200 S. Front St.

## STRIKE IS STILL ON

STATUS OF THE GREAT STEEL CONTEST UNCHANGED.

NO ACTION ON PEACE TERMS.

LABOR CONFERENCE IS AGAIN WITHOUT RESULT.

Three of the Officials Are Absent, Presumably to Endeavor to Obtain Concessions, and Another Meeting Is Set for Today.

Pittsburg, July 31.—The steel workers' strike against the United States Steel corporation is still unsettled. The status of the contest is unchanged. The men are fighting for every advantage, while the companies involved are strengthening their positions. The conference members of the general executive board of the Amalgamated association, which was expected to settle the trouble, adjourned tonight without accomplishing its purpose.

### Three on Mysterious Mission.

It was after 11 o'clock when the committee finally got together. Three of the officials—Secretary Williams, Assistant Secretary Tighe and National Trustee Morgan—were not present. It was subsequently learned that they had gone out of the city on early trains. Where they had gone or what their mission was, could not be learned. At noon the officials adjourned for lunch. They remained away until after two and again took up the conference. President Shaffer was called up repeatedly to telephone and talked long and earnestly with some one. Much of the meeting was devoted to killing time during the absence of the officials who were on mysterious missions. Joseph Bishop, secretary of the Ohio board of arbitration, was present at the discussions today.

When the meeting adjourned and President Shaffer came down to go home, he was asked for a statement as to the condition of the conference and the probability of a settlement. He said: "There will be no statement given out today. I expect to call another meeting of the board tomorrow." Other officials at the meeting also declined to talk.

### Confidence in Combine Circles.

Confidence was felt in some circles today that the strike would eventually be settled on the propositions made by J. J. Morgan. The officials of the steel companies who have been acting for the United States Steel corporation in the matter were apparently hopeful and light hearted. The delays in the settlement are fully understood by the Morgan representatives, and while all maintain the sternest silence they are not able to conceal their feeling of satisfaction over the way things are going.

### Trouble at Carnegie Mills Settled.

A strike of thirty men, members of the Amalgamated association, employed by the Carnegie Steel company last night because of the discharge of one man was settled today by his reinstatement. The strikers returned to work.

### LAMP OVERTURNED BY CAT.

Brooklyn Man and Two Children Die in Burning House.

Brooklyn, July 31.—James McCoy and his two children, sixteen and fourteen years old, were burned to death today in a fire in their home. Mrs. McCoy was probably fatally hurt. The fire was caused by the overturning of a lamp by a cat.

### Fourteen Chicago Families Homeless.

Chicago, July 31.—Fourteen families, comprising seventy-two persons, were made homeless, two women seriously injured and several others rescued from death in a fire that destroyed several cottages in Eighteenth place today. The loss is small.

### NEARLY 9,000 CLAIMS AWARDED.

Great Land Raffle at El Reno Slated to End Today.

El Reno, O. T., July 31.—Two thousand and one hundred names were drawn from each wheel in the great United States land lottery today, making a total of 8,700. Tomorrow the list of prize winners will be completed. Among the winners today was W. B. Putnam of Port Huron, Mich., who drew a claim in the El Reno district.

### NEGROES BLAMED FOR MURDER.

Prominent Mississippian and Wife Found With Heads Split Open.

Jackson, Miss., July 31.—R. T. Tallaferrero and wife, prominent citizens of Carroll county, were found dead in bed this morning with their heads split open. It is thought the murder was committed by negroes out of revenge for the killing of a young negro who attempted to poison the Tallaferrero family two weeks ago.

### \$30,000,000 INTERNATIONAL TRUST.

Combine of the Photographic Dry Plate Factories Is Pending.

St. Louis, July 31.—The Post Dispatch today says that negotiations for the consolidation of the leading photographic dry plate factories of the United States and Europe, with a capital of thirty millions, is pending.

### ALASKAN STEAMER LOST.

Is Totally Wrecked on Way Back from Nome—No Fatalities.

Seattle, Wash., July 31.—The steamship Senator, which arrived at Port Townsend tonight, reports that the steamship Charles D. Lane, on her way from Nome to Seattle with 175 passengers, struck during a dense fog on the night of July 12 on the west end of Nunivak island. She is a total wreck. The passengers and crew were saved by the schooner Vega, which the Lane was towing.

### ANN ARBOR STUDENT KILLED.

Sen of Michigan Central's Superintendent Dies Under the Wheels.

Ann Arbor, Mich., July 31.—Henry L. L'Homedieu (son of superintendent of the Michigan Central road), a freshman in the engineering department of the university, was instantly killed this evening by the Grand Rapids express on the Michigan Central. He was assisting Railroad Engineer Adams in surveying.

### IRON WORKS IN RUINS.

Fire at Manistee Brings Idleness to Three Hundred Men.

Manistee, Mich., July 31.—The Manistee Iron works were burned this evening. The loss is \$50,000. The plant employed three hundred men.

## BRYAN PARTY FROST

OHIO SILVER CONVENTION IS SLIMLY ATTENDED.

HELD IN ROOM AT HOTEL.

REPORTERS OUTNUMBER THE DELEGATES TWO TO ONE.

Newspaper Men, Perched on the Bed, Participate in Proceedings and Receive a Vote of Thanks—The Ticket and Platform.

Columbus, O., July 31.—The convention of "Bryan Democrats" and others opposed to both the Democratic and Republican state platforms was held today pursuant to the call sent out by George A. Groot of Cleveland. The attendance of delegates was so small that the convention was held in Mr. Groot's room at the hotel, and that the newspaper reporters outnumbered the delegates two to one. However, a platform was adopted and a ticket nominated headed by Dr. Rudolph Reemelin of Cincinnati for governor. The party assumed the name of "The Progressive Democratic party."

George A. Groot was both temporary and permanent chairman of the convention and was made chairman of the state committee. His name was presented for governor, but he refused the nomination. The reporters, who were perched in various positions on Mr. Groot's bed, were allowed to take part in the proceedings with suggestions, and at the conclusion of the session they were tendered a vote of thanks.

### Outline of the Platform.

Features of the platform adopted are a commendation of Bryan and a reaffirmation of the Kansas City platform. Planks were also inserted calling for public ownership of all public utilities; that all money of whatever kind shall be issued by the government without the intervention of banks, and that the "money trust, the parent of all trusts," shall be destroyed, the destruction of all trusts is incidentally demanded. Such Democrats as approve the gold standard and who supported McKinley for president are invited to henceforth affiliate with the Republican party.

Dr. Reemelin, the candidate for governor, has been a life-long Democrat and a radical free silver man. He is president of the Bimetallist league of Hamilton county and entertained Colonel Bryan during the campaign last year.

### Other nominations are...

Lieutenant governor, Henry C. Cordery; state treasurer, J. C. Shepard; attorney general, S. L. Clark; clerk supreme court, Charles Bonnell; member board of public works, R. B. Connell.

### Reemelin Declines to Run.

Later—After Chairman Groot and others left tonight, Dr. Reemelin positively declined the nomination for governor.

### BRUSH WITH FILIPINOS.

American Force Kills Seven and Captures Others in Cebu.

Manila, July 31.—Lieutenant Croft, of the Nineteenth infantry, with a mounted detachment of Cebu scouts, has had an encounter with sixty insurgents. Seven of the rebels were killed and thirteen taken prisoners. Of Croft's force, two privates were slightly wounded.

### Civil Charter for Manila.

The Philippine commission has passed the Manila civil charter, which will go into effect immediately. The rate of taxation on real property has been amended, it being fixed at 1 per cent. for the present and 2 per cent. after 1902. Tomorrow all the military cable-telegraph lines will be opened for commercial use.

### FOSBURG... SUSPECT GOES FREE.

New York, July 31.—William Lewis Gray, the Fosburg suspect, was set free today.

### IRISH SCORE EARL ROBERTS.

Grant of \$500,000 Is Criticized but Passed in Commons.

London, July 31.—The house of commons today, by vote of 281 to 73, adopted a resolution granting Earl Roberts £100,000 for his services in South Africa. The Irish members severely criticized Earl Roberts, charging him with employing barbarous methods and that he had proven himself a failure.

### KRUGER COMING NEXT MONTH.

Visit of the Boer Chief to America Again Reported.

London, Thursday, Aug. 1.—"I am informed on good authority," says the Brussels correspondent of the Daily Mail, "that Kruger's visit to the United States has been absolutely decided upon. It will take place probably about the middle of September. He will be accompanied by Messrs. Fischer, Wessels and Wolmarans."

### PARIS GLOBE TROTTER HOME.

Sixty-Four Days and Four Hours the Frenchman's Record.

Paris, Thursday, Aug. 1.—Gustave Zeigler, who has been traveling around the globe under the patronage of Le Matin, will arrive here from London at 4:45 p. m. today. The journey will have been accomplished in sixty-four days and four hours.

## CLOUDS IN BALKANS

GRAVE TROUBLES BREWING IN THE SLAVONIC STATES.

HAND OF RUSSIA IS SHOWN.

TURK'S RULE MENACED THROUGHOUT THE PENINSULA.

Unrest in Albania and Macedonia Threatens Serious Outbreak and Already Austrian Posts Are Put on War Footing.

Budapest, July 31.—In consequence of the agitation in Albania, Austria has ordered every garrison in Bosnia and Herzegovina to be immediately placed on a war footing. All officers on furlough have been ordered to rejoin their regiments.

### Demands for Protection of Christians.

Constantinople, July 31.—The excitement among the Albanians at Prishtina is becoming more acute. The Christians are reported to be in desperate condition and the foreign ministers here have renewed demands that the government protect the lives and property of the Christians.

### Gloomy View by London Times.

London, Thursday, Aug. 1.—The Times in an editorial, taking a gloomy view of affairs in the East, says, "Even official optimism is unable to avert its eyes from the dark thunder cloud which seems to overlook the Balkans." It refers to Russia as stealthily building up her authority in the Slavonic states and to Bulgaria as being "gradually transformed into a Russian dependency."

Commenting upon the unrest in Albania and Macedonia, the Times says: "It is commonly supposed that no serious outbreak will take place in Macedonia until Russia gives the signal; but events are maturing, and Russia may be taken unawares."

### SHOT DOWN IN STREET.

Rice Lake (Wis.) Man Slain by a Fellow Citizen.

Rice Lake, Wis., July 31.—While Main street was thronged with pedestrians tonight, H. A. Sapp shot and mortally wounded W. H. Coffin. There had been a feud of long standing between the men, both prominent citizens.

### Connecticut Officer Slain.

New Haven, Conn., July 31.—Police Officer Hugh McKeon is dead, with a bullet in his brain, and Officer Tibbets seriously wounded from being slugged with a revolver butt as a result of a raid on a disorderly house shortly after midnight. Andrew Loudino, an Italian, who is said to have done the shooting is still at liberty.

### INDICTMENTS IN PYTHIAN CASE.

Perjury the Charge Against Former Officers of Endowment Rank.

Chicago, July 31.—Two indictments, each charging perjury, were returned today by a grand jury against John A. Hinsey, former president of the Endowment Rank of the Knights of Pythias, and Henry S. Stolte, former secretary of the Endowment Rank.

### COURT NOT TO RETURN TO PEKIN.

Shanghai Paper Declares the Imperial Decrees Mere Bluffs.

Shanghai, July 31.—The North China Daily News declares that the reactionaries have no intention of allowing the court to return to Peking; that the imperial decrees on this subject are mere bluffs, and the Peking officials are leaving for Sian Fu.

### ITALY IS SHAKEN.

Earthquakes General Throughout Southern Part of the Country.

Rome, July 31.—Earthquakes were general throughout southern Italy.

## BOLD TRAIN HOLDUP

FIVE MASKED MEN MAKE RAID ON A B. & O. FLYER.

JUST MISS A RICH HAUL.

SCENE OF ATTEMPTED ROBBERY IS NEAR CHICAGO.

Two Mail Cars in Turn Are Uncoupled and Dynamited, in Mistake for Express Car, Before Bandits Give Up and Disappear.

Chicago, July 31.—The Baltimore & Ohio passenger train from the East due to arrive in Chicago at nine tonight was held up by five masked men at 8 o'clock between Edmore and Grand Heights, Indiana, thirty-one miles from Chicago. One of the mail cars, which contained no money, was dynamited and wrecked. The attempt was made after the two mail cars had been detached from the train and run a quarter of a mile ahead. The failure of the robbers to make a rich haul was due to the fact that the express car, which contained the train's treasure, was in an unusual place. It was the third car in the train.

After wrecking the mail car and obtaining no booty, the robbers disappeared in the darkness without attempting to rectify their mistake. The only loot they carried away with them was the gold watch of the engineer. Most of the trainmen were shot at and had narrow escapes from bullets. No person was injured either by the dynamite or firearms.

### Hold-Up at Lonely Spot.

The place where the train was held up is a lonely district in which few people live. The train was running at a high rate of speed as it passed Calumet Heights. Immediately after passing out of sight of the station, Engineer Collins saw directly in front of the engine a large fire on which some rails had been placed. He slowed down, and three men wearing masks jumped into the cab and covered Collins and the fireman with revolvers.

Just before climbing into the cab the three men commenced to fire with revolvers to frighten away all assistance. In the sleeping cars the passengers made every effort to hide their money and valuables before the robbers could get at them. No attempt was made, however, to rob any of the passengers. After mounting the cab of the engine, the robbers, covering the engineer and fireman with revolvers, made them step down and go back the length of the train. They then hustled the two trainmen back into the cab and, still keeping the engineer covered with revolvers, directed him to pull up some distance from the rest of the train.

### Wrong Car Uncoupled.

Collins ran up two hundred feet and was then directed to stop. He did so, and while one of the robbers remained to guard him the others jumped off and hurled dynamite at the door of the car which they judged the express car burst open the door. They were astonished to find they had broken into a mail car. They threatened the engineer with death for not telling them the cars which they had uncoupled were not the express cars, and ordered him to return at once and uncouple the next car behind the baggage car.

Climbing once more into the cab, Collins backed the engine down and uncoupled on to the third car, which the fireman was made to uncouple at the rear end. With the muzzle of a revolver at his head, Collins was again ordered to run down the track as before. The robbers then found they had attached another mail car.

The train had been delayed fully thirty minutes and, fearing that if delayed longer help would come, the men gave up the attempt, ran into a thicket of scrub oaks at the side of the track and disappeared. Within an hour after the hold-up a large posse was on the trail of the robbers, starting out from Whiting, Ind.

### Express Messenger Ready for Action.

F. A. Applegate, the express messenger, was alone in the car and he had no idea a robbery was being attempted until he heard the shooting on the outside. He then seized his rifle and, climbing on top of the safe, awaited developments, determined to make the best fight in his power. He was not molested, however. He said there was considerable gold and silver in the cars, and the robbers might have secured rich booty if they had come to the right place.

### It is estimated \$50,000 were stored in the express car, and it is believed the robbers knew of the large amount of money and valuables aboard.

### STRIKING SLAVS ARMING.

Threaten Italians Who Took Their Places at Ohio Coal Mines.

Steubenville, O., July 31.—A Slavish miner who returned to work at Mingo Junction was captured by striking Slavs at midnight, frightfully beaten and was about to be hanged when rescued by officers. The striking Slavs are arming themselves for a conflict with the Italians who took their places. Much racial feeling has been engendered.

### ROOSEVELT AGAIN GOING WEST.

Leaves Chicago to Participate in Colorado's Statehood Celebration.

Chicago, July 31.—Vice President Theodore Roosevelt, who arrived in Chicago last night from the East, departed for the West tonight enroute for Colorado Springs, where he is to be the guest at the quarter centennial celebration of Colorado's admission to statehood.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Subscription Rates:
Per month, by carrier, \$1.00
Per year, by mail, \$10.00

MARQUETTE, MICH., AUG. 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

NOT IN THE REFORM BUSINESS.
Certain of the good people of Marquette have, apparently, in some manner conceived the idea that one of the obligations resting on The Mining Journal is censorship of the authorities of the municipality, and they hold that it is derelict in a plain duty levelling upon it because it is not ceaselessly vigilant in calling attention to abuses existing in the city, as well as persistent in demanding their correction.

Those good people expect altogether too much from the paper and its publishers. The owners of The Mining Journal have their money invested in a business which it is their first aim to maintain in a sound condition. They do a printing and publishing business, to the conduct of which they are giving their time and such talent as they possess. They are not paid salaries by any class or association of people here for looking after the morals of the community, and do not assume to be clothed with any authority or jurisdiction over the officials whom the people of the city have placed in positions of power in the municipality. They are publishing a newspaper to give the news, as part of their business, but do not concede that this imposes on them any special obligation to take on their shoulders the task of creating or maintaining in the community a higher standard of morality than the people of the city as a whole see fit to establish for themselves.

If there is any class of men paid for this kind of service it is the clergyman. They are citizens, as well as teachers of the law of morality, and if the duty mistakenly supposed to rest on the publishers of The Mining Journal falls on any class of men more than another it is on the gentlemen of the cloth. Why do they not act, if there are evils to be remedied, instead of waiting for a newspaper to take up the good work, and complaining because it confines itself to its legitimate field as a collector and purveyor of the news of the day?

The Mining Journal does not approve of fist fights for prizes, nor horse-racing on the Sabbath, nor open saloons on Sundays, or after the stipulated hour for closing on the nights of week days. It aims to be a force for good in the community, and modestly claims that it goes as fast and far in the effort to obtain good government for the city as is wise and expedient under the circumstances. But it is not in the business of reforming the morals of the community, and must be excused from assuming a censorious attitude toward the men whom the people of the city have, voluntarily and with their eyes open, entrusted with charge of the municipal government unless these are flagrantly and wilfully recreant to their trusts.

Coming down to the point, it cannot be justly claimed that the present municipal administration is a disappointment to the voters who placed it in power. The saloons are running about as they did before—and there is no record of anybody having perished from thirst in this city under any preceding administration. There was a prize fight billed to come off here recently, but it was pulled off at another town and in another county instead. To be sure, this was brought about by the action of the governor, who was called on to prevent the contest from taking place here by some of the citizens of the city who do not approve of that form of sport. Possibly if they had trusted to the mayor and his marshal the "mill" would have been prevented from taking place here without the appeal to the governor. There were horse races billed to occur at the driving park last Sunday, but through an interposition of Providence, in the form of a timely downpour of rain, they didn't come off. Possibly, again, the municipal authorities might have stopped the racing if Providence had not rescued them from that duty. There are violations of state laws and city ordinances being committed here constantly, as is the case in every city and town in Michigan. Drug stores and news and confection stands which do business on the Sabbath are guilty of infractions of the law. So are street railways which operate their lines on Sundays. So are saloon men who keep a side door open for the convenience of patrons who are afflicted with a thirst that knows no conscience. The list might be indefinitely extended. When the people here desire all the laws on the statute books enforced to the letter they will elect officials who will see to it that this is done. Until they want this done it is useless for a newspaper to attempt to compel an administration to do what it was not elected to do, and what the majority of the people obviously don't want it to do—for it may be fairly assumed that when the voters of the city elect men to office they know what to expect from them and desire the natural consequences of their own action.

But while The Mining Journal concedes that it is best serving the people of this community by attending strictly to its legitimate business, and refraining from using its columns or influence to stir up strife and contention unnecessarily, it finds no fault with those good people who believe it to be their mission

to make their neighbors better than these obdurate folk are willing to be. It is not in the reform business itself but has great respect for those who have time and inclination for reform work, provided they pursue it judiciously and accomplish something toward elevating the standard of morality in the community. It is willing to give its aid to every movement having as its aim the greatest good to the greatest number of our people, but it is looking for business, not trouble, and while it is patient under just criticism it is not so pacified in forbearance as to tamely submit to the censures of persons who are always complaining of the derelictions of our officials while themselves so utterly indifferent to the primary and fundamental duties of good citizenship that they are never seen at caucuses or conventions, and rarely come out to vote on election day unless provision is made for transporting them comfortably in cushioned and rubber-tired carriages to and from the polls.

It was hardly to be expected that a settlement of the steel strike would be reached without some "hitches" occurring, and they have developed in the course of the negotiations now being conducted. Each of the parties to the dispute is, naturally, playing for every advantage in sight, while the terms of settlement are being arranged, and this backing and filling may last for several days. We are confident, however, that an agreement fair to both the Steel Corporation and the Amalgamated association will eventually be reached, for both the steel trust and the strikers are losing money at an enormous rate while the strike continues. It was estimated at the close of last week that their combined losses on account of the strike would reach not less than \$8,000,000 and every day adds to the sum total that will have to be charged up to the cost of the disagreement between them when the final footings are made. There ought to be a better way than one involving such loss employed for the adjustment of labor disputes, and doubtless one could be found if both the employers and the employed went about seeking it in good faith.

The United States treasury now holds gold in excess of half a billion dollars. There is, in addition, a vast quantity of the precious yellow metal in the bank vaults and in the hands of private holders. In view of the immense stock of gold in the United States, and the steady increase in it from the production of our mines, it would seem that the occasional shipment abroad of a few millions of gold should excite no alarm, especially as we know it will all come back again and bring more with it when the countries across the water begin buying their supplies of grain from us to make up for the shortage in their harvest this year.

After all we do some things better in this country than they are done in France. Over there a misguided constituency has just elected Count Boni Castellan to membership in the body that legislates for the French republic. He would stand a small chance of being elected to a seat in our congress, even with the backing of the Gould millions, if he were a citizen of the United States and conceived the ambition of adding M. C. to his name.

The attendance at the Pan-American exposition has increased steadily of late and the big show is now making money. At the start the people didn't flock to it with the expected enthusiasm, but they are beginning to swarm to it in crowds now. The exposition is really a great affair and well worth visiting, and we are pleased to see that it is coming to be appreciated.

WHAT A TALE IT TELLS.
If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at Stafford's drug store.

NOTICE.
We have been employed to act as the attorneys for the trustees of the Military Road lands belonging to the Ayer estate to protect said lands against trespass and pillage. The prompt communication to us of any information as to trespass on said lands will be esteemed a favor.

ELDRIDGE & MILLER, (1-2-2tm-f) Marquette, Mich.

Wm. Finn of Lima, O., obtained excellent results from the use of Foley's Kidney Cure. "It relieved my backache and severe pain over the hips. It toned up my system and gave me new vim and energy. It is an honest and reliable remedy, a sure cure for all kidney diseases." The People's Drug Store.

Blotches and excrescences, which so often annoy people, are simply efforts of nature to throw off impurities of the proper performance of her duties. HERBINE will aid and assist nature in her work, and ensure a skin clear and beautiful, entirely free from all impurities. Price 50c. Stafford Drug Co.

SCALD HEADS AND SALT RHEUM.
Bero-Carbol Salve will cure Scald Head and salt rheum when all other ointments have failed. It always the itching at once, acts like a poultice and gives instant relief. This is a new discovery and is the only remedy sold on a positive guarantee—No Cure, No Pay. Price 25c per box. For sale by Stafford Drug Co.

William Wickman, a trapper employed on the third level of No. 4 shaft, Champion mine, was killed Tuesday night about 9 o'clock. He was caught by ore that was being milled from the level above. It appears he did not either see or hear the ore coming, as he was slow in getting out of the way. Wickman was married and leaves a wife and family. He came to Champion

Champion.
GUST HORNOREN'S FUNERAL.

It Was Largely Attended by Friends in Champion and Elsewhere.

The funeral of the late Gust Hornoren, who met death at Pould, on the line of the Chicago, Milwaukee & St. Paul road while employed as brakeman on a gravel train, took place here Sunday afternoon. The esteem in which the deceased was held in this community was evidenced by the large turnout. A number of friends and acquaintances from outside, including about twenty-five of the St. Paul company's men, and the Ishpeming Light Guards, were in attendance. Old residents of the place do not recall the time when there was a larger turnout at a funeral here. The members of the boys' graduating class of '98 were also in line.

The obsequies were in charge of the Redmen and Scandinavian societies, to which the deceased belonged. Nearly the entire membership of each organization was in attendance. The floral tributes were exceptionally numerous. The parlors of the house were filled with beautiful designs. Among the larger pieces was a brake wheel, contributed by members of Hornoren's train crew; an anchor by other railroad men; the gates ajar by Ambrose Nord. Orders for flowers sent in by the Redmen and Scandinavian societies were not filed, much to the disappointment of the members. Railway officials and numerous friends sent floral tributes.

The religious services at the Swedish Lutheran church, conducted by Rev. Dahlberg of Republic and Rev. Richards of Champion, were most impressive. Both of the reverend gentlemen spoke feelingly of the good qualities of the deceased. The relatives of the deceased desired The Mining Journal to express their hearty appreciation of the favors extended by friends. They especially wish to thank the railroad men; the Ishpeming Light Guards; the Redmen and Scandinavian societies for assisting at the obsequies.

The manner in which Gust met his death was not published by any of the papers having an account of the sad affair. It appears that he was standing on the footboard of the engine, which was backing at the time. Suddenly the engine jumped the track, throwing Hornoren to his legs across the rails. One leg was crushed below the knee and the other above.

PLASTERERS IN DEMAND.
Harry Davidson, who recently enlarged his business block, has had much trouble trying to secure a man to plaster the new part. He offered the work to nearly every man in the business in the county, but all were too busy to undertake the job. Extra inducements were offered and after Harry had made no less than three trips down the line he finally secured Harry Deane of Neenah to do the work. The latter left his work on a much larger job and came up Tuesday as a matter of accommodation to Davidson.

With the improvements he has under way completed, Mr. Davidson will have a very convenient place. His new office will be much larger than the old one, and he will be able to do more work with the office finished as he has planned it will be both convenient and attractive.

NEW SCHOOL SUPERINTENDENT.
F. S. Monick of Chicago, has accepted the superintendency of the Champion school for the coming year. He has had several years' experience in school work and comes well recommended. Last year he taught in a western town. The professor is married and it is understood that the house which Superintendent Dunton and his family occupied will be at his disposal.

A full corps of teachers for the local schools has not yet been engaged. The Misses Wright and Connelly, Ishpeming girls, who held places here the past two years, will not teach in Champion this coming year. Miss Connelly will likely attend one of the universities for a year or so, though she is already one of the best teachers in this village has ever had.

AND THE PARROT DIED.
Jake Levine mourns the loss of his parrot. As a result of the bird's death Jake has stood more jolting than when he had to endure when he bought it. The bird was recognized by Levine as a "crackerjack," in explaining the cause of the parrot's death, Levine says it was due to his attempt to teach it to talk the Hebrew language. "When I tried this," he says, "the bird choked." The merchant also jokingly says he would like to get rid of some of the practical jokers in a similar way. While Jake is the victim of no little "jolting" he has more fun out of it than anyone. The bird was blind, which Levine says was a good thing, as it could not make "goose" eyes at him. The funeral of the parrot cost Jake more than he paid for it. He has had to put up several rounds of cigars, etc., since Saturday.

ASTOUNDING THE EDITOR.
Editor S. A. Brown, of Bennettville, S. C., was once immensely surprised. Through long suffering from Dyspepsia, he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50c at Stafford's.

TRAMMER MEETS DEATH.
William Wickman, a trapper employed on the third level of No. 4 shaft, Champion mine, was killed Tuesday night about 9 o'clock. He was caught by ore that was being milled from the level above. It appears he did not either see or hear the ore coming, as he was slow in getting out of the way. Wickman was married and leaves a wife and family. He came to Champion

about two years ago. He was not very well known among the people of the village. The funeral was held yesterday afternoon.

CHAMPION CHIPS.
Champion was well represented at the Sons of St. George society's celebration at Ishpeming Saturday.

Mrs. Joe Desjardins of Iron Mountain, for many years a resident of Champion, was a visitor in town last week. The farmers in and about Champion have been the busiest people in the village the past two or three weeks. Nearly all have fine crops of hay and oats.

The Misses Hannah Rourke and H. Malherbe of Hancock and Minnie Leary of Champion, concluded a visit with Miss Della McNevis and returned to their homes Tuesday.

William Davidson of Harrisburg, Pa., spent the early part of the week visiting his brother Harry in Champion. He spent Tuesday in Republic, leaving that evening for his home.

The wife of J. F. Stebbins, agent of the South Shore line at Covington, died Saturday. The casket for the remains was sent up from the Thomas undertaking establishment here.

Walter Fitch is expected home from Battle Creek, Mich., the latter part of this week. Late tidings from him are to the effect he is feeling considerably better than when he went away.

The membership of the Beacon club is increasing steadily. There are now nearly one hundred names enrolled. The rooms are visited every afternoon and driven by a number of the members.

Dr. Sam Beach, formerly of this place, is now the drum major with the famous Calumet & Hecla band. He accompanied the musicians to Milwaukee, also to Ishpeming. The doctor recently concluded his contract with the Tamarack hospital staff.

The Chicago & Northwestern Railway company's excursion to Escanaba last Sunday was not as largely attended by Champion people as it would have been had not so many remained at home to attend the funeral of Gust Hornoren, about thirty went from here.

PIG BUSINESS TRANSACTION. Haa's Brewery Is Sold to Houghton Gentlemen for \$125,000 Cash.

The Haa's brewery at Houghton has been sold to a company composed of Houghton business men. The consideration is \$125,000 cash. The deal was closed last evening, shortly before six, when the stock, amounting to about 25,000 shares, was turned over to the new company by Philip Schuermann, who had secured an option on the stock.

COUNCIL DECIDES ON BRICK. Specifications for the Paving of Quincy Street, Hancock, Ordered.

At a special meeting of the Hancock village council yesterday afternoon, the special committee, which recently made a canvass of the Quincy street property owners reported that they stood as follows on the paving material question:

For brick ..... 33 For macadam ..... 11 For crushed wood ..... 0 For asphalt ..... 0

CHECK WAS FOR 45 CENTS. Houghton Saloonist Is Out Through the Drooping of Michael Kennedy.

The remains of the late Michael Kennedy, who met his death by drowning in Portage lake were interred yesterday, the funeral being held from the undertaking rooms of August Krellwitz at Houghton.

WOLVERINE'S GOOD SHOWING. Annual Report Shows a Handsome Profit for Last Year.

The annual report of the Wolverine Copper Mining company for year ending June 30 compared as follows: Receipts ..... \$828,707 \$806,810 \$675,859

Will C. Brown, Resident Manager, Marquette, Mich. Correspondence Solicited.

MASS MILL RUNNING WELL. Will Be a Steady and Ample Supply of Rock from Now on.

The Mass mill has been almost continually in operation the past two days, it being started for regular work on Tuesday. After today it is expected that the supply of rock will be ample to keep the stamps running away to their capacity without interruption.

OFF FOR THE STATE CAMP. Commissary and Chief Leave to Prepare for Company G's Coming.

Today Corporal Ray Eggleston of Company G, Houghton Light Infantry, accompanied by the chief of the company, "Commodore" Dewey, will leave for Manistee to purchase supplies for the militiamen and to get things in the commissary department ready before the arrival of the Houghton contingent.

CLOSE CALL FROM DROWNING. Boat With Hancock Man Overturns in Lake Near the Canal.

J. W. Squire of Hancock had a narrow escape from drowning while enjoying an outing at the canal on Tuesday. In company with two of the druggists at that place, Mr. Squire got into a small row boat and went out on the lake near the cribs to fish.

COPPERDOM BREVITIES. The copper country branch office of The Mining Journal is located in Room 3, second floor of the Deo Postoffice building in Houghton.

The steamer Peerless is expected at Portage Lake, bound down, today. The Houghton council will meet tonight to consider the street improvement matter.

Horace J. Stevens of Houghton left yesterday morning for a two or three days' trip to Ironwood and other Goebie range points.

A new plate glass window was placed in Kroll's drug store at Houghton yesterday. The glass is a large one and the contractor has had to be used in placing it in position.

The steamer Osceola was a Lake Linden arrival yesterday, bound up. A big cargo of freight was unloaded there. The boat was due at Houghton and Hancock last evening.

Mrs. John Pippo, aged twenty-two years, died at her home at the Quincy Tuesday afternoon after an illness of about two months. The funeral will be held this morning. She leaves a husband and a small child.

For the third week in July the South Shore miners gross earnings of \$52,904 compared with \$51,472 for the same week a year ago. Since Jan. 1, the earnings amount to \$1,322,619, against \$1,247,674 for the same period of last year, a decrease of \$75,045.

A party at the Onigaming clubhouse was given last evening by Mrs. James R. Cooper for the young people. One of the Portage Lake pleasure barges transported the guests to the club, where dancing was furnished for the occasion.

Wm. Horgan of Dollar Bay, who swore out a warrant in Judge Oliver's court at Hancock on Tuesday for the arrest of Victor Robarge, a Dollar Bay saloon keeper, on an assault and battery charge, has withdrawn his complaint, a settlement having been reached. It is said that Horgan was set upon recently by Robarge in the latter's saloon and used rather roughly.

J. H. Jasberg, Alfred Herrala, Matti Manner and Miss Hilda Palko, delegates from North Star Lodge, Finnish Temperance union, Hancock, to the annual convention of the Finnish National Tem-

perance association at Duluth, left Tuesday evening for the Zenith City. The convention will continue until Sunday. Others from the copper country will leave today, including the members of the Finnish mixed choir of Hancock.

supplies, there were apparently left for home consumption for the first half of this year 105,148 tons, against 65,925 last year.

Sinking is still underway at shaft No. 3 at the Baltic mine, and the work of sinking No. 4 will be resumed early in August. The first level drift north of No. 5 is being extended; this in the direction of Atlantic's Section 16, where explorations for the Baltic lode are now going on. The Baltic mill will be running in about sixty days. It will require about that length of time to complete the new dam.

Today Corporal Ray Eggleston of Company G, Houghton Light Infantry, accompanied by the chief of the company, "Commodore" Dewey, will leave for Manistee to purchase supplies for the militiamen and to get things in the commissary department ready before the arrival of the Houghton contingent.

When the company departs for Manistee it will take with it the famous "Kazoo" band of seven-piece pieces, a company organization of recent date which has sprung into local prominence. "Frog" Mitchell is leader and plays the bass drum with great care and precision. In speaking of the time of the departure of the troops in yesterday's issue, The Mining Journal erred in saying the special train would leave early in the afternoon on Sunday. The train will leave in the morning about 7:30 o'clock.

The Mass mill is now handling a lot of rock which promises to run unusually well. Of course it will be some time before there is a test run, but according to the report of gentlemen who have visited the mill this week the percentage of copper obtained from the rock now being treated is most gratifying.

At the mine the force aggregates one hundred men. There are thirty three drills in operation.

The annual report of the Wolverine Copper Mining company for year ending June 30 compared as follows: Receipts ..... \$828,707 \$806,810 \$675,859

The new stamp mill site on the shore of Traverse Bay has been cleared and graded. The foundation of the mill is completed. Structural steel has begun to arrive and builders are at work on the building. The mill will contain two heads of stamps of the most modern type, with an estimated capacity for stamping about 1,000 tons of rock daily, which would be an increase of about 50 per cent. on the quantity stamped by the two small heads now employed. It is not probable that the new mill will go into commission before July 1, 1902, and until all these expenses are covered and their exact amount known, the directors think it advisable to limit dividends to the amount of \$2 per share, payable half yearly. There are now under construction a branch railroad from No. 4 to No. 3 shaft and stamp mill with other necessary buildings at Traverse Bay upon which work is now progressing with all possible speed.

Amounted to 223,371 tons; rock stamped 190,104 tons. The product of mineral was 5,853,400 pounds; of refined copper 4,907,940 pounds.

It is apparent from the above that the rock stamped contained about twenty-six pounds of refined copper to the ton, or 1.3 per cent.

Amalgamated Supporting Market. In their mid-monthly copper circular, Lewis & Son of Liverpool say: "It becomes now more than ever the interest of the Amalgamated company to maintain the value of copper, and with their increased control of the production they should have little difficulty in doing so."

Morrison, Kerkewich & Co. of London say: "Copper has gradually improved under persistent purchases on behalf of consumers, and quiet absorption of standard by the American representatives. Bi-monthly statistics show small increase in the visible supply of twenty-seven tons—some 2,000 tons of furnace material arrived and were included. This copper is sold and is now being delivered all over the world. A substantial decrease is expected. Owing to the remunerative prices obtainable for electrolytic, a large quantity of standard is being withdrawn from the warehouses and shipped to America for conversion. It seems strange that no European works adapt themselves to this profitable business."

The coming attraction of the Houghton Armory Opera House is Wood & Ward in the "Two Merry Tramps." They will appear about the middle of August and are already journeying this way. Wood & Ward made a hit in the same production in Houghton last season and their return will be awaited with pleasure.

Owing to the party at the Onigaming clubhouse last night, the meeting of the Portage Lake football team called for that time was not held but postponed until tonight. It will be held at the Northwestern commercial office, Houghton, at 8 o'clock. An attendance of all candidates is expected and important business will be done.

William Horgan of Dollar Bay, who swore out a warrant in Judge Oliver's court at Hancock on Tuesday for the arrest of Victor Robarge, a Dollar Bay saloon keeper, on an assault and battery charge, has withdrawn his complaint, a settlement having been reached. It is said that Horgan was set upon recently by Robarge in the latter's saloon and used rather roughly.

We Are Modest

It's unfortunate for us, for there are very many nice things we could tell you about our laundry plant, and the high grade work that comes out of it. If it were not for our modesty we could tell you how much brighter, and lighter and better every way our laundry is; we could tell you our superintendents and workers are a little more artistic and skillful than most others, and our system of urged inspection by an expert prevents you from getting anything but perfect laundry work from our shop. But it might be better anyhow to ask us for proofs and judge for yourself.

Small's Laundry, HOUGHTON. Phone 400. CALUMET.

A FAIR FACE MAY PROVE A FOUL BARGAIN. MARRY A PLAIN GIRL IF SHE USES SAPOLIO

MANHOOD RESTORED "CUPIDENE" The great Vegetable Vitalizer, the prescription of a famous French physician, will quickly cure you of all nervous or chronic diseases of the generative organs, such as Loss of Nerve, Enuresis, Impotence, Pain in the Back, Neuritis, Nervous Debility, Pimples, Itchiness to Marry, Exhausting Dreams, Various Complaints. It stops all losses by day or night. Prevents quickness of discharge, which if not checked, is a source of untold misery. It cleanses the liver, the kidneys and the urinary organs of all impurities. "CUPIDENE" strengthens and restores small weak organs.

Persons suffering who are not cured by Doctors become so per cent are troubled with Prostatitis. "CUPIDENE" is the only known remedy to cure without an operation. 500 testimonials. A written guarantee given and money returned if it does not effect a permanent cure. \$1.00 a bottle for 60 days. Send for year circular and testimonials.

Irving Shields, who is in charge of the Michigan mineral exhibit at the Pan-American exposition, returned to his home in Hancock yesterday to get himself in readiness to accompany Company G, Houghton Light Infantry, of which he is a member, to camp. Mr. Shields will spend the entire ten days at Manistee with the boys, after which he will return to Buffalo. The mineral exhibit is temporarily in charge of Sidney Lang of Houghton, Mr. Shields' assistant.

A marriage license was issued yesterday to a lady and gentleman of Laurium the former's name being Belle Smith. She is a widow, but her maiden name was also Smith and the man whom she is to marry is Thomas Smith. It is a singular instance and the only one of the kind ever recorded at the county clerk's office. Other licenses were given to Henry Tupper of Algonquin, Ills., and Miss Clara Mills of Lake Linden, Dolphus Lavign and Miss Alphonine Cloutier, both of Laurium, and William A. Brown of South Lake Linden and Miss Mary Jane McLeod of Hancock.

In cases of cough or croup give the little one One Minute Cough Cure. Then rest easy and have no fear. The child will be all right in a little while. It never fails. Pleasant to take, always safe, sure and almost instantaneous in effect. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Oscar Bowman, Lebanon, Ky., writes: "I have been using Foley's Kidney Cure and take great pleasure in stating it gave me permanent cure of kidney disease which certainly would have cost me my life." Take none but Foley's, The People's Drug Store.

Smoke... FLOR DE NICOLLET Famous 10c Cigar.

The copper country Methodist churches, for the most part, seem unwilling that their pastors leave them to go elsewhere next year and are asking for their return. Rev. William B. Coombe, of the Calumet church, is wanted for another year by the members of his congregation and it is likely that he will be allowed to return. Rev. Mr. Coombe has been pastor of the church for two years and during that time has done much for it.

Irving Shields, who is in charge of the Michigan mineral exhibit at the Pan-American exposition, returned to his home in Hancock yesterday to get himself in readiness to accompany Company G, Houghton Light Infantry, of which he is a member, to camp. Mr. Shields will spend the entire ten days at Manistee with the boys, after which he will return to Buffalo. Moonlight excursions on the lake are popular these nights. Many of the gasoline craft take short runs on the bay.

Mrs. J. H. Priemeau and Miss M. Louise Priemeau have arrived home from a three weeks' visit in Detroit and Buffalo.

Miss Price of Jackson, who has been visiting Marquette friends for the past couple of weeks, left for her home on the steamer India yesterday.

The yacht Nipigon is still in the harbor. A promising spell of weather for the run to the copper country is being awaited. The craft may clear today.

Will Finnegan, formerly stenographer for Land Commissioner E. W. MacPherson of the South Shore, is down from Duluth visiting friends for a few days.

County Clerk Ross has issued marriage licenses to R. C. Treloar and Emily J. Thomas of Negaunee and Edward E. Homeier and Jessie H. Robertson of Marquette.

The tug Schenk ran up to the Sossawaganing club at the Yellow Dog yesterday. It took E. N. Breiting to that resort. Mr. Breiting joined a party now visiting there.

D. H. Ball and A. Mathews spent yesterday at the Mass. stamp mill on Keweenaw bay. The gentlemen were much pleased with the result of their observations. They came down last evening.

Tuesday's issue of the Milwaukee Sentinel contains a group picture of the Marquette county Elks, attired for the grand parade, which was a prominent feature of last week's celebration, standing in front of the Marquette club. Most of the delegation from this county was assembled for the picture and the features of the various Elks are easily recognized. Prominent in the group are the largest and smallest Elks, Messrs. Joachim and Curtis of Ishpeming.

Marshal Maney announces that, beginning with today, the bicycle ordinance will be rigidly enforced. Riding on sidewalks must cease and in the daytime all wheels must be provided with bells, or other efficient alarms, and after dark with lanterns. The bicyclists have been allowed considerable latitude so far this year, but they have not used discretion and they have been so inconsiderate of the public's rights, particularly of those of pedestrians, that the officers find it absolutely necessary to call a halt. Lately the sidewalks have fairly overrun with wheels and but few mounts are provided with bells or lanterns. It is given out that the ordinance will be rigidly enforced and that the officers have been instructed to make arrests in cases of willful and defiant neglect of its provisions.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and by constantly failing to cure by local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address: F. J. CHENEY & CO., Sold by druggists, 75c. Toledo, O. Hall's Family Pills are the best.

LIBERIA RICH IN MINERALS.

English and German Prospectors Rushing to West African Republic.

Washington, July 31.—James Robert Sturgeon, secretary of the United States legation at Monrovia, Liberia, West Africa, was at the state department today, having just reported upon his arrival in this country. He declares Liberia has a wonderful future before it. Every steamer that touches on the coast brings English and German miners and prospectors who seek to develop the mineral resources of the republic. The fame of the west coast and the country included within Liberia has reached England, and the financiers there are taking an unusual interest in the country.

Within a month of the time when Mr. Spurgeon sailed for England, en route to the United States, a committee was sent to Liverpool to consult with capitalists there. They went at the expense of the capitalists, and will remain as long as necessary to properly present the possibilities of the country and impart such other information as may be desired by the English. The committee included Senator A. B. King, chairman of the committee on foreign relations of the Liberian senate; Arthur Barclay, secretary-treasurer of the republic, and Chief Justice Z. B. Dale. Senator King was a member of the commission which Liberia sent to Chicago for the World's Fair. Mr. Barclay was a delegate to the postal congress which was held in Washington a few years ago.

Mr. Spurgeon says England does not by her mining aggressiveness threaten in any way the liberty of the people or the continuance of the republic. He believes the system of government in Liberia is believed in England to be of more advantage to Englishmen or other foreigners who wish to engage in commercial or other enterprises than if the mother country was in control. Mr. Spurgeon, although a colored man, is a graduate of Yale college, and was formerly a practicing attorney in Kentucky.

The present president of Liberia is Garretson W. Gibson, who was educated in the state of Maryland, although he was born in Liberia. He succeeded to his present place through the resignation of President Coleman. Coleman was educated in Kentucky, and resigned because of the opposition which developed toward his policy relative to the natives.

Mr. Spurgeon says there are about three million inhabitants of Liberia, but only 25,000 are civilized. He believes that any child born in Liberia, and possibly from the United States do not survive because they are so slow to adapt themselves to existing conditions. A strict social line is drawn between the colored men from the United States and their descendants and the natives. If this could be broken down and intermarriage become the custom, civilization would spread much faster.

Of the original 50,000 negroes sent to Liberia by colonization societies of the United States there are about fifteen thousand descendants. The colonization scheme was inaugurated in 1820, the idea being to deport all of the blacks in this country to Liberia. The trip from Liberia to the United States can be made via Liverpool in thirty-five days if good steamer connections are made.

Now there is a steamer every two weeks from the west coast of Africa, but since the gold fever has started immigration from England the steamship facilities are to be greatly increased.

The United States government furnishes the consulates with a New York and Chicago paper and the London papers.

USE ALLEN'S FOOT-EASE, A power to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. AMMUNITION MISSING.

Army Officers in Quandry Over the Test of Swedish Gun.

Washington, July 31.—Army officers at Sandy Hook have been in a quandry over the testing of a Swedish gun of about six-inch caliber, bought at the instance of Lieutenant General Miles, who saw the type when he was in Europe three years ago, and who was so greatly impressed with it that he recommended the purchase of one of the rifles for trial. It is a cast steel gun and, if satisfactory, would be much more economical than the guns built by this government, which uses the built-up pattern.

The gun has arrived at Sandy Hook, and without the powder made for it by the foreign manufacturers. The board of ordnance and fortifications two years ago made an allotment of \$15,000 for the purchase of the gun, after some correspondence with the ordnance experts of Sweden in regard to the process and the material. The information acquired was of the indefinite variety which foreign engineers know how to give Americans who ask technical questions. However, the order for the gun included the mount and 100 rounds of ammunition. Delivery was required within twelve months of the making of the gun. There was some delay in making the gun, which only recently arrived at Sandy Hook proving ground.

The foreign contractors were unable to send the powder because no ship would accept it as cargo. The cost of the powder in this country, therefore, will be deducted from the contract price and the ammunition will be bought at home. The gun is fitted with the De Bange mechanism. Little is known in regard to the gun, its achievements, or its possibilities, but it is understood that the army ordnance officers do not take much stock in it. The test may demonstrate its advantages over the guns of the built-up type.

AMERICA'S BIGGEST BABY BOY. Colorado Springs Infant Weighs Seventeen Pounds at Birth.

Colorado Springs, Colo., July 31.—Mr. and Mrs. Frank Leaf of Colorado Springs are the proud parents of possibly the largest baby boy ever born in America. His net weight is seventeen pounds, height twenty-four inches and chest measurement fifteen and three-fourths inches. Dr. D. H. Rice says there is nothing abnormal about him except his size, which exceeds that of any child born in Colorado, and possibly in America. Medical history mentions one child weighing twenty-four pounds at birth, but the data is indefinite. The parents are German. They have seven children, all normal in size.

Placed on earth to please the people. Good for brain-workers. Brings double-distilled pleasures to all who use Rocky Mountain Tea made by Madison Medicine Co. 35c. Stafford Drug Co.

Told by Pain. If you have pains you should look after them quickly. Pain shows something is wrong. The sharper the pain the more danger there is in delay. There are thousands of women to-day who are bearing awful pain almost continually, rather than tell a physician about the shooting pains in their lower abdomen, about the agony of falling of the womb and the distress of leucorrhoea. They let the months pass and their trouble becomes harder to cure and more distressing. But modest women can secure examination from the embarrassment of a private examination. When pain tells them of danger they can cure themselves by the use of WINE OF CARDUI in the privacy of their homes. You can be cured without distressing publicity. With these facts before you there is no reason for the delay which is increasing your misery and wasting the days of your life. Why not stop the pain today? Helen, Miss., March 9, 1900. I have used one bottle of Wine of Cardui and one package of Thedford's Black-Draught. Before I took your medicines I had pains in my back, lower bowels and my arms. Sometimes I thought I would go blind. My head ached and I was so weak I could hardly walk across the floor. Now I can only feel a little of the pain in my side and I am going to use your medicines until I get cured, for I believe they will certainly cure me. I have been married twelve years and am the mother of seven children. I thank you for your wonderful medicine and what it has done for me. MABELA SMITH. For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

**A HOT MINE FIRE. FATALLY INJURED.**

It Damaged the Cliffs Shafts Mine Crusher and Building Yesterday.  
 The big crusher building at the Cliffs Shafts mine of the Cleveland-Cliffs company caught fire yesterday morning at a few minutes before 12 o'clock, mining time. The damage to the building, machinery, etc., will amount to at least \$5,000. The loss is covered by insurance.

The fire broke out on the second floor, south side, where the crusher proper is located. The man who oils the machinery was in there and as he turned to go away the smoke caught his eye. Looking more closely, he saw a heavy flame running up the side of the wall. He immediately gave the alarm, which was sounded by the blowing of the whistle at the engine house, but before the crusher crew could get water on the fire it had climbed to the top story. The center portion of the building was pretty well saturated with oil, scattered from the machinery. This furnished excellent fuel for the fire, and within a couple of minutes the entire upper part of the structure was burning fiercely.

The fire department responded promptly. It was necessary to get out one of the steamers, as the pressure on the water mains was not sufficient to send the water to the top of the building. The steamer was stationed at Lake Hancock, about two hundred feet from the crusher, and soon three streams were being thrown on the burning building. The fire was extinguished in less than an hour and a half. The upper portion of the building, including the second and third stories, was almost totally destroyed and will have to be rebuilt. The big belt leading from the engine to the crushers was badly damaged. The belt is quite a costly article, as it is nearly two feet in width. It is said to have cost over \$1,000. Part of it, less than half, can be used again.

The machinery was inspected by Master Mechanic McKee, and, although considerably damaged, he says, it can be used again, as none of the important parts were injured. It will be necessary to rewire nearly the entire building, as the pipes did not withstand the heat and water very well. The timbers supporting the foundation of the plant are all right and will not have to be replaced. With the foundation intact the repairs can be completed within a week or ten days. A new belt and rollers will be telegraphed for at once and it is expected that everything necessary to repair the plant will be on the ground very soon.

A cartload in the underground force will be necessary while the repairs are being made. A few men may be employed, but most of the miners will be given a lay off for a few days. As all the ore hoisted from both shafts is crushed entirely upon the crushing plant, over three hundred men have been worked underground. The work at the building and around the machinery will be pushed with all possible speed with a view to getting the crusher in readiness for operation as soon as possible.

The fire was a hot one and hard to fight. There was a stiff breeze blowing and this added to the vigor of the blaze and the difficulty of subduing it. Firemen worked from both sides of the building. The men on one side caught water from that working on the other. It is said that the water fell on some of the firemen was next to boiling hot, the fire having heated it as it passed through the soaring flames.

**FINISHED THE PAINTING.**  
 The largest painting contract that has been let in Ishpeeming in several years was completed yesterday by Egan & Swanson, when they put the finishing touches on the Swedish Lutheran church society's property. The interior of the edifice was painted and the outside of the building on the lot that is treated to two coats. As a result of the work the buildings now present an attractive appearance.

**THEIR SECRET IS OUT.**  
 All Sadiesville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough." It positively cures Coughs, Colds, LaGrippe, Bronchitis, all Throat and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Stafford's drug store.

High living, intemperance, exposure and many other things bring on Bright's disease. Foley's Kidney Cure will prevent Bright's disease and all other kidney or bladder disorders if taken in time. Be sure to take Foley's. The People's Drug Store.  
 Superior ice cream and choice fruits at Luff's candy palace. (7-15-11)  
 Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by DeWitt's Witch Hazel Salve. Certain cure for piles. Beware of Counterfeits. Be sure you get the original—DeWitt's. Stafford Drug Co.; H. N. Meloche, Ishpeeming.

A free and easy expectoration is produced by a few doses of BALL'S HOREHOUND SYRUP, in all cases of Hoarseness, Sore Throat, or difficulty of breathing. Price 25 and 50 cts. Stafford Drug Co.  
**THE RIGHT REMEDY.**  
 Your druggist will refund your money if Busen's Pine Tar Cough Honey fails to cure. One dose brings relief. Take a bottle and your Cough or Cold will disappear. This is a new discovery and the only cough remedy sold on a positive guarantee—No Cure, No Pay. For sale by Stafford Drug Co.  
**Educate Your Bowels With Cascarets.**  
 Candy Cathartic, cure constipation forever. No, 2c. If C. C. fail, druggists refund money. Candy, made fresh every day, at Luff's candy palace. (7-15-11)

**Upper Peninsula.**

The students of Augustana College, Rock Island, Ill., will hold a reunion at Menominee Thursday and at Marinette Friday. The fifteen or more upper peninsula students of this institution are expected to attend.

The Iron Mountain Gazette, in Tuesday's issue, has a long article outlining how the saloons at that city ran until long after midnight Monday and setting forth that the entire police force, to all intents and purposes was "off the map." For once Iron Mountain was a wide open city. Many of the places were closed by the chief, after he had made a vain hunt for some of his officers.

Four upper peninsula companies and the band of the Third regiment, M. N. G., will be at Menominee Sunday from 3 o'clock in the afternoon until 11 o'clock that evening. The militia boys will be entertained by the Menominee people. They will give a dress parade on a convenient ground. It is expected that this drill will be witnessed by large numbers from either side of the river.

A Masonic Relief association is being organized among Menominee Masons. When 100 names are procured the organization will be completed. It is the purpose on the death of a member to pay \$100 to the widow to be used in helping defray the funeral expenses. Following the payment of each claim, there will be a \$1 assessment on the members so that the treasury will always contain \$100 for immediate use.

A resolution authorizing the purchase of a 5,000,000 gallon pump manufacturing of the Holley Manufacturing company of Lockport, N. Y., was passed at a meeting of the Soc council this week. It was further provided that if it were found necessary to purchase a second pump, and funds for such purpose were not available, a special election should be called for the purpose of securing the consent of the voters to a proposition to raise the necessary additional amount.

Leander Martel of Iron Mountain is mourning the day when he went on the bond for Joseph Gardner's appearance in Judge Waffel's court. Gardner was arrested for abusing his wife last week. He pleaded not guilty and was given freedom on Martel's giving surety, to the extent of \$400, for his appearance. The hearing was to be held Tuesday morning, but when the time for the opening of proceedings came the accused was nowhere to be found. Suit for the recovery of the amount of the bond has been undertaken against Martel.

Saturday last, Henry Brill, a prosperous farmer, living three miles west of Carney, was attacked by a vicious bull, which he was driving into a field. He was thrown into the air twice from the bull's horns, going up not less than ten feet as a result of the second toss. He was hunted and trampled on until he was bruised from head to foot. There were ten or more lacerations and it is only strange that Brill was not gored to death. Although the injuries are serious, it is expected that he will be about his usual work in due time.

August Olson is suffering from serious injuries received at No. 1 ore dock at Escanaba Tuesday morning. He was kicked from the top of the dock and fell a distance of thirty-five feet to the deck of the steamer, William Fairbairn, which was taking on a cargo of ore. The accident was caused by the breaking of a pin holding the crank used in lowering and raising an ore chute, causing the crank to revolve with great rapidity. Olson was in its way and was struck on the head. From the deck of the steamer he fell into the hole, an additional distance of about sixteen feet. He was picked up in a dreadfully injured condition. It was feared Tuesday that he might not pull through, although he was being given every possible attention.

The deal for the Marinette and Menominee street railways, can not be closed until John Hones, one of the principal stockholders of the Menominee line, returns from Europe in September. A number of the principal stockholders have pooled their stock and held it at a high figure. An option has been secured on most of the Marinette stock so that there is nothing retarding the purchase of the line on the Wisconsin side of the river. The Marinette line may be bought by the syndicate before the Menominee line deal is completed. Attorney Frawley, of Eau Claire, is still working among the Menominee stockholders. If the two lines are purchased, Mr. Frawley has stated that the new company would expend \$100,000 in the two cities in improvements. It is probable that one central power house would be built. The companies will be consolidated under one management. The old Marinette cars will be replaced by new rolling stock. In connection with the purchase, a count of the people crossing to and fro on the bridge to Frenchtown was made about two weeks ago. A record was kept for six days and it was found that a total of 2,500 people crossed both ways every day. All this business is lost to the street railways of both cities because of the fact that there is not a belt line.

**PERMANENT MUSCULAR STRENGTH** cannot exist where there is not blood strength. Young men giving attention to muscular development should bear this in mind. Hood's Sarsaparilla gives blood strength and builds up the whole system.  
**FOR WHOOPING COUGH.**  
 "Both my children were taken with whooping cough," writes Mrs. O. E. Dutton of Danville, Ill. "A small bottle of Foley's Honey and Tar cured the cough and saved me a doctor's bill." The People's Drug Store.

**BALLARD'S SNOW EXTRACT** gives instant relief in cases of Bleeding, Burns, Bruises, Scalds, Cuts, etc. Price 25 and 50 cts. Stafford Drug Co.

**Buy and Try a Box Tonight.**  
 While you think of it, go buy and try a box of Cascarets Candy Cathartic, ideal laxative, tonight. You'll never regret it. Genuine tablets stamped C. C. C. Never sold in bulk. All druggists, roc.

HARD ON RAILROAD MEN.

Steel Strike and Other Disturbances Throwing Many Out of Work.

Many employes of railroads throughout the country are feeling the effects of the steel strike.

The railroad men in the upper peninsula are being hit hard by the steel strike. Since it was ordered a large number have been laid off for an indefinite interval.

Old engineers who have been pulling the throttle for years are now firing. Men who pulled passenger trains are back on freights; others who ran freight trains are on switch engines and the engineers of the latter are firing.

The reduction in the number of engines at work has also caused switchmen to lose their jobs temporarily.

The Marquette and Menominee iron ranges have been more severely affected than the other ranges in the Lake Superior iron district.

The railway people have never before cut down their yard crews as they have this season. There has been no reduction in wages, but every man is up and doing every hour of the day.

The wind Tuesday created a squall on Teal Lake. Several persons who were boating on the lake when the storm came up were obliged to run to shore for shelter.

Miss Myrtle and Master Arthur Mitchell gave a trolley party to their little friends Tuesday evening.

Winter & Sness sold a twenty-five foot lot on Jackson street to Joseph Richards. Mr. Richards will move his plumbing shop from its present location to the building which he has purchased.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Indigestion.

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely removes this complaint.

Allen's Foot-Ease, a powder. It cures painful, smarting, nervous and ingrowing nails, and instantly takes the sting out of corns and bunions.

Why is the name DeBell's Kidney Pills imitated? DeBell's Kidney Pills are the most valuable medicine the world has ever known.

Use Banner Salve, the great healer. It's guaranteed for cuts, wounds, sores, piles and all skin diseases.

Where the digestion is good, and the general powers of the system in a healthy state, worms can find no habitation in the human body.

### PETITION IS OUT

SIGNERS ARE OPPOSED TO THE PROJECTED PAVEMENTS.

TO BE PRESENTED TO COUNCIL.

MATTER WILL COME UP AT NEXT MONDAY'S SESSION.

Some Property Owners Affix Their Signatures, Others Favor Improvements—Brick the Popular Material at Hancock.

Opposition to the proposition of paving the downtown sections of Front and Washington streets has taken the form of a petition, designed to be presented to the council, praying the aldermen not to authorize the proposed improvement.

This petition has been circulated among citizens owning property abutting on the sections of the two above named thoroughfares which it is proposed to pave. It is being signed by some and turned down by others, according as the persons sought are willing or not to assume their share of the expense of completing the projected improvements.

It is presumed that the petition will be circulated during the remainder of this week and that, before it is presented to the council, which, in all probability, will be next Monday evening, all property owners, who will be called upon to defray the expense of the pavements, will be approached and asked to affix their signatures.

Naturally enough there is much difference of opinion relative to the pavements. Of course everybody admits their desirability and if they could be obtained without expense there would be no protest and all would be approbation and approval.

However, if the pavements are laid the paving man must be paid and apparently there are property owners on the downtown sections of Front and Washington streets who question whether the net improvement over present streets and conditions will be great enough to compensate them for the resultant extra taxation.

The Mining Journal understands that the petition designed to steer the aldermen away from a resolution to authorize the proposed pavements will have a rather formidable list of signers, although it is said that the majority of owners of abutting property favor the improvements. This will develop when the people affected have an opportunity to put themselves on record.

Lies With the Aldermen.

Of course the paving question is up to the aldermen and the petitioners will only have such power as they may derive from their influence and the force of their suggestions. If every property owner on both streets united in a protest, it would still be within the province of the council to authorize the improvements, although, of course, it is believed, although the matter has never been formally discussed or canvassed, that the majority of the aldermen are heartily in favor of the proposed improvements. Gentlemen who should be well acquainted with the temper of members of the council say that this is the case. The administration, as an administration, also favors the proposed pavements, their completion being one of its pet projects.

Marquette people have learned of the feeling of the Hancock business men on the paving question, particularly as to the material which could be employed to the best advantage, with a great deal of interest, as it bears out the testimony of the Marquette paving junta, which visited a number of lower Michigan cities to arrive at determinations relative to materials. At Hancock brick is popular, and the property owners who favor its use are in a great majority. As the conditions in the copper city resemble those to be met here, it would appear that the local committee has excellent support in its conclusions in favor of this material.

WORKING GOOD FORCE.

Marquette & Southeastern People Active at Lighthouse Point.

Since the Longyear injunctions were dissolved a number of days ago there has been no cessation of activity on the part of the Marquette & Southeastern people. They have completed their roadbed from a point just east of the Presque Isle drive, where the work was stopped last spring, to Lighthouse point, in which vicinity they will be busy for the ensuing five or six weeks. Here the heaviest work to be done inside the city limits will have to be put out of the way.

The company is employing some forty men on the new line, most of which force is busy at Lighthouse point. Here is found the only considerable construction to be completed before the Marquette & Southeastern road will be open within the city limits and, when the roadbed is finished about the point, everything will be in readiness for extending the steel to the southern boundary of the city.

The statue of Father Marquette, at the foot of Ridge street, near Lighthouse point, has gone into temporary eclipse, Marquette thus losing for the time being her only piece of public sculpture and one of the attractions which all tourists and strangers insist on seeing.

The statue has been clothed with unwonted garments and has been closed in to protect it while the railroad construction crews are busy at the point. The thing which renders this elaborate precaution necessary is the fact that there is considerable blasting to be done to prepare the roadbed in this vicinity. At all druggists and shoe stores, 25c Trial package FREE by mail. Address, Allen S. Olmsted, Le Roy, N. Y.

be busy most of the time that the scene of its operations is at the point.

The officers of the new company are determining names for the stations which will be established between Marquette and the junction with the Munising line. There are to be three or four of these stations. On first thought it would appear that the task of providing them with suitable names should not be attended with any difficulty, but the officers have found that the reverse is the case and they have puzzled not a little to christen the stations in the most satisfactory manner.

Of course it is essential to procure names by which no other Michigan stations are known, this to prevent confusion in the handling of mails and other business. There are many rail way stations, large and small, in the state and the stock of names has been pretty well used up. Of course there are names enough, but it is desired to hit upon those which will have some significance. There is a reticence on the part of all the leading lights of the Cleveland, Chicago, Iron company and the Marquette & Southeastern road to have their names identified with the stations of the new line and none of them will be used to designate these points.

One official explains this by saying that his brethren of the two companies are not sure that any of the stations will attain any importance and that if it were known that one of them was destined to develop into a lively city that the honor of giving it its name would be in great demand.

PRETTY HOME WEDDING.

Edward Homer and Miss Robinson Are United in Marriage.

Edward E. Homer and Miss Jessie Robinson were united in marriage last evening at the home of the bride's brother John Robinson, West Bluff street, Rev. J. M. Rogers performed the ceremony that made the genial mail carrier a benefactor.

The wedding was a very pretty home affair. The house was tastefully decorated, evergreens playing prominent part, and with the display of many of the elaborate presents to the young couple it presented a pleasing appearance. The guests were numerous and included relatives from Chicago, Milwaukee, Toronto and Owen Sound, Canada; Calumet, Ishpeming and Negaunee.

The bridal couple and attendants entered the room in which the ceremony was performed, to the strains of a wedding march played by Miss Jennie Coles. The bride was gowned in white chiffon, trimmed with white satin ribbon, and was attended by Miss Bessie Casper; the bridesmaid was dressed in a creation of lavender organdie, trimmed with lace, George Homer, brother of the groom, officiated as best man; each were garbed in the conventional black. A supper to the guests followed the ceremony and the merry-making continued until early this morning.

After Aug. 20, Mr. and Mrs. Homer will be at home at 826 N. Front street. They left on this morning's train for a honeymoon trip to the East, visiting the Pan-American exposition at Buffalo among other places. The gifts with which friends and relatives showed their appreciation of the newly married couple were numerous and many of them costly. They include household goods, cut glass, silverware, etc. The Mining Journal joins in wishing them a happy voyage through life.

SUMMER DULLNESS.

It Seems Finally to Have Gripped the Copper.

There is no change of note in the copper situation. Stocks are dull and quiet. It seems that they are fairly in line with the market. The summer dullness, Paine, Webber & Co. said: "Continued hot weather is keeping the copper dull, but the demand shows no let up. There are always orders to buy at a fraction below the market and, if anything, it is easier to sell than to buy. There is next to no news on the situation. Yesterday it was reported from New York that 16 1/2 cents was the best bid for lake copper. Today 500,000 pounds was sold for 17 cents. We think the better class of copper should be bought whenever they are weak." Hayden, Stone & Co. wired the Laidley Commission Co.: "It is the usual summer market. There is no feature here at all. The big men are away and we cannot expect any market until September anyway." A. K. Jones & Co. said of wheat: "The absence of foreign sympathy with our advance in wheat yesterday was the best reason for a dull and lower market today, one which refused to be influenced by a further advance in the coarse grains. There is no question but that wheat was a weak market, apparently weak enough to break another cent had the coarse grains showed a different tone, but the selling was not in the form of liquidation. It was rather selling by the local bears, who showed considerable timidity all the way through. Wheat has few friends now. It is just the time when purchases are best made. We look for a much better market in the very near future."

MISS ANNA COLLINS WEDS.

Marquette Girl Becomes the Wife of D. J. Hardimon of Calumet.

A pretty wedding took place at the home of Mr. and Mrs. Wm. McCormack, West Washington street, last evening. Miss Anna Louise Collins becoming the bride of Dennis J. Hardimon. Miss Alice Collins was maid of honor and Thos. J. Carcy supported the groom.

The bride was crowned in white Swiss mull over tulle and carried a shower bouquet of lilies of the valley. The bridesmaid wore pearl-gray silk mull and carried pink roses. The house decorations were ferns and carnations. The young couple will make their home at Calumet, where the groom is a popular railroad man.

Friends and relatives from Green Bay, Calumet and Duluth were in attendance, and a sumptuous wedding feast was served.

The Metropolitan Life Insurance company desires two men to work from their Marquette office. Men of unquestioned integrity who are willing to start at the bottom will find this opportunity worth accepting. The possibilities for advancement are united with this great corporation and the company, with over 10,000 men in the field, stands at the head of the list of life insurance companies doing an industrial business. Previous experience unnecessary. Apply at the company's branch office in the Harlow block. (7-30-24)

### ACTIVE AT BIG BAY

NEW LUMBER COMPANY WORKING FIFTEEN MEN THERE.

PROGRESS IS SATISFACTORY.

LAND HAD TO BE CLEARED PRELIMINARY TO OTHER WORK.

Machinery Is Being Assembled in Marquette—It Will be Three Months Before Mill Is Ready for Operation.

A. McAfee of Lakeview, Mich., manager of the Big Bay Lumber company, which is putting in a big saw mill at Lake Independence, with the intention of establishing a shingle mill and ultimately building wood working plants of divers descriptions, says that he is entirely pleased and satisfied with the progress which has been made at the mill site during the past couple of weeks.

Since he sent the first men up the lake, there has been no cessation in the activity looking to a preparation of the proposed plant for an early operation and, although it will be months yet before the wheels will turn, the work to date has forged ahead with notable expedition.

The first men employed at the mill site were pioneers, as it is necessary to clear all the land which will be covered with buildings and used for yard purposes, being virgin. Already some seven or eight acres have been cleared and additional land is being cleared. At the site of the mill and the proposed village, camps, barns, and other necessary buildings have been erected and the force is now comfortably housed and able to work to the best advantage.

The essential pioneering work is finished and the woodmen are now getting out the timber to be used in the frame of the saw mill. All energies are being bent to complete this structure at the earliest possible date, but Mr. McAfee says that he figures that three months will be none too much time in which to finish the building and prepare the plant for operation.

Machinery Here.

Mr. McAfee says that the Big Bay company is building a mill considerably larger than was first planned. The building will be thirty by eighty feet and the mill will have a capacity of 40,000 feet daily. The greater part of its equipment will consist of machinery from the plant which, Mr. McAfee recently dismantled at Lakeview, Mich., but in addition considerable new machinery will be put in. This latter is now being manufactured.

The machinery is being assembled in Marquette. Two carloads have already been received and three more are expected. It is feared that the strikes may delay the shipment of the new equipment and that this delay, in turn, may put back the shipment of the plant from Marquette to Big Bay, it being the intention to postpone moving the equipment from this port until it is complete in every detail.

The machinery will be taken up the lake on a scow, making a large and valuable cargo.

Mr. McAfee says that he is employing a force of fifteen men at the mill site, this number being all who can be worked conveniently and with good results at the present stage of operations. As soon as there is an opportunity to employ additional hands profitably, they will be taken on, as it is the intention to begin work with the least possible delay.

The capitalists interested in the Big Bay Lumber company think more than ever that they will have a good thing in their Lake Independence mill. As The Mining Journal has outlined, they own a tract of valuable timber land large enough to insure the plant a long life. This land is contiguous to a stream which will carry the annual out to Lake Independence, on the waters of which they may be rafted direct to the mill, which, in turn, is within a short distance of Lake Superior, the facilities for water shipments of the finished product being unexcelled.

FLEECING THE LAMBS IN WALL STREET. is a daily occurrence, but the bulls and bears can't do it any slicker than we can out one up and trim it for your table. Our Spring lamb and veal, broiling chickens and capons are delicacies that an epicure can appreciate. Our prime ribs of beef, mutton and cooked ham in flavor and quality can't be beat.

FRANK W. HATHAWAY, PALACE MEAT MARKET.

Hundred-Year Jellies. Neither time, moisture nor mould can affect Jellies that are sealed with paraffine wax. Fill your glasses or jars, pour a film of paraffine over the surface, and the jelly will keep for a century if you want it to. Paraffine is white, tasteless and odorless, and is proof against moisture, acids, insects and germs. It prevents evaporation, granulation or change of any kind. A pound of paraffine goes a long way and can be used over and over again year after year. Just as good for covering preserves, fruit butters and jams.

Paraffine Wax, especially refined for sealing purposes, 25c a pound.
