A PYTHIAN SCANDAL

ENDOWMENT RANK SHORT A QUARTER OF A MILLION.

PAST OFFICIALS ARE ACCUSED.

STEALINGS AND POOR INVESTMENTS OPENLY CHARGED.

Supreme Lodge Meets in Chicago to Probe the Frauds and There is Little Doubt the Guilty Will Be Prosecuted.

Chicago, July 9.—Behind closed and carefully guarded doors, the supreme lodge of the Knights of Pythias today met here in special session to consider the alleged "injurious handling of the funds of the endowment rank of the order." It is said that the entire surplus of the endowment rank has been so badly handled during the past few years that it is unavailing for the order as a great sacrifice. Meanwhile the death rate has increased to such an extent that the rank is \$400,000 behind on death claims.

Big Shortage Admitted.

Later—The endowment rank of the Pythians has a deficit of \$225,207. This announcement was made by Supreme Commander Ogden H. Fethers today to the supreme lodge at its secret session. Mr. Fethers' announcement was based on official reports of the insurance commissioners of Illinois, Connecticut and Kansas, who have made exhaustive examinations of the financial condition of the order, and copies of these reports were placed in the hands of the representatives. Before the rank can legally continue doing business as an insurance institution, this deficit must be made good.

That there have been misappropriations of the funds of the organization by past officers of the endowment rank is freely charged in the reports, as it was in the meetings today, and there was said to be little doubt that after the supreme lodge had finished dealings with those who are thought to be responsible, the evidence would be laid before the state's attorney with the request that it be submitted to the grand jury.

Expulsion Threatens Hiney.

At the session tonight a motion was made to expel John A. Hiney, who was president of the endowment rank during the period in which some of the funds are said to have disappeared and others to have been invested in poor securities, the evidence would be laid before the state's attorney with the request that it be submitted to the grand jury.

CROWDS THROGGING EL RENO.

Registration for the Homestead Lottery Opens There Today.

El Reno, O. T., July 9.—Every train tonight is bringing extra coaches crowded with people coming here to register, and the roads leading into the city are lined with travelers to this place for the same purpose. The hotels and restaurants are already taxed to their utmost capacity. The opera house has already been turned into an eating and sleeping house, and as rapidly as needed with people coming here to register, and the roads leading into the city are lined with travelers to this place for the same purpose. The hotels and restaurants are already taxed to their utmost capacity. The opera house has already been turned into an eating and sleeping house, and as rapidly as needed with people coming here to register, and the roads leading into the city are lined with travelers to this place for the same purpose.

JAPANESE CONTROL THE RIVER.

Striking White Fishermen Are Routed in British Columbia.

Vancouver, B. C., July 9.—The Japanese are in control of the river. They control the best fishing boats on the river. Whenever a union patrol boat went near the fishing grounds several Japanese patrol boats surrounded it and simply overpowered the strikers by force of numbers.

This afternoon the big fleet of Japanese fishermen at work caught a sufficient number of fish to justify the canneries beginning operations tomorrow. There will be no further attempts to molest the Japanese, although many nets have been secretly cut. There are few white fishermen remaining this evening at the river, the fishing headquarters of the Fraser. The canners consider the fight won.

OLD SHAMROCK IS DEFEATED.

New Challenger Shows Up Well in a Five-Mile Contest.

Rothsay, Scotland, July 9.—In the first five miles of today's racing trial between the Shamrocks, the new challenger beat Shamrock I half a mile. The challenger outdistanced the old boat on every tack. Later the yacht became becalmed and the trial was abandoned.

TRAIN ROBBERS AT BAY.

Cornered in a Canyon Where an Army Could Be Withstood If Need Be.

Minneapolis, Tuesday, July 10.—A special dispatch to The Times from Great Falls, Mont., says: "In a deep canyon about sixty miles south of Malta, fifteen miles east of Rocky Point and five miles north of the Missouri river, Sheriff Griffith has cornered the Great Northern train robbers. The canyon is a veritable fortress, full of caves where the robbers can hide and hold at bay an army if need be. This news left the camp of the posse early on the morning of the 8th."

ICE HOUSES BURN.

Spontaneous Combustion Causes \$50,000 Loss at Ottumwa, Ia.

Ottumwa, Ia., July 9.—Spontaneous combustion caused a fire which destroyed the ice houses of W. A. Cummings this afternoon. Four thousand tons of ice were destroyed. The loss is nearly \$50,000.

WOULD-BE ROBBER'S FATE.

Nitro-Glycerine Explodes in Pocket and Blows Him to Pieces.

Dulague, Ia., July 9.—A would-be bank robber was totally blown to pieces last night at Benton, Wis., by the explosion of nitro-glycerine he carried in a hip pocket. He was climbing into a creamery to get tools with which to force an entrance into the bank, when a trap door fell and struck him on the hip, exploding the nitro-glycerine.

MINISTER PUBLICLY CANED.

Illinois Mayor Whips Preacher-Editor and Is Fined \$3.

Edinburg, Ill., July 9.—A great sensation was created here today by the public caning on the street of Rev. T. M. Dillon, a Methodist minister and editor of the Rochester (Ill.) Item, by Mayor Vigil. Dr. Dillon had published in his paper a denunciation of Mayor Vigil, and when Dr. Dillon had occasion to visit Edinburg today the mayor appeared, came in hand, and beat the editor severely. The mayor was arrested and fined three dollars.

KANSAS A BIG LOSER

OATS CROP A FAILURE AND CORN IS SHRIVELING UP.

DAMAGE IN THE MILLIONS.

MERCURY IS OVER A HUNDRED THROUGHOUT THE STATE.

Heat Is Likewise Intense in Nebraska, Missouri and Iowa, With No Relief in Sight, and All Grain Is Being Literally Cooked.

Topeka, July 9.—The hot weather in Kansas continues, with no immediate prospect of relief.

Corn withstood the ravages of the heat until yesterday. Now it is fast shriveling up, and the outlook is anything but promising to farmers. The oats crop is worse than a failure, while hay is scarcer than for years.

It is estimated that Kansas will suffer crop losses from the protracted heated spell to the extent of over ten million dollars. This figure will be even larger if the heat continues for a few days longer, as then there will be absolutely no help for corn.

Some of today's temperatures were: Topeka, 103; Salina, 102; Abilene, 107; Osage City, 103; Lawrence, 100; Fort Scott, 108; Sedan, 106; Hays City and Manhattan, 105.

Have in Other States.

Kansas City, Mo., July 9.—This was the hottest day since the weather bureau was established, the official thermometer recording 103.4 degrees. A long spell of hot weather is looked for. The receipts of hogs at the stockyards today were 30,033, which broke all records. The big receipts are due in part to the dry weather, which is making feed scarce and driving up ponds.

AMERICAN DESERTERS YIELD.

Four in a Batch of 525 Filipinos Who Lay Down Arms.

Manila, July 9.—There have been a number of additional surrenders to Colonel Wint during the past few days. In all, fifty-nine officers and 475 men, with 286 rifles and forty-six revolvers, have surrendered to him. Of the Ninth cavalry deserters, Dubose and Russell have surrendered and Hunter and Victor have been brought in by Belarmino.

PARIS BANK SCHEME DENIED.

New York, July 9.—A representative of J. P. Morgan & Co. today denied the report that the Morgan-Rockefeller interests contemplated the establishment of an international bank in Paris.

CHINA TURNSTABLES

FILES A CLAIM FOR INDEMNITY AT WASHINGTON.

CASE OF BOXERS REVERSED.

\$500,000 WANTED BECAUSE OF OUTRAGES AT BUTTE.

Charged That Mob Killed Some of the Subjects of the Emperor and Others Were Driven Out With Loss of Their Property.

Washington, July 9.—The Chinese government, through Minister Wu Ting Fang, today filed a claim for indemnity to the amount of half a million dollars on account of alleged outrageous treatment of Chinese subjects at Butte, Mont.

There is a suggestion of the Boxer outrages reversed in the presentation of the case to the state department, the treatment inflicted upon the Chinese at Butte being claimed to have been outrageous. It is charged that some of them were killed, others lost property, nearly all were ruined in business and many were driven out.

The claimants number several hundred.

DENVER MANIAC TAKEN.

Mysterious Assault of Women Believed in Custody—Two More Dead.

Denver, July 9.—During the absence of her mother last evening, Jessie Kinnport, aged fourteen, was assaulted and horribly mutilated at her home.

Chris Jensen, aged twenty-five, who was arrested last night, today confessed that he assaulted the child and also that he had killed another woman last night at the end of the University Park car line. This morning the body of Mrs. Armenia Bullis, aged sixty, who conducted a dairy near the city limits, was found, having been stabbed to death.

The police believe Jensen to be the man who has been committing assaults on women of late. He is undoubtedly insane.

Mystery in the Girl's Death.

Later—it has now developed that a young man was at the Kinnport home, calling on the girl, and remained until after 10 o'clock. Jensen was arrested about 9:45, making it impossible for him to have committed the assault.

A crowd of several hundred gathered outside the city jail tonight and made threats of lynching Jensen. Chief Armstrong decided Jensen would be taken out of reach, and tonight he was taken to Colorado Springs.

Is Held for the Child's Murder.

Fort Wayne, Ind., July 9.—Clas Dunn, the aged wealthy lumberman held by the coroner on suspicion of having killed ten-year-old Alice Cothrell, whose body was found in a cistern beneath Dunn's residence at Wallen, a village six miles west, was arrested today on a warrant charging him with murder. Medical evidence adduced at the inquest showed that an attempt to assault the girl had been made.

LOSES PART OF HIS TONGUE.

Rear Admiral Bunce Submits to an Operation for Cancer.

Boston, July 9.—An operation for cancer was performed upon Rear Admiral Francis M. Bunce, United States navy, retired, at Elliott hospital yesterday, entailing the removal of nearly the whole of his tongue. The admiral rallied fully after the operation and probably will be able to leave the hospital in a week. Admiral Bunce suffered for many years from cancer of the tongue, and although the surgeons were obliged to remove the major part of that organ the admiral will not be wholly deprived of the power of speech.

RUHLLIN DOWNS FITZ

PUGILISTS MEET IN WRESTLING MATCH IN NEW YORK.

SPAR AT TIMES FOR OPENING.

CROWD TICKLED WHEN MEN FORGET IT IS NO FISTIC BOUT.

Two Falls in Succession Give the "Akron Giant" the Victory After Nearly Thirty Minutes of Hard Work on the Mat.

New York, July 9.—Gus Ruhlin and Bob Fitzsimmons, in a Graeco-Roman wrestling bout, attracted 2,500 people to Madison Square Garden tonight. Ruhlin was cleverer and heavier than the Cornishman and won two falls in succession with a quarter of an hour's rest between them. Ruhlin showed that he knew a great deal more about the game than Fitzsimmons did, and it was the latter's agility which prevented his being thrown much more quickly.

In the boxes around the wrestling stage and in the ring itself was a gathering of men whose faces were always a familiar sight at the ringside when boxing was in vogue in this city. Several noted fighters were in evidence, among them Tom Sharkey, who has taken to the wrestling game recently; Terrence McGovern, who acted as timekeeper, and Charley White, referee.

Cheers for Fitzsimmons.

Ruhlin's weight was announced at 185 and Fitzsimmons was said to weigh 160. When they faced each other the spectators cheered at Fitzsimmons' tactics in trying for a hold. He swung his right as if he were going to fight. He repeated these tactics a couple of times to the intense amusement of the onlookers. Ruhlin dropped and remained on the defensive three times, twisting quickly, the third time getting Fitzsimmons underneath for a rolling fall. They got up again and Fitzsimmons ducked with his old-time cleverness when Ruhlin's big arm tried to encircle his neck, and the movement made many remember the last meeting between the two big fellows.

With Ruhlin again on the defensive, Fitzsimmons got the strangle hold, but only for a few seconds, as Ruhlin broke it cleverly. Fitzsimmons got a body hold and brought Ruhlin to the mat, but Ruhlin got on top and secured a half Nelson and a body hold. Ruhlin then had Fitzsimmons in a "bat" and finally threw him. Time, fourteen minutes and thirty-four seconds.

Resort to Fistic Tactics.

When they came together again they sparred as if for an opening at the old game, occasionally slapping each other on the neck and shoulders. After five minutes, Fitzsimmons got a back body hold and put Gus to the mat, but only for a moment. He repeated this twice over and then secured the strangle hold, which Ruhlin broke easily. Ruhlin got too heavy for Bob, who essayed a back hammer hold, but was unsuccessful.

Fitzsimmons, with a hold from the back, gave Ruhlin a flying fall and then Gus kept on in defense. Fitzsimmons secured a neck hold and a quarter Nelson, but both rolled over and nothing came of it. Fitzsimmons then got the strangle hold on Ruhlin and tried to pull him over, but Ruhlin stood close, fell from Fitzsimmons, and with a combination lock, pinned Fitzsimmons' shoulders to the mat, making the second fall and match. Time, twelve minutes and three seconds.

CUBANS REJECT NEW LAW.

Committee Plan for Elections Defeated Because Too Radical.

Havana, July 9.—The Cuban constitutional convention this afternoon rejected the commission's project for a electoral law by the vote of thirteen to twelve. The Conservatives claimed the law as proposed too radical, inasmuch as it provided there should be no interference with the elections by the central government, and because the last elections showed it to be impossible to conduct elections honestly without some restraining power.

LIBERAL BREACH HEALED.

Party at Conference in London Votes Confidence in Campbell-Bannerman.

London, July 9.—The much discussed meeting of the Liberals, called by Sir Henry Campbell-Bannerman, Liberal leader in the house of commons, with the object of ascertaining whether he still retains the confidence of the party, was held at the Reform club today. It resulted in the adoption of a vote of confidence in the leader of the opposition. All factions of the Liberals attended.

JURY UNABLE TO AGREE.

No Verdict Reached in \$1,500,000 Suit Against the Great Northern.

St. Paul, July 9.—After a night and a day spent in considering the verdict, the jury in the case of Herbert W. Pearson of Duluth against the Great Northern Railway company, tonight reported inability to agree and was discharged. Pearson sued to recover \$1,500,000 which he alleged due from the railroad company under a contract which he claimed to have made with it for the location of wash beds at work in the states of Washington and Montana.

ICE HOUSES BURN.

Spontaneous Combustion Causes \$50,000 Loss at Ottumwa, Ia.

Ottumwa, Ia., July 9.—Spontaneous combustion caused a fire which destroyed the ice houses of W. A. Cummings this afternoon. Four thousand tons of ice were destroyed. The loss is nearly \$50,000.

COUNTY DECLINES TO PAY.

Houghton county will not foot the bills for expenses caused by the burial roughs during the carnival at Hancock Saturday night, in a serious condition at his home from the effects of the experience.

BADLY BEATEN BY TOUGHS.

Huron town man the victim of a Savage Assault at Hancock. Ed Harrington of Huron town, who was severely punished by the burial roughs during the carnival at Hancock Saturday night, is in a serious condition at his home from the effects of the experience.

SHERIFF GOES TO KENTON.

Said the "Lumberjacks" Hold High Revel in the Little Burg. Sheriff Wills left Houghton last night for Kenton for the purpose of looking into the law and order of that little burg and with a view to having its present condition bettered.

CONFETTI LITTERED STREETS.

Gang of Men Kept Busy Cleaning Up After Hancock's Carnival. The streets of Hancock presented a rather untidy sight yesterday morning as the result of the revels of the night before.

TO TEACH IN PHILIPPINES.

Prof. Taylor of Chassel Signs a Contract With the Government. R. W. Taylor, who was superintendent of the Chassel schools last year, has signed a three years' contract with the government to teach in the Philippine schools.

THEY WEIGH 750 POUNDS.

\$1,000 Worth of Pennies Received at Hancock for the Elks. The Superior Savings bank of Hancock recently received a large consignment of pennies direct from the United States mint.

WILL COST SIX THOUSAND.

Erection of a New School Decided Upon at Lake Linden. At a recent meeting of the school board it was decided to erect a new school building at Lake Linden.

FUNDS FOR THE Y. M. C. A.

Boston Brokers Donate \$200 to the Hancock Organization. Secretary W. H. Wing, of the Y. M. C. A. of Hancock, is enthusiastic over the matter of obtaining funds necessary to raise the indebtedness now hanging over the local association.

SHORT COURT SESSION AT L'ANSE.

Circuit court convened at L'Anse Monday morning, but adjourned late in the afternoon until October. Judge Street-er presided. The calendar included several civil cases and one criminal case.

NEW PARSONAGE FOR CALUMET.

A new Presbyterian parsonage will be built at Calumet and the plans and specifications for the same have been completed by the architect, Duncan Campbell. Contractors are now figuring on the work and the contract for the same will soon be let.

VILLAGE HALL QUARANTINED.

The little daughter of Village Clerk Charrier is Laurium is down with the small-pox, and because Mr. Charrier visited the village hall several times after the disease had developed, but before it was discovered by physicians, the building has been quarantined. All precautions are being taken to prevent the spread of the disease.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition.

HOW IS THE TICKET?

Does it suit you? Well, we are not all alike, you know, in this world, and it is hard to please everyone. The ticket is unanimously for Dr. Caldwell's Syrup Pepsin as it is guaranteed to cure Constipation, Indigestion, Sick Headache and Stomach Trouble. Sold by the Stafford Drug Co.

PILES, TETTER, ECZEMA.

Boro-Carbol Salve will cure blind, bleeding or itching Piles where all other ointments have failed. It absorbs the tumors, allays the itching at once, acts like a poultice and gives instant relief. Boro-Carbol Salve is prepared expressly for Piles, Tetters, Eczema and all itching skin diseases. Sold on a guarantee—No Cure, No Pay. Price, 25 cents per box. For sale by the Stafford Drug Co.

HEPNER'S PURE ICE CREAM.

Motto: "The best never too good for our customers." Hepner, Marquette. (5-1-14)

DULUTH MAN SOLE SURVIVOR.

Yesterday the 25th Anniversary of the Loss of the Steamer St. Clair. Twenty-five years ago the steamer St. Clair burned in Lake Superior and twenty-five people were lost.

MASS ASSESSMENT LEVIED.

It is \$4, Payable in Installments of Two Dollars Each. The directors of the Mass Consolidated Mining company, meeting at Boston, have levied an assessment of \$4 per share, payable in two installments of \$2 each.

RHODE ISLAND LOOKING WELL.

Good Looking Rock and Mass Copper Steadily Being Hoisted. A force of thirty men is at work at the Rhode Island and the company is giving much attention to underground and but little to surface work.

SOUTH RANGE CONSOLIDATION.

Its Capital to Be About \$400,000, Divided into 400,000 Shares. In regard to the probable capitalization of the new company that will take over the Copper Range, Baltic and Trimonant mines, it can be stated as almost a certainty that it will vary little from \$400,000 divided into 400,000 shares of a par value of \$100 each.

As a souvenir vividly recalling the terrible disaster, Mr. Sutphin has an "extra" issued by the Houghton Gazette. It is a diminutive sheet, it measures three and a half inches in width and nine in length. The news is recorded in a single column, fifteen ems wide. The following is a copy: "July 9, 1876. This—Sunday—morning, about 2 o'clock, the propeller St. Clair, Captain Rhyms, belonging to Ward's line, on her way from Duluth, left Ontonagon for this port, having on board sixteen passengers and a crew of sixteen persons.

"The following is the list of the saved: Robt. Rhyms, captain; Daniel J. Stringer, first engineer; Thomas C. Boothman, mate; Thomas Fortier, wheelman; John B. Sullivan, passenger. It is reported that among the passengers lost were a number of residents of Ontonagon and Marquette counties. The boat's cargo was made up of cattle, flour, feed, etc."

"The St. Clair was a large, cabin half way over and something of the size of the Booth boats out of Duluth now," said Mr. Sutphin to the News Tribune recently. "She had been used in the oil trade on the lakes below and was thoroughly saturated. I had on 400 head of sheep, 125 hogs and forty-five head of cattle. There was an abundance of hay aboard as well as that added to the inflammability of the boat. The fire probably started around the boiler. The day before had been dry and hot and the wind was in a gale from the north. I never saw flames spread with the quickness those did on that ill-fated vessel."

"I cannot say there was any disorder or stampede on the part of those on board. They were rather quiet and quieted by the feed and fire. All the boats were out and burned except a metallic life boat which was being taken to the steamer Northern at Houghton. It would hold about eight people. The crew and passengers as they were on the burning steamer, clung to this life boat. It rolled over several times, and each time we righted it and I bailed it out. I had a big cattle drover's hat which I used for that purpose. "The water was cold and the poor fellows rapidly chilled and lost their strength. I had a small tin of kerosene and when it was used up, I used kerosene. Finally, only three of us were left—Captain Rhyms, Stringer and myself. We took Fortier and Boothman off a raft and then every survivor was in the water two hours and thirty-five minutes."

"We had one or two sealed with the pieces were some aid as paddles. About 10 a. m. we reached land near a fisherman's shanty on Misery bay. We were fed and water and on our way to a Mackinaw boat and sailed for Portage Entry, reaching there at 5 o'clock in the afternoon. There we gave news of the disaster and it was sent to the outside world. "Among those who perished was Captain Edwards, a Marquette capitalist. Another man was Captain Mellen, of Islipening, formerly a partner of Joseph Sellwood, now of Duluth. Dave Lawrence, manager of an Ontonagon sawmill, and Mr. Bentley, an attorney from the Duluth, were among the lost. Shukrleton, clerk of the boat, was from Detroit. Another victim was a Mr. Shea of Islipening. "Captain Robt. Rhyms, master of the ill-fated vessel, died a few years ago, having been a great sufferer for many years as a result of the strain and exposure of that awful experience. Daniel Stringer, the first engineer, died very suddenly a couple of years ago. Ever since the loss of the St. Clair he suffered considerably at times as a direct result of his immersion and efforts while in the icy waters of the lake. Thos. C. Boothman, the mate, died a few years after the fire and there was every evidence that his end was hastened by his hardships at that time. Thos. Fortier, the wheelman of the St. Clair, met his death by drowning in 1877. His tug-capsized in the Sault river. "And old Eber Ward, the owner of the St. Clair, has gone by his long rest. He left behind a huge fortune. His beautiful daughter, Clara Ward, inherited enough of it to purchase a French nobleman and the title of Princess of Chimay. But all that did not bring happiness. The world has not forgotten how, a few years ago, she deserted her little husband and her little children and eloped with a Hungarian gypsy fiddler. Now, as his wife, she is spending the dollars made on Lake Superior and surprising and shocking the continent by her shameless eccentricities."

"The first consignment of freight was shipped over the Redridge extension of the Copper Range road yesterday. It consisted of six carloads of cement billed to Prendergast & Clark, at the Tri-mount mill site. It was the beginning of a profitable business for the Copper Range company over that route and it will mean the adding of hundreds of dollars to the earnings of that thriving road. "A new Presbyterian parsonage will be built at Calumet and the plans and specifications for the same have been completed by the architect, Duncan Campbell. Contractors are now figuring on the work and the contract for the same will soon be let. The structure will be up-to-date in every respect and with all modern improvements. The foundation will be constructed of masonry. "DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed, you have a running sound or imperfect hearing, or when it enters, it is closed, and the result, unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface, increasing slowly every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three losses will relieve any ordinary cough. Price 75 cts. Green's Prize Almanac. The Stafford Drug Co.

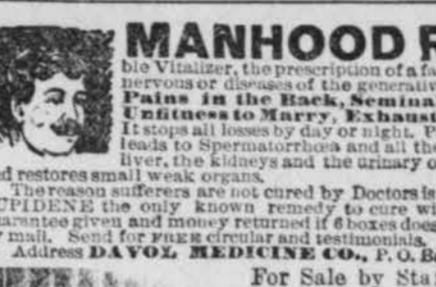

"The steel-head fishery in the steel-head salmon in Canadian waters in the vicinity of Port Arthur. This is a Pacific coast salt-water fish, and the fry were planted at Port Arthur as an experiment, to see how they would thrive and to see if a new food fish might not be supplied from Lake Superior. Only a few thousand of these fish were planted in those waters. One lot was deposited in the lake at the mouth of Current river, and the balance at the Silver Islet dock. From time to time, the past two years, an occasional catch of one of these fish has been reported, the largest being about three pounds in weight. This fish was taken at Rossport, close to 150 miles east of Port Arthur, and was supposed to have reached that point from Silver Islet, around which several thousand of the steel-head fry had been planted. "Those planted at Silver Islet, in Canadian waters, seem to have thrived, as several of them have been caught lately. Last week, Captain Maloney's tug Georgina brought into Port Arthur two of these fish, the largest of which weighed five pounds. The fish was symmetrical in form, and its flesh was a beautiful salmon red. The Lake Superior steel-head possesses a most delicious flavor, and, in greater numbers, would be a very valuable and popular fish. "The weight attained by the specimens caught from time to time would indicate a growth of at least a pound a year. Should the lake be stocked on a large scale by the Canadian and American governments, four years' prohibition of catching would give to local and Eastern markets one of the most sought Pacific coast fish. "The steel-heads are now spawning, and fishermen who catch them in the nets will conserve their own interests by returning them to the lake. "COPPERDOM BREVIETIES. "The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dece Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376. "T. D. Hall was a Nogaimee visitor to Houghton yesterday. "A regular meeting of the Houghton firemen was held at the village hall last evening. "The second day's horse racing drew a good crowd to the Hancock Driving Park yesterday afternoon. "N. F. Leopold of Chicago, manager of the Arcadian mine, and who is also interested in the Belt, on the South range, arrived at Houghton yesterday. "A large plate glass was put in the east window of Barry's drug store, Houghton, yesterday morning to replace the one that was broken during the winter. It was the third glass of the kind to be put in since the building was built. "By authority of Darus S. Thorp, chairman of the finance committee, subscriptions for the Hazen S. Pingree memorial statue may be received at the county clerk's office. A certificate of acknowledgment is given to each donor to the funds. "Several drunks were landed in jail at Hancock Monday night to sober up and yesterday morning they were released from custody. Considering the occasion, the number of persons intoxicated was small in comparison to that of previous similar celebrations and the law and order was excellent. "Christof Fox, Howard Kelsey, Mat. Haug, Joseph Strobel and Fred Stylo will leave this morning for a two days' trip to the Adventure, Mass and Victoria mines, in Ontonagon county. The gentlemen will thoroughly examine all of the properties and will be entertained while there by the mine officials. "It is likely that the Fourth of July celebration which was postponed at Red Jacket because of rain will be held when the first street car runs into that village. It will be over a week before that event, but the committee in charge of the celebration believes it would be an appropriate time to have the festivities. "F. S. Carlton was elected to fill a vacancy on the school board of Calumet district No 1 at Monday night's meeting. His election was a foregone conclusion, and no opposition appeared.

TURN OVER

a new leaf about your laundry. Send it to us. We make the bosoms of shirts white and stiff. You won't have to kick for more starch in your collars and cuffs. You won't find streaks of bluing or dirt in them.

TO END TARIFF WAR

RUSSIA MAKES AN OFFER TO THE UNITED STATES.

CANNOT NOW BE ACCEPTED.

ACTION MUST WAIT ON DECISION BY COURTS.

Lifting of the Retaliatory Duties If This Government Vacates the Sugar Differential, the Suggestion of the Czar's Ministers.

Washington, July 9.—Another important exchange has occurred between the Russian government and the United States relative to the tariff. The Russian minister for finance, M. De Witte, has proposed that Russia vacate all additional duties levied on American goods since the imposition of the sugar differential if the United States will vacate its action of the sugar differential. To this Secretary Gage has replied that the offer of the Russian government cannot be accepted, as the question of sugar differential is now in the hands of the court, thus precluding action by the executive branch.

Petroleum Issue Dissolved.

The proposition of the Russian minister was the direct result of Secretary Gage's note about two weeks ago. In that note the secretary pointed out the action taken as to petroleum was not now or was it meant to have any connection with the previous action of the government on sugar. This appears to have reconciled the Russian officials in their view that the petroleum order was only another step in the policy previously taken respecting sugar. According to M. De Witte's responses were communicated to Washington, Count Lamsdorff forwarding it to M. De Wollant, the Russian charge here. It makes no further issue as to the petroleum order. The chief attention is given to sugar, and the specific offer is made to vacate immediately the increased duties which Russia has levied if the United States will vacate its action on sugar. This would amount to re-establishing the status quo which existed before the United States took its initial action relative to Russia.

The Russian proposition was duly communicated to Secretary Gage, who has responded promptly that, as the sugar question is now before the courts, it is not possible for him to avail himself of the Russian suggestions. Thus the matter stands.

EMPEROR WILLIAM'S NEW YACHT.

New York Designers Confirmed Report It Is to Be Built Here.

New York, July 9.—The report that the German emperor had ordered an American yacht is confirmed by Mr. Barby, architect of the yacht. In an interview Mr. Barby said: "We have received orders for plans and specifications of a schooner yacht 120 feet long on the water line for the German emperor. The design and other dimensions have been left to our own ideas, and nothing has been said about the cost. We expect to have the plans and specifications ready in about six weeks. Then they will be submitted to the naval attaché of the German embassy at Washington, and after his approval tendered to be advertised for in the regular way. Which yacht builders will have the construction of the yacht depends upon whose bid is accepted, but the yacht will be entirely of American design and built. We expect to have the yacht ready for sea about April next."

Kaiser Sells His Old Boat.

Berlin, July 9.—Emperor William's yacht Meteor has been sold to Prince Furstenberg. The Meteor has gone to England, where it has been covered for seventeen years during the Coves regatta.

BRITISH INDIA MENACED.

Declared the Czar, in Retaliation, Will Extend His Borders.

Moscow, July 9.—Russia will surely invade India unless Great Britain ceases its aggressive policy in Europe. It is loudly proclaimed that Russia will soon annex Afghanistan. The time is near when the Hindu Kush mountains, the natural border of India, will be in the hands of the Russian empire. The Russian government has expressed tonight to the correspondent of the London Standard that the position of the Russian empire in the East is such that it is impossible to draw her attention to the Balkans and Manchuria. There is a constant danger of a Russo-Indian war. It is impossible to avoid a result.

It is impossible to avoid a result. The Russian government has expressed tonight to the correspondent of the London Standard that the position of the Russian empire in the East is such that it is impossible to draw her attention to the Balkans and Manchuria. There is a constant danger of a Russo-Indian war. It is impossible to avoid a result.

LYNCHING SCHEDULED.

Georgia Posse in Pursuit of a Negro Who Shoots Three Persons.

Douglas, Ga., July 9.—Lake Devoss, a negro employed on James McKinnon's plantation, today shot two mules because they balked. Devoss' wife, who was with him and he shot her, probably fatally. James and Charles McKinnon, appearing in court, charged that they had been shot and killed. Devoss was shot and killed. Devoss was shot and killed. Devoss was shot and killed.

FIRE CHARGED TO BOYS.

Playing With Matches Responsible for \$50,000 Loss in Iowa.

Ledyard, Ia., July 9.—Two-thirds of the town was destroyed by fire today. The loss is about \$50,000. The fire is supposed to have been started by boys playing with matches.

WILL BURY SILVER ISSUE.

McLean-Kilbourne Faction to Control Ohio Democratic Convention.

Columbus, O., July 9.—The McLean-Kilbourne element at the district meetings this afternoon secured control of all the committees and will, accordingly, have everything their way at the Democratic state convention tomorrow. It is practically certain that Colonel James Kilbourne will be nominated for governor and Anthony Powell for lieutenant governor. There will be a free-for-all race for the other offices. The committee on resolutions stands seventeen to four against special mention of free silver in the old form in addition to endorsing the Kansas City platform; fifteen to six against the endorsement of the Kansas City platform with any further declaration on silver; fourteen to seven against reamending the Kansas City platform with the Johnson plank on state taxation.

DEATH IN OHIO TRAIN WRECK.

Engineer and Mail Clerk Killed in a Collision on the Big Four.

Cleveland, July 9.—By a collision between the Southwestern limited on the Big Four and a portion of a freight train that had broken in two in the village of Nottingham, twelve miles east of here, at 2:30 o'clock this morning, Frank Anderson, engineer, and O. G. McCullon of Cincinnati, mail clerk, were killed. Two other trainmen and two tramps were severely injured. None of the passengers were hurt.

Mishap on the Rails in Montana.

Helena, Mont., July 9.—Limited train No. 10, westbound, on the Northern Pacific, due at Helena at 6:45, is reported to have run into a washout between Custer and Big Horn stations. The entire train of three day coaches, a tourist sleeper, two Pullmans and the mail, baggage and express cars is said to have left the track. The train dispatcher, who was at Livingston reports many passengers injured but as far as known none killed.

ST. PAUL, July 9.—The Billings (Mont.) Gazette telegraphs as follows concerning the reported wreck on the northern Pacific between Custer and Big Horn: "There has been no wreck at the point mentioned. The track was washed out, causing a suspension of traffic for about fourteen hours."

It is learned here, however, that the train ran into a washout and one car was derailed but no one was injured.

Two Killed in Illinois.

Champaign, Ill., July 9.—Ed Harding of Urban and Charles Harrigan of Decatur, young men, were killed today in the Illinois Central yards. They were slipping cars and jumped in front of a moving locomotive.

FILIPINOS REBUFFED BY BRYAN.

Story of the Offer of \$100,000 Denied by the Democratic Leader.

Salem, Ill., July 9.—William J. Bryan confirms the statement that Aguinaldo's agents attempted to corrupt him during the last presidential campaign. Mr. Bryan read carefully the article published Sunday throughout the country. He nodded affirmatively as his eyes passed over the statement that told of the Filipino leader's offer of \$100,000 to New York last fall. Mr. Bryan received a letter telling him that they would make the proposition to Mr. Bryan that Aguinaldo would give \$100,000 to the Democratic campaign fund.

In addition, they would promise for the Filipino leader that he would surrender in the event that the Nebraska was elected and that the surrender would be immediate and unconditional. In return they would exact a promise that a reasonable form of government founded on the principles in force in the United States be given the Filipinos.

Therefore, when the Filipino agents appeared at the Hoffman House Mr. Bryan was ready for them. He refused to see them. They clamored for an audience with some one who represented Mr. Bryan. To all these appeals the Nebraska was headless. He not only refused to see them but he refused to delegate to anyone authority to consider any proposition that they might make. Finally after trying to the utmost to get to Mr. Bryan and put the proposition before him they abandoned the plan and took the advice of some of the attaches of the national headquarters staff, which was to leave New York and report to their principals that the Democrats would have nothing to do with the overtures made.

Mr. Bryan further said: "I was prompted to refuse to meet them, so that my opponents could not have the opportunity to misconstrue or misrepresent the objects of such a conference. I would not consider the proposition which they were anxious to make in person for the reason that I considered it my duty to act as I did."

Mr. Bryan was here to visit his sister, Mrs. J. W. Baird.

BOER'S BOLD ESCAPE

PRISONER FROM BERMUDA IS DETAINED AT NEW YORK.

A STOWAWAY ON A STEAMER.

SPECIAL BOARD OF INQUIRY LOOKING INTO THE CASE.

Young Captive Hidden in the Ship at Hamilton After a Long Swim at Sea and Being Picked Up by Fishermen.

New York, July 9.—One of the Boer prisoners recently taken to Darriell's island, Bermuda, from South Africa, was a stowaway on the steamer Trinidad, which arrived today. His name is William S. Dupley.

Last Friday Dupley threw himself into the water off the island and floated about for hours waiting to be picked up. He was picked up by two Bermuda fishermen and landed at Hamilton. There he eluded pursuit and induced two stokers aboard the Trinidad to stow him away in the coal bunkers.

The governor of Bermuda notified the steamer's agents here that an escaped prisoner was believed to be stowed away in the steamer and asking that he be returned. A search was instituted and Dupley was found, covered with coal dust and nearly dead from the confinement and hunger.

Dupley was removed to Ellis island and arraigned before a special board of inquiry. The young man admitted that he had stowed away on the steamer and said he came to this country prepared to earn his own living, that there was no chance of his becoming a public charge. The case was deferred until friends can be heard from.

ENGLISH TAXPAYERS GRUMBLE.

Are Denied News from Africa Though Paying Heavily for the War.

London, July 9.—Military men have been shaking their heads ominously over the disclosures made by a special correspondent of the Advertiser Mail respecting the conduct of the war and the arbitrary suppression of facts by the press censors. They find evidence of what they have been suspecting for a long time, that Kitchener is not allowed to be as thorough and as ruthless as they think he ought to be, and that the government he insists on interfering with him for political reasons.

The Radical, on the other hand, asserts that Campbell-Bannerman's indictment of the government for conducting a barbarous warfare is fully sustained by proofs that British columns are burning farms and devastating one district after another, and that Boer atrocities, such as the slaughter of wounded gunners by Boers at Vlakfontein, are natural sequels to Kitchener's drastic measures. There will be a heavy cross fire of questions in the house of commons in consequence of all these painful revelations, but Secretary Brodrick has a safe refuge in silence.

The moral drawn by practical men is that it is hardly worth while for anybody to read even the official bulletins from South Africa and that there is no trustworthy method of finding out what is going on when the atrocities committed by both sides are suppressed and when the press dispatches are distorted and padded by censors for political reasons. The British taxpayers are paying heavily for the war with their money, but they are not allowed to know the truth about the campaign even when the facts have no bearing upon military purposes.

BOER GENERALS MEET.

Botha, Delarey and Dewit Hold a Conference on the Vaal.

Cape Town, July 9.—Four Boer prisoners who were today brought into Bloemfontein report that Botha, Delarey and Dewit recently had a conference at a point on Vaal river.

WEATHER FORECAST.

Washington, July 9.—The following is the weather bureau's forecast for Upper Michigan: Showers Wednesday, cooler in eastern portions; Thursday, partly cloudy, probably showers; variable winds, mostly light to fresh westerly.

Unlocks the gates of happiness; makes the music and saws the wood; lifts one up in the sunshine of life. That's what Rocky Mountain Tea will do. Stafford Rock Co.

COUNTY TREASURER CONFESSES.

Robbery and Firing of Court House Admitted by Nebraska Official.

Mineral, Neb., July 9.—County Treasurer Alfred Nordin of Kearney county confessed to the robbery of the county treasury and setting fire to the court house on June 27. Nordin made a full confession and took the officers to a corn field near his home, where in a box was found \$6,775. The total shortage is \$10,011. He said he had lost the remaining money through carelessness.

AMPHITHEATER COLLAPSED.

Several Persons Hurt at a Show at Jacksonville—Gov. Yates Present.

Jacksonville, Ill., July 9.—During an entertainment given by a show called "The Streets of India" tonight, the amphitheater careened and fell, throwing fully 600 people to the ground. Governor and Mrs. Yates were present, but escaped injury. They most severely injured were Mrs. Edward Yates, Pittsfield, Mrs. Larson, Mrs. A. M. Upham, Dr. F. P. Norbury, William Newman, Walter Lacey, Miss Grace Greenleaf and Miss Ethel Williams. The accident was due to the improper bracing of the structure.

WHITE'S FAMILY DOUBTS IT.

Report the Ambassador Intends to Resign Is News at Syracuse.

Berlin, July 9.—Although United States Ambassador White who recently announced that he intended to resign, the correspondent now learns from a close personal friend of Mr. White that he will resign next year upon reaching his seventieth year.

Syracuse, N. Y., July 9.—Ambassador White called this afternoon acknowledging the receipt of a dispatch announcing the tragic death of his son. The cablegram contained nothing to indicate the attention of the ambassador to resign, and his family here deny they have ever received a suggestion from him to the effect he intends to retire from the diplomatic service.

AMERICA HOLDS TRUMP CARD.

Could Starve Europe in Event of War Says Learned Russian.

London, July 9.—Jean de Bloch, the distinguished Russian military expert, says the United States could speedily starve Europe in the event of a great transoceanic war. Continuing he said: "America's future, like that of Germany, lies on the water. Whenever it clashes with a European power the contest will resolve itself immediately into a war of commerce. In my opinion America will require only a great fleet of fast cruisers in order to terminate hostilities speedily in its favor. The United States can never be dislodged from its position as the great provider of Europe's necessities of life."

"The mere defeat of a European squadron would bring to the United States little advantage, since it has nothing to offer the United States except a few American cruisers began systematically to patrol the shores of Europe it would be a matter of weeks or months only when Europe would find it vitally necessary to sue for peace."

"Europe, therefore, has legitimate cause for concern at the expansion of the American navy. If you Americans do not build for a non-governmental institution known as the Washington Memorial institution to be maintained at Washington for the purpose of promoting the study of science and liberal arts and exercising an oversight of advanced studies" of July, qualified students in the governmental laboratories and collections. After a two hours debate, the council adopted a resolution receiving the report of the committee and declaring the council was not prepared to abandon the position of the National Educational association in favor of a national university.

STICKS TO NATIONAL UNIVERSITY.

Educational Association Council Declines to Favor the Revised Plan.

Detroit, July 9.—The committee on national university submitted its report to the national council of education this morning. It embodied a resolution approving the plan for a non-governmental institution known as the Washington Memorial institution to be maintained at Washington for the purpose of promoting the study of science and liberal arts and exercising an oversight of advanced studies" of July, qualified students in the governmental laboratories and collections. After a two hours debate, the council adopted a resolution receiving the report of the committee and declaring the council was not prepared to abandon the position of the National Educational association in favor of a national university.

The Light Guard Armory was crowded with educators and their friends at tonight's session, when President Green read an address on "The Duty of the National Educational Association in Shaping the Public Educational Policy."

Bishop John L. Spaulding of Peoria was given an enthusiastic welcome when he arose to deliver an address on "Progress in Education."

After prayer by Rev. A. H. Bars, Governor A. T. Bliss voiced the welcome of the people of the state. Superintendent of Public Instruction Fall Lansing followed with a welcome from sixteen thousand teachers and seventy thousand school children. Mayor Maybury eloquently told the educators they were welcome to the city. President James B. Angell of the University of Michigan, who followed, was given an ovation. Superintendent Boone of the Cincinnati city schools, responded for the association.

At a meeting of the board of directors today, Treasurer Greenlee submitted his annual report, showing total receipts of the year of \$16,559 and expenditures of \$16,283. The application of the American Religious Educational society to affiliate with the National Educational association in research work was laid over for a year.

William Bearspear of Ames, and John S. Cooke of Dekalb, Ills., have been mentioned for president by some of their friends.

Jan. G. Ambertone of Della, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of Banner Salve it began to heal and after three applications it was entirely healed leaving no scar." The People's Drug Store.

Educate Your Howels With Cascarets. Candy Cathartic, cure constipation forever. 50c. H. C. C. Hall, Drugists refund money.

RATE WAR TO END

PRESIDENTS OF WESTERN LINES REACH AN AGREEMENT.

WILL STOP ALL SECRET CUTTING.

PLAN BASED ON EQUITABLE DIVISION OF TRAFFIC.

All Roads to Have Agents at the Gateways Affected Who Will See That the Business Is Distributed on a Fixed Percentage.

Chicago, July 9.—The presidents of the Western lines involved in the rate difficulty have practically reached an agreement and are only waiting for the assent of a few Southern lines to put it into effect.

The plan, which has been approved by the chief officials of the lines centering in Chicago, is termed the "equitable division of traffic" and will be carried out at all the gateways which have been effected by the alleged secret rate-making.

All known opposition to putting the plan into effect was removed today when P. C. Stohr, general traffic manager of the Great Western, agreed to become a party to the arrangement. As far as known, none of the absent lines, those centering in St. Louis and three of the Kansas City lines, has any objection to the proposed agreement, but before it can be officially promulgated their votes are necessary.

Although the plan has been tried before and failed, this time it will be put into effect with some alterations which, it is thought, will result in the maintenance of the agreement. The details of the plan and its operation will be engineered by George V. Bistine and it is understood the roads will have accredited agents in the shipping yards at every gateway affected whose duty it will be to see that all freight leaving the yards is distributed among the lines in accordance with the percentage agreed upon.

RECOVERY IN STOCKS.

Large Interests Support the Market and Prices Rally.

New York, July 9.—Support to the market from the large banking interests and syndicates, which seemed yesterday to have abandoned it to effect enforcement of liquidation, worked a prompt transformation in speculative sentiment today. The opening dealings disclosed that there was still urgent liquidation to be effected, and some heavy blocks were thrown upon the market at sharp concessions from last night's closing prices, but brokers with supporting orders were present at the same time and were bidding above the prices at which others were selling the leading stocks. The consequence was some wide openings in the prices of the granger, Pacific and Northwestern stocks. The average level of prices were carried a point or more below last night and there were exceptional losses in Louisville, 3 1/2 points; in Baltimore and Ohio, 3/4, and in Southern Pacific, 1 1/2. United States Steel received determined support from the outside.

During the rest of the day the market showed steady recuperation and at times developed a tone of positive buoyancy, closing firm and near the top. The stocks which suffered most acutely in yesterday's liquidation were most conspicuous in today's rally, notably St. Paul, Union Pacific, Missouri Pacific and Atchison. The movement in these stocks, however, was eclipsed by that of Louisville, in which the dealings were on a very large scale. The opening loss in this stock and the subsequent recovery gave color to the supposition that it was raised for the purpose of accumulating the stock. In the late dealings, it spurred to 110 1/2, the extreme. It closed with a net gain of 2 1/2 points.

SERVICABLE SPIRITS. Atexce Ghosts Furnish a Clue to Place Where Treasure Is Stored.

City of Mexico, via Laredo, Tex., July 9.-A sensational case has been reported by the remarkable developments at a spiritual seance held here a few evenings since with a view to evoking the spirits of Montezuma, once emperor of Mexico.

There have been several attempts to locate this treasure during recent years, and one incorporated company was formed which made excavations in suburban towns and found subterranean apartments and a dozen skeletons of Aztecs, but no treasure, though black pearls and emeralds were found near the surface ground near at hand.

At the seance there were present Dr. Lee American; a young American oculist named Langdon, Colonel George Green, Mexican army; C. D. Walte, photographer, and several ladies.

The seance was noisy and demonstrative, and on the slate duly prepared spirits were produced to the satisfaction of all present.

A drawing which resembled Castle Chapultepec appeared, and there came the demand that the photographer should take a picture of the seance.

The photographer, who had everything in readiness, took five or six pictures, which on being developed showed feather-crowned Aztecs in full panoply indulging in lively demonstrations.

The pictures showed a great rock with hieroglyphs carved on it, and this is said to be a picture of the rock which hides the entrance to the cave where Montezuma's golden sun and jewels are hidden.

The photographer is a responsible man, and it is not believed that there was collusion between him and the medium.

The photographs show the room with its invisible occupants. People who attend the seances are in a highly excited condition, and the spiritualists in the city are marveling.

They claim that photographs prove absolutely the truth of their belief in the reality of spirits.

MILWAUKEE-DOWNER COLLEGE, MILWAUKEE, WIS.

Throughout the country there has been a rapidly growing interest in Milwaukee-Downer College.

This institution occupies the unique position of being the only college of Wisconsin exclusively in the great state of Wisconsin.

In addition to its offering a broad and thorough course of college work, from year of which a student may pass to like rank in other colleges, and the fact that on its diploma a life certificate for teaching in Wisconsin may be issued.

The importance of surrounding the life of a young girl, at its most responsive period, with refining influences, and an atmosphere that is conducive to developing good taste, forming good manners, and establishing good principles.

is a constantly growing consideration with thoughtful parents, and it is recognized that an environment of beauty, refinement and culture, together with a spirit of moral earnestness and appeal to the higher interests of life are invaluable in the formation of character.

The steadily increasing patronage of the college testifies to its merit on these important lines.

The attraction of the college is much enhanced by the erection of a new residence, College Hall, to be occupied in September next, by students of the college department.

The seminary, a college preparatory school, which has a large attendance, will continue to occupy Holton Hall.

The new building is a handsome brick structure, planned to accommodate about fifty persons, having, besides apartments for students, parlors, cuisine and dining room.

Certainly any young lady planning to attend school or college, or to study music or art, should attend and fall to examine the opportunities for education that are offered by Milwaukee-Downer College.

TELEGRAPHING TO MARS. The experiments in wireless telegraphy have met with such success that we can soon hold communication with our planetary neighbors.

Science made wonderful strides in the last half of the 19th century, and probably will advance further in the next few years.

There is one thing, however, that science cannot improve upon, and that is Hostetter's Stomach Bitters.

It is the best remedy in the world for stomach, liver and bowel complaints. Fifty years of cures stand back of it, and a fair trial will convince you it has no equal as a cure for indigestion, dyspepsia, constipation, biliousness or liver and kidney troubles.

It also prevents malaria, fever and ague. Be sure to have the Bitters always on hand, and thus avoid any serious illness.

GOOD ADVICE. The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint.

SPAIN DECIDES TO SETTLE. Payment of the Cuban and Philippine Bonds is Assumed by Madrid.

Washington, July 9.-The action of the Madrid authorities as reported in the press dispatches looking to the conversion of the Cuban and Philippine bonds into another and more regular form of security, is regarded here as marking the final collapse of the long cherished purpose on the part of the bondholders to have these securities recognized and assumed by the Cuban government in the case of Cuba, and by the United States government in the case of the Eastern archipelago.

At Paris the Spanish peace commissioners made desperate efforts, first to have the United States assume liability for these bonds, and failing in that, to have the subject left in such shape as to permit another attempt in that direction later on.

The United States commissioners positively refused to admit into the treaty of peace any language directly or indirectly tending to recognize any obligation on our part for these bonds.

The protocols, however, have been regarded by the Spanish contingent, or at least by the bondholders, as affording hope for a more favorable outcome at a later date.

But the fact that the process of conversion is now under way is taken as conclusively marking the assumption by the Spanish government of full liability for the bonds.

Though known as Cuban and Philippine bonds, these securities were actually issued by the Spanish government, and in the case of Cuba the funds realized from their sale were used to prosecute the effort to suppress the rebellion.

A large amount of bonds were held by French, German and English capitalists and naturally their governments felt an interest in having them assumed by a strong government like that of the United States.

One of these governments actually presented at the state department an extensive list of holders of these bonds by its citizens, but Secretary Hay promptly refused to be served with these papers and the holders were obliged to return to the Spanish government for relief.

With these bonds, amounting to many millions, eliminated from view as possible liabilities by the governments of Cuba and the Philippines, there remain outstanding as possible obligations in the case of Cuba only the bonds issued by the insurrectionary government, and some amounting to a few millions.

The case of the Philippines some city debts and small subsidies represent all the indebtedness.

PRIZE EATING CONTEST. "They had an eating contest the other night at Pin Hook schoolhouse."

"Who won?" "Ben Splutters—he ate nine head of cabbage."

"Didn't it make him sick?" "No. He just took a spoonful of Dr. Caldwell's Kinyon Peppin, which prevents Stomach Troubles of any kind, they say."

At the Stafford Drug Co. \$1.00 will be paid to any one who produces as good an all-round life saver as Rocky Mountain Tea made by Madison Medicine Co. 35c. Stafford Drug Co.

What among human ills are more annoying than piles? The afflictions that never active exercise are bad enough, but one that makes even rest miserable is worse.

Women are among its greatest martyrs. FOLEY'S BUCKEYE PILE EXTINGUISHER will cure the most obstinate cases. Price, 50 cts. in bottle, tubes 75c. Stafford Drug Co.

Mr. John Tipples, Colton, O., says: "Foley's Honey and Tar cured my little girl of a severe cough and inflamed tonsils." The People's Drug Store.

ENDEAVOREES HONOR CLARK. Founder of the Society the Recipient of a Handsome Loving Cup.

Cincinnati, July 9.-The time of the delegates to the Christian Endeavor convention this morning was occupied mostly by denominational conferences.

The members of the board of trustees and other officers of the united society gave a banquet to President Clark at the Grand Hotel at noon.

He was presented with a beautiful silver loving cup in commemoration of the twentieth anniversary of Christian Endeavor.

In the afternoon Dr. Clark attended a Congregational rally at the Walnut Hill Congregational church, where Hon. Samuel B. Capen of Boston presented him with an immense memorial, signed by many leading educators, editors, clergymen and businessmen in the United States.

As an expression of appreciation for the work Dr. Clark has done in organizing the Christian Endeavor.

What will probably be the prettiest of the meetings of the convention was the annual junior rally held in Auditorium Endeavor this afternoon.

Treasurer Williams of Boston, who held the gavel and Secretary John Willis Baer addressed the meeting on "Six Peas in a Pod" which he said, when applied to ethics, stand for holiness, patriotism, punctuality, practicability, perseverance and prayerfulness.

Then followed numerous exercises by the Junior Endeavorers of the local church and the children of several orphan asylums.

The evening was devoted to receptions and rallies at the various state headquarters, and in order to allow the Endeavorers to attend Music Hall was darkened.

The German Endeavorers adjourned their convention tonight with services at Zion church.

Before and After Treatment. The following letter from a cured man is evidence of proof regarding this grand treatment: June 2, 1901.

Eureka Medicine Company, Houghton, Mich. Dear Sir:—Please accept my sincere thanks for the kind interest your company has taken in my case.

I am not ashamed to inform you that I once gave up in despair but am now completely cured. I am just as vigorous as when a boy, and I feel it my duty to recommend your wonderful treatment to suffering men.

We will sell over 100,000 boxes of this famous remedy this month. WHY? Because we will only charge the price of one box and give six, which is a full course of treatment guaranteed to cure the most obstinate cases in twenty to thirty days or refund your money.

This \$1.00 treatment, good only until August 1st; after that date the regular price will be \$5.00 as formerly charged. Our Eureka Tablets are sold only by the Eureka Medicine Co., and for a short time at the price of \$1.00 for six boxes by express, or send \$1.15 and we will send them prepaid by mail in a plain sealed package.

ADDRESS EUREKA MEDICINE CO., BOX 651, HOUGHTON, MICH.

HIGH GRADE IOWA BONDS. We offer \$12,000 Estherville, Ia., 3 1/2 per cent Water and Electric Light Bonds, due September 1st, 1914.

W. G. COLES, Third Street MEAT MARKET. You will always find what you want in Meats, Poultry, Butter and Eggs.

STATE OF MICHIGAN-COUNTY OF MARQUETTE. At a session of the probate court for said county, held at the probate office in the city of Marquette, in said county, on the 12th day of July, A. D. 1901.

On reading and filing the petition of David L. Workman, deceased, setting forth that said David L. Workman departed this life on the 22nd day of July, A. D. 1901, and that said deceased at the time of his death was owner of certain lands situated in said State of Michigan and county of Marquette, which are particularly described and set forth in said petition, and also setting forth and alleging that said petitioner is interested in the lands of which said David L. Workman died seized, as an heir of said David L. Workman, deceased, and that the court adjudicate and determine who are or were at the time of his death, the heirs and legal representatives of said David L. Workman, deceased, and that the laws of this state to inherit the lands of which said deceased died seized, and the shares or portion thereof that each of said heirs was entitled to at that time, and the right, title and interest that each of them, or their heirs or assigns, may now have therein, pursuant to the statutes in such case made and provided.

Thereupon it is ordered that Wednesday, the 10th day of July, next, at ten o'clock in the morning, be a court for the hearing of said petition, and that the heirs at law of said deceased and all persons interested in said estate are required to appear at a session of said court to be held at the probate office in the city of Marquette, on Tuesday, the eighteenth day of July, in the year of our Lord one thousand nine hundred and one. Present, CHARLES KEISLEY, Judge of Probate.

Thereupon it is ordered, that Thursday, the eleventh day of July, next, at 10 o'clock in the forenoon, be assigned for examining and auditing said account, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be held at the probate office in the city of Marquette, in said county, and show cause, if any there be, why the said account should not be allowed.

And it is further ordered, that said James Russell give notice to the persons interested in said estate of the pendency of said account, and the hearing thereof, in said state of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in the Daily Mining Journal, a newspaper printed and published and circulating in said county, once in each week for three successive weeks previous to said day of hearing.

WILL MEET IN ISHPEMING.

U. P. Medical Society's Next Annual Convention to be Held Here.

At the annual convention of the Upper Peninsula Medical Society at Menominee last Friday and Saturday it was decided to hold the next meeting in this city. Dr. T. A. Felch is responsible for getting that distinguished body to come here, for it was through his efforts that the members of the society were convinced that Ishpeming is entitled to the next meeting. It is expected that about fifty or sixty medical men will attend.

The meeting at Menominee last week was a gratifying success. Fifty members, besides about ten visitors, were present. The meeting was the most successful in all respects that the society has held since its origin, six years ago. Dr. Walter Hicks of Menominee was elected to succeed Dr. T. A. Felch as president, and Dr. George Barnett of Ishpeming was elected third vice president. A number of doctors from Chicago and Milwaukee attended the sessions. The physicians from these two cities expressed themselves well pleased with the work of the organization. The society was entertained royally by Hon. Samuel M. Stephenson.

The Upper Peninsula Medical Society was organized through the efforts of a few physicians in this section, prominent among them Dr. Samuel Bell of Newberry, Dr. E. D. Harrison of the Soo, Dr. J. Vandevanter of Ishpeming and Dr. Youngquist of Marquette. The society has grown from a small local affair to be the second largest medical organization in the state. At the present there are about two hundred members enrolled.

Preparations will be made to entertain the guests in an elaborate style when they visit Ishpeming next July.

Tells of the Pioneer Doctor.

Dr. Felch delivered a pleasing address on the trials of the pioneer doctor in the upper peninsula. Following is a synopsis of his talk:

"What was the fascination the upper peninsula offered to medical men in its early settlement? It was, perhaps, the possibilities of an unexplored land, but whatever the reason they came. We are thankful that these pioneers of blessed memory were men of vision, perspicacity and force of character. Distances in this upper peninsula were great and the settlements small and not very numerous, and think of the hardships of practice in those days. No roads either in summer or winter worthy of the name, often only a trail to the outlying mining camps; and one doctor told me that he has more than once in winter started with his horse and cutter to make a call, going as far as he could thus, then leaving the cutter, mount the horse and go as far as possible, then tie the horse, strap on his snowshoes and walk the remaining distance. Surely that was practicing under difficulties, and undoubtedly the climatic conditions were much more rigorous in those days. Something has had a modifying effect upon the climate, but the hardships we have seen it severe enough, in all conscience.

"I have not been able to look up the doctor in the very early settlement of Mackinac Island, Sault Ste. Marie and Menominee, where, from the nature of his surroundings, he must have been a warrior on occasions. Suffice it to say that the first named place was once graced by the presence of the illustrious Beaumont, whose memory the state and this society have so recently honored with a granite shaft.

"And there was Dr. C. R. Agnew, who came to the copper country fresh from college. His stay was short, for, having a disagreement with the mining agent, he walked out of the country on snowshoes to the nearest railroad station. You all remember how he settled in New York city and became eminent as an oculist. But his most enduring monument is the gratitude of a nation for his arduous services to the soldiers while one of the United States commissioners during the Civil war.

"Another name we revere is that of Joseph O'Dwyer. To be sure, at the time he resided in this section he was not a physician, but a clerk in a store at Marquette. We may well claim some honor for this, as it may be reasonable to suppose that his associations and training in this region may have turned his mind to the investigation of the great problem which he afterward succeeded in solving.

"All old residents of the copper country will recall the burly form and genial face of Dr. Abram Heaton. Here was one of nature's noblemen. Coming to this country from Virginia he brought with him the ideas of their peculiar institutions which all Southerners then held. Here, of course, he found a host of opposing ideas and many a heated debate of the subject took place before admiring audiences. Nevertheless when the first rumblings of the approaching conflict were heard he hastened to Virginia to implore his people to go slow and warned them that they did not understand the North or its resources, and that if war did ensue the result would surely be disaster to the South.

"At one time Dr. Heaton was a visitor to a clinic at the University of Pennsylvania, when the subject was fracture of the base of the skull. The professor asked him, as a man who had great experience in such cases, to make some remarks. Nothing abashed, the doctor gave a talk on the subject of the anatomical structure of Jacobson's nerve, which was a surprise and delight to the large audience. He made it an invariable rule to thoroughly review his anatomy each year.

"Another early physician of Marquette, and one who took a great interest in the formation of this society, was Dr. George J. Northrop. Dr. Northrop, like many others, came to this section after the Civil war, in which he served as surgeon, and the training he received in that war was of great service to him in his private practice. He was looked up to by his younger countrymen, and the resolution of respect passed by this society at his recent death shows the esteem in which he was held by the physicians of the upper peninsula.

"Time would not suffice nor is it necessary to more than mention the names of some of the faithful ones of whom I happen to know—Hewitt and Taft and

St. Clair at Marquette, Mackenzie and Bradley at Negaunee, Wenster at Ishpeming, St. Clair at Clarksburg, Smith at Humboldt, Treat at Champion, Hirschman and Vail at Republic, Fuller at Houghton, Center at Calumet, and the many others in all parts of the peninsula who have now joined the great majority, leaving to us an example of faithful arduous work. It is under the most trying circumstances. Probably each of them endured more hardship from exposure and overwork than falls to the lot of most physicians and also they received less recompense in a financial way than in these days. Someone, somewhere, in giving advice to physicians, says: "Be early and the poor, and may God have mercy on your soul, and I believe he will!"

THE TASSON INQUEST.

Interesting Testimony Secured from the Witnesses Yesterday.

The inquest in the Tasson case was held yesterday and the jury returned a verdict that the deceased met his death by a gun shot at the hands of Bruno Daniel. Some very interesting testimony was heard but Prosecuting Attorney Bell will not allow any of it to be published lest it might be widely read and make it difficult to secure jurors when the case is called for trial. In general the stories told were substantially in accord with the account of the tragedy given in The Mining Journal. There were conflicting statements on minor points, but the testimony given showed conclusively that Tasson was looking for trouble and found it.

The attorneys for the defense and the prosecution will meet this morning in Justice Kennedy's court and arrange for the preliminary examination. It is probable that Daniel will waive examination and that the case will go directly to the circuit court.

Yesterday eleven witnesses were examined. A shorthand account of their testimony was taken and will be used when the case comes to trial. Two interpreters were employed.

The attorneys had an amusing time keeping the Italian witnesses within bounds. These had their story down pat and wanted to tell it all at once. They talked with their hands as well as with their tongues. The attorneys had to interrupt them frequently to enable the interpreter to give an exact translation.

"HAZEL KIRKE" TOMORROW NIGHT

Amateurs Will Produce It at the Ishpeming Opera House.

The four-act drama, "Hazel Kirke" will be produced tomorrow and Friday evenings at the Ishpeming Opera House by the Catholic Dramatic club. The club members have been rehearsing the piece for two or three months and feel that they are now prepared to give it a strong presentation. The drama was to have been staged early in June, but the lady cast for the leading part was the lady assigned the leading part was Ada L. Shannon, who appeared here with a professional company some weeks ago, will now take that part. She is an actress of no little reputation and she has played this piece on the professional stage she will undoubtedly make an ideal "Hazel."

The following cast will, with the assistance of Mrs. Shannon, produce the play: Misses Margaret Collins, Rose O'Brien, Eve Fillion, Helena Murphy, and the Messrs. E. LaBreche, D. J. Sliney, P. J. McGinty, R. D. Kyle, N. Huot, H. Navins, E. Hickey and Michael LaBreche.

Tickets for the performance have been sent out to all the parishioners of St. John's church and a large attendance is assured. Reserved seats can be procured at Tillson's.

AN IMPRESSIVE FUNERAL.

The funeral of Lucile Goldsworthy Matthews, daughter of Mr. and Mrs. Richard Matthews, was held yesterday afternoon at 2 o'clock from the Presbyterian church. The funeral service, conducted by Rev. Mr. Allen, the pastor, was most impressive. The little girls comprising the Junior Endeavor society turned out, all wearing white and carrying flowers. The floral tributes were unusually profuse, coming from friends of the family in all parts of the peninsula. The remains were interred in the Ishpeming cemetery and were followed to the grave by a large number of sorrowing relatives and friends.

ISHPEMING IN BRIEF.

W. G. Carah of Hancock did business in the city yesterday.

James Ames transacted business in Marquette yesterday.

S. A. Montgomery of Marquette was a business visitor here yesterday.

Captain Arthur Buzzo is over from Crystal Falls on a business mission.

L. P. Murray of Marquette was in the city yesterday transacting business.

Andy Seass and Louis Corbett of Negaunee were in the city yesterday afternoon.

J. D. West got home last evening from a business trip to the Menominee range.

Albin Hasselblad, who attended the street fair in Marinette, got home yesterday.

Miss Anna Nelson of Gladstone is in the city visiting her mother, who resides on Bank street.

John Vanhalla, who has been visiting his family for the past two months, has returned to Chicago.

Sellwood's stores were closed yesterday afternoon for the funeral of Lucile Goldsworthy Matthews.

W. J. McKivet of Grand Rapids, who

formerly was employed by F. P. Tillson, is in the city visiting friends.

A. A. Lind returned from Calumet yesterday. It is probable that in a short time he will start a Swedish paper in that city.

The Lady Foresters will hereafter meet once a month. The first meeting under the new regime will be Wednesday, Aug. 7.

Gust Joehim of Duluth, who was visiting his brother, John W., has returned to his home. Years ago Mr. Joehim was in business in Ishpeming.

Miss Esther Nelson, who spent a week or more with her brothers on the Menominee range, stopped off here between trains yesterday on her way to Detroit.

All pupils who have not yet received their pass cards can get them by calling at the high school office on Thursday of this week from 2 to 4 o'clock p. m.

Mrs. B. R. Davis, son Guy and daughter Ruby, arrived here yesterday from Chicago. They will spend some time visiting the Misses Davis, milliners of Mrs. Davis.

Mrs. Wallace Pratt and daughter and Mrs. Danbarth and her son are visiting at the Johnston House. Their homes are in Kansas City. Mrs. Pratt is a sister to Mrs. Keen of this city.

August Lundin, the tailor, has gone to Buffalo to attend the Pan-American exposition. Before returning he will visit New York and Chicago to familiarize himself with fall styles in men's suitings.

Several complaints have been heard of bicycle riders scorching on the wrong side of the street. A number of accidents have been narrowly averted. Cyclists should remember to keep to the right, especially when traveling at a high rate of speed.

F. C. Chamberlain, formerly of Ironwood, but now of Detroit, was in the city yesterday morning calling on friends. Mr. Chamberlain is spending his vacation in Negaunee at the home of his wife's parents. He will leave tonight for Lower Michigan.

Professor Mustonen, who was to meet Ishpeming Singers' union, failed to put in an appearance Monday evening. The society assembled to rehearse with the professor but after waiting for some time adjourned. Why he disappointed the singers is not known, as no word has been received from him for several days.

An important meeting of Hematite camp of the Modern Woodmen of America was held last evening. About twenty new members were adopted. The degree team did good work under the direction of Captain Steve Collick. The applicants were secured by Deputy Consul Mansfield, who has been working in this city for the past month or so. Another class will be adopted soon.

A POOR MILLIONAIRE
Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by the Stafford Drug Co., druggists.

CANCER

The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a faint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

SAVES LIFE

Willard, Ill., August 1, 1900. I was in bad health this spring and could not sit up in bed for four weeks. When I was confined my child died. When I began to sit up I felt so weak and had such terrible pains in my back and hips. I had kidney trouble and falling of the womb. I also had hysterical spells. I was in a bad condition when I received your "Ladies' Birthday Almanac" and read the advertisement of Wine of Cardui and Theodore's Black-Draught. Since April 1900, I have taken four bottles of Wine of Cardui and three packages of Theodore's Black-Draught. I feel like a new person now. I can do all my work and can walk out to see any of my neighbors. I believe I would have been in the grave had it not been for Wine of Cardui. **IT SAVED MY LIFE.** Mrs. ALICE DAVIS.

It is well that women are more patient than men. Few men could bear the bitter pangs, the agony and distress that women endure. Thousands of women have come to look upon suffering as a duty of their sex. But there are many instances of this heroic fortitude which

WINE OF CARDUI

now renders unnecessary. Women need no longer suffer for modesty's sake. Wine of Cardui brings relief to modest women in the privacy of their homes. Many of the best homes in this city are never without this great medicine. It cures whites and falling of the womb and completely eradicates these distressing periodic pains. Mrs. Davis' cure shows you conclusively what you may expect if you follow her example and take Wine of Cardui. Theodore's Black-Draught aids Wine of Cardui by regulating the stomach and bowels. When you ask your druggist for these medicines, be sure you get them. It was Wine of Cardui and Theodore's Black-Draught that saved Mrs. Davis' life. Never take a substitute.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

GONE INTO LIQUIDATION.

Negaunee Savings and Loan Association Decides to Discontinue Business.

The Negaunee Savings and Loan association, which has been in existence for the past eleven years, decided at a recent meeting of the stockholders to wind up its affairs as soon as possible and discontinue business. At the meeting a final dividend was declared. The reasons given by the directors for closing up the affairs of the association is that there is no need for such an organization in Negaunee, and that it would be but a question of a few years before the association would be forced out of business. It was decided that it would be better to wind up the association's affairs now, when it is in good shape and before any losses are incurred. All the obligations of the association have been met and the remaining profits divided. Every stockholder has had returned to him all the money he put into the association, and interest at a high rate. For the past ten years the Savings and Loan association has declared a dividend every six months.

The Negaunee Savings and Loan association was a success from the first. It had a membership at one time of 225. Economical management, coupled with prudence in placing loans, made the association prosperous from the time it was established until now. In all the eleven years not one dollar was lost in poor securities. During the panic of 1893 to 1896, the company declared dividends, a thing which few savings and loan associations were able to do.

E. C. Anthony has been president of the association since its establishment and John Q. Adams was its first secretary. For the past ten years Leslie French has held this position and has always been active in the management of its affairs. The stockholders were well pleased with the way the directors and officers conducted the business of the organization. Few if any like societies have as good a record. Just as soon as permission is received from the secretary of state it will officially disband.

A NEW ENGINE HOUSE.

The American Mining Company Must Build One at the Negaunee Mine.

Another patch of ground dropped under the engine house at the Negaunee mine Sunday evening. This will render necessary the erection of a new building to take the place of the old one. As soon as the second cave occurred Joseph Sellwood, who was present at the mine, came to the conclusion that it would be impossible to patch up the ground sufficiently to hold the building in place. When a representative of The Mining Journal spoke to Mr. Sellwood earlier regarding the engine house he was of the belief that the building could be saved and that after the opening was filled and the foundation braced up there would be no further trouble there.

The men who were engaged Sunday filling the hole lost no time removing the machinery. The entire hoisting plant was out of the building by morning and now if that end of the building goes down the loss will be trifling as it contains nothing of much value.

Material arrived on the ground yesterday to be used in construction of the new engine house. The building will be located about two hundred feet south of the old one on the side of the hill. There will be no danger of an accident similar to that which occurred Saturday at the new location, as the workings do not extend in that direction.

A large force of workmen will be employed at the new building with a view to completing it as soon as possible. The work will be pushed day and night as far as possible. Meanwhile the mine will be operated. A temporary hoisting plant will be installed at a convenient point and hoisting will be resumed. The boilers at the old engine house are undisturbed and steam will be obtained from them. It is not possible to run much ore can be hoisted with the temporary machinery as was taken out with the old plant.

Some hustling will be done at the mine during the next few weeks. The work of filling the hole has been abandoned and many of the surface hands will be employed on the mine. The loading of cars from the stockpile will continue so that shipments will not necessarily be decreased, as there is quite a tonnage of ore on hand.

TO WHOM IT MAY CONCERN.

Notice is hereby given that the Miners' Publishing company has purchased the entire business and plant of the Adams Printing company (Ltd.) and all liabilities or resources of said Adams' Printing company are payable by or to said Miners' Publishing company. (7-10-01)

THE GREATEST PURIFIER.

DeBell's Kidney Pills cure all diseases of the kidneys. That is why DeBell's Kidney Pills cure Bright's disease, Diabetes, Rheumatism, Neuralgia, Heart disease, Female troubles and Urinary and Bladder complaints. These diseases are the results of unhealthy or disordered kidneys. DeBell's Kidney Pills cure them invariably and finally. They have never failed yet. No Cure, No Pay. Price 25 cents per box. For sale by the Stafford Drug Co.

\$50 FOR A BOTTLE OF MEDICINE.

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but would not be without the medicine if it cost fifty dollars a bottle.

MANY NEW DWELLINGS.

A Building Boom of Fair Proportions is on Here.

Not since the race course addition was planned by Louis Corbett some ten years ago have there been as many dwellings erected in Negaunee as are at present going up. The mining boom started here last winter marked the commencement of the building boom. A few of the men who sold their tracts of mineral lands at a good price immediately decided to spend a portion of their wealth on their homes; others who were without houses of their own decided to build. This started others who have planned on doing something in that direction for a long time.

About the most pretentious dwelling being erected is that of Mrs. Barabe and her sons. It is on Main street, occupying a corner lot in a very pretty as well as convenient part of the street. It will accommodate two families. Mrs. Barabe on one side and her son Eldred and his family on the other. The building is enclosed and will soon be ready for the plaster. The grounds surrounding the place will be improved on the completion of the dwelling.

John Parola's new house on Peck street is well along. The dwelling, with lot and barn, will represent an investment of \$5,000. The place will be one of the best on the street.

Will Mitchell's new two story house on the corner of Brown avenue and Peck street is enclosed.

The foundation for a cottage Mrs. Celina Saw will build on Park street has been completed. The carpenter work will be started very soon.

Carpenters will soon begin work on Joe Boyce's house on East Main street. It will be two stories with eight rooms. The foundation was finished last week.

The dwelling being built by E. Cunnold, also on East Main street, is about ready for the plaster.

Carpenters have just started work on a two story house for Victor Nelson at the race course addition.

John Stewart is making extensive improvements at the dwelling he recently purchased from James Gaffney. When the work under way is finished Mr. Stewart will have a pretty place.

There are several other dwellings going up in different parts of the city. A few who contemplate building expect to get their work started before long.

All things considered the carpenters are not getting behind in their work. In usually good season. Men engaged in either line have no trouble finding jobs at good wages, and from present indications these tradesmen will be kept very busy until winter sets in.

A CHILD ENJOYS

The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use; so that it is the best family remedy known and every family should have a bottle. Manufactured by the California Fig Syrup Co.

LOCAL LACONICS.

C. L. Sporley spent yesterday on the Cascade range.

John Johnson of Marquette was in Negaunee yesterday.

Ed Hall left yesterday for the copper country to transact business.

A. G. Jones of Iron Mountain was in the city Monday transacting business.

Mrs. W. F. Morris of Iron Mountain is in the city, visiting Mrs. P. F. Small.

Mayor John Mangum of Marquette was in the city between trains yesterday.

Street Commissioner Thomas has a gang of men at work repairing Hobin street.

Mrs. W. C. Braeen and O. K. Braeen of Marquette were Negaunee visitors Monday.

Axel Rasmussen left yesterday for the Escanaba river, where he will spend several days on a fishing excursion.

Miss Salome Dyson left Monday for Detroit to attend the convention of the National Educational association.

Ortel Thomas, who is connected with the reporting staff of the Oshkosh Northwestern, is in the city visiting his uncle, Stephen Thomas.

The Northwestern railroad is repairing the crossing at Iron street. Several car loads of gravel were brought down yesterday and placed between the tracks.

Charles and Oscar Larson left Monday for Buffalo to attend the Pan-American exposition. Before returning they will visit several points of interest in the eastern states.

The hose team members are out practicing every evening. They are rapidly rounding into shape and expect to be in first-class condition when they go down to Crystal Falls next month. Lsh-pening always gives a good account of himself when participating in athletic sports, and the firemen can be relied upon to show up in good form.

The Sisters of St. Joseph, who have charge of St. Paul's school, held a private picnic at Presque Isle yesterday. Mrs. T. J. Flynn accompanied them to the Queen city.

Kirkwood & O'Donoghue have an exhibition in their window a quart box of strawberries from P. E. Peterson's farm. The berries are extremely large, thirty-five filling a quart box.

In speaking of the dissolution of the firm of Thomas & Angove Monday morning, The Mining Journal erred in saying that Mr. Angove would continue the saloon business. It will be conducted in the future by Mr. Thomas, who will be pleased to see all his friends at his place from time to time.

"My Friend from India" will hold the boards at the McDonald opera house Wednesday, July 17. The Strickland company will produce the play. This company is composed of members from the Otis Skinner and Lovers' Lane companies, two of the strongest aggregations of players on the stage. The play next Wednesday evening will be a society affair. Already several theater parties have been arranged.

We have a good sale on Dr. Caldwell's Syrup Pepsin because we guarantee it and refund your money if it does not do just as we represent it. Call for a booklet that tells you all about it, at the Stafford Drug Co.

Upper Peninsula.

H. O. Alger of Hillsdale, Mich., head of a syndicate which purchased 5,000 acres of land in Inghamston township along the bay shore, was in Menominee this week in conference with the officers of the Menominee Abstract & Land association, which firm is looking after the sale of the lands. Mr. Alger says that most of the land will be settled and a colonizing scheme developed.

Monday morning the Masonic association of Menominee purchased the south lot of the Fishem property, the consideration being \$3,516.65. The sale was made by Circuit Court Commissioner Fred H. Berg, to satisfy a mortgage held by G. A. Biesch. This lot is one-half of the Fishem homestead. The purchase is a preliminary step towards the building of a Masonic temple, and it is hoped that before many years pass an imposing structure will adorn this lot.

It is probable that the usual number of prevent pilgrims will leave on the annual pilgrimage to the shrine of St. Anne de Beaupre the latter part of this month. The railroads are offering the usual low rates, the fare for the round trip being just a little over the usual price. The shrine is situated in a little village near Quebec and it is visited by thousands each year. They go to receive the curative effects of prayer to St. Anne. This shrine is the oldest in America.

Mayor Hammond of Iron Mountain will have to appear before Judge Stone on Monday, the 10th, to show cause why he should not sign the city warrants of M. C. Gleason, one of the police officers recently suspended by his honor. Papers were served Monday. Gleason and his attorney are working on the theory that when a bill has been properly audited and approved by the council's finance committee and the council itself it is obligatory upon the mayor to sign the pay warrant, whether the bill is right or wrong.

The floater found in the Menominee river late Saturday afternoon has been identified as the body of Edward Lindberg of that city, who has been working for James & Son at their headquarters for the past four years. It is not positively known whether Lindberg met an accidental or suicidal death, but it is believed that he fell in the river accidentally. He was last seen in Marinette Wednesday afternoon in an intoxicated condition. He having started to celebrate the Fourth, Menominee friends tried in vain to get him to cross the river. It is thought that Lindberg fell from the railing of the Frenchtown bridge Wednesday night, striking a mass of logs and being carried into the water where he perished. The deceased was forty-seven years old. He had lived in Menominee five years.

The Chapin mine at Iron Mountain is again being supplied with air from the hydraulic works, which were recently put out of operation by an explosion and fire. Sunday afternoon at 3:30 c.m. compressor started and the others, it is hoped, will soon be put in operation. The electric light plant, which was knocked out by the damage done to the flume, is also working, light being supplied everywhere on Saturday night. The greatest relief felt at the return of compressed air is at the various places on the surface where air is used for power, and where there is no way of substituting steam. Its lack was a particular obstacle at the Hamilton shaft where cars are directed on the trestle to carry Chapin ore to a different pocket. When there is no air this high class ore has to be mixed with the inferior grades, unless a carload at a time is sent up. The work of repairing the compressors has gone along very quickly and in a short time the working of the mine will be as satisfactory as though no accident had occurred.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, although he suffered, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by the Stafford Drug Co., druggists.

There are good profits for retailers in Heppner's pure ice cream. Heppner, Marquette. (5-1-14)

Champion25.00	Bay Mills25.20
Republic25.00	Brimley25.00

Children five years of age and under, twelve half rates.

ROUTE.—D. S. S. & A. R'y to Sault Ste. Marie, C. P. R'y to Quebec Quebec R'y to Ste. Anne de Beaupre. Return same.

Tickets will be on sale as follows:
At stations Calumet to L'Anse, inclusive (except Lake Linden, Riddle Junction and Mass), for the night express of Monday, July 22nd.
At Lake Linden, for a Special Train leaving 9:30 p. m. Monday, July 22, connecting at Hancock with Night Express for the East.
At Riddle Junction and Mass City for the afternoon train of Monday, July 22nd.
At stations Nestora and East (except Republic), for the early morning train of Tuesday, July 23rd.
At Republic for the afternoon train of Monday, July 22nd.
All tickets will be good for return passage until August 31st, inclusive.

STOP-OVERS will be allowed at any point in Canada and at any station on the D. S. S. & A. R'y on the return trip.

THE FEAST OF ST. ANNE falls this year on Friday, July 26th, and this pilgrimage is arranged so that those who join it can participate in the impressive ceremonies which attend that event.

A SPECIAL PALACE SLEEPING CAR will be run through to Ste. Anne de Beaupre. Rate per double berth, \$8.00.
EXCURSIONISTS WILL ARRIVE Sault Ste. Marie, 10.10 a. m. July 23rd, St. Martin Jet, 7:19 a. m. July 24th, and by taking the Quebec train at that point will reach Quebec, 2:49 p. m. and Ste. Anne de Beaupre that evening, or you can go through to Montreal, arriving 8:00 a. m. July 24th, and leaving Montreal 2:30 p. m. or 11:00 p. m., arrive Quebec 7:00 p. m. same day, and 6:30 a. m. July 25th. Frequent trains leave Quebec for Ste. Anne de Beaupre, via Quebec R'y., and the run (21 miles) occupies but one hour.

For sleeping car accommodation and full particulars apply to the agents at the stations named above.

Geo. W. Hibbard,
Gen. Pass. Agent.

ONE FARE PLUS \$2

RATE TO MARQUETTE FROM ST. LOUIS AND KANSAS CITY.

MADE BY ALL PRINCIPAL ROADS.

IT SHOULD GIVE MARQUETTE HER BIGGEST RESORT BUSINESS.

Summer Visitors Will Shortly Begin to Arrive Here—Hotel Superior Opens Saturday, With Prospects for a Big Business.

The principal roads out of St. Louis and Kansas City are making a particularly advantageous rate for Lake Superior bound summer traffic.

This concession was obtained as a result of the activity of the passenger department of the South Shore road, which is always working zealously to direct summer traffic to Marquette, aided by the other lines interested, materially, in seeing this city become a popular place for summer rest and recreation.

The rate of one fare, plus \$2, is the first standing special summer fare from St. Louis and Kansas City to Marquette and, as all the principal lines have subscribed to it, it should mean that this city will enjoy, this year, the greatest resort season in its history.

In addition to this notable concession there will be the usual special excursions, with their ridiculously low rates from Chicago, Detroit and the intermediate points, at time to time during the next two months. These excursions will bring in large numbers of visitors, but for the steady arrivals of well-to-do resorters and tourists the special arrangement with the St. Louis and Kansas City lines will be depended on.

The officers of the passenger department of the South Shore road expect that the resort season just opening here will be one of the biggest and most successful in the history of the city. All reports received by them are encouraging. They express little doubt that the volume of traffic will be much greater than it was last year. This feeling also exists among the hotel men, who have already received many inquiries from prospective visitors, asking about accommodations for the summer months.

Marquette generally is preparing to receive the influx of summer visitors. The Merchants' association is tabulating the accommodations in private homes so as to be ready to assign strangers, who do not care to stay at the hotels, to suitable lodgings and making other provisions to see that all the visitors are entertained satisfactorily and sent away pleased.

To Open This Week. The Hotel Superior will be formally opened this week. A letter from George E. Ross, the manager, conveys the information that it will be ready for the reception of guests on Saturday, the 13th. Much of the help is already at the house, which is being prepared for the opening, and the balance of the force of servants will be along during the next few days.

The Superior is in better condition than ever this year to care for its guests satisfactorily. There are more rooms at command than last spring, an additional number having been furnished. A number of new private baths have been fitted up and other improvements made. Among other things, the exterior of the house has been painted. At the Superior everything promises to be progression under the Ross regime. Certainly this has been true thus far. Mr. Ross anticipates a successful season. During the past few months he has expended no little thought and money on his summer house and he expects to witness the results of his effort before he closes the resort this fall. He had some considerable advertising. He had a half page in the resort section of a recent issue of the Sunday Chicago Record-Herald.

The Superior will be run practically on the same lines as last year. Then its management was irreplaceable, being first-class from kitchen to elevator.

BIG CALUMET DELEGATION. It Will Attend Annual Convention of Knights Templar Here.

Members of Montrose commandery, Knights Templar, are preparing to send a big delegation to the September gathering of the Upper Peninsula association, says the Houghton Gazette. This meeting will be held at Marquette and is the second gathering of the upper peninsula knights since the association was formed. The other year the gathering was held at Menominee.

There was a meeting of Montrose commandery in Calumet last Friday night when various matters in connection with the proposed trip were taken up and it was planned to have the commandery turn out in force for the Marquette meeting. There are a large number of Templars in the copper country, most of them enthusiastic over the work of the order. The Calumet commandery has the largest membership of any in the upper peninsula. Altogether there are over 1,000 knights in upper Michigan. Last year a plan which had been under consideration for some time was carried out by means of which the Upper Peninsula association was formed. The association includes the commanderies at Marquette, Calumet, Menominee, Sault Ste. Marie and Ironwood. All of them are in flourishing condition. The first association meeting took place last October, and while the copper country Templars did not turn out as strong as they will at the Marquette gathering in September.

ber, all the showing was good and those who did attend spent a most enjoyable time and returned well pleased that the association had been organized. The exact dates for the Marquette meeting are Sept. 10 and 11. Montrose commandery will have several novel features arranged to take to the iron country with them. In addition to the general social features of the gathering the parade of the different commanderies in full regalia is an interesting part, particularly so to the general public. It is very probable that the third annual meeting of the association will be held at Calumet in 1902. Montrose commandery is anxious to entertain the upper peninsula knights and will ask the association to come to the copper country for the next gathering.

CITY OF MARQUETTE CHARTERED. Will Enter Fruit Trade for Penberthy, Cook & Co.

Monday's issue of the Menominee Herald has the following relative to the chartering of the steamer City of Marquette, which, for the past couple of seasons, has plied between this city and points up-lake, particularly the Huron Mountain club.

"Penberthy, Cook & Co. have chartered the elegant passenger and freight steamer City of Marquette to be used in the fruit trade, and the boat will be down from Negaunee yesterday. George Barnes and T. J. Flynn were down from Negaunee yesterday. J. R. McDonald of South Lake Linden was a Marquette visitor yesterday. N. J. Dolph of Kenton was here yesterday on his way home from a visit in the east. Mayor Mangum went down to Chicago last evening. He will be absent for a couple of days. There will be a meeting of the Ladies' auxiliary to the B. of L. E. this afternoon at 2:30 o'clock. P. E. Kirkwood of Negaunee was in Marquette yesterday. He was drawn for the jury in the United States court. The tug Schenck took a large party up to the Huron Mountain club yesterday morning, returning last evening. There will be a regular meeting of the Ladies' auxiliary to the A. O. H. this evening, at the usual hour and place. Many upper peninsula people were here yesterday, attracted to a great extent by the sessions of the United States court. Queen City tent, K. O. T. M., will meet at its hall this evening at 8 o'clock sharp. There will be degree work and social business. The South Shore road laid new plank over its main street cut, where it crosses Front street, yesterday. The work will be finished today. The sidewalk in front of the Fraternity block, which has been in badly dilapidated condition, is about to be replaced with new planking. Miss Inez Mathews has arrived home from a couple of months' visit in the east. She is accompanied by Miss Reeve, a Camden (N.J.) friend. Fred Schultheis and Frank Spear have arrived home from a couple of weeks' vacation. During their absence they visited the Pan-American at Buffalo. Hereafter, beginning at 7:20 a. m., cars will leave Presque Isle for town every half hour until 12:20 p. m. Beginning at 1 p. m., they will leave every half hour until 9:30 p. m. It warmed up appreciably yesterday. In fact it was hot enough to be uncomfortable, although compared with Marquette's only "sorcerer" of the spring the temperature was cool. Professor Hogue's dancing classes at Fraternity hall were well attended yesterday. There was a goodly number of young people out at the hop last evening. It was thoroughly enjoyable. G. H. Bellinger has just finished erecting a handsome monument on the Vandenberg lot in the Holy Cross cemetery. Mr. Bellinger has been doing some calligraphic work since he located here and he deserves general home patronage. County Clerk Ross has issued marriage licenses to Frank Kellner and Mollie Holger of Marquette, Bruno Nardi and Elizabeth Andriacchi of Ishpening and Joseph Wasley of Negaunee and Mrs. Jennie Jellet of Loretta, Mich. Elias Orazz, the prisoner who escaped from the farm at the Branch state prison Monday afternoon, was retaken on the farm premises yesterday morning. It appears that he did not want to get away very badly or he would have kept clear of his place of confinement. A gentleman who has looked into the matter and who knows whereof he speaks informs The Mining Journal that the 4th and 5th of July were bigger days for the majority of Marquette saloon men than were the dates of the Upper Peninsula fishermen's tournament here a couple of years ago. A limited number of liquor men made the big haul at the time of the fishermen's meeting while, last week the business was evenly divided. The bad weather helped the saloon men during Marquette's latest celebration, as it drove people off the streets to shelter. The Mining Journal is informed that the naval pageant, while its accompanying fireworks display, which was to have been one of the features of the program for the 5th of July, will likely be held in August, on one of the dates of the Upper Peninsula Veterans' association's meeting here. A large number of roman candles, bought to be doled out to the launchmen participating in the pageant, are in storage and it could be pulled off without great expense. There is now some discussion of arranging an unusually elaborate program for one of the days of the association's meeting, the purpose being to bring in large delegations of outsiders.

U. S. COURT'S IN SESSION. There Will Probably Be Business for All of This Week.

The United States courts opened yesterday morning at the court room of the Federal building, Hon. George P. Wandy presiding and Charles J. Patter, clerk of United States district court from Grand Rapids, and Dwight Goss, assistant United States attorney, being in attendance.

The case of James Finn vs. the Sutherland-Innes company was opened, the jury having been drawn. It is now progressing. Henry J. Hopkins and Leonard P. Cray were appointed bailiffs for the courts. Erik Kristianson and Louis N. Tolbut were admitted to citizenship. The case of Thomas P. Wicks, receiver, etc., vs. the city of Ironwood was continued on application of the defendant, there being made a \$20 allowance for the attorney for the plaintiff.

The case of James P. Edwards vs. William A. Cornelius, et al, in equity, was continued for the term by consent and to stand for hearing at the September term without notice.

Hon. T. E. Tarsney and A. C. Angell of Detroit, George Douglas of Chatham, Canada, and C. E. Miller of Bessemer are attending the courts. There is yet considerable business to transact and the session will probably be on for the remainder of the week. The grand jury is now out.

A DAY OF RECOVERY. Coppers Are Slowly, But Steadily, Regaining Their Losses.

Yesterday was a day of recovery both in the New York and Boston markets. Coppers, particularly, showed good recuperative powers and they were considerably higher and steadier on the close. Paine, Webber & Co. said: "The markets have had a good recovery today and to all appearances the forced liquidation, due to calling of loans, is over. Sentiment is very much more cheerful in New York and Boston. There is not a doubt in the street or a cloud in the financial sky. The coppers have been in good demand all day and traders are all complaining that they could not get their orders to buy on the reaction filled. There was not stock enough to go around. We expect to see a considerable advance in all of the good coppers and we believe that they should be purchased at the present level."

Hayden, Stone & Co. wire the Laidley Commission Co.: "Copper stocks were in good demand. The \$4 assessment called on Mass puts it in a position to produce copper within a short time. The completion of the South Range deal will not be announced right away, as Mr. Lawson is out of town, but we look to see it have good effect on the general market when it is announced. We would buy Osceola, Wolverine Mohawk and Mass."

A. B. Jones & Co. said of wheat: "At times today the market showed a strong undertone. There was a weak opening, with a continuation of the selling by bears, which has been so noticeable for some days. The shorts, however, covered freely on reports of an improved export demand. The trade is very light and, until it increases, we may not have any material advance, but we would advise purchasers anywhere around the present prices."

SHE DIDN'T WEAR A MASK. But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Fomites, Burns, Scalds and Piles. Cure guaranteed. 25c at the Stafford Drug Co.

Only nine days more before stock of the King Gold & Copper Mining & Milling company will advance to 15 cents per share, now 7 cents per share. Jos. A. Wirtz, Fiscal Agent, Marquette, Mich. (7-9-1)

Puts light in the eye, tints the cheeks with nature's vermilion, loosens the tension of life, brushes cobwebs from your brain. That's what Rocky Mountain Tea does. 25c. Stafford Drug Co.

Any advertised dealer is authorized to guarantee Banner Salve for tetter, eczema, piles, sprains, scalds, burns, ulcers and any open or Old Sore. The People's Drug Store.

MARINE MATTERS.

Passed the Canal.

Marie, 11:20 p. m.; Progress, Tasmania, 2:30; Wolvin, Russell, 3:10; Adams, Lafayette, Jenney, Peck, 5; Niagara, 6:20; Pioneer, Chattanooga, 8; Elphick, Sheldon, Rhodes, 8:40; Frontice, Middlesex, Halstead, 9; Jay, 10; Havensraig, China, Vega, 9:30; Hackett, McGregor, 10; Oregon, Foster, 10:30 a. m.; Columbia, 12:20; Eber Ward, Niko, Blaine, Peterson, 1:30; Morrill, 4:20; City of New York, Grandy, Wand, 7; Langell, Arena, Moore, Interlaken, 7:40 p. m.

CITY BRIEVITIES.

Weather forecast: Unsettled weather; probably showers; cooler; variable winds.

Yesterday's temperature: 7 a. m., 65 degrees; noon, 72 degrees; 7 p. m., 61 degrees; maximum, 78 degrees; minimum, 60 degrees.

J. H. Molloy of Ishpening was a Marquette visitor yesterday.

Judge Milroy of Michigan was a Marquette visitor yesterday.

George Barnes and T. J. Flynn were down from Negaunee yesterday.

J. R. McDonald of South Lake Linden was a Marquette visitor yesterday.

N. J. Dolph of Kenton was here yesterday on his way home from a visit in the east.

Mayor Mangum went down to Chicago last evening. He will be absent for a couple of days.

There will be a meeting of the Ladies' auxiliary to the B. of L. E. this afternoon at 2:30 o'clock.

P. E. Kirkwood of Negaunee was in Marquette yesterday. He was drawn for the jury in the United States court.

The tug Schenck took a large party up to the Huron Mountain club yesterday morning, returning last evening.

There will be a regular meeting of the Ladies' auxiliary to the A. O. H. this evening, at the usual hour and place.

Many upper peninsula people were here yesterday, attracted to a great extent by the sessions of the United States court.

Queen City tent, K. O. T. M., will meet at its hall this evening at 8 o'clock sharp. There will be degree work and social business.

The South Shore road laid new plank over its main street cut, where it crosses Front street, yesterday. The work will be finished today.

The sidewalk in front of the Fraternity block, which has been in badly dilapidated condition, is about to be replaced with new planking.

Miss Inez Mathews has arrived home from a couple of months' visit in the east. She is accompanied by Miss Reeve, a Camden (N.J.) friend.

Fred Schultheis and Frank Spear have arrived home from a couple of weeks' vacation. During their absence they visited the Pan-American at Buffalo.

Hereafter, beginning at 7:20 a. m., cars will leave Presque Isle for town every half hour until 12:20 p. m. Beginning at 1 p. m., they will leave every half hour until 9:30 p. m.

It warmed up appreciably yesterday. In fact it was hot enough to be uncomfortable, although compared with Marquette's only "sorcerer" of the spring the temperature was cool.

Professor Hogue's dancing classes at Fraternity hall were well attended yesterday. There was a goodly number of young people out at the hop last evening. It was thoroughly enjoyable.

G. H. Bellinger has just finished erecting a handsome monument on the Vandenberg lot in the Holy Cross cemetery. Mr. Bellinger has been doing some calligraphic work since he located here and he deserves general home patronage.

County Clerk Ross has issued marriage licenses to Frank Kellner and Mollie Holger of Marquette, Bruno Nardi and Elizabeth Andriacchi of Ishpening and Joseph Wasley of Negaunee and Mrs. Jennie Jellet of Loretta, Mich.

Elias Orazz, the prisoner who escaped from the farm at the Branch state prison Monday afternoon, was retaken on the farm premises yesterday morning. It appears that he did not want to get away very badly or he would have kept clear of his place of confinement.

A gentleman who has looked into the matter and who knows whereof he speaks informs The Mining Journal that the 4th and 5th of July were bigger days for the majority of Marquette saloon men than were the dates of the Upper Peninsula fishermen's tournament here a couple of years ago. A limited number of liquor men made the big haul at the time of the fishermen's meeting while, last week the business was evenly divided.
