HOT WAVE STICKS.

ALL STATES EAST OF THE ROCKIES STILL SWELTERING.

NO RELIEF IS IN SIGHT.

CORN AND OTHER CROPS RUINED IN SOME SECTIONS.

In the Cities Great Suffering Continues to Exist, Especially at New York and Chicago, and Ambulances Are Kept Busy.

Washington, June 30.—Intense heat prevailed here all the day and far into the night. During the afternoon the temperature at the weather bureau stood at 98 degrees.

Reports to the weather bureau from points throughout the hot wave area show remarkably high temperatures generally, with little or no rain fall and poor prospects for any substantial relief in the next forty-eight hours in the eastern part of the country. High temperatures continued today in all districts east of the Rocky Mountains.

Chicago's Hottest Since 1872.

Chicago, June 30.—The heat in Chicago today broke all records for June since 1872. For three hours this afternoon the government thermometer at the weather bureau registered 97. In many places on the streets it was 104 and 105. A northwest breeze brought some relief after night-fall, but at 11 o'clock the mercury was again soaring around ninety.

There was intense suffering throughout the city, especially in the poorer districts, and the police ambulances were kept busy picking up victims who succumbed to the heat. No fatalities are reported, but many of those prostrated are in serious condition. Forecaster Cox predicts still hotter weather tomorrow.

Crops in the Southwest Hurt.

Kansas City, June 30.—Missouri and Kansas are suffering from hot winds that threaten great damage to corn.

Atchison reports the greatest drought in northeastern Kansas since 1860, a warm wind having blown from the south almost unceasingly for the last seven days.

Abilene reports 105-degree weather, with many fields in south Dickinson county ruined.

Salina reports 103 degrees in the shade with the statement that another week of similar weather will make certain the failure of the corn crop in central Missouri.

Nineteen Deaths in Gotham.

New York, June 30.—Relief from the killing heat of last week which was promised today in the shape of a thunderstorm did not materialize. Instead, the temperature increased reaching a maximum of 97. There was less breeze than the day before, and what little air did stir was surcharged with heat. Nineteen deaths and twenty prostrations were reported.

Nebraska Sorely Stricken.

Lincoln, Neb., June 30.—Today was the seventh day during which the mercury has reached more than 99 and the fourth during which it has reached 100.

For eight days the state has suffered from drought and south winds. Oats, potatoes and hay have been badly injured, while corn began to curl and wither today in the eastern part of the state.

Marchers at Milwaukee Succumb.

Milwaukee, June 30.—A number of prostrations from the heat today are reported. During the parade of the Turner civic societies, in which two thousand men were in line, several of the marchers were overcome by heat, but none of the cases are of serious nature.

Many Killed at Pittsburg.

Pittsburg, June 30.—Between midnight Saturday and midnight Sunday, eleven deaths directly traceable to the effects of the heat and fifteen prostrations were recorded. In addition to this, many children succumbed. The maximum temperature today was 96.

Ninety-Five at Cincinnati.

Cincinnati, June 30.—The thermometer touched 95 today. Henry Meyer, president of the St. Bernard Shooting club, dropped dead from the heat while delivering his annual address at the meeting today.

Iowa Feels Torrid Spell.

Burlington, Ia., June 30.—The mercury touched 100 in the shade today, much illness resulting. Frank Dunham, a veteran in the railway mail service, died suddenly this afternoon from sunstroke.

Prostrations at Philadelphia.

Philadelphia, June 30.—One death from the heat and twenty-five prostrations were reported today. The official temperature was 98.

Mercury Climbs at Baltimore.

Baltimore, June 30.—The weather bureau thermometer registered 94 today. One death and several prostrations are reported.

EUROPE ALSO SWELTERING.

In England, Violent Storms Break the Drought at Cost to Property.

London, June 30.—The long continued drought in Great Britain has been broken up by violent thunder storms which occurred Saturday night and today, accompanied by torrents of rain and lightning which wrought much havoc.

Many parts of the continent have been suffering from heat waves. In Portugal much damage has been done by floods and hail storms.

MOUNTAIN CLIMBERS KILLED.

Three German Tourists, Roped Together, Go Over a Precipice.

London, Monday, July 1.—"Bohemian papers," says a dispatch to The Daily Mail from Vienna, "report that three German tourists—Weisnitz, Meixner and Fisher—have been killed on the Erz-Birge, near Weipert. They were roped together. One lost his footing and fell over a precipice. The others held him suspended. He urged them to save themselves by cutting the rope, but they refused, and, renewing their efforts to haul him up, all fell down the rocks."

Lightning badly damaged the young ladies' seminary building and set fire to the Lake street bridge. A number of head of livestock were killed by lightning.

DOWAGER FEARS A TRAP.

Declines to Return to Peking and Names a New Capital.

Shanghai, June 30.—Marquis Tensg has received a dispatch from Sian Fu to the effect that the empress dowager, fearing a trap to recapture her, declines to return to Peking and has notified the grand council that the future capital be Kai Fong Fu, in the province of Ho Nan.

GOOD YEAR FOR SHIPYARDS.

1,473 Craft, Tonnage 500,000, Built During Year Just Closed.

Washington, June 30.—The vessels built in the United States and officially numbered by the bureau of navigation of the treasury department during the fiscal year ended today number 1,473, of 501,283 gross tons, compared with 1,058, of 408,677 gross tons, for the previous fiscal year. The whole tonnage built has been exceeded only twice in our history—in 1854 and 1885, when a maximum of 583,450 tons was attained.

CZAROWITZ BETHROTHED.

London, Monday, July 1.—"It is reported in St. Petersburg" says a dispatch to The Daily Telegraph from the Russian capital, "that the czarowitz is betrothed to Princess Cecile, daughter of the late Grand Duke of Mecklenburg-Schwerin."

UNION VS. TRUST.

STRIKE IS ORDERED IN THE HOOP AND SHEET STEEL PLANTS.

WAGE CONFERENCE A FAILURE.

STRUGGLE WILL INVOLVE OVER 50,000 SKILLED WORKERS.

Bar Iron Scale Is Accepted, However, and 107,000 Men Will Now Resume Work in Those Mills—Assessment for the Machinists.

Pittsburg, June 30.—President T. J. Shaffer, of the Amalgamated Association of Iron, Steel & Tin Workers, will tomorrow morning issue an order ordering out all the union employees of the various mills of the American Steel Hoop company, known as the hoop trust.

It is estimated fifteen thousand men will be subject to the call, which, in connection with the big strike of the American Sheet Steel company, ordered by President Shaffer on Saturday, will affect fifty thousand men. President Shaffer said tonight:

Union Well Prepared.

"The impression that only the mills of the American Sheet Steel company are affected by the decision of Saturday is a mistake. The workmen of all the mills in the American Sheet Hoop company are interested and will be officially notified tomorrow the scale will not be signed and that they will quit work."

"It is a matter of regret that the issue has been forced, but it now looks as though it will be a fight to the death. The Amalgamated association is not unprepared for it. We have not had a general strike for many years, and in that time we have not been idle. We have funds and will use them."

The conference was in session yesterday less than fifteen minutes. The union officials presented the wage scale, which called for practically the same wages which have prevailed during the past year. The scale was satisfactory to the manufacturers, who, however backed on the proposition that the non-union mills be turned over to the union and be governed by the same rules as the union plants. Action on the strike was then taken.

The shutdowns will mean an inestimable loss to the companies with the present rush of orders.

Bar Iron Scale Accepted.

Shortly after midnight this morning the bar iron scale was settled by a conference between the officials of the Amalgamated association and representatives of the Republic Iron company and the American Steel Hoop company after almost a continuous session since 2:30 o'clock p. m. yesterday. The manufacturers agreed to accept the scale as adopted by the Milwaukee convention without change.

The scale submitted by the Amalgamated association contained a demand for a general advance, averaging between 5 and 6 per cent. The rate on boiling, on which the entire scale is based, is \$5 per ton for base, and all scales are dependent on it; it, together with a non-union clause, was finally accepted by the Republic Iron & Steel company practically without change. No important concessions were made by the Amalgamated association, whose officials are enthusiastic over the result.

By the settlement 107,000 men may go to work as soon as the necessary repairs are made at the several plants throughout the country.

Chicago Wood Workers to Quit.

Chicago, June 30.—Three thousand wood workers employed in manufacturing of office fixtures in Chicago will probably strike Tuesday. The present agreement expires tomorrow, and the workmen demand an increase of 25 cents per day in wages. As a counter proposition, the manufacturers offered an increase of 10 cents per day. This proposition was rejected today by an almost unanimous vote of the union.

Aid for the Machinists.

Washington, June 30.—The American Federation of Labor has issued a call for an assessment of 5 cents per member for the benefit of the International Machinists association. There being 2,000,000 members of the federation this will give the machinists \$100,000. Other assessments as they may be needed up to 10 cents per capita per week may be made.

BLOODY RIOT AT LYONS.

Revolutionary Element Clashes With the Supporters of the Priests.

Lyons, June 30.—M. Godefroy Cavaignac, former minister for war, presided this afternoon at a meeting of the League of Patriots.

M. Sebastian Faure, an anarchist, organized an opposition meeting of the revolutionary societies at which he violently denounced Nationalism as "a detestable compound of clericalism, capitalism and militarism." Subsequently the socialists marched in a procession through the streets shouting "Down with Cavaignac." "Down with the priests." Ultimately they became riotous and several were arrested.

In the meantime the supporters of General Cavaignac escorted him to the Hotel Place Bellecour, where the hostile bodies met and fought, the police and mounted guards finding considerable difficulty in dispersing them. Many persons were injured and many arrests were made.

TROOPS PAID OFF.

OVER \$1,000,000 DISBURSED TO FOUR REGIMENTS AT 'FRISCO.

RAILROAD TICKET OFFICES SWAMPED

JAMMED WITH SOLDIERS BUYING TRANSPORTATION HOME.

Shafter Retires, Giving Up Command, and Today, With the Paying Off of 3 More Regiments, the Volunteer Army Will Have Ceased.

San Francisco, June 30.—Two important military events occurred at the Presidio today.

General Shafter went on the retired list at noon, when he formally transferred command of the department of California to Major General S. M. B. Young.

In the afternoon, the Forty-fourth, Forty-ninth, Forty-eighth and Thirty-eighth volunteer regiments were mustered out. The mustering out of the four regiments required the services of eight paymasters.

Four Thousand Tickets Sold.

As soon as the volunteers had been mustered out they rushed to the railroad ticket offices for transportation to their Eastern homes. Both the Santa Fe and Southern Pacific general ticket offices put on extra forces of clerks. The ticket offices were crowded until late in the night with discharged volunteers buying tickets. Nearly four thousand tickets were issued, and the rush will continue tomorrow.

During the day an accidental shooting which may have a fatal ending occurred. George Price, colored, of Kentucky went into Hiram's gun store to buy a revolver. While a clerk was examining the pistol it was accidentally discharged. The bullet entered Price's abdomen.

While the paying off tomorrow of the Forty-third, Forty-seventh and Forty-first regiments, the volunteer army will have passed into history.

SIXTY YEARS A PREACHER.

Dr. Sunderland of Washington Dies at the Age of Eighty-Three.

Catskill, N. Y., June 30.—Rev. Dr. Byron Sunderland of Washington, D. C., died here today at the home of his son-in-law, Orvin Day, president of the Tamers' National bank. Dr. Sunderland was aged eighty-three, and for over sixty years had been active as a minister of the gospel. For forty-eight years he was pastor of the First Presbyterian church of Washington, from which he retired because of advancing years in 1898.

Col. Paige Dead at New York.

New York, June 30.—Colonel David R. Paige of Cleveland died today at the Hotel Brunswick here from a complication of diseases. He had been an invalid for many months. The immediate cause of death was heart failure.

Colonel Paige was a member of the Forty-eighth congress from the Twentieth Ohio district. In the election for the Forty-ninth congress, Major McKinley defeated Paige. He was later a member of the firm of Paige, Gary & Co., contractors on the Croton aqueduct. Colonel Paige also was a member of the banking firm of Paige Bros. & Co. of Painesville, O., which failed a number of years ago.

Aged Commodore Expires.

New York, June 30.—Commodore Seller, United States navy, retired, died today from old age in his eighty-third year.

HAVOC BY LIGHTNING.

\$30,000 School Destroyed at Berlin, Wis.—Winona, Minn., Suffers.

Berlin, Wis., June 30.—Late last night lightning struck the high school building in this city and it was burned to the ground, causing a loss of \$30,000.

Winona, Minn., June 30.—A severe rain and electric storm struck this vicinity today and two inches of rain

fell. Lightning badly damaged the young ladies' seminary building and set fire to the Lake street bridge. A number of head of livestock were killed by lightning.

EUROPE ALSO SWELTERING.

In England, Violent Storms Break the Drought at Cost to Property.

London, June 30.—The long continued drought in Great Britain has been broken up by violent thunder storms which occurred Saturday night and today, accompanied by torrents of rain and lightning which wrought much havoc.

General Debility
Day in and out there is that feeling of weakness that makes a burden of itself. Food does not strengthen. Sleep does not refresh. It is hard to do, hard to bear, what should be easy—vitality is on the ebb, and the whole system suffers. For this condition take

Hood's Sarsaparilla
It vitalizes the blood, gives vigor and tone to all the organs and functions, and is positively unequalled for all run-down or debilitated conditions.

Hood's Pills cure constipation. 25 cents.

MARQUETTE, MICH., JULY 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Hon. Wm. Alden Smith of Grand Rapids has had the title of Doctor of Laws conferred on him by Dartmouth College. Doctoring laws being Mr. Smith's regular business now, the action of the college may be regarded as a sort of official recognition of his fitness to be a congressman.

Rev. Minot J. Savage says that "if everything were so organized that there would be no shirking, and all things were attended to in their proper time, the hours of toil might be shortened to about three a day." But what an awful hardship it would be to the shirkers to be compelled to work three hours a day!

Archbishop Ireland of St. Paul, in addressing the graduating class of St. Joseph's college in that city a few days ago, gave this recognition to the widening sphere of woman's work and usefulness: "I believe in the intellectual woman. While woman's interest should be primarily in the home, there is no reason why it should be confined there. It is folly to belittle woman's influence today, for it is widespread, and is powerful wherever it extends." The tribute paid woman by the distinguished Catholic prelate comes gracefully from a dignitary of a church that, above all others, owes its strength and power to the devotion and zeal of the women among its membership.

Alluding to the attempt being made to procure the removal from office of Pension Commissioner Evans, the Boston Journal says:

Whatever assurances the Republican national committee may or may not have given in this matter during the presidential campaign, President McKinley is not the sort of president, in our judgment, who would remove a man like Commissioner Evans under fire, whether by direct action or by the indirect process of appointment to another office. He has stood by his commissioner hitherto, in face of all the assaults upon him, and public sentiment will sustain him in standing by him to the last. Nothing does the commissioner more credit than the character of the enemies he has made. He is doing the country great service where he is, and we hope that he will remain there through the president's second administration.

Whatever may come of his act, we feel like letting go a big "hooray" for George Miller, the nifty American who out down the British flag which a Canadian official impudently hoisted at Skagway as an assertion of the right of Canada to territory that belongs to the United States by purchase but is now claimed by the Canadian government. He manifested the kind of American spirit which is still to be found among the great body of our people, though it is dying out among a small class of vulgar "new rich" who are endeavoring to gain favor with foreigners by affecting to be ashamed of their own country and its institutions. The encroachments of Canada on our territory in Alaska should be promptly checked, and if Mr. Miller's act results in forcing an issue that will compel our government to take a determined stand the entire American people will rise up and bless him for what he did at Skagway the other day.

Sam F. Cook, a musty old barnacle who has hung about the state house at Lansing for years, and who was journal clerk of the legislature during the late session, asks the supreme court to compel Auditor General Powers to allow his claim for 800 mileage from his alleged home at Rock River, Alger county, to Lansing, claiming that he is entitled to it despite the fact that he was at Lansing when the session opened. Sam was employed as clerk in a small country store at Rock River while the Democrats had control of the state government and he and several others of his kind were turned out to grass to await the return to power of the Republican party. His claim is an audaciously impudent one, and Auditor General Powers did just right in turning it down. It is not probable that the supreme court will assist Cook in forcing the state to pay it, and in fact he ought to be fined for presenting it.

The W. A. Clark mentioned in the following dispatch from Helena, Mont., is the newly elected Montana senator:

The United States grand jury has adjourned after fourteen days of session, reporting an unusual number of indictments. In all 128 true bills were returned. One hundred and two of these have to do with perjury and subornation of perjury in connection with timber frauds.

It is reliably reported that the persons indicted in these timber cases are those who took up timber land and afterwards sold it to Senator W. A. Clark, thus violating the law against taking up timber land for speculation.

The government has a suit against Clark in the federal court to set aside patents for 10,000 acres of timber land taken up in this manner. Fred E. Maynard, a special agent of the interior department, has been here for some time working up the cases against the persons who have just been indicted. The names of the indicted persons have not been made public but several mild sensations are anticipated.

We are getting in a bad way when men who break the laws are chosen to serve us as lawmakers.

Lower Michigan.

It is said that another batch of forgeries has been discovered at Niles against Charles N. Johnson, the defaulting cashier who stole nearly \$200,000, and wrecked the First National bank of Niles.

Mrs. McTae of Port Sanilac is 82 years old, and although she lives within six miles of a railroad, she has never seen an engine or a train of cars. She has never been outside the village limits but twice, and then only two miles.

Announcement is made by the Manistee Development company that arrangements are practically completed for the establishment in that city of a new furniture factory, with a capital stock of \$300,000, to employ fifty men to start.

Chicago capitalists are at Battle Creek asking for a franchise to put in a new gas plant to cost \$300,000. As they will give cheaper gas the common council is favorable to its being granted. There is only one gas company in that city.

The contract has been let for the building of a new electric road from Coldwater to Battle Creek. This means emancipation for Coldwater from the rule of the Lake Shore road, which has cut that place off from direct communication to Detroit for thirty years.

The big copperage plant, which was recently burned at Interlochen, is to be rebuilt in that village, instead of at Traverse city, the efforts of the latter city to secure the industry having proven unsuccessful. The work of rebuilding will be started at once and pushed with utmost speed.

John Raddaway, a junk dealer at Ypsilanti, is under arrest, charged with having disposed of copper wire stolen from the Michigan Telephone company's warehouse during the past few months. Raddaway is charged specifically with receiving 230 pounds of the wire and selling it to a Toledo junk dealer named Rosen.

Martha Adward, working in the Troy laundry at Bay City, got her hair caught on a belt that was revolving 150 times to the minute, last Thursday night. She was drawn to the ceiling where she remained until rescued. A large tuft of hair and a piece of scalp was torn from her skull. The breaking of a split coupling in the shaft saved her life.

Railroad companies are commencing to pay their taxes, due during the month of July. The Lake Shore & Michigan Southern paid the state treasurer \$76,877.75 Friday. Of that amount \$43,617.76 represents taxes and the balance is what it paid on the main line earnings. The Minneapolis, St. Paul & Sault Ste. Marie paid \$27,632.54 the same day.

The accident at the grade crossing at Flint recently in which four persons lost their lives, had the effect of hastening crossing protection on the railroads in that section of the state. The gates on the Lake Shore road have been put in at Flint and the council will turn its attention to the Cincinnati Northern and ask that road to establish the gate system at once.

Although she is not yet 21 years old, Mrs. Lou Dansby, of Conway, Livingston county, is suing for her second divorce, and what's more, her second divorce from the same man. She was divorced from Dansby the first time in October, 1898, because he beat and abused her, and notwithstanding this she remarried him a few months later. He soon began the old practices, and she wants to be free from him again.

Attorney General Owen, in an opinion on the authority of the commission to examine the books and paper of private banks, says that neither the private banker nor his properties stand on a different footing from the private merchant or the private person, as far as the general tax law is concerned, while the tax commission law gives the commissioners express authority to make such examinations as they may deem necessary.

A stranger by the name of Zarawick, from Wheeling, W. Va., in a fit of temporary insanity, threw himself head first from a third story window of the sanitarium at Mt. Clemens a few mornings ago. The window was fully forty feet from the ground, and when the horrified attendants rushed out, Zarawick was seen to get up and walk off unharmed. One of the nurses who was in the room at the time caught him by one foot as he dove out of the window, but was unable to hold him.

Frank Scott was arrested at Dimondale Thursday last and was taken to Lansing for arraignment on a charge of false pretense. A couple of weeks ago he procured copies of a Lansing daily paper and started out to canvass the country without the consent of the publishers. He made a price on the paper less than one-half its regular price and succeeded in raking quite a few dollars before his game was discovered. Two complaints are lodged against him by persons whom he victimized.

Adjutant-General Brown has issued general orders No. 11, providing instructions, relative to the annual encampment of the state troops to be held at Manistee. Companies will report at the camp Aug. 5, and leave Aug. 14, and will be allowed ten days' pay. Camp muster rolls must be at headquarters ten days before, and include only recruits enlisted before June 30. Company commanders will be held responsible for the conduct of their men to and from camp. Brigade inspection and review is set for Tuesday, Aug. 13.

The home of George Brooks in Lapeer county was the scene of a sensational shooting one day last week. Brooks had been paying marked attentions to a young woman named Bessie Jones, but was married to another woman last week. Learning of this Miss Jones went to his home armed with a revolver, the contents of which she proceeded to empty into him with great decision and promptitude when he came out of the house in response to her summons. When she started to run into the room the young woman pursued him, firing as she followed. The father and a brother of Brooks came to his aid and disarmed the girl, but not before she had sent a bullet through one of his arms. Miss Jones says she meant to kill him and is sorry she didn't succeed in doing it. She has been arrested for the murderous assault.

COPPER COUNTRY NEWS.
(Additional.)

MAY BE DESIGN IN IT.

A Boston Paper Speculates Interestingly on the Criticisms of the C. & H.

Thursday's Boston Herald contained this editorial discussing some of the criticisms of the Calumet & Hecla that have recently appeared in print:

"The strongly written criticisms on the management of the Calumet & Hecla Mining company, which we printed yesterday, may possibly be taken as an intimation of the beginning of a campaign against that company in some respects similar to that which was begun two years ago against the Boston & Montana company. It will be remembered that at that time those operators in the copper mine market who now control the great combination of Montana properties gave out highly discrediting reports concerning the Boston & Montana mine as a profitable business concern. The financial interests which then controlled that mine did not wish to join with these relatively newcomers in the field, and to force them into a more compliant state of mind the latter deliberately raised their property."

"The Boston & Montana, while a property of great productiveness, was also highly speculative in the large number of the company held the shares of the company less as an investment than as a means of making money on a future rise in the price of the stock. For this reason a great deal of it was held by the banks as collateral on loans made, hence, when the market was raised and the price forced down by large sales made upon 'bear' account, it became necessary to sacrifice these securities, and, indeed, a pressure was brought to bear on the banks themselves to call loans, which we are inclined to believe is without its parallel in Boston financial history. The management of the Boston & Montana was compelled to surrender, and instantly the stories that were circulated concerning the poor condition of the property were replaced by statements indicative of its great future profitability. These bear campaign rumors had done their work, and the originators of them conveniently and immediately forgot them."

"The Calumet & Hecla company is an independent mining company as the Boston & Montana was three years ago. That those representing the allied copper interests would like greatly to include the Calumet & Hecla with its large and certain annual income within the group which they have created is too evident for any one to doubt. Knowing their wishes, and knowing also the devices which they are ready on such occasions to adopt for the accomplishment of their purposes, it is not at all strange that an attempt should be attributed to them to make it appear that the Calumet & Hecla company is wasteful in its management, its getting to the end of its resources, and that, both from extravagance and natural causes, it will soon become a thing of the past."

"A stock selling campaign would not serve in the case of this company as it would in the case of a large number of the shares of the Calumet & Hecla company would be a certain means of losing money, for the reason that these shares are not to any extent hypothecated, but are stored away in safety deposit vaults, representing the savings of a large number of the owners of wealthy people. If such sales were made, the stock would be bought up, and the sellers would probably find it impossible to make deliveries except by paying a great deal more than the price at which the shares had been sold. A different plan of attack is clearly called for in this case, and it is not surprising that which would serve its purpose in endeavoring to secure control of a corporation, the shares of which were held to a large extent on speculative account."

"To shake out the Calumet & Hecla shares, to lead those who have had the stock for many years, or who have inherited it, to part with their holdings, it is essential that the confidence which these stockholders have should be disturbed. No mine has ever had the financial experience of the Calumet & Hecla; but if its old, conservative shareholders, not a few of them representing trust estates, could be made to believe that the property was nearing the end of its financial usefulness, they would, of course, quickly seize the opportunity to dispose themselves of their holdings, and in this way it would be possible for the outsiders who wish to gain control to secure it at a much lower price than if they sought the same end through direct negotiation with the company."

"We have referred to this subject because not only does it appear to be a matter of public attention, but also because we cannot but view with sorrow the steady drifting away from this city to the great centre of speculation in New York city of corporations which in the past have been distinctly known as Boston properties. For the financial standing of our city, we believe it is desirable to arrest this drift in every way that we can. Certainly we should regret to have Boston part with the control of its almost historic copper property, a property the successful development of which has been the incentive of nearly all the copper mining investments that have been made in this country for the last thirty or forty years."

Mohawk.

The Mohawk has about 350 barrels of mohawkitite at the mine, ready for shipment. This peculiar mineral, which carries practically two-thirds of its weight in native copper, and 28 per cent in arsenic, is also rich in nickel and averages about twenty ounces of silver to the ton, besides containing a small percentage of antimony and cobalt. The barrels average 1,500 pounds in weight, and the value of the mineral is about 10 cents per pound, making each barrel worth about \$150. The smelter now building especially for the reduction of this ore, near Hackensack, New Jersey, will soon be in commission, and will smelt a minimum of 100 tons per month, with a maximum capacity of about 180 tons monthly. The mine has about 5,000 tons of mohawkitite, worth approximately one million dollars, in sight above the third level.

The great value of the mohawkitite seam in the mohawkitite mine will lead

to greater attention being given the fissure veins crossing the copper belts transversely. These fissures are fairly frequent in Ontonagon county, of occasional occurrence in Houghton county, and very common in Keweenaw county. As a rule they carry native copper in a decomposed matrix, but occasionally contain copper ores. The old Mendota mine near Keweenaw Point was rich in fissure veins carrying ores of copper. A fissure vein of calcite, or "copper glaze" was found last fall at the Champion mine, and what is apparently a narrow fissure of mohawkitite ore has been observed in the Baltic. At the Sheldon & Columbian mine, in the eastern part of Houghton, a fissure vein of white quartz was cut in opening a new street. Domeykite has also been discovered on the same property, as well as stibio-domeykite, which is merely a form of domeykite (an arsenide of copper) containing a small proportion of antimony, a metal having a great affinity for arsenic.

Old Dominion.

A Boston brokerage house is sending the following to its customers: "The situation in Old Dominion seems briefly to be this. A railroad costing between \$1,000,000 and \$1,500,000 was completed two years ago, connecting the mine with the Southern Pacific and greatly reducing the cost of supplies. An equipment costing \$1,000,000 has been erected. The mine since July 1 of this year, has produced over 10,000,000 pounds of copper. They are working but one shaft, with about 450 men. Old Dominion gets a greater product out of 100 tons of ore treated per day, than does Utah in treating 500 tons of ore per day, and 250 tons of copper at the Old Dominion will give as great a yield per day as 2,000 tons of ore a day treated by the Isle Royale, running 1 per cent ingot copper."

The mine is working but one furnace, but has three completed, and paid for during the past six months. The development of the mine has opened up bodies of extraordinary rich ore. The company has no floating debt. It has been losing from 1 1/2 to 3 per cent in its slag. In addition to this it has several thousand tons of matte to treat for which the company is beginning the erection of a concentrator.

"While there is a risk in Old Dominion at present prices, it would seem as if it was selling reasonably low in comparison with any other mine that is producing this amount of copper. It hardly seems reasonable that the management would have spent \$1,000,000 in the equipment, and that outside interests would have spent 1,000,000 to a \$1,500,000 in a railroad, if they did not think the chances for a producing mine were reasonably good."

"The Old Dominion is working but one shaft and its ore is of such a high quality that notwithstanding the loss of 1 1/2 to 3 per cent in the slag, its production over 10,000,000 pounds of copper per year."

HOW IS THE TICKET?

Does it suit you? Well, we are not all alike, you know, in this world, and it is hard to please everyone, but the favor is unanimously for Dr. Caldwell's Syrup Pepsin as it is guaranteed to cure Constipation, Indigestion, Sick Headache and Stomach Trouble. Sold by the Stafford Drug Co.

PILES, TETTER, EXZEMA.

Boro-Carbol Salve will cure blind, bleeding or itching Piles where all other remedies have failed. It absorbs the tumors, allays the itching at once, acts like a poultice and gives instant relief. Boro-Carbol Salve is prepared expressly for Piles, Tetter, Exzema and all itching skin diseases. Sold on a guarantee—No Cure, No Pay. Price, 25 cents per box. For sale by the Stafford Drug Co.

COPPERDOM BREVITIES.

FEARS FOR THE FERN.

Tug Is Missed at Eagle Harbor and May Have Gone Down.

There was considerable anxiety at Portage Lake Saturday and yesterday as to the fate of the wrecking tug Fern and its crew, the craft being missing at Eagle Harbor.

Last Friday night, according to people at Eagle Harbor, Lake Superior was lashed by a severe gale. The Fern was anchored there at nightfall, but on Saturday morning it was not to be seen. This excited apprehension, and for quite a distance the shore was patrolled in both directions, no wreckage of any kind being found, however.

The Fern arrived in Portage lake from Marquette two weeks ago and tied up at the dock of the Portage Lake Foundry works, while

Henry Hornblower, Ovington E. Weller, John W. Weeks, James J. Phelan. Harrington—made a contract with the four people to buy all of the old iron and steel the tug could secure the next two or three weeks from an abandoned wreck near Eagle Harbor. After securing the contract the Fern steamed up the lake, passed the canal and was in Eagle Harbor last Friday. She is an old boat and unsafe in a heavy sea. However, boatmen are of the opinion the captain took refuge in waters sheltered from the gale and the Fern will turn up safe.

Yesterday noon a telephone message to Eagle Harbor brought the response the tug had not yet been located.

GOOD PRIZES OFFERED.

Calithumpian Parade to Be a Leading Feature at Hancock July 4.

The executive committee announces that the following prizes will be awarded to participants in the calithumpian parade in Hancock on the Fourth: Finest display in the line, \$30. Largest float, \$25. Most original display, \$15. Finest individual representation, \$10.

Sports for Boys.

For the sports Friday afternoon the following sums will be paid: One hundred yard dash, boys 12 to 14 years—First, \$1; second, 50 cents; third, 25 cents. One hundred yard dash, boys 10 to 12 years—First, \$1; second, 50 cents; 25 cents; boys 8 to 10 years, same amounts. Boys' dog race—First, \$2; second, \$1. Three-legged race, boys under 15—First, \$2; second, \$1. Quarter-mile bicycle race, boys under 12—First, \$3; second, \$2; third, \$1. Relay race, boys under 15, four boys to team—First, \$4; second, \$2. Sack race, 50 yards, boys under 12—First, \$2; second, \$1. Hand race, 10 yards, boys under 15—First, \$2; second, \$1.

Entries in all above races must be made to Frank James, John Condon or C. A. Wright, committee on sports, on or before July 3. At the close of the races 2,000 pennies will be distributed. Company G to Participate.

Captain Hendrickson, for Company G of Houghton, has accepted an invitation to participate in the Hancock parade. Orders have been issued to the members to meet at the Armory at 8 o'clock in the morning. The company will march to Hancock, probably headed by the Portage Lake band, and be there in time for the start of the procession at 9 o'clock. The company will be dismissed at the conclusion of the parade, now set at 10 o'clock.

BANK LETS CONTRACT.

The contract for remodeling the Hancock First National bank block went to Gauthier Bros., the Hancock builders, who were the lowest bidders. The job was let by the bank directors Saturday. A third story will be added and an addition 40 by 50 feet built on to the rear of the front. The front will be thoroughly modernized and the banking office refitted.

LIGHTHOUSE BLEW OVER.

Early Saturday morning the lighthouse on Ocoeca point was blown from its foundation. The lighthouse is situated on the beach and it will be an easy matter to repair the damage. In the meantime the keeper will show a lantern at night for the benefit of navigation.

IT DAZZLES THE WORLD.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. Its severest tests have been on hopeless victims of Consumption, Pleurisy, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by the Stafford Drug Co., who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

Heppner's pure ice cream. Motto: "The best never too good for our customers." Heppner, Marquette. (5-1-1f)

What among human ills are more annoying than piles? The afflictions that vent active exercise are bad enough, but one that makes even rest miserable is worse. Women are among its greatest martyrs. TABLET'S BUCKEYE PILE OINTMENT will cure the most obstinate cases. Price, 50 cts. in bottles, tubes 75c. Stafford Drug Co.

LADIES CAN WEAR SHOES one size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. It's the greatest comfort discovery of the age. Cures and prevents swollen feet, blisters, calluses and sore spots. Allen's Foot-Ease is a certain cure for sweating, hot, aching feet. At all druggists and shoe stores, 25c. Trial package FREE by mail. Address, Allen S. Olmsted, Le Roy, N. Y. 1

High wind caused serious minor damage at Calumet Friday night and Saturday. The front of Holman & Williams' store was blown in. A number of trees were leveled. Captain Josiah Hall losing his best apple trees, and Fred Mackenzie's flag staff was blown down.

Mrs. Florent Galipau, aged twenty-six, of Lake Linden, died from tuberculosis. She leaves a husband and two daughters. The services will be from St. Anne's church at 9 o'clock this morning, with burial at Mount Calvary. Rev.

Father Bordas will officiate. The deceased was a daughter of Mr. and Mrs. John Dorais of Lake Linden.

An interesting event in the annals of St. Patrick's church, Hancock, took place at early mass yesterday morning when half a hundred children partook of first communion. The number was quite evenly divided between the sexes. The girls were prettily dressed in white as brides of the church and the boys were neatly arrayed in new suits of black.

S. K. Wertman, Portage Lake representative of the Calumet Evening News, who recently left on a short vacation at the Calumet & Hecla band, the girls with a throat affection and Saturday submitted to an operation to eliminate the cause of the trouble. He is assured of speedy recovery and will prolong his stay at the city on the Maumee a couple of weeks.

Rev. Edwin More, Jr., pastor of Hancock Congregational church, accompanied by his youngest son, David, will leave for the Hancock train today on a three-weeks' vacation. Sunday he will fill a pulpit at Worcester, Mass., and in the afternoon will address the Y. M. C. A. Master David will remain with relatives at Delhi, N. Y., while his father is on the coast.

The celebration of Midsummer Day by the Finnish population of Calumet Saturday was a grand success. Headed by the Calumet & Hecla band, the Finnish societies paraded through the streets, during the early afternoon. The exercises took place in Tamarack Park, where an address was made by Arthur Hjelt, a delegate to the Boston jubilee convention from Finland.

Druggist George H. Nichols of Hancock, who purchased the Ellsworth drug store of the Leithhead company of Duluth, will move his store from the old location to the room in the Kauth block, next to the postoffice, as soon as the quarters are remodeled. The shelving will be doubled to accommodate the increased stock and numerous other changes will be made. A fine business office and a consultation room for physicians are among the features contemplated.

Calumet Rehabitants tendered a reception Saturday evening to the delegates who were in attendance at the district convention. The iron country was well represented. The following officers were elected for the ensuing year: John S. Crehan, Ishpeming, D. S.; R. Samuel Sawl, Houghton, P. D. C. R.; Joseph Hockin, Ishpeming, D. C. R.; Samuel Lutey, Calumet, D. S.; John Dave Stephens, Calumet, D. S.; John Dave Stephens, D. T.; Mrs. Griddle, Calumet, D. L.; Thomas Mudge, Ishpeming, D. S. of promiscuous tents. The order is prosperous.

This week at the Armory Opera House, Houghton, the Empire Comedy company will hold the boards each evening.

Helen, Mabel and Ethel Strickland are typical and up-to-date American girls who have been connected with the best dramatic organizations and will next season make a bid for popular favor in a new play written for them by H. Grattan Donnelly. They will, however, make a preliminary tour during the summer months in that greatest of farces, "My Friend from India." Nothing but the best of value of this well known play other than that affords each of the clever sisters an opportunity to be seen in a congenial role. They come to the Armory at Houghton on Friday, July 19.

FIVE TOWNS TO CELEBRATE.

Laurium and Red Jacket are to have celebrations on the Fourth. Both towns have arranged fine programs. The various local organizations will turn out in large numbers to have the celebration. Lake Linden will also celebrate and Atlantic is the latest community to shy her castor into the ring with the announcement of a celebration on Independence day. The gates of Hancock will be thrown wide open for three days, July 4, 5 and 6. The eagle will scream in all parts of the copper country.

Kokomo, Ind., Aug. 10, 1899. Pepsin Syrup Co., Dear Sirs:—For the past 10 years I was troubled with my stomach. About 10 years ago was taken with rheumatism; was not able to do a day's work for 3 years. All medicine seemed of no benefit to me. A year ago I was advised to take Dr. Caldwell's Syrup Pepsin. I truly believe I would have died but for this medicine. My rheumatism is entirely gone and my stomach is in good condition. It has saved my life and I cannot recommend it too highly. Yours respectfully, ELWOOD MCCRACKEN. Sold by the Stafford Drug Co.

It pays to get the "best." Heppner's pure ice cream. Heppner, Marquette.

Is your liver tired? Does it fail to do its duty? If so, don't neglect its call for help. A few doses of HERBINE may save you a spell of sickness. HERBINE is the only perfect liver medicine. It cures Chills and Fever. Price 50 cts. Stafford Drug Co.

South Range Consolidated Soon to Incorporate in New York.

Details of the plan of consolidation of the South Range mines are rapidly being perfected. It is officially stated that the new company which will take over Copper Range, Baltic, Trimountain and, possibly, St. Mary's Mineral Land company, will shortly be incorporated under the laws of New York state.

The exact capitalization is not stated, but the Boston Financial News, figuring on the basis of the present market values of the shares of the company, that are certain to go into the combination, the capitalization will probably not be less than \$20,000,000, and, if the St. Mary's goes in, it will be materially larger than this.

The following shows the capitalization of and market valuation of the several companies:
Copper Range—Capital, \$2,500,000; par, \$25; 100,000 shares; market value (75), \$7,500,000.
Baltic—Capital, \$2,500,000; par, \$25; 100,000 shares; market value (50), \$5,000,000.
Trimountain—Capital, \$2,500,000; par, \$25; 100,000 shares; market value (50), \$5,000,000.
St. Mary's—Capital, \$5,000,000; par, \$25; 200,000 shares; market value (40), \$8,000,000.

It is probable that both Baltic and Trimountain will go into the consolidation on a basis of 50 per share. This would call for \$10,000,000 of stock in the new company on the officially announced exchange basis of share for share.

Copper Range is to go into the consolidation on a basis of 15 shares of new stock for one of old. Assuming that Copper Range goes in on a basis of 75 per share for the old stock, this will require \$7,500,000 worth of stock in the new company, the requirements of all three being \$17,500,000. It is planned to provide a working capital of \$1,500,000, and this will bring the total up to \$19,000,000. On the basis that the new company will have a capitalization of \$20,000,000, this will leave in the treasury stock of a par value of \$1,000,000.

These figures have, of course, taken no account of the possible absorption of the St. Mary's Mineral Land company. If this company is taken over, altogether, the consolidated company will have to have a much larger capitalization than \$20,000,000, as St. Mary's shares are selling nominally at 70 per share, or on a market valuation of \$14,000,000 for the 200,000 shares of the old stock, 80,000 of which are in the treasury.

It is, of course, highly improbable that St. Mary's will go into the combination on the basis of its nominal market value; therefore 75 as the exchange price would be a very conservative figure. This would require \$15,000,000 and would bring the capitalization of the New York corporation up to \$35,000,000.

Copper Gossip.
The Baltic's production from June, it is thought, totals close on to 170 tons, compared with 130 in May.

The steamer Gould on Saturday took on a car of copper wire at Dollar Bay destined for Butte, Mont. It will be shipped by rail from Duluth.

William R. Todd of New York, secretary-treasurer of the Quincy Mining company, and Directors Devereaux and Mesere are expected to arrive in Hancock on the noon train today on a visit to the Quincy and Adventure properties.

Below the seventh level the showing of copper in the Victoria mine is equal to that in the best of the Ontonagon mines. The shaft is now being pushed rapidly down to the eleventh level. Next year a crosscut will be driven from the tenth level to intersect the other veins on the property.

It is estimated that about 30 per cent of the product of the Mass mine will be collected in the form of mass and barrel copper. In addition to this the two loads of stamps are expected to return about 200 tons of ingot copper monthly. Beginning Aug. 1, twenty-five drills will be operated. They will be used chiefly for stripping and extending openings.

In its issue of Saturday, The Engineering & Mining Journal published the full estimate of the mineral and metal output of the United States in 1900. In point of value copper comes third on the list. Its production last year being 690,832,505 pounds, with a value of \$97,755,449. The increase over 1899 was comparatively small.

What is called "bonanza rock" is being encountered in the lower levels of the Victoria. A crosscut from the eighth level has struck what is believed to be the Evergreen or South lode of the Mass mine. This strike was made at a distance of 35 feet from the shaft. The lode shows up well in stamp copper. The present shaft and workings are believed to be in the Butler lode as the rock is identical with that of the Butler lode of the Adventure and Mass mines.

A Butte dispatch says: "The first of a number of threatened actions against the smelting companies of Butte by ranchers whose lands were ruined by tailings and poisonous chemicals that come from the smelters and pollute the waters of the streams below Butte, was instituted in the district court yesterday by William Norton and others who own several sections of land in Deer Lodge valley. They demand \$110,000 damages. The defendants named are: The Butte & Boston, Montana Ore Purchasing company, Colorado, Parrot, Colusa and the Parrot and Butte reduction works. It is claimed that other actions that will aggregate several million dollars will be brought.

The resignation of Superintendent Parnall of the Old Dominion mine—his request to be relieved of the management amounts to this—it is understood, says the Boston News Bureau, to be due to a disagreement as to the best methods of treating the ore. As a result of an expert examination of the mine and plant it was decided to introduce new methods in the treatment of the ore, which decision did not meet with the approval of Mr. Parnall. It is stated that the Old Dominion management contemplated an expenditure of upwards of \$1,000,000 on the mine and plant, which expenditure is expected to place the property in the front rank of copper production. It is said that the management contemplates the expenditure without the issue of treasury stock. Of course this expenditure would be extended over a protracted period.

MAY INCLUDE CANAL COMPANY.
South Range Consolidated Soon to Incorporate in New York.

Details of the plan of consolidation of the South Range mines are rapidly being perfected. It is officially stated that the new company which will take over Copper Range, Baltic, Trimountain and, possibly, St. Mary's Mineral Land company, will shortly be incorporated under the laws of New York state.

The exact capitalization is not stated, but the Boston Financial News, figuring on the basis of the present market values of the shares of the company, that are certain to go into the combination, the capitalization will probably not be less than \$20,000,000, and, if the St. Mary's goes in, it will be materially larger than this.

The following shows the capitalization of and market valuation of the several companies:
Copper Range—Capital, \$2,500,000; par, \$25; 100,000 shares; market value (75), \$7,500,000.
Baltic—Capital, \$2,500,000; par, \$25; 100,000 shares; market value (50), \$5,000,000.
Trimountain—Capital, \$2,500,000; par, \$25; 100,000 shares; market value (50), \$5,000,000.
St. Mary's—Capital, \$5,000,000; par, \$25; 200,000 shares; market value (40), \$8,000,000.

It is probable that both Baltic and Trimountain will go into the consolidation on a basis of 50 per share. This would call for \$10,000,000 of stock in the new company on the officially announced exchange basis of share for share.

Copper Range is to go into the consolidation on a basis of 15 shares of new stock for one of old. Assuming that Copper Range goes in on a basis of 75 per share for the old stock, this will require \$7,500,000 worth of stock in the new company, the requirements of all three being \$17,500,000. It is planned to provide a working capital of \$1,500,000, and this will bring the total up to \$19,000,000. On the basis that the new company will have a capitalization of \$20,000,000, this will leave in the treasury stock of a par value of \$1,000,000.

These figures have, of course, taken no account of the possible absorption of the St. Mary's Mineral Land company. If this company is taken over, altogether, the consolidated company will have to have a much larger capitalization than \$20,000,000, as St. Mary's shares are selling nominally at 70 per share, or on a market valuation of \$14,000,000 for the 200,000 shares of the old stock, 80,000 of which are in the treasury.

It is, of course, highly improbable that St. Mary's will go into the combination on the basis of its nominal market value; therefore 75 as the exchange price would be a very conservative figure. This would require \$15,000,000 and would bring the capitalization of the New York corporation up to \$35,000,000.

Copper Gossip.
The Baltic's production from June, it is thought, totals close on to 170 tons, compared with 130 in May.

The steamer Gould on Saturday took on a car of copper wire at Dollar Bay destined for Butte, Mont. It will be shipped by rail from Duluth.

William R. Todd of New York, secretary-treasurer of the Quincy Mining company, and Directors Devereaux and Mesere are expected to arrive in Hancock on the noon train today on a visit to the Quincy and Adventure properties.

Below the seventh level the showing of copper in the Victoria mine is equal to that in the best of the Ontonagon mines. The shaft is now being pushed rapidly down to the eleventh level. Next year a crosscut will be driven from the tenth level to intersect the other veins on the property.

It is estimated that about 30 per cent of the product of the Mass mine will be collected in the form of mass and barrel copper. In addition to this the two loads of stamps are expected to return about 200 tons of ingot copper monthly. Beginning Aug. 1, twenty-five drills will be operated. They will be used chiefly for stripping and extending openings.

In its issue of Saturday, The Engineering & Mining Journal published the full estimate of the mineral and metal output of the United States in 1900. In point of value copper comes third on the list. Its production last year being 690,832,505 pounds, with a value of \$97,755,449. The increase over 1899 was comparatively small.

What is called "bonanza rock" is being encountered in the lower levels of the Victoria. A crosscut from the eighth level has struck what is believed to be the Evergreen or South lode of the Mass mine. This strike was made at a distance of 35 feet from the shaft. The lode shows up well in stamp copper. The present shaft and workings are believed to be in the Butler lode as the rock is identical with that of the Butler lode of the Adventure and Mass mines.

A Butte dispatch says: "The first of a number of threatened actions against the smelting companies of Butte by ranchers whose lands were ruined by tailings and poisonous chemicals that come from the smelters and pollute the waters of the streams below Butte, was instituted in the district court yesterday by William Norton and others who own several sections of land in Deer Lodge valley. They demand \$110,000 damages. The defendants named are: The Butte & Boston, Montana Ore Purchasing company, Colorado, Parrot, Colusa and the Parrot and Butte reduction works. It is claimed that other actions that will aggregate several million dollars will be brought.

The resignation of Superintendent Parnall of the Old Dominion mine—his request to be relieved of the management amounts to this—it is understood, says the Boston News Bureau, to be due to a disagreement as to the best methods of treating the ore. As a result of an expert examination of the mine and plant it was decided to introduce new methods in the treatment of the ore, which decision did not meet with the approval of Mr. Parnall. It is stated that the Old Dominion management contemplated an expenditure of upwards of \$1,000,000 on the mine and plant, which expenditure is expected to place the property in the front rank of copper production. It is said that the management contemplates the expenditure without the issue of treasury stock. Of course this expenditure would be extended over a protracted period.

THEY SPEAK FOR THEMSELVES....

We let the shirts we wash and the collars and cuffs we iron, speak for themselves. They will talk louder than we can. We want to be judged more by the work we do than by what we say. Give us one trial. After that you'll come here anyway.

WHY NOT Start a Fortune Today?
\$131,000,000.00 IN DIVIDENDS
was disbursed by mines and mining industries of the United States during 1900. If you did not receive part of this wealth why not prepare now to do so in the future by taking advantage of the offer made by this company? We own the claims in the famous historic district of Washington. In addition to the above we have purchased for this company:
A mill site containing five acres.
110 stamp mill complete.
1 cyanide plant.
Four vanners.
1 25 horse power engine and boiler.
1 hydraulic pump.
Lassuer's outfit, complete.
1 large Fairbank wagon scale.

The entire plant in working order. Also 12 claims of 20 acres each in the famous San Bernardino county gold district, State of California.
REMEMBER we are still pushing the work on our Miller River property, and it will not be allowed to drop behind on account of our recent purchase in California.
THIS IS WITHOUT DOUBT the greatest proposition ever offered for public subscription.
As our mill and cyanide plant are at present ready for operation, has been declared by the board of directors to advance the price of stock to 15 cents per share July 20. We confidently expect to pay a dividend Dec. 31, 1901. Since April 1st we have sold 115 shares and placed \$18,750.00 on our books. Every shareholder in the company now owns an interest in both properties as well as the milling plants.
Our stamp mill and cyanide plant will be working on our own ore within 60 days. YOU CANNOT make a mistake if you invest with this company.
Only treasury stock for sale.
Remember, Price of Stock Advances to 15c Per Share July 20, 1901.

Present prices and all terms of the treasury stock:

A DEFT TO LIPTON.

K. M. CLARK WOULD RACE FOR AMERICA'S CUP.

THINKS HIS BOAT THE BEST.

FASTER THAN EITHER OF THE TEA MAN'S SHAMROCKS.

Scottish Owner of the Kariad Out With a Challenge for Trial Contests to Settle the British Yachting Supremacy.

Rothsay, Scotland, June 30.—A development as intensely interesting as it was entirely unexpected has occurred concerning the challenge for America's cup. This is due to the action of Kenneth M. Clark, chairman of the J. P. Coates Thru company and owner of the cutter Kariad.

Kaiser Wins Race on Sunday. Travenmude, June 30.—The Meteor, with Emperor William on board, won today's yacht race in Lubeck bay.

OLD SHAMROCK DEFEATED. Lipton's New Boat Shows Its Heels to the Former Challenger.

Rothsay, Firth of Clyde, June 30.—Shamrock II and Shamrock I had their first trial yesterday afternoon since the former was wrecked. A steady twelve to fourteen-knot breeze was blowing when the yachts left their anchorage under mainsails.

The sea was fairly smooth and Shamrock II pulled ahead and led the way round Bogay, gradually increasing the gap until she was three lengths ahead. Over the three miles the challenger kept a big lead, probably of a minute and a half.

The two yachts were afterwards sent off towards Fairlie. They started even and close hauled. On the fetch-out the challenger opened out all the time and, carrying canvas with the lee rail well clear of the water, set a pace which the former challenger was quite unable to keep.

The result of the day's sailing is regarded by yachtsmen here as an indication that the challenger is a considerably improved boat.

BUFFALO BANK IN STRAITS. Comptroller Surprises the Officials by Appointing a Receiver.

Washington, June 30.—Late last night Comptroller Daves appointed a temporary receiver for the City National bank of Buffalo, the action following reports made by two bank examiners. The failure is stated to be due to injudicious loans. The liabilities, according to the last statement, were \$3,802,000, including \$1,758,000 in deposits, of which \$190,000 were government deposits secured by bonds.

News Startles Buffalo. Buffalo, June 30.—The announcement from Washington that a receiver had been appointed for the City National bank of this city came as a great surprise to the business interests of Buffalo and even to some of the directors of the bank.

His president, William C. Cornwall, was for a number of years president of the State Bankers' association and is regarded as one of the ablest bankers of the state. Up to a year and a half ago the bank was known as the City bank of Buffalo; it was then made a national bank. Joseph E. Gavin, one of the directors of the City National bank, was interviewed at his home and expressed great surprise at learning of the appointment of a receiver. He said he had no reason to suppose the bank was shaky.

Notice was posted on the doors of the bank today to the effect the bank was in the hands of the comptroller of the currency and will not open for business tomorrow. The bank officials still refuse to make a statement tonight concerning the failure. Members of the board of directors profess ignorance of the causes that led to the declaration of Comptroller Daves, and the president of the bank denied himself to everybody.

WEATHER FORECAST. Washington, June 30.—The following is the weather bureau's forecast for Upper Michigan: Local rains Monday and Tuesday, with lower temperature; brisk easterly winds.

DROWNED WHILE SWIMMING. Warren, Ill., June 30.—H. G. Gann, once publisher of the Warren Sentinel and Leader, was drowned today at Millville while swimming.

Sleeplessness. You can't sleep in the stillest night, if your digestion is bad. Take Hood's Sarsaparilla—it strengthens the stomach and establishes that condition in which sleep regularly comes and is sweet and refreshing.

REBELS STILL AT IT.

Fighting in Colombia, Recently Reported to Be "Pacified."

Kingston, June 30.—The steamer Orinoco, which arrived today from Colon, Colombia, reports that martial law has been proclaimed in Panama owing to a report the rebel forces are being reorganized. It also appears that considerable fighting is in progress in the interior and that the government is dispatching reinforcements to the interior and also to certain coast towns.

STRIKERS JAILED. Arrests Follow Injunction Against the Miners in West Virginia.

Thacker, W. Va., June 30.—Charles Burke, president of the local union of United Mine Workers of America, was arrested at noon today by Deputy United States marshals, on the charge of tearing down notices of the injunction granted by Judge Jackson. Nine strikers were arrested today in Kentucky, charged with terrorizing miners, and lodged in jail at Williamson tonight to await the action of the Kentucky courts.

FIGHT AT DANCE IS FATAL. Constable and Prisoner Dying at Metropolis, Ill.—Another Also Shot.

Metropolis, Ill., June 30.—A desperate battle occurred between an officer and two young men from Kentucky near Brookport, six miles above here, late last night. As a result Constable Grant Hankins lies dying with five bullets in his body and James Pritchard is shot through the stomach and will die. James Mason, shot through the back and shoulders, may recover. The latter two are in jail at Metropolis. The trouble occurred at a dance.

HEAT HASTENED THE END. Wife of Bishop Potter Dies at Her Home in New York.

New York, June 30.—Mrs. Eliza Roger Potter, wife of Right Rev. H. C. Potter, Protestant Episcopal bishop of New York, died suddenly this morning from heart failure, superinduced by the intense heat.

Hot Spell Fatal on a Train. Mattoon, Ill., June 30.—Edward J. Walsh, secretary and president of the Mississippi Glass company and St. Louis Terminal company and prominently identified with leading St. Louis enterprises, died suddenly this afternoon from heat prostration on board the Knickerbocker express of the Big Four road near this city. Mr. Walsh was enroute to Hot Springs, Va. When Littlefield was reached he began to complain of the heat, and despite every attention grew worse rapidly. Shortly before the train reached this city he collapsed and passed away in a few moments.

BRITONS INVEST IN TEXAS. New Oil Company, Owning 7,000 Acres, Is Launched at London.

London, June 30.—Englishmen's first flyer in Texas oil was taken yesterday with the launching of the "Texas Oilfields" Limited, with a capital of £375,000 (\$1,810,000). This corporation has acquired 7,000 acres in the Beaumont district, within a few miles of the famous Lucas spotter, for which land it paid an average of \$200 an acre. The vendor is Edward Harrison Power, the American promoter who introduced Lucas' prism glass into Europe. He receives for his land \$275,000, including £60,000 cash. The company's articles of association provide that it may either work the property itself or lease it to subsidiary syndicates.

Dr. Bevonon Redwood, the celebrated English petroleum expert, asserts that the land acquired by the English company is among the richest in the whole Beaumont field and says that one ton of Lone Star crude oil equals in heating power ten tons of steam coal. The company's purpose is becoming an active competitor in the American fuel trade. Many members of parliament are numbered among its shareholders.

DUFFEY WINS IN ENGLAND. American Athletes in Hard Luck but Make a Good Showing.

London, June 30.—A. F. Duffey, the American runner, starting from the scratch, carried the Georgetown colors to the front at the London Athletic club meeting at Stamford bridge yesterday in the final 100-yard handicap with a high wind dead against him, and in quick time, winning by a yard and a quarter in ten seconds.

Baxter, of Pennsylvania University and Kraenzlein, the hurdler of the Chicago Athletic club, both won from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

STAMP TAXES DEAD.

NEARLY ALL REPEALED BY LAW TAKING EFFECT TODAY.

CUTS REVENUES \$40,000,000 YEARLY

GENERAL PUBLIC FREED FROM MANY ANNOYING CHARGES.

Theory of Congress to Leave the Burden on the Wealthier Classes and the Banks Will Continue to Pay a Stiff Sum.

Washington, June 30.—Tomorrow nearly all the stamp taxes stand repealed in accordance with the law enacted at the last session of congress. So far as the general public is concerned the repeal law will be chiefly grateful because it abolishes the stamp taxes on bank checks, telegrams, express receipts, and money orders. These are the little taxes, small in amount but annoying to the individual. What the people as a whole will save money on will be the stamps on conveyances, mortgages, leases, and bonds.

Papers Released from Tax. The list of business papers that are released from taxation is as follows: Bank checks, 2 cents. Bills of lading for export, 10 cents. Bonds of indemnity and bonds not otherwise specified, 50 cents. (Repealed except as to bonds of indemnity.) Certificate of damage, 25 cents. Certificate of deposit, 2 cents. Certificates not otherwise specified, 10 cents.

Charter party, \$3 to \$10. Cheating law, 4 cents each \$1. Commercial brokers, \$20. Express receipts, 1 cent. Insurance—Life, 8 cents on each \$100; marine, inland, fire, 1/2 cent on each \$1; casualty, fidelity, and guaranty, 1/2 cent on each \$1. Lease, 25 cents to \$1. Manifest for custom-house entry, \$1 to \$5. Money orders, 2 cents for each \$100. Mortgage or conveyance in trust, 25 cents for each \$1,000. Perfumery and cosmetics, 1/4 cent for each 5 cents. Power of attorney to vote, 10 cents. Power of attorney to sell, 25 cents. Promissory notes, 2 cents for each \$100. Proprietary medicines, 1/4 cent for each 5 cents. Protest, 25 cents. Telegraph messages, 1 cent. Telephone messages, 1 cent. Warehouse receipts, 25 cents.

Changes in Revenue Law. Among other things which received attention from congress and obtained a modification in tax are: Beer, 82 cents per barrel and 7 1/2 per cent discount; changes to \$1.60 per barrel, and 7 1/2 per cent discount repealed. Bills of exchange, foreign, 4 cents for each \$100; changed to 2 cents for each \$100. Cigars weighing more than three pounds per 1,000, \$3.00 per 1,000; changed to \$3 per 1,000. Cigarettes weighing not more than three pounds per 1,000, \$1.50 per thousand; changed to valued at \$2 per 1,000, 18 cents per pound; valued at more than \$2 per 1,000, 30 cents per pound. Conveyance, 50 cents for each \$500; now exempted below \$2,500; above \$2,500, 25 cents for each \$500. Legacies—Law modified so as to exclude from taxation legacies of charitable, religious, literary, or educational character. Passage ticket, \$1 to \$5; now exempted below \$50 in value. Sales of products of changes, 1 cent for each \$100 retained, but sales of merchandise in actual course of transportation exempted from tax. Tobacco and snuff, 12 cents per pound; now, discount of 20 per cent. Orders for payment of money by telegraph, etc., issued by express companies, 2 cents per \$100. Taxes Retained. The war revenue taxes retained after July 1 without change include: Bankers' capital and surplus, \$50 for \$25,000 and \$2 for each additional \$1,000. Bonds, debentures, certificates of indebtedness, etc., five cents for each \$100. Bonds for indemnity of for due execution or performance of duties of any office or position, 50 cents. Brokers' contract, 10 cents. Certificates of profits, two cents for each \$100. Certificates of stock, original issue, five cents for each \$100. Certificates of stock transfer, two cents for each \$100 (amended to include sales at auction). Cigarettes weighing more than three pounds per 1,000, \$3.00 per 1,000. Custom-house brokers, \$10. Dealers in leaf tobacco, \$6 to \$24, according to sales. Dealers in tobacco, \$12 when sales exceed 50,000 pounds. Drafts, time or bills of exchange, inland, two cents for each \$100. Entry of goods at custom-house for consumption, 25 cents to \$1. Entry for withdrawal, 50 cents. Freight receipts for domestic bills of lading, one cent. Manufacturers of tobacco, \$6 to \$24. Manufacturers of mixed flour, \$12 per annum. Manufacturers of tobacco, \$6 to \$24. Mixed flour, 4 cents per barrel. Pawn brokers, \$20. Petroleum and sugar refineries, 1/4 per cent gross receipts in excess of \$250,000. Proprietors of bowling alleys or billiard rooms, \$3 for each alley or table. Proprietors of circuses, \$100. Proprietors of other public exhibitions, \$10. Proprietors of theaters, museums, and concert halls, \$100. Sleeping and parlor car tickets, one cent; sparkling and other wines, one pint; one cent; more than one pint, two cents. Tea customs, duty of 10 cents per pound.

New Charges Imposed. Besides these changes in the law there are two entirely new taxes imposed by the repeal law, which went into effect on April 1. They are: Broker, class 2, special tax in addition to all other special taxes, \$50. Bucket shop transactions, two cents for each \$100. Tax reductions and repeals will cost the government \$40,000,000 a year, but there will still be left a net egg providing about \$60,000,000 more. The theory of congress was to leave the taxes on the wealthier classes. While much relief will be experienced by the repeal of many stamp taxes the banks have not been relieved of the tax of \$2 that is demanded by the government on each \$1,000 of their actual capital and surplus. This item alone, which congress saw fit to leave in force, is paying the government an enormous revenue every month. Bankers said they cannot estimate the gross amount received by the government from this source from banks all over the country, but it is vast. The banks are the only corporate interests that were burdened with taxation on their capital and surplus at the time the bill was passed, while other corporate interests, such as railroads, were left exempt on the capital tax.

Stamp Destruction a Problem. Some complaint is made against the decision of the government that all stamps not returned to the government must be destroyed. Businessmen would like to return the checks for redemption of the stamps and be permitted then to use the checks. In many instances firms have fastidious enough to invest heavily in stamps for engraving checks. Since the edict of the revenue department, the problem of what will become of their expensive paper has been uppermost in the minds of those who prepared for a rainy day and laid in a large stock of checks which bear the stamp of the government on their faces.

If the checks are burned the work of destruction will be some expense to the government. If the checks are ground into pulp there will be hundreds of tons of the finest quality of paper stock, which, as pulp, will be worth anywhere from \$6.50 to \$9.50 a ton to any dealer. The total number of checks that would be destroyed this would run up into the millions. The number of forfeitures would be so large that there would not be more than a half ton of paper surrendered by any one man, bank, or firm. Businessmen and banks that have in stock a large number of checks which are stamped are hoping that the internal revenue commissioners will permit them to surrender the checks to the proper government officials for cancellation of the stamps alone. Then the books might be returned to their owners without any possibility of the government losing by dual redemption of the checks. It is declared that the cancellation of the stamps on the checks would be hard to counterfeit as the government stamp itself.

BUYING GEMS IN EUROPE. Americans Heavy Purchasers in Every Diamond Market Abroad.

London, June 30.—Proof of American prosperity is illustrated by the activity of the American gem buyers. In every diamond market in Europe they are seeking to secure precious stones for the American market. At the sales in Paris, St. Petersburg and Amsterdam the American buyers are securing the most costly gems offered. A climax was reached in London a few days ago, when a New York buyer secured the Prince Edward of York diamond, regarded as one of the most perfect diamonds which has ever appeared in London. This pear-shaped stone, of matchless color and purity, weighs 60 karats. The stone has never been exhibited in public and has never left the hands of the rough-diamond syndicate until this week. An English syndicate paid \$1,500 for a three months' option on the stone, but the American paid £20,000 cash for it.

Excursion Craft Sinks in Connecticut Waters—Close Call for 700.

South Norwalk, Conn., June 30.—The steamer Mohawk, having on board 700 factory employees who had been spending the day at Glen Island, struck a rock shortly after starting on the return trip last evening and slowly sank to the bottom. A panic ensued among the passengers and in the mad rush for the life preservers which followed women and children were knocked down and trampled upon. One child had an arm broken and another was picked up seriously injured about the body. Three launches which were nearby when the accident occurred immediately went to the rescue of the passengers who jumped overboard. The steamer was just beginning to wash over the upper deck when the excursion steamer E. M. Stern, arrived from the island and took on board the remaining passengers. The party was taken to South Norwalk whence they returned by train to Danbury.

BELGIUM YIELDS TO BRITAIN. London, Monday, July 1.—"The Egyptian expedition has occupied Bahra (Ghazal)," says the Brussels correspondent of The Daily Mail. The Belgians have withdrawn, thus settling the disputed claim between Great Britain and Belgium.

AUTO RACING ROLLS.

KILLING OF A BOY STIRS THE FRENCH PRESS AND PUBLIC.

GOVERNMENT IS BITTERLY SCORED.

GRANTING OF THE USE OF THE ROADS STRONGLY RESENTED.

Topic Is Aired in Parliament and Presentation Threatens as a Result of the Fatality—Paris-Berlin Contest Won by Fournier.

Paris, June 30.—The interpellation of the premier, M. Waldeck-Rousseau, in the chamber of deputies yesterday concerning the killing of a boy at Rheims by Brasier, one of the participants in the Paris-Berlin automobile race, is not the only sign of public indignation over the event. The zest was taken out of the race by this incident for thousands of enthusiasts. The public is becoming more and more doubtful "whether the automobile is a sign of progress or of relapse into savagery." M. Waldeck-Rousseau's reply to the effect that he "had been assured that all precautions possible had been taken and thus refrained from forbidding the race for fear that the action might obstruct the development of a great French industry," has not had the effect of quieting the protests, while his reflection that "henceforth the roads will have to be forbidden to the people during a race," has created still greater ire.

Protests in the Newspapers. Says the Petit Journal: "The roads belong to the people and not to the automobile mania. Another paper declares that automobiles 'are essentially undemocratic, because they are bound to deprive the country people of the highways.' Henri Rochefort flays President Loubet because he gave a prize to be competed for in this race, thus 'encouraging the depopulation of France and a reign of confusion in the provinces.' The Matin, which is usually judicial and self-controlled in its tone, breaks out as follows: 'A burst fire, a broken lever or a mangled child are all the same to the modern automobile racer, who repairs the tire, brushes the quivering fesh from the wheels and then rushes away to seek fresh victims.'"

Boy to Blame for Death. The committee of public safety, which was organized in Paris recently to fight automobile racers, means to prosecute Brasier for killing the child, but all accounts agree that the latter's death was due to his own carelessness. Brasier stopped short when the accident happened, burst into tears and at first refused to continue the race. Soon, however, the excitement of the moment regained possession of him and he jumped on his automobile and sped away at a terrific rate. It is the apparent indifference which led him to go on racing that most outrages the feeling of enemies of the automobile.

Fournier the Winner. Berlin, June 30.—Fournier was the first of the automobile racers to arrive here. He reached Berlin at 11:38 yesterday morning and was cheered by a big crowd. Girardot passed the winning post at the west end second, arriving at 12:08 p. m., Brasier was third, at 12:26 p. m., and De Kyuff was fourth, at 12:28 p. m. A great public demonstration in honor of the Frenchmen occurred in the afternoon.

SENTENCES FOR TWO WOMEN. Jessie Morrison Given Five Years and Mrs. Kennedy Ten.

Eldorado, Kas., June 30.—Jessie Morrison, convicted of manslaughter for killing Mrs. Castle, has been sentenced to five years in the state penitentiary. The hearing on the motion for a new trial was set for next Saturday.

Kennedy Case to Be Appealed. Kansas City, June 30.—Mrs. Lulu Price Kennedy was formally sentenced by Judge Wofford yesterday to serve ten years in the state penitentiary for the murder of her husband, Philip Kennedy, in the corridor of the Ridge building in January last. She heard the sentence without the slightest display of emotion. Charles H. Nearing, leading counsel for Mrs. Kennedy, stated that he expected to appeal the case to the supreme court.

PANIC ON STEAMER. Excursion Craft Sinks in Connecticut Waters—Close Call for 700.

South Norwalk, Conn., June 30.—The steamer Mohawk, having on board 700 factory employees who had been spending the day at Glen Island, struck a rock shortly after starting on the return trip last evening and slowly sank to the bottom. A panic ensued among the passengers and in the mad rush for the life preservers which followed women and children were knocked down and trampled upon. One child had an arm broken and another was picked up seriously injured about the body. Three launches which were nearby when the accident occurred immediately went to the rescue of the passengers who jumped overboard. The steamer was just beginning to wash over the upper deck when the excursion steamer E. M. Stern, arrived from the island and took on board the remaining passengers. The party was taken to South Norwalk whence they returned by train to Danbury.

BELGIUM YIELDS TO BRITAIN. London, Monday, July 1.—"The Egyptian expedition has occupied Bahra (Ghazal)," says the Brussels correspondent of The Daily Mail. The Belgians have withdrawn, thus settling the disputed claim between Great Britain and Belgium.

A CASE OF EXTRAVAGANCE.

YOU never cut off three-quarters of a new cake of soap and throw it away! Yet you pay twice the price of Ivory Soap for a cake of "tinted" toilet soap less than half as large. Your little cake of toilet soap costs you four times the price of Ivory, for it lasts only half as long and costs twice as much. No money can buy purer or better soap than Ivory. If it came in dainty paper, all scented and colored, you would pay fifteen cents for a very small cake of it.

WALL STREET STOCKS.

Professional Operators Buy Freely and Bid Up the Prices.

New York, June 30.—Professional operators played a large part in Saturday's stock market, but the professional operators bought stocks quite freely and bid up prices with confidence. The conviction that the money market would show progress toward greater ease this week with the disbursement of the funds accumulated for purpose paying the half-yearly dividends and interest was the mainspring of this confidence. The corn-carrying grangers were in conspicuous demand on account of favorable reports regarding the corn crop. Illinois Central rose 3/4 points; St. Paul, 3/4, and Rhode Island, 2 1/2. There was a fair sprinkling of gains, reaching a point or more, among the important standard stocks. The loss of cash shown by the bank statement was less than the known movements of money had indicated. The market closed quiet and steady at about the top level, as follows, Paine, Webber & Co. reporting the quotations:

Table of Wall Street stock prices including Am Zinc, U S Oil, Cent Oil, Bisc. Com, Tin Com, Oil, D & H, Wab. Pld, M & T, Alton, N & W, Tex Pac, So Wky, N Y Cent, Erie, Sugar, C B & Q, Rock Isld, St Paul, B K T, Rubber, C F & I, Am Tob, Cont Tob, O & W, etc.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows Saturday, the quotations being reported by Paine, Webber & Co.:

Table of Boston Copper Quotations including Adve, Arc, All, Arn, B & M, B & B, C & H, Cent, Cop Rg, Frank, Isle Roy, Phoenix, Mass, May F, Ana, Mich, Oid Col, O D, etc.

THE GREATEST PURIFIER.

DeBell's Kidney Pills cure all diseases of the kidneys. That is why DeBell's Kidney Pills cure Bright's disease, Diabetes, Rheumatism, Neuralgia, Heart disease, Female troubles and Urinary and Bladder complaints. These diseases are the results of unhealthy or disordered kidneys. DeBell's Kidney Pills cure them invariably and finally. They have never failed yet. No Cure, No Pay. Price 25 cents per box. For sale by the Stafford Drug Co.

\$50 FOR A BOTTLE OF MEDICINE.

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle. Wm. H. Farris, Chn. Bd. Tr. of Wilton, Monroe Co., Wis. The Stafford Drug Co.

CHICAGO GRAIN MARKETS.

Chicago, June 30.—A continuation of the fine growing weather throughout the spring wheat belt and lower cables combined to produce a weak market yesterday and heaviness prevailed throughout. A limited demand existed on the part of one or two leading bulls, and considerable evening up was done to ward the close. July closed 1/2 lower and September 1/4 down. Corn opened firm at a shade over Fri-

G. R. WATTS, Piano Tuner. Leave orders at G. N. Conklin's, Marquette; County Telephone 15, and E. Girzi's, Ishpeming.

FUNERAL OF J. D. BOXER. Final Obsequies Held Yesterday Afternoon at St. Paul's Cathedral.

The funeral of the late J. D. Boxer was held yesterday afternoon from St. Paul's cathedral, the services being conducted by Bishop Williams. The ceremonies were simple but impressive. A large congregation was present to witness the last rites, several societies being represented, among whom were the Brotherhoods of Locomotive Engineers and Firemen and the Brotherhood of Railroad Conductors. The active pallbearers were S. W. Johnson, L. S. Glasier, O. D. Mathias, J. S. Harland, F. W. Hathaway and Dr. C. O. Boyce. G. W. Hibbard, E. H. Toward, D. H. Ball, Judge J. W. Stone, C. G. Jones, and Dr. Lund were the honorary pallbearers.

The music rendered were selections that the deceased relished most when he was a member of the choir.

Bishop Williams read the following tribute adopted by the congregation.

The bishop, the vestry and congregation of St. Paul's cathedral desire to put upon record their sincere appreciation of the worth and Christian character of their late associate, Joseph D. Boxer, junior warden of the cathedral parish; their grief at losing his companionship and counsel and their sympathy with his bereaved family and many sorrowing friends.

Mr. Boxer had been not only vestryman and warden, but superintendent of the Sunday school, director of the St. Andrew's brotherhood, lay reader and member of the choir. He loved and daily served God's church. His earnest religious character was known to all and heightened the great respect and esteem he was held in even by men of the world.

Great responsibilities were laid upon him, and his whole soul and conscience were in their discharge. Great distresses and sorrows fell to his lot, which he bore without complaint, and with Christian resignation. Hundreds of men and their important or trivial concerns came into touch with him and his ready and kindly interest never failed.

An upright man, a whole-souled, genuine and manly man, a tender-hearted, believing Christian man—who shall question his acceptance with our Heavenly Father, through the Christ in whom he trusted. His faith was more than equal to his trials, which we believe, came to elevate and sanctify a nature already refined.

May God's rest and refreshment be sweet to him. May his memory be our treasure, and his example our inspiration.

A CHILD ENJOYS The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle. Manufactured by the California Fig Syrup Co.

"The best is none too good." This is our motto. If you try our soda, you will agree with us that we have the best in town. E. V. Kaynor, in Pendell's pharmacy. (6-15-19)

CITY BRIEVITIES. Weather forecast: Partly cloudy with probably thundersqualls; winds mostly fresh southerly.

Yesterday's temperature: 7 a. m., 60 degrees; noon, 71 degrees; 7 p. m., 70 degrees; maximum, 73 degrees; minimum, 63 degrees.

Will E. Long was down from Negaunee Saturday.

O. Olson of Negaunee spent yesterday in the city.

Patrick Gleason of Ishpeming was a visitor here yesterday.

Miss Anna E. Cole of Iron Mountain was in the city Saturday.

A. Allison and H. T. Ahnefeldt of Menominee were here Saturday.

Justice Thoren of Negaunee transacted legal business here Saturday.

John W. Hunsberger of Hancock was a Queen City visitor yesterday.

C. M. Hoar of Houghton was in the city transacting business Saturday.

Professor Giles left Saturday for Buffalo to attend the Pan-American exposition.

Miss Bessie Armstrong of Perry, Mo., is the guest of her brother, S. C. Armstrong.

Wesley Hall spent Saturday and yesterday in the copper country visiting friends.

Miss Elizabeth Chamberlain, a teacher in the high school, left Saturday for her home in Chicago.

The council will hold its regular meeting tonight. Nothing but routine business will be transacted.

Joseph Thibolt was down the line yesterday fishing and succeeded in landing ten pounds of trout.

Mrs. Resholko and daughter of Laurium are the guests of Mr. and Mrs. D. Seidenfeld, East Arch street.

Among the Michigan visitors in the city yesterday were George L. Malcom, C. J. Leonard and W. G. Fraser.

There was quite a sea on the lake Saturday and the steam large Minch and her two consorts were obliged to put in to port for shelter.

Mrs. J. R. VanEvert and child returned Friday evening from Buffalo, where she has been attending the Pan-American for the past three weeks.

Mrs. S. A. Horick has returned from Duluth where she has been visiting with her friend Mrs. Robert Chubb, the latter returning to this city with her to spend a few days enroute to the Pan-American exposition.

A. McAfee, of Lakeview came down from that place last evening and reports that the men searching for Light House Tender Pryor have found no trace of him. The friends of the missing man think that he committed suicide by drowning.

County Clerk Ross issued marriage licenses Saturday to Peter Ogea and Lillie Hurlkins of Clarkburg; William H. Farroll of Marquette and Margaret Kindlin of Sandus township; James Teivienick of Humboldt and Mary Ogea of Clarkburg.

The Brotherhoods of Locomotive Firemen, Trainmen and Engineers, will participate in the Fourth of July parade. The officers of these societies are anxious that every member turn out, so that the fifty dollar prize will be landed by the railroad men.

The board of supervisors will meet Wednesday, July 10. County Clerk Ross requests that all bills against the county be presented by the evening of July 4th. The auditing committee will hold its meeting on Saturday, July 6 and the committee on equalization will meet Monday, July 8th.

Each organization, intending to participate in the parade of July 4th, is requested to send a member to represent it on the parade committee, which will meet this evening at 8 o'clock in the mayor's office. The meeting will be for the purpose of selecting the line of march and assigning positions to the societies that will take part in the parade. The parade committee extends a cordial invitation to all societies in the city to participate in the parade.

A GOOD THING. German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1885, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. Get Green's Prize Almanac. The Stafford Drug Co.

Call at Kaynor's and try violet punch. Pendell's drug store. (6-15-19)

CATARRAH OF THE HEAD. All druggists are authorized by the manufacturers of Bunsen's Cream Catarrhal to refund the money where it fails to cure any case of Catarrh no matter how long standing. One application gives ease and rest. This is a new discovery and the only Catarrh remedy sold on a positive guarantee—No Cure, No Pay. Price, 50 cents. For sale by the Stafford Drug Co.

COPPERS ARE STRONG. Baltic and Copper Range Were the Favorite Stocks Saturday.

Coppers showed up strong Saturday, and if the reports of the brokerage houses are any criterion, the copper market will boom for some time to come. Higher prices are predicted both for Baltic and Copper Range.

Paine, Webber & Co., said: "The character of today's bank statement indicates that the money situation has undergone a decided change for the better. Interest rates will probably work easier again and the New York market will be higher next week. Copper Range and Baltic have again been the leaders in the local market today. The present heavy buyers are predicting 60 for Baltic and 90 for Copper Range next week. The market for copper stocks is broadening and public interest is increasing. We expect to see a growing activity and advancing prices for some time to come. A bet of \$1,000 made today that Copper Range will sell at 87 within thirty days."

Hayden, Stone & Co., wired the Laidley Commission Co.:

"Coppers were strong in sympathy with the New York market. There was good buying of Copper Range, Trimumtain, Baltic and Adventure and we think they will all sell much higher. We advise buying them on any setbacks. Old Dominion looks weak and has been washed down, but we think the stock is a purchase around the present figures."

Our phosphates sparkle. Try one and you will call again. Kaynor's, at Pendell's. (6-15-19)

The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter—in fact the majority of human ailments—are caused by poisons or humors that are engendered and fostered in a sluggish and impoverished blood. Old sores, chronic ulcers and rheumatic pains are common of All Strength, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antitoxins and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs the circulation. It builds up and imparts new strength and vitality to the old, infirm blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear. S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

JOSEPH POPE'S FUNERAL.

It Was Held Yesterday Afternoon Under Direction of Sons of St. George.

The funeral of the late Joseph Pope, who died Thursday morning at his home in this city, was held yesterday afternoon under direction of Sir Humphrey Davey lodge, Sons of St. George, with religious services at Grace Episcopal church, conducted by Rev. C. T. Atwell, the rector.

It is many years since a larger or more impressive funeral took place in Ishpeeming. Main and Canal streets, through which the cortege passed, were black with people who congregated to listen to the singing of the special male choir of some fifty or more voices, all of the order to which the deceased belonged. Every available carriage, single and double, as well as many from Ne-gaunee, were in line. The full length of the procession could not be estimated until after the services at the cemetery, when all lined up to go to the Ishpeeming cemetery, where the interment took place. Nearly every member of three lodges, Sir Humphrey Davey, Trelawney of Ishpeeming and the Winthrop branch of the order, were in the procession.

From the time the remains left the home of the deceased until the church was reached the choir sang a very impressive hymn. The casket was preceded by members of the society carrying massive floral designs. In spite of the warm weather the church was packed and many hundreds were denied admission. The throng stood about the church until the services were over and a long line of men, women and children followed the procession to the cemetery.

Among the floral offerings were a number of fine pieces from friends in different parts of the peninsula. Mrs. Pope also received a number of telegrams of condolence. Many out-of-town people were noticed at the obsequies, this evidencing more than anything else the esteem in which the deceased was held by his friends throughout the country.

JOHN CAHILL DEAD.

George Cahill received a telegram Saturday announcing the death that day at Tower, Minn., of his oldest brother, John. George did not even know that John had been sick, consequently the news of his death was a sudden shock to him. The remains will arrive here this morning on the early train, accompanied by James Bigelow, brother-in-law of the deceased.

John was about fifty years of age. He was quite well known by the older residents of this city, as he spent many years here, though he has not lived here lately. He was here for a short time last fall on a visit to his mother and brother.

Funeral arrangements will be completed today. The mother and other relatives, including one brother and two sisters, are away and are expected here today or tomorrow. It is likely that the funeral will be held Wednesday morning from St. John's church.

THREE NIGHTS THIS WEEK.

The Metropolitan Merry-makers, one of the best popular price attractions that has visited the upper peninsula for a considerable interval, will hold the boards at the Ishpeeming opera house the last three nights of this week, commencing on the 4th. On the opening night a sensational comedy, "Bachelor's Hall," will be produced. Will Maddern, the comedian, is said to be a laugh-provoker. The papers at Marinette and other places where the company has appeared within the past few weeks speak in highest terms of his work, and also give other members of the company very favorable mention. A male quartet is carried, appearing each evening from its use. Infallible for Coughs, Croup, Sore Throat and Piles. Care guaranteed. 25c at the Stafford Drug Co.

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples till she used Ducklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Fels from its use. Infallible for Coughs, Croup, Sore Throat and Piles. Care guaranteed. 25c at the Stafford Drug Co.

Just in 12,000 yards of Magnolia flint worth 12 cents, going at 5 cents. A snap. F. Braastad & Co.

Heppner's pure ice cream at the soda fountain is a winner every time. Heppner, Marquette. (5-1-17)

We are offering summer capes, jackets and shirts at 20 per cent. off. F. Braastad & Co.

WILL BE OUT TONIGHT.

Hose Team of the Ishpeeming Fire Department Starts Training.

The members of the local fire department who will constitute this year's running team will begin practice this evening on South First street, where similar work has been done every summer for the past four or five years. It is not yet known which of the men will constitute the regular team and who will be the substitutes. The same methods pursued in past years in selecting the team and substitutes will be employed this year. There are a number in the department who have good records for fast work, but none will be chosen on past records. The records of this year are what will count when the men who will compose the team are chosen.

A captain has not yet been chosen. It is understood that this selection will not be made until the men get down to good hard work. The roller will be run over the street every day this year than at any time since the firemen have used it. About the first place the new steam road roller will be used will be on this street. Chief Lacy has been assured by members of the board of public works that the roller will be run over the street every day it is in use if necessary to keep the track in the very best of condition.

ISHPEMING IN BRIEF.

Albert Pearce came up from Gladstone Saturday on a visit of a few days to his people.

Mrs. Andrew Hall and her children are spending a few months with relatives at Centerville, S. D.

The desk at the Nelson House has been provided with a new cabinet, which is an improvement on the old one.

M. M. Duncan spent Saturday at the Ashland mine, Gogebic range, going up Friday and returning yesterday.

Miss Edith Canning of Warren, Mass., arrived here yesterday morning on a few days' visit to her brother Edward.

The morning passenger train going south on the Chicago & Northwestern line will leave hereafter at 8:40 instead of 8:45.

Dr. L. L. Hubbard, general manager of the Champion copper mine in Houghton county, was a visitor in Ishpeeming Saturday.

Mrs. M. Schumacher tendered her pupils a ride around the Cliffs Saturday. The outing was very much enjoyed by the young people.

Rev. J. W. Johnson of Iron Mountain and Miss Julia Dahlstrom of this city will be married this evening at 8 o'clock at the Swedish Lutheran church.

Mrs. James Ames and her daughter Amelia left on Saturday for West Superior, where they will spend a few weeks visiting relatives and friends.

F. B. Baird, who is interested in the East New York mine, left Saturday evening for his home in the east, after spending a couple of days at the mine here.

C. F. Byrns left Friday for the lower peninsula to attend a meeting of the Michigan Fraternal congress. He will represent the Modern Woodmen of America.

The first of the series of six dancing parties to be given by the Assembly takes place this evening at the Anderson hall. Trombly's orchestra will furnish the music.

C. F. Donahoe came over from Iron Mountain Saturday and will remain in the city until after the Fourth. He is doing very well in the insurance business there.

Rev. J. A. Keul, at one time pastor of St. John's church here, spent Friday in the city. He stopped off on his way from Crystal Falls to Mackinaw Island, his new charge.

Charles Haslam, who recently returned from Ann Arbor, where he attended the university, has taken a position in the main office of the Cleveland-Cliffs company.

The entertainment given last Saturday evening at the People's church by Pastor H. T. Blatchley, assisted by members of the congregation, was very much enjoyed by all who attended it.

Reserved seat tickets for the opening performance of Wesley & Maddern's Metropolitan Merry-makers at the Ishpeeming opera house on the night of the Fourth will go on sale today at thirty cents each.

Mrs. D. P. Householder and her two children, who spent the past six months or so in California, arrived in the city Saturday. Mr. Householder, who recently took a position at Republic, came down to meet them.

Tom Jones of this city has been appointed deputy oil inspector for this inspection district and will enter upon his

duties today. His salary will be \$60 per month and expenses. The office is one that will not require all of the deputy's time.

Harry Harwood got home Saturday from a business trip to the head of the lakes. Although not as fat as most of the people he met while away Harry believes he suffered just as much as any of them from the intense heat of last week.

Mrs. Mary A. Wasley, record keeper of Ishpeeming hive of the Maecabees, on Saturday paid John Seaborg \$1,000, the full amount of insurance his late wife held in the order. The payment was made very promptly—just fifteen days after the death of Mrs. Seaborg.

Miss Milla Page was given a linen shower by a number of her lady friends at her home on West Ridge street last Friday evening. Miss Page will be united in marriage at a near date to Mr. Fred Marks of Saginaw, Mich., who was formerly with the Ishpeeming Beef company here.

J. H. Crane, late of the Lehigh, Pa., university, has taken a position on the engineering staff of the Cleveland-Cliffs company, taking Moro Chamberlain's place. G. R. Jackson steps up a notch to the place recently vacated by Mr. Elliott, who was removed to the Ashland mine on the Gogebic range.

F. F. Moffatt, the painter, will turn out a very pretty wagon for Swanson, Warnberg & Co., furniture dealers and undertakers, today. It is indeed one of the noblest outfits in the city. Mr. Moffatt does fine work in the carriage and wagon painting line, which accounts for the rush of business he enjoys.

The new addition recently added to the beef house of Nelson, Morris & Co., on East Ridge street, is being painted. With the new part in use the cooler will be almost twice as large as formerly. The shipping room has been made a part of the cooler and the new part will be used for shipping purposes. This improvement is appreciated by the employees of the house, as they can now work to much better advantage than formerly.

If you want a cape jacket or shirt for summer we can supply you at 20 per cent off. F. Braastad & Co.

There are good profits for retailers in Heppner's pure ice cream. Heppner, Marquette. (5-1-17)

Many bargains these days. Snaps in summer goods of all kinds at Braastad's.

DIED IN A HOSPITAL.
Robert Murray, Pioneer of Upper Michigan, Died at Duluth Saturday.

RICHARDS GETS CONTRACT.
Will Install Heating Plant and Plumbing in the Jackson School Addition.

Robert Murray of Lake Linden died Saturday at Duluth in a hospital, where he had been confined a month or more. John Manning of this city received a telegram Saturday announcing the old man's death and advising that the remains would be brought to Negaunee for burial. It is expected that the body will arrive today.

The deceased was a pioneer resident of this section. For some years past he lived in the copper country, though his early days in Michigan were spent in Marquette county. A few weeks ago, just before he left to receive treatment at the Duluth hospital, he visited his nephew, Gordon Murray, in Michigan. He was taken ill there and his removal to his home was necessary. He was home but a short time when he was taken to the hospital. Cancer of the stomach was the cause of his death.

Mr. Murray was an uncle of Mrs. John Manning of this city and Mrs. George Ihoney of Ishpeming. He visited here a number of times during the past few years and was known to many Negaunee people.

PARADES WILL BE "CORKERS."

Plans About Complete for This Feature of the Fourth of July Celebration.

The committee which has the two parades in charge states that nothing that will add to their attractiveness will be omitted, and that it has its plans about completed. The secretary of the committee recently sent to the heads of all the civic societies of the city an invitation to participate in the parade on the morning of the Fourth, and he has received favorable answers from nearly all of them. This lends considerable encouragement to the committee, which feels that the success of this, the principal morning feature of the celebration, is already assured. The Calithumpians will be strictly in evidence also and will do their full share to start the day's festivities off with enthusiasm. Many prominent citizens are planning to appear in fetching parts, and there promises to be a large turnout of the "willy boys" in the line. Floats are said to be building which will surpass in splendor and suggestiveness anything ever before seen in the county, or even in the upper peninsula, and if the boys do not score a big success it will not be their fault. Liberal prizes have been offered for these makeups. A prize of \$10 will be given to the society having the largest proportion of its members in the line, and thought this sum is not large the honor of the thing will be sufficient to bring out large delegations from every lodge and society in the city.

The illuminated bicycle parade, which will occur in the early evening, is another feature of the day's program that is being given careful attention. A committee of three well known ladies have been chosen judges and that they will be fair and impartial goes without saying. The line of march, or, as it will be through the residence portions of the city for the most part and the parade promises to be one of great beauty.

GETTING AFTER THEM.

For the past two weeks carpenters have been at work on the sidewalks leading to the cemeteries and it is expected that the coming week will see this work ended. Then the city employees will move into town and give other walks attention which they sorely need. Ere long it is expected that all the worst walks about the city will have been repaired and then there will be little cause for complaint and cases of stumbling will be rare. This will, indeed, be a pleasant condition. The city fathers announce that they mean business in this matter, and also that the ordinance which compels property owners to keep their walks in good condition will be enforced to the letter.

ELECT OFFICERS.

At a recent meeting of the S. H. & E. F. of A. the following officers were chosen for the ensuing year, and will be installed at the next regular meeting of the society: Theodore A. Thoren, president; Johnson, R. S.; Charles Frisk, F. S.; Charles Thoren, Sr., treasurer; Andrew Martinson, marshal; Eric Hoid, chaplain; August Johnson, I. W.; Charles Carlson, O. W., and William Jaeger, trustee.

Sell Heppner's pure ice cream and make a barrel of clean money this summer. Heppner, Marquette. (5-14-17)

SUMMER COUGHS.

Additional Ishpeming

BALLOON DID NOT ASCEND.

A disappointed crowd of Ishpeming people went to Union Park Saturday evening. A balloon ascension was advertised to take place at 7 o'clock, but for some unknown reason the man who was supposed to go skyward and then make a parachute jump did not perform the feat. It is said that the number who paid the admission price of twenty-five cents was too small to satisfy the performer and he concluded to not give the exhibition.

There were hundreds of men, women and children on the hills surrounding the park. The balloon man might have anticipated this, as the hills are the best place from which to witness an exhibition of that kind.

AN OFFICE DOWN TOWN.

E. W. Canning has severed his connection with The Mining Journal and all matters of business, news, etc. will be hereafter attended to by Ed J. Butler and his assistant, Edward Haman. A downtown office will be opened in the Pascoe block, Main street, in the room occupied by S. E. McKinney of the Singer Sewing Machine company. The representatives of the paper will be pleased to have patrons call and see them at their new place. Payments on subscription and other accounts can be made there at any time during the day until 8 o'clock in the evening.

BROKEN PROMISES"

Entertainment lovers of the Winthrop will be given this evening an opportunity of witnessing a comedy production entitled "Broken Promises" at the National mine school house. The play will be produced by members of the Young Men's club, which is composed of the leading people of the location. In connection with the drama, specialties will be introduced between the acts. The admission will be twenty-five cents for adults and fifteen for children.

LOCAL LACONICS.

Geo. Youngs was up from Sands last Friday on business.

Allen Thyer of Escanaba did business in the city Friday.

T. D. Hall returned Saturday evening from a few days' business trip to the "Soo."

Elbridge Barabe is driving about in a new trap that he recently received from Minneapolis.

The Rev. Isaac Wilcox preached at Humboldt last evening. Rev. O. W. Blain filling his pulpit here.

Mr. and Mrs. Thomas Flynn spent yesterday at the "Soo" inspecting the wonders of that thriving city.

Miss Mabel Williams of Iron Mountain arrived in the city Friday for a stay of some weeks with friends.

The large party which attended the whist tournament at the "Soo" last week arrived home Friday night.

Bob McClellan, Jr., recently made an extended fishing trip to the Carp and returned with a fine catch of trout.

Assistant Superintendent C. E. Andrews of the Northwestern at Escanaba was a business visitor in town Friday.

Frank Bouschard of Marquette was in town Friday looking after the interests of Marquette's Fourth of July celebration.

Mrs. Lewis Corbit has returned from her three weeks visit to the Pan-American. She stopped over at the "Soo" for the whist meeting.

Mr. and Mrs. John Ward of Powers spent a few days last week in the city with friends. Mr. Ward is one of the most popular conductors on the Northwestern.

C. G. Griffey and Tom Wells left on Saturday morning for Buffalo, where they will spend some time viewing the wonders of the exposition. Mrs. Griffey has been at the exposition city for some weeks.

Mr. and Mrs. F. E. Pettibone of Chicago, who have been spending the past few days in the city with Mr. and Mrs. Thomas Long, returned to their home Saturday.

A number of Negaunee people attended the funeral of the late Joseph Popo in Ishpeming yesterday afternoon. The deceased was about as well known here as in his home town, as he had conducted business in this city for some time before going to Ishpeming.

Train No. 16, leaving this city at 9 a. m. for Chicago and intermediate points, will leave at 8:55 a. m. hereafter, the new time card going into effect yesterday. The arriving time of this train remains unchanged. This is the only change which affects passengers over that road.

Negaunee sent a delegation to Union Park Saturday evening to witness a balloon ascension announced to take place at 7 o'clock. The balloon did not go up, however, and all returned disappointed. Extra cars were brought out on the street car line to handle the crowds from this city and Ishpeming.

Captain Patrick O'Leary has just completed one of the most unique wagons that ever traveled over the sand roads of this region. He has been at work on it for some time, with the assistance of his friends, and now that it is finished it stands a monument to his genius. The captain is a great angler and he has long felt the need of a suitable wagon, one that could be driven in all sorts of places without danger of being overturned. To solve this phase of the problem he put as many wheels as could be gathered together from the various dumps hereabout under a long box. There are eleven of these wheels and it is said the rig runs very smoothly. The captain will try out his experiment soon and the result is awaited with great interest.

5TH TO BE BIG DAY.

PLANS FOR OBSERVANCE OF INDEPENDENCE ANNIVERSARY.

ATTRACTIVE FEATURES ARRANGED.

MARQUETTE SHOULD BE VISITED BY BIG OUTSIDE DELEGATION.

Events Will Be Fairly Distributed Between Both Dates, but Program for the Second Day Is Being Somewhat Favored.

Plans for Marquette's celebration of the 4th and 5th of July are rapidly being completed. They are sufficiently advanced to warrant a guarantee to all visitors that they will have an enjoyable time here on either day. As it looks now the 5th will be the big day of the celebration, certainly it will be in no way inferior to the 4th.

The several committees have been working assiduously on the arrangements for the observance. It is expected to have three bands in the city. One of them will be from Ishpeming. These organizations will furnish all the music needed to enliven the festivities.

Programs for each day of the celebration remain to be completed, but the committees have a general idea of how they will distribute the features.

One of the big attractions on the 4th will be a mammoth street parade. Mammoth is used literally here, as it is expected that this parade will dwarf all others ever given in the city. This will be largely a result of the idea of offering fifty dollar prizes to the best appearing organization and to that society having the largest proportion of its membership in line. These offers will bring out every important fraternal organization in the city. The Ishpeming Light Guards, who have accepted the invitation to participate in the Marquette celebration, will also march in this parade, which will boast numerous novel features.

Other attractions on this day, not arranged by the Fourth of July committee, will be the racing matinee at the driving park and the Spanish-American war veterans' picnic and dance. Between twenty and thirty horses have been entered for the racing matinee. They will come in from the Soo, Ishpeming, Petoskey, the copper country, Duluth and Menominee and the bunch will include some fast travelers. The promoters feel safe in assuring Marquette county people of some of the finest races ever pulled off in this section. On the 4th Professor Audinot will give a balloon ascension and parachute drop at the driving park in the presence of the assemblage which will gather to witness the races.

The Spanish-American war veterans

expect to do their full share toward entertaining the multitudes at their picnic and dance. The former will be held at Meeske's grove during the afternoon, the latter in Fraternity hall during the evening. The Marquette Ideal orchestra will furnish music throughout the day and there will also be dancing at the grove. Here there will be games and sports of all descriptions and refreshments, solid and liquid. The veterans are paying particular attention to their military drill and they expect to make it a big success.

The grand display of fireworks will take place in the evening of the Fourth on the vacant property east of the city cemetery.

On the fifth the program will be continued with a balloon ascension down town, street sports, comprising numerous events, under the direction of E. W. MacPherran, a naval parade in the evening, a life saving drill and numerous other attractive features. Of course it is understood that the racing matinee will be continued on the fifth, some of the best events being reserved for that day. Detailed announcements of each day's program will be made early next week.

The finance committee has met with very fair success in seeking subscriptions. It already has a large sum subscribed and before it finishes its work it will have a couple of thousand dollars available. This sum will suffice to give Marquette a "red hot" first-class celebration.

WALDO SPEAKS.

Delivered Commencement Address at Escanaba Wednesday Evening.

Principal Waldo of the Northern Normal delivered the commencement address at Escanaba Wednesday evening. The Mirror says:

"Prof. Waldo has a good voice, a pleasing presence and a fine command of choice language. The subject of his address, which was not too lengthy, was 'Education and the Art of Living.' It was a plain, practical and earnest talk, abounding in good common sense and the knowledge of education and life that is taught by experience and the close study of nature, books and mankind generally. It was a discourse that could not fail to benefit and encourage not only the graduates to whom it was particularly addressed, but many in the audience. The Mirror regrets exceedingly that a lack of space, caused by a pressure of other news matter and advertising, will not permit it to give even a synopsis of Prof. Waldo's excellent address, but those who heard it will not soon forget the ennobling sentiments, the wise suggestions and the earnest thoughts it contained."

We have a good sale on Dr. Caldwell's Syrup Pepsin because we guarantee it and refund your money if it does not do just as we represent it. Call for a booklet that tells you all about it, at the Stafford Drug Co.

If you want to celebrate the Fourth, call at Domeker's and get your fireworks. (6-29-41)

TO BUILD THIS YEAR.

SCHOOL TRUSTEES WILL COMPLETE PROPOSED GROUP.

TWO STRUCTURES TO GO UP.

WILL HOUSE MANUAL TRAINING AND HIGH DEPARTMENTS.

Board Has \$60,000 Bonds to Market and Bids Will Likely Be Called for at Once—Plans Ordered from the Architects.

There is every probability that the group of three school buildings projected for Marquette will be completed this year by the erection of the manual training and high school structures. They will go up on the site of the old high school, where the Froebel, or grade school of the group, was built last year. The trustees have informally canvassed the matter, going so far as to notify Charlton, Gilbert & Demar to prepare plans for the additional two buildings. They will likely meet again this week to finally settle the question. It is understood that they will authorize the secretary to advertise for bids on the sale of the \$60,000 bonds, which they may now issue, and that the preparations of the plans and specifications will proceed forthwith.

The board has sufficient money available for the completion of the buildings, as they can be put up well within the \$60,000 to be realized from the sale of the bonds. The estimates are considerably lower than this figure and it is likely that the buildings could be erected with the money realized from the sale of the larger portion of the bonds, holding a small residue. However, bids will likely be asked on the entire issue, as the whole \$60,000 will be none too much to equip the new buildings with heating and ventilating plants, seats, blackboards etc.

Once the board decides to proceed with the construction of the two structures little time will be lost in hastening the preliminaries, as it will be desired to have them in condition for occupancy at the earliest possible date.

Manual Training Building. The completion of the manual training building will permit the Marquette schools to give their first instruction in this department. To date it has been entirely neglected, probably because there have not been adequate facilities for carrying on its work and on account of the disinclination of the trustees to go to any great expense in providing them. Housed in the new structure, however, the manual training department of the Marquette schools, will be approached by but few departments of

the kind on the upper peninsula and it will be excelled by none.

Manual training courses are outlined on the new schedule of studies which will be introduced at the opening of the school year next fall. There is no reason to question that they will prove popular with certain classes of Marquette young people and that their work will be pursued by large numbers. It has been the usual experience that the manual training courses serve to attract many pupils to the schools who would otherwise remain away and to hold others who would, in the usual course of events, drop out at an early age. There is every reason to believe that the new department will accomplish this here and that it will be a valuable adjunct in training young minds in the way in which they should shoot.

The school board will not have to put up all the money required for the equipment of the new department, as a couple of good donations will become available as soon as the building is available for its reception. Of course there will have to be a couple of additional instructors for the various branches of the manual training work. These branches will include pattern making, foundry and carpenter work, drawing, wood working and the domestic sciences.

Change Will Be Welcomed.

Superintendent Thompson, the faculty and the young people of the high school are overjoyed at the prospect of a comparatively early completion of the group of new buildings, as it means that the high school structure will become available for use some time in the course of the next year. They had all enough of the temporary quarters in the city hall, where work has been pursued with considerable and constant inconvenience since the destruction of the old high school structure, and they will be greatly pleased to settle down in new, neat and conveniently arranged quarters.

The completion of the group will provide Marquette with school facilities which should suffice for some time. There is now ample grade room and the proposed high school and manual training structures should be amply sufficient for a couple of generations of Marquette young people.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by the Stafford Drug Co., druggists.

A Black Study in Hosiery.

No article in wearing apparel should receive more careful study in their selection than the stockings you are to wear and those you buy for your Children. The most important study is the quality of yarn used in their manufacture; then the color is an important factor, the lasting quality of the dye used. Added to these points you want a hose that is shapely and made by the latest and most improved methods. We believe we offer all of these requirements in the "ONYX HOSIERY," for which we are selling agents in Marquette.

To bring before every lady of Marquette the merits of these goods we are spending no little expense and time by sending you a sample of one of our leading numbers of ladies' hose. We ask you to give it careful inspection and feel assured you will avail yourself of the offer we make.

We Place on Sale This Week the Best Value in Hosiery Ever Sold Over a Counter.
