a (5-27-3m) Marquette County 'Phote

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circula-tion, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the

blood becomes poisoned from any cause, it quickly Internal and manifests itself upon the skin in the form

manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood the application

skin diseases originate in the blood, the application **Pure Blood**— of powders, soaps and washes can do no permanent **Soft, Healthy Skin** of the skin. The treatment must begin with the blood, and the acid or other pois-and interfering with the natural action ons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health

and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.
