GLIMMER OF HOPE

POSSIBILITY THE STEEL STRIKE
WILL YET BE SETTLED.

SHAFER DELAYS HIS ORDER.

GIVES THE OTHER COMPANIES
TIME TO CONSIDER.

Bare Hope Now Held That These Con-
stituent Concerns May Bring Suf-
ficient Influence to Cause
An Adjustment.

Pittsburg, Tuesday, Aug. 6.—Just a
glimmer of hope that the great steel
strike will yet be settled was embodied
in a statement given out by President
Shaffer late last night.

When asked if he would follow the
same policy in ordering a strike in the
mills of the Federal Steel, the National
Steel and the National Tube companies
as he did in calling out the men in the
mills of the American Tin Plate com-
pany, he replied, "If it had not been for
this determination on my part, a general
strike would have been ordered
Saturday night."

Before calling out the tin workers,
President Shaffer notified the manu-
facturers of his intention unless the
difficulty were settled within ten days.
This resulted in the conference that
broke up at the Hotel Lincoln three
weeks ago last Saturday. Shaffer has
sent similar notices to the officers of the
above named corporations, giving them
the same time in which to make an
effort, if they desire, to bring about a
settlement. It is said the delay in is-
suing a general order will be at least
until the end of the present week.

The possibility of a settlement of the
strike is based on the bare hope that
the officials of the three additional com-
panies will bring to bear sufficient in-
fluence to urge an adjustment of the
difficulty before the strike order is
issued.

IDLE MILL IS STARTED.

Steel Combine Enters Upon an Aggres-
sive Campaign—Men Imported.

Pittsburg, Aug. 5.—The strike history
of the day in Pittsburg itself was not
profitable of results; considerable, how-
ever, was doing in towns surrounding.
In the city, all the mills are in the same
condition as before the failure of the
conference to settle the strike; no ap-
parent move is being made by the manu-
facturers to start the mills, and conse-
quently there has been no break in the
striker's ranks. The most important
strike points tonight seem to be Leech-
burg and Wellsville, with McKeesport
as a possible trouble center.

Plant Resumes; Guards Posted.

From Leechburg this telegram has
been received: "At four this afternoon
the Hyde Park mill, which had been idle
since the first of this year, was started.
At 3:45 o'clock this afternoon a train
arrived at Hyde Park, coming from
Saltsburg, Vandergrift and Apollo. The
train was stopped at the works and
fifty five men, clad in working garb and
bearing dinner buckets, left the train
and hurried into the works. There was
no excitement, and the mill owners and
managers tonight claim they now have
enough men in the mill to operate all
of the departments. Sentinels are out
and no one is allowed to get to the mill
without the password. Late this after-
noon six mill men from Leechburg
scattered down toward the mill, passed
the guards and walked into the mill,
where tonight they are at work. Amal-
gamated men, however, are on the
ground and making desperate efforts to
keep all the union men out. They make
the bold assertion that in two days
after President Shaffer issues his gen-
eral strike order, not a wheel will be
turning at either Vandergrift, Apollo or
Hyde Park.

Trust Gains at Wellsville.

From Wellsville, O., the following re-
port is made: "The last four of the
striking steel workers who were ar-
rested Saturday, charged with riot,
were released from jail late this after-
noon upon bail. Warrants are in the
hands of police for seventeen more
striker's which have not yet been served.
The officers seem to be afraid to serve
the warrants. Henry B. Henderson, a
potter for whom the police have a war-
rant, has been trying to get himself in
the way of the officers all day to have
them arrest him, but they do not do it
for the reason that Henderson is backed
by the National Brotherhood of Operative
Pottery and the officers fear the ven-
geance of the potters if one of their
number is put under arrest. Four new
men were brought into the mill from
Scottsdale today and four strikers de-
serted the union and went back to
work. Five mills were working today
and four are working tonight, the
largest number run any day since the
strike began."

Trouble at McKeesport Threatens.

The condition at McKeesport
late tonight is reported as fever-
ish. Many strikers are on the
streets and around the National Tube
works. The men there are only waiting

(Continued on Page Four.)

DIES UNDER THE WHEELS.

Daughter of Alabama's Governor Is
Killed by a Street Car.

Montgomery, Ala., Aug. 5.—Miss Car-
rie Jones, aged twenty, daughter of
Governor Jones, was crushed to death
by a street car this morning while at-
tempting to cross the street in front of
the executive mansion.

REBEL RAID IN COLUMBIA.

Powder and Dynamite Belonging to
Railroad Are Taken.

Colon, Aug. 5.—A party of rebels on
Saturday night raided Matachin, taking
away a quantity of powder and dynamite
belonging to the railroad. The govern-
ment protected cruiser Namouna, with
General Alban on board, sailed for
Cartagena yesterday.

DIES IN THE ELECTRIC CHAIR.

Three Shocks Necessary to Kill Negro
Murderer at Sing Sing.

Ossining, N. Y., Aug. 5.—Benjamin
Pugh, a negro, who murdered John
Tiegen, waiter in a restaurant at Brook-
lyn in August last, was put to death
in the electric chair at Sing Sing prison
today. Three shocks were administered
before he was pronounced dead.

EMPEROR IS DEAD

MOTHER OF THE KAISER QUIET-
LY PASSES AWAY.

CANCER THE CAUSE OF DEATH.

EMPEROR WILLIAM WITH OTHERS
AT THE BEDSIDE.

Daughter of Queen Victoria Is Con-
scious to the Last and Her Re-
markable Vitality Astonishes
the Physicians.

Cronberg, Aug. 5.—The dowager
Empress Frederick died at 6:15 o'clock
this evening, surrounded by all her
children excepting Prince Henry and
Empress Augusta Victoria. The flag on
the castle was immediately half-masted.

Closely following the announcement
of death from the castle, the church
bells were tolled and the flags half-
masted. The visitors to the castle be-
gan inscribing their names in a book
placed for the purpose in the hall.

It is said the cause of death was
dropsy, accompanying cancer. The re-
markable vitality of the dowager em-
press astonished the physicians. She re-
tained consciousness to the end.

The castle grounds are now surround-
ed by soldiers and patrolled by hussars
and mounted police. At 8 o'clock this
evening Emperor William conducted the
members of the dowager empress' house-
hold into the death chamber and led
them, one by one, past the bedside to
take a last farewell of their mistress.

Tonight the children of the deceased
placed floral tributes around the body.
The face wears a singularly peaceful
expression, almost childlike, having
shrunk from its normal size. In the
course of the evening several telegrams
of condolence arrived from European
sovereigns addressed to Emperor Wil-
liam.

Death Prematurely Announced.

A premature statement that the dow-
ager empress was dead was given out
officially at Homburg castle shortly af-
ter noon. Copies were posted in half
the shop windows in town. The blinds
were down in the windows of many resi-
dences and all flags were half-masted. A
little later came word that the news
was false. There seems little doubt the
message came from Friedrichshof, al-
though who sent it no one seems to
know. Court Marshal Haupt, who gave
out the inaccurate announcement, has
been summoned to Cronberg. The false
news was telegraphed widely and many
cities displayed signs of mourning.

Soon after midnight, Emperor Wil-
liam, accompanied by the empress and
crown prince, drove back to Homburg.
Whether the body will lie in state has
not yet been determined. The details
for its removal to be interred by the
side of the remains of Emperor Freder-
ick will be discussed in Homburg to-
morrow.

The dowager empress knew her days
were few. She had said farewell to
most of her servants. She expressed a
desire that not much should be known
by the public concerning her disease, lest
some should be saddened by the knowl-
edge of her sufferings. There was much
reluctance in summoning King Edward,
as it was not desired he should have
long to wait.

Suffered Without Complaint.

Berlin, Aug. 5.—The announcement of
the death of Dowager Empress Fred-
erick, was published here too late for
comment in the evening papers with
the exception of the *Freisinnige Zeitung*,
which recalls her heroic bearing during
her husband's last days, "when she
silently endured the heartless allusions
of the chauvinistic German press." This
journal also praises her "dignified self-
effacement" since the death of Frederick
the Noble.

The dowager empress long ago adopt-
ed her husband's motto, "Learn to suf-
fer without complaining." She recently

ordered that the public should be ex-
cluded from the grounds at Friedrichs-
hof, saying: "The world shall not
learn what I am suffering. I will not
be pitted in my misfortune."

Soon after the announcement the flags
on the public buildings in Berlin were
half-masted. It is taken for granted
that the interment will be at Frieden-
skirche, Potsdam, by the side of Em-
peror Frederick, but the date of the
funeral is not yet known publicly.

Edward Heard the News at Cowes.

Cowes, Isle of Wight, Aug. 5.—King
Edward received official news of the
death of Empress Frederick on board the
royal yacht almost simultaneously with
the receipt of the Associated Press des-
patch in London. The yacht's flag was
immediately half-masted. King Edward
and Queen Alexandra will leave here
for Marlborough house tomorrow. It is
not likely they will start for Berlin un-
til Wednesday.

London, Aug. 5.—The news of the
death of Empress Frederick spread
slowly in London. The Associated Press
gave Buckingham palace, Marlborough
house and the Mansion house the first
information that her majesty had
passed away. As all the members of the
royal family and many officials are out
of town for the holidays, it is probable
that no official recognition of her
majesty's death will be issued before
morning.

EMPEROR IS DEAD

GEN. MALVAR ISSUES A BELLIG-
ERENT PROCLAMATION.

OFFICER SUCCESSOR TO AGUINALDO.

DECLARES THE ACTIVE CAMPAIGN
WILL BE CONTINUED.

Cañles Is Threatened With Death for
Treachery and Natives Who Yield
Warned They Cannot Live Out-
side American Lines.

Manila, Aug. 5.—Miguel Malvar, who
has been recognized as the successor of
Aguinaldo by the Filipino junta at
Hong Kong, has issued a proclamation,
dated July 16, copies of which arrived
here this morning, giving assurances to
the natives of the continuation of an
active campaign and expressing hope for
its successful issue.

The proclamation, of which fifty
thousand copies have been printed, pur-
ports to emanate from Batangas. It is
a characteristic insurgent document,
charging the Americans with all sorts of
atrocities. It recounts losses of guns
and ammunition and the death of four
distinguished American officers on July
10, all of which, it says, the authorities
concealed.

The proclamation threatens General
Cañles with death for treachery and
warns all Filipinos who surrender they
will never be able to live outside the
American lines. General Malvar claims
he has sufficient arms and supplies to
continue the fighting indefinitely.

The American officials believe the
proclamation was really written by
Agoncillo (former representative of
Aguinaldo in Europe) at Hong Kong
and that he, probably, has never seen
Malvar. Strong efforts are being made
by the police to prevent the distribu-
tion of the proclamation.

PRESIDENT GRANTS CLEMENCY.

Sentence Dismissing Major for Drunk-
ness Is Commuted.

Washington, Aug. 5.—The president
has commuted the court-martial sen-
tence of dismissal from the army of
Major Francis E. Eltonhead, Fourteenth
infantry, to placing the officer at the
foot of the list of majors of infantry,
there to remain for five years. Elton-
head was tried and sentenced on the
charge of being drunk on duty, misbe-
having himself at the Army & Navy
club at Manila and using profane and
abusive language to Lieutenant Mulley.

DYING ACTRESS CONFESSES.

Warf at Omaha the Stolen Daughter of
Wealthy Indianan.

Omaha, Aug. 5.—Emma Andrews,
an actress dying in a wretched lodging-
house, has confessed that a waif in her custody
is Dora Richards, daughter of John
Richards, a wealthy merchant of Brazil
Ind. The father has been searching for
the child for ten years.

INDIANA BANK IS CLOSED.

Proprietor Is Accused of Forgery and
Attempts to Kill Himself.

Huntington, Ind., Aug. 5.—A private
bank at Andrews, this county, was
closed today and Proprietor Key placed
under arrest, charged with the forgery
of \$12,000. When arrested, he attempt-
ed to commit suicide.

ROOSEVELT HUNTING COYOTES.

Leaves Colorado Springs on an Expedi-
tion of Three Days.

Colorado Springs, Aug. 5.—Vice Pres-
ident Theodore Roosevelt left today for
a three days coyote chase in the vicinity
of Fountain, eighteen miles south of this
city.

EXPLOSION HORROR

SCORE OR MORE PERSONS ARE
KILLED IN PHILADELPHIA.

FIFTY OTHERS BADLY INJURED.

FIVE BUILDINGS ARE WRECKED
AND SEVERAL SHATTERED.

Havoc Laid to a Barrel of Gasoline
Stored in Grocery, and Fire in the
Ruins Adds to the Horror
of the Disaster.

Philadelphia, Aug. 5.—A terrific ex-
plosion in a block of six buildings on Lo-
cust street above Tenth tonight com-
pletely wrecked five of the structures
and caused death of from ten to twenty
or more persons. Over two score others
were more or less seriously injured, and
a number of these will die.

It is estimated that at least fifty per-
sons were in the five buildings when the
explosion occurred, and the exact num-
ber of the dead will not be known for
several hours. The buildings were oc-
cupied as follows:

No. 1008—Houseman's Pool and Bil-
liard rooms.
No. 1010—Morris Rosenthal's second-
hand clothing store; occupied by Rosen-
thal, wife and five children.
No. 1012—William Jones, colored, res-
taurant; occupied by Jones and about
fifteen boarders.

No. 1014—George McClemmy's gro-
cery store; occupied by McClemmy, a
clerk and servant girl.

No. 1016—Patrick Quigley's grocery
store; occupied by Quigley, wife and
three children and his uncle.

No. 1018—Albert Mountain's grocery
and meat store, occupied by Mountain,
mother and sister and a clerk.

Explosion of Terrific Force.

The explosion occurred about 9:30
o'clock. The cause is not known, but it
is believed to have been from a barrel of
gasoline in one of the three grocery
stores.

With the exception of No. 1008, the
front walls of the buildings were blown
outward into the street, while the floors
and roofs were blown upward and fell
straight to the ground. Almost every
building within a radius of two blocks
had window panes shattered and were
otherwise damaged. Every building on
the opposite side of Locust street was
more or less wrecked, but none fell.

Immediately following the explosion,
occupants of the wrecked houses could
be seen crawling from the debris while
the agonizing cries of others were heard
in the wreckage. From surrounding
buildings injured people came running
and fell into the street unconscious.

In five minutes the great pile was
burning fiercely from end to end. A
general alarm was turned in, while the
work of rescue was begun by those in
the neighborhood. Several persons were
dragged from the ruins before the fire
reached the victims, several lives being
saved by prompt work.

Flames Soon Quenched.

The firemen soon had the flames under
control and the work of digging away
the ruins was begun in earnest. Near
the edge of the debris several colored
men were taken out and sent to hos-
pitals. From the cellar of Mountain's
grocery store the dead bodies of a wo-
man and a man and several injured were
dragged out. While the work of rescue
was going on in the exploded block, hospital
attendants and others made a search
of the damaged houses on the opposite
side of the street and almost a score of
persons were taken to various hospitals
from these places.

The buildings containing the pool
rooms, clothing store and restaurant
were three-story brick structures, while
the other three buildings were two and
a half stories.

At the Pennsylvania hospital five col-
ored patients will, it is thought, die
before morning, while others at various
hospitals will also die. The police and
fire officials are positive a number of
bodies are still buried under the ruins,
and a large force is at work removing
the wreckage in search of bodies. Nearly
fifty persons are tonight at various
hospitals suffering more or less severe
injuries.

PRINCE NICHOLAS ATTACKED.

Discharged Officer Invades Banquet
Room in Greece.

Athens, Aug. 5.—While Prince
Nicholas was at a dinner given in his
honor tonight at Kifisia, a fashionable
resort near here, the premier and many
other notable persons being present,
Prince Muruzi, a former cavalry captain
who was dismissed from the service for
drunkenness, burst into the dining room
and throttled Lieutenant Palli, adjutant
of Prince Nicholas. Prince Nicholas
broke his stick over the head of Prince
Muruzi and the latter tried to seize the
prince. Finally the infuriated assistant
was overpowered by the guests and
borne away.

Hood's Pills. Do not gripe nor irritate the alimentary canal. They act gently yet promptly, cleanse effectually and Give Comfort.

First National Bank OF MARQUETTE. Capital \$150,000. Surplus Fund 50,000.

UNCLE SAM'S MONOGRAM WHISKEY. Sold by Druggists and Dealers. Everybody Likes It.

INSOMNIA. "I have been using CASCARETS for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascares have given me more rest than any other remedy I have ever used."

PILES. HAS AN OMINOUS LOOK. It is needless to say that the stool stick has taken a turn for the worse, and that there is grave danger of having it assume a very ugly aspect within the next few days.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.) Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$3.00. Per year, by mail, \$30.00. MARQUETTE, MICH., AUG. 6.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. W. K. Vanderbilt was forced to ride behind a horse the other day on account of accidents to his two automobiles which put both out of commission at once.

A judge at Toledo, Ohio, has issued an injunction to restrain ducks from quacking at night and thus disturbing the rest of a neighbor of their owner. What is the matter with having the power of the courts invoked to restrain persons who snore vociferously from emulating the bad behavior of those Toledo ducks?

A lower peninsula editor who claims to be "next" gives it out that Senator Atwood will be appointed railroad commissioner to succeed Chase S. Osborn when the latter's term expires. Mr. Osborn has made an excellent commissioner, but it is probable that he will not care to continue in the office.

The state tax commission seems to be doing its work with less friction between it and the assessing officers this year than was produced by its supervision of the rolls last year. This is in some measure because the assessors and boards of review have discovered that the law under which the commission operates is susceptible of being enforced, and that the easiest way to avoid trouble is to comply with its requirements.

Ex-Speaker Reed is being talked of as a candidate for mayor of New York. He would make an ideal chief executive for that deplorably misgoverned city if he could be induced to undertake the arduous task of taking managerial charge of its municipal government.

Representative Babcock of Wisconsin, who has stirred up a great deal of discussion by announcing that he favors a modification of the Dingley tariff schedule which will place on the free list certain manufactured products now controlled by trust combinations, has written a letter explaining that his scheme of tariff reduction contemplates so very few and slight changes in the existing schedule that there is no occasion whatever for the alarm it has created.

SCALD HEADS AND SALT RHEUM. Boro-Carboll Salve will cure Scald Head and salt rheum when all other ointments have failed. It allays the itching at once, acts like a poultice and gives instant relief. This is a new discovery and is the only remedy sold on a positive guarantee—No Cure No Pay. Price 25 cents per box. For sale by Stafford Drug Co.

TO SURE FOR A BOTTLE OF MEDICINE. This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her.

COPPER COUNTRY NEWS. (Additional.) ANENT CALUMET & HECLA.

Boston Paper Submits the Annual Report to Clear Analysis. The Houghton, (Mich.) article on Calumet & Hecla, which was published by the Boston News Bureau about a month ago, is recalled to mind by the statements of President Agassiz in the company's annual report. The article in question made the points that the management at the mine had been unsatisfactory to the Eastern management and that the resignations, which occurred early in the year, were requested by President Agassiz; that the work on the Osceola amygdaloid was stopped largely because of the fact that the rock was disappointingly low grade; that it ran less than 1 per cent copper; that the Red Jacket shaft was not a success, that the copper produced was costing more each year, that when \$80 dividends were paid they were not earned in the same year, and that the mine on the Calumet conglomerate ledge being rapidly worked out.

It has been hoped that something would be said in the report about the percentage of copper in the Osceola amygdaloid. In view of the fact that Calumet & Hecla officials have recently admitted, however, that the tests of rock from the new mine show it to be less than 1 per cent copper. The tardiness of the machinery manufacturers in fulfilling their contracts is again given as the explanation of the delay in completing the equipment of the Osceola ledge mine, and also the mill that is to treat its output. Since this expense was first heard the Franklin, Quincy, Isle Royale and Mass companies have completed new mines, constructed new stamp mills and put them into commission. Surely the Calumet & Hecla should be able to complete as much as any of the other companies named. The fact that the Calumet & Hecla contracts were not so made as to secure deliveries, at least a year ago, is seemingly confirmation of the reported laxity on the part of the mine managers, whose resignations were recently requested.

It was stated in our Houghton article that the reason for the delay of a month in declaring the latest \$85 dividend was that when the usual time for the dividend meeting arrived sufficient money to pay it had not been earned. In view of the criticisms that our previous Houghton article concerning the Calumet & Hecla had aroused, and then believing it an absurdity to talk about Calumet & Hecla not earning \$5 per month on a \$1,000,000 copper mine, we struck out that part of the dispatch before publication. We now think our Houghton correspondence worthy of all confidence, and the statement from Houghton as to the delay in the dividend is apparently confirmed by the fact that the Calumet earned last year about \$45 per share while it paid dividends of \$80. It is the amount of reduction during the year in its cash and copper surplus. The reduction would have been larger had the company not carried forward as liabilities nearly \$800,000 less machinery and timber contracts and only \$300,000 the year, compared with \$800,000 set aside the previous year for Osceola ledge development.

From faithful disfigurement Mrs. Nannie Gallagher of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on head and face, and writes its quick cure exceeded all hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by Stafford, the druggist.

High living, intemperance, exposure and many other things bring on Bright's disease. Foley's Kidney Cure will prevent Bright's disease and all other kidney or bladder disorders if taken in time. Be sure to take Foley's The People's Drug Store.

TO SURE FOR A BOTTLE OF MEDICINE. This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her.

How Are Your Kidneys? Dr. Hodge's Special Pills cure all kidney ills. Any price for Ad. Stafford, Houghton Co., Chicago or N. Y.

The \$569 tons of copper that was afterwards smelted and sold. This mineral was figured in the report at 4 cents per pound. A pound of mineral will make 5 of a pound of copper. It would therefore appear that the mineral's copper contents was figured at a trifle less than 6 cents a pound. It was therefore sold at a profit of approximately 10 cents a pound, or about \$2,000,000. This \$2,000,000 added to the decrease of \$4,300,226 before mentioned, makes a total of over \$6,000,000, or \$20 per share annually, that the company has expended and paid in dividends in the last three years, in excess of what it earned by the three years' operations.

Each succeeding analysis of the company's recent report brings out more forcibly the fact that the cost of making copper has been on a constantly increasing ratio, and that it has now reached a point where a return to a 12-cent copper market would make a very decided decrease in Calumet & Hecla profits. An illustration of the possibilities that have all along been held out to the Calumet & Hecla is to be found in the record made by the Atlantic. It does not cost the last named company over \$1.25 a ton to mine its rock, transport it to the mill, stamp it, smelt the product and market it. If the Calumet & Hecla were satisfied to spend only \$2.50, where the Atlantic spends \$1.25, it could make a profit of \$10,000,000 annually, which would enable it to pay, while its conglomerate ledge and the 17-cent copper market hold out, \$100 per share annually in dividends. It is probable, however, that it costs the Calumet more than four times as much to mine and treat a ton of rock as it does the Atlantic. The allowance of 100 per cent additional cost is made because of the fact that Atlantic rock is softer than that mined by the Calumet, and that the Atlantic has comparatively less mineral to smelt.

It would be interesting if the evening paper referred to, and the official that it quoted, would go over the Calumet & Hecla situation in the light of the recently published report and explain to an interested public which nine out of the ten points made by our Houghton correspondent were untrue, and which one was right.—Boston News Bureau.

Official Statement Wanted. The above statements, which are based both on authentic information from the Lake and on the company's annual report—statements which would seem to clearly indicate that this great copper producer may have seen its best days—certainly demand some clear official explanation, comments the Boston Journal. If these deductions are correctly drawn the company certainly owes it to its stockholders to make the situation so clear that there can no longer be any ground for questioning, criticisms or complaint, and if they are erroneous, it is under obligation to make it plain that such is the fact. The investment interests in Calumet & Hecla stock are so large and so widely extended to justify further so-called conservatism in dealing with the stockholders. What the latter desire is a frank and full statement of conditions and finances, be the same good or bad. This alone will put a quietus on the present doubts and adverse comment.

A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night and had severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. It's guaranteed. The People's Drug Store.

SPECIAL EXCURSIONS. To Colorado, Utah and South Dakota. The D. S. S. & A. railway now has on sale some very low rate excursion tickets to points in Colorado, Utah and South Dakota. Tickets are good for return passage until Oct. 31, 1901.

HOME SEEKERS' EXCURSION. For the above, the C. M. & St. P. railway is offering special rates. Northwest, West and Southwest, including California. Tickets on sale July 2 and 9, August 6 and 20 and Sept. 3 and 17. For full particulars, apply to agents D. S. S. & A. or to S. H. Vaughan, Commercial Agent, Houghton.

EXCURSION FARES TO MARQUETTE. Commencing Saturday, May 18, including every Sunday thereafter until further notice, the D. S. S. & A. railway will sell excursion tickets to the following points at the very low rates named:—

Lawrence University, Appleton, Wis. NEAREST COLLEGE TO UPPER PENINSULA. On railroads leading to Milwaukee and Chicago.

HAIRCUT PLACE SEMINARY, GAMBIER, O. FOR GIRLS. A choice school of unsurpassed intellectual advantages.

HENDRICKSEN STEPS UP.

Captain of the Houghton Company Becomes a Major. A brief message received from Camp Bliss last night brought the news that Captain Charles Hendricksen, of Company G, Houghton Light Infantry, had been elected major of the Second battalion, Third regiment, M. N. G., being the unanimous choice.

SPEEDY HORSES TO COMPETE.

Running Races the Attraction at Hancock Park This Week. F. M. Sackrider has returned from Chicago, where he made arrangements with noted racing stables there to enter horses in the running races it is proposed to hold at the Hancock Driving Park. The meet will open on Thursday of this week and six races will be run daily. Good music will be in attendance. Running races are a novelty in copperdom—the only kind of races in the opinion of many—and they promise to draw well. The admission has been placed at 50 cents, and the street cars run within two blocks of the track.

CIRCUIT COURT IN SESSION.

First Day's Proceedings Given Over to Arranging the Calendar. The August term of the circuit court convened at the court house yesterday morning, Judge A. T. Streeter presiding. Court remained in session but two hours, when an adjournment was taken until this morning. The proceedings yesterday were confined to arranging the calendar for the term. The first three cases on the docket are those of The People versus Antonio Rapacari, larceny; The People versus John Peura, larceny; and The People versus Edward Sloan, assault with intent to murder, which will be tried in the order named. The three cases will take up the time of the court for this week. Next week the cases connected with the Miller fire conspiracy will be tried and in them much interest is centered.

ONLY TWO RUNNING TEAMS.

Hancock Not to Participate in the Firemen's Tournament Contests. The copper country firemen are off to Crystal Falls, the tournament city, having left yesterday afternoon on the St. Paul train. Extra cars were attached for their accommodation. The Red Jacket and Laurium contingents boarded the train at Calumet at 4 o'clock and the Hancock and Lake Linden delegations joined the party at Hancock, the Houghton department being the last to get on. Each department was well represented and it was a jolly crowd that finally left Houghton at 4:55.

Red Jacket and Lake Linden were accompanied by running teams, and as each are in the best of condition much is expected from them. The fact that the running team of the Hancock department will not compete for the prizes is disappointing to the Hancock company as a whole, as much was hoped for from it until recently. Chief Scott yesterday morning gave as the reason for not entering the team that it was not considered in shape to do so. But little practice has been indulged in of late, it appears, and besides the team members took hold of the work in a half-spirited and disheartened sort of a way. Hancock, although without music and team, will be well represented at the tournament.

The Portage Lake band of twenty pieces went with the Houghton contingent, which expects to make a hit even if it is also minus a running team. The firemen reached Crystal Falls at 9 o'clock last night and were comfortably located for their stay at that place.

LIVELY HANCOCK RUNAWAY.

Another runaway occurred at Hancock Sunday afternoon at about 2 o'clock in which one of J. E. O'Neil's heavy rigs figured prominently. The team, attached to a double-seated carriage, was hitched in front of Justice O'Brien's office on Quincy street when it became frightened and dashed off down the sidewalk. Immediately upon taking the walk one of the forward wheels caught and was torn from the axle. It retarded the progress of the horses somewhat and when they reached Ziegler's shoe shop the carriage turned over and went through the plate glass, the team coming to a stop. The occupant of the rig managed to escape without being hurt at the outset of the dash. The affair created considerable excitement for a while.

DROPPED DEAD.

Joseph Matthews, a well-known Calumet contractor, dropped dead about 6 o'clock Sunday evening in George Gauthier's place of business at Laurium. Heart failure was the cause.

J. M. Hayden of Ishpeming was a Houghton visitor yesterday.

FOR WHOOPING COUGH.

"Both my children were taken with whooping cough," writes Mrs. O. E. Dutton of Danville, Ill. "A small bottle of Foley's Honey and Tar cured the cough and saved me a doctor's bill." The People's Drug Store.

Smoke... FLOR DE NICOLLET Famous Cigar.

DROWNS WHILE FISHING.

Six-Year-Old Boy Falls into the Lake at Oskar—Body Not Recovered. Waino, aged six, son of John Pauri, was drowned Saturday afternoon at Oskar while fishing from a dock. He was last seen at 10 o'clock and missed at five. The lake is being dragged for the body.

Close Call for Calumet Lad.

Russell Moreau, the eleven-year-old son of Gabriel Moreau of Calumet, had a narrow escape from drowning at the entry last Sunday, being rescued just in the nick of time. The boy had accompanied the Red Jacket A. O. U. excursion, which spent all Sunday at the entry, and it was while he was running and playing about the dock that his foot slipped, precipitating him into the water. Moreau had gone down twice before finally rescued. He was caught by the hair and pulled on the dock, where he was revived.

KLONDIKER TO SETTLE DOWN.

Alfred Gauvin Going into the Grocery Business at Houghton. Alfred C. Gauvin, a former Houghton man, who has just returned there to reside permanently after a seven years absence in the Klondike, yesterday closed a deal for the purchase of a lot in West Houghton. He intends to build immediately and launch into the grocery store business.

Mr. Gauvin was one of the lucky argonauts in the frozen north and although he went through much hardship in the search for the yellow metal he claims enriched by about \$100,000, the returns taken up by him along the Yukon river proving rich. Mr. Gauvin was associated in prospecting by his brother, who was also a Houghton man. The latter is now in Duluth, Minn., where he sank the most of his money in real estate in that city.

Mr. Gauvin is a very interesting talker and has much to tell of the Klondike and Alaska. Twelve years ago Mr. Gauvin was employed on the tug Cora A. Sheldon, under Captain Brassau, on Portage lake and is well known by the older residents of the city.

F. H. HALLER TO WED.

Leaves Mining College to Become Principal at Ironwood. Frank H. Haller, a graduate of the Michigan College of Mines, left Houghton Friday night for Ironwood. Since he finished the work at the institution several months ago Mr. Haller had been in charge of a large surveying class of students, instructing in field work which was completed Friday.

Mr. Haller, previous to his entering the college, was one of the assistants in the Ironwood high school in 1890-91 and his work was so satisfactory that he was prevailed upon early this summer to accept the principalship of the Ironwood high school for the ensuing school year.

From Ironwood Mr. Haller will go to Chicago and then to his old home at Lanark, Ill., for a brief visit after which he leaves for Plattsmouth, Neb., where he will be married on Wednesday evening, Aug. 14, to Miss Louise White, daughter of Mr. and Mrs. Francis E. White of 1319 Elm street, that city. The young couple will be "at home" at Ironwood after Oct. 1. During his stay in Houghton Mr. Haller made many friends.

RESISTING OFFICER COSTLY.

It Costs a Hancock Man \$30 to Discover the Fact. Saturday evening Peter Ferguson was arrested at Hancock for resisting Marshal Malherbe, who met with some trouble when he tried to arrest Ferguson in jail. Ferguson was brought before Judge Olivier shortly after his arrest and tried on the charge of resisting an officer. He was fined \$30 or given a choice of going to jail for thirty days. He paid and was released. Ferguson was arrested at Hancock, Mich., by the marshal, who had driven a companion of Ferguson's not to waste fast through the streets of the village. Ferguson in loud words claimed it was his wife to do as he pleased in that respect, but the officer couldn't see it that way and refused to teach him a lesson.

RUNNING LINES FOR RAILROAD.

Mining College Students Take Up New Course in Surveying. This morning the surveying class of the Michigan College of Mines which finished the field work for the summer last Friday will commence railroad surveying. Lines will be run for imaginary roads and in that way much of practical value will be obtained. Last year a route was run to "compete" with the Atlantic railroad and it was considered better than the one now being used by the Atlantic people. The railroad work will continue for the greater part of the remainder of the summer.

THEIR SECRET IS OUT.

All Salsville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough." It positively cures Coughs, Colds, La Grippe, Bronchitis, Whooping Cough and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Stafford's drug store.

A KANSAS MINISTER.

Rev. L. S. Condon, of Circleville, Kas., says: "Dr. Warner's Your White Wine of Ter Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

SETTLES THE BRICK QUESTION.

Village Attorney Holds Houghton Not in Position to Issue Bonds.

Village Attorney Allen S. Rees of Houghton yesterday rendered an opinion that the village is not in position to secure additional funds by the means of bonds, and will not be until 1903. This opinion practically settles the Sheldon street will be macadamized, instead of paved with vitrified brick, unless the property owners themselves take up the brick proposition and carry it through. The bonded indebtedness already aggregates \$85,000.

Preliminary to the rendition of Mr. Rees' opinion, at a conference of the street committee, Councilmen Daniel Murphy and Martin Foley reported on the result of their consultation at Marquette with the council committee of that city which recently visited several of the larger cities and inspected the various pavings, coming back an advocate of vitrified brick. The views of the Marquette aldermen favorably impressed the Houghton men, and they reported that, for heavy teaming at least, the vitrified brick was the most suitable for Sheldon street. Incidentally while at Marquette they looked over the macadamized streets and were well pleased with that method of improving thoroughfares. The committee had virtually decided to recommend that brick be used, when the communication from the village attorney practically put a quietus to the proposition. It would appear now that Houghton's main street will be macadamized.

ABOUT VITRIFIED BRICK.

How the Paving Hancock Has Adopted Is Laid and Inspected. Regarding the vitrified brick paving it has been decided to put down in Quincy street, Hancock, there is some misunderstanding and very little knowledge among the people generally as to how the paving is to be laid, and the following description from Saturday's Duluth News-Tribune may prove of interest. A sand cushion is first spread over a cement foundation and made perfectly smooth and level. The brick, each one of which weighs about nine pounds, are then laid and an inspector goes over and culls out all that appear defective in shade, appearance or quality. When that is done a roller is run over them and they are pressed smooth in the sand. Once again an inspector goes over and culls out all that appear defective. Then a mixture of portland cement and sand, called portland cement grout, mixed in about the consistency of cream, is poured over and thoroughly broomed in every crack and crevice. Two coats of this are applied and finally about two inches of damp sand is spread over and the work is done.

A comparatively new feature to be used in the laying of the Duluth paving is the placing of what is called an expansion joint. It consists in placing along the curb on either side of the street a strip of paving composition about an inch wide, a combination of tar and asphalt, to allow for the expansion of the brick. This is also placed at intervals of fifty feet across the street, from curb to curb. In hot weather the brick is liable to expand somewhat, and if it is wedged in tightly the result will be a bulge in the center. To obviate this the expansion joint was adopted and is said to have entirely eliminated the trouble in cities where used.

As to the test to determine whether the bricks came up to the specifications, the Duluth engineer tested several, that had been picked up at random, by the "Rattle" process, by which the durability of the material is settled. The test consists in placing nine bricks in a cylinder, the dimensions of which are 28 x 20 inches, and then putting in a great many pieces of scrap iron. Next 1,800 revolutions of the cylinder are made at the rate of twenty-five a minute, after which the bricks are taken out and weighed. They are also weighed before being placed in the cylinder and the difference represents the loss through abrasion. The percentage of loss in Duluth's test was about seven percent, which corresponds to the tests of the samples and complies with the specifications.

This test is the standard used by contractors and engineers throughout the country to determine the durability of brick and stone. When taken from the cylinder the bricks are worn almost smooth. All the edges have been chipped off and rounded and they look as if used for years, but the body of the brick remains as hard and smooth as a rock if the material is of the first class. Engineer Patton said that if a granite block was subjected to the same test it would present an appearance similar to the brick.

There is still another test that has to be made, to determine the absorption qualities of the material. The bricks are first thoroughly dried and weighed; then they are soaked in water for 48 hours, after which they are taken out and again weighed. The increase in weight indicates the absorption. The specifications allow an increase of 1 per cent.

At Duluth the city has a five-year guarantee in the present contract that the paving will fulfill the requirements. The paving is being laid in Superior street.

SEWER CONNECTIONS INSPECTED.

Yesterday Marshal Malherbe of Hancock went the rounds of Quincy street to ascertain if the residents had their premises rightly connected with the sewerage system. Those found to be in that regard will be notified to have the work done, as it is the desire of the council to have all connections made right, before the thoroughfare is paved. After the pavement is down it will not be torn up only in cases of absolute necessity. It is expected that the grading of the street will be finished by the middle of this month, when the plans and specifications for the paving of the street will be ready to submit to prospective bidders for the work.

DETROIT TONTINE MUDDLE.

Investigation Shows Affairs in Bad Shape—\$350,000 Missing. The following from the Detroit Journal of Saturday will be of interest to the copper country holders of contracts in the tontine companies referred to:

John E. Moloney returned last evening from New Jersey, where he has been investigating the affairs of the Tontine Surety company of New Jersey. He found that there had really been an assignment made to one Frank Stevens, president of the New Jersey Trust company.

By this assignment the assets are shown to be \$8,857, \$1,000 of which is made up of furniture worth about \$200; \$4,000 of promissory notes, value unknown, and the balance of funds which are garnished by certificate holders. The liabilities shown amount to \$11,000, of which \$7,500 is claimed by Brown and other officers of the company as salary. These are the liabilities over and above liabilities to certificate holders. In the assignment it is claimed that the certificate holders are only entitled to those in a position to study the situation have not known for the past six months. I do not anticipate any material increase in production this calendar year, but in 1902 the increase should be approximately 30 to 40 per cent. I don't expect any increase in the dividend next December, but there should be an increase in June next year. Within two years the Osceola should pay at the rate of \$10 per share per year and sell for \$150 per share. This, I think, is worth waiting for."

Concerning Centennial.

The management of the Centennial Mining company will within a short time start the work of constructing its mill. A great deal of care has been given to the preliminary details of this work, as it has been desired to have one of the most modern and complete plants at the lake. The mill will start with two heads of stamps, each with a capacity of 500 tons of rock daily. Later on it is probable that the stamping capacity will be enlarged by the installation of additional heads, but it is considered that the two head plant will be sufficiently large enough for the beginning.

At the present time development work on the property is being confined to the Kearsarge lode. All work on the Osceola lode has for some time been suspended, with the exception that that portion of the mine has of course been kept free from water. Up to the time that development work on the Osceola lode was suspended it had been opened up for a distance of about five miles. The present mill is being supplied with rock from the Kearsarge lode. When the new mill is in operation rock will be taken from the stoping ground of both lodes.

Copper Gossip.

Osceola's July product is stated to have been 800 tons. The Baltic turned out 140 tons of copper during July, compared with 150 in June and 114 in July a year ago.

The Quincy so far this year has produced much more copper than for any similar period in its history, the output for the seven months being 7,893 tons, compared with 5,358 last year. The July output of 1,212 tons established a new record for the mine, but one which can now be maintained indefinitely.

Messrs. D. Houston & Co., metal brokers, New York, in their market letter say: "The leading interests in copper continue to quote 17 cents for Lake, and they have not been influenced to follow the less important producers by making concessions on the price. The attempt to force sales in one or two quarters in the face of midsummer dullness, and the lowering of prices by the same eager sellers, has simply tended to make buyers more conservative and cautious in their operations. Domestic consumption continues excellent, and the mills of the country are melting down great quantities of copper which they are receiving in fulfillment of former purchases."

Where to Stop When in Detroit.

Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

James White, Bryantville, Ind., says DeWitt's Witch Hazel Salve healed running sores on both legs. He had suffered 6 years. Doctors failed to help him. Get DeWitt's. Accept no imitations. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Fine Table Beer Our Specialty.

SEEKING CONTROL OF OSCEOLA. COPPERDOM BREVITIES.

Boston Rumor Has the Standard Oil Crowd After the Property. The movement in Osceola and Centennial, according to the Boston Financial News, has given rise to further gossip regarding the future of these properties. The report that the Standard Oil interests are seeking control of Osceola was again current. The talk was that when control is secured minority holders will be given the privilege of exchanging Osceola stock for Anatagonated on the basis of share for share. The movement in Centennial was largely in sympathy with the rise in Osceola. A large stockholder of Osceola is quoted as follows in the Boston News Bureau: "There is nothing new in the affairs of the Osceola Mining company that those in a position to study the situation have not known for the past six months. I do not anticipate any material increase in production this calendar year, but in 1902 the increase should be approximately 30 to 40 per cent. I don't expect any increase in the dividend next December, but there should be an increase in June next year. Within two years the Osceola should pay at the rate of \$10 per share per year and sell for \$150 per share. This, I think, is worth waiting for."

Congressman Sheldon's launch, the Sallie W., took a party of Houghton ladies and gentlemen to the Mohawk and Wolverine mills at Traverse Bay Sunday.

The funeral of the late Miss Mary St. Amour of Hancock was held from St. Patrick's Catholic church at 9 o'clock yesterday morning. Rev. Father Atfield officiating.

The Misses Mowatt of Ashland, who have been visiting their sister, Mrs. John Mann, at the Douglass House, Houghton, for the past two months, have returned home.

Houghton water users began squaring their bills yesterday. A clerk will be in charge at the city hall this week, to receive payments in the absence of Collector Brand, who has gone with the militia to camp.

The tug Mariel, which has been employed by Porter Bros. at the canal during that firm's work on the breakwater, will begin work today for Whitney Bros., contractors, who are engaged in crib work at Redridge.

C. H. Chetney, the Houghton decorator and painter, is redecorating F. Weber's residence at East Houghton. The laundry and kitchen, which were partially destroyed by fire not long ago, are the apartments being attended to.

The members of the Houghton County Bar association were given an excursion to the canal yesterday afternoon on the yacht Morgan. The gentlemen were the guests of Commodore Allen E. Rees and the trip was a thoroughly enjoyable one.

A black silk fob chain, to which a solid gold buffalo resting on an agate base having the initials "M. R. D." attached, was lost in Houghton yesterday. Finder will be rewarded by returning same to The Mining Journal branch office.

Two marriage licenses were issued yesterday at the county clerk's office. Those who received them were Isaac Lindgren and Miss Hetafia Risku, both of Calumet, and William Miller and Miss Anna Abdelin, both of the Winona location.

James Bond, the twelve-months-old son of James H. Bond, of the Pewabic location, died yesterday morning from cholera infantum. The funeral will be held at 2 o'clock this afternoon from the house, Rev. S. M. Gilchrist, in copper continue to quote 17 cents for Lake, and they have not been influenced to follow the less important producers by making concessions on the price. The attempt to force sales in one or two quarters in the face of midsummer dullness, and the lowering of prices by the same eager sellers, has simply tended to make buyers more conservative and cautious in their operations. Domestic consumption continues excellent, and the mills of the country are melting down great quantities of copper which they are receiving in fulfillment of former purchases."

One of the street cars carrying a large number of Portage Lake passengers to Calumet to attend the Calumet & Hecla band concert at the Calumet theatre Sunday night left the track on Fifth street, Red Jacket, on the journey up and considerable time was lost in getting the trucks back on the rails. No one was hurt.

The inquest into the death of the late William F. Mawrey, who was killed Saturday night by stepping off the county bridge while the draw was open, was not held yesterday morning as was expected. Coroner Brand has postponed the inquest until a week from today because of the illness of Richard Houghton, one of the jurors.

CITIZENS' NATIONAL BANK OF HOUGHTON. NO. 5896. THE... has opened its doors to transact a general banking business. DOMESTIC AND FOREIGN EXCHANGE. OFFICERS: R. C. PRYOR, President; C. H. HALL, Vice-President; C. H. MOSS, Cashier. DIRECTORS: J. H. JASBERG, W. A. BURNEAM, FRANK HAUN, A. F. McDONALD, GEORGE W. QUIRK.

BREAK IN STOCKS

PRICES GIVE WAY UNDER A STREAM OF LIQUIDATION.

LOSSES FROM 2 TO 6 POINTS.

FAILURE TO SETTLE THE STRIKE THE DEPRESSING FACTOR.

Steel Drops to Forty on Heavy Selling and the Support Given at That Point Fails to Stay the General Decline.

New York, Aug. 5.—Speculation today betrayed a yielding tendency from the opening till the closing of business. The resultant losses ran from 2 to 6 points for the stocks most actively dealt in and included the leading members of all the principal groups.

The occasional rallies were unavailing in checking the steady stream of liquidation, and professionals utilized every temporary recovery to put out additional short lines of stocks. The Western and Pacific stocks bore the brunt of the selling in railroad quarters, while United States Steel and Sugar were in the van in the downward movement in the specialties.

The failure to effect a settlement of the steel strike on Saturday prepared the operators for a resumption of the liquidation in the United States Steel issues at the opening of business today. The first sales of common were 15,000 shares at from 41 down to 40 1/2, which about measured the low point until well in the afternoon, when the price sagged to 40. The intermediate transactions were on a narrow fractional range, but the fact that the stock was well backed up around 40 did not exert any strengthening effect on the general market. The closing price was the lowest of the day and indicated a net loss of 3 1/2 points as compared with Saturday's closing. The preferred stock suffered an extreme loss of 3/4 and ended 3 points off.

Sugar was a prominent feature all day and dropped 5/8 points, to 130 3/4, on sales by professionals who argued that the forthcoming opposition would make large inroads on its earning capacity. As the session drew to a close the pressure against the stock market increased and the lowest prices of the day were made in the final dealings. Closing quotations, as reported by Paine, Webber & Co., were as follows:

Table of stock prices including American Zinc, Car Foundry, Glucose, Smelter, Illinois Cent, Republic Steel, Wabash Pfd, M K & T, Alton, C & N W, Texas Pac, Southern Ry, N Y Cent, Erie, Sugar, C E & Q, Rock Island, St Paul, B & O, Rubber Pfd, C F & I, Amer Tobacco, Cont Tobacco, O & W.

Range of Money Rates. Money on call, steady, at 2 1/2 per cent; last loan, 2. Prime paper, 4 1/2 to 5 per cent. Exchange, firm, demand at 4.87 1/2 and sixty days at 4.85 1/4 to 4.85 3/4.

WHEAT OVERTOPS SEVENTY. Closes 1 1/2 Higher, With Foreign Buying a Feature—Corn Up Also.

Chicago, Aug. 5.—In the wheat today there was a fair trade, largely on the spasmodic order. A rather unsettled feeling prevailed, but the market was firm on the whole, closing 1 1/2 to 1 3/4 higher. There was an early decline, which was attributed to favorable weather conditions in the Northwest, fair world's shipments and an increase on ocean passage. An advance at Paris, large clearings, reports of foreign buying and claims of a better cash demand were responsible for the change in the early sentiment. There was considerable changing of September and December at 2 1/4 to 2 1/2 difference. Elevator interests sold December freely. The visible increased 1,105,000 bushels.

In corn there also was a fair trade. The market, however, was very irregular, within 1 1/4 range, closing 3/4 to 1/2 higher. The professional mood was bearish, and in the absence of any pronounced country buying local longs were disposed to liquidation early. The rally was influenced largely by indications of fair and warmer weather throughout the West and the upturn in wheat. Shorts covered on the rally. The visible decreased 783,000 bushels; the clearings were 21,000.

Oats were active and erratic. The opening was steady and the closing quiet and 1/4 to 3/4 lower. There was good realizing, and on the break free buying. The action of the other markets had much to do in influencing oats. The visible decreased 1,313,000 bushels.

The leading futures ranged as follows: September wheat opened at 62 1/4; highest, 70 1/2; lowest, 68 1/2; closed, 70 1/2. September corn opened at 58 1/2; highest, 58 1/2; lowest, 57 1/2; closed, 58 1/2. September oats opened at 35 1/2; highest, 35 1/2; lowest, 34 1/2; closed, 35 1/2.

GLIMMER OF HOPE

(Continued from Page One.) orders from headquarters before going out.

TRUST HAS BIG WAR FUND. Figured It Can Lose \$41,000,000 and Still Pay Dividends.

New York, Aug. 5.—The strength of the United States Steel Corporation in a labor fight can best be appreciated by considering the enormous profit earning power that is attributed to it. When the corporation was formed last March the men who were promoting it claimed for it an ability to make more than \$40,000,000 a year over and above the amount needed to pay dividends on its stock. Thus far the strike is estimated to have cost the corporation about \$210,000 a day in lost profits. Of course, with the extent of the strike doubled, the losses will be vastly greater, but at the present figure the company could stand the fight for 200 days and still be in a position to pay dividends in full, if its estimates of profits are borne out by facts.

The expectation of profits for the company is given as follows: Net earnings of constituent companies in 1900, \$110,000,000. Net earnings per annum of new corporation, 125,000,000. Interest on bonds, 12,100,000. Preferred stock dividend, 7,000,000. Common stock dividend, 38,500,000. Profit and loss surplus, 33,000,000. Total, 215,600,000.

This latter figure is the big war fund which, presumably, the corporation can use in the fight before its troubles touch the incomes of its stockholders. Against this the resources of the strikers are unknown. Their fund of cash in the bank is kept a secret, for it closely gauges their fighting power and above all things must not be made known to the enemy. It was thought to amount to \$150,000 at the beginning of the strike. It may be much larger. In addition to this come big contributions from the members of the association who have not been called out. They pay from 10 to 12 1/2 per cent of their wages as a benefit fund. Probably 30,000 men are paying this now, but with the extension of the strike there will not be more than 5,000 left in independent mills to help out in this way.

The American Federation of Labor has already voted a benefit assessment on its great membership, but this is a voluntary contribution and will not net large amounts, in all probability, until the general interest in the strike reaches a high pitch.

POINT FOR 'FRISCO STRIKERS. Treasury Department Refuses to Allow Chinamen to Unload Ships.

Washington, Aug. 5.—Assistant Secretary of the Treasury Taylor today refused the request of the owners of vessels at San Francisco that Chinamen employed on the ships be permitted to unload vessels, as owing to the strike the owners are unable to get the vessels lightened. Secretary Taylor held that this would be a violation of the Chinese exclusion act.

Garment Makers Win Out. Newark, N. J., Aug. 5.—The garment workers who struck last Tuesday returned to work today, the employers complying with all demands.

STORK VISITS GOULD'S YACHT. Little Girl Is Born to Mr. and Mrs. Geo. J. on the Ocean.

New York, Aug. 5.—His storkship alighted upon George J. Gould's steam yacht Sybarite off Seabright, N. J., yesterday morning, and then there came to those on shore the interesting tidings that Mrs. Gould had given to her husband another little daughter. Equally interesting was the news that Mrs. Gould and the little one were both doing remarkably well. Mr. Gould is now the proud father of six children, three girls and three boys, the oldest of whom, Kingdon, is fifteen.

The extremely warm weather several weeks ago Mr. Gould determined that his wife's health would be much better if she took up her abode on the Sybarite. Accordingly Dr. Paul Kimball of Seabright, with two trained nurses, became a part of the steam yacht's family. Mr. Gould remained on the yacht every night. The Sybarite would remain off the Atlantic Highlands or Sandy Hook, running up to Liberty Island in the morning, when Mr. Gould was placed on a launch and brought to this city to attend to his business. Mrs. Gould will probably remain on the Sybarite during the next two or three weeks, under the care of the physician. Mr. Gould married Miss Edith Kingdon in September, 1886. Their children are Kingdon, Jay, Marjorie Gayne, Helen Vivian, George J., Jr., and now the little daughter, whose name has yet to be announced.

JEWELRY STORE PLUNDERED. Allentown, Pa., Aug. 5.—Leonard B. Seifing's jewelry store was robbed last night of between \$4,000 and \$5,000. Two young men who are missing are suspected of having committed the robbery. One of them was an apprentice in the store.

WEATHER FORECAST. Washington, Aug. 5.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Tuesday; Wednesday, showers and cooler; fresh south to southeast winds, shifting to westerly.

BLAZE AT KANSAS CITY. Kansas City, Aug. 5.—The old Exposition building, which cost \$200,000 but was in dilapidated condition and practically of no value, was burned this afternoon.

OSHKOSH LUMBERMAN DIES. Oshkosh, Wis., Aug. 5.—Carlton Foster, one of the best known lumbermen in the Northwest, died today from heart disease.

BLOW TO THE BOERS.

Convoy of Seventy Wagons Captured by the British.

Cape Town, via Blomfontein, Aug. 5.—The British have captured a Boer convoy of seventy wagons near Bishop. Commandant Froneman, son of the commandant who, it is alleged, shot a peace envoy named Morgandaal has been killed near Winberg after an exciting chase. Most important papers were found in his pocket.

FAST BIKE SPIN AT BUFFALO. Buffalo, Aug. 5.—The feature of the national amateur championship meet of the National Cycling association in the stadium at the Pan-American exposition this afternoon was an exhibition ride in which Walter Smith of New York lowered the five-mile amateur American paced record. He did five miles in 8 minutes and 27.5 seconds, breaking the former record of 9 minutes held by J. R. Dubois of Boston.

SAVED FROM CANNIBALISM. Alaskan Miners Rescued As About to Eat a Dead Companion.

Port Townsend, Wash., Aug. 5.—A story of death from starvation in the Agiak district was brought from Nome today by passengers of the steamer Centennial, and as a result of forty-three days of unparalleled hardship George Dean, a miner of Canton, Ohio, is dead and his two companions, Jack Boston and Joseph C. Thiery of Davenport, Iowa, are near death's door. It is said that in their desperation Boston and Thiery prepared a thigh of their dead companion from the body and were cooking it when help arrived and saved them from practicing cannibalism. The men had been in the Good Hope country prospecting and started for Nome, but before reaching Teller City their provisions gave out.

DEAD FOR FORTY MINUTES. Brooklyn Boy Is Revived After in Water for Nearly an Hour.

New York, Aug. 5.—A marvelous instance of a man supposed to be dead who was brought back to life is the case of John Schaefer of Brooklyn, who was resuscitated after being under water forty minutes. The physician who restored life to Schaefer declares with the utmost positiveness that the young man was actually dead—that the machinery of life had utterly ceased to act and was forced to actively again by the persistent experiment of artificial respiration. Other medical authorities of high repute are astounded at the phenomenon and unable to explain it on any theory known to science. John Schaefer is seventeen years old, weighs only eighty pounds, and has been a victim of heart disease since he was a child. He was brought up from the water off Thirty-fifth street, Brooklyn, by J. Johnson, a boatman, who dived six times before he succeeded in finding the body.

IS LOST IN SHAM BATTLE. British Destroyer Viper, Fastest Ship in World, Wrecked During Maneuvers.

London, Aug. 5.—H. M. S. Viper, the torpedo boat destroyer which broke all records and was the fastest ship afloat, has been totally wrecked on the rocks off Alderney island, in the English channel, during the mimic battle of the British fleet engaged in the maneuvers. The entire crew was rescued and taken to St. Anne's. The wreck occurred in the narrow strait which separates Alderney island from the Jersey coast, which is one of the most dangerous passages in the English channel in rough weather. The boat struck during a fog which set in while it was chasing destroyers of the opposing maneuver fleet. The Viper fired signals after it struck, but the other vessels did not heed them, believing that the firing was part of the maneuvers. The crew did their utmost to save the vessel, but a racing tide caused the anchor cables to part and compelled the crew to abandon it in small boats, leaving all their belongings aboard the wrecked vessel. A French fishing smack, acting as a pilot, helped the crew to reach the shore.

The Viper was running at twenty knots when the fog set in. It was then eased down to five knots and was running at that speed when it struck. Later, when the cables parted, its stern smashed on the rocks. It subsequently parted amidships and is now in three pieces, the stern end being inverted on the rocks. It is believed that the known difficulty in reversing turbine engines contributed to the accident.

ROCKEFELLER WORTH A BILLION. Increase of the Oil Magnate Estimated at \$30,000,000 a Year.

New York, Aug. 5.—The Journal estimates John D. Rockefeller's wealth as follows: Standard Oil stock, \$300,000,000; United States Steel stock, 75,000,000; Amalgamated Copper, 50,000,000; American Sugar, 20,000,000; Gas companies in Greater New York, 85,000,000; Gas companies in other cities, 50,000,000; Railway securities, 200,000,000; Industrial and miscellaneous, 150,000,000; Realty, 15,000,000. Total, \$845,000,000. The estimate on the prices of May 1, during the great stock boom, was \$1,050,000,000.

A prominent financier says: "I don't think any man will deny that Mr. Rockefeller has made an average of \$30,000,000 a year for ten years. The reinvestment of this sum alone, supposing he had no principal, at 5 per cent compound interest, would mean the addition of more than \$400,000,000 to his riches. His Standard Oil holdings in three or four years have doubled in market value; his railway and other securities have advanced tremendously and in the past three years his wealth has increased in a sum which would astonish the American people if the actual figures were laid before them. "As for the rivalry between Morgan and Rockefeller, as they are the two men who control the most money in America, I think this rivalry is natural. As yet, however, I think it is without hostility. Both men are interested in many of the same enterprises. Certainly I believe that the only man in a financial sense to whom Mr. Morgan takes off his hat is J. D. Rockefeller. The same observant man well knows the silent, latent power of his vast millions; and I should say that at the present time it would be a risky venture for Mr. Morgan, or any other person on earth, to wage financial war against John D. Rockefeller and his billion."

We insure both men and women on equal basis at equal cost; new policies, up to date. Northern Michigan Benefit association. (8-2-44)

An English association regarding woman's happiness has offered a reward of \$500 for a greater blessing to woman than Rocky Mountain Tea. Sentible move. The Stafford Drug Co.

SHIP YARDS FOR THE GULF. \$4,000,000 Company Forms to Build a Plant in Alabama.

Mobile, Ala., Aug. 5.—Alabamaport, thirty miles south of Mobile on the Gulf of Mexico, is to have a shipbuilding plant to cost \$4,000,000 and capable of building six ships at a time. The work of construction will begin in November and will be rushed to completion. The plant will employ 3,000 hands. This announcement is made by Mr. S. B. McConnoe of New York, secretary of the Gulf Coast Shipbuilding & Drydock company, an association of New York and New Orleans capitalists recently incorporated with \$4,000,000 capital. The company will build the yard at Alabamaport and a dry dock at New Orleans.

We want a gentleman of good address to work from the home office here to represent us as special agent in the city of Marquette. A permanent position and good pay. Call at 409, Savings Bank bldg., Northern Michigan Benefit association. (8-2-6d)

BOWLING GREEN (O.) TEAMSTER MEETS TERRIBLE FATE.

TRIES TO CROSS BEFORE TRAIN. Gaping Hole Is Found Where the Vehicle Was, the Cars Are Bombed by Flying Debris and a House Near by Is Wrecked.

JOLTING EXPLODES NITRO-GLYCERINE IN HIS WAGON.

Bowling Green, O., Aug. 5.—William Radabaugh, a driver for the Hercules Torpedo company, was blown to pieces and many other persons narrowly escaped serious injury by an explosion of nitro-glycerine today. Radabaugh was driving a wagon loaded with eight hundred quarts of the explosive and when nearing the tracks of the Cincinnati, Hamilton & Dayton road whipped up the horses to cross ahead of an approaching passenger train. The jolting exploded the stuff on the tracks and the train was stopped within a few feet of the gaping hole made by the explosion. Pieces of the debris were hurled with great force against the train, but none of the fifty passengers were struck. A house occupied by Mrs. Abraham Teall, was wrecked and the woman seriously injured.

REVENUE CUTTER FOR THE SOO. Bids for Its Construction Now to Be Asked-\$75,000 Available.

Washington, Aug. 5.-The shipbuilders on the great lakes will be given an opportunity to demonstrate to what extent they desire to bid for the construction of smaller vessels ordered by the government.

Uncle Sam does not do things by halves when it comes to the construction of vessels for either the navy or the revenue cutter service.

The plans for this new government tug are now ready and the department will soon ask bids for her construction.

Dr. Peters, German Explorer, Locates It in East Africa.

London, Aug. 5.-The Times says: Dr. Peters, the German explorer, writes to the Times, declaring his belief, as a result of his discoveries in South Africa during the last two years, that the country between the Zambesi and the Sabi is the Ophir of Solomon.

Dr. Peters is not the first who has convinced himself that Ophir lay somewhere on the east coast of Africa, for the late Dr. Beza and other recent writers believed that they had identified the famous emporium where Solomon, the king of Israel, obtained gold for the temple at Jerusalem.

It is not necessary for the Ophir, whence Solomon obtained gold, to have been situated as near as the northern end of the Red Sea, for it is most likely that the seamen, who traded through Hiram, with him obtained the goods which he had to sell from the larger boats which sailed through Bab el-Mandeb either to India, or to ports on the northeast and east coast of Africa.

Upper Peninsula. Last week, according to the Marinette North Star, William Holmes of Menominee closed a deal for the purchase of 1,920 acres of hardwood timber lands in Michigan.

Edward G. Woodford has returned to Menominee from an extended trip to Pentwater, Ludington, Manistee and other points, where he has been buying fruit for Penberthy, Cook & Co.

One night last week somebody broke into Podesta's saloon at Gladstone and abstracted some thirty-three dollars in change from the till.

Charles Anderson, a well known farmer living near Talbot, was killed Friday afternoon by the accidental discharge of a shotgun which he was pulling from a wagon.

The construction of the new Carnegie library building in Ironwood will begin at once. A letter has been received by the chairman of the library committee from Mr. James Gayley stating that he had received instructions from Mr. Carnegie to add \$5,000 to the \$12,000 donation originally allotted Ironwood.

The association of Union Lumber Dealers will conduct an excursion from Toledo to Northern Michigan and Wisconsin, leaving Toledo August 17 at 12 o'clock.

W. E. Straight arrived in Munising last week from Muskegon, I. T. where he has been in the employ of the government during the past five months as captain of "Timber Camp No. 47."

Your best girl won't quit you when you break a leg or fall sick if you are a member of the Northern Michigan Benefit association, Marquette, Michigan.

Low Excursion Fare-Commencing Sunday, May 12, continuing every Sunday thereafter until further notice, the S. S. & A. railway will sell excursion tickets to Munising on return at the very low rate of \$1.10.

INSURED. YOU insure your house against fire. You know what people would say if it burned down without insurance. They would say you were wanting in business sagacity, that you should have provided for this. Now leave house insurance and consider clothing insurance. Here the danger is even greater—not from fire, but from the chemicals and strong soaps used in the laundry. Why women insure their finer, more delicate and perishable things against this risk, and the premium they pay is the trifling cost of Ivory Soap. That guarantees protection. IVORY SOAP—IT FLOATS.

Ishpeming and its Environs.

ISHPEMING IN BRIEF.
AMATEUR CIRCUS.

Captain Bennett, Under Arrest for Murder, a Former Ishpemingite.
 The news of the murder committed by Captain S. C. Bennett at Crystal Falls Saturday created no little surprise among the captain's friends and acquaintances here. Mr. Bennett was resident of Ishpeming for a number of years before engaging in mining work on the Menominee range. For a year or more before leaving here he was an underground boss at the Barnum mine. Although he has not visited Ishpeming many times since his departure fifteen years ago, there are many here who remember him. All the old employes of the Barnum, many of whom are still here, knew him intimately when he was at the mine. During the past eighteen months Captain Bennett visited the city a number of times in the interest of the corporation that employed him. For a time he visited the Lopez gold mine at regular intervals, though he is not prominent in the inspection of the property about the time it passed to the hands of Corrigan, McKinney & Co.
 An Ishpeming man who spent Sunday at Iron Mountain reported that there was considerable excitement at every town on the range as a result of the tragedy. He said that the cow over which the captain and the poundmaster quarrelled belonged to a man employed about Bennett's mine. The man complained to the captain that the poundmaster had taken advantage of him. Bennett consented to go and see the official. A quarrel ensued and it is said the poundmaster proved to be the better man and gave the captain a drubbing he did not expect. Bennett lost his temper and at the conclusion of the fight he returned to his home and got the gun which he used in slaying the officer.
 Bennett's trial will be watched with interest by his many acquaintances on this range. It is said he is worth in the neighborhood of \$75,000, about four-fifths of which is invested in government bonds.

THEY ARE MUM.
 The members of the committee chosen to inspect water meter systems at different places returned Sunday after looking over the systems at Milwaukee and Madison, Wis. All agreed before returning to not make known the nature of the report they will submit to the city council at the meeting to be held tomorrow evening. Inasmuch as the taxpayers are divided as to the advisability of establishing the water system the recommendations of the committee are awaited with keen interest.

MANY ATTEND DISPLAY.
 The display of art china at Harwood's drug store, yesterday, was attended by many ladies, several of whom made their holiday selections. The exhibit was composed of five hundred pieces from the Edgerton Art studios of Chicago. All are hand painted and are without a doubt the finest of the kind ever shown in this city. Several people from Negaunee came over to see the display. The goods will be on exhibition until today noon.

GOOD ADVICE.
 The most miserable beings in the world are those suffering from Dyspepsia. It is said that about seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Constiveness, Palpitation of the Heart, Heart-burn, Water-brash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spirits, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

NOTICE TO CONTRACTORS.
 The plans and specifications for the new Grace Episcopal church are now in the hands of Mr. E. C. Cooley and may be seen at his office. Bids are asked for to be in on or before August 8, at 5 p. m. The committee reserves the right to reject any and all bids. S-1-3d

TO HEAL A HURT.
 The Tanner Salve, the great healer. It's guaranteed for cuts, wounds, sores, piles and all skin diseases. Use no substitute. The People's Drug Store.

Table with 2 columns: From (e.g., From Sault Ste. Marie to Crystal Falls and return) and Fare (e.g., \$5.50).

Tickets will be on sale as follows: At all stations east of Marquette for the night express of Monday, August 5th, and for the day and night express trains of August 6th, tickets being valid for return passage until the early morning express of August 13th.

Geo. W. Hibbard, Gen. Pass. Agent.

Negaunee and Vicinity.

WILL LEAVE TODAY. Firemen Go To Crystal Falls to Secure Next Year's Tournament.

It is expected that at least seventy-five people from this city will attend the morning for Crystal Falls to attend the Firemen's tournament. On this number fully fifty are members of the Negaunee Fire department.

IS KNOWN HERE. Captain S. E. Bennett of Crystal Falls, who shot and killed Joseph Lennon at that place Saturday, is well known in this city, especially among mining men.

ASTONISHED THE EDITOR. Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver."

LOCAL LACONICS. James Bennett of Marquette was a Negaunee visitor Sunday.

Arthur Meyers of Marquette was a visitor in the city Sunday. Miss Jennie Currie of Calumet is visiting at the home of H. Lucas. Mark Elliott of Crystal Falls spent Sunday in the city visiting his family.

MEETING HELD. The regular monthly meeting of the school board was held last Saturday afternoon at which a teacher to fill the vacancy caused by Miss Brown's resignation was appointed.

George Kinding and Miles Doyle, formerly of this city, are now employed on diamond drill work at Osceola, Wis. Mrs. Alexander Maitland and her daughter Rena and Miss Fanny Winter have gone down to Bass Lake to spend a few days camping at Mr. Maitland's resort.

A party consisting of William Gratzke, Peter Johnson and Frank Anderson left yesterday for Bass Lake, where they will spend a week or ten days camping. A bunch of keys was lost Friday afternoon either in the postoffice or on one of the streets of this city. The finder will be liberally rewarded on return of the same to John Perala.

John W. Elliott, who has secured the contract for painting the Jackson school, commenced work on the structure yesterday. He also has a gang of men at work painting Will Mitchell's new home. Sometime during the last couple of days there was lost in Negaunee a bicycle class on having the name L. L. Matthews on the back. The finder will please notify the Mining Journal representative.

The buildings occupying the lots on which John Shea will erect his new store are being torn down. Work was commenced Saturday. It is Mr. Shea's intention to have the contractor rush the work on the building so that he can move his stock into his new store as early in the fall as possible. Recuperation - there is not so much in the ordinary vacation as there is in a single bottle of Dodd's Kidney Pills, which restores the tired blood, purifies the system, and restores the lost strength. Take Dodd's Kidney Pills this summer.

Partners of Erik John on, who was killed in the Queen mine accident Saturday, claim that the mine might have escaped without injury had he not returned for his coat and tools. When the ground was being cracked all the miners started to run to the place of shelter, John on among the others. He had but run a short distance, when he

FUNERAL TODAY. The funeral of Erik Johnson, who was killed in the Queen mine Saturday, will be held this afternoon at 2 o'clock from the Swedish Lutheran church, the Rev. Swanson officiating. The services will be under the direction of the Scandinavian society of which he was the recording secretary. All the members are requested to attend. John Peruchetti was buried from St. Paul's church yesterday afternoon. Father Langner, pastor of the church, conducted the services. All the workmen from the mine attended the funeral services, also a large delegation of Italians. The Queen mine was closed down yesterday to give the men an opportunity to attend the funeral of their fellow workman. Work will not be resumed until tomorrow.

DELAY WAS FATAL. Partners of Erik John on, who was killed in the Queen mine accident Saturday, claim that the mine might have escaped without injury had he not returned for his coat and tools. When the ground was being cracked all the miners started to run to the place of shelter, John on among the others. He had but run a short distance, when he

It is a powerful and reliable remedy for all cases of dyspepsia, indigestion, heartburn, flatulence, and all the ailments of the stomach.

ALL DRUGS KNOW

It is the name, Dodd's Kidney Pills, that is indicated. Why are diamonds so valuable? Because they are rare and they are hard. Dodd's Kidney Pills are the same. They are rare and they are hard. They are the only pills that can cure the most stubborn cases of kidney trouble. They are the only pills that can cure the most stubborn cases of kidney trouble.

Prepared by Dodd's Kidney Pills Co., Detroit, Mich.

Rheumatism

Rheumatism is due to an excess of acid in the blood. When this escapes through the pores of the skin, as it often does, it produces some form of skin eruption - some itching disease like Eczema or Tetter - but when these little tubes or sweat glands are suddenly closed by exposure to cold and sudden chilling of the body, then the poisons thrown off by the blood, finding no outlet, settle in membranes, muscles, tissues and nerves. These parts become greatly inflamed, feverish and hot; dagger-like, maddening pains follow in quick succession, the muscles become extremely tender, the nerves break down and the sufferer is soon reduced to a state of helplessness and misery. This acid poison penetrates the joints and seems to dry out the natural oils, and the legs, arms and fingers become so stiff and sore that every movement is attended with excruciating pains.

Liniments, plasters, electricity and baths, while their use may give temporary ease, cannot be called cures, for the disease returns with every change of the weather. S. S. S. cures Rheumatism by working a complete change in the blood; the acids are neutralized, the circulation purified and the rich, healthy blood that is carried to the irritated, aching muscles and joints, soothes and heals them. S. S. S. cures Rheumatism even when inherited or brought on by the excessive use of mercury. Optium, in some form, is the basis of nearly all so-called Rheumatic Cures, which deaden the pain but do not touch the disease and lead to ruinous habits. Alkalies and the potash and mineral remedies so often prescribed, affect the tender lining of the stomach and weaken the digestion, thus adding another burden to the already weak and impoverished blood. S. S. S. contains no mineral or dangerous drug of any kind, but is a simple, vegetable remedy and the most perfect blood purifier known. Send for our book on Rheumatism and write our physicians if you wish any information or advice. We would be glad to mail you a book free; we charge nothing whatever for medical advice.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Baby's Coming

McDonald, Ga., July 18, 1900. I advise every suffering woman to take Wine of Cardui. While I was going with my dear children I was compelled to stay in bed for days at a time, but this time I have taken Wine of Cardui and I am able to do all my household work without any trouble. I am expecting every day to be completely cured. My husband thinks Wine of Cardui is the best medicine in the world. He takes a dose of Theodor's Black-Draught every night and gives some to the children. He has not lost a day from work this year. He tells his friends about your wonderful medicine and I tell my lady friends to use your Wine of Cardui. Mrs. GEORGIA LEE

WINE OF CARDUI

There are thousands of women who shrink in terror at the thought of the baby's coming. But childbirth is one of the workings of Nature and it was not intended to imply torture and agony to the heroic mothers of the race. The woman who suffers torture during pregnancy and at childbirth has usually, by some individual, injured the organs which make her a woman. Neglect of menstrual irregularities leads to ovarian pain, falling of the womb and leucorrhoea, and the period of pregnancy is necessarily distressing under those conditions. Wine of Cardui will regulate the menstrual function perfectly and eventually make the generative organs strong and healthy. Pregnancy and childbirth have no terrors for the woman who takes this pure wine. A strong healthy womb will bring its precious burden to maturity with little or no pain. A healthy woman need not fear childbirth. Wine of Cardui completely cures all these troubles familiarly known as "menstrual diseases" and equips the sensitive generative organs for pregnancy and childbirth. It will save any mother much pain and suffering. All druggists sell \$1.00 bottles.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

WILL RALPH DEAD.

Passed Away After Illness With Typhoid Yester Afternoon.

Word was received here last evening to the effect that Will Ralph, formerly a resident of Marquette, who was well known among the young men here and in other parts of the country, died at his home in Hancock yesterday afternoon at five o'clock.

Will was a brother of John Ralph, who at one time managed the street railway. He has been located in other parts of the upper peninsula for the past couple of years. Typhoid fever caused the death. The funeral will be held Wednesday afternoon from the residence of William Trevarrow at Calumet.

FUNERAL HERE SUNDAY.

C. A. Jaques Was Killed in a Chicago & Alton Wreck in Missouri.

The funeral of C. A. Jaques, who was killed in a wreck on the Chicago & Alton road at Grain Valley, Mo., Thursday, Aug. 1, was held here Sunday from the residence of David Todd, 113 North Fifth street. Mr. Jaques formerly lived in Marquette and he is remembered by many people.

The remains were brought to this city for burial by George W. Jaques, an engineer on the Chicago & Alton, who was accompanied by his wife. The deceased was likewise an engineer.

Up to a couple of weeks ago Mr. Jaques had a run on the Duluth, Mesaba & Northern road. He then was offered an opening on the Chicago & Alton and changed his position, with the result that he was only becoming accustomed to his new work when he was caught in the fatal wreck.

The funeral service was attended by the Protestant branch of the B. of L. E., which traveled to Marquette in a special coach provided by the Duluth, Mesaba & Northern road, by the Marquette lodge of the same order and by the Knights of Pythias. The cortege was very large.

Mr. Jaques leaves a wife and two children.

TOURNAMENT WEEK.

Upper Peninsula Firemen Congregate in Crystal Falls Today.

The annual meeting of the Upper Peninsula Firemen's association will be held in Crystal Falls today, Wednesday and Thursday. The Marquette delegation, consisting of about fourteen members of the department and a few out of their number, leaves this morning at 8:30, not to return until the last day of the tournament, or Friday. The special rate from this city is \$2, or \$1.75 for firemen.

Every preparation that is necessary for the recreation and entertainment of the visiting firemen and others has been made, says the Crystal Falls Diamond Drill. The much-lacked lack of sleeping quarters has vanished, the people of the city having responded in fine style to the request of the association that they open their houses to the reception of guests.

Right here let it be said that by far the greater portion of the crowd of visitors will consist of people who come to visit friends living here. In the canvass of the city for sleeping accommodations it was found that there was hardly a householder who did not expect less than four visitors and the average number of visitors to each house in the city will be about eight.

The firemen have all been assigned to quarters and it is thought that Crystal Falls has provided for the running teams better than they have ever been provided for before. The assignment is as follows:

Amasa, 27 men—Lockwood.
Bessemer, 30 men—Cousins House.
Baraga, 35 men—M. E. church parlor.
Hancock, 30 men—Collins House.
Houghton, 35 men—Lockwood.
Huron, 15 men—Diamond Drill Hall.
Ironwood—Not assigned.
Ishpeming, 50 men—Lockwood.
Laurium, 35 men—Eldred.
Lake Linden, 35 men—Union.
L'Anse—Not assigned.
Marquette—Central House.
Michigan, 35 men—National.
Negaunee, 35 men—Union.
Red Jacket, 35 men—Lockwood.
Republic, 35 men—Ball & Water's.
Sault Ste. Marie, 15 men—Diamond Drill Hall.
Bands—Ishpeming, Lockwood; Negaunee, National; Houghton, Lockwood; Soo, Diamond Drill Hall.

The running track is in very good condition. There was some alarm during the heavy rains of last week and fear was expressed that the floods would soften up the track. The only damage done was making it necessary to tile the track in several places, thus loosening the bed, but a great deal of rolling has been done and the track bids fair to be the best ever provided for the association races.

The big dance will take place on the evening of the 6th. It will be free to firemen. Others will be charged \$1 and it is likely that there will be a big crowd on hand to trip the light fantastic.

On Tuesday after the parade, there will be a game of baseball at the driving park between the Houghton team and the Crystal Falls boys. This will be an interesting feature of the tournament and it looks as if it will be a hotly contested game.

Do you like a sandwich and a cup of coffee with cream? If so, go to Heppner's (8-6-1f)

The home office of the best accident and health insurance company is now established in Marquette, Mich., Savings Bank block. (8-2-4d)

A lazy liver makes a lazy man. Burning Blood Bitters is the natural, never failing remedy for a lazy liver.

A WAITING PERIOD.

Lack of Copper Activity Would Indicate It.

There was nothing new in coppers yesterday. The market was full with light sales shading prices off. Paine, Webber & Co. said:

There was no feature to the copper market today. A few scattering sales in sympathy with the New York market caused some lower quotations on most of the coppers. We are in for a waiting period for the present, with a narrow trading market.

Hayden, Stone & Co. wired the Laidley Commission Co.:

"You can't expect coppers to go up with such a weak New York market. Stocks like Wolverine, Mohawk and Osceola show good strength, after their advance of the last few days. The rest of the list is inactive. As conditions seem likely to be unsettled for a while, we advise selling whenever it can be done with a profit."

A. R. Jones & Co. said of wheat:

"The wheat bears saw nothing more startling this morning than a fair advance in Paris and, as this failed to reflect appreciably in our prices, they hammered the market again, as usual. The interesting part came when the attention of the trade was called to the heavy export movement and the light movement from the Southwest, also to the damage in Roumania and parts of Russia. This developed the fact that there was a big short interest in wheat and a market shot up very quickly 1/2 cents, almost entirely on covering. The prices seen-sawed back and forth on a very little trade. The market eased off somewhat on the publication of a good increase in the visible, then up again. Gossip had it that a big local operator was buying wheat against short sales of corn. We have argued for some time that wheat was relatively too cheap, that all bearish features had been discounted, and that it was only a question of a very short time when it must get into line with the coarse grains."

TWELFTH ANNUAL MEETING.

Marquette Baptist Association Transacts Business Here This Week.

The twelfth annual meeting of the Marquette Baptist association, which embraces all the Baptist churches on the upper peninsula, will be held here today, tomorrow and Thursday. There will be a general attendance of delegates. Following is the complete program:

Tuesday Evening.

3:00—"Methods of Primary Work," Mrs. E. M. Byron, Sault Ste. Marie.
3:15—Discussion.
Conference on Young People's Work—
3:30—"The Christian Church Courses for 1901-1902," Miss M. Saurine, Escanaba.
3:40—"Methods Which Have Been Found Successful," Lookout committee, Mrs. Jay Spear, Marquette; discussion, Social committee, Mildred Leonard, Menominee; discussion, Missionary committee, Mr. E. W. Miller, Marquette; discussion.
Conference on the Prayer Meeting—
4:15—"How to Enlist Interest in the Prayer Meeting," Pastor, Hancock.
4:35—"How to Make the Missionary Meeting Interesting and Helpful to the Largest Number," Mrs. W. W. Walker, Discussion.

Wednesday Evening.

7:30—Devotional exercises.
7:45—Annual sermon, Rev. J. H. Soverby, Sault Ste. Marie.

Thursday Morning.

9:00—Devotional exercises.
9:30—Report of auditing committee, report of missionary committee, report of committee on place and preacher, report of committee on obituaries, report of committee on resolutions, unfinished business, new business.
11:00—Doctrinal sermon, Rev. J. E. Stirling, Laurium.

Thursday Afternoon.

1:30—Devotional exercises, Mrs. Myers of Hancock.
1:45—"Home Missions," Rev. E. H. E. Jameson, D.D., Detroit, district secretary of the American Baptist Home Mission society.
2:15—"Foreign Missions," Rev. T. G. Field, Elyria, O., district secretary of the American Baptist Missionary union.
2:45—"Woman's meeting; addresses by Miss Harriet Cooper, field secretary of the Woman's Baptist Home Mission society of Michigan and others.

Thursday Evening.

7:30—Prayer and praise.
7:45—"Publication Society and Sunday School Missionary Work," Rev. Jay Prudens and Rev. W. H. Johnson of the American Baptist Publication society.
8:15—"State Missions," Rev. C. E. Conley, superintendent of state missions, and Rev. W. H. Johnson.
9:00—Consecration meeting.

If you want the best accident and health policy in the world, call at 409 Savings Bank building. They are issued by the Northern Michigan Benefit association. (8-2-4d)

You can always get a light lunch, with a cup of tea or cocoa, at Heppner's. (7-31-1w)

MARINE MATTERS.

Passed the Canal.

Sault Ste. Marie, Aug. 5.—(Special)—Up—Presque Isle, 9:20; Sirka, Hiaswath, 9; Fitzgerald, 11:20; Robt. Rhodes, Colonel, 1:40; Harvey Brown, 12:30; Centennial, Holland, 1; Eades, Martha, 1:40; Soukane, 2; Kennebec, 7; Shaw, 8; Matao, Neptune, Nipigon, Melbourne, Knapp, 9:30; Street, Lozen, Godfrey, 11:40; Admiral, 1; Auramin, 1:40; Leafield, 3:20; Williams, 5; Emery, Owen, Australia, Corsica and whale-back, 6 p. m.; Uranus, 6:30; Volunteer, Maguette, 7; Venus, 8.

Marine Notes.

The Lake Superior Powder company. The China, touched here, bound up, last night.

The Portage was in port, bound up, yesterday. She unloaded a consignment of 1,000 bags of nitrate soda for CITY BREVITIES.

Today's weather: Fair and warmer; light and fresh variable winds.

Yesterday's temperature: 7 a. m., 66 degrees; noon, 77 degrees; 7 p. m., 71 degrees. Maximum, 81 degrees; minimum, 60 degrees.

T. G. Sullivan was up from Munising yesterday.

C. G. Griffey was down from Negaunee yesterday.

Otto Meyer of Oshkosh is here visiting his brother Fred Meyer.

Jay Pickands came in last evening to spend some time in Marquette.

Charles Reidinger is here from Washington, D. C., visiting his parents.

Professor Hogue will hold his dancing classes here. He will be the usual hop at the conclusion of the evening lessons.

Robert Evans, formerly of Marquette, who is now located in St. Paul, came in yesterday morning to visit friends for a few days.

George A. Parker, manager of the Equitable Life Assurance society, with headquarters at Milwaukee, was a Marquette visitor yesterday.

Miss Mame Mooney of Marinette, Miss Loretta Fitzpatrick of Ishpeming and Miss Mable Jackson of Negaunee were the guests of Miss Margaret Fitzgerald Sunday.

County Clerk Ross has issued marriage licenses to Edward Swanson and Hilma Olson of Negaunee and Ludy E. Johnson of Escanaba and Gyda Grave-rock of Ishpeming.

Nels Cadavette, of the South Shore road, leaves tomorrow morning for a two weeks' trip in the east. He will visit in Canadian points and in Boston before his return to Marquette.

One hour of play, one hour of clever specialties and thirty minutes of laughter is the program promised by "The Two Merry Tramps" which will be produced here by Wood & Ward in the near future.

"Two Merry Tramps" the jolly jingling farce which will be produced here by Wood & Ward, is from the pen of Mr. Charles Hasty and is one of the most reasonable and consistent comedies of the day.

During the month of July an aggregate of \$47,789.22 of city taxes was paid into the city treasury. Of this amount, \$29,443.88 was received on the last day of the month, the property holders sliding in at the last minute to avoid the legal penalty for further delay.

In addition to the rate of \$10.85 in effect August 1st to 10th from Chicago to Marquette and return a rate of \$7 will be placed in effect on August 23 and again on August 30; tickets sold on the 23rd to be good for return until September 2 and those sold on the 30th to be good until September 9.

George B. Ross, manager of the Hotel Superior here and the Lexington in Chicago, is using, this season, one of the finest booklets of Marquette ever published to advertise his Lake Superior resort. The booklet was printed in Chicago and it is particularly noticeable for the excellence of its engravings. Its stylish and attractive appearance being irreproachable. Many of the pictures contained within its covers are now, although all the old favorites are presented again. They are equally to be commended for the fineness of their execution. If this latest booklet does not attract people to Marquette, nothing will.

The Marquette Juniors will play the Munising team at the Fair grounds next Sunday. These organizations met in a closely fought contest a week ago Sunday, the Marquette boys winning out by one run. In the interval both teams have been practicing steadily and the Munising will endeavor to even things up next Sunday. From 1:30 on, buses will run in conjunction with the street cars from Fair avenue. Those who have tickets to the game will be given free transportation, the charge for others being ten cents. The diamond at the Fair grounds has been changed so that it is directly in front of the grandstand, from which the contest may be conveniently viewed.

WHAT A TALE IT TELLS.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at Stafford's drug store.

Strawberry and chocolate ice cream by the dish? Oh, yes, we have it. Heppner's.

Twenty-five gas lamps for bicycles—going at a bargain. R. L. Francis Co. (7-12-4f)
