POINT FOR STRIKERS

ATTEMPT TO REOPEN WELLSVILLE STEEL MILL A FAILURE.

FINANCIAL AID FOR THE UNION.

AMERICAN FEDERATION OF LABOR PLEDGES ITS SUPPORT.

Rumor That a Settlement Is at Hand Is Denied by the Amalgamated President—Says Trust Has Made No Overtures.

Pittsburg, July 17.—"We have not heard from the other side at any time or in any way or on any subject since we parted at the Lincoln Hotel last Saturday."

This was the positive statement made by President Shaffer of the Amalgamated association, this afternoon, and it disposed of a rumor from New York that the strike had been settled. Mr. Shaffer stated further that no actual negotiations were on between President Bishop of the Ohio state arbitration bureau, and himself tending toward arbitration.

Third Day's Strike History.

The principal events in today's strike history were the failure of the sheet steel people to reopen the Wellsville plant with non-union men; an offer of financial assistance made to the Amalgamated association by the two million members of the American Federation of Labor and by the American Window Glass Workers' union; the concerted action of the sheet steel plant at Vandergrift, Pa., and the fact that several of the closed plants are being patrolled by armed watchmen and guards.

The Amalgamated officials tonight profess great satisfaction over the results accomplished since the strike began, but the officials of the companies, as heretofore, do not say anything.

National Organizer Flynn, of the American Federation of Labor, arrived from Washington this morning and after a consultation with the officials of the Amalgamated association, pledged the support of the Federation in the strike.

Only Thirty Men Reported.

The threat of District Manager Persifer F. Smith, of the American Sheet Steel company, to start the Wellsville Rolling mill and operate it as it has been in the past by non-union men drew the eyes of all interested to that plant. A message was received at 10:30 o'clock stating that an attempt was made to resume operations at Wellsville, but only thirty men reported ready to go to work and the plant was again compelled to shut down.

While Wellsville is the strike centre now, the battleground will be shifted to McKeesport next week if the report be true that the Devon's Wood plant of the American Sheet Steel company will attempt to resume operations. This would necessitate the importation of men from other places, and the bitter feeling engendered by such a move would be hard to control.

Two Independents Sign Scale.

Two independent concerns—the Licking Rolling Mill company of Covington, Ky., and the American Car & Foundry company of Detroit—sent signed scales to the Amalgamated headquarters this morning.

Elwood, Ind., July 17.—President Powell, of the Tin Plate Workers' Protective association, today announced that the association will stand by the Amalgamated association and refuse to work plates in any steel trust mill made or sheared by non-union men.

Warren, O., July 17.—The strike at the National Steel company's furnace at Niles was settled today. Three hundred and fifty men reported for work.

TIE-UP IN THE COAL FIELDS.

Sixty-Five Thousand Men Idle Because of the Firemen's Strike.

Wilkesbarre, Pa., July 17.—The close of the second day of the stationary firemen's strike finds fully thirty-five thousand miners idle in the Wyoming district of the anthracite coal region, which extends from Duryea to Nanticoke. The number of idle men was increased today by the suspension of the railroad crews on nearly all the local branches. The total number of men idle now in the whole anthracite region is estimated at sixty-five thousand.

Seranton, Pa., July 17.—There was again almost a complete cessation of mining operations today in the Lackawanna valley on account of the strike of the stationary firemen. Less than half a dozen mines managed by individual owners and a group of Delaware, Lackawanna & Western railroad mines in the West Seranton district were the only ones in satisfactory shape for running when the whistles blew this morning. The small owners have provisionally granted the eight-hour demand of the men.

Position of the Company.
New York, July 17.—President William H. Truesdale, of the Delaware, Lackawanna & Western railroad, made the following statement today with reference to the situation in the mines under the control of his road: "Up to the present the strikers have succeeded in closing only six mines. We are not worried about that, for we can fill the places of those struck at any time. However, as the strike is not causing us any inconvenience, we will take no steps at present."

Birmingham, Ala., July 17.—Six hun-

dred Galloway and Chickasaw coal miners went out on a strike today in the Carson Hill coal fields. The men belong to the United Mine Workers and insist that the company renew last year's scale of wages.

MORE CHICAGO MOLDERS QUIT.

Workers Receiving Higher Wages Than Asked Go Out in Sympathy.

Chicago, July 17.—Sixty molders employed in shops where \$3.75 per day is paid, or 75 cents more than is demanded by the 300 striking molders, today walked out in sympathy with their co-laborers.

Police Taboo Picketing.

Acting under the power given them by recent decisions regarding "picketing," the South Chicago police are now prohibiting the congregation of striking molders near the gates of the Illinois Steel company. In compliance with a request made by General Superintendent McCullough, seven patrolmen are now stationed at the gates of the immense works.

SWITCHMEN WANT MORE PAY.

General Demand for an Increase in Wages Contemplated.

Chicago, Thursday, July 18.—The Chronicle this morning says that the railroad switchmen throughout the country are said to be planning a general demand for an increase in wages. It is said the switchmen will not attempt striking methods, but will carry on an argumentative campaign.

MAIL ABUSES RAZED

POSTMASTER GENERAL SMITH ISSUES IMPORTANT ORDERS.

WILL EFFECT RADICAL REFORMS.

SWEEPING CHANGES MADE IN THE SECOND-CLASS SERVICE.

Authorities State the New Regulations Will Save the Government Millions and May Bring One-Cent Letter Postage.

Washington, July 17.—Postmaster General Smith today signed orders amending in important particulars three postal regulations affecting second-class matter. The changes effect sweeping reforms in department practices and the methods of treating this class of matter.

The first order amends Section 276 so as to exclude from the second-class all publications which have characteristics of books. The second order amends Section 281 in several particulars, the principal one being that publications, subscriptions to which are not founded on their value as news or literary journals but which by the general use of premiums or other considerations in the form of changes of price, etc., induce subscriptions and in effect circulate at apparently the nominal rate, be excluded from the second class. The third order amends Section 301 so that unsold copies of second-class publications may not be returned at pound rates to news agents or publishers.

An explanatory statement given out at the department regarding the order says: "The action of Postmaster General Smith is regarded as highly important. It is evidence of the purpose of the department to administer the law as it is strongly and properly that abuses wherever found will be eradicated. The loose and indifferent interpretation heretofore has been responsible for the loss of many millions to the government. It is believed that when the effect of these changes is thoroughly established, many postal improvements will follow and one-cent letter postage will be made possible."

OLIVE SCHREINER AT LIBERTY.

Her Alleged Imprisonment a Case of Much Ado About Nothing.

London, July 17.—Theophilus Schreiner, brother of Olive Schreiner, has sent a letter to the South African association contradicting the statements made by "Quint" (Miss Louise De La Ramee) to the effect that Olive Schreiner is held prisoner by the British in South Africa, published in the London Daily News on the 10th. Theophilus Schreiner says his sister, Olive Schreiner, is living at Hanover, Cape Colony, for her health and her husband, Mr. Cronwright, is with her. The town of Hanover is under martial law, says Theophilus Schreiner, but Olive Schreiner is allowed the freedom of the military cordon.

Casualty List Reveals a Battle.

London, July 17.—A South African casualty list issued tonight indicates that severe fighting occurred the 14th near Zumbakke, twenty-four miles from Alwal North, Cape Colony. The British lost seven killed and two officers and seventeen men wounded.

RELIGIOUS RIOTS IN SPAIN.

Carlist General Killed and Many Persons Wounded at Saragossa.

Saragossa, July 17.—General Cervero, a Carlist, was killed and nearly fifty other persons wounded in encounters today between Catholics and free thinkers. The fighting began outside the church of St. Philip, where a jubilee celebration was being held. Shots were fired by the anti-Catholics. Subsequently the Catholics marched through the streets, armed with revolvers and knives, further violence resulting.

MUCH LAWLESSNESS IN PEKIN.

Thugs Spreading Terror Since the Allies Quit Policing the City.

Pekin, July 17.—Disorder and lawlessness have greatly increased in Pekin since the policing of the city has been restored to Chinese authority. There are nightly burglaries by large bands of depredators, while Chinamen in the employ of Europeans are frequently beaten and robbed.

The German military authorities here have arranged for the withdrawal of all the German troops in Pekin, except the permanent establishment, early in August.

GOV. BLISS AT 'FRISCO.

30,000 Epworth Leaguers Also There to Attend the Convention.

San Francisco, July 17.—The last Epworth league train arrived tonight, and when the fifth international convention opens tomorrow, thirty thousand delegates will be present. Governor Bliss of Michigan arrived today. Tonight welcome services were held.

CHICAGO STEAMER HOME.

Northwestern Arrives on Its Return from European Ports.

Chicago, July 17.—The steamship Northwestern, the first of the regular line to make the trip from Chicago to Europe, entered the harbor here today amid a deafening salute of whistles from other craft. The round trip took eighty-four days.

RAID ON VESSELMEN

CRUSADE IS INAUGURATED BY THE FEDERAL OFFICIALS.

WHOLESALE SMUGGLING CHARGED.

GOODS FROM CANADA ILLEGALLY CROSSING THE LAKES.

Said Government Has Been Defrauded of Large Revenues and a Second Member of the Bon Ami's Crew Is Arrested.

Milwaukee, July 17.—The United States government, through the treasury department, is preparing for an extensive raid upon sailors and lake captains who are suspected of complicity in smuggling goods into this country from Canadian ports.

The first warrant—sworn to before United States Commissioner Bloodgood in the office of United States District Attorney Butterfield in this city today by Special Agent Charles S. Crain—calls for the arrest of James H. Walker, who was cook on the steamer Bon Ami, of the White Line of Duluth, for smuggling whisky from Port Arthur into Duluth. A sailor on the Bon Ami is said to have turned state's evidence. Walker is now being held at Marinette on a trivial charge pending the appearance of the United States marshal.

Agent Crain said the amount of tariff of which the government has been defrauded is in the aggregate considerable. It is charged that there are many vessels being brought into the lake cities from Canada in large quantities. The government has agents in Canadian ports securing evidence against the vesselmen who are under suspicion.

R. Williams, clerk of the Bon Ami, was recently arrested at Duluth on the charge of smuggling liquor, and on Tuesday was bound over for trial in the federal court.

YACHT SINKS A STEAMER.

Vessel Lost, but No Lives, in a Collision in Long Island Sound.

New London, Conn., July 17.—Captain G. R. Strapan, of the yacht Wild Duck, which collided with and sunk the Joy liner Tremont in Long Island sound last night, filed a protest at the local court house today.

In a sworn statement, Captain Strapan says that at the time of the collision there was a thick fog. His vessel was going at half-speed and blowing her whistle at minute intervals. When the look-out reported a white light a quarter point off the starboard bow, Captain Strapan signalled to the engine room, "Back full speed astern." Before the headway of the yacht could be checked, however, she crashed into the approaching vessel, which it was afterwards learned was the steamer Tremont. The Wild Duck carried away her head gear and smashed some of her plates.

The passengers and crew of the Tremont were all safely transferred to another steamer.

ENGLAND'S CROPS BURNING UP.

London as Well as the Country a Great Sufferer from Heat.

London, July 17.—Although Scotland and Ireland recently have enjoyed local thunder storms, there is no prospect of rain in the middle and southern parts of England, and a steady increase in the heat for several days is probable. The sun is burning up the crops in the country.

London is a great sufferer from the heat. Sunstrokes, apoplexy and heat prostrations are frequent, and the hospitals are busy.

The livestock market is unusually crowded, as owing to the failure of the pastures farmers are forced to sell their cattle.

CANAL PACT LIKELY

LORD PAUNCEPOTE INTIMATES BRITAIN WILL RECEDE.

PREDICTS AN EARLY SETTLEMENT.

HOPES TO BRING OVER A TREATY THAT WILL SUI.

With Nicaraguan Problem Out of the Way, Reciprocity With the British West Indies and Canada Will Be Undertaken.

London, July 17.—Lord Pauncepote, British ambassador to the United States, made the following statement tonight to the Associated Press:

"I am having conferences with the Marquis of Lansdowne not only about the Nicaraguan matter, but also with regard to half a dozen treaties pending between Great Britain and the United States. These are chiefly concerned with the West India reciprocity arrangement."

When asked if he thought there was any possibility of arriving at an agreement regarding the Nicaraguan canal before the American congress reconvened, he replied: "Yes, I sincerely hope so. When I return to the United States in October, I hope to take with me a Nicaraguan treaty that will meet the views of both countries."

Trade Scheme With Canada.

Continuing, Lord Pauncepote said: "I see the Boston chamber of commerce has petitioned for reciprocity with Canada. This I regard as a most hopeful sign. It will be one of my aims when I return to the United States to foster this decision for a closer commercial relationship between the Dominion and the United States."

"In spite of the trade difficulties of both Canada and Newfoundland in dealing with the United States, I by no means despair of some sort of a scheme, when the Nicaraguan matter has been justly and amicably settled and the West Indian treaties have been arranged, between Great Britain and the United States that will even better the common understanding that exists today."

TRAINS MEET ON A CURVE.

Head-End Collision in Missouri Costs Two Lives.

Kansas City, July 17.—A head-end collision between a northbound St. Joseph & Grand Island passenger train and a Santa Fe local freight two miles east of Gower, Mo., today, killed two persons and injured fourteen others and demolished the Santa Fe engine and several freight cars.

The dead: Santa Fe Engineer Baker; Express Messenger Floyd, St. Joseph & Grand Island.

The injured are at Gower, where physicians are attending to them. None were reported seriously hurt. The collision occurred on a sharp curve. The passenger train was flagged and stopped by a man who saw a collision was imminent, but the freight trainmen did not see the flagman.

COSTLY GRAND RAPIDS FIRE.

Four-Story Building Collapsed Early This Morning.

Grand Rapids, Mich., Thursday, July 18.—At 2 o'clock this morning the four-story brick block occupied by N. & M. Friedman, dry goods, and C. Bleckry, crockery, collapsed. The firms employed night watchmen, but it is not known whether they are under the debris. The loss is \$150,000. The cause of the fire is unknown.

Lorain, O., July 17.—The steamer Vulcan was partly destroyed by fire today. The loss will be heavy. The Vulcan is a steel steamer, the property of the Lorain Steamship company.

LIGHTNING KILLS THREE.

Illinois Men Who Sought Shelter in a Barn the Victims.

Arthur, Ills., July 17.—Robert Cook, Charles Swisher and Charles Scott were killed by lightning today while seeking shelter in a barn from a severe storm. Three others in the barn were knocked senseless.

Tallahassee, Fla., July 17.—During a heavy electrical storm last night, several homes in the country near here were struck by lightning. Four persons were killed and one injured.

TOLSTOY'S RELATIVES CALLED.

Famous Russian Socialist Said to Be on His Deathbed.

St. Petersburg, July 17.—A dispatch from Moscow states that Count Tolstoy is seriously ill with gastric trouble. Friends and relatives have been summoned to his bedside. The count has never completely recovered from the attack of gastric fever experienced last winter.

IN RUSSIAN COPPER MINES.

Senator Clark Reported to Have Invested 10,000,000 Roubles.

St. Petersburg, July 17.—It is rumored at Moscow that W. A. Clark of Montana, during his recent trip to Europe, came to St. Petersburg and Moscow incognito, with a certain unnamed count, and invested ten million roubles in the Ural copper mines.

After Dinner

To assist digestion, relieve distress after eating or drinking too heartily, to prevent constipation, take Hood's Pills

Sour Stomach

"After I was induced to try CASCARET, I will never be without it in the house. My liver was in a very bad shape, and my head ached and I had stomach trouble. Now, since taking Cascarets, I feel fine. My wife has also used them with beneficial results for sour stomach."

UNCLE SAM'S MONOGRAM WHISKEY. Pure, Palatable, Old. For Medicinal and General Use.

Failure

in life more often due to exhausted nerve force than to lack of capital. Strong nerves are the capital that helps men conquer conditions.

Sexine Pills feed the nerves, making them steady and strong as steel. We do not believe they can fail to cure Nervous Debility and physical exhaustion.

PILES

Dr. Williams' Indian Pile Remedy will cure Blind, Bleeding, and Itching Piles, absorb the tumors and lay the foundation for a permanent cure.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.50 Per year, by mail, \$16.00

MARQUETTE, MICH., JULY 18. Entered as mail matter of the second class in the postoffice at Marquette, Mich.

A negro was lynched in Louisiana Monday night for stealing a bottle of pop. It is any wonder that the Cubans, Porto Ricans and Filipinos are inclined to be dubious about the kind of justice they will enjoy when the machinery of our Anglized civilization is got in perfect working order for their benefit?

Reports of a crop failure in Russia should be taken with a large allowance at this time. Russia is an immense country and every year there is some part of it in which the crops fall below the normal yield or are an entire failure, but the general average is usually maintained, as with us. That there will be something of a wheat shortage abroad is conceded, and our farmers can count on a good price for their surplus, but we don't look for "dollar wheat" this year, in spite of the sanguine predictions of some of the bulls on that grain.

Hon. Wm. J. Bryan most decidedly objects to being shelved as a "hasbeen" to please the wing of the party that refused to accept and support either its candidates or platform in the last two presidential campaigns. He has his platform of principles and a following yet, and with these he stands as good a chance of coming out on top in the next national convention of his party as does the element that has heretofore antagonized him, and thus far unsuccessfully.

If there is a man in this country better posted on the crop situation than Jim Hill of the Great Northern, The Mining Journal is at a loss to name him. And this is what Mr. Hill said concerning it before leaving St. Paul for New York Tuesday:

Unquestionably some damage has been done to the corn crop by reason of the drought, but, like everything else, this damage, so far as I can see, lies in that portion of the country west of a line drawn from St. Louis to Omaha, and much of it can be repaired by good rains. It should be remembered, too, that as an offset there has been a wonderful wheat harvest, particularly in Kansas. The matter hardly resolves itself into a railroad one, for the reason that the railroads have, and the indications are will have, plenty to do even should it develop that the corn crop is short. However as I have said, there is ample time yet for much of the damage to be overcome.

Speaking of the work of the Jesuit Fathers among the Indians of this country in the early days of its settlement, Rev. Edward H. Pence, pastor of the First Presbyterian church of Detroit, paid this tribute to their heroism and zeal for religion in the course of a sermon delivered in his church Sunday evening:

Although Cadillac had no religious end in view, although his aim was somewhat sordid when he landed here with great pomp and display, yet God knew that it would make for good. The opening up of the continent meant the spreading of the gospel.

Lower Michigan.

The board of trade at Hart has landed the potato starch factory for which negotiations have been pending for some time. The factory will use from 2,000 to 4,000 bushels of potatoes daily, thus affording a good market for the growers of the country.

It is stated on good authority that the Michigan Central Railroad will soon begin work on the construction of a new line between Niles and Buchanan, to be used exclusively for freight. The object is to avoid the heavy grade on the present line between these points.

The report that Justus S. Stearns is confirmed to locate in Grand Rapids is confirmed by the organization of the Justus S. Stearns company, of Grand Rapids, to manufacture and buy lumber, minerals and other products of like character. The company starts with a capital of \$25,000, all paid in.

A deserter from the U. S. army named Henry W. Sova was arrested at Saginaw Sunday. He enlisted in March last and was sent to Fort Riley, Kansas, where he deserted in May. He had been in concealment at Milwaukee, but risked a trip to Saginaw, where the police caught track of him and took him in charge. Sova is 29 years of age.

Manchester is preparing for a big day on Thursday, the 25th inst., it being the second annual Macabee day for Washenaw county. Races, games, speaking, music and everything to entertain and amuse the big crowd expected are being provided for. Liberal prizes will be given for contests and drills and special trains will accommodate the crowds.

George Edgar, a 16-year-old lad, was arrested at Pontiac Monday afternoon on the charge of burglarizing the hotel Hodges. He was arraigned before Justice Linabury and will be examined this week. The lad denies his guilt. He was formerly employed as bell boy at the hotel. Sunday morning Clerk Lindabury stepped into the dining-room and during his absence some one stepped behind the desk and removed \$30 from the cash drawer.

Roy Carr, the young man who successfully defrauded Niles people three weeks ago by representing himself as a Chicago newspaper man, offering big inducements to those paying subscriptions in advance, whereby he acquired \$200, has been captured between Lapaz and North Liberty, Ind. The prisoner was taken to South Bend, Ind., and sent to Chicago. The Chicago Record-Herald company intends that Carr shall be punished to the full extent of the law.

Among the excursionist couples who were married at St. Joseph Sunday last was a millionaire from Pasadena, Cal., named Jas. A. King and aged 72 years, the bride being a Miss Maude A. Robinson of Morrison, Ill., who admits that she has seen twenty-six summers. The groom is a physician in common with the bride, and had been a widower twelve years when Maude consented to shed the sunshine of her smiles on his pathway down the shady side of the hellway of life.

The number of persons in Michigan who died in the month of June, according to the returns made to the secretary of state, was 2,458, corresponding to a death rate of 12.5 per thousand population. This number is 327 less than the number returned for the preceding month and 165 more than the number of deaths in June, 1890. There were 420 deaths of infants under 1 year of age, 143 deaths of children aged 1 to 4 years inclusive, and 642 deaths of persons aged 65 years and over.

A number of Ludington people have formed an association for the employment of a physician in common. This is to meet an alleged "trust" formed by the doctors there for the purpose of exacting high prices for their services. There are two hundred families in the deal and they have engaged a Dr. Hart to look after their physical welfare, paying him for the service a salary of \$1,800 annually. He is to be paid in cash, but if he is called needlessly the person offending in that way is fined. Among the members of the association is Hon. Justus S. Stearns, ex-secretary of state.

Peter Leclair is in custody at Muskegon charged with the double offense of theft and bigamy. He was brought back to that city by the sheriff of the county, who took him at Newport, Tenn., on extradition papers issued by Governor Bliss to answer to the first charge. It now transpires that he has been three times married and that all three of the women he has married are living, the last of the trio being a beautiful woman of some fortune whom he had married at the southern town where he was arrested a few hours before the sheriff reached the papers for him. His first wife lives at Traverse City and is the mother of a child by him, while the second resides at Muskegon. The latter will have him arrested for bigamy and it bids fair to go hard with the festive Peter.

OUR INVASION OF ENGLAND.

As an exchange observes, the invasion of England by the industrial forces of the United States that has been going on for some time is not fully realized even by Americans themselves, and it is only when one of our great capitalists like Morgan goes over there and proposes to buy a good slice of the "tight little island" that the great increase of trade which has come to this country, and the enormous enhancement of our buying power accompanying it, is at all noticed. Alluding to one of the recent large investments of American money in a London enterprise, the Mail of that city remarks that "such a big coup is merely a sensational incident in a vast campaign. The real invasion goes on unceasingly and without noise and show in five hundred industries at once. From shaving soap to electric motors and from shirt waists to telephones the American is carrying the flag."

The Americans are today selling their cottons in Manchester, pig iron in Lancashire, tin plate in Cardiff, and steel in Sheffield. To quote the London Mail again, "modern office furniture from the desk to the door mat is nearly all American in every up-to-date establishment. One sits in a Nebraska swivel-chair before a Michigan roll top desk writing one's letters on a Syracuse typewriter, signing them with a New York fountain pen, and drying them with a blotting sheet from New England. The letter copies are put away in files manufactured in Grand Rapids."

The value of the typewriters sent to England from New York and Boston is considerably over \$4,000 a week and yet that effort has been made by English firms to acquire the typewriter trade of their own country, but in vain. The only serious competitor to the American machines is a Canadian typewriter. Three years ago some one sent to England some cheap American blouses and last year the greater part of the English ready-made, shirt waist trade came to this country. One English firm alone sold American blouses for women to the value of \$37,000.

Our American firms have also found a profitable trade in mens hosiery and in high class underclothes they seem to be having things much their own way. English boot manufacturers are also feeling the American competition, although a few years ago they sent over to this country and secured American machinery which was admitted to be superior to any formerly used in England. The effort to check the trade from this country, however, has so far proven vain. Is it a wonder, in view of these things, that English manufacturers are beginning to be frightened at the industrial invasion of their country by the Americans?

IT DAZZLES THE WORLD. No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. It's several tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by the Stafford Drug Co., who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

CATARRH OF THE HEAL. All druggists are authorized by the manufacturers of Bensen's Cream Catarrh to refund the money where it fails to cure any case of Catarrh no matter of how long standing. One application gives ease and rest. This is a new discovery and the only Catarrh remedy sold on a positive guarantee. No Cure, No Pay. Price, 50 cents. For sale by the Stafford Drug Co.

This remarkable story comes from Galesburg, Ill. Its religious character being sufficient guaranty of its absolute truth: "Forty-one years, since while attending Sunday school in Hartford, Ct., a little sister of John Stevens, who accompanied him, crowded her collection money, an old-style three cent silver piece, into his left ear. All exits failed to effect a removal. It has remained in its lodging place until this noon, when Mr. Stevens, who now resides here, incidentally dropped into one of the village Sun-

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heart-Burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

MOTHER GRAY'S SWEET POWDERS For Children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists, 25c. Sample sent FREE. Address Allen S. Olmsted, Le Roy, N. Y.

NOTICE TO TAXPAYERS! Office of the city treasurer, Marquette, Mich., July 15, 1901. Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the City Hall and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1901.

No addition will be made to the taxes paid before the first day of August next; but an addition of one per centum of any unpaid tax will be made on that day, and a like addition of one per centum every month thereafter, until the first day of November, A. D. 1901. (7-16-6d) City Treasurer.

REDUCED RATE OF FARE. International Convention Baptist Young People's Union, Chicago, Ill., July 25-28, 1901.

For the above occasion, the D. S. S. & A. Railway will sell tickets to Chicago, Ill., and return at rate of single fare plus \$2 for the round trip, children five years of age and under twelve half fare. Tickets will be on sale July 23, 24 and 25, and will be good for return passage until July 30, except that by deposit of tickets with joint agent at Chicago on or before July 30 and upon payment of a fee of 50c, return limit will be extended to leave Chicago up to and including Aug. 31. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (7-16-25)

MASS OFFICIALS TO COME.

Party from the East Will Attend the Opening of the Mill.

Superintendent Krause, of the Mass mill, has stated that the mill will be started up some time between the 25th and 27th of the present month, the exact time not yet being known.

TO SAVE THE COPPER.

Osceloa Sands Now to Be Reworked by the Mays Process.

The old Osceloa dump, where the sands of the Osceloa mill were at one time turned into Portage lake at a point about half a mile west of Hancock, will be dredged out.

METAL MARKET VERY FIRM.

Consumption Continues Enormous and Higher Prices Are Looked For.

The weakness which developed at the foreign seat of operations recently did not extend to the home copper market, and with the exception of a parcel here and there at a fractional shading of the market the metal was practically unaffected by the course of events at London.

IS USELESS FOR MINERS.

Captain Whittle, of the Quincy, has decided that the acetylene miner's lamp of an Eastern manufacturer is practically worthless for miners.

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the De Postoffice building, Houghton.

W. S. PRICKETT WAS A SIDNAW VISITOR TO HOUGHTON YESTERDAY.

There was no one to complain of copper country weather yesterday. It was delightfully cool.

G. B. WATTS, THE PIANO TUNER, WILL BE IN HOUGHTON THIS WEEK, WITH HEADQUARTERS AT QUIRK'S JEWELRY STORE.

John Gaffney of Houghton was released from the pest house yesterday after undergoing a siege of thirty-one days with small-pox.

THE HANCOCK METHODIST EXCURSION TO THE CANAL YESTERDAY WAS VERY LARGELY ATTENDED AND IT WAS ONE OF THE MOST SUCCESSFUL OF THE SEASON TO DATE.

Dr. L. M. Hubbard, superintendent of the Champion mine, returned yesterday from Boston, where he attended the South Range Consolidation interests.

TOMORROW NIGHT THE LAST DRIFT OF THE ELKS PREVIOUS TO THE MILWAUKEE TRIP WILL TAKE PLACE AT CALUMET. HANCOCK AND HOUGHTON ELKS WILL BE IN ATTENDANCE.

Calumet veterans of the late war who participated in the campaign at Santiago are talking of organizing a local branch of the Society of Santiago. Sixty men are eligible to membership and it is likely that a strong order would result were organization perfected.

A. P. WILSON, FORMERLY A DULUTH CONTRACTOR, BUT WHO HAS BEEN ENGAGED IN HIS BUSINESS IN THE COPPER COUNTRY FOR THE PAST TWO YEARS, HAS LEFT FOR SPOKANE, WASH., WHERE HE WILL MAKE HIS FUTURE HOME.

The funeral of the late Henry Voetsch of Houghton was held yesterday afternoon from Trinity Episcopal church, Rev. P. E. Curzon officiating. The members of Continental Fire company marched in a body with the Portage Lake band at their head. The services were largely attended.

THE SMUGGLING CHARGE AGAINST R. WILLIAMS, WHO WAS ARRESTED AND ARRANGED BEFORE UNITED STATES COMMISSIONER PRESSNELL AT DULUTH, WAS HEARD BEFORE THE SAME AUTHORITY YESTERDAY AFTERNOON AND WILLIAMS WAS HELD TO AWAIT ACTION BY THE GRAND JURY IN THE SUM OF \$500 BOUNDS.

Williams secured bondsmen in the persons of Tom Trevillion and Donald McKenzie, and was released from custody. It is said that other parties are suspected of a similar offense against the government, but the officials are conducting their investigations so quietly that nothing has yet been disclosed as to their identity.

AGUINALDO AS KING

CREATION OF A MONARCHY THE PLAN OF THE INSURGENTS.

DOCUMENTARY PROOF SECURED.

ALLEGED ORDER TO EXECUTE AMERICANS DISAVOWED.

Captive Leader Denies Its Authorship and Says Many Instructions Were Issued Without His Sanction—Captain Rowan Exonerated.

Manila, July 17.—The investigation into the case of Captain Andrew S. Rowan, Nineteenth infantry, charged with burning a town on the island of Bohol, has failed to prove that Captain Rowan ordered the town to be burned. The responsibility for the destruction of the town has not yet been fixed.

The organ of the Filipino insurgents in Madrid, the Filipinas Activa Europa, published in this city, recently printed an order from Aguinaldo, dated at Palanan, in January, which directs the execution of all American prisoners. When questioned about the order today, Aguinaldo said to the Associated Press that he had always been considerate with prisoners and denied the authorship of the order in question. He claimed that many orders had been issued in his name and without his sanction.

The American military authorities have documentary evidence, dated November, 1898, to the effect the insurgent leaders contemplated creating a Philippine monarchy.

LOCUSTS THICK IN PHILIPPINES.

Problem of Saving the Crops Confronts the U. S. Commission.

Manila, July 17.—In view of the serious destruction of crops by large swarms of locusts in the southern islands and the insects' recent appearance in Manila, which was reported yesterday, the Philippine commission has adopted prompt measures for checking the plague. The African fungus, which has been used successfully in the United States, will be introduced.

Native Chief Forbids Slavery.

Datto Mundi has issued a proclamation prohibiting slavery or slave trading in the Zamboanga district. The Philippines commission has passed a resolution of thanks to Datto Mundi for his action. The members of the commission attach high importance to Datto's action, and are convinced that he is anxious to encourage progress in his district.

APPOINTS WOMAN AS GENERAL.

Governor Candler of Georgia Honors Mrs. L. H. Bowles.

Atlanta, Ga., July 17.—By gubernatorial announcement, Mrs. Legare Hill Bowles of Washington, Ga., is now a major general in the state volunteer militia. Governor Candler elevated her to this position, just as he was leaving Washington, where the Third Georgia infantry is encamped. On his way to inspect the troops his excellency was met by Mrs. Bowles, who is sponsor for the regiment. So impressed was the governor by her greeting and subsequent hospitality that he designated Mrs. Mrs. Bowles as a major general in the state service.

MYSTERIOUS ILLINOIS MURDER.

Canton, Ill., July 17.—Geo. W. Lane, a wealthy farmer, was found by his wife dead in a wooded today. It was first thought to be a case of heart disease, but later developments show murder by strangling. The murder is enveloped in mystery.

SYRUP OF FIGS

NEVER IMITATED QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and preventing them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

TURF RECORD IS SMASHED.

Coney Races in 2:02 at Detroit, the Fastest Made in Race.

Detroit, July 17.—In the free-for-all race this afternoon at the Grosvenor track, Coney, the favorite, went the fastest mile ever traveled in a contest on the track, going the distance in 2:02, which is three-quarters of a second better than the previous record.

It was the third day's racing, and despite the intense heat 5,000 people attended. Mellett, the heavy favorite in the 2:17 trot, was taken sick in the second heat and was withdrawn after having won the first heat in impressive style.

Dan Patch, almost a prohibitive favorite in the 2:14 pace, won in straight heat. The 2:10 trot was a two-horse race between Dolly Dillon and Satin Slippers which Dillon won by a scant margin.

MACCABEES REELECT MARKEY.

Provision Also Made to Increase the Life Benefit Fund.

Port Huron, Mich., July 17.—The supreme tent of the Knights of the Macabees today elected the following officers: Commander—D. H. Markey, Port Huron. Record Keeper—George J. Siegle, Port Huron. Finance Keeper—J. D. Thompson, Port Huron.

It was decided today to reduce the amount taken from the life benefit fund from 12 to 10 per cent and thus increase the life benefit fund. The great camps will hereafter receive one-half of per cent for expenses. In the supreme tent Ladies of the Macabees, the medical examiner will hereafter receive a fee of 25 cents instead of a salary.

TAXATION CRUSHING INDIA.

Britain Blamed for Famine—People too Poor to Buy Food.

London, July 17.—India is threatened with famine to an extent unparalleled in the history of that country, according to Komesh Dutt, a distinguished Anglo-Indian of the imperial revenue department. Mr. Dutt is aged twenty-six, and is the author of "Open Letters on Famine" and "Land Assessments in India." Speaking to the correspondent, Mr. Dutt said:

"England's oppressive and frequently illegal financial treatment of India is largely responsible for famine. Unless this system is radically changed the Indian empire will live in a perpetual shadow of famine, with its attendant misery and death. The famine in Bombay has continued two years, and is entering on the third season. This is a condition absolutely unknown hitherto, and unless rains bring relief it is impossible to foresee the bounds of the disaster."

"Practically the only remedy is to reduce the present iniquitous and burdensome land tax, which in the northern provinces, takes half the landlord's rental, and in the southern provinces one-third of the produce of the soil. These impossible proportions are collected with rigorous severity, and are not always strictly legal."

"A further and possibly a more serious injustice to India lies in the fact that one-half of the public revenues of the empire is spent outside without any direct equivalent. Subject any prosperous country in the world, such as the United States, Great Britain or France, to similar conditions, and it would inevitably follow that the country would be reduced to famine within a few decades."

"England has forced India to pay for wars in China, Afghanistan, Persia and the Sudan. A vast army is maintained in India for imperial purposes, which costs the people of India in salaries and pensions for English officials \$70,000,000 a year and for native officials \$17,500,000."

"India having but little trade or manufactures, virtually the whole produce of taxation falls on the produce of the soil—the food of the people. Famines in India are directly due to the failure of rain in particular districts, but as the rains fail throughout the whole of India, the food supply is always sufficient for the whole population. The people, however, are so hopelessly impoverished that they are unable to buy when the crops fail. To remove the economic causes of the nation's poverty would be to remove the causes of famine."

BIG NAVAL DEMONSTRATION.

Two Fleets to Exploit Resources of the British Navy.

London, July 17.—The mobilization of two fleets at Portsmouth and Devonport for naval maneuvers of exceptional interest serves to divert the public attention from the indignities and protracted war in South Africa. The channel fleet and the reserve squadron will be pitted against each other in an ingenious scheme of paper warfare, devised by the admiralty, and two admirals will try to outmaneuver each other.

Both fleets were rapidly mobilized and the cruise will be followed by the nation from day to day with pride and interest, whether one admiral or the other succeeds in breaking through. The official scheme is based almost too obviously upon the strategic value of Gibraltar and the possibility of a French fleet getting ahead of an English fleet in reaching the goal.

The two squadrons are not evenly matched, as one is much faster and stronger than the other. These naval maneuvers are more elaborate and costly than any of those conducted in recent years. It is Lord Selborne's first attempt to exploit the resources of the British navy, and he is not counting the cost. Possibly the government considers it expedient to make a big naval demonstration at a time when British military prestige has suffered from the tedious conflict with the Boers.

COL. MOSBY GETS FEDERAL JOB.

Washington, July 17.—Colonel John S. Mosby, the confederate leader during the Civil war, has been appointed a special agent of the federal land office. He claims his present residence in California. He has been assigned to duty in Nebraska.

RAILROAD WAR ENDS

NORTHERN PACIFIC CONTOVERSY IS FINALLY SETTLED.

MORGAN NAMES NEW DIRECTORS.

HILL AND HARRIMAN FACTIONS EACH REPRESENTED.

Great Bloom in Stocks Accompanies the Close of Wall Street's Most Distasteful Quarrel and Prices Go Up With a Rush.

New York, July 17.—Official announcement was made today by J. Pierpont Morgan that he had selected James J. Hill, E. P. Harriman, William Rockefeller, Jr., H. McK. Twombly and Samuel Rea to fill the vacancies to be created in the directorate of the Northern Pacific railway.

The announcement was made by Mr. Morgan in a formal letter addressed by him to J. P. Morgan & Co., Kuhn, Loeb & Co., E. P. Harriman and James J. Hill, in which he says he has selected five directors to be elected at the next annual meeting of the company in accordance with the memorandum, signed May 31, by which the composition of the new board was to be left in his hands. At the offices of Kuhn, Loeb & Co., and J. P. Morgan & Co., it is said that the arrangement indicated in the letter was mutually satisfactory.

The memorandum referred to in Mr. Morgan's letter reads: "An understanding has been reached between the Northern Pacific and Union Pacific interests under which the composition of the Northern Pacific board will be left in the hands of J. P. Morgan, certain names having already been suggested which especially will be recognized as representative of the common interests. It is asserted that complete and permanent harmony will result under the plan adopted between all the interests involved."

BUOYANCY IN STOCKS.

J. P. Morgan's Announcement Sends Prices Soaring Upward.

New York, July 17.—Early knowledge of the terms of J. P. Morgan's letter nominating the members of the Northern Pacific board of directors to fill the vacancies to be created, undoubtedly was the cause of the quick recovery in the prices of stocks today.

The first striking of the news came to the street through the open buying of round amounts of various stocks by brokers generally understood to act for both the Morgan and Harriman interests. The fact of this buying was evidence of the satisfaction felt by both parties to the Northern Pacific contest over the terms of the settlement provided for by Mr. Morgan's action, aside from the assurance felt that from the personnel of the new members of the board a fair and satisfactory adjustment would be secured. The additional recommendation for the immediate reconstruction of the board, rather than to await the regular meeting in October, was an additional cause of relief to speculative interests.

The conviction that an early settlement of the Northern Pacific controversy was at hand, which permeated the market all morning, was crystallized by the rather spectacular news of the sale of two hundred shares of Northern Pacific common stock on the board at 18 1/2. The note record on the tape, coming smoothly from the ticker with the quotation jumbled in with the routine transitions of the market, was eloquent of the end of perhaps the most disastrous quarrel that ever unsettled values in Wall street.

The extreme rise after last night in St. Paul reached 93 points, in Union Pacific 7 1/2, Southern Pacific 4 1/2 and Atchison 4 1/2, while Rock Island rose 8 points in sympathy. There were many other advances in the railroad list and among the New York tracings of 2 to 4 1/2 points, the Southern and Southwestern stocks, the trunk lines, the coalers and less important groups all being represented. Among the industrial specialties United States Steel gained 2 1/2 points over last night, preferred 2, Sugar 4 and Western Union and Amalgamated Copper 2 1/2 each.

The stocks closed strong and active and near the top, Paine, Webber & Co. reporting final quotations as follows: American Zinc West'n Union. 9 1/2 S O I Leather. 12 1/2 Central Oil U S Steel. 12 1/2 Biscuit, Com. Pfd. 88 1/2 Tin, Com. Peoples Gas. 115 Oil, Pfd. INDIAN MURDER HELD LEGAL.

Federal Court Releases Man Who Killed Under Tribal Law.

Omaha, July 17.—Indian law and tribal tradition were sustained yesterday when the federal court released Bird Head, a Pon Indian, and his squaw, on a suspended sentence, after they had pleaded guilty to manslaughter. Bird is eighty-six years old and his squaw is eighty-one. A year ago their son was killed by Perry Laravie by accident. Following tribal tradition, Laravie handed his rifle to Bird Head, and the latter shot him, after which the squaw cut up his body with an ax.

NOVEL STRIKE AT GREEN BAY.

Fire Department Quits and Places Are Filled in Two Hours.

Green Bay, Wis., July 17.—All of the members of the fire department except the chief resigned yesterday because the council refused to grant them an increase in pay. The city was without a fire department two hours. At the end of that time Chief Kennedy had the places of the strikers filled. The new appointments are as follows: Mayor of Ashland, died today.

GEN. BUTTERFIELD DEAD.

Cold Springs, N. Y., July 17.—General Butterfield died at Cragside at 8:03 o'clock tonight. He had been in poor health for a year or more and had been in a condition of semi-paralysis for some time. He leaves a widow, but no children.

Other Obituary Mention.

Ashland, Wis., July 17.—W. O. O'Keef, former mayor of Ashland, died today.

St. Louis, July 17.—Professor Bernhard J. Neumann, for forty-two years organist of St. Mary's German Catholic church, died last night as a result of the heat.

Santa Fe, N. M., July 17.—John J. Lamborn, for twenty years lieutenant Republican of Nebraska who served for several years in the senate of that state and who was captain in W. J. Bryan's regiment during the Spanish-American war, died here today from consumption.

Santiago, July 17.—The funeral of Senor Errazuriz, the first president of Chile to die in office, occurred today. An immense throng attended the obsequies, including high officials of the government, the ministers of the foreign power and representatives of various foreign consulates.

WEATHER FORECAST.

Washington, July 17.—The following is the weather bureau's forecast for Upper Michigan: Generally fair Thursday and Friday; variable winds.

BOSTON COPPER QUOTATIONS.

The copper stocks closed in the Boston exchange as follows yesterday:

BOSTON COPPER QUOTATIONS.

The copper stocks closed in the Boston exchange as follows yesterday:

RAIN IN MANY STATES

MUCH OF THE PARCHED REGION WELL DRENCHED.

LARGE SUMS SAVED TO FARMERS.

CORN CROP OF 50,000,000 BUSHELS ASSURED FOR KANSAS.

Temperatures, However, Continue Excessively High in the North and Southwest and Many Fatalities Are Reported.

Topeka, July 17.—The rains that have fallen in Kansas last night and today practically assure a corn yield of at least fifty million bushels. Good rains are reported tonight over portions of eastern and central Kansas.

La Crosse, Wis., July 17.—The drought in this vicinity was broken this morning by a steady rain of moderate force.

Milwaukee, July 17.—Rains which will benefit the farmers many thousand dollars were general throughout the state today.

Deaths in Chicago and Elsewhere.

St. Joseph, Mo., July 17.—It was 106 here today. One death and two fatal prostrations resulted.

Minneapolis, July 17.—There were two deaths and three prostrations here today. The mercury touched 91.

Lincoln, Neb., July 17.—The maximum temperature here today was 101. One death and one prostration were the result.

Chicago, July 17.—The mercury reached 92 today, but in the evening sank to 73. There were two deaths and two prostrations.

Lovren, Minn., July 17.—Crazed by the intense heat and dependent over crop prospects, Andrew Putnam committed suicide today by drinking carbolic acid. He leaves a wife and children.

Weather Bureau's Summary.

Washington, July 17.—At the request of the Associated Press, Professor Willis Moore, chief of the weather bureau, today prepared a statement of the rainfall throughout the drought-stricken region covering forty-eight hours from 8 o'clock Monday morning to 8 o'clock this morning. It is as follows:

"Scattered local showers, mostly light and in limited areas, have fallen in southeastern Texas, western Arkansas, southeastern Kansas and southeastern Nebraska, and over a greater portion of the Dakotas, Minnesota, northwestern Iowa, central Indiana, southern Michigan and central and southeastern Ohio."

CEREALS FIRMER IN TONE.

Small Net Gains at the Close in All the Pits After Sharp Declines.

Chicago, July 17.—In wheat today there was a fair trade, with less doing later. The feeling was considerably mixed and the market quite irregular, covering 1 1/2 to 1 3/4 cents. It opened higher, declined sharply, followed later by a material advance, and closed at 1/2 to 3/4 cent higher. Strong cables all the possibilities of spring losses in the Northwest, together with claims of an increased feeding demand in the Southwest, were the factors mainly responsible for the strength at the opening. On the advance there was free commission house selling, and the prices broke. Renewed buying later started the advance. The clearings were very liberal, at 518,000 bushels, and sixty-five boatloads were taken on the coast. The local receipts were 184 cars, 101 contract.

Corn was active, excited and nervous all day. The fluctuations covered 1 1/2 cent range. The opening was 1/2 cent higher, but a break of 1/4 followed and then a rally of 1/4. September closed 1/4 cent higher and about the same as yesterday. The weather was again the dominating factor. The receipts were 208 cars, with but twelve contract.

Oats ruled active, with an advance of 1/4 cent. The closing was nearly at the top, with a net gain of 1/4 for July, 1/4 for September and 1/4 for May. There was a general outside trading and active buying of May by cereal and provision interests. The selling was scattered. The receipts were eighty-eight cars.

The leading futures ranged as follows: September wheat opened at 68 1/2 to 69; highest, 68 1/2; lowest, 67 1/2; closed, 68 1/2. September corn opened at 50 1/2; highest, 51 1/2; lowest, 50; closed, 50 1/2. September oats opened at 31 1/2; highest, 32; lowest, 31 1/2; closed, 31 1/2.

Receipts and shipments were as follows: Receipts, Shipments. Flour, barrels. 49,000 31,000 Wheat, bushels. 437,000 347,000 Corn, bushels. 530,000 117,000 Oats, bushels. 239,000 282,000

CAR FERRIES TO BE TAKED.

Detroit, July 17.—The state tax commissioners have just discovered that the big ice crushing car ferries, St. Ignace and St. Marie, which operate across the Straits of Mackinac, have never been taxed. They are owned by a corporation separate from the railroad to which they were supposed to belong, and the owners live in Detroit. The boats have an estimated value of \$600,000 and will be put on the Detroit tax roll the coming year.

"DARK HORSE" WINS SHOOT.

Handicaps too Great for America's Star Trappers.

New York, July 17.—E. D. Fulford of Utica, N. Y., outshot a field of seventy-eight contestants in the preliminary grand American handicap at a hundred targets per man at Interstate Park today and won the event, getting a cash prize of \$73 and a silver trophy valued at \$50. He broke ninety-five out of 100 targets and shot from the eighteen-yard mark. The association added \$100 to a purse made of the entrance fees, which were \$7 each, the money to be divided between the sixteen highest scores.

None of the back-markers, such as Crosby, Gilbert, Heikes, Tanning and Banks, shot up to the averages made in England recently, but they were heavily handicapped today. The following are the sixteen highest scores in the preliminary handicap: E. D. Fulford, Utica, 18 yards, killed 95; D. W. Sarvin, Gardner, Mass., 17 yards, 92; J. W. Hoffman, Jr., New Germantown, N. J., 17 yards, 92; F. A. Inman, Rhode Island, 15 yards, 91; O. R. Dickey, Boston, 19 yards, F. Dudley, New York, 18. H. Y. Ellyson, Richmond, Va., 16, and Simon Glover, New York, 21, killed 90; L. T. Allman, Millbrook, N. Y., 17 yards, F. H. Snoy, Brooklyn, O., 18, and W. R. Crosby, Olaton, Ill., 22 yards, killed 89 each; J. S. S. Rolson, Brooklyn, N. Y., 18, C. E. Mink, Philadelphia, 18, T. Howe, Hingham, Mass., 16, and F. Whiting, Whitesville, Conn., 15 yards, got 88 each.

Crosby Leads in Sweepstakes.

The handicap was preceded by five sweepstake events, three of which were at fifteen and two at twenty blue rocks each. In the first event, at fifteen clay pigeons, there were ninety-three entries, four of whom—C

GAS BOOM AT MARINETTE. Company to Develop the Flow Encountered Sinking a Well.

Marinette, Wis., July 17.—There is no further doubt concerning the existence of natural gas in this city. The discovery of this most useful and much-desired commodity was made by a workman while engaged in sinking a well pipe on property owned by Napoleon Nadeau.

L. J. Evans, who is the agent for the property, upon which there is a tenement house, let a contract to improve the water supply service by sinking a new "drive well" in place of the shallow one used for several years.

The agent and the well contractor concluded to give the matter a thorough test and sink a four-inch pipe a distance of seventeen feet, where a good flow was obtained, but which was much improved at a depth of twenty-two feet, where the pipe now rests.

When sinking the pipe the gas was encountered at intervals. Clay and sand strata were passed by the pipe about a foot apart, and it was just after the clay had been passed and the sand touched that the pressure and presence of gas was observed at the mouth of the well.

The late Senator Kyle of South Dakota and the Word He Coined. The late Senator Kyle of South Dakota was educated in three states for three different professions.

When elected to the United States senate from South Dakota in 1891 he owed his success to a fusion between Populists and Democrats.

When it became necessary through the requirements of the congressional directory for the new session, serious difficulty was encountered. He was not a Populist and Populist votes did not elect him.

As there appeared to be no way for Dr. Kyle's partisans to arrange the matter it was left for determination to the candidate himself, and his choice of party designation was original.

When it became necessary through the requirements of the congressional directory for the new session, serious difficulty was encountered. He was not a Populist and Populist votes did not elect him.

As there appeared to be no way for Dr. Kyle's partisans to arrange the matter it was left for determination to the candidate himself, and his choice of party designation was original.

BANKS MUST STAND ALONE. Treasury Unlikely to Make More Deposits to Help Move Crops.

Washington, July 17.—The hopes held out in some newspapers that the treasury will come to the assistance of Eastern banks when the drain upon them begins for remittances to the West to move the crops, seem to be illusive.

The secretary of the treasury has no present prospect of increasing deposits, the limit of \$100,000,000, which he has fixed in a general way for the amount to be kept on deposit outside of the treasury, having already been exceeded.

Moreover, though July and August are months of heavy payments every year, and the government balance sheet will undoubtedly show a considerable deficit in both months in 1901, the payments are not likely to run to high figures this year as last.

The belief is general here that the Eastern banks will have to prepare themselves to meet the crop-moving emergency without government assistance, and recent movements at the money centers are interpreted as meaning that the banks appreciate the situation and are making ready accordingly.

FOUND IN A POUND OF COAL. Dyes, Food, Medicines and Perfumes, Besides Heat and Light.

A pound of canal coal is a lump about the size of a man's fist, says a chemist. Out of this coal can be distilled sufficient to color the following lengths of flannel, three-quarters of a yard wide: Five feet of violet, 3 1/2 feet of scarlet, two feet of yellow, two inches of orange, two inches of blue, and eight inches of magenta.

When it became necessary through the requirements of the congressional directory for the new session, serious difficulty was encountered. He was not a Populist and Populist votes did not elect him.

WILLING TO DONATE TO STOWE. Certain Manufacturers Anxious That He Remain at Cape Town.

Washington, July 17.—Colonel James G. Stowe of Missouri has pointed out a capable and efficient consul-general at Cape Town that certain manufacturers of machinery and metal goods in the United States have petitioned the president and secretary of state not to accept his resignation, which was recently tendered.

These manufacturers also offer to contribute a sufficient sum annually to insure Colonel Stowe ample compensation for his services. It is well understood that the reason of Colonel Stowe's resignation was the insufficiency of the salary attached to the post of consul-general at Cape Town.

The manufacturers who have asked for his retention state that his services have been valuable, and that he has been very successful in introducing American goods, particularly in the line of machinery, throughout South Africa, and that a fine market for American manufactures has been established in that country mainly through his efforts.

AN IMPERIAL EAR-PULLING. Germany's Emperor Had a Queer Way of Showing His Annoyance.

The French find much diversion in lampooning Emperor William of Germany's ears, particularly in the line of the monarch's discreditable, but German emperor, when in any way crossed or contradicted, pulls violently at the lobe of his right ear with the thumb and forefinger of his right hand.

When it became necessary through the requirements of the congressional directory for the new session, serious difficulty was encountered. He was not a Populist and Populist votes did not elect him.

NOTICE SERVED ON MINISTER. Arlington Citizens Demand That Rev. Mr. Keller Prove Innocence.

Arlington, N. J., July 17.—The following letter, signed by 100 residents of this place, has been sent to the Rev. John Keller:

"Sir: We the undersigned citizens, who desire the whole truth respecting the tragedy of Feb. 3 to be ascertained and established beyond dispute, beg to remind you that Mrs. Barker during the trial of her husband testified under oath that you had been guilty of a grave crime. This charge, thus solemnly made by a woman of good reputation, has now been on public record seven weeks, yet as far as we know, you have taken no steps beyond a simple denial to show forth your innocence of the alleged crime.

ARIZONA RAILROAD BOOM. Many Important Lines Building to Reach Copper Mines.

There is an era of railroad building in Arizona and northern Mexico which will result in a marvelous upbuilding of the many rich mineral districts in those parts of the continent.

When it became necessary through the requirements of the congressional directory for the new session, serious difficulty was encountered. He was not a Populist and Populist votes did not elect him.

LARGE FLEET IN THE ORIENT. Uncle Sam Has Fifty Ships on the Asiatic Station.

Washington, July 17.—The new naval register, which has just been issued, contains an item of principal interest, the names of the vessels on the Asiatic station, and shows that that station continues to be larger than all the others combined and has no less than fifty ships attached to it, with the rare spectacle, for an American squadron, of three flag officers in command.

A BRANCH IN AMERICA. Sheffield Company to Make Steel at Washington, Pa.

AFTER TWO PRIZES.

Ishpeming Elks Stand a Chance of Winning Honors at Milwaukee Carnival.

The Elks of Marquette county will leave next Monday evening for the carnival at Milwaukee, making the trip in Pullman cars via the Chicago, Milwaukee & St. Paul line. Those who will comprise the party expect a very enjoyable time at Milwaukee. With a view to making the most of the trip elaborate plans have been perfected. Arrangements for transportation, hotel accommodations, etc., were perfected some weeks ago. The special uniforms to be worn by the members were also ordered. The costume which the Ishpeming, Negaunee and Marquette Elks will don consists of white trousers and shoes, negligee shirt, tie to match, blue serge coat, straw hat with purple band, and purple umbrella. It is expected that there will be in the neighborhood

BOY SAVED FROM DROWNING.

Pulled Out of Little Lake by Charles Peterson.

A boy named Hickey, aged about twelve years, narrowly escaped drowning Tuesday morning while he was bathing with a party of boys at Little Lake, located a mile east of the city. Had not Charles Peterson come along in the nick of time the boy would not now be alive to tell the tale. Neither Hickey nor any of his companions could swim, and when the youngster got out beyond his depth he sank within sight of his playmates, who were unable to render assistance. Mr. Peterson was bathing in the lake and heard the boy's cries for help. He rushed to the scene of the accident and arrived just as the youngster was sinking for the third time, with little difficulty he brought the boy to shore. Hickey was soon revived by the course of treatment usually employed in drowning cases. When asked why he ventured out so far without being able to swim the same old reply, "didn't know the water was so deep", was given.

Hickey is the second person whom Mr. Peterson has saved from a watery grave. Years ago he pulled a boy out of the Carp river who had also waded beyond his depth. When asked to give an account of the rescue of Hickey yesterday Mr. Peterson was reticent, not caring to have his heroism set on public. It was not until great pressure was brought to bear that he gave the facts here recounted.

ACCIDENT AT MINE.

Willard Medlyn, whose home is on Angeline street, had his leg crushed early yesterday morning at the old Lake Angeline mine. A piece of ore fell on his right leg, causing a bad fracture. He was immediately removed to his home and a surgeon from the Ishpeming hospital was called to reduce the fracture. The bone is broken below the knee and the accident will necessitate a layoff for several weeks.

COMMISSION RECEIVED.

Yesterday Mrs. Nellie Krogman received her commission as postmistress of the Ishpeming office. She will assume charge at once. Mrs. Krogman has the distinction of being the first postmistress on the upper peninsula to be appointed to the charge of a second-class office.

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Fels from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25c at the Stafford Drug Co.

Candy, made fresh every day, at Luff's candy palace.

A big assortment of shirt waists going at cost at Braastad's.

ISHPEMING IN BRIEF.

The Ishpeming office of The Mining Journal is at 120 Main street, where payments of subscription and other accounts can be made. All having business with the paper are invited to call.

S. T. Harris of L'Anse was a business visitor here yesterday.

T. J. Dundon and family are spending the week camping at Lake Lory.

Mrs. John Peters left yesterday for Michigan to visit Mrs. Frank Brown.

Miss Gertrude Millard is in Marquette, visiting at the home of the Rev. Hugh Spencer.

Cecil Fitch of Leacon was in the city for a few hours yesterday, transacting business.

Mrs. Walter Fenner of Bay City is in the city, visiting at the home of her sister, Mrs. R. P. Bronson.

Mrs. T. F. Donahoe announces that Miss Minnie Sullivan's entire stock of millinery goods will be closed out regardless of cost.

Prosecuting Attorney Frank A. Bell was in the city yesterday, transacting legal business, in connection with the Hill robbery case.

The funeral of John Whitford was held yesterday afternoon from the Division street Methodist church, Rev. Castler officiating.

John Power will give a trolley party tomorrow evening from 8 until 10 o'clock. Trombly's orchestra will furnish the music for the occasion.

Second street, from the railway crossing north, is being improved. New curbs are going in and a complete new dressing will be put on.

Abraham Koski was sentenced to open thirty days in the county jail by Justice Kennedy yesterday, the charge being habitual drunkenness.

Mr. and Mrs. Timothy Quinn and their son Clarence of Gratiot, Wis., will arrive in the city today on a visit to J. H. Quinn and M. C. Scully and families.

The function to be given tomorrow evening at the Country club by Mrs. T. H. Bargh will be a lawn party instead of a dancing party as many suppose.

Mrs. C. D. Atwell left yesterday for Ithaca, N. Y., to spend several weeks visiting with her sisters. En route, she will take in the Pan-American exposition.

L. P. Gilman of Wausau, Wis., special agent of the Singer Sewing Machine company, was in the city yesterday, calling on the Ishpeming agent, S. E. McKenney.

Miss A. F. Oleott, former principal of the high school, left yesterday afternoon for Lansing. She has been visiting here for the past few days at the home of F. P. Tillson.

The members of the local corps of the Salvation Army are preparing to serve lunches and ice cream in their hall on

Saturday of next week, Sons of St. George day.

Mrs. Sarah Doyle of Darlington, Wis., who has been here visiting at the homes of J. H. Quinn and M. C. Scully, the past few weeks, will leave today for Hancock, where she will spend some time with relatives.

Mine Workers' Union No. 8 will give two ice cream festivals for the benefit of the striking machinists. The first will be held Saturday, July 20, in the Union's hall and the second a week later.

Burno Daniell, the man charged with the murder of Frank Tasson, will be sent to the Marquette county jail to await trial at the next term of the circuit court. Marshal Farm will take the accused down.

Mrs. Arthur Buzzo of Crystal Falls, who has been visiting her parents, Mr. and Mrs. John Quayle, returned to her home yesterday. She was accompanied by her sister, Mrs. Wills, who will spend some time in that city visiting.

The following sign appeared on a Second street residence yesterday afternoon: "Everybody or girls, who has skills, please come to Signe Carlson and Guida Anderson's doll party this afternoon at 3 o'clock. Guida and Signe."

All members of Ambrose tent of the Macebees are requested to meet this evening with the French tent of the order. Deputies, who arrived in town last evening, will be present at the meeting. A large attendance of both tents is desired.

Great interest is being taken in the handicap golf contest to take place at the links Saturday. Dr. Vandevanter has secured several entries and the affair promises to be a success from every standpoint. A cup will be presented to the winner of the tournament.

Plate glass windows are being placed in the front of the Dundon block, corner of Main street and Cleveland avenue. The improvements which have been going on there for about nine months past will soon be completed, when Mr. Dundon will have one of the finest business blocks in the city.

The city was literally infested with beggars and hand organ men yesterday. At one time there were no less than four organs playing around one corner. One-armed unfortunates were also around begging and selling notions. The regular influx of this class takes place at this season annually.

The work of painting the Bethany Swedish Lutheran church, the school and the parsonage, is completed. The buildings have been given a coat of light gray paint with trimming of a darker shade. The dressing has done much to beautify the appearance of the church and the other structures.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

If you want summer goods cheap buy now at Braastad's Everything marked down.

Our inventory sale of lace curtains is on. All kinds going cheap. F. Braastad & Co.

Superior ice cream and choice fruits at Luff's candy palace.

The greatest healer of modern times is Banner Salve for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute. The People's Drug Store.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure. Doan's Ointment. At any drug store, 50 cents.

LEAVE THE BANK. Leslie French Severs His Connection With the First National.

Leslie French, for eleven years connected with the First National bank of this city, has resigned his position as assistant cashier, to become cashier of the First National bank of Escanaba. August Johnson, cashier and ticket agent for the Northwestern railroad in this city, succeeds Mr. French, and Edward Laughlin, baggage master for the above road, takes Mr. Johnson's position. No one has yet been selected to fill the vacancy caused by the latter's promotion.

Mr. French has been with the Negaunee bank for the past eleven years and worked in various positions until he became the assistant cashier. Prior to accepting a position with the First National, he taught school at Palmer. The attention of the local capitalist was drawn to the young man by his great capacity for work. As one man stated yesterday, he is always hustling and always accomplishing something.

When seen yesterday by a Mining Journal representative Mr. French said: "I have resigned my position with the First National Bank of Negaunee. That is all I care to say at present; later I will discuss my plans, but not now." When asked if he had accepted the position of cashier of the Escanaba bank he replied: "If you have heard that report you may publish it, but I do not care to say anything about it."

It will be at least a month before Mr. French will leave for the State city to assume his new position. During the interval he will instruct Mr. Johnson in his new work. Mr. Johnson has been in the employ of the Chicago & Northwestern road for the past sixteen years and for the twelve years past has been the city cashier and ticket agent. There are but few people who come in or go out of this city that he does not know personally, and he has been a general favorite with the traveling public. Mr. Laughlin, his successor is well known in this city and has a host of friends who are pleased to see him advance to such a responsible position.

ASSIGNED QUARTERS. Al Wilhelm, secretary of the fire department, received word Tuesday from the Crystal Falls arrangement committee that the Negaunee firemen have been assigned quarters in the Union hotel.

The letter states that this hotel is one of the best there, and that the accommodations are first-class in every way. The firemen feel jubilant over getting such a good location, as many of the departments will be obliged to put up with quarters not nearly so convenient.

At a recent session of the committee that is booming Negaunee for the next tournament, the soliciting committee reported that it is meeting with good success all along the line. There is now no doubt that the necessary \$3,500 will be raised by August 1.

Another meeting of the committee will be held next Monday evening, at which final arrangements for the Crystal Falls trip will be made. A committee on transportation will be appointed and the final report of the soliciting committee read. All business pertaining to the trip to the Menominee range will be completed at this meeting.

A NEW BLOCK. John Shea, the dry goods merchant, intends to erect a two story brick block on Iron street directly east of his present store. The building will be ninety-three feet deep and will have a frontage of thirty-three feet. It will be occupied by Mr. Shea as a store for his goods. His floor space will be considerably larger than he now has as both floors will be at his disposal. Work will be commenced early next month and once the foundation is laid, it will be pushed rapidly. Mr. Shea expects to be located in his new store by the latter part of October at the latest and if possible before then.

RECUPEATION—There is not so much in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla, which refreshes the tired blood, sharpens the dulled appetite, restores the lost courage. Take Hood's Sarsaparilla this summer.

NOTICE TO CONTRACTORS. Bids will be received until July 26, 1901, for the purpose of building a brick and sand stone block for John Shea. Plans and specifications will be seen at Mr. John Shea's dry goods store on the north side of Iron street in the city of Negaunee, Mich. (7-18-1w)

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble following the grippe. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. Stafford Drug Co., H. N. Meloche, Ishpeming.

WHAT TWO CENTS WILL DO. It will bring relief to sufferers from asthma or consumption, even in the worst cases. This is about what one dose of Foley's Kidney Cure costs. Isn't it worth a trial? The People's Drug Store.

BUILD NEXT YEAR

NOTHING CAN BE DONE ON THE NEW LIBRARY THIS SEASON.

PLANS YET TO BE SELECTED.

BOARD WILL SOON FORMALLY DECIDE TO POSTPONE WORK.

At Present Time Trustees See Some \$25,000, Which Would Suffice for a Handsome, Creditable Structure, Available.

The summer is rapidly gliding on toward autumn yet there is no work done at the site of the proposed new Peter White Public Library, corner of Front and Ridge streets. Officially, the board of library trustees has not given up the project of building this year, but unofficially the members admit that there is little likelihood that anything will be done until another season. It is quite likely that the board will soon formally decide to postpone the work. As so much of the open season has passed without anything being done to give Marquette the new building it would seem that there is no other action left.

The trustees would like to build this year, but they have found it impossible to hasten matters in connection with the proposed structure so as to make a start and now, as has been stated, it is so late in the summer that it is all but absolutely impracticable to break ground for the structure, particularly as the old Watson house still rests on its foundations on the south lot of the two which are to be incorporated in the site. This old dwelling is still occupied and the lease held by its tenants runs well into the fall of 1902. No arrangement for its cancellation has yet been made and it is said that the tenants do not look with favor upon the idea of vacating the property until the time specified in their lease. This in itself is enough to necessitate the postponement of building operations until next year.

Were the old Watson house vacant and the trustees enabled to begin erecting or demolishing it tomorrow, there would still be a number of weeks' work ahead to prepare the site for the foundation work. The south lot will have to be graded to a level that at the corner of Front and Ridge streets, which will necessitate the removal of thousands of yards of sand. It would seem to the uninitiated that an early start will have to be made next year if the new library is to be under cover in good season.

Have Examined Plans.

The library trustees have examined plans for the new structure, but they have yet to be entirely pleased. Charles T. Gilbert & Demar are now preparing an elevation which will shortly be submitted to them. Of course the board desires to get the handsomest building which can possibly be put up for the money at its command. With this end in view it is proceeding slowly, hoping to obtain absolutely the best result to make every dollar of the building fund count for one hundred cents.

As the case stands now the trustees expect to be able to spend approximately \$25,000 on the new library. That is all the money in sight at the present writing. Of course there is always a possibility of further benefactions and the fund may be swelled before ground is finally broken.

The present fund is of goodly proportions, but more money would be acceptable. It always is. It is said that a handsome and creditable library, one that would be an ornament to the city and the pride of citizens, could be erected for \$25,000. Nevertheless, every additional \$1,000 beyond this sum would enable the board to spread itself a little more and the final result would be correspondingly pleasing.

In any event Marquette may feel assured of a handsome structure. It, by reason of its location on the spacious grounds at the head of Front street, the munificent donation of Mrs. Mary Longyear, will stand unique among the public buildings in this section, easily the handsomest of all in point of beauty of structure, grounds and environment.

Just now the site of the proposed building has anything but a creditable appearance. The looks shabby and the reputation. However, when the board finishes the labors on which it is now directing practically all its energies, it will be one of the beauty spots of the city.

THEY SAW THE RACES.

Junqueting Aldermen Get Their Faces Into Public Print.

Readers of the Detroit Free Press had the laugh on Aldermen Shea, Donovan and Jones, members of the council junqueting committee, yesterday. On the front page of Tuesday's issue of that paper was a picture of a "great crowd in the grandstand watching Star Pugh lead into the back stretch." Among the figures and features which showed up prominently were those of the members of Marquette's aldermanic committee. The likenesses of Aldermen Donovan and Shea were easily recognizable and many people asserted that they also found Jones, although there was hardly unanimity on the point of "Doc's" identity.

The races which the junket was witnessing were those of the opening day of the Blue Ribbon race, 1901 and Star Pugh was winning the big C. or C. stake at the time the Marquette men were snapped by the Free Press' photographer. The aldermen were not in the grand stand, but they stood inside the railing which guards the inner side of the track. They are fairly in the center of the picture.

The supposition is that the trio, after a hard morning's work with the inspection of Detroit pavements and consultation with city officials, sought a little diversion at the track. However this

may be, their friends here think that they have a legitimate reason to demand that the three city dads "set 'em up" and this they will do on their return. Meanwhile they are scanning the Buffalo papers closely.

HUCKLEBERRIES OVER RIPE.

Picking Season Is Beginning in Real Earnest.

The blue berry season is now opening in real earnest. The pickers are seeking the plains early this week, caused the shipments to the big markets will soon start, to continue throughout the season. The berries have been for sale about the city for the past several days. There is general complaint that the hot weather experienced early this week caused the crop to mature with abnormal rapidity and that the berries are now too soft to admit of rapid picking. From all reports this year's harvest will be fairly large.

GUN CLUB ORGANIZED.

Members Will Now Punish the Clay Pigeons.

The Marquette Gun club has just been organized with a good membership and the clay pigeons will suffer severely on the days of its regular meetings. A. C. Ludington is captain of the club and L. M. Spencer is secretary and treasurer. There is considerable interest in the organization among the members and they will proceed to bring the men who are as yet without the fold into line. The club will meet regularly on the Friday of each week at the old Fair grounds. The first meeting will be held next Friday at 3 o'clock.

APPROPRIATED \$1,000.

It Will Be Used to Improve School Premises.

The trustees have set aside \$1,000 to be used in the improvement and beautification of the premises of the several Marquette school buildings. This sum is not at all sufficient to put the grounds in the best condition, or in the condition they should be in, but it is hoped that good results will be obtained by expending it judiciously. The premises at the Fisher street, Hampton street, Third street, Fourth street and the Ely buildings will receive attention. Nothing will be done at the Fifth street building, as the grounds there will require much filling, and the school grounds are already in fine condition, it being impossible to do any further work at these premises until the remaining buildings of the proposed group are finished. At some of the schools enumerated above, a little grading is required, but the principal work of improvement will consist of sodding and seeding. It is understood that henceforth the several grounds will receive much more care than has been given them in the past.

A BETTER FEELING.

It is Beginning to Be Manifested in Coppers.

A better feeling is beginning to be manifested in coppers. A couple of the stocks picked up somewhat yesterday and brokers are beginning to call the turn. Paine, Webber & Co. said: "The feeling is becoming quite general that the reports of crop damage have been exaggerated and that the real damage has already been more than discounted by the decline and insecurity of prices. The sharp advance in New York today, however, came largely as a result of the fact that the market was oversold. While it is possible that prices may go considerably higher, we would strongly advise against the purchase of New York stocks on the rallies. The drought in the corn belt has not yet been relieved. We understand that there has been heavy liquidation of speculative holdings of Amalgamated and that the stock is now in strong hands. The weakness of this stock during the past week has had a depressing influence on the Boston copper situation. There has been better feeling in the coppers today and it looks to us as if an upward turn was due. The South Range stocks look attractive at the present level."

Hayden, Stone & Co. wired the Laidley Commission Co.: "Coppers are very dull. The advance in New York has had very little effect here. Oscula is in good demand and the buying is by investors. We do not look for much activity here for the present. American Telephone is cheap at the present prices. We look for much higher prices and we would buy it now. We understand that New York has been a large buyer of it in this market."

A. R. Jones & Co. said of wheat: "Wheat averaged strong and higher today and closed with most of the advance maintained. The news favored holders all day. Broomhall called that the French crop was estimated at about 200,000,000 bushels, which would indicate that country would have to import about 100,000,000 bushels. This, with the shortage in the other foreign countries, makes certain that our supplies will all be wanted. We see nothing to sell wheat short on. On the other hand we believe purchases should be made on every setback."

MARINE MATTERS.

Passed the Canal.

Sault Ste. Marie, July 17.—(Special.)—Up—Linn, Nasmyth and wholeback, 2:40; United Empire, 7; Gratiwick, 8; Walter Scanton, 10; Roman, Zenith City, 11:30; Houghton, Madeira, noon; Empire City, Fritz, Waldo, 1; Wayatam, 1:30; Alberta, 3; Marshall, 4:30; Coralia, Fairbairn, 5:30; Stimson, Bissell, 6:40; Fedora, Marina, 8 p. m.

The India was in port, bound down, yesterday.

The Thompson is unloading a cargo of coal for the Lake Superior Iron company in the lower harbor.

Two dull-finish cabinets mounted on any style of card for 50 cents. Werner's gallery. (6-21-tf)

Only one day more before stock of the King Gold & Copper Mining & Milling company will advance to 15 cents per share; now 7 cents per share. Jos. J. Wirtz, Fiscal Agent, Marquette, Mich. (7-9-tf)

TO RESIDE IN LONDON.

Wm. Orr and Wife Will Live With Their Daughter in the English Metropolis.

The appointment of W. W. Walker as general freight agent of the Duluth, South Shore & Atlantic road will not in any way affect his residence in Duluth as some have been led to suppose, says the Duluth News-Tribune. William Orr, the former general freight agent, who has retired from the railroad business, resides at Marquette, but the general duties incident to the office of general agent have been performed in Duluth for some time and will continue to be.

William Orr, the retiring general agent of the South Shore, has received many substantial recognitions of the esteem in which he was held by the officials and employees generally of the road. The former presented him with a fine Swiss watch, and chain. To one end of the chain was attached a gold pocket knife. The time piece was one of the finest that could be obtained. The employees in the general offices at Marquette presented Mr. Orr with a fine diamond scarf pin. Those in the Duluth office presented him with an ivory handled umbrella and cane, inlaid with sterling silver.

One of the reasons that Mr. and Mrs. Orr are to go to London to make their home is that their daughter, Mrs. W. A. Parker, resides there. Mr. Parker is the foreign representative of the E. P. Ellis company, the big machinery firm of Milwaukee. Mrs. Orr is anxious to be with her daughter.

CITY BREVITIES.

Weather forecast: Generally fair and cooler; fresh northerly winds.

Yesterday's temperature: 7 a. m., 70 degrees; noon, 72 degrees; 7 p. m., 71 degrees; maximum, 70 degrees; minimum, 69 degrees.

T. M. Wells of Negaunee was in Marquette yesterday.

Charles Wheeler arrived in Marquette yesterday. He has been away the past ten months.

Dick and Will Quinn of Negaunee were here calling on their Marquette customers yesterday.

Professor Hogue will hold a special dancing class Friday evening. Particular attention will be paid to the Redowa.

Yesterday was another uncomfortably hot day, although it was cool compared with the scorches experienced earlier in the week.

Charles Fredstrom of Calumet, who skated in the championship races here last winter, visited Marquette friends yesterday.

Work on the new intake at the pumping station progresses well. There remains but about thirty feet of pipe to lay to reach the edge.

All Odd Fellows are requested to meet at Fraternity Hall this afternoon at 3 o'clock for the purpose of attending the funeral of the late James R. Miller of Munising.

Dr. and Mrs. A. Kline Thiel and Miss Elizabeth A. Thiel arrived home from their foreign tour yesterday. They landed at New York the early part of this month.

James R. Miller of Munising passed away at St. Luke's hospital yesterday. The deceased was thirty-nine years of age. The funeral will be held this afternoon at 4 o'clock, with interment in the Park cemetery.

The death of Mrs. Almire Locke, 409 West Washington street, occurred yesterday morning. The funeral will be held this afternoon at 3 o'clock from the First Baptist church. Interment will be in Park cemetery.

E. C. Short, superintendent of construction for the Michigan Telephone company, left for Detroit yesterday. He was called there to consult with the general manager relative the proposed upper peninsula work.

There is much complaint on account of mosquitoes at Presque Isle. They are said to be worse than ever before this year. Most evenings it is practically impossible to spend any time after supper at the resort without being fairly eaten up.

Announcement is made that the wedding of Miss Nellie Blackwood and Frank Spickler of Chicago will be solemnized at the home of Miss Blackwood's parents, Mr. and Mrs. William Blackwood, at Hancock, on Saturday, July 27.

The Morse Hose company held a meeting last evening, electing its delegates to the upper peninsula tournament to be held in Crystal Falls early next month. They were instructed to vote for Negaunee as the 1902 meeting place. There is now no question that the tournament will come to the Marquette county city.

Ed. Croak, the Iowa pugilist who will meet Jack Hammett here this evening of July 24, is in hard training. He takes a couple of long runs each day and he is undergoing daily Turkish baths. Work with the dumb bells, the punching bag and lively mixing with local boxers complete his daily routine. He will be in the pink of condition on the eve of the meeting.

Charles Marchand, one of the Galveston sufferers, was here yesterday, en route to Montreal, where he will live in the future. Marchand lost his wife and children, to say nothing of his business and property, in the visitation that wiped out the Texan city. He was a glass blower, who, with his partners, owned a considerable establishment. He met many Marquette Frenchmen yesterday.

We have fifteen second-hand bicycles They will be sold cheap. If you want a wheel it will pay you to see them. R. L. Francis Co. (7-12-tf)
