According to news received here from a trustworthy source a serious disagreement has already occurred between Queen Wilhelmina and the prince consort, this being mainly due to money matters. The queen's husband, the Prince of Mecklenburg-Schwerin, was head over heels in debt at the time of his marriage. He promised his creditors that he would pay them one-third of their claims a month after he and Wilhelmina were wedded. Now the creditors have formed a syndicate and have pressed their claims against him, which the prince is unable to satisfy. After repeated interviews with him, which were without result, the members of the syndicate approached the queen on the subject of her husband's debts. But Wilhelmina's marriage contract was drafted in such a way that practically separate maintenance clauses enable her to ignore the claims, leaving her husband to settle as best he can, with his own limited resources, the debts incurred previous to the beginning of the royal romance.

Meanwhile there is a scandal on the horizon as the syndicate intends to negotiate the prince's accepted bills on the Amsterdam stock exchange.

BRITISH CORRAL A FEW.

Kitchener Reports the Capture of Eighty-One Burglers. London, April 21.—The war office has received a dispatch from Lord Kitchener reporting that since April 18 the various British commanders have taken eighty-one prisoners, together with 100,000 rounds of small ammunition. Lord Kitchener reports also the surrender of twenty Boers since that date.

Train Looted by Boers.

Cape Town, April 21.—A train loaded with cattle and coal was captured by the Boers near Mornston, Cape Colony, Friday evening. The forward locomotive escaped and ran to Stormberg and returned with troops, who found the train on fire. A couple of natives were killed. The trainhands had been stripped and then released.

AGUINALDO'S GUARD MODIFIED.

Captive Is Removed from the Palace to a Private House. Manila, April 21.—Aguinaldo's palace was removed from the Malacañang palace to a private residence, 56 Solano street. The guard placed over him has been modified. Aguinaldo composed his address without assistance. The original draft was in Tagalog. It was afterwards translated into Spanish. It is believed the ex-Filipino leader is sincerely desirous of peace. He is not an educated man, but is possessed of considerable character and improves on acquaintance. Aguinaldo is not anxious to visit the United States, and it is considered best that he should remain here pending the completion of the work of pacification.

PRESIDENT HILL'S PAST TRIP.

From Seattle to St. Paul, 1,823 Miles, in Forty-Six Hours. St. Paul, April 21.—President James J. Hill's special arrived from Seattle over the Great Northern yesterday afternoon, making a record of forty-five hours and fifty minutes. The fastest time was made between Cutbank and Havre, Mont., eighty-four miles an hour being reached. The entire round trip, including the nine hours in Seattle, took but four days and twenty-three hours. The distance between Seattle and St. Paul is 1,823 miles. Mr. Hill refused to say anything about his plans.

BOTH BLOW OUT BRAINS.

President and Cashier of Vancouver, Wash., Bank End Own Lives.

HAD ROBBED INSTITUTION

Shortage of \$81,000 Found. They Confess Guilt and the Double Suicide Soon Follows.

DOWNFALL IN SPECULATION

Vancouver, Wash., April 21.—It developed today that Charles Brown and E. L. Candby, president and cashier, respectively, of the First National bank, which was closed yesterday by the controller of the currency, committed suicide last Friday at a point two miles from the city by shooting themselves with a revolver. The bodies were found this morning together in a small patch of bushes. One Weapon Used. Both had used the same weapon and Candby evidently died first, as the revolver was found in Brown's hand. It is evident that Candby put the muzzle of the revolver to his mouth, blowing the top of his head off. Brown then took the weapon, shooting himself in the same way, and falling over Candby's body. Friday evening, Candby, being told by Examiner Maxwell that the bank would not be permitted to open Saturday, went into the yard behind the bank and attempted to shoot himself. The revolver failed to explode. After failing to shoot himself, Candby returned to the bank and he and President Brown left later. When Examiner Maxwell confronted the bank officials with the shortage of \$81,000 which had disappeared, both men admitted they were guilty. It is said that both Brown and Candby had been speculating in stocks.

RAID ON CHINATOWN.

Suppression of Traffic in Female Slaves Sought at San Francisco. San Francisco, April 21.—Chinese quarters are much perturbed at the effort by the federal authorities to suppress the traffic in female Chinese slaves. United States Marshal Shine made a sudden descent today and arrested thirty-four women, sixteen of whom produced certificates and were released. The raid was made from orders of the attorney general, directing the marshal to do all in his power to suppress the traffic in female Chinese slaves.

RAILROAD FIGHT IN UTAH.

James J. Hill and Senator Clark Join Against the Harriman Pool. Salt Lake, Monday, April 22.—The Tribune says that the present activity in railroad building in southwestern Utah by interests representing Senator Wm. A. Clark and the pushing of the Denver and Pacific coast road, is a scheme to extend Mr. Hill's interests to the Pacific coast in southern California, thus introducing a formidable rival to the Harriman interests in that region.

BLOODY DRUNKEN FIGHT.

Six Men, Four Innocent Spectators, Wounded at Kansas City. Kansas City, April 21.—In a drunken fight started by a crowd of negroes in Rosedale, a suburb, today, four innocent white men were wounded, one probably fatally, and one negro was shot and another badly cut. Ben Cagle, colored, was cut by Sid Rawles. Cagle then secured a shotgun and fired into the crowd, but missed his mark and struck William Blanchard, who was waiting for a car, inflicting probably fatal wounds. Deputy Marshal Davis was shot in the hand and two unknown white men slightly hurt. Tom Smith, was slightly wounded. The negroes were arrested.

HUGE WATER TANK FALLS.

Crashes Through Six Floors of Chicago Building—Five Persons Hurt. Chicago, April 21.—High winds which struck the city today loosened a huge iron water tank from the fastenings on the roof of the Galbraith building, Madison and Franklin streets, causing it to crash through the six floors to the ground, injuring five people and damaging the building to the extent of \$50,000. The injured are: Richard O'Brien, skull fractured, will die; Julia Slokin; Frank E. Lang; S. Pegaro, and John F. Wiley, these with one exception being people on the street. Had the accident happened any other day but Sunday, many lives would probably have been lost, as the building is occupied by several firms employing a large number of people. The tank was twenty-five feet long and six feet wide and contained forty thousand gallons of water. In falling it made a hole forty feet square through the building.

SOJ STEEL MILL STORY FALSE.

Nothing in the Detroit Yarn Says Vice President Clergue. Sault Ste. Marie, April 21.—F. E. Clergue, vice president of the Lake Superior Power company, states that the Detroit dispatch describing the building of large steel works at American Sault under the auspices of the Lake Superior Power company, is without foundation. He says the statement that this company is co-operating with an English syndicate to that end is untrue.

Jew Money Lender Lynched.

London, Monday, April 22.—According to the Vienna correspondent of The Morning Leader, a Jew usurer named Urban was recently lynched with horrible brutality at Sobod, Hungary, by five of his ruined victims.

ASSESSMENTS TOO LOW.

Tax Commission to Make an Investigation at Menominee. Menominee, Mich., April 21.—Charges of negligence of duty have been filed against the assessors of 1900, Jacob Gehring, Alonzo Dunning and E. L.

Parmenter. The complaint is made to the tax commission by citizens that property was taxed too low and some neglected. Attorney General Owen serves notice on the assessors that Tax Commission Freeman will be here Monday to confer with supervisors and investigate the charges against the assessors.

BRUTAL INDIANA ROBBERY.

Aged Man Tortured Into Giving Up \$6,000, Savings of Years. Kendallville, Ind., April 21.—The home of John Andigo was entered last night by three men who secured \$6,000, the savings of years, after burning the old man's nose, ears and fingers with lighted matches and subjecting his nineteen-year-old daughter to insults. The robbers escaped.

WIFE BEATER SLAIN

Outsiders Interfere in Iowa Quarrrel With Fatal Results. Lemars, Ia., April 21.—John Jensen was shot and killed today while abusing his wife. Henry Steffen, William Beaver and Peter Peterson are under arrest, charged with the crime. Jensen, who had been drinking, started the row, beating his wife, and the others interfered to protect the woman.

A COMBINE IN PLASTER.

Standard Oil Syndicate to Control the Stucco Industry. Chicago, Monday, April 22.—The Tribune today says that a consolidation of all the stucco mills in the United States is reported, on good authority, to have been arranged by a syndicate of which the Standard Oil controls a large share. Options have been secured on a number of mills in Michigan and all the mills but one at Fort Dodge, Ia., the principal manufacturing point in the West for the plaster.

RAID ON CHINATOWN.

Suppression of Traffic in Female Slaves Sought at San Francisco. San Francisco, April 21.—Chinese quarters are much perturbed at the effort by the federal authorities to suppress the traffic in female Chinese slaves. United States Marshal Shine made a sudden descent today and arrested thirty-four women, sixteen of whom produced certificates and were released. The raid was made from orders of the attorney general, directing the marshal to do all in his power to suppress the traffic in female Chinese slaves.

DAILY MINING JOURNAL,

A Morning Paper Published by The Mining Journal Co. (Limited.) Issued daily except on Sundays.

Subscription Rates: Per month, by carrier \$3.00 Per year, by mail \$30.00

MARQUETTE, MICH., APRIL 22, 1901.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. The counsel which David B. Hill gives the Democrats, to "be patient," is doubtless very good, but recommending a hungry man to not worry about the future when he is wondering how he can manage to get his next meal isn't the best way in the world to make him feel good natured.

The Standard Oil company expects to declare a 20 per cent dividend on its \$100,000,000 capital May 1st, and is thinking of increasing its capitalization to \$400,000,000. The proposed step is deemed advisable, we presume, in order that the stock may have a value which will enable moderately well-to-do persons to own a share or two of it.

They are having a lot of trouble also in the Wisconsin legislature over bills for taxation of railroad property. The Michiganans who are wrestling with the same proposition at Lansing may be able to derive some satisfaction from the knowledge that they are not the only law makers who are losing sleep over difficult problems bearing on the taxation of the railway corporations.

Prosecutor Tuttle has asked that the cases against Chas. H. Pratt, Wm. A. French and Edgar J. Adams, who are under indictment for bribery in connection with a law book deal which it was attempted to work through the last legislature, be dismissed, as he feels that a conviction cannot be obtained on the testimony available. Judge Weist is opposed to dismissing the cases, but as the prosecutor favors it on good grounds it is probable that they will be stricken from the calendar at this term of the Ingham county circuit court.

The publisher of the Copper Country Journal is going to start an evening paper not because it is cheaper to produce an evening daily than a morning one but for the reason that people have no time to read a paper in the morning. There are papers and papers that people never find time to read, but we hope the new daily at Hancock will not be one of that kind. The Daily Mining Journal has been issued as a morning paper ever since it was established, nearly seventeen years ago, and somehow the people have always managed to find time to read it, while several evening papers started in its field during that interval died young because nobody seemed to care about using them for anything except to wrap things up in.

That projected steel industry at Sault Ste. Marie is the most ambitious undertaking yet announced for the "two Soos"—and there have been numerous great schemes for the industrial advancement of both cities formulated and floated by Mr. Clergue and his advisers. What iron men in this section don't understand is where the ore supply for so great a steel and iron producing interest is to come from. But it goes without saying that Mr. Clergue and his associates have not overlooked that important matter. Where the steel is to find a market is yet another question that puzzles moderately well informed people in this country. The United States Steel Corporation will not be likely to allow Canadian steel to compete with it unhampered in the American market, and the Canadian market is not the best in the world. The projected steel plants at the Soos may be able to find a foreign market for their product, but even there they will find themselves forced to meet the United States Steel corporation, and a billion-dollar competitor is an ugly proposition to encounter in any market. If Mr. Clergue can make iron and steel with electricity generated at small cost by water power he may be able to stand up against the United States Steel corporation, but if he is obliged to use American coal as fuel he may find the problem of successfully fighting the big combine a tantalizing one.

CAUGHT A DREADFUL GOLD.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by the Stafford Drug Co.

A PRACTICING PHYSICIAN

In Monticello, Ill., formulated Dr. Caldwell's Syrup Pepsin. Ask the Stafford Drug Co.

I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly, and quickly effected permanent cure." C. W. Lenhart, Bowling Greens, O.

COPPER COUNTRY NEWS.

Additional] CONTROL OF TRIMOUNTAIN. Interests Identified With the Arcadian Have Secured It.

The purchase of Trimountain was not for the Amalgamated, states the Boston News Bureau. We understand that 70,000 shares of 100,000 shares were bought by people identified with the Arcadian Copper company. As to whether the Arcadian needs this mine to feed its new mill, it is declared by some Lake Superior people that the Arcadian needs not only a mine but a new mill. The Trimountain has already contracted for its new mill. The Trimountain and the Mohawk are the only present available copper mines to help out the Arcadian venture.

Mohawk. Concerning the Mohawk, it may be interesting to note that one per cent is bid at Boston to call 600 shares of Mohawk at \$90 for six months. President Stanton, in an interview Thursday said: "The new vein which we have discovered at the Mohawk mine, and which we have named 'mohawkite,' carries over very different from anything yet discovered at the Lake. Samples of copper run from 60 to 80 per cent copper, and we figure that it is worth at least \$140 per ton. The vein was first discovered at the 100-foot level, and was then followed upward. We find that it extends to within three feet of the surface where it is as bright as pure copper. We have continued downward to the 400 foot level, and find the vein at that point to be of the same dimension as at the higher levels. The vein is fifty feet long, from six inches to three feet in width, and runs at least 600 feet from the surface diagonally downward. We have further it extends we have yet to discover. There are at least 3,000 tons of this ore in sight on which we figure there should be a profit of \$400,000. The reduction works will be in operation by the first of June; and we have arranged to ship ore at the rate of 100 tons per month."

Michigan. From the Ontonagon Herald it is learned that "A" shaft at the Michigan has been sunk seventy feet since April 1, when sinking was resumed; it is now down 600 feet. Drifting is in progress at the lower levels and some good rock is coming to surface from them. "B" shaft, from which the old Minnesota workings are being watered, is down about 900 feet. The deepest shaft in the old workings is 1,250 feet, so "B" shaft will have to be sunk 300 feet further, when it will be under the old mine; and at the present rate of sinking this ought to be accomplished by the latter part of July of next August. The water in the old Minnesota has been successfully tapped at four different points on fifth and sixth levels so far and will also be tapped again at seventh level as soon as crosscutting is finished. Work is progressing at the adit on the south bluff, where the Mass vein was recently struck and found to be 12 feet wide carrying some good stamp rock. This adit will be driven until Knowlton lode is reached, when drifting on both it and the Mass will be pushed. At present there are between ninety and one hundred men employed and several more miners could be given employment. At the annual meeting May 7 an assessment unduly will be called, which will be welcome news to the stockholders as it will be an assurance that one of the most conservative mining managements on Lake Superior have confidence in the richness of the property.

Victoria. Sinking and drifting in the one shaft so far being worked at the Victoria is being pushed with vigor and the character of the rock coming to surface, shows an improvement with each lift. Many small masses about the shaft indicate that the ground so far traversed is not lean by any means and when sufficiently opened the Victoria will do all that its early promoters expected of it. With the departure of the snow renewed activity in an exploring way will be instituted and no doubt before many months the diamond drill will locate other veins which are known to exist on the property. The water power of the company at Glen falls is one of the most powerful in this end of Michigan and could generate enough electrical power to operate every mine within a radius of ten miles.—Ontonagon Herald.

Copper Gossip.

The annual meeting of the Arcadian was adjourned until June 20. Copper quotations were lacking Saturday. The big storm in the East that knocked out the wires was the cause.

Lake people are buying Mohawk, Mass. Copper Range, Adventure, Osceola and Baltic in about the order named at present.

Saturday at Butte, Judge Clancy awarded Thomas H. Hindes \$231,000 for his services while receiver for the Boston & Montana company about two years ago.

New England is selling out its high priced copper shares and investing in low-priced copper shares; even certificates of Butte & Boston were delivered last week in the name of original "Butters."

It can be emphatically stated that the Old Dominion has not a dollar of floating debt and it is the reasonable expectation of the management to begin the payment of dividends this year.—Boston News Bureau.

Contractor C. J. Johnson of Houghton has been awarded the contract for the building of the two and a half mile of road from the main line of the Copper Range railroad to the Adventure mine. It will be used to transport rock from the mine to the mill.

The openings at the Champion mine are showing a further decided increase in richness with greater depth, particularly B and D shafts. The amount of mass and barrel copper is steadily increasing. Probably barring Mohawk the Champion can safely be placed at the front among all the new properties at the lake.

The Heinz brothers confirm the report that they will file papers in the chancery court of New Jersey to restrain the proposed combination of the Amalgamated Copper company and the

Butte & Boston and the Boston & Montana companies, in all three of which they have interests. Just what course of action is to be pursued has not been determined.

The successor of James Glanville, who is now at the Isle Royale stamp mill, at the Champion mill is Albert C. Krause, son of Henry C. Krause, the Lake Linden mill man. The appointment was given out Saturday and it is understood that Mr. Krause will start his new work this morning. Mr. Krause up to the time of his appointment was employed as a draughtsman at the Carroll foundry, Houghton. He is well able to assume the responsibilities of his new position.

John Stanton says: "The market for refined copper remains strong, with electrolytic 16 1/2% and Lake at 17 1/2%. Large sales have recently been made at 16 1/2% and 17c, respectively, but the feeling that foreigners have practically no copper on hand has induced us to hold out for the extra 1/2c. I was rather surprised to see the United Metals Selling company mark up prices about two weeks ago, although it can not be denied that the situation showed remarkable strength. A marked increase in the exports of copper is not unexpected."

An Amalgamated "insider" says: "I notice that technical denials are made to the statement that the Calumet & Hecla people have made a 'working agreement,' at least as regards the price for copper, with the Amalgamated Copper company. It can be stated unequivocally that such an agreement has been arrived at, and I could, if I so desired, name the parties making the agreement and the men who attended the conference." He also states that the Amalgamated will absorb no property that has not given evidence of its ability to pay dividends.

Horace J. Stevens wires the Boston News Bureau that the rumor that General Manager S. B. Whiting of the Calumet & Hecla, would resign, is untrue. Mr. Whiting's contract with the company provides that he shall spend one-third of his time at Calumet. The requirements of his position, however, have made it necessary that he give considerably more time than this to his work. At his special request larger powers will be given to Superintendent Warner hereafter, and also to other subordinate officials; but Mr. Whiting will remain in his present position.

The Calumet Y. M. C. A. is growing fast, new members continually joining, and especially at this time of the year, when the camera clubs, tennis courts, hand ball courts, track work and baseball serve as special attractions to young men contemplating membership. In the month of March, 1911 men used the gymnasium at Calumet and 940 the baths. The organization at present has over 300 members.

The Hancock Y. M. C. A. literary and debating club will meet tonight at the association rooms, a debate being the principal feature of the program. The question will relate to the choosing of United States senators by a direct vote of the people, the affirmative being taken by Daniel Holland and Leonard Seaton, with Patrick Murphy and Joseph Toomey on the negative. A large attendance is expected.

Local talent will present a two-act farce, "The Irish Pedler," at the Bismark Opera House, South Lake Linden, tonight. The play is given for the benefit of and under the auspices of the Ladies' auxiliary to the A. O. H. of that village. A program of musical and literary selections will be offered in conjunction with the farce.

Houghton lodge, F. & A. M., will hold a regular meeting for first degree work this evening.

The ladies of St. Joseph's church, Hancock, have their bi-annual fair in full swing, the opening taking place at the Germania Hall Saturday night. The affair will continue all week, closing Saturday evening. Besides the interest being taken in the fancy articles for sale and the drawing contests for prizes, much pleasure is also derived from the programs furnished by the Twin City Mandolin club. A supper will be served each evening by the ladies.

The baseball team formed by the Hancock Y. M. C. A. proposes to make the situation interesting for other copper-district aggregations of ball tossers, and on that account some very good contests may be expected in Hancock this year. Negotiations for new grounds have already been opened by the association, and although nothing concerning the location in view can be said at this time, it may be stated that if they are secured the boys will be in possession of the best ball park in the vicinity of Hancock for the summer at least.

at work on the several new mills under course of construction at that place, and many additional men will be added before the season has progressed very far.

Hoyt's "A Milk White Flag" played to a good-sized audience at the Houghton Armory Opera House Saturday night.

Rev. Alfred Day of Detroit addressed the afternoon meeting of the Hancock Y. M. C. A. at the association rooms yesterday.

The first practice of the season was indulged in by the Hancock baseball team at the Driving Park yesterday afternoon. The boys appeared in their new uniforms.

The convention of the Sabbath school workers, held at Hancock Friday and Saturday, was a great success and one of the most beneficial held in the history of the copper association.

The old Athletic park at Calumet has been secured by the Calumet Y. M. C. A. The association will train for all athletic events and will hold all exhibitions of that nature there, the company owning the park sharing in the gate receipts as a remuneration.

The wagon roads from Houghton to Redridge are reported in miserable condition, the recent spring thaws badly washing them out in places which are now nearly impassable for heavy loads.

Although much of the snow on the South range has disappeared, yet in certain districts there is plenty remaining, and it is very deep in places.

Ringling Bros.' circus is to visit the Lake Superior country this season, at least the head-of-the-lake towns, and there is quite a little curiosity as to whether the big show will appear in copper-district. It appears at Duluth the early part of June, to be followed in July by the John Robinson show and possibly by Buffalo Bill's aggregation.

The Hancock Y. M. C. A. is growing fast, new members continually joining, and especially at this time of the year, when the camera clubs, tennis courts, hand ball courts, track work and baseball serve as special attractions to young men contemplating membership. In the month of March, 1911 men used the gymnasium at Calumet and 940 the baths. The organization at present has over 300 members.

## A FIFTEEN-ROUND GO.

Kellar and Arnold Box at Laurium This Evening.

A big delegation of Houghton and Hancock men will attend the boxing carnival to be held tonight at the Laurium Opera House. They will go up on the regular evening train and return after the fight—at 1 o'clock—on a special train. The event of the contests in which the interest centers is the bout between Jim Arnold, "champion heavy-weight of the Northwest," who got the decision over Rowett of Ironwood in the recent carnival at Houghton, and Frank Kellar of the Soo, who claims the heavy-weight championship of Michigan. Fifteen rounds will be fought by these two men, and as each is fairly scientific and about the same weight a good match is expected. Before the main event of the evening, two or three preliminary bouts and some wrestling will take place. A considerable number of men from Baraga and the Soo will also be present.

## "WID" OUT OF A JOB.

Reported the Supervisors Will Collect the Tax on Dogs.

An important question with the Portage township board just now is, "Is 'Wid' Thompson out of a job?" It will be remembered that "Wid" was appointed dog warden at a recent meeting of the board and was about to enter upon his official duties. Something, however, turned up, however, which may prevent his taking the office.

Saturday morning County Clerk L. H. Richardson received a telegram from Lansing stating that a change had been made in the law relative to the office of dog warden and to inform the township board to that effect. Mr. Richardson was not told the nature of the change and as a copy of the amendment was not sent either to him or to the board, the officials are at a loss to know just exactly what the legislators have done with the law. A well-known Houghton legal light, however, is informed that the office has been done away with and all taxes on dogs will have to be collected in the future by the supervisor of each township, who will have entire charge of each canine in his district. "Wid" is now waiting, along with the county clerk and the members of the township board, for the copy of the changed law so he will know "where he is at." In the meantime he will do nothing in the way of making collections.

Mr. Thompson qualified for the office Saturday, giving the necessary bond of \$500 with Ernest J. Dube of Houghton as surety. In the event of his remaining dog warden, "Wid" will get down to hard work and not an owner of a canine in the district will escape him, although he does expect trouble with some of the tramp dogs of which there are a few hundred—in the township.

NOTICE—If in want of men call up Perrault's Employment Agency, Phone 231, Calumet. (4-6-1m)

## IS HEIR TO \$250,000.

Fortune in Ireland Left to a Young Calumet Man.

Good fortune has smiled upon a well-known young Calumet man, for he is now heir, it is said, to an estate in Roscommon, Ireland, valued at \$250,000, equivalent to about \$250,000. Martin Reddington is the person referred to, and he is employed at present as a surface man at the Tamarack Junior mine at wages of \$1.50 a day. Mr. Reddington received the news through a Roscommon attorney, who informed the young man of the fortune bestowed on him by some rich relative who lately died. Mr. Reddington will soon leave Calumet for his native land.

## TO THE JURY TODAY.

Evidence All in at the Sumner Murder Trial—Defendant's Story.

The interest taken in the Sumner case brought out a large number of spectators Saturday, and for the greater part of the day the court room was crowded, even standing room being at a premium.

Perhaps it was the most interesting day of the case to date, as the defendant, Hadley D. Sumner, being tried for the murder of little Benny Martin, was put on the stand. Previous to the prisoner giving his testimony, his mother, brother and sister-in-law gave testimony in behalf of the defendant. Rev. Mr. Hunter, who officiated at the wedding ceremony on the night of the shooting, and Victor Engstrom, the man who was ill in the Sumner house at the time, were also on the stand. A number of other witnesses were called to testify as to the character and standing of young Sumner in the community, all of which was decidedly in his favor. Nothing now was brought out by the testimony other than the facts of the shooting as they were understood by the persons in the house at the time.

Great interests was taken in the story told by Sumner when examined by his attorney, Allan F. Jones. The defendant's testimony regarding the motive which led him to shoot coincided with that of his mother's in that the latter was very nervous that night and requested her son on several occasions to have the noise of the charivari stopped, as it was distracting to her. Sumner testified that he shot from the pantry window of the house and straight outwards a height of about seven feet from the ground. His intentions were simply to frighten the boys, and he stated that, although he could hear the noise, he could not see the boys from the window on account of the darkness. The cross-examination by Attorney Miller, for the state, was very severe, but Sumner for the most part held his own, becoming confused on only a few questions which may be attributed to the fact that the young man was under a high nervous strain.

The testimony for the defense is all in. The pleas will be made today and it is likely that the case will be given to the jury late this afternoon. People are curious as to the verdict, but it is the general opinion that it will either

be manslaughter or the jury will disagree. From the evidence brought out during the trial it is very evident that Sumner is not likely to be convicted of murder, and if he is it will cause surprise.

## NEW YOUNG BLOCK.

Houghton Building to Be Remodeled at a Cost of \$12,000.

When the work of remodeling the structure commonly known as the Young building, at the corner of Sheldon and Huron streets, Houghton, is complete it will be one of the most handsome in the village and a notable addition to Houghton's main thoroughfare. Until about two weeks ago, when the work of converting the place into a new and up-to-date structure commenced, the building, since the fire on Dec. 26 last which gutted and rendered it practically useless, presented a displeasing

work at a cost of \$12,000, and as the force of men, it will soon be complete. The corner where the building stands is centrally located on the main business street which makes it one of the best and most desirable in Houghton.

Paul F. P. Mueller, the Chicago and Houghton contractor, has the contract for the work and the fact that his name is linked with it means a first-class job assured. Mr. Mueller's right hand man, who has personal supervision at the scene of operations, is Herman Gundlack, a well-known and popular young man of Houghton. H. L. Ottenheimer, who made the plans for the remodeling of the structure, is the architect who drew the plans for Houghton's best business blocks, namely the Sheldon-Dee building, Sheldon-Calverly, Dee Postoffice building and the Douglas House. He also made the plans for the remodeling of Miller's department store, which is now one of Houghton's most attractive

NEW YOUNG BLOCK, HOUGHTON.

sight and a remarkable contrast to the several other fine structures near by. For a considerable time the owner of the property, Mrs. Catherine Young, was undecided whether to rebuild and Houghton people wondered what would be done with it. However, after consulting with her son, John Young of Syracuse N. Y., and son-in-law, F. W. Houghton, Mrs. Young finally decided to have the structure remodelled. H. L. Ottenheimer, the Chicago architect, well-known in Houghton, was selected to prepare the plans, which were accepted by Mrs. Young and her son, the latter being present in Houghton in his mother's interest.

The remodeled building will be a two-story structure, instead of three as heretofore, and will be up-to-date in every respect, having two very pretty stores and (on the second floor) handsome offices, hot and cold water, electric lights, steam heat, open plumbing and other conveniences. One of the most notable features will be the front of the building, its ornamental iron trimmings (finished in bronze) and large plate glass. The front will surpass that of any building in the copper country without exception. The remodeling is being

business blocks. Paul F. P. Mueller carried out Mr. Ottenheimer's plans in each case and at all times gave entire satisfaction.

**THE BEST BLOOD PURIFIER.**  
The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at Stafford Drug Co.'s drug store.

**"WE DON'T WANT MONEY BAD."**

**"Cure the cough and save the life."**  
Dr. Wood's Norway Pine Syrup cures coughs and colds, down to the very verge of consumption.

## TONTINE SETTLEMENTS.

Detroit Lawyer Has a Plan for the Contract Holders.

Village President A. J. Scott of Hancock, who was at one time a large holder of contracts with the Detroit Tontine company, recently received a communication from a Detroit lawyer who presents a scheme whereby a settlement of all contracts can be secured by the payment of a certain sum of money. Mr. Scott does not know exactly what to think of the letter, as the tenor of it is not reassuring by any means. He likely will not give the contents much consideration, but wishes the plan of the Detroit lawyer to be known by other Hancock holders of tontine contracts.

The attorney advised that suit has been commenced against the Tontine company of Michigan and the Tontine company of New Jersey by the holder of a matured draft or contract in the agency side of the court, asking that both companies be restrained from paying out any more money and from making further collections; and that an accounting be had to determine the standing of all parties holding contracts and, in general, to wind up both concerns and to ascertain, if possible, where the money has gone and to recover it if it has been improperly diverted.

The bill is filed on the theory that the "redemption fund" referred to in the contracts is a trust fund, and the Tontine Surety company holds the funds merely as a trustee. If that is true, it would give any contract holder—according to the lawyer—a standing "in court" to inquire as to what disposition has been made of the monies by the officers of the companies. To the counsel in question, the theory of the bill is one that seems entirely feasible, but in order to work it out he goes on to say that the holder of the certificate who has commenced suit against the tontine companies is liable to considerable expense; but whatever the latter accomplished would be for the benefit of all holders of contracts.

Now that someone has undertaken the proceedings all contract holders are invited to step in and claim the benefits of it—in fact, the bill is so framed that they may come in for that purpose. One especially notable feature of the suit, however, is that it asks an order restraining contract holders generally from bringing suits to enforce their contracts. In other words, the contract holder would gain no advantage by instituting suits with a view of obtaining judgment on his matured claim, but must participate with all other contract holders pro rata.

The outcome of the matter will be awaited with no little interest by copper holders of tontine contracts.

## Ishpeeming and Vicinity.

(Additional Ishpeeming on Page Seven.)

### NEARING THE TIME.

L. S. & I. Railroad Preparing for an Active Season.

All things point to a speedy opening of the shipping season with its bustle and activity, and if the signs do not fail long strings of heavily laden ore cars will soon be on their way to Marquette. The L. S. & I. road is widening its road bed on the grade at Lake Angeline and doing other repair work in anticipation of the opening of the season and the South Shore and Northwestern are putting their cars in the best possible condition for a busy campaign. Engines are not so rare along the line of the L. S. & I. as they were a few days ago and from all appearances it would seem that the season will be in full swing in a very few days.

One thing which has an important bearing on the matter, and that is the strike of the marine engineers. The vessel owners have been saying all along that when the time came they would have plenty of men to run their engines but there are many who doubt these statements and they claim to have good reasons for their skepticism. The strike may set back the opening and tie up everything for some time, a condition of affairs which would be far from satisfactory to shippers. With the threatened strike of the steel employees averted, there was considerable hope in the city yesterday that all would be well, but the mining men will be exceedingly thankful when the trouble with the engineers is adjusted.

The L. S. & I. will run some cars into the pockets at the Barnum this morning and load them, but they will in all probability be held at this end of the line until something more is known about the engineer's strike. The steam shovels of the Cleveland-Cliffs are receiving their annual overhauling and will soon be in readiness for work. The cars which have been loaded at the Section 16 mine and the Hard Ore of the Lake Superior are resting on the sidings on Pine street. Everything is on the que vive, and when the final orders come there will be no time lost in sending ore forward to the shipping ports.

### A Raging, Roaring Flood

Washed down a telegraph line which Chas. Ellis of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by Stafford. Price 50c and \$1.

### Ski Club Organized.

At a meeting of the ski enthusiasts, held at the residence of Carl Tollefsen last week, an organization was effected and a committee appointed to draw up by-laws and a constitution. This committee met yesterday and completed this work, and a meeting will be held this week for the purpose of ratification. The club starts off with fifteen charter members and as soon as the constitution goes into effect and the amount of dues is fixed, applications from other would-be members will be considered.

There was a goodly attendance at the meeting last week. A number of tournaments will be held next winter and the sport of skiing will be developed in all departments. At the tournament held in this city on Washington's birthday, the Red Wing skiers were most anxious that their Ishpeeming brethren should visit the Minnesota city next winter and this proposition met with favorable response from the skiers of this city. It is likely that the club will send a delegation the coming season and it was with this end in view that it was organized.

The following officers were elected: Carl Tollefsen, president; Albert Aas, secretary; Erik Hoyseth, treasurer; Lars Hoyseth, Evan Paulson, Ever Johnson and Ole Aas, directors, with the president included. Erik Hoyseth will also act in the capacity of first captain, with Thomas Thompson second and Peter Hamburg lieutenant.

An entertainment will be given some time in the future for the purpose of raising money.

If troubled by a weak digestion, loss of appetite, or constipation, try a few doses of Chamberlain's Stomach and Liver Tablets. Every box warranted. For sale by the Stafford Drug Co.

Do not worry thinking what kind of a carpet to buy. See our line and a selection will be easy. F. Braastad & Co. (2-11-17)

Up-to-date pattern hats, millinery novelties, etc., can be found in my new line. Mrs. A. Deadman.

### WARNING TO SALOON KEEPERS.

All liquor dealers are hereby notified to not give my son, Thomas Lemm, aged sixteen years, intoxicating liquors of any kind. Gaitly persons will be dealt with according to law. JOHN LEMM, the boy's father. (4-20-1w)

### ISHPEMING IN BRIEF.

Joe Lavigne left last evening for Chicago on a few days' visit.

Patrick F. Small has taken a position in the Barnum engine house.

Ed Clark will spend a few days in Chicago this week purchasing goods.

A party of about ten school teachers spent Saturday afternoon in Marquette.

Charles Hooper leaves today for Crystal Falls, where he has secured a place in one of the barber shops there.

Mrs. John Paynter left Saturday morning for a week's visit with her brother, Robert Shand, in Ironwood.

Elmer Small will leave today for Calumet, where he will take a position as machinist with the Calumet & Hecla company.

R. P. Bronson and daughter, Anna, returned Saturday morning from Florida. Mrs. Bronson will remain in the southern state for some time longer.

Mrs. A. K. Sedgwick of Ironwood is visiting Mr. and Mrs. William Sedgwick for a few days. Al is at present in Mexico, where he went on business connected with a mining deal.

Gus Sun's minstrels, which will be the attraction at the opera house tomorrow evening, are said to be the best troupe on the road. Seats are on sale at Tillson's at the usual price.

The lecture which will be given in the Salvation Army hall tomorrow evening will commence at 7:30 o'clock, instead of 8, as was previously announced. Colonel Higgins, the lecturer, is a very pleasing speaker.

Those who have received invitations for the Zenda promenade, which is booked for tomorrow evening in Anderson's hall, will do well to accept them. This party promises to be one of the best of the season.

The John Cox, who will marry Miss Collick next Wednesday, is not the saloon keeper, as was stated in Saturday's issue of The Mining Journal. Mr. Cox is an employee of the Cleveland-Cliffs company and lives at the Cleveland location.

Anthony Bell and Miss Annie Hirschenback were united in marriage at Hurley last week. Mr. Bell is an old resident of this city and is very well known here. Mr. and Mrs. Bell have gone to Butte, Mont., where Mr. Bell has been located for some time, and will make their home in that city.

The dance given by the city band orchestra in Anderson's hall Friday evening was one of the most successful ever held in this city. There were a large number of dancers and all thoroughly enjoyed themselves. The new pieces which had been obtained especially for the occasion were heartily applauded.

Mr. and Mrs. W. H. Johnston left for the west Saturday evening. They will visit Colorado Springs and Montana and Mr. Johnston will try to get into Arizona to see just what that wonderful future Calumet & Hecla, which Mr. Cole is praising so highly, looks like. They expect to be away for about three weeks.

Mayor Mangum and Alderman Jacobs of Marquette were in the city Saturday morning on a tour of inspection of the various crushers at the mines. Marquette is considering the advisability of purchasing a new crusher. The visitors were shown about the city by some members of the local administration and they returned to the Queen City on the noon train.

They are telling a good one on one of the party who went up to the concert in Republic Thursday evening. It seems that he went to sleep after boarding the train at Humboldt and did not wake up until he was shooting past the Negaunee depot. He made a wild dash for the door and succeeded in jumping off before the train reached the cemetery in this city. He reports that it was very cold and lonely walking back to Ishpeeming in the early morning.

Do you know that we are supplying thousands with shoes. We have the goods and that is why we sell so many. F. Braastad & Co.

### CATARH PERMANENTLY CURED.

Nasal Catarrh, Catarrh of Head or Catarrhal Dizziness. No Cure, No Pay. ### OPTION THE BARASA.

Oliver Iron Company Have Started First Drill at the Mine.

The Oliver company secured an option on the Barasa mine Friday and Saturday morning were at work setting up a drill. It is located underground, in the main drift. Superintendent W. H. Johnston says that, in all probability, this method of exploration will be employed exclusively.

Thus active explorations, which will determine the exact value of the Barasa property, have been undertaken. The officials of the Oliver company have considerable faith in the value of the mine and it was rumored some time ago that they were negotiating for its purchase. It happened that the Barasa mine pined quite a little ore from the lands of the Negaunee iron company, it being the best which has been brought to the surface. It was this showing which led the Oliver people to consider the purchase of the mine, but when the matter was investigated they decided to examine the property more thoroughly before investing.

Mining men generally hold favorable opinions of this property and they do not hesitate to express them, but the Oliver officials are very conservative in stating their views.

### He Kept His Leg.

Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and my leg was sound and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. Stafford will guarantee satisfaction or refund money. Only 50 cents.

### Have a New Dining Car.

The Northwestern has just put into service one of its latest pattern diners, which is a great improvement over the one formerly in use. This car will be a regular part of the equipment of the Peninsula Express and adds greatly to the beauty of this train, the finest that runs through this section. It is fitted with all the latest improvements and is much larger than the one previously used on this run. The dining service of the Northwestern has always been of the best and the superintendent of that particular branch of the service takes great pride in the strides which his department has taken in the past few months. If the service is excellent, the patronage ranks well up with that of any other runs and it is constantly increasing. The Northwestern has always been of the best and the superintendent of that particular branch of the service takes great pride in the strides which his department has taken in the past few months. If the service is excellent, the patronage ranks well up with that of any other runs and it is constantly increasing.

### THE BEST REMEDY FOR RHEUMATISM.

#### Quick Relief from Pain.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, writes: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. The result was so good that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by the Stafford Drug Co.

#### "Now good digestion waits on appetite, and health on both." If it doesn't, try Burdock Blood Bitters.

#### A GREAT POSSESSION.

Eyes are an every day possession. They don't seem to be so wonderful until we lose them. Your eyes may be warning you every day of their weakness, their inability to do their work without help. They are the "daily bread makers" for most of us. Don't neglect them.

T. E. LUDLOW, Optician. Perkins drug store.

NASAL CATARRH quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific. Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brothers, 56 Warren Street, New York.

### MOTHER GRAY'S SWEET POWDERS

for Children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists. Sample sent FREE. Address Allen S. Olmsted, LeRoy, N. Y.

#### DON'T BE FUNNY.

It does not pay, if you have a good thing, tell it right out. Don't use means to attract attention. We say "right out" and mean it, too, that Dr. Caldwell's Syrup Pepsin will cure every case of Stomach Trouble. It will stop any pain caused by indigestion; it knocks Sick Headache by attacking the cause of the complaint and aids you to digest your food, no matter what you eat. Stafford Drug Co.

### LOCAL LAONICS.

James Kinlan was up from Sands on business Saturday.

J. Clark Kirkpatrick transacted business in L'Anse Saturday and yesterday.

Philip B. Kirkwood went down to Little Lake Saturday morning on business.

Two "jags" were brought before Justice Verran Saturday morning. They paid for their fun.

Miss Clara Mueck left for Chicago Saturday morning. She will visit friends for the next few days.

The city bootblack has made his appearance. This may be regarded as a sure forecast of spring.

Mrs. Nicholas Job went down to Crystal Falls Saturday morning on a short visit to friends in that town.

Henry Larson and John Yortel expect to go to Michigamme this morning to work on the drive near that town.

Officer Zimmerman of the police force won the gold watch offered by John Wasmuth in the championship pool contest.

Dan Teehan, who is braking on the Northwestern out of Escanaba, spent Saturday and Sunday with his mother in this city.

The indoor meet, which will be held in the rink next Saturday evening, promises to be by far the most successful affair of this kind which has ever been pulled off in this city.

William Neely has purchased from the Truan estate his holdings on Main street, but the consideration could not be learned. Mr. Neely will erect a fine residence on the property in the near future.

Louis Greenier and Miss Kate Duchane will be united in marriage at St. Paul's church next Thursday. They will reside in the Mike Hawley house on Main street, which is being repaired for their occupancy.

The furniture for the new Brieting bank arrived Saturday and workmen will today begin putting it in place. From all indications it would seem that the new institution will be in running order within the week.

W. E. F. Webber, who for the past two years has been in charge of Elliott's greenhouses, will leave for the Soo the first of the month. Mr. Webber thinks there is a splendid field for his business in that city and he will open houses there.

Workmen engaged in erecting the bents for the new shaft house at the Negaunee mine, let the timbers get away from them Friday and the structure toppled to the ground. No damage resulted and the work of erecting the house will be delayed but a couple of days.

A CLEAR BRAIN and healthy body are essential for success. Business men, teachers, students, housewives, and other workers say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that tired feeling.

### Upper Peninsula News.

An enthusiastic meeting was held at Iron Mountain last week for the purpose of completing the preliminaries to an organization of a lodge of the Sons of St. George. It is expected that the list of charter members will number fully 100 names. The new society will have an auspicious birth.

The organization of the new state bank for Norway, which has been formed largely through the work of D. A. Stewart, was completed last week. The capital stock of \$5,000 shares is well distributed among good people. The new bank has a strong list of officers and a directorate of solid men. Mr. Stewart will be its cashier. It is expected that the new institution will be ready for business not later than May 1.

Grand Marais people are pleased with the announcement that the Booth steamer Liberty will again be engaged in business between their port and the Soo next year. The Liberty was taken off the run last fall because of a scarcity of business. Her withdrawal was a decided inconvenience to the Grand Marais people. It is expected that the craft will make some money this year, with the result that her operation will be continued indefinitely.

Ground was broken last week on South Ashmun street, the corner of LeRoy street, at the Soo, preparatory to the erection of a new \$18,000 or \$20,000 block by C. S. Beadle. The plans for the handsome structure have not yet been completed but it will be 75x50

State of Ohio, City of Toledo, Lucas County—ss.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

Cuts, wounds, burns, sprains and bruises quickly heal if you apply BAL-LARD'S SNOW LINIMENT. Price 25 cents and 50 cents. The Stafford Drug Co.

\$50 FOR A BOTTLE OF MEDICINE.

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.

# An Old Friend

S. S. S. has been before the public for many years; from a small beginning, it has steadily worked its way to the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects, but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anemic people will find S. S. S. just the medicine they need, for blood poverty and ill-nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—it cures, is the secret of its success. When you call for S. S. S., don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

## Don't Experiment—Take S. S. S.

for no sooner does it get into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anemic people will find S. S. S. just the medicine they need, for blood poverty and ill-nourished nerves are responsible for their condition. For old people and children S. S. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

## Additional Ishpeming IN THE M'KAY BLOCK.

St. John's Club Will Have Fine Quarters.

The athletic club recently formed by the men of St. John's church, has secured a hall and rooms in the McKay building on Main street. The committee appointed at the last meeting to look into the matter examined a number of likely places and finally came to the conclusion that this building offered more advantages than any other. The club will have fine quarters. Carpenters are now at work in the hall, which is 32 by 42 feet. A new hardwood floor is to be put in and the room will be painted and papered. This hall will be used as the gymnasium, which will be the most complete in this section.

The other rooms are now occupied but as soon they are vacated the painters and carpenters will put them in first-class condition. One of these rooms will be used for billiards and pool and the others will be fitted up as reading and reception rooms.

The club was formed but a few weeks ago at the instigation of Rev. J. M. Langan. It was only a short time before there were over 100 members enrolled and the total membership now reaches the splendid figure of 125. A track team is now being formed. There also be a baseball team and in the fall the boys will be represented on the gridiron. They will participate in the various athletic meets to which they are eligible. Plans are already under way for the winter season. They include lectures and other attractive features.

A TESTIMONIAL FROM OLD ENGLAND.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." Sold by the Stafford Drug Co.

Diphtheria, sore throat, croup. Instant relief, permanent cure. Dr. Thomas' Electric Oil. At any drug store.

**REFORM OF THE POLICE.**

**Extremely Probable the Force Will Be Organized on New Lines This Spring.**

**NEW UNIFORMS PROPOSED FOR THE GUARDIANS OF THE PEACE.**

**This Matter, With Others, Now Under Consideration by the Committee, Which Will Report at the Next Council Meeting.**

**TO TUG OUT THE PATROLMEN.**

It appears that Marquette is going to have more or less police reform this year. Matters in this connection have not as yet been discussed by the council but they will likely be brought before the aldermen by the police committee at their next session. Members of this committee and Mayor Mangum have been giving no little thought to concerns of the police department during the past few days and it is generally expected that some notable changes will be suggested.

It will be recalled that Mayor Mangum urged, in his inaugural message, the advisability of increasing the present force of policemen, setting forth the fact that the unusual amount of work progressing in Marquette and its immediate vicinity the coming summer will attract a large and, at times, unmanageable floating population to this neighborhood with the result that the ordinary safeguards of the public peace might be found not sufficient. It is understood that the members of the police committee believe in the value of this suggestion and that they intend to report accordingly to the council. It is not recorded that the aldermen will doubtless hearken to their advice, in which event the Queen City will henceforth boast a couple of additional "coppers."

The question of some regulation uniform for police officers is also receiving some attention and the coming summer months will likely see the members of

**THE PERFECT WAY.**

Scores of Marquette Citizens Have Learned it.

If you suffer from Backache There is only one way to cure it. The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

Are endorsed by Marquette people. Mr. Thomas Price of 141 W. Ridge street, employed on the L. S. & I. R. R. as locomotive fireman, says:—"For a year I was bothered off and on a good deal with pains through the small of my back and in the kidneys. At times when I stooped I could hardly straighten again and any cold or sudden change in the weather aggravated my condition. I saw Doan's Kidney Pills advertised, and went to the Stafford Drug Co. and procured a box. I soon felt they were benefitting me. I have no hesitation in saying that they did me a lot of good."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

the force togged out to kill. In his inaugural Mayor Mangum suggests the advisability of including a helmet in the required uniform. It is understood that the police committee is in accord with his honor in his desire to give the city a natty, well dressed police force and that its recommendation to the council will be along lines which, for Marquette, will be decidedly radical. It is taken for granted that, while the officers may not be compelled to don the helmet, the force will be compelled to observe certain rather stringent regulations regarding uniform, and that their failure to do so will result in speedy reprimand.

**Along New Lines.**

There is also some talk of organizing the force along new lines. During the prevalence of normal conditions Marquette has always had a regular police force. It has a remarkably good name as a peaceable, law abiding city and the only statutes which are badly battered are those which say that a man shall not become intoxicated and make a general nuisance of himself. Serious infractions are few and far between.

When this is said, the fact must be recognized that the police department has not been conducted along business lines. The officers have usually been good, intelligent men, who have discharged their duty, as they have seen it, with considerable avidity and fidelity. Nevertheless, as far as any iron-clad requirements for membership on the force goes, the fair average of the policemen has been due to chance more than to any other thing. The police department has been fairly in the domain of politics and in the influence of the political leaders and its officers have not been chosen with their capabilities for their particular duties as the sole consideration.

There exists a well defined sentiment that it is time to change at least some of these conditions. It is not recorded that any influential body of aldermen are of the opinion that the department should be taken entirely out of politics, but it does appear that there is an element in the present administration which believes that the policemen should be chosen from men who fulfill certain requirements of activity, strength, alertness, skill, perhaps, education, instead of being selected practically without regard for qualifications, as is now the case. It believes that Marquette is attaining a dignity which demands a revision, more or less sweeping, of the methods which have prevailed in the selection of officers for the police force and in the government and regulation of this department.

**Would Be Popular.**

Any changes along the above lines would be popular. There has always existed a well defined public sentiment in favor of police reform, as applied to the imposition of certain qualifications for candidates to the force and the selection of a regulation uniform for the officers, and it is only notable that it has not made itself felt at some time in the past. Any innovation which would give Marquette a smart, well dressed corps of policemen, who would walk their beats regularly, day and night, looking like policemen and inspiring the fear of the law in the hearts of all disorderly youths and other characters of more pretentious wickedness, would be warmly welcomed by the general public and the change would undoubtedly prove so popular that people would have no retrogression to the old order of things.

This question of police reform has attracted considerable attention in certain circles lately and the police com-

mittee's report to the council, as well as the aldermen's subsequent action, will be observed with a great deal of curiosity.

**SALOON CHANGES.**

There Will Be a Number Here This Spring.

This is the season of the year the saloon men are chiefly concerned in getting the amount of their annual license together, looking up sureties and making whatever other changes may be necessary in connection with their business. There will be considerable shifting around with the liquor dealers this year. E. H. Bush, who now occupies the stand in the Flynn block on Washington street, has made an arrangement whereby he will rent the place in the Vierling block which has been conducted by Martin Vierling during the month that have elapsed since Louis Vierling left for Detroit, the old gentleman intending to retire from active business. Mr. Bush's present stand will be occupied by Gust Anderson, who is now located a few doors further west on Washington street. The saloon vacated by Mr. Anderson will be taken by the Price Bros., Tom and Fred, who are about to embark in the liquor business. All the changes will be consummated about May 1. The Mining Journal hears that other new adjustments of the saloon business of the city may develop within the next few days.

**Job Couldn't Have Stood It**

If he'd had Hehling Piles. They're terribly annoying; but Bucklen's Arnica-salve will cure the worst case of piles on earth. It has cured thousands. For Injuries, Pains or Bodily Eruptions it's the best salve in the world. Price 25c a box. Cure guaranteed. Sold by Stafford.

**OPENING WEEK!**

Our Formal Spring (1901) Opening which occurred Friday and Saturday only marked the advent of opening week, which begins today. The short space of time since I made arrangements to continue this business in Marquette did not permit of our showing the complete lines of goods at our formal opening that we will be enabled to show during this week. We will receive this week a complete spring assortment of the

**25 New Creations in Silk Waists and in the New Nunsveiling Waists.**

**Celebrated Centemeri Kid Gloves**  
At \$1.00, \$1.50 and \$1.75; Fully Warranted.

**New Silk Petticoats, Accordion Plaited, at \$5.00, \$7.50, \$8.50, \$10.00, \$12.00, \$15.00.**

**The Most Complete and Exquisite Effects in Ladies' Neckwear.**

New silk waists in leading materials in the latest cut and in sailor collar effects. New dress trimmings and allovers---an unequalled showing. Spring dress goods---not surpassed by large city stores---and at the lowest prices, consistent with the quality. Our sales during the past week in our suit department surpasses our greatest hopes, the fact that we have been selling the newest Persian styles at actual wholesale prices (owing to our recent under-value purchase of over \$1900) has been too strong an inducement for the public to pass. We have hundreds of elegant new suits now in stock which we will sell than our neighbors pay for them. It is an old saying "that goods well bought are half sold," never was it more fully demonstrated. Remember we are making our usual profit on every garment sold, our advantage comes in buying at a lower price than our competitors. Our terms are cash, but a dollar will buy more at our store than anywhere else. No old styles in our stock.
