MRS. EDDY WINS.

\$150,000 SUIT AGAINST HER IS BROUGHT TO SUDDEN END.

JUDGE TAKES CASE FROM JURY.

HOLDS THE LIBEL NOT DEFINITELY FIXED ON MRS. WOODBURY.

Attorneys for the Plaintiff, However, Take Exceptions to Certain Rulings and Will Carry the Proceedings Up to the Supreme Court.

Boston, June 5.—"I have examined this libel suit with great care, both while the arguments were going on and during the trial, and I have come to the conclusion the reference does not absolutely identify the plaintiff. It seems to me the plaintiff has not made out a case here which I can let go to the jury. I shall therefore be obliged to order a verdict for the defendant."

With these words, in the superior court, Judge Charles U. Bell this afternoon brought to a sudden and unexpected end the famous \$150,000 libel suit brought by Mrs. Josephine Curtis Woodbury of Boston against Rev. Mary Baker Eddy of Concord, N. H., founder and present head of the Christian Science church.

To Carry the Case Higher. A few minutes later the jury, which had been excluded while the arguments were being made, was summoned into the court room. After explaining briefly the cause for this course, Judge Bell ordered the jury to find for the defendant, which it accordingly did in the usual form. Counsel for Mrs. Woodbury filed exceptions on all questions passed upon. They expect to carry the case to the supreme court.

This far-reaching decision of Judge Bell was given in response to one of two motions offered by Attorney Elder, senior counsel for Mrs. Eddy. This was that a verdict for the defendant be ordered on the evidence as it stood. The other motion, which was not sustained, was that the two counts in the declaration referring to the publication in the two Christian Science periodicals be stricken out.

MRS. MCKINLEY GAINS.

Improvement Very Slight but Gratifying to Doctors and Household.
Washington, June 5.—Dr. Rixey made his usual nightly visit to the White House this evening and remained an hour and a half. On leaving he said: "Mrs. McKinley is resting comfortably now. She has gained a little this evening, but there is no marked change. She is doing very well."

While the improvement in Mrs. McKinley's condition is slight, the fact that there has been no setback during the day, but on the contrary a very little gain, is gratifying to the household, and the president expressed his pleasure several times during the evening. In view, however, of the gravity of the condition of the patient, too much significance is not attached to the slight improvement shown.

The president is spending a large part of his time at his wife's bedside. He was out driving for an hour, however, just before supper. With the exception of time spent with callers and a short time in the cabinet room, most of the day was spent by him within call of his wife.

BREWER AGAIN A BENEDICT.

Supreme Court Justice Marries Miss Emma Mott of Washington.

Burlington, Vt., June 5.—Hon. David J. Brewer, associate justice of the United States supreme court, was married to Miss Emma Mott, a school teacher of Washington, this afternoon, the ceremony taking place at the home of Mrs. J. L. Hall, niece of Mrs. Brewer. Justice Brewer was a widower and has children grown to manhood and womanhood. Mrs. Brewer was born in 1811. Son of J. J. Hill Weds.

New York, June 5.—Miss Maud Van-cortland Taylor of St. Paul was married today to Louis Warren Hill, son of James J. Hill, president of the Great Northern railroad. The ceremony was performed by Archbishop Ireland.

FEARS AMERICAN TRUSTS.

Birmingham Chamber of Commerce Wants British Trade Guarded.

Birmingham, June 5.—The Chamber of Commerce devoted a special meeting today to the discussion of American trusts and adopted, after a long debate, a resolution declaring the earnest attention of the government should be given without delay to the best means of guarding British trade and commerce against injury from the American trusts, both from a national and commercial aspect.

WEATHER FORECAST.

Washington, June 5.—The following is the weather bureau's forecast for Upper Michigan: Showers and cooler Thursday; fair and cool Friday; high southerly shifting to northwesterly winds.

BRITISH LOSSES SEVERE.

800 Deaths Among the Troops in South Africa During May.

London, Thursday, June 6.—The total number of deaths from disease and military operations among the British troops in South Africa during May were twenty-five officers and 799 men.

MASSACRED BY CHINESE.

Fifteen Priests Butchered at a Mission in Southern Mongolia.

London, Thursday, June 6.—According to a dispatch from Peking, Father Boanin, an Italian priest, and fourteen other priests had been massacred at Ning Tio Liang, southern Mongolia.

COSTLY BLAZE THIS MORNING.

Flames Sweep Through the Business Section of Fennville, Mich.

Fennville, Mich., Thursday, June 6.—The business portion of Fennville was destroyed by fire early this morning. The fire started at 1 o'clock in Dickenson's warehouse and the flames, swept by a fierce wind, spread with great rapidity to adjoining buildings. At 2 o'clock the entire opera house block, including Postick's and several other stores in ruins, and a block of stores on the north side of the street were in flames. The loss at present cannot be estimated.

MORE CADETS OUT.

TWO ARE SUMMARILY DISMISSED FROM WEST POINT.

RESULT OF A COURT-MARTIAL.

HAD FALSELY OBTAINED PERMISSION TO LEAVE THE POST.

Member of the Fourth Class at the Naval Academy Is Also Expelled—

Regularly Convicted of Hazing a Junior.

West Point, N. Y., June 5.—Two cadets, members of the coming first class, were summarily dismissed from the United States Military academy today.

They are Stephen B. Verner of New York and Charles Sherry of Iowa. They were court-martialed upon the charge of having falsely obtained permission to leave the post. Permission having been granted, they were subsequently detected by an army officer drinking at a bar in Newburgh. They were dismissed without travel pay and started for home immediately.

New Candidates on Deck.

Fifty-six of the fifty-nine young men who have been appointed cadets to the academy since March 1 last reported for the entrance examinations today. Private Calvin P. Titus, made famous by sealing the wall at Peking, has until July 25 to present himself for examination. Among the newly appointed cadets is H. L. Wells of Michigan.

Yesterday when four of the five cadets dismissed from the academy a short time ago sailed from New York for Ecuador they received a rousing send-off from a crowd of friends. They will serve as engineers in the building of a railroad across the Andes.

Expulsion at Naval Academy.

Washington, June 5.—Following the example set at West Point, the superintendent of the Naval academy has caused a cadet to be dismissed for hazing. In this case, however, that of Calvin Joy Cressay, a member of the fourth class, the accused was tried by court-martial and regularly convicted. The details of the court-martial were not made public, but it is understood the dismissed cadet was discovered in the act of hazing a junior in a room by compelling him to stand on his head.

PEKIN LIBRARY BURNS.

Lightning Causes a Disastrous Fire in the Forbidden City.

Peking, June 5.—Lightning yesterday struck a building inside the gate of the American end of the Forbidden City, causing a fire. The American and Japanese guards did all possible to prevent the spread of the flames. A heavy rain saved the Forbidden City. Three buildings were burned, including the library, containing many valuable manuscripts and numerous historical records of the dynasty.

Waldsee Sails for Japan.

Berlin, June 5.—Count von Waldsee has left Taku on board the German cruiser Hertha for Kobe, Japan.

GIFT FROM MRS. ARMOUR.

Armour Institute to Get \$25,000 More from the Packer's Family.

Chicago, June 5.—Mrs. Philip D. Armour today decided to add a quarter of a million to the recent donation of a million made by her and son, J. Ogden Armour, to Armour Institute. This makes a total amount given by the Armour family to the institute of \$3,500,000.

FOUL MURDER AT FLINT.

Mrs. Parish, a Widow, Killed by L. W. Weeks, Who Escapes.

Flint, Mich., June 5.—Mrs. Jennie Parish, a widow, aged thirty-four, was shot and killed by Lewis Weeks tonight. Weeks came to Mrs. Parish's home and demanded admittance, but it was refused. He broke in the door and fired two shots into the woman's right side. Weeks escaped. He has a wife and three children. Mrs. Parish named Weeks as her slayer before she died. Her daughter witnessed the shooting.

BALLOONS FOR BALDWIN.

Arctic Explorer Will Take a Few on His Trip to the Pole.

Quincy, Ill., June 5.—Evin R. Baldwin, the Arctic explorer, was here today to confer with his cousins, Samuel and Thomas Baldwin, aeronauts and balloon makers. The Baldwins have been making a number of balloons for the explorer and a test of a large hydrogen gas balloon was to have been made here today, but was prevented by a rain and hail storm.

Explorer Baldwin left tonight for St. Louis and goes thence to see relatives in southeastern Kansas. He sails from New York on the 12th and will meet his ship, America, at Dundee, going from there to Tromsøe and sailing for the north before July 1.

MORE CADETS OUT. RIOT AT PASSAIC.

GIRL STRIKERS MAKE ATTACK ON HANDKERCHIEF FACTORY.

REPUSE CHARGE BY THE POLICE.

OFFICERS, REINFORCED, LATER TAKE THREE PRISONERS.

Mob Then Tries to Release the Captives and After a Hard Tussle Is Only Vanquished by Stream from the Fire Hose.

Passaic, N. J., June 5.—Taking advantage of the fact the police guards at the Acheson-Harden handkerchief factory had been reduced to two men, the girl strikers made a fierce attack today on those who had taken their places in the factory. Showers of stones were thrown at the new girls as they were going to work, and the factory windows were pelted.

The police charged the rioters, but were driven off, and sent for reinforcements. When these came three girls were arrested and one man who interfered in their behalf was started for the police station in a wagon. A crowd followed, hooting and stoning the police.

At the station the mob again tried to rescue the prisoners and was only driven off by a fire company turning a stream from an engine upon it. The prisoners subsequently were fined \$5 each.

STRIKE LOST BY MEN.

Cash Register Works Employees at Dayton Vote to Return.

Dayton, O., June 5.—The labor unions in joint session today voted to accept the terms proposed by President Patterson of the National Cash Register company, in settlement of the troubles at that factory. The company agreed to take back the old force excepting the four men whose discharge caused the trouble. Twenty-five hundred men will return to work.

CHICAGO MOLDERS ASK RAISE.

3,000 Will Quit Unless Given a Minimum Wage of \$3 Per Day.

Chicago, June 5.—Three thousand molders, nearly all employed by members of the Chicago Association of Machinery Manufacturers, today decided to quit work unless the manufacturers agree to increase their wages. The union demands a minimum wage of \$3 per day.

SNOW IN NORTH DAKOTA.

Hail Damages Crops in Iowa and a Tornado Hits Oshkosh.

Minnewakan, N. D., June 5.—Rain today was succeeded by a heavy snow that is still falling. A freeze is feared.

Moravia, Ia., June 5.—A heavy hail storm did great damage to growing crops here today.

Oshkosh, Wis., June 5.—This section was visited tonight by a tornado. The rain fell like a cloudburst and the wind blew a gale. There was much damage.

NEW \$50,000,000 TRUST.

Cotton Duck Corporation Comes Into Being at New York.

New York, June 5.—The United States Cotton Duck corporation was organized today. It has an authorized capital of fifty millions and will operate four hundred thousand spindles, producing nearly all the heavy ducks, a large portion of the light ducks and nearly all the high belting and hose ducks manufactured in this country. Richard Cromwell was elected president.

DEFI TO TILLMAN.

McLAURIN WILL RESIGN IF THE SENIOR SENATOR DOES.

SO DECLARES IN PUBLIC SPEECH.

WILLING TO CONTEST WITH HIS RIVAL FOR THE TOGA.

'Steenth Queer Turn in South Carolina Politics Comes After Tillman, Declaring Object Defeated, Withdraws His Resignation.

Columbia, S. C., June 5.—Governor McSweeney today wrote Senator Tillman a quipster letter, declaring that if he really wants to resign, his withdrawal from the senate will be immediately accepted.

However, Senator Tillman, protesting against the governor's right to reject senatorial resignations, tonight withdrew his resignation. In his letter to Governor McSweeney, he says:

"My chief regret is that I am forced by your action to engage in what the outside world will consider a game of opera bouffe, by withdrawing my own resignation after Senator McLaurin's undignified, puerile action; but the purpose for which it was tendered has been thwarted by Mr. McLaurin's precipitous acceptance of the executive advice."

"I have already said I had no motives or purpose in resigning except to force Senator McLaurin's resignation, so there is nothing for me to do but to accept the situation and withdraw my own resignation if it be lawful to do so."

Later—Tonight Senator McLaurin, after speaking bitterly of the senior senator, declared that if Mr. Tillman would now tender to the governor the unconditional surrender of his office, he (McLaurin) would consider this a direct challenge to him and would likewise resign and enter a contest for Tillman's place.

QUEER TURN AT GRAND RAPIDS.

Important Witnesses in the Booding Inquiry Arrested for Forgery.

Grand Rapids, Mich., June 5.—E. H. Garman and Robert Cameron of New York, representatives of the Eastern promoters, who came here yesterday to testify before the Kent county grand jury, which is investigating the alleged corruption in the attempt last fall to put a new water works system from testifying before the jury, as their evidence is said to be vital; that they know all the details of the booding scheme.

The charge of forgery is based on an alleged worthless check which accompanied the water supply bid presented by Garman for the man he represented.

AMERICAN WINS THE DERBY.

Wm. C. Whitney's Colt Victorious in the Great Race at Epsom.

London, June 5.—William C. Whitney's colt Voldyovski, with Lester Rieff up, won the derby at Epsom today. The Duke of Portland's William the Third was second and Douglas Baird's Veronese third. Twenty-five horses started, and a great crowd was present. The distance—about a mile and a half—was covered in 2 min., 40 4-5 sec.

NO TRACES OF POISON.

Alleged Slayer of Father Phillips Is Set Free at New York.

New York, June 5.—The report of George A. Ferguson, the analytical chemist who made the examination of the stomach of Rev. Father Phillips of Hazleton, Pa., who was found dead in the apartments of "Dr." Kirk Stanley three weeks ago, shows that Father Phillips was not poisoned. Stanley was discharged by the coroner today.

FIRE IN SMOKELESS POWDER.

Peculiar Blaze at Navy Yard Costs the Government \$500,000.

Vallejo, Cal., June 5.—A peculiar fire occurred at the Mare Island Navy yard today. Between twenty and thirty tons of smokeless powder burned, causing a loss of about five hundred thousand dollars. The powder burned nearly all day and was not extinguished until tonight. The origin was not determined.

ATCHISON CONTROL INTACT.

Rumors of Change in Ownership Denied by President Ripley.

New York, June 5.—E. P. Ripley, president of the Atchison, tonight denied the report that J. P. Morgan or the Pennsylvania company had obtained control of the Atchison property.

GEN. CHAFFEE IN MANILA.

Manila, June 5.—General Chaffee and staff and two companies of the Ninth infantry arrived here today from Taku.

Tonight

Just before retiring, if your liver is sluggish, out of tune and you feel dull, bilious, constipated, take a dose of Hood's Pills

Hood's Pills

And you'll be all right in the morning.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$3.00 Per year, by mail, \$30.00

MARQUETTE, MICH., JUNE 6.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The Ypsilanti normal school ought to confer an honorary degree on Governor Bliss, as an expression of its gratitude for what he did to perpetuate to it a monopoly on life certificates for normal graduates when he vetoed the bill granting the same authority to the Northern and Mt. Pleasant normals. We are not prepared to say what kind of a degree would fit him, but there must be one that could be adapted to him, and if there is he has earned it.

The Detroit Journal is immensely concerned because the legislature failed to reduce railroad fares in the upper peninsula at the session just closed. Why this solicitude? The Journal was not any too eager to have street railway fares in Detroit reduced when Pingree was making his great fight to have them cut down. Is the Journal's public spirit of the kind that counts for nothing at home because it is expended mostly at long range? The people of this peninsula didn't press the legislature very persistently to give them lower railroad fares. What they insist on most is good service, and if that is given them they don't complain because they are asked to pay for it.

This, taken from the New York Evening Post, fairly illustrates some of the difficulties confronting those who undertake to study out the full meaning of the supreme court's decisions in the insular cases which it recently passed upon:

One of the cleverest lawyers in Washington, with a large practice in the supreme court and court of claims, was among the anxious auditors at the rendering of the decision in the insular cases, and was asked what he thought of it. "It distresses me," he answered solemnly, "I have thought of little else since that day in court. Yesterday I read the full text of all the opinions carefully, trying to solve their intricacies of reasoning. They haunted me even after I went to bed, as if I had eaten something which I could not digest. I dreamed that I saw the court divided into two parties, facing each other with flushed and excited faces. On the one side were the chief justice and Justices Peckham, Harlan and Brewer, waving their arms in the air and shouting: 'The constitution follows the flag!' Opposite stood Justices Gray, Shiras, McKenna and White shaking their fists and vociferating: 'The constitution doesn't follow the flag!' While midway between the two, motioning with his hands in the soothing manner of a peacemaker, stood Justice Brown, urging his colleagues in soft, persuasive tones to be calm. 'Gentlemen, gentlemen!' he was saying, 'pray, suspend this noisy contention! Sometimes the constitution follows the flag, and sometimes it doesn't. Now, if you will only keep quiet long enough to listen to me, I'll tell just when it does and just when it doesn't.' Then I awoke, but I'm sorry to say that my dream has left me more distressed than ever."

WANT TO LEARN OUR WAYS. This country is soon to be visited by a party of skilled workmen from England who are coming here to make a study of American manufacturing plants and the methods employed in them, in the expectation that they can learn something from us which they can make use of in increasing the efficiency of their own establishments. It has taken a long time to bring the English people and the English workmen to the point where they would admit that the workmen and the methods of manufacture of any other country are better than their own, but the superior quality of the manufactured products put forth by the workmen of the United States has forced them to the inevitable conclusion that if they are to do anything to keep their prestige and to keep their trade with other countries they must take pattern by the methods of American manufacturers and American workmen.

It is indisputably a bitter pill for the English mechanic and English manufacturer to swallow, but it is to their credit that they concluded to swallow it instead of having it forced down their throats. They see that unless they are in serious danger of being distanced in the industrial race. These people should be received cordially and the workmen of the United States should do all in their power to see that they are given an opportunity to inspect everything so that they may go away satisfied.

The object of their visit is to learn and the American workmen should see to it that they are taught everything which can be taught them. While this will result, perhaps, in their copying some of our systems and eventually in the substantial improvement of their trade and of their methods of manufacture, the United States can afford to give them this advantage, secure in the certainty that they can only compete where the workmen of the United States will allow them to do so.

Approved machinery in the United States is responsible for much of our ability to successfully compete with other nations, but it is not only the machine that is responsible for this ability, but also the man behind the machine

Champion.

RICH ORE DISCOVERED. Champion Has Prospect of Getting Another Mine Like the Old Reliable.

Champion people are jubilant, and from all appearances justly so, over the discovery of a very rich deposit of magnetic ore a short distance east of the Chicago & Northwestern depot, and less than one hundred feet from the track. A few men began exploring in that vicinity last week. They had not been working very long before ore was discovered some six or seven feet from surface. The find was not such a surprise to Superintendent Fitch and others here who are familiar with mining matters, but they were elated when it was learned that the samples assayed showed over 70 per cent in iron. The discovery soon became noised about and during the past few days nearly every man in the village visited the place and examined the find.

Superintendent Fitch is naturally much pleased with the discovery, though of course he is unable to tell what the find will amount to. There are ten men stripping the vein. When The Mining Journal reporter visited the exploration Tuesday the vein had been stripped in the neighborhood of twenty feet in length by about eight feet in width. Mr. Fitch went and he very kindly engaged the reporter an interview. He said: "The Champion Iron company has undertaken the exploration of a tract of land owned by it lying east of the old Parsons' mine. This mine, by the way, is the origin of the name of the town. Mr. Fitch went and he very kindly engaged the reporter an interview. He said: "It is the intention of the company to thoroughly develop this tract of land by sinking a shaft in the ore which has been discovered there, and also giving it a thorough exploration in depth, by sinking and the putting in of exploring drifts east and west at each level. The work now being done is for the purpose of locating the most favorable place for the sinking of this shaft. During the progress of this work the discovery of exceedingly rich ore has been made, and it gives promise of much better things than were expected of it.

"On account of the deposits in this locality being in the form of lenses, and, as is common in such cases, in more or less widely separated bodies, diamond drilling from surface has proved unsatisfactory in most cases, because in addition to the disadvantage of their being separated, these ore bodies at surface, in some instances, have been quite small. It is their larger bodies of soft ore near the surface, yet the old company has succeeded so far in paying its regular annual dividends; its cost of production having been lowered rather than increased, so that this compares very favorably with other mines in the district and in many cases surpasses them.

"The company owns 15,000 acres of land in the county, much of which is very favorably situated, outside of the mine proper, so far as large deposits of low grade ore are concerned. At the present time the company is opening a mine north of the Champion by means of an adit level 1,200 feet long; the mouth of the tunnel being within a few feet of the main line of the Chicago & Northwestern railway. This tunnel crosses through a body of ore 250 feet wide. One hundred and ten feet of this will be mined at this time, being of sufficiently high grade to put on the market. The system of mining at this place will be by stripping the deposit and putting in raises. The gravel overburden is removed by ordinary means, but the hardpan lying immediately on the ore will be milled to the cars below. The ore will follow the same course. The loaded cars are run out in trains of six, by gravity, the tunnel track having been put in on a one per cent grade; they are then returned by narrow haulage.

"At the entrance to the tunnel this ore is dumped into a pocket and from the pocket it will be conveyed by a Robins conveying belt to the railway cars, thus giving an opportunity for the improvement of the grade of ore by inspection. A few boys will by this method be enabled to thoroughly eliminate all pieces of rock that might be found mixed with the ore, the company having found its belt system at the Champion a very great success in this respect.

"The company owns lands in fee one and a quarter miles along the North range, and has other interests in that vicinity. The conditions are very favorable for a continuation of the system adopted in the mine now opened there. The Chicago & Northwestern Railway company has completed its spur at this mine by the building of a side track which enters from the main line at Goodman's siding, running around to the mouth of the mine tunnel, and re-entering the main line 2,000 feet to the east. Shipments will commence by July

Champion.

RICH ORE DISCOVERED. Champion Has Prospect of Getting Another Mine Like the Old Reliable.

Champion people are jubilant, and from all appearances justly so, over the discovery of a very rich deposit of magnetic ore a short distance east of the Chicago & Northwestern depot, and less than one hundred feet from the track. A few men began exploring in that vicinity last week. They had not been working very long before ore was discovered some six or seven feet from surface. He said: "The Champion Iron company has undertaken the exploration of a tract of land owned by it lying east of the old Parsons' mine. This mine, by the way, is the origin of the name of the town. Mr. Fitch went and he very kindly engaged the reporter an interview. He said: "It is the intention of the company to thoroughly develop this tract of land by sinking a shaft in the ore which has been discovered there, and also giving it a thorough exploration in depth, by sinking and the putting in of exploring drifts east and west at each level. The work now being done is for the purpose of locating the most favorable place for the sinking of this shaft. During the progress of this work the discovery of exceedingly rich ore has been made, and it gives promise of much better things than were expected of it.

"On account of the deposits in this locality being in the form of lenses, and, as is common in such cases, in more or less widely separated bodies, diamond drilling from surface has proved unsatisfactory in most cases, because in addition to the disadvantage of their being separated, these ore bodies at surface, in some instances, have been quite small. It is their larger bodies of soft ore near the surface, yet the old company has succeeded so far in paying its regular annual dividends; its cost of production having been lowered rather than increased, so that this compares very favorably with other mines in the district and in many cases surpasses them.

"The company owns 15,000 acres of land in the county, much of which is very favorably situated, outside of the mine proper, so far as large deposits of low grade ore are concerned. At the present time the company is opening a mine north of the Champion by means of an adit level 1,200 feet long; the mouth of the tunnel being within a few feet of the main line of the Chicago & Northwestern railway. This tunnel crosses through a body of ore 250 feet wide. One hundred and ten feet of this will be mined at this time, being of sufficiently high grade to put on the market. The system of mining at this place will be by stripping the deposit and putting in raises. The gravel overburden is removed by ordinary means, but the hardpan lying immediately on the ore will be milled to the cars below. The ore will follow the same course. The loaded cars are run out in trains of six, by gravity, the tunnel track having been put in on a one per cent grade; they are then returned by narrow haulage.

"At the entrance to the tunnel this ore is dumped into a pocket and from the pocket it will be conveyed by a Robins conveying belt to the railway cars, thus giving an opportunity for the improvement of the grade of ore by inspection. A few boys will by this method be enabled to thoroughly eliminate all pieces of rock that might be found mixed with the ore, the company having found its belt system at the Champion a very great success in this respect.

"The company owns lands in fee one and a quarter miles along the North range, and has other interests in that vicinity. The conditions are very favorable for a continuation of the system adopted in the mine now opened there. The Chicago & Northwestern Railway company has completed its spur at this mine by the building of a side track which enters from the main line at Goodman's siding, running around to the mouth of the mine tunnel, and re-entering the main line 2,000 feet to the east. Shipments will commence by July

Champion.

RICH ORE DISCOVERED. Champion Has Prospect of Getting Another Mine Like the Old Reliable.

Champion people are jubilant, and from all appearances justly so, over the discovery of a very rich deposit of magnetic ore a short distance east of the Chicago & Northwestern depot, and less than one hundred feet from the track. A few men began exploring in that vicinity last week. They had not been working very long before ore was discovered some six or seven feet from surface. The find was not such a surprise to Superintendent Fitch and others here who are familiar with mining matters, but they were elated when it was learned that the samples assayed showed over 70 per cent in iron. The discovery soon became noised about and during the past few days nearly every man in the village visited the place and examined the find.

Superintendent Fitch is naturally much pleased with the discovery, though of course he is unable to tell what the find will amount to. There are ten men stripping the vein. When The Mining Journal reporter visited the exploration Tuesday the vein had been stripped in the neighborhood of twenty feet in length by about eight feet in width. Mr. Fitch went and he very kindly engaged the reporter an interview. He said: "The Champion Iron company has undertaken the exploration of a tract of land owned by it lying east of the old Parsons' mine. This mine, by the way, is the origin of the name of the town. Mr. Fitch went and he very kindly engaged the reporter an interview. TRICK BY CORBETT.

LIQUOR LICENSE OF JAS. J. IS REVOKED AT NEW YORK.

KEPT BAR OPEN AFTER HOURS.

ANTI-SALOON LEAGUE MEN TESTIFY TO BUYING DRINKS.

However, the Puglist Takes Out a New Permit in Name of His Manager and Keeps Open House in His Place on Broadway.

New York, June 5.—The liquor tax certificates held by James J. Corbett, the puglist, was revoked today by Justice Freedman of the supreme court on consideration of the report of Alfred Page as referee in the proceedings brought for the revocation of the license by Rev. J. Q. Henry, superintendent of the New York Anti-Saloon league.

The testimony showed that Chas. P. Sanford, special agent and excise commissioner, and others visited Corbett's saloon in Broadway on Sunday, May 5, and were served whisky and cigars. There were others drinking in the place. Rev. Norman Plase, superintendent of the Anti-Saloon league of Greater New York, with two companions, called at Corbett's place early in the morning of May 2 and bought whisky.

These allegations were denied by Corbett, who contended that the premises were closed at the proper hour.

Suit will now be brought by the excise commissioner to recover double the amount of the bond given by Corbett for the proper conduct of the business.

Later—Corbett kept his place open tonight. He said that when his license lapsed one was taken out in the name of his manager, Frank Pitts.

TO USE WIRELESS TELEGRAPHY.

Pere Marquette Line to Equip Its Boats With the System.

Chicago, June 5.—The management of the Pere Marquette railroad has decided to equip each of its seven car ferries with a wireless telegraph system so that instant communication can be had with the shore while crossing Lake Michigan. Details of the plan adopted were not obtainable today, but it is understood that telegraph stations will be established at Milwaukee, Ottawa Beach, Muskegon, Ludington and Manitowoc, all of which ports are reached by the car ferries. Experiments have been conducted for some time under the supervision of the Pere Marquette officers, and it is stated that contracts have been let for the installation of the plants. The value of the wireless telegraph in lake service, if practicable, would be incalculable and the officials of the company are said to be satisfied from experiments made that the system they are going to use will be practicable.

The Pere Marquette system, which is a combination of several Michigan lines, is a combination of several Michigan lines girdling the state, is distinctively a car ferry system, and the pioneer in the lake business. At present the company has ferry lines running between Ludington and Manitowoc, between Ludington and Milwaukee, between Milwaukee and Muskegon and between Milwaukee and Ottawa Beach, and the officials are contemplating other lines. By means of the ferries the company takes entire freight trains across the lake and delivers them to connecting railroads at Ludington and Manitowoc, and from these points deliver to their own lines at three points on the east side of the lake. Although the company has never had a severe loss there have been numerous occasions when car ferries have been out in a storm and have been long overdue. Such occasions, together with small losses suffered in storms gave the officials the idea of using wireless telegraphy as a safeguard. The longest route taken by the boats in crossing is not over eighty miles, and most of the routes are about sixty miles long. Accordingly the messages would not have to be sent to exceed thirty or forty miles when the boats were in the center of their routes.

Anxious To Work

Born-tired people don't belong to the Ayer's Sarsaparilla family. A ton of Sarsaparilla would not affect them in the slightest. But for honest-tired, overworked, exhausted people it is the greatest medicine ever made.

Ayer's Sarsaparilla makes honest-tired people anxious to be active. They find it harder to remain quiet than to labor. They become strong, steady, courageous.

Did you ever notice how distinct these two classes of people are—the born-tired and the honest-tired?

100¢ a bottle. All druggists. J. C. AYER CO., Lowell, Mass.

The average distance, of course, would be more than this, and, in fact, so small that it would practically be possible to keep track of all boats all the way across. In case of storm the whereabouts of every boat on the lake could easily be ascertained, and if assistance were needed the fact could be communicated from the ferry and help could be sent quickly. With a wireless system of telegraphy in working order it would be possible to load the boats heavier in good weather with the assurance that help could be sent quickly if needed. The experiments which have decided the company to equip their boats, were made, it is said, between Ludington and Manitowoc. Over this entire route communication with the boats was successfully had in all kinds of weather.

An officer of the company said today: "The value of the freight that is carried daily across the lake in car ferries is enormous, and is worth protecting. It is thought that by the use of wireless telegraphy a severe loss may be averted. It is a preventive rather than a cure, and it is estimated that the added capacity of the ferries will pay for the expense."

PROFIT-TAKING BREAKS STOCKS.

Wall Street Market Firm Early but Violently Shuts.

New York, June 5.—The strength of the stock market, which was quite marked at one time during the day, diminished decidedly afterward. When the check was first decisively established there was a notable falling away in the volume of dealings; but there was a resumption of activity before the close. This time it was on the selling side, and the closing was decidedly weak, with some wide losses effected in prices.

The progressive decline in the strength of the market was probably due to liquidation on various heavy lines of stock. This profit-taking was clearly in evidence all day, every demonstration of special strength in individual stocks being taken advantage of to prosecute selling elsewhere. Stocks which had shown the greatest strength recently were naturally most affected by the realizing.

It was current report that much of the buying today and for some time past represented the covering of a heavy line short of contracts by an interest which took the bear side of the market last week in the incident stage of the market. It is thought that technical considerations called for a reaction at that time. The sustained advance since is said to have driven this interest to cover at a large loss. The closing out of this bear account also received import as an influence in the market, contributing to the vulnerable condition which invited renewed attack by bear corners to the bear ranks. The sharp advances scored in a number of insignificant low-priced stocks during the earlier part of the day pointed clearly to manipulation in the interest of the realizing process, but here also many notable points of strength developed in the market in the high-grade stocks.

The most sensational upward movement was in Rock Island. A late spurt in that stock to 175 1/4 had momentary influence in stiffening the list after it had touched the low points of the day to that time, but as soon as it was perceived that the Rock Island movement was without effect, the selling was renewed with redoubled force. The admission of new interests to the directorate of Rock Island was pretty clearly foreshadowed, but the extra stock issue was an entire surprise to the street. Call money ruled steady at 3/8 3/4 per cent.

The late Webber & Co. report the closing prices of stocks as follows: Am Zinc, 14 W Union, 144; U S Oil, 12 1/2 Leather, 141; Cent Oil, 11 U S Stl., 508; Bisc. Com, 45 Pfd., 994; Tip, Com, 88; Oil Pfd., 88; W. H. P., 44; Wab. Pfd., 44; M & T, 314; Pfd., 97 1/2; Alton, U P., 112; N & W., 55 1/2; Pfd., 91 1/2; Tex Pac., 49; Mo P., 114; So. Ry., 34; M & O., 119 1/2; N Y Cent, 51; Erie, So Pac., 69 1/2; Sugar, 146 1/2; Rgd., 78 1/2; C & Q., 29 1/2; 3rd Ave, 94; Rock Isl., 171; Met., 172; St Paul, 172; Pac Mail, 44 1/2; B. R. T., 147; B. * Asked. † Bid.

State Bank Commissioner George L. Maltz says that the banks of Michigan and Detroit are in good shape, and that prosperity is giving the financial institutions their full share of profit. "There is plenty of money in the savings banks," says the commissioner, "but the banks are also getting plenty of chances to loan money to business concerns. So far as the present volume of business is concerned, I can see no indication of a drop. A few days ago I was in Pittsburgh, and a man connected with one of the big steel plants assured me that their mills were turning out steel for present demand only, and that nothing was being made to put in stock. I think the same is true in most lines of manufacture."

WHEAT PRICES DROP.

Are Sharply Lower for the Nearby Options—Corn Firm and Higher.

Chicago, June 5.—Wheat today was sharply lower for the nearby months, while the deferred held up remarkably well. June was 1/2 lower and July lost 3/4, while September was off less than 1/4. The latter showed reactionary power, advancing 1/2 late from the lowest point. There was not much doing in cash. Chicago sold 110,000 bushels and Duluth claimed fifteen boatloads worked for export. Long July was liquidated on a very large scale. The demand was largely for professional account, and the large offerings were fairly well absorbed at the decline. The situation at the Northwest was decidedly against holders; there were good rains. The cables were lower. Liverpool being off 3/4.

Corn was firm and about 1/2 higher. The cash sales were 130,000 bushels here late yesterday and thirty boatloads at the seaboard today. There was an exceptionally good demand for July by parties who were interested in the late deal in May. There have been more rains in the more important corn states. The selling was led by profit takers. Liverpool was 3/4 lower for futures, with spot 1/4 off. Oats were quite active. July broke 3/4, but recovered part and closed with a net loss of 1/4. Early sellers bought on the break and helped in the recovery. September was easier early, but strong later on good commission house buying. The crop news was bullish.

The leading futures ranged: September wheat opened 71 1/2 @ 7 1/2; highest, 72 1/4 @ 7 1/2; lowest, 71 1/4; closed, 71 1/4. September

ber corn opened 44 1/2 @ 7 1/2; highest, 44 3/4 @ 7 1/2; lowest, 44 1/4 @ 7 1/2; closed, 44 1/4. The movement of grain was as follows: Receipts Shipments: Flour, barrels, 33,000 15,000; Wheat, bushels, 150,000 185,000; Corn, bushels, 651,000 345,000; Oats, bushels, 77,000 286,000.

BOSTON COPPER QUOTATIONS.

* Asked. † Bid.

Chicago, June 5.—Scurcity of "white gold," known in chemistry and commerce as platinum, is causing concern in the medical, electrical and photographic worlds. For five years the price has steadily soared toward a measure prohibited by law, but its introduction called attention to a condition which is said by scientists to be rapidly becoming serious. The alarm caused by this condition is world-wide. A few months ago the German Reichstag passed a measure prohibiting the use of the precious metal in photography. The advocates of the bill claimed that as platinum was absolutely essential in medicine and electrical work, its use for purposes which were not necessary should be stopped. The bill was not passed, but its introduction called attention to a condition which is said by scientists to be rapidly becoming serious.

PLATINUM GETTING SCARCE.

White Metal Now Nearly Twice as Valuable as Gold.

PLATINUM GETTING SCARCE.

White Metal Now Nearly Twice as Valuable as Gold.

Chicago, June 5.—Scurcity of "white gold," known in chemistry and commerce as platinum, is causing concern in the medical, electrical and photographic worlds. For five years the price has steadily soared toward a measure prohibited by law, but its introduction called attention to a condition which is said by scientists to be rapidly becoming serious.

ARNELL DAN AMUCK

BEAVERTON (MICH.) MAN IN JAIL ON CHARGE OF MURDER.

WAS MADE CRAZY BY DRINK.

KILLS DAUGHTER; SHOOTS WIFE, MOTHER, BROTHER, SISTER.

Tragedy Somewhat Similar Enacted at Macon, Mo.—James Stacey, an Engineer, Slays His Wife, Daughter and Himself.

Coleman, Mich., June 5.—William Arnell, proprietor of a hotel and saloon in Beaverton, ran amuck today. Before overpowered he shot and killed his six-year-old daughter, fatally wounded his wife and shot his aged mother and his brother and sister.

Arnell, who had been drinking for several days, entered the house today, went up stairs where his daughter was hiding from him under a bed and killed her. Then he came down, fatally shot his wife and shot his invalid mother through the hand.

Mrs. Samuel Dopp and Arnell's sister were attracted by the shooting, and as they approached Arnell opened fire on them, wounding his sister slightly.

Arnell's brother and Mrs. Dopp's husband next came onto the scene, and Arnell shot his brother through the arm. Dopp opened fire with a shotgun and wounded Arnell, who was then captured and taken to the county jail. His wound is not fatal.

Macon, Mo., June 5.—James Stacey, an engineer aged fifty-one, living ten miles east of here, today in a fit of mental aberration killed his wife and daughter, the latter aged eighteen, while they were asleep and then shot and killed himself. The eight-year-old son was spared.

Lower Michigan.

B. F. Engle, of La Grange, who has a 40-acre peach orchard, reports that the trees are so heavily fruited that he is thinning out nine-tenths of the buds.

Mr. Engle says this promises to be a wonderful year for fruit.

An unusually severe electrical storm passed over Grattan an evening or two ago. Hail stones as large as hen's eggs fell, one measuring seven and a half inches around and another three inches across. Many windows were broken, causing a loss of \$100.

For one thing at least, the people of Grattot county are truly grateful to the late lamented (?) legislature, and that is its action in abolishing the bounty on English sparrows. The bounty law has cost the county about \$3,000 annually of late years, with no appreciable benefit in return.

The wheat crop of Branch county, it is reported, has been practically destroyed by the Hessian fly. A month ago the crop appeared to be doing finely, but that was before the eggs laid by the insect setts laid were hatched out and now all is changed. Field after field is being plowed up, and most of the land planted to beans.

A smooth, trolley-tongued person, representing himself to be a Catholic priest, has been doing the rounds in Wyandotte, soliciting for a picture of the crucifixion. He has his story down so pat and tells it with such an appearance of truth that one cannot help thinking the stage has been robbed of a great artist. That some have taken him at his "face value" need not be stated.

Benton Harbor claims to have the only girl butcher in the United States. Her name is Pearl Stark and she has just graduated from the local high school. For some time she has been assisting her father in his butcher shop outside of school hours and on Saturdays, and she is said to be an expert in carving out roasts and steaks and chops as the average butcher of the other sex.

Two hundred employees of the Ososso Manufacturing company got a shower bath at Owego Monday. The company has a large reservoir on the roof for fire protection and the feed pipe was accidentally broken, deluging the main building. Much valuable screen door and window glass was damaged and many employees and machines thoroughly drenched.

Word was received at Mt. Clemens Monday by the sheriff that Edward L. Culver of that city, had committed suicide at Waco, Tex. Mr. Culver was 30 years of age, and at one time was engaged in business at Mt. Clemens, where he was born. He left last fall for the south on account of ill-health. This and family troubles was the cause of his rash deed.

The board of supervisors met in special session at Paw Paw Monday for the purpose of considering the acceptance of plans and specifications and letting the contract for the erection of a new court house. There were a large number of contractors present and their bids ranged from \$51,000 to \$75,000. The lowest bidder, Richard & Sons of Kalamazoo, were awarded the contract for \$50,963.

The blue prints of the plant of the Hecla Cement company, to be erected near the west end of the Detroit & Mackinac Railroad bridge at Bay City, have been received from Detroit. They call for a building 1,250 feet long and 1,000 feet deep. The testing of the site for a foundation has been finished. At-tempts are now examining the titles and deeds, which will be delivered within a week.

The prospects for a soldiers' monument in Coldwater seem to be growing less. A meeting was held last week and but few were present. The men on the committee all resigned and the work was turned over to the Women's Relief corps. The late Judge Lovridge in his will left a bequest for the monument of \$2,500, providing the amount necessary to build the monument was raised. The time given has expired.

G. F. Langworthy, a farmer near Weaver, Mecosta county, has a farm the equal of which probably does not exist in Michigan. It is only one-third of an acre in extent, out it is planted to gin-seed, and the crop now in the ground, which has taken six years to mature, is worth about \$5,000 at the present market value of the roots. The drug is highly esteemed by the Chinese, who are willing to pay high prices for it.

Michael Dowling, of Erin, who has been confined in the county jail at Mt. Clemens for fifteen days for refusing to make a sworn statement to Supervisor Leonard Schneider as to the amount of his taxable property, made the statement required by the Monday. He was then taken into the circuit court and pleaded guilty for violating the tax law. Judge Tucker allowing him to go upon suspended sentence. The amount of Dowling's taxable property is \$5,700.

Railroad Commissioner Osborn has issued a statement showing the Michigan earnings of the railroads of the state for the month of April. The total earnings for the month were \$3,148,839.28, as against \$3,183,733.76 for the same month in 1900, the increase being \$321,250.54. For the four months of 1901, ending April 30, the total earnings of Michigan roads were \$12,533,809.03, or \$433,888.39 over the corresponding period last year. The per cent of increase is 19.01.

Arthur Peel, who was acting as watchman on the steamer Seattle, fell into the lake of a lumber pile at Au Sable Monday afternoon and was drowned. He was in the water about fifteen minutes, and two physicians worked over him for some time. He was about nineteen years of age and hailed from Detroit, being a prominent member of the last graduating class of the Detroit high school. He went on the boat to earn money to go to the university at Ann Arbor.

Next Sunday the Catholics of southeastern Michigan will have a big celebration at Kalamazoo, the occasion being the corner stone laying of the new Borgess hospital. There is considerable opposition to this alleged profaning of the Sabbath as is shown by a communication presented to the city council Monday night by Rev. H. H. Dieperink.

Patrick Devine, one of Menominee's pioneer citizens, died Monday at the home of his daughter, Mrs. Mary Hamilton, after a long illness. Mr. Devine was one of those men whose association with lumbermen made him popular, and whose name and fame is familiar to all the old citizens. Mr. Devine was born in 1816, and came to this Menominee in 1855. In 1837 occurred his marriage to Miss Anna Murray, eight children being their offspring, of whom four survive him. Mr. Devine comided a hotel at the Grand Rapids in the early years which was a popular rendezvous for lumbermen.

Menominee is going to be long on circus this year. Pawnee Bill's big wild west show will be there the 10th of this month and now it is announced that the Wallace show will be given at the river the latter part of the month. It is given out that the Wallace and Ringling interests have divided the territory and that the Wallace shows will visit this section.

Saturday when Fox, the lumberman infected with small pox, was discovered at Iron Mountain the health officer rented an old, deserted dwelling on West Hughtitt street, which he proceeded to repair for use as a temporary pest house. That evening, some one who did not like the idea of the proximity of the pest house, attempted to destroy it by fire. The blaze was put out without particular difficulty and now a guard is regularly patrolling the premises to prevent a repetition of the incendiarism.

A special meeting of the board of health was held at Iron Mountain Sunday afternoon to discuss measures for preventing small pox from getting a foothold in that city. As a precaution it was decided to burn the old Chapin jail where Fox, the infected lumberman, spent Saturday night and Sunday. The health officer, Dr. Cameron, was instructed to spare no expense to prevent the disease from becoming prevalent at Iron Mountain. It has been decided to erect a permanent detention hospital so that the city will be ready for all emergencies.

Mabel, the 14-year-old daughter of James Vaughan, a prominent merchant of the Canadian Soo, mysteriously disappeared on the night of April 30, Monday afternoon her body was found in the river near the International dock. It was thought she had been kidnapped, and Vaughan spent a large sum of money in endeavoring to locate her. He offered a reward of \$500 for her body, dead or alive. The reward is claimed by Isaac Denis, who found the body and brought it to the shore. The coroner's jury returned a verdict of suicide, although no cause can be assigned for the act.

Patrick Devine, one of Menominee's pioneer citizens, died Monday at the home of his daughter, Mrs. Mary Hamilton, after a long illness. Mr. Devine was one of those men whose association with lumbermen made him popular, and whose name and fame is familiar to all the old citizens. J. M. SMITH'S SONS, Urban House, Ishpeming, and Green Bay, Wis.

EXPOSITION RATES.

On South Shore They Are One Fare, Plus \$1, Out of Duluth.

The South Shore road is offering advantageous Pan-American exposition rates. Their offer to Duluth and back-of-the-lakes people sets the style in special fares and, unless the competing lines meet its figures, the South Shore road will do the bulk of the special business.

In this connection the Duluth News-Tribune says: The Duluth, South Shore & Atlantic road has set the pace for Pan-American rates out of Duluth and they are very attractive. Captain Alexander McDougall, of Duluth, one of the members of the Minnesota commission on Pan-American exposition, was very greatly surprised when he heard the liberality of the rates. They are based on one fare and one dollar extra for the round trip, Duluth to Buffalo and return.

The rates, said the captain, "ought to induce thousands of people to attend the exposition, who thus far have not definitely decided whether to go or not."

The South Shore offers four propositions all based on one fare and one dollar for the round trip from Duluth to Buffalo. The road has so many inquiries from interior towns concerning exposition rates that it will be necessary to issue a circular letter to give the desired information. This road has worked the northwestern towns harder than any other line in the east of Duluth for a long time, advertising the advantages of travel via Duluth instead of via the Twin Cities, and is now reaping large advantages therefrom.

The lowest proposition offered by the South Shore is \$17 from Duluth to Buffalo and return via South Shore, Detroit and Cleveland steamers, and Buffalo Transit company. Tickets are limited to ten days but a fifteen-day limit is offered for \$21.35, go and return. The next proposition is South Shore from Duluth via Owen Sound, taking the C. P. R. steamers from the Sault. This lake and rail trip under the ten-days' limit costs \$22 and \$25.70 for the fifteen-days' limit. The rate via Owen Sound includes meals and berth on the steamers. Then there is an all rail proposition, South Shore via Michigan Central, costing \$19 for the ten-days' and \$25.90 for the fifteen-days' limit respectively. Then there is still another all rail proposition offered. It is via the South Shore to North Bay and the Grand Trunk from there to Buffalo. The ten-days' limit costs \$19.10 and the fifteen-days' limit \$24.15.

It is expected that the South Shore's announcement in line with the foregoing will create an immediate stir in all rail lines out of Duluth for the Bison City. They have been waiting for his line to show its hand, as this road, having a very direct line with desirable lake or rail connections, is the natural rate maker from this point.

MARINE MATTERS.

Passed the Canal. Sault Ste. Marie, June 5.—(Special.)—Up—Avon, Rosemont, Melrose, Selkirk, 9 p. m.; Samuel Marshall, Tilden; Hudson, 2:40; R. Holland, Xenix; Crostwaiter, White & Frant, 3; Westcott, 3:30; Oliver, 7:20; Alfred Mich, 8:30; Shuck, 10:20; Wm. A POPULAR ASSOCIATION. General Manager W. R. Hardy, of the Northern Michigan Benefit association of Manistique, was in the city the first of the week adjusting the accounts of Donald Ferguson against the association. Mr. Ferguson took out a policy in the association in December and made two monthly payments, at a total of \$5. On January 31 he had his leg broken and has not been able to work since. Hardy adjusted Mr. Ferguson's claim, allowing it in full, at \$12. Mr. Ferguson is greatly pleased at the prompt and fair methods of the association and is loud in his praise of the manner in which he has been treated. The Northern Michigan Benefit association was organized some months ago by prominent Manistique gentlemen of undoubted responsibility, and is incorporated under the laws of this state. The association is in splendid condition and is enjoying the popularity to which the prompt adjustment of claims entitles it.—Mining Journal.

The above named association is writing a very popular plan of accident and health insurance, and advancing many new features. A good reliable agent wanted at once to take the management in this part of the state. The territory is being taken up very rapidly as the association is putting forth every possible effort to push their company to the front. If you would like an agency with a steady and sure, for you may be too late. For full particulars address the Northern Michigan Benefit association, Manistique, Mich. (6-5-11)

Edward Huss, a well known business man of Salsburgh, Minn., writes: "I wish to say for the benefit of others, that I was a sufferer from lumbago and kidney trouble, and all the remedies I took gave me no relief. I was induced to try Foley's Kidney Cure, and after the use of three bottles, I am cured." The People's Drug Store.

Hardly a day passes, in families where there are children, in which BALLARD'S SNOW LINIMENT is not needed. It quickly cures Cuts, Wounds, Bruises, Burns and Scalds. Price 25 and 50 cts. Stafford Drug Co.

Mr. James Brown of Putnam, Va., over 90 years of age, suffered for years with a bad sore on his face. Physicians could not help him. DeWitt's Witch Hazel Salve cured him permanently. Stafford Drug Co. H. N. Meloche, Ishpeming.

For relief and comfort in Asthma BALLARD'S HOEHOOUND SYRUP has no equal. Price 25 and 50 cts. Stafford Drug Co.

Get What You Ask For! When you ask for Cascarets Candy Cathartic be sure you get them. Genuine tablets stamped C. C. C. Never sold in bulk. A substitute is always a cheat and a fraud. Beware! All druggists, 10c.

CITY BREVITIES.

Today's weather: Rain and colder; northerly winds, becoming brisk and possibly high. Yesterday's temperature: 7 a. m., 63 degrees; noon, 67 degrees; 7 p. m., 69 degrees. Maximum, 73 degrees, minimum, 61 degrees.

N. W. Marshall, manager of the National Life Insurance company, left yesterday for the Soo on business.

County Clerk Ross has issued a marriage license to John Kemp and Linda Southy of the National location.

Oliver S. Bond of Toledo was in Marquette yesterday. Mr. Bond is interested in Marquette county iron lands.

Rev. Dr. Dawe, the chancellor of the Albion college, will lead the service at the Methodist church this evening.

The Western Union messenger boys have blossomed out in patty new uniforms of blue, with gold-braid trimmings and brass buttons. It is apparent that the turn in the weather is an accomplished fact. It has been comfortably, at times uncomfortably, warm during the past couple of days.

Mr. Olivier and pupils held an interesting musicale at the Morgan Memorial chapel last evening. The selections of the young musicians were greatly appreciated and they showed the result of careful and painstaking instruction. The musicale was voted an entire success.

The eighteen-year-old child of Jules Remington was buried yesterday. The infant died as the result of a most regrettable accident. It was being carried upstairs by a young child, who was so unfortunate as to slip, receiving a fall from which fatal injuries to the infant resulted.

L. Paradise left for Chicago yesterday to purchase a stock for his new store on Third street. He will carry the same line of goods as in his former stand, but on much larger scale, and will also devote much space to shoes. Mr. Paradise intends to open his new store about the 15th.

The deer park at Presque Isle is now the home of a couple of new arrivals, in the shape of fawns, which will be an attraction for visitors to the resort. The park now contains ten grown deer and it is one of the best attractions of Presque Isle. The commissioners will shortly have a notable herd.

The Boston News Bureau says that Pickands, Mather & Co. have secured the contract of supplying the Calumet & Hecla company with coal for the next six years. John R. Van Evert was in the copper country the latter part of last week inspecting the facilities of the Calumet & Hecla company for unloading the fuel.

Judge Stone has been confined to his home for the past couple of days, having been seized with a serious illness. He is making good progress toward normal health now and will shortly be around.

There is considerable road work in hand at Presque Isle. The repairs are being made with rock from the beach, it being decided that there was nothing to be gained by hauling the Chocomaug township crusher to the resort. There is work ahead, more than will be completed this season, but an effort is being made to dispose of the pressing repairs with the greatest dispatch.

Another young man who thought that standing on the corner was an innocent amusement and who consequently "sassed" the officer who requested him to "move on" paid a fine before a Marquette justice Tuesday evening. The Mining Journal is officially informed that "moving on" is going to be the style all summer and that the sooner the young blades of the city become reconciled to this fact the better they will be off. The officers have received positive orders to keep the corners free of loungers or loafers.

Peter White's residence is now being wired for electric lights. Superintendent Retailer reports that the demand for the service continues without diminution. New dwellings and many old ones are being wired. The commission now sees that a new incandescent generator will be an imperative necessity before fall, when the load on the present machine will exceed its capacity, and it is figuring with the manufacturers for its purchase. The growth of the demand for the incandescent service continues to be a source of gratification.

Mrs. Adams entertained a large party of her friends at her cottage at Middle Island point last evening. Three launch loads of people went out, leaving the lower harbor between the hours of 4 and 6 o'clock in the afternoon. A picnic supper was served at the cottage early in the evening. The launch ran into foggy weather when they were rounding Presque Isle and it was necessary for them to grope a slow and cautious way to the lower harbor. However, barring a couple of false runs in the murky weather, they came through all right. The picnic was voted an unqualified success by all the guests.

A TERRIBLE EXPLOSION. "Of a gasoline stove burned a lady here frightfully," writes E. Palmer of Kirkman, Ia. "The best doctors couldn't heal the running sore that followed, but Bucklen's Arnica Salve entirely cured her." Infallible for Cuts, Corns, Sores, Boils, Bruises, Skin Diseases and Piles. 25c. at Stafford's.

RUGS MADE OF OLD CARPETS. Address M. Iralson, Jaussen Hotel, city. (6-1-11)

Into each life some ruins must fall. Wise people don't sit down and bawl. Only fools outside or take to flight. Smart people take Rocky Mountain Tea at night. Stafford Drug Co.

Ira D. Beckard, Duncombe, Ia., writes: "My little boy scalded his leg from the knee to the ankle. I used Banner Salve immediately and in three weeks' time it was almost entirely healed. I want to recommend it to every family and advise them to keep Banner Salve on hand, as it is a sure remedy for scalds or any sores." The People's Drug Store.

S. & A. railway will have on sale to nearly all points in the United States, British Columbia, Canadian Northwest, etc., round trip home-seekers' tickets at rate of single fare, plus \$2. for the round trip. Tickets will be good for return passage to twenty-one days from date of issue. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (1-30-11)

STATE OF MICHIGAN—COUNTY OF MARQUETTE.—In a session of the probate court for said county, held at the probate office in the city of Marquette on Wednesday, the fifth day of June, in the year of our Lord one thousand nine hundred and one, Charles Kelsey, Judge of Probate.

In the matter of the estate of James Gibb Ross, deceased. James F. Russell, administrator, d. b. n. of said estate, comes into court and represents that he is now prepared to render his account as such administrator, d. b. n.

It is ordered, that Thursday, the twenty-seventh day of June next, at ten o'clock in the forenoon, be assigned for examining and allowing such account, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be held at the probate office in the city of Marquette in said county, and show cause why the said account should not be allowed. And if no cause be shown to the contrary, the said account shall be allowed, and the executor, d. b. n., give notice to the persons interested in said estate of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in the Daily Mining Journal, a newspaper printed and circulated in said county, for three successive weeks previous to said day of hearing.

CHARLES KELSEY, Judge of Probate. (6-6-11-11urs)

Those who wish to consult Professor La Tour, the Eminent Clairvoyant and Palmist, must do so before 9 p. m. Saturday as he will close his office in Ishpeming at that time.

SPECIAL NOTICE!

This coupon and \$1 presented at Professor La Tour's office will entitle bearer to full reading. Without coupon, reading \$3. Hours, 10 a. m. to 9 p. m., Nelson House, Ishpeming.

Ishpeming and its Environs.

SONS OF ST. GEORGE REUNION.

Program of Sporting Events Will Be Run Off in the City.

The committee on sports for the annual meeting of the Sons of St. George, which will be held in this city on the 25th of next month, has decided that the sporting events to be run off in connection with the meeting will take place in the city, presumably on Main street, as far as is possible. The members of this committee are Fred Bennett, Joe Pope and John Manley.

When plans for the meeting were first discussed it was left in the hands of the committee to say whether the sports would be run in town or at the park. The committee decided that if the merchants would give the Sons sufficient support in a financial way they could afford to have the sports in town, and to ascertain the feeling of the business people its members canvassed them this week. They state that there is money in plenty in sight, and that sports worth coming miles to see will be on the program. In affairs of this kind it is customary for the different societies to get subscriptions from the merchants and run their sports in town, so that the contributors may obtain some benefit from the crowds which congregate.

Representative and Mrs. Luke Lugers of Holland arrived in the city yesterday afternoon to spend a few days inspecting the old mines. Next week they will go to the copper country for a short stay in that district. The committee on celebration of the Fourth of July of Negaunee asked "Paron" Pope to officiate as manager of the several events and he consented. He will have entire charge of the sporting portion of the celebration.

"Railroad Jack" comes to this city next Monday evening after a most successful tour of the west. Very low prices—twenty-five, thirty-five and fifty cents—will prevail. Seats will be on sale at Tillson's tomorrow morning.

IMPROVEMENT MADE IN TOWN.

Agent W. H. Moulton of the Cleveland Chamber of Commerce is in town for a few days, the guest of the Cleveland-Cliffs company. He is the agent of the Chamber of Commerce in Cleveland and has as his special duties the investigation and the furthering of all kinds of improvements in industrial centers. This includes both exterior and interior betterments. He is thoroughly informed in his work, and the many improvements which have been made in the different factories of his home city and vicinity can be traced to his efforts in a large measure. He comes to Ishpeming for a visit only, but will give the officials of the Cleveland-Cliffs company some pointers tending to the betterment of conditions at the company's properties. Mr. Moulton will remain here until the first of the week. He goes to Gladstone today or tomorrow to look over the Cleveland-Cliffs furnace and location there.

CLEVELAND PARK AGAIN.

This popular resort will soon be opened to the public and those who are wont to spend a pleasant evening in the grove will be at liberty to do so. During the weeks just past a new pavilion has been erected and a new hardwood floor, 60x40 feet in size, and constructed upon the most scientific principles, has been laid. The new pavilion was almost as badly needed as the floor and will be much appreciated. Trombley's orchestra has been engaged to furnish the music at the park this season. The concert will be conducted on a plan differing from that followed last season. Private parties will be held there, to which invitations will be necessary for admittance. It is expected that numerous societies hereabout will hold dances and parties there.

ONLY THREE DAYS LONGER.

Prof. J. Randolph LaTour, the celebrated palmist and clairvoyant who has been in the city less than a week and who has created such a sensation here, announces that, owing to previous engagements, he will be unable to stay here longer than this week. The professor has astonished those who have gone to him by his wonderful knowledge of the palm and his clairvoyant powers. He is said to be far ahead of Melvior Wyndall, who was here last year. The professor is having all the business he can conveniently take care of and those who wish to avail themselves of his skill would do well to make appointments soon.

DIDN'T MARRY FOR MONEY.

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and Stomach troubles. Gentle but effective. Only 25c. at Stafford's drug store.

MINING STOCKS.

Turnagain Arm Gold Mining company of Alaska is now selling at 20 cents; will advance to 25 cents June 15. King Gold & Copper Mining & Milling company of the state of Washington is 5 cents now; will advance to 7 cents June 10.

Vega & Milling company of old Mexico is 25 cents, 12 1/2 cents in cash and 12 1/2 cents paid out in dividend.

All of the above stock is sold on monthly payment. Now is the time to buy stocks before the advance; 10 per cent discount for cash. JOS. J. WIRTZ, Fiscal Agent, Marquette, Mich. Wilkinson Bank Building. (6-5-31)

You will find the largest stock and best assortment of shoes of all kinds, and at lowest prices, at Braastad's.

There are good profits for retailers in Heppner's pure ice cream. Heppner, Marquette. (5-1-11)

A special drive on percale remnants worth 15 cents, going at 10 cents. F. Braastad & Co.

ISHPEMING IN BRIEF.

A. Tellman, manager of the Nelson, was an Escanaba visitor Tuesday night.

Charles D. Cole has taken pictures of several of the public schools by classes this week.

George Sedgwick has returned from a visit of several days with his brother Al. at Ironwood.

A daughter was born to Mr. and Mrs. Thomas Sleeman of South Fourth street Tuesday evening.

Fred Kaufman returned yesterday morning from a business trip of three days in Escanaba.

The formal opening of the Catholic Athletic club will take place in the club rooms next Tuesday evening.

Captain Peter Ramquist of Bessemer is here for a few days looking over his expectations at the Saginaw.

Oscar Larsen, of William Larsen & Co., who has been transacting business in the city for several days past, left for his home in Green Bay last evening.

The first German band of the season put in an appearance yesterday. The little fellows made some good music and reaped a rich harvest from their efforts.

Representative and Mrs. Luke Lugers of Holland arrived in the city yesterday afternoon to spend a few days inspecting the old mines. Next week they will go to the copper country for a short stay in that district.

The committee on celebration of the Fourth of July of Negaunee asked "Paron" Pope to officiate as manager of the several events and he consented. He will have entire charge of the sporting portion of the celebration.

The following telegram was received yesterday by Manager Butler of the opera house: "El. J. Butler, manager: 'Railroad Jack' played to big house. Company excellent and specialties far above the average. (Signed) J. H. Cuddahy, manager Calumet theatre."

William Uren and Miss Julia Miller were married at the residence of the bride's parents on East Ely street yesterday afternoon by the Rev. Stephen Polkholm. Mr. and Mrs. Uren left on their o'clock train for a visit of a few days in the copper country.

Work on the excavation for the new Myers store is progressing favorably. While digging for the foundation the workmen ran upon the piles that supported the old roller rink which was torn down some years ago. The ground in that vicinity is very wet and this makes the excavating somewhat difficult.

The parade of the Rusco & Holland Mistrud company yesterday afternoon was witnessed by a large gathering of people who lined every street through which the procession moved. The band was good and the gasoline carriage was a great attraction, but the dinky with the bicycle wheel and the diminutive pig "took the cake."

W. Frank Beal of this city and Miss Mabel Hooper of Negaunee were united in marriage yesterday morning at nine o'clock by the Rev. C. D. Atwell at the home of Mr. and Mrs. William Nool in the New York location. Mr. and Mrs. Beal took the noon train for Marquette, where they took a boat for Detroit and other points in the lower peninsula. Before their return they will take in the Pan-American.

The pillow case social, which the Royal Neighbors gave in their hall Tuesday evening, was a great success. There was but one item on the program which was not arranged, and that was the "swiping" of several articles of clothing from the dressing room. The Neighbors would respectfully inform the pilferers that they are conversant with their names, and that if the articles are not handed to the Recorder at Chris Olsen's paint shop in the very near future trouble will ensue.

HUMORS COME TO THE SURFACE in the spring as in no other season. They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

Cycling has its ups and downs. After the downs, use Banner Salve if you're cut or bruised. It heals the hurt quickly. Take no substitutes. The People's Drug Store.

Ladies! See our 11-cent cotton at 8 cents or yard. F. Braastad & Co.

Heppner's pure ice cream at the soda fountain is a winner every time. Heppner, Marquette. (5-1-11)

A nice line of ladies' and children's hats going cheap. F. Braastad & Co.

For piano tuning leave orders at Fohrman's. All work guaranteed. Best of reference. G. A. Ford. (5-13-11)

"COME TO DETROIT."

EVER BUSINESS HOUSES INVITE OUR RETAIL DEALERS.

NO NEED OF BUYERS SEEKING ELSEWHERE.

The State Metropolis Contains Everything they Require, Best Goods at Lowest Prices.

The stability and excellent reputation of the wholesale houses of Detroit preclude any necessity of going elsewhere for whatever goods our retail dealers may require at any time. The financial and manufacturing institutions of Michigan's metropolis are not excelled for enterprise and fair dealing in the United States. Our readers in business can be as well served in Detroit as anywhere, and they can deal with home concerns located close by. The Detroit houses named below invite their trade and well deserve it. These firms refer to long lists of old customers throughout the West as their most potent recommendation. Beginners in business cannot do better than to open correspondence with these excellent houses at once. The information which experience and judgment may impart, is to be had by our readers for the asking. That such knowledge is highly valuable to those starting out in business lines, is obvious. We commend the idea to all whom it may concern, and can assure them that trade relations with the houses below will always be satisfactory.

Negaunee and Vicinity.

[Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription accounts.]

WILL BE HOISTING SOON.

New Shaft at the Negaunee is About Ready for Service.

Work on the new shaft at the Negaunee mine, both underground and on surface, has been pushed energetically for the past few weeks in order that the first load of ore may be hoisted through it by the 15th. Captain Piper is almost ready to say that this will be accomplished, and in fact does say that it will if nothing unforeseen happens to prevent. With the opening of this shaft the production of the mine will be increased almost 50 per cent, and this will not mean figure in the total output of the mine by the end of the year.

It is two years since the work of sinking this shaft was started, and it has cost a very pretty penny, but returns really commensurate with the expenditure are expected from it. The additional shaft has been greatly needed ever since the mine was opened. Bad air has been a serious drawback to the operation of the Negaunee, but since the new opening was "holed" the effect on the air has been very noticeable, and the men who work underground have found that their lot is much easier in consequence.

Since the shaft was "holed" in March the force has been very busy trimming down and planing the sides. For the past few weeks drifts have been run in to the different ore bodies and these are now about completed. At the outset the shaft was very wet, and the average pumpage was 3,000 gallons per minute. Several small pumps were used to free the shaft from water, but now one large pump does the work easily, the amount of water to be lifted having materially decreased.

On surface the carpenter's gang has been busy with the shaft house and now this building is very nearly completed. It is constructed with all the latest appliances for the quick handling of the ore and is one of the finest on the range. With the opening of this shaft the staunch old mine will enter upon a new lease of life and can be worked to much better advantage than ever before.

AND STILL THEY FISH.

Drs. J. H. Hudson and A. W. Haidle, John M. Perkins and Postmaster John D. Stephens went to Sandusky on a little fishing excursion. At the station down the line the party picked up B. J. Goodman, Jr., and all five set off through the woods in the direction of the best fishing grounds. Let it be known that though they started in the right direction, to judge from the "mess" which came back with them Tuesday evening on the freight they missed connections. They say they caught forty trout but it will be safe to divide this number by four and make it two fish apiece. Nothing of moment happened to the fishers. Jobsbers of window-glass and painters' supplies. Our prepared and painted are the best in the world. For sale everywhere. The name "Boydell" is a guarantee of purity in paint. DETROIT, MICH.

DANISH BROTHERHOOD MEMORIAL.

On Sunday, the 23rd of this month, the Danish Brotherhood, lodge No. 6, will observe its annual Memorial day. There are nine members of the order buried in the local cemetery and the graves of these departed members will be decorated. The parade will start from the Brotherhood hall at 10 o'clock on the day mentioned and will proceed directly to the cemetery. At three o'clock appropriate services will be held in the Swedish Lutheran church. The Negaunee Orchestra band will attend the Brotherhood throughout the day. This memorial service has come to be an established custom with the order and as the years roll by it becomes more and more impressive in its observance.

WILL SEE THE COPPER COUNTRY.

Messrs. F. D. Davis, T. D. Hall, T. M. Wells, J. F. Foley and E. C. Anthony went up to the copper country yesterday morning for a few days stay. All of these gentlemen have made many previous trips to the land of copper, but none of them have thoroughly investigated and explored the country. It is their wish to become familiar with its every detail. They will go through to Ontonagon and Mass City and will also get into the peak of the peninsula. They will be able to tell of the wonders of that section with much fluency by the time they return to this halfway.

SEVEN YEARS IN BED.

"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c. Stafford's

Sell Heppner's pure ice cream and make a barrel of clean money this summer. Heppner, Marquette. (5-14)

Aside from the serious inconvenience and pain caused by piles, there is a tendency to fistula and to cancer in the rectal regions. Piles should not be allowed to run on unchecked. TABLET'S BUCKEYE PILE OINTMENT is an infallible remedy. Price, 50c. a bottle, tubes 75c. Stafford Drug Co.

ABOUT COUGHS AND COLDS.
Many broadminded physicians prescribe Bunsen's Pine Tar Cough Honey openly or give it unknown to the patient. Physicians who have tested it know it will cure and leave no chance for the diseases which follow Lycopodium, Colds and Croup. Price 25 & 50 cents. For sale by the Stafford Drug Co.

CHINESE WISDOM.

Some Bright Sayings That Are Current Among Celestials.

A man thinks he knows, but a woman knows better.
With money you can move the gods; without it you can't move a man.
Long visits bring short compliments.
Armies are maintained for years to be used in a single day.

A doctor who had mismanaged a case was seized by the family and tied up. In the night he managed to free himself and escaped by swimming across a river.
A man who had just begun to study medicine, and said to him: "Don't be in a hurry with your books; the first and most important thing is to learn to swim."
The King of Purgatory sent his hectors to earth to bring back some skilled physician. "You must look for one," said the king, "at whose door there are no aggrieved spirits of disembodied patients." The doctor went off, but at the house of every doctor they visited there were crowds of waiting ghosts hanging about. At last they found a doctor at whose door there was only a single shade, and cried out, "This man is evidently the skillful one we are in search of!" On inquiry, however, they discovered that he had only started practice the day before.

A portrait painter who was doing very little business was advised by a friend to paint a picture of himself and his wife and to hang it out in the street as an advertisement. This he did, and shortly afterward his father-in-law came along, gazing at the picture for some time the latter at length asked, "Who is that woman?" Why, that is your daughter," replied the artist. "What ever is she doing," again inquired her father, "sitting there with that strange?"
A man who had been condemned to wear the cage or woolsen collar was seen by some of his friends. "What have you been doing," they asked, "to deserve this?" "Oh, nothing," he replied, "I only picked up an old piece of rope." "And are you to be punished thus severely," they asked, "for merely picking up and end of rope?" "Well," answered the man, "the fact is, there was a bullock tied to the other end."—From Dr. Giles' "Chinese Literature."

Danger, disease and death follow neglect of the bowels. Use DeWitt's Little Early Risers to regulate them and you will add years to your life and life to your years. Easy to take, never gripe. Stafford Drug Co. H. N. Meloche, Ishpeming.

COMMITTEES FOR ALUMNI DANCE.

President Ben J. Miller of the High School Alumni association announces the makeup of the following committees which will have charge of the dance the association will give in McDonald's opera house on the evening of the 14th: On hall, printing and music—T. A. Thoron, Florence Curran, Rudolph Olson; Misses Mary Sullivan and Helen Ready. On refreshments—Mesdames J. E. Sness, Harry Trembath, Leslie French, John P. Miller, Misses Hasset and Wellet. On dues—Walker Elther, Mrs. J. M. Perkins, Misses Lily Cyr, Steele, Margaret Murphy and Nellie McAuliffe. On tickets—Tom Pascoe, Barth Hagerty, William Dave, Misses Carrie Johnson, Mabel Carroll, Ethel Taylor, Jennie McNeil and Rose Lemire. Joe Winter will be floor director. As the personnel of these committees includes all who have aid to do with the running of parties in this city, it is safe to assume that the coming dance will be a colossal success.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heart-burn, Water-brash, Gnauling and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. This does will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

LOCAL LACONICS.

The regular monthly meeting of the council will be held this evening.

Roadmaster William Manley of the North Shore looked after his fences hereabout yesterday.

All the local members of the board of supervisors attended the meeting in Marquette yesterday.

Mr. and Mrs. J. Clark Kirkpatrick of Escanaba are spending a few days at Palmer with their parents.

Joseph Sellwood of the American Mining company, Duluth, was a business visitor in the city yesterday.

Chris Olson is having a new coat of paint applied to his residence on Case street, which is going to make it among the best.

Mrs. Pettibone of Chicago is spending a few days in the city with her uncle, Tom Long. Mrs. Pettibone's little son is with her.

General Manager W. F. Fitch of the North Shore was a passenger from Chicago yesterday morning, going through to Marquette.

Supervisors James Finley of Turin and John Thomas of Swartzey stopped off here yesterday, en route to the monthly meeting of the county board of supervisors at Marquette.

The local degree team of the M. W. A. received an invitation from the Marquette class a few days ago to attend the initiation in that city on the 15th. The invitation has been accepted and the boys expect to have a fine time in the Queen City.

State Consul D. M. Davis of the M. W. A. was in the city Tuesday evening and attended a meeting of the local lodge. He left for Sidnaw on the late train that evening. Mr. Davis was well satisfied with the showing the local lodge is making.

Three special cars came up on the Northwestern yesterday morning. One was the "Ingot" of the Copper Range road officials and the other two belonged to the Russo & Holland minstrels. The former went through to Houghton and the latter to Ishpeming.

Much complaint has reached this office of late concerning the practice of some horse owners of allowing their animals to graze on the street during the night. The horses walk up and down the several sidewalks and the noise which their hoofs make keeps wakened people from getting a good night's rest. The horses also do much damage to the sidewalks.

Where to Stop When in Detroit.
Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50

Dyspepsia cannot be long lived because to live requires nourishment. Food is not nourishing until it is digested. A disordered stomach cannot digest food, it must have assistance. Kodol Dyspepsia Cure digests all kinds of food without aid from the stomach, allowing it to rest and regain its natural functions. Its elements are exactly the same as the natural digestive fluids and it simply can't help but do you good. Stafford Drug Co. H. N. Meloche, Ishpeming.

'Tien't safe to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen.

A sallow, jaundiced skin is a symptom of disordered liver, as it springs from biliary persons retained in the blood, which destroy energy, cheerfulness, strength, vigor, happiness and life. HERBINE will restore the natural functions of the liver. Price 50c. Stafford Drug Co.

MOTHER GRAY'S SWEET POWDERS

For Children. Mother Gray, for years a resident of the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists, 25c. Sample sent FREE. Address Allen S. Olmsted, Le Roy, N. Y.

DOND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

For stateroom accommodation and full particulars apply to ticket agents.

GEO. W. HIBBARD,
Gen. Pass. Agent.

SHERWOOD; BELL.

THEY WILL GO TO STATE BOARD OF EQUALIZATION.

MEETS AT LANSING AUG. 15.

SUPERVISORS HUSTLED WORK AT SHORT SESSION.

Goose Lake Road May Be Repaired and Skandia Township Wants \$300 to Help Finish a New Highway.

The board of supervisors finished its "demerit grand" with the usual exception yesterday, the session being uneventful by any business of particular importance or by any incident of note.

Myron J. Sherwood of Marquette and F. A. Bell of Negaunee were appointed a committee of two to represent this county at the meeting of the state board of equalization to be held in the capitol at Lansing August 15, as provided in Sect. 139 of the Compiled Laws.

Their duties at the meeting of the state board will be important, as it convenes but once in five years. The figure at which Marquette county is equalized by this body will stand for that period.

The much "cussed out" Goose Lake road between Negaunee and that point will likely receive some attention.

Official notice has been issued that the fourth annual meeting of the Northern Michigan and Northern Wisconsin Embalmers' association will be held in J. R. McLean's undertaking parlors at Marinette on July 1, 2 and 3—the dates of Marquette's street fair.

For the purpose of putting the proper information relative to the art of embalming and sanitation within reach of all members of the association, a full course of instruction will be held during the meeting, presided over by Dr. Eliah Meyers, the celebrated lecturer and demonstrator. This course will be of special value to new members.

The program for the first day will include an address of welcome by W. C. Campbell, mayor of Marinette; responses to same by A. F. Howard of Munising; annual address by the president of the association, D. A. Oliver of Escanaba, and introductory remarks by Dr. Meyers.

The second day will be devoted principally to business, which will include reports of the several officers and standing committees, election of officers for the ensuing year, selection of place for holding the 1902 meeting and an address by A. F. Howard upon the "Growth and Progress of the Profession."

Wednesday, the last day, will be occupied in practical demonstrations of embalming by Professor Meyers and members of the association.

Considerable selling, caused by the heaviness in the Amalgamated stocks, failed to knock coppers off much yesterday, although it was responsible for a let up in the bullish movement.

The heaviness of the Amalgamated stocks was caused by the announcement that another suit had been brought to prevent the absorption of the Montana and Butte companies. It naturally caused some selling in the other coppers, but it failed to bring about any material declines. On the reaction the buying was of the best.

State Game Warden Morse's appointment of Deputy Kellan was concurred in.

The committee on hospitals reported that it had contracted with St. Luke's and St. Mary's at Marquette and the Ishpeming hospital for the care of the county's indigent poor; that it had appointed Dr. Harkins jail physician and Drs. Harkin, Marquette, Hudson, Negaunee, and Picotte, Ishpeming, to assume care of all cases of contagious disease which may occur in their districts.

The board, by resolution, authorized the county clerk to draw warrants on the treasurer on the account of the construction of the county poor house on estimates made by the architects and approved by the special committee supervising the building operations.

A POPULAR RESORT.

Joe Prince's Restaurant Does a Nice Business.

"How did Marquette get along without a first class restaurant?" This is a question which many of Joe Prince's regular customers are asking themselves. Mr. Prince has done an excellent business since he established himself here, his restaurant is growing in popularity. It is patronized by the best people and unattended ladies may, and do, drop in for a lunch or meal at any time of the day or evening.

ATHLETIC MEET SATURDAY.

Juniors Will Take on Other High School Classes.

There will be an interclass high school athletic meet at the Fair grounds Saturday afternoon, when a team of Juniors will take on representatives of the Freshmen, Sophomores and Seniors. The Juniors boast a bunch of the best athletes in the school, but their ranks do not include all the talent and the union team is confident that it can put up a game fight, with fair chances for winning out.

The meet will be held in the afternoon. It will consist of the usual events. The program and the entries will be announced before Saturday. It is expected that arrangements will be made to have a bus run in conjunction with the street cars from the northern end of Third street. Admission to the Fair grounds will be twenty-five cents. There is considerable rivalry between the two teams and the school generally is taking no little interest in the meet.

AT MARINETTE.

Embalmers' Association Will Meet There This Year.

Official notice has been issued that the fourth annual meeting of the Northern Michigan and Northern Wisconsin Embalmers' association will be held in J. R. McLean's undertaking parlors at Marinette on July 1, 2 and 3—the dates of Marquette's street fair.

For the purpose of putting the proper information relative to the art of embalming and sanitation within reach of all members of the association, a full course of instruction will be held during the meeting, presided over by Dr. Eliah Meyers, the celebrated lecturer and demonstrator. This course will be of special value to new members.

The program for the first day will include an address of welcome by W. C. Campbell, mayor of Marinette; responses to same by A. F. Howard of Munising; annual address by the president of the association, D. A. Oliver of Escanaba, and introductory remarks by Dr. Meyers.

The second day will be devoted principally to business, which will include reports of the several officers and standing committees, election of officers for the ensuing year, selection of place for holding the 1902 meeting and an address by A. F. Howard upon the "Growth and Progress of the Profession."

A LITTLE QUIET.

Heaviness in Amalgamated Stocks Affects Market.

Considerable selling, caused by the heaviness in the Amalgamated stocks, failed to knock coppers off much yesterday, although it was responsible for a let up in the bullish movement.

The heaviness of the Amalgamated stocks was caused by the announcement that another suit had been brought to prevent the absorption of the Montana and Butte companies. It naturally caused some selling in the other coppers, but it failed to bring about any material declines. On the reaction the buying was of the best.

State Game Warden Morse's appointment of Deputy Kellan was concurred in.

The committee on hospitals reported that it had contracted with St. Luke's and St. Mary's at Marquette and the Ishpeming hospital for the care of the county's indigent poor; that it had appointed Dr. Harkins jail physician and Drs. Harkin, Marquette, Hudson, Negaunee, and Picotte, Ishpeming, to assume care of all cases of contagious disease which may occur in their districts.

The board, by resolution, authorized the county clerk to draw warrants on the treasurer on the account of the construction of the county poor house on estimates made by the architects and approved by the special committee supervising the building operations.

TO NEGAUNEE.

Maccabees Will Turn Out Good Delegation Friday.

Tomorrow will be a big day for the Maccabees. The annual county reunion will be held at Negaunee and delegations from all the cities and towns will be in attendance. Marquette will send one of the largest delegations which will attend the convention, as the Superior, Queen City and Pere Marquette tents, to say nothing of the hives, will be largely represented.

The excursionists will leave here on the morning train, spending the entire day at Negaunee. Arriving in that city, the delegations from the Marquette tents will be met by the Negaunee Orchestra band, which will serve as their escort in the big parade to be formed as soon as all the visitors reach the city.

In addition to the Maccabees, many of their friends will arrange to spend the day at Negaunee, so that it is estimated that the Marquette delegation will amount well into the hundreds. There promises to be a particularly large turnout of the ladies of the hives.

Negaunee Maccabees have worked assiduously to make their reunion a notable success and they announce that there will be "something doing" every minute the visitors are in the city. An elaborate program of athletic sports and games has been arranged.

It is the intention to give up the county reunion for the year 1902 so that Maccabees all over the county will be more able and willing to help Marquette swing her big project of entertaining and caring for the state meeting of the order.

CUT THE CORNERS.

Many People Negligent of Property Rights.

The Mining Journal is in continual receipt of complaints from the owners of corner lots in all parts of the city of the habit of many people of taking short cuts across their premises for the sake of saving the few extra steps required to go around the corners by the sidewalk route. This practice is most annoying, as it shortly results in well defined paths across the green sways, which are anything but decorations to the different lots. This abuse exists in all parts of the city and many people unwittingly contribute to it in their insatiable desire to save a little time.

In the course of a couple of decades each individual offender may save an hour or two, but it is only done at the expense of many laws. The corner of corner lots who suffer in this respect do not hesitate to express their dislike of the short cut practice, but they are unable to do anything to effectually end it. One gentleman has solved the problem by erecting an iron fence. He says that the only reason he incurred the expense of putting it up was his annoyance at seeing one corner of his yard tracked and torn up by the general public.

The premises of the Presbyterian church may be cited as an example of the abuse. For years there has been a path behind the edifice, direct from Baker to Front street. Recently the lot has been spaded, preparatory to sodding and sodding. It would seem that these evidences of a desire to fix up the corners would appeal to the short cutters, but no, they are traveling their old beat, as they have for many months past. Cut out the short cuts and give the grass a chance.

PRETTY HOME WEDDING.

Miss Florence Glasier Becomes the Bride of F. A. Russell of Superior.

A pretty wedding occurred at the home of Mr. and Mrs. J. S. Ober, Pine street, yesterday morning, when their only daughter, Florence, was united in marriage to Fred A. Russell of West Superior, Wis. Bishop G. Mott Williams performed the ceremony in the presence of relatives and intimate friends.

Streamers of ground pine were gracefully draped about the rooms and formed into noisettes between the doorways, being caught up with dainty bows of white satin ribbon. Bouquets of carnations, narcissus, apple blossoms and white lilies and numerous potted plants added to the beauty of the decorations.

In the dining room the appointments were particularly attractive, strands of smilax and white ribbon being drawn from the chandelier to the four corners of the table, in the center of which was an immense bouquet of pink and white carnations.

The dining room was in charge of Mrs. Frank Burrows. The refreshment table was presided over by Mesdames Elizabeth Burrows and S. J. Billings, who were assisted by the Misses Powell, Bell, Pendill and Thompson. After the wedding breakfast, the newly wedded couple departed, amid a shower of rice and old shoes, for an extended trip through the East. They will visit the Pan-American exposition and also New York city, returning via the lakes. Mrs. Russell is a sweet, winsome young lady and has the best wishes of scores of friends for her future happiness.

Those present from outside points were Mrs. Elizabeth Larkin of St. Paul, grandmother of the bride, and George T. Russell and Miss Marion R. Russell, brother and sister of the groom, from Superior.

MACCABEES' ATTENTION!

The members of all lodges are respectfully requested to meet at Fraternity Hall at 7:30 o'clock Friday morning in readiness to attend the county reunion at Negaunee. Train leaves at 8:20.

MARY'S LITTLE LAMB

loved Mary, the story says, and Mary loved the lamb. Everyone loves our lamb because it is the genuine Spring lamb—delicate, delicious and toothsome. We have all the delicacies of the season for the fastidious in Spring lamb, veal, and broiling chickens. Our best mutton and veal is prime, tender and juicy.

FRANK W. HATHAWAY, PALACE MEAT MARKET.
