### AIRSHIP FLIES AT PARIS.

Cigar-Shaped Balloon, Driven by Motor, Proves a Success.

Paris, July 12.—M. Santos-Dumont's cigar-shaped balloon, driven by a motor, had a trial today from St. Cloud, across Paris, around the Eiffel tower and back to St. Cloud. The papers say the trip was quite successful, that the balloon ascended and descended apparently at the will of the aeronaut.

M. Santos-Dumont says he will tomorrow make an official attempt to win the prize of a hundred thousand francs offered by Henry Deutsch for a manageable balloon, in the presence of a committee from the Aero club and over the same course as today.

The German Evangelical church caught, but the fire was extinguished. About fifty people, mostly negroes, were rendered homeless. The Richard street M. E. church, one of the finest structures of the city, had a narrow escape.

### INDICATIONS POINT TO SETTLEMENT OF STEEL STRIKE.

#### CONFERENCE HEARS ARGUMENTS.

#### ADJOURNS UNTIL TODAY WITHOUT TAKING ANY ACTION.

Is Generally Believed, However, That a Compromise Will Be Reached, Both Sides Seemingly Willing to Meet Half Way.

### NEAR LABOR TRUCE

Although the meetings were held behind closed doors and the proceedings conducted with great secrecy, it is learned that the entire day was given over to a discussion, each side putting its best foot forward to gain a point. Nothing, however, was accomplished. When the conference adjourned all of the conferees were appealed to for information as to the status of affairs, but nothing definite could be learned.

### AGREEMENT OR GENERAL TIE-UP.

Late tonight, however, President Shaffer, of the Amalgamated association, consented to be quoted in the following statement: "Nothing was actually accomplished today. No proposition was submitted by either side. The conference, no time limit has been set on the conference, but it must come to an end. Tomorrow must settle it one way or the other. If no agreement is reached, the general strike, which was set for last Monday, will proceed. I am still hoping for a settlement."

When asked if in the event of a strike it would involve all the plants of the United States Steel corporation, Mr. Shaffer replied that every union man in every plant in any way connected with the steel corporation would be called out. About eighty thousand men would be affected.

### BIG INDEPENDENT MILL RESUMES.

The big independent steel plant of Zug & Co., one of the largest mills outside the United States Steel corporation, resumed operations today after a suspension of nearly two weeks for repairs. It will pay the same wages as the scale provides. All the other independent mills that have signed the customary suspension on July 12, whether the strike in the mills is settled or not.

### MACHINISTS WEAKEN.

Strike Partially Declared Off at Cincinnati—Ends at Baltimore.

Cincinnati, July 12.—A meeting of the shop committeemen of the striking machinists from the various concerns affected was held in the workmen's hall tonight. At the conclusion of the meeting a statement was given out emphatically denying the report, circulated earlier, that the strike has been called off. It was learned that while it was left discretionary with the men in a number of shops to return without any odium being involved as deserting the strike, several firms were picked out at which the light is to be prosecuted. Should any of these shops attempt to transfer their work to those in which the men have returned, the men have agreed to refuse to handle it. The discretion in allowing the men to return involves no time in which they are to go back. It simply allows them to do so with the sanction of their union. Those shops affected by the decision of the union to continue the fight employ about eleven hundred men.

### BALTIMORE STRIKERS GIVE UP.

Baltimore, July 12.—About two hundred machinists decided today to give up the fight for a nine-hour working day and apply for reinstatement in the shops of the Maryland Steel company Monday at the old terms. This brings the machinists' strike to an end in this city.

### WASHINGTON, JULY 12.—AT THE HEADQUARTERS OF THE INTERNATIONAL ASSOCIATION OF MACHINISTS here, President O'Connell admitted the Cincinnati decision would likely have considerable effect on the general strike, but reiterated there was no intention to call off the general strike.

SING OUT ON BAIL

THREE OTHER CHINAMEN STILL HELD AT COUNTY JAIL.

SAM MOY OF CHICAGO EXPECTED.

SAM LEE IS RESPONSIBLE FOR COUNTRYMAN'S RELEASE.

It Is Said Remaining Trio Will Be Given Liberty Today—Held for September Term—Other United States Court Doings.

Yesterday was an anxious day for Marquette Chinamen, to say nothing of the quartet of their countrymen who languished in the county jail, where they were held on the charge of illegal residence in the United States. Night fall found one of the Celestials out on bail, but the other three are still in lock, pending developments. The probabilities are that they will also be turned loose when proper security is given for their appearance in the United States court at the September term.

Sam Moy Coming. He will be assisted in his efforts in their behalf by Sam Moy, who is expected here today. Moy lives in Chicago and his is a name which all the Chinamen of the middle west revere. He is Celestial eyes at least, is the personification of wisdom, acuteness and efficient action. He was due here yesterday evening, but last night Sam Lee announced that he would be along today, having missed his train at Gladstone.

May will investigate the cases of the three prisoners and it is expected here that he will take steps to have them released on bail, pending the September term of the U. S. courts. Charles Sing, the Chinaman who is now out on bail, is unquestionably a bona fide citizen of the United States. Lee says he is and Lee should know. There is a good deal of question about the legality of the residence of the remainder of the quartet and it is an even shot that they will be deported. As far as can be ascertained they have no papers, although, it is said, they are recent comers to this country. Sing is also without papers, but he left the Flawery Kingdom and sought the land of promise, it is alleged, when the laws regarding the exclusion of the Chinese were not as rigid as they now are.

As jails go it is a first-class institution, but Chinamen are usually inoffensive, and well-behaved so that they have never become schooled to strict confinement, except in their own laundry rooms. The trio left at the jail have already had enough imprisonment to satisfy them and they are ardently pining for free air.

The bond in Sing's case is \$500. It is signed by E. O. Stafford and Sam Lee is his surety. Sam expresses no fear of losing his money, asserting positively that Sing will be on hand for his trial on the appointed day.

Other Court Doings. The case of James Finn vs. the Sutherland-Innes company was concluded, yesterday after a hearing extending over the better part of three days. The jury brought in a verdict for \$3,665.11 in favor of the defendant, this sum representing all the money now owed by the plaintiff to the Sutherland-Innes company.

This verdict in favor of the Sutherland-Innes people does not represent a decision against Finn, as part of his claim was allowed. There were counter claims and the jury's verdict shows what it considers their just settlement. There is said to be talk of a new trial, Finn not being pleased with the outcome of this week's hearing. Both the defendant and plaintiff in this case are Munising parties. Finn is a logging contractor who has done considerable work for the Sutherland-Innes people and it was as a result of their business relations that the present litigation was instituted.

The court is now concerned with a hearing of the case of the Oshkosh Log and Lumber company vs. the township of McMillan, Ontonagon county. It will be on part of today.

Among the true bills of indictment found by the grand jury this week is one against William Rice of Marquette, charged with using the United States mails for the transmission of an obscene letter. Yesterday the defendant was arraigned. He pleaded not guilty. The case will be tried in the present term, probably coming up today. Rice claims not to have been the writer of the letter in question.

In the case of Peter Johnson vs. Henry F. Balch and M. J. Peppard the plaintiff submitted a voluntary non suit.

In the cases of the United States vs. L. J. Leveque and John Van, trespass on order of nolle proes was entered.

In the case of the United States vs. J. Wallace Wychoff, violation of the rules governing the Portage Lake ship canal, a similar order was entered. This was also true of the case of the United States vs. John Hogstrom and Otto Schlyker, violation of the United States postal laws.

The last three cases have all been dragging along for some time.

PUGILISTS TO MEET HERE.

Jack Hammond and Ed Croak to Mix Things July 24.

Jack Hammond, the middleweight prize fighter of this city, and Ed Croak, heavyweight champion of Iowa, have signed articles for a ten-round go for a purse of \$200 to be fought at Marquette, Wednesday evening, July 24, says the Soo News-Record. Hammond will go into training at once and says he will be in the best of condition before the fight. The contest is being arranged by M. W. Shea of Marquette.

Hammond stated the other day that he was still anxious to arrange a fight with Frank Keller and as the authorities of this county refuse to allow the fight to be pulled off here, after his fight with Croak, he would endeavor to arrange for the contest at Marquette or some copper country city, providing Keller would agree to this.

THREE ALDERMEN OFF.

They Leave Tomorrow Morning to Look Into Paving Matters.

Aldermen Shea, Donovan and Jones leave on the early train tomorrow morning on a week's junket to look into paving matters with a view of reporting to the common council relative the material with which it is advisable to pave parts of Front and Washington streets, the cost of the same, the relative cost of the several materials in general use, their durability and life and other points in this connection. During their absence they will visit a number of lower Michigan cities and it is likely that they will also get beyond the borders of the state. They will consult with city officials on this paving matter and they will come home regular bureaus of information on the question. The present administration has the paving of Front and Washington streets as one of its dearest projects and it may ultimately be brought about. There is said to be, however, little likelihood that anything will be done in the direction of this improvement this year.
