PINGREE IS DEAD.

MICHIGAN'S FAMOUS EX-GOVERNOR EXPIRES AT LONDON.

DEATH IS SUDDEN.

ROCKEFELLER AFTER BANKS.
Kansas City and Other Institutions Wanted by the Oil King.

COMES WITHOUT WARNING WHILE DOCTORS ARE AWAY.

NO HOPE HELD OUT, HOWEVER.

LIFE PROLONGED BY THE USE OF POWERFUL DRUGS.

Realized by Physicians the Cancerous Affection Was Too Malignant to Overcome and They Could but Ease the Pain.

London, June 18.—Ex-Governor Hazen S. Pingree of Michigan died at his hotel here about 11:30 o'clock tonight. The end was peaceful.

The attending doctor left Mr. Pingree's bedside about 11:15, promising to return shortly. Soon H. S. Pingree, Jr., who had been watching at his father's bed constantly for four days, noticed a sudden change in his father's condition. He hardly reached the patient's bedside, when his father died peacefully, without warning and without speaking a word.

A diagnosis made by London specialists of the cancerous affection of the intestines from which Mr. Pingree suffered left practically no hope for the patient's recovery. He was unable to retain nourishment. His mind, however, remained fairly clear. During the whole of Tuesday he was practically kept alive by injections of strychnine and drugs administered to lessen the pain. Young Mr. Pingree has notified his mother and uncle in the United States not to come to London. The body will be embalmed and taken home.

Doctors Summoned Too Late.

In the evening, prior to the death, Dr. Sir Thomas Barlow, Dr. Sir Wm. Broadbent and Dr. Mills had a consultation regarding the case of Mr. Pingree at which it was decided that the malignant ulceration of the intestines was so pronounced that the recovery of the patient was practically impossible. At this time Dr. Mills stated that Mr. Pingree's condition was becoming more critical; that he was partially unconscious and was growing weaker and weaker. The doctor added: "It seems to me that the serious nature of his ailment was not discovered earlier. He ought never to have been allowed to travel on the continent. Mr. Pingree is receiving every care and making a gallant fight, but the ulceration of the stomach is only one symptom of the complicated diseases which it seems impossible to check." Mr. Pingree was attended by the three physicians named above and two nurses.

PINGREE A WAR VETERAN.

Served Throughout the Rebellion in a Massachusetts Regiment.

Detroit, June 18.—Hazen Senter Pingree was born at Denmark, Maine, in 1840. In 1862 he enlisted in the First Massachusetts Heavy artillery and served until the end of the war, when he located at Detroit, embarking in the manufacture of shoes.

His Political Career.

In 1889 the Republican party nominated Pingree for mayor of Detroit, and he was elected by over two thousand majority. He was re-elected in 1890, 1893 and 1895 by increased majorities each time.

In 1896 Pingree was elected governor of Michigan by 83,000 plurality, running ahead of the national ticket by 29,000 votes. He was re-elected in 1900 by 189,000 by about a hundred thousand plurality and served out the term, which expired in 1900. Last March he started on a trip to South Africa, which resulted in his death at London.

Wrought Many Municipal Reforms.

Former Governor Pingree, while mayor, accomplished many municipal reforms, among others forcing the gas company to lower its rates 30 cents per thousand; establishing a public lighting plant; organizing the Detroit railway on a 3-cent fare basis; lowering the telephone rates, and breaking up a number

Wife Returns to Detroit.

New York, June 18.—Mrs. Hazen S. Pingree, wife of ex-Governor Pingree, whose death in London was announced tonight by cable, arrived in this city from Detroit this morning with her daughter and husband's brother, F. C. Pingree.

The party received a cablegram early today that there was no use in continuing the journey, as the governor's condition was so bad they would arrive in London too late. Tonight they received a cable telling of his death.

No plans for the funeral have been made by the family. The party will return to Detroit tomorrow. H. S. Pingree, Jr., or "Joe," as he is called, who was with his father in London when he died, will bring the remains on the steamship Umbria, which leaves Saturday and will reach here in about a week.

PROTEST AGAINST EXAMINATIONS.

One hundred and fifty former United States soldiers, the majority being capable employees of civil departments, have protested to General MacArthur against the alleged arbitrary exercise of discretionary authority on the part of the civil service board. The law gives the board discretion. It has now made a rule requiring the examinations of old employees. All the petitioners agree to resign rather than submit to examinations, and will accept private employment unless the matter is settled quickly. General MacArthur has requested the board to transmit to him the rule covering the point.

CONFERENCE AT KANSAS CITY MEETS TO LAUNCH IT.

POPULISTS AND SILVERITES ATTEND.

W. J. BRYAN IN SYMPATHY WITH THE MOVEMENT.

It Will Advocate His Pet Issues and He Will Lead It as a Candidate for President Should the Goldites Capture the Democracy.

Kansas City, June 18.—The first definite step toward the organization of a new "third party," which is proposed to embrace Missouri and form the nucleus for national growth, was taken today in Kansas City at a conference of members of the Populist state committee and a few silver Republicans.

The movement is said to have the expressed sympathy of the avowed "sport" of Wm. J. Bryan, who, it is further hinted, is to be the new party's candidate for president in 1904. Lee Meriwether of St. Louis and two other leaders in the Public Ownership party of St. Louis arrived in Kansas City this morning, having spent the whole of yesterday in consultation with Bryan at Lincoln. Mr. Meriwether was guarded in his statements concerning Bryan, but friends of Bryan say that if he does not support the present movement he is, at any rate, in sympathy with its purpose, for it is to advocate the same principles which Bryan has espoused. J. H. Cook, chairman of the state central committee of the fusion wing of the Populist party, said that if the Democratic party is captured by the gold standard element, Bryan will be forced by the logic of events into the leadership of the new party.

The conference, which is secret, will be continued tomorrow and end with a public meeting, when the result of the gathering will be embodied in an address to the people of Missouri.

Bryan Going to Buffalo.

Lincoln, June 18.—W. J. Bryan left tonight for an extended tour. It is a pleasure seeking trip, although tomorrow he will make an address at Estherville, Ia., thence going to Buffalo.

INFLAMED THE FILIPINOS.

Capt. Rowan on the Carpet at Manila for Starting a New Outbreak.

Manila, June 18.—Captain Andrew S. Rowan, of the Nineteenth infantry, is under investigation for the destruction of a town, thereby causing an active renewal of the insurrection in the island of Bohol. A native who had assassinated a corporal was caught and killed. Captain Rowan then burned an adjacent town. The people, inflamed with rage, rejoined the insurgent Chief Samson.

BIG VICTORY FOR HEINZE.

Butte Court Affirms His Title to the Minnie Healy Mine.

Butte, Mont., June 18.—Judge Harney, in the district court, today awarded the Minnie Healy mine, valued at ten million dollars, to F. August Heinze, decidedly against Miles Finelan and the copper trust. Heinze bought the property from Finelan, who after spending \$34,000 in working the property had become discouraged and offered it to Heinze for the amount expended. Heinze struck a rich copper vein within a very short time. Finelan then tried to get the property back and was assisted in the fight by the trust. Judge Harney's decision is the most sweeping victory Heinze has ever scored in Montana.

VOTERS WILL OVERTHROW IT.

Ex-Consul Morse Talks of the Supreme Court Decision.

Chicago, June 18.—In an interview here today S. E. Morse of Indianapolis, ex-consul general to Paris, said: "The supreme court's recent decision presents an issue which will be a central question in politics for years to come. After a little more experience in trying the government of people by force and without their consent, the voters of this country are going to reverse the decision, just as they did in the Dred Scott decision forty years ago."

"Who will be the next presidential nominee?"

"Well, I am personally in favor of either Chief Justice Fuller or Justice Harlan."

NEW REVOLT IN CHINA.

Military Graduate at the Head of an Army Fighting the Indemnity.

London, Wednesday, June 19.—The Shanghai correspondent of The Standard says that a Chinese military graduate named Tien Lo Siang has collected a large force of Boxers and disbanded soldiers and has induced the inhabitants of numerous walled villages and towns in the southwestern part of Chi Li province to unite in opposing the collection of taxes for the indemnity. It is reported that Tien Lo Siang and his followers have already defeated the imperial troops in several encounters and that the movement threatens to spread into Shan Tung province.

Important Concession to France.

A dispatch to The Daily Mail from Paris declares that under the terms of a secret convention with China, the French will be able to protect the proposed new railway from Tanguin into Yu Nan with French troops exactly as Russia does in Manchuria, and that France intends to exercise this right although the intention so to do may now be denied. This policy is the outcome of the recent visit to St. Petersburg of M. Delesse, the French minister for foreign affairs.

MOUNTAINSIDE SWEPT.

Huge Avalanche Rushes Down Into a West Virginia Valley.

Keyser, W. V., June 18.—An avalanche unparalleled in the West Virginia mountains occurred last night at Hopeville, thirty-eight miles from here. Great sections of the mountain side along the Potomac river for two miles rushed down into the valley. Thousands of tons of forest trees, immense rocks and earth came down. The home of Mrs. Andrew Ours, a widow, was completely wrecked and the daughter instantly killed. Mrs. Ours is dying.

THESE BRANCHES OF TRADE SERIOUSLY AFFECTED.

Action Said to Be in Violation of Treaty, Nettles the Washington Officials and May Lead to a Crisis in the Political Relations.

Washington, June 18.—The Russian ambassador, Count Cassini, has communicated to the state department that, in consequence of the action of the American government through the treasury order of March 9 last, in applying tariff restrictions against Russian petroleum imported into this country, the Russian financial minister Dewete has issued an order, dated June 7, imposing the high tariff rate of the Russian schedule on American white resin of calafin and galapot and increasing the rate on American bicycles.

The action is entirely apart from that taken in connection with Russian sugar and is a new development in the discriminatory duties imposed by this government and the retaliatory duties imposed by Russia. The order of the Russian minister takes effect next Friday.

Laid to the Dingley Law.

At the treasury department it is stated that the imposition of the duty on petroleum was not a matter within the discretion of the secretary of the treasury, but was made mandatory by the Dingley tariff act, which directs the secretary, in case a foreign country imposes a duty on petroleum imported from the United States, to levy a like duty on petroleum from that country.

In no sense, it is stated, can this duty be regarded as unjust discrimination against Russian petroleum, as that country took the initiative against the American article.

In reply to Count Cassini's note, which was transmitted to the treasury department, Secretary Gage protests against the implied contention that this government's action was a discrimination against Russia, and adds: "I beg leave to submit for your consideration the question whether the measure now adopted by the imperial government is not incompatible with the rights of the United States under the existing treaty of commerce and navigation with Russia."

Tax on Oil That Doesn't Come.

According to the Russian view, the duty laid against Russian petroleum is inexplicable from the fact that no Russian petroleum comes to this country. The only article of the kind received here is said to be that mixed with Belgian paraffin. It is said the American trade in bicycles and the rosins specified is quite large in Russia, so the increased duties will bear heavily upon these branches of American trade.

This latest retaliation on the part of Russia has emphasized the issue which had arisen previously over Russian sugar. Owing to the tariff war growing out of the sugar decisions, pressure has been brought to bear upon government through commercial and industrial channels to secure an adjustment with Russia. The situation, however, is such that the government does not feel itself able to move in the direction desired, at any rate at this moment. Danger in the situation is to be found in the probable growth of the ill-feeling between the common interests of Russia and the United States, which in the end may effect the political relations unfavorably.

MARQUETTE, MICH., JUNE 19.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The Northern Normal is smiling out its second annual class of graduates this week. The institution has had a most successful and auspicious year. It will open for the summer school and, in the fall, for its third year better equipped with apparatus, library facilities and all conveniences for study and research than it has been in the two years of its infancy, a fact that should be appreciated by all upper peninsula young people contemplating normal education. The Marquette school is now, this may be said without apology or hesitation, on an equal footing with any in the state as regards the quality of its instruction and the intelligence and capability of its graduates. And it is not to be long before its buildings will provide ample room for the convenient and thorough pursuance of all its courses of instruction, as the proposed north wing is to be erected this year.

Senator Depew stirred up much discussion and debate regarding possible Republican candidates for the presidency in 1904 when he made the break which brought forth President McKinley's frank avowal that he might be counted out of the race. The eastern papers have been persistently using Senator Allison's name. The Iowa man declines with thanks, saying, "why I shall be seventy-five when the convention of 1904 meets" and implying that he considers his weight of years sufficient to bar him from any quest for preferment. Another name which has been knocking from pillar to post during the past couple of weeks is that of Senator Fairbanks of Indiana. In well informed circles he is regarded as a promising possibility, being close to an entirely in sympathy with the present administration. However, all candidate talk at this early day is vain and it is likely to hurt, rather than help, men whose names are dragged into the discussion. There are three full years ahead before President McKinley will step down and out and political standard bearers are so often determined by arbitrary circumstance that forecasting at this early day is but an idle and fruitless amusement.

The announcement that all the Middle West and the Northwest railroads in which E. H. Harriman, J. Pierpont Morgan, the Vanderbilts and J. J. Hill are interested will hereafter be under one management marks an important step in the movement toward railroad consolidation. The lines affected include a number of the most prominent in the sections named and the results of the consolidation for all managerial purposes will be closely observed. It is interesting to note that the railways of the country, though somewhat behind in the march of progress, are following the lead set by the reorganizers of the other great industries. Railroad consolidation is practical to a great, almost general, extent. Its workings will be attentively studied by economists as it is a new phenomenon in the business world. None are more closely interested in its development than people of socialist tendencies who believe in carrying the paternalistic functions of the Federal government to the logical conclusion of national ownership of all railroads. Men of this cult believe that the magnates, in consolidating the lines and economizing their managements, are gradually paving the way for Federal acquisition and control.

Here is the way in which the Boston Herald looks at the recent discomfiture of Senator Depew and Representative Grosvenor, editorially rapping these gentlemen's knuckles in these words:
President McKinley has caught two pretty prominent politicians in what might have been to many men an embarrassing comical by his smothering of the third term movement. The trap that was set would have doubtless taken in many more had the President delayed his action. Senator Depew and Representative Grosvenor are of the kind of men who bite early, and we doubt if either of them is much troubled by what to more sensitive people would seem like a rebuke from presidential quarters. Mr. Depew is one of those facile gentlemen who hasten to fall into the tide of politics which they think they see setting. His judgment is very faulty in this respect. He showed this when he first began to be prominent in politics by engaging in the support of Horace Greeley for president. That taught him such a lesson that he has since sought the other extreme, and built his confidence upon the most strenuous partisanship. Though he misses his footing in this later instance, also, he has not a great deal to lose, and can still maintain his jaunty manner. Mr. Grosvenor is a different kind of man. He takes extreme positions by nature, rather than from calculation. This he understood of him, he does not find himself open to the charge of miscalculation. The only concern of mind he has in the case probably arises from wonder that Mr. McKinley should have refused to avail himself of so tempting an opportunity.

In answer to a question designed to draw him out on the point, Senator Platt has just said: "It seems to be that Governor Odell will be re-elected and that he later will be president." There can be but little doubt that the

former part of the senator's statement is a correct forecast. Already Odell has made a name and record for himself. When he assumed the gubernatorial chair it was suspected and feared that he would be susceptible to machine, i. e. Platt, influence. He has overturned all such calculations in a manner which has made him one of the biggest men in New York and which has won unqualified approval throughout the country. Instead of standing for the corrupt in politics, Governor Odell has fathered clean and honest legislation and has done everything in his power to defeat measures designed to carry government, local and state, further away from the people. His magnificent stand on the bill designed to put the New York city police force in state control, which compelled him to bluntly and positively deny and defy the "easy boss," showed that he is possessed of many of the same qualities which have elevated Theodore Roosevelt to the dignity of a national figure. Governor Odell is yet to show a corner on the stage of national politics to permit of intelligent comment on the latter part of Platt's statement. However, it is only logical that his name should be mentioned in connection with the presidency. New York state is a mighty power in national conventions and an Odell boom, fathered and propagated by its delegation, would have to be reckoned with.

This is the season of the graduate. High schools, seminaries, colleges and universities are turning out thousands of young people of all ages and conditions, colors and capabilities, and their quests for name, pelf or mediocre comfort. They are facing the possibilities of the future in all stages of development. Here is the young dreamer, who has loafed his way through a pleasant school and college or university life, who is shortly to be shocked by the violent jolting of his dominant idea of the eternal fitness of things; there is the keen observer who has appreciated what is permanent and what is passing and, who, their ages being the same, is years ahead of his fellow on the pathway to worldly success. He will force his way to the center of life and healthy activity, and before his late fellow student has even obtained his bearings, he will be well started toward the goal of his ambitions. Many practical, hardheaded young men, mayhap young women, who are destined to leave the impress of their influence on the world's affairs are finishing their set education this spring. There has been observed, in the last few years, a notable change in the nature of the exercises which mark the graduation of the annual crop of young pupils and students. This is particularly true of the high schools. Time was when, all or a fairly large percentage of the young people would be heard in some serious effort of essay or oration on the eve of their entrance into serious activity. They appeared in the role of entertainers or instructors. Now it is the fashion to seize the last minutes of the school life of the graduates as an opportunity of assailing their ears with practical words from some scholar or business man who has carved out his own success, the aim being not so much to exalt the youths in their own estimation as to prepare them for the reality of the morrow and the necessity of persistent and conscientious activity in whatever department of business, industrial or professional utility they may have chosen. This change is fit and proper, as would be any other innovation tending to give the young people a more vivid appreciation of the real essentials and the true significance of their transition from the school room to the wide, wide world, where he who labors conscientiously and faithfully eats and where he who doesn't sometimes eats not, but, in any event, is always dissatisfied and unhappy.

SEVEN YEARS IN BED.
"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bile" enabled her to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c. Upper Peninsula.

There is talk of organizing a military company in Marquette. So far about twenty young men have signed the membership list. Thos. R. Fydel is soliciting members.

Ironwood is striving for the championship in the matter of dog population. The dog warden there has collected license on 600 dogs and has shot 200 in the past year.

James MacNaughton, who is leaving Ironwood for the copper country, where he takes an important position with the Calumet & Hecla company, will be tendered a banquet at the Commercial hotel in the corner city Thursday evening. Only married people will attend and the function is expected to prove one of the most notable in the city's history.

William Fox, who has been under treatment for small pox at Iron Mountain since the first of this month, has been pronounced well. This does not mean that he will leave the detention hospital immediately, as he will be held until all danger of infection is over. People of Iron Mountain are now pretty well over their scare and it is not believed that there will be any more cases of the dread disease there.

Eric Carlson, who was run over by a Northwestern train at Powers Friday while stealing a ride, receiving terrible injuries, died Sunday night in a Menominee hospital. Carlson had a wonderful vitality, but his injuries were all too severe to permit of his recovery. He had a sister in Chicago. Carlson was thirty-two years old and had been living a tramp's life. Previous to stealing a ride which resulted in the fatal injuries he had been working at Escanaba for a number of weeks.

Durawa, alias Hartwell, whom Sheriff Zillmer of Milwaukee last week located in the Iron Mountain jail, where he is serving a ninety days' sentence for the larceny of a pair of shoes, has refused to return to the Wisconsin city. The sheriff has gone back to Milwaukee, but he will be in Iron Mountain when Durawa's term expires to arrest him for the burglary of a cement plant in the Third ward, Milwaukee. Durawa has a long record of arrests and he is generally regarded as being a pretty bad man.

James Coeks and son Bert arrived in Menominee from Chicago this week to assume charge of the links of the river-side Golf club, providing satisfactory arrangements can be made with the members of that institution. Mr. Coeks has been in charge of the Midlothian links near Chicago for several years and his son is an expert player and instructor. The Chicagoans were greatly pleased with the Menominee links and their surroundings. Work on the new clubhouse will begin within a few days, the contract having been let to Architect Robinson of Marinette.

A novel yachting trip is being arranged by Judge J. P. Roberts of Vairo, Ill., and Judge Harter of Carondelet, Ill., who are spending the summer at Washington island, near Menominee. Judge Roberts was in Menominee last week arranging for the trip. The yacht Rose has been chartered, and the party will comprise about ten people, among them several from Menominee. Judges Roberts and Harter and several professors from the University of Illinois will be in the party. The yacht will leave Menominee about July 7, on a month's cruise to Buffalo, stops to be made at Sault Ste. Marie, Mackinac, Potosky, Cleveland and other points of interest.

Antonio Gamboria, who was one of the men injured in the accident at the Pewabic mine, Iron Mountain, a few months ago went to Menominee Saturday to have an operation performed. One eye was blown out in the accident by the discharge of a blast that had missed fire, and the sight of the second eye was injured. It was thought that an operation might restore the sight of the second eye. Gamboria was placed on the operating table and chloroform administered as an anesthetic. Before the operation was completed, however, he succumbed to the operation. The death certificate is signed by Dr. Walter P. Hicks. Gamboria was thirty-one years old and leaves a widow and family.

Jas. O'Toole, a foreman on the water power canal at the Soo, received a painful injury Sunday morning, one that may prove very serious. He had charge of aerrick which operates a pair of tongs in handling heavy rocks and recently several of his men have been injured by the swinging tongs. With an eye to the safety of his men Mr. O'Toole decided to handle the tongs personally Sunday morning and at 8 o'clock he had been numbered with the victims. He was struck in the head by a rope and they suddenly swung in his direction. He was standing near the masonry wall and the swinging tongs struck his head, driving it against the wall with great force. He was rendered unconscious by the blow and was removed to the hospital. His head was badly cut and his skull fractured.

A horse attached to a rig owned by Lee Bros. of Hancock became frightened at the cars near the Copper Range depot yesterday afternoon and dashed across the county bridge at a great clip. At the north end of the span he dashed into two other vehicles and damaged them considerably. No one was hurt.

The remains of the late Ole Rystad, who committed suicide by jumping into Portage lake recently at Hancock, were buried yesterday morning from Undertaker Crawford's rooms. The body was kept since the drowning to hear from some of Rystad's relatives. Although telegrams were sent both to Chicago and Superior to some of his people, they were not acknowledged.

Boxer Eddie Croake and Manager Gillespie of Chicago, who have been in Houghton for some time by reason of the former's match with Beusschotte, left last evening for Chicago. Croake will

go west from there, as he has several fights slated for that part of the country. Croake did not leave Houghton the "hot favorite" he was said to be when he entered it. Houghton sports are about tired of the boxing contest business.

Several residents of the Quincy location will leave today for Cornwall, England, to spend the summer with relatives and friends. In the party will be Rev. Pascoe, of the Pewabic M. E. church, who has been granted an extended vacation; William Gouge, a Quincy miner; Mrs. Cobbledeek and son, George; William Whittle; Mrs. Rachel Bedell, and Mrs. Kornick and son, William. They will sail on the steamship Tunisian of the Allan line, from Boston next Saturday.

AN ORDINANCE.

An ordinance licensing the retailing and merchandising of goods, wares and merchandise.

The City of Marquette Ordains:
Sec. 1. No person, firm or corporation shall engage or be engaged in the retailing or merchandising in the city of any class or kind of goods, wares or merchandise, without license as a retail dealer in merchandise; Provided, That this section shall not apply to the sale of articles which by the provisions of any ordinance relative to hawking and peddling may be sold by hawking and peddling without a license therefor; or to the sale of goods by hawking and peddling under license therefor by the city; or to the selling of goods upon which the payment of a license tax is required by the liquor laws of the state and on which such tax is paid.
Sec. 2. The recorder is hereby authorized to license any person, firm or corporation as a retail dealer in merchandise upon payment being made therefor to the city treasurer of the following fees: For each place of business, the first year of operation of a year that any such license shall be in force twenty-five dollars; and for each successive year thereafter that any such license shall be issued to the same licensee, five dollars; and any such license shall authorize the transaction of business at but one store, stand or place in the city, to be named in such license, and every such license shall be conspicuously posted in such place of business, and shall expire on the first Monday in June next after the same is issued.
Sec. 3. The sums paid as license fees by retail dealers in merchandise shall be applied by the city treasurer to the payment of the personal property taxes hereafter assessed against them respectively on the general tax rolls of said city; then or thereafter in the hands of said treasurer for collection; and proper vouchers shall be drawn and audited by the controller.
Sec. 4. Any violation of the provisions of this ordinance shall be punished by a fine not exceeding one hundred dollars for each offense, or by imprisonment in the city lock up or county jail for a period not exceeding ninety days, or by both such fine and imprisonment, in the discretion of the court, and each day's violation of this ordinance shall be deemed a separate offense.

GALE HITS NESTER RAFT.

Baraga Company Loses a Million and a Half Feet of Logs.

The heavy northeast winds on Lake Superior lately have played havoc with the log rafts.

The Nester estate, at the time of the big blow on the lake late last Friday, was building a huge raft to be towed from the north shore to Baraga.

The raft which the Nester people were building was to have contained about 6,000,000 feet, and would have been a duplicate of the one that the estate destroyed with so much success on Wednesday.

A raft belonging to G. A. Potter lost 500,000 feet of logs in the same gale which broke up the Nester raft.

In the event that the companies who have suffered loss in this manner are not able to reassemble themselves, the property will probably be picked up by the Duluth Log Salvage association.

A LIFE AT STAKE.

DAY OF ORATORY IN NEW YORK COURT OF APPEALS.

MOLINEUX MURDER CASE AIRED.

NEW TRIAL SOUGHT FOR THE CONVICTED CLUBMAN.

Ex-Senator Hill Appears for the State, Forcefully Arguing the Guilt of the Prisoner and That the Death Penalty is Merited.

Buffalo, June 18.—The final direct verbal plea for another chance before a jury for Roland M. Molineux, the alleged poisoner of Mrs. Katherine J. Adams and Henry C. Barnett, and the first half of the arraignment of the people in resistance were heard by the court of appeals today.

John G. Milburn, representing Molineux, spoke for nearly two hours and was succeeded by former United States Senator David B. Hill, whose argument in opposition lasted until court arose at two. Mr. Hill will close by noon tomorrow, and with a brief reply for the appellant the case will be submitted to the court.

It was a day of oratory, stirred at times by thrilling points and with touches of the invective. Mr. Milburn's address was vigorous, and Senator Hill was equally forcible.

Revenge and Jealousy the Motive.

After explaining his connection with the appeal, the ex-senator reviewed the case and argued the guilt of the defendant. He strongly defended the course of Recorder Goff and Assistant District Attorney Osborne and the theory and policy of the prosecution. He avowed that the prosecution was within its rights in showing the relations of Molineux with his wife prior to their marriage, and asserted it was the people who had to suffer when the recorder ordered the evidence stricken out. He said Mrs. Molineux had called her marriage a romance; he called it a tragedy.

Senator Hill took up successively the various mysterious letters written under the names of Crish and Barnett, forcefully adjusting them in their places in the theory of the state; dramatically proclaimed the alleged guilt of the prisoner, and insisted that the state had conclusively proved its charge.

Reviewing the trouble at the Knickerbocker club, connecting with it Cornish's denunciation of Molineux, and the Harper incident, Mr. Hill proclaimed revenge as the motive of the plot to kill Cornish and then pictured jealousy as the motive in the Barnett case. He pronounced the weight of evidence against the accused as overwhelming, and said no defense had been made because none was possible.

BLOW FOR JESSIE MORRISON.

Court at El Dorado Admits the Dying Statement of Mrs. Castle.

El Dorado, Kas., June 18.—An important witness in the Jessie Morrison case today was Emma Wharton, daughter of the Methodist minister who attended Mrs. Castle. She testified that after Mrs. Castle had read her dying statement, she was asked whether or not she believed in the affirming of the witness, and "lifted her right hand as one taking an oath."

The dying statement of Mrs. Castle was presented by the prosecution. The attorneys for Miss Morrison objected to the introduction of the statement, and Judge Ackman admitted it almost entirely, saying he believed it was the statement of Clara Wiley Castle, made at a time when she believed herself in the presence of death. The parts eliminated were not important. Jessie Morrison's self-defense is the plea of the case before the court and an effort will be made to show that in fighting for her own life she killed Mrs. Castle.

FOR SHOOTING REV. J. KELLAR.

Trial of Thos. Barker at Jersey City Goes Much Against Him.

Jersey City, June 18.—The second day of the trial of Thomas G. Barker for shooting Rev. John Kellar at Arlington was full of objections by the counsel and sharp rulings by the presiding judge. Both principals went on the stand during the day, though the story of Barker may never be told by him.

The court held that Barker could not testify to his own state of mind on the morning of the shooting. The object of the defense was to introduce the alleged conversation between Barker and his wife which it is claimed led up to the shooting, but at every turn the counsel met with defeat. Barker was withdrawn from the stand without testifying to anything material.

Dr. Evans, of the Morris Plains asylum, was practically debarred from testifying because of lack of foundation. The story of Mrs. Barker may not be told now, unless the counsel finds some way which has not yet suggested itself to introduce it.

Dr. Strasser, one of the doctors who attended Kellar, told of the wounds and gave expert testimony that Kellar was shot from behind.

Rev. Mr. Kellar was the last witness for the state. He showed the jury his scarred face and blinded and injured eyes. He insisted in a mild way under cross-examination that the shot which entered his head was fired from behind. He said he had spoken to no one, inferentially that there had been no quarrel.

Dr. Kennedy Out on Bail.

New York, June 18.—Dr. Samuel J. Kennedy, thrice tried for the murder of Emeline ("Dolly") Reynolds, was released today on \$10,000 bail.

Grand Jury Indicts the Princes.

the murder of Philip H. Kennedy for which Mrs. Kennedy was found guilty last Saturday.

MANIAC TERRORIZES A DEPOT.

Shoots at Several Persons and Is Finally Killed by a Policeman.

Rockford, Ill., June 18.—A maniac supposed to be A. G. Peterson of Chicago took possession of the Illinois Central depot tonight and opened fire with a revolver. Several persons escaped being hit by bullets. Policeman Sully, who attempted to arrest the man, was twice shot at. He then returned the fire and the maniac fell dead with a bullet just above the heart. On the dead man's body was found a will written in Swedish, as follows: "I give to my daughter, Edith Bollerstrom, all I have. My secret I carry to the grave. (Signed.) A. G. Peterson."

DEATH IN GAMBLING DEN.

Constable Shoots to Kill at Springfield on Slight Provocation.

Springfield, Ill., June 18.—Tonight at Lane's gambling resort, Frank Poffenberger of Jacksonville, a gambler at the resort, was killed by Constable Will L. Brown. Several constables appeared at the entrance with search warrants. Constable Brown was reading the papers to the porter, when he was accosted by Poffenberger, who snatched the papers and tore them into bits. Brown instantly shot him through the heart. The friends of the deceased were held at bay with loaded revolvers carried by the constables. The constables are under arrest.

EX-PREACHER A MURDERER.

Kills While Drunk a Man Who Tries to Save Daughter from a Whipping.

Berkeley, Cal., June 18.—Dr. J. G. Jessup, dentist, was shot and fatally wounded last night by Rev. Chas. Adams, formerly an Episcopal minister. It is stated that Adams' daughter called Jessup up by phone and requested him to come to her home and prevent her father from whipping her. Jessup complied, and when he reentered with Adams the latter shot him. They were old friends, and Adams says he was drunk at the time.

RANGERS FIGHT MEXICANS.

Assassins of Texas Officers Suffer in a Running Encounter.

Laredo, Tex., June 18.—News is just received here that Captain Brook's company of the state rangers has had a running fight with the Mexicans supposed to be guilty of the assassination of Sheriff Morrison of Karnes county and Sheriff Glover and Constable Schnabel of Gonzales county, in which one Mexican was killed, one wounded, one captured and one escaped. The details are unobtainable.

JAIL HEAVILY GUARDED.

Lynching Threatened in Iowa as a Result of a Murder.

Marshalltown, Ia., June 18.—Mel Clemens and Will Burgruff of Union, Hardin county, who had been bitter enemies for some time, became involved in a quarrel last night which resulted in Clemens stabbing Burgruff in the eye with a steel bar, which penetrated the brain. Burgruff died two hours later. Clemens was jailed after a chase across the country. The jail is carefully guarded, as lynching is threatened.

NEGRO PAYS THE USUAL PENALTY.

New Orleans, June 18.—Abe Barrett, a negro, who assaulted a white girl at Gulfport, Miss., was captured this afternoon and lynched. He was taken to the scene of his crime, where he was identified and confessed, and was strung to a tree half a mile from town in broad daylight.

London, June 18.—The American trapshooters were entertained at a farewell banquet in the Cafe Royal by the Middlesex Gun club tonight. Poulney Bigelow presided and was supported by Admiral Kennedy, Captain Marshall, Captain Budd, the British test and the editors of the leading sporting papers were present. Secretary Gage of the Middlesex Gun club paid over the £1,000 purse and delivered the cups won by the various American shooters. Admiral Kennedy, Paul North, Emil Werk, Captain Marshall and others responded to the toasts of the evening. The American team will leave tomorrow for Glasgow, where they will shoot Saturday.

CONSOLIDATION IN LUMBER.

Four Big Companies on Saginaw River to Unite With \$1,000,000 Capital.

Saginaw, Mich., June 18.—The necessary legal formalities are in progress for the consolidation of four of the largest lumber plants on the Saginaw river—W. E. Mershon & Co., W. H. Schmetz & Co., S. L. Eastman & Co. of Saginaw and the Eddy-Sheldon company of Bay City. All of these firms operate planing mills and lumber yards, and three of them also operate box factories and sash and door factories in connection. These firms have an aggregate value of 110,000,000 feet of lumber annually and employ nearly 1,000 men. By consolidation greater economy will result, as the firms have been competitors. The capital stock of the new company, to be called Mershon, Schmetz, Parker & Co., is to be \$1,000,000. The principal office will be in Saginaw. It is expected the combine will go into effect on July 1.

DYING CREW FOUND ON SHIP.

Scene of Horror on a German Bark Picked Up at Sea.

Philadelphia, June 18.—With decks alive with scorpions, the entire crew sick with scurvy, the chief officer dead, and the second officer too ill to take part in the navigation, the vessel was reported being driven about practically in charge of a dog maddened by thirst, the German bark Planet was fallen in with by the Philadelphia trans-Atlantic line steamship Crown Point, Captain Wall, from this city to London, on May 14, in latitude 49 26' north, longitude 12 14' west. Officer Bryant of the Crown Point was put in charge of the stricken craft and succeeded in working it into Queenstown harbor on May 28, but not until the second mate and captain had died.

This tale of the sea has just come to light through a report by Captain Wall to the London Board of Trade. It was being driven about practically in charge of a dog maddened by thirst, the German bark Planet was fallen in with by the Philadelphia trans-Atlantic line steamship Crown Point, Captain Wall, from this city to London, on May 14, in latitude 49 26' north, longitude 12 14' west. Officer Bryant of the Crown Point was put in charge of the stricken craft and succeeded in working it into Queenstown harbor on May 28, but not until the second mate and captain had died.

Discipline for divorced persons is laid down thus: "No person divorced for cause arising after marriage and marrying again during the lifetime of the other party to the divorce shall be admitted to holy communion except when penitent and separated from the other party to the subsequent marriage, or when penitent and in immediate danger of death; but this cannot and shall not apply to the innocent party to a divorce for the cause of adultery."

Save Vessel, but Many Die.

Captain Wall sent a fresh supply of provisions and delicacies for the sick seamen and Second Officer Bryant was sent to navigate the Planet to its destination. Mr. Bryant found the crew too weak to heave the cable and he was obliged to slip it after repeated attempts had been made to take the disease-stricken craft to tow.

On May 17 Captain Buskenneth died, never regaining consciousness from the moment he was stricken. The second officer after showing marked signs of improvement died on May 24. Finally the harbor of Queenstown was made and the searge-stricken derelict was passed into the hands of the medical officer.

The Planet left Matzalan on Nov. 2 last for the chart of India, and had consequently been at sea for 168 days when the Crown Point fell in with it.

A. O. U. W. SUPREME OFFICERS.

Buffalo, June 18.—The supreme lodge of the Ancient Order of United Workmen this afternoon elected the following officers: Supreme Master Workman, A. C. Grain Markets Strengthen.

Pressure to Sell Brings Materially Lower Prices in Wall Street.

Shorts Good Buyers in All the Pits and the Prices Stiffen.

Chicago, June 18.—Wheat was firm at the close today, the prices showing reactions of 1/2 to 3/4 cent from the low points reached. Compared with last night, the prices are unchanged to a fraction better. Shorts were good buyers late and there was some investment demand, while the offerings were rather small. The cash sales were twenty-three loads at the seaboard and 200,000 bushels here. While speculative interest favored the bear side, the bear sentiment was less pronounced and many were playing the market for a reaction and an advance after the continued losses suffered. The weather was favorable and the crop reports a weakening factor. At Liverpool, spot was 1/4 lower, with futures unchanged to 1/4 lower.

Corn was active and 3/4 to 1/2 higher, the nearby months showing the most strength owing to the strength of cash. The sales of cash here were said to be large, but only 30,000 bushels were reported sold and eighteen boatloads taken at the seaboard. The market was weak early on indifferent cables and continued good weather. On the upturn, commission houses were good buyers. Liverpool was unchanged both on spot and futures.

Options ruled active, with great excitement at times. The average of prices was higher and well maintained at the last. The close showed a gain of 3/4 for September and May, with July unchanged. The offerings were liberal at times and from some of the largest traders. Shorts and commission houses were active buyers. The cash business was light.

The leading futures ranged as follows: September wheat opened at 68 1/4 @ 68 3/4; highest, 68 3/4; lowest, 68 1/4; closed, 68 1/2. September corn opened at 44 1/4; highest, 44 1/4; lowest, 44 1/4; closed, 44 3/4 @ 45.

Receipts and shipments were as follows: Flour, barrels, 33,000 15,000; Wheat, bushels, 144,000 62,000; Corn, bushels, 211,000 491,000; Oats, bushels, 211,000 211,000.

PATTI BUYS HER OWN CASTLE.

Reserve Price Not Reached at the Auction Sale of Craig-y-Nos.

London, June 18.—Craig-y-Nos castle, the residence in Wales of Adeline Patti, was sold at auction here today for £45,000. The castle was bid in by Patti's lawyer, as the reserve price had been fixed at £50,000. Miss Patti desired to dispose of the residence through a desire to spend the future in Sweden, the country of her husband's birth, and because of the fact the Welsh climate does not agree with her.

Over Two Thousand in Cape Colony and Steadily Getting Recruits.

Molteno, Cape Colony, via Cape Town, June 18.—Kritzing and Fouche, the Boer commanders, are busy placarding Cape Colony with proclamations to the effect that, in accordance with orders issued when the northern part of Cape Colony was annexed to the Orange Free State twenty months ago, any persons reporting the whereabouts of any Boer command would be fined £50 or in default will be compelled to accompany the command on foot.

According to the best information, there are about 2,100 armed Boers in Cape Colony and they continue to secure a few recruits.

Rumors of Peace Conference.

London, Wednesday, June 19.—The Sun, which has not heretofore been over-reliable on the subject, hears that there has actually been a meeting at General Botha declining to concede anything and that in consequence of this decision, General Botha and the commanders agreeing with his peace views, have decided that a conference with Lord Kitchener be arranged for next week.

MILLIONAIRE IS FOR UNIONS.

Mine Owner Stratton of Cripple Creek Applies for a Card.

Colorado Springs, Colo., June 18.—Winfield Scott Stratton, who has reinvested \$1,000,000 in buying and developing Cripple Creek mines, has applied for membership in the Carpenters' union of Colorado Springs. "I was a humble carpenter myself once," he said in explanation, "and know what it is to work for a dollar a day, and oft times couldn't even get that. Unions are elevating; they increase the self-respect of labor, compel the respect of employers, and enable the union man to get wages that will educate his children and give them a chance to be more remunerative walks of life. "I am spending \$50,000 a month developing mining property, from which I will not take out a cent in ore until the full value of the territory is known, and every cent of that money goes to union labor."

Detectives Shed Light on the Ocean Liner Gold Bar Robbery.

New York, June 18.—Since the arrival here a few days ago of Arthur Carl, chief of police of Bremen, Germany, on the steamship Lahn, some inside information concerning the mysterious gold bar robbery of last April aboard the Kaiser Wilhelm der Grosse has come out. "Only one arrest has been made in connection with the crime, but the prisoner, Theodore Magers, the bedroom steward, is believed to have been only a tool of shrewd men who planned to get a large quantity of gold by the plundering of the treasure vault aboard the liner. Magers, who got the reward for finding the stolen gold, is locked up in Germany. The North German Lloyd officials, when the robbery was reported, offered a reward of \$2,000 for the missing gold bars, and three days after the vessel reached Bremen Magers claimed that while cleaning the woodwork in one of the second cabin passageways he found a bullion hidden on a protruding cornice back of some steam pipes. The reward was paid to Magers. Magers did not return in the Kaiser der Grosse before it started back for New York, but a week or so afterward he put in an appearance at the Bremen pier in a deplorable condition. He told so many conflicting stories that he was arrested.

The French detectives in the meantime had information about two strange men believed to be Americans who had for a couple of days chartered a small sail boat and in the craft loitered about the entrance to Cherbourg harbor. They were suspected to be in the conspiracy to steal the gold aboard the Kaiser Wilhelm der Grosse and asked about the route of that vessel when it arrived from America to land its Cherbourg passengers, saying that they wanted to inspect the vessel and get a message from friends on board who were bound for Germany. These men vanished before the alarm about the robbery on the steamship was raised, but they have since been traced back to the United States via Southampton.

Both detectives are on the Kaiser Wilhelm der Grosse as saloon and second cabin passengers and arrived here on that vessel today.

A LITTLE BIG WASTE.

DISTINGUISH between economy and wisdom. Sitting at home to save shoe-leather is economy, but it is scarcely wisdom. In the same way, doing without Ivory Soap is economy but it isn't wise; your risks are greater than all possible saving. Every cheap soap contains free alkali. Now, free alkali will eat its way through the new oil cloth on the kitchen floor. Imagine, then, what it will do in a single Monday's washing! Is such economy wise?

STOCKS GIVE WAY.

Pressure to Sell Brings Materially Lower Prices in Wall Street.

New York, June 18.—The pressure to sell stocks was effectual in breaking through the resistance in the market today, carrying the general level of prices to a materially lower basis. There were a few spots of strength persisting and there were occasional successful efforts to check the decline which resulted in rallies by driving the room shorts to cover. The bull element in the market by no means abandoned it to the bears, and at recurring periods, when the selling spent its force, there was alert readiness to bid up prices without any desire manifested to secure stocks. The most potent influence in the market was the state of doubt engendered as to the real status of the much discussed St. Paul deal, many specific assertions which have been set afloat by the very large speculative contingent which is making the St. Paul project the medium for their operations having been stripped to pieces. One well defined rumor has it that a hitch had occurred in a contract alleged to have been made to sell a large block of St. Paul stock to Union Pacific. St. Paul declined nearly 3/4 point as a result of these rumors and Union Pacific also declined and they closed within a small fraction of their usual prices. Missouri Pacific suffered from realizing on the ground that all the good news regarding the stock is out, while the independent steel companies were notably sufferers. The rally, however, was mostly lost in the late reaction of the market.

"SAG HARBOR."
 Original Company Will Produce this Famous Play Here.
 The engagement of "Sag Harbor," with the original company interpreting the play, for the opera house next Monday evening is the most notable of the Marquette theatrical season. It is attracting much attention and apparently its significance is realized.
 Regarding the play, although a comedy of the most exhilarating sort, "Sag Harbor" is not without its drama and its moments of deep pathos. The romance of the two seafaring brothers, who loved the same fair girl, develops almost to the point of tragedy in the third act, but is happily diverted in the nick of time into less strenuous ways through the intervention of dear old Captain Dan Marlow. The atmosphere of the play is described by a famous New York critic in the following way: "As pure and delightful as the fragrant salt winds that blow across the lovely foam-trimmed shores of Long Island."
 "Sag Harbor" takes its title from a quaint old whaling village on the northeastern point of Long Island—the narrow strip of land which starts in New York Harbor and runs due East almost the whole length of the Connecticut shore line. The characterization of "Sag Harbor" has awakened critical enthusiasm in every city where it has thus far appeared. In New York one of the ablest of the newspaper reviewers said:

SOME FINE EVENTS.

Sons of St. George Have Prepared a Fine Program of Sports for their Reunion.

The list of sports which the Sons of St. George will run off on July 25th, the occasion being their annual convention, includes some very interesting events. The committee which has these sports in charge has not yet entirely completed its arrangements, but the list which follows will be substantially adhered to: Swimming contest on Lake Bancroft: First race, 600 yards—prizes, first, gold medal; second, silver medal; 800 yards—prizes, first gold medal; second, silver medal. Both these races will be for the championship of the upper peninsula. A regulation Cornish duck hunt on the same sheet of water. Prizes not yet decided upon.

Mile bicycle race on Division street, to be run in three heats. Prizes not yet decided upon.

Mile bicycle race for boys on same thoroughfare. Prizes not yet decided upon.

Three legged race.

Sack race.

Wheelbarrow race.

Miller and Sweep.

Fat men's running race, for men weighing 200 pounds or over.

A grand smoking contest. The winners who survive will receive a pipe valued at \$5 as first prize and a box of choice Havanas as the second.

Lemon diving contest for boys. Lemons to rest in the bottom of well filled tubs of water.

A grand band contest. Only bands which take part in the parade being eligible. Prizes, first, \$50; second, \$25.

Cornish wrestling match. Prizes, first, \$50; second, \$20; third, \$20 and fourth, \$15.

Baseball games; one team to be allowed each society. Lots to be drawn and each game to last five innings.

Winners to play off. Prizes; first, \$15; second, \$10 and third, \$5.

With the above list it would seem that all who take in the coming reunion will find something to please them in the sporting line. As far as is possible the various events will be run off in the center of the city. The committee feels much gratified at the reception met with from the merchants. It was so flattering that it was at once decided to hold the sports in town, which will be most satisfactory to all.

SUCCESSFUL EXHIBITION.

Examples of Work in Drawing Pleased All Visitors.

On Monday afternoon and evening the pupils of the public schools and their friends were given the opportunity of inspecting the results of the year's work in drawing. The afternoon was devoted to the graduating class of the high school and its friends. In the evening the general public was given access to the exhibit. It was pleasing and those who saw and who were entertained by the faculty and students expressed their appreciation of its significance and value.

Miss McIntyre and her pupils prepared a light lunch for the afternoon visitors. It was a feature which was appreciated. In the evening the basement of the building was well crowded. Specimens of work were hung upon the walls and the room was tastefully decorated. Two sides of the room were devoted to the exhibits and another was taken up with the senior memorial.

The exhibition was a revelation. When it is understood that not until Miss Jean Hay came here from Topoka in February, did the students receive instruction even in the rudiments of drawing, the work which they have accomplished appears to be wonderful. Too much cannot be said of the good work done by Miss Hay. The pupils have manifested a great desire to become proficient in drawing and they have worked in thorough harmony with their instructress. Here is a work the results of which do not appear until an exhibition gives an opportunity of inspection, but inspection will readily convince every one that the board of education has made no mistake in adding the drawing course. The Mining Journal is pleased to announce that Miss Hay has been engaged for another year. Her drawings will be on exhibition this evening and Thursday.

The senior class memorial to the school this year is a collection of models for the drawing classes. These models include numerous casts of classical subjects, eastern ware and pottery in brilliant colors. The models arrived about a month ago and since they have been in constant use. The pupils of the higher grades have worked from some of the pieces. It is hoped that succeeding senior classes will follow this practice and that in a few years the collection of models will allow of instruction in all branches of art.

CLASS PROGRAM TONIGHT.

And the High School Commencement Will be Held Tomorrow Evening.

A class of twenty eight young people will be graduated from the high school tomorrow evening. This is one of the largest classes which was ever graduated here and it is also one of the best. Great preparations for the exercises have been made and if all signs do not fail those who have worked so hard and faithfully for some weeks past will see their hopes for a successful program realized.

This evening will be given up to the Class Day program. The seniors will appear on the stage in the auditorium at eight, when an elaborate program will be rendered. An interesting feature will be the reading of extracts from the class paper, the "Hematite", which has just been issued. This sheet has some exceedingly clever things between its covers. Mr. Doolley, on the recent field meet, a particularly humorous article, will be read in full. A special memorial page dedicated to the late principal, Miss Jessie E. O'Leary, with her picture is something which will be sacredly kept by all who were fortunate enough to be her pupils. Pictures of the winning football and track team, with their records, is another feature.

Tomorrow evening will be the commencement proper. Dr. Frank Crane of Chicago will deliver the commencement address. There will be essays and a talk from Superintendent Scollins. The following is the list of the senior class. Latin course—Elizabeth Bamford, Agnes Clifton, Mabel Ellis, Tekla Farm, Olga Grotte, Daisy Kennedy, Rhea Newett, Jennie Parks and Lillian Westgren. Scientific course—Carl Elbridge, A. Anderson, Clarence Gill, Louis H. Ruttenberg, Frank Watters and Morgan H. Wright. English course—Mae Bell, Edith E. Hosking, Oscar J. Lidberg, Winnifred Moutrie, Elvira Olson, Hans Peterson, Leo H. Proulx, Edith Parks, Alice Sullivan, Helen Sterling, Nellie Sullivan, Blanche La Tipping, Ann Walters and Roy Walton. Admission, with reserved seat, this and tomorrow evening will be twenty-five cents. For a single admission and reserved seat the charge will be fifteen cents. Seats may be obtained at Tillson's.

THREE MILLION BOOST.

Assessor Quinn Thus Values Ishpeeming Realty and Board is Bearing Him Out.

The first session of the board of review was held in the council chamber yesterday and a large list of business was transacted. Sessions will be held today and probably tomorrow, also three days next week.

In speaking of his roll Assessor John H. Quinn states that his figures place the valuation for the city at approximately \$8,000,000. This is an advance of something like three million. It is also less than half a million below the figures which one tax commission placed upon Ishpeeming when it visited this section last fall. Assessor Quinn says that the largest increase has fallen on the active mines, their valuation being much higher than his figures of last year. He gives as the reason for the vast increase, the general stability of Ishpeeming realty and the sound financial condition of the residents. Numerous transactions have taken place during the year which have shown that real estate is valued more highly than was the case a year ago and Mr. Quinn thinks that it will equalize things to make the three million increase. That are his figures and there is the chance that the board will reduce them or add to them, as the case may be, but this is extremely unlikely.

A. O. H. OFFICERS.

At a recent meeting of the Ancient Order of Hibernians the following officers were elected for the ensuing year: Joseph Kennedy, president; Michael Nolan, vice president; P. G. Gleason, recording secretary; Patrick Cronin, financial secretary; Timothy Hughes, treasurer; Dennis Harrington, sergeant at arms and William Laughlin, sentinel. The local order has 215 members and is receiving new applications constantly. It is one of the most flourishing in this section and if straws show which way the wind blows, will continue to do the good work for which it has been noted in the past.

\$50 FOR A BOTTLE OF MEDICINE.

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.

ISHPEMING IN BRIEF.

Mark Elliott of Palmer was here yesterday afternoon.
Charles T. Sandberg has returned from the U. of M., Ann Arbor.
Thomas F. Cole of Duluth was a business visitor in the city yesterday.
Joe Pope, who has been so ill for some days past, is now on the high road to recovery.

Tomorrow will be payday with the employees of the Lake Superior and Oliver companies.

Fred M. Prescott, of the Prescott Steam Pump company, Milwaukee, was here yesterday.

Tickets and reserved seats for the exercises at the high school this evening may be obtained at Tillson's.

The stores will keep open every Tuesday and Thursday evening until the Fourth, beginning tomorrow evening.

The exterior of the hospital is now being painted. The ground work will be of green and the trimmings will be white.

The regular meeting of the Country club was held yesterday and a large number of members and their friends made the trip to the clubhouse.

Mr. and Mrs. Frank Deal returned yesterday morning from their wedding trip. They have spent the last two weeks in Detroit, Ypsilanti and Buffalo.

Trombley's orchestra has been engaged to play for the dancing party which the high school alumni association will give in Anderson's hall Friday evening.

The funeral of the late Mrs. Patrick Sullivan will be held tomorrow morning at nine from St. John's. Her son Patrick will arrive on the 4 o'clock train tomorrow to attend the services.

"Doc" Embloom, manager of the Bartons team, hereby challenges the victorious Braastad nine for a game to be played, anywhere, at any time, in fact, on any terms satisfactory to that team.

The concert which the Schubert company gave in Anderson's Monday evening was not as largely attended as the merits of the music warranted. In fact the audience, though attentive and appreciative, was decidedly slim.

Gus Holmgren, an employee of the Lake Angeline company, fell through a raise at that mine Monday afternoon and received a fracture of his left leg. He was removed to his home on North Pine street and is getting along nicely.

The Mining Journal was in error yesterday in stating that the Republic Minstrels and the Aeolus Concert company of this city would give an entertainment in the Republic town hall last evening. The entertainment will take place this evening.

The Shannon children, with the Harry Shannon company at the opera house this week, are unquestionably the cleverest tots of their age ever seen here. They appear tonight in "Camille," a play the company features as the strongest in its repertoire.

Kittie, daughter of Patrick Nugent, died at the home of her grandmother at 410 West Euclid street yesterday morning. The funeral will be held from St. John's church tomorrow afternoon at two o'clock. The father of the deceased is in Butte and will be unable to attend the services.

Work on the cellar for the new Myers store is progressing very satisfactorily. The basement for the addition is completed and the gang is now engaged in excavating under the old store, where additional cellar room will be obtained. Within another week it is expected that the foundation will be started.

Horace Outhouse is a good fisherman. He went to Sidnaw the other day and caught four trout in the early evening. While he was making up for lost sleep, the hotel cat came along and ate up his catch. When Horace came around in the morning he was wrath and vowed vengeance on the feline. He went to the river, however, and caught four fish just like the first. He came home happy.

A Strong Woman

Iowa City, Iowa, Aug. 15, 1900

My wife was sick for three years. We tried everything without relief and spent much money. My wife tried Wine of Cardui and four bottles cured her. She took two more bottles, knowing she would have to work hard during the hay harvest. She attended to all her household duties and loaded and unloaded all the hay. This medicine gave her strength. Formerly she was weak and could hardly get about, but since she has been taking Wine of Cardui she feels better and stronger than when 20 years of age. JOS. A. EISENHAFER.

Mrs. Eisenhafer had tried everything during her three years sickness and had spent considerable money. She was weak and could hardly get about for three years before she took Wine of Cardui.

WINE OF CARDUI

Now, after taking the Wine of Cardui, she can work with her husband in the hay field. That is hard work, but it is not as injurious to a woman's health as labor in stores, factories and offices where thousands of girls are closely confined year after year. With the aid of Wine of Cardui a woman can do any reasonable work and enjoy good health. The health that Wine of Cardui brings makes a woman vigorous in body and mind. Freed from those terrible devastating pains a woman grows well and strong naturally. Wine of Cardui regulates the disordered menstruation and cures leucorrhoea, falling of the womb and periodical pains in the head and back caused by standing or sitting a long time in the same position. Theford's Black-Draught puts the bowels, stomach, liver, kidneys and blood in proper shape. Greatly increased strength and endurance is the natural result. Most cases are cured quickly. All druggists sell \$1.00 bottles of Wine of Cardui and 25 cent packages of Theford's Black-Draught.

DIFFERENCE OF OPINION.

It was a characteristic of yesterday's Board of Review Session.

Yesterday the final meeting of the board of review was held and it served to bring out a representative gathering of mining men, as well as most of the substantial business men of the city. These gentlemen gathered to express their views of Assessor Thoren's assessment and valuation and developments showed that they thought they were all wrong. The day dragged wearily for the members of the board. The meeting finally adjourned at 5 o'clock, without much definite accomplishment. Few changes were made, so that in all probability the original figures will stand.

Captain James Piper of the Negaunee mine said that if the other mine managers did not kick at their valuations it was not his intention to do so. The Negaunee was placed at \$500,000. Captain Mitchell thought that \$180,000 for the Jackson on real property was much too high and he talked at length on the matter. George McDonald, cashier of the Regent Iron company, was of the opinion that \$350,000 for the Queen mine alone was just an even hundred thousand and too much and they had agreed to look into the question further. Agent Alexander Matland wished that \$200,000 could be taken off his properties, as \$600,000 was too high in his way of thinking. So the game went on.

George Maas had considerable fun with the board and they had some fun with him. George owned up to possessing \$56,000 personal property, but when he saw what the other fellows, who profited by the recent land boom in this city, were quoted at, he became wroth. Mr. Maas' arguments were well thought unanswerable. He had a list handy and, as he ran his eye up and down the column and noted those who were not quoted, he waxed warmer. He found that John Mulvey was left off and asked the assessor if John had been sent a statement. "Yes, John received one, but had neglected to return it." This was also true in the case of Mrs. Lewis Corbett and a number of other who received substantial nest eggs.

Now Mr. Maas is in a position to know exactly how much each received as a result of the boom in real estate, as he was the man who paid the money, and he found lots to kick about in the fact that Lewis Corbett had received over \$60,000 as his share and was assessed at \$6,700. Obviously something was amiss and it occurred to him if Lewis had bought Michigan copper stocks or government bonds with the money, saying that he had had his about two months ago and was unable to put it where the assessor could not tax it. Mr. and Mrs. F. D. Davis told the assessor that they had \$250 apiece, so their names were not on the list, much to the discomfiture of Mr. Maas and, later, the assessor.

From the returns on personal property one would suppose that Negaunee was populated by some very poor men. As Mr. Maas had assessed at \$56,000 in taxable personal property, he couldn't very well go behind his statement, but he succeeded in having the other "fellows" held up somewhat.

THE COMMITTEE OF THE FIRE DEPARTMENT on the 1902 tournament has not yet given up, as is evidenced by the circular letter which it is sending out to influential business men. This letter asks the receiver point blank what he thinks of the tournament proposition and if it is not answered it will appear that the receiver is not anxious to have the tournament come to this city next year. It urges attendance at the meeting and it is anticipated that when the appointed evening comes around the gathering will not duplicate the last frost. The meeting will be held in No. 1 engine house at 8:30 p. m. a week from today.

averaging from two to four pounds were included.

The fish are being paid for largely by popular subscription, but it is understood that part of the expense will be borne by the township.

There will be good sport for the anglers as soon as these fish become plentiful. They increase very rapidly and it will not be long before the lake is well stocked. The first pickered and bass were planted in Lake Gogebic about five years ago and now there are thousands of them there. It is assumed that the stocking of the lake with the fish will be the means of bringing many strangers to the village in years to come. Hundreds of people visit Lake Gogebic every summer just to enjoy the fishing. There is no reason why pleasure seekers should not come here as well. The lake is far more attractive than Lake Gogebic and it is less expensive to reach it from most upper peninsula points.

LOCAL LACONICS.

Edmund Roy will give a lawn social at his home on Boyer avenue tomorrow evening.

John Quincy Adams left for Detroit yesterday noon on a business trip of a few days.

Miss Florence Mitchell has returned from her six weeks visit with friends in St. Louis.

The city scales are ready for business and, as a starter, all the city horses were weighed yesterday morning.

The committee of the board of supervisors was in the city yesterday inspecting the road to Goose Lake.

The funeral of Moses Greenier will occur this morning. The services will be held in St. Paul's at 9 o'clock.

Mr. and Mrs. William Pellow left this city last week for Great Falls, Mont., where they will make their home in the future.

Two window sign painters have been in town this week and have very handsomely decorated several business windows, about town.

HARRY PEACE is doing quick work on the foundation for the Jackson school addition, it being nearly ready for the carpenters.

The Charles Towne post, G. A. R. wishes to thank the Ishpeming Light Guards for the very kind and courteous treatment which they received at their hands last Saturday evening, the occasion being a successful campfire.

The Schubert concert company, which comes to this city tomorrow evening, is a fine organization. The concert will be well worth hearing. Tickets are on sale at Perkins' at fifty cents.

Mr. and Mrs. Charles Davey, Miss Melaney, Fred Chipman, Robert Danforth of Palmer, James Roberts and Ed. Mass were passengers out of this city on the Detroit excursion last evening.

Miss Kate Robinson, formerly of this city, and Aleck Fordyce of this city will be united in marriage in Canaan, Canada on the 26th of this month. Bert Watters will be the groomsmen and while away he will take in points of interest in the Dominion and also the Pan-American.

The old building located west of Charlie Johnson's place on Iron street was moved by its purchaser, Jack Nesbitt, to its new location at the corner of Kanter and Clark streets yesterday. It was necessary to disconnect all the electric light wires of both companies and also the telephone wires. The cars were also stalled for a short time in the afternoon, Iron street being blocked for three hours.

MICHIGAMME PICK-UPS.

A new fence was built this week on the east side of the Johnson property.

Encouraging reports are heard from Dave Levin, who is receiving treatment in a Chicago hospital.

The members of Summit lodge of United Workmen contemplate giving a boat excursion and picnic next Sunday.

Probate Judge C. H. Kelsey has appointed G. J. Murray and John Milroy appraisers for the estate of the late Adolph Duchette.

Most of the employees of F. W. Read & Co. spent the greater part of last week's idleness owing to the breaking down of the main engine.

The four-year-old daughter of John Anderson of the Spur died on Wednesday of last week. The remains were interred in the local cemetery.

Postmaster G. J. Murray has been slightly indisposed of late. He was confined to the house a few days, but is now able to be around again.

The members of the Schubert Concert company enjoyed a delightful excursion on the Petrel last Sunday as the guests of Supervisor C. F. Sundstrom.

Exploratory work is about to be started on the old Port and property near here. An outfit, consisting of boiler, engine, etc., was received last week.

Bishop Eps arrived in town Monday evening, coming from the copper country. The following morning he conferred a class of children at the Catholic church.

The improvements at Nels Moline's dwelling will be quite complete when his new stone wall is finished. He will then have one of the neatest and most attractive places in town.

Werner Nikander, the druggist of Negaunee and others have spent several days of late camping on the shore of Lake Michigan. They say the outing was a most pleasant one.

A few carloads of black soil have been placed near the South shore depot, west and south side, to be used for improvement purposes. It is Agent Maker's intention to plant a space for flowers.

The "Si Slocum" company held the boards at Old Fellows' hall Tuesday evening. The play is of the rural type on the order of Josh Spacey. The company received a fair patronage here.

Nels Moline has a number of rare bank notes. He has one that was issued for the treasury at Washington in 1862. A visitor recently offered him \$40 for the \$10 bill, but he would not part with it.

The chimney on the dwelling occupied by Henry Beal and family was demolished by lightning during the storm of last Wednesday night. A number of shade trees about town were also damaged.

Supervisor C. F. Sundstrom intends to compel horse owners to keep their animals off the principal streets of the village. At times the mags move too rapidly for the safety of children and others.

The Schubert Concert company gave an entertainment at Old Fellows' hall last Saturday evening. The attendance was not large, but all present enjoyed the program rendered, it being of a strictly high order.

Simon Levin will graduate from the medical department of the Michigan university on Thursday of this week. He will arrive home Sunday or Monday next. Dr. Levin has not yet decided where he will locate.

A number of Michigan people will take in the Woodmen's picnic at Republic next Monday, Midsummer day. The outing planned by the Woodmen of that place will afford pleasure for old and young. A large attendance is expected from all parts of the county and it is the wish of those in charge to make the picnic one that will be thoroughly enjoyed

USING FISH NETS.

Some of the local business men were quite indignant this week when they learned that certain persons were taking fish from Lake Michigan with nets. Some of the pickered and bass recently planted there were handed out. As a result of a search for the nets some were found and removed. The guilty parties are known and if the practice is not stopped at once there will be trouble for them. Game Warden Downing is expected up this week to go over the grounds. An effort will soon be made to have a local man appointed game warden for this place. The laws are very frequently violated here and with a warden continually in town it is thought that there would be less netting, snatching, etc.

GOES TO NEWBERRY.

Superintendent C. A. DeWitt of the Michigan school will succeed Professor Chisholm as superintendent of schools at Newberry. The latter did not accept the position here as expected and it is assumed that he will go to L'Anse. Professor De Witt will have nine teachers under him, a larger corps than he had here.

ECZEMA

ECZEMA sets the skin on fire. The acid poisons in the blood are forced out through the pores of the skin, causing intense redness, burning and itching. So terrible is the itching at times, especially when the body is overheated, that the almost distracted sufferer feels that he could tear the skin to pieces, and that he must scratch or go crazy. He knows from experience that this only makes matters worse, but, made desperate by the terrible burning and itching, he is for the time being indifferent to after effects. There are several forms of Eczema, the moist, or weeping kind, that comes in little pustules which discharge a watery, sticky fluid, which dries and peels off in bran-like scales. So profuse is the discharge at times that large scabs or crusts form, which are both painful and troublesome, and not easily removed. Red, disfiguring bumps and sores are symptoms of Eczema. The dry form usually attacks the head, hands and feet; the skin becoming hard and rough, often cracking open and bleeding, and attended with much itching. Eczema depends upon a poisoned condition of the blood, and local applications, while soothing and cooling, and may to some extent relieve the inflammation and itching, cannot be considered cures, because external remedies do not reach constitutional or blood diseases. Salves, ointments, powders, lotions and soaps do more harm than good, by smearing over and sealing up the pores of the skin, thus forcing the poison back into the blood. S. S. S. antidotes and neutralizes the acid poisons and drives out of the circulation all impurities and humors, and the pure, rich blood that is carried to the diseased skin quickly allays the inflammation, opens the clogged up pores, and the skin becomes soft, smooth and ready to perform its proper functions. To be rid of Eczema you must first purify and build up the blood, and nothing so surely and effectually does this as S. S. S., the only guaranteed purely vegetable blood purifier. Send for our book on blood and skin diseases, and write our physicians for any information or advice you may desire. Medical advice and book free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Mr. L. Marno, Escondido, San Diego County, Cal., writes: "My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was immeasurably delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs."

A MASS MEETING.

IT WILL BE CALLED TO DISCUSS MUNICIPAL IMPROVEMENT.

MRS. M'CREA NOW IN MARQUETTE.

SHE WILL WORK FOR THE PARK AND SCHOOL COMMISSIONS.

She Sees Many Things That Need Attention and Thinks That a Little Individual Effort is Most Required.

Mrs. McCrea, a prominent Chicago landscape artist who will do much work for Marquette's municipal boards during the next few months, has been here during the past few days completing her preliminary survey of conditions prior to outlining her campaign of active improvement.

She is here for the entire city and thus she feels free to see everything that there is to be seen and to express her opinions without hesitation or reserve. This she did yesterday to a representative of The Mining Journal.

Mrs. McCrea thinks that Marquette is naturally one of the most beautifully located cities she has visited and she thinks it has bits of streets and landscape that can hardly be improved, but still she is not pleased with the general condition of the city, seeing many evidences of individual carelessness and unmistakable and shameful testimonials of municipal shiftlessness in bad streets and worse sidewalks.

In this latter condition she has only seen what Marquette people have been noting all spring. The city's thoroughfares are disgraceful. Of course there has been no crushing plant and the timber for sidewalk construction and repairs has been coming slowly. These facts are hardy excuses, as early initiative and intelligent foresight would have made their existence an impossibility.

Marquette's greatest need, in Mrs. McCrea's eyes, and no one can deny that her position is just, is individual pride and effort toward the beautifying of the city. She says that if each household will carefully look after his own little plot of lawn, his shrubbery and trees that the ensemble will take care of itself and in this she is unmistakably right.

A Mass Meeting. It is the purpose, in order to arouse interest and enthusiasm in the work of beautifying the city and bringing each resident to a realization of the fact that he owes something to the community in this matter, to hold a public mass meeting at which general expressions of opinion will be sought. A point made above may be dwelt on here. Mrs. Mc-

Creia is not in Marquette for any single interest. She has been employed by a couple of the municipal boards to superintend their work and incidentally to further, in whatever way she can, municipal improvement. The proposed mass meeting will be for the general public and it will not be considered a success unless every ward in the city is well represented. As Mrs. McCrea says, a beautiful street or a beautiful residence district does not make a beautiful city, which can only be obtained by constant, intelligent care on the part of the householders throughout its boundaries, supplemented by intelligent far-sighted municipal government.

The proposed mass meeting will likely be held the evening of Tuesday, July 2. Mrs. McCrea leaves for Chicago Sunday evening for a few days stay, going below to attend the national convention of the American Park and Out of Doors Art association, which is to be held in Milwaukee June 26, 27 and 28. She is announced to lead several discussions. On its conclusion Mrs. McCrea will return north and she will be here continuously until her work is finished.

As announced above this mass meeting will be public and a general attendance will be urged and expected. There will be a number of good speakers to address the assemblage, but the meeting will be held to stir up interest and enthusiasm in the landscape art and improvement work. Oratory will be secondary and the speakers will address themselves to Mrs. McCrea will deliver a talk, outlining her idea of what Marquette people should do to advance the good work and speaking generally on the importance and influence of landscape art and improvements. Detailed announcements in connection with this meeting will be made later.

A Salutory Influence. It is certain that Mrs. McCrea's visit to and work in Marquette will have a salutory influence on the city. Possessed of a wonderfully beautiful natural location, charming environment of hill and water, a strong and healthy verdure and many other things requisite to the attainment of a surpassing municipal beauty, Marquette comes far from making the most of her opportunities.

The blame for this lies partially on the shoulders of the individuals and partially on the municipal government. There is lacking a proper civic pride. This statement is true, although it appears false on the surface. Everyone here prates of beautiful Marquette, not reflecting that it is not beautiful because of their individual efforts to that end but in spite of their neglect. The trouble probably is that the city is naturally too beautiful. If its normal state were a little more repulsive, artificial effort might be more generally exerted to beautify it.

Mrs. McCrea has observed many things radically wrong in connection with municipal or quasi-municipal premises which she will rectify when she gets down to solid work. Other things will pass under her eye with the passing days. Her work for the boards of park and cemetery commissioners and school trustees will be important and will result in a great and noticeable improvement. Marquette is fortunate in receiving a visit from Mrs. McCrea and if there is any slumbering civic pride here she is

just the person to arouse it. She is bright, energetic and attractive, withal a landscape architect and artist who is accorded equal recognition by the best people in her profession. Her interest in her chosen work is consummate and she hopes to see Marquette a changed city as a result of activity. She is accessible to all property owners who may desire to question her in connection with the improvement work and will gladly answer all queries and supply all information.

Miss Mary Wallace. Valedictory—The Striving Soul. Miss Lydia Olson. Class Song—The Purple and the Gold. Composed by Miss Elizabeth McKnight. Commencement is Thursday morning.

VERY LIGHT ATTENDANCE. But the Schubert Company Gave a Good Concert Just the Same.

If a total of forty-five people in the parquet constitutes a "frost," that is what the Schubert symphony club and ladies' quartet encountered at the opera house last evening. The concert really merited a good house, having some excellent features. The program was varied and entertaining. The numbers by the symphony club, the ladies' quartet and the lady vocalists were most appreciated, although encores were demanded with the usual catholicity of taste, they being responded to with a readiness which could not have been excelled had a packed house called for them. An unusually effective number was a soprano solo "Love the Pedler," E. German, by Ruby Leora Garlick, who possesses a strong, powerful, but, withal, sweet and expressive voice. Miss Garnhardt, the contralto soloist, is also a clever vocalist. The ladies' quartet gave a number of well rendered selections and the work of the symphony club was thoroughly enjoyed. Louis McPike, a reader, and Julius A. Brander, violinist, assisted with the program. Before the conclusion of the concert Mrs. K. A. Myers, field secretary of the Good Will fund, for which it was ostensibly a benefit, was heard on the Houghton charity. She explained its present condition, financial and otherwise, and the importance of its work, together with the necessity of according it a sufficient support.

SOMEWHAT ACTIVE.

Boston Coppers Reflected Amalgamated's Life.

Coppers were somewhat active yesterday, with buying of Baltic and Copper Range on more rumors of the consolidation. The strong market in Amalgamated on the New York exchange Monday was responsible for the change in tone in Boston. Paine, Webber & Co. said: "There is no reason for the hope that the delay in the consolidation of Amalgamated, Montana and Butte is near an end. The last injunction is now before the court of appeals and the decision is expected today or tomorrow. Amalgamated, Montana and the associated stocks all showed excellent buying today and they act as if they would sell higher. Cameron, Currie and S. L. Smith are in Boston. There has been a renewal of the South Range consolidation talk today and Baltic and Copper Range are in good demand. We should not be surprised to see these stocks get a good lift almost any day now. If the consolidation is a success, both should sell considerably higher."

Hayden, Stone & Co. wired the Laidley Commission Co.: "The market was more active today on account of the sharp advance in Amalgamated yesterday. A very small amount of stock changed hands to cause such an advance. We believe the stock is in the same hands that caused the advance some time ago and we look for it to go higher, which means higher prices for some of our local coppers, especially Butte and Montana. We would buy strongly on all weak days." A. R. Jones & Co. said of wheat: "The wheat trade still keeps slow. It is practically dead, nevertheless there is a strong undertone to the market as was evidenced again today, when September rallied from the same low point that was touched yesterday and closed again at yesterday's figures. As far as the crop condition is concerned, all bearishness is undoubtedly fully dissipated and, probably, more. Anything that can happen now must be in the nature of better prices. The Northwest crop is not made yet. Until it is, we don't think the short side of wheat a safe thing."
