WRECKED AT CURVE.

"Michigan Flyer" Meets With Disaster Near Dayton, Ohio.

GOING AT A 70-MILE RATE.

Truck Wheels of Engine Break, Sending the Train Over the Bank on Brink of Miami River.

2 MEN DEAD; OTHERS HURT

Dayton, O., April 24.—One of the worst wrecks in a long period on the Cincinnati, Hamilton & Dayton railroads occurred tonight a few miles northeast of this city. The train was the Michigan Flyer, due here at 6:20, and she was running perhaps seventy miles per hour.

At the point where the accident occurred, the Miami river makes a sweeping bend, running with the tracks. Right in the depth of the curve one of the small truck wheels of the engine broke, throwing the engine into the bank, the tender switching outward over the river edge. The impact of the vestibule train behind, consisting of a baggage, smoker, day coach and parlor car, carried the two first cars at a flying tangent over the river, where they hung in the thin air, while the coach and parlor car careened outward at a menacing angle and the engine was completely turned about. A relief train hurried from Dayton and on the return the injured were sent to St. Elizabeth's hospital.

An Earlier Account. Dayton, O., April 24.—The southbound Cincinnati, Hamilton & Dayton limited was wrecked by spreading rails nine miles north of here this evening.

The killed—Patrick Dooley, engineer, Raymond McElroy, fireman.

The injured—Frank Weaver, brakeman, left arm crushed and otherwise seriously; Fred Coles, Sidney, O., a passenger, seriously cut about the head. Later—Phil Brown of Detroit was also cut about the head and arm and R. S. Sherman of Pontiac, Mich., slightly cut. Other injured are: John Lehman of Hamilton, head, face and hands cut; Ellsworth Holden of Dayton, cut about the hands and face; H. E. Williams, porter of the parlor car, left shoulder wrenched; W. A. Clark of Covington, Ky., sprained back; A. J. Fiorini of Dayton, cut about the hands and face.

PRISONER PULLED A GUN.

Is Wounded, With a Policeman, in a Battle in a Chicago Court.

Chicago, April 24.—In Justice Prindiville's court, at the Harrison street police station, shortly after noon, Richard D. Houghteling, a motorman on the Lake street elevated railway, who had been arrested, started to break away. Policemen, however, grabbed for him, when Houghteling drew a revolver and began shooting. The policeman returned the fire, while half a dozen other policemen joined in the shooting at Houghteling. The latter was hit five times and will die, while Messenger was wounded several places. Physicians say he will die. Houghteling, who had been drinking, had an altercation on the street with Messenger a short time before the shooting. The policeman had been appealed to by two women who claimed Houghteling had been following them.

COMMISSIONS FOR U. P. MEN.

Several Included in the 538 Soldiers Assigned to Lieutenancies.

Washington, April 24.—The secretary of war today made public the names of 538 men selected for first and second lieutenancies in the regular army under the army reorganization bill. All the men have had service, either in the state or national volunteers or the regular army. They have been ordered for examination, and should they pass will be appointed.

Those from Michigan are: William B. Wallace, William R. Downey, Frank D. Buckingham, William F. Pack, Fred Bury, Roy I. Taylor, Albert E. McCabe, Robert J. Bates, George H. White, William F. Fleischauer, Robert S. Welch, Frank H. Burton and Arthur W. Orton.

HEALERS PLEAD GUILTY.

Two Face the Charge at Kansas City of Using Mails to Defraud.

Kansas City, April 24.—In the federal court here today, Stephen A. Weltner and Joseph H. Kelly, president and secretary, respectively, of the Weltner Institute of Magnetic Healing, of Nevada, Mo., pleaded guilty to indictments charging them with using the mails to defraud. They threw themselves upon the mercy of the court. Sentence was reserved. The institute advertised to heal all diseases known to man or woman, giving "absent" treatment, and did such a tremendous mail order business that the postoffice department at Washington ordered the mail stopped on a fraud order.

BRILLIANT COMET.

Cape Town and Sydney Report Its Appearance This Morning.

London, Thursday, April 25.—Dispatches from Cape Town and Sydney, S. W., this morning report the appearance of a brilliant comet.

DIAZ IS TOO BUSY.

Mexican President Not to Meet McKinley on the Border.

City of Mexico, April 24.—The Associated Press is authorized to say that President Diaz will be unable to accept any invitation to meet President McKinley at the border on account of the pressure of public business.

VALUABLE CARGO BURNING.

Fire in the Spanish Steamer Alicia at Pensacola, Fla.

Pensacola, Fla., April 24.—Fire is raging in the cotton cargo of the Spanish steamship Alicia, of the Serra line, for Liverpool, which has on board 1,800 bales of cotton and a general cargo valued at \$150,000. The hatches have been shut air tight and will be kept so for twenty-four hours. One of the crew who attempted to go into the hold to direct a stream of water was badly burned and another was overcome by smoke.

SMALL-POX ON TRANSPORT.

Steamer Kilpatrick Quarantined at Honolulu—A Lieutenant Dies.

Honolulu, April 17, via San Francisco, April 24.—The transport Kilpatrick arrived on the 13th from San Francisco with two cases of small-pox on board. She is in quarantine and will not leave until she has been thoroughly cleaned and fumigated. Lieutenant Thomas M. Cobb, Jr., of the Thirty-ninth infantry, one of the small-pox patients landed on quarantine island from the transport Lawton, died on the 13th. He was taken ill while on the way from Manila.

AWARDED \$5,000 DAMAGES.

American Show Manager Wins Suit for Libel Against the London News.

London, April 24.—In the king's bench court today, Charles McCarthy, the American manager of a show entitled "The Big Fire in New York," which was presented at the Paris exposition, was awarded £1,000 damages against Harmsworth's Evening News for libel in saying that McCarthy had bolted with the cash, leaving his company of American and English girls stranded in Paris. From the evidence it appeared that the syndicate financing the show had failed, but that McCarthy did his best to protect the employees.

CARRIE NATION AGAIN IN JAIL.

With Three Other Smashers She Fails to Give Bonds at Wichita.

Wichita, Kas., April 24.—Mrs. Carrie Nation, Mrs. Lucy Wilhite, Mrs. Julia Evans and Mrs. Lydia Mumtz appeared before Judge Dale today in the district court and failed to give bonds. They will occupy one cell in common in the county jail and will remain there until bond for \$500 each is approved or until their trial at the May term of court. Mrs. Nation failed to secure local bondsmen and the other three refused to seek bonds, saying that as they accompanied Mrs. Nation on her smashing tour they would not desert her now.

TAKE AGUINALDO'S ADVICE.

Several Hundred More Insurgents Come Into the Fold.

Manila, April 24.—Adjutant General Noble, of the Department of Vizcaya, has received the surrender of Quentin Salas and three of his officers. All the insurgents under Salas will surrender soon. It is claimed this terminates the insurrection in that district. One hundred and fifteen officers and 2,157 bolomen have surrendered and sworn allegiance to the United States at Narvacon, province of South Ilocos. The Americans are active throughout the archipelago, accelerating surrenders.

Mosquito Fleet Reaches Manila.

Washington, April 24.—A cablegram received at the navy department today announced the arrival of the "mosquito fleet" at Cavite. The four little vessels will be utilized in patrolling the coast of Luzon and the lower islands of the Philippine group.

MURDER IN 'PHONE OFFICE.

Boston Electrician Killed and Others Fatally Shot by Insane Employee.

Portland, Me., April 24.—I. H. Farnham of Boston, chief electrician of the New England Telephone company, was killed by George H. Brainerd of Boston in the company's building here today. Brainerd, who is believed to have acted on an insane impulse, also fatally shot James Wadsworth, an electrician, and Elmer Lane, severely wounded Earl Buxton and slightly wounded Deputy Marshal Frith.

The men were engaged in making extensive alterations in the telephone exchange. Without a word of warning, Brainerd drew a revolver and shot Farnham through the head and then in quick succession shot Wadsworth, Buxton and Lane. Deputy Marshal Frith was summoned, and as he entered the room received a bullet in the right side. He overcame Brainerd, however, and put the iron upon him. Later—Buxton died tonight and Lane is barely alive. The police are making an inquiry to determine if Brainerd had shown signs of insanity at any previous time. Neither before nor after the tragedy did Brainerd exhibit any marked evidence of mental derangement.

CZAR NOT IN TERROR.

U. S. Consul General at St. Petersburg Denies Sensational Stories.

DISORDERS EXAGGERATED.

Emperor Not Living in Steel-Lined Rooms and Takes Rides Daily Unattended by Guards.

NIHILISTS VERY QUIET.

Indianapolis, April 24.—The editor of The Journal was today in receipt of a letter from Colonel Holloway, United States consul general at St. Petersburg, dated the 9th, in which he states:

"The stories recently telegraphed to the American press concerning the alleged riots at St. Petersburg were largely false. While they were published under St. Petersburg date lines, they were not sent by the agent of the American Associated Press here but were made up of sensational reports that reached Berlin, Vienna and London. No intelligent person here believes that the students are largely nihilists' or in sympathy with that movement.

"The stories to the effect the emperor's office and living rooms are lined with boiler iron and that he is hourly in fear of assassination are pure 'rot.' The emperor and empress, however, are usual, unattended by a single guard or footman, as their habit.

"St. Petersburg is as quiet and orderly a city as either Washington or Indianapolis, and I do not believe the nihilists are as numerous here as they are in Chicago.

"No well-informed person here seems to have the slightest fear of any serious trouble with either the students or nihilists."

DEBTS, \$368,380; ASSETS, NIL.

City Clerk Starbuck of Gotham Wants a New Start in Life.

New York, April 24.—James M. Starbuck, clerk of this city, filed a petition in bankruptcy today, with liabilities of \$368,380 and no assets. Starbuck was formerly a member of the firm of Dwiggin, Starbuck & Co., composed of Zimrie Dwiggin of Chicago, W. K. Starbuck of Lincoln, Neb., and the petitioner. The firm failed in 1893 and insolvency proceedings were had in Illinois, Wisconsin, Indiana and Ohio. The debts were all contracted under the partnership liability during or prior to 1893.

FATAL RUSH FOR FIREWOOD.

Chicago Polish Hebrews Pull Down a House on Themselves.

Chicago, April 24.—One man was killed tonight and a number of people injured by pulling down a house on themselves. A house in Maxwell street had been condemned. It was a frail, wooden affair, and when the report was given out that it was to be destroyed a large number of Polish Hebrews came for a supply of firewood. In their eagerness to obtain the wood the crowd caused the structure to collapse. The dead was Joseph Pusaler, aged fifty-seven. The injured are Joseph Pesters, thigh broken; Charles Pocco, legs badly bruised; Michael Scola, leg broken, and several others less seriously hurt.

FIREMAN DEAD; LOSS, \$125,000.

Blaze in a Pittsburg Furniture Store Has Disastrous Results.

Pittsburg, April 24.—The three upper floors of the masonry building occupied by the Barker & Williams company's furniture store were destroyed by fire this evening, and the stock on the floors below is a complete loss from water. Edward Hagenmeyer, a fireman, fell from the eighth floor to the cellar by the collapse of the elevator shaft and was killed. The property loss is \$125,000.

CANAL PROBLEM DISCUSSED.

Secretary Hay and Lord Pauncefoot Have Conference at Washington.

Washington, April 24.—Lord Pauncefoot, British ambassador, was in conference with Secretary of state Hay today for an hour. In view of the approaching absence in Washington of Mr. Hay, the ambassador is desirous of disposing of pending matters of business. An important subject of discussion was the ratification of any convention, whether Lord Pauncefoot will be in Washington when Secretary Hay returns, and he is extremely anxious to be able, during his visit to London, to report to the British foreign office not only the exact situation here respecting the canal problem, but also upon the prospects of the ratification of any convention. He might be able to frame in conjunction with Secretary Hay to replace the lost Hay-Pauncefoot treaty.

IS BOUND FOR EUROPE.

Steamer Northwestern Leaves Chicago With a Cargo of Manufactures.

Chicago, April 24.—Bound for Europe with a cargo of agricultural implements, packing house products and miscellaneous manufactures, the steamer Northwestern drew out of the river today and headed for the Atlantic. A large crowd witnessed the departure of the boat.

ITALY TREMBLES.

Earthquake Shakes Rome and Southern Part of the Kingdom.

Rome, April 24.—A slight earthquake was felt here and in Southern Italy this afternoon.

Severe Shock in Portugal.

Lisbon, April 24.—A slight earthquake shock was felt here this afternoon. A violent shock was experienced at Algarve, where several persons were thrown down and bruised.

CONVERTED AT RELIGIOUS RALLY.

Convicted Missouri Man Who Escaped Surrenders to the Police.

Jefferson, City, Mo., April 24.—Ben H. Morse, who was sentenced to serve three years in the state penitentiary on the charge of using the mails to defraud and who later jumped bond and escaped to South America, arrived here today and gave himself up. Morse was caught in an attempt to defraud Mrs. Bland, widow of Congressman Bland, and was tried and convicted at Kansas City in 1899. The surrender today is the result of Morse attending religious services at Mattoon where he was converted.

BOER AGENTS ACCUSED.

Said to Have Infected Horses Destined for British With Diseases.

London, Thursday, April 25.—"It is reported," says The Daily Chronicle this morning, "that a British agent at New Orleans has discovered that Boer agents, employed as cattlemen, have infected horses destined for South Africa with glanders and other diseases. Hundreds of animals are said to have died on the way to the Cape, while many on their arrival had to be destroyed. The government has wired the British agents in Texas and elsewhere to take precautions, and it is hoped the United States authorities also will take measures."

DEADLOCK AT LANSING.

House by Vote of 92 to 0 Declines to Concur in Senate's Taxation Bill.

Lansing, Mich., April 24.—By the vote of 92 to 0, the house today refused to concur in the Chandler railroad tax bill, which the senate passed last night after amending it so as to tax railroads only, instead of including telegraph, telephone and express companies, as originally proposed by the house.

Senate Insists on the Change.

Later—the senate tonight voted to insist on its amendments to the Chandler tax bill, and each house appointed conference commissions to consider the differences.

SLAVE RAIDERS CRUSHED.

British End a Successful Campaign in the Niger Territories.

London, April 24.—Brigadier General Sir Frederick Lugard, high commissioner and commander-in-chief of Northern Nigeria, with a force of West African frontier troops, has just completed a successful campaign against the powerful slave raiding emirs of Bida and Kontogora, Northern Nigeria. The British defeated the emir of Kontogora after heavy fighting, captured the capitals of both Bida and Kontogora and released thousands of slaves. The emirs had been the terror of the country for years, and during the past year had killed thousands of natives. They are now entirely powerless.

KIDNAPING CASE OPENS.

Meat Packer Cudahy and Son Edward Testify at Omaha.

Omaha, April 24.—The case of the state against James Callahan, charged with complicity in the Cudahy kidnaping, was presented to the jury by County Attorney Shields this afternoon. Mr. Shields said the state would seek to identify Callahan as one of the men who seized young Cudahy in front of his home and also stood guard over the boy in the Grover street house.

After the jury had inspected the scene of the kidnaping, the chief witness, E. A. Cudahy and son Edward, took the stand and the latter's testimony was not concluded when court adjourned. The boy merely said that in a general way the man who first accosted him was dark-complexioned and wore a stubby black mustache. The description fits Callahan. Young Cudahy described the journey to the house on Grover street and related conversations with the jailer. The boy also told of a conversation between Donahue and Callahan.

In the examination of the elder Cudahy, the purpose of the defense was brought out to show that the packer had surrendered the \$25,000 without compulsion. Mr. Cudahy conceded that he gave up the money freely without the expectation of getting it back. M. L. Sears, attorney for Cudahy, testified to bringing the gold from the Omaha National bank up-town by Mr. Cudahy's orders.

LEO'S NEW DELEGATE.

Now Said Mgr. Falconio, Now in Canada, Will Succeed Martinelli.

Paris, April 24.—A Rome dispatch says that Mgr. Falconio, papal delegate to Canada, will succeed Cardinal Martinelli as papal delegate in the United States.

WHY MRS. PINKHAM Is Able to Help Sick Women When Doctors Fail. How gladly would men fly to woman's aid did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances.

Mrs. G. H. Chappell. She cannot bring herself to tell everything, and the physician is at a constant disadvantage. This is why, for the past twenty-five years, thousands of women have been confiding their troubles to Mrs. Pinkham, and whose advice has brought happiness and health to countless women in the United States.

First National Bank OF MARQUETTE. Capital \$150,000 Surplus Fund 50,000. President: F. W. WHITE. Vice-President: M. H. TOWAR. Cashier: L. G. KAUFMAN.

DAILY MINING JOURNAL. A Morning Paper Published by The Mining Journal Co. (Limited). Issued daily except on Sundays.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00. MARQUETTE, MICH., APRIL 25.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. The Denver News has been looking up the longevity statistics among the Mormons and finds that nearly all the founders of the church lived to a remarkable old age.

Queen Wilhelmina of Holland has been pestered lately by creditors of her consort, Prince Henry, who want her to pay the debts which the prince had contracted prior to his marriage.

Holland, the inventor of the submarine torpedo boat which bears his name, asserts that through the development of that type of boats warfare will cease.

A dispatch from Representative Gordon received by The Mining Journal last evening gave the very gratifying news that the Northern Normal appropriation bill had passed the house.

HOW THEY ARE PLACED. A Duluth dispatch gives this information relative to the assignment of positions in the management of the great mining and transportation interests of the United Steel Corporation.

Edwin S. Mills, Cleveland agent for the Pittsburgh (Carnegie) Steamship company since its formation, will have charge of the distribution of ore from ships, a by no means small or unimportant task.

coal. The last provision is an abandonment of free trade with a vengeance. The constitution of the United States will not tolerate an export duty of any description.

CHANGE IN SENTIMENT SOUTH. That was a remarkable declaration of Senator John L. McLaurin of South Carolina when he said, in the course of an address delivered before the Southern Manufacturers' club at Charlotte, N. C., a few days since.

We are no longer a purely agricultural section, but mining, manufacturing and kindred interests have sprung into prominence, and demand governmental policies to protect and develop them.

A DISPUTE OVER VESTMENTS. Many readers of The Mining Journal will peruse with interest this article, reproduced from the Chicago Tribune of a late date.

THE ISSUE JOINED. The action of the senate in amending the house railroad taxation bill so as to provide for a separate board of assessors for that class of property instead of having its valuation fixed by the state tax commission brings the two branches of the legislature into conflict on the question of how ad valorem taxation of the railways shall be carried into effect.

What the house will do with the bill as it is returned to it by the senate remains to be seen. As passed by the house, the bill represented the desire of those who believe in ad valorem taxation of railroad property in the same manner as other property, while as amended by the senate it is a compromise offered the advocates of ad valorem taxation of the roads by those who do not believe it the best method of taxing them, and who really desire to see specific taxation of railways continued.

A FALSE DETECTION. The Grand Rapids Herald, in its eagerness to make a point for our protective tariff as an economic policy, endeavors to establish that Great Britain's chancellor of the exchequer practically recommended its adoption when he submitted his budget to the British parliament a few days ago.

Tonight. Just before retiring, if your liver is sluggish, out of tune and you feel dull, bilious, constipated, take a dose of Hood's Pills. And you'll be all right in the morning.

coal. The last provision is an abandonment of free trade with a vengeance. The constitution of the United States will not tolerate an export duty of any description.

CHAMPION. SIDNAW'S STOCK FARM. An Industry That Gives Promise of Being Highly Successful.

The stock farm at Sidnaw, mention of which was made in The Mining Journal a few weeks ago, will be a more pretentious enterprise than most residents of this section are aware of.

The farm will be stocked and improved at a cost to exceed \$15,000. There are 1,000 acres of good land under control and during the past few seasons some 300 acres of this has been cleared.

The farm is admirably situated, with beautiful creeks running through it. In addition to the land at present under control there is a considerable acreage of low land adjoining which will be secured and put to use later.

Mr. Prickett will endeavor to create a demand for his stock near home. He will sell cattle, sheep, milch cows, and goats to farmers up here as they are wanted. The raising of cattle and sheep for market will also be a feature which will receive no little attention.

Blaze Discovered Last Friday Night. Back of the Beacon House. The second incendiary fire that has occurred back of the Beacon Hotel within six months was started last Friday night about 9 o'clock, indicating that the firebug who caused such alarm here during the winter months is still in town.

CHAMPION CHIPS. Miss Exilda White of Republic is visiting Miss Ida Racine here this week. A. J. Rich, the up-town barber, has a new polio that will stand in front of his place.

Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner-Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

some days yet before all the logs are down. Louis Bouley is building an addition to his house on Keystone hill.

The members of the local tent of Macca-bees are talking of giving a ball the latter part of next month. Charles Lavigne will spend the next week or so in Chicago purchasing horses for his father's livery here.

The Champion House has been provided with new chimneys. Other improvements have also been made about the place. H. McDonald of Republic visited the Gibson family here over Sunday.

There was a large attendance at the dance given Monday evening at the town hall in honor of the marriage of Fred Libbey and Miss Emma Mercer. A number of young fellows came up from Ishpeming to attend the party and there was also a delegation from Michigan.

John Moriarty, a little chap about eight years of age, had a very narrow escape from being killed Saturday last. Some of the porters on the Chicago, Milwaukee & St. Paul cars were playing ball near the round house.

NEW USE FOR ELECTRICITY. A professor recently discovered that electricity is a stimulant for the brain. We do not wish to dispute the merits of this discovery but are inclined to think that the only natural stimulant for the brain is sleep.

Even the most vigorous and hearty people have at times a feeling of weariness and lassitude. To dispel this feeling, take HERBINE; it will impart vigor and vitality. Price 50 cents. The Stafford Drug Co.

Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner-Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

BODY-RESTORER. Food is the body-restorer. In health, you want nothing but food; and your baby wants nothing but food.

One of the most delicate foods, in the world, is Scott's emulsion of cod-liver oil. When usual food is a burden, it feeds you enough to restore your stomach; baby the same. The body-builder is food; the body-restorer is Scott's emulsion of cod-liver oil.

Georgia's Big Sycamore Tree. Dougherty county now lays claim to the champion big tree of Georgia. It was discovered several weeks ago by employees of the Red Cypress Lumber company who were engaged in cutting timber.

Municipal Improvements Bond Issue. To the Qualified Electors of the City of Marquette: Notice is hereby given that the common council proposes to borrow the sum of twenty thousand dollars for such time and at such rate of interest as may be hereafter determined.

NOTICE TO LUMBER AND COAL DEALERS. City Controller's Office. Marquette, Mich., April 25, 1901. Notice is hereby given that sealed proposals for furnishing the city of Marquette with lumber and hard and soft coal for the year ending May 1, 1902, will be received by the controller of said city until 4 o'clock p. m. on May 5, 1901.

NOTICE TO CONTRACTORS. City Controller's Office. Marquette, Mich., April 25, 1901. Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that sealed proposals will be received by the controller of said city until 4 o'clock p. m. on May 6, 1901.

Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner-Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner-Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

Copper Country Department
ACQUITTED IN CIRCUIT COURT.
NEW FRONT TO GO IN.

Alex Lind, Accused of Obtaining \$2,000 Through Hypnotism, Goes Free.
 At the opening of court yesterday morning, the first case taken up was that of The People against William Williams, on the charge of bastardy. He was found guilty.
 The case of The People against Alexander Lind, charged with obtaining money under false pretenses, was next taken up, a verdict of not guilty being rendered. Much interest was taken in copperdom in the case, it being claimed that Lind had hypnotized a Calumet man, then working him for \$2,000. The verdict gives general approval.
 The next trial of interest is that of St. John, the former clerk of the Miller store who is charged with arson.

Much sympathy for Sumner.
 The verdict by the jury in the Sumner case was the talk of the copper country towns yesterday, especially at Houghton, Hancock and Calumet, where great interest was shown in the case from the beginning of the trial to the end. It may truthfully be said that the verdict was not what was expected, but many were also of the opinion that the jury would disagree and were somewhat surprised at the decision of the twelve men who held Sumner's fate in their hands. Sentiment in regard to the case has been divided to a great extent; while some advocated a conviction, others have a great deal of sympathy for young Sumner and think he should have been acquitted. Nearly everyone yesterday had some expression to make about the result of the case.

To Build Two Fine Dwellings.
 Mrs. Johnson of Chicago, who purchased part of the "Highlands," owned by the Hubbel estate, a short time ago, intends to build two fine residences there during the summer. Mrs. Johnson owns eleven lots, four of which will be occupied by the two new houses, and the other seven lots will likely be built on in another year. The property owned by her is in Blocks 3 and 5. She is now negotiating for two additional lots in the Hubbel estate.

Exciting Bouts Expected.
 Pugilists Who Will Take Part in Houghton Carnival Very Evenly Matched.
 Much interest is being taken by Houghton and Hancock sports, and of entire copperdom as well, in the coming bouts at the Houghton Armory on May 4, between the heavyweights Beauschaulte of Chicago and Arnold of Duluth, and the lightweights, Sig Hart of Chicago and Abel of Duluth. All of the principals are fast men and equally matched, and consequently good contests are anticipated.

Much Baseball Talk.
 Likely That Houghton, as Well as Hancock, Will Have Two Teams.
 Houghton is almost certain of having one baseball team, and it is quite likely that two will be organized. The Houghton Light Infantry Athletic association has discussed the project of putting a club in the field for the season near at hand, and from all indications the boys will soon take the steps necessary for organization. The association has the players and is not handicapped in that or any other way. One of the most prominent members yesterday informed The Mining Journal that the matter was being agitated quietly and expressed himself as satisfied with the outcome to date.

Will Connect For Houghton.
 The cherished plan of a tourist route along the north shore of Lake Superior is to be put in execution at once. The steamer Ossifrage, formerly of Duluth, will make regular trips between the Soo and Port Arthur. She will stop at such points as Michipicoten, Pilot Harbor, Otter Head, Port Coldwell, Jackfish, Rossport, Nepigon and Silver Islet. At Port Arthur the boat will connect for Duluth and Houghton.

A CARD.
 We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

COPPER FROM THE MASS.
 A Carload Shipped to the Dollar Bay Smelters Passes Through Houghton.
 At Armory Opera House, Houghton, tomorrow night, an entertainment will be given by home talent of Hancock and Houghton for the benefit of the Good Will farm. An excellent program which will have special musical features will be offered. One of the most notable features will be the playing of Draper's Juvenile band of Calumet, which will render several selections during the evening. In the afternoon at 4:30 o'clock a matinee for the children will be given and a delightful program has been prepared for it. It is hoped that a good attendance will be present at each of the concerts, as they are to be given in a good cause. Those who have charge of the arrangements have worked hard to make the event successful.

FOR A WORTHY CAUSE.
 Entertainment at Houghton Tomorrow for Benefit of Good Will Farm.

COPPERDOM BREVITIES.
 The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dea Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

Mohawk.
 At the Mohawk mine, there are 150 tons of "mohawkite" ore ready for shipment East. Concerning this favorite Lake property, The Copper Times in its issue of Tuesday says: "In a conversation a few days ago with a man working at the Mohawk mine, and who by the way is a good practical miner, among other things he spoke in regard to a group of ore appearing and quality of the Kearsarge lode as the levels were extended in both directions—south and north. It seems that a short time ago a rather singular streak of ground, soft and indiffererent as to quality, came in, but it did not last long and at its termination a course of copper ground worked in much richer mineral that will make copper fast. Mohawk is by all odds the best proposition on the Lake among the young mines. The latest reports touching mohawkite—the fissure vein of ore netting \$140 per ton—were to the effect that the formation was widening.

Atlantic.
 Another powerful hoisting engine has been added to the operative plant of the Atlantic mine. It is connected with the shaft and the skip brings up six tons of ore a trip. Going at ordinary speed it should hoist from 20,000 to 30,000 tons of rock per month and if forced still more. The difference in tonnage hoisted between the new hoist and the old one discarded should be quite material at a slightly increased cost. In fact the cost should not be increased at all, or if so but very slightly, for the new machine ought to be more economical than the old one. And the product of copper should be correspondingly increased with but little if any additional cost. So far as the appearance of the mine goes, there is nothing new to relate, as the latest openings show up a lode fully as good as the average of the mine. As soon as the work of exploring for the Baltic lode begins, which should be soon made, the Atlantic will command a great deal of attention and perhaps, be a big favorite with the public, as there are associated with the property many elements of unusual promise.—Native Copper Times.

Copper Gossip.
 It is rumored, states The Copper Times, that the Franklin product for the month weighed up 273 tons and conditions at the mine are said to be most favorable. Franklin will go and do right some of these days.
 Copper was a shade firmer abroad yesterday, spot at London closing at 270, 1/2. In New York, the market was quiet. The New York situation, however, was very tame, but steady, on the basis of 17 cents for Lake Superior and 16 1/2 for casting and electrolytic.

The Marriage of Miss Ella Weston of Marquette and E. Mallinger, a Hancock contractor and builder, was solemnized at West Hancock Tuesday evening at 7:30 o'clock. Rev. Mr. Gilchrist, of the Hancock Methodist church, officiating. Mr. and Mrs. Mallinger will reside at West Hancock.
 The water meters are being installed in Houghton houses at the rate of fifty a day and the work is being hustled by a force of six men. Each man installs on the average of eight a day, and if that record is kept up it will not be long before the 200 meters out of the 500 recently received by the village will be in place.

Gus Sun and his minstrel troupe played to a large house at St. Patrick's Hall, Hancock, last night and all those present were delighted with the performance. Tonight the company will be seen at the Houghton Armory Opera House and it is safe to say that a large audience will be present. The sale of seats at Kroll's warrants the statement.
 The Finnish young men of Hancock have appointed committees to make the preparations for their dancing party which will be held at St. Patrick's Hall Saturday evening, May 4. They are now busy with the arrangements and the dance promises to be a most enjoyable affair. Klinghammer's orchestra of Houghton has been engaged to furnish the music.

G. M. Livingston, M. D., of Kalamazoo has just issued a directory of the medical class of '98 of the University of Michigan in which is published a short sketch of each of the members of the class. Among them are noticed the names of Dr. Jackson of Houghton, Dr. J. O. Zellen of L'Anse, Dr. S. S. Lee of Calumet and Dr. A. A. Swinton, a former Calumet man but now located at Charlevoix, Mich.
FRANK J. CHENEY.

GREAT BRITAIN'S NAVY.
 The London correspondent of the New York Evening Post points out that Great Britain is not strengthening her navy so rapidly as is thought necessary by the believers in the necessity of preserving supremacy on the sea. During this year it is said that Russia will complete three battleships, to be followed next year by seven armored cruisers. Great Britain will complete and commission this year six first-class battleships, equal to the combined number of Russia and France; but the ships of Russia are 26 per cent heavier and should possess as much greater superiority in action. Great Britain will send out this year only five armored cruisers, while the two powers named will send out seven. There is also dissatisfaction in naval circles over the poor performance of the new fleet of torpedo boat destroyers. The late stormy weather has frustrated them; they cannot endure the continual pounding of heavy seas. All eight of these craft in the Devonport flotilla have returned to port disabled in their instruction voyages, one of them having her back broken. Recently there were at Portsmouth fourteen disabled destroyers. As these boats cost \$375,000 apiece, it is an item of account to have them turn out to be so incapable.—Boston Herald.

GOV. WOOD SEES ROOT.

Long Conference Preliminary to Meeting Cuban Delegates Is Held.

DESIRES OF ISLAND AIRED

Coaling Stations, Right to Intervene and Reduction of Sugar and Tobacco Duties the Stick ers.

ENVOYS IN WASHINGTON.

Washington, April 24.—The commission of five delegates from the Cuban constitutional convention, who were sent to Washington to confer with the president regarding the Cuban relations with this country, arrived this morning. They were met at the station by Assistant Secretary of State Hill, Assistant Secretary of War Sanger and others detailed for that purpose.

During the day Governor Wood visited the war department, and after a brief talk with Adjutant General Corbin was shown into Secretary Root's office, where a conference lasting three hours respecting Cuban affairs was held behind closed doors. Senator Platt of Connecticut, chairman of the committee on Cuban affairs, was present, as also were Assistant Secretary Sanger and Admiral Bradford, chief of the bureau of equipment of the navy department. The location of the proposed coaling stations in Cuba will be made upon the latter's recommendation. It is understood that Governor Wood entered into a thorough exposition of the complicated Cuban situation and apprised Secretary Root as to the desires of the visiting commission and the nature of its errand.

It is gathered that next to the subjects of coaling stations and the right of the United States to intervene in Cuba in the interests of peace and order, the Cubans attach most importance to the subject of sugar duties. The commission is trying to secure the remission of the United States' duty on Cuban sugar. Tobacco, too, is another subject which the secretary of war will be obliged to discuss with the commissioners. The Cubans are extremely desirous of securing a considerable abatement in favor of their own tobacco of the extremely high tariff imposed by the Dingley act upon all imported tobaccos.

CROWN PRINCE ENTERS COLLEGE.

Frederick William Matriculates at Bonn With Imposing Ceremonies.

Bonn, April 24.—The ceremony of the matriculation of Crown Prince Frederick William at the university here today occurred in the presence of a brilliant company of military officers, civil officials, university authorities and clergymen. Emperor William and the crown prince stood at a table on which was the roll of the university and the prince's card of membership.

Professor Lavelette welcomed the emperor and referred to the years his majesty had spent at Bonn and the brilliancy with which he had fulfilled the bright hopes of which he had given promise as a youth. Just as the emperor, as a student, had won the hearts of all, he said, so would the crown prince soon learn how truly and warmly all hearts beat in unison with his.

The crown prince entered his name on the register and Rector Lavelette clasped his hand and greeted him as the youngest member of the university, expressing the wish that he, like his father, would unite serious study with the buoyant spirits of youth. The rector then turned to the emperor, who was vigorously given. The emperor shook hands with the rector and greeted several other persons.

His majesty and the crown prince and their suite subsequently joined in a procession to the gate of the university and left amid the cheers of the townspeople and students. There was a grand commensal this evening.

GOVERNMENT CONTROL.

Federal Operation of the Wire Systems Advocated by Colonel Dick.

Columbus, April 24.—In an address before the Presidential Postmaster's association of Ohio today, Congressman Charles F. Dick, chairman of the Republican state committee, declared himself in favor of government control of the telephone and telegraph lines. All means of communication, he declared, should be under governmental supervision; telegraphic and telephonic as well as the mail system. This is certain to come, he asserted.

WEATHER FORECAST.

Washington, April 24.—The following is the weather bureau's forecast for Upper Michigan: Generally fair Thursday and Friday; variable winds.

Want your mustache or beard a beautiful brown or rich black? Use the **BUCKINGHAM'S DYE FOR WHISKERS**. 50 CENTS PER PACKAGE. Sold by all druggists.

OHIO STILL ON THE RISE

Rains in the Mountains Adding to the Floods in the Valley.

MORE HOMES EVACUATED.

Danger Line Is Reached at Louisville and Conditions Grow Worse at Cincinnati and Upper Points.

HAVOC IN PENNSYLVANIA.

Louisville, April 24.—The Ohio river reached the danger line of twenty-eight feet tonight and is rising an inch per hour.

Shenango Out of Its Banks.

Sharon, Pa., April 24.—The Shenango river is rising tonight at the rate of half an inch an hour and is higher than at any time since 1893. In the southern part of the city, houses are under three feet of water. Many families left their homes today in boats and several manufacturing concerns were closed. The Eagle office is under water and publication has been suspended.

No Relief at Cincinnati.

Cincinnati, April 24.—The flood outlook in the middle Ohio valley is not as encouraging as expected. The predicted limit of fifty-eight feet is already passed here and the limit at other points will be over the estimates.

Reports come from Cattslettsburg tonight of rains in the Cumberland mountains of northeastern Kentucky and Huntington reports heavy rains in the southern and western parts of West Virginia. At both places as well as at Ashland, Ironton, Portsmouth and intermediate points there is much uneasiness and some places are preparing for the worst.

The estimates on the previous conditions were based on the Ohio falling instead of rising tonight at Huntington and Cattslettsburg. It is falling above those points. At Cincinnati tonight the river is rising an inch per hour, and the stage of fifty-eight feet came before midnight. With these fluctuations it is impossible to forecast the conditions below Cattslettsburg, even with the government tonight indicating fair weather tomorrow throughout the Ohio Valley.

LINCOLN'S BODY REMOVED.

With Others of the Family Is Placed in the Springfield Monument. Springfield, Ills., April 24.—Unostentatiously and without ceremony, the remains of Abraham Lincoln and other members of the family which had been entombed in the national Lincoln monument and which, since March 10, 1900, when the work of rebuilding the monument at a cost to the state of \$100,000 was commenced, had been reposing in a temporary stone vault near the monument, were this afternoon replaced in the crypt in the monument.

The ceremony of returning the remains to the monument was witnessed by Governor Yates and other state officials; the members of the Lincoln Monument association, which had charge of the monument until it was taken in charge by the state four years ago; the surviving members of the Lincoln guard of honor; Judge Humphrey, of the United States district court, and other federal officials; Mayor Phillips and other city officials, and probably 200 citizens and members of the press. The casket was not opened for the identification of the body of the martyr president, as had been expected.

SENATOR CARTER PRESIDENT.

St. Louis World's Fair Commission Perfects Its Organization. St. Louis, Mo., April 24.—The Louisiana Purchase World's Fair National commission met today with all the nine members present and completed permanent organization. Ex-Senator Thomas H. Carter of Montana was elected president and Hon. Joseph Flory of Missouri secretary.

Company Gets Its Charter.

Jefferson City, Mo., April 24.—The Louisiana Purchase Exposition company of St. Louis was chartered today by Secretary of State Cook. The capital stock is \$60,000,000, divided into 60,000 shares of \$1,000 each. Five millions have been subscribed and 10 per cent is paid up.

BURNED TO DEATH.

Helena, Mont., April 24.—Samuel Karns and Alise Eisner, sheep herders, were burned to death last night while asleep in their cabin at Six-Mile creek.

ALLIES HAVE HARD FIGHT.

Detachment of 800 Loses Nine Men in a Battle With Boxers.

CHINESE ROUTED; 50 SLAIN

Nineteen Krupp Field Guns and Ammunition, Buried Near Shan Hai Kwan, Found by British.

CENSURE FOR GERMANS.

Tien Tsin, April 24.—The British have discovered nineteen Krupp field guns and a quantity of ammunition, buried near Shan Hai Kwan.

Pekin, April 24.—An international detachment of 800 men under Colonel Radford, which left Shan Hai Kwan to punish a force of Boxers and robbers that recently attacked the Indian troops, killing Major Browning, has met the enemy in force, killing fifty. Of the international detachment, six British, two Japanese and one Frenchman were killed. The enemy fled into the mountains, but will be closely pursued. The body of Major Browning was recovered.

Bitterness Against the Germans.

The Germans have been ordered back from the Pao Ting Fu expedition. Their behavior for the last week or so has caused great indignation at Peking, not only among the Chinese, but among the foreigners as well. Carts, horses, mules and ponies have been impressed for transportation purposes, coolies have been made to work for nothing and even educated Chinese have been impressed. A contractor working for the American quartermaster was impressed while at work and was only released on proof he was working for the Americans. An employe of the British legation had similar experience.

Chinese say that there is intense feeling throughout the province against foreigners, largely because of the harsh treatment the Chinese have received from the Germans. They also assert that the needless expeditions of the Germans against perfectly quiet communities have caused many Chinese who lost their all to join the roving bands of robbers.

JAPAN'S BILL \$23,750,000.

That the Indemnity the Mikado Thinks Due from China.

Yokohama, April 24.—The claims Japan will make upon China for indemnities amount to \$23,750,000.

Minister Conger Going Back.

Vancouver, B. C., April 24.—The Shang Hai Mercury publishes a statement, ostensibly from a confidential friend of Minister Conger, explaining that his application for leave was due to the fact that he had spent the last three years in Peking, he desired a furlough this time to avoid spending the summer in the Chinese capital. In granting the application for leave, it is said, Minister Conger was congratulated by the secretary of state upon the result of his labors. It is added that Mr. Conger has no desire to retire permanently from the work which will still be necessary before the Chinese question is finally solved.

TEN ROUNDS TO A DRAW.

Grand Rapids, Mich., April 24.—Gus Gardner of Youngstown, O., and Eugene Bensch of Cincinnati fought ten rounds to a draw here tonight.

BACKACHE—NO CURE, NO PAY.

Your druggist will refund your money if DeBell's Kidney Pills fail to cure any Kidney, Liver, Bladder or Urinary trouble or any disorders due to Weak Kidneys, such as Rheumatism, Lumbago and Bright's Disease. DeBell's Kidney Pills is a new discovery and is the only Kidney remedy sold on a positive guarantee—No Cure, No Pay. Price 25 cents. For sale by the Stafford Drug Co.

CORN CLOSE TO 50 CENTS.

Covering by Shorts Runs May Up to 48-1-8, a Gain of 15-5-8.

WHEAT AND OATS STRONG.

On Wall Street a Desperate Attempt Is Made to Sustain Prices, but the Offerings Are too Great.

PHILLIPS' PROFITS GROW.

Chicago, April 24.—The corn market again today was active and excited, ruling higher. May advancing to 48 1/8 and closing at 48 1/8, or 1 1/2 higher than yesterday. July closed 3/8 better, at 44 1/2. The attitude of the Phillips interest in bidding for May caused further covering by shorts, part of which was for foreign account. Both the weather and surrounding conditions were favorable for the longs. The receipts were light, the cables stronger at Liverpool, spot being 1/4 higher, with futures 1/2 @ 3/4 up, the country offerings light, the clearings small, at 161,000 bushels, and twenty-three boatloads were reported taken on the coast.

In wheat there was a better trade, with a more bullish feeling, the close showing a net gain of 3/8. Firm cash demand, a better cash demand and the advance in the coarse grains all helped to bring about the change of sentiment. Commission house buying was better, while local shorts covered freely. At Liverpool, spot was unchanged, with futures 1/4 lower to 1/8 higher. The local cash demand was much improved, 579,000 bushels being taken here and sixty-two boatloads on the coast. The clearings were moderate, at 225,000 bushels. Northwestern elevator interests were reported buyers of May here, the sellers of July unloading. St. Louis also was a buyer.

Oats ruled active, excited and higher. Heavy building by May shorts and on New York orders carried the prices up a cent, but they reacted 3/8 and closed at a net gain of 1/8. July advanced 1/2 and reached 4 1/2. Shipping houses took May and on the advance the largest holders sold freely, then buying on the decline and causing a reaction.

The leading futures ranged as follows: May wheat opened 71 1/2 @ 74; closed, 72 1/2; lowest, 71 3/4 @ 74; highest, 72 1/2. May corn opened 46 1/4 @ 47; highest, 48 1/4; lowest, 46 1/4 @ 47 1/2. The movement of flour and grain was as follows: Receipts, Shipments, Flour, barrels, 41,000 25,000 Wheat, bushels, 149,000 189,000 Corn, bushels, 108,000 362,000 Oats, bushels, 396,000 461,000

STOCK PRICES AGAIN SLUMP.

Give Way at the End Despite Vigorous Bull Pool Manipulation.

New York, April 24.—Among the many broken precedents which have been recorded in the present grand Wall street speculation must be included the scale and character of the professional manipulation for purely sentimental effect on the speculative public at large. No such fight against the prevailing tendency in the market was ever before witnessed on the New York Stock exchange as that of today.

Some leading operators in the recent speculation were credited with the assertion that there was no amount of stock which they would not buy in order to sustain the market for the protection of their favorite stocks. Such statements in Wall street are always accepted with the allowances due assertions palpably made for effect. Yet today's market gave evidence of astonishing boldness and aggressiveness in supporting prices by the expedient of simply buying everything that was offered. The prices also were boldly bid up in spite of the increasing weight of selling on the advance. The burden seemed to grow too heavy toward the latter part of the day, although the market had been fairly fought to a standstill after the opening.

In the latter part of the day the bull pool seemed to concentrate its attention more on a few stocks which had been selected for most aggressive manipulation for the sustaining effect on prices generally and to impress the public mind. Union Pacific was the most conspicuous of these, but the speculation also was very heavy in St. Paul, Northern Pacific and Southern Pacific, while Burlington, though not largely dealt in, was very zealously supported. The total dealings in Union Pacific aggregated 662,800 shares. There was no fresh news at all to account for today's violent rise in the stock, which scored an extreme advance of 8 1/2 points, closing practically at the top.

Union Pacific at the beginning of the last hour of the day was left alone in its upward course, the selling having embraced practically every other stock in the list. When Union Pacific itself gave way and the slump in prices became general throughout the list. In the principal active stocks, it amounted from 2 to 5 points and from 1 to 2 points all.

Had Lost \$400,000 Previously.

When he first entered the United States senate a little over twelve years ago, Pettigrew was reputed to be worth not less than \$400,000. Practically the whole of this sum was lost during the years of the financial stringency, and from a man of affluence Pettigrew became comparatively poor. His first good fortune in stock speculation was during the time that Joe Leiter was a conspicuous figure in board of trade circles. During that period Pettigrew succeeded in securing the money with which to purchase 40,000 bushels of corn in the crib at a point in Iowa. The grain was secured for 17 cents a bushel. After holding it until the market was favorable he sold the whole lot for 35 1/2 cents a bushel, more than doubling his money.

Then followed a lucky investment in South Dakota and Montana farm lands. Through a Minnesota agency he secured options on thousands of acres of land in the two states. The money for the purchase amounted to about \$18,000,

No other article of food has received such emphatic commendation for purity and wholesomeness from the most eminent authorities.

The great popularity and general use of the Royal Baking Powder attest its superiority

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—is free to every patron. Send postal card with your full address. Avoid the imitation powders. They are sold cheap because they are made from alum. But alum is a poison dangerous to use in food.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, as reported by Paine, Webber & Co.: Adv. 16 1/2 @ 16 1/2 O. FORTUNE WON BY PETTIGREW.

Former Senator Picks Up \$250,000 by Speculation in Wall Street.

St. Louis, S. D., April 24.—Former Senator Richard F. Pettigrew, who was known as the most bitter assailant of stock exchange "gambling," has just cleaned up a fortune of \$250,000 by that very method, having profited by "tips" given him by James J. Hill, the railway magnate. It has been reported that his winnings amounted to \$1,000,000, but \$250,000 is much nearer the facts.

This huge sum of money has been won since the adjournment of congress. Mr. Pettigrew, who has remained in New York since relinquishing his seat in the upper house, has returned to South Dakota, fairly well pleased with himself, and with somewhat broader and more charitable ideas about stock exchange transactions.

When Pettigrew walked out of the senate chamber, he is said to have been practically without a dollar. Every cent that he could scrape together has been expended in his campaign. When he failed of re-election to the senate, his pockets were empty.

GIRL CONFESSES TO CRIME.

White Plains, N. Y., April 24.—Frances Spinello, who was in jail with Givie Buttacavalla, her uncle, the two having been arrested after their alleged attempt to bury a baby alive, made a confession today to the jail matron. The girl said her uncle was the father of the child, and she its mother. She said he induced her to take the baby and come with him to Hastings, where the baby was buried.

ANTI-TELESCOPING CARS.

Detroit, Mich., April 24.—A new style of passenger coach has just been completed at the car shops of the Michigan Central, which is said to be a great improvement. It is equipped with a contrivance that practically eliminates the possibility of the car being telescoped. Both ends of the car are protected by steel platforms and behind these extends a solid steel protection under the car for a distance of six feet. This is intended to meet the shock of collision and prevent the car from being splintered. The car is seventy-two feet

REPRIEVED BY M'KINLEY.

Clayton, N. M., April 24.—A message was received tonight through Governor Oro from President McKinley granting Thomas Ketchum, alias "Black Jack," who was to have been hanged here Friday, a reprieve until May 25.

BRINGING 2,260 PASSENGERS.

Liverpool, April 24.—The Cunard liner Saxonia has left Liverpool with 2,260 passengers for Boston—the largest number ever shipped in one vessel crossing the Atlantic. Many of the passengers are emigrants.

GETS A FRENCH DECORATION.

St. Petersburg, April 24.—M. Delcasse, French minister for foreign affairs, today presented the grand cordon of the Legion of Honor to M. Ziyganski, Russian minister for the interior.

VIOLENT STORM IN INDIA.

Calcutta, April 24.—A violent dust storm visited Mandalay, capital of Burma, Tuesday, followed by a terrible rain storm. Twelve lives were lost and great destruction was wrought.

NEW BOWLING RECORD.

Chicago, April 24.—The Chicago league team of the Illinois Bowling association established a world's record tonight, scoring an average of 993 for three games.

UPROAR IN REICHSRATH.

Vienna, April 24.—The Pan-Germans and Christian Socialists renewed their fight in the reichsrath this morning and the sitting had to be adjourned.

You can get a fine cabinet photograph at Werner's for two dollars a dozen.

WILL OPERATE THE ROPES.

It is Corrigan, McKinney & Co.'s intention to work the mine again.

Captain George Wallace, who is in charge of mining affairs for the well known firm of Corrigan, McKinney & Co., of Cleveland, owners of the Ropes gold mine, arrived in Ishpeeming last evening. The object of his visit at this time is to get the cyanide plant for treatment of the tailings at the mine in operation, it having been closed down since the cold weather set in last fall. It will be but a few days now before everything is in readiness for a new start.

Speaking of the Ropes, Mr. Wallace said that it is the intention of his firm to resume mining work at the property just as soon as the tailings are disposed of. He is of the belief that it will take until September to treat all the tailings remaining. Before the work was suspended last fall the estimate placed upon the pile was in the neighborhood of 65,000 tons. Something like 35,000 tons were treated last summer, yielding a net profit to the company of about seventy cents per ton. When treating the tailings was begun it was thought that the average amount of gold taken from them would be about \$2 per ton. It did not reach that mark, however, a little better than \$1.50 per ton being obtained.

Captain Wallace is of the opinion that the Ropes will some day prove a valuable mine. He says that when operations are resumed there mining will be prosecuted quite differently from when the property was operated under the old management. All the money that will be necessary to put everything about the plant in first-class condition will be forthcoming and nothing will be lacking. The machinery is still on the ground and it will be thoroughly overhauled. New drifts will be opened up and if it is found advisable another shaft may be sunk.

In this connection it might be well to refer to the history of the mine and its operations. Work was first started there in 1882. A stamp mill was installed during the following year, and from year to year, as the mine was opened, new machinery was added, a little at a time, until the collapse some four years ago. A great deal of work was done during the years of active operation. The mine attained a depth of nearly 900 feet. There are many drifts in which gold bearing rock is found, and so far as could be judged by those who were in charge at the time the mine closed, there are many thousands of tons of good rock available.

During its period of activity the Ropes produced gold and silver to the value of \$647,902.37, the gold forming approximately forty per cent of the amount. The returns secured from the amalgam plates and by the cyanide process by Corrigan, McKinney & Co., are not included in the above amount. The mine can be freed of water quickly after the pumps are started, as the water has not entered the upper levels at all.

Corrigan, McKinney & Co. will all up in the gold mining business as well as in iron mining and they know just what is required to make the Ropes a success. At present they are working a gold mine of great richness in Mexico. Captain Wallace reports that the rock here treated there runs as high as \$200 to the ton.

All will rejoice in the announcement that the Ropes is going to be given another trial. If the present owners of the property are successful in their undertaking there is little doubt that it will result in a boom for the entire range, as not a few here are confident gold exists in many places north of this city.

SHOWING UP FINELY.

Calumet & Arizona Promises to Prove a Great Mine.

Charles H. Moss has returned from his visit to the copper country full of enthusiasm concerning the Calumet & Arizona. Mr. Moss went up the road on business connected with that property and brought back with him a sample of the rock which is found in the mine. It was taken forty feet below the 850 foot level and runs about forty per cent in copper. It is as pretty a specimen of copper rock as one could wish to see. As is well known, the heaviest holders of this stock are holding on to it tenaciously, and only those who bought on speculation are letting it go. There are but few of the latter and their holdings are small. The mine is capitalized at \$2,500,000, but only two-fifths of the shares authorized were issued at the time the stock was put upon the market, and had it not been for the kindness of some people the entire amount would all have been gobbled up by Pittsburg parties.

There is an interesting story going the rounds in copperdom regarding the boom in this stock, and it may be worth relating. It seems that the officials of the Oliver Iron Mining company were in New York one afternoon on business and were sitting around a table in the Waldorf when one of them received a letter from T. F. Cole. He read the missive to the others. Its contents were surprising, for it told of this now famous proposition, the Calumet & Arizona. The several members of the party scrutinized the epistle and all agreed that it bore Cole's signature and was undoubtedly authentic. As a result the party decided to subscribe for the entire issue of stock. This decision was easily reached, but it was a hard matter to decide upon the number of shares each should receive, none wanting to invest less than \$200,000.

President Oliver of the company finally got up to leave, remarking: "You fellows may fight as long as you please and make any allotment you please, but I want \$250,000 worth of that stock." Mr. Oliver later compromised on an even \$200,000, and he now holds that amount. The rest of the party divided \$600,000 between them, and that is the amount of their holdings now.

It is estimated that there are less than 5,000 shares on the market now, and these are setting at from \$30 to \$40

and hunting, the whole effect being most pleasing. The main hall was not decorated, that work being confined to the dining room.

A chap who was a little the worse for "booze" took a very pretty tumble from his wheel on Main street yesterday afternoon, much to the amusement of a large crowd of spectators. He came around the corner from Division street and in some way got upon the sidewalk in front of Heyn's store. Before he knew it, he was making very respectable curves in the air and he came so near going through one of the large plate glass windows that the watchers held their breath. He wasn't hurt and, picking himself up as best he could, biked on his devious way.

John Cox and Miss Anna Collick, both of this city, were united in marriage yesterday afternoon at the residence of the bride's father, Captain Alfred Collick, on Ready street, by Rev. Stephen Polkinghorn. The parlors of the house were filled with friends and relatives of the contracting parties when the ceremony was performed at 5 o'clock. A reception was held immediately after the wedding. It was largely attended by the many friends of both Mr. and Mrs. Cox. After a short wedding trip they will settle down in this city, where Mr. Cox is employed in the Cleveland Lake mine.

PROMINENT COUPLE WEDDED.

One of the largest weddings which has occurred in this city for some time was celebrated yesterday afternoon at four o'clock in St. Paul's church, when Louis Greenier and Miss Elizabeth Duschane were united in marriage. The church was very prettily decorated with palms and cut flowers and the costumes of the ladies present added much to the beauty of the scene. Miss Duschane was attended by Miss Minnie Wasmuth and Benjamin K. Webber served in the capacity of groomsmen. The church was crowded with friends and relatives of the happy pair. Mgr. Langner performed the ceremony. Immediately after the wedding Mr. and Mrs. Greenier and their guests repaired to the home of the bride's parents, Mr. and Mrs. Frank Duschane, on Main street, where a sumptuous repast was served and the couple met their friends. The house was crowded, even more so than the church, and all were eager in their congratulations. Mr. and Mrs. Greenier left last evening for Milwaukee, where they will spend a few days with Mr. Greenier's relatives, and while there the genial Louis will do a little buying for the store.

Mr. and Mrs. Greenier are very well known in this and the neighboring cities. Mr. Greenier was born in this city and has always lived here. Mr. Greenier came here about twenty years ago and entered the employ of the Iron Cliffs company in the capacity of clerk. He later took a place with T. M. Wells and was connected with the latter's store until Mr. Wells sold out three months ago to the Negaunee Co-operative society. At that time Mr. Greenier was made manager of the society's interests and now holds that position. Mr. and Mrs. Greenier will return from their trip in a few days and will reside in the house formerly occupied by Michael Healy on Main street, which has been re-furnished for them.

ANNIVERSARY TOMORROW.

Iron Mountain lodge, No. 122 of the Odd Fellows will properly observe the 25th anniversary of the founding of the order in this country tomorrow evening. There will be a musical entertainment in the hall, followed by an elaborate spread at the Garfield. Members and their ladies will be present at both functions. The lodge here numbers among its members not a few talented people and these will do their best to amuse the rest of the company in the hall. Landlord Lucas of the Garfield has prepared a spread which will do credit to the best of metropolitan hotels. It includes, besides the delicacies of the season, salads, cold meats and various ices and will be one of the finest banquets ever served in Negaunee. It is expected that a large number of Odd Fellows and their wives will sit around the festive board and that the evening will be very pleasantly spent.

HE KEPT HIS LEG.

Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and I used one box of Bucklen's Arnica Salve and my leg was sound and well as ever. For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. Stafford will guarantee satisfaction or refund money. Only 50 cents.

B. Presson, Escanaba, Kans., writes: "Nothing like Foley's Honey and Tar" is the universal verdict of all who have used it. Especially has this been true of coughs accompanying la grippe. Not a single bottle failed to give relief. The People's Drug Store.

Lower Michigan News.

Geo. F. B. Collins, a well known attorney of Niles, has become insane. He has resided at Niles for many years. He was sand-bagged and robbed in Chicago a few years ago, and never recovered from the injury sustained.

Many celery growers at Kalamazoo are said to be moving away from that city on account of the overcrowding of the celery-raising section, and going to points in other states where experiments have shown good conditions for the raising of the crisp vegetable.

Northville factories are kept on the jump to keep up with their orders. The American Bell and Foundry Co., the Dubur Manufacturing Co., the Globe Furniture Co., the American Shade Cloth Co., and Fiske & Olde's shoe factory are working to their limit, and are constantly behind in their orders.

Mrs. Peter Peterson, wife of a prominent contractor at West Bay City, hanged herself while alone in her home Monday afternoon. The body was found by one of her boys when he came home from school. She had been sick and despondent for some time. She is survived by a husband and seven children.

Claude Carr and George Sparks, aged respectively 14 and 12 years, were playing with a loaded gun at their home at Chippewa Lake, Meosota Co., Sunday when the weapon was discharged. The ball struck Carr in the breast, causing instant death. The boy's parents were absent at the time the accident occurred.

Nelson Nelles, one of the pioneer lumber inspectors and shippers of Bay City, died suddenly at 4:55 Monday morning. He had been in fair health and retired the previous night without complaining. Early Monday morning his wife was aroused by his heavy breathing and before a doctor could be summoned death had occurred.

Pearl Marvin of Cadillac was roughly handled Saturday night on a farm near Walton, Grand Traverse county, by a gang of men who gave him a thorough horse whipping and then treated him to a coat of tar and feathers. He was charged with undue intimacy with a woman while her husband was in the hospital at Ann Arbor.

The postoffice safe at Eagle, northeast of Grand Lodge, was wrecked by burglars and its contents taken a few nights ago. The postmaster refuses to state what the government loss is, but says his will reach \$10. Eagle town-ship had money in the safe, and two drovers also had money there for safe keeping. There were four men engaged on the job.

Pentwater's canning factory is being pushed toward completion as rapidly as possible in order to be ready for operation this season. A large acreage of peas, sweet corn, tomatoes, and various other vegetables, has been contracted for. While excavating for the foundation, a bed of the finest kind of marl was discovered. Possibly a cement factory may look up in Pentwater's future if anyone takes hold of it to develop it.

Several weeks ago Geo. Bolton became ill and went to bed. After a few days he did not seem inclined to get better and the family physician was called in. Mr. Bolton refused to take medicine or food and soon grew very weak and feeble. The physicians would force medicine into the sick man's mouth but he would spit it out. He died Monday morning unconscious. The deceased was once a prosperous harnessmaker. The family is now in abject poverty.

John Pervis, a cripple, was killed in the yards of the Lake Shore & Michigan Southern railroad at Hillsdale early Monday evening by a freight train. He had been around the yard nearly all the afternoon and while the engine was doing its work he got aboard the caboose and sat upon the platform. As the engine came forward toward the caboose the man fell from the platform in front of the engine, which passed over his body, cutting it into two pieces. Those who saw the catastrophe are of the opinion that he threw himself in front of the engine on purpose. Pervis was a stranger at Hillsdale. He arrived there Saturday night and put up at the Kefauver House, registering from Detroit.

NOTICE!

POND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

SECOND SUMMER SCHOOL.

That of the Northern Normal Will Be Held from July 1 Until August 9, Six Weeks.

THERE WILL BE TEN INSTRUCTORS AND THIRTY-FIVE COURSES.

First Special Term Was Successful Beyond All Expectations and It is Expected That the Attendance and Interest Will Be Greater.

WILL GET CREDIT FOR WORK.

The Northern Normal summer school for the year 1901 has been announced. It will run for a term of six weeks, from July 1 to August 9. It will be the second summer school in the history of the new institution...

The school this summer will be provided with a larger corps of instructors and it will offer a great diversity of work. The attendance should be fully as large as it was a year ago...

The dormitory will be open for the reception of students at the regular rates, \$3 per week; rooms, with light and heat, seventy-five cents per week.

Thirty-five Courses. Principal Waldo announces that thirty-five courses will be offered during the six weeks' term.

Principal Waldo announces that thirty-five courses will be offered during the six weeks' term. These will include courses in the history of education, pedagogy, psychology, nature study, geography, botany, kindergarten methods, primary methods, drawing, blackboard sketching, public school music, reading, mathematics in its various branches, history, English, French, German, etc.

In all, there will be ten instructors, mostly the heads of the Normal departments, in charge of the courses of the work of the special term.

Credits Count. It is well for the young people of the upper peninsula, who have any idea of ever completing a regular course of the Northern Normal, to remember that all the summer school credits apply on the certificates granted by that institution.

Father Conway's sermon on "The Church and the Bible" was followed with the very closest attention. He spoke for nearly an hour. He said, in part: "There are two theories—the Protestant and the Catholic—each with two principles. The Protestant theory declares that the Bible is the Christian's only teacher, and that from its pages the Christian must originate his faith according to his own private interpretation of the meaning of the sacred text."

The summer work at the Northern Normal is not unalloyed with pleasure for the young people who assemble at the institution at the beginning of the special term. Coming, as most of them do, from the inland cities, they look upon their short visit in Marquette somewhat in the nature of a vacation jaunt.

Work Not Unalloyed. The summer work at the Northern Normal is not unalloyed with pleasure for the young people who assemble at the institution at the beginning of the special term.

The beauty of their environment at the Normal and of the surrounding country particularly appeals to them and there is no mad haste, toward the conclusion of the six weeks, to get away. These conditions, added to the excellence of the work offered at the summer school and the real value and utility of the opportunity given by its courses to school people to freshen up on matters connected with their work, combine to make Marquette an ideal place for the special term.

ANOTHER LARGE CONGREGATION.

Many Non-Catholics Hear the Paulists at St. Peter's.

The non-Catholic mission held this week at St. Peter's by Fathers Doherty and Conway is proving an attractive novelty to the people of Marquette. The services to date have been largely attended. Again last evening the capacity of the cathedral was taxed.

Jesus Christ Himself was a virgin born of a virgin mother, and commended virginity highly.

St. Paul, the great follower and lover of Christ, was likewise a virgin, and distinctly states that, although marriage is a sacred sacrament of Jesus Christ, virginity is a higher state.

St. Paul again declares that the celibate will be more free and disinterested in the service of God, being freed from the burdens of life and family.

The priest's work is far different from the minister's. He must be at the beck and call of the people, day or night, and is freer to face danger in time of war or pestilence.

The text referred to does not declare that all bishops should be married men—St. Paul himself wasn't—but that no one would be considered fit for ordination who had been twice married.

How does the priest know that a child's sins are forgiven when baptized? It is known by the fact that we are by nature children of wrath.

Christ made baptism the necessary condition of entrance into God's kingdom. If this rain lets up today I am going about ten miles from here with a boat and four or five soldiers as an escort to get some deer for fresh meat.

I have two detachments out scouting around the country now and I expect them back today. Being the only officer here, I can't go away very much, it is impossible for me to get away for more than one day.

QUIET LIFE IN TAYABAS.

Lieutenant George E. Ball Writes Interestingly of Routine at His Post.

HE IS PRETTY BUSY, BUT FINDS SOME TIME FOR RECREATION.

His Captain Has Organized a Few Native Scouts Who Give Promise of Becoming Truly Valuable Soldiers in Course of Time.

ENJOYING EXCELLENT HUNTING.

Following is the latest letter received by Mrs. D. H. Ball from Lieutenant George E. Ball, who is serving in the Philippines.

"Dear Mother:—Your letters of Dec. 20 and 28 came in the last mail and they were very welcome. For two days after we received the telegram that the boat was coming we did nothing but watch the horizon for a sign of smoke and when we did see it we were all excited."

"I expected to go in the boat as far as Catanauan and, then, to march back, but, as Captain Wilhelm had to go to Manila he thought that I had better stay here, and besides I have about \$2,500.00 in government money that I would have had to leave and we thought it wouldn't be safe. As he is, I am up to my ears in work and I really couldn't have spared the time for the trip."

"A new doctor came down on the boat. Dr. Baily was relieved, so I bought his shot-gun. I haven't been out hunting yet, but I expect to go tomorrow if the weather is good."

"A couple of days ago I was invited to a dinner party on board a sailing vessel in the harbor. It was given by some Filipinos. We started out at about 10 a. m. and at 11 we sat down to eat. We had pig in all sorts of dishes. First we had soup, then some kind of heart, then pork chops and rice, then whole roast pig and more rice, and then another roast pig and still more rice."

"Yesterday and today I went fishing. There is a big trap in the bay and each morning I have gone out to see them make the catch. The natives are very expert in diving and I have seen them go down and catch fish with their hands."

"Yesterday and today I have had lots of fish. It is very embarrassing because I can't refuse to accept the fish without offending them and yet they always pick the choicest varieties and I get much more than I can possibly eat."

"Feb. 22 I have been out hunting twice lately and so we have had pigeons for dinner. If this rain lets up today I am going about ten miles from here with a boat and four or five soldiers as an escort to get some deer for fresh meat. It is impossible to get fresh meat from Manila and the native animals are tasteless."

"I have two detachments out scouting around the country now and I expect them back today. Being the only officer here, I can't go away very much, it is impossible for me to get away for more than one day. I don't like that very much because I want to see the country and there is plenty of hunting within a day's march."

A Happy Filipino. "Feb. 24. My young Filipino friend was told by his parents last night that he could go to America to study medicine and he came over early this morning to tell me about it. He is very happy and can hardly wait to make his preparations. After taking his degree he has been promised five years of traveling, wherever he wants to go."

"March 1. I have had so much to do the last few days that I have been tired at night to do more than rest. I hardly have time enough to take the exercise necessary to keep well. About once every two days I take my shot-gun and take an hour's walk out in the country."

"March 10. I have been on the go since March 1 and have had little or no time to write. The captain came back on the 8th, but he expects to leave again very soon for Lipa and I will be left in command."

"The promotions and organization for the new regiments have begun and it will be into the new regiments and, as I am forty-five on the list I may go to one of them. I think I would prefer to remain where I am, as otherwise I won't get home in years."

Some Ladrones Left. "We are organizing a squad of native scouts and I think we will have some good men. We expect to have them in working order in a few days and then the captain expects to go out for a week or two on a big trip all over this peninsula. There are some ladrones around the southern end and he may get some of them if he is lucky."

"I haven't been out hunting for several days now, but I guess I'll go about tomorrow or next day. I have just got a new supply of ammunition so that I can do a lot of shooting."

"The launch came from Luena on Saturday, but I was too busy to finish this letter so it will have to wait. Our letter mail was left in Luena by mistake so we received only the papers from home."

"The Mining Journal seems to think that my coming promotion is due to my own efforts, but I really can't help it. They are just going to promote me arbitrarily."

"March 16. Since the 10th I have been busy with my daily work. After my regular company duties are over at 8 in the morning I get my breakfast and then pitch into my post duties and work until 5 in the afternoon, with an hour for luncheon. At the end of this month I have to send in my reports for the quarter ending March 31 and I am very busy getting my papers in shape. I am so new at the business that I have to pick my way very carefully among the numerous papers required in each branch of the routine. However, I am gradually getting order out of chaos and after this I shall get along much easier."

EX-SHERIFF BUYS BUSINESS.

John Carlson Will Take J. T. Jones Grocery Store May 1.

EX-SHERIFF JOHN CARLSON WILL, on the first of May, engage in the grocery business at the stand at the corner of Third and Ohio streets which has been conducted by J. T. Jones for the past several years. Mr. Carlson is an experienced groceryman, having followed this business for an extended period of years, and he is well qualified to look after a large custom with general satisfaction.

In the Jones store he will be well located in a populous neighborhood. He steps into a business that has been conducted successfully by its present proprietor and, as he possesses a wide circle of acquaintances and friends made during his four years' residence in Marquette, there is no doubt that he will build up a large and lucrative trade.

There was little change in the copper situation yesterday. The Boston, London & Co. wired the Laidley Commission Co. "The public expect Heinze to make some trouble and try and delay a deal, but, while this would have a bad effect on the coppers, we believe the decline will be only temporary. We believe that a deal will go through and that amalgamated will sell higher before Monday. The market is too high and we believe that stocks sold on rallies from these prices can be taken back cheaper."

A. R. Jones & Co. said of wheat: "Today's wheat market was very similar to that of yesterday, strong most of the session with prices gradually advancing until, at the best, they topped yesterday's high mark. Then they eased at the finish. The market was active. It was rather nervous, but there was not a great volume of trade. The strength of New York was again a feature. The talk is that a squeeze is under way in that market. The Northwest says that the weather is generally unfavorable for seeding."

There are a number of Marquette people, men and women, who anticipate riding horseback the coming summer with considerable enjoyment. This equestrian sport has not had any great vogue for a number of years, but it is now being planned a revival. Those who are planning indulgence in this fashionable exercise are now laboring with the liverymen to the end that they buy a number of good saddle horses to satisfy the demands of their customers. A gentleman who has given the matter some thought thinks the Mining Journal should that there will be considerable horseback riding this season and he is certain that the liveryman who is prepared to look after customers for this manner of pleasure will have a good thing. It is suggested that the men and women who have ridden in the past or who desire to pursue this healthful sport and exercise in the future call up their liverymen and let them know where they stand. If the proprietors of the several stables see that there is going to be a good demand for saddle horses they will get in a position to satisfy it.

I am making a general reduction on all sizes of photographs. Werner, \$5,000 will be paid to any one producing as good a spring tonic as Rocky Mountain Tea. A family blessing, 35c. Stafford Drug Co.

No headaches in Carvalho's cigars, sweet and mild. ATTENTION TRAVELERS! When in Grand Marais stop at Hotel Grand Marais. Rates, \$2.00 per day. (4-9-3m)

NOTICE TO ICE CONSUMERS FROM THE NEW ICE COMPANY. Don't forget to call up the Marquette Ice company for prices on ice for the coming season. Office, Marquette Hardware company's store. Both telephones. (4-9-1f)
