ST. PAUL MAN'S AWFUL CRIME. Drowns His Four Children and Himself in the Mississippi.

St. Paul, April 29.—The police authorities tonight believe that William Rosenfield has thrown his four children, ranging from two and a half to seven years old, into the Mississippi river from the Marshall avenue bridge and then leaped in after them. All are supposed to have been drowned. None of the bodies have yet been recovered, but according to the police reports satisfactory evidence is at hand that the crime was committed.

## EVIDENCE IS SENSATIONAL.

SHOWN THAT MONEY WAS COLLECTED FROM CONTRACTORS.

Commissions on Sales and Lump Sum "Rebates" Exactod from Concerns Doing a Profitable Business With the Government.

Manila, April 29.—The trial of Captain James C. Reed, former depot commissary at Manila, who was arrested a fortnight ago for alleged participation in the regular establishment of money as members of a court-martial to try officers of the volunteers. The defense further denied that a state of war existed in Manila today, and alleged that the provost marshal, General George W. Davis, was unauthorized to convene a general court-martial, intimating that as General MacArthur had virtually preferred the charges against Reed the orders directing trial by court-martial should come from Washington. The defense further objected to the fact that several members of the court-martial were of inferior rank to Reed. All these objections were overruled, and the hearing of the testimony was begun.

Predecessor Said to Be Short.

Schindler, manager of the Alhambra cigar factory, testified that in November Captain Reed told him that Major Geo. B. Davis, who was depot commissary at Manila, was sent to the United States on sick leave, was \$2,000 short in his accounts. Continuing, Schindler testified that those having profitable contracts with the government were asked to assist in making good Davis' deficiency. Schindler gave Reed \$1,000, which was 2 1/2 per cent commission on the cigars sold to the commissary department during the time Davis was depot commissary at Manila.

An officer named Franklin, who was assistant commissary, testified to the effect that on March 18, following the directions of his superior officer, he had obtained \$1,000 from Davis and paid the money over to Schindler.

Inspector General Garlington testified that during the preliminary investigation of the commissary scandals, Reed admitted to him the obtaining of money from Schindler and others and gave as his excuse that the money so recovered was intended to cover Major Davis' beef shortage.

\$2,000 Asked from Contractors. Lieutenant Richard H. Townley, of the navy, at present superintendent of the Manila Nautical school, testified that as a result of a conference with Captain Reed he went to see Castle Bros., contractors, who supply the commissary department with vegetables, and wanted them to give Reed \$2,000 and 10 per cent commission on all sales. Castle Bros. demurred to this proposition. Lieutenant Townley again went to Castle Bros., and this time only asked for \$2,000. Castle Bros. were reluctant to hand over the sum. Lieutenant Townley explained that Reed was in position to advance the interests of the firm and that it would be advantageous to Castle Bros. to oblige him.

Colonel Chas. A. Woodruff, chief of the subsistence department at Manila, explained the circumstances of Captain Reed's appointment and described the duties of depot commissary, not knowing whether the accounts of Davis were correct or not. Colonel Woodruff explained that on Dec. 30 Castle Bros. aroused his suspicion by intimating that money was being collected by an officer of the commissary department. Later Colonel Woodruff sent for Reed, who admitted receiving rebates for the purpose of covering the delinquencies of Major Davis.

Lieutenant John Hausermann of the Thirty-fourth infantry is judge advocate of the court and Major Thomas L. Hartigan, Thirtieth infantry, and Captain Charles H. Marple, Fortieth infantry, are the attorneys for the defendant.

DAVID NATION ROBBED.

Husband of Carrie Losses His Wad, in a Saloon, It's Said.

Marion, Ind., April 29.—David Nation, husband of Carrie Nation, the Kansas reformer, was robbed of \$78 in cash, some jewelry and his return railroad ticket to Wichita today. Nation is visiting his sister, Mrs. John Mills, and attended a pony show this afternoon. It is said that he visited a saloon after leaving the circus, and it is alleged that it was in this place that he was robbed.

FAVORITE BADLY BEATEN.

His Eminence Wins the Kentucky Derby by a Length.

Louisville, April 29.—Twenty-five thousand persons saw His Eminence, Jockey Winkfield in the saddle, win the twenty-seventh Kentucky derby this afternoon, a length ahead of Samarcand. Driscoll was third and Anur fourth, while Alard Scheck, the seven to ten favorite, brought up the rear. The betting on the winner was five to two. The time for the mile and a quarter was 2:07 3/4 and the purse was worth \$6,000.

ST. PAUL MAN'S AWFUL CRIME. Drowns His Four Children and Himself in the Mississippi.

St. Paul, April 29.—The police authorities tonight believe that William Rosenfield has thrown his four children, ranging from two and a half to seven years old, into the Mississippi river from the Marshall avenue bridge and then leaped in after them. All are supposed to have been drowned. None of the bodies have yet been recovered, but according to the police reports satisfactory evidence is at hand that the crime was committed.

Rosenfield had been separated from his wife, who had taken three of the children and gone to Minneapolis to live with her sister. On Wednesday last Rosenfield secured a horse and buggy, and taking with him his seven-year-old child, who still resided with him, drove to Minneapolis and secured the three younger children and drove off with them. Thursday morning an officer of the Prior avenue station found the horse, still hitched to the buggy, wandering about in the vicinity of the Marshall avenue bridge.

The theory of suicide, which they claim is substantiated by evidence, is that Rosenfield drove to the center of the bridge, which is about two hundred feet above the river, threw the children into the water and then leaped in after them.

## SENATOR HILL DENIES IT.

Is Not a Candidate and Will Not Make Political Trip.

Albany, N. Y., April 29.—Ex-Governor David B. Hill today gave out the following: "My attention has been called to the story which is going the rounds of the press that I am expecting to make a political trip through the West and South, either this year or next. "I desire to state that I do not contemplate any such trip. When recently advised that invitations were being prepared in the state of Washington and elsewhere, requesting me to make such a visit, I immediately replied that it would be impossible and requested the abandonment of the proposed invitation. "I will state further that I am not a candidate for office, nor am I expecting to be. I regard all suggestions of candidacies at this time premature and inadvisable. No one can now tell what year or ought to be done in 1904."

## BOER LAAGER CAPTURED

Serious Losses Inflicted on the Enemy Reported by Kitchener.

London, April 29.—Lord Kitchener reports to the war office today that "scouts under Grenfell have surprised and captured Van Rensburg's laager at Klipdam. Seven Boers were killed and thirty-seven taken prisoners, while 8,000 rounds of ammunition and all the wagons, carts, oxen, horses and mules were captured. The British casualties were one man wounded. Other columns report three Boers killed, fifty-eight taken prisoners and fifty-seven surrendered, and one quick-firer captured."

## PRESIDENT ON TOUR

STARTS ON JOURNEY THAT WILL TAKE HIM 15,000 MILES.

## TO BE GONE SEVEN WEEKS.

TWENTY-FIVE STATES TO BE VISITED BY PARTY.

Run Through Virginia Is Made During the Afternoon and Crowds at Every Town Cheer the Nation's Chief Executive.

Washington, April 29.—President McKinley and party started on their long Western trip this morning on schedule time, 10:30. A large crowd cheered enthusiastically as the train pulled out, the party including Secretary Gage, Secretary Root, Senator Hanna, Justice McKenna, Generals Miles, Corbin and Stenberg, Secretary White of the American embassy at London, Commissioner of Pensions Evans, Comptroller Dawes, Generals Bates and Schellenberger, Congressman Livingston and many ladies of the cabinet circle. The drawing room of the private coach which President and Mrs. McKinley occupy was beautifully decorated with flowers.

"White House" on the Train. The journey will be 15,000 miles long, the party will visit twenty-five states, traveling over twenty-seven railroads, in the most sumptuous train ever drawn by an engine. It will require nearly seven weeks to make the journey, and during that time the affairs of the government will be administered from a moving train, without the slightest hitch or inconvenience. Everything contrived by human ingenuity has been brought into requisition for the comfort of the president and the other members of the party, numbering twenty-seven in all.

The party will live in a special train of seven cars especially equipped for the trip, including the private car of President Robert T. Lincoln. The train consists of the dining car St. James, which is handsomely finished in red leather and upholstery, and with extra wide vestibules to give the waiters room to pass in and out without encroaching; the observation car Olympia, the most handsomely furnished car in the world; the Clarion, a sleeping car, finished in mahogany, with royal blue plush upholstery; the drawing-room car Pellon, finished in satinwood, mahogany, and with royal purple upholstery; the smoking car Atlantic, which is fitted up with a barber shop and other conveniences. There are two compartment cars, the Omnia and the Guiana, which are especially arranged for the trip. A picked crew has been chosen, and when the journey is over, the American roads will have made a record which will eclipse all previous ones.

At San Francisco May 14. President McKinley is looking forward with great pleasure to the trip, as it will give him an opportunity to visit many sections of the country, which he has never seen. The party will arrive at San Francisco, via New Orleans, on May 14, and returning through Yellowstone Park, at Washington on June 10. The longest distance to be traveled without a stop will be from San Antonio to El Paso, Tex., a distance of 624 miles. The party will stop from one hour to one week at the following places: Memphis, Tenn.; Vicksburg, Jackson, New Orleans, Houston, Tex.; Austin, San Antonio, El Paso, Phoenix, Ariz.; Los Angeles, San Buenaventura, Santa Barbara, Del Monte, Santa Cruz, Palo Alto, San Francisco, Stockton, Sacramento, Redding, Ashland, Salem, Ore.; Portland, Bate, and Helena, Mont.; Yellowstone Park, (four days) Salt Lake City, Colorado Springs, Denver, Kansas City, St. Louis, and Chicago.

The party consists of the president and Mrs. McKinley, Miss Barber, Secretary Hay, Mrs. Hay, Postmaster General Smith, Mrs. Smith, Secretary Long, who will join the party on route; Mrs. Long, Secretary Hitchcock, Mrs. Hitchcock, Secretary Wilson, Miss Wilson, Rear Admiral George Melville, Secretary Cortelyou, Mrs. Cortelyou, Assistant Secretary Barnes, Dr. P. M. Rixey, Mrs. Rixey, Henry T. Scott, president of the Union Iron works of San Francisco, Laurence I. Scott, Charles A. Moore, Mrs. Moore, M. A. Dingman, Mr. Krautschnitt, vice president of the Northern Pacific; L. S. Brown, general agent of the Southern railway; and a number of newspaper reporters.

WAS A DAY OF OVATIONS. Presidential Party Gets a Flattering Reception in Virginia.

Bristol, Tenn., April 29.—The first day of the president's long tour to the Pacific coast ended when the Tennessee line was reached at 10:55 tonight. The presidential party received a flattering ovation from the time the train left Washington. Large crowds assembled at every station while the crossroads each had its little group of waving watchers straining their eyes to catch a glimpse of the chief magistrate as the train whizzed by. At Charlottesville, the students of the University of Virginia turned out, at Lynchburg, Senator Daniel, Virginia's crack orator, made the speech of greeting to the president, and at Roanoke two bands crashed out a welcome. At each of these places the president responded to the loud calls made upon him and spoke briefly from the rear platform of his car.

Talks to University Students.

Charlottesville, Va., April 29.—The presidential train, with a tiny flag on the pilot of the engine, denoting that the chief magistrate of the nation was on board, arrived at Charlottesville on schedule time. A brief stop was made at Alexandria, where a great crowd had assembled. The president and Mrs. McKinley appeared upon the platform and acknowledged the salutes. People gathered at every town, village and crossroads through Virginia to see the train go by. At Manassas, Culpepper and Orange, the crowds were especially large. As the train approached Charlottesville the party had a glimpse of the old home of President Madison at Montpelier.

At Charlottesville the students from the University of Virginia lined up alongside of the train and gave the president three rousing cheers when he made his appearance. From the platform of his car the president spoke as follows: "It gives me great pleasure to receive the greeting of the people of Charlottesville and the cheers of the young men of the University of Virginia. Your institution ranks with great names and great deeds, and has influenced both. What an array of illustrious names Virginia holds in her keeping to remind us of lofty patriotism, broad statesmanship and noble achievements! To no other state in the American union belongs such a history to preserve and cherish such examples to inspire and emulate. May the young men of the state of Virginia prove worthy sons of the noble ancestors and contribute in the future, as they did in the past, to the well being, honor and glory of the Republic. Let me assure you, young gentlemen, that I do present and future hold rich reward for good scholarship, high character and noble endeavor; and I wish which I leave with you is that of these you may have your full share." There were calls for Secretary Hay, but his only response was to introduce Postmaster General Smith, who spoke briefly.

Met Before by Shot and Shell. In the city of Lynchburg, the home of Senator Daniel, there was a stop of ten minutes. Senator Daniel, Mayor Smith, the members of the board of trade and city council and a great crowd greeted the party with old-fashioned Virginia enthusiasm. Senator Daniel made a speech of welcome, to which the president, in responding, said:

"I am very glad not only to meet the people of the city of Lynchburg, but to be greeted by your distinguished senator. It is a matter of no public interest, but only one of pure personal recollection that the first time I ever tried to come to Lynchburg I did not succeed. I came here with a number of other gentlemen who sought entrance, but the gates were closed. We could not open them and you would not. And so we departed to see another host, if not more hospitable, less formidable than the one that greeted us here. It is high time for me to greet to Lynchburg now—the war is over and there is no exchange of greetings with shot and shell, as then, but the friendly welcome of all the people which typifies the respect, regard and good will which subsists between all sections of our common country."

The biggest and noisiest demonstration of the day occurred at Roanoke. Thousands were at the station and two bands greeted the president. The president, in response to calls for a speech, made the following remarks:

Tells of Nation's Prosperity. "I congratulate you, I congratulate myself, on the glorious country in which we live, and that once more and forever we are devoted to the same cause and same flag. I congratulate you upon your progress, as well as your prosperity. We never have had so much to do in all our history as we have now. We never have had so much business at home nor so much abroad. We never have made and have never sold so much as we are selling this year. We are expanding our markets. Our productive capacity has become so great that we are not only able to supply our home markets, but require foreign market for our surplus, so we are seeking an open door in the Orient for the products of American soil and American labor. What we want to do now is to be prudent in our prosperity, save while we can, so that if storms should come we shall better be prepared to meet them. Whatever comes, let us be fortified by the practice of economy while we all are so well employed.

We are not only expanding our markets, but expanding our territory. The policy of the United States always has been to keep what it originally started with and hold all it honorably gets. We have refused to divide our original possessions and we would be the last to desert our new possessions."

The impression prevails that the experiment made by the Carnegie Steel company last year in shipping steel to Europe via the Welland canal proved abortive or too expensive.

Nerves that Die

For lack of nourishment are just as dead as though they were severed with a knife. In either case the base of supplies has been interfered with. Nerves that need nourishing make their wants known through headache, backache, loss of appetite, indigestion, fluttering of the heart, irritability, sleeplessness, and general weakness.

"For many years I was troubled with nervous dyspepsia. Weeks at a time I have suffered so much that I could not retain food at all. These attacks brought on nervous prostration and I got no rest day or night. I tried many physicians and advertised remedies, but never found relief until Dr. Miles' Nervine was recommended. I then found I could rest well and retain food as was soon restored."

**HIS HEAD IS SEVERED.**  
James O'Houlihan Meets Instant Death in Accident at the Canal.

James O'Houlihan, one of the crew on Hingston & Wood's dredge No. 10, at work in the Canal, met a horrible and instant death at about 9 o'clock yesterday morning while on duty. The unfortunate man was the victim of an accident which completely severed the head from his body. O'Houlihan at the time was at work on one of the scows, which was attached to the dredge by means of a rope that was coiled and recoiled around a movable spool on the scow by means of an engine. While the men were manipulating with the cable, intending to have it wound around the spool, O'Houlihan had taken a hold of the end of the rope on the scow. The engine was started up suddenly, the victim's hand became entangled in the rope and the mishap served to pitch him forward to the spool, where his head was caught tightly against the windlass and completely severed. Death, of course, was instantaneous.

The whole affair took place so quick that the men around him could render no assistance. It was hard for them to realize that such a thing had happened. All work was immediately stopped and Porter Bros., who have charge of the government dredging work at the Canal and for whom O'Houlihan worked, quickly made arrangements to communicate to Houghton and Calumet, where a brother of the deceased lives. The tug Genevieve was next sent by Porter Bros. to Houghton for the purpose of getting a coroner and a jury. In the meantime Undertaker John B. Ryan of Calumet started for Houghton. Judge Finn of Hancock impelled a jury, some of the members being from the village, and the party was taken to the Canal, where an inquest was held.

James O'Houlihan was twenty-eight years of age and his home was at Saginaw, where his parents reside. During the summers he had been accustomed to dredging work, and at the beginning of the present season was readily given employment by Porter Bros. He was a single man. He had a brother, William O'Houlihan, who is an employe of John B. Ryan's livery at Calumet. It is not known at this writing what arrangements will be made for the funeral. It is likely, however, that the remains will be shipped to Saginaw for interment. The news of the terrible accident was a decided shock to the young man's copper country friends.

**HANCOCK POSTOFFICE MOVED.**  
Mr. Emery Takes Up New Quarters in the Kauth Block.

Postmaster George Emery of Hancock has moved into his new headquarters in the Kauth block and tomorrow will be ready for business there. The improvement in Hancock's postoffice service will be decidedly noticeable and will be appreciated by business men. The handsome new office is one of the best in the upper peninsula. It is located in about the center of the business portion of the village and on that account will be more handy for the patrons. There is about twice the room in the new office as the old and the employes will be able to work to better advantage. Now that Mr. Emery is located in new quarters it is likely the free delivery system will again be agitated, as the principal excuse before was the lack of room for the carriers and others connected with the local service. The fixtures for the new postoffice arrived from Chicago last Thursday afternoon and the work of installing them was started Friday morning. George L. Lavery of the firm of George L. Lavery & Co., of Chicago, from whom the furnishings were purchased, personally supervised the arranging of the same. The general delivery case is of massive oak and very attractive in appearance. It is in the shape of a letter U, the base of which was arranged to face the entrance way to the offices. Over the frame is a sign, "Made for A. Kauth & Son by George L. Lavery & Co."

The lock boxes did not accompany the case on account of a delay in the factory where they are made, caused by a strike of the employes. Until the new boxes can be procured the old ones will be used in their stead. At the left of the office, a small room having a swinging door will be apportioned off for the money order apartment.

**BANK ASSESSMENTS RAISED.**

Mining Property Rated Lower by Supervisors Than Tax Board's Figures.  
At the last special meeting of the county board of supervisors, the question of assessing the mines of the county came up and after due deliberation the matter was settled. It was the intention of the members of the board not to make anything public regarding the proceedings, but as the figures of the assessed valuations of the mining properties have been discussed in certain quarters a few remarks may not be amiss.

The assessed valuation of the mines was placed at \$85,000,000, a comparison to \$121,000,000 fixed by the tax commission while on its visit to copperdom last year. The highest assessment on any mine in the county is 80 per cent of its actual intrinsic value and the lowest is 40. The average may be placed at about 50 per cent.

In order to make a showing and to supply the apparent deficit in the roll, the banks of the county were quite severely assessed, the stock of each one going down at 90 per cent of its assets. Last year the banks were treated in the same way, and although at that time—and also at the present—a protest was made by certain supervisors against such a high assessment it was without avail and the figures were made. The banks, of course, are dissatisfied because they are to suffer at the expense of the mines and consider that their assessments should be as low as those of the mining properties, or, in other words, they are willing to be assessed according to their assets if the board follows a similar method of procedure with the mining companies.

The action of the supervisors as a body has created not a little discussion in both Houghton and Hancock, and in nearly every case it is the opinion that the banks should not have been assessed so high. Of course, when the tax commission makes its 1901 visit to the copper country it will likely proceed to raise the assessed valuations of the mines, and in some quarters it is believed that is the reason why the board placed the total amount at \$85,000,000 this year. Still there is the question now a prominent one—whether the supervisors did right in treating the banks as they did.

**BLUFF TWO BLOCKS LONG.**

Would Be Costly Job to Join Montezuma and Main Streets, Houghton.

At a recent meeting of the Houghton council, the "bluff" question again came up for some but not very serious discussion. Three citizens who are directly interested appeared before the board and the one acting as spokesman requested the trustees to take action regarding the removal of the large bluff (between Portage and Franklin streets) in the eastern part of the village.

As is well-known, Montezuma street going east does not merge into Main street—on account of the bluff being in the way—but stops at Portage. For several years past the council has been regularly petitioned by people living near the high rock to have it removed, giving as their reasons that as taxpayers they were not enjoying the same privileges of the water and sewerage systems as others. Each time the board has considered the matter but done nothing because the money necessary to do the work was not either on hand or forthcoming.

It is doubtful whether the village will ever attempt to cut through the bluff from Montezuma street, although the trustees promised this year to figure on the job. They consider that money can be expended in other directions to better advantage—such as on the fire and water systems, which would benefit the people as a whole. The work of cutting through the bluff, which is two blocks in length and of solid rock, would be an immense undertaking and would cost several thousands of dollars. The money for it is not now on hand and, as has been stated before, the people, it is thought, would not stand another year being out on which payment comes due in 1927.

**NOTES OF MARINE NEWS.**

The tug John Ward, from Marquette, owned by Powell & Mitchell of that place, arrived in Houghton yesterday afternoon. It was the first craft into Portage lake from Marquette this year.

The Jay Gould, of the Lake Superior & Lake Michigan Transportation line, is expected at Houghton this evening. It is understood the steamer left Chicago last week, bound for Duluth. The Peerless, of the same line, leaves Chicago today.

The tug E. G. Maxwell, which was purchased from Sands & Maxwell, Pintwater, Mich., by Whitney Bros., Duluth contractors, passed through Portage lake yesterday afternoon on its way to Duluth. The craft at one time was a small passenger steamer, but since its purchase by the Duluth firm has been remodeled and converted into a tug.

The tug Silver Spray, owned by James Pryor of Houghton, is for sale, the dissolution of the Pryor Fish company early this spring being Mr. Pryor's reason for desiring to dispose of the boat. The craft was used by the company on trips along the lake shore to buy up fish. It is a trim little tug and it is likely it soon will be purchased.

**NEW SIDEWALK GOING DOWN.**

Much Needed Improvement to Be Made in Portage Lake Bridge.

A new sidewalk will be built across the county bridge and the contract soon will be awarded. The present walk, which has been down for a number of years, is in very bad shape, the boards being loose and also worn from the great travel that continually passes back and forth between Houghton and Hancock. During the winter the walk was at its worst, when the snow from underneath would be driven through the wide cracks to the surface, thus making the walking exceedingly unpleasant on account of the high banks of snow to one side. The board of supervisors realized the necessity of having a new walk and took prompt action in the matter, with the result that a new set of boards will soon be nailed in place.

**SIX TEAMS IN THE FIELD.**

Young Men Living at Houghton Boarding Houses Playing Ball.

As showing the activity in baseball commented upon in a recent issue, it may be stated that at least six teams are in the field at East and West Houghton, the young men at that number of boarding houses playing the game. They reside at the homes where Meslames Miller, McFarland, Dave, Kelley and Burroughs are hostesses and at the Keweenaw club. At each one the interest is very great and already steps have been taken to arrange a schedule of games and form a league which will be strictly limited to the boarding houses. The make-up of the nine at one particular house—Mrs. Dawe's—is especially notable because of the fact that each one of the men has played on good teams previous to taking up residence in Houghton. The line-up and the positions the men once held are as follows:

- Williams—Captain, shortstop and pitcher, Detroit High school.
- Sturdebant—Pitched on Yale Varsity team for two years.
- Gibson—Catcher, Detroit College of Medicine.
- Bailey—Kansas City Blues.
- McConnell—Second base, University of Chicago.
- Cotton—Annapolis Naval Academy team.
- Pearce—Negotium High school.
- McIntyre—Notre Dame University.
- Young—San Francisco Athletic club.
- Oliver—Second U. S. Infantry team in Cuba.
- Gallagher—University of Oregon.
- Brown—Class team, University of Michigan.
- Moore—Marquette High school.
- Black—Lafayette College, Pennsylvania.
- Harkness—First base, Allegheny Athletic association, Pittsburg.

**ONE GAME ALREADY PLAYED.**

One game has already been lost and won, and the fans are delighted. It was the first game of the year at Portage Lake and was played the other morning at the Hancock Driving Park between the Dawe "boarding house" club of East Houghton and the Burroughs "boarding house" team of West Houghton. It ended in a victory for the former by the score of 8 to 4. The game was witnessed by a large crowd of people and very pretty ball, considering the earliness of the season, was played by each team. But five innings were played, as several of the boys had to take the 11:30 morning train for Calumet. The Dawe team played decidedly the best game throughout, only falling down in the third inning, when it allowed five runs to be scored by the opposing side. The Burroughs club, however, is confident it can defeat its opponents after more practice and it is likely another match will soon be arranged. The score by innings was as follows:

At Hancock Next Sunday.  
The Hancock baseball team will play its first game of the season with the Lake Linden village nine at the Hancock Driving park next Sunday afternoon. It will also be the first match for the latter aggregation, but as both teams are in fairly good shape after some hard practice an interesting contest may be expected. The game is one of a series arranged for by the manager, Ed. Hoeking.

**MAY DRILL IN THE STREETS.**

Drill by Company G, Houghton Light Infantry, will be held Thursday night of this week instead of Wednesday as announced on account of the appearance of Al L. Wilson on that night in "The Watch on the Rhine." If the weather is pleasant and suitable, it is the intention of Captain Hendricks to take the boys out on the street. From Thursday night on two drills a week will be held until the annual state encampment takes place. The Houghton company is as well drilled as any in the state and that is the result of regular and steady drilling and training.

**SAD DEATH AT HANCOCK.**

Mrs. Mary McGee, a well-known and popular Hancock lady, died at her home in the Osceola addition to the village at 3:30 o'clock yesterday morning after a short but severe illness. Her death resulted from child birth, twins having been born just a short time previous. One of them died soon after birth but the other is living. Mrs. McGee was thirty-seven years of age and was the wife of William McGee, who was until recently in the employ of the Mineral Range Railroad company as a telegraph operator. The funeral arrangements are not yet made at this writing.

Notes of News Concerning Houghton County's Great Industry.  
At Boston, Saturday, 1 per cent was bid to call 500 Copper Range at 70 for ninety days.

A meeting of the stockholders of the Wyandot company will be held at Boston, May 13, at noon, for the election of directors.

Over ninety per cent of the shares of Boston & Montana and Butte & Boston companies have been deposited under the terms of the directors' circular.

The stock of block sold by the reorganized Bingham Mining company will be paid for Wednesday, and will put \$1,000,000 in the company's treasury.

It is now the expectation that the Baltic mill will commence stamping about the middle of September. Fifty new jigs from Cleaves foundry are being shipped to the mill.

W. R. Todd, secretary and treasurer of the Quincy and Adventure mines, arrived in Houghton yesterday afternoon from the East and will spend a short time in the copper country.

The feature of the copper stocks yesterday was the rise of Moiwank to 58. The stock is reported as being absorbed in the East and that it will go higher, and it ought to, considering the demonstrated worth of the property and its wonderful outlook.

Twenty-seven tons and 700 pounds of mass and barrel copper from the Adventure mine—a whole carload—arrived in Houghton Saturday night via the Copper Range railroad. The shipment was billed to the Quincy smelters, where it was taken later.

Mr. Heinze has applied to Judge Clancy for the appointment of a receiver for the Parrot company and for an injunction to prevent the further amalgamation of that company with the Amalgamated. Charges of fraud and conspiracy between the officers of the Parrot and the Amalgamated are made and it is alleged that the transfer of the control of the management of the Parrot is contrary to the laws of Montana. A restraining order has been issued and the injunction matter set for hearing May 21.

The recent negotiations for another option on the Belt property seem to have fallen through. The mine is still being kept free of water, and some of the fourteen part owners favor spending their own money in extending the development of the property. The future of the Belt depends very largely on the result shown when the new stamp mill of the Mass is in permanent operation. The properties are so near together that the success of the Mass will, in a measure, prove the value of the Belt.

Shortly after the failure to float the property certain Detroit people became interested and opened negotiations for the purchase of the option. The matter hanged on until just recently, when the deal was called off, the parties concerned not being able to agree on a price.

apparatus for dumping ore from large skips. The hoisting engine is one of the two big ones built for one of the Constock mines in 1887, but which has been used only eight months. It was purchased by the Parrot company for a small part of its original cost. It is rapid and of almost endless capacity. During the time the construction work has been going on on the new surface plant the Parrot mine has continued its regular output by a temporary shaft and engine. The new plant will be in operation within a month.

TRAPPED BY CHINESE

DETACHMENT OF 80 GERMANS SUSTAINS 45 CASUALTIES.

EVACUATION IS TALKED OVER.

GENERALS OF THE POWERS MEET IN A CONFERENCE.

Decided That Withdrawal of the Troops Is Impossible Until the Court Has Agreed to the Indemnity and Its Payment.

Pekin, April 29.—The generals of the powers held a conference this morning to consider the question of the withdrawal of the troops, and decided to address a note to the ministers informing them that, when the ministers are able to announce the lump sum demanded as indemnity and the Chinese have agreed to the principle of payment, arrangements will be made for withdrawal.

Other matters discussed were the handing over of the administration of Peking to native officials and a plan for the command of the legion guards, as to whether this command should be centered in one officer or each detachment should be independent. Regarding the government of Peking, it was decided to allow the Chinese gradually to assume more control until the civil government was entirely in their hands, the military only exercising supervision.

One Commander-in-Chief.

Later—Some time was spent in considering the reply of the ministers to the views recently given by the generals regarding other questions of purely military character. The ministers agreed with the generals as to the raising of the forts, and also as to the points to be occupied between Peking and the sea, but they desire the generals to specify the numbers of the different nationalities to be kept at Tien Tsin and Shan Hai Kwan.

In so far as concerns the garrison of four thousand men which is to remain provisionally at Tien Tsin, during the period of actual occupation, it will be necessary that each nation's strength shall be determined. The ministers believed the provisional government at Tien Tsin should be abolished as soon as the situation permits. They agree that the forces in China should be under one commander-in-chief, but they contend the generals should understand that the legion guards are entirely outside of such forces and are under their respective ministers.

The ministers suggested it would be necessary for the generals to consider the advisability of entrusting the police and administration of Peking to Chinese officials about a month before evacuation; but, in considering this question, they urged that the fact must be recalled that there never had been a military administration or permanent military organization in Peking. Concerning the question of military evacuation, the ministers informed the generals that the proposition favored by the military had been submitted unanimously by the representatives of the powers to their governments and that a partial reduction of the troops was ready possible, but that the evacuation proper could not commence before the Chinese government had fulfilled Articles II and X of the joint note and not before China had accepted the general conditions for the payment of the indemnities.

Country Devastated by Troops.

The Germans were virtually caught in a trap near Ku Kwan. A detachment of eighty had forty-five casualties, while the Chinese losses are said to have been minimal. The German expedition has returned leaving the country greatly disaffected owing to the hardships inflicted upon the population.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system.

upon the population. Altogether, the expedition appears to have produced a very bad effect. Current Chinese gossip is that the Germans were driven back with heavy losses, and this is implicitly believed by the bulk of the people.

Li Hung Chang has received a dispatch from the governor of the province of Shan Si asserting that three hundred French soldiers, accompanied by two thousand armed Christians, are within the borders of Shan Si and have caused great distress and trouble wherever they have passed.

Natives Enlisted by British.

The British have enlisted a number of Chinese at Tien Tsin for the Wei Hai Wei regiment.

Lin Kun Yi has asked the throne for permission to inaugurate a subscription fund in order to assist the government in paying the Chinese soldiers.

Numerous reports have been in circulation to the effect that the derailing of the train between Li Fa and Yang Tsin was not the result of an accident, but the work of Chinese. These, however, are entirely without information, as a thorough investigation proves that the wreck was due to a defective culvert.

Many Chinese Guns Taken.

Berlin, April 29.—A supplementary dispatch received today from Kiel Maréchal concerning the recent engagements near the great wall says: "During the pursuit, Meulmann's battalion struck the left flank of the Chinese main position three miles east of the great wall. The enemy was surprised and fled and were pursued as far as Ku Kwan. Sixteen mortar quick-firers and a number of older guns were captured. Meulmann was opposed by 8,000 Chinese. The return march of all the columns began on April 15."

COSTLY PITTSBURG BLAZE.

Pittsburg, April 29.—Fire at the corner of Carson and Seventeenth streets, South side, today, caused the death of an infant child, and a property loss estimated at \$225,000. The flames consumed over a dozen buildings and rendered a score of families homeless.

Later—The child of Mrs. Kate Donley, supposed to have perished in the flames, was discovered safe in a house on Twenty-second street, where some women had carried it while the mother was being removed from the building.

Fire Horror in France.

Cannes, France, April 29.—Fire broke out last night at an artillery camp in the vicinity of the village of St. Jean. Eight artillerymen were burned to death and several injured.

Wisconsin Town Swept.

Berlin, Wis., April 29.—The business portion of Wautoma, the county seat of Waushara county, was totally destroyed by fire this morning. The loss is \$100,000.

MATTY MATTHEWS WINS.

Defeats Tom Coughig for the World's Welterweight Championship.

Louisville, April 29.—Matty Matthews of Brooklyn got the decision tonight in a twenty-round contest for the welterweight championship of the world over Tom Coughig of Dunkirk. Coughig had the best of the fight up to the eighth round, but his nose was broken in the ninth, and in the thirteenth he was nearly out. The bout took place at the Rucker's theatre under auspices of the New Monarch Athletic club.

Sullivan Defeats McClellan.

Louisville, April 29.—Jack McClellan of Pittsburgh was knocked out in the twentieth round tonight by Dave Sullivan of Brooklyn before the Southern Athletic club. The fight was one of the most scientific and vicious ever seen in Louisville, and when McClellan got knocked out it seemed as though Sullivan did not have steam enough left to knock out a child.

MURDER AT JACKSON.

Ira Lugers Killed With a Stove Shaker in a Drunken Row.

Jackson, Mich., April 29.—Ira Lugers died tonight from wounds inflicted by a vicious assault with a stove shaker during a drunken spree, and Frank Daniels, Elmer Filley and John Olay are under arrest on suspicion of the murder.

Card Game Ends Fatally.

Mattoon, Ills., April 29.—In an altercation in a saloon at Sullivan over a game of cards this afternoon, Fletcher Patterson was fatally stabbed by a stranger. The murderer escaped and several posses are in pursuit.

Slays His Son-in-Law.

Lexington, Ky., April 29.—James Prince, an express wagon driver, today shot and killed his son-in-law, Charles Downing, who attacked him with a knife.

MINE GAS EXPLODED.

Five Men Lose Their Lives at Alderson, I. T.—Others Injured.

South Macalister, I. T., April 29.—By an explosion in the mine of the Macalister Coal company at Alderson this morning, five men lost their lives, seven were injured and another is reported missing. The explosion occurred about a quarter to seven this morning when about 125 men were at work in the mine. It is not definitely known how the gas ignited, but it is thought to have been caused by an improperly prepared shot.

Fatality in Illinois Mine.

Springfield, Ills., April 29.—William Becker and son Frank were instantly killed today in the Clear Lake Coal company's mine by an explosion of blasting powder.

BURLINGTON DIVIDEND.

Boston, April 29.—The directors of the Burlington road today declared a dividend of \$2 per share for the two months ending July 1.

BUYS BRITISH LINE.

ACTING FOR U. S. CAPITALISTS.

FLEET TO BE MERGED WITH ATLANTIC TRANSPORT CO.'S.

Said Also Ten Big Boats Have Been Ordered and \$50,000,000 Will Be Spent for New Vessels by the Syndicate.

London, April 29.—The first step in the direction of the consolidation of some of the biggest transatlantic shipping interests has been accomplished by the purchase, today, by Morgan & Co., of the Leiland line of steamers. The representative of the Associated Press learns that the purchase of the Leiland line is tantamount to its consolidation with the Atlantic Transport line. For the present the Leiland will retain its name and be under the same management, though changes in the directorate are likely to occur shortly.

London, Tuesday, April 30.—The Daily Express asserts that the financiers for who J. Pierpont Morgan is acting have ordered ten big liners, and that the Americans will spend \$10,000,000 upon new vessels during the coming five years.

FOREST FIRES IN WISCONSIN.

Fanned by Strong Wind They Spread Alarm at Chippewa Falls.

Chippewa Falls, Wis., April 29.—Forest fires are raging near this city and the people are becoming alarmed. The wind is blowing forty miles per hour, and unless rain comes a large amount of farm property will be destroyed. Four spans of the Wisconsin Central bridge crossing Trout creek were burned yesterday. Tony and Apollonia report fires near these places.

Danger at Fouché, Mich.

Traverse City, Mich., April 29.—Serious forest fires raged at Fouché, eight miles from here. There has been no rain for some time, the woods are dry and it is feared great damage to farm property and valuable timber will result.

SHORTAGE OF \$22,000 ALLEGED.

Ex-Lieut. Reed of Des Moines Accused of Juggling His Accounts.

Des Moines, April 29.—George A. Reed, lieutenant of the Fifty-first Iowa regiment and acting commissary at the Presidio in 1898-9, has been made the defendant in a suit for \$22,442, for which it is alleged, he has failed to render satisfactory accounting. The action is instituted by Lewis Miles, United States attorney for the southern district of Iowa, and is based on the report of F. E. Rittman, auditor for the war department. It is alleged that supplies valued at \$211,177 passed through Reed's hands. Reed, who is in business in this city, declares that the supplemental accounting by him will explain the apparent shortage.

PUGILIST ACQUITTED.

London Jury Finds Billy Smith's Death to Have Been Accidental.

London, April 29.—The coroner's jury which has been investigating the death of Billy Smith, the American pugilist fatally injured last Monday in a bout with Roberts, today rendered a verdict of accidental death.

GIVES WAY TO CONGER.

Perkins Withdraws as a Candidate for Governor of Iowa.

Sioux City, April 29.—George D. Perkins has withdrawn from the contest for the Iowa Republican gubernatorial nomination. In announcing his withdrawal today he says: "Hon. Edwin H. Conger, upon his return to the United States having reiterated the assurance that he would accept the nomination of the Republicans of Iowa for governor, if they should decide to tender the nomination to him, I withdraw my name from further consideration in connection with that office."

VICTORY FOR THE "WETS."

Parker, Democrat, Declared Elected Mayor of Topeka, Kas.

Topeka, Kas., April 29.—Judge Hazen in the district court today decided the mandamus proceedings in the Parker-Hughes mayoralty contest case in favor of Parker, the Democratic candidate. On the face of the returns Parker received a majority of eleven, but the council found an error in the tally sheets which gave Hughes a majority of nine and it gave him the certificate of election. The case will be appealed. Hughes was the candidate of the Law & Order league, and the decision is a victory for the "wets."

SUICIDE FOLLOWS RUIN.

Big Ship Owner and Grain Exporter of Roumania Kills Himself.

Vienna, April 29.—A dispatch to the Neue Freie Presse from Bucharest says that Garavali, one of the largest ship owners and grain exporters at Braila, has committed suicide by shooting. His alleged liabilities are five million francs. The affair has caused intense excitement.

Had a Tilt With Sweetheart.

Oshkosh, Wis., April 29.—Differences with his sweetheart over religion caused Jacob Biedermann, Jr., aged thirty, to commit suicide by jumping into Fox river. His bicycle was found on the bank three weeks ago, and today the body came to surface.

Forgot to the Extent of \$35,000.

Sioux City, Ia., April 29.—Charles R. Blackman, the grocer of Ida Grove who committed suicide a few days ago by shooting, is alleged to have secured \$35,000 by means of forgeries. This is alleged to have been the motive for the suicide.

TOO MANY TRIPLETS.

Gov. Stanley of Kansas Getting Poor Through Offer of Silver Mugs.

Topeka, Kas., April 29.—Governor Stanley confessed today that he made a foolish offer a month ago when he agreed to give a solid silver mug to all triplets born in Kansas during his second administration. Five fond mothers already have secured from the governor fifteen nice silver cups for their babies, and today's mail found a letter from a man, backed up with the affidavit of A. C. Dunlap of Crawford county, saying that two sons and a daughter were born to his wife two weeks ago.

It's a spring medicine; and the chances are you need a bottle or two of it. You want something that acts directly on the blood, takes out all impurities from the system, braces up the nerves, and makes you in tune with the time of year. It's a spring medicine—Ayer's Sarsaparilla. There are fifteen remedies, Nature's own remedies, in this grand old family medicine. If you are feeling all run down this spring, are dragging around in a miserable condition, and go about your work in a lifeless kind of a way, try a bottle or two of Ayer's Sarsaparilla. You will be wonderfully pleased with the result. "I have used Ayer's Sarsaparilla every spring and fall for a great many years. I am sure it keeps me free from boils and other signs of impure blood. It is just the medicine one needs to meet the pronounced changes of the seasons."—Geo. R. THOMPSON, Rupert, Vt.

CHEROKEE TREATY DEFEATED.

Clarence, I. T., April 29.—Reports from over the territory indicate that the election today resulted in the defeat of the Cherokee treaty, the vote against ratification apparently being heavily in the majority. Definite figures will not be obtained before tomorrow.

Muskogee, I. T., April 29.—The indications are that the Cherokee treaty has been beaten by a large majority. Definite means the enforcement of the Curtis law and much legislation.

TRAVELED WITH LINCOLN.

Clinton, Ills., April 29.—Clifton M. Moore died today after a brief illness, aged eighty-four. For half a century he had been the leading lawyer of Central Illinois and in early life traveled the circuit with Abraham Lincoln. Mr. Moore was one of the largest land owners in the West and leaves an estate valued at two million dollars.

ST. LOUIS FAIR STARTS WELL.

Washington, April 29.—Representative Tawney of Minnesota, chairman of the committee on the Louisiana Purchase Centennial, is back in Washington from St. Louis. He says the fair there starts off with a larger financial and other backing than any previous exposition in the history of the world. Its managers have \$16,000,000 at their disposal, five of which comes from the government, five from the city, five from individual subscribers, and one from the state of Missouri. Illinois recently appropriated a quarter of a million dollars for a state building there, which is \$100,000 more than Missouri sent to Chicago for the same purpose. This, he thinks, pitches the keynote of state expenditures.

The fair will not only be an industrial exposition, but will show, by its collection of plants and animals and of descendants of the aboriginal tribes how the territory was occupied at the time of the purchase, and what has been done since. This comparative showing, he says, "will vindicate the wisdom of those who brought it about and rebuke the timidity of those who in that day feared territorial expansion." The great heat of St. Louis in midsummer, Mr. Tawney recognizes as an objection, but this by beginning early in the spring and continuing till late in the fall it may be possible to neutralize.

Boys', Misses' and Children's Shoes.

The lack of proper styles, proper shapes and proper leathers and, above all, shoes constructed with regard to the needs of the growing foot, has been noticeable to most mothers. The difficulty of obtaining them at home has led many to order from large city dealers and incur the extra expense of expressage and the inevitable chance of a bad fit. Our misses', boys' and children's lines of footwear have been selected with an eye for service, style and hygienic laws for the treatment of the growing foot, and we solicit your patronage on these lines upon the absolute superiority of the make and the certainty of being able to please you.

**EIGHT BOYS UNDER ARREST.**

Charged With Being Implicated in the Joachim-Blumenthal Robberies.

The police force of this city made a good haul Saturday, Sunday and yesterday, when they arrested eight boys who are charged with being implicated, or of knowing something about, the robberies which occurred in the stores of Sam Blumenthal and John W. Joachim. These boys are all well known about the city, but it is thought best at this time to await developments before giving their names, as some of them will no doubt be released after the examination is held.

Blumenthal's place was broken into on the 20th of last June, some time in the early morning, and a quantity of shirts and other furnishings were stolen. The officers set to work upon the case at once, but their efforts were of no avail and it was not until last week that a clue was obtained. They are very reticent regarding the affair and the complete facts cannot be learned.

Joachim's hardware store was entered on Nov. 14 of last year, and entries, revolvers, rifles and ammunition, amounting to considerable in value, were taken. This store has been broken into several times since and a similar class of goods carried off, but no mention was made of the robbery in order that those who were on the hunt might not be hampered in their search.

Statements made by certain boys and articles which they were known to possess led the officers to suspect them and upon investigation some of the stolen goods were found. The boys were arrested.

Those failing to get bonds were placed in the cooler, but most of them procured sureties and are out on bail. Prosecuting Attorney Bell and County Agent Blanchard were in the city yesterday afternoon looking into the affair, but they decided to wait until today before bringing matters to a head. Some of the lads are under sixteen and are thus in County Agent Blanchard's jurisdiction and will be dealt with by him. The hearing will be held before Justice Dunahue this morning.

**Another Matter Cleared Up.**

In connection with these arrests, Herbert Peacock was arrested on the charge of having stolen a quantity of plants from the Ishpeming Floral company's greenhouse on Third street last January. He admitted the theft and a plea of guilty was recorded. Peacock, while being examined by Justice Dunahue, stated that the charge did not cover all his thefts and continuing informed the justice that he was the one who took the \$17 from the Urban House last January. This is another of the many robberies which have never been aired publicly for prudential reasons. Sentence was suspended in this case, but as he is over the age limit he is liable for a term in the state's prison.

**Disorderly House Raided.**

The house of Della Fox on Main street was raided and the Fox woman arrested Sunday night. She was taken before Justice Kennedy yesterday morning and fined, and also ordered to leave the city. This woman is a notorious character and has been a source of much concern to the marshal. She was ordered out of town two weeks ago, and the marshal reported that she had obeyed the order at the time, but she was too clever for him and never went off Main street. This time she has decamped and will doubtless remain away. Just what moved the police force Saturday and Sunday is a hard question to answer, but anyway they covered themselves with glory enough to last them for another six months.

**BLACKSMITHS ARE HUSTLING.**

The blacksmiths here are as busy as they can be and there seems to be no let-up in the work in sight. Some of the wagon makers and horseshoers are so rushed that they begin work at five in the morning and do not knock off until after eight. Many of the local business men have had delivery wagons and vehicles of other descriptions constructed this year, and this, together with the annual spring rush, has taxed the capacity of the shops.

**WINTHROP MINE CLOSES.**

Tie-Up of Ore Carriers the Probable Reason for Shutting It Down.

The Winthrop mine of the American Steel & Wire company was shut down Saturday and all the men were discharged. The mine is an open pit proposition and the ore is not stocked, being hoisted directly into the cars. Work there had just been started after the regular winter shut down and the full force of men was not employed. The cause of the closing could not be learned, but it is supposed to be on account of the lack of shipping facilities.

Some have broached the opinion that the recent developments in Steel circles have determined the management upon this course, but those who follow mining matters closely scout that idea, as they cite the numerous instances in this region where this company owns properties which are just starting up and which will run all summer. It is probable that the cause of the shut-down is the lack of ore carriers in Marquette. When the mine will be reopened is a question which cannot be decided at this writing, as some of the local officials know anything about it.

**THE GOOD WORK STARTED.**

Last week was the banner week with the Swedish Lutheran church. It marked the commencement of work which will when finished, put that church property among the best in the county. The new sidewalk was laid by members of the congregation under the supervision of John Wahlman and is a fine piece of work. This was an improvement which was much needed. Contractor Regstrom will start the work of erecting scaffolds preparatory to putting in the steel ceiling today. Electric wiring for lighting the edifice will also be done now, and many minor repairs will be made.

The soliciting committee has been hard at work for the past two weeks taking subscriptions to clear the property of debt and meet the cost of the improvements being made, and has met with gratifying success. About \$5,000 is needed and one-fifth of this amount was raised during the first week. The Bethany Young People's society of the Lutheran church will hold an entertainment on Decoration Day, but the arrangements have not as yet been completed.

**IS A STRONG PLAY.**

"Quo Vadis" is one of the strongest plays which Ishpeming theatre-goers have had an opportunity to see and doubtless large numbers of them will avail themselves of the chance to witness it. The play will be produced at the opera house tomorrow evening by one of the best companies of the road which has ever visited this section. This play was presented here last season and literally caught the town. Those who then witnessed its presentation so heartily expressed the desire to do so again that Manager Butler readily consented to book the company for this season. The play is the dramatization of one of the most popular novels of late years, a novel which has been widely read and discussed and for this reason there are few who are not interested in it. Seats are on sale at Tillson's at 75, 50 and 25 cents.

**FIRST THUNDERSTORM.**

This city was visited by the first electrical storm of the spring yesterday afternoon. Though rain fell at intervals all day yesterday there was not enough to do much good, except laying the dust. The vegetation hereabout is crying for water and unless it comes pretty soon there will be a very late crop of several things.

### FARMERS ARE BUSY.

They Are Getting Ready to Put in Their Spring Crops.

The past week has been very favorable for farm work and the tillers of the soil hereabout have made the very most of it. The weather has been unusually mild and the ground is now in good condition for working. The only thing lacking is rain, and yesterday a moderate quantity fell, but not enough to much more than lay the dust.

Negaunee is becoming more and more of a farming center every year and there is every prospect that a few years hence some of the best farms in the upper peninsula will be found in this vicinity. The Cleveland-Cliffs company has done much to promote cultivation of the soil hereabout, as by its very liberal policy many have been induced to go on farms near here. A few years ago this section was regarded as being incapable of producing anything but iron ore, but now that belief has changed. Community having but one industry or resource is never so prosperous as one which has several, and the farming towns throughout the country, while they may be a little slower than the mining cities, have a solid foundation to rest upon, and in times of hardship and financial stringency that tell severely on the business of the latter, the granger towns generally manage to keep going. The experiment station at Chatham also has served to awaken an interest in farming in this region, and the chances are that it will do much good in that way.

The farmers about this city have been very busy the past week plowing their ground and the indications are that the coming season will be one of the most successful they have yet enjoyed. There are many strawberry plants under cultivation in this vicinity and as the owners become skilled in cultivating them they are realizing nicely from the crop. There is good money in raising strawberries. The explorations of the Cleveland company have put out of the business quite an acreage which has heretofore been used for raising potatoes and the owners are preparing to go further north this year and clear new land.

### NEW BUSINESS BLOCK.

Charles Johnson Will Start Building One This Week on Iron Street.

Iron street is to have another handsome business block as soon as it can be run up. It will be erected by Charles Johnson on the lot adjoining his saloon on the west. Mr. Johnson owns this lot, which is 22 by 87 feet, and has for some time been considering the advisability of putting up a business building there. He has decided to build, being of the opinion that there is need for several more buildings of this description in the city. The building he plans to put up will be of brick, two stories high, and will cost in the neighborhood of \$10,000. Andrew Linquist has secured the contract for constructing it and will commence the work in a few days. The old wooden building which at present occupies the site will be torn down. It has been vacant for some weeks, since the sale of Tom Dyer's candy store. With the projected Neely building, the new Baraboo store, and the many others which different merchants are making in their places of business along that thoroughfare, Iron street will soon present a vastly improved appearance. There are comparatively few wooden structures along the street now and it is only a question of time when they will be eliminated and the street will be lined with substantial brick and stone structures.

### MOVED THE DRILL.

The drill which the Oliver Iron Mining company has been operating at the eastern boundary of the East Jackson property near the railroad tracks has been pulled up and moved to the easterly boundary of the Lacy. This work was completed yesterday and as the ledge at the new location is not down very deep, it is expected that the drill will be running soon. Just why this change was made cannot be ascertained, but there are many rumors afloat concerning it. Some seem to think that the non-discovery of ore has led to the change, while others are of the opinion that this cannot be so as the drill has not been running long enough to determine with exactitude just what the land contains. George Maas is expected to return from Hot Springs this week and several deals which have been awaiting his return will then be closed.

### A BALLOON ASCENSIONIST KILLED.

News comes to us of a balloon ascensionist who was killed while making one of his daring trips. His hands slipped from the trapeze and the horror-stricken crowd saw a sight they will not soon forget. Life is too valuable to trifle with in fool-hardy adventures. It is best to employ ourselves in peaceful pursuits where we may be secure. Then if we take care of our health, we can live to a good old age. The best means of promoting health is Hostetter's Stomach Bitters. This medicine aids digestion, regulates the bowels and cures dyspepsia, indigestion, flatulency and insomnia. It will also prevent malaria, fever and ague, which is prevalent at this time of the year. Be sure to try it.

### PETERSEN'S WINNERS.

H. J. Petersen finished the drawings in his suit club Saturday evening. Though the time had not expired, it was thought best to complete the drawings so that all the members of both clubs would know just where they stood in relation to one another. In the first club Edward W. Canning of Ishpeming won out, followed in order by J. Curley, Will Quinn, Carl Moll of Kenton, William Newsom, H. C. Frankell, H. H. Havel, Henry Broad and Dr. Smith. The other members of the club will have to pay the limit for their suits. In the second club Tom Nesbitt won out, followed by Dar Ryan, Ed Laughlin, M. Cornell, James Scanlon, Fred Anthony, F. Nightingale, Captain Dick, Robert, Charles, Mack, Fred Chapman, Thomas Frathen, Joseph Stephens, William Heggaton and Napoleon Gauthier.

### "STICK TO IT."

Geo. L. Heard of High Tower, Georgia, writes: "Eczema broke out on my baby covering his entire body. Under treatment of our family physician he got worse as he could not sleep for the burning and itching. We used a box of 'Banner Salve' on him and by the time it was gone he was well. The doctor seeing it was curing him said, 'Stick to it for it is doing him more good than anything I have done for him.' The People's Drug Store.

### ISHPEMING IN BRIEF.

Fred Bennett returned yesterday noon from his copper country trip.

Lou Toutloff is around again after a very severe attack of the grip.

Reserved seats are now selling for "Quo Vadis" at the usual price.

Fred Treado of Michigan was a business visitor in the city yesterday.

Miss Ann Rogers of Hancock is spending a few days with S. A. Rogers of this city.

Mrs. Joseph M. Hayden left Sunday evening for a visit with friends in Chicago.

The cornice of the Heyn building is being repaired and put in first-class condition.

The Norwegians are already planning for their annual celebration on the 11th of May.

A daughter was born to Mr. and Mrs. John Williams of Barnum street Saturday evening.

Moto Toutloff leaves this morning for a two weeks visit with friends and relatives in Chicago.

Rev. and Mrs. H. F. Blatchley are moving from their home on Third street to the rooms over Heyn's store.

J. Sellwood & Co., are now prepared to supply the trade with fresh cream daily at very reasonable prices.

Matt Watters will leave this week for Roseland, Mr. Watters has been employed in the Lake Agassiz mine.

Tom Bargh, William Sedgwick and Al. and George Sedgwick went to Camp Nine Sunday for a stay of a few days.

Miss Kittie Blaney of Champaign is spending a few days with her friend, Mrs. John Sullivan, at No. 1 hose house.

Miss Maggie Connors has been engaged to fill the place of Miss Annie Holmes at the West Ishpeming school.

Mr. and Mrs. John Nelson are in the receipt of many congratulations upon the birth of a daughter who arrived Saturday.

Sam Robinson of the Ideal Plumbing company went down to the firm's branch in Crystal Falls Sunday evening on a business mission.

Mrs. McBurney of Amasa, who has been spending the past few days with Miss Nellie Donahue, returned to her home yesterday.

Mr. and Mrs. James McGee were called to the copper country yesterday on account of the death of Mr. McGee's brother's wife.

Mrs. Minnie Hughes has returned from a month's visit with friends in Chicago and is moving into the rooms over Crab & Toutloff's saloon.

The Pittsburg & Lake Angeline company is grading South Angeline street in front of the houses which were moved on to that thoroughfare this spring.

A Chicago salesman was here yesterday, placing a new penny-in-the-slot machine with the grocers and candy men. The machine is so arranged that imitation pennies cannot be used in it.

Ben Conway has resumed his old position as flagman and switchtender at the diamond crossing of the L. S. & I. and August Mercier is waving the white flag at the Division street crossing of the same road.

Miss Kate Walters, who has been visiting Captain and Mrs. Siscock in Bessemer for the past few days, returned last evening, accompanied by Miss Siscock, who will remain in the city for some time.

Josie Voelker has rented the building at the corner of Division and Main street to F. D. Murdock who will establish a cigar factory there. Mr. Murdock has been in this business in different parts of Wisconsin for the past few years.

The Ladies' Aid society of the Division street M. E. church will hold a social at the home of Richard Quayle tomorrow afternoon for which a charge of ten cents will be made. Ice cream will be served at an extra charge of ten cents.

The funeral of the late William Kesley will be held from the Division street M. E. church this afternoon at 2 o'clock. The Masons will have everything in charge and Rev. Stephen Pelkinhorn will preach a short sermon. Interment will be in the Ishpeming cemetery.

There is much building going on in the several locations. Four new houses are going up at the Junction, two on Washington street and two on Excelsior street. These are in addition to the many which The Mining Journal has heretofore mentioned this year.

A letter from John V. Wall conveys the information that he will arrive in Bessemer on the Saxtonia today and will lose no time in getting to this city. Mr. Wall is an old resident of Ishpeming and has been visiting the scenes of his boyhood in Sweden for the past few weeks.

Doc Embloom and a friend started to drive to Marquette the other day. Soon after passing through Negaunee they met with a mishap which compelled them to foot it back to the city. "Doc" refuses to divulge the nature of the accident but dire things are hinted by those who know him.

Mrs. Ed. Cronin, who recently returned from an extended visit to friends at Butte, Mont., intends to engage in conducting a private boarding house on a larger scale than heretofore as soon as her present home, 314 West Barnum street, can be disposed of and a larger one purchased. Her place is offered for sale in this issue.

Henry Demert, the original diamond man from New York, is here and is showing his usual complete line of the precious stones. Mr. Demert reports trade very brisk. In speaking of Negaunee he says that it is his opinion that there is more ore under that city than under any other in the country. He also states that there are more drills working there than in any other equal area in the country.

### BONDS APPROVED.

FOUR BALLOTS FOR \$20,000 ISSUE TO ONE AGAINST.

SUPPORTERS HAD SLIGHT SCARE

RUMOR CAUSED THEM TO HUSTLE FOR VOTES.

Marquette People Are to Be Congratulated on Outcome, as Aldermen Will Now Be in a Position to Seize Their Opportunities.

As was expected the voters of Marquette approved the \$20,000 general improvement bond issue by a good margin. The count at the close of the balloting at 5 p. m. showed a total of 370 "yes" compared with an even ninety "noes," approximately four votes in favor of the proposition to one against it. This result shows that the vast majority of the people of the city heartily approve of placing the \$20,000 fund with the council, to be expended at the discretion of the aldermen.

It is now apparent that the issue was sure of carrying. Before the election those interested in its success were confident that it would go through without serious opposition, but yesterday there was, for a few hours, a rather well defined scare among its supporters. The word that many negative votes were being cast passed around, rumor having it that many of them were polled in the morning. The count showed that the strength of the faction opposed to the issue was vastly overestimated, but the ballot box kept its secrets perfectly and in order to be on the safe side the supporters of the proposed issue hastened around and deposited tardy voters to the city hall to steer their ballots. The result of their work was apparent when the count was started, as in the wilderness of affirmative ballots it was some time before the first "no" was found, while the number of negative votes constantly increased as the bottom of the box was approached.

There was considerable interest about the city in the success of the bonds. The business men gave the matter no little attention and most of their number voted, with few or no exceptions in the affirmative, and sent their employees around to vote. The sentiment, as far as it was observable about the streets, was all in favor of the issue and it is only surprising that the number of negative votes totaled ninety. The total vote of 462, two ballots having been thrown out, is regarded as, all things considered, being fairly heavy.

Marquette is to be congratulated on the success of the issue. It would have been a public calamity if it had failed. There is little question that occasion for next expenditures will arise during the next few months in connection with one or another of the industrial developments about to be consummated and great and lasting ill to the city would have resulted had the voters failed to put an emergency fund at the command of the council. As The Mining Journal has remarked, not one dollar of the \$20,000 is for immediate or definite expenditure, but it is to be drawn on, in the wisdom of the aldermen, should an occasion when it can be expended to the advantage of the entire city arise.

#### AN UNEVENTFUL DAY.

There is Little of Note to Record of the Coppers.

Coppers had a quiet, uneventful day yesterday. The market was strong, but there was no particular activity. Payne, Webber & Co. said:

"The tone of the market in the copper business was considerably better, but the activity was limited somewhat by the fireworks in the grangers on the New York list. There has been a number of quite large blocks of copper stocks changing over the market, offered at prices just above current quotations. This was true of Baltic, Copper Range as well as of several others. Considerable of this stock was absorbed today and one or two more days of this should prepare the market for a good advance. We are bullish on the coppers and believe that present prices will look low thirty days hence."

#### LECTURE A SUCCESS.

Good Crowd Present at the M. E. Church to Hear Professor Hill.

The Methodist church was crowded to the doors last evening despite the inclement weather and those who ventured out were not disappointed, as Professor Hill delivered a very interesting address on his "Wanderings in Europe." His descriptions were vivid and he held the attention of his audience from beginning to end. The subject of tonight's lecture is, "Along European Byways."

#### COUNCIL TONIGHT.

Police Officers and Street Commissioner Will Be Named.

The council holds an important special session this evening. It is expected that a street commissioner will be proposed to the aldermen and that the police committee will present a list of prospective patrolmen for the ensuing year. The probability that these matters will come up will attract a good gallery crowd to the council chamber. The annual batch of liquor bonds will also come up for approval this evening.

#### ARGUMENT POSTPONED.

Cleveland-Cliffs and Breitung Attorneys Not to Talk This Week.

It being impossible for Mr. Hoyt of Cleveland, one of the attorneys for the Cleveland-Cliffs Iron company in the case of Mary Kaufman, E. N. Breitung and the Negaunee Iron company vs. the Cleveland-Cliffs Iron company, the Iron Cliffs company, M. M. Duncan and William G. Mather, to be in Marquette this week, it has been arranged to postpone the argument in the litigation until June 17. Circuit court will therefore adjourn indefinitely today. The May term will open on the 20th.

#### STILL PRETTY DRY.

A Heavy Rain is a Crying Need Just Now.

A heavy downpour of rain is the best thing that could fall to the lot of Marquette and the surrounding country just now. This has been a singularly dry spring. There has been but a single April shower and it was not phenomenally heavy. Usually the April rains are numerous. As a result of the unusual conditions, everything about the city and the surrounding country is miserably dry, in testimony of which appear the numerous fires of the past few days. The dryness of the woods is such as to occasion considerable alarm as they are peculiarly liable to serious forest fires and there is imminent danger of serious blazes unless there is a speedy change in the weather. A good old fashioned rain would do wonders in advancing the spring, which is now making but slow progress against a hot sun and dry, dusty breezes.

#### AN INSTRUCTIVE LECTURE.

Father Doherty Speaks on "The Greatest Evil of the Day."

The sermon delivered last evening at St. Peter's by Father Doherty was scholarly and interesting. The subject was "The Greatest Evil of the Day." Father Doherty presented his address in a concise and interesting manner.

In the lecture, which was replete with story, anecdote and description, he took up in detail the evils of improvidence, drink, the saloon, the divorce court and the various elements effecting faith, home and country. The speaker described the element which enters into all of these evils and which in itself was the greatest evil of the day—in differentism, which affects to believe that it is indifferent to God whether His truth is accepted or His laws obeyed. It does make a difference, all the difference in the world, all the difference between happiness or misery throughout eternity.

The subject of tonight's lecture is "The Queen of the Saints."

#### W. S. JOHNSON HERE.

He Inspected Dead River Mill Property Yesterday.

W. S. Johnson, of the South Arm Lumber company, Charlevoix county, was in Marquette yesterday. Mr. Johnson, acting for a number of capitalists, recently purchased the holdings of the Cleveland Lumber & Mill company in this county, including the Dead River plant. He spent yesterday inspecting the property. He has a couple of men employed at the mill. They are engaged with minor work and repairs. It is not yet known whether the Dead River plant will be operated the coming summer. Mr. Johnson and his associates are endeavoring to make contracts to cut a big bunch of logs, but it is impossible at this time to predict their success of failure. It is given out that, in any event, the mill will be operated next winter. Were it not for the consummation of the deal by which the South Arm Lumber people obtained the plant it would even now be in process of disintegration, as the Cleveland Mill concern had decided to dismantle it.

#### A RAGING, ROARING FLOOD

Washed down a telegraph line which Chas. Ellis of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by Stafford. Price 50c and \$1.

For the next thirty days we will make cabinets for \$2.00 a dozen. Stierle's Studio.

You cannot enjoy perfect health, rosy cheeks and sparkling eyes if your liver is sluggish and your bowels clogged. DeWitt's Little Early Risers cleanse the whole system. They never gripe. Stafford Drug Co. H. N. Meloche, Ishpeming.

"I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly, and quickly effected permanent cure." C. W. Leuhart, Bowling Green, O.

#### WAITING FOR FIRST BOAT.

It Will Not Make the Port Before End of This Week.

Marquette people in general and the officials of the South Shore L. S. & I. railroads in particular are still speculating about the arrival of the first boat. It is not expected before the latter part of this week and it is said that its arrival is likely to be delayed until some time next week. A couple of "wildcat" craft, non-union boats, were due to arrive here for cargo of L. S. & I. ore yesterday, but the officials of this line have no positive information concerning them and they have yet to learn of any of their craft passing Port Huron.

It is now quite apparent that Marquette will have one of the latest openings of navigation of recent years this spring. It is now a number of days after the date when the Tonawanda first made this port last April and it is a certainty that an early May opening is the best that can be expected. April openings are the usual rule and the rule would have prevailed this spring had it not been for the unforeseen contingency of the engineer's strike. The lakes are now clear of ice and they offer no obstacle to general navigation.

The L. S. & I. and South Shore people are now moving over from the up-the-road mines, but, of course, it will be a couple of weeks before they get fairly started in their season. The lakes are now clear of ice and they offer no obstacle to general navigation.

Later, The Jay Gould passed the Soo yesterday and should make the port today.

#### SHOPS TO MOVE.

Latest Report Consigns the South Shore Plant to Superior.

While they will not credit it, Marquette people will be interested in the following story from Sunday's Duluth News-Tribune:

"According to a prominent railroad man the South Shore road has been offered a site for its car shops and general offices in this city and the probabilities are that the same will be removed from Marquette to this city within a comparatively short time.

"A couple of months ago General Manager Fitch was in this city and looked over the grounds which were available for additional terminals and building purposes and the latter part of last week he was again in the city and spent some time in looking over the same territory. Mr. Fitch would give out nothing whatever as to the location of the new shops and another railroad man, who is close to Mr. Fitch, said that it was practically settled that the South Shore would remove its general headquarters to this city. The same authority made the announcement that a site had been officially offered to Mr. Fitch while in the city last week.

"During the past three or four years there has been talk from time to time in reference to the removal of the headquarters of the South Shore to this city, but it has been impossible to find any well posted man who would admit anything of the kind. In the present instance the authority quoted is of the best.

"In the removal of the headquarters here there is much to be gained by the head of the lakes cities. Heretofore the cities here have been rather a matter of accommodation to the South Shore road, and nothing has ever been done in the way of permanent improvements. A small round house has been maintained and one crew at a time has laid up here, but that was all. However, if the shops are located here, as well as general headquarters, it will be of much importance to Superior."

#### PLANS UP IN THE AIR.

Elks Don't Know for Certain About Their Milwaukee Trip.

Marquette Elks are giving not a little thought these days to the approaching grand lodge to be held at Milwaukee in July. A fair representation of their lodge will attend the big meeting, but the exact manner in which the delegation will travel to Milwaukee and the expense which the individual members would thereby incur. The Houghton county people propose to take the Calumet & Hecla band with them, at a very considerable expense, which will have to be shared by the Marquette county contingent in case the two delegations travel together. This means from \$10 to \$15 extra for each member who takes the trip. The copper country men are putting up this sun and they don't mind it, but many of the Marquette Elks think it is a little steep, in view of the other essential expenses of the trip.

At the last meeting here a motion assessing the members of the local lodge for this band money was lost and a compromise measure calling for contributions toward the requisite fund prevailed. There is a possibility that the iron and copper country Elks will travel together, although there need be no surprise if the Marquette county contingent finally flops by itself. The city will undoubtedly send down a party approaching some fifty members and the Ishpeming and Negaunee lodge will contribute some representation to swell its numbers.

John Habner, the short term prisoner who walked away from the branch of state prison Saturday, has yet to be located. The officials at the penitentiary have obtained no definite information as to his present whereabouts. It begins to look as if Habner had negotiated a neat escape.

The members of the Marquette club will be entertained this evening by Messrs. Dennis and Vogt, who are known as "Musical Entertainers." The exercises will commence at 8:30 o'clock. As a first-class program is promised by the young entertainers it is desired and expected that all members in the city will be present.

P. Boyer, who conducts the sample room in the basement of the Reidinger block, corner of Front and Superior streets, has installed a complete new equipment of bar and fixtures. The outfit is in the latest style and it improves the appearance of his place greatly. Along with the furniture Mr. Boyer has laid in a lot of new stock.

The Marquette & Southeastern work on Lake street is progressing without cessation. The fact that most of the heavy labor on the cut has been completed has permitted of the transfer of a large number of the men north on the thoroughfare and they are now relaying the South Shore tracks in this direction beyond Superior street. The fence which is to border the Lake street road way at the point where the deep cut has been made is now in process of erection.
