VALLEY IS IN RUINS.
WEST VIRGINIA DISASTER AS BAD AS FIRST REPORTED.
300 ARE DEAD OR MISSING.
DAMAGE TO PROPERTY TWO AND A HALF MILLIONS.
Bodies of Fifty Victims Already Recovered and It Will Take Weeks to Complete the Search of the Acres of Debris.

Bluefield, W. Va., June 24.—11:30 p. m.—Details of the fearful flood in the Pocahontas and Flat Top coal region slowly drifting into this town, which is situated twenty-five miles south of the scene of the wrecked homes, fully bear out the fears earlier entertained as to the havoc wrought by the storm.
Fifty dead bodies have been found. Thousands of people are homeless. It is feared without food or at the best with only food enough to last a few days. A large force of men is at work clearing away the debris and recovering the dead bodies, whose numbers are being augmented hourly. Over a hundred miles of track belonging to the various coal operators are practically a total loss.
Like the Johnstown Disaster.

By reason of a long fill and a low bridge some distance up the valley, the flood was dammed and the master body of water accumulated was probably as great as contained in the famous dam at Johnstown, Pa. When the obstruction gave way it let down a monstrous volume of water on the villages and mining camps below.
Many corpses were found hidden in the mammoth piles of debris, which in some instances cover half an acre of ground. It is the work of days to search through them. The list of missing and reported drowned is 289. It probably never will be known how many perished. A messenger who traversed the valley in an effort to save thousands has arrived and reports the destruction to property worse than supposed.
At Algoma, eight miners, standing on a high point in water waste deep, rescued twenty-three women and children as they floated by. A number to whom they threw ropes were so excited they made no effort to save themselves.
Thirty-four houses floated down and were dashed to pieces against the iron bridge at North Fork Junction before the structure collapsed.
The total loss is now estimated at two and one-half millions.

DISASTER BELITTLED THERE.
Earlier Reports at Roanoke Say Flood Havoc Has Been Exaggerated.
Roanoke, Va., June 24.—The following statement was made by one of the general officers of the Norfolk & Western railroad; it summarizes the flood situation in the light of the latest dispatches, and was given to the Associated Press:
"The restoration of the telegraph line developed that the damage by the flood through the fields has been exaggerated. The loss of life will not exceed sixty or seventy-five. The damage to property, including repairs to the railroad and coal operations, will not exceed \$300,000. It is expected that the railway will get the line opened through tomorrow or next day."

Roanoke, Va., June 24.—There has been very little news received here today from the West Virginia flood. One train came in this afternoon, but not much new information could be gained from the passengers. Trains are running from Bluefield and Emnis, which places are just outside the territory visited by the cloudburst.
Crowds at Telegraph Offices.
All day long today Roanokers who had friends and relatives in the coal fields and coal operators here who have large financial interests in the devastated region have been lingering around the railroad station, awaiting the arrival of belated trains. These people, making inquiries concerning relatives and property, have been besieging the railroad and commercial telegraph offices since early this morning. The wires all being down west of Bluefield save one which goes through to Emnis, this being used as a train wire, have prevented the public from gaining additional particulars.
How many are dead is not definitely known and it necessarily will be several days yet before the exact number can be given out as official; but the reports in circulation here are that all the way from fifty to two hundred persons have been drowned. It is probably safe to assume the former figures are more correct than the latter. The damage to property amounts to hundreds of thousands of dollars. Miles of railroad track are washed out and great gulches have been created.
Ruined Area a Narrow Valley.
The devastated section covers an area of about twenty miles west of Bluefield. It is a narrow valley, not much wider than a broad street in some places. Coal mines are scattered all along the road.
Keystone, the town reported to have been so greatly damaged and which was first believed to be wiped out of existence, is a village of between two and three thousand along a narrow valley and on the sides of bluffs. There is a creek which runs through town, over which most of the houses were built on piles of rocks. The mountains on either

(Continued on Page Four.)

COMES TO MANCHESTER'S AID.
Pa Zimmerman Ready to Settle With the Creditors at a Discount.
London, June 24.—Engine Zimmerman of Cincinnati has put his son-in-law, the Duke of Manchester, in position to offer his creditors 12 shillings 6 pence on the pound. A meeting will be held Thursday to consider the proposal.
PATENT HELD VOID.
Bell 'Phone Company Loses an Important Suit at Boston.
Boston, June 24.—Judge Brown, of the United States circuit court, today handed down a decision adverse to the American Bell Telephone company in the suit for infringement of patents brought against the National Telephone Manufacturing company, on the ground the patent involved was void.
JUDGE'S CHARGE FAVORABLE.
Arguments Begin in the Trial of Jessie Morrison at El Dorado.

El Dorado, Kans., June 24.—Judge Aikman today instructed the jury in the case of Jessie Morrison and the arguments were begun. The case probably will go to the jury tomorrow evening. The instructions make it impossible for Miss Morrison to be convicted either of first or second degree murder or second or third degree manslaughter. The arguments had not been concluded when court adjourned until tomorrow.

CHICAGO LIKE OVEN.
IS AGAIN SUFFERING FROM A TERRIFIC HOT SPELL.
93 IN THE GOVERNMENT TOWER.
TWO DEATHS AND ELEVEN PROSTRATIONS ARE RECORDED.
At the Stock Yards More Than 300 Cattle Die in Their Pens and Several Hundred Dead Are Taken from the Incoming Trains.
Chicago, June 24.—Two deaths and eleven prostrations, of which several are serious, were the result of the heat in Chicago today. The dead were George Wiley, a foundryman, and Fritz Braun, an inmate of Dunning. The mercury at the weather bureau stood 93 in the shade. Over three hundred cattle were stilled in their pens at the stock yards and several hundred cattle, hogs and sheep were also taken dead from the cars of incoming trains.

BOER BULLET KILLS HIM.
Lieut. Greenhields, a Noted English Athlete, Dies from Wound.
London, June 24.—Lieutenant Greenhields, of the Shropshire yeomanry cavalry, died today from a wound received in South Africa. He was one of the Oxford-Cambridge team which defeated Harvard and Yale in the international athletic games in 1899.
BIKE RACER BADLY HURT.
Floyd McFarland Collides With Pacing Machine on Gotnam Track.
New York, June 24.—After riding thirteen miles of a fifteen-mile motor-paced race with Johnny Nelson at the Madison Square Garden tonight, Floyd McFarland collided with his pacing machine and was thrown to the track, sustaining severe injuries. He was removed to a hospital, bruised and bleeding and in a semi-conscious condition.

SPANISH HEADS BROKEN.
Anti-Clerical Rioting Is Renewed at Madrid and Other Cities.
Madrid, June 24.—Anti-clericals paraded the streets Sunday, shouting "Burn the convents," hissed the Infanta Isabella and stoned a monastery during the night. They were finally dispersed by the police. Serious disorders have occurred at Alcoy during a jubilee procession. The gendarmes charged the numbers were injured. Rioting is also reported in other cities.
THREE BOYS DROWNED.
Meet Their Doom While Swimming at Grand Rapids, Wis.
Grand Rapids, Wis., June 24.—Sidney Larsen, Arthur Calm and Clarence Rouce, all under eleven years of age, were drowned in the river, where they had gone swimming today.
Two Lost in West Virginia.
Grafton, W. Va., June 24.—Dr. A. J. Baker, a leading physician, and his eight-year-old son were drowned this evening while bathing in the Valley river.

CHICAGO'S NEW FIRE CHIEF.
Chicago, June 24.—William H. Masham was tonight appointed chief of the department to succeed Dennis Swenic, resigned.

TRAGEDY ON BOSTON STREET.
Young Dentist, Insane from Overstudy, Kills Sister and Himself.
Boston, June 24.—Richard Friedman shot and killed his sister, Ross, aged twenty-one; attempted to kill his sister Helen, seventeen years, and then shot and killed himself on a crowded West End thoroughfare today. Helen was not hit by the bullet intended for her, but just as the pistol was discharged she fell fainting to the sidewalk. Friedman, who was aged twenty-five, had just finished a course at the Harvard Dental college. Insanity, caused by overstudy and illness, is declared to have caused his action.
DEFENDS RUSSIA'S ACTION.
M. Dewitte Says Secretary Gage Is Not Posted on the Facts.
London, June 24.—A dispatch to a news agency from St. Petersburg purports to quote M. Dewitte, the Russian finance minister, as saying that the statement issued by Secretary Gage in explanation of the United States treasury department's action in interposing countervailing duties on certain Russian products shows that the question is not fully understood by Secretary Gage. M. Dewitte says he cannot imagine that M. Gage would intentionally mislead the people of the United States and therefore can only conclude that the secretary is not possessed of all the facts in the case.

MUTINY IN GUAM.
MARINES REBEL AGAINST DISCIPLINARY MEASURES.
Theft of Whisky to Blame.
Wholesale Trials by Court-Martial Scheduled.
Said the New Tariff Has Stopped Trade in the Island and Starvation Menaces the People—Distress Is Widespread.
Manila, June 24.—The schooner Esmeralda, which arrived today from Guam, brings confirmation of the reports in circulation regarding the conditions of distress prevailing on that island. The new tariff stops trade and it is asserted the people will starve unless they receive government support.
Because of the theft of a barrel of whisky from the hospital stores and owing to his inability to discover the offenders, Commander Schroeder, governor of Guam, issued a proclamation limiting the prevalence of hoodlums, while on account of the punitive disciplinary measures adopted, seventy-five marines fled from the barracks to hide in the interior of the island. Seventy-two of these men were recaptured and were awaiting trial by court-martial when the Esmeralda sailed.

PORTUGAL'S KING IN MADEIRA.
Visit the First Made to the Island by a Reigning Monarch.
Funchal, Island of Madeira, June 24.—The king and queen of Portugal arrived here today. It is the first time any Portuguese monarch has visited the island. The town is gaily decorated and their majesties met with a hearty reception.
CATHOLIC SOCIETIES MAY UNITE.
Order of St. John, in Session at Cincinnati, to Consider It.
Cincinnati, June 24.—Fifteen thousand uniformed knights of the Catholic Order of St. John have arrived to attend the twenty-third annual convention, which began a four days session here today. Among the important questions to be considered are the amalgamation of all Catholic societies into a general organization and placing limitations on the number of terms allowed for national officers. The ladies auxiliaries also opened their meeting today. The business sessions of both orders were adjourned after the appointment of committees to allow the delegates to participate in the street parade this afternoon.

CALLES GETS BACK HIS SWORD.
Is Returned by Gen. Sumner When the Filipino Surrenders.
Santa Cruz, province of Laguna, June 24.—When General Calles, staff and 630 men surrendered today to General Sumner, Calles tendered his sword to General Sumner, who gallantly handed it back. General Sumner also handed back the revolutionists' flag, which General Calles will personally present to General MacArthur. General Sumner congratulated Calles on his surrender and the latter responded that it was a happy day for Laguna province. The former Filipino officers and the rank and file of the Filipinos took the oath of allegiance publicly on the plaza.
Frank Mekin, a deserter from the Thirty-seventh infantry, who has been acting as lieutenant with the insurgents under Calles and who also surrendered today, was placed in irons.

CUT IN SUGAR PRICES.
New York, June 24.—The American and National Sugar Refining companies reduced all grades of refined sugars 19 points and Arbuckles, today.
Washington, June 24.—The following is the weather bureau's forecast for Upper Michigan: Fair and cooler Tuesday; Wednesday, fair; variable winds.

MOB ROUTS POSSE.
BULLETS FLY IN THE WEST VIRGINIA COAL FIELDS.
UNITED STATES MARSHALS ROUTED.
ATTACKED WHILE SERVING NOTICE OF INJUNCTION.
Forced to Break and Flee, Barely Escaping With Lives, While Strikers Take Possession of the Passes Leading to the Mines.
Huntington, W. Va., June 24.—Today a posse of deputy United States marshals was fired on by strikers and forced to flee from the coal fields at Mewan. Yesterday afternoon the marshal began serving notices of the injunction issued by Judge Jackson. A mob of armed strikers followed the marshals from place to place, threatening them with weapons, while the women called down the vengeance of heaven upon them and children hurled stones.
When nightfall came the notice had been served on the strikers of all the coal companies except one at Thacker. Fearing an ambush the marshals waited until early today, when they set out for Thacker. When they attempted to serve the papers at the colliery one reckless fellow in the mob fired the first shot and instantly the mountainsides echoed and reechoed with the resounding response of twenty or thirty rifles. The deputies were forced to flee and barely escaped with their lives.
Sheriff Hatfield has withdrawn all the deputies because, it is said, he does not approve of the policy being used to down the strike.
A thousand strikers have crossed over into Kent county and are occupying the mountain passes, where they are out of the reach of the deputy marshals and command an entrance to the collieries.

FRENCH MARQUIS ON TRIAL.
Senate Sitting as the High Court in Treason Proceedings.
Paris, June 24.—The senate assembled this afternoon in the capacity of high court of justice to try Marquis De Lur-Saluces, a former member of the chamber of deputies, on the charge of complicity in the crimes of high treason and attempts against the safety of the state for which M. Lerouelle, Buffet, Marcel-Habert and Geroin were condemned. There was no excitement.
After rejecting pleas made by counsel for the marquis to the effect that the senate court was null because it was not composed of all the members of the senate, the marquis read a statement in the nature of a political indictment of the government, concluding in these words: "I see in this high court of justice, not judges, but political adversaries. You can punish me by force, but not by right."
M. Fallier then began his monologue in which he reviewed the charges against the marquis in a series of questions to which the marquis vouchsafed no word in reply. The trial was then adjourned until tomorrow. It is said the proceedings will be concluded on Wednesday.

WAR MEDALS FOR JACK TARS.
All Who Saw Service in the West Indies Now to Get Them.
Washington, June 24.—Acting upon the unanimous recommendation of the naval board of awards, Secretary Long today approved the designs for two medals provided for by congress to commemorate the achievements of the navy in the West Indies during the Spanish-American war. Of these two medals, the first is known as the battle medal and the second as the meritorious service medal.
In its report the board of awards points out that this battle medal is not for services rendered in any one engagement, but is intended for all the men who participated in the West Indian campaign. The board states that it has placed Sampson's head upon the medal because he was commander-in-chief of the West Indian squadron, as Dewey's was placed on the Manila medal. The reverse of the medal portrays an spirited scene on the gun deck of an American man-of-war in full action.
The meritorious service medal is for those who rendered distinguished service otherwise than in battle. It goes to such men as Holston and a few others. The design is a five-pointed star in open work, surrounded by a laurel wreath bearing the inscription: "United States navy, in the war with Spain, 1898." An anchor fits in the center of the star, the name of the recipient being engraved on the back.
Everybody who was in the West Indian campaign at all, in either the blockade or fighting, will get a medal of one kind or other.

SENATOR KYLE RALLIES.
Aberdeen, S. D., June 24.—Senator Kyle passed a comfortable night and is resting easier today. The physicians think he has a fair chance of recovery.
Senator Dubois Ill.
Hunter Hot Springs, Mont., June 24.—United States Senator Dubois is ill here. He came here two weeks ago, but his condition has steadily grown worse.

WEATHER FORECAST.
Washington, June 24.—The following is the weather bureau's forecast for Upper Michigan: Fair and cooler Tuesday; Wednesday, fair; variable winds.

SCOTT'S FIGURES RAISED \$600,000. Hancock's Valuation Is Put at \$2,400,000, the Same as Last Year.

The board of equalization yesterday raised the valuation of Hancock township \$600,000, adding this sum to the figures submitted by Supervisor Scott.

DONATION TO THE Y. M. C. A. Portage Lake Gentleman Gives \$500 on Terms That Are Accepted.

One of the largest contributions ever offered the Portage Lake Y. M. C. A. has just been made by a well-known business man who has always been a liberal contributor.

LAKE LINDEN THEIR MECCA. Annual Reunion Draws Many French People to Torch Lake. The French residents of the county were much in evidence at Lake Linden yesterday.

HAD A JOLLY OUTING. Sunday morning the clerks in Jacob Gartner's Hancock store and a number of invited friends went via a specially chartered car on the Copper Range road.

NEW MINES PLEASED HIM. Charles Hayden, of the firm of Hayden, Stone & Co., of Boston, who visited the Baltic, Trimountain and Champion mines last Saturday, was very favorably impressed with the properties.

DIDN'T MARRY FOR MONEY. The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health.

SMOKE... FLOR DE NICOLLET Famous Cigar. Michael Doyle has had plans and specifications drawn preliminary to the rebuilding of his large residence on Hancock street, West Hancock, which was damaged by fire a few weeks ago.

NEW SLOT MACHINES GOING IN. They Give Value Received, However, and Are Allowed Under the Law. An ingenious device has recently been placed in several of the saloons of Hancock in the shape of a slot machine.

COPPERDROM BREVITIES. The copper country branch office of The Mining Journal is located in Room 3, second floor of the De Postoffice building, Houghton.

MARRIAGE LICENSES WERE ISSUED YESTERDAY TO FRANK VIANI AND MARIA GROSSO, both of Calumet; John Arki and Maria Fortune, also of Calumet; Michael Hanley of Houghton and Nora Hefferman of Hancock; Arthur F. Raiehe and Libby Tourneur of Lake Linden; Roger G. Clason of Laurium and Blanche M. MacArthur of Pesquamee.

THE Houghton fire hall has been equipped with screen doors. Miss Mamie Fitzgerald of Duluth is visiting friends in Houghton.

THE Quincy band will furnish music at the funeral of Rev. Father Keller today. Mrs. Dr. W. J. Spencer of Houghton is entertaining Mrs. Dr. Andra of Chicago.

Rev. Father Pinton of Marquette is in Hancock to attend the funeral of Father Keller. A severe thunder storm visited the twin cities Sunday night. The rain was unusually heavy.

Mrs. Dr. Courtney of East Hancock, who has been seriously ill for some time, is improving. Miss Annetta La Vigne of Champion came to Hancock to attend the funeral of Mrs. Dr. Gardner.

Miss Alma Nyhus and brother, Louis Nyhus, of Calumet were the guests of Hancock friends, Sunday. The tug Hazel went up to the ship canal Saturday with a raft of square timber for the breakwater.

THE steamer Avon, of the Union Transit company, unloaded freight at the Copper Range dock yesterday. Thomas Munn, a Dollar Bay taxidermist, is displaying a fine mounted deer in a front window of the Hancock post-office.

A large glass in the front of Goggin's meat market, Sheldon street, Houghton, was accidentally broken yesterday morning. Miss Bertha Wright, daughter of Mr. and Mrs. E. L. Wright, who is attending college at Oberlin, is at home for the vacation.

THE Atlantic Foresters are thinking of erecting a building containing a public hall and thereby fill a long-felt want at the location. Miss Munn Scallon is home at Hancock from school at Washington, D. C., to pass the summer with her parents, Dr. and Mrs. J. E. Scallon.

Dr. George Gallen, Andrew Bram, August Pelt, Arthur Finley and Peter Richards have returned to Hancock from a fishing trip to Otter river. The big storm of Sunday night blew the wires down between Portage Lake and Marquette. Stock quotations were interrupted during the forenoon.

Michael Rourke, W. J. Dwyer and Simon and Edgar McDonnell are home for the summer vacation in Hancock from St. Thomas' college, St. Paul. A special car attached to the South Shore train will convey the funeral party with the remains of Rev. Father Keller of Hancock to Marquette this afternoon.

JAMES MacNaughton, the new manager of the Calumet & Hecla, accompanied by his family, arrived at Calumet from Iron Mountain Saturday afternoon. The entrances to the Douglas House have been equipped with handsome screen doors. The frames are quarter-sawn oak and match the beautiful woodwork.

day for her home at Negaunee. Next year Miss Wilcox will teach in Wisconsin.

Mrs. L. J. Wood closed the doors of the Tacoma restaurant Sunday evening. It was not because of lack of patronage, the business having flourished, but the continual illness of Mr. Wood was the reason. He is still at the St. Joseph's hospital and his condition is not materially changed.

A reception will be tendered to Secretary and Mrs. Willard H. Wing this evening at the Hancock Y. M. C. A. auditorium. The event will be under auspices of the Ladies' auxiliary and will commence at 7 o'clock. The committee on arrangements consists of the Misses Walker, Jones and Wright.

Thomas Carroll, Jr., was established in business by his father, Thomas Carroll, on the lad's thirteenth birthday, which goes to show that thirteen is not such an unlucky number after all. Mr. Carroll bought the confectionary stand on Pierce's corner, Hancock, Saturday and the boy will conduct it during vacation.

MARRIAGE LICENSES WERE ISSUED YESTERDAY TO FRANK VIANI AND MARIA GROSSO, both of Calumet; John Arki and Maria Fortune, also of Calumet; Michael Hanley of Houghton and Nora Hefferman of Hancock; Arthur F. Raiehe and Libby Tourneur of Lake Linden; Roger G. Clason of Laurium and Blanche M. MacArthur of Pesquamee.

TWO new sets of drop Yale harnesses from Kansas City have been set up in the Houghton fire hall and found to work satisfactorily. A new team of grays, weighing 2,800 pounds, will draw the hook and ladder truck, the old team being assigned to the hose wagon. The hook and ladder, recently ordered, will arrive in two or three weeks.

COPPER PRICES HOLD FIRM. Consumers Again Taking Large Quantities of the Red Metal. Current conditions in the copper market reflect the ability with which values are maintained at rates now prevalent.

AMERICAN manufacturers have taken a sensible view of the copper situation, comments the Boston Financial News, and have not been misled by the idea that the copper market rested on any flimsy foundation. The era of a new and tremendous demand for copper arose at the end of 1898. A simultaneous outburst of unprecedented consumption on both sides of the Atlantic began about that time and legitimate demand resulted in pushing the market for copper on a level where the industry of mining the metal was lifted to a plane of profitable enterprise.

EVERYBODY now understands that the amount of copper in the world is not another secret corner of the manufactured metal, piling up huge stocks at an ever-increasing loss of interest, and doomed to inevitable failure in consequence, but a far more astute and practical plan for controlling the production itself within the limits of effective demand. This has been rendered possible, and even easy by the fall in the world's stock of copper, from about six months' consumption, at which it stood at the end of 1889, to a little more than five weeks' consumption at which it now stands.

A very slight restriction in output of the American mines controlled directly by the Amalgamated Copper Company (supposed to represent two-thirds of the American supply of 270,000 tons per annum, or 180,000 tons) would reduce stocks in sight to a point at which consumers would inevitably take alarm, and would send prices up. It costs on the average about \$35 to make a ton of copper. The profit at \$70 a ton is \$35, at \$60 a ton the profit is \$25. Consequently it pays the mine owner better to sell 100 tons at \$70 than 140 tons at \$60, because the same total profit on the sale, he leaves 40 tons of copper still in the mine to be taken out and sold at the higher price at a future time.

Those who grasp this simple principle will perceive that the American copper combine differs essentially from all rings and corners in manufactured commodities, and those who wait for the ring to get tired of buying copper at a loss are likely to wait some time. Now let us see how far an increase of production from sources outside the ring, by overtaking demand, is likely to counteract the policy of the Amalgamated Copper company. Assuming that the production of the mines controlled by the ring is as above specified, 180,000 tons per annum (the average figures do not affect the principle) and that an increase from outside sources tended to bring the price from \$70—the present figure—down to \$60, it appears that it would pay the Amalgamated Copper company better to sell 100-140 of 180,000 tons, or, say, 128,000 tons at \$70, than 180,000 tons at \$60. In other words, rather than let the price go down to \$60, the combination could afford to reduce their output 52,000 tons per annum, and, unless the increase from outside sources exceeded this amount, it need not affect the price.

First, let us inquire what actually has been the effect in the year 1900 of it pays to get the "best." Heppner's pure ice cream. Heppner, Marquette.

They Speak for Themselves.... We let the shirts we wash and the collars and cuffs we iron, speak for themselves. They will talk louder than we can.

Small's Laundry, HOUGHTON, 'Phone 400. CALUMET. COME TO HANGCOCK ON THE FOURTH! Celebration and Street Fair. JULY 4, 5, 6. Three Days of Rare Sport, EXTREMELY LOW RATES ON ALL TRAINS. PLENTY OF MUSIC, LOTS OF FUN.

The Haas Brewing Co. ESTABLISHED IN 1859, Houghton, Mich. Recently equipped and expanded to the largest and most modern brewing plant in the upper peninsula Capacity, 200 bbls per day. Fine Table Beer Our Specialty: "WHERE DIRT GATHERS, WASTE RULES." GREAT SAVING RESULTS FROM THE USE OF SAPOLIO.

A NICKEL MINE. BETTER THAN A COPPER MINE. THE SULTANA NICKEL MINING COMPANY. The rapid growth in the demand for Nickel, especially in manufacturing Nickel Steel for use in naval construction, engine building, etc., and in all those uses of steel that require the maximum of strength with the minimum of weight, together with its increasing use in the ornamental features of manufacturing, as in sewing machines, stoves, bicycles, etc., allied with the known scarcity of nickel mines, has operated to double the market price of refined nickel within a very few years and the price still tends upward.

THE SULTANA NICKEL MINING COMPANY. The world's supply of nickel comes chiefly from two districts, one being New Caledonia, in the Pacific Ocean, and the other the Sudbury district, in the Province of Ontario, Canada, about 400 miles north of Cleveland, Ohio. In the Province of Ontario, the Sudbury district produced forty per cent of the world's consumption in 1898, and has increased that proportion since.

THE SULTANA NICKEL MINING COMPANY. The property which the Sultana Nickel Mining Company will take over embraces 2,332 acres of nickel ore property, on part of which four shafts have been sunk in doing development work, and many thousand tons of ore have been placed on the dumps or exposed to view. This ore, when reduced to matte, has a present market value of over \$25.00 per ton. A valuable town site and water power are situated on the property, and an ample supply of timber for mining purposes.

THE SULTANA NICKEL MINING COMPANY. This entire property, with a valuable plant of mine operating machinery, will pass to the Sultana Nickel Mining Company free of debt, with the exception of \$100,000, due in one, two, three and four-year payments, being the deferred purchase price on part of the property. The Sultana Company will be capitalized at two million dollars, divided into 200,000 shares of the par value of \$10 each.

THE SULTANA NICKEL MINING COMPANY. One-fourth of 50,000 shares of this stock and \$25,000 cash will be used for acquiring the property in its present state as a going concern. 150,000 shares will be placed in the treasury, from which 50,000 shares are now offered for public subscription at the low price of \$2.50 per share, par value \$10.00. It is confidently believed that no other sales of treasury stock will ever become necessary. And since three-fourths of the entire capital stock is treasury stock, the purchaser of each share acquires an additional interest of equal amount in the Treasury stock.

THE SULTANA NICKEL MINING COMPANY. From the proceeds of the sale of this stock \$25,000 will be applied on the purchase of the property, as already stated; \$25,000 will be used for the construction of a reduction works; and the remaining \$75,000 will be used for the further development of the Company's property. The reduction plant will have a capacity of 100 tons per day, and it is expected that it will be completed and in operation by January 1 next, by which time a sufficient body of ore for a three years' run of the plant will have been uncovered. The cost of mining and milling ore will not exceed \$8.00 per ton, which insures a profit, at present market prices for nickel, of at least \$2,000 a day for every working day.

THE SULTANA NICKEL MINING COMPANY. From this brief review of the history and condition of the enterprise it will be apparent that this enterprise is practically removed from the atmosphere of uncertainty, and the stockholders may reasonably anticipate very large dividends for years to come. It appeals most strongly to the conservative investor.

THE SULTANA NICKEL MINING COMPANY. Subscriptions to this stock are now invited, accompanied by ten per cent of the subscription price, for which negotiable receipts will be issued by the undersigned. Balance of subscription will be payable when the stock is delivered. The company will be incorporated under the laws of Canada, which are very favorable, and the stock will be full paid and non-assessable.

THE SULTANA NICKEL MINING COMPANY. Detailed expert reports on this property and all information desired will be promptly furnished.

John J. P. Odell & Co., INVESTMENT BANKERS, 902-3 Merchants' Loan and Trust Building, Chicago.

HANNA MEN RULE.

PROVE SUPREME AT OHIO RE-PUBLICAN CONVENTION.

NAME THE STATE COMMITTEEMEN.

FORAKER-KURTZ FACTION MAKES A LOSING FIGHT.

Old Division in the Party Again in Evidence and Attempts Will Be Made to Smash the State Bids Fair to Fail.

Columbus, O., June 24.—The Republican state convention convened at 4 o'clock this afternoon to nominate a state ticket and organize for the election of officers and members of the legislature, which will select a successor to Senator Foraker. There are 1,088 delegates.

Chairman Durr, of the state central committee, called the convention to order. Senator Foraker was introduced and addressed the convention. Then, after the appointment of the usual committees, adjournment was taken until tomorrow morning. The main interest is in the resolutions to be adopted and in the nomination of lieutenant governor. Governor Nash will be renominated without opposition.

Party Again Revisited. The attack upon Senator Foraker credited to Senator Hanna in a recent issue of the Cleveland Leader, has divided the party into the two old factions, and the Foraker-Kurtz men are determined to fight. Senator Hanna in an interview at his headquarters in this city today denied having made the statements quoted in the Leader. His denial has not healed the old wounds which have been reopened. A desperate fight will be made to beat the Hanna slate for two nominations for which there will be contests, those of supreme court judge and supreme court clerk.

There is also more than half a chance that Lieutenant Governor Caldwell, slated for renomination by the Hanna faction, will be shelved. Such action will probably not be taken in open convention, but the recent victories of the anti-saloon league in various parts of the state have made some of the leaders feel that it would be unwise to allow Judge Caldwell to run a second time. His chance of reelection depends entirely upon the position of George B. Cox, who controls the Republican machine in Cincinnati. If Mr. Cox will consent to the dropping of Judge Caldwell, he will be dropped.

First Blood for Hanna. Later—the contest for state committeemen tonight resulted in what is called a victory for the Hanna men, who include the friends of Governor Nash. The result assures the reelection of Congressman Dick as chairman of the state executive committee. The committee on permanent organization tonight selected Senator Hanna for permanent chairman and continued the remainder of the temporary organization.

The state candidate for judge of the supreme court is Judge W. B. Crew of Morgan county, but his opponents are already claiming that he is defeated. His most formidable opponents are Judge J. L. Price of Lima and Chief Justice Thaddeus Minshall of Chillicothe, who seeks renomination for a fourth term. A. B. Critchfield of Wayne county is the slate candidate for the supreme court clerkship. Newton Miller of Delaware, and Lawson Emerson of Belmont are his leading opponents and the field will probably unite against him.

Caldwell Pulls Out. Columbus, O., June 24.—Lieutenant Governor Caldwell caused quite a stir late tonight by announcing that he

would not be a candidate for renomination. This ended the conference that has been in almost continuous sessions the last two days. There is talk tonight of State Senator Carl Nippert of Cincinnati being nominated for lieutenant governor.

The committee on resolutions completed its work late tonight. The platform reaffirms the Philadelphia declaration and endorses the administrations of President McKinley and Governor Nash. It commends the records of Senators Foraker and Hanna, with a specific recommendation of the former for reelection. A liberal administration of the pension laws is demanded. Disfranchisement of the colored voters in the South is denounced, and also the lynchings.

Senator Foraker's Speech. In calling the convention to order this afternoon, Senator Foraker, temporary chairman, said: "Our approaching election will be the most important held this year in the United States. It is but a state election in name, but it will be distinctly national in both character and importance.

McKinley's Policy Involved. "The legislature chosen this year will be charged with the duty of electing a United States senator and redistricting the state for representation in congress. It is this fact that gives the campaign upon which we are entering its national character, and thrusts upon us, whether we would have it so or not, the discussion and consideration of national policies and national questions, and it is for this reason that every vote cast in our state next November will be a vote for or against the administration of William McKinley, just as certainly and emphatically as though he were again our candidate this year, he has last, for we must of necessity, by the action we give him in his work and give him encouragement or dishearten, and we must of necessity, by his first administration was triumphantly successful, but it could not have been so had it not been supported by a Republican congress. His second administration can be, and will be, even more illustrious than his first if we give him that same support, but it cannot be, and will not be so, if we withhold it.

"We are beset with new and untried difficulties. We have had a war. We have changed the map of the world. We have acquired new territories, and with it have come to us new duties and new responsibilities. We have assumed them, and must faithfully discharge them or stand discredited before the nations. The Republican party has an intelligent policy on this subject. It has been proclaimed to the world. We have acted upon it. We have legislated to carry it into effect. We are executing it with successful and triumphant results. It should have universal support, but instead it has fierce opposition. It was attacked last year as unconstitutional. The supreme court has answered that assault and now they are attacking the supreme court.

Scores Bryan and Tillman. "Mr. Bryan declares that his decision in the Porto Rican cases is as infamous as the decision in the Dred Scott case, and calls upon Democrats everywhere to rally for its overthrow. Senator Tillman denounces it as damnable, and says that we are to have a battle to the death before it is finally accepted. Other Democrats, great and small, say it means the end of the republic; that McKinley is emperor; that our liberties are lost; and all join in declaring that the next political contest will be as to whether this decision shall stand. If they make such an issue we can afford it. It will be the president, the congress, and the supreme court—all the departments of the government on one side, and the Democratic party and its allies on the other. It will not be the first time we have had such an alignment of forces, and always heretofore, patriotism and Americanism will triumph.

"All we have done in Porto Rico has been authorized by the constitution and has been done not to oppress the people of that island, but to generously and bravely emancipate them from burdens they were unable to bear, and thus aid and encourage them in an effort to establish industries, develop agriculture, make useful public improvements, inaugurate systems of education and lead on by gradual and safe approaches, to order, prosperity and the assimilation of American ideas and American institutions. What the supreme court decided was that all this was within the power of congress, and that it must be upheld and enforced. That decision will never be reversed. Men may denounce it and rave about it, but as the years go by its wisdom, beneficence and sound judgment will stand out more and more conspicuously.

"The great work of the hour is the establishment of a stable and successful government in the Philippines. Had the Democratic view prevailed this would have been impossible. The way is now clear and well defined. We can go forward intelligently.

Prosperity at Stake. "This is not a mere political matter. It is also a practical business question, affecting all classes of the American people, and no class more directly than our wage workers. We have reached a point in our industrial development where we produce more than we consume. We must find markets for the surplus, or quit producing it. We cannot restrict without cutting down the pay rolls. That is one thing the Republican party never shies, but always lengthens. We can get partial relief by tariff revision and reciprocity treaties with European and South American countries, but the great markets of the world are in the far East. We want our fair share of them, and intend to have it, and the way to secure it is not to haul down the flag and run away, but to remain and hold on to the position, the prestige, the advantage and the opportunities that we now enjoy.

"When men talk about overthrowing the supreme court decisions in the Porto Rican cases, they are striking also at the Philippines and are raising issues that not only affect the vital character of our government but also affect the wages of every man in United States who eats his bread in the sweat of his face. It seems surprising that any party could take such a position

(Continued on Page Five.)

VALLEY IS IN RUINS.

(Continued from Page One.)

side loom up hundreds of feet. Persons familiar with the situation of the town say it would be a death trap if the flood was as heavy as reported. All reports agree that between two and three hundred houses were swept away in the Elkhorn valley, but of course not all the occupants were drowned.

J. W. Crotty, a fireman on the Norfolk & Western road, who resides in this city, received a message yesterday from Bluefield saying that his father, mother, sister, two brothers and sister-in-law with her two children had been lost. Crotty's people lived in the center of town. The Western Union Telegraph officials say tonight that the situation, as far as general news from the territory west of Bluefield is concerned, is unchanged and that they have nothing new to give out.

Statement of Eye-Witness.

E. H. Stewart, a well-known furniture dealer of this city, was on the night of the storm and traveled on foot nearly the whole route devastated. Stewart had been at Jamestown, N. Y., on business and was returning via Columbus. When the train reached Vivian, Va., about 9 o'clock Saturday morning, the water already covered a large portion of the yard and the trainmen knew no further progress could be made. The train was placed at the highest point in the yard, the rain coming down in torrents. While in the train Stewart saw about thirty cars washed from the yard, carried away by the rushing torrents, while large trees were uprooted near by and houses, bridges and furniture went whirling down the valley.

As the flood increased the water cut a channel on the other side of the train, leaving it between two streams. Then it was decided to take out those passengers who wished to leave the train and a rope was attached to the platform of one of the cars and a tree on the bank. Among the passengers was a lady, who, with the assistance of several men, was gotten safely to the bank. A number of men had narrow escapes from drowning in making the trip. The flood subsided about 9 o'clock p. m.

Estimates the Dead at Forty.

At 1 o'clock yesterday Stewart and another passenger left the train and started to the next station, Keystone, five miles distant. The trip was made with great difficulty, a portion of the way on the track and the balance on the bluffs along the route. Stewart says he saw a number of corpses along the route, but does not think more than forty people were drowned.

When he reached Keystone, about 3 o'clock, he found a number of buildings had been washed away and it was estimated that about the same number of persons had been carried away, but the occupants of many escaped to the hills. At Ennis the depot was washed away, and yesterday when Stewart left the safe had not been found. He walked from Keystone to Ennis and was taken from there to Bluefield, arriving in Roanoke today. Stewart's statement can be relied on as a truthful story; it is the most complete statement so far given out.

An official telegram from Ennis says the water came in a wave so suddenly that some people could not get out of the way. The water rose to a height of six feet in thirty minutes.

GOVERNOR ISSUES APPEAL.

Aid for the Sufferers in the Flooded District Is Asked. Charleston, W. Va., June 24.—Governor White and General Baker arrived here from Parkersburg today. While there has been no demand upon them for troops either on account of the miners' strike or to prevent looting in the storm-stricken district, they are taking steps to provide for any emergency which may arise.

This evening General Boggs, private secretary to the governor, left for the Pocahontas district to examine into the conditions, but probably will not reach the district until late tomorrow. It is generally hoped around the state house that the effect of the calamity will be to quell the miners.

DELUGE FALLS AT DULUTH.

Rainfall of 2.3 Inches Is Experienced—Storm Severe at Ashland. Minneapolis, June 24.—Reports have been received here of heavy storms throughout this section. At Spearfish, S. D., two hundred sheep were killed by hail.

At Duluth 2.3 inches of rain fell this morning, and several washouts on the railroads are reported. At Ashland, Wis., the worst electric storm ever seen there swept over the city.

Valley City, N. D., had a severe storm, the lightning doing great damage. At Ada, Minn., three and one-half inches of rain fell in a short time, greatly damaging the crops.

FLOOD HAVOC IN NEW YORK.

Bursting Reservoir Near Berlin Spreads Damage through the Village. Utica, N. Y., June 24.—A rainfall approaching a cloudburst caused at least \$30,000 damage to New Berlin Saturday night. A reservoir a mile west gave way and its contents swept down on the village, breaking in the doors and windows of business places and sending the inmates to the upper stories. The basements and lower floors of every business place in the village were flooded, and several buildings moved from their foundations. The loss to crops and fruit in the country will be enormous.

CLEVELAND FLYER WRECKED.

Runs Into an Open Switch Near Pittsburg—Two Dead; Many Hurt.

Pittsburg, June 24.—The Pittsburg & Lake Erie train No. 23, known as the "Cleveland Flyer," was wrecked at Monaca, a few miles west, this evening, two persons being killed, three fatally injured and nearly forty others being hurt.

The dead—J. W. Cunningham, fireman; Larry Black, baggage-master. Fatally injured—Mrs. Lola B. Perkins, Cleveland; Mrs. James Lee, Washington, Pa.; Mrs. Jefferson Carse, Beaver, Pa.; Mrs. H. H. Semmons, Kittanning, Pa.; seriously, William Welsh, Youngstown; Thos. B. Warner, Toronto; Rev. J. L. Milligan, Allegheny; Mrs. Harry H. Neill, Monaca; A. K. Young, Pittsburg; A. S. Miller, Beaver Falls; Dr. H. A. Zeimernann, Youngstown; Mrs. Zeimernann; J. J. Hamilton, Youngstown; R. D. Rainey, New Castle; Mrs. Dasy Kitzer, New Castle; William Hubbard, baggage-master; Own B. Reed, Garrettsville; Peter Kimberley, Sharon; Edward Wittich, Beaver; Fred Houston, Beaver; Frank Howard, Youngstown; W. J. Carry, Volant; O. F. E. Painter, Oakdale, Pa.; Mrs. D. M. Alford, Canonsburg; Margaret Brewster, Canonsburg; Harry Ball, Columbus; Richard Morgan, Pittsburg; C. H. Struble, Pittsburg; H. M. Glingler, Pittsburg; Rev. A. D. Gavin, Pittsburg; Mrs. Lola B. Perkins, Cleveland; W. W. Stephens, Cleveland; Miss Lucy Rose, Cortland; O. Miss May Church, Cortland; R. L. Martin, Lisbon, O.; James Brown, engineer; M. M. Jordan, New Castle.

From passengers it is learned that the train was running at the normal speed on an open switch and the entire train went over an embankment twenty-five feet high. Every car turned over, two rolling over twice.

The relief train which conveyed a corps of physicians to the scene has just returned here with the dead and another train has been sent to the scene, giving currency to a report that many more were hurt than has yet been made known.

Wreck on the Great Northern.

Minot, N. D., June 24.—A heavy wind storm at White Earth today blew two box cars from a sidetrack onto the main track. The Great Northern flyer west bound ran into the cars and part of the train jumped the track. It is said two trainmen were killed and several passengers injured. The wires are down and particulars are unobtainable.

TAKING BODY TO CLEVELAND.

Secretary Hay Leaves New Haven With the Remains of His Son. New Haven, Conn., June 24.—Hon. John Hay, with Mrs. Hay, the Misses Hay and Clarence Hay, together with the remains of Adelbert S. Hay, left this afternoon for New York. The party occupied two private cars.

New York, June 24.—The party accompanying the body of Adelbert S. Hay arrived in this city from New Haven at 9:15 o'clock this evening. Fifteen minutes later the two coaches in which they are traveling were attached to the Western mail train and proceeded to Cleveland.

DINES WITH THE PRESIDENT.

Mrs. McKinley Down Stairs for First Time Since Return from West. Washington, June 24.—For the first time since she was brought home from California in feeble condition, Mrs. McKinley today was able to go down stairs and join the president at luncheon. Her general condition continues favorable. Dr. Rixey said tonight she was improving steadily.

BASEBALL SCORES.

Table with columns for League, Team, Score, and Innings. Includes American League and National League games.

College Games.

Table with columns for Location, Score, and Innings. Includes Philadelphia, Cincinnati, and other college games.

DELUGE FALLS AT DULUTH.

Rainfall of 2.3 Inches Is Experienced—Storm Severe at Ashland.

Minneapolis, June 24.—Reports have been received here of heavy storms throughout this section. At Spearfish, S. D., two hundred sheep were killed by hail.

FLOOD HAVOC IN NEW YORK.

Bursting Reservoir Near Berlin Spreads Damage through the Village. Utica, N. Y., June 24.—A rainfall approaching a cloudburst caused at least \$30,000 damage to New Berlin Saturday night.

LEGATION APPOINTMENTS.

Washington, June 24.—The president today made the following appointments: Chandler Hale, Maine, to be secretary of the legation at Vienna, Austria.

CAPTURED BANDIT CONFESSES.

Dallas, Tex., June 24.—Gregorio Cortez, the Mexican captured near Laredo, charged with killing two sheriffs and a member of the posse ten days ago, was brought to San Antonio this morning and placed in jail. He admits his identity and acknowledges the crimes.

Model Rail-Making Industry.

A 600-ton rail mill will be in running order this year. Its two five-ton Bessemer converters are already swung, and its rolls and machines are going in. The buildings are all of stone, a beautiful sandstone. All the works of the company are built of this material, and its foundations are all concrete.

BOON FOR THE SOO.

VAST PROJECTS UNDER WAY ON THE CANADIAN SIDE.

MEAN A LAVISH EXPENDITURE.

CLERGUE POOL SPENDING MILLIONS IN UNDERTAKING.

Iron and Steel Mills, With Railroads and Steamer Lines, Features of the Scheme the Dominion Government Is Fostering.

Sault Ste. Marie, Ont., June 24.—The vast industrial development that has been going on at the lower end of Lake Superior is progressing with remarkable vigor and rapidity. Millions are spent—already the investment amounts to more than \$12,000,000, and the plans entered upon call for additional expenditure of nearly as much.

In many ways it is the most striking development under way in America. The entire superstructure of industry is based upon the water power of Lake Superior and the undeveloped resources of the wilderness surrounding this point upon the Canadian side of the boundary. In its possibilities the development in progress is the most important to Canada since the construction of the Canadian Pacific road; the great works at Sydney and on the Belle Isle coast being not comparable in ultimate effect upon the Dominion and competitors. The people of Canada realize this fact, and they have backed the government, even pushed it along, in the grants made to the companies that are working here.

Liberal Government Bonuses.

A year ago these grants included 2,500,000 acres of selected land, some cash subsidies and timber and other contracts. Now these grants have been increased by 3,000,000 acres of land, \$1,000,000 in cash subsidy for railway construction, more contracts and the purchase of between four and five million dollars' worth of steel, covering a period of five years. If these companies shall require more incentives, there is no important matter yet manifested that will deny them, providing the demands appear to be reasonable, and for the actual development of natural and now untried resources.

It was no small thing when these companies practically preempted the entire water power of Lake Superior. One of the utilities of the railroad and other works. The Helen mine road was a pretty tough looking line, which was natural, as it was just completed and through a wilderness. Now all is changed. The road has been practically rebuilt, and work that on most lines would have waited for years has already begun. The damming of the river is solid filled, the timber bridges are replaced by girder bridges and concrete piers and abutments, the ditches and culverts are of concrete, steel and masonry, and the track is laid with eighty-five pound steel. There is a large equipment of fifty-ton cars and 110-ton locomotives, and the equipment has a finished and permanent look that is most remarkable.

ANNEXATION TO CALIFORNIA.

Novel Plan for Solving Hawaii's Political Difficulties Suggested. Honolulu, June 16, via San Francisco, June 24.—According to the Volcano, a weekly newspaper here, President David Starr Jordan of Stanford University has suggested a novel plan for solving the political difficulties of the island. Jordan favors annexation of Hawaii to California as a congressional district.

Blast Furnaces and Steel Mills.

Within the past few days a contract has been let to the Ritter-Conley company of Pittsburg for the erection at the Sault of two charcoal or coke blast furnaces of 150 tons daily capacity each. These are to be followed by two more. All will furnish iron for the Bessemer plant, and the rail mills now nearing completion. This single plant will make more charcoal iron, if run on wood fuel, than is now manufactured in the States of Michigan and Wisconsin. It will consume an enormous quantity of wood. Every day twenty-five acres must be denuded and six hundred tons of charcoal produced. Not far from a thousand men must be steadily employed cutting the forest for these furnaces. Nowhere else in America is there under single ownership sufficient woodlands to warrant such an undertaking. But this company has in its grants wood for the continuous operation of its kilns for a generation.

CENSUS OF CONSUMPTIVES.

New York State Board of Health Decides on an Important Step. New York, June 24.—In a few days Dr. Daniel Lewis, commissioner of the state board of health, will begin taking a census of the consumptives in this state.

Model Rail-Making Industry.

A 600-ton rail mill will be in running order this year. Its two five-ton Bessemer converters are already swung, and its rolls and machines are going in. The buildings are all of stone, a beautiful sandstone. All the works of the company are built of this material, and its foundations are all concrete.

ATTENTION TRAVELING MEN!

shortly. This will treat pyrrhotite ores from the company's Sudbury mine, for the extraction of the sulphur. A sulphuric anhydride plant is going up; a sulphite pulp mill is completed and is now being connected with the ground-wood pulp mill, so that the products of the two can be mixed and sold as a mixed sulphite product, and all the works based upon pulp wood and pyrrhotite will be in operation, it is expected, in a few weeks.

Work on the No. 3 canal, the second on the Canadian side of the line, was started in order to provide stone for the steel mill, and the canal bed forms a convenient quarry. This canal will be nearly as large as that on the American side and will furnish 40,000 horse-power. Its users will be metallurgical, and a great refinery for the treatment of ores of copper and other Canadian minerals will be erected. It is expected to treat ores from the far West as well as those that may be mined near at hand. The power-house for this canal will be at the lower end of the works, and for half a mile below its waste weir there will be docks and terminals for the various transportation enterprises connected with the operation.

Boat Lines and Railroads.

These transportation enterprises are large. They now include the Algoma Central Steamship line, now running four large freight steamships and two consort, and several passenger boats connecting the several locations of the enterprise. There is the Algoma Central railway, designed ultimately to run to Hudson Bay, and immediately to the Canadian Pacific line, 130 miles north from the Sault. This line is completed for forty miles, and contracts for nearly 100 miles more have been let. The Helen mine road is completed to that mine, twelve miles back from Lake Superior and 125 miles north of the Sault, and is being laid to the newer Josephine mine, eleven miles farther inland.

Harbor and dock facilities for ore shipment are to be greatly increased immediately by the addition of a large number of ore cars and the building of storage tracks at the dock. The mining equipment is being enlarged by a second ore crusher, now under way, by a steam shovel for loading at the mine, and by stock pile room for extensive winter mining. At the Helen mine there is now a cubic ore body shown up by drilling and explorations that is approximately 1,000 feet by 400 by 200. If all this cubic ore is there is a tremendous mine. The Canadian geological survey regards it as commensurate with the amount with the great deposits of Minnesota and Michigan. A year ago there was much doubt expressed, and some lake mining men went so far as to say there were not over 1,000,000 tons there, and that it was all sulphur. The appearance of the mine today does not bear out these pessimistic ideas.

Reil Line Well Built.

From that time to this there has been a wonderful change, too, in the appearance of the company's railroad and other works. The Helen mine road was a pretty tough looking line, which was natural, as it was just completed and through a wilderness. Now all is changed. The road has been practically rebuilt, and work that on most lines would have waited for years has already begun. The damming of the river is solid filled, the timber bridges are replaced by girder bridges and concrete piers and abutments, the ditches and culverts are of concrete, steel and masonry, and the track is laid with eighty-five pound steel. There is a large equipment of fifty-ton cars and 110-ton locomotives, and the equipment has a finished and permanent look that is most remarkable.

CHINESE FOR SOUTH AFRICA.

Cecil Rhodes Plans for Cheap Labor but Is Vigorously Opposed.

London, June 24.—Cecil Rhodes is coming to England next month to secure the sanction of the imperial government to his scheme for importing Chinese labor into South Africa. The famous empire builder will attempt to persuade his majesty's ministry that it is economically necessary to recruit South African mining interests for the losses incident to the war, and that cheap labor is one of the sources of recovery to which they will be compelled to turn.

Mr. Rhodes will have to depend on his own persuasiveness, and the influence of his friends at court to win imperial endorsement for his project, which is opposed by the government of Rhodesia as well as by that of Cape Colony. The miners of South Africa are solidly arrayed against it. They have resorted to violence, in several instances, in order to exclude their yellow competitors. They threaten to invoke it further in case of emergency.

NEW GIANT OCEAN LINER.

Keel of a Steamer That Will Be 707 Feet Long Laid at Stettin.

New York, June 24.—Another giant of the sea is to take form at Stettin for the North German Lloyd, and there are indications that she will prove a formidable speed rival of the great Hamburg-American liner Deutschland. The new racer is to be the Kaiser Wilhelm II. While the Celtic exceeds the proposed tonnage of the Kaiser Wilhelm II, the latter will be even longer than the White Star's latest leviathan. The Celtic is 700 feet long. The Kaiser will be 707 feet. The latter will have a beam of seventy-two feet and a molded depth of forty-two feet. The tonnage is to be 19,000. Her engines will be quadruple expansion, built on the Schlick system, and it is safe to say the new liner will closely approach, if she does not equal, the twenty-four knots that shipbuilders have yearned to accomplish.

Captain Heinrich Engelhart, commander of the North German Lloyd steamer Kaiser Wilhelm der Grosse, now in this port, and commodore of the North German Lloyd fleet, will superintend the construction of the great liner. On arrival of the Kaiser Wilhelm next trip eastward Captain Engelhart will turn the command of the Kaiser Wilhelm der Grosse over to Captain Hoegemann of the Holtenollerer, and will hurry to Bremen, where the keel of the Kaiser Wilhelm II. has already been laid.

CHRISTIAN SCIENCE SERVED.

Dr. Dixon of Boston Again Criticizes the Teachings of Mrs. Eddy.

Boston, June 24.—The Ruggles Street church was crowded to the doors at the morning service by persons desiring to hear the Rev. Dr. A. C. Dixon's sermon on "Facts About Christian Science." Dr. Dixon explained the reasons for his sermon on Christian Science to be a challenge from the Boston press agent of that sect to an incidental statement in a recent sermon on evangelization, that Christian Science was the greatest humbug of the country, and added: "It is a fact that Christian Scientists are not so numerous as they claim to be. It has been widely circulated that there are now millions of members and adherents. The fact is, only 210,000 copies of the book, 'Science and Health,' which every Christian Scientist must own, has been sold, and thousands of copies have been bought by those who have no sympathy with the cult.

"It is a fact that Christian Science impresses one who knows its inner workings as a scheme for enriching its founder and her agents. Mrs. Eddy is the best manager of a great book concern I have ever known. "Christian Science debunks the God of the Bible, and would put in its throne an impersonal thing which it calls principle, love, life, and truth, but it is principle without a personality, love without a lover, life without a living being, and truth without a conscience.

LONG RACE BY PIGEONS.

Brussels, June 24.—A pigeon race today from Burgos, Spain to this city, was won by a Belgian bird in fourteen hours. The distance is about 700 miles.

PROMINENT CAPITALIST DIES.

Kansas City, June 24.—Webster Withers, aged sixty, a prominent capitalist, died today from Bright's disease.

MARINE MATTERS.

Passed the Canal. Sault Ste. Marie, Mich., June 24.—(Special)—Up—Aurania, 8:30 p. m.; Zekawama, Codorus, 11:20; Bulgaria, Algeria, 1:40 a. m.; La Salle, Marcia, 3; Italy, 4:30; Fay Brown, 5; China, 6:30; Harvey Brown, 8:20; City Bangor, 10; Northern Wave, 11:20; Appomattox, Santiago, noon; Presque Isle, Kalyuga, 1; Advance, 1:30; City of London, Yakima, 2; Alva, Nicholas, Mahoning, 4:30; Prentice, Halseed, Middlesex, 5; Watt, Jenney, 6:30 p. m.

Marine Notes. The China was in port yesterday, bound up. The Business is discharging a cargo of coal in the lower harbor.

The Falcon is receiving a cargo of pig iron in the lower harbor. She has just finished discharging a cargo of rails for the Marquette & Southeastern road at the Presque Isle harbor.

CITY BREVITIES. Today's weather: Showers and thunderstorms; brisk to high southerly winds. Yesterday's temperature: 7 a. m., 60 degrees; noon, 67 degrees; 7 p. m., 67 degrees. Maximum, 72 degrees; minimum, 60 degrees.

P. F. Small was down from Ishpeming yesterday. Miss Gem Sherman arrived home from Ann Arbor yesterday.

Nels Majhanna of Michigan was in Marquette yesterday. There will be a dance at the pavilion at Presque Isle this evening. It has been arranged by a number of the young men.

The Woman's auxiliary to the Brotherhood of Locomotive Engineers will meet Wednesday afternoon at 2:30 o'clock.

The unfavorable weather yesterday broke up immemorial picnic and outing parties and was responsible for many disappointments.

County Clerk Ross has issued marriage licenses to Charles H. Pascoe and Ida M. Davis of Ishpeming and George H. Kemper and Barbara E. Zryd of Marquette.

Miss Rachael Schryer, preceptress of the eighth grade at Ishpeming, is in Marquette visiting F. H. Begole and family. She is on her way to her home in Flint.

The hearing in the proceedings looking toward the condemnation of the Long-year realty in North Marquette has been postponed until Wednesday morning, when it will be resumed at 9 o'clock.

The wedding of Gustave Varebrooks and Miss Blanch Meyers will be celebrated at St. Peter's cathedral Wednesday morning at 11:15 o'clock, instead of at 9, as before announced.

St. Joseph's academy will have its commencement exercises in the opera house Wednesday evening. They will be attended by a large assemblage of relatives and friends of the five graduates.

Charles Johnson, who has been in the employ of James Rickman in the Nester block barber shop, has taken charge of the shop and will be open for business this morning. He will be pleased to see all his old friends and many new ones.

At a recent meeting of the A. O. H. the following officers were elected for the ensuing year: President, John Dwyer; vice president, Martin Higgins; recording secretary, Thomas P. Carey; financial secretary, Peter Harv; treasurer, Joseph Mack; sergeant-at-arms, John E. Powers; door keeper, Ed Brennan.

Anent Edward H. Frye's presentation of David Harum on July 5, the following is of interest: "On July 16, 1898, Dear Sir—I take pleasure in saying that Mr. Frye gave very general satisfaction. Mr. Frye is a strong man in his line of work and we shall undoubtedly try to have him come back another season. Yours very truly, James K. Norris, General Secretary."

In the recent annual prize contest between several of the eastern colleges connected with the Episcopal church, all first prizes were awarded to Hobart college, Geneva, N. Y., a near neighbor of the Cornell university. The first prize in English, sophomore division, was taken by Thomas Victor Williams of Marquette, a member of the Class of '03. Mr. Williams has also become a member of the athletic council of his college and he has won an "H" by his prowess at lacrosse. Robert E. Jones, D. D., formerly of Kalamazoo, is the president of Hobart. The professor of mathematics is Dr. Durfee, formerly of the U. of M., a brother of Judge Durfee of Detroit. Hobart's courses are exceptionally fine and the college is rejoicing in brand new buildings.

Kindles anew the fires of youth. It's the head of the works. The main spring of life. Rocky Mountain Tea made by Madison Medicine Co. 35c. Stafford Drug Co.

IF YOU were to bump your head against a brick wall you could not feel worse than does anyone who suffers from stomach troubles. We have a positive cure in Dr. Caldwell's Strychnine Pepsin. The Stafford Drug Co.

A GOOD THING. German Strychnine is the special prescription of Dr. A. Bosche, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of forty years, giving satisfaction in every case, with its rapidly increasing sale every season confirms. Two million bottles sold annually. Bosche's German Strychnine was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. The doses will relieve any ordinary cough. Price 75 cts. Get Green's Prize Almanac. The Stafford Drug Co.

HANNA MEN RULE.

Continued from Page Four.

and yet it is just like the Democracy party to do so, for during the last fifty years it has never conceded to the general government any disputed power, nor struck one lick for labor. It denied the power to preserve the Union. It denied the power to abolish slavery. It denied the power to reconstruct. It denied the power to protect our industries. It denied the power to establish the gold standard and now it denies the power to hold possessions, and govern them according to common sense, although the constitution itself expressly so provides.

Long the Enemy of Labor. "As to labor, although constantly posing as its friend and champion, the Democracy party has been at all times its inveterate Nemesis. It was the enemy of the laborer in the manner in which it intended to do or manage their business. The Sherman law does not go far enough in this respect."

CRITICISES GENERAL BULLER. Capt. Slocum, Military Attache, Reports on the Boer War.

Washington, June 24.—Captain S. L. H. Slocum, of the Eighth cavalry, who was United States military attache with the British forces in South Africa, has just submitted a report to the war department on the operations of the British in the war with the Boers.

General Buller's slowness is criticised, and Captain Slocum asserts that had he advanced and struck north into the Transvaal until he reached the Delagoa Bay railroad, he would have cut the Boer line of retreat and caused the surrender of President Kruger and the Boer forces. The situation was most desperate for the British in December, 1899, and had the British assumed offensive operations, which, however, they invariably failed to do, they would have placed the English armies in great jeopardy.

Captain Slocum expresses the opinion that the American cavalry is the best fitted in the world to deal with modern warfare, and especially in dismounted operations. He says his highest tribute to British courage, declaring that "Tommy Atkins" is brave to a fault. The British lack caution, however, and this defect was responsible for their failures to gain more victories. Lord Roberts, he says, is a shining and glaring exception to this rule. "All in all," he adds, "I consider him to be a remarkable general."

Many instances where caution was not observed are referred to by Captain Slocum. He saw mounted men, waiting for orders to advance, sitting erect, making perfect targets for the rifle at short range. "They have not the individuality and resources of our men," Captain Slocum says, "but for indomitable courage, uncompromising fortitude and implicit obedience they are beyond criticism." At the same time, Captain Slocum admits that the automatic guns used by the Boers were regarded with wholesome dread. General Cronje's defense receives high praise.

Attention is called by Captain Slocum to the advantage of the automatic pistol, which can be used either in the hand or aimed from the shoulder like a rifle.

The British were successful in the use of their balloons. It usually ascended 2,500 yards from the Boer ranks, and obtained valuable information, especially making perfect targets for the rifle at short range. "They have not the individuality and resources of our men," Captain Slocum says, "but for indomitable courage, uncompromising fortitude and implicit obedience they are beyond criticism." At the same time, Captain Slocum admits that the automatic guns used by the Boers were regarded with wholesome dread. General Cronje's defense receives high praise.

Automobiles have attained a distinct position in modern warfare according to Captain Slocum. "Such vehicles, well manned," he says, "have slow moving infantry at their mercy."

GRAIN PRICES RECEDE. Close Lower All Around After Ruling Fairly Strong.

Chicago, June 24.—Trade in wheat was dull today and largely local. Early the feeling was steeper, influenced by the cables, but the regular routine statistics were accepted as bearish and a weaker feeling developed later in the day. The final figures show July off 1/2c and September down. Liverpool spot was 1/2c lower, with futures 1/2c higher.

Favorable harvesting weather in the Southwest was one of the bearish factors, but there were reports of too much rain in the Northwest. The late feature was selling of July and buying of September, the latter advancing 1/2c premium. The visible showed an unexpectedly large decrease—2,227,000 bushels.

Corn was fairly active. It was quite stronger and higher early, but later the trade became small and the prices receded. July closing unchanged and September 1/2c off. Hot weather was the main motive early, and at the advance there was free realizing. The cables were better at Liverpool spot gaining 1/2d and futures 3/4c. The visible demand was quiet and the sales small.

Oats were stronger, 1/4c higher earlier, but broke with other grains, the market closing steady and about 1/2c lower. The visible decreased 231,000 bushels.

The leading futures ranged as follows: September wheat opened at 66 1/2; highest, 67 1/2; lowest, 66 1/2; closing, 66 1/2. September corn opened at 44 1/2; highest, 45 1/2; lowest, 44 1/2; closing, 44 1/2.

Receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 21,000 18,000 Wheat, bushels, 116,000 336,000 Corn, bushels, 109,000 179,000 Oats, bushels, 213,000 263,000

STOCKS DEPRESSED. Trend Is Downward in a Lagging Market Ruled by Professionals.

New York, June 24.—The stock market maintained its waiting attitude today. The smaller class of room traders were disposed to sell the market this morning on the disappointing showing made by Saturday's bank statement. St. Paul and Union Pacific were the most conspicuously affected by this selling, as being most likely to prove vulnerable on account of the recent considerable spec-

ulation in these stocks. A small number of stocks had considerable movements on individual hands, but in these also the professional hand was seen in quick realizing sales.

Norfolk & Western was sold down after the opening on the score of damage to the property by the West Virginia flood. New York Central showed some strength on vague talk of a coming declaration of some rights for stockholders. Illinois Central was confidently bought on the general consideration that it is low in proportion to other grain-carrying roads. There was a sharp advance of 1/2 points in Minneapolis, St. Paul & Sault Ste. Marie preferred without explanation. Minneapolis & St. Louis dropped back on realizing.

The market closed semi-stagnant, with net losses predominating. Paine, Webber report final closing prices as follows:

Table with columns for stock names and prices. Includes Am Zinc, U S Oil, Cent Oil, etc.

*Asked. BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Table with columns for copper stock names and prices. Includes Advce, Arc, All, Ard, Atl, B & M, B & B, C & H, etc.

Saturday's sales on the Boston stock exchange, in shares, were in part as follows:

Table with columns for stock names and sales figures. Includes Adventure, Allouez, Arcadian, Atlantic, Amal Copper, etc.

* Asked. + Bid. MILWAUKEE-DOWNER COLLEGE, MILWAUKEE, WIS.

Throughout the country there has been a rapidly growing interest in Milwaukee-Downer College. This institution occupies the unique position of being the only college for women exclusively in the great state of Wisconsin.

In addition to its offering a broad and thorough course of college work, from any year of which a student may pass to the higher in other colleges, and the fact that on its diploma a life certificate for teaching in Wisconsin may be issued, it provides a beautiful home in which the utmost attention is paid to the best and most wholesome conditions of physical well-being, as well as to the social culture and more.

The importance of surrounding the life of a young girl, at its most responsive period, with refining influences, and an atmosphere that is conducive to developing good taste, forming good manners, and establishing good principles is a constantly growing consideration with thoughtful parents. It is recognized that an environment of beauty, refinement and culture, together with a spirit of moral earnestness and appeal to the higher instincts, are invaluable in the formation of character. The steadily increasing patronage of the college testifies to its merit on these important lines.

The attraction of the college is much enhanced by the erection of a new residence, College Hall, to be occupied in September next by students of the college department. The seminary, a college preparatory school, which has a large attendance, will continue to occupy Holton Hall. The new building is a handsome brick structure, planned to accommodate about fifty persons, having, besides apartments for students, parlors, cuisine and dining room.

Certainly any young lady planning to attend school or college, or to study music or art, cannot afford to fail to examine the opportunities for education that are offered by Milwaukee-Downer College.

STEADY GIRL WANTED. Several young men complain that they have no steady girl. It seems that they no sooner get fairly started with a girl, probably have the theatre tickets all bought, when the girl "can't go because she has a sick headache."

Dr. Caldwell's Strychnine Pepsin cures all forms of Stomach Trouble and Sick Headache. "Girls—A word to the wise" etc. Your friend. THE STAFFORD DRUG CO.

FLEEING THE LAMBS IN WALL STREET

is a daily occurrence, but the bulls and bears can't do it any slicker than we can out one up and trim it for your table. Our Springs lamb and veal, broiling chickens and capons are delicacies that an epicure can appreciate. Our prime ribs of beef, mutton and cowed ham in flavor and quality can't be beat.

Humors

They take possession of the body, and are Lords of Misrule. They are attended by pimples, boils, the itching tetter, salt rheum, and other cutaneous eruptions; by feelings of weakness, languor, general debility and what not. They cause more suffering than anything else.

Health, Strength, Peace and Pleasure require their expulsion, and this is positively effected, according to thousands of grateful testimonials, by Hood's Sarsaparilla. Which radically and permanently drives them out and builds up the whole system.

THEIR ARBOR DAMPENED.

Rain Almost Spoiled the Various Pic-
nics Planned for Yesterday.

Those who planned to make a picnic
of yesterday were much disappointed
on waking in the early morning and
finding rain pouring down in torrents.
It was a heavy storm, but those who
banked on going to the different nearby
resorts did not let the downpour cool
their ardor. They kept right on making
preparations and by train time a large
contingent was ready to take to the
road. If they thought the shower was
to be of slight duration they missed
their guess, for it rained all morning
and it was not until late in the after-
noon that it was really passed.

The Northwestern carried eighty-six
from this city and 200 from Negaunee
to Iron Mountain for the picnic of the
French societies. The South Shore
passed through here with eight cars
well laden, a goodly delegation of the
occupants going from this city, and the
rest from Marquette. This was the
best patronized excursion of the day and
those who came in on the special last
night stated that a fine time was had
by all. The local sports showed up
well in the different contests and despite
the weather the picnic was one of the
most successful that has ever been held
by the societies.

The annual picnic of the Woodmen of
Republic was also well attended, consid-
ering the weather, though many more
would have made the trip to the up-
road town if Old Sol had consented to
show his face a little earlier. Those
who went expressed themselves well
pleased with the entertainment fur-
nished them, and are not a bit sorry
that they made the trip. The address
of National Lecturer Whelan was one
of the best that has ever been given
in this section and much credit is given
Deputy Byrns for the effort he put forth
to get him here.

The Swedish Home society and sev-
eral hundred of its friends picniced at
the Deer Lake grove, going out a little
before noon. The members made merry
in their hall until the sun shone a lit-
tle, and then, getting the band and the
Light Guards, paraded through the
streets, after which the march to the
grove was taken up.

The ice cream socials which were held
in Salvation Army hall and the Salis-
bury M. E. church were well patronized
and much enjoyed. With the closing
of the stores at noon a large num-
ber of people made their way out into
town in the afternoon and the city
really looked quite lively, though every-
one carried an umbrella, which is very
much of a nuisance on a holiday. The
candy stores and saloons did a thriving
business. The general opinion prevailed
last evening that if the weather of June
is not marked by pleasant weather
the holiday will be abolished.

HER 86TH BIRTHDAY.

Grandma Arthur celebrated her 86th
birthday at the home of her daughter,
Mrs. Thomas Bennett, last Saturday in
a very pleasant manner. A number of
her most intimate friends gathered to
greet her and the afternoon was spent
very happily. Mrs. Arthur is hale and
heartily for one so advanced in years.
She retains her quick interest in all
things, public and otherwise, and is,
withal, a charming person to converse
with. Grandma Arthur is one of the
oldest and best known residents of the
county. She is the oldest member of
the Division street M. E. church and
recently a sketch of her life accompan-
ied with her picture appeared in the
"Michigan Advocate." Her many friends
join in wishing her many more just as
happy anniversary celebrations.

CLEVELAND BOY TO LEAVE.

W. G. Fraser, master mechanic of the
Cleveland-City's company, Michigan
mines, will leave the city in the near
future for Champaign, Ill., where he has
taken the position of superintendent of
the machine shop in the University of
Illinois. "Mr. Fraser has been in the
employ of the Cleveland company since
his graduation from the university, two
years ago, and it is with great regret
that his many friends will see him leave.
Aside from the excellent position which
he is about to assume, he will have a
chance to study electrical engineering
at the university, an advantage he has
long desired.

A TERRIBLE EXPLOSION.

"Of a gasoline stove burned a lady
here frightfully," writes N. E. Palmer,
of Kirkman, Ia. "The best doctor
couldn't heal the running sore that fol-
lowed, but Bucklen's Arnica Salve en-
tirely cured her." Infallible for Cuts,
Corns, Sores, Boils, Bruises, Skin Dis-
eases and Piles. 25c. at Stafford's.

If you want a cape jacket or shirt
for summer we can give you at 20 per
cent off. F. Braastad & Co.

There are good profits for retailers in
Heppner's pure ice cream. Heppner,
Marquette. (5-1-tf)

Just in 12,000 yards of Magnolia dimi-
ties worth 12 cents, going at 5 cents. A
snap. F. Braastad & Co.

Dyspeptics cannot live long lived be-
cause to live requires nourishment.
Food is not nourishing until it is digest-
ed. A disordered stomach cannot digest
food, it must have assistance. Kodol
Dyspepsia Cure digests all kinds of food
without aid from the stomach, allowing
it to rest and regain its natural func-
tions. Its elements are exactly the
same as the natural digestive fluids and
it simply can't help but do you good.
Stafford Drug Co. H. N. Meloche, Ish-
peiming.

TRY DE BELL'S KIDNEY PILLS.

They are the only kidney medicine
that positively cures all diseases arising
from disordered kidneys, poor nerves
and a thin watery condition of the blood,
such as nervous headache, dizziness,
weak back, rheumatism, diabetes, scald-
ing urine and other kidney troubles.
DeBell's Kidney Pills, the great kidney
remedy. Every box warranted, 25 cents
per box. For sale by Stafford Drug Co.

WILL HAVE A TENT.

Sons of St. George Will Have Monster
One for Their Coming Reunion.

The Sons of St. George are sparing no
pains in their efforts to make the re-
union of the order in this city on the
27th of next month a grand success.
The latest feature which the committee
of arrangements announces is that of a
large tent on the plot of ground on the
north side of Division street west from
Fourth to the Cleveland machine shop.
Dinner will be served under this can-
vas, which will have a seating capacity
of three thousand. It has not yet been
decided who will have charge of serving
the dinner—whether the contract will
be let or the society have it under its
supervision. Arrangements are progre-
ding and as things look now nothing will
have been left undone by the time the
first train load of Sons reaches the city
on July 27.

ISHPEMING IN BRIEF.

Max Barber arrived home from Ann
Arbor yesterday morning.

Captain and Mrs. William Allen of
Humboldt were visitors here Sunday.

Professor N. Larson has departed for
the copper country for a stay of three
or four months.

Matt Bright and his sisters, Misses
Kate and Della, are home from Ann
Arbor for the vacation.

Mrs. J. N. St. Clair left here Saturday
for Detroit, where she will spend the
next few weeks with relatives and
friends.

Mrs. Thayer, mother of Miss Cecil
Thayer of the local corps of grade teach-
ers, arrived in the city yesterday after-
noon to spend the summer with her
daughter. They have found rooms on
Maple street.

The first of the final session of the
board of review was held in the council
chamber yesterday morning, adjourning
at noon. Nothing of importance was
done. The session this morning will be
devoted to hearing the taxpayers.

The Junior baseball team challenges
any team in the county for a game, or
series of games, to be played anywhere
at any time. First teams of each city
or town are barred. For further particu-
lars apply to J. Cassin or J. Peterson of
this city.

John Nichols and Miss Clara Gendle
were married yesterday afternoon at
the residence of the bride's mother on
Jasper street by Rev. Stephen Polking-
horn. A large number of the friends of
the contracting parties gathered and a
general good time was enjoyed until a
late hour. Mr. and Mrs. Nichols will
live here.

The Mining Journal was in error yester-
day in stating that Mr. and Mrs. R.
E. Finsten would spend a few weeks
with Dr. and Mrs. Joseph Vandevanter.
They arrived last evening and will stay
with Dr. and Mrs. Vivian Vandevanter
at their home on Maple street. The re-
ception in their honor which will be held
this evening will be at the home of Dr.
and Vivian Vandevanter.

William H. White and Miss Bessie
Roberts were united in marriage at the
home of the bride's parents, Mr. and
Mrs. Thomas Roberts, on Angeline street
Saturday evening by the Rev. C. D. At-
well. The house was very prettily dec-
orated and the reception which followed
the ceremony was a particularly pleas-
ing function. Mr. and Mrs. White will
reside at the Cleveland location.

There was an exciting fox hunt in the
vicinity of the first falls of the Escana-
ba river last week, but no fox was run
to earth. It seems that a party went
to that resort a week ago Sunday on a
fishing expedition and while musing
around through the brush ran onto a fox
hole which contained the animal. They
planned to go out again and lay for
Mr. Fox, but told some of their friends.
These stole a march on the discoverers
and went to the scene themselves, set-
ting a trap for the wily fox. The origi-
nal people were just as foxy and also
visited the locality ahead of the ap-
pointed date. Seeing the trap, they stole
it. Now both parties are without a fox
and one of them is shy a trap. Which
was stuck?

Loss of Vitality is loss of the principle
of life, and is early indicated by failing
endurance, and diminishing strength and
endurance. Hood's Sarsaparilla is the
greatest vitalizer—it acts on all the
organs and functions, and builds up the
whole system.

Danger, disease and death follow neg-
lect of the bowels. Use DeWitt's Little
Early Bile to regulate them and you
will add years to your life and life to
your years. Easy to take, never gripe.
Stafford Drug Co. H. N. Meloche, Ish-
peiming.

\$1,000 FOR PRIZES.

LOCAL LAONICS.

The Fourth of July Committee Will Use This Goodly Sum.

It is now apparent that Negaunee's 1901 celebration of Independence Day will rival any former observance arranged in the history of the city. Interest in the program is increasing with the approach of the Fourth and from all accounts there will be large outside delegations in the city. People who are thinking of coming here for their fire crackers, soft drinks and fireworks may feel assured that there will be a big and entertaining program for their amusement. The firemen are doing nobly in their preparation for the celebration. It is now plain that they could not be in better hands.

The program includes a grand street parade, sports, both on the streets and in the rink, a bicycle parade in the evening, fireworks, which will be set off on the hill near Teal lake and last but not least, a grand ball in the opera house. Of course there will be other attractions, but those mentioned above form the bulk of the entertainment. If the prospective visitor cannot find something to please him in this list he had better remain at home, for he is also getting too hard to give up. The see "Parson" Pope of Ishpeming, the dean of sports in this section, will have full swing with the sporting portion of the program. He understands just how to conduct wrestling matches, boxing contests, miners' drilling contests and the numerous other things on the program and everything will doubtless be satisfactory to the participants. The "Parson" assumes all financial and moral responsibility in connection with the sports. It is the opinion of members of the committee that he will clear a goodly sum and they sincerely hope that such will be the case. Mr. Pope says that at present the complete list of field sports is not made up, but that it will include all the usual events and, also, that the prizes will be large and alluring. At the Adelphi rink there will be Cornish wrestling in the morning and afternoon, and to the winner of the tournament will be given \$50. The second prize is \$40; third, \$25, and fourth, \$15. These prizes are sufficient to bring out some good men. The miner's drilling contest will be another feature. Three drillers will make up a team and they will work for twenty minutes. To the most skilled trio will be awarded \$24 and the second team will get \$12. At ten o'clock the grand street parade will be formed. It will visit every section of the city. All the civic societies and military organizations will be in line and some of the fire departments of the county. The city fathers will ride in the line of march in carriages. The afternoon will be devoted to the street sports. There will be concerts by both bands, which have been engaged for the entire day. In the early evening the illuminated bicycle parade will form in the city square. This will be a novel feature. Immediately at the close of the parade the fireworks on Teal lake will light the sky. Then the ball will be the attraction. It is said that the grand march will start at nine and that dancing will continue as long as there is anyone who wishes to trip the light fantastic. Tickets will be \$1, with extra charge for supper, which will be served in the Breiting house.

The officers of the day are Mayor Thomas Connors, president; Alderman Robert G. Jackson, vice president; the Rev. Dr. Smith, chaplain; F. D. Davis, orator; Theodore A. Thoren, reader, and Charles L. Sporley, marshal. The committee of arrangements consists of John A. Washburn, Ed Laughlin, Thomas Gribble, Fred Koch and John W. Goudge.

INJURED AT THE NEAUNEE.

Isaac Hillma, an employe of the Negaunee mine, was injured underground last Saturday evening by a large piece of rock which fell down the shaft. The rock fell about two hundred feet and as Hillma's head was directly in the way he received some severe gashes. It was thought for a time that he could not live, but Dr. Sheldon is confident of pulling him through. The Ishpeming hospital ambulance came over and took him to the hospital, where he is now resting easily.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Constiveness, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Stomach, Acid, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Price Almanac. The Stafford Drug Co.

A fallow, jaundiced skin is a symptom of disordered liver, as it springs from biliary poisons retained in the blood, which destroy energy, cheerfulness, strength, vigor, happiness and life. HERBINE will restore the natural functions of the liver. Price 50 cts. Stafford Drug Co.

Sell Heppner's pure ice cream and make a barrel of clean money this summer. Heppner, Marquette. (5-14-1)

Allen Halverson of West Prairie, Wis., says: "people come ten miles to buy Foley's Kidney Cure," while J. A. Spero of Helmer, Ind., says: "It is the medical wonder of the age." The People's Drug Store.

A KANSAS MINISTER.

Rev. L. S. Coulton, of Circleville, Ks., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

Mr. and Mrs. Frank M. Boney have returned from a week's visit in Chicago. George Hamilton has taken the position of stock clerk at the Negaunee mine, vice John Mitchell, resigned.

Most of the local supervisors attended the regular session of the county board at Marquette yesterday.

Mike Enlaw is moving from his home on Brown avenue to the residence of John Stewart on Peck street this week.

Mr. and Mrs. Charles Hooper of Ishpeming will move here this week. Charles is employed in Tom Trathen's shop.

Captain John Thomas of Swanzy stopped over for a few hours yesterday enroute to the board of supervisors' meeting at Marquette.

Charles Marketty, a clerk in the office of the Regent mines, left yesterday for Chicago, where he will spend the next two weeks with friends.

Al Bohrer ended his services with J. M. Perkins Saturday evening and expects to leave for Hancock tomorrow. Victor A. Lindgren of Minneapolis has taken his place.

The annual memorial day of the Danish Brotherhood occurred Sunday and a large turnout of the Brotherhood was in evidence. The parade left the hall on Gold street about 1 o'clock and proceeded to the cemeteries. The Negaunee Orchestra band assisted and the services were very impressive. After the decoration of the graves the order attended services in the Swedish Lutheran church.

SEVEN YEARS IN BED.

"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They know she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Only 50c. Stafford's

Upper Peninsula.

The Iron Mountain council is wrestling with the new zoning which so bad that City Attorney Hurley declares "It pays to be a cow in Iron Mountain. They have privileges human beings have not." But the council has not abated the nuisance thus far.

The value of property in Menominee county, according to the assessment rolls this year, is \$9,671,971. of which \$5,779,759 is for the city and \$3,892,212 for the remainder of the county. The total value of real estate is \$3,593,303 and personal property \$3,678,508. The valuation of property in the city has decreased \$320,889, and in the county \$902,423, total \$923,312 from 1900.

Contractor W. H. Robinson of Marquette has commenced work on the new clubhouse to be built for the Riverside Golf club at the links. It will cost \$900. There will be one large reception room, a ladies' and men's dressing room, with lockers, and a portico will nearly encircle the building. The house will stand on a promontory affording a good view of the grounds. It will be completed by July 10.

Menominee continues to sustain her reputation as a Getna Green, and is a popular objective point for eloping couples, being just across the Wisconsin line. Friday in Justice Van Den Berg's court chamber occurred the marriage of Frank Dubois and Miss Mary Duggan, both of Oshkosh. The young couple had surmounted parental objections and possible interferences and eloped. They are said to be popular young people of Oshkosh.

According to the new assessment rolls of Menominee county the acreage in the nine townships aggregates 591,701.62 and an authority states that nearly 10,000 acres were cleared in 1900. Property values in the county on farming lands have increased, especially in Mellen, Meyer, Menominee, Cedarville, Ingallston and Stephenson townships. Many settlers are coming in from Indiana, Illinois and southern Michigan to buy and locate farms.

Ferry Smith, a painter employed by Fred Bennis, was badly injured at Menominee last Friday. He fell off the ladder while working on the Christiania hotel on Grand avenue early in the morning, fracturing his wrist and shoulder, cutting his head badly, and sustaining other injuries. He had climbed the ladder and was placing large grappling hooks on the roof when he lost his balance and fell fully thirty feet. He was badly shaken up and may be injured internally.

Ironwood is to have a monster celebration on July 4. A committee has been appointed to look after the details and a meeting was held Monday of last week.

HAVE YOU TRIED THE NEW KIND?

LYON'S NEW YORK CANDY.

IT'S VERY FINE.

J. M. PERKINS.

Sole Agent for Chancellor and Teller Cigars.

week to get the work under way. One of the attractions will be a race between horses owned by Alderman Frank Leschong and John W. Millen. Both horses are from fast stock and although the owners each believe in the superior speed of their own horse as against the utter lack of that quality in the other there is no doubt but what both will develop enough ground covering facilities to make the affair very interesting to the public.

The total enrollment of the Sault Ste. Marie public schools for the year just closed was 2,185, an increase over the preceding year of nearly 14 per cent. The figures do not represent the average increase in the population which would be considerably greater owing to the large number of single men who have been attracted to the Soo by the water power and other improvements now going on. It is estimated by conservative residents who have closely watched the growth of the Soo that its population is now between 11,000 and 12,000. The city is growing at a rapid rate and the improvements being made are permanent and substantial.

When completed the Northwestern coal dock, being built on the north shore of Little Bay de Noc, will be one of the finest on the chain of lakes. The Starke Dredge and Dock company of Milwaukee is just finishing its contract for the removal of 80,000 yards of sand in preparing the slips at either side of the dock. For fear the dredge company would not be able to complete its contract in time the Northwestern company hauled in some 10,000 yards of sand to be used as filling, thus enabling the dredge operators to cut the original amount to be moved from 80,000 to 70,000 yards. The new dock is 1,100 feet in length and 100 feet wide, thus giving it a total area of more than five acres. A fair idea of the material used in its construction may be had from the statement that it required 680,000 feet of plank to cover it. The new dock is built on the site of the old lumber dock, just north of ore dock No. 5 and when completed ready for operation will enable the company to discontinue the use of its present coal dock, near the general offices, which may then be used for general merchandise.

Details of the murder of Mrs. Mary Daniels by Jack Goldsworthy at Iron Mountain show that it was one of the most horrible crimes ever committed on the upper peninsula and were the evidence and testimony not unmistakable, it would be hard to believe the recital of the fiend's work. Goldsworthy was a boarder at Mrs. Daniels' residence, having lived with her for eight years. Friday morning he left as usual to go to his labor in the Northwestern coal yards. Arriving there, for some reason or other, he was laid off. He loafed around for a while drinking one or two cans of beer before returning to the Daniels' residence. When he reached his boarding place he began to quarrel with Mrs. Daniels. There was a war of words, the landlady informing him that he would have to leave her place unless he paid his board bill. This angered Goldsworthy greatly and he struck at her with his fists. She ran to the summer kitchen, the man following. Here there were more words. Finally Goldsworthy stepped to the door and picked up a double bladed ax. He started toward Mrs. Daniels with it raised above his head. Her young son, who was in the room, pushed him back. Goldsworthy struck at the boy, but missed him. Then he attacked the woman, striking her on the back of the head and landing another blow as she was falling. Goldsworthy immediately fled, hatless and coatless. The alarm was given at once and his capture was shortly effected by Marshal Catlin. He offered no resistance to arrest, although his neck was bleeding from a wound he had inflicted in an endeavor to commit suicide, at the time he was taken. Goldsworthy has always been considered a rather bad and dangerous character. Iron Mountain is greatly wrought up over the peculiar hideousness of his crime.

"The Doctors told me my cough was incurable. One Minute Cough Cure made me a well man." Norris Silver, North Stratford, N. H.—Because you've not found relief from a stubborn cough, don't despair. COMING IN AUGUST.

U.P. VETERANS WILL HOLD THEIR ANNUAL REUNION HERE.

DATES ARE THE 21ST AND 22ND.

PRESIDENT C. D. BLANCHARD IS ARRANGING THE PROGRAM.

Visitors Will Be Entertained Every Minute of the Time They Are in Marquette—Well-Known Soldiers Expected.

The Upper Peninsula Veterans' association will hold its annual meeting in Marquette this year. The dates are August 21 and 22. President C. D. Blanchard has already outlined the program and he has instituted preparations toward the end that the reunion of the old soldiers may be one of the most successful in the history of the association.

Captain Blanchard was elected president last year. He was not a candidate for the office and he would have preferred to have the honor fall to another. He even considered the contingency of resigning, but he ascertained that the association, which is rather loosely organized, had no board to which he could present his resignation and no provision for the acceptance of such a communication. So he has stood by his guns and he is now preparing to give his fellow veterans a warm and hearty welcome on their arrival in Marquette.

The South Shore road is offering a fare of a rate and a fifth for the reunion and the same special rate will hold from all upper peninsula points on the other lines. It is expected that there will be a representative turnout of the members of the several upper peninsula G. A. R. posts. The last reunion at Negaunee was not well attended, but the weather conditions were unfavorable. This year a special effort will be made to assure all the veterans of a most hearty and cordial welcome as well as of two full days of entertainment and hospitality, and it is expected that the response to the invitations will be very general.

Many Prominent Soldiers.

Captain Blanchard is in communication with a number of well known members of the Grand Army of the Republic who will be in Marquette for the dates of the reunion. Chief among them is Leo Rassinor of St. Louis, Mo., the present commander-in-chief of the veterans' organization and one of their most prominent leaders. General Duffield and Colonel James of Detroit will also be among the guests. Department Commander James Van Kleek of Saginaw and Adjutant General Pond of Lansing have been invited to meet the upper peninsula veterans and it is expected that they, too, will be in attendance at this year's reunion.

These well known army men will be the principal speakers at the camp fires to be held in the opera house the evenings of August 21 and 22. They will each be heard on matters of particular interest to the veterans and the knowledge that they are to be in Marquette is relied on to bring many outsiders here who might otherwise remain away.

Captain Blanchard has arranged with

Improved New Model

SEWING... MACHINES HIGH ARM.

BIGELOW & CO., Front St., Marquette.

a Baltimore, Md., firm for the manufacture of the souvenir badges which will be presented to the visiting veterans. They will be appropriate and neat and will be highly prized by their recipients. Captain Blanchard refuses to outline the design of the badges, saying that this is one of the surprises in store for the visitors. However, he says that they are the neatest souvenir of the kind that has ever been "sprung" in this section.

Plenty of Entertainment. The visiting veterans will find no dearth of entertainment. There will be something going on every minute that they are in the city, it being the intention to send them away quite happy and very favorably impressed with the quality of Marquette hospitality.

The opera house has been engaged for both evenings of the reunion. In addition, it is the intention to rent a centrally located room, or store, downtown, which will be designated as the headquarters, where the veterans will be received and where they may congregate at odd moments during the day. On arriving in Marquette they will report at the headquarters to register. Then they will be concerned with various features of the entertainment program until they leave the city.

The Women's Relief corps and the Spanish-American veterans will participate with the G. A. R. men in the reunion.

The second day of the meeting will be given up to the most important part of the program. In the morning there will be the association's election and regular business session. In the afternoon there will be a parade. All the visitors will take part in it, but it is announced that none of them will be allowed to walk, it being the intention to provide carriages for their entire number. The Spanish-American veterans and the members of the Relief corps may walk to their heart's content, but the G. A. R. men will not be allowed this physical exertion. Moreover, sham battles or any other entertainment features in which the old veterans might be expected to take a part are to be cut out. The visitors will be entertained, but they will not be expected to do any of the entertaining. A big picnic at Presque Isle will also be worked into the reunion program.

TOURNAMENT PRIZES.

Skillful Firemen Will Get Rich Booty at Crystal Falls.

Following is the list of prizes, just made up, for the Firemen's tournament to be held at Crystal Falls early in August:

"The best is none too good." This is our motto. If you try our soda you will agree with us that we have the best in town. E. V. Kaynor, in Pendill's pharmacy. (6-15-4f)

ADJOURNED UNTIL JULY 10.

Equalization Board Waiting on Ishpenning Board Review.

The supervisors assembled in Marquette yesterday as a board of equalization. They failed to equalize the assessment rolls of the cities and several townships, as the Ishpenning roll was missing. Its board of review still being in session, the supervisors adjourned until July 10 when they will complete the equalization. The equalization committee adjourned until the 8th, when it will pursue its work on the several rolls preliminary to reporting to the supervisors. This committee did considerable work on the rolls yesterday, but, of course, the bulk and most important parts of its labor hangs over until it meets again.

The supervisors transacted routine business at their morning session yesterday. The only thing out of the ordinary presented for their consideration was the report of the committee charged at the last session, with the task of inspecting the condition of the county's Goose Lake road and reporting on the advisability of the county making any expenditure for its repair. This committee reported adversely. It noted the fact that originally \$2,900 was expended on this thoroughfare and remarked that the city of Negaunee and the township have never appropriated a cent to be expended on repairs. Under these circumstances the committee did not think it was warranted in recommending any further expenditure of the county's money and it requested that the appropriation for repairs be not allowed. Now if Negaunee and township people desire to use the thoroughfare in question they will have to repair and maintain it themselves.

"SAG HARBOR."

It Was Adequately Presented at the Opera House Last Evening.

"Sag Harbor" is a realistic play. It runs along so smoothly and naturally that the audience frequently forgets to applaud so intent is it on following the thread of the story and appreciating the marvellously clever characterizations with which the late James A. Hearne embellished what is generally considered his greatest work as a playwright.

This refreshing drama, refreshing in its distinctiveness and original treatment of an old theme, was given an entirely adequate presentation at the opera house last evening. The promises of the advance agent were fulfilled and the attraction was easily in a class with the few really excellent things which have visited this section during the season just closing. Its cast was composed of thorough artists and the special scenery was well painted.

The company was uniformly excellent and it gave every evidence of careful selection of the men and women with the demands of the parts which were to be allotted to them in view. Several of the characters were well high perfect in their way, those of Mrs. John Russell, Freeman Whitmarsh and William Turner, taken by Mrs. Sol Smith, W. T. Hodge and Frank Munroe, being particularly finished and complete sketches. Captain Dan Marple, the part which the lamented Hearne wrote for himself, was impersonated by George Woodward, who gave a very satisfactory interpretation of the character of the bluff, kind-hearted old sea-dog. Forrest Robinson and J. Wooster Dean, on whom devolved much of the heavy work of the play, were actors with a just conception of the demands of their parts and with sufficient ability to meet them satisfactorily. Marion Abbott and Fanchon Campbell shone among the other ladies of the cast.

"Sag Harbor" was presented in a very finished manner. There were no annoying discrepancies. The illusion was maintained without break through the piece, although there is considerable truth in the claim that "Sag Harbor" impresses an audience as if of real life, rather than an artificial drama. It is a wonderful play and its phenomenal success is based on elements of popularity which may be relied upon to keep it before the public for numerous seasons.

WEATHER UNFAVORABLE.

It Interfered With the Observance of Midsummer Day.

The heavy rain early yesterday morning and the threatening weather which prevailed throughout most of the day greatly interfered with the success of the various Midsummer Day observances, keeping many people at home who were figuring on visiting one or the other of the several picnics and celebrations.

The Marquette delegation to Iron Mountain, where the annual reunion of the upper peninsula French societies was held, numbered 163 persons. Most of the party were members of the St. Jean Baptiste society and their families. The Negaunee orchestra band accompanied the delegation. It came down on the early train to join the society. The Iron Mountain excursionists came in late last night, thoroughly tired out, but happy. The weather did not interfere to any disastrous extent with their celebration, although it likely reduced the attendance. This was certainly so from Marquette. The Marquette county delegation which traveled over the St. Paul road numbered about 400 people. Then there was another special on the Northwestern. Traffic from Marquette to Republic,

where the Woodmen held a big picnic, and to Ishpenning, where the Swedish societies held a reunion, was light, very few people attending either affair. This was likely due to the threatening weather.

The Negaunee Woodmen held a picnic at Presque Isle. Twice previously the weather had interfered with the success of similar outings and again yesterday they were tripped up by the elements. Nevertheless, they came down, accompanied by a fair delegation. The Marquette Ideal orchestra played at the pavilion all afternoon. Dancing furnished the principal amusement. There was little traffic from the city to the resort.

To sum up, wet weather played hob with Midsummer Day, although the various picnics and celebrations panned out much better than the conditions warranted.

COPPERS RATHER QUIET.

Only a Couple of Specialties Are Moving Upward.

Coppers were, as a whole, quiet yesterday, the upward movement being confined to a couple of specialties. Higher prices all up and down the list are expected. Paine, Webber & Co. said:

"Butte and Montana have ceased to exist, so far as the stock market is concerned. Their disappearance from the list means success, not failure. The consummation of the Amalgamated Copper consolidation has put thousands of people in a position to buy more copper stocks and they will take advantage of the opportunity. A large volume of trading will be confined to a smaller number of stocks and a more active market and higher prices are pretty sure to result. We believe that the announcement of the South Range consolidation will cause the stocks of the South Range to sell considerably higher. Range, at this level, should soon return to the buyer at least a 10 point profit. Baltic, Trimountain and all of the good coppers act as if they would be advancing again within a few days. We would buy them on all slight reactions." Hayden, Stone & Co. wired the Laidley-Commission Co.:

"The market is very dull. We do not look for much reaction, as the buying of coppers during the past week has been by the Standard Oil interests, which doubtless want the public in this market. The exchange of Butte and Montana for Amalgamated is being made today and all stocks exchanged before July 12 will carry the dividend of \$2.00. There is good buying of Mohawk. The smelter, in New Jersey, to treat Mohawk will be in commission by August 1. It is not generally known what the assessment on Mohawk will be. We would buy on all reactions."

A. R. Jones & Co. said of wheat:

"The wheat market is slow and tame. The most notable feature was a still further loss for the July, while September kept comparatively strong. All the news relative the harvest of the winter wheat was an appeal of the most bearish sort, but from the Northwest came reports of too much rain for the good of the plant. This was about the only encouraging news. There seems to be something doing in the September. It is not open buying by specially strong speculators, but apparently the market is as much oversold as ever. There is a good demand from shorts for all offerings. From a purely speculative standpoint, we would judge that better prices are in order. We think purchases safe for a fair profit."

SAVES TWO FROM DEATH.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by Stafford's. Trial bottles free.

Hardly a day passes, in families where there are children, in which BALLARD'S SNOW EXTRACT is not needed. It quickly cures Cuts, Wounds, Bruises, Burns and Scalds. Price 25 and 50 cts. Stafford Drug Co.

William Woodard, of Decatur, Ia., writes: "I was troubled with kidney disease for several years and four one-dollar size bottles of Foley's Kidney Cure cured me. I would recommend it to anyone who has kidney trouble." The People's Drug Store.

If the predisposition to worms in children is not cured they may become emaciated, weakly and in danger of convulsions. WHITE'S CREAM VERMIFUGE is the most successful and popular remedy. Price 25 cts. Stafford Drug Co.

BAY VIEW CAMP MEETING.

and Assembly, Bay View, Mich., July 1st-14th. For this occasion, the D. S. S. & A. railway will sell tickets to Bay View, Mich., and return via Mackinaw City and the G. R. & I. railway, at single fare for the round trip. Tickets will be on sale July 8th to 14th, inclusive, and will be good for return passage up to and including August 15th, 1901. For further particulars apply to station and ticket agents, or to George W. Hibbard, G. P. A., Marquette, Mich. (6-25-7-18).
