INVEST ON THE MESABA

Jones & Laughlin, Owners of the Lake Angeline, Branch Out.

PURCHASE PRICE \$2,250,000

Practically Unlimited Ore Deposits Near Virginia Secured by the Pittsburgh Bar Iron Manufacturers.

ARE OUTSIDE THE TRUST.

Pittsburg, April 23.—Jones & Laughlin, Limited, have purchased from Peter L. Kimberly of Sharon, Pa., several thousand acres of fine ore property in the vicinity of Virginia on the Mesaba range. The prices paid are said to be two and a quarter millions. The ore veins are of great extent and the deposits are said to be practically unlimited. The lands are within easy reach of the shipping point at Duluth. The deal carries control of the Humphrey property at Virginia, now being developed under the direction of the Columbia Mining company. The ore deposit on this property is about 10,000,000 tons.

The company is one of the most extensive manufacturers of bar iron in the country and is outside of the United States Steel company. It owns the famous Lake Angeline mine at Isleburg, Mich., but until now has had no interests in Minnesota. The sudden move on the part of Jones & Laughlin is supposed to indicate that they are anxious to protect themselves with ore supplies.

Rumored Deal in Coal Lands.
Vancouver, B. C., April 23.—President J. J. Hill, of the Great Northern railroad, and J. Pierpont Morgan and other New York financial men are understood to be in the background of a large deal to secure the entire properties of the Dunsuir collieries in British Columbia. It is stated the deal involves nearly five million dollars.

HITS THE RAILROADS ONLY.

State Senate Passes the Taxation Bill After Materially Changing It.

Lansing, Mich., April 23.—The senate tonight passed the Chandler taxation bill. The bill was passed by the house a week ago. Then it provided for the taxation of railroad, telephone, telegraph and express companies according to the ad valorem system. As the senate passed the bill tonight, however, it provides for the taxation of railroad property only and was further amended so that a separate commission, instead of the state tax commission, shall assess railroad property.

COFFIN NAILS HARD HIT.

Illinois House Passes a Bill Barring Cigarettes from the State.

Springfield, Ill., April 23.—The house today passed a bill prohibiting the sale, the giving away or the bringing into the state of cigarettes, cigarette paper or any substitute therefor, the vote being 113 to 2.

DEMANDS BY MACHINISTS.

2,000 at Cincinnati Want More Pay in Addition to Shorter Hours.

Cincinnati, April 23.—Two thousand union machinists today made a demand for an increase of 12 1/2 per cent. in wages, in addition to a nine-hour work day, the latter having just been granted to take effect May 20.

CHIEF KIPLEY RESIGNS.

Head of Chicago's Police Quits—Not to Have Been Reappointed.

Chicago, April 23.—Chief of Police Joseph Kipleby this evening handed in his resignation to Mayor Harrison, having previously ascertained from the mayor that he did not intend to reappoint Kipleby, whose term expires next Monday.

KILLED BY TRAMPS.

Two Joplin (Mo.) Policemen Shot While Attempting an Arrest.

Joplin, Mo., April 23.—Policeman Charles C. Sweeney was shot and killed and Officer Bert Bramon fatally wounded early this morning while attempting to arrest a gang of five tramps found in a box car. Four of the men escaped and the fifth, James Roby of St. Louis, gave himself up.

CAR LINES SWINDLED.

Washington Conductors Said to Be \$50,000 Ahead of the Game.

Washington, April 23.—It developed today that systematic frauds have been practiced on the lines of the Washington Traction & Electric company to the extent of probably \$50,000. Eight employees are under arrest, on the charge of conspiracy to rob. It is claimed that punched tickets turned in, which should have been burned, were resold to conductors at a dollar per hundred, the conductors substituting them for good tickets.

HUGE PLOW COMBINE A FACT.

Formation of the \$50,000,000 Company Completed at Chicago.

Chicago, April 23.—After a conference lasting several days, the plow manufacturers of the United States practically have completed the formation of a fifty million dollar combination. The combination has for one of its purposes the elimination of long credits which have been given to country merchants. Twenty manufacturers were represented at the conference. Chas. H. Deary of Moline, Ill., one of the moving spirits in the project, has presided.

CHARGED WITH MURDER.

Professor C. R. Eastman of Harvard on Trial at Cambridge, Mass.

Cambridge, Mass., April 23.—The trial of Professor Charles R. Eastman upon the charge of murdering his brother-in-law, Richard H. Grogan, Jr., on July 4 last, was formally opened in the superior court at East Cambridge today. Assistant District Attorney George A. Sanderson made the opening statement for the government, describing in detail the relationship of the accused and deceased, the premises on which they lived and the surroundings of the place where the shooting occurred. The government would show, he said, that after the shooting the two men were seen to be struggling for what appeared to be a large revolver; that Grogan was heard to shout, "Oh, don't; Oh, don't" followed by, "Charles, you have murdered me"; also that Grogan made these statements just before his death; "Charles Eastman has murdered me. He shot me twice. He did it purposely" and "There is the man who shot me," pointing to Eastman. He also claimed that Eastman must have been close to Grogan because the former's clothes were burned by the shot from the pistol which he says was fired at him by Grogan.

The chief witness today was Medical Examiner Wm. Swan, who gave in detail his examination of Grogan's body. Quite a stir was caused by the witness' statement that he had performed a second autopsy on Grogan's body at the tomb in Mount Auburn cemetery, when he removed a piece of the fifth rib and a fragment of a bone which he has saved at the first autopsy. The defense had been given no notice that a second autopsy was to be held. During Swan's cross-examination, the questions asked by Counsel Bartlett seemed to indicate that the defense would claim that the bullet offered in court was not the one taken from Grogan's body.

END OF LAKE STRIKENEAR

Marine Engineers Now to Treat Independently of the Union.

LEADERS ANNOUNCE IT.

Steel Trust's Ultimatum, Declining to Recognize the Men's Organization Brings About Decision.

NOT A QUESTION OF WAGES.

Cleveland, April 23.—The negotiations which have been in progress for the past two days between the officials of the United States Steel corporation's vessel interests and the representatives of the marine engineers looking to a settlement of the pending strike were abruptly terminated this afternoon, when General Manager Wolvin, of the company, announced that he would not treat with the engineers as a body but would deal directly with the men.

Demands Are Increased.

Immediately upon the receipt of this information, the engineers' committee prepared a new wage scale, increasing their demands by about 15 per cent. over the figures submitted in January last.

President Usher, of the engineers, said that from now on the engineers would be permitted to make arrangements with the managers and owners of vessels irrespective of their organization. The vessel owners declare that this will soon result in all the men returning to work, as the fight of the Lake Carriers' association has been directed against recognition of the association rather than a question of wages.

IS SHOT BY ROBBERS.

Chicago Saloon Keeper Badly Wounded in Protecting His Till.

Chicago, April 23.—William Lee, a South side saloon keeper, was probably fatally shot by two masked robbers early today. The men escaped without having secured any booty.

BANDITS BAFFLE SLEUTHS.

No Arrests Yet Made in the Arkansas Train Robbery Case.

Memphis, April 23.—Detectives have been working all day at the scene of the daring train robbery on the Choctaw, Oklahoma & Gulf railroad near Iron Mountain crossing, just across the river in Arkansas, early this morning, but so far no arrests have been made. It is stated by an official of the Wells-Fargo Express company that the bandits secured less than \$300.

NOT KILLED IN PHILIPPINES.

Racine (Wis.) Soldier Reported Dead Surprises His Relatives.

Racine, Wis., April 23.—Joseph Keller, a soldier reported shot and killed in the Philippines, astonished his relatives and friends today by appearing and asking for the newspapers that contained his obituary notice.

Like Case in California.

Redding, Cal., April 23.—Harry O. Stone returned to Redding today from the Philippines, where he served with the Fourth cavalry. He was reported killed in the battle of Malolos. What was supposed to be his own body was received here and an elaborate funeral held. Later the body was claimed by a Mrs. Stone of Worcester, Mass., as that of her son, Herman H. Stone, of the Twenty-second infantry, and was shipped there.

ARMY TO BE 75,000 STRONG.

Decision Is Reached to Cut Down the Number First Proposed.

Washington, April 23.—It has been determined to increase the regular army to approximately 70,000 men and leave it at that number unless the conditions in the Philippines should make more troops necessary. The president and Secretary Root reached this conclusion today, and the details will be worked out by the secretary and General Miles.

The number of officers appointed will be as originally contemplated. The artillery corps will be increased to the full strength of 18,000 men. Some time ago it was announced that the companies of cavalry would contain sixty-five, instead of eighty, enlisted men, and it is expected the infantry companies also will be reduced to bring the total to the figure agreed upon.

It has not yet been determined what proportion of the troops will be stationed in the Philippines, although it is known that a large force will be needed there for some time.

More Volunteers Quit Manila.

Washington, April 23.—General MacArthur today informed the war department that the transport Sheridan sailed yesterday, via Nagasaki, with General John C. Bates and Frederick D. Grant, sixty-six officers and 1,823 men of the Forty-fifth and Forty-sixth infantry, also that the transport Kintuck has arrived.

PLAGUE ROW AT CAPE TOWN.

Isolation of Patients Successfully Resisted by the Malay Inhabitants.

Cape Town, April 23.—The Malay inhabitants of Cape Town this afternoon resisted the removal of persons who had contracted the plague. The police were called out and a fracas ensued. The removal of the plague patients was eventually abandoned until tomorrow.

BELT LINE FOR GOTHAM.

Valuable Rights Granted Pennsylvania Road by the State Assembly.

Albany, N. Y., April 23.—The state legislature adjourned sine die today. One of the last bills passed gives the Pennsylvania Railway company authority to construct a belt line railway about Greater New York and empowers it to tunnel beneath or build bridges over West street. The bill also confers valuable rights on the water front.

KIDNAPER ON TRIAL.

Robbery of \$25,000 (the Ransom Money) Charge in the Cudahy Case.

Omaha, April 23.—James Callahan, one of the alleged abductors of Edward Cudahy, Jr., was placed on trial today, charged with the robbery of \$25,000, the amount of the ransom paid by Mr. Cudahy for the return of the boy. Most of the session was occupied in trying to secure a jury.

After calling thirty talesmen, twelve men were secured who were acceptable on both sides, and tomorrow the prosecution will begin offering testimony.

MILLIONAIRE SUCCUMBS.

Artemus Lamb of Clinton, Ia., Dead as a Result of Injuries.

San Diego, Cal., April 23.—Artemus Lamb, a millionaire, of Clinton, Ia., died today at the Hotel Coronado from dropsy. While on his way here, three months ago, Mr. Lamb was injured in a railroad accident and his death is attributed to injuries then received.

Expires in a Street Car.

Indianapolis, April 23.—Dr. James H. Woodburn, formerly superintendent for the hospital for the insane, died suddenly today in a street car.

WEST POINTERS DISGRUNTLED.

Charges of Breach of Discipline Now Being Investigated.

West Point, N. Y., April 23.—A court of inquiry, consisting of Captains Thompson, Anderson and Lassiter, today began an investigation of the charge of breach of discipline on the part of several cadets of the military academy. The cadets became disgruntled over the action of Colonel Mills, the superintendent, in punishing Cadet Bampton for failure to report a breach of discipline in the mess hall while the cadets were at supper a few nights ago. The cadets are said to be almost in a state of insubordination.

PARDONED BY M'KINLEY.

Three Serving Time for Plundering New Orleans Banks Go Free.

Washington, April 23.—The president today pardoned Henry Gardes and Walter W. Girault, convicted at New Orleans in 1897 and sentenced to eight years in the Ohio penitentiary for embezzling funds of the American National bank of New Orleans.

The president also today pardoned Jos. N. Wolfson, who was convicted in 1896 of being implicated with the bookkeeper of the Union National bank of New Orleans in the embezzlement of \$840,000 of the bank's funds and who was sentenced to eight years' imprisonment.

MASSACRED BY INDIANS.

Catholic Mission in Brazil Destroyed and Many of the Inmates Killed.

New York, Wednesday, April 24.—The Times this morning says: here of the complete destruction, at Marangone, Brazil, of the Roman Catholic mission established there a few years ago by Capuchin fathers, a band of hostile Indians attacking the place. The mission, which was organized in 1896, was situated in a desolate district, but the missionaries had been successful in their efforts to evangelize the natives and had already founded two orphan asylums. It is known that four of the Capuchin fathers, all Italians from the province of Milan; seven Capuchin sisters, and more than a hundred of their little charges were massacred.

NEW STATE CONSTITUTION.

Alabama Votes in Favor and the Democrats Will Control the Convention.

Montgomery, April 23.—The people of Alabama voted today on the proposition to call a convention to assemble in this city on May 21 to draft a new state constitution. An exceedingly light vote was polled throughout the state, but the returns indicate that perhaps five-sixths of the counties have voted in favor of the convention. The principal changes which the convention has in view are in suffrage, courts, terms of public officers and the abolishment of much local legislation. There was no objection against the issue but there was a disinclination to go to the polls. At today's election fifty-five delegates from the state at large were elected and one hundred from the counties, and probably but four or five Republicans or Populists will be in the convention.

WEATHER FORECAST.

Washington, April 23.—The following is the weather bureau's forecast for Upper Michigan: Fair Wednesday and Thursday; variable winds.

Copper Country Department

(Additional Copper Country on Page 2.)

BRADSHAW THE FIRST BOAT.

Steamer Arrives from Duluth and Is Greeted by a Big Crowd.

The steamer Mabel Bradshaw, of the White Line Transportation company, the first boat of the season, arrived at Houghton at 4:30 yesterday afternoon from Duluth. The craft was given a reception of the tooting of many whistles, while a big crowd was at the dock. The Bradshaw brought both freight and passengers, among the latter being sixty-five men for C. J. Johnson for work on the Redridge and Adventure mine extensions of the Copper Range. The captain of the boat is Andrew Clausen. No ice was encountered and this was the Bradshaw's second trip, the first being to Isle Royale.

The Bon Ami has been put in drydock at Duluth for repairs to her rudder and for a general overhauling. The Bon Ami will likely make Portage Lake its headquarters this summer and will deliver freight to Portage and Torch Lake points brought by the Bon Voyage. If the arrangement is made, the Bon Ami will make a trip to Marquette one week and to Port Arthur the next, carrying freight and passengers.

The Bon Voyage leaves Duluth Thursday for her first south shore trip of the season.

The tug Tempest left Houghton yesterday morning for Ashland, with Captain George Lloyd in charge.

The engineer and captain of the Cuba, which is tied up at a Portage Lake dock, are getting the boat in readiness for its trip to lower lake points.

SIXTY MORE PILES TO DRIVE.

C. J. Johnson, the Houghton contractor, who is building the new coal docks on the shores of Portage lake near the Lake Superior Produce & Wood Storage plant for the Copper Range Railroad company, still has sixty more piles to drive before the foundation is complete. The pile driver was idle Monday and yesterday in order to allow the carpenters to finish putting the caps or heavy timbers over the piles already driven, it being thought best to wait until the caps were laid so the carpenters could work without the pile driver being in their way. The driver will again be in operation today and will now work to better advantage, as it can be moved over the timbers much easier than over the piles. In about a week or ten days the framing of the upper works of the docks will start.

LOSS OF APPETITE is also loss of vitality, vigor, tone. To recover appetite and the rest take Hood's Sarsaparilla—that strengthens the stomach, perfects digestion, makes eating a pleasure. It also makes the blood rich and pure, and steadies the nerves.

A PRACTICING PHYSICIAN In Monticello, Ill., formulated Dr. Caldwell's Syrup Pepsin. Ask the Stafford Drug Co.

INSTANTLY KILLED.

Timothy Lynch of Lake Linden Falls from New Tamarack Mill.

Timothy Lynch, of Lake Linden, employed by the Wisconsin Bridge & Iron works on the new addition to the Tamarack mill, fell from the top of the structure at 11 o'clock yesterday morning and was instantly killed, the fall being one of about fifty feet. Mr. Lynch was about thirty-five years old.

BRAND'S PREDICAMENT.

Judge Wants to Attend Firemen's Meeting but Is Subpoenaed as Witness.

Judge Casper Brand of Houghton is troubled. A question prominent in his mind at present is: "Am I going to Crystal Falls Friday with the rest of the members of the executive board of the Upper Peninsula Firemen's association, or not?" The Mining Journal is seemingly responsible for the state of mind in which his honor now is.

In Saturday morning's issue it was stated that the executive board would go to Crystal Falls on Friday of this week. About half an hour after The Mining Journal reached Houghton his honor was served with a subpoena which informed him that his presence was wanted at the trial of Dennis St. John, whose case on the charge of arson is to come up the latter part of this week in the circuit court, and that he (the judge) was not to leave Houghton at that time. His honor was vexed and demanded how it became known that he was to be away from Houghton. The officer who brought the unwelcome message simply shrugged his shoulders and said nothing, whereupon the judge hastily at his noon day meal and then legged it up to the court house, where he had it "out" with Judge Streeter.

Now Mr. Brand blames The Mining Journal for the throwing of cold water on his plans. He wants to go to Crystal Falls. He has set his heart upon the trip, and it is hard to be cheated out of it. But it all depends upon the St. John trial whether or not the judge will go to the Menominee range town. The case may come up on Friday, as scheduled, and it looks now as if it will. In that event it is likely that all hopes of the journey will vanish.

FREE SEEDS ALL GONE.

The entire consignment of garden and flower seeds received at the Houghton office of Congressman C. D. Sheldon not long ago has been disposed of. The sixty-nine mail sacks of seeds of all kinds were distributed to the various postmasters in Mr. Sheldon's district, and it was his request that the packages be given away by them to the farmers in their respective communities.

Cuts, wounds, burns, sprains and bruises quickly heal if you apply BALLARD'S SNOW LINIMENT. Price 25 cents and 50 cents. The Stafford Drug Co.

SUMNER IS CONVICTED.

Jury Finds Him Guilty of Manslaughter, but Recommends Mercy.

Lengthy pleas were made to the jury by the attorneys in the Sumner case yesterday at the circuit court. Judge Streeter charged the jury impartially at 4 o'clock and the case was then given to it. A verdict was reached shortly after eight, it being "guilty of manslaughter," with a recommendation of mercy. Sentence will be pronounced later.

FISTIC CARNIVAL.

Arnold and Beuschaulte and Hart and Abel to Box at Houghton.

Jack Beuschaulte of Chicago was matched yesterday to meet Jim Arnold of Duluth in a fifteen-round boxing contest at the Houghton Armory on Saturday, May 4. Beuschaulte is well known here. He is a clever heavyweight and fought during the street fair, while Arnold has won two bouts in copperdom this spring. The preliminary will be a bout between Sig Hart, a fast Chicago lightweight, and Jim Abel of Duluth. Good contests are expected and much interest is being taken.

Kellar Knocked Out.

Frank Kellar of the Soo, "champion heavyweight of Michigan," was defeated by Pugilist Jim Arnold, who claims the supremacy of heavyweight fighters of the Northwest, in the fifteen-round bout at Laurium Monday night. Arnold had the better of the contest all the way through and on several occasions had Kellar about "gone." Both men were clever and the match was a good one from the start to finish. The knock-out occurred just before the close of the last round of the fight.

MONEY IN INDOOR BASEBALL.

Houghton Light Infantry Team Cleared \$454 the Past Season.

The officers of the Houghton Light Infantry Athletic association, elected at its meeting Monday evening, are Will J. Brand, president; Thomas Brimcombe, secretary, and Will J. Cahah, treasurer. The reports of the treasurer and the secretary were read and approved. During the indoor baseball season the boys made \$454 from gate receipts, the greater part of which has been paid out for repairing the downstairs portion of the Armory. A discussion of the baseball prospects for the summer took place at the meeting and it is more than likely that a team will be organized. The association is fortunate in having at its head one who will push that project. Mr. Brand is one of the best players in copperdom and is very much interested in the question of a club for the coming season. He will certainly do all he can to make the thing a go.

THE BEST BLOOD PURIFIER.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at Stafford Drug Co.'s drug store.

COAL STOCKS RUNNING SHORT.

Marine Strike Renews the Talk of a Big Fuel Dock at Portage Lake.

If the strike of the marine engineers is not soon ended, there promises to be a serious state of affairs in copperdom. For many years past it has been the custom of nearly all the mines to get their coal supply for the winter and spring by boat during the season of navigation. Over 500,000 tons of coal, it is estimated, are used every year at the mines and with the development of the South Range properties much more will now have to be shipped to the copper country. A great part of the large amount of coal needed arrives here by the first boat at the opening of navigation, as at that time the coal on land at the various mines is rather low.

A well-known lake captain who is in Houghton at present remarked yesterday that if the present state of affairs continued for very much longer it was his opinion that the boat service would be anything but systematic during the summer and the outlook for large shipments of coal would be dubious. A gentleman who is close to the management of several of the largest mines in the county also yesterday told The Mining Journal that a number of the officials were greatly interested in the present marine strike, principally on account of the coal question, and that it may come to pass when certain of the mines will have to get their coal by copperdom by rail, which is very costly in expense, as the rates for rail shipments are decidedly higher than those by water.

About a year ago the project of organizing a local company for the purpose of building and maintaining large coal docks on the shores of Portage Lake was agitated to a certain extent by several prominent Portage Lake gentlemen. The idea was thought a good one but nothing ever came of it. The promoters of the scheme were enthusiastic about the plan, as they were of the opinion that it would be a very good thing—in case of a strike—to have a large stock of coal always on hand to supply both mines and other users of the fuel throughout the copper country.

The docks if constructed would necessarily have had to be very large in order to store enough coal to supply the demand. Now the gentlemen who discussed the scheme recognize more than ever that it was an excellent one, for if the docks were built the present situation in regard to coal for the mines would not be so serious. At Duluth there are large coal docks which always have a plentiful supply of coal in stock, and at present the amount on hand is enough to stop all worry of a threatened lack in fuel while the strike is in progress. The project of a large coal dock on the shores of Portage lake may be agitated further, and if so will likely receive a greater impetus. The money, the men and the brains are here, and what more is needed.

Those horrid fits of depression, melancholy, low spirits, and sudden irritability, that sometimes afflict even good-tempered people are due to the blood being permeated with black bile. HERBINE will purify the blood, restore health and cheerfulness. Price 50 cents. The Stafford Drug Co.

NOTICE—If in want of men call up Perrault's Employment Agency, Phone 231, Calumet. (4-6-1m)

MONEY WELL EXPENDED.

Houghton Fire Department in Need of All the Apparatus Contemplated.

The intention of the Houghton village council to make improvements in the fire-fighting equipment this year is an excellent one. It is a well-known fact that Houghton's apparatus is not the most modern in the world and cannot compare with that of other towns of the same size in the upper peninsula. Nevertheless the record of the fire department for the past year is an excellent one. The boys had several bad blazes to handle and they did their work well, the loss from the fires being small. The fact that each blaze was well taken care of, however, was not due to the apparatus of the company, but rather to the men themselves, who are well organized to work together systematically. The council has happily seen the need of new and up-to-date paraphernalia and has instructed Chief Louis Voetsch to make a list of just what apparatus is absolutely necessary. Mr. Voetsch is now looking into the matter and deciding upon what is most needed. At the next meeting of the council he will report to the board, and then some action toward the purchase of the outfit will be taken. Among the things that will be included in the lot are two new drop harnesses, a new hose cart and 500 feet of hose. It is estimated that \$2,000 will about cover the cost, which will be money well expended. A new team of horses will also be bought, as one of the teams now in use is too light for the work.

New Sidewalks Going Down.

A tidy sum of money will also be spent by the Houghton council this year on the streets. It is the intention, at least, to attend to those thoroughfares that are actually in need of repairs. Montezuma street, east from Isle Royale, is in a bad way and already orders have been issued by the board to have the place cleaned and fixed up.

Main street, in East Houghton, is to be paid some attention and the work of grading it will be finished. Main street is without exception the best thoroughfare Houghton has and it is the only boulevard of which the village can boast. The street is in fair shape, but the improvements to be made will enhance its appearance and make it one that the town may well be proud of. Several stretches of sidewalk will be put down this year and the council will see that its plans in this respect are carried out.

A walk in West Houghton extending for a distance of six blocks from the county bridge will be ordered built. The property owners along the route will have to pay for the cost of the construction, the village itself paying for 1,600 feet which it owns at the intersections of Sheldon and Montezuma and Sheldon and Albion streets. West Houghton residents will welcome the news that they are to have a walk built in that direction on Sheldon street, as it has long been wanted. A sidewalk will also be laid on Montezuma street between Isle Royale and Portage, an improvement that is commendable considering the present condition of that thoroughfare.

Much more in sidewalk building could be done, as Houghton in that respect is truly in a poor way. There are practically no walks at all on Albion street and none on South street one block south of Albion.

TRAVELING MEN,

...Attention!

We deliver daily at Calumet, Hancock and Houghton. Your bundles can be delivered at any of the towns mentioned without extra charge. We are doing the best work in the world, and "we're here for that purpose." Be sure and get the RIGHT lists, all first-class hotels have them.

Small's Laundry.

structure, the village itself paying for 1,600 feet which it owns at the intersections of Sheldon and Montezuma and Sheldon and Albion streets. ONE-HEAD STAMP MILL.

Said the Phoenix is Figuring on Erecting It Soon at Eagle River.

The Phoenix people are contemplating the erection of a one-head stamp mill on the shores of Eagle river and it is likely that work on it will be started during the coming summer. The property continues to look very encouraging and is getting out enough barrel and mass copper to pay its operating expenses.

Black Hills Copper.

The following—taken from The Black Hills Mining Review—present a promising property in the copper district of the Black Hills, a property controlled by a Michigan company, will likely prove interesting to copperdom readers, as several of the stockholders reside here:

"A very fine strike of copper and gold ore has been made in the west drift of the Black Hills Copper company's mine, in the Rochford copper district. Last fall the officers of the company came out from their home at Benton Harbor, Mich., and made a very careful examination of the ground, and at that time it was decided to sink a shaft on one of several veins that outcrop on Copper Reef mountain. A very complete hoisting plant was installed and work prosecuted during the winter months. At a depth of 400 feet a crosscut was run west about

100 feet, this work being under way at the present time. The tunnel has now passed through seven feet of ore, which carries a commercial value in gold and copper. The character of the ore is slate. The face of the tunnel is just breaking into quartz and it is believed that the principal vein is yet to come. The fact that the slates are impregnated with copper and gold values for such a distance from the shaft bottom, gives ground for the opinion that the ledge will be very rich. This vein is west of the shaft. Judging by the outcroppings on the east side of the shaft, there is another vein there which will also be tapped by a crosscut from the shaft bottom. This vein is believed to be even stronger than the first two encountered. The ore is pyritic in character. The shaft is being sunk another 100 feet.

"The discovery of this ledge of ore is of great importance to the copper interests of the Black Hills. It demonstrates most conclusively, that the copper veins go down and are more than mere 'blow-outs.' The Black Hills Copper company now has the deepest shaft in the copper district of the hills. The vein discovered here has a hanging wall and it comes down to the surface, having a strong outcrop, which assays well in gold and copper. This discovery will give encouragement to the other copper companies which are working in this same district. There are a number of districts, especially in the southern hills, which have equality as good surface indications of copper as this Rochford district. Owners of such properties will be encouraged now to sink on their veins, and it will no doubt mean the discovery of other good bodies of copper and gold ore.

"The other two Michigan companies, the British-American and Copper Cliffs which are developing copper properties north of the Black Hills Copper company, will be greatly encouraged by the discovery made in this district. Both of these companies have the same heavy outcroppings of copper ore."

For coughs and colds there is no medicine so effective as BALLARD'S HOREHONUD SYRUP. It is the ideal remedy. Price, 25 cents and 50 cents. The Stafford Drug Co.

SUPERVISORS ORGANIZE.

Walter Fitch Will Preside Over Board's Deliberations the Ensuing Year.

BUT LITTLE IMPORTANT BUSINESS TRANSACTED YESTERDAY.

Committee Composed of Chairman, D. W. Powell and Dave Morgan Will Have Entire Charge of Erection of New Poor House.

TO START AT AN EARLY DATE.

The new board of supervisors organized yesterday. Walter Fitch of Champion will preside over its deliberations during the ensuing year, he having been elected chairman. This choice was in every way a happy one, as Mr. Fitch's long experience on the board eminently qualifies him for the duties of his new office. This year is the first time that he has consented to take the chairmanship, although he has been urged to accept it on numerous occasions.

The board was chiefly concerned with matters of its organization yesterday. Two sessions were held, one immediately after the arrival of the morning train the second beginning at 2 o'clock. After the roll call Mr. Fitch was made temporary chairman, being confirmed in the office for the ensuing twelve months a little later. A special auditing committee, composed of Supervisors Elliott, Chase, Fay, Ewing and Rough, was appointed to look over the books. The rules of order used last year were adopted without change. After hearing the minutes of the previous session read the board adjourned until 2 o'clock.

Fitch, Powell and Morgan.

On reassembling several matters came up, among which was the poor house question. This was brought before the supervisors in the form of a resolution instructing Chairman Fitch to call out a committee to be composed of two members in addition to himself, which should have charge of the preliminaries for and the erection of the proposed building. This committee will be entirely responsible for the improvement and it will be final in all matters pertaining to the work. Mr. Fitch appointed Supervisors Powell and Morgan as its members. Bids will be advertised for at once and it is the intention to begin work on the new structure at the earliest practicable date.

A communication from Judge of Probate Kelsey was laid on the table. It suggested to the board the advisability of the county's employing and compensating a clerk for the judge of probate's office, outlining the heavy work which this official has to handle and the demands on his time and patience made by the necessity of looking after small estates and dealing with the parties interested in their settlement.

A committee composed of Supervisors Fay, John Trebilcock and O'Meara was charged with the work of making contracts with hospitals and doctors throughout the county for the care of the indigent poor. It was instructed to report to the next session of the board. The adjournment was taken until June 5.

The Committees.

The committees for the ensuing year appointed by Chairman Fitch follow: Finance and Taxation—Rough, Connors, Frei, Agnew, Jacob Smith, Kemp.

Sink, O'Donoghue, Barabe, Roberts, James Trebilcock, Hodgson, R. T. Smith, Ayotte, Chase, Dalton, Lyons, Morgan, Goodman, Wilson and June.

Supplies and Expenditures—Fay, Connors, Agnew, Sink, Roberts, Hodgson, Burt, R. T. Smith, Gustafson, Thomas, Dalton, Ryan, Wilson, Findlay, John Trebilcock and June.

CATHEDRAL'S CAPACITY TAXED.

Wonderful Congregation at Paulist Mission Last Evening.

Great interest is being manifested in the series of lectures now being given by the Paulist Fathers of New York city at St. Peter's cathedral, as this is the first time they have conducted services of the kind in Marquette. The fact that Catholics are positively excluded from the church unless they come accompanied by their non-Catholic friends is attracting many of the latter to the lectures, for they feel sure of a hearty welcome, and are glad of the opportunity of learning, at first hand the doctrine of the Catholic church, and its rational, scriptural and historical basis.

The question box is attracting special attention. Non-Catholics are cordially requested to deposit any question they choose referring to Catholic dogma or practice in this box, placed at the middle door of the cathedral, and a kindly, straight-to-the-point answer is promised the following evening. Questions may also be sent through the mail.

Rev. B. L. Conway answered the questions last evening. One of the queries was: "Why do carry on your services in Latin?"

Father Conway said in substance: We do not consider the use of the Latin language essential, for in the East the use of the vernacular is permitted. The Latin language, however, is the official and liturgical language of the Catholic church for many reasons:

Historically, it bears witness to the origin of the faith of Western Christianity—Rome, the converter of the nations of France, Spain, Portugal, Belgium, England, Ireland, Scotland, Germany, Poland, etc. Protestant churches, born in modern times, naturally adopted the modern languages. Latin therefore is witness to the eternity of the church of Christ, which was founded by Jesus Christ when the Roman empire was supreme.

Again, Latin being a dead language, it is free from all the changes inevitable to modern languages. In these latter, words are continually becoming obsolete and so change in meaning as to be unintelligible and ridiculous to the ears of succeeding generations. Latin preserves the dignity of the liturgy and the perfect exactness of the dogmatic decrees of councils so necessary to a perennial, unchanging church.

A universal or Catholic church needs a universal language. It is the same principle that made business men some years ago endeavor to establish Yiddish as a common means of communication. Latin allows the Catholic people to feel at home everywhere in the universal bond of a common language at their Sunday mass and enables the Catholic bishops of the world to correspond easily with the Supreme Roman see, and to discuss matters of dogma and discipline in the councils of the universal church. National churches, of course, have no need of a universal tongue.

There is no reason for fault finding, for in those parts of the service that we have in common with Protestants as public prayers—hymn singing, etc., we use the language of the people. But the mass with us is peculiar and special. It is the sacrifice of the cross renewed daily on our altars, announcing, as St. Paul said, the death of the Lord until He come. It is an act of sacrifice therefore, which the people can readily follow, for prayer books in every language can be had translating the Latin prayer of the priest.

The lecture last evening was delivered by Rev. F. B. Doherty, who took for his subject "The Necessity of Faith." "Without faith it is impossible to please God; for he that cometh to God must believe that he is and is a rewarder to them that seek Him."

There is much misunderstanding abroad concerning faith. Some people affect to belittle belief saying that "they don't believe any more than they know," thus showing that they don't know anything of faith and confuse knowledge with the very element which gives certainty. Without faith it is impossible to know anything—even the fact of our own existence. We take our trust the news from afar; we build our business on the basis of commercial credit; in science we spin, spider-like, our thread of theory into the web of knowledge. Just as the astronomer, marking strange movements in the sky, discovers the presence of hidden stars hitherto unknown, so we, turning from earth to heaven, see God in the light and power sent down to us.

We are living in the midst of mysteries the soul craves, cries, "More light!" But in this day of division when the cry goes forth, lo, here is faith and, lo, it is there. People are confused. They see the acts of irrational emotion in revivals and say, "If this frenzied feeling is faith, then I cannot believe." No, faith is not this. It is a rational act—the reasonable acceptance of truth upon the authority of another—and this authority, being God, is above all the truth in motive of credibility. God speaks—that act is sufficient. He speaks in Jesus Christ, His Divine Son. We must hear all, accept all, without picking or choosing, or we fail to fulfill the duty of an intelligent creature, upon whom is placed the responsibility of accepting God's truth here or to be rejected by him hereafter.

OPENING WEEK!

Our Formal Spring (1901) Opening which occurred Friday and Saturday only marked the advent of opening week, which begins today. The short space of time since I made arrangements to continue this business in Marquette did not permit of our showing the complete lines of goods at our formal opening that we will be enabled to show during this week. We will receive this week a complete spring assortment of the

25 New Creations in Silk Waists and in the New Nunsveiling Waists.

Celebrated Centemeri Kid Gloves At \$1.00, \$1.50 and \$1.75; Fully Warranted.

New Silk Petticoats, Accordion Plaited, at \$5 00, \$7.50, \$8.50, \$10.00, \$12.00, \$15.00.

The Most Complete and Exquisite Effects in Ladies' Neckwear.

New shirt waists in leading materials in the latest cut and in sailor collar effects. New dress trimmings and allover--an unequalled showing. Spring dress goods--not surpassed by large city stores--and at the lowest prices, consistent with the quality. Our sales during the past week in our suit department surpasses our greatest hopes, the fact that we have been selling the newest Perisian styles at actual wholesale prices (owing to our recent under-value purchase of over \$1,000) has been too strong an inducement for the public to pass. We have hundreds of elegant new suits now in stock which we will sell at less than our neighbors pay for them. It is an old saying "that goods well bought are half sold;" never was it more fully demonstrated. Remember we are making our usual profit on every garment sold, our advantage comes in buying at a lower price than our competitors. Our terms are cash, but a dollar will buy more at our store than anywhere else. No old styles in our stock.

VanAlstyn's OPERA BLOCK DRY GOODS HOUSE MARQUETTE, MICH.
