The representative of a Cleveland syndicate has completed negotiations for placing under one management the coal mines of Bay and Saginaw counties, twenty-two in number. It will be a trust, to all intents and purposes. The syndicate has secured options on the mines, and if it concludes to make the purchase, which now seems very probable, they will be operated under one head, with one set of officers. The Bay county operators were approached a short time ago, placed a figure on their possessions, and are now awaiting the syndicate's action. If the deal goes through, it will involve the transfer of upwards of \$2,000,000.

Mrs. Catherine Blake, an old resident of Muskegon, received word this week of the death of two of her brothers, Cornelius and Florence Sullivan, in Alaska, where they were killed by Indians. The men formerly lived at Muskegon and Washington, Aug. 9.-The following is Grand Rapids, and about twenty-five years ago Cornelius, the elder, moved to Butte, Mont. The younger brother, Florence, followed him in about ten years. They were very posperous and became wealthy. In June they made several rich finds, and from Seattle chartered a boat and left for a pleasure and exploring trip to Alaska. They landed on June 7 and went into the woods to pitch their tent, and on going back to the boat found their guns and ammunition gone. While discussing the matter Rev. L. S. Coulton, of Circleville, Kas. a shot rang out and Florence Sullivan says: "Dr. Warner-Your White Wine fell dead. XXXXXXX Hundred-Year

Neither time, moisture nor mould can affect jellies that are sealed with paraffine wax. Fill your glasses or jars, pour a film of paraffine over the surface, and the jelly will keep for a century if you want

Paraffine is white, tasteless and odorless, and is proof against moisture, acids, insects and germs. It prevents evaporation, granulation or change of any kind. A pound of paraffine goes a long way and can be used over and over again year after year. Just as good for covering preserves, fruit butters and jams.

Paraffine Wax, especially, refined for sealing

purposes, 25c a pound.
