RIVAL STEEL TRUST

SUCCESS OF THE PENNSYLVANIA MERGER ASSURED.

CAMBRIA COMPANY JOINS IT.

DEAL UNANIMOUSLY RATIFIED BY THE STOCKHOLDERS.

Philadelphia, July 8.—The stockholders of the Cambria Steel company today unanimously decided to sell their property to the recently formed Conemaugh Steel company. Vice President Welsh says the action assures the success of the merger of the Pennsylvania steel companies outside of the United States Steel corporation.

BAR IRON MILLS RESUME.

25,000 Employees of 28 Plants Again at Work and at Increased Wages.

Youngstown, O., July 8.—The resumption of the mills of the Republic Iron & Steel company, the bar iron combine, today was general after a week's shut-down for repairs. Twenty-five thousand iron workers in twenty-eight mills of the country returned to work. The scale was signed a week ago, the men getting an advance of about 10 per cent.

Activity in Pittsburg District.

Pittsburg, July 8.—There was a resumption of work in many iron and steel mills today. The mills had been idle for two weeks for repairs. Fully 12,000 men returned to work in this region.

The following concerns signed the Amalgamated scale today: Standard Chain company, Columbus, O. Niles (Ohio) Iron & Steel company, Lake Erie Iron company, Cleveland. Empire (Ohio) Rolling Mill company, Pittsburg.

All the independent iron and steel plants in the Pittsburgh district have now signed the scale except one.

GREAT CONFERENCE CALLED.

Steel Magnates and Union Officials to Meet at Pittsburg.

Pittsburg, July 8.—"That which I believe will prove the most important conference in the history of capital and labor in the steel world," Pittsburg tonight in Pittsburgh next Thursday morning, the highest officials of the Amalgamated association, gathered from all parts of the country, will meet with high officials in the iron and steel industries, to settle grave questions.

"Every vice president of the Amalgamated association from Alabama north is hurrying toward Pittsburgh tonight on my telegraphic order. I have considered it best that they be called to confer at this time instead of the regular conference which have usually met with us to adjust the differences.

"As yet I am in ignorance as to who will constitute the committee representing the steel people. I have been informed that President Charles M. Schwab, of the United States Steel corporation, will be present in person, but I do not know this to be a fact.

"The laboring man is at present confronted with some peculiar conditions which I hope will be adjusted at the coming conference. I believe the strike will be speedily settled."

Shaffer's Significant Statement.

The above was the statement made by President Theodore J. Shaffer, of the Amalgamated association, late this evening as he emerged from the Carnegie building with a party of Amalgamated association officers and officers of the American Sheet Steel company. It was at the end of one of the most eventful days in the history of organized labor and was made so by the decided statement taken by President Shaffer in the Wellsville case.

The conference today lasted almost two hours, but what was said or done was not given out save through the above statement. It was evidently decided that the best interests of both sides demanded that a wage conference be held at as early a date as possible in spite of the trouble at Wellsville.

Mr. Shaffer tonight said his action in passing over the usual wage conference was taken because the general executive board has the greatest power in the Amalgamated association, and as the matter at issue is a general one, not affecting wages or mill conditions, this board can best take up a question affecting general interests.

Wellsville Strike Postponed.

President Shaffer said further: "I did announce I would not treat with the employers until matters were adjusted at Wellsville and that I would declare a general strike on Thursday if matters were not fixed, but I later changed my mind. I am not at liberty to state what brought this about, but it will come out in good time."

Under the present arrangement, the Wellsville men will remain at work pending the outcome of the conference on Thursday.

CONCESSIONS BY MACHINISTS.

New Terms Made That Many End the Strike in a Few Days.

New York, July 8.—Members of the National Metal Trades association announced today they have received the following proposition from James O'Connell, president of the International Association of Machinists, for a settlement of the strike: The question of wages to be arbitrated by districts; all machinists on strike to be reinstated without prejudice, leaving the settlement to arbitration; the hours of labor shall be fifty-four hours per week, which is not to be submitted to arbitration. It is believed an agreement will be reached within a few days.

ERROR KNOCKS OUT WILL.

Precautions of Jacob Rogers to Disinherit Relatives Seem a Failure.

New York, Tuesday, July 9.—The Journal and Advertiser this morning says: All the precautions of Jacob S. Rogers to disinherit his relatives may go for naught by reason of an error, intentional or otherwise, he made in the will but which, according to lawyers, must stand as it reads. The error appears in a codicil dated Oct. 2, 1900.

The codicil reads: "I hereby further will and bequeath to my nephew, Theodore B. Rogers, Jr., son of my brother Theodore B. Rogers, the sum of \$75,000,000. (Signed) J. S. Rogers."

Thus the codicil gives to his nephew \$75,000,000, or about ten times the amount of the estate. Necessarily, it leaves no residue for the Metropolitan Museum of Art. The paragraph, as is the entire will, is in the handwriting of Mr. Rogers. The error, if error it be, is uncorrected and unchanged. The lawyers say it must stand as it is.

COMBINE AGAINST AMERICA.

Vienna Paper Asserts the Scheme Has Taken Practical Form.

Vienna, July 8.—The Post today asserts that the projected European commercial combination against the United States, which until lately has been but a vague idea, has constituted the subject of practical negotiations between Russia, Austria and Germany. The Post also asserts that the rumored visit of Count Von Buelow, German imperial chancellor, to St. Petersburg is in connection with the combination.

WHEAT FIELDS BURN DIES BY OWN HAND

FARMERS AT SOUTH BEND, KAS., SUFFER GREAT LOSS.

FLAMES SWEEP 15,000 ACRES.

OVER 300,000 BUSHEL OF THE GRAIN DESTROYED.

Lighted Cigar Thrown Into Stubble Causes a Conflagration Which Takes an All-Day Fight to Get Under Control.

Great Bend, Kas., July 8.—Fifteen thousand acres of wheat went up in flames here this afternoon. The fire was started by an unknown man throwing a lighted cigar in a field of wheat stubble. The inhabitants all left work and exhausted all methods possible for fighting the fire, but it was late this evening before the fire was under control. It is estimated the loss will aggregate over three hundred thousand bushels of wheat.

KANSAS CORN CROP RUINED.

Hot Spell Clings to the Southwest With Disastrous Results.

Topeka, July 8.—This has been a day of unprecedented temperatures in Kansas. In Topeka, for two hours this afternoon the mark reached was 104. Meriville reports 108 and Fort Scott 106.

Advices from numerous Kansas counties tonight indicate that the corn crop is practically a failure. Hay is selling at enormous prices, and indications point to almost a famine in feed for animals unless rain comes within a day or two.

Intense Heat in South Dakota.

Pierre, S. D., July 8.—Today was the climax of the hot wave. The government record was 104. Business was practically suspended.

New York's Long Death Roll.

New York, July 8.—Official reports to the bureau of vital statistics show that the number of deaths from the heat for the week of July 6 in Greater New York was 190.

NOVEL FORGERY CASE OPENS.

Woman Masquerading as Man on Trial in West Virginia.

Parkersburg, W. Va., July 8.—Ellis Glenn, a woman who, it is said, masquerading as a man, forged notes for \$1,400 over the names of George and Vesta Hoover, was put on trial here today. It is believed much difficulty will be found in securing a jury owing to the widespread interest which has been taken in the case. The prosecution says that proof of forgery will be easy, but it will not be so easy to prove that the woman who has spent the last eighteen months in jail is the forger.

Ellis Glenn says she is Ellis Glenn, not E. B. Glenn, the alleged man who is supposed to have done the forging. She had a twin brother, she says, whom she tried to save from punishment in Illinois by masquerading as a man, but she claims at that time she was not aware of the forgery committed in the East. The accused relies on her sex. She says that proof will be adduced showing beyond doubt that the person who did the forging was a man.

The woman was brought here from Illinois, where she had been convicted of forgery and sent to the penitentiary as a man. When delivered to the prison authorities, her sex was discovered and she was turned over to the sheriff here to be tried for the Hoover forgeries.

SEVEN GERMAN SOLDIERS DROWN.

Kehl, Baden, July 8.—While the Nineteenth German battalion was practicing on the Rhine today, a boat containing sixteen soldiers was capsized. Seven were drowned.

YACHT IS A WONDER

CONSTITUTION AGAIN DEMONSTRATES HER SUPREMACY.

RECORD-BREAKER IN LIGHT AIRS.

RIVALRY OF THE NEW BRISTOL BOAT ARE DISTANCED.

Columbia Is Beaten Thirty Minutes Over a 30-Mile Course While Law-sca's Independence Is Over an Hour Behind.

Newport, R. I., July 8.—If the victory of the Constitution over the Columbia and Independence in the first three-cornered race last Saturday was significant and definite, her winning today may well be characterized as overwhelming and the defeat of the Independence as positive and almost hopeless.

The new Herreshoff boat today beat the Columbia by nearly half an hour over a thirty-mile course, while the record against the Independence was over an hour. She came near traveling around the triangle while the Crownshield creation was covering two legs of it.

Yachting Experts Dumbfounded.

Today's race established the new Bristol sloop as a record breaker in light airs. She accomplished what yachtsmen have considered impossible in this beating the Columbia, while her performance has put the Independence entirely out of the running in conditions like those of today's. What the Constitution's showing may be in heavy weather is still a matter of conjecture, as is that of the Independence, but the experts are now almost ready to accept any achievement of the Constitution without surprise.

Of all the conquests in the history of the renowned struggle for America's cup, that of today was the most remarkable. The Constitution proved herself to be the best light weather craft of a generation. The Volunteer, Vigilant, Defender and Columbia have in the past achieved wonderful, glorious things in the cause of defending the cup, but the Constitution today capped the climax.

The wind was light from the southwest at the start. The first leg of the triangular course of thirty nautical miles was a dead beat to the windward of ten miles, the course being southwest.

Sailing of the Winner Marvelous.

The start of the Constitution was notable. She did not seem to want to take the windward position, but, being in a hurry to cross, started from nearly the leeward end of the line and luffed up to cross just as the gun sounded. This would have been cause of a berth further to the leeward; but, a little while after the Columbia and Independence had crossed, the Constitution showed hardly a sign of the pace by proceeding on the starboard tack, with her little jib topsail defiantly shaking its luff at everything afoot, then going about and crossing the bows of her opponents and, when satisfied with the lead she had, of tacking and occupying the commanding berth to the windward and the lead which she maintained to the end of the race.

There was a haze, dampness and an oppressiveness outlook generally, but the Constitution overcame every obstacle in the way of flukes and led at the first mark by ten minutes and thirty-seven seconds over the Columbia. On the next leg, she sailed faster than the wind and by rare skill and superior ability worked herself through the maze of dead calms, rounding the leeward mark eight minutes and forty-two seconds ahead of Columbia. Then, scurrying away from the mild breeze, which never during the racing today exceeded the force of a six knot air, she made the crowning record of her history by sailing over ten knots in forty-nine minutes and forty-six seconds.

Figures Tell the Story.

The statistical story of the contest is as follows:

Name | Start | Finish | Elapsed | Cor'd | U.S. | Cont'l. | T. | S. | D. | M. | S. |

Const. | 11:55:20 | 4:54:30 | 4:59:04 | 4:59:04 | 11:55:20 | 4:54:30 | 4:59:04 | 4:59:04 | 11:55:20 | 4:54:30 | 4:59:04 |

Unpaid Troops Turn Robbers.

Turkish Soldiers Stationed in Macedonia Rifle Government Treasuries.

Volo, Greece, July 8.—The Turkish garrisons at Kilik and Vodena, in Macedonia, not having been paid by the government for a long time, succeeded in forcing an entrance to the government treasuries at the places where they were stationed and partitioned among themselves the money in the treasury buildings. A similar attempt on the part of the troops stationed at Salonica, Macedonia, was frustrated.

JEWELRY STORE PLUNDERED.

Diamonds Valued at \$5,000 Stolen at Deadwood, South Dakota.

Deadwood, S. D., July 8.—Some time during last night, the jewelry store of S. Solomon was entered by burglars who secured \$5,000 worth of diamonds and made their escape. Three arrests have been made on suspicion.

BARKER TAKEN TO PRISON.

Trenton, N. J., July 8.—Thomas Barker, sentenced to five years' imprisonment for the murderous assault upon Rev. Dr. Keller, reached the state prison at noon today.

AMERICAN BANK FOR PARIS.

Said John Rockefeller and Morgan Are to Establish One.

London, Tuesday, July 9.—"It is reported here," says the Paris correspondent of the Daily Mail, "that John D. Rockefeller and J. P. Morgan have decided to establish a banking house in Paris with a capital of ten million francs."

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The New York stock market is suffering from a weak spell partially induced by the excessive heat of last week and partly by the strike in some of the steel mills of the U. S. Steel Corporation.

A London paper, the Statist, says the British government will soon be obliged to float another war loan, as the surplus now in the treasury, estimated at \$80,000,000, will be wiped out by the middle of October at the present rate of expenditure.

Porto Rico is to have free trade with the United States after all. At the last meeting of his cabinet before he left for Canton the president announced that he will issue a proclamation establishing it, in response to a resolution adopted by the Porto Rican legislature.

This is the content of the Diamond Drill of Crystal Falls on the outrageous verdict rendered against The Mining Journal in the Couch libel case by a circuit court jury at Sault Ste. Marie recently.

The Marquette Mining Journal has the sympathy of the press and of all lovers of justice in the peninsula over the verdict of \$2,500 damages returned against it by a jury in a Soot justice court.

PINGREE'S PUBLIC WORK. Taking note of the extraordinary tribute of respect paid the memory of the late Governor Pingree by the people of Detroit and admirers of his from all parts of Michigan while his body lay in state, and when it was finally given sepulture, the Detroit Tribune makes comment as follows:

IMPORTANT MINING DEAL. The Virginian, published at Virginia Minn., gives these particulars relative to the transfer of the lease of a valuable iron property on the Mesabaa range:

ditional ten cents a ton. Mr. Adams transfers a one-third and Mr. Sweeney a two-thirds interest in the property. The minimum annual output is to be 75,000 tons.

The consideration is not named in the transfer, but the bonus paid for the lease by the Donora mining company was \$100,000.

The Donora Mining company is the name of the mining corporation of the Union Steel company, the new company which is erecting mammoth steel plants at Donora, near Pittsburgh, and in which the Mellon Bros. of Pittsburgh, and H. W. Oliver, H. C. Frick and others are interested.

Untidiness in Cities. It is rather remarkable how indifferent communities become to their general appearance and how the habit of untidiness grows on them.

BOERS APPLY TORCH

HAVOC WROUGHT BY THE INVADERS IN CAPE COLONY.

MURRAYSBURG IS SET ON FIRE.

PUBLIC BUILDINGS AND RESIDENCES ARE DESTROYED.

Town Not Garrisoned by Troops and Burghers, After Terrorizing the Citizens, Get Away Before Receding Column Comes.

London, July 8.—A Cape Town dispatch says that Scheepers's Boer commando has burned Murraysburg, Cape Colony, and entered the public buildings and residences, terrorizing the inhabitants. The town was not garrisoned and the Boers evacuated before the arrival of the British column sent to the scene.

Heavy Boer Casualties.

The financial secretary of the war office, Lord Stanley, in the house of commons today gave \$084 as the total number of Boers killed, wounded or made prisoners from among the active commandos during March, April, May and June.

No Peace Without Independence.

The British government has issued further South African correspondence concerning the peace negotiations which concludes with the text of the proclamation of Messrs. Schalkburger and Stein called by Lord Kitchener to the government on July 2 and read by Mr. Broderick in the house of commons on July 4. Messrs. Schalkburger and Stein affirm in this proclamation that ex-President Kruger and the Boer deputations abroad are making satisfactory reports, that peace would be worthless without independence, that no peace should be accepted without national existence, and that in the interest of the colonial brothers the war would be vigorously prosecuted.

BRITISH BUILDING BLOCKHOUSES.

Guarding of the Railroad Leading to Pretoria a Difficult Task.

Pretoria, July 8.—Blockhouses are being erected and everything possible is being done for the protection of traffic on the railway to Pietersburg, but the difficulty is enormous owing to the fact that the lines run between mountains, with thick bush on either side, affording excellent cover for the Boers.

Lately the Boers surrendering in this district were driven to the border; they were afraid to enter their own territory. When they surrendered they said they thought since South Africa has been fighting they showed surprise upon finding that the war continued in other parts of the country.

An enormous number of cattle and sheep are trekking from the south toward the government farms near Pretoria.

SALARY IS TOO SMALL.

Consul General Stowe Resigns His Post at Cape Town.

London, July 8.—A Cape Town dispatch says that United States Consul General Jas. G. Stowe has resigned and returns to the United States on the 25th.

Living Expenses Too High.

Washington, July 8.—The resignation of James G. Stowe, United States consul general in South Africa, has been received at the state department. The resignation is based on the utter inadequacy of the salary of the post. The cost of living in South Africa, even under normal conditions, is exceedingly high, while in time of war, such as has prevailed for the past two years, the \$3,000 salary allowed by congress for the United States consul general is not

WINS BY FOUR LAPS.

Floyd McFarland Easily Defeats the Welch Cyclist, Linton.

New York, July 8.—Floyd McFarland, the California cyclist, easily defeated Tom Linton of Wales in a five-mile motor-paced race on the ten-lap track at Madison Square Garden tonight, winning by four laps in 29:33 4-5.

ABYSSINIAN CAMPAIGN FAILS.

Troops Fail to Find Mad Mullah and Are Starving.

London, Tuesday, July 9.—The Times publishes the following, dated June 28, from Gerloghuby, in the Samouli country. "The Abyssinian army, campaigning against Mad Mullah, has failed to find him. The provisions have been exhausted and the troops are now eating camels and other transport animals. Many food is procured in a few days, many must starve to death."

TWO DIE IN HOTEL FIRE.

Occidental House at Forsyth, Mont., the Scene of the Fatality.

Helena, Mont., July 8.—Two unknown men were burned to death and eleven injured in a fire that destroyed the Occidental Hotel at Forsyth, Rosebud county, today.

Lightning Destroys Georgia Tavern.

Brunswick, Ga., July 8.—The Oglethorpe Hotel, the leading hostelry of the city, was struck by lightning today, the resultant fire causing a loss of nearly a hundred thousand. There were no casualties.

Disastrous Fires Elsewhere.

Colebrook, N. H., July 8.—Fire early today destroyed eight buildings, nearly all business blocks. The loss is \$150,000.

Kansas City, July 8.—Fire tonight destroyed the foundry of the Kansas Hay Press company. The loss is \$100,000.

AUTO MAKES 70 MILES AN HOUR.

W. K. Vanderbilt Gets a New Racing Machine from Germany.

New York, July 8.—A racing automobile has arrived at Newport from Germany for W. K. Vanderbilt, Jr. It cost \$12,000 and is believed to be the fastest machine there. It has been tried once against Mr. Vanderbilt's "White Ghost," and beat the old machine easily. Mr. Vanderbilt refuses to answer questions regarding the speed of the new machine, but it is said to be able to make seventy miles an hour. It is somewhat smaller than the "White Ghost," and is painted white and red. Three French chauffeurs accompanied the machine to America.

KAISER IN RAILWAY DEAL.

German Ruler Backing New Berlin-Hamburg Electric Line.

London, July 8.—Emperor William has blossomed out as a builder of electric railways, according to two American engineers who have just returned from Berlin. They say that the emperor, who is the Kaiser, is a joint partner with the well-known electrical engineering firm of Siemens & Halske for the construction of a great fast express line between Berlin and Hamburg.

The intention of the emperor and his partners is to shoot trains to the seaboard capital at the speed of 100 miles an hour. His majesty is said to be contributing to the enterprise several million marks from his private fortune. One of the engineers, who last week rode over the completed portion of the railway, said: "The Kaiser has two objects in interesting himself in this railway. In the first place he desires to benefit by the undoubted financial success that will attend the project. In the second place he wishes to set his countrymen a royal example in the development of electricity.

Baltimore, July 8.—The property of the Maryland Brewing company was sold at public auction today to the Gottlieb Strauss-Baunersmied company for three and a half million. The sale was made by the receivers under an order of court in foreclosure proceedings.

COMPANY'S OFFER REFUSED.

Striking Reading Shopmen Will Hold Out for Better Terms.

Reading, Pa., July 8.—At a meeting this afternoon of the Reading railway's shop hands who are on strike the propositions submitted to them by Acting President Welsch were rejected. It was decided to stand out for better terms.

YOUNGERS ASK FOR PARDON.

Minnesota Board Considers the Case and Reserves Decision.

St. Paul, July 8.—The state pardon board today considered a long list of applications for parole, the most important among them being those of Cole and James Younger, who are serving life sentences for connection with the Northfield bank raid in 1876. The board took the cases under advisement and reserved decision.

ACCUSED OF KILLING CHILD.

Charles Dunn, a Wealthy Indiana Lumberman, in Custody.

Flt. Wayne, Ind., July 8.—Charles Dunn, a wealthy lumberman, was arrested tonight, charged with murdering ten-year-old Alice Cothrell, whose body was found in a cistern at Dunn's home at Huntertown. The child was missing for five days, having been seen near Dunn's house on an errand. Physicians say an attempt had been made to strangle the child.

SIOUX FALLS MAN A SUICIDE.

Sioux Falls, S. D., July 8.—Lawrence Halbritter, aged fifty-five, blew his brains out with a shotgun this evening after a quarrel with his nephew, Carl Halbritter, whom Lawrence Halbritter believed he had fatally wounded.

SAYS HIS THREE CHILDREN.

Halifax, July 8.—Sidney Locke of Lockport today killed his children, aged fifteen, eleven and eight. The man is unbalanced mentally.

GRAVE AFFRONT TO GERMAN KING.

Edward of England Denies the Garter to Wurtemberg's Ruler.

London, July 8.—Semi-official announcement has been issued to the effect that it is not proposed to confer the Order of the Garter upon the king of Wurtemberg. This constitutes so grave an affront to this German monarch that it has created a sensation in official and court circles, and is likely to make no end of noise on the continent, as being an almost unprecedented manifestation of ill will between two brother sovereigns.

Queen Victoria had intimated her intention of conferring the garter upon King William, and the latter had expressed his keen gratification at the compliment thus paid to him, for the garter is the most highly prized of all European orders, even among crowned heads, especially among those who are the rulers of second or third class powers.

Death Spoiled the Plan.

Queen Victoria was anxious that the king should be invested with the order with proper pomp and ceremony, and delegated her second son, the late Duke of Coburg, to proceed to Stuttgart to invest the king with the order. But he, however, fell ill and died, and then it was arranged that Queen Victoria's third son should go to Stuttgart for the purpose of attending the festivities at the birth of the Prussian king.

It will be remembered, however, that the duke was summoned back from Berlin in haste by his mother's illness, to which she succumbed. It was, however, believed that after a time King Edward would fulfill his mother's intentions with regard to Wurtemberg king. But he declines to do so.

The king of Wurtemberg is an object of particular animosity on his part, and since the jubilee in 1897, when the king made himself exceedingly unpleasant to the Prince of Wales on the subject of precedence, the relations between him have been most unfriendly.

Call Each Other Names.

King Edward denounces King William as coarse, boorish, gross in the matter of both food and drink, and entirely lacking in breeding and refinement. King William, on the other hand, has been even still more free in his denunciation of the behavior of King Edward, when still Prince of Wales, especially with regard to his relations to the fair sex and to his fondness of cards.

EDUCATORS IN SESSIO.N.

Detroit, July 8.—A meeting of the national council of education and the first session of the department of Indian education opened today. The first session of the national council of education will be held until tomorrow. The national council devoted tonight's session to eloquent tributes to the memory of Henry Barnard, first national commissioner of education, and of Professor B. A. Hinsdale, late of the University of Michigan. This was the only session held tonight by any of the departments.

BALTIMORE BREWERY SOLD.

Baltimore, July 8.—The property of the Maryland Brewing company was sold at public auction today to the Gottlieb Strauss-Baunersmied company for three and a half million. The sale was made by the receivers under an order of court in foreclosure proceedings.

ENGLISH RIFLE CONTEST OPENS.

London, July 8.—The forty-second annual meeting of the National Rifle association opened at Kilsby today. The entries are generally satisfactory, but there is a notable absence of colonials. The events decided today were unimportant.

BIG TIMBER STEALS

MONTANA FRAUDS INVOLVING MILLIONS COME TO A HEAD.

GOVERNMENT NOW TO SUE.

FEDERAL GRAND JURY RETURNS SCORES OF INDICTMENTS.

Senator Clark, the Daly Estate and Anaconda Company Must Defend Actions Following Irregularities of Many Years' Standing.

Helena, Mont., July 8.—Millionaire W. A. Clark, Margaret Daly of New York, administratrix of the estate of Marcus Daly, the Anaconda Mining company and the Bitter Root Development company must answer to the United States government for irregularities in timber lands in Montana and Idaho involving millions of dollars. Many years it has been the policy of the government to grant the right of prosecution against these great interests, but now the mills are grinding fine.

W. A. Clark must fight with all his resources for the title of 140,000 acres of timber land. Likewise the Daly interests, including the great mining companies named, must defend a suit instituted by the national department of justice for the recovery of \$1,200,000, the value of timber alleged to have been cut from the government's lands in Montana.

Over a Hundred Indictments.

Not alone are these prominent interests attacked. One hundred and two indictments have recently been found by federal grand jurors against individuals who are accused of actually managing the scheme by which the government declares it was defrauded of great amounts and the timber laws of the nation were violated.

All this has come about in the last few weeks. For three years the government has been trying to get the regular officers of the department of justice in Montana to vigorously prosecute the case. This has been all in vain, and not until the appointment of special agents of the department, together with a special assistant attorney general to force the prosecution, has anything been done. Since that time events have moved rapidly. In the last few days indictments have been returned against Daly interests. Senator Clark has been notified that he must fight for his land title, and arrests of the principals have been followed by their release in heavy bonds.

Frauds Date Back Several Years.

The story of the timber land frauds in Montana dates back ten or twelve years. At that time the federal government took cognizance of them when a bonus was paid to A. B. Hammond of Missoula. In this state, where charged with cutting millions of feet of timber from the public lands. Suits were brought against these men, and after many delays and the exercise of great political influence and influence in the federal court for years they were dismissed. Afterwards Bonner and Hammond sold their million dollar interests in this state to Marcus Daly and the Anaconda Mining company. They had been notorious in Montana for years that thousands of acres of timber land have been entered and patents granted to the employees of the milling companies. These things have been known not only to the general public, but to the land owners in the districts where the timber is cut. In recent years, owing to the wholesale cutting of timber and the immense quantity of lands taken up in the way described, the quantity of good timber lands had been cut down.

Michigan Men at the Bottom.

Two years or so ago Mr. Griswold, representing Michigan timber men, came to western Montana. He looked over the ground and made arrangements to have the lands he had selected, amounting to about 140,000 acres, entered for his Michigan principals. Before the deal had been concluded he had a falling out with his eastern men, who had agreed to work for E. M. Cobban of Missoula to secure the lands. After he had gotten dressmakers, school teachers and all sorts of people to enter the land and get patents, Cobban bought the titles and then tried to find a market for his holdings. He went west and offered the lands to Marcus Daly and F. A. Heinze. Finally W. A. Clark, who at that time was at war with the Anaconda company, concluded that he must have the timber for his Butte mines, and as he controlled all the sawmills in the greater part of the timber, he to Cobban, paying more for them than anyone else would.

Marshals Rounding Up Culprits.

The facts were brought out before the federal grand jury, which sat here recently, and 102 indictments were found against about forty persons, including Cobban, Griswold and United States Commissioner Catlin. Cobban and Catlin have been arrested, and are out under heavy bonds, and the marshals are on the lookout for the others.

WEATHER FORECAST.

Washington, July 8.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Tuesday, probably showers in western portion; Wednesday, showers and cooler; winds mostly fresh easterly.

VICTIM OF THE HEAT.

Cleveland, July 8.—T. R. Herrick, father of Colonel Myron T. Herrick, died today at his home at Wellington, O., as a result of an extreme heat of last week.

Unlocks the gates of happiness; makes the music and saves the wood; lifts one up in the sunshine of life. That's what Rocky Mountain Tea will do. Stafford Drug Co.

WEST INDIES ARE SWEEPED.

Storm Costly to Life and Shipping Visits Hayti and San Domingo.

Port au Prince, July 8.—A violent storm has been raging the last three days over the southern parts of Hayti and San Domingo. Five persons were killed at Jacmel and nine lost their lives at Les Cayes. Several sailing vessels have been wrecked.

FAST TRIP FROM THE ORIENT.

Cruiser Newark Sails from Hong Kong to New York in 46 Days.

New York, July 8.—The United States cruiser Newark, which arrived from Hong Kong last evening, broke all records for warships in the long trip from the Orient, and won a "big red apple" for the commander, Captain B. H. McCalla. The captain's wife must furnish the apple, as when she and her daughter sailed from Hong Kong for San Francisco the same day the cruiser left by the other route she let her reach New York ahead of the captain. The Newark made the trip in forty-six days. Captain McCalla will be transferred to the command of the Kearsarge.

GREAT FLOODS IN CHINA.

Four Thousand Reported Lost in the Province of Kiang Si.

Earthquake Causes Disaster.

Tacoma, Wash., July 8.—Canton advices by the steamer Braemar give the details of the loss of 300 lives by a landslide and flood occurring at Lung Keng in June. The landslide was caused by a tremendous earthquake which unsettled the land and sea. A great flood of water poured out of the mountains, carrying everything before it. Hundreds of houses were swept away and the fields swept bare of crops. A large portion of Lung Keng was carried into the bay.

SWITCH ENGINE HITS TRAIN.

Twenty-five Passengers Hurt in an Accident at Columbus.

Columbus, O., July 8.—Panhhandle passenger train No. 19 was side-swiped by a switched engine just outside the union station here this afternoon. Twenty-five people were more or less injured, seven being so badly hurt they were unable to proceed. The passenger train was approaching the station at rapid speed when the switch engine, with a cut of cars, dashed out from a siding, striking the third coach. This car and the one following were totally demolished. The accident was due to a misplaced switch.

Circuit Train Wrecked.

Milwaukee, July 8.—A train carrying the Boctook circuit was derailed on the Northwestern near Pensaukee today, killing John Fraser of Chicago and injuring several other people. An unknown man had both legs cut off and will probably die.

Killed by the Fast Mail.

Murphysboro, Ill., July 8.—Ignatz Streker was killed today by the fast mail train on the Illinois Central.

CHRISTIAN WORKERS ASSEMBLE.

Convention of Endeavors Gets Down to Business at Cincinnati.

Cincinnati, July 8.—The regular convention of the twelfth international convention of Christian Endeavor were begun today. Several of the largest churches in the central part of the city are in addition to Olcott Hall and three large auditoriums heretofore used for exposition purposes. The big meeting of the afternoon was held in Auditorium Endeavor where George B. Graff of Boston presided over a Century More of Christian Endeavor, and Henry H. Jarncsen of Chicago evolved some "New Committee Ideas for the Next Century." William R. Moody of Northfield, Mass., son of the evangelist, expatiated on "Your Testimony in Meeting," which he said should always come from the heart and be freely given. Edwin S. Shaw of North Dakota evoked much mirth in telling of "Pastors That Lead."

The fair sex predominated in Auditorium Williston at the afternoon meeting. Professor James Lewis Howe of Lexington, Va., having it in charge. The meeting was mostly devoted to an open parliamentary session. Alexander E. Matheson of Janesville, Wis., explained "Social Committee That Are Social." Rev. R. V. Hunter of Indianapolis read a paper on "How We May Manufacture Christian Endeavor Citizens." and Rev. William B. Pennington of Des Moines, Ia., spoke on "Graduating Into the Twentieth Century Church."

The local district and state union of officers met during the day and discussed business, as also did the clergymen, who held an exclusive session in the Auditorium Endeavor late in the afternoon. At 5 o'clock President Clark received personally all Endeavors who have been members for ten years. The reception took place in Olcott and the adjoining Music hall auditoriums and hundreds improved the opportunity to meet Dr. Clark.

Huge Rallies Held.

The rally in Auditorium Endeavor this evening was in many respects the most remarkable of the convention. The meeting, which was to have been held in Auditorium Ohio, was consolidated with the one in Auditorium Endeavor and both programs were cancelled to make room for the main speakers of the convention—Hon. S. B. Capen of Boston and Rev. Charles M. Sheldon of Topeka. Long before the hour set for the meeting the immense audience, with a seating capacity of over five thousand, was packed and many were unable to gain admission. Clarence E. Eberman of Pennsylvania, the newly elected financial secretary, was introduced and received with great enthusiasm, the vast audience rising en masse to extend welcome. The meeting in Auditorium Williston was also an enormous one, nearly four thousand attending. P. S. Henson of Chicago and Rev. Frank Dixon of Hartford, Conn., were the principal speakers.

WEDS A CUBAN HEIRESS.

Count Boni's Brother Leads Miss Terry to the Altar.

Paris, July 8.—Count Stanislaus De Castellane, brother of Count Boni De Castellane, who married Anna Gould, was today married to Miss Terry, daughter of Senator Terry, the late Cuban millionaire.

BUBONIC PLAGUE ON BOARD.

Steamer from Japan Quarantined at Marseilles—Two Deaths.

Marseilles, Tuesday, July 9.—Since the arrival yesterday of the French steamer Laos, from Yokohama, May 23, with fifteen cases of bubonic plague among the Arab stokers, two deaths have occurred on board. As yet no cases have developed among the passengers or remainder of the crew, aggregating 317. The authorities are enforcing a strict quarantine.

FILIPINOS ATTACK PRIESTS.

Friars Who Pay Visit to Interior Town Are Forced to Flee.

Manila, July 8.—Two friars who were invited to Calastao, province of Pangasinan, to celebrate a holiday, were mobbed. The native priest denounced the action of the people, whereupon the mob attacked the friars and refused to attend church. The friars fled.

Charges Against a Governor.

The United States Philippine commission has ordered H. Phelps, United States Stated senator, to come to Manila and submit to an investigation owing to an allegation that he has been using his position to personal advantage in acquiring land from natives.

HAWAII LOSES NOTED CITIZEN.

Sudden Death of Paul Neumann Shocks the People of the Islands.

Honolulu, July 2, via San Francisco, July 8.—Paul Neumann died today from paralysis of the brain, aged sixty-eight. He was one of the best known and most liked citizens in the islands, and his sudden death was a great shock to the community. He was a popular member of the bar and had been mentioned as a gubernatorial possibility since the reports of Governor Dole's possible resignation. Mr. Neumann represented the Hawaiian government at Washington and in various other capacities before annexation. Under King Kalakaua he held the post of attorney general. Before coming to Hawaii he lived in California, where he served three terms as state senator. Mr. Neumann was born in Prussia.

COURT CANCELS MORTGAGE.

Remarkable Case of Extortion Aired at Niles, Mich.

Niles, Mich., July 8.—A decision of the Berrien county circuit court setting aside a mortgage of \$800 on the farm of Joseph Coveny, living near Buchanan, five miles west of here, is one in a remarkable series of events involving a strange story of Alaska and charges of the extortion of \$8,000 by imprisonment in the far north land. The mortgage on Coveny's land was given to a man named Patello, an attorney in Alaska, who defended Coveny when he was imprisoned. Patello received \$800 in cash in addition to the mortgage. Coveny, who accused Frank Phisicator of the Berrien county extortion, declared worth \$500,000, of wronging him while on a visit here one and a half years ago to Alaska to compel a settlement. He secured \$7,000 and was about to return home, when he was arrested on a charge of extortion by threat and compelled to return the money. He says he was locked up in a awful hole in a jail and Patello, the attorney who came to his release, dictated terms to secure his freedom. Coveny alleges that his attorney was bribed by Phisicator. A suit against Phisicator for the recovery of the \$7,000 will be commenced at once by attorney. The wealthy Alaskan declares the money was secured from him by threat, and insists Coveny's alleged wrong was a fabrication invented for the purpose of blackmail.

MILWAUKEE-DOWNER COLLEGE, MILWAUKEE, WIS.

Throughout the country there has been a rapidly growing interest in Milwaukee-Downer College. This institution occupies the unique position of being the only college for women exclusively in the great state of Wisconsin. In addition to its offering a broad and thorough course of college work, from any year of which a student may pass to like rank in other colleges, and the fact that on its diploma a life certificate for teaching in Wisconsin may be issued, it provides a beautiful home in which the utmost attention is paid to the best and most wholesome conditions of physical wellbeing, as well as to the social culture and moral influence that contribute so largely in preparing a woman for the largest usefulness in the home, church and society.

The importance of surrounding the life of a young girl, at its most responsive period, with refining influences, and an atmosphere that is conducive to developing good taste, forming good manners, and establishing good principles, is a constantly growing consideration with thoughtful parents. It is recognized that an environment of beauty, refinement and culture, together with a spirit of moral earnestness and appeal to the higher interests of life are invaluable in the formation of character. The steadily increasing patronage of the college justifies to its merit on these important lines.

The attraction of the college is much enhanced by the erection of a new residence, Charles M. Sheldon of Topeka, September next, by students of the college department. The seminary, a college preparatory school, which has a large attendance, will continue to occupy Helton Hall. The new building is a handsome brick structure, planned to accommodate fifty to seventy students, besides apartments for students, parlors, cuisine and dining room.

Certainly any young lady planning to attend school or college, or to study music or art, cannot afford to fail to examine the opportunities for education that are offered by Milwaukee-Downer College.

TO INCREASE ITS CAPITAL.

Issue of \$13,200,000 More Stock Planned by the Illinois Central.

New York, July 8.—At a meeting of the board of directors of the Illinois Central railway today, it was decided to recommend to the stockholders for action at the annual meeting on Oct. 16 an increase in the capital stock of \$13,200,000.

DECLINE FORCED IN STOCKS.

Prices Manipulated by Pools Which Quietly Take Offerings.

New York, July 8.—The action of prices in today's stock market made it evident that very large financial interests were conducting some notable operation. An effort was made to have it appear that some occult maneuver was going on designed to inveigle the public into parting with their stocks at declining prices for the benefit of large financial interests who seemed to be themselves selling stocks with great industry. There recently have been large speculative holdings which were withheld from sale only by reason of the support which has been accorded prices by large syndicates and moneyed interests. The indications were that a considerable part of this support was withdrawn today and large holdings were dislodged by the decline in prices which was allowed to occur. The United States Steel stocks were limited in the decline as well as the railroads, which led the decline all day with only occasional straggling rallies on covering by bear traders.

In the final break, St. Paul fell an extreme of 10 3/4 points, Missouri Pacific 8, Union Pacific 7 1/2, Atchafalaya 5 1/2, and United States Steel, which had offered some resistance during the day, suddenly declined 4 points under very heavy offerings. While the general market was less acutely affected, there were some very heavy sharp losses recorded among the New York public utilities, most prominent industrial and Eastern trunk lines and the coalers. The declines in these ranged from 3 to 7 points in the principal stocks and the market closed in a semi-demoralized condition, as follows, Paine, Webber Co. reporting the quotations:

Table with columns for stock names and prices, including Union Pacific, Missouri Pacific, and various railroads.

Range of Money Rates.

Money on call, steady, at 2@8 per cent; last loan, 2; ruling rate, 6. Prime paper, 4 1/2@4 1/2; exchange, easy, demand at 4.87 1/2@ and sixty days at 4.85 1/2. Bar silver, 58 1/2 cents.

WHEAT DOWN ON CROP NEWS.

Weak Throughout in Contrast to Corn and Oats, Which Soar Upward.

Chicago, July 8.—Lower cables, excellent crop prospects and favorable weather combined to cause a weak opening in wheat today. The trading was largely local, without particular feature. Bull influences were a decrease on passage and small world's shipments. Weakness prevailed throughout the session, September closing at a cent loss. The clearances were 500,000 bushels and the seaboard reported fifty boatloads taken for export. Corn opened firm and fairly active. Bull factors were the weather throughout the Southwest, with still higher temperatures to follow, and weakness in the railway stocks whose interests are largely dependent on the Southwestern crops. Profit-taking by longs caused an early decline. September closed 5/8 higher.

The same influences operating in corn affected oats, but there were much better speculative confidence in the latter, inasmuch as the crop is practically made and the price is relatively lower than corn. The opening was strong and the strength continued throughout the day, September closing 3/8 higher. The leading futures ranged as follows: September wheat opened at 64 3/4@65; highest, 64 1/2; lowest, 64 1/4@63; closing, 64 1/2@64 3/4. September corn opened at 47 3/4@48; highest, 48 1/2; lowest,

TO RENT-A furnished room suitable for two gentlemen or man and wife. 412 High street. (6-11-10)

TOURNAMENT MATTERS. In Four Weeks the Fire Laddies Will Congregate at Crystal Falls.

The current number of the Crystal Falls Diamond Drill has the following relative the August tournament of the Upper Peninsula Firemen's association: "But four weeks remain before the firemen's tournament and there is a great deal of work to be done in the interim. True, there was an early start made and matters are well along but there remains much to do yet in order to get things moving smoothly."

The directors met Tuesday to open the bids for the erection of the grand stand, but, as some of the contractors claimed that they had not had time in which to figure on the job, the bids were not open until Friday night. The lowest bid was found to be \$385.00 and as all were away above what the directors thought the job worth they were rejected and the stand will be erected by day work. The stand will require 25,000 feet of plank, all of which has been secured from Hood & Mahoney on very favorable terms, viz: The association pays one-half of the purchase price for the material and Hood & Mahoney wait for the balance until the plank is sold. This is a chance that cannot be had every day and the people of Crystal Falls feel very much indebted to the Pentaga people for their generous treatment. The bids for the stand are being furnished by Mr. Strutz, Messrs. Russell and Richards having secured them at very reasonable figures. The track has its first coating of cinder and it has been thoroughly rolled and wet down. Another coating will be put on next week and more wetting and more rolling will be done.

The official badge has been chosen. It will be a ribbon badge with a two faced disk attached to it, one side bearing the fireman's emblem and the other a picture of the Crystal Falls mine shaft house. It is a beauty and typifies Crystal Falls.

The railroads have been very generous with the Crystal Falls people, it being understood that the rate on all roads will be one-half of one fare for firemen in uniform and one fare for the general public. This is a rate that cannot be beaten and is perfectly satisfactory to all concerned.

The teams are being assigned to quarters as fast as they can be heard from, the assignments to date being: Houghton, 50 men—Lockwood house, Ishpeming, 50 men—Lockwood house, Red Jacket, 50 men—Lockwood house, Amasa, 25 men—Lockwood house, Hancock, 30 men—Collins house, Bessemer, 30 men—Collins house.

"The money due on the first two installments of stock subscriptions is coming in nicely and everyone seems to be coming up to the scratch handsomely. It is thought that all of the \$3,000 subscribed will be paid.

"Crystal Falls will be a warm place for crooks during the tournament if the program now talked of by the city authorities is carried out. The last few tournaments have been great drawing cards for the crooks of the country as the attendance has been good and everyone attending had money. At Marquette the pick-pocks became so annoying that the second day of the tournament, a regular crusade was made upon them and they were pretty well chased out of town. Calumet took warning from Marquette's experience, taboos all games and spotted the crooks, thus keeping them from doing any particular work. Crystal Falls is going the thing one better and will have detectives here several days before the meeting so as to spot the crooks who may drop into town and turn them away. These officials, together with a large force of home officers, will be on the ground all the time and allow no person to remain in town a minute after he is spotted. This will do away with a lot of trouble; save the city and county a great deal of expense, protect the people who intend visiting us and safeguard the houses and property of residents."

MARINE NOTES. Passed the Canal. Sault Ste. Marie, July 8.—(Special.) Up—Centurion, 7; Matafca, Bryn Mavr, 9:40 p. m.; Queen City and whaleback; Roumania, 1; Waldo, 2; Neilson, 2:40; Colonus, 3:30; Shaw, 4:20; Curry, 7; Clinton, 7:20; China, 8:20; Saco, 8:40; Ramus, 8:40; Admiral, 10; Siemens, 11:40 a. m.; Roman, Yale, Geo. AMERICANS TAXED IN ENGLAND. Must Give Up One-Seventeenth of Income to Help Pay for War.

London, July 8.—Most of the 30,000 or 35,000 American citizens who live in England are unhappy because they have to give up one-seventeenth of their income to this country within a year. Big sheets of heavy brown paper with "Income Tax" printed thereon in aggressive type are what cause the trouble.

The first time an American, after living in England for six months, gets a document of that sort in his mail box he throws it into his waste basket. In due season along comes another one, requesting him to inform the British government what his salary or the profit on his business is, what interest he gets from his bank, what his investments in securities or real estate bring to him and finally, to close every loophole of escape, "particulars" of income from every source whatsoever—to quote from the big brown paper.

"Confound impudence!" exclaims the free-born American citizen in wrath, especially if he is one with an American salary. "My income comes from the United States. My property is there. What right has the British government to question me, a foreigner, about the money I get from a foreign country?" So he throws the second document into his waste basket.

Presently along comes a third. It is smaller than the others, but it means business. The American hasn't supplied the British government with the information it wants, and so John Bull has taken a look at the American's premises, has asked a few discrete questions about him and has made a shrewd estimate on his annual income and sent in a bill for one-seventeenth of it for the United States. My property is there. What right has the British government to question me, a foreigner, about the money I get from a foreign country?" So he throws the second document into his waste basket.

Protests of No Avail. He goes spluttering to the commissioners—half a dozen men gathered solemnly around a table in the vestry room of a church. He says he has to pay taxes on his property at home, and that it is a blank outrage that he should have to pay more taxes on it over here too. The commissioners murmur sympathetically that it's the law and can't be helped. He informs the commissioners that if they went over to America they could live there for a hundred years without being taxed if they had no property there, except possibly a stray poll tax in some places.

The commissioners purr something about the tariff, and add that if the appellant's life is insured he can get a rebate on that. The appellant says eagerly that he is insured in the London office of one of the American companies. "Too bad!" exclaim the good, kind commissioners, "the rebate is only on insurance in British companies."

The end of it all is that the tax gatherer calls again on the unhappy alien and eventually the tax is paid, or the alien is prosecuted.

The officials at the American embassy say that every summer they have to listen to innumerable tales of woe from Americans on whom the blight of the British income tax has fallen. All that the embassy can do, however, is to point out the law and to give to the American a helping hand in cases where the tax gatherer has overreached the law.

Of course the American who is in business here cannot kick much at the tax on his income from trade in England; but if he gets his income solely from America the British impost on that income makes him mad all through, particularly if the income arises from property already taxed in America. His only satisfaction is to name to the British commissioners only as much of his income as an investigation of his account at his London bankers would reveal. And the commissioners are usually satisfied with that.

At a rough estimate the total amount of income taxes which Americans in England are compelled to pay for John Bull's support is \$5,000,000 a year. All whose incomes are below \$800 a year escape free, however. The American ambassador likewise is lucky, for he is officially exempt from taxation. By courtesy, also, although not by law, representatives of foreign powers in England are absolved from all personal taxes.

CHINA'S INDEMNITY BONDS. How They Will be Distributed Among the Allied Powers.

Washington, D. C., July 8.—The early settlement of the indemnity problem in Peking is expected at the state department, but some of the proposals attributed to the state department, as Mr. Rockhill, the American representative, are not regarded as authoritative. The principal of the indemnities to be paid by China to the civilized powers has been agreed upon, but Japan and Russia are still holding for a joint guaranty, and it is believed that all the powers will eventually consent to receiving the bonds each for itself and throwing them on the market at whatever price they will bring.

The United States and possibly one or two other powers will hold the bonds in their treasuries as a source of income instead of selling them in the market. The Japanese government insists that if this method is adopted, its proportion of bonds should be increased. There might not be much objection to this if the Russian government did not insist on the same consideration. The United States has not been advised whether this commission is to be made up of the ministers of the powers or of officials appointed for the purpose, or whether this matter is left to the discussion of each government. The duties of the proposed commission are to be chiefly administrative. They will not interfere directly in the collection of the revenue, but will make a united protest to the Chinese

imperial government and give notice to the civilized powers in case there is any irregularity in the payments. The commission will distribute deficiencies pro rata, if they occur, in order that the Chinese imperial government may not be encouraged to divide the powers among themselves by making full payment to some and withholding it from others.

The state department does not consider the movements attributed to Mr. Rockhill in regard to the customs duties as entirely correct. The United States has sought to cooperate with Great Britain in the adjustment of commercial relations. Great Britain has favored an effective customs collection of 5 per cent. ad valorem upon all imports now subject to that rate under the old treaties with China. It is not material whether the collections are in gold or silver, so long as the silver is accepted at its true money value and not at the old arbitrary ratio between gold and silver. The collection of an effective 5 per cent. is nearly equivalent to the collection of the present rates of duty in gold instead of silver, but is not exactly the same in all cases.

The Russian government has proposed that the duties be raised to 10 per cent., which would amount in gold to nearly four times the rates now collected. Neither the United States nor Great Britain will accept this proposition. It is probable that the collection of 5 per cent. upon the real value of imports will be the result.

It is understood that a part of the Chinese customs, as well as the imperial maritime customs under Sir Robert Hart will be available for the interest on the indemnities. The proposal attributed in some of the dispatches to Mr. Rockhill, that the general "Blink" taxes be abolished, is not regarded very seriously at the department of state. The United States would be glad to see such a result achieved, but does not consider it very probable as a part of the indemnity arrangements.

POWERFUL NEW WARSHIPS. Nine More Big Vessels to be Added to Britain's Fleet.

London, July 8.—In connection with the announcement by Secretary Forster, of the admiralty, of the year's ship building program, which includes three battleships, six cruisers and ten protected torpedo boat destroyers, it develops that the battleships will be of 14,500 tons and twenty feet longer than the Formidable class. Their armor will be 18 inches thick, their speed 18 1/2 knots. The new battleships will have a belt of armor eight to nine inches thick. A peculiar feature will be six-inch guns not mounted in separate casemates, but in battery, with seven-inch armor. The armament will consist of four 12-inch guns, four 9.2-inch guns and four six-inch guns. It is thought these ships will compare favorably with anything building by any European power. The new ships will be named King Edward, Dominion and Commonwealth, in commemoration of the great support rendered to king and country by the two great branches of the kindred race. The cruisers will be of 5,800 tons, and will have a speed of 23 knots. Their armament will be heavier than the Monmouths. It is believed that the cruisers about to be constructed will be equal to anything likely to be brought against them. The new torpedo-boat destroyers will be of stronger construction.

All the new ships will be fitted for wireless telegraphy, as will all other British warships, in commemoration of the great support rendered to king and country by the two great branches of the kindred race. The cruisers will be of 5,800 tons, and will have a speed of 23 knots. Their armament will be heavier than the Monmouths. It is believed that the cruisers about to be constructed will be equal to anything likely to be brought against them. The new torpedo-boat destroyers will be of stronger construction.

The secretary also said there was an absolute determination upon the part of the admiralty to find the best type of boiler, and the government was watching with interest a German experiment of combining cylindrical and water-tube boilers in the same ship.

In the House of Lords the Earl of Selborne, first lord of the admiralty, in a statement on the present naval position of Great Britain, said that the remainder of the year 1901 would witness the completion of three armored cruisers of the Grey class, four first-class barbette ships of the Formidable class and two first-class barbette ships of the Canopus type. Lord Selborne said the first half of 1902 would see the completion of two more vessels of the Grey class, two others of the Formidable class, one armored cruiser of the Monmouth class and three armored cruisers of the Drake class. He added that the total number of destroyers built or building was 113. Of the five submarine vessels already ordered the first would be ready for trial next September.

The Daily Chronicle points out that although Lord Selborne dwelt upon the difficulty of getting vessels finished on time, foreign powers, like Japan, have no difficulty in getting enormous battleships built on time in British yards. The paper publishes the contents of confidential reports on the last movements of the Mediterranean fleet, the substance of which, it declares, is well known to both France and Russia, although it has been concealed from the British public. The gist of the reports, according to the Daily Chronicle, was that in a sea like the Mediterranean, battleships have little chance, and that British power can only be held by destroyers. It declares that both Admiral Fisher and Lord Charles Bessford have demanded destroyers, but that none has as yet been built, and that these inventors, Lord Charles Bessford to criticize the naval policy.

Great July Sale OF DRY GOODS, CLOTHING AND SHOES At D. SEIDENFELD'S Big Bargain Store of Marquette, Mich.

During the month of July we shall name remarkably low prices in all of our departments, as our stock must be reduced to the lowest point by August 1st. Our Great Special Sale of Muslin Underwear for Ladies is the talk of the town. Don't miss seeing our Underwear Bargains.

SHOE DEPARTMENT. Our Shoe Department has grown in a few years to the largest shoe store in Marquette. Ladies' shoes from \$1.00 up to the best made at \$3.50. Men's and Boys' shoes that are made of solid leather at money-saving prices. Try our big shoe department for your next pair of shoes and oxfords. D. SEIDENFELD, The Great Big Bargain Store of Marquette, Mich.

THERE IS NO USE ARGUING WITH a stubborn man. So if you're one of that sort don't read any further. We talk and talk about the merits of clothing bearing this label, year in and year out, and why? We have other makes to sell as well; why push Stein-Bloch clothes so persistently; larger profits? No; smaller. But every time we put a Stein-Bloch Suit or Top Coat on a man IT FITS; IT WEARS to his entire satisfaction; IT PLEASES HIM; and he remains our customer always. Time is saved in the selling, and time is money in a busy store; relations between us and the customer are pleasanter and that creates a cheerful atmosphere in our shop. "Now, will you be good" and try one of the SUITS, . . . \$15.00 to \$25.00 TOP COATS, \$15.00 to \$25.00 And your money back for the asking.

Gooding & Ormsbee, 127-129 Washington Street, Marquette.

The High-Grade Bicycle "WHITE" with Morgan & Wright double tube tires will be sold as long as they last for the extremely low price of \$15.00 Each. FULLY WARRANTED. Only a limited number on hand. Call and see this wonderful bargain at the Marquette Hardware Co., 205 FRONT STREET.

This Is the Time

when we inaugurate our bargain sales. We have many inducements in summer goods of all kinds. The ladies are invited to call.

INQUEST WILL OPEN TODAY.

Coroner's Jury in Tasson Case to Convene This Morning at 9 O'Clock.

The inquest in the Tasson murder case will open this morning at 9 o'clock in Justice Kennedy's court. Many witnesses will be examined and some interesting testimony will be heard. Marshal Farn has secured all the important witnesses who either saw the crime committed or have some knowledge of the history of the quarrel between the two families. Most of these are Italians and it will be necessary to employ an interpreter. Others who will give testimony are residents of the Junction who saw Danieli do the shooting. Prosecuting Attorney Frank A. Bell of Negaunee will be here to conduct the examination.

It will be decided today when Danieli will be given his hearing. It will probably take place the latter part of this week or the first of next. However, no definite date has yet been decided upon.

There were but few developments in the case yesterday. Conflicting stories as to the nature and cause of the quarrel are heard on every side.

It now appears that the much-hoped-upon valise had nothing to do with the story and that Tasson had no belongings at Danieli's home. It was another Italian who called for the valise and he received it without any trouble. This Italian, when returning from Danieli's home, met Tasson. He was asked by Tasson if he had any trouble in getting the valise and replied in the negative. Just how the quarrel began is not known.

Public sentiment is much in favor of Danieli, who has borne a good reputation. Several merchants and professional men who have had dealings with him speak of him very favorably. On the other hand, there are few who have a good word to say for Tasson. He had been such a troublesome character since coming to Ishpeeming that all feel that he earned the fate Danieli visited on him.

The prophets are already predicting the result of the trial, although the preliminary examination has not yet been held. The general opinion is that Danieli will not be found guilty of murder in the first degree, but may be convicted of manslaughter.

The one thing that will go hard with the accused is that Tasson was shot in the back and about thirty feet away from Danieli's residence. This would indicate that Tasson was going home when shot. However, it is claimed by the defense that Tasson turned just as the gun was fired and ran about thirty feet after being shot. The stories told are so contradictory that it will take lots of probing before the correct story of the tragedy is obtained. It was reported today that Danieli will enter a plea of justifiable homicide.

THE OUTFIT IS HERE.

The new gymnasium outfit ordered some time ago for the rooms of the Catholic Athletic club in the McKey block has arrived, and the members of the organization are greatly pleased therewith. Quite a sum has been invested in the equipment, and the members intend to get more paraphernalia before winter sets in. The club rooms are well patronized by the members. The main hall is large and will accommodate a number of athletes at one time. The smaller rooms are not yet in first-class order. It has been difficult to get painters at them, so rushed are they with other work. It will not be long, however, before the place is in excellent trim, and thoroughly equipped with everything the members will need for their amusement and exercise.

It is the intention of the boys to organize a foot ball team within the next few weeks. There is some excellent material among the club members. Some of them have done star work with the Rough Riders and Ishpeeming high school teams, so that good things may be expected from the new organization. Among the members who will appear in the eleven are Will Malloy, Jerry Donovan, Leo Schilling, George Ruez, B. J. Goodman and others. It is understood that some but members of the club will be permitted to play on the team.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Costive Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

Our Summer Bargain sales in Cloaks, jackets, capes, etc., are now on. F. Braastad & Co.

Heppner's pure ice cream at the soda fountain is a winner every time. Heppner, Marquette. (5-1-1f)

Summer goods of all kinds are going. Prices reduced on all lines. F. Braastad & Co.

Thos. W. Carter of Ashboro, N. C., had kidney trouble and one bottle of Foley's Kidney Cure effected a permanent cure, and he says there is no remedy that will compare with it. The People's Drug Store.

To eradicate worms from the system give the child plain, nourishing food and WHITE'S CREAM VERMIFUGE. The result will be, the worms will disappear and the child become healthy and cheerful. Price 25 cts. Stafford Drug Co.

Jas. G. Ambertof, Della, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of Banner Salve it began to heal and after three applications it was entirely healed leaving no scar." The People's Drug Store.

ISHPEMING IN BRIEF.

George Penglase went down to Crystal Falls yesterday.

Edward Clark is in Detroit visiting friends and relatives.

Joe Mack and Steve Lowmyer were up from Marquette Sunday.

Miss Vivian Gray of Ironwood is visiting friends in this city.

Joseph Richards spent yesterday at Swanzy on a fishing trip.

Sheriff John Penglase was in the city yesterday for a few hours.

J. Lovell of Menominee was a business visitor here yesterday.

George W. Koyser of Ann Arbor was here yesterday between trains.

The adjourned meeting of the council will be held tomorrow evening.

John Seelye of Republic was in the city yesterday calling on friends.

Dr. C. D. Beech and wife of Champion were Hematite City visitors yesterday.

The Elks will meet tonight. A candidate will be on hand to take the work.

C. F. Donahue left yesterday for Iron Mountain after a weeks visit with his people.

Captain John Thomas of Swanzy is visiting in the city yesterday calling on friends.

Mrs. Fred Tommeson left yesterday for Buffalo to attend the Pan-American exposition.

Miss Clara Tiddy of Iron Mountain is visiting at the home of Miss Hattie Whitford.

The families of Dr. George Barnett and F. H. Rasky are camping at the Country club.

The Rev. H. Zimmerman of South Lake Linden is in the city visiting Father J. M. Langan.

William Goldworthy is in the city to attend the funeral of his niece, Lucille Goldworthy Matthews.

Henry Hanson has left for Chicago to receive medical treatment in the Norwegian Lutheran hospital.

W. C. Mitchell, who has been sick with typhoid fever, is convalescent. He was up for the first time yesterday.

Miss Anna Lacy departed for Detroit yesterday to attend the annual convention of the National Educational association.

Miss Vena Anderson will leave today for Marinette, Wis. She will visit at Iron Mountain and Norway before returning.

Edward H. Frye's readings from David Harum were heard last evening by a fair-sized audience. The entertainment was one of considerable merit.

The merchants will close twice a week at six o'clock, beginning tonight. For a few weeks before the Fourth the early closing rule was done away with.

Mrs. William Walton and her daughter May and Mrs. William Goodman left last night for Denver, Colo., where they will spend a month or so visiting friends.

T. F. Nolan left Sunday evening for Butte, Mont., to look over the ground with a view to locating in that city. Mr. Nolan was graduated from the law school at Ann Arbor this year.

The first dancing lesson and social given by Professor William Hogue was held last evening in Anderson's hall. A number of young people attended and a good time was enjoyed by all.

Seats for "Hazel Kirke," which will be produced by the Catholic dramatic club, are on sale at Tillson's. Mrs. Shannon who will assist the club, arrived Sunday evening. She was accompanied by her daughter.

Samuel Prestin and Herman Schwartzberg of Negaunee, who were arrested here June 2, for throwing a barrel of broken glass on Pearl street, were discharged by Justice Kennedy upon payment of the costs.

The funeral of the late Lucile Goldworthy Matthews will be held this afternoon at 2 o'clock from the Presbyterian church. J. Sellwood & Co.'s stores will close at noon and remain closed during the balance of the day.

Olof Holmoe is in search of a gold watch and Cuban belt he left on the South Shore train bound for the copper country on the afternoon of the Fourth. The timepiece was a good one and the belt is one he procured while in the Spanish-American engagement in Cuba. He thinks as much of the belt as he does of the watch, though it is not nearly so valuable, and will pay a good reward for the return of the articles.

A POOR MILLIONAIRE

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by the Stafford Drug Co., druggists.

Sell Heppner's pure ice cream and make a barrel of clean money this summer. Heppner, Marquette. (5-1-1f)

Our summer goods must go quick. Prices reduced in all prices. F. Braastad & Co.

WHAT TWO CENTS WILL DO.

It will bring relief to sufferers from asthma or consumption, even in the worst cases. This is about what one ounce of Foley's Honey and Tar costs. Isn't it worth a trial? The People's Drug Store.

SUMMER COUGHS.

The best results are found by those who use Bunsen's Pine Tar Cough Honey. One dose gives ease and rest. This is a new discovery and the only Cough remedy sold on a positive guarantee—No Cure, No Pay. Price, 25 and 50 cents. For sale by the Stafford Drug Co.

Upper Peninsula.

A Gladstone Finlander named Andrew Larson has been acting strangely for several days and he is now confined in the city jail. He has made several attempts to kill himself, once with a knife once by drowning and once by jumping from a two-story window. In his jump he broke his collar bone. He will be sent to Newberry.

Fireworks in Jussen & Triers' store at Ironwood caught fire Friday morning and the interior of the place and the stock, including confectionary, fruits, tobacco and a soda fountain, were destroyed. The fire caught from firecrackers which were being set off on the sidewalk by boys. It is supposed a lighted freeracker went through a hole in the window setting fire to the window display. The loss was \$4,000. Plate glass in adjoining stores was shattered by skyrocket.

Sam Merzack, a miner employed at the Quinnessee mine, Iron Mountain, was killed about 10 o'clock Friday morning while running cars to the pocket. He was bringing down the cars and they got from under his control. He was thrown to the track and three cars passed over him, cutting off his left arm at the elbow and both legs above the knees. He lived about twenty minutes after the accident. He was about 40 years of age and is supposed to have a wife and one child in Poland.

The Pug Widge-Wabosha club of Menominee has opened its hunter's lodge at Sans Souci near Lake Tamarack for the summer. The club comprises A. A. Juttner, W. N. Mills and others of Menominee, with Dr. Livers, Mr. Chambers and others of Hot Springs, Arkansas. The club organization will be completed in a few weeks, upon the arrival of the Arkansas members. The club owns a hunter's lodge with elegant fishing grounds near Lake Tamarack which they purchased of N. A. Phillips, of Chicago, general baggage master of the Northwestern road. A custodian has been placed in charge of the lodge and the grounds are kept in excellent shape. Dr. Livers has just returned from the resort and expects to leave soon with a party to spend the summer there.

It seems as though all the vagabonds and "Lazy Jimmies" in the state have arrived in Dickinson county. Iron Mountain is completely run over with them, and they are so numerous the police have a hard time in keeping them in line. Women folks must keep their doors locked during the day, as the hobos, on more than one occasion lately, have walked into houses, without knocking, scaring the women almost to death. At Vulcan, a few miles from Iron Mountain, the night watchman was approached by four tramps the other night, each of them carrying a club. They commanded the watchman to deliver his valuables. The tramps stop delivery wagons on the country roads, and help themselves to the goods, and the roads are also suffering. There is talk of organizing a posse and running them from the county.

Have you seen our Magnolia dummies going at 5 cents, worth 12 cents per yard. F. Braastad & Co.

DANCING!

Prof. W. H. Hogue's Summer School at Anderson's hall, beginning Monday, July 8th. Private or Class Lessons. Instruction thorough. Terms reasonable. See display cards in principal stores. (7-2-1m)

AMERICAN IN CONTROL.

Secures Capt. Samuel Mitchell's Interest in the Negaunee Mine.
By securing Captain Samuel Mitchell's interest in the Negaunee mine, the American Mining company has made a shrewd move. The purchase of this small fee gives that company a commanding position that it has desired to acquire. There is no danger now that the property will be leased to any other company, for the American Mining company would not stand for that, and rather than allow the mine to remain idle the other owners will accept the terms offered by that corporation.
The contest for the control of the lease of the mine by the American Mining company, or rather the United States Steel and Wire, which controls the above corporation, is one of interest. The Negaunee mine is valued at about \$2,000,000, and is owned by Negaunee and Milwaukee people. For years it was operated by the Negaunee Mining company, but when the American company was formed it secured the lease. This concern has been paying a large fee to the owners, but as the mine is one of the best in the Lake Superior region the royalty paid was not exorbitant.
The lease which the company now holds will expire in a little over a year, and the company is anxious to renew it on the old basis. Some time ago a number of the owners were approached by a representative of the company to ascertain their attitude toward the company's proposition. All were in favor of renewing the lease, but not on the old basis. It is said that the Maas and Lombard estates demanded a fee of \$600,000 per annum. This the company refused to pay, claiming that it was exorbitant and out of all reason in comparison to the annual output of the mine. The two estates mentioned would make no compromise, and it is said that negotiations were opened with other mining companies with a view to frightening the American company into accepting the proposition.
While these negotiations were in progress, the American company was not sleeping. It was playing a little game of its own. Captain Mitchell was approached and was offered a liberal price for his interest in the Negaunee property. He accepted the offer and received \$97,000 from the American company. This gave the corporation what it had desired—an interest in the fee of the property. It will now be impossible for the individual owners to freeze the company out, and as the corporation has un-

TUTTLE IS A TWISTER.

Manager of the Fraudulent Minneapolis Co. Too "Slippery" for the Attorneys.
The following relative the hearing of Manager C. R. Tuttle of the American Mining Investment company of Minneapolis, which so many upper peninsula people have cause to remember, taken from Saturday's St. Paul Dispatch, will be read with interest, particularly by those who were victimized by the management of the concern:
"In the hearing relating to the defunct American Mining Investment company before Referee Hillman in Minneapolis today C. R. Tuttle was again in the witness box. Owing to the multiplicity of corporations which went to make up the ramifications of the business it was almost impossible to correct the ex-manager into any admissions which would damage his case.
"When Referee Hillman would think he had struck a lead which promised to shed some light on shady transactions Tuttle would be ready with a lengthy explanation, which showed that his fair was made legitimate by transfer of the stock of one or another of the corporations.
"One of the exhibits in the case was the famous report of the committee of eleven stockholders who were sent to the Kettle Curlew mines for the purpose of making an investigation.
"This report was so extravagant and so rosy worded that Tuttle was led to make the remark that never had he exceeded it in fluency or brilliancy of verbiage in any of his numerous though misleading circulars.
"Even the receiver admitted that Tuttle as a word-painter, was easily outdone by the individual who wrote the report.
"Tuttle stated that this report was the best thing financially that happened to the company, for immediately following its publication shares in the Kettle Curlew sold at a rapid rate, and money literally rolled in.
"According to Tuttle's own statement the American Mining Investment company was granted 1,000,000 shares of the Kettle Curlew stock as a part of its remuneration for acting as fiscal agent, and of this amount Tuttle himself received 566,630 shares, showing that he was pretty nearly the whole thing.
"Tuttle swore that he still believed that the Kettle Curlew property was of value though he carefully refrained from saying how much he thought it worth."
Negaunee is not the only place in this section where the American Mining Investment company caught suckers. There are a number at Ishpeming who were victimized, though few of them are complaining. The Winthrop also has a batch of fellows who figured on getting a big haul when the companies in which they held stock began paying dividends.

DANCING LESSON AND HOP.

Some of the young men of Negaunee who like dancing have induced Professor W. H. Hogue of Marquette to give a lesson and hop in this city tomorrow evening at Cyr's hall. One hour, commencing at 8 o'clock sharp, will be given up to the lesson and after that there will be dancing lasting at least three or four hours. Professor Hogue has an excellent reputation as an instructor of dancing and all who attend this function will be pleased. The music will be furnished by Trombly's orchestra. The price to be charged will be seventy-five cents per couple, including lesson and hop, or fifty cents per couple for the hop alone.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by the Stafford Drug Co., druggists.

THE GREATEST PURIFIER.

DeBell's Kidney Pills cure all diseases of the kidneys. That is why DeBell's Kidney Pills cure Bright's disease, Diabetes, Rheumatism, Neuralgia, Heart disease, Female troubles and Urinary and Bladder complaints. These diseases are the results of unhealthy or diseased kidneys. DeBell's Kidney Pills cure them invariably and finally. They have never failed yet. No Cure, No Pay. Price 25 cents per box. For sale by the Stafford Drug Co.

EPWORTH LEAGUE CONVENTION.

For the above, the C. M. & St. P. railway are offering special inducements in the way of rates and diverse routes to San Francisco and return. Tickets on sale July 9 to 13. For full particulars apply to D. S. & A. railway or to S. H. Vaughan, commercial agent, Houghton.

LOCAL LACONICS.

Joseph Richardson of Michigamme was a visitor here Sunday.
The regular meeting of the council will be held this evening at 8 o'clock.
Eli Daw's cherry tree produced over five quarts of fruit this season. The cherries are very sweet and of a fine variety.

Charles and Oscar Olson left last night for Buffalo to attend the Pan-American exposition. Before returning they will visit other eastern cities.
There will be a meeting of Iron Mountain Lodge No. 122, of the Old Fellows, Thursday evening, which the installation of the newly elected officers will be held.

The members of No. 2 fire engine company will hold their regular meeting tomorrow evening. The annual election of officers will be held and business pertaining to the Crystal Falls tournament will be transacted. A large attendance of members is desired.

J. O. Richards, who has the contract for placing the heating system in the Jackson school, started work on the job yesterday. He placed the boiler in position. The work on the addition to the school is progressing nicely, but it will be some weeks before Mr. Richards can do any work in that part of the building.

John Trembath, who has been working in a mine at Taylorville, Ontario, is in the city visiting his family. Mr. Trembath is employed in the mine worked by Robert and James Taylor, formerly of this city. He reports the property rich in copper and gold and has brought with him several specimens of the ore.

The repair work on the Carp road is well along. All that remains to be done is to fill in a few holes and do a little additional blasting. When this work is done the road will be one of the finest in the upper peninsula. The three miles on which the street commissioner's force has been working has cost in the neighborhood of \$2,000 to build. The commissioner estimates that this part of the road will be good for fifteen or twenty years use with some repairing occasionally.

Alfred Lagergren, the young man who was struck with a lightning bolt a little over a week ago, is the recipient of a pair of shoes from the Copland & Ryder company of Jefferson, Wis. The shoes which Mr. Lagergren wore when struck with the bolt, were made by this company. As has been already published in The Mining Journal, one of his shoes was torn to shreds. John E. O'Donoghue of Kirkwood & O'Donoghue's pharmacy, wrote to the concern telling them of the accident. He received a reply that if he would send the shoe to the company's home office, they would supply the young man with a new pair. Mr. O'Donoghue sent the shoe and Lagergren received an order on a local dealer for a new pair.

TELEGRAPHING TO MARS.

The experiments in wireless telegraphy have met with such success that we can soon hold communication with our planetary neighbors. Science made wonderful strides in the last half of the 19th century, and probably will advance further in the next few years. There is one thing, however, that science cannot improve upon, and that is Hostetter's Stomach Bitters. It is the best remedy in the world for stomach, liver and bowel complaints. Fifty years of cures stand back of it, and a fair trial will convince you it has no equal as a cure for indigestion, dyspepsia, constipation, biliousness or liver and kidney troubles. It also prevents malaria, fever and ague. Be sure to have the Bitters always on hand, and thus avoid any serious illness.

The greatest healer of modern times is Banner Salve for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute. The People's Drug Store.

Those who live on farms are liable to many accidental cuts, burns and bruises, which heal rapidly when BALLARD'S SNOW LINIMENT is promptly applied. Price 25 and 50 cts. Stafford Drug Co.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question, the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations. John Beam, West Middlesex, Pa. No preparation equals Kodol Dyspepsia Cure as it contains all the natural digestants. It will digest all kinds of food and can't help but do you good. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I can honestly state I have prescribed it in hundreds of cases with perfect success." The People's Drug Store.

\$50 FOR A BOTTLE OF MEDICINE.
This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.

EUREKA TABLETS.

The only Medicine Company in the world selling a GUARANTEED CURE for LOST VIGOR at \$1.00 for SIX BOXES. :::::

EUREKA TABLETS
will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers disappear; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure.

The following letter from a cured man is evidence of proof regarding this grand treatment: June 2, 1901. Eureka Medicine Company, Houghton, Mich.

Dear Sir—Please accept my sincere thanks for the kind interest your company has taken in my case. I am not ashamed to inform you that I once gave up in despair but am now completely cured. I am now happy and contented for the first time in 12 years. I am just as vigorous as when a boy, and I feel it my duty to recommend your wonderful treatment to suffering men.

We will sell over 100,000 boxes of this famous remedy this month. WHY?

Because we will only charge the price of one box and give six, which is a full course of treatment guaranteed to cure the most obstinate cases in twenty to thirty days or refund your money. We are a local Medicine Company and perfectly reliable; we send this famous remedy to all parts of the world.

This \$1.00 treatment, good only until August 1st; after that date the regular price will be \$5.00 as formerly charged. Our Eureka Tablets are sold only by the Eureka Medicine Co., and for a short time at the price of \$1.00 for six boxes by express, or send \$1.15 and we will send them prepaid by mail in a plain sealed package.

CITY IS AT FAULT

HOW MARQUETTE'S APPEARANCE MIGHT BE IMPROVED.

WHAT ONE CITIZEN THINKS.

SPEAKS OF THE LACK OF MUNICIPAL INITIATIVE.

Council Has Not the Foresight to Undertake Things Early, but Puts Them Off Until the Last Day and Hour.

"What do you think of this question of municipal improvement? What change in the present methods of civic government do you believe would do most toward the beautification of Marquette?" a representative of The Mining Journal asked a gentleman who has all municipal affairs and who is particularly well informed concerning the history and workings of the city council, yesterday.

"Municipal improvement, participated in both by individuals and the city as a corporate body," he said in reply, "is to be heartily commended and every effort in its direction should receive the hearty and whole-souled support of each public spirited citizen. There is little question that much may be done to improve the appearance of Marquette. The proposition that it has a wonderful natural beauty is as undeniable as the proposition that its people fail lamentably in realizing the possibility of making it one of the fairest cities in the land. As has been said, one thing wanted is a realization of individual responsibility. If each householder would, for one year, give his own premises careful attention, Marquette would be largely transformed within twelve months and it would all be brought about without much expense and with no drain on the public purse.

"However, these points have been dwelt on sufficiently. I desire to suggest a new train of thought. It directly concerns the municipal government, which, I hold, is responsible to a large degree for Marquette's failure to realize its possibilities. Understand I refer not to this administration, nor to the previous one, nor its predecessor, but to the general plan and system of municipal government.

Move Too Slowly.

"To be specific the council, its committees and the city officials move too slowly. We will consider sidewalk repairs. Each spring there are complaints from all parts of the city that walks are dilapidated. Hundreds need repairs and thousands of feet of new planking must be put in. After the snow leaves the ground the aldermen begin to hearken to these complaints. About the May or June meeting, long lists of bad walks are read in the council chamber, they continuing to be submitted all through the summer. The street commission is ordered to notify the individuals to undertake the new work and repairs. About the middle of the summer the results of his activity become apparent, after people have been traveling over dangerous walks for a couple of months after the snow has left the ground. Invariably winter closes in on many bad and dilapidated walks.

"Next spring and summer there is the same old tale of tardy action and delay.

PALMER'S BAZAAR,

Washington St., Marquette.

What is lacking is a proper municipal initiative and foresight. Work is put off until the last minute and, of necessity, the city is always ashamed of numerous disreputable sidewalks and streets. Under the present methods it cannot be otherwise, nor will it be otherwise until the council gets some new ideas in its head. A street commissioner who would cast aside the traditions of the office and apply his abilities to the task of obtaining the greatest and best results would accomplish wonders. Such an official would, each fall, inspect every foot of sidewalk and street in the city, determining where new work and repairs would be required the following spring. This could be done in the fall as well as any time. He would then report to the council. The notifications could be issued before the snow flies and before the spring is fairly opened it would be possible to have all the sidewalks in good condition, with the projected street work well under way. Would not this be an improvement on the present unbusiness-like, tarrying method? A street commissioner who would go at his work in that way would be a man who should be allowed to grow gray-haired in his job.

Rock Crusher as an Example.

"We have this spring a first class example of what the lack of municipal initiative and foresight is doing right along. Last season the old rock crusher broke down. The exact cost of the repairs was soon known and the advisability of purchasing a new plant was suggested. The matter dragged along without action until the snow was leaving the ground, when the aldermen finally tackled it. The committees to whom it was referred in that way, took it back on the council on account of a dispute as to whether the order should be placed here or outside. Marquette people are acquainted with the council's delay in settling this question. They are also acquainted with the fact that, with the middle of July but a few days off, the crusher has yet to be received. Of course the manufacturers had a strike on their hands, but had the crusher been ordered at the proper time, last fall, it would have been operating months ago.

"The result of this nonsensical procrastination is well known. The streets are rapidly deteriorating for the want of urgent repairs, the city losing hundreds of dollars each month on this account. An enumeration of the thoroughfares in wretched condition would simply be tiresome. They may be found at every turn. Look at Front street. It has been so badly washed by the spring rains that very little of the recent macadam dressing is left. There will be practically no street work this year. How can there be with the middle of July in sight and no sign of a rock crusher? Again I repeat the present administration, or that which preceded it, is not particularly to blame. Marquette's poky, old-fogy, ancient methods of civic government are alone at fault. They are so heavy that no administration seems able to shake them off. However, they will be thrown aside one of these days and then all will see what business-like methods and a farsighted initiative will do to make Marquette beautiful."

CEDAR LAND & MINING COMPANY.

Marquette Capital is Invested to a Considerable Extent.

The Cedar Land & Mining company was recently organized and incorporated under the laws of this state with a capital stock of \$30,000, says the Mining Republican. The incorporators are Hon. Timothy Nester and T. G. Sullivan, of Marquette, and D. W. Powell and E. H. Toivar of Marquette. The company owns 68,000 acres of timber lands tributary to Marquette. Included in this tract is the largest and best tract of solid cedar lands in this peninsula, and this is a valuable property. In addition to the cedar there are many millions of feet of hemlock, tamarack, spruce, elm, beech, birch, basswood and maple.

The company has been organized for the purpose of placing upon the market and manufacturing this immense body of timber. The greater part, if not all of it will be brought to Marquette by manufacture. Parties are already negotiating for parts of it, and it is very probable that the company will build and operate a mill of its own at Marquette.

In addition to the timber lands, the company owns some valuable mineral lands which are now being prospected and good beds of ore have been discovered.

The Cedar Land & Mining Co. has just sold to the Cleveland-Cliffs Iron Co. 3,457 acres of land in townships 47-49, 46 and 47-17 and 46-18, the consideration being \$20,000. The former company reserves all the pine, cedar, hemlock, tamarack and spruce timber.

Only ten days more before stock of the King Gold & Copper Mining & Milling company will advance to 15 cents per share; now 7 cents per share. Jos. J. Wirtz, Fiscal Agent, Marquette, Mich. (7-9-tf)

Our phosphates sparkle. Try one and you will call again. Kaynor's, at Pen-dill's. (6-15-tf)

Mr. John Tippet, Colton, O., says: "Foley's Honey and Tar cured my little girl of a severe cough and inflamed tonsils." The People's Drug Store.

TRUSTEE ESCAPES.

Left the Prison Farm Late Yesterday Afternoon.

Elias Orazza, convict 625 at the Marquette branch of state prison, escaped yesterday afternoon by walking away from the farm where he was employed as a trustee. His disappearance was not noted until he was well clear of the prison premises, it being about 1:15 o'clock when he was missed. He has yet to be heard from. He took to the woods and the hounds failed to trace him. He may be recaptured, although the prison officials cannot speak confidently on this point. He wore his striped suit on his flight for liberty and he will be easily recognized unless he has managed to exchange his prison garb.

Orazza had but five months more to serve, when his sentence would have expired. He was sentenced to the branch of state prison for robbery and assault, being armed, with intent to kill. He began to serve time April 30, 1894. He has been a trustee for the past year and he was considered one of the "safest" men on the farm. However, the temptation to make a try for immediate freedom was too much for him and, if he is captured, his five months will be prolonged by further time.

COPPERS WORKED OFF.

They Were in Sympathy With the New York Market Yesterday.

Coppers worked off yesterday in sympathy with the New York market. The close saw quotations slightly lower all up and down the list. Still the general feeling is hopeful. Paine, Webber & Co. said:

"Yesterday's unfavorable bank statement caused rather free liquidation of stocks in the New York market today and the coppers were heavy in sympathy. The low priced coppers, Michigan, Victoria, Elm River, Winona, Wyandotte and Rhode Island, were strong and all showed good support. The coppers all showed good support and they didn't act as if they would continue to decline with the New York market. We still feel bullish on the coppers and we believe that the good ones should be bought on any further reaction."

"The Boston market is strong in the face of the decline in New York, but there is very limited trading. An article in the morning papers says that the Amalgamated people are holding the price of copper and that they have a big supply on hand. We cannot see why they should do this in the face of the lawsuits with Heineze. The buying of some of the lower price Lake stocks is noticeable."

A. E. Jones & Co. said of wheat: "The program in wheat was carried out to a dot today. The opening was weak, and the market for September went right through to 65. It brought out much long wheat, but there was considerable short covering on the break. The market may decline some further, but it is our opinion that for every cent decline from this price there will be five cents or more advance some time during the season, and the advance may not be far off."

WORK ON EAST BRANCH.

Extension to Munising Railway to be Undertaken at Once.

Surveyors have been at work for some time laying out the route for the east branch of the Munising Railway, and President Mather has authorized the Republican to announce that construction work on the line will be commenced just as soon as possible, says the Mining Republican. Mr. Mather says that it is the intention of the company to have at least fifteen miles of the line completed before snow flies next fall.

This is another of the substantial evidences which the people of Alger county have that the Cleveland-Cliffs Iron company means to develop its immense timber holdings in this portion of the upper peninsula. In view of the many evidences, both oral and ocular, that the people have had that the company means "business" in every sense of the word, it is silly for any person to express, or to have, doubts as to the future of Munising.

The east branch is to be continued to Grand Marais next summer, and in reply to a question as to whether the line will be continued further than Grand Marais, Mr. Mather said: "I cannot say to that. It is looking into the future, but it is not improbable that it will be continued further ultimately."

There is more to the building of this line of railway, undoubtedly, than appears on the face. The gentlemen back of it have push, energy and foresight and their several lines of railroad are opening up rich timber and agricultural lands. The best country along the south shore of Lake Superior is not now reached by rail and it is not altogether improbable that these gentlemen have ambitions that will develop into a considerable railroad system.

As the Munising line is to be incorporated in the major road, the proposed

extension is to be practically an added mileage for the Marquette & Southeastern railroad.

CITY BREVITIES.

Today's weather: Generally fair with local thunder storms; fresh brisk southeast winds.

Yesterday's temperature: 7 a. m., 55 degrees; noon, 72 degrees; 7 p. m., 67 degrees. Maximum, 75 degrees; minimum, 50 degrees.

Tim Tarsney of Detroit is a Marquette visitor.

T. G. Sullivan of Munising is in Marquette.

John G. Gattis, Jr., of Chatham is in the city.

Mrs. Will Watson has been down from Ishpeming, visiting relatives, the past week.

Charles W. and Fred E. Wright of Ann Arbor are in Marquette, visiting, for a few days.

Jacob Rose has established a shoe shining stand for ladies in his shoe department.

Assessor J. H. Quinn of Ishpeming attended the session of the equalization committee yesterday.

J. E. Rean arrived home the latter part of last week from a three weeks' visit in Mt. Clemens.

Professor Hogue will hold his dancing classes today. That of this evening will be followed by the usual hop.

Attention is called to Palmer's ad in another column. Jet tennis are a specialty at the bazaar this week.

The Hotel Superior street car was started yesterday morning. It will be operated throughout the summer season.

T. A. Thoren and F. A. Bell were down from Negaunee yesterday attending the session of the equalization committee.

United States court convenes this morning at 10 o'clock. Many upper peninsula people are in Marquette to be present at the opening of its sessions.

County Clerk Ross has issued marriage licenses to Andrew Johnson and Tilda Erik of Michigan and to Frank DeCaine and Alice Champean of Ishpeming.

John Trombley, arrested for being drunk and disorderly, was brought down from Ishpeming Saturday evening to serve a ten days' sentence in the county jail.

Judge Eggers had his first case yesterday. A jag was up before his honor. Sentence was suspended, with the understanding that the fellow would make himself scarce.

Dr. Dudley and Hempel Washburn of Chicago came down from Houghton yesterday, preparatory to leaving for Chicago. They have been spending some time at the Huron Mountain club.

In the latter part of June Mrs. C. C. Jones lost a gold nugget stick pin between her house, 118 North Front street, and the Baptist church. As the pin is valued beyond its intrinsic worth its recovery is greatly desired.

Mr. and Mrs. Dan M. Dickinson and children, Mr. and Mrs. A. C. Angell and children, Miss Sarah Angell and Ashley Pond, all of Detroit, arrived in Marquette yesterday. They will go up to the Huron Mountain club this morning on the tug Schenck.

There will be a meeting of the Spanish-American war veterans at 8 o'clock Wednesday evening. It is requested that all accounts against them in connection with their recent picnic and ball be handed in at once. The meeting will be held at the city hall.

The equalization committee of the board of supervisors assembled at the court house yesterday to prepare a report for the meeting to be held Wednesday, when the county equalization will be completed. The committee gave a couple of hours to its sessions.

Hon. David E. Dick of Baltimore, Md., formerly special agent in the Marquette land office, now a deputy naval officer, with headquarters in Baltimore, is here to attend the session of United States court which opens this morning. He is in Marquette in connection with some trespass cases. Special Agent Goodwin, Mr. Dick's successor in the land office, has arrived to assume his duties. Mr. Goodwin likewise hails from Baltimore.

Epp Mattson, deputy grand regent of the Royal Arcanum, is here to institute a council of that order. Any old members of the Royal Arcanum will be lending valuable assistance if they will leave their names with C. E. Willesen at the Western Express office or call on or address Mr. Mattson at 230 Ridge st. (7-6-3t-o)

Any advertised dealer is authorized to guarantee Banner Salve for better, cezema, piles, sprains, scalds, burns, ulcers and any open or Old Sore. The People's Drug Store.

Puts light in the eye, tints the cheeks with nature's vermilion, loosens the tension of life, brushes cobwebs from your brain. That's what Rocky Mountain Tea does. 35c. Stafford Drug Co.

Memory Points About

Singer Sewing Machines

SOLD ON INSTALLMENTS. OLD MACHINES EXCHANGED.

WE make but one grade of product, admitted to be the best, hence attention at induction. WE deal directly with the people, through our own employees all over the world, selling 1,000,000 machines annually. WE do not sell to dealers or through department stores.

If You Buy A SINGER

YOU get an up-to-date machine, built on honor, to wear a lifetime. YOU get it for the lowest price at which such a machine can be furnished. YOU will receive careful instruction from a competent teacher at your home. YOU will get prompt attention in any part of the world; our offices are everywhere, and we give careful attention to all customers, no matter where their machines may be purchased.

The Singer Manufacturing Co.

A. S. CAMERON, Local Mgr., WASHINGTON STREET, MARQUETTE. (6-18-1m) American Express Office.

It's Drinking Time.

Don't wait until you're thirsty. Thirst isn't necessary for the enjoyment of our soda. Extra good soda is good any time. There is satisfaction enough in its deliciousness.

Our soda isn't ordinary soda—it isn't made from ordinary materials. It's the kind of soda that requires the best grade of fountain supplies, lots of ice, skill and conscience in the making. It's the kind that affords little profit and makes friends.
