IS FIGHT TO FINISH

STEEL TRUST AND WORKERS SEVER ALL NEGOTIATIONS.

STRIKE IS TO BE EXTENDED.

MEN AT ALL THE MILLS NOW TO BE ORDERED OUT.

Conference With the Combine Officials Is Fruitless and the Entire Direction of the Battle Is Placed in Shaffer's Hands.

"Within a week every man at heart in the employ of the United States Steel Corporation will be asked to join in the strike now being waged by the Amalgamated association. We must settle whether unionism is to stand or fall."

"There will be no more conferences with the United States Steel Corporation unless a meeting is asked for by the officials of that corporation. The Amalgamated association will not request a meeting."

Pittsburg, Aug. 4.—The above and several other significant statements were made tonight by President Shaffer, of the Amalgamated association, upon his return from a fruitless conference with J. Pierpont Morgan and others in New York city.

No Quarter to Be Given. It is now a fight to a bitter finish between the great billion dollar steel trust and organized labor. Shaffer is ready to employ every peaceable means within the power of man to win the victory. No quarter is to be given and none will be requested.

The entire management of the battle has been placed in the hands of Shaffer. He has absolute power to call out every man connected with the organization and he intends to do it. He is satisfied with the progress of the fight to date, and he finds that none of his battle lines have been broken. The promise is made by Shaffer that the trust will find that the Amalgamated association has strong roots in many of its mills.

President Shaffer and his associates came on from New York over the Baltimore & Ohio road this evening. In reply to the question of reporters who met him at the train Shaffer said there would be no meeting of the advisory board tonight, nor would it be necessary to call it to order tomorrow, adding, "The fact of the matter is, we held one in New York last evening."

Is Given Autocratic Power.

"Was there any action taken at that meeting about calling out all the men in the employ of the United States Steel Corporation?"

"When will that call be issued?" "That depends upon a number of things. I am going home to rest and will wait until tomorrow to resume the cares of my position. You can say, however, that within a week every union man at heart in the employ of the United States Steel Corporation will be requested by me to join the Amalgamated association in winning this strike."

"Do you think you will be able to close all the mills of the steel corporation?"

Says Surprises Are in Store. "I am of the opinion every one can be closed. We have some great surprises in store for the trust. The men have been organized in some of their mills they never dreamed could be touched. We have the sympathy of the workmen, and they will not throw any straws in the way of our absolute victory."

President Shaffer said that the stories that Mr. Morgan had been ugly during the conference on Saturday were untrue. He said the gentleman had been courteous and businesslike throughout the entire meeting, and if he had lost his temper it was after the adjournment of the gathering.

World's Greatest Industrial Battle. Secretary Williams would say only this: "All possibility of a settlement of the difficulty appears to be at end. We have carefully considered the proposition of the trust. It was decided the terms are such we could not accept. To accept would have meant practically the disruption of our organization. We could not have agreed and returned to face the men we represented. It is now a case of fight. I think the contest will be the greatest industrial battle the world has ever known. I am thoroughly convinced we will win the victory."

IMPORTANT LABOR CONFERENCE.

Shaffer and Colleagues Meet With Federation Secretary.

Washington, Aug. 4.—President Shaffer and other members of the executive board of the Amalgamated association came to this city from New York late last night and had two extended interviews with General Secretary Frank Morrison, the principal officer of the American Federation of

KAISER'S MOTHER DYING.

Royale Family Is Summoned in Haste to the Beside.

Cronberg, Aug. 4.—The empress, Crown Prince Frederick William, Prince Eitel Frederick and Prince August William arrived at Cronberg, where the dowager Empress Frederick is lying dangerously ill, late tonight. Other royal personages who have arrived are Prince Adolph of Schaumburg-Lippe, Prince and Princess Friedrich Carl of Hesse and the Crown Prince and Princess of Greece. Emperor William is expected at Cronberg tomorrow afternoon. Professor Reuters, the specialist, has wired his majesty to come in all haste.

The following bulletin concerning the condition of the patient was issued during the afternoon: "The external disease from which her majesty is suffering, and which for years has been slowly increasing, has, in the course of the last few weeks, extended to the internal organs. Her majesty's strength is diminishing rapidly owing to inability to take sufficient nourishment. She is conscious and at present without pain."

King Edward on the Way.

London, Aug. 4.—King Edward, who has been staying at Cowes, has arranged to leave Portsmouth tomorrow by a special train which is due to arrive at London at 5 o'clock a. m. He will then proceed immediately from London by special train and boat, via Flushing, to the bedside of his sister.

London, Monday, Aug. 5.—King Edward has postponed his departure from Portsmouth for Cronberg until three this afternoon.

POUNDMASTER LENNON THE VICTIM.

IS SHOT AND KILLED BY CAPTAIN S. E. BENNETT.

Hot Words Over the Impounding of a Cow Belonging to the Oliver Company's Superintendent the Cause of the Tragedy.

Iron Mountain, Mich., Aug. 4.—A dispatch from Crystal Falls says that Captain S. E. Bennett, superintendent of the Oliver Mining company, and one of the wealthiest and best known mining men in the upper peninsula, last night shot and killed Poundmaster Joe Lennon at Crystal Falls.

It is said that Lennon had placed a cow belonging to Bennett in the pound when the men met hot words resulted in Bennett sending a bullet through Lennon's heart.

MANIAC KILLS AND DIES.

Three Idaho Men, One Killed, the Victims of His Aim.

Moscow, Ida., Aug. 4.—Dr. W. W. Watkins was shot and instantly killed this morning while riding in his buggy in a street; George Creighton, a prominent merchant, was shot through the arm, and Deputy Sheriff Cool was shot in the shoulder and thigh by William Steffen, who, it is believed, became suddenly insane. Steffen was afterward killed.

Steffen was on horseback when he shot Watkins and Creighton. He was at once pursued by the deputy sheriff and a large posse. As he neared his house, two miles southeast of town, his horse was shot from under him. Steffen took refuge in his house, where, armed with a rifle, he kept his besiegers at a distance.

A fusillade was kept up from all sides of the house, the attacking party taking refuge in a field of wheat. Steffen would occasionally appear at windows, fire a shot and then disappear. About 11 o'clock he appeared at a kitchen window, evidently intending to pick off some in a party of four who had crawled up to an advantageous position, but a volley from their rifles ended the tragedy, a bullet piercing Steffen's forehead.

JEALOUS OF THE WOMAN.

Omaha Man Kills Actress Millie Allen and Himself.

Omaha, Aug. 4.—Mrs. Millie Light-Law, the actress known as Millie Allen, was fatally shot today by Thad Brookie, who then sent a bullet through his own heart. The tragedy occurred at a rehearsal of "The Arizona Female Bandit," of which the dying woman was the author. Brookie, who had a criminal record, is said to have been insanely jealous of the woman.

CASTRO CLAIMS A VICTORY.

Invaders from Colombia Reported Repulsed With Heavy Loss.

Caracas, Aug. 4.—The Venezuelan government announces that the force of invaders under General Rangel Garibay, including twenty-two battalions of the Colombia army, was repulsed by the government troops and compelled to fall back across the frontier after twenty-eight hours of fighting on July 28 and 29. It is officially asserted that the invaders lost nine hundred men, the government troops losing three hundred. The government has sent reinforcements to the frontier.

AIRSHIP AGAIN FAILS.

Third Attempt to Win the Prize at Paris Is Unsuccessful.

Paris, Aug. 4.—M. Santos-Dumont, the Brazilian aeronaut, made another unsuccessful attempt this afternoon to win the prize of 100,000 francs offered by the Aero club for a manageable balloon.

LORILLARDS BUY HER OFF.

Mrs. Allien Gives Up Farm for a Large Sum of Money.

New York, Monday, Aug. 5.—The Press today announces what it calls "unimpeachable authority," that a settlement has been reached between Mrs. Lillian B. Allien and the Lorillards. Ranosas will remain in the family, and in return for the surrender of her rights to the famous breeding farm Mrs. Allien will receive a large sum in cash.

EXCESSIVE LOANS TO BLAME.

Bank Inspector Closes the First National of Austin, Tex.

Austin, Tex., Aug. 4.—Federal Bank Inspector Logan today closed the First National bank of this city and posted a notice on the doors that it would not be open for business pending the arrival of the chief inspector. Alleged excessive loans are said to have caused the action. The total deposits are reported to be over \$200,000.

Later—Director Myrick, of the First National, tonight said there was approximately \$25,000 in deposits, instead of \$200,000 as at first stated, and that the bank would be able to settle all dollar for dollar.

CHANGING NOTICED AT PEKIN AS THE TROOPS DEPART.

POPULACE STILL MORE UNFRIENDLY.

FOREIGNERS BEING AGAIN JOSTLED AND CURSED.

Legation Defenses, Not as Strong as Desired Through Fear of Provoking Hostilities, Now Practically Completed.

Pekin, Aug. 4.—American and European residents assert that the demeanor of the Pekin populace is becoming constantly more unfriendly, and as the allied troops depart the Chinese resume their old habit of jostling and cursing the foreigners.

The legation defenses are now approaching completion. Generally speaking, they consist of a brick wall from fifteen to twenty feet high and from three to four feet thick, loopholed for rifles. The ministers of the powers ignored the plan for a uniform system of defense submitted by the generals and consequently the governments are working independently. It is the policy of the ministers to avoid conspicuous work of defense, lest these should provoke irritation, provoking instead of preventing hostilities. Most of the engineers have recommended stronger defenses than the ministers will sanction.

"The French and Italians still remain here. The non-fulfillment of the agreement to evacuate the public places in a fortnight causes some inconvenience to the military authorities. Only the German barracks have been completed, while the French barracks have hardly been begun. The troops are grumbling over being compelled to give up their comfortable quarters for temporary camps.

New Star by Cyclist Michael.

New York, Aug. 4.—In a thirty-five-mile paced bicycle race between Walthour, Nelson, McEachern and Jimmy Michael at Manhattan beach yesterday afternoon, Michael rode the first mile in 1:30, breaking the world's record by two-fifths of a second. Walthour won the race, the time being 54 minutes, 53.5 seconds.

DIE AMID FLAMES.

Manuelona, Mich., Aug. 4.—Two daughters of George Simmons, aged two and three, were burned to death today in the house, which in some unknown manner caught fire while the parents were absent.

PLAYS THE NEGRO

SENATOR TILLMAN MAKES VIGOROUS SPEECH AT MARINETTE.

DECLARES BLACKS UNFIT FOR VOTE

COME WHAT MAY, WHITES WILL RULE THE SOUTH.

In Eloquent Plea the South Carolinian Justifies Lynching and His Remarks Are Heartily Applauded by His Auditors.

Milwaukee, Aug. 4.—The correspondent of The Sentinel at Marinette telegraphs his paper tonight as follows: United States Senator Benjamin F. Tillman of South Carolina addressed a large audience here today on the race question from the Southern standpoint, one of the features of his remarks being a plea in justification of lynching.

"In Wisconsin you have five thousand black men," said he. "Why don't you try the bleaching process and exterminate them by intermarriage. The idea is repugnant to you. In South Carolina we have 750,000 blacks and 550,000 whites.

All Men Not Created Equal. "Carpet baggers, the 'nigger' and Southern scoundrels ruled us one way or the other until they had stolen everything there was in the state; then we went with our shotguns to the polls and took them away from them. All men are not created equal, and 'niggers' are not fit to vote. Come what may, the white people of the South will govern their part of the country."

The senator cited Booker Washington's scheme of educating the negro along industrial lines as an attempt to place him on an equality with the white artisan, something that would intensify race hatred in the south. He said that among the four million slaves during the Rebellion, there were more Christians than there are today among the nine million blacks in the South.

"I do not want to uphold slavery," he continued, "and I thank God there are no slaves today under the stars and stripes."

Justifies Mob Law.

Senator Tillman made an eloquent plea in justification of lynching, saying Southern women could not be brought into court to testify in their shame and degradation before a jury for the purpose of convicting a beast. His reference to the sanctity of the Southern household and Southern women and his remarks on lynching were heartily applauded.

The speaker closed with an impassioned statement to the effect that the white people of the South would remain on top "in spite of the devil," and if necessary he and his brethren were ready to take down their shotguns again.

MOB LYNCHES FOURTH VICTIM.

Negro Suspected of Murder Is Slain Near Carrollton, Miss.

Carrollton, Miss., Aug. 4.—The armed mob which has been in the Tallapoosa neighborhood for several days looking for Sally Layton and others, some time last night killed Will Price, a negro who worked for Mr. and Mrs. Tallafiero for whose brutal murder three negroes—mother, son and daughter—were lynched last Thursday. The dead body of Price was found in a road this morning, a rope around the neck and the corpse riddled with bullets. It is said that Price told Jack Tallafiero all about the murder and said the plan was to kill both the old people and Jack, the youngest boy, while Lynn was away and shoot the latter when he returned. It is understood the mob has quit work now and gone to their homes.

HUNDREDS ON HIS TRAIL.

Negro Kills the Chief of Police of a North Carolina Town.

Shelby, N. C., Aug. 4.—Chief of Police Jones was shot and instantly killed by Jim Lowry, a negro on whom he was attempting to serve a warrant, early this morning. Over a thousand persons are on the negro's trail and a lynching seems probable.

PASSENGER TRAINS CLASH.

Two Men the Victims of Collision on New York Central.

Lockport, New York, Aug. 4.—The Pan-American special and a heavily loaded regular passenger train collided a few miles east of this city this morning on the New York Central. Engineer Hyland and Trainman Webb were killed and the fireman was severely injured. The passenger on both trains were panic-stricken, but none were seriously injured. Mistaken orders caused the wreck.

THE RIGHT TO WORK. It is a rather significant fact that all the big strikes which are on at present involve the denial by labor organizations of the right of a man to work without their consent.

The Amalgamated strike aims, as is well understood, to force the United States Steel corporation to unionize all its mills.

NO SETTLEMENT REACHED. Saturday's conference between the representatives of the Steel Corporation and the executive board of the Amalgamated association brought no agreement.

WALKED OFF THE BRIDGE.

Wm. Mawrey, a Houghton Molder, Almost Instantly Killed.

William F. Mawrey, employed at Carroll's foundry in Houghton, walked off the Portage Lake bridge at 9 o'clock Saturday evening while the draw was open and was almost instantly killed.

The draw was opened by Bridge Tender Clarence D. Mawrey who was going north on the bridge and reached the draw just as the sidewalk on the draw moved from the walk where the unfortunate man was standing.

A young lady standing on the draw saw the victim fall and gave the alarm. As soon as Osborne could close the draw he went down the ladder and found the man lying on the pier. Dr. Harkness, who was passing on a car, and Dr. Jones, who was on the steam yacht Morgan, also soon appeared on the scene.

The body was taken by the Morgan to Hennes' dock and from there to Krellwitz's undertaking rooms. Dr. Jones was positive the man was W. F. Mawrey, although there was nothing on the person by which the deceased could be identified.

Mr. Mawrey had lived at Portage Lake a long time. He was employed at Hodge's foundry at the Ripley until eight years ago, when he took a position in the shops of the Lake Shore Engine Works at Marquette.

His wife died. He returned to Portage Lake last month and went to work at Carroll's on Aug. 1. His brother, Edward Clark, is employed at the Brown-Corliss Engine Works in Milwaukee and a brother of the deceased lives in the state of New York.

BRICK OR MACADAM?

New Question at Houghton Likely to Delay Street Work.

The agitation in Houghton for brick as the material to be used in the improvement of Sheldon street is understood to be on the part of certain few prominent and representative business men who believe that the material is far better and more lasting for the main thoroughfare than macadam.

However, if the question of another kind of material is continued to be agitated, it is practically sure to bring things to a standstill and Houghton likely to experience what Hancock has already gone through; the wrangling and trouble in settling the street question in that village is well known by most people at Portage Lake.

A few days ago Houghton was assured of having Sheldon street improved within a very short time, but at present the situation is doubtful and it seems that the question of the kind of material will be further discussed.

As was stated in a previous issue, Sheldon street could be macadamized right away, as there is money in the treasury to do it. But should brick be decided on it would be necessary to again bond the village.

It is not probable that the taxpayers would look with favor on a new issue of bonds while they know the village is already in debt to the amount of nearly \$85,000.

The whole matter practically rests with the council to settle. Should it decide for macadam, that material will be laid, but should brick be favorably considered the question of bonding the village will have to be submitted to a vote by the people.

The proposition may then be carried or knocked in the head, with the latter as the probable outcome. The steam roller would have to be returned, which would mean the loss of all the work of preparing the plans and specifications for the improvement of the street by macadamizing. Everything is now practically ready for the commencement of the work, but the agitation for brick is likely to bring things to a standstill for how long a time is only a matter of conjecture.

MICHIGAN A "WINNER."

Developments at the Property Assure a Wonderful Future.

It is learned from the Ontonagon Herald that the Calico lode was encountered last week in the crosscut which is being driven from the eighth level in "B" shaft of the Michigan mine.

This crosscut is being made to tap the bottom of the old workings of the mine in Minnesota. It was started from the eighth level or a distance of 1,137 feet from the top, and while this is not as far down as the lowest point in the old workings it will give an opportunity of determining to some extent what will be found. There is no question that copper will be found there and in quantities that will make the Michigan a very valuable property.

Both "A" and "B" shafts are being pushed downward as rapidly as possible. Three shifts of men are pounding away continually. "A" shaft is down 800 feet and "B" shaft has attained a depth of 1,182 feet.

There are over 7,000 feet of drifts on the Calico lode and it has been demonstrated that the rock will return better than 1 per cent copper. This is a pretty good showing when it is taken into consideration that work has been mainly confined to sinking and crosscutting for some time.

The Michigan is a very valuable property leaving entirely out of consideration the fact that it has a large acreage which is also crossed by the same group of lodes as the other mines in the district, some of which have been developed.

VICTORIA TO USE WATER POWER.

Steps to That End Now to Be Taken—Mine's Showing Splendid.

The good words which are so universally expressed in favor of the Victoria mine, states the Ontonagon Herald. Progress is being made and the mine is making history every day. Everything on surface and underground is being carried on in that same systematic and progressive manner which has characterized this as one of the best managed mining properties in the copper country.

The shaft is being carried on steadily and the shaft is nearing the eleventh level. Good progress is being made with this work and a distance from sixty to seventy feet is registered each month. Drifting is being done on or from the different levels and from the tenth where it was recently commenced the openings are showing up in a very satisfactory manner, demonstrating that the vein gains in width and quality as depth is attained.

The product of the Wolverine for the first two months of the year amounts to 1,760 tons. This compares with 1,592 for the same period a year ago. A dispatch to Boston from the Lake says that the product of the Mass mill, including the mass and barrel copper being secured at the mine, is making a gross return of about 2 per cent on the rock mined and milled.

A large copper interest at Boston says "Lake copper is 17 cents and nothing less. Copper will either hold at 17 cents or sell at 12 cents. It won't sell at 16 or 16 cents. What I think of it is shown by the fact that I am buying copper stocks."

One of the promoters of the South Range consolidation in an interview at Boston says: "The plans for a consolidation of the Copper Range, Baltic and Trumountain properties are practically completed, but in the present inactive state of the copper share market there would be no advantage in effecting a consolidation just at this time. The control of these properties is so held that there are difficulties to be overcome in putting them together. It is not contemplated to include the St. Mary's Mineral Land company at this time, although it may go into the combination later."

OSCEOLA IN DEMAND.

Buying Based on Increased Earnings and Prospects.

The Boston News Bureau says the advance in Osceola to 100 has found little stock for sale, the buying being of the best character. The friends of Osceola and those familiar with its productive possibilities claim that within the next two years it will rival Quincy, which is now producing at the rate of 20,000,000 pounds of copper per annum.

Osceola's last annual report showed that net earnings were sacrificed in the interest of extensive development work, the cost of which was very largely charged to the operating account. During the period covered by the annual report 2,000 feet of new shafts were sunk and in all three miles of new openings were made. The openings were largely in the Kearsarge and South Kearsarge properties on a lode that has a demonstrated value of at least twenty-five pounds of ingot copper to the ton of rock.

It is stated in Boston banking circles that Osceola's semi-annual dividend will be at least \$4, and that the mine is today producing 33 1/2 per cent more than it did last year. Earnings of between \$12 and \$15 per share in 1902 are confidently predicted. By the end of 1901 there will be a capacity for treating at least 40 per cent more rock than was treated last year by the nine stamps in use.

The fact is, people are just awakening to the possibilities of the copper producing properties of the Lake. Some people realized these possibilities in Osceola some time ago. People who hereinafter wait until chances were eliminated and success assured, are now buying.

President John Stanton of the Mohawk says: "The exact dimensions of our second vein of mohawkite are not now known, but present investigation shows that it is about ten inches wide and at least fifty feet long. The other vein discovered last year is about eighteen inches in width and fifty feet in length. The ore in the new vein will average about the same as in the first, that is, between 60 per cent and 75 per cent copper."

The special smelter which is being constructed at Hackensack Meadows, N. J., to treat mohawkite is not yet completed; and its date of completion is still uncertain. The present turmoil in the labor field at Pittsburgh has delayed work, and accidents have occurred which have further postponed the opening of the works. A fifty-foot stack, which had been erected, was blown to the ground, causing considerable damage and very much delay, but everything is now being pushed with all possible speed and smelting operations should begin by Oct. 1."

It's unfortunate for us, for there are very many nice things we could tell you about our laundry plant, and the high grade work that comes out of it. If it were not for our modesty we could tell you how much brighter, and lighter and better every way our laundry is; we could tell you our superintendents and workers are a little more artistic and skillful than most others, and our system of urged inspection by an expert prevents you from getting anything but perfect laundry work from our shop. But it might be better anyhow to ask us for proofs and judge for yourself.

STERN WAR POLICY

LENIENCY BY BRITISH AT END IN SOUTH AFRICA.

ORDERS TO KITCHENER SEVERE.

ALL ARMED BOERS ARE TO BE TREATED AS BRIGANDS.

Government Bitterly Criticized but Generally Upheld Despite Fear the Burgers Will Retaliate by Further Barbarities.

New York, Aug. 4.—The London correspondent of The Tribune says that the prompt action of the government in telegraphing General Kitchener that all Boers found guilty of killing natives employed by the British forces were to suffer the death penalty is generally approved.

Some people, however, affect to believe it will lead to further barbarities by the Boers toward any white prisoners that may fall into their hands. In any case the policy of leniency on the part of General Kitchener has been a thing of the past and armed Boers will, in the future, be treated as brigands.

There is much bitter discussion in and out of parliament, but the most reasonable view is that the guerrilla warfare has reached the state of demoralization where Boer commandos cannot be controlled by either General Botha or Mr. Kruger.

New to Concentrate the Natives.

London, Monday, Aug. 5.—The military administration in South Africa, according to various dispatches from Johannesburg and Kroonstad, has determined to establish camps outside garrisoned towns for the accommodation of natives and destroy their trails so as to shut off this source of food to the Boers.

SUGAR WAR IN CALIFORNIA.

Trust and Beet Interests Clash and Prices Go Down.

San Francisco, Aug. 4.—A bitter fight is being waged in California between the American Sugar Refining company and Speckles interests on the one side, and the Oxwards, the beet sugar men, on the other. Prices have been contracted over fifty points in a week, and refined sugar is now selling here at the lowest point in ten years. Up to a few weeks ago, the Oxwards used to send their raw beet sugar to the Speckles refinery to be refined, but they now have a process of putting their beet sugar on the market without sending it through the old refining process.

The cut in price of sugar is made to take away the profit of the beet sugar men, and either drive them out of business or place them at the mercy of the American Sugar Refining company. By preparing their own sugar, the Oxwards have placed themselves in a position to sell direct to the consumer or to the Arbucks.

The American company is prepared to lose hundreds of thousands of dollars in its effort to bring the beet men, headed by the Oxwards, to terms. The trusts want to become the exclusive agent of the beet men, guaranteeing to take all the raw beet sugar offered at a flat rate of \$7 a ton for marketing and refining.

Besides this, the American Sugar Refining company is threatened from another quarter. Many of the largest Hawaiian planters are under contract to turn all their raw sugar over to the trust. These are chiefly three-year contracts that have but one more year to run, and now a huge sugar refinery will be built on the islands large enough to handle a very large proportion of the Hawaiian crop.

BIG TENEMENT HOUSE.

One to Accommodate 186 Families Going Up at New York.

New York, Aug. 4.—Plans have been filed for what will probably be the largest tenement house in this city, if not in the world. The building was designed by Harde & Short for the City & Suburban Home Company, and will occupy the whole block in Avenue A, between Seventy-eighth and Seventy-ninth streets. As it will stand back 200 feet in each street, it will be nearly square, with a ground area of more than 400,000 square feet. It will contain apartments for 186 families. The house is to be six stories high, with a courtyard, so that there will be no dark rear rooms. The exterior of the building is to be of golden buff brick with Indiana limestone and terra cotta trimmings. The roof will be constructed as a roof garden and playground for children. Special plans also have been made for both rooms for each apartment. The average apartment will consist of a parlor, bedroom, dining room, kitchen and bath room, and the rental will average \$1 per room per week.

CLERGUE COMPANY LOSES.

Is Enjoined from Absorbing the Ontario & Lake Superior.

Hartford, Conn., Aug. 4.—Judge Nathaniel Shipman of the United States circuit court has granted a preliminary injunction restraining the Consolidated Lake Superior company from absorbing the Ontario & Lake Superior company.

The suit brought against the Consolidated company was brought by Alton S. Miller, of New York, a stockholder, who alleged that the capital stock had been increased without his knowledge, and that certain directors formed a plan to sell it at an exorbitant price for the property of the Ontario company, of which they are the principal stockholders.

The Consolidated company, which was incorporated under the laws of this state, recently increased its capital stock from \$20,000,000 to \$117,000,000. It owns and operates extensive mining, lumber and other properties near Lake Superior. It has stock of five subsidiary companies, the Lake Superior Power company, the Sault Ste. Marie Pulp & Paper company, the Algoma Iron Works, the Tagoma Water & Light company and the Michigan Lake Superior Power company. The various companies deal in timber, ores, paper, water power, etc., principally in Canada. Frances H. Clergue is one of the principal stockholders.

It was alleged by Miller that the price proposed to be paid for the Ontario & Lake Superior would result in a profit of over \$9,000,000, the greater part of which would be received by the Consolidated directors, who already control the Ontario company.

ARBUCKLES CHARTER FLEET.

Quit the Pool and Will Bring Coffee on Their Own Ships.

New York, Aug. 4.—The statement is made that the Arbuckle Brothers, coffee merchants, who have long been at war with the sugar trust, have, with a view to further strengthening their position, cut out from a combination of steamship companies which has hitherto had a monopoly of the coffee carrying trade between this port and Brazil and known as the Brazil Steamship pool, to do enough business to receive the highest rebate at the end of the year.

This rebate is based on the extent of the coffee imports of each firm, and no importing firm gets a rebate which does not give the combination its entire patronage.

The sugar trust imports all coffee through the firm of Crossman & Co., who have been the only importers to do enough business to receive the highest rebate. As viewed by the Arbuckles the sugar trust, their rivals, was thus getting more than its share of the rebate, and placing the Arbuckles at a decided disadvantage in the coffee warfare.

The steamship pool employs only steamer vessels, but the Arbuckles have chartered the sailing vessel Eagle Wing and four steamers. At the office of Buck & Jevons, agents of the combination, it was predicted that the Arbuckles would find it to their financial interests to return to them when vessels for charter were scarcer than at present.

IS FIGHT TO FINISH

(Continued from Page One.)

Labor won in the city, before departing for Pittsburg.

Mr. Morrison was exceedingly loath today to discuss the object of the visit, confining himself to the general statement that the committee had come to Washington for a conference with the officials of the American Federation of Labor as to the best method of procedure in carrying on the strike. He was asked specially whether orders would be issued for an extension of the strike in affiliated branches of labor and regarding the matter of financial assistance to the steel strikers, but declined to answer the questions.

President Gompers is expected to return to Washington early in the week.

Will Spend All Money and Time Necessary to Crush the Union.

"It will be a fight to a finish. No quarter will be given. We are prepared to spend all the money and time necessary to wipe out the Amalgamated association in all our mills."

New York, Aug. 4.—The above was the contents of a message that was sent over the wires from this city to the Pittsburg officials of the United States Steel corporation last evening. Some of the officials heard the message with misgivings, others with unconcealed satisfaction. One of the officials left the office declaring that he was glad of it.

Neither Would Yield a Point.

The leaders on either side met here yesterday and after a fruitless conference and discussion parted in a spirit that shows no tinge of conciliation. Neither side would surrender a position or concede a point in the dispute in which they are involved.

President Schwab of the Steel company received the representatives of labor and conducted them to the consulting rooms of the steel directors. J. Pierpont Morgan came to the conference accompanied by Robert Bacon, one of his local partners, and C. E. Dawkins, head of the English house of Morgan & Co. D. G. Reid of the American Tin Plate company and other officials of the companies federated for this time, corporation also joined the conference, and it was some time after the time first appointed that the conference was formally opened.

Mr. Schwab spoke first for the employers and was followed by Mr. Morgan. They declined to make any modification of the terms offered by them just one week ago, when Shaffer and Williams journeyed here for the first conference. Mr. Shaffer and the other members of the Amalgamated association insisted that more liberal terms be offered. There was a general discussion as to the whole proposition involved, and each mill, the unionization of which has been disputed, was considered in detail.

When either side had fully expressed itself, the steel officials withdrew from the room in order to permit the labor representatives confer privately. The latter decided to reject the offer of the corporation, and when Mr. Schwab returned to the room so informed him. Mr. Morgan and his two partners withdrew almost at once, and a little later the Amalgamated men took their leave also.

Strikers Issue a Statement.

Later an executive session was held, following which a statement as to the relative position of the trust and union was given out. In part, it read:

"The officials of the United States Steel Corporation, instead of resuming negotiations where they were suspended at the conference held on July 11, 12 and 13, have withdrawn the propositions made at that time and are now offering much less than they agreed to sign for them."

"As to our proposition, it is a modification of that which was offered originally. At the last conference, as those preceding it, we required the signature to the scales for all the mills owned and operated by the United States Steel Corporation, while in the present proposition we ask that the scales be signed for none but those mills which are organized and where the men ceasing to work have signified their desire to be connected with the Amalgamated association. This modification has been made because the trust officials declare that we wished to force men into the organization against their will and desire. We therefore asked that the scale be signed for only those men who desired it."

The combine officials declined to talk.

Her personal teaching to her students is even more extravagant than the language of her published books, and it was a common occurrence for her to frighten into fits her own women, young girls, and children with the dreadful fear that a malicious mind was seeking to cause them unspeakable disaster. She has taught that the malicious action of mind of itself might cause, and had caused, the pregnancy of women, with consequences I must leave to your imagination.

"I affirm and I charge that this Mary Baker G. Eddy, the founder of Christian Science and the pretended successor to Jesus, has again and again sought to exercise this power (malicious animal magnetism), which she calls the highest degree of human depravity."

"Its effect, according to the tenet of the faith, is to cause sickness, to cause death, to cause disaster, and this I will prove by legal evidence any time Mrs. Eddy may be pleased to require it."

LONDON GIRLS DISCARD SHOES.

Wearing of Sandals, With No Stockings, the Latest Fad.

London, Aug. 4.—The latest seaside fad is the wearing of sandals by grown persons. Many girls seem to be especially taken with the new idea. The sandals are generally worn without stockings. The craze has spread even to London, where well-dressed women can be seen sandaled in the park.

INDEPENDENCE SAILS WELL.

Is Beaten Only by Small Margin in a Race With Columbia.

Newport, R. I., Aug. 4.—Independence sailed the greatest race of her career. In a stiff southerly, which lasted a rather heavy sea, she was beaten forty seconds over a triangular course of thirty miles, boat for boat, by Columbia. As she allowed Columbia thirty-one seconds over that distance, she was defeated one minute and eleven seconds, corrected time. This is a better showing than Constitution has made against the Columbia under similar conditions of wind and weather.

In the ten races in which Constitution and Columbia have finished, each have won five, the former winning in the light airs and the latter in strong breezes.

RUSSIAN PRAISES BALDWIN.

Governor of Archangel Says the Explorer's Equipment Is Superb.

Moscow, Aug. 4.—Civil Governor Engelhard of Archangel writes that he is greatly pleased with the Baldwin arctic expedition outfit which he had just inspected.

"Baldwin's arctic expedition is the best equipped one that was started for the north pole," writes Mr. Engelhard. "I can find no words in which to express my admiration for the skill and thoroughness shown by the American explorer in preparing for his great undertaking. The Siberian tribesmen engaged to manage Baldwin's 420 Siberian dogs know their business and will play an important part in the projected explorations. All the officials and educated people of Archangel assembled at the pier to give the Yankee expedition a brilliant send-off, and when the America weighed anchor the demonstration ashore was tumultuous."

ATTACKS CHRISTIAN SCIENCE.

Frederick Peabody of Boston Declares It a Fraud and Witchcraft.

Boston, Aug. 4.—In Tremont Temple, Frederick Peabody, a prominent member of the Suffolk bar and counsel in the Harvard case, recently delivered an address on "Christian Science or Eddyism, Its Absurdities, Its Frauds, Its Crimes, and Its Old Witchcraft." He had an audience of 500 people who frequently applauded his statements.

Mr. Peabody began his address by saying that he does not know Mrs. Eddy personally and has no personal feeling against her, but that he was led to deliver his talk by a full belief that she is a menace to the public. "Christian Science," he said, "is a sham and a fraud. It is a religion of lies, a religion in that it falsely pretends to be a revelation from God, communicated to its founder, Mrs. Eddy."

Mr. Peabody then sketched Mrs. Eddy's marital experiences and charged that she is believed by many to be the author of the "private secretary." "The holds," said the speaker, "the legal title to her residence in Concord, N. H., and all the grounds about it, her lands and houses and her horses and carriages, the furniture within the house, and the crops upon her extensive farm. She has given away, for a costly jewel, of the diamond cross she wears at her throat."

Mr. Peabody said Mrs. Eddy claimed to have discovered Christian Science through a revelation from God in 1846, while he said, "It is shown that she knew all there is to be known in 1866, and received it from Dr. Phineas P. Quibby of Portland, Me."

Mr. Peabody stated that while Mrs. Eddy is credited by her followers with great generosity, she has reserved in all her gifts the right to repossess herself of all the property at any time she wishes, or so her heirs can claim all in case of her death.

Coming down to a discussion of what Mrs. Eddy teaches, he declared that in her belief there is such a thing as "malicious animal magnetism." Peabody quoted liberally from her writings and then said:

"Her personal teaching to her students is even more extravagant than the language of her published books, and it was a common occurrence for her to frighten into fits her own women, young girls, and children with the dreadful fear that a malicious mind was seeking to cause them unspeakable disaster. She has taught that the malicious action of mind of itself might cause, and had caused, the pregnancy of women, with consequences I must leave to your imagination."

"I affirm and I charge that this Mary Baker G. Eddy, the founder of Christian Science and the pretended successor to Jesus, has again and again sought to exercise this power (malicious animal magnetism), which she calls the highest degree of human depravity."

"Its effect, according to the tenet of the faith, is to cause sickness, to cause death, to cause disaster, and this I will prove by legal evidence any time Mrs. Eddy may be pleased to require it."

AMERICANS TAKE THREE INSUREMENT TOWNS IN MINDORO.

REBELS FLEE TO THE HILLS.

TROOPS NOW IN PURSUIT OF THE LEADER, A DESERTER.

Adjutant General Corbin Departs for Shanghai After a Tour of the Islands, Declaring Himself Pleased Over Situation.

Manila, Aug. 4.—The towns of Calapan, Naujan and Pobo on the northeast coast of the island of Mindoro, have been occupied by a battalion of the Thirteenth infantry and Macabebe scouts after slight resistance. The insurgents, numbering several hundred, have fled into the interior. Their commander, Howard, who is an American deserter, is hiding in the mountains. The Americans are in pursuit.

Corbin Sails for China.

Adjutant General Corbin, who left Manila for Shanghai this afternoon after a tour of the islands, including a visit to the sultan of Jolo, with whom he exchanged presents, said: "The trip has considerably broadened my views, as well as affording me great pleasure personally. What I have seen should be of considerable benefit to the government."

"In my opinion, the changes now being made in the Philippines could not be carried out by able hands than those of Governor Taft and General Chaffee. Both are men of tact and ability. I am gratified to note the firm friendship established between them and am confident that, under their guidance, the Philippines will get out of trouble into peaceful waters."

The civil administration of Manila under the new charter probably will go into effect next Tuesday, when most of the appointments will be made.

SHOE FACTORIES BUSY.

70,000 Pairs the Daily Output at Lynn—Fight With Foreigners.

Lynn, Mass., Aug. 4.—The output of shoes from Lynn factories this year will be the largest in the history of the city and its value will far exceed that of any previous year. There is hardly a factory in the city that is not running full time, and many are advertising for help.

A remarkable situation for this time, generally one of the dullest periods in the year for the business. A visit to the city's shoe factories confirm the assertion of shoe manufacturers, that the fall trade is proving remarkably lively. Most of the boxes made here are used by the local concerns, and the business of the shoe trade is an unerring indication of the shoe trade. From figures obtained from the box men it appears that there are between 70,000 and 75,000 pairs of shoes now being made daily in Lynn, an increase of twenty per cent over last July. The increased business is shared by nearly all the manufacturers.

The foreign trade that attracted much attention and excited great expectations last year has been checked. A large number of manufacturers have broken away from the jobbers and sell a large share of their product direct to the retailers. The improvement in the home market is said by some of the leading men in the trade to be the true explanation of the falling off in the export trade. The foreign market is said to be still looked upon by the great majority of manufacturers merely as a field in which the surplus product of American factories can be disposed of. When business is good here it is neglected. When home orders come in slowly the shoe men reach out for a slice of foreign trade.

A leading manufacturer who has just returned from abroad tells another story. "Our foreign trade is languishing," said he, "because foreigners are fighting so hard to keep us out of their preserves. They are trying to shut us out by every means in their power, and many American firms that have started to build up a trade in foreign countries have found the struggle to overcome prejudice and opposition so distasteful that they have withdrawn from the field after obtaining a firm foothold. In England they accuse American manufacturers of hardly ever filling orders with shoes that are up to sample. That accusation is in many cases correct. In America dealers do not expect the whole of a shipment of shoes to be as good as the sample pair that the salesman exhibits. Special care is taken in making these samples, the stock is selected and pains taken in making the shoe. But wherever American shoes have been introduced and worn a demand for them is created that in time is bound to overcome any prejudice against them."

The evolution of the special shoe marks an important epoch in the industry. Two years ago there were not more than four or five firms in Lynn that manufactured directly for the retail trade. Today more than half of the manufacturers of the city sell the whole or part of their product to retailers; several have established show stores in this and other cities, and with a few exceptions this change in business has been fraught with good results to the manufacturer and the community.

This change has meant a revolution in office force, correspondence, shipping and collections. Hundreds of small customers are taking the place of one or two large ones, questions of advertising and transportation suddenly acquire additional importance, and the return shoe evil swells to an irritating magnitude. But every firm that makes a special shoe helps to advertise the city and the shoe is made while in selling to the jobber the retailer neither knew nor cared where the shoe was manufactured.

INSURED.

YOU insure your house against fire. You know what people would say if it burned down without insurance. They would say you were wanting in business sagacity, that you should have provided for this. Now leave house insurance and consider clothing insurance. Here the danger is even greater—not from fire, but from the chemicals and strong soaps used in the laundry. Wise women insure their finer, more delicate and perishable things against this risk, and the premium they pay is the trifling cost of Ivory Soap. That guarantees protection. IVORY SOAP—IT FLOATS.

STOCKS TURN DOWNWARD.

Rule Strong Early but Close Near Lowest of the Week.

New York, Aug. 4.—Stocks started up Saturday under the operation of the small attendance of professional traders on the board, who were apparently influenced by the belief that the renewed conference on the steel strike gave promise of a compromise and a resumption of work. However, selling orders appeared when the bank statement was published, whether for the purpose of taking profits by the room traders or from an unfavorable interpretation of that document, it would be hard to say. The closing of the week was near the lowest, as follows, Paine, Webber & Co. reporting the quotations:

SAVED BY ITS MATE.
 Nearly Drowned Bear Rescued from Drowning by Companion.
 But for the energetic and almost human action of one of the bears in the cage at City park one afternoon lately, there would have been a death by drowning in the colony. One of the bears in the cage held the head of another under the water until the first was nearly asphyxiated and would probably have held the victim there till he died had not a third bear in the cage become alarmed at the struggles of the drowning animal and rushed to the rescue, getting him out of the water barely in time to save his life. As it was, the water-soaked brute was nearly smothered, and the rescuing bear had to roll him about considerably before he showed any signs of life. After he had recovered, the beast which nearly caused the casualty became conscience-stricken over the possible serious results of his prank, and during the rest of the afternoon showed by his dejected manner and solicitous demeanor that he was thoroughly penitent.

There are seven animals in the bear pit at the park, three being on one side and four on the other. During the heated weather a hose is sprayed constantly into the pit. On one side of the pit is a trough which is full of water and in which the bears roll and toss throughout the day. The other afternoon two of the three bears in one compartment, after playing around in the cage for some time, rolled into the water, where they continued cuffling and hauling each other about evidently in play. After a scuffle one got the other's head in his paw, and throwing the weight of his body on him, pushed his body, head and all, under the water, holding it there firmly. The victim struggled hard, but the top bear had him absolutely under control, and he was unable to raise his head out of the water to breathe. The third bear watched the antics of the top bear for some time in an apparently disinterested manner until it appeared to suddenly dawn upon him that there was some danger. Then he jumped into the through and, pushing the top bear away, dragged the recumbent and almost lifeless form of the under animal out of the trough on to the cement floor of the cage.

For a short time it appeared as though the bear was really dead, and the offending bear was commencing to whine piteously when the nearly drowned animal snorted and opened his eyes. Within half an hour all was serene in the cage, but the two bears did not play in the water any more—Denver Republican.

HER STATISTICS.
 After Quizzing Woman Gently, Investigator Suddenly Left.
 There was a grim-looking, middle-aged woman sitting by herself in the Long Island depot at Thirty-fourth street the other day, when a man with a pencil and note book in hand sat down beside her and quietly observed: "Madam, I am gathering statistics, and I trust you will cheerfully answer a few questions."
 The woman looked at him doubtfully and somewhat indignantly, and closed her lips firmly.

"It is asserted," continued the man, as he touched his pencil to his tongue, "that the crime of wife beating is on the increase in America. You are a woman?"
 "Yes, sir!" she snapped.
 "And probably a wife?"
 "Yes, sir."
 "Very good. I'll not detain you long. In any information you may give me, my statistics will go to Washington, and there be compiled under a general head. Each state will be taken by itself, and in this state of New York, I hope to show that wife beating as a crime is scarcely known to the law."
 "What do you want of me?" she demanded.

"You are a wife, madam. You have a husband. Now, then, it is a delicate question to ask, but does that husband—does he—"
 "Does he what, sir?"
 "He may come home out of sorts with the world at large, madam."
 "Yes."
 "He may not have any family cat or dog to kick."
 "No."
 "And therefore, madam, may I vent his spite on you. He may, in brief, haul off on—"
 "And box my ears, do you mean?"
 "That's it, madam—that's it. What I am after is statistics, you know. If he does this—"
 "I'll just give you a few statistics," said the woman, as she rose up. "I've been married three times. The first two husbands never thought of laying their hands on me, but the last one boxed my ears three weeks ago."

"Ah! he did!"
 "He did, sir, and statistics show that he went out of a window head first, over a fence feet first, and that he didn't stop turning handspins and cart wheels and somersaults for a week."
 "My dear madam, I—I—"
 "Look at that, sir!" she continued, as she touched the end of his nose with her fist. "And I wear a No. 7 shoe and if it's statistics you are after I'll give you—"
 "In he was gone, and she sat down and breathed hard and looked red in the face and said to the passengers around her:

"If he'd waited about 10 seconds longer I'd have given him statistics on how many men are annually crippled for life by tryin' to be smart."—Brooklyn Citizen.

SYRUP OF FIGS
 NEVER IMITATED IN QUALITY.
 An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the only perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.
 In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

 Mr. Edward Murtha of 221 W. Rock street says: "I suffered off and on for a long time with attacks of pain through the small of my back and around through the groin. At times it became quite severe, especially if I caught cold or strained myself. The kidney secretions were irregular and unnatural. I was advised to go to the Stafford Drug Co. and procure Doan's Kidney Pills. I did so and began to use them. The distress was removed from my back and loins and the kidney secretions regulated."

THE RUNNING TEAM.
 There Are Several New, but Speedy, Men in It This Year.

Although the running team representing the Ishpeming fire department has had but very little training this year, compared with those that carried the banner for the city in former tournaments, the boys from the town of hemite expect to at least make a respectable showing at the Crystal Falls tournament this week. The firemen, including sixteen men in the team, will leave tomorrow morning via the South Shore and St. Paul lines. A coach will be set out for their exclusive use. It is expected that the department will be represented by nearly fifty men. The Ishpeming City band will accompany the firemen. The fare for the round trip will be \$2, with twenty-five cents less for firemen and band men in uniform.

This year's team is made up of Thomas P. Sullivan, captain; Walter Trewick, H. Collins, P. Harrington, Albert Smiderg, Ross Rude, Charles Haslam, William Karkeet, J. Kerr, P. Quayle, J. Cullen, R. Earnest, Sib Larson, Simon Olson, William Gill and Toney Bell. The team has been entered for six events. These are the regulation hose race, regulation hook and ladder race, coupling contest, ladder climber's contest, flag race and firemen's 100-yard foot race. There are several new men in this year's team. Ishpeming and Negaunee are the only places in this county that will have teams in the contests. The other departments are taking a rest, though it is expected that all will have teams in next year's tournament, when Negaunee will have the honor of entertaining the firemen and their friends.

The tournament proper will open Tuesday afternoon, when there will be a parade of all departments in attendance. There will be a ball that night at the opera house. The Ishpeming City band orchestra of ten musicians will furnish music for the party. The races will start Wednesday and continue the better part of three days.

GOES TO MASSACHUSETTS.
 Rev. C. O. Dahlen Severs His Connection With Swedish Baptist Church.
 Rev. C. O. Dahlen, who has officiated for six years past as pastor of the Swedish Baptist church in this city, as well as the leader in religious work in his denomination in the county, preached his farewell sermon to his congregation yesterday. He has accepted a call to Brocton, Mass., where he will assume the charge of a congregation about the first of the coming month. He intends to leave Ishpeming with his family on Wednesday of next week. They will visit relatives at Moline, Ill., where Mrs. Dahlen's parents reside, for a week or more before going to their new home. Rev. M. Johnson of Ashland, Wis., has accepted the call of the local society and will be here to assume charge about the time the present pastor leaves.

Rev. Dahlen has been here since 1895. He is very energetic and has done considerable missionary work at different points in this section, besides attending to his duties here. The membership of the congregation has been largely increased through his efforts, and mission work has been taken up at Marquette, Munising, Rapid River and Carlsbad. The reverend gentleman spent Saturday and part of yesterday at the latter place organizing a church society. Rev. Dahlen's followers at the other three places mentioned are affiliated with the Ishpeming church.

The society's property here is offered for sale. It consists of a church and parsonage, located at the corner of Division and First streets. If it is sold a new church will be built at some other place in the city.
BRANCH AT MASS CITY.
 John Kandelin, who has kept the books for William Anderson & Co. for some time past, will leave today for Mass City, where he will manage the firm's branch store, to be opened there. The concern strikes a good location for its branch as there are quite a number of Finnish people living there. The Anderson store will be the only Finnish establishment in the town. The new store and its owners will be a credit to the copper country town, as Mr. Anderson and his associates in business stand at the top notch in the estimation of Ishpeming people.

ASTOUNDED THE EDITOR.
 Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50c at Stafford's.

NOTICE TO CONTRACTORS.

WANTS TO SWIM.
 Peter Veal of Calumet, said to be an exceptionally fine swimmer, writes a friend in Ishpeming that he will back himself for \$50 against Brown, the man, who carried off the honors in the matches here two years ago. He stipulates a quarter of a mile as the distance he would like to swim.

WON GOLF GAME.
 The "kickers" handicap golf tournament was won Saturday by Paul and Lee Swift, both making scores within two of the score drawn. Great interest was taken in the game and all the members of the club who could possibly get away participated in it. That there was a tie for first place made it all the more interesting. The tie will be played off today or tomorrow. Paul Swift scored eighty-four, minus a handicap of ten, while his brother Lee scored seventy-seven, minus a handicap of seven. The number drawn was seventy-two, so one was as close as the other.
LADIES ATTENTION.
 A special exhibit of five hundred pieces of hand painted china from the Edgerton Art studios of Chicago will be made at Henry Harwood's store on Monday, Aug. 5, afternoon and evening. All admirers of the beautiful are earnestly invited to call. Orders for special decorations, also for the holidays, will be taken at this time. Mr. Harwood invites all who are interested to call.

ISHPEMING IN BRIEF.

F. M. Sackrider was down from Houghton Saturday on a visit to his family.

Mrs. Ed Hassenger and children are down from the copper country on a visit to relatives.

A camping party of fifteen will go to Lake Lory today, to remain the greater part of the week.

Professor William Hogue will hold his regular weekly dancing class and social tonight in Anderson's hall.

A package of laundry lost Saturday on Main street will be returned to its owner if left at the Ishpeming office of The Mining Journal.

A pocket book was picked up by Sam Apostle, proprietor of the Greek confectionery store, in the Ishpeming office of The Mining Journal.

Miss Mae Smith will leave today for Sault Ste. Marie, where she will spend a week or more visiting Mrs. Garret Gilbert, formerly of this city.

Mrs. Manville Jenks entertained a number of lady friends Saturday afternoon with a drive around the Cliffs, followed by refreshments at her home.

Sam Blumenthal and his family left yesterday for Lake Linden, where Mr. Blumenthal will engage in the clothing and gent's furnishing goods business.

Andrew Hall will leave tomorrow for Centerville, S. D., where he will spend a few weeks visiting relatives. Mrs. Hall and the children have been there the past month or so.

A Kettunen offers for rent the corner store room in his block at the corner of Division and First streets. The stand is a good one, just one block from Main street. It was recently vacated by Luckarilla & Kotki.

In the interview with Captain Walters, published Saturday, the types read that Superintendent P. H. Devine's estimate on the cost of pipe necessary for an extension to Carp river was \$39,000. It should have read \$10,000 less.

Mrs. Arron Johnson of this city has gone to Teckla, Minn., to prove up a homestead held by her deceased husband. She will be away at least three or four months. There is said to be considerable good timber on the homestead.

The Sunday school of the Winthrop Methodist church held a basket picnic at National grove Saturday afternoon. Old as well as young attended and the affair was a great success. The National band was at the grove and rendered music throughout the day.

The I. E. Swift Co. is offering for sale at greatly reduced prices all shelf hardware, such as cutlery, shears, etc. The sale will continue but a short time as the firm will soon begin packing up preparatory to moving to Houghton. Parties in want of such articles as are included in the stock will do well to call, as they can save money by purchasing now.

J. Ewald, who does quite an extensive blue berry box manufacturing business with men stationed at different points, has established his Ishpeming headquarters in the warehouse used last winter by the Dead River Mill company. He has three men employed there. The demand for boxes is not as heavy as usual this year on account of the scarcity of the fruit. Mr. Ewald ships boxes to buyers all through this section.

Bargains in shelf hardware, cutlery, shears, and everything in our store closing out. Will sell at prices that will surprise you. (8-3-10d) I. E. SWIFT & CO.

PEPSIN SYRUP CO.
 Dear Sirs:—I feel it my duty to write to you and let you know how much good your medicine has done for me. Twenty-three years ago I was taken with some kind of stomach trouble and I tried everything I heard of. They did me but little good. Three years ago neuralgia set in on me and I got so poor and weak that I could hardly walk—couldn't work in the mail. I had received a book through the mail advertising your medicine, and he sent our little boy to the drug store to get one of your ten-cent bottles. I began to use it. It is strange to say, but it's the truth, the second dose I took gave me lots of relief. I kept on using it till I used it nearly one year and now I am nearly as strong as I used to be and can do any kind of work. I recommend it to all, for it seems to me it would cure anybody. I have gotten several to use Dr. Caldwell's Syrup Pepsin and they all say it has done them so much good. God bless Dr. Caldwell and his medicine for doing me so much good.

Yours with respect,

RAINS CAUSE DELAY

INTERFERE WITH WORK ON MARQUETTE & SOUTHEASTERN.

GRADING TO BE FINISHED OCT. 1.

DOWNPOUR STARTING JULY WAS A RECORD BREAKER.

Wet Spells Have Made It Impossible for Contractors to Keep Men Continuously at Work—Did Not Mind the Heat.

The weather this spring and summer has been anything but favorable for railroad construction work. As this is the case McDowell Bros. & Co. will not finish their contract for the Marquette & Southeastern company as early as they would if conditions had been more auspicious.

Questioned by a Mining Journal representative as to how much of their work had been completed, a member of the firm said that they had, approximately, seventy-five or eighty per cent out of the way. Delays resulting from had wet spells, however, will not put back the completion of the grading much beyond the time it was intended to finish it, as the contractors rather expect, this of course depending on the weather of the next two months to get through about October 1.

A force aggregating about 300 men is now employed at different points down the line. The main camps, which have been described from time to time in The Mining Journal, furnish accommodations for most of this number and the remainder are in small camps, or looking after themselves independent of all contractors. The force on the line has been nominally 300 men ever since work was undertaken in real earnest.

The heavy grading has now practically been completed, the worst cuts and fills having been finished some time ago. The remainder of the work, while it will not be unattended with difficulty and serious labor, is light compared with some of the construction, notably the grading and filling in the vicinity of the headquarters camp.

Too Much Rain. There has been altogether too much rain this spring to please the contractors, who say that the season has been anything but favorable to their work.

It is, in fact, being one of the wettest springs and summers in their whole experience, and they have done a deal of railroad work. This fact has caused them no little extra expense, annoyance and delay. Not only has it interfered with work on the line, but it has made it difficult to keep the force properly organized, the enforced rests in the camps during the wet spells having a tendency to make the men restless and dissatisfied, with the result that there has been more than the usual amount of shifting and changing around.

The contractors had no fault to find with the extremely hot weather, as they were able to keep dirt flying on the line through the worst of it. The men worked steadily with the mercury soaring, nor did they seem to experience any ill effects. The Pan-American exposition is operating against the northern resorts, in favor of the big eastern hotels. To all points in the vicinity of Buffalo exceedingly low rates from every corner of the country are being offered and many people who are desirous of working in short visits to the big fair with their summer outings are going to the eastern resorts.

The Superior is better equipped this season than ever before to care for its business. As has been noted, the house has been improved in many ways and there are an additional number of rooms ready for use. The management is on a par with that of last year and complaints of the service or cuisine are absolutely unheard of.

Out of doors it may be observed that much has been done to improve the attractiveness of the hotel's environment. New gardens have been made in the extensive lawn in front of the house. The greensward is being assiduously cultivated and is developing finely. To the north end of the hotel is a lawn tennis court, a new provision which is at the service of the guests. The bowling alley pavilion retains all its popularity and is generally used.

One of the pleasantest social features at the house are the Saturday evening parties. That last week was particularly enjoyable, it being attended by an unusually large delegation of townspeople. The floor of the dining room presented a most attractive appearance when the increment was at its height. The hotel orchestra furnished excellent music. These hops will be a fixture throughout the season.

TO CHANGE THE SYSTEM. Effectually yet gently, when costive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Figs, made by the California Fig Syrup Co.

There still continues excellent quiet

buying of coppers. If the New York market was not so unsettled there would be a rather strong and active market for coppers. The poor ones will undoubtedly have a sympathetic rise. HOARD'S SHOP GUTTED.

Pierce Fire Works Damage Early Yesterday Morning.

F. H. Hoard's bicycle shop, just south of the Hotel Clifton, and the living rooms he occupied on the second floor were gutted by fire early yesterday morning. The alarm being turned in shortly after 1 o'clock. The equipment of the machine shop, located in the rear of the structure, is practically a total loss. Bicycles, owned by Mr. Hoard and his customers, stored in the front part of the first floor and much of the sundry stock were not materially damaged. Upstairs fire and water worked havoc with the household furnishings and it is hard to see how but very little of the stuff can be used again.

Mr. Hoard's loss will be, approximately, in the neighborhood of \$2,000 and he says that the insurance is quite insufficient to make it good. The frame building is badly damaged and it will cost several hundred dollars to restore it. The structure is owned by J. M. Longyear.

The flames had attained great headway when discovered, Mr. Hoard being hard pressed to get his wife and child out of the building in time to save their lives. The department responded to the alarm with excellent expedition and did good work at the fire, which, however, owing to its fine start, wrought the general damage outlined above before it could be brought under control.

The origin of the blaze is not known. It started in the machine shop at the rear of the first floor. There had been no fire in this portion of the building. It is thought that the flames may have originated from oily rags, although a tin can was provided for the reception of all such material and every precaution has been taken to keep it picked up.

The machine shop was run by a gasoline engine, but, although five gallons of the gasoline could be kept in the building, Mr. Hoard stored his entire supply outside, piping it to the engine. When the pipe feeding the motor was burned off, the fire received a great impetus from the spraying gasoline.

Mr. Hoard will re-establish himself in business immediately, having rented the store in the old Pendill building, corner of Front and Bluff streets, north of R. L. Francis. There he will soon be ready to look after all bicycle repair work and his electrical business.

ARRIVING STEADILY.

Hotel Superior Is Gradually Filling Up With Guests.

Hotel Superior is gradually obtaining a good quota of guests. The first two weeks that the house was open the business was light. It is by no means heavy yet, but the arrivals are coming in steadily and the middle of this month should see the hotel well filled.

According to all reports the northern summer resorts are not faring as well as usual this year. The most popular of them report a light business now, compared with the same period last year. They are all counting on a somewhat decreased number of visitors. All things considered if this season pans out a little better than last year the Superior will fare nicely. This it promises to do and there is a probability that the late traffic will give the house a big boom.

The Pan-American exposition is operating against the northern resorts, in favor of the big eastern hotels. To all points in the vicinity of Buffalo exceedingly low rates from every corner of the country are being offered and many people who are desirous of working in short visits to the big fair with their summer outings are going to the eastern resorts.

The Superior is better equipped this season than ever before to care for its business. As has been noted, the house has been improved in many ways and there are an additional number of rooms ready for use. The management is on a par with that of last year and complaints of the service or cuisine are absolutely unheard of.

Out of doors it may be observed that much has been done to improve the attractiveness of the hotel's environment. New gardens have been made in the extensive lawn in front of the house. The greensward is being assiduously cultivated and is developing finely. To the north end of the hotel is a lawn tennis court, a new provision which is at the service of the guests. The bowling alley pavilion retains all its popularity and is generally used.

One of the pleasantest social features at the house are the Saturday evening parties. That last week was particularly enjoyable, it being attended by an unusually large delegation of townspeople. The floor of the dining room presented a most attractive appearance when the increment was at its height. The hotel orchestra furnished excellent music. These hops will be a fixture throughout the season.

TO CHANGE THE SYSTEM. Effectually yet gently, when costive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Figs, made by the California Fig Syrup Co.

CITY BREVITIES.

Today's weather: Light to fresh variable winds.

Yesterday's temperature: 7 a. m., 62 degrees; noon, 63 degrees; 7 p. m., 65 degrees; Maximum, 67 degrees; minimum, 62 degrees.

J. C. W. Chipman and Ross Rule were Ishpeming visitors here yesterday.

Max Barbour of Ishpeming was in Marquette Saturday.

Prosecuting Attorney F. A. Bell was down from Negaunee Saturday.

C. H. Kelsey, Trowbridge Johns and O. E. Brown, of the Houghton Mining Gazette, spent yesterday in Marquette.

"Doc" Rogers and W. J. Curtis, "the smallest Elk," of Ishpeming were in Marquette last evening.

Albert Jacobs has been down from the copper country, visiting his parents and friends, the past couple of days.

County Clerk Ross has issued a marriage license to Frank E. Hastings of Ishpeming and Bertha Bales of Jackson.

Miss Ebbie McKee left Saturday morning on the steamer India for Detroit, where she will visit for some time.

Miss Helen Pearce of Chicago, who formerly lived in Marquette, is now in the city visiting friends. She arrived Saturday morning.

A meeting of the Young Woman's guild will be held this afternoon at the Morgan Memorial chapel. All members are requested to be present.

There will be a regular meeting of the park and cemetery commission at 2 o'clock this afternoon at the office of the secretary, in the Harlow block.

"Two Merry Tramps" are scheduled to arrive in the city and disport themselves with the big company at the opera house during the coming month.

The midsummer clothing sale at Iose's store will last but two weeks longer. Those who have not already secured one of the \$12 to \$18 suits for \$10 will still find some rare values to choose from.

"Two Merry Tramps," Wood & Ward's big farce comedy, is not an experiment but an assured success as demonstrated by a 43 weeks tour during the past season.

There will be a regular meeting of the council this evening. It promises to be an eventful session as a number of important matters, including the street paving question, will come up for discussion and possible settlement.

A fire alarm was turned in from a box on North Third street about 9 o'clock Saturday morning. The department responded and had the long run for its pains, the alarm being the work of a number of mischievous small boys, whose identity was not ascertained.

There was an ugly row on West Washington street Saturday evening about 9 o'clock. Julius and Dave Hill, son and father, participated. The father was endeavoring to persuade the youth, by a liberal use of his fists, to go home. He inflicted severe punishment. The pair were arrested.

The Marquette Juniors will meet the Republic base ball team at the Fair grounds next Sunday. The Juniors have been doing good work on the diamond lately, having been uniformly successful in winning their games. They expect that the forthcoming contest will be interesting and well played and they are hoping for a general attendance of the base ball cranks.

The management of the opera house announces that one of the September attractions will be "Lovers' Lane," a play which is just finishing an extended and highly successful run in a well known Chicago theater. "Lovers' Lane" has made the biggest kind of a hit and it is said to be justly ranked among the cleverest and brightest of last season's productions. It will be presented here by the original company.

There was a general turnout of the guests of the Hotel Clifton to the fire on the adjoining lot yesterday morning. The inmates of the rooms on the exposure nearest the blaze, many of them, were awakened either by the smoke or the light from the flames. Some of their number were thoroughly frightened. At one time, for a few moments when the fire was at its height, it looked as if the hotel might be scorched.

BIDS. will be received for a remedy that is equal to Dr. Caldwell's Syrup Pepsin. For particulars ask The Stafford Drug Co.
