## CHECK TO CUBANS.

**CABINET DISSATISFIED WITH ACTION OF THE CONVENTION.**

**MESSAGE OF REJECTION SENT.**

**IS SHARPLY WORDED AND WILL BE DELIVERED FORTHWITH.**

Held That With the Interpretation Put Upon the Platt Amendment at Havana the Terms Have Not Been Complied With.

Washington, May 31.—The administration has decided that the action of the Cuban constitutional convention in accepting the terms of the Platt amendment with modifications and interpretation of its own is not "substantial" compliance with our terms within the meaning of the amendment, and Secretary Root will convey this intelligence to the convention. This decision was reached at the cabinet meeting today.

It was held by the cabinet that the amendments and interpretation and the wealth of whereas placed by the Cuban convention upon the Cuban amendment amounted to the practical modification of the Platt amendment, such as was beyond the power of this government to accept.

Note in Vigorous Language.

The message of rejection later sent to General Wood advises the Cubans in unqualified language that there is no power resting in the United States government to agree to the terms of the Platt amendment, without amendment or qualification. The Cuban convention is still in session and the message of rejection will be delivered to it immediately. The administration is confident the Cubans will understand the exact attitude of this government and make satisfactory acceptance within a reasonable period.

The only other important matter brought up at the session was a statement by Secretary Gage as to the financial condition of the government. The secretary took opportunity to point out that the surplus in the treasury is steadily mounting upward and that the national financial condition in general is very gratifying.

Cuban Acceptance Ambiguous.

Later—the three main points in which the action of the Cuban constitutional convention is regarded as unsatisfactory relate, it is said, to coal mining, sanitation, and intervention.

The Cuban convention took from the coal mining paragraph of the Platt amendment its obligatory character and merely authorized the Cuban government, in its judgment, to allow the United States to possess coal or mineral stations. The United States will insist on absolute agreement to the grant of these coal stations.

With respect to sanitation, the Cubans do not agree to carry out the plan already devised, and in accepting the Platt amendment modify its provisions so as to change them considerably.

In the matter of intervention, our objection is that the Cubans have so changed this vitally important part of the Platt amendment as to make our right to intervene an ambiguous and doubtful matter, whereas we insist on a straight, unequivocal acknowledgment of our right to intervene when, in our judgment, intervention is necessary to assure Cuban independence or a stable government.

REJECTION SURPRISES HAVANA.

Delegates Who Voted for the Constitution Predict Trouble.

Havana, May 31.—The decision of the United States government not to accept the Cuban constitution as adopted by the Havana convention has caused great surprise and keen disappointment to those members of the convention who voted in favor of the constitution adopted.

Two leading conservatives who were interviewed tonight on the subject said, in substance, that they had reason to suppose the constitution would be acceptable to Washington, otherwise they would not have voted for the majority report as submitted. They also pointed out that in order to avoid the possibility of rejection, the majority report had been changed at the last moment by striking out the interpretations and the end of the clauses and putting these in the form of a resolution by themselves, thus accepting the Platt amendment as passed by congress.

Both delegates expressed regret that misunderstanding had arisen and said they doubted whether the convention would now reconsider its action, as the fight had been hot, the victory had been won by only one vote and those who tried to do their duty toward their country had been bitterly assailed as traitors and perjurers.

Enonres Capote and Tamayo had a long conference with General Wood tonight.

**TROLLEY CARS RUN AWAY.**  
One Man Killed and Many Persons Hurt at Wilmington, Del.

Wilmington, Del., May 31.—Three trolley cars, carrying about one hundred passengers each, returning to the city from Brandywine Park on the People's Street railway ran away while going down a steep hill in this city early this morning. Joshua Gillman fell beneath the cars and was instantly killed. Conductor Elmer Jones was fatally injured

and twenty-five other persons were more or less seriously hurt. The line was opened yesterday and it is presumed the motorman was unfamiliar with the heavy grade.

**PRISONER IN RUSSIAN FORTRESS.**  
Arrest Explains the Strange Disappearance of an American Citizen.

New York, Saturday, June 1.—The Press this morning publishes the statement that L. James Gordon, sales and contracting agent in Russia of the Baldwin Locomotive Works, disappeared in St. Petersburg last January and that his disappearance was caused by his arrest by the Russian authorities on charges unknown to the public.

It was through Gordon's influence that the Baldwin company received the contract for the locomotives for the Trans-Siberian railway. The contract was for \$2,500,000 and was signed shortly before the "disappearance" of Gordon. Whether what happened subsequent to the signing of the contracts was the cause of the disappearance is not known.

At the time of Gordon's arrest his friends could only guess at his destination, and it is only within a few weeks that it has been known he is confined arbitrarily in a fortress in the Neva. The American ambassador has been asked to interest himself in the matter but without result to the present time.

## RESIGNATION NO GO KIDNAPER IS TAKEN

**SENSATIONAL TURN IN SOUTH CAROLINA POLITICS.**

**TILLMAN AND McLAURIN TO STICK.**

**SURRENDER OF OFFICE REFUSED BY THE GOVERNOR.**

Says People Are Entitled to Freedom from Partisan Strife and Urges the Senators to Reconsider Their Determination.

Columbia, S. C., May 31.—Governor McSweeney today rejected the resignations of Senators Tillman and McLaurin. His letter, in part, follows: "I respectfully return your resignations that you may have more time for serious consideration of the effect upon the people of this state of this action on your part. The commission which you hold is the highest compliment and testimonial which the people of the state can pay to one of its citizens. It is possible you have taken this step hastily in the heat of debate without due reflection of the consequences to the people who have so signally honored you.

Sees Danger in Bitter Campaign.

"It was only last year that our people had the excitement and turmoil incident to a campaign, and in another year we will be in the midst of a further political strife. The people are entitled to one year of peace and freedom from political battles and bitterness. The indications are that a campaign such as would be precipitated by the vacancies in these two exalted positions would be a very acrimonious one—personal, rather than a discussion of issues—and from such a canvass our people should be spared. In fact, it would be a calamity to the state to be torn asunder by a heated canvass in this 'off year' in politics. There can be no possible good to come of it.

"Holding these views, and looking to the interests of the people of the state and their peace, prosperity and happiness, I respectfully decline to accept your resignations and beg to return them herewith."

**CHICAGO STRIKE BEGINS.**  
Many Machinists Quit and Allied Trades Are Involved.

Chicago, May 31.—Chicago's big machinists strike was actually begun today, more than a thousand men quitting work in various shops and factories because the employers refused to sign the agreement sent out yesterday for a 12½ per cent increase in wages and a nine-hour day.

An important development in the situation was the inauguration of a sympathetic strike by the metal workers, 150 men quitting at different shops to aid the machinists. Others will be called out where it is considered their help will be effective. It is expected the sympathetic movement will spread to other trades, but large numbers of men in allied unions who work in conjunction with the machinists will be forced into idleness soon by lack of material. It is estimated this will swell the number of idle men in the machinery shops in this city to ten thousand within a week.

**CHICAGO EX-OFFICIALS INDICTED.**  
Charges of Felony Against Former Supervisor and Collector.

Chicago, May 31.—William Lawler, former supervisor of South town, and Henry H. Fuller, formerly collector, were jointly indicted by the grand jury today on the charge of conspiracy to divert public funds. Lawler, in addition, was indicted on two separate additional charges of embezzlement and withholding public funds. All the charges come under the head of felony.

**GREAT STORM IN THE SOUTH.**

Chicago, May 31.—Advices to the Associated Press tonight from Mississippi, Texas and Tennessee tell of much havoc by a wind and hail storm today. Great damage to corn, wheat, cotton and fruit is reported.

## NEW PUZZLE IN CHINA.

Salaries Would Eat Up Indemnity as Now to Be Collected.

Pekin, May 31.—China's unconditional acceptance of 50,000,000 taels as the indemnity to be paid the powers has caused great satisfaction among the foreign ministers, as it only leaves, practically, a few minor details to complete the negotiations.

The phrase in the joint note, "to the satisfaction of the powers," may cause some delay in the evacuation of Chinese territory, as the ministers fail to see how China can guarantee the payment and as all the ministers believe it would be a mistake to have a large body of foreign officials collecting the revenue. Were the revenue thus collected, over two thousand officials would be required and the aggregate salaries of these would be very large and amount to more than the ordinary Chinese "squeeze."

The majority of the ministers now favor raising the customs to 10 per cent, and taking five million taels yearly from the likin tax. This method would give, after the payment of the interest on the foreign debts now existing, about 23,000,000 taels per year. The ministers would agree to this system if China will discontinue the collection of the likin duties on foreign goods.

## ABDUCTOR OF NEW YORK MILIONAIRE'S DAUGHTER.

**CAUGHT AT BENTON HARBOR.**

**IMPORTANT PAPERS ARE FOUND ON HIS PERSON.**

Police Say They Connect Him With the Cudahy Case but Decline to Give Details—A Like Arrest at Ann Arbor.

Benton Harbor, Mich., May 31.—Chief of Police Johnson today arrested Isadore Roth, the kidnaper of Rosie Giest, the sixteen-year-old daughter of Millionaire Geist of New York city. Roth has been working in a lumber yard here and intended to leave the city tonight.

It is alleged that Miss Giest was carried off by Roth while returning to her home from an evening party several weeks ago and that he took her to Buffalo and demanded a large sum for her release. It is charged, that, failing to get what he asked and becoming alarmed at the activity of the detectives, he left the girl in Buffalo and came to Benton Harbor.

Chief Johnson said that papers were found on Roth which definitely connect him with the Cudahy abduction case, but he declined to make their contents known.

**POPE'S ATTITUDE MADE CLEAR.**  
Surrender of Church Property in Philippines Not to Be Thought Of.

Philadelphia, Saturday, June 1.—The Catholic Standard and Times today publish an interview with the archbishop of Manila, now in Rome, foreshadowing the attitude of the Vatican toward the friars in the Philippines.

The archbishop says the report is false that the holy see desired the sacrifice of the possessions of the religious orders in the Philippines, on the ground that those possessions had been created in behalf of the missions and that, the right of the religious orders ceasing by their withdrawal, they should remain to the missions. The archbishop says the alleged project of secularizing the religious orders is entirely out of the question.

**NEAR TO DUEL AT PARIS.**

Son of Mme. Bernhardt Ready to Defend Honor of His Mother.

Paris, May 31.—The election of Edmond Rostand, author of "Cyrano de Bergerac" and "L'Aiglon," to the French academy yesterday, brought about indirectly a duel between Maurice Bernhardt and Lucien Mubfield, a well-known Parisian dramatic critic.

M. Mubfield had an article in Gaulois opposing M. Rostand and in the course of it he brought in the name of Mme. Sarah Bernhardt, the actress, who worked hard to make M. Rostand one of the "Forty Immortals," in a way her son deemed offensive. M. Bernhardt sent seconds to M. Mubfield, and there was a meeting of representatives of both sides today. After consideration the seconds decided that M. Bernhardt's interpretation of the allusion was not justified and that there was no ground for a duel.

M. Rostand, who is aged about thirty, is the youngest member of the academy ever chosen.

**TRAIN ROBBERY FRUSTRATED.**

Burlington Engineer Prevents a Hold-Up Near Savanna, Ills.

Minneapolis, May 31.—The Journal tonight prints a story to the effect that an attempt was made last midnight to rob the Burlington limited train from Chicago. According to passengers arriving on the train, torpedoes were placed on the rails near Savanna, Ills., and caused the engineer to apply the air brakes. Before the train was brought to a stop five armed men were seen to jump from the bushes and make for the engine. The engineer, it is stated, quickly got the train under motion again before the highwaymen could climb aboard.

## FIVE ARE LYNCHED.

**CALIFORNIA MOB TAKES LAW INTO ITS OWN HANDS.**

**ALL OF THE VICTIMS WHITE MEN.**

**SUSPECTED OF PETTY STEALING FOR SEVERAL YEARS.**

Execution Follows Arrest for Theft and Discovery of Stolen Articles—A Father and Three Sons Four of Those Hanged.

Alturas, Cal., May 31.—Calvin Hall, his three sons—Frank, Jim and Martin—and Dan Yantis, who had been stealing for years, were arrested yesterday and guarded by three officers. A mob of forty masked men took them at 2 o'clock this morning and hung them to a bridge near Lookout, the officers being overpowered. The mob dispersed within five minutes. The bodies were still hanging at 10 o'clock this morning. Sheriff Street and District Attorney Bonney have gone to the scene of the hanging.

Lookout, the scene of the lynching, is in the Hot Springs valley on Pitt river, twenty-five miles from Alturas, the county seat of Modoc county. There is no telegraphic communication with the valley and the news of the lynching was brought to Alturas by mail. The residents of the Hot Springs valley are nearly all cattle raisers in Modoc county.

Stolen Goods in Their Houses.

Later—The men lynched had been suspected of petty stealing for some time. Last Saturday they were arrested for stealing barb wire, pieces of harness and some hay forks. A search warrant was issued, and the harness and forks were found in the houses of Hall and Yantis, who were taken into custody and brought to Lookout, where they were being held awaiting their examination. Other searches were instituted, and halters, dishes and table linen which had been taken from clothes lines were found hidden on the premises of the suspected parties.

The charge against the elder Hall was petty larceny for stealing forks, hence he was allowed to go about on his own recognizance. His trial was to have taken place this morning. The charge against the others was burglary, and their examinations had been set for June 3. They were held in custody, as they were unable to furnish bail. Pending their examination they were guarded in the Lookout Hotel by Constable Carpenter, assisted by three deputies. Two stood guard till midnight, when other two took their place. Calvin Hall was sleeping at the hotel so as to be near his sons.

Officers on Guard Overpowered.

This morning about 2 o'clock a mob variously estimated at from thirty to fifty men suddenly made their appearance at the hotel and, pointing their guns at the two officers on guard, commanded them to observe silence while they secured the five prisoners, placed ropes around their necks and dragged them toward the bridge which crosses Pitt river. They compelled the two guards to accompany them. Frank Hall, it is reported, made such a strong resistance that the mob hanged him before reaching the main bridge under a small bridge crossing a deep slough. The others were taken to the main bridge. Calvin Hall, the father, was hanged on the north side and Yantis and the other Hall boys on the south side of the bridge.

As soon as the lynching was discovered, word was telegraphed by the district attorney and the sheriff at Alturas, and they, together with the coroner, are now on their way to the scene of the tragedy to hold an inquest.

**DEED OF KENTUCKY WOMAN.**  
Kills Husband, Daughter and Herself—Result of a Quarrel.

Covington, Ky., May 31.—Mrs. Kate Hester, aged thirty-two, after a quarrel with her husband, Oattie, aged forty-two, at the supper table tonight, shot and killed him as well as their three-year-old daughter, after which she blew out her brains. The cause of the quarrel is unknown. A heated argument was heard in the dining room at seven, and a few minutes later several shots were heard.

**CAPT. KING FOUND GUILTY.**

Quartermaster Tried at Mobile Convicted of Accepting Bribes.

Mobile, Ala., May 31.—The sealed verdict in the bribery case against former Captain and Quartermaster Cyril W. King returned Thursday was heard in the United States circuit court this morning. It finds him guilty as charged of receiving money with intent to influence his official actions.

Spring Cleaning

You are made aware of the necessity for cleansing your blood in the spring by humors, eruptions and other outward signs of impurity.

Or that dull headache, bilious, nervous, nervous condition and that tired feeling are due to the same cause—weak, thin, impure, tired blood.

America's Greatest Spring Medicine is Hood's Sarsaparilla.

It makes the blood rich and pure, cures scrofula and salt rheum, gives a clear, healthy complexion, good appetite, sweet sleep, sound health.

For cleansing the blood the best medicine money can buy is Hood's Sarsaparilla.

It is Peculiar to Itself.

Dr. Humphreys' Poor Indeed

are those weighed down by mental depression. Men die in this world through buoyant nerve force.

The loss of this nerve force drags down to failure some of the world's brightest minds. Such a condition is commonly known as Nervous Debility.

When you lose self-confidence and feel your strength, energy and nerve force are slipping away, it is high time you seek sensible aid.

You prefer health and success to misery and failure. It is high time you seek sensible aid.

Sexine Pills have no equal as a nerve restorer. A couple of boxes will dispel that heavy feeling of the unnatural weariness that disappears and replaces languor with new force and vigor of body and brain.

Sexine Pills are sold only at PEOPLE'S DRUG STORE, Marquette.

MARQUETTE, MICH., JUNE 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Just as we predicted, the stock market is taking on renewed activity instead of allowing itself to be overcome prematurely by "midsummer dullness."

But the rule that an excellent time to take profits is when one has them within reach holds just as good as ever.

It is understood that the successor of James McNaughton as manager of the U. S. Steel Corporation mines on the Menominee range is to be E. F. Brown, now general manager of the Peawabic mine on the same range, in which position he succeeded Dr. N. P. Hulst.

The Steel Corporation evidently wants the best there is in mine managers as well as mines, and it gets a first class mining man in Mr. Brown, if it has secured him.

Governor Bliss has vetoed the bill providing for the establishment of a normal school in the southwestern part of the state, on the ground that there is no need for such a school at present.

He also vetoed the bill empowering the Northern and Mt. Pleasant normal schools to grant life certificates to their graduates. As the Ypsilanti normal has this power, the governor's action perpetuates an unjust discrimination against the two younger schools, very much to their disadvantage.

A feature of the machinists' demands that has the appearance of being unreasonable is pointed out and thus commented on by the Boston Journal:

In one respect the demand of the machinists upon their employers is peculiar. They call for a reduction of their hours of labor and an increase of wages at the same time. It is not nine hours' work for ten hours' pay that they insist upon, but nine hours' work for ten hours' pay increased by 12 1/2 per cent.

In other words, a man who is now getting \$3 a day for ten hours' work says he must have \$3.75 for nine hours, the fact that so many employers have assented proves that their business is rushing just now, but the machinists of Great Britain, or "engineers," as they are called across the water, gave an elaborate demonstration only a short time ago of this method of killing the goose that lays the golden eggs.

MONTANA POLITICS. Montana politics, like the industrial methods in vogue there, furnish people outside of the state with a subject that perplexes them greatly.

The changes taking place in the attitude of Montana's political leaders toward one another, and on public questions, are kaleidoscopic in their suddenness and so startling in the rearrangements they disclose as to bewilder observers at a distance.

A Montana paper, the Anaconda Standard, has this comment on recent realignments of potent political forces in that state which is worth perusing on account of the light it throws on a problem puzzling even to those whom it immediately concerns.

Things keep happening. The world moves along at a rattling pace; there is always some new diversion for every neighborhood. A year ago today Montana had all its eyes fixed on Washington, where the federal senate was refusing to have anything whatever to do with the Spriggs credentials for W. A. Clark.

They are a monument to the bungling methods wherewith at that time Mr. Clark offended the members of the senate. Many things have since happened. During the twelvemonth, at the polls, notice was served on those who had made out a complete case against Mr. Clark that the voters of Montana liked his style pretty well, and that settled that part of it.

Meanwhile, the old Heine in the situation is that many of those who were foremost as Clark champions one year ago are now his busy opponents. These people apparently labored under the hallucination that Clark was going to put up forever. When he stopped paying, they stopped rooting for him.

Oldest of all is the transformation which recent months have wrought in the relations of the members of the once well-known Clark-Heine combine. It is all of with that bit of clumsy political organism.

The anniversary of the burial of the Spriggs credentials finds the combine's cart before the horse—it is banded about this week in Washington newspaper circles that Heine has hired lawyers who are going to fight W. A. Clark's new credentials. The wonder is that Washington's newspaper circles didn't know about that a good while ago.

No longer ago than in the campaign of last fall Clark and Heine were working together to elect a legislature favorable to the former's senatorial aspirations. Clark has secured his election to the senate, and now Heine is behind a movement to have him again rejected.

Both were fighting the Amalgamated Copper company then; now Clark is with it while Heine continues to antagonize it as stubbornly as ever in the courts and outside of them, as opportunity offers. Daly has taken himself out of the mix-up by dying, and we are compelled to believe that the living parties to the interminable and understandable row would do their state and the country a service by taking themselves and their contentions across the "great divide," to continue it amid surroundings more in accord with its nature and their dispositions than this world can supply.

Lower Michigan.

Dr. Dickie, acting president of Albion college, announced Wednesday afternoon that, owing to continued and extreme infractions of the college social regulations, he had resigned.

The will of Edwin F. Uhl, formerly of Grand Rapids, was filed for probate Wednesday. The estate is estimated at \$150,000, and the will bequeaths a third to the wife, except \$25,000, which goes to his brother, John H. Uhl of Ypsilanti, and \$4,500 to his sister, Mrs. Margaret Follet of Chicago.

The deputy insurance commissioner has notified Secretary Murray, of the Citizens' Mutual Fire Insurance company of Calhoun county, that that company has made the best showing of any in the state thus far this year.

Since Oct. 1, 1900, new risks amounting to \$85,535 have been added, and \$11,125 cancelled.

Mrs. Wm. Guernsey, who six years ago, before her marriage, lived in Detroit, killed herself at Ionia Wednesday morning by hanging. She lived on a farm with her husband. Her mental condition was affected and, fearing confinement, she placed a strap around her neck and stepped off a chair while her husband was asleep in bed.

There has been a wonderful increase in the grape acreage in the vicinity of Lawton since last year. From Lawton station last year the shipments amounted to 700 carloads, while conservative estimates place the amount for the coming season at not less than 1,000 carloads. The growers thereabout claim that there is little danger of an overproduction.

W. H. Tripp, pool and lunchroom proprietor, was arrested at Owosso Wednesday. He is the seventh business man to be arraigned here Wednesday for a violation of the city ordinance against Sunday closing.

He has pooled in fights with the other six, and they will fight to a finish. The victims and friends promise that everything will be closed up tight tomorrow, and that milk peddlers and street cars must remain inactive.

Mrs. John Stinson of Owosso heard a man prowling about outside her house the other night, and finally saw him raise a window and poke his head in. She was alone in the house, but she kept her nerve long enough to whack him over the head with the first weapon that came handy, causing him to retreat and precipitate retreat, and then she broke down and fled to a neighbor's to spend the rest of the night.

Deputy Labor Commissioner Austin Reed of West Branch has been in Owosso to look over the boiler works, but he has gone through Owosso factories and fired off sixty boys under fourteen years of age, who were employed therein. Mr. Reed declares he will stay until a score or more fire escapes are put on factories, the opera house and lodge rooms about the city. He is there under the auspices of the labor union.

There is considerable agitation at Port Huron among the laboring element which finds employment along the docks, as a result of an alleged action of the Longshoremen's union in blackballing nearly thirty applicants for membership. Some of the disappointed ones assert that members of the union solicited their applications and that they had been given work pending action by the union, and that, nevertheless, nearly the entire number were thrown down.

The potato market at Traverse City is booming as it has not done before for several years, and the farmers who are fortunate enough to have any stock left on hand are reaping rich rewards. In two weeks the price has increased from twenty-two to fifty-three cents, the continued cold weather and the lateness of the southern crop being assigned as the causes of the rapid rise.

Before the end of this week it is expected the quotation will be seventy-five cents.

President Heald, of the Pere Marquette Railroad Co., met the common council, citizens' committee and a number of citizens of Bay City in the city hall Wednesday evening. President Heald said his company was willing to put \$50,000 into a depot and grounds, providing the common council closed Fourth avenue. This was approved by the meeting. It now looks as if the city and railroad company were very near getting together on the depot proposition.

The Woman's auxiliary of the Kalamazoo hospital engineered two novel money-making schemes Wednesday. One committee of ladies took charge of William Monday's barber shop in the Burdick House, receiving the entire receipts of the day, which amounted to \$133.15.

The occasion was a great social as well as a financial success. The lowest price paid for a shave was twenty-five cents and the highest \$10. The fair managers shined shoes, manicured the hands of customers, braided clothes and did everything but the actual tonsorial work.

Another committee from the auxiliary took charge of Maus' drug store and received half of the proceeds of the day's sales, which amounted to nearly \$150. Society young ladies, in relays, had charge of the soda fountain, and though the weather was chilly did an immense business. The Woman's auxiliary has until June to raise \$18,000 for the new hospital. If successful in this the auxiliary is to receive an additional \$12,000 from a local philanthropist.

The dealer who first puts in a line of CAHN-WAMPOLD warranted clothing will deserve all the trade of the carefully dressed men of the town; the others deserve to lose it.

Not sold here now. May be soon. Until then the next town is not too far away—shall we tell you just where to go?

Book of clothes facts free. Pleasure to send it. We make the only warranted clothing—the money safe kind.

CAHN, WAMPOLD & Co. CHICAGO

Kenton Catches.

The Lady Macabees conducted a dance at Opera Hall Friday night.

Mrs. F. J. Kenfeld has opened up a stock of millinery here for a few days.

Mrs. E. L. Bacon and children leave for lower Michigan to spend the summer Monday.

Rev. John Best accepted the invitation to make a memorial address at Sidaw Decoration Day.

Mrs. L. Dersnah and children will leave Monday for a visit with her parents in Clare county.

The township board of review held sessions at Kenton and Sidaw Monday and Tuesday of this week.

Thomas Morse and wife have accepted the management of one of the D. S. S. & A. boarding cars and moved from Kenton Friday to enter upon their new duties.

Mrs. William Kroll was happily surprised Thursday evening by the ladies' whist club, the occasion being her birthday. A pleasant evening was enjoyed. Dainty refreshments were served.

N. S. Hayes, an experienced lumberman of Grand Rapids, has engaged with the Sparrow-Kroll Lumber company in the capacity of superintendent of sales. He entered on his duties Monday.

The public schools closed for the summer vacation Friday. Miss Clara Potts of Big Rapids will return to her home Monday. She will again have charge of the primary department when the fall semester begins.

Visitors to Kenton will be agreeably surprised at the tidy appearance of Hotel York in its new coat of paint. Landlord Bacon has constructed a neat picket fence around the porch. It will protect a proposed flower garden.

The large fire which recently destroyed many cedar poles at Delray, lower Michigan, had its effect on Kenton, for the Sparrow-Kroll Lumber company has been obliged to suspend its operations for the past week and shipments will be made at once to Detroit. Between two and three thousand poles have been sold.

Henry Hovey of Little Falls, Minn., met with a fatal accident here Tuesday morning. He had been given work loading some thirty-foot joist onto a flat car and had piled several tiers, contrary to instructions, on either side of the car when it swayed toppled two of the piles over on him, frightfully crushing him. He lived until about 3 o'clock in the afternoon. Frederick Hovey, his father, promptly responded to a telegram and arrived here Wednesday afternoon, returning home with the remains, which had been embalmed and prepared for burial by Undertaker Dave of Negaunee by the direction of the Sparrow-Kroll Lumber company. The company has been very fortunate up to this time in escaping any serious accident and it is to its credit that this sad fatality cannot be attributed to its carelessness or oversight.

A TERRIBLE EXPLOSION. "Of a gasoline stove burned a lady here frightfully," writes N. E. Palmer of Kirkman, Ia. "The best doctors couldn't heal the running sore that followed, but Bucklen's Arnica Salve entirely cured her." Infallible for Cuts, Bruises, Burns, Blisters, Skin Diseases and Piles. 25c at Stafford's.

Mr. James Brown of Putsmouth, Va., over 90 years of age, suffered for years with a bad sore on his face. Physicians could not help him. DeWitt's Witch Hazel Salve, Barks, Balm, permanently cured him. Stafford Drug Co. H. N. Meloche, Ishpeming.

Allen Halverson of West Prairie, Wis., says: "I have come ten miles to buy Foley's Kidney Cure" while J. A. Spero of Hoken, Ind., says: "It is the medical wonder of the age." The People's Drug Store.

Can't be perfect health without pure blood. Burdock Blood Bitters makes the whole system.

A sallow, jaundiced skin is a symptom of disordered liver, as it springs from biliary poisons retained in the blood, which destroy energy, cheerfulness, strength, vigor, happiness and life. HERBINE will restore the natural functions of the liver. Price 50 cts. Stafford Drug Co.

EXCURSION FARES To the Famous Fishing Grounds east of Marquette—Commencing Sunday, May 27, 1901, and continuing every Sunday thereafter until further notice, the D. S. S. & A. railway will sell excursion tickets to the following points at the very low rates named:

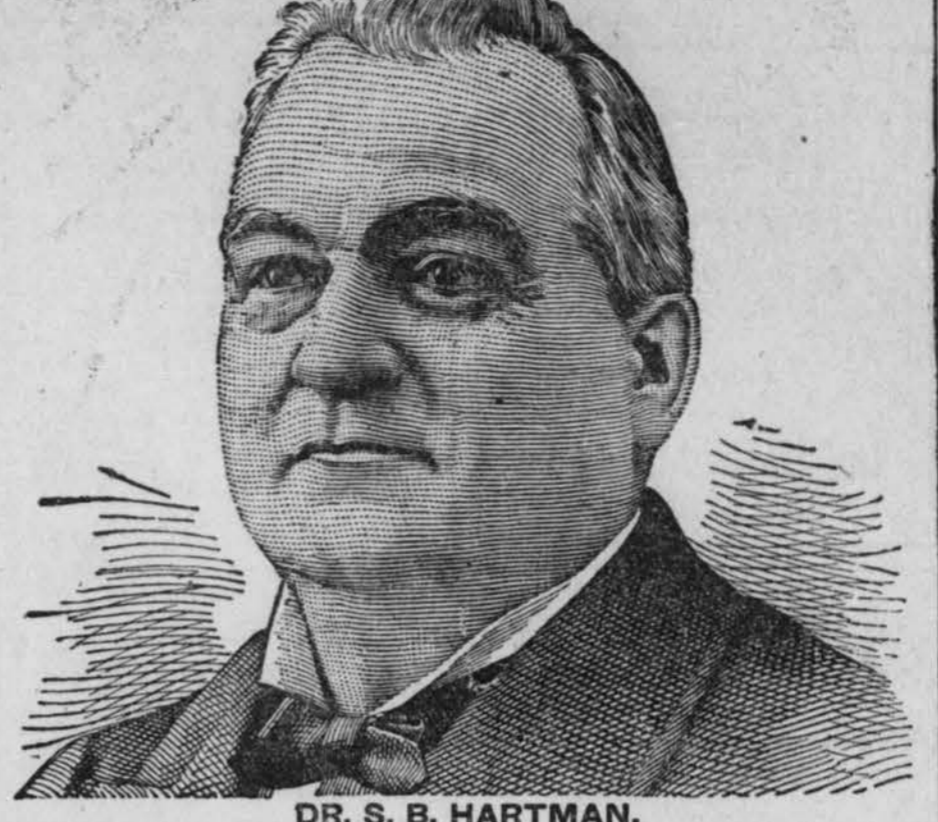

Table with columns: To, Mar-quet, Nepe-shing, Sand River, etc. and corresponding fares.

June 12 will be observed by the Odd Fellows as memorial day for deceased members and it is likely that Pilgrim Lodge of Houghton and Foster encampment of Hancock will take some action in the way of appropriate exercises.

Houghton Lodge, F. & A. M., will hold an extra meeting tonight to work the third degree. The lodge has so much extra work at present that tonight's meeting was deemed a necessity. Another will be held Monday night as usual.

Marriage licenses were yesterday issued to John B. Whitford of the Lakeside Methodist church will lecture on "The Lights and Shadows of Rocky Mountain Life in Early Days." The admission will be 25 cents.

TO THE WOMEN OF THE UNITED STATES.

DR. S. B. HARTMAN.

In view of the great multitude of women suffering from some kind of female disease, and yet unable to find any cure, Dr. Hartman, the renowned gynecologist, has announced his willingness to direct the treatment of as many cases as may make application to him during the summer months without charge.

The treatment will be conducted by correspondence. The doctor will prescribe all medicines, applications, hygienic and dietary regulations necessary to complete a cure. The medicines prescribed can be obtained at all drug stores. This offer will hold good only during the summer months. Any woman can become a regular patient by sending a written statement of her age, condition of life, history and symptoms of her derangements.

All cases of female diseases, including menstrual irregularities, displacements, ulcerations, inflammations, discharges, irritation of the ovaries, tumors and dropsy of the abdomen, should apply at once and become registered as regular patients. All correspondence will be held strictly confidential. No testimonials of cures will be given to the public except by the express wish of the patient.

As is well known, Dr. Hartman is the President of the Hartman Sanitarium, an institution which has a department devoted exclusively to the treatment of female diseases. He is thus brought to see thousands of such cases every year, the most of whom return to their homes to be treated by correspondence. The principal remedy he relies upon in such cases is Peruna, which every woman should have, who has any affection of this kind. Those wishing to become patients should address Dr. S. B. HARTMAN, COLUMBUS, OHIO.

No one knows better than Dr. Hartman how much the women suffer with diseases peculiar to their sex. No one knows better than he does how many of them suffer with such diseases. Patiently, hopefully, wearily, and often

silently, they eke out a miserable existence year after year. A woman confined to the house several years with a chronic female derangement had finally given up all hope of being cured. She had tried physician after physician, and remedy after remedy, without any permanent improvement. Her treatment had cost her husband, who was a poor man, hundreds of dollars. They had been obliged to deny themselves many comforts of life in order to get money enough to pay the physicians.

Picking up the paper one day she happened to read an item which contained the news that Dr. Hartman would treat such cases free of charge by letter. She immediately wrote the doctor, describing her case, and giving him all her symptoms. She soon received a letter telling her exactly what to do and what medicines and appliances to get. She began the treatment (the principal remedy being Peruna) at once, and in a few weeks was well and strong again and able to do her own work.

Another woman who used Peruna without becoming one of Dr. Hartman's regular patients had the following experience. Miss Ida Green writes from Baldwinville, Ga.: "Peruna is wonderful and good, and a certain cure for female weakness. I have been ill and have been taking doctor's medicine for several years, and found that none did me any good.

"Every day it was a worry. I was always sick. I had come to the conclusion to give up, and not use any more medicine. I was sick indeed for the past two years. Just before I began to take Peruna I was very weak, besides I was bilious and constipated.

"I had pains in my back and side and falling of the womb, with bearing down pains.

"One day while reading my newspaper, I came across an ad., read of the book for women entitled, 'Health and Beauty,' and sent for it. Then I began to use the medicine. After using several bottles I am now thoroughly cured."

Send for free book, entitled, "Health and Beauty." Address Dr. Hartman, Columbus, Ohio.

the new walk is completed, the present one being in very bad condition. The complete production of Clyde Fitch's powerful Revolutionary play, "Nathan Hale," will be given at the Houghton Armory Opera House Thursday evening, June 6, just as it was seen during its long run at the Knickerbocker theatre, New York. All the elaborate scenery and costumes used in the original presentation will be seen.

At Witting of Hancock will take a party of homesteaders of Hancock to the Misery river in his yacht Landon tomorrow. The trim craft is thirty feet overall, has a seven-horsepower engine and speeds through the water at the rate of ten miles an hour. Mr. Witting will be ready at any time with the Landon to take parties on fishing or excursion trips.

Memorial exercises will be held by Lillian Kent, K. O. T. M., of South Lake Linden, tomorrow afternoon. The program will be in commemoration of deceased members. Mount Calvary cemetery will be visited by the lodge, which will march there early in the afternoon. The Lake Linden Cornet band accompanied the graves of dead members and will be decorated and appropriate exercises held.

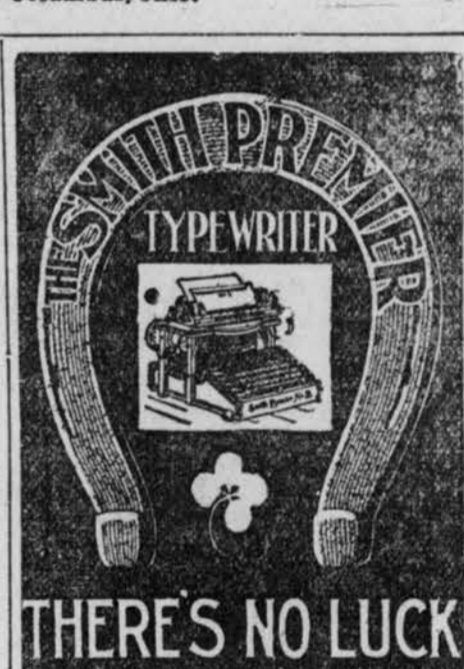

STILL MORE COUNTERFEITING. The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters set things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

Edward Huss, a well known business man of Salisbury, Mo., writes: "I wish to say for the benefit of others, that I was a sufferer from lumbago and kidney trouble, and all the remedies I took gave me no relief. I was induced to try Foley's Kidney Cure, and after the use of three bottles, I am cured." The People's Drug Store.

Aside from the serious inconvenience and pain caused by piles, there is a tendency to fistula and to cancer in the rectum. Piles should not be allowed to run on unchecked. TABLER'S BUCKEYE PILE OINTMENT is an infallible remedy. Price, 50 cts. a bottle, tubes 75 cts. Stafford Drug Co.

**NEW DOCKS AT TORCH LAKE.**

Quincy to Build Them—For Coal for the Stamp Mills.

This is the last summer the Mineral Range railroad will haul coal from the Quincy docks at Hancock to the Quincy stamp mills at Torch Lake. The Quincy will build docks of its own on the shore of Torch Lake near the mills, but just at what site is not yet known. The docks, it is understood, are to be extensive and will have immense capacity. The Quincy uses 80,000 tons of coal a year, and all that is consumed at the stamp mills is transported there by the Mineral Range road. Now, however, the officials of the mining company have come to the conclusion they can save money and be better served by building docks nearer to the mills. The fuel used at the mills will be transported from the new docks, but a short distance, by the company's own road.

**BASEBALL; BALLOON ASCENSION.**

Interesting Attractions Arranged for Sunday at Hancock Driving Park.

The Portage Lake and Republic baseball teams will meet on the diamond at the Hancock Driving Park tomorrow afternoon as originally scheduled. A good contest may be looked for. In addition, Professor Aoudinot, an aeronaut, will be on hand to interest the crowd. He will give a balloon ascension, performing feats on the trapeze in mid-air, and will close his exhibition with a thrilling drop from the clouds with a parachute. Extra street cars, which run within two blocks of the grounds, will be put in service, and if the weather is favorable a big crowd is sure to attend.

**Old-Timers on the Diamond.**

A number of "old-timers" were seen in the game of ball at the Hancock Driving Park Thursday afternoon when the Y. M. C. A. team defeated the clerks of Hancock. Most of them were members of the latter aggregation, among whom may be mentioned Arthur Finley, who played on the famous Quincy team in both '95 and '96; Heuman, who was a member of the Ironwood and other state teams eight or ten years ago; James Shea, who was a pitcher on the old Quincy team; F. Ulrich, who was a member of the Duluth team of the Minnesota state league several years ago; and Herbert McConkey, a pitcher in the Wisconsin state league six years ago. On the Y. M. C. A. team was Condon, who was catcher of the University of Michigan team several years ago. The boys have lost much of their old time skill, but considering that it was the first game they had been in for years they played well.

**Sackrider May Be Manager.**

It was stated yesterday that F. M. Sackrider of Houghton would succeed Ed Hoeking as manager of the Portage Lake baseball team. Mr. Sackrider is having the Hancock Driving Park put into excellent condition, and special attention will be paid to the national game this year. The Sox will be here next week.

**Boxing Bout Monday Night.**

The final arrangements have been made for the boxing bouts to be pulled off at the Houghton Army Officers House next Monday night. Beauschelo and Croke will meet in a fifteen-round contest to a decision and Kid Lefrenier of Lake Linden and Larry Gleason of Chicago in a six-round go. A good crowd is assured.

**BUYS THE CARAH RESIDENCE.**

H. J. Seaton, the Hancock and Houghton agent of the L. S. & L. M. Transportation company and of the White Line, yesterday purchased the Carah residence property at the corner of Church and Hancock streets, Hancock. When the lease of the present tenant expires he will extensively remodel the building, which is a story and a half frame structure, and will then reside there. Mr. Seaton has secured a very valuable location and expects within a few years to build an entirely new home on the place.

**SECRETARY WING TO WED.**

Secretary W. H. Wing, of the Hancock Y. M. C. A., will leave this afternoon for Stillwater, Minn., where he will be married to a young lady of that place. Mr. Wing will become a benedict June 3, and the news of the coming event will be heard with some surprise by his many friends at Portage Lake. He will go to Boston or his wedding trip, and while at that city will attend the national convention of the Y. M. C. A.

**Dyspepsia cannot be long lived.**

Dyspepsia cannot be long lived because to live requires nourishment. Food is not nourishing until it is digested. A disordered stomach cannot digest food, it must have assistance. Kodol Dyspepsia Cure digests all kinds of food without aid from the stomach, allowing it to rest and regain its natural functions. Its elements are exactly the same as the natural digestive fluids and it simply can't help but do you good. Stafford Drug Co., H. N. Meloche, Ishpeming.

**DROPS TO HIS DEATH.**

Matt Hein Falls Six Levels at the Isle Royale Mine.

Matt Hein, a single man, met his doom at the Isle Royale mine about 7 o'clock last night. His death was instantaneous, the unfortunate miner falling six levels, or about 400 feet, and his body being quite badly mutilated. No. 2 shaft was the scene of the fatality, which was the first since operations were resumed at the property a couple of years ago. This morning at 8 o'clock a coroner's inquest will be held and the manner of death investigated.

**ROAD ROLLER IS ORDERED.**

Houghton Village and Portage Township Will Go "Halves."

At a special meeting last night, the Houghton village council, as was announced in yesterday's issue, formally closed the deal for the purchase of a steam road roller. The order was given to the O. S. Kelly company of Springfield, O., and the machine will be an exact duplicate of the one now giving such good service at Laurium. It will weigh 37,000 pounds, without the extra paraphernalia, and when in operation will "rip the scales" at twenty-one miles an hour. The roller will be about the heaviest made, and has to be because of the hard trap rock that will be used on the streets.

According to the terms of the agreement arrived at, Portage township will go "halves" with Houghton. Within thirty days after the receipt of the machine the township will pay its half of the cost in cash and the village part of its share, paying the remainder within ninety days. The company will send a man with the roller—which will be delivered in about ten days—to operate it for a week and give the men who will have charge "pointers" as to the mechanism. Good streets may now shortly be expected.

**COPPER RANGE CHANGES TIME.**

A new time card will go into effect on the Copper Range railroad at 10:30 o'clock tonight. Several changes in the running of trains have been made and an "extra" put on. The latter is a new train that will run every Saturday night to Painesdale, leaving Houghton at 10:30 o'clock.

The only morning change to be made is that in the train that leaves Houghton at 8 o'clock, which hereafter will leave at 8:15 o'clock for Painesdale. It will arrive there at 9:35 instead of 9:45. The most important change to be made is in the Sunday morning train which has been leaving Houghton at 10:10. Beginning tomorrow morning it will leave at 9:35, arriving at Mass City at 11:15. It will leave Mass City on the return trip at 9:20 in the afternoon and reach Houghton at 5:05. That arrangement will give visitors to Mass City much more time than by the old time card.

The changes on the Painesdale branch are: Leaving Houghton at 10:15 will arrive there at 9:35 instead of 9:45. The most important change to be made is in the Sunday morning train which has been leaving Houghton at 10:10. Beginning tomorrow morning it will leave at 9:35, arriving at Mass City at 11:15. It will leave Mass City on the return trip at 9:20 in the afternoon and reach Houghton at 5:05. That arrangement will give visitors to Mass City much more time than by the old time card.

**RIVAL BAND CONCERTS.**

On Thursday night both the Quincy and Portage Lake bands gave concerts at Hancock, and there was opposition in earnest. The Quincy musicians played from the veranda of the North-western Hotel and their friends from across the lake from the band stand in Montezuma Park—about three blocks from the Quincy band. Each concert was heard by a large crowd. The Portage Lake band had advertised its concert for Thursday evening and the Quincy organization was to play Saturday night instead, but for some reason or other the latter changed its plan and decided at the last minute to give the concert on the same evening. The Portage Lake band was formerly purely a Houghton organization but this year its policy was changed and it is now catering in the interests of the town citizens. Both bands are first-class and are improving in their work right along.

**Y. M. C. A. IN GOOD SHAPE.**

General Secretary W. H. Wing, of the Hancock Y. M. C. A., has completed his report of the financial status of the local organization for the year ending May 1, and considering the improvements that have been made in the association rooms during the past year it is a most creditable one. The receipts for the year from various sources were \$3,118.86 and the disbursements \$3,091.85, leaving a balance of \$27.01. Bills payable amount to \$7,916.59—\$7,212.21 on the original debt and \$704.38 on the current account. The association is paying its current expenses and interest on its debts, which are expected to be wiped out in due time.

**FIREMEN WILL DECORATE GRAVES.**

Tomorrow afternoon the members of the Continental Fire company, Houghton and of the Hurontown fire department will meet at the Houghton fire hall and from there will form in line to march to the Houghton cemetery to decorate the graves of deceased firemen. The Portage Lake band will lead the procession to the cemetery. The program is a new departure with the firemen of the upper peninsula and similar observances will be held in other towns for the first time.

**LADIES CAN WEAR SHOES**

one size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. Mothers lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Strawberry in the house. Nature's specific for bow-

**RISE IN ADVENTURE MERITED.**

Mine the Richest South of Portage Lake Says Captain Wilcox.

The Adventure is making excellent progress on the foundations of its new stamp mill. Although the Adventure was the last of the three mines to locate mills south of the new Baltic mill on Lake Superior, it now looks as though its mill would be the first completed. P. R. Robert, agent at the Adventure, is manifesting a rare ability to accomplish things, and the expansion of the mine and development of machinery and stamping plants are proceeding at a rapid rate.

The mine itself is showing a great amount of heavy copper, and apparently will be able to furnish a large quantity of mill rock. Owing to the system of parallel lodes found at the Adventure and Mass, the former mine has opened about four miles of territory underground, and Captain James Wilcox, of the Mass, has expressed himself as satisfied that his mine can easily furnish 500 tons of rock daily for one stamp mill whenever the mill is ready.

With regard to this property, the Boston News Bureau of Wednesday says: "The rise in the shares of the Adventure Mining company has been a feature of the copper share market. The buying is believed to emanate from the Lake, and is based on intrinsic value rather than speculative conditions. A director of the company says: 'We are working the mine as though it were a factory. We have no stock market interests to serve. We believe we have a mine and one which will pay well for the future. The mill is not expected to be completed before January next. As far as we know, we have been agreeably disappointed in that little or no poor rock has been encountered in the course of development work. It is safe to say that at least 50 per cent of the capital stock is locked up in the hands of people who have no intention of selling it—people who will hold it as an investment. We are being agreeably disappointed in that little or no poor rock has been encountered in the course of development work. BATTLE WITH BOERS

KITCHENER SENDS REPORT OF SEVERE FIGHTING.

DELAWARE ATTACKS GEN. DIXON.

BURGHERS REPULSED, LEAVING 35 DEAD BEHIND.

Loss to the British Is Also Heavy, the Killed and Wounded Numbering 174, With Four Officers Among the Slain.

London, May 31.—Lord Kitchener today reports to the war office as follows: "General Dixon's force, at Vlodfort, was attacked yesterday by De la Rey's forces. There was severe fighting. The enemy eventually were driven off with heavy loss, leaving thirty-five dead. I regret our casualties were severe, the killed and wounded numbering 174. Four officers were killed."

CASUALTY LISTS STIR BRITISH.

London Given Grim Reminder the Boer War Is Far From Ended.

London, May 31.—The South African casualty lists, which filled three columns of this morning's Times, recall forcibly to the unwilling British mind that the Boer war is still full of fiery action. These heavy losses in killed and wounded are chiefly the result of engagements that Lord Kitchener had not condoned previously to report, and they have let out a flood of indignant criticism, of which the anti-war party enjoys no monopoly.

Such staunch supporters of the government as the St. James' Gazette and the Daily Mail are protesting in vigorous language against this "alarming policy of concealment." The evening papers teem with communications from citizens of all classes, complaining in a similar strain. They assert that "the British government naturally enjoys the stinging when suppression must be invoked to distract attention from the endless unpleasantness in South Africa."

Re-inforcements Demanded.

In several high-standing journalistic quarters the big casualty table is even made the basis for a demand for further heavy re-inforcements. Frederick Harrison, in a postivist philosopher's letter in the Daily News, has caused quite a little excitement in official quarters. The opposition naturally enjoys the stinging of the government, says "England's only hope is that the Boers may continue to add to her troubles and humiliate her into her senses."

WEATHER FORECAST.

Washington, May 31.—The following is the weather bureau's forecast for Upper Michigan: Cloudy Saturday and Sunday, with showers and lower temperature in western portion; variable winds, mostly northeasterly.

MINE EXPLOSION KILLS TWO.

Glenwood Springs, Colo., May 31.—An explosion caused by accumulated gas occurred this morning at the Corvett mine at Newcastle by which two men were instantly killed and eight others injured. The killed were Leo and Frank Grant.

CHAMPION SHOT HAS BAD EYE.

Boston, Mass., May 31.—Dr. Sumner W. Payne, who won the world's championship for revolver shooting at the olympian games at Athens, had a bad eye last night. He found Augustus Damm, a music teacher, sitting too close to his wife. Pulling his trusty revolver, the champion took four shots at Damm. They all missed. Although the doctor lost the revolver championship, the music teacher made a sprinting record which will not be beaten for years. The Pennsylvania company compromised with Dye by agreeing to give him a third interest in the property, which is valued at \$33,000,000. Dye received a check from the Pennsylvania company for \$1,500 to defray his expenses, to Washington and to secure the proper signature and papers for a clear title to the land. He will leave for Washington on Monday to finish up his work and secure his fortune, which is to be divided among the heirs, who live in Marion, Wabash, La Fontaine, and Peru, Ind., and New York and Ohio.

ITALIAN BATTLESHIP LAUNCHED.

Rome, May 30.—The battleship Regina Margherita, the most powerful vessel in the Italian navy, was launched successfully at Spezia this morning in the presence of King Victor Emmanuel and a number of princes. The vessel is 130 meters in length and 24 meters in width. It has a displacement of 13,427 tons and will carry thirty-eight guns ranging in caliber from 76 to 305 millimeters, with others of smaller caliber.

TRUST BUYS AND CLOSES PLANT.

Evansville, Ind., May 31.—The American Chemical & Spirit company of this city today passed into the hands of a New York trust, and will be closed. The plant manufactures wood alcohol and is the only one of its kind in the middle West. Over 400 men will be thrown out of employment.

Kindles anew the fires of youth, balances up the joys and sorrows of life. It's vain and foolish not to use Rocky Mountain Tea made by Madison Medicine Co. 35c. Stafford Drug Co.

doctor, who is a son of General C. J. Payne, was locked up.

NO MINISTER TO VENEZUELA.

Loomis Not Going Back—No Successor Until Conditions Improve.

Washington, May 31.—It was officially admitted today that Minister Loomis will not return to Venezuela. There are two reasons for this decision. In the first place, Mr. Loomis has suffered in health at his ungenial post and, in the second place, the president is not disposed to expose him again to the merciless attacks he has suffered in Venezuela as a result of the execution of the orders of the state department.

Mr. Loomis, who is now in Europe, seeking to recuperate, will be given another diplomatic position as soon as a suitable place can be found. Meanwhile Mr. Russell will remain in charge of the United States legation at Caracas for a period of time not yet determined upon but likely to be fixed by the attitude of the Venezuelan government.

MRS. MCKINLEY VERY ILL.

Statement by the Physicians Shows Her Still in Danger.

Washington, May 31.—The physicians who are in attendance upon Mrs. McKinley after a consultation this forenoon issued the following statement of her condition: "Mrs. McKinley is recovering from the fatigue of the trip. The illness from which she is suffering in San Francisco still continues, though less intense. She is still feeble and cannot be considered out of danger. Her progress no doubt at the best will be slow, but improvement is looked for."

Later—Mrs. McKinley failed to show any improvement during the day, and tonight her condition is reported unchanged from the status given in the bulletin issued during the morning. One of the grave features of the case is the fact that she continues extremely weak and fails to gain in strength. No bulletin was issued tonight and none will be until after the consultation of physicians set for tomorrow.

VASSAR GIRLS BREAK RECORDS.

Seniors Victorious in the Annual Class Athletic Meet.

Poughkeepsie, N. Y., May 31.—The athletic contests at Vassar college for this year were concluded this afternoon, and new records were established in the 220-yard run, running high jump, running broad jump and 200-yard relay race. Altogether, twelve events were contested and the results show the points apportioned as follows: Seniors, 38; juniors, 28; sophomores, 29; freshmen, 16.

The 220-yard run was won by Anna S. Wood, class 1903, of Fort Richmond, S. L., in 31 1/5 seconds. The best previous Vassar record was 32 3/5.

The running high jump was won by Dora E. Merrill, 1902, of Brooklyn, who made 4 ft., 3/4 in. The best previous record was 4 ft., 1/2 in.

The running broad jump was won by Mary E. Gardner, 1904, of Chicago. Her record was 13 ft., 7 1/2 in., the best previous being 13 ft., 3 in. After this event Miss Gardner made an exhibition jump of 13 ft., 3/4 in.

The 300-yard relay race was won by the seniors' team in 42 1/2 seconds. The best previous record was 46 seconds.

Michigan Wins at Tennis.

Chicago, May 31.—The University of Michigan defeated the University of Chicago in the annual dual tennis tournament between the two institutions today. Michigan won by four points to two in three matches of singles and one double.

HEIRS OF PIONEER IN LUCK.

Supposed Valueless Land in Pennsylvania Found Worth \$11,000,000.

Marion, Ind., May 31.—The heirs of John Dye, a Scotchman, who settled in Pennsylvania in the pioneer days of that state, have assurance of an estate valued at \$11,000,000.

John Dye had two sons, Christopher and John M. The former left two heirs in Pennsylvania and went to Ohio, where he died. John M. Dye came to Indiana. The parents died and John M., who was the only remaining child, did not think the rough land which his father had secured in Pennsylvania was of any value and never laid claim to it. The Pennsylvania railroad company took charge of it and it is now in the heart of the great anthracite coal field. John M. Dye commenced an investigation about a year ago and, with the assistance of a detective and attorney, located the land and entered suit for its possession.

The Pennsylvania company compromised with Dye by agreeing to give him a third interest in the property, which is valued at \$33,000,000. Dye received a check from the Pennsylvania company for \$1,500 to defray his expenses, to Washington and to secure the proper signature and papers for a clear title to the land. He will leave for Washington on Monday to finish up his work and secure his fortune, which is to be divided among the heirs, who live in Marion, Wabash, La Fontaine, and Peru, Ind., and New York and Ohio.

ITALIAN BATTLESHIP LAUNCHED.

Rome, May 30.—The battleship Regina Margherita, the most powerful vessel in the Italian navy, was launched successfully at Spezia this morning in the presence of King Victor Emmanuel and a number of princes. The vessel is 130 meters in length and 24 meters in width. It has a displacement of 13,427 tons and will carry thirty-eight guns ranging in caliber from 76 to 305 millimeters, with others of smaller caliber.

TRUST BUYS AND CLOSES PLANT.

Evansville, Ind., May 31.—The American Chemical & Spirit company of this city today passed into the hands of a New York trust, and will be closed. The plant manufactures wood alcohol and is the only one of its kind in the middle West. Over 400 men will be thrown out of employment.

GREAT FIGHT ENDS.

NORTHERN PACIFIC CONTROVERSY IS AMICABLY SETTLED.

DETAILS ARE AS YET WITHHELD.

ANNOUNCED OFFICIALLY, HOWEVER, THAT PEACE IS A FACT.

Union Pacific Directors Will Be Given Places on the Northern Pacific Board and Vice Versa as Result of the Pact.

New York, May 31.—The conflicting interests in the Northern Pacific railroad have reached a final and amicable agreement upon all matters of disagreement and as to their future relations to the property. There has been no announcement of the terms of the new pact, which ends the most remarkable financial battle on record in Wall street, and none of the details have been made public.

Later this afternoon the following statement went out on the ticker: "It is officially announced that an understanding has been reached between the Northern Pacific and Union Pacific interests under which the composition of the northern Pacific board will be left in the hands of J. P. Morgan, certain names having already been suggested, which will especially be recognized as representative of common interests. It is asserted that complete and permanent harmony will result under the plan adopted between all the interests involved."

Confirmed by Officials.

When the statement was shown to Louis A. Heinsheimer, of Kuhn, Loeb & Co., he said: "That statement is authentic. We cannot go into the particulars as to the settlement or give you any details at this time. All that we can say is that there has been a settlement of the differences that existed and the matter is at end."

Jacob H. Schiff declined to add anything to the official statement beyond confirming the truth of it. All James J. Hill would say was that a satisfactory settlement appeared to have been concluded.

One of the stories heard today after the announcement that peace had been declared was that at least two Northern Pacific directors would enter the Union Pacific board and that equal representation would be given the latter road in the directory of the first named.

New Line for Chicago.

Chicago, Saturday, June 1.—The Record-Herald this morning says: "It is stated on apparently unquestioned authority that the management of the Indiana, Illinois & Iowa railroad has determined to build a Chicago connection from South Bend and extend its lines from South Bend to Detroit or Toledo, and possibly both."

BAD WEATHER HURTS TRADE.

Crops Also Retarded, Especially Corn and Oats—Iron Still Booming.

New York, May 31.—Bradstreet's tomorrow will say: "Unseasonable weather has been the key to the general situation this week, discouraging as it has been to retail trade in cities and country districts alike, retarding the growth of most crops, but particularly corn and oats in the northern half of the country and cotton in the South and the West."

"The situation in the textiles has not changed materially, except that the real conditions in the print cloth market have been recognized by a heavy cut in the price of that product."

"Steadiness of prices is still a feature, cereals being at a high or slightly higher than a week ago, owing to bad crop reports from abroad and to tales of dry weather damage in the Northwest and wheat and too cool weather for corn in the country as a whole."

"As for some time past, new business in iron and steel is small, while the pro-

duction on orders is at the maximum. Steel billets are temporarily scarce and 50 cents higher, while Bessemer pig is off 25 cents. Finished products generally are strong and the mills are still crowded with business."

"The wheat shipments this week total 4,139,000 bushels, against 4,533,000 in the week of last year; corn, 2,037,000 bushels, against 3,882,000 a year ago."

As Noted by Dun's Review.

R. G. Dun & Co.'s Trade Review will tomorrow say: "It is the season when crop damage rumors are always heard, and they have come from many quarters, but probably in large part owe their origin to speculation."

"The labor situation is a little brighter. Many strikes have been settled and others are expected to terminate shortly. The iron and steel mills are working at full capacity and more new plants have been put in operation. Quotations are well maintained without effort to secure advances. Farming machinery is the feature of domestic business and there is no sign of decrease in the export demand, which has attained enormous proportions. The railroads are unable to secure sufficient freight cars and other supplies, while structural work proceeds briskly with little interruption from labor controversies."

BUOYANT TONE IN STOCKS.

Rumors of New Railroad Deals and Heavy Buying Are Features.

New York, May 31.—The stock market developed quite a buoyant tone today, and the activity still further increased, giving the market a good deal of the appearance that it offered during the boom period. The strength became very general during the progress of the day, but the effect in part was sympathetic and flowed from the conspicuous strength of prominent stocks. The current conclusion in the street pointed to the possibility that the movements in the principal stocks were due to operations by the Harriman-Rockefeller-Gould element and to those of the Pennsylvania railroad in retaliation.

As a preliminary reaction, due to selling to take profits by buyers on Wednesday, Aetichson moved very aggressively upward on the absorption of thousands of shares lots. During the rest of the day there were successive developments of similar movements in other stocks.

Among the stocks that were particularly strong were Pennsylvania, Erie, Southern Pacific and the Southern Railway stocks. The buying of Aetichson came from many sources, but the prevalent opinion was that a large part was for Philadelphia account and Pennsylvania road interests. The buying of Southern Railway was attributed to the same source, and confident predictions were heard that announcements would be made that Pennsylvania was in control of the company.

The advance in Aetichson reached 5 1/2 points and in preferred 2 1/2. Pennsylvania 3 1/2, Erie 2 1/2, Southern Pacific 3 1/2, Missouri Pacific 3 1/2, New York Central rose 3 1/2 points and Baltimore & Ohio 2 1/2, apparently in sympathy with Pennsylvania. The decided strength of the United States Steel stocks also had considerable influence. Common advanced 2 1/2 and preferred 2 1/2. Amalgamated Copper rose nearly 4 points in spite of the reported formation of an opposition corporation, but reacted later and closed with a net gain of less than 2 points. There were gains of 2 to 4 1/2 points in a number of other industrials.

The market closed active and strong at a rally from the late reaction and with stocks at the top, as follows, Paine, Webber & Co. furnishing the quotations:

WHEAT RULES STRONG.

Gains on Light Receipts and Crop Scores—Sharp Break in May Oats.

Chicago, May 31.—Wheat ruled higher today, May showing a gain of 1/2, July 3/4 and September a fraction over a cent. There was a good trade, with rather active changes. The cash business was dull, 100,000 bushels selling here and three boatloads at the seaboard. As a help to the bullish sentiment were smaller Northwest reports, coupled with unfavorable crop reports in sections. The cables were unsettled; Liverpool was 1/4 better.

Corn was fractionally better for July, while May and September were unchanged. The volume of business were exceptionally small. May showed a loss of 3/4 from the top price, ranging at 53 1/2. The cash here and four boatloads taken at the seaboard. Corn was helped by wheat, coupled with poor crop reports. At Liverpool, spot was 1/4 lower and the futures 3/4 down. The receipts were 84 cars, with 128 contract.

Oats were active and unsettled. The feature was the break in May from 31 1/2 to 27 1/2, with the close at 28. There was no support to the market. Longs were sellers, and as the prices declined the largest short covered 250,000 bushels. The close was at a net loss of 3 cents. July opened stronger, but declined 1/2 and closed 1/4 lower. September at one time showed 3/4 advance, but lost 3/4 of it at the close. The leading grain futures ranged as follows: July wheat opened 74 1/2; highest, 74 1/2; lowest, 74; closed, 74 1/2.

One dozen best dull finish photographs for \$1.50. Stiepel's Studio. (5-21-1)

% July corn opened 44 1/2 @ 1/2; highest, 44 1/2 @ 1/2; lowest, 44 1/2 @ 1/2.

The movement of grain was as follows: Receipts, Shipments.

Flour, barrels, 11,000 14,000  
Wheat, bushels, 89,000 315,000  
Corn, bushels, 464,000 642,000  
Oats, bushels, 294,000 184,000

GUN AND SHIP COMBINE.

Reports of Success and Failure Printed in Rival Philadelphia Papers.

Philadelphia, Saturday, June 1.—The Record this morning says that the differences between the officers of the Bethlehem Steel company and the representatives of the Vickers Sons & Maxim company have been adjusted and a consolidation is now assured of the English concern and the Cramp and Bethlehem establishments. The article says that representatives of Morgan & Co. and Kuhn, Loeb & Co. of New York were in Philadelphia yesterday and made the official statement to several of the local men most concerned that all the details to the merger had been completed.

In direct conflict to the above, The North American this morning says: "The negotiations for the sale of the Bethlehem Steel company to Vickers Sons & Maxim are finally off, according to Robert P. Linderman, president of the company."

CENSUS RETURNS IN DISPUTE.

Figures for 1891 and 1901 in Canada Arouse Suspicion.

Ottawa, Ont., May 31.—On the theory that the census returns of 1891 were doctored, the government, it is said, will order an inquiry into the facts. The reason for the view that fraud was practiced in 1891 is that some of the returns of the recent census are rather disappointing in character.

It is patent to everybody that throughout Canada there has been a gain in population since 1891. Yet the returns from several of the rural districts in Ontario and Quebec appear to show a falling off. One of the districts in Ontario which shows a reduced population is East Bruce, where the falling off in population as compared with 1891 is about 2,500. In the province of Quebec, the county of Mississippi shows a decrease of over 700, while in Rouville there were 3,000 less persons counted than in 1891. On the other hand, the population of the large urban centers, so far as can be estimated, indicates large increases.

**FATALITY AT MICHIGAMME.**

Nicholas Peters, a Son of John Peters, Killed by an Explosion.

One of the saddest accidents that has ever occurred in Michigan happened yesterday morning shortly before noon. By an explosion of powder Nicholas, son of John Peters, aged eighteen years, was instantly killed while at work in the blacksmith shop of the Bristol Mining company. Peters was the only occupant of the shop at the time of the explosion.

The powder was stored in a shanty adjoining the shop and there was a considerable quantity of it in the little house. In some manner, as yet unexplained, the powder exploded and Peters was hurled against the wall. The force of the explosion wrecked the shanty but did no damage to the blacksmith shop, so it would seem that the young man's death was caused by the concussion.

Young Peters was well known in this city, he having been born here and having always lived here up to about a year ago, when he removed to Michigamme. His father was formerly a captain with the Bristol Mining company. Nicholas is a cousin of William Peters of this city and that gentleman left for the scene of the accident on the 4 o'clock train yesterday afternoon. The remains will be brought to Ishpeiming for burial, but the time of the funeral has not been set at this writing, though it will in all probability take place tomorrow afternoon. The father of the deceased is in deep grief over the fate of his son.

**BANK ALTERATIONS.**

Work on the alterations which will take place in the Miners' bank building was started this week and will be pushed energetically until completed. A summary of the changes and improvements to be made will have interest for Ishpeiming readers.

A portion of the store now occupied by Ed. Girzi, about sixteen feet wide by twenty-five long, will be given up to the bank people. Mr. Girzi secures as compensation for this room a cellar sixteen by twenty-five, a convenience which he has never had before. In the space thus reclaimed from Mr. Girzi, the vaults of the bank will be located. They will be of the latest pattern and thoroughly fireproof and as near burglar proof as the most modern construction and appliances can make them. There will be three of these vaults. The first will be on the north wall, 12½ by 6½ feet, inside measurement. This will hold the books and papers of the bank. Next south will be the money vault, which will be 5 by 6½ feet inside. These two vaults will open east into the present banking rooms. Mr. Girzi has the other vault, which is south of the money receptacle and is 4 by 6½ feet on the inside. This vault has its door in Mr. Girzi's store.

As a preparation for these vaults, a solid wall of masonry will be constructed, twelve by twenty-five feet and about six feet thick. The vaults will rest directly upon this foundation. When the vaults are completed, those now in use in the banking rooms proper will be taken out and thus much additional floor space will be secured. The increased business which the Miners' is doing makes necessary enlarged space for the numerous clerks and solution of the problem of securing it which has been worked out meets the needs of the institution perfectly. Harry Pearce of Neegaunee has the contract for the entire work and expects to complete it about July 1.

**AN ENTERTAINING LECTURE.**

A week from tomorrow evening W. H. Tolman, secretary of the League for Social Service of New York, will deliver a lecture entitled, "The Paris Exposition from the Workman's Standpoint". In the auditorium of the high school. The lecture will be illustrated by stereopticon views which were taken by the lecturer. As Mr. Tolman spent many months at the exposition, the discourse is sure to be highly entertaining and instructive. Everyone is invited to be present and as the lecture will be on a subject which appeals to all there is every probability that the hall will be crowded.

**SEVEN YEARS IN BED.**

"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c. Stafford's.

While you think of it, go buy and try a box of Cascarets Candy Cathartic, ideal laxative, tonight. You'll never regret it. Genuine tablets stamped C. C. C. Never sold in bulk. All druggists, 10c.

**A CLAIRVOYANT IN THE CITY.**

Prof. J. Randolph LaTour of New York Is Quarters at the Nelson.

Prof. J. Randolph LaTour and Mrs. LaTour arrived in the city yesterday noon from the copper country for a stay of a few weeks. They are quartered at the Nelson and will be glad to see any and all in their parlors between the hours of 10 a. m. and 9 p. m. every day except Sunday when they will be at liberty from 10 until 5. This talented couple comes from a three months' phenomenal success in the copper country, and bring hundreds of enthusiastic testimonials from residents of that section whom they have helped through their wonderful powers of clairvoyance and palmistry.

A Mining Journal representative had an interesting conversation with the professor yesterday and was shown some of his testimonials and clippings from the various copper country journals. It would seem that the professor possesses wonderful powers and all who are in any need of assistance such as he can give would do well to pay him a call during his office hours. Special parlors have been fitted up for him at the Nelson and the various copper country journals. The professor makes one point particularly plain in his statements to the public, and that is, that in no case will he receive compensation if his work does not satisfy the subject.

To quote the professor, he reveals the future, brushing aside the dim veil which hangs before it and enables his caller to see the disaster which is in store for him and the way in which it can best be avoided. He never asks a question, but goes right at the task of telling the caller just what he has in store for him. In this respect he differs radically from all other palmists and clairvoyants who have visited this section. He uses the famous Weltmer method of curing disease without the aid of medicine and stands ready to teach this method to all who wish to learn. Prof. LaTour's time in this city is limited and those who are desirous of consulting him should make their appointments soon.

**FIREMEN'S MEMORIAL DAY.**

The members of the fire department are requested to be at the engine house tomorrow morning, not later than 9:30, in full uniform, prepared to attend worship at St. John's church. After the service the department will hold a special meeting at No. 1 house for the purpose of electing two delegates and two alternates to attend the annual convention of the Upper Peninsula Firemen's association at Crystal Falls. At 1:30 the department will proceed to the cemetery of this city and Neegaunee. The City band will assist the department at each service.

**A SALOON OPENING.**

Tom Simons will formally open his new saloon this evening, and a good time is promised all who drop in there. A free lunch will be served throughout the evening and other attractions will be provided. Tom has spent a great deal of money in fitting up and equipping his new place, and he has one of the finest bar rooms in the city, if not in the county. The bar and mirror which he has installed are unique in design and well worth seeing. The host will be glad to see his friends during the entire day, the opening proper will not take place until this evening.

**WILL PLAY SUNDAY.**

The Firsts will go to Escanaba this evening for a game with the team of that city tomorrow afternoon. It is likely that a few rooters will accompany the home team. It will be remembered that the Escanaba team tried to get up here for a Sunday game recently, but a well developed snow storm set in that day and knocked the game out.

**MALMGREN-TISLOV WEDDING.**

A quiet home wedding was solemnized Wednesday evening at the home of the bride's mother, Mrs. Alec Tislov on First street, by the happy couple, Ernest Malmgren and Miss Anna Tislov, and the Rev. Hans Fosness performed the ceremony. Mr. and Mrs. Malmgren did not leave for a wedding trip, preferring to settle at once in their home on North Main street.

**GOOD ADVICE.**

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth. Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

**READ!** Your Fate Is in Your Hand. Without asking a question he tells you exactly what you called for, your name, who and when you will marry (if ever). In fact, reads your life from the cradle to the grave. It is not what he has done for others, but what he can and will do for you. Prof. LaTour reveals the future, brushing aside the curtain of doubt and darkness, revealing the impending disaster in time to avoid it. Your prospects of today may be your fortune tomorrow if rightly handled. Press and public recognize him as the foremost and most able medium living. Where others fail he succeeds with ease, and he will positively refuse to accept any fee unless he gives the UTMOST SATISFACTION. Fee within the reach of all.

This remarkable man is gifted by nature with marvelous mediumistic powers, and may be consulted on all matters pertaining to the welfare of the human race. He tells you every hope, fear and ambition of your life. His psychic knowledge excites the wonder and admiration of the most skeptical. Do you want to become prosperous and find out what is best for you to do? Then call and receive the advice of this wonderful clairvoyant to whom many prosperous men and women owe their present success. He gives a plain statement of facts and shows you the way to help yourself. He has helped thousands, why not you? Prof. LaTour also reunites the separated and settles all lover's quarrels. The troubled and uncomfortable seek his sympathetic advice. There is no home so dreary and sad, no life so depressed and lonely, no condition or circumstances of life so hopeless or complicated that cannot be righted and kept right after a visit to this wonderful man.

Is your husband or wife untrue? Does another share the love and attention that rightly belongs to you? Has the demon jealousy assailed the happy quietude of your home? Have you a doubtful love affair? Would you have your lost love returned? Do you wish to know the secret of winning and controlling the love of any one you admire? If so, consult Prof. LaTour and he will show you the way to conquer all who now oppose you. He gives you the name of one who loves you and causes a happy and speedy marriage with the one you desire. **ARE YOU SICK?** If so, and your physician has called your disease incurable, see Prof. LaTour and he will either cure you or teach you how to do it yourself. He uses no medicine, but cures with the great magnetic gift that nature has bestowed upon him. (Weltmer method used and taught to others.) Ladies' maid in attendance. Hours, 10 a. m. to 9 p. m. daily. Sunday 10 a. m. to 5 p. m.

**SPECIAL ARRIVAL OF THE GREAT**

**J. RANDOLPH LATOUR,**

**Expert Palmist and Trance Clairvoyant.**

YOUR WISH AND OBJECT IN LIFE CAN BE OBTAINED.

**NOTICE!**

Don't say you don't believe. "His ignorance to condemn a power you know nothing about. Just as shrewd, brainy people as you do believe. You perhaps cannot diagnose disease, paint a picture, act as a great actor or musician. Because you can do none of these things, doesn't prove they cannot be done. You may be an expert in your line of work, yet know absolutely nothing of other lines. You have no more reason to condemn my work than others have to condemn yours. None are so perfect, none so wise but what they may learn something new. No practical person will doubt the possibility of thought transference.

Prof. LaTour reveals the future, brushing aside the curtain of doubt and darkness, revealing the impending disaster in time to avoid it. Your prospects of today may be your fortune tomorrow if rightly handled. Press and public recognize him as the foremost and most able medium living. Where others fail he succeeds with ease, and he will positively refuse to accept any fee unless he gives the UTMOST SATISFACTION. Fee within the reach of all.

### SOME SWANZEY GOSSIP.

Princeton Shipping Ore Heavily—A Tip for the Game Wardens.

Affairs at Swanzeay may be said to be on the mend. The Princeton is employing one hundred men regularly and is shipping a train load of ore to Escanaba every twenty-four hours. The mine was never in better condition than it is today and the efficient management of Captain John Thomas is counting for a great deal. Captain Thomas has great faith in the future of the Swanzeay range. He looks for greater activity there in the near future and is not alone in his opinion of the range.

### Much Deer Slaying.

Reports from reliable parties who know Swanzeay and vicinity thoroughly, are to the effect that deer are being slain there right along in open violation of the game law. The pursuit of deer is so incessant that the timid animals are becoming scarce, and unless it is stopped there will be few left for legitimate sportsmen when the season opens next fall. This is very exasperating to true sportsmen that locality, and in this city, and steps are to be taken to stop the unlawful killing.

People are wondering what the game wardens are about, and much criticism of these officials is heard. The statement has been made that the deputies can do very little good by going to Swanzeay for a short time, and as their territories are large, they could spend but little time in that location, but a visit now and then would have a good effect on the lawbreakers. If game protection cannot be enforced the pretence of enforcing it should be abandoned and the money paid out to wardens saved.

### EXCURSION TOMORROW.

The postponed Woodmen degree team excursion to Presque Isle will be run tomorrow. This is the trip which was planned for Memorial Day, but which inclement weather prevented. The arrangements for the entertainment of the excursionists which were made for Thursday will be carried out as originally planned. This includes the drill of the team at the island at 1 o'clock and music by the Negaunee Orchestra band. The dance at the pavilion will necessarily be omitted. Trains will leave Ishpeming at 10 a. m. and 1:30 p. m. and this city nine minutes later. On the return trip the train will leave the island at 6:55, and will arrive in this city at about 7:30. If a sufficient number wish to remain over until a later hour another train will be run for their accommodation. Tickets for the round trip to include the full program at the park, will be on sale at the stations of the company in this city and Ishpeming at fifty cents.

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

Waiter Baker & Co.'s free demonstration of breakfast cocoa on Tuesday and Wednesday, June 4 and 5, at G. J. Haupt's and the N. Laughlin Co-operative stores. All are cordially invited to call and try this cocoa and receive a free sample and book of choice recipes.

Sell Heppner's pure ice cream and make a barrel of clean money this summer. Heppner, Marquette. (5-1-1f)

A GREAT IMPROVEMENT. Properly fitted eye glasses means comfort to the wearer. The ease and comfort with which an eye glass "rides a nose" depends more on the proper adjustment than it does on the frame. I can show you correct and becoming styles for correctly fitted lenses and frames never unbecoming to anyone. T. E. LUDLOW, Optician. Perkins' Drug Store, Negaunee.

### ELECT OFFICERS.

At a meeting of the English Oak Lodge No. 230, Sons of St. George, held last week, the following officers were elected for the ensuing year: Bert Spear, president; Matthew Chester, vice president; E. J. Goodman, secretary; Ernest Oates, assistant secretary; W. J. Thomas, messenger; A. J. Bice, treasurer; Thomas A. Pascoe, trustee; T. H. Roberts, representative; and Joseph Curtis, alternate. The installation of these officers will take place in the hall Monday evening, and a good time is expected.

STRENGTH comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

### LOCAL LAOONICS.

Gordon Murray of Norway is in town for a few days.

T. D. Hall left for a few days' business trip in the copper country yesterday morning.

Rusco & Holland's big minstrel company will appear at the opera house on the 11th.

Miss Ada Desjardins of Marquette spent Memorial Day with her friend, Miss Mabel Jackson.

Mrs. Benjamin Thretheway of Ironwood is visiting Mrs. James Williams in this city for a few weeks.

Mr. and Mrs. Fred Williams have moved into the house on Case street just vacated by Frank A. Bell.

Mr. and Mrs. Solomon Bergson expect to leave tonight for a ten days' visit with friends in Minneapolis.

Mrs. Michael Rice of Spaulding is in the city for a two weeks visit with her parents, Mr. and Mrs. Peter Lemire.

T. F. Cole of the United States Steel Corporation was a business visitor in the city yesterday. He left for Duluth on the morning train.

Louis Hansen, who has been spending the past month in the city with his family, left on the return trip to British Columbia Thursday.

Tim Curran has been transferred from his fireman's run on the Northwestern at Powers to the control of a switch engine in the local yards.

The dancing club gave a very successful hop in Cyr's hall Thursday evening. A portion of Trombley's orchestra of Ishpeming furnished the music.

The various civic societies which took part in the Memorial day parade, extend hearty thanks to the unknown drummer who so kindly assisted them on their way.

Mrs. John Muek, who was afflicted with a stroke of paralysis Thursday morning, is resting more easily and hopes are entertained for her ultimate recovery.

Attention is called to the examinations for pupils of the Eighth grade, which will be held in the principal cities and towns of the county this morning at eight o'clock.

P. B. Kirkwood was a Little Lake visitor yesterday. He went down to take a look at his "hanger" and "kopje." He states that the building will soon be ready for occupancy.

The concert given by the Old City band in the stand Thursday evening was listened to by a large and appreciative gathering. The program rendered was varied in its makeup and was finely executed.

A number of "jags" who came down from Ishpeming Thursday evening were lodged in the jail that night and yesterday paid for their fun before the various justices. Considering the size of the crowd which thronged the streets Thursday afternoon and evening good order was kept.

Harry Lucas went wrong in Ishpeming Thursday evening. He drove to that city and took a couple of young ladies out for a drive. The horse became unmanageable on Cleveland avenue and threw the party into the ditch. The occupants were not permanently injured, but the rig was put out of business.

H. J. Webster, principal of the high school, will deliver a lecture on "College Education" in the auditorium of the school Wednesday evening, which will be free to all. The lecture will commence promptly at eight. Mr. Webster has made a thorough study of his subject and is amply qualified to make an interesting address.

The Misses Lemire, who have been spending the past few days in the city with relatives, left for their home in Ford River yesterday morning. It will be interesting to the many friends of the Misses Lemire to know that in about a week they will remove from the River to Minneapolis, where they will make their home in the future.

### DIDN'T MARRY FOR MONEY.

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infidelity for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c. at Stafford's drug store.

Walter Baker & Co. (Ltd.), of Dorchester, Mass., will give a free demonstration of their breakfast cocoa on Tuesday and Wednesday, June 4 and 5, at G. J. Haupt's and the N. Laughlin Co-operative store. All are cordially invited to call and try this cocoa and receive a free sample and a book of choice recipes.

Danger, disease and death follow neglect of the bowels. Use DeWitt's Little Early Risers to regulate them and you will add years to your life and live to your years. Easy to take, never gripe. Stafford Drug Co., H. N. Meloche, Ishpeming.

How Are Your Kidneys? Dr. Hobbs' Serravallo Pills cure all kidney ills. Sample free. Sold. Sterling Remedy Co., Chicago, N. Y.

## L'Anse and Baraga.

Decoration Day was not formally observed here.

Martin Voetsch returned Tuesday from a few days business trip at Munising.

Mr. Thomas Cameron of Lake Linden was a guest at the Shields' residence over Sunday.

Attorneys W. G. Rice of Houghton and Harry A. Miller of Calumet were here on legal business Wednesday.

George S. Cook, sheriff of Ashland, Wis., was here Wednesday on a still hunt, but he did not locate his game.

N. M. DeHaas of Skaneateles is in town this week. He reports that work at his mill is progressing very favorably this spring.

Bernie, the seven-year-old son of Mr. and Mrs. John Hill of Calumet, died this afternoon after a short illness with the measles.

At the L'Anse, brownstone quarry a force of ten men is busy repairing the tracks and derricks, getting in shape for operation.

John Haviland of Pequaming left for the East this week on a short vacation. He will take in the Pan-American exposition at Buffalo.

Mrs. James Kerwin returned Tuesday from a few weeks' visit with her daughter, Mrs. N. W. Fox at Manistique, who has been quite ill.

I. A. Moore, superintendent of the Dollar Bay Land and Improvement company, was here Thursday looking up some timber matter.

Mr. Louis J. Shepard, wife and children, of Tamarack were here for a few days' visit this week, the guests of Mr. and Mrs. S. T. Harris.

P. J. Ober of Turner Bros. brokerage office and Fred Gueck of Fancett & Bro's. Insurance office of Calumet were here Thursday and made a raid on the brook trout of Silver River. They caught 150 fish.

The most severe shock that the community here has had for many a day was caused by the announcement of the drowning of Mrs. Nelson J. Malott in Silver River last Saturday afternoon. Mrs. Malott, accompanied by Mr. and Mrs. Steele, drove out to Silver river, about seven miles from here on the Huron Bay road, for a little outing. After parking at a launch the ladies strolled down to the falls, a short distance from the rig and Mr. Steele, who was caring for the horse. Mrs. Malott climbed close to the side of the falls, which are about fifteen feet high, and was watching the water. It is supposed she was made dizzy, as she fell head first into the falls at a moment when Mrs. Steele's back was turned, that lady being about twenty feet away. When Mrs. Steele looked around she saw Mrs. Malott in the water under the falls. She ran to her rescue, extending a long stick to her, but she did not appear conscious, as she did not make a struggle.

Mrs. Steele waded into the water as far as she dared, the pool being about six feet deep. She became so frightened that she ran back to call her husband, who arrived at the scene in a few minutes and got the body to the bank of the stream. With the assistance of some men, who happened to be passing, he did everything in his power to restore life, but without avail. A coroner was summoned. A verdict of accidental drowning was rendered. The body was prepared for shipment to St. Johns, Mich., the former home of the deceased, for burial. The remains were accompanied to that point by the husband and R. Hathaway, the father, who, at the time of the accident were at Houghton on business, the mother being at St. Johns on a visit. A short funeral service was held at the home, the Rev. John M. Shank officiating, and the remains were escorted to the depot by the Lady Maccabees of whom the deceased became a member less than a year ago. Mrs. Malott was but twenty-eight years old and a favorite with all who came in contact with her. She was the only child of Mr. and Mrs. Hathaway of the Hathaway Graphite Manufacturing company, who, with the husband as well as Mrs. Steele, who is almost frantic from the shock, and her husband, have the sincere sympathy of the entire community in their affliction.

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Props., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by their firm.

West & Trux, Wholesale Druggists, Toledo, O. Wadding, Kimball & Marcin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all druggists. Testimonials free.

Hall's Family Pills are the best.

Eczema, salt rheum, fetter, chafing, ivy poisoning and all skin troubles are quickly cured by DeWitt's Witch Hazel Salve. The certain pile cure. Stafford Drug Co., H. N. Meloche, Ishpeming.

If the predisposition to worms in children is not cured they may become emaciated, weakly and in danger of convulsions. WHEAT'S CREAM VERMIFUGE is the most successful and popular remedy. Price 25 cts. Stafford Drug Co.

THIS IS TO CERTIFY that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle. Wm. H. Farris. (Chn. Ed. Tp. of Wilton, Monroe Co., Wis. The Stafford Drug Co.)

## Additional Ishpeming

### ISHPEMING IN BRIEF.

Oluf Holmoe, Erick Hoyseth and Peter Hamburg visited Marquette last evening.

Miss Carrie Mattson of Escanaba is spending a few days in the city, the guest of friends.

Andre Formis went up to Houghton yesterday afternoon for a stay of a few days with friends.

R. C. Mann, auditor of the Cleveland Cliffs company, is transacting business in the city for a few days.

E. B. Robbins will open a coffee house in the stand formerly occupied by Mrs. Capewell on Cleveland avenue.

The Johnston house boarders will spend today at the first falls of the Escanaba on their annual outing.

Paul F. Pressistine spent yesterday at Humboldt on a fishing excursion. He reports having had excellent luck.

Miss Ida Tislove returned to her home in Houghton yesterday morning after attending the wedding of her sister in this city.

Miss Teckla Farm will assist the choir of the Presbyterian church tomorrow evening. She is on the program for a solo.

Miss Martha Erickson went to Chicago Thursday evening to be with her mother, who will soon undergo an operation for a tumor.

Thomas Cooney left for Oshkosh Thursday evening. He will play ball with the team which represents that city in the Wisconsin state league.

Miss Kate Bright spent Memorial Day in Michigan, in the cemetery of which town lies the body of her father, who was a soldier in the late war.

Joseph Pope will put in some new furniture in his saloon. The furniture has arrived and is now being placed in position. It includes a new bar, tables, chairs, etc.

The sale of reserved seat tickets for Rusco & Holland's big minstrel at the opera house next Wednesday evening will begin today at Tillson's. The best seats in the house will go at fifty cents.

The demonstrators for the Walter Baker company at Sellwood's and Braastad's were kept busy yesterday serving cocoa. From here the demonstrators go to Negaunee, spending Tuesday and Wednesday of next week there. Later they will visit the copper country.

The local camp of the Royal Neighbors will give a card party and sofa low social at their regular meeting place next Tuesday evening. The Woodmen and their friends are invited to attend. Refreshments will be served.

One of the city teams in Joe Goldsworthy's charge became unmanageable on Cleveland avenue yesterday morning and made a very pretty sprint down that thoroughfare to Main. The frightened animals got on the sidewalk in front of William Manley's store and passed between a telephone pole and the store front without touching either. Mr. Manley was cleaning his windows at the time and had a narrow escape from being run over. The team went through the square to Pine street and thence to Division and was not stopped until it had reached the Cleveland location. No damage was done.

Cycling has its ups and downs. After the downs, use Banner Salve if you're cut or bruised. It heals the hurt quickly. Take no substitutes. The People's Drug Store.

ABOUT COUGHS AND COLDS. Many broadminded physicians prescribe Bunsen's Pine Tar Cough Honey openly or give it unknown to the patient. Physicians who have tested it, know it will cure and leave no chance for the diseases which follow Latrippe, Colds and Croup. Price 25 & 50 cents. For sale by the Stafford Drug Co.

AT THE CHAMPION WINE ROOM, CHAMPION, MICH. Can be found the leading brands of liquors in BOTTLED goods including: Elite Club Rye, Oscar Pepper, Bell of Anderson, W. H. McBrayer, California Port Wine, and many others.

H. DAVIDSON, PROP.

CLUB SEASON OPENS

FIRST PARTY LEAVES FOR HURON MOUNTAIN TODAY.

CHICAGO AND DETROIT PEOPLE.

THEY HAVE CHARTERED THE TUG SCHEMCK FOR THE TRIP.

As Yet No Steamer Has Been Procured for This Harbor and Unless One Is Secured Resort Will Have a Light Season.

The season at the Huron Mountain Shooting and Fishing club, the most famous recreational resort on the upper peninsula and one of the notable institutions of the kind of the country, will be inaugurated today when the first party will sail up the lake on the harbor tug Schenck, which has been chartered for the trip. It will include Dr. George E. Baxter of Chicago; W. P. Hamilton and family, a party of eight; Ashley Pond and daughter and C. H. Hodges and family, a party of five, all of Detroit.

The club has been opened for the past several days, Stewart M. J. Manley going up the lake about a week ago, with a considerable contingent of help. He has been busy in the interval preparing for the reception of the first guests and the party which leaves Marquette today will find everything ship shape.

Ordinarily the Mining Journal would be safe in announcing that the coming season promised to be the biggest in the club's history. Last year it was more popular than ever before. The visitors came from the north and south, east and west. The cottages and main club usually had big complements of guests and at times their capacity was absolutely reached, with the result that prospective visitors had to be warned to stay away.

Were a coasting steamer plying out of Marquette regularly again this season, the Mining Journal would be justified in making rosy predictions for the club during its open months in 1901. However, the City of Marquette is now plying through waters other than those of Lake Superior, where her successor has yet to put in an appearance. This being the case, even the officials of the club are in doubt as to what the next few months have in store for them.

Many Stay at Homes. If some interest does not put a steamer in this port there will be many stay at homes among the club's members and the attendance for the season now just opening will be materially reduced from the figures attained last year. If there is going to be a general turnout of the club's members during the next few months it is essential that some arrangement be concluded to give them the equivalent of the transportation facilities they have enjoyed during the seasons of the City of Marquette's operation. These were excellent, in fact all that could be asked. The only trouble was that the steamer was not a money maker and that the burden of keeping her in commission fell entirely on J. M. Longyear's shoulders.

The steamer project is still up in the air. Officials of the club are unable to locate here a suitable craft will be located here. The matter is attracting much attention among the outside members and their anxious queries are received daily. It is possible that they

CORRESPONDENCE PAPERS.

Persons with good taste need never be in want for fine correspondence papers. We can safely say that our line is the very best ever handled in town, with a complete line of the following makes:

- WHITING'S STANDARD PAPERS (all styles and colors.)
CRANE'S CELEBRATED LINEN, BOND GLAZED AND UNDER-GLAZED.
HUND'S FIND PAPERS, (all sizes and tints.)
ROYAL VELVET PAPER AND ENVELOPES.

We Have the Best Tablets.

Waterman's and Parker's Fountain Pens.

BIGELOW & CO., Front St., Marquette.

may take hold and do something to provide the usual accommodations for reaching the resort. While in the event of a failure to locate a steamer here the attendance at the club will be less than in previous years, this is not saying that it will not be large. There are still many ways of reaching the resort. It is but an easy run for the powerful gasoline launch and, as in the case of the party which goes up today, tugs may be chartered for the trip. Then many members own and use their own launches. The main argument against this class of craft is their size, which operates to restrict their use to fair weather.

A LIGHT TOUCH.

Raid on Genell & Olson's Place Netted About \$12.

Genell & Olson's place in the Greenwald block, Washington street, was entered some time early yesterday morning and the raiders picked up about \$12, touching the till and the slot machine for that amount, but overlooking a bag containing over \$140 in currency, which was hidden, with a quantity of bottled goods, beneath the bar mirror.

The work was done by an amateur, or maybe amateurs. Entrance to the place was effected by means of the side door. Usually the main door of the Greenwald block is locked, but the miscreant was acquainted with this fact and he turned the key, throwing the bolt out, and carried it off, so that the door had to be allowed to remain open until yesterday, when it was the intention to get a new key.

A false door, secured by a slight bolt, was opened by working the bolt from its fastening with a pocket knife. On the side door to the saloon an auger was used, a considerable quantity of wood being cut out, so that no difficulty was experienced in turning the Yale lock to give access to the room.

Once inside the marauder gave attention to the till, from which about \$10 was secured. The slot machine yielded a couple of dollars, the auger being again employed to give access to its store of nickels. Although it is apparent that whoever is responsible for the raid was thoroughly familiar with the premises and the business methods of the firm, it appears that the secret of the hidden bag of currency was unknown, as there were no evidences yesterday morning that a search had been made for it.

The work is evidently amateurish and it can safely be attributed to some Marquette party or to someone who has been about the city for some time. The "guilty" party was thoroughly familiar with the arrangement of the Genell & Olson place. The police have their suspicions and it is possible that arrests will follow, although it is hardly probable.

A robbery or burglary of any kind here the exception in Marquette, Genell & Olson's place was thronged all yesterday with people who desired to examine the evidences of the crime, the extra business resulting from the visits of the curious doing not a little to recompense the proprietors for their financial loss.

"THE BOX OF MONKEYS."

Farce Will Be Presented at Fraternity Hall This Evening.

Considerable interest is being taken in "The Box of Monkeys," a farce which will be presented at Fraternity hall this evening. The young people who are in the cast have been coached by Miss Cecil Grylls and they are reasonably confident that they will prove equal to the task of entertaining their friends and keeping them in merriment through the evening. In addition to the farce there will be a musical program, with which the best known Marquette talent will assist. There will also be a series of living pictures. After the entertainment an impromptu dance will be held, for which there will be an extra charge of a quarter. The public is invited to attend the entertainment, which is a benefit for St. Paul's Sunday school.

AT THE CHURCHES.

First Church of Christ, Scientist—Sunday service at the church hall, 109 Spring street, at 10:30 a. m. Subject, "The Only Cause and Creator." All will be welcome.

German Lutheran—Trinity service at 10 o'clock. Sunday school at 11 o'clock. St. Margaret's Mission (Episcopal), South Marquette. Services at the usual hours.

Methodist—At the morning service Rev. William B. Coombe of Calumet will occupy the pulpit. The subject will be, "One Greater Than Moses." At the evening service the pastor will preach.

First Baptist church—Rev. H. E. Purinton, pastor. Morning service at 10:30; subject, "The Joy of Christ in His Self Sacrifice." Evening service, 7:30; subject, "Some Summer Resorts of the Soul." Sabbath school, 12 m. B. Y. P. U., 6:30 p. m. "How to Get Rid of Sin." Miss Irene Babcock, leader.

One dozen fine dull finish photographs for \$1.25, at Werner's. (5-20-11)

Jennie—To have a round beautiful neck wiggle your head from side to side every night, take Rocky Mountain Tea. It's a short cut to a graceful form. 35c. Stafford Drug Co.

The lack of energy you feel, the backache and a run down condition generally, all mean kidney disorder. Foley's Kidney Cure will restore your strength and vigor by making the kidneys well. Take no substitute. The People's Drug Store.

IMPORTANT LITIGATION.

Case of Nester Estate vs. Diamond Match Co. in U. S. Circuit Court.

The Nester estate, by Tarsney & Fitzpatrick, attorneys, Wednesday began suit in the United States circuit court against the Diamond Match Co., claiming \$1,000,000 damages for alleged breach of contract, says the Detroit Free Press.

In 1891 and for some years after that time, it is alleged, the defendants assumed to control the Ontonagon river for a distance of ten miles, beginning two miles above the river's mouth, for the purpose of running, driving, sluicing and assorting all logs and timber run or driven down the river from points above the space mentioned. The plaintiffs were engaged in lumbering above this space and their logs had to be driven through the stretch so alleged to be controlled by defendants.

On March 25, 1891, it is averred that the heirs of the Nester estate made a contract with the defendants, by which the former leased to the latter for a term of five years from June 1 of that year all their shore frontage and booms and privileges on the main Ontonagon river, together with all their booms, boomsticks, piles and fixtures. In consideration of this, it is averred, the defendants agreed to receive all plaintiffs' logs or those in which they had a direct interest and which were delivered within what were termed "the boom limits" and then take charge of them, run, sort and deliver them into booms. Provision was made for the construction of a "Nester boom" with a capacity of about 10,000,000 feet of logs, in which plaintiffs' logs were to be run. Plaintiffs agreed to run as early each season as they deemed wise and to continue towing with at least one suitable steamer until they had removed all the logs they desired to tow that season.

Plaintiffs aver that the defendants did not run, sort and deliver the logs with reasonable dispatch and care, but delayed the delivery into booms for an unreasonable time, in consequence of which it is alleged many of the logs became sap-rotten, worm-eaten and otherwise injured, and heavy loss accrued to the plaintiffs, for which alleged losses they now seek to recover. The plaintiffs aver that the amount of logs so damaged was 150,000,000 feet.

STRENGTH IN COPPERS.

It Was the Notable Feature of Yesterday's Market.

Coppers were in excellent tone yesterday, particularly Adventure, and prospects seem favorable for good advances in the favorites. Faine, Webber & Co. said:

"The strength of the coppers today was the result of a steadily increasing volume of good buying orders. It did not reflect a desire of a particular interest to get control, but rather a more general appreciation of the fact that the good coppers are the cheapest stocks on the market. We believe that the public is again turning attention to the coppers and that we shall have a broader and higher market. Good coppers should be bought on all slight reactions. The New York market has been discussing the weekly bank statement, which will probably be a good one. The bulls are in control and for the present we think the market a buy on reactions."

Hayden Stone & Co. wired the Laidley Commission Co.:

"The market has a much better tone. The good advances throughout the list were caused by public buying, as they feel much better disposed towards the coppers now and expect a good market after the Amalgamated deal is in. People who are generally well informed do not expect any serious delay in the completion of the Amalgamated deal. As we generally expect summer market to be dull, we look for some profit-taking on any further advance."

A. R. Jones & Co., said of wheat: "The weather map was again the dominating feature in the wheat market, starting it strong and keeping it all day well above Wednesday's close. No rains in Minnesota, light showers only in the Dakotas and the Southwest and a good outside demand, particularly for September, kept the ball rolling until July had reached 74%. Traders are inclined to recall the fact that a year ago this time wheat started for an advance of 22 cents."

Werner is making a photograph for fifty cents per dozen.

RUGS MADE OF OLD CARPETS. Address M. Iralson, Janzen Hotel, city. (6-5d)

ATTENTION TRAVELINGMEN! When in Grand Marais stop at Hotel Grand Marais. Rates, \$2.00 per day. (4-9-2m)
