## BUT TRACES OF RAIN

DROUGHT CONTINUES IN THE GREAT CORN BELT.

TEMPERATURE OVER A HUNDRED.

NO PROSPECT OF RELIEF FOR TWO DAYS AT LEAST.

Special Inquiry Shows the Reports of Damage Not Exaggerated, While in Russia the Crop Situation is Still Much Worse.

St. Louis, Mo.	106
Springfield, Mo.	106
Memphis, Tenn.	104
Davenport, Ia.	104

Cincinnati, O.	94
Denver, Colo.	90
Jacksonville, Fla.	90
New York.	90
Atlanta, Ga.	86
Buffalo, N. Y.	86

Washington, July 23.—With the exception of scattered thunder storms, the most important of which, as far as the reports to the weather bureau show, was that at North Platte, Neb., where eighty-one hundredths of an inch of rain fell, the drought and intense heat continued today throughout the states of the corn belt. The temperatures today again averaged above 100 degrees over that area, making the thirty-sixth consecutive day in which the thermometer has reached ninety or more.

Traces of rain are officially reported in Des Moines, Kansas City, northern Texas, Arkansas and northern Minnesota, but according to present indications there seems to be no prospect of a general downpour for the next two days at least. Generally speaking, the temperatures in the superheated area were not as high as yesterday, but were due entirely to local changes and not to general differences in the atmospheric conditions. Some of the maximum temperature reported today were as above given.

### Havoc to Corn Not Magnified.

New York, July 23.—The Journal of Commerce, which today telegraphed to a large number of bank presidents in Iowa, Nebraska, Missouri and Kansas, tomorrow will print a special report which will say:

"There is every reason for believing that the early reports of the damage to the corn crop by the drought have not been exaggerated. On the contrary, it is quite evident the situation is very much worse than at first reported and that now much of the injury is beyond repair.

"The region of the worst damage lies within an irregular circle of six hundred miles in diameter, with St. Joseph, Mo., the approximate center. It would seem from the returns given that a loss of 50 per cent in this district would be an exceedingly moderate estimate."

### No Relief in the Northwest.

St. Paul, July 23.—Reports from all sections of Minnesota and the Dakotas show that the heat wave continues with, if anything, increased intensity. Many stations report today a record breaker, with the maximum ranging from 100 to 108. Grain is maturing prematurely, but the harvesting is carried on with great difficulty, many prostrations of men and animals being reported.

### RUSSIAN CROPS HARD HIT.

Total Failures in Some Districts Due to Heat and Drought.

Washington, July 23.—A St. Petersburg dispatch to the United States department of agriculture dated the 21st states that a temperature of 103 was reached that day in Odessa and that phenomenal heat is prevailing through all northern Russia.

A cablegram to the department from London mentions reports that the crops in Siberia appear to be nearly a total failure, adding that in the district of Mimusinsk and Krasnoyarsk almost the entire growth of cereals has perished as a result of the two months' drought and that in the trans-Baikal country the condition of the crops is almost equally as bad. Mimusinsk and Krasnoyarsk are two of the five districts composing the Siberian province of Yeniseisk, which occupies the greater part of the country drained by the Yenisei river.

The same dispatch mentions that in seven of the twelve districts composing the province of Perm, in the eastern part of European Russia, the condition of affairs is almost as deplorable as in the Siberian districts named above. It is further stated that in the provinces of the Volga region the peasantry already is practically destitute. Even in southern Russia, where the crops on the whole are said to be of fair average, there is a disastrous shortage in the province of Ekaterinoslav and "an instance is cited of the utter destruction of 40,000 acres of grain by hail storms and the Hessian fly."

### HEAT IS TERRIFIC IN SPAIN.

Is 125 at Some Places and Parliament Is Forced to Adjourn.

London, Wednesday, July 24.—The temperature in Madrid today (Tuesday)

## WAS 108 DEGREES, FAHRENHEIT, IN THE SHADE.

was 108 degrees, Fahrenheit, in the shade," says a dispatch to the Daily Express. "The heat was so overpowering on Monday that parliament had to be closed hastily. In Seville, Cordova and Cadiz, the temperature was 125."

### YOUNGER BROTHERS GET JOBS.

Going on the Road to Sell Tombstones for a St. Paul Dealer.

Stillwater, Minn., July 23.—Coleman and James Younger, after twenty-five years in state prison, will begin work tomorrow as salesmen for a St. Paul dealer in gravestones and monuments. Warden Woffler today signed a contract for their new work, and they left for St. Paul.

### TORNADOES VISIT TWO STATES.

Vicksburg, Miss., and New Ulm, Minn., Report Storm Havoc.

Vicksburg, Miss., July 23.—Hundreds of shade trees were prostrated, many roofs lifted and the walls of half a dozen buildings caved in by a tornado which passed over the southern section of this city this afternoon. The storm was accompanied by severe thunder and lightning and a downpour of rain.

New Ulm, Minn., July 23.—A tornado passed a mile north from west to east this afternoon. Several buildings were blown down and August Woodman and William Tombliz, carpenters working on a new building, were severely injured. Reports from the country to the west are to the effect considerable damage was done.

## TO ENJOIN STRIKERS

STEEL TRUST DECIDES TO APPEAL TO THE COURTS.

PETITION TO BE FILED TODAY.

WILL ASK PROHIBITION OF INTERFERENCE WITH PLANTS.

Rumors of a March by Miners and of the Importation of Men Circulate, but the Day Brings No Actual New Developments.

Pittsburg, July 23.—It is asserted tonight on good authority that papers are being prepared by Persifer F. Smith, district manager for the American Steel Sheet company, to go into the United States superior court tomorrow for the purpose of securing an injunction against the strikers to prevent them from interfering with the operation of the company's plants wherever situated.

In addition, rumors are in circulation that a carload of men will be run into Wellsville tomorrow to augment the force now at work. The latter story had not been verified up to midnight.

### Say Trust Looks to Militia.

Outside of these incidents, the actual strike status is unchanged. According to the strike leaders, the officials of the Wellsville mill are apparently seeking to bring on an open conflict in order to invoke the aid of the sheriff's deputies and, if possible, the militia. The reports from McKeesport tonight are of a quieting nature, and no exciting incidents are looked for at present at that point.

Much interest is centering on the situation at Monessen. It is reported that twelve men were discharged today because of their too close friendship with the Amalgamated people. The report that the miners are planning a march to Monessen to try to draw out the workers at that plant is denied here.

The miners' it is said, are not taking an active part in the strike as yet, and the Amalgamated officers are opposed to march measures at this time.

### STEEL MILL TO IMPORT NEGROES.

Chicago Suburb Excited Over the Expected Advent of Colored Workers.

Chicago, July 23.—The advent at Melrose Park tomorrow of three hundred negro workmen, imported from Mobile by the Latrobe Steel & Copper Works, is awaited with interest by the residents of the suburb and the six hundred workmen now employed in the plant.

Threats by the workmen to strike for higher wages are believed by many to be the cause of the importation. This is denied by the officials of the company. They declared it has been impossible to secure sufficient white help to do the work demanded from the company by the United States Steel company.

An important mass meeting was held tonight in front of the village hall, fully three thousand persons attending, to protest against the importation. A committee was appointed to confer with the officials of the company and an effort was made to confer with Governor Yates by telephone with a view to preventing the importation of the negroes.

### Departure of the Negroes Stopped.

Birmingham, Ala., July 23.—The exportation of four hundred negro laborers to Chicago to work in steel mills was stopped here tonight by the arrest of two negro labor agents on a misdemeanor charge. The party of negroes was to leave on the late train tonight, but when the organizers were arrested their ranks were broken in great confusion.

### PEACE IN THE COAL FIELDS.

Striking Stationary Firemen Are Again Back to Work.

Wilkesbarre, Pa., July 23.—The stationary firemen and coal operators are

## AGAIN AT PEACE.

Nearly all the strikers, including a number of engineers who went out in sympathy with the firemen, were back in their old places today.

### Sweat Shop Tailors Gain.

New York, July 23.—It was announced at the headquarters of the garment workers this afternoon that thirty-one contractors, employing five thousand workmen, had granted the demands of the employees.

### Machinists Vote to Return.

Wilkesbarre, Pa., July 23.—At a meeting of the striking machinists of this city today, the strike at the shops of the Lehigh Valley Railroad company at Coxton and Wilkesbarre was officially declared off.

### WITH A CARGO OF TEACHERS.

Transport Thomas Sails from San Francisco for the Philippines.

San Francisco, July 23.—The transport Thomas sailed this afternoon for Manila with 500 teachers for the Philippine schools.

## DOZEN PASSENGERS HURT.

Pullman Sleeper Breaks Loose and Goes Over an Embankment.

Denver, July 23.—One mile west of Marshall's pass, the Pullman sleeper broke loose from the westbound passenger train on the narrow gauge line of the Denver & Rio Grande today and rolled down an embankment. A dozen passengers were injured, but none were killed.

London, Wednesday, July 24.—"We hear rumors," says the Daily News, "that negotiations with a view to peace in South Africa are proceeding in London."

### TRIPLE FATALITY NEAR REPUBLIC.

Two Men and a Boy Drown in a Lake at Floodwood.

Republic, Mich., July 23.—A telegraph message was received here today bringing the information that two men and a boy were drowned yesterday in Doan lake, near Floodwood, eight miles south of Republic. The victims were Frank Hanop of Escanaba, Robert Morlock of Milwaukee and Frank Woodin of Floodwood. The latter was thirteen years of age and a son of E. V. Woodin, one of the best-known trappers in this section.

So far as could be learned the three were fishing on a poorly constructed raft. The two men were visiting at the home of the Woodin family and all started out for the lake at 1 o'clock in the morning. They left word that they would return early in the afternoon. About 5 o'clock when they did not show up a member of the family went over to the lake to see them. The old raft was spied a short distance from shore turned bottom side up. The party was there but a few minutes when the bodies were noticed in the water only a short distance from shore and in less than six feet of water. How the fatality occurred will never be known as there was no one with the trio at the time.

It appears, however, they made a struggle for life as the raft was overturned in the water. It is assumed that one of the party must have fallen into the water and in the efforts of the others to save him all went down.

Morlock and Hanop were at Floodwood but a short time. The former conducted a saloon in Milwaukee for the Pabst Brewing company. He came to Floodwood on a few days' outing. His remains will be forwarded to Milwaukee today.

Was up, Mr. Woodin's son-in-law, was on a visit. He was married about two months ago. For a year or more before his marriage he was employed as section foreman on the St. Paul line at Champion, leaving there to take a position on the docks at Escanaba. His people reside at Abrams, Wis., where the remains will be taken for burial. Young Woodin's remains will also be interred in the cemetery at Abrams. His folks lived there for some time before coming to this section.

## SCHLEY TO FIGHT

CHARGES OF COWARDICE STIRS HIM TO ACTION.

WILL ASK A NAVAL INQUIRY.

PROPOSES THEN TO SUE THE AUTHOR FOR LIBEL.

Admirals Dewey, Ramsay and Benham Likely to Conduct the Investigation, and It Gives Promise of Sensational Findings.

Great Neck, L. I. Editor Washington Post: I believe an investigation of all the matter by a court and then a civil action afterwards. I am preparing to take this course. W. S. SCHLEY.

Washington, July 23.—The Washington Post last night telegraphed to Admiral Schley that in an editorial it insisted he owed it to himself, as well as to his friends, to begin proceedings against Maclay, author of the history of the United States navy, to disprove the latter's charges, adding: "Will you do this? Please wire statement." Today it received the telegram above given.

### Abuse Unexampled.

The Post in the morning, as a result of extensive inquiries based upon the admiral's dispatch, will say in part: Admiral Schley proposes to ask an investigation at the hands of a naval court of inquiry and to sue Historian Maclay for libel. His action is a sequel to the developments during the past week, when the entire country has been stirred by the publication of the unexampled abuse poured out upon him in the third volume of E. S. Maclay's history of the United States navy, in which publication Schley is said to have run "in calf fight" and is, in addition, denounced as a coward, cur and traitor.

The Schley court of inquiry undoubtedly will be one of the most celebrated cases in the naval or military history of the country. The high rank of the officers involved in the controversy and the intense public feeling which has been aroused will combine to give to the investigation a dramatic interest. The appointment of the court of inquiry is expected to be made by Secretary Long, though it would be in the power of the president to make the selections if he chose.

### Dewey Likely to Head It.

Admiral Schley's letter asking for the appointment of a court will be addressed to Secretary Long, who is his immediate chief. Secretary Long has already stated that if Schley requested a court of inquiry he would grant the request and has also expressed a willingness to personally select the court. While he has not made any statement as to its personnel, there is every reason to believe he favors Admiral Dewey and Rear Admirals Ramsay and Benham, the two latter being now on the retired list.

It is said these officers have always carefully avoided giving an opinion as to the merits of the controversy. The secretary believes that the appointment of Dewey would give the highest character to the court, and that any decision it might make would be accepted by the American people. Admiral Ramsay was for eight years at the head of the bureau of navigation, and Benham came into prominence in 1894 during the brief revolution against President Fonseca of Brazil.

### Schley's Application Already In.

New York, Wednesday, July 24.—The Herald this morning says: "Rear Admiral Schley has asked Secretary Long to appoint a court of inquiry to determine the facts in regard to his course in the Santiago campaign. While Schley will not discuss his determination, The Herald is nevertheless in a position to announce the fact that the application has been made."

### NEWS OF ALASKAN DISASTERS.

Two River and Three Ocean Barges Lost With Their Crews.

Seattle, Wash., July 23.—The steamship Humboldt, with \$100,000 in treasure and eighty passengers, arrived today from Alaska. She brings news that two river barges have been found deserted, the eight men who were in charge of them being missing, and that three ocean barges belonging to Black & Sullivan loaded with 300 tons of merchandise, bound for Dawson via St. Michaels, have been wrecked near Kodiak. The missing: George McLeod, J. McGuire, D. O'Connor, F. Lynch, Antone Turrene, C. Tyrell, J. M. Taylor and T. McDonald.

### NEW RULER FOR PORTO RICO.

Judge Hunt, Now Secretary, to Succeed Allen as Governor.

Washington, July 23.—Judge William H. Hunt, at present secretary of Porto Rico, has been selected to succeed Governor Charles H. Allen upon the retirement of the latter from the insular government. General Allen brought with him to Boston all his household effects and does not expect to return to Porto Rico. The formal announcement of the selection of Judge Hunt is withheld until the regular appointment is made, and this cannot be before the expiration of Governor Allen's leave of absence next September.

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

favor of the Maroons, with the Sandpipers at bat and sure to make two runs if fruit for play.

Here is fruit for the moralist, who, lacking the testimony of an impartial observer, will, nevertheless, have to content himself with the determination that someone is lying, as who would be able to decide on the veracity of two such convincing wails.

F. H. Clergue, of Sault Ste. Marie, in an interview recently published in an Ottawa paper, made a glowing prediction about the future of Ontario, says Iron and Steel. He is thus quoted: "I firmly believe that Canada will be a great country, and that before many years, Canada is full from end to end of natural wealth. The fact is only becoming known to the world. What will happen is this: Very soon the opportunities of Americans for profitable home investment will come to an end. A general turn of eyes toward Canada will take place. Capital will flow in and the capital will be followed by population. Just as Canadians went to the United States years ago to better themselves, so Americans will come to Canada. American capital will be followed by British capital and more or less British immigration. Once the country gets a start the rest will be easy." If Canada were a part of the United States (there could be no doubt about the magnitude of her future growth. As a separate nation there is grave doubt about any remarkable development of her industries. There are no markets. Canada does not consume any vast amount of manufactured products, not enough to permit local factories to supply home needs economically as against the cheaper production in large plants in the United States, even with a discriminatory tariff against this country added. Much less can Ontario compete industrially in neutral markets either with the manufacturers in the United States or in Europe. Canada may enjoy a moderate degree of manufacturing growth under present conditions, but until the dominion becomes a part of the United States can her magnificent natural resources burst into full and complete activity.

Georgia Wedding Causes Stir. Society Girl of Elberton Gives Her Hand to a Chinaman.

Elberton, Ga., July 23.—An affair that has created a stir in this, as well as other Georgia cities, is the marriage of Miss Jeannette Colson, a beautiful and popular young woman of this place, to Joe Jung, a full-blooded Chinese laundryman.

The ceremony was performed by Rev. Ford McBee, pastor of the First Methodist church, and was witnessed by the friends of the bride, some of the foremost people in Elberton. Miss Colson, who is a daughter of Colonel A. M. Colson, a well-known business man, was beautifully dressed in white silk, ornamented with diamonds. This and other articles of the trousseau, of large value and variety, were the gifts of the groom.

Miss Colson had many admirers among the young Caucasians of Elberton previous to her marriage, and the announcement came in the nature of a surprise to her friends. Jung has been in this country some years, part of the time being spent in Elberton, where he conducts a thriving business. He has for some time been a member of the First Methodist church and Sunday school, and speaks English fluently. His courteous manners and exemplary conduct have succeeded in gaining for him many friends, and although the union between Chinaman and Caucasian is somewhat unusual in this part of the country, little objection was interposed, as both the principals seemed to have thoroughly made up their minds.

The groom has provided a neat little cottage, into which he will take his bride. It is furnished elegantly throughout, many oriental ornaments and fittings giving to the entire home an unusual richness of design and color.

Will Employ 6,000 Men. Tin Plate Trust Completing a Big Plant in West Virginia.

Wheeling, W. Va., July 23.—The American Tin Plate company is about to put in operation at Martin's Ferry, a suburb of this city, the second largest tin plate works in the United States, and in point of modern improvements and appliances, the best in the world. It is known as the Laughlin plant, and has thirty-two hot mills and finishing capacity in proportion. It is the consolidation of the machinery of three plants, removed from Cincinnati and the Pittsburgh district, and the original Laughlin plant.

The plant throughout is run by electricity except the rolls and heaviest machinery. The plant is piped throughout for natural gas and is also provided with generators for the manufacture of coal gas for use when the supply of natural gas is lacking. The coal is carried from the mines to the exact point of consumption by means of great bins, supported on overhead trolleys, run by electricity. The company has bought within half a mile of the plant, 5,000 acres of the best Pittsburgh No. 8 vein coal, sufficient to run the plant for fifty years. The plant will employ over 6,000 men.

To Enlarge Armor Plants. Government Wires an Important Concession from the Steel Companies.

New York, July 23.—A dispatch to the Times from Washington says that the Carnegie and the Bethlehem companies have acceded to the request of the navy department to enlarge their armor-plate plants. At first the companies appeared determined not to yield, and there was considerable correspondence, which culminated recently in a letter sent by Admiral O'Neill, chief of the

NEW THEATER SEEMS ASSURED. Bids for the Construction of Hancock's Opera House Now to Be Asked.

It was announced yesterday that bids for the construction of Hancock's new opera house, which is to be erected by William Kerrelge on the site of the present St. Patrick's Hall, would be advertised for this week and that the bids will be opened the first part of next month.

The opera house project in Hancock has been the source of much comment because of the reticence of Mr. Kerrelge regarding the affair. Hancock people certainly would be greatly disappointed should the theater plan fall through.

GO INTO HIS WASTE BASKET. Sheriff Will Pay No Attention to Communications Not Signed.

Sheriff Will is being bothered of late by unsigned communications which are being sent to him almost daily from different parts of the county. The authors of the letters are evidently fearful of adding their signatures and it savors of cowardice.

CUPID'S BUSINESS RUSHING. William Oates and Miss Emily Lobb, both of Tamarack, were married at the court house yesterday morning.

It still continues uncomfortably warm in the copper country, but the ice men are happy. They are doing a rushing business these days and an extraordinary large amount of ice is being disposed of.

WHITE MAN TURNED YELLOW. Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow.

PRIZE EATING CONTEST. "They had an eating contest the other night at Pin Hook schoolhouse."

WHITE'S CREAM VERMIFUGE not only effectually expels worms, but is unexcelled as a tonic, and is a certain and permanent cure for Chills and Fever in children.

"THE OFFICIAL ROUTE." The Chicago, Milwaukee & St. Paul railway has been chosen by the Marquette, Ishpeming and Negaunee "Elks" as the line which they will use for their trip to the Milwaukee carnival July 22.

PILES, TETTER, ECZEMA. Boro-Carbol Salve will cure blind, bleeding or itching Piles where all other ointments have failed.

INSPECTOR GENERAL PLEADED. Company G of Houghton Makes a Splendid Showing.

Inspector General Fred E. Green, of the Michigan National Guard, did not look over the Army at Houghton yesterday afternoon, as was expected.

BALLOON WENT UP. But Left the Aeronaut Behind—An Exciting Time at Ontonagon.

It was at Ontonagon, and hundreds of people, including the Sunday excursionists from Houghton, Hancock and Calumet, were gathered around a huge balloon which was rapidly filling with smoke and gas from a smothering fire underneath.

HEALTH OFFICER HAS SMALL POX. Dr. Kerr, Laurium's health officer, who has been in charge of the small-pox cases of that village since his appointment to the office last spring, is now suffering with the disease himself.

TROTTER MATCH TOMORROW. Tomorrow afternoon at the Hancock Driving Park, the match race between Little Dick and Arc Light, the two speed Calumet trotters, will take place.

NEW SEWER GOING DOWN. Workmen are engaged in laying a new sewer on the south side of Shelton street, Houghton, from the corner of Hodgson Bros. & Hoar's store west to Huron street.

HIS FOOT BADLY CRUSHED. Ole Nelson, an employee of the Copper Range railroad, and his foot broken and badly crushed yesterday afternoon, while casting weighing several tons falling on the member. Nelson was engaged with others in loading the casting on a flat car in the yards of the Copper Range.

OUTSAILS COLUMBIA

CONSTITUTION AGAIN DEFEATS THE OLD DEFENDER.

IS SUPREME IN LIGHT AIR.

YACHT MILWAUKEE IS VICTORIOUS AT CHICAGO.

In Third Trial for the Canada Cup She for the Second Time Leads All Competitors, Detroit Being the Next to Finish.

New Haven, Conn., July 23.—Again today the Constitution proved speedier than Columbia in light air and fluky weather. It was in the first squadron run of the New York Yacht club from Huntington to Morris cove, and the day was remarkable for the wind, which boxed the compass completely from east to northeast, to west and southwest, to north and then to east again this evening.

Constitution crossed the starting line first, Columbia following a few seconds later. Constitution had the windward position and quickly overhauled the large fleet which had gotten away earlier. The wind here filled the lower sails of the big sloops and they seemed to derive most of their headway from the huge club topsails, which were full when the other sails were flapping.

At one time while Constitution was becalmed Columbia got a lucky streak of wind and ran past her rival, securing a lead of a quarter of a mile. Her advantage was short-lived, however, for a few minutes later the wind once again filled Constitution's sails and she glided to the front in a marvelous manner, taking the lead to the finish, increasing it constantly. On elapsed time she won by five minutes and sixteen seconds and by four minutes and six seconds corrected time, the length of the course being twenty-eight miles.

MILWAUKEE LEADS HER RIVALS.

Wins Her Second Victory in the Races to Pick the Cup Defender.

Chicago, July 23.—The yacht Milwaukee crossed the line first today in the third trial race for the Canada cup. Her victory was complete, as she led Detroit over the finishing mark by over two minutes and beat Cadillac and Illinois by six minutes.

The race today was over a triangular course, twenty-one miles in length, each leg being seven miles. The wind blew at eight miles from the east-northeast and during the latter part of the race increased to twelve miles. When the starting gun was fired at 1:30 o'clock Milwaukee, Cadillac, Illinois and Detroit were close to the line and, coming quickly about, went over with but a few seconds between them.

Cadillac was beautifully handled and soon had a handsome lead, which to all appearances would send her around the first buoy in the lead. There came a sudden increase in the breeze, however, and Cadillac, catching this first, made a rapid spurt which carried her around the buoy far in the lead, she beating the second boat—Milwaukee—to this point by six minutes.

The boats finished in the following order, the actual sailing time being given: Milwaukee, 3:26:50; Detroit, 3:26:24; Cadillac, 3:29:22; Illinois, 3:29:15; Minota, 3:38:31; Orion, 3:40:35; Prairie, 3:43:09.

DEFT TO RIVAL BALL CLUB.

Chicago National League Team Ready to Meet the American.

Chicago, July 23.—Nettled by the recent uncomplimentary comparisons of the relative strength of the Chicago National league and the American league teams—the fan club and the leaders in their respective leagues—President Hart, of the Chicago National league club, today issued a challenge for a series of seven or more games between the two local teams to be played between Sept. 30 and Oct. 15.

Yesterday's Baseball Scores.

Table with columns for team names and scores. Includes St. Louis, New York, Boston, Philadelphia, Pittsburgh, Cincinnati, and American League scores.

PAN-AMERICAN EXPOSITION.

For the above, the C. M. & St. P. railway is offering special rates by different routes to Buffalo and return. Thirty-day tickets on sale to Oct. 31. For full particulars, apply to S. B. Vaughan, Commercial Agent, Houghton. (7-3-tf)

JUDGE REFUSES TO DROP CASE.

Prosecution's Evidence at the Fosberg Trial Is All In.

Pittsfield, Mass., July 23.—The government rested this afternoon in the trial of Robert S. Fosberg for the alleged killing of his sister May at the conclusion of the testimony of an unexpected number of witnesses summoned by the prosecution yesterday.

There was a sensation at the opening of this morning when Judge Stephens ordered the expulsion and exclusion of several representatives of three New York papers because of an article which had been published relative to an alleged episode at the grave after the tragedy.

The chief witness for the government today was Chief of Police Nicholson. He described what he found in the Fosberg house after the killing, mentioning particularly a metal lamp which was dented as if by a blow and the broken castors of a bed in the defendant's room.

At the conclusion of the government's case, the counsel for the defense suggested to the court that the case be dismissed for lack of proper evidence.

DR. KOCH STARTLES MEDICAL MEN

Great Scientist Says Bovine Tuberculosis Cannot Be Taken by Humans.

Berlin, July 23.—Professor Koch of Berlin, the discoverer of the tubercle bacillus, today startled the medical and scientific world by announcing that bovine tuberculosis cannot be transmitted to the human system.

"I arrived at the discovery through what I consider practically indisputable tests. These experiments lead me to believe that human tuberculosis and bovine tuberculosis are two entirely distinct species. I have found that human tuberculosis is incapable of inoculation into the animal system. Proceeding from that premise, I am prepared to show that humanity's far-reaching precautions against infected cattle may all for all be abandoned."

Dr. Koch's new theory produced an effect like that of a lightning bolt when it reached the ears of the world's medical experts assembled in London for the great tuberculosis congress. Dr. Allen F. Haight of Chicago, official representative of the American Medical Association, said: "If I had not heard Dr. Koch quietly announce his discovery in the course of private conversation last evening, I would seem to me absolutely incredible. I can only say that Dr. Koch is too profound a student and has too much reputation at stake to propound such a proposition unless convinced of its soundness beyond a shadow of doubt."

English experts talked of the theory with mingled astonishment and contempt. They asserted that the German professor would encounter a stubborn debate on the part of the learned in disproof of his revolutionary but faintly credible theory. The discovery is certainly of the highest importance, especially as regards milk. As far as meat is concerned, it has not been generally believed that it contained elements of danger when it had been cooked, therefore the announcement is of comparatively less significance to the civilized world.

Y. M. C. A. ATHLETES MEET.

Buffalo, July 23.—The first day of the international meet of the Athletic League of the Young Men's Christian Association of North America was held in the stadium this afternoon. The weather was ideal, the track in good shape and the finishes close, especially in the 100-yard dash, which was won by R. B. Barrett of Chicago in 10 seconds flat. Seymour of Syracuse equaled the Athletic league record in the pole vault, the distance being 10 ft., 2 in.

RECEIVERS FOR BIG TEXAS CO.

Fort Worth, Tex., July 23.—Judge Wallace today appointed J. V. Good and W. H. Fuqua receivers for the Capital Free Hold Land & Investment company, better known as the "Capital Syndicate company," whose property is estimated to be valued at nearly ten million dollars. The petition alleged that J. V. Good and C. D. Farwell and Abner Taylor of Chicago illegally held the land and estate of the corporation permanently.

WRESTLER JENKINS DOWNS MOTH

Milwaukee, July 23.—Tom Jenkins of Cleveland defeated Charles Mott of Milwaukee tonight in a catch-as-catch-can wrestling match, winning two falls in twenty-four minutes.

WEATHER FORECAST.

Washington, July 23.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Wednesday, probably local showers; Thursday, partly cloudy; light east to south winds.

ELKS PICK PICKETT

IOWA MAN IS ELECTED EXALTED RULER ON FIRST BALLOT.

COPPERDOM MEN MAKE HIT.

ATTRACT MORE ATTENTION THAN ANY OTHER DELEGATION.

Distribution of "Coppers" Catches the Crowd, While the Calumet & Hecla Band Is Booked for a Prize.

Milwaukee, July 23.—The Calumet & Hecla band made a great hit at the Whitefish bay band contest tonight, and many of the spectators believe it will be accorded a prize when the winners are announced.

The grand lodge of the Benevolent & Protective Order of Elks completed its first day's session late tonight, having elected the following officers: Grand Exalted Ruler—Charles E. Pickett, Waterloo, Ia.; Grand Esteemed Leading Knight—Al G. Field, Columbia, O.

Grand Esteemed Loyal Knight—William B. Brock, Lexington, Ky.; Grand Esteemed Lecturing Knight—Judge A. H. Pickett, Denver; Grand Secretary—George A. Reynolds, Saginaw; Grand Treasurer—E. C. Orris, Meadville, Pa.

Grand Trustee—Henry W. Mears, Baltimore; Grand Tyler—Joseph Henning, Anderson, Ind.

Aside from the election of officers, the business of the first executive session consisted of the presentation and reading of reports and the transaction of other routine business. The opening exercises consisted of informal addresses. Charles H. Hamilton of Milwaukee presided and with Mayor David S. Rose, who is also an Elk, welcomed the guests. Judge Jerome R. Fisher, grand exalted ruler, responded to the mayor's greeting. The morning session was open to the public. At the afternoon session, the report of the grand exalted ruler was presented, showing the order in prosperous condition.

Day's Social Doings.

The feature of the social side of the big gathering was a magnificent parade of military and civic orders which passed through the principal streets this afternoon. This was followed by the dedication of the Elks' fountain in Juneau Park. The band concert at Whitefish bay was the feature of tonight's program.

BIG MARINE STRIKE THREATENS.

Cleveland, July 23.—Secretary Henry Barter of the International Longshoremen's association says that a sympathy strike calculated to tie up completely six lake-and-rail steamer lines will be called on Aug. 1 unless the labor troubles existing at Cleveland and Erie between the package-freight handlers and the transportation companies can be settled. For a long time—in fact, nearly all the present season—the freight handlers at these mentioned ports have been in difficulty.

The trouble at Erie is principally over a boss by the name of Kane, who, the men say, has given work to Scandinavians and other foreigners in preference to the old men, and otherwise made himself obnoxious as an employer.

INCREASING ITS ORE SHIPMENTS.

Fayal Mine Will Beat Its Own World's Record This Year.

Duluth, July 23.—The Fayal iron mine, the property of the United States Steel corporation, is now shipping more iron than any mine in the world has ever sent out. It has just made requisition for an additional car service of 200 cars daily or an addition to its output of 6,000 tons each twenty-four hours, and is now sending down 15,000 tons a day. This is at the rate of 90,000 tons weekly and about 1,500,000 for the season.

WRESTLER JENKINS DOWNS MOTH

Milwaukee, July 23.—Tom Jenkins of Cleveland defeated Charles Mott of Milwaukee tonight in a catch-as-catch-can wrestling match, winning two falls in twenty-four minutes.

WEATHER FORECAST.

Washington, July 23.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Wednesday, probably local showers; Thursday, partly cloudy; light east to south winds.

FIRE LOSS IN COLORADO.

Golden, Colo., July 23.—The manufacturing department of Church Bros. pressed brick works, was destroyed by fire today. The loss is \$100,000.

HORROR IN OIL EXPLOSION.

Fifteen Lives Lost on an American Vessel at Stockholm.

BIG BOGUS MONEY SWINDLE.

Notes of Dead Bank Are Passed but Federal Officers Cannot Prosecute.

Washington, July 23.—An extraordinary case of dealing in bogus money has come to light, the most embarrassing feature of which is that the perpetrators are beyond the reach of the federal laws.

John E. Wilkie, chief of the secret service, has recently received complaints from operatives of the secret service at San Francisco, Cleveland, Pittsburg, Detroit, Buffalo and other large cities.

Some of the notes thus issued are said to be unsigned and undated. They closely resemble Canadian paper money, are executed on good paper and are good specimens. Having been made from the original plates, they escape detection until now.

The notes readily pass along the Canadian frontier, as the takers think they are the notes of the Canadian province of New Brunswick, the words "New Jersey" having been printed in small letters.

The leading futures ranged as follows: September wheat opened at 71 1/2; highest, 72 3/4; lowest, 70; closed, 70 1/2. September corn opened at 55 1/2; highest, 56; lowest, 54; closed, 55 1/2. September oats opened at 36 3/8; highest, 38; lowest, 35; closed, 35 3/4.

GLOBE-GIRDLING DISAPPOINTS.

Comparatively Slow Time to Surprise to the Paris Traveling Societies.

Paris, July 23.—Considerable disappointment exists among the members of the French Geographical club and the various traveling societies with regard to the probable outcome of the globe-girdling contest which is about to be decided.

With the arrival of Mr. Stiegler, the Matin's competitor, in New York today it becomes possible to set a date for his return to Paris, which, unless any accident should occur, will take place on the evening of July 31, sixty-four days after his departure, representing a gain of only sixteen days over Phineas Fogg, Jules Verne's legendary hero.

WALL STREET SKEPTICAL.

Damage to Crops Felt Exaggerated and Market Turns Strong.

New York, July 23.—The subservience of stock speculation to the varying crop conditions and to the daily weather map was again strikingly demonstrated today.

A second rise carried some stocks higher than the opening, but the subsequent uncertainty of the price movement reflected the hesitation of stock traders about repeating last week's attempt to revive the boom movement with the crop situation still a factor.

The late advance in prices to the top level of the day seemed to be based on the general consideration that the damage to the crops has been discounted. At these prices, which were made in an hour, St. Paul went 5 1/2 points above last night, Union Pacific 4 1/2, Atchison 4, Southern Pacific and St. Louis Southern preferred 3 1/2 and Missouri Pacific 2 1/2.

THE PROBLEM.

DOROTHY in the nursery can calculate the price of Ivory Soap per cake, but it would take a mathematical genius to calculate its true value. For he must take account of time, labor, and materials. He must deduct from the apparent cost the saving in the longer life of the cake, in the longer life of the washed fabric, in the labor required, in the time consumed, in the strength expended, in the results obtained. When all is finished, Ivory is the cheapest soap in the world. It floats.

THE PROBLEM.

The idea seems to prevail that the department is in constant touch with the agricultural districts everywhere, and can furnish data at a moment's notice. As a matter of fact it receives such returns only once a month, the crop conditions being reported as they appear to the field agents on the first of each month. As these reports number 250,000 it takes some days to tabulate them and cast up the average, so that the results are not given to the public till the 10th. When that work is out of the way the whole matter goes over till the next month. Moreover the reports are all on conditions. The department does not attempt to forecast the number of bushels of grain which will be forthcoming. All its work on the figures of the yield is reserved till the harvest.

Speaking of the public interest in the corn crop Mr. Holmes, the acting statistician, said: "Nothing would please us better than to be able to answer the inquiries on this head, but even if we had the figures in the office all we could give would be an approximate estimate. The damage to the corn crop is progressive. While we were getting the figures for today's report ready the conditions might be changed so that tomorrow's report would wear a very different aspect." The impression at the department, but not necessarily only an impression, but the fruit of experience of past crises of the same sort, is that the reports have been somewhat more pessimistic than the facts clearly justified, and that the crop as a whole, though hard hit, will not be found to have suffered so much damage as is now supposed.

SLUMP IN CEREALS

GRAIN PRICES BREAK VIOLENTLY ON HEAVY LIQUIDATION.

SELLING THE ORDER OF THE DAY.

CORN LOSES 4-1-8 AND WHEAT AND OATS 2-1-8 EACH.

Stocks, on Contrary, Are Strong Though the Hot Wave Continues, the Feeling Being the Crop Damage Has Been Discounted.

Chicago, July 23.—Disappointing cables, heavy receipts and more favorable reports from the spring wheat country caused weakness in wheat today. Added to these bearish factors was the influence of corn. The opening for September was 3/8 to 1/8 cents lower, at 72 to 71, longs selling freely. On the decline, covering by shorts brought the prices up again from 70 1/2 to 72. However, under heavy liquidation and no support, the market worked back to 70 1/2. The closing was weak at 70 1/2, or 2 1/8 lower. The seaboard clearances of wheat and flour were equal to 55,000 bushels. The receipts were 539 cars, 234 of them contract.

Corn was active and nervous, closing lower. At the opening there was a grand rush to sell, and September opened all the way from 39 down to 35, the latter figure being 4 1/2 cents under yesterday's close. A recovery to 55 1/2 occurred almost as quickly as the opening decline, the rally being caused by the weather predictions, which were for continued dry weather. Liquidation continued, however, and weakness developed. September closed 4 1/2 cents lower, at 55 1/4. The receipts were 288 cars.

Oats were active but weaker, declining in sympathy with corn. Country selling, from which source the most recent support has come, was a feature. The close was easier on the whole. September closed 2 1/8 cents lower, at 33 1/2. The leading futures ranged as follows: September wheat opened at 71 1/2; highest, 72 3/4; lowest, 70; closed, 70 1/2. September corn opened at 55 1/2; highest, 56; lowest, 54; closed, 55 1/2. September oats opened at 36 3/8; highest, 38; lowest, 35; closed, 35 3/4.

AIMED AT UNITED STATES.

Proposed New German Duties Likely to Invite Retaliation.

Washington, July 23.—Retaliatory legislation may be enacted by congress if the German government yields to the demands of the agrarians and imposes the proposed increased duties on farm products. Representatives may be made to Germany through Ambassador White, protesting in diplomatic language against the proposed increases of duty, but the president can go no further. There can be no retaliation without action by congress, as there is nothing in the present law authorizing the executive department to adopt such measures, except to a very limited extent.

DROUGHT GOD'S PUNISHMENT.

Illinois Divine Regards It as the Penalty for National Wickedness.

Galesburg, Ill., July 3.—In the ruinous drought now spreading over the crop districts Rev. O. C. Bedford, pastor of the Knox street Methodist church of this city, sees the hand of the Almighty. In his sermon Sunday night he told his hearers it was the punishment of God for national wickedness and the turning away from prayer.

Rev. Mr. Bedford maintained that the people of the United States are more wicked in some respects than the people of any other period in the history of the country. Family worship, he said, is being dropped and there is no power in the church. God, he added, is therefore, taking away the corn and is thus leading the people to prayer.

**M. R. Manhard**  
(7-16-6d) City Treasurer.

**MARQUETTE HARBORS.**  
Capt. Gaillard Wants \$60,000 for the Concrete Breakwater.  
The Detroit Free Press has the following statement concerning Captain Gaillard's report on the Marquette harbors: "Improvement of the harbor of Marquette—No construction work was in progress during the past year, but there has been expended in work upon the project to date \$57,492. The result has been, says the captain, 'the complete protection of the ore, coal, lumber and commercial docks from storms, and has demonstrated the stability and permanency of the concrete superstructure.' 'Amount estimated necessary to complete the existing project, \$100,000; asked for next year, \$60,000 for improvement and \$3,000 for maintenance. In the 23 years since the work began on the harbor, the commerce of the port amounted to at least \$165,000,000. 'Improvement of the Harbor of Refuge, Marquette bay—The project was finally completed in 1900 at a total expenditure of \$31,205. Recent examinations show the work to be in excellent condition, so no appropriation is asked even for maintenance.'"

**ATTORNEY GENERAL'S OPINION.**  
It Effects Section 10 of the New Game Law.  
The Mining Journal is in receipt of the following from State Game and Fish Warden Grant M. Morse:  
"Portland, Mich., July 20, 1901. 'I am in receipt of Attorney General Orin's opinion relative to the effect of error in Section 10 of the new game law passed by the last legislature, which concludes as follows: 'Section 10 of said act is unconstitutional beyond question. The balance of the act being independent of Section 10 is being independent of and capable of being executed in accordance with the intent of the legislature and is therefore valid. The provisions of law in force prior to the passage of said act relative to quail, spruce hen, woodcock and partridge would not be repealed by Section 24 of said act and would remain in force.' 'In accordance with the attorney general's opinion this department will hold the open season on game birds as follows: All wild waterfowl, October first to November thirtieth, both inclusive; quail, partridge, spruce hen and woodcock in the lower peninsula, from October twentieth to November thirtieth, both inclusive. In the upper peninsula partridge may be killed from October first to November thirtieth, both inclusive, in each year. 'I would be pleased to have you give this opinion as much prominence as possible in your columns and request all state papers to copy same.'"  
**DULLNESS CONTINUES.**  
But There is No Selling Pressure in the Coppers.  
There is no appreciable change in the copper situation. The dullness continues yesterday, with prices selling off slightly, although no present outlook is expected. Paine, Webber & Co. said: "The continued dullness of coppers fails to develop any selling pressure. It seems rather that certain interests are taking advantage of the dullness to accumulate large lines of the better class of coppers and the present outlook favors a good rally in the near future. The improvement that is going on in New York will strengthen Boston situation as it promises to give belated holders of New York stocks a chance to realize. The metal markets feels firm and we see no obstacle in the way to prevent a good market in copper stocks." Hayden, Stone & Co. wired the Laidley Commission Co.: "Coppers are very dull. All interest is now in the New York list. We would buy stocks on long term. While this extremely hot weather here, we cannot expect any big movements. We think Osceola a great purchase. It has every chance to appreciate and before long the North Kearsarge property will be producing." A. R. Jones & Co., said of wheat: "Showers in some portions of the West and traces of rain in others started wholesale liquidation in all grains this morning. Wheat lost 1/2 during the first few minutes, but nearly all this was recovered on commission house buying. Later in the day the demand played out. All support was removed and the market worked off easily to a close at the bottom, a two cent loss for the day. Relatively, wheat was strong. The trade begins to realize that the coarse grains are very high, while wheat is not, particularly considering the demand to the spring wheat, which good authorities place as high as fifteen per cent. Today's break puts the market on a better basis, but it is all a question of weather."

**MARINE MATTERS.**  
Passed the Canal.  
Sault Ste. Is your liver tired? Does it fail to do its duty? If so, don't neglect its call for help. A few doses of HERBINE will save you a spell of sickness. HERBINE is the only perfect liver medicine. It cures Chills and Fever. Price 50 cts. Stafford Drug Co.  
DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's. Stafford Drug Co.; H. N. Meloche, Ishpeming.  
Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success." The People's Drug Store.  
\$144,000 FOR HAY LAKE.  
Washington, July 23.—Colonel J. D. Lydecker, in charge of river and harbor work for that district, recommends that \$144,115 be appropriated for Hay Lake channel, St. Mary's river, Michigan, for the fiscal year ending June 30, 1903.

**E. L. KELLAN WHOLESALE GROCER.**  
MARQUETTE, MICH.

**IF WOMEN ONLY KNEW.**  
What a heap of happiness it would bring to Marquette Homes.  
Hard to do housework with an aching back.  
Hours of misery at leisure or at work. If women only knew the cause: Backache pains come from sick kidneys.  
Doan's Kidney Pills will cure it. Marquette people endorse this.  
Mrs. Wm. McLean of 433 Jackson St. says: "There was a heavy aching pain across the small of my back and through the groin, and a dull tired feeling all over me. The kidney secretions were irregular and highly colored. I could not rest at night, and rose in the morning feeling more tired and unrested than when I went to bed. I also suffered from spells of headache every few days, in fact was rarely free from them. Seeing Doan's Kidney Pills advertised for just such troubles I procured a box from the Stafford Drug Co. and began to use them. I felt better after a few doses and continuing the treatment, I was cured."  
For sale by all dealers, price 50 cents. Foster-Milburn Co. Buffalo, N. Y. sole agents for the United States. Remember the name Doan's and take no substitute.

**LABOR SCARCE AT MUNISING.**  
Consequently the Supply of Tan Bark is Insufficient.  
Mr. A. P. Utter, general manager of the Munising, Petoskey and Marquette tanneries, who has been spending some time in the city, was remarking to the Republican last week upon the fact of the great scarcity of labor in Munising, says the Munising Republican. He said: "We shall succeed in getting only five or six thousand cords of bark peeled for our Munising tannery this season, whereas we should have at least ten thousand cords. We have only about seventy men peeling bark and we should have two or three hundred." In reply to the question as to what effect this will have upon the tannery, Mr. Utter replied: "We will get in enough bark to keep the tannery running at its present capacity, but this is not what we want. It is the desire of the company to enlarge the tannery here, possibly double it and it will be done as soon as the conditions will warrant doing so. The conditions to which I have reference are labor and the bark we are able to have delivered at the tannery. The supply of bark in this section of the peninsula is almost unlimited, but that does not help us out when we cannot get it peeled and delivered. Our experience here is just the same as it is in every place where a new tannery is built. It takes some years before the bark supply is what is desired. When it is apparently the most plentiful it is the hardest to get, and when it is almost exhausted it is the easiest to keep a good stock on hand. When the lands in this section are settled upon by home-builders our present trouble will be eliminated. We hope that this may be in the near future, because it is our earnest desire to enlarge our business here."  
The Munising tannery is one of the most reliable and profitable industries of Michigan and Alger county and it is earnestly desired that the conditions will soon warrant the management in enlarging its business.

Cut Off by Father, He Revolutionizes Locomotive Construction.  
New York, July 23.—Cornelius Vanderbilt is the man of the hour in railroad circles. His new locomotive, with cylindrical firebox and multitubular boiler, promises to revolutionize locomotive construction. Saving on coal over the ordinary furnace is computed at nearly 30 per cent, while the additional power obtained adds further to the economical operation of the engine.  
When young Vanderbilt turned his gifts to solving the fuel question he showed wisdom and genius. He was a young man cut off by a father's will from his share in the vast estate, but he had a career and a future up his sleeve, and saw the possibilities of opening a way to amassing new fortunes.  
It is estimated by certain friendly experts at the Grand Central station that Mr. Vanderbilt has now on record twenty or thirty patents for inventions of various kinds in locomotives alone. Ten or twelve of them are of great importance. They reverse methods that hitherto have distinguished locomotive architecture.  
Mr. Vanderbilt is still perfecting his locomotive, which is probably the finest and most vital piece of machinery yet invented. The latest up-to-date Vanderbilt locomotive turned out by the Baldwin works in Philadelphia has a cylindrical water tank tender which is considered a great success. It does away with the old-fashioned box construction, clumsy, heavy, artistic, and unscientific in every particular. The tank system adopted by Mr. Vanderbilt is lighter, stronger, far more satisfactory and economical. The water does not wash around and stain the tank as with the ordinary locomotive tender.  
It is stated by a representative of the Baldwin works that the two features of the Vanderbilt locomotive firebox—its cylindrical shape and corrugated length—give it more efficiency and durability than the present firebox, besides affording more resistance to the enormous pressure of water. When out of order it could be repaired in a day or two, and the engine put on the road again for service.  
The proof of the value of Mr. Vanderbilt's invention is that the New York Central railroad, by advice of its engineers, has placed an order for 100 locomotives to be built with the Vanderbilt improvements. Fifty or sixty of these locomotives are to go into the passenger service. But this is not all. The Union Pacific, the Baltimore and Ohio, the Illinois Central, and other lines are using locomotives of this type and sending in orders for more of them.  
Mr. Vanderbilt says: "Unless I am greatly mistaken, the multitubular boiler will be in general use within the next three years. I am now working upon the particular style of boiler. The present firebox is really primitive. It is much like that employed by Stephenson, inventor of the first railway engine. The fact that the box-shaped form is the prevailing type is due rather to the conservative instincts of the locomotive builder than to any intelligible cause."

## Ishpeming and its Environs.

OFF FOR MILWAUKEE.

Marquette County Elks Departed for the Cream City Monday Night.

Upwards of a hundred happy Elks left here Monday evening to attend the carnival now in full swing in Milwaukee. The herd is composed of Marquette, Negaunee and Ishpeming Elks, over fifty being members of the local organization. The train from Marquette reached here about 8:45 o'clock and was met by the Ishpeming herd, headed by the City band. After a few minutes spent in greetings the Elks marched to the club rooms in the Tontoff block. There refreshments and cigars were served and a reception held.

The train was made up of two Pullman sleepers and a baggage car. At Republic another Pullman was added. The copper country delegation numbered about 150 and the combined herds will make a creditable showing. The number was not as large as was anticipated here for a month ago it was estimated that at least 600 Elks would attend from the upper peninsula. The Marquette city lodge turned out only seventeen members. Ishpeming and Negaunee furnished eighty-five. The number that went down on the special, however, does not begin to represent the real strength of the delegation from this section. The Northwestern road carried many Elks on its regular train Monday evening and both this road and the St. Paul did a large traffic business to Milwaukee yesterday.

The streets Monday evening were crowded with people who turned out to greet the visitors from Marquette and Negaunee and to give the whole herd a rousing farewell. Canda and Main streets were so crowded that it difficult to get through the mass of humanity.

The visitors were greatly pleased with their reception. Among the Ishpeming and Negaunee Elks that went to Milwaukee on the special train were: J. H. Rongh, Charles Morris, George Sedgwick, Thomas Connors, D. Campbell, Captain Collick, S. Johnson, Ben La Londe, C. T. Kruse, H. Jaedecke, J. W. Joehim, Thomas Crabb, W. J. Curtis, James Clancey, J. E. Sues, J. R. Hodgkins, B. J. Goodman, Dr. Conley, A. J. Yungbluth, Paul Presentine and others.

### CAPTAIN CROSSMAN DEAD.

Captain John Crossman, formerly of this city, whose illness was noted by The Mining Journal about ten days ago, died last Thursday at Globe, Arizona. Blood poisoning as a result of a prod with a miner's candle stick, caused his death.

Mrs. Crossman, who was called to Globe on account of her husband's illness, arrived there the previous Monday. She found the captain in excellent spirits and in a fair way to recovery. Wednesday night a turn for the worse set in and he sank rapidly. The remains were buried at Globe. Mrs. Crossman is expected home soon.

The deceased was forty-two years of age. He was known to many Ishpeming people as he spent several years here before going to Arizona. Before leaving Ishpeming, some five years ago, he was employed as underground foreman at the Cleveland Lake mine. At the time of his death he was superintendent of the Black copper mine near Globe.

### NEWS OF THE COURTS.

Several minor police cases came up yesterday in the justice court. Judge Kennedy issued a warrant for Frank Corso, an Italian boy, who is charged with stealing \$5 from a teamster by the name of Conroy. Corso will have his hearing this afternoon. The examination will be conducted by C. D. Blanchard of Marquette, superintendent of juvenile offenders. The lad will probably be sent to the state reform school. His parents complain that he is a hard boy to discipline and that he has not been at home for over three weeks.

Alex Nelson was arrested for cruelty to animals, Oscar Peterson charging him with beating and torturing his cow. The defendant will be tried this morning at 10 o'clock by Judge Kennedy.

A man arrested for being drunk and disorderly was fined one dollar and costs by Judge Peters.

### BAD BUSH FIRE.

J. C. Downing spent Monday in the woods south of Ishpeming. He reported that the fire which drove the pioneers from Camp Clark Saturday night, all that day and it appeared to him that much of the standing timber out there would be destroyed. He said he felt certain Camp Clark, also a camp owned by Negaunee parties, went down. He did not think the flames reached Camp Nine. Heavy rain is the only thing that will put out the fire. The rain of Saturday night had little effect, as the fire burned fiercely all next day. The loss of the camps would be greatly regretted by the parties interested. Both of the local camps are well supplied with furniture and other articles needed to make them attractive and comfortable.

### CHURCH IMPROVEMENTS.

For the past few weeks carpenters and painters have been at work at St. Joseph's Catholic church, and parsonage. A complete renovation has taken place at Father Poulain's residence and many minor repairs have been made to the church.

The alters have been painted and new electric light fixtures installed. The chandeliers are said to be the finest in any church in the upper peninsula. The young ladies of the parish are going to give an entertainment sometime in August to assist in paying for the improvements.

### LANGAN TO ESCANABA?

There was a persistent rumor here yesterday that Rev. J. M. Langan, who has been pastor of St. John's church here for the past several years, is about to leave Ishpeming to assume charge of a new parish to be organized among the Irish-Americans at Escanaba. Inquiry at the episcopal residence at Marquette last evening elicited the information that there is nothing official to give out in connection with the report. It is generally believed that the story is well

grounded. If it proves true, Rev. Langan's departure will be observed with great regret by all classes and peoples here.

### GOLF TODAY.

The golf tournament postponed from Saturday on account of the storm will be played off this afternoon. It is expected that a large number who were unable to participate Saturday will turn out today. To the winner a silver cup will be given. This trophy was presented by Dr. Vandeventer, the president of the club. The few who finished the contest last week, will not be obliged to play today, as their scores will stand.

### ALL SHOULD DECORATE.

The Sons of St. George are desirous of having all persons living along the line of march for Saturday's parade decorate their homes. If the business people will also decorate the favor will be very much appreciated by the Sons. The celebration will be the largest and most important Ishpeming will have this year and all are asked to assist in making it a big success.

### IT DAZZLES THE WORLD.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. It's severest tests have been on hopeless victims of the consumption, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by the Stafford Drug Co. who guarantee satisfaction or return money. Trial bottles 50c and \$1.00. Trial bottles free.

### ISHPEMING IN BRIEF.

The Ishpeming office of The Mining Journal is at 120 Main street, where payments of subscription and other accounts can be made. All having business with the paper are invited to call.

Ira Blossom of Marquette was a business visitor here yesterday.

Eleven excursionists, from this city left yesterday for St. Anne de Beaupre.

A daughter was born Sunday to Mr. and Mrs. John Hudson, South Pine street.

Miss Anna Richards, who was visiting in Duluth and Virginia City, Minn., has returned.

Mr. and Mrs. Matt Rich of Horicon Wis., are visiting at the home of W. H. Johnston.

A large Ishpeming delegation will attend the horse races to be held in Marquette today.

The Misses Fording, who have been visiting for a month with Mrs. Dalstrom, have returned to their home at Oconomowoc, Wis.

Father A. Poulain, pastor of St. Joseph's church, will go to Marquette today to attend a retreat now being held at the episcopacy.

For the racing matinee to be held in Marquette today and tomorrow the South Shore race is offering a special rate of fifty cents.

A special meeting of the council will be held this evening to consider the question of adopting a meter system to conserve the water supply.

W. J. Allen of Humboldt, captain of the Bessie mine, was in the city Monday transacting business and visiting at the offices of the Oliver Iron company.

Alec Erickson, manager of the Ishpeming baseball team, is endeavoring to arrange a game with the Crystal Falls nine to be played at Union Park Sunday.

Repairs to the city streets are progressing rapidly. A gang of men is at work grading and curbing West Superior street and the curbing on Second street was laid yesterday.

John Smetz of this city has been chosen by the Ishpeming, Escanaba and Soo cigar makers' union to represent them at the National convention, to be held in Baltimore in the early part of September.

The fire insurance adjusters have placed the loss on St. Joseph's church which was struck by lightning Saturday evening, at \$200. The amount was paid to Father A. Poulain, pastor of the congregation, yesterday.

Nine men left Monday night for Grand Forks, North Dakota, to work in the wheat fields. There is a scarcity of labor in that section and farm hands are receiving two and three dollars a day and their board.

A car load of horses from the copper country passed through the city yesterday morning, enroute to Chicago, where the animals will be sold at auction. It is seldom that horses are shipped from this section to the Chicago market.

Over fifty candidates were initiated into the local lodge of the Sons of St. George at a meeting held Monday evening. About twenty-five more will be received this week. The celebration has been productive of enthusiasm, and all who are eligible are scrambling to get into the society.

Len Johnson, chemist at a Negaunee mine, narrowly escaped being seriously injured while riding his wheel from Negaunee to this city Saturday morning. Mr. Johnson was wheeling at a high rate of speed, when he ran into a dog. Johnson's arm and head were injured and he experienced a bad shaking up.

If you want summer goods cheap buy now at Braastad's Everything marked down.

Candy, made fresh every day, at Luff's candy palace.

Those who live on farms are liable to many accidental cuts, burns and bruises, which heal rapidly when BALLARD'S SNOW LINIMENT is promptly applied. Price 25 and 50 cts. Stafford Drug Co.

## Upper Peninsula.

Saturday was the hottest day of the year at Menominee, the thermometer recording over 100 degrees for many hours. There was little wind stirring and manual labor was abandoned to a considerable extent. A number of prostrations were reported.

Soo militia officers and prominent citizens of that city are endeavoring to have the Soo military band appointed the regimental band of the Third regiment, M. N. G. The military band is a fine organization, composed of excellent musicians and would be well fitted for the honor it aspires to.

Frank Sabatino, the proprietor of a candy store at the Chapin location, near Iron Mountain, was arrested Monday, charged with selling liquor without a license. Although confessions were the only things displayed in his little store, a customer called for wine and got it. Sabatino will have a hearing Monday of next week.

Mike Lennon, the well known attorney, formerly of Hurley, is in jail in Honolulu. The dispatches published in the daily papers state that he has been a resident of that city for some time past, and a short time ago was married to a prominent society belle. He has evidently been up to his old tricks, however, as he was arrested on a charge of passing worthless checks, just as he was about to board a steamer for the states.

Attorney M. D. Bryce of Detroit, representing Detroit and eastern capitalists, is in Menominee this week securing the right-of-way for an electric line to be built from Green Bay to Menominee. There is only one thing which delays an immediate start on the work and that is the necessity of obtaining a franchise for the use of the Oconto streets from the council. It is expected that this franchise will be granted with little loss of time.

Henry Schwelienbach, of Menominee, was recently honored with an appointment, by Colonel Bates of Ironwood, in the National Guard of this state. His position is that of regimental sergeant major, Third Infantry, the highest non-commissioned office in the regiment. Mr. Schwelienbach is agent for the Leisen & Henes Breving Co., and is well known in the upper peninsula, having served as a member of the Iron Mountain company during the Spanish-American war. He succeeds George Campbell of the Soo.

Edward Watts, a young man employed at the Pewabic mine, Iron Mountain, had an escape from death Sunday which was almost miraculous. He was loosening rock near the top of a chute, when a piece gave way suddenly and sent him backwards into the chute. He fell over forty feet, but, strange to say, escaped absolutely unharmed, the piece of rock which knocked him into the chute falling to fall on his prostrate body, but catching and being held some feet above him.

The Soo Maroons and the Escanaba Sandpipers played two games of ball Saturday and Sunday. The Maroons, who had been decisively defeated by the Escanaba in two games earlier in the season, went in to retrieve their reputation. They won the first contest and had the second well in hand when it broke up in a row at the end of the eighth inning. Both teams and the newspapers of both cities have harrumphing tales to tell of the rovelism and hot antics of the opposing players. According to the Maroons and the Soo News Record the Escanaba aggregation is a gang of professional thugs, the only man on the nine who did not kick up a disturbance being a dumb player. The Sandpipers and the Escanaba Mirror say equally cruel things of the Soos. It is said that the two teams will never again meet on the diamond and an impartial observer is inclined to say that it is a good thing. All the players on either team, it appears, should take dancing school lessons and master polite manners.

Loss of Vitality is loss of the principle of life, and is early indicated by failing appetite and diminishing strength and endurance. Hood's Sarsaparilla is the greatest vitalizer—it acts on all the organs and functions, and builds up the whole system.

Superior ice cream and choice fruits at Luff's candy palace.

Our inventory sale of lace curtains is on. All kinds going cheap. F. Braastad & Co.

A boon to travelers. Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, seasickness, nausea. Pleasant to take. Perfectly harmless.

A big assortment of shirt waists going at cost at Braastad's.

### NOTICE TO CONTRACTORS.

Bids will be received by the Cleveland-Cliffs Iron company up to twelve o'clock noon on August 1st, 1901, for the erection of twenty houses in the city of Ishpeming. Plans and specifications are on file at their office and may be examined there.

Each bid must be accompanied by a certified check for the sum of \$500.00, made payable to the Cleveland-Cliffs Iron company, to secure the signing of contract and the furnishing of good and sufficient bond for its performance. Bids should be addressed to the Cleveland-Cliffs Iron company and marked "Bid for Houses." The right to reject any or all bids is reserved.

M. M. DUNCAN, Agent.

The ladies can get shirt waists almost at their own price at Braastad's.

### THE GREATEST PURIFIER.

### GENERAL REPAIRS

ARE NEEDED AT THE SEVERAL SCHOOL BUILDINGS.

ESTIMATES BEING OBTAINED.

BOARD WILL DO THE MOST PRESSING WORK.

Structures Have Received No Thorough Overhauling in Years and lay Are Pretty Well Run Down.

If the trustees proceed to authorize all the school repairs just scheduled by Superintendent Thompson and a couple of the board members, the buildings of the Marquette system will be in better shape when work is resumed this fall than at any previous time in their history.

The schedule of proposed repairs, including painting, kalsomining, steam fitting, plumbing, carpentering and miscellaneous work, may now be found with Superintendent Thompson who will also direct possible to cover the ground thoroughly, what things will be allowed to go over to other seasons.

Of course, as usual, the financial question is the sticker. Every repair embodied on the schedule is essential to put the schools in good condition, but the list is long and the aggregate expense would be great. The board has a limited amount of money at command and it is all too possible that it will be impracticable to do all the work this year. In that event the most pressing alterations and improvements will be made.

The proposed changes and repairs cover everything from the installation of a new heating plant at the Hampton street building to a provision of picture moulding in the rooms where it is needed.

#### Where Work Will Be Done.

Following is the complete schedule: Kalsomining—All rooms and halls in the Fisher street, Nester addition, Fourth street and Third street buildings. Painting—Nester addition, Third and Fourth street schools, inside and outside; Hampton and Fisher street schools, doors, windows, steps and ceilings. Ely school, outside work.

Refrigerating desks—All single desks, except in the high school, this refrigressing to consist of scraping and varnishing. Whitewashing—Basements throughout all buildings, except at the Ely.

Picture moulding—In all buildings where needed.

Blackboards repaired—In all buildings where needed.

Steam heating and plumbing—Hampton street school, new steam heating plant and water closets; Nester addition, covering steam pipes, cement floor in the basement, water closets and sewer connections; Fisher, covering steam pipes and cement floor in basement; Fourth, furnace bricked in and pipes covered, water closets repaired; Third, cement floor in basement, furnace bricked in, water closets replaced. Steam pipes are to be repaired in all buildings where necessary.

Carpenter work—Third street school, hardwood floors throughout, inside stairway, front, removed; Hampton street, storm doors, cupola removed and roof repaired, east line fence and wall rebuilt, inside stairs repaired; Fisher street, storm doors, repairing inside stairs, cupola and roof repaired.

At the Third street building it is proposed to move the closets from the basement, where they are now located, to the first floor, putting in a new outfit throughout. This will permit the removal of the inside stairways to the basement, mentioned in the above schedule.

#### In Bad Condition.

As will be seen from the above enumeration much work is required to put the several buildings in first class condition. They have been allowed to run down and now the older structures are badly dilapidated and in need of general repairs. Some of the schools have done service for a number of decades without other than passing attention. It will require a considerable expenditure to restore them and if the work is not done this year it will certainly have to be undertaken next season.

The school trustees have just purchased fifteen new International Webster Unabridged dictionaries and next fall all the grade rooms from the fifth up will be supplied.

#### COMES TO MARQUETTE.

Northern Michigan Benefit Association Establishes Itself Here.

The Northern Michigan Benefit association, which was recently organized at Manistique and which has had its headquarters there, will henceforth transact its business from Marquette, this city being more centrally and advantageously located.

General Manager W. R. Hardy and Secretary and Treasurer Frank H. Peters have been in the city the past few days arranging the details of the change. The association's office will be located in the Savings Bank block, Room 409. Its business is now being transacted here and the general manager will make his headquarters in Marquette from now on.

This change was decided on several weeks ago, the officers being employed in the interim making arrangements for the removal. Among other things, it was necessary to procure an amendment of the articles of incorporation, transferring the headquarters here.

As its name indicates the association is an insurance organization. It issues

three lines of policies providing from \$20 to \$100 a week for disability. Its policy covers accident and health, with a total disability clause for either. A death benefit is allowed, irrespective of the cause of death.

The association has enjoyed a first class business since its organization and its affairs are in flourishing condition. The officers expect that the removal to Marquette will be the means of bringing it a much more extensive clientele. The present officers are: President, Charles W. Whyte, Reed City; vice president, E. E. Burrell, Manistique; secretary and treasurer, Frank H. Peters, and general manager, W. R. Hardy.

The association already has a foothold in the lower part of the state, maintaining an office at Grand Rapids where its business in thirteen counties receives supervision.

#### NEW LAW FIRM.

Whitney & Peters to Locate in Marquette.

Marquette is shortly to have a new law firm, that of Whitney and Peters. The senior member comes from Manistique and Mr. Peters, who was formerly a resident of Marquette, has been located at Manistique lately. Mr. Whitney is a practitioner of thirty years experience and Mr. Peters is well known among the younger lawyers of this section. Mr. Whitney will be here about the first of August. The firm will have an office in the Savings Bank block, Room 407.

#### RED TAG SALE.

Hager Bros. Are Offering Bargains This Week.

Hager Bros. Co., Ltd., announce that they have pulled themselves together after the visitation of the storm Saturday evening, the roofs of both their upstairs warehouses being partially carried away, letting the rain in on a small portion of their stock and damaging it to some extent, and that they are now prepared to clear these goods out at sacrifice prices. They will hold a red tag sale, commencing tomorrow morning, for the next two weeks, during which time goods will go at almost factory prices. This sale will be on a strictly cash basis, no charges being made at the red tag prices. A cordial invitation is extended the public to inspect the stock. The red tags will do the rest.

#### GROUNDS FOR ACTION.

Houghton Paper Thinks Marquette Has Them Against the Weather Man.

Marquette has good grounds for an action against the weather man, says the Houghton Mining Gazette editorially. After enjoying a well established reputation as a summer resort for many years the city on Iron Bay feels that its confidence has been grossly betrayed for a generation in high temperatures been repeatedly broken of late and broken by as great a margin as five degrees, but Saturday evening the town was visited by a veritable hurricane which in twenty minutes caused the loss of one life and did thousands of dollars of damage, tearing up roofs, blowing down innumerable chimneys, partially wrecking the new Froebel school, tangling up telegraph and electric light wires and uprooting and breaking down trees right and left throughout the city, the wind establishing a new record for maximum velocity at the government station, sixty-eight miles an hour, at three minutes after six.

#### MATINEE THIS AFTERNOON.

Marquette People Will Witness Some Fine Racing.

The first matinee of two days' horse racing will be held this afternoon, when Marquette people will have an opportunity of witnessing some of the best sport which has ever been pulled off on a local track, at the Fair grounds. The field of entries is large and it comprises all the best known horses in the upper peninsula. All the animals are fit and they will be raced for "blood." The races are announced for this afternoon are events for horses in the 2:23, 3:00 and 2:40 classes. They will all be best three in five heats.

The entries for the 2:23 are Rob Rene, owned by Louie Sam of Hancock; Little Jonnie, E. H. Forbes, Sault Ste. Marie; Vest, Medinn, M. W. Shea, Marquette; E. W. L., Robert French, Marquette.

In the 3:00 class they are Prince Goldworth, Louis Corbett, Negaunee; Selanda, Elmer Campbell, Houghton; Billy K., Frank Shackett, Houghton; Little Joe, William Eschmoller, Marquette.

In the 2:40 class they are Cass Light, William Stewart, Marquette; Pioneer, William Meuhennett, Ishpeming; Byron Belle, Frank Shackett, Houghton; Joe J., Matt Jassin, Hancock.

The track is in good condition and the time for the various heats should be good. The horsemen state that they expect some of the fastest races that have ever been run in this section. The South Shore road will have a special train service to the grounds.

Twenty-five gas lamps for bicycles going at a bargain. R. L. Francis Co. (7-12-1f)

#### CONTRACTORS TAKE NOTICE.

Journeyman and contractors are hereby notified that in Superintendent E. C. Thompson's hands is a schedule of extensive repairs which it is proposed to make at the various school buildings this summer. They are requested to inspect it with the view of making bids on the work. (7-24-3f)

We have fifteen second-hand bicycles They will be sold cheap. If you want a wheel it will pay you to see them. R. L. Francis Co. (7-12-1f)

#### NOTICE TO CONTRACTORS.

Sealed proposals will be received by the undersigned until 9 o'clock a. m. of July 27, 1901, for the building of the North wing of the State Normal school at Marquette, Mich. Plans, specifications and instructions can be seen at the offices of the architects.

The right to reject any or all bids is reserved.

CHARLTON, GILBERT & DEMAR, Marquette and Hancock, Mich. (7-20-1w)

#### CONTEST DECLARED OFF.

Ed Croake and Jack Hammond Will Not Meet This Evening.

The promoters of the ten-round sparring contest, which was to have been held between Ed Croake of Iowa and Jack Hammond of the Soo at the Casino rink this evening, have declared the event off. The cause of this action was the protest of Marquette people who had taken steps to interfere with the bout. The promoters say that, inasmuch as the affair was to be a sparring contest for points, they could have pulled it off without interference had they so desired, but as it is largely a matter of indifference to them whether the men meet here they passed the thing up, rather than have any trouble.

Those interested in stopping the contest appealed to Governor Bliss, who notified Sheriff Penglase of the protests, requesting him to see that no prize fight was held. If Croake and Hammond were to come together this evening, the sheriff and his deputies would be at the ringside to see that the pugilists kept within the bounds and confined themselves to a sparring exhibition. He would have the support of the city officials, who also gave it out that no fighting would be permitted.

It is said that the contest may be pulled off in some other section of the upper peninsula. Croake has been in hard training here and he is in the pink of condition. There is no little disappointment among the sporting fraternity that the event has been declared off, as it was generally expected that the two heavyweights would put up a clever fistie exhibition.

#### CITY BREVITIES.

Today's weather: Partly cloudy, probably thunder storms; variable winds, mostly northeast.

Yesterday's temperature: 7 a. m., 72 degrees; noon, 71 degrees; 7 p. m., 73 degrees. Maximum, 80 degrees, minimum, 68 degrees.

T. J. Flynn was down from Negaunee yesterday.

Ed. Barabe was a Negaunee visitor in Marquette yesterday.

Born, to Mr. and Mrs. Fred Sherman, 717 North Third street, a son.

Mrs. James Russell and daughters are absent in Fond du Lac, Wis., for a few days.

Mrs. O. P. Phelps of Chicago is in Marquette visiting Mr. and Mrs. E. N. Breitung.

Dr. Ernest M. Stires and Miss Hardwick of Chicago are visiting at the Breitung residence.

Robert Fuller of Chicago, who has been visiting Mr. and Mrs. E. N. Breitung, has returned to his home.

Professor Hogue's hop at Fraternity hall was largely attended last evening. Dancing continued until shortly after midnight.

The person who borrowed The Mining Journal's county directory and has so far forgotten to return it is requested to jog his memory a bit.

The fence constructed at the west side of the cut recently run through Lake street, south of Superior, by the Marquette & Southeastern road is being painted a dull red.

There will be a meeting of Queen City tent, K. O. T. M., this evening at 8 o'clock. There will be initiatory work and special business. As a number of deputies will be present it is desired that there be a general attendance.

Professor Liebling, a well-known Chicago pianist, one of the leading artists in the west, who is a guest at the Hotel Superior, gave a short recital at the Northern Normal yesterday afternoon. The professor's performance was thoroughly enjoyed.

Valentine Green leaves for England tomorrow morning to spend a several weeks vacation. This will be the first time that Mr. Green has visited his home since he located in Marquette several years ago and he anticipates the trip with a great deal of pleasure.

The South Shore road will run special trains to the Fair grounds, for the accommodation of people who will attend the racing matinees today and tomorrow. They will leave down town at 1:30 and 2 o'clock and, returning, will leave the grounds at 6 and 6:30 o'clock.

A force of men is employed on the Marquette & Southeastern railroad in North Marquette. It has taken up the grading where it was dropped this spring when J. M. and Mary Longyear obtained injunctions temporarily putting a stop to the work. The grading will be pushed, it is expected, without interruption from now on.

Mayor Carter Harrison of Chicago arrived in Marquette from Ashland yesterday morning, leaving immediately for the Huron Mountain club on the tug Schenck. He will spend a several weeks' vacation at that resort. Mayor Harrison had a copy of fine muskdog, which he caught on a trip out from Ashland, with him.

All ladies intending to attend the Fremont's tournament are requested to send their names at once to Thomas Conlin, secretary, Crystal Falls, Mich., so that accommodations may be reserved for them. The tournament association would prefer to have the ladies arrange for lodging in parties of two or more. In engaging quarters it is only necessary to say how many persons there are in the party and give one name. Upon arrival in Crystal Falls go immediately to the information bureau and call for your lodging check.

#### NEW GOODS ARRIVING.

R. F. Brunner, successor to A. Boulson, is largely increasing the stock of tailoring materials carried in that establishment. Before leaving Chicago he purchased a complete line of staple and fancy goods, and they are arriving daily. The stock is by far the most complete ever carried in our city, and he invites all to visit his establishment and inspect his selections. (7-23-1f)

Puts gray matter in your head. Brings a rosy glow to faded cheeks. Restores vim, vigor, mental and physical happiness. That's what Rocky Mountain Tea will do. 35c. Stafford Drug Co. (7-15-1f-0)

# WEBSTER'S INTERNATIONAL DICTIONARY.

## THERE ARE PEOPLE

Who think that a Dictionary is an expensive book. This is true of "reprints" at any price, and of those slightly more modern works in two to twenty volumes which aim to be both dictionary and encyclopedia. WEBSTER'S INTERNATIONAL is NOT an expensive book. It would not be "expensive" at double the price asked, quantity and quality of contents considered. It is the BEST MADE book in the whole world. It contains over SIX TIMES as much matter as the bible. If the contents of this dictionary were re-set in the type used in the news columns of the "Mining Journal" it would make one hundred books of the size of "David Harum" or any recent popular novel. In further support of our statement that the "International" is not an expensive book, we have prepared the following table of contents to show what the total cost of the information contained in this great dictionary would be, if purchased in single volume form.

A good Dictionary without Appendixes is worth at least.....	\$10.00
8 Colored Plates of Flags, Arms and Seals of Nations.....	1.00
History of the English Language.....	1.50
Germanic Roots.....	1.00
Guide to Pronunciation.....	2.00
Explanatory and Pronouncing Dictionary of Noted Fictitious Persons and Places. An older and less complete work now sells at.....	2.00
Geographical Dictionary, covering the ground of Lippincott's Gazetteer, price of which is.....	10.00
Biographical Dictionary, covering the ground of Lippincott's Dictionary, price of which is.....	10.00
General History of the United States by Horace E. Scudder.....	1.50
The Presidents of the United States " " " ".....	1.50
History of the States and Territories, " " " ".....	1.50
Chronology of Events in American History, " " " ".....	1.00
Double Page Colored Plates and Maps.....	3.00
Chronological History of the World by John Clark Ridpath.....	5.00
Total cost if purchased in separate books.....	\$51.00

The above does not include an estimated value of 4,000 Illustrations, Memoirs of Noah Webster, Metrix System, Weights and Measures, Pronouncing Vocabulary of Scriptural, Greek and Latin Names, Quotations, Words, Phrases, Proverbs, etc., from the Greek, Latin and Modern Foreign Languages; Abbreviations, Contractions and Arbitrary Signs, used in Writing and Printing, etc., etc. Neither does it include cost and value of our Superb Index and Binding. In fact, the publishers, G. and C. Merriam Co., claim that they give in this book information which, in separate books, would cost somewhere from \$50.00 to \$150 or \$200, depending upon the completeness of the separate books; and this single volume (worth from \$150 to \$200) will be supplied to subscribers in Marquette county until August 1st for one dollar on delivery, and three additional payments of five dollars each, the first to become due in October or November, the second in January or February, and the third and final payment to be due in April or May. A copy of the Dictionary will be sent anywhere for examination.

# BIGELOW & CO.

## Do You Dance?

If not, and you desire to learn join PROFESSOR HOGUE'S FRIDAY EVENING CLASS AT FRATERNITY HALL. Terms reasonable. Private lessons given when desired. The Thuma System of Grace a Specialty for private lessons. (7-19-1f) Leave Orders at Bigelow's.
