It was decided to call a mass neeting for Wednesday evening, at which all the business men and interested citizens are requested to be present

> The firemen are anxious to get the next tournament, but they realize that their efforts will be futile if the merchants and other prominent citizens are not behind them. The tournament would cost about \$4,000, but there are many members of the department who think this sum could be raised. With the tournament at Crystal Falls this year, it should be easy for this city to rival the little town and it is for this reason that the members of the depart ment want to entertain the association

> There seems to be no reason why Ne gaunce should not entertain the firemen next year. The department is popular and a number of methods can be used to good effect in raising money. Let all evening at eight o'clock.

As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S.
