MILL WORKERS BALK

FIRST SHOW OF STRENGTH IS MUCH IN TRUST'S FAVOR.

MANY MILLS KEPT RUNNING.

ORDER TO STRIKE OBEYED BY ONLY ABOUT 14,000 MEN.

Combine Officials Well Pleased but Decline to State Plans, While Shaffer Hints at Surprises Later in the Week.

Pittsburg, Aug. 12.—The struggle for the mastery between the manufacturers and the men in the steel industry is now fairly launched, and on the first show of strength the advantage is with the former.

The general strike order issued by President Shaffer has so far been obeyed by only four thousand men, according to the best figures obtainable here. The first two preliminary calls were answered by about forty-five thousand men, so that the total number now out is in the neighborhood of sixty thousand. The strikers made gains here today over the showing of last night, and their prospects for further successes at both McKeesport and Wheeling during the week are very favorable.

Disappointed but Not Dismayed.

The action of the Amalgamated men at Chicago, Joliet and Bay View (Mich.) in refusing to come out and the strike leaders' failure to secure any recruits in the Carnegie group throughout the Kiskiminetis valley and the big plants at Youngstown and Columbus, Ohio, have been markedly disappointing to them. They are keeping up the fight, however, in a spirited manner and claim to have strength in reserve which will surprise their opponents. They assert they have gained a foothold in the Carnegie mills, and at the time desired the men will come out. They are pressing their advantages at McKeesport and Wheeling, and their organizers are still at work at those cities.

An appeal for financial aid has been made to organized labor and the general public, and it is expected the responses to it will be liberal. The Amalgamated leaders were not disposed to do much talking today. They would not discuss the desertion of their Western fellow-workers.

Situation from Trust Standpoint.

The men who are directing the fight in the field for the steel corporation and its constituent companies would give no indications of their plans for the future and would only discuss the situation generally. A statement alleged to have been given out officially by them at noon was repudiated later in the day.

The steel officials' reports showed that the Carnegie group and the mills at South Chicago, Bay View, Joliet, Youngstown, Columbus, the Kiskiminetis valley group, Wellsville and Monessen were moving along full-handed, while Bellaire was badly crippled. They admitted the loss today of the National rolling mill at McKeesport, which they had expected to hold out, and that the Boston mill of the Monongahela Steel works at McKeesport and the Republic and Elba here were tied up. Their tube workers at McKeesport and here are still at work but are menaced by a possible shortage of material.

The iron masters claimed that many of their men at McKeesport and Wheeling desired to work, but were being terrorized by the disorderly element. It was also stated by the steel officials that the Clark mill here is moving along with the non-union crews engaged last week and that another mill, managed by old Amalgamated men, had started up at Wellsville, representing a gain of one there since Saturday.

Iron Masters and Mayor Clash.

The officials of the National Tube company and Mayor Black of McKeesport clashed today over the question of protection for non-union strikers and property. A large crowd of strikers assembled around the works this morning and their pickets intercepted the tube workers. There was some excitement and the mill officers, claiming their men were being threatened and were in danger of violence, called on Mayor Black to clear the streets and protect the workers. The mayor said he would only interfere to stop actual rioting and assault. Two other appeals were made later, but the mayor insisted that there was no danger of an outbreak.

The executive committee of the Amalgamated association will probably make an exhaustive investigation of the action taken by the lodges at South Chicago, Bay View and Joliet in refusing to join the strike. It is claimed that a canvass made a week ago showed a majority in favor of striking, and no reasonable explanation of the change of front has been made. President Shaffer refrains from direct criticism of the act of the Western men, but it is known he deeply regrets the loss of their support.

Boys Cripple Big Plant.

Later—Two hundred and fifty butt welding helpers came out tonight and crippled the great butt-welding department of the National Tube works at McKeesport. The strikers are nearly all boys and comprised half of the force of helpers in this department. Fully two thousand laborers were forced to quit work, and the entire department, consisting of 4,800, is expected to be idle. The boys came out against the wishes of the Amalgamated officials. Organizers Stewart and Sharp tried in vain to persuade the boys to go back. The young fellows are turbulent. It was their strike that began the great strike and riots of 1904.

STRIKE IN ROYAL KITCHEN.

Alfonso's Chef and Cooks at the Madrid Palace Quit Work.

Madrid, Aug. 12.—The general feeling of discontent prevailing here, today reached the royal kitchen, the principal chef and five cooks at the king's palace going on a strike.

SEVERAL VILLAGES DESTROYED.

Fires Sweeping Through Forests in the Central Part of Russia.

St. Petersburg, Aug. 12.—Extensive forest fires are raging in three districts of the government of Nizh-Novgorod, Central Russia, and several villages have been destroyed.

KANSAS CITY STRIKE OFF.

Machinists Capitulat After a Struggle of Thirteen Weeks.

Kansas City, Aug. 12.—The machinists' strike inaugurated thirteen weeks ago was declared off today by the strikers. The men are still out and will return to work as soon as the employers take them back.

TEXTILE WAGES SLASHED.

New England Mill Owners Vote a Reduction of 14 Per Cent.

Fall River, Mass., Aug. 12.—The manufacturers' association today voted to reduce the price of weaving from 19.5 to 17 cents per cut, which is practically a cut in wages of 14 per cent.

IS FUGITIVE IN SOUTH AMERICA.

Books of an Akron (O.) Treasurer Found \$29,000 Short.

Akron, O., Aug. 12.—The examination of the books of the Akron Varnish company, completed today, shows that the defalcation of former Treasurer Homer J. McCrum amounts to \$29,000. McCrum disappeared some weeks ago and is supposed to be in South America.

WORLD'S FAIR SCORES VICTORY.

St. Louis Judge Declines to Enjoin Use of Proposed Site.

St. Louis, Aug. 12.—Judge Zachritz, in the circuit court today, refused to grant an injunction restraining the Louisiana Purchase Exposition company from using Forest Park as a site for the world's fair to be held at St. Louis in 1903.

FOURTEEN OF CREW MISSING.

Ship from England for New York Is Lost Off Nova Scotia.

Halifax, Aug. 12.—The captain and part of the crew of the two thousand tons barkentine Priscilla, bound from England for New York, have landed at Cape Sable, reporting that the vessel struck a ledge off Barrington last night. A boat containing fourteen men is missing.

BEVERIDGE IN PEKIN.

Extensive Tour in Manchuria Concluded by the Senator.

Pekin, Aug. 12.—Senator Beveridge of Indiana has arrived in Peking for a two days visit after traveling extensively in Manchuria with the Russian commander-in-chief. Siberia was crossed by Senator Beveridge. The Russians refused him permission to land from the Amur steamers on the Manchurian side of the river.

SULTAN YIELDS TO FRANCE.

Vigorous Attitude of the Paris Government Bears Fruit.

Constantinople, Aug. 12.—As a result of the firm attitude adopted by French Ambassador Constans in his audience with the sultan last Friday, the situation in relation to the French claims is clearing. It is practically settled that the Quay company shall enjoy the rights under the concession as demanded by France.

BURIED TREASURE FOUND.

\$34,000 Dug Up at Rendezvous of Notorious Gang in Mississippi.

Meridian, Miss., Aug. 12.—News was received in this city today of the finding of \$32,000, mostly Spanish gold specie, buried in a chest five miles from Portersville, by four men who had a chart of the burial place and had been searching for the treasure for some time. This section was once the rendezvous of the Copeland gang.

PLANT LINER STRIKES REEF.

Steamer Halifax Is Wrecked at Boston—All on Board Saved.

Boston, Aug. 12.—The Plant line steamer Halifax, which left Halifax Saturday night with a large number of passengers, struck a ledge while coming in to port in a thick fog early today. She freed herself, but was beached in a sinking condition. Later in the day tugs reached the city with the Halifax's passengers. It is not believed the boat is in danger.

UPHOLDS FREEDOM OF PRESS.

Memphis Judge Declines to Enjoin Publication of Libelous Matter.

Memphis, Aug. 12.—Chancellor Heiskell decided today that the publication of alleged libelous matter cannot be restrained by process of injunction. The complainants in the case sought to enjoin a local publication from issuing an edition in which was contained certain statements alleged to be reflections upon the personal and professional standings of the complainants. The decision was based upon two grounds—first, the freedom of the press was impaired, and, second, the right of trial by jury was invaded.

INVADER WINS ONE

CANADIAN CHALLENGER TURNS TABLES ON CADILLAC.

TAKES THE SECOND RACE EASILY.

FIRST OVER THE FINISH LINE BY SIX MINUTES.

Yankee Defender Proves Inferior in Light Airs and Unless Stronger Breezes Prevail It Is Feared Cup Will Change Hands.

Start. Turn. Finish.
Invader . . . 11:00:00 12:58:35 2:08:00
Cadillac . . . 11:00:00 1:03:02 2:14:32

Chicago, Aug. 12.—In a twelve-knot breeze and smooth sea today, Invader, the Royal Canadian Yacht club's challenger, won the second race of the international series for Canada's cup almost as easily as the Detroit boat club's Cadillac won the first race last Saturday.

Invader gained four minutes and twenty-seven seconds on what was intended to be a beat to the windward of nine nautical miles, but which, by reason of the wind hauling before the yachts had made two miles to weather, became a close-hauled reach; and on the run home of the wind the challenger added nearly two minutes more to her lead.

Invader sufficiently demonstrated that in light airs she can beat Cadillac to the windward. Considerable apprehension is felt that unless fifteen-mile-per-hour winds or better prevail for the next two or three days, the challenger will take the cup back to Canada with her.

Clever Jockeying for Positions.

When the starting gun was fired at eleven, the fine sailing breeze of the early morning had died away to a mere whisper from east southeast. In jockeying for position before the final gun both skippers displayed clever generalship. The boats crossed at almost the same moment on the starboard tack, standing northeast. They, however, could not point very high. Standing out thus, Cadillac had Invader on the starboard, or weather, quarter.

Slowly but surely the Canadian yacht passed to the windward of the American. After twenty minutes Cadillac went about on the port tack and crossed two hundred yards astern of Invader, which came about also. The challenger was out-pointing Cadillac and moving a trifle faster as well.

At noon the boats were still on the port tack, heading southeast, and Invader had a big gain, being fully 300 yards to the weather and 200 yards ahead of Cadillac.

Challenger Steadily Gains.

The breeze was now fresher, gradually hauling north of east, and the Canadian fin-keel, pointed continually higher, gradually out-footed her Yankee opponent. The judges' boat about fifteen minutes later legged off a course, which instead of the regulation beat to the windward, after the new breeze became a close-hauled reach for seven knots.

Just before 1 o'clock, Invader gybed around the mark, breaking out its balloon jib with considerable smartness. Four and a half minutes later Cadillac gybed around and set its big balloon jib, which at first failed to break out all the way up the stay, on which it had been sent up in steps. Ten minutes later the No. 3 balloon jib was sent up inside the big one, which was then dropped.

When half of the homeward leg had been covered, Cadillac's big balloon jib was set again, but in vain. There was no chance now to catch the flying fin-keel, which in a twelve-knot breeze made the run of nine nautical miles in seventy minutes and crossed the line at the finish amid a terrific din of steam whistles.

ERROR GIVES COLUMBIA VICTORY.

Constitution Loses on Corrected Time Because of Fatal Tack.

Newport, R. I., Aug. 12.—Constitution covered a triangular course of thirty miles today in three seconds less time than Columbia. The champion of 1891, however, wins the race, a time allowance by about thirty seconds. No corrected time can be given, as the boats have not yet been remeasured as requested.

The finish today was noteworthy and the only exciting feature of the contest. When within a mile of the mark, Constitution made a short tack that undoubtedly lost the race. Both boats were coming in close hauled on the starboard tack. Constitution fully two minutes in the lead. The light wind had headed then a bit, and it was found they could not fetch between the committee boat and the lights.

Constitution was pointing fairly well and making good speed, with Columbia also coming fast, directly astern. Not willing to leave well enough alone, however, Captain Rhodes suddenly put Constitution about on the port tack, crossed Columbia's bow and immediately tacked again. For a few moments Rhodes worked up on the weather quarter of Columbia. Captain Barr could not come about, so both boats overstood the mark. Captain Rhodes slowly coming down on his weather, thus regaining part of his lost advantage.

Suddenly Constitution put about and made for the line. Columbia followed at once, but the new boat, having the better speed at the time, was quicker in the stays and was well away while the old boat was tacking. She luffed under the bow of the committee boat,

LIPTON'S NEW BOAT HANDSOME.

Is Most Graceful Craft That Ever Competed for the Cup.

New York, Aug. 12.—Shamrock II, which arrived off Sandy Hook last night, was this afternoon towed into Erie basin, where a big crowd welcomed the Irish yacht. Arrangements were made for taking out the jirru mast tomorrow, after which the racing mast will be stepped. After this the yacht will be put into drydock and the accumulation of seaweed and barnacles removed.

That Shamrock II is by far the handsomest and most graceful yacht that has ever challenged for America's cup must be conceded by all. But it is the form of a craft below the water line that determines the racing capacity of any yacht, and that is what the experts are anxiously watching for when the challenger goes into drydock tomorrow.

FOR PEACE IN BASEBALL WORLD.

Negotiations On Between the National and American Leagues.

Chicago, Tuesday, Aug. 13.—The Tribune this morning says that negotiations for peace in the baseball world are on between Ban Johnson, representing the American league, and James A. Hart, representing the National league.

Incidentally upon the success of the negotiations depends the post-season series of the games between the Chicago White Stockings and the National league team. Unless peace is secured, it is said the national board of arbitration will not pass on the series and President Hart will withdraw his challenge owing to his failure to get acceptance from the White Stockings.

Messrs. Johnson and Hart have had numerous conferences of late, but nothing definite is known to have resulted thus far.

DIES WITH HIS BOOTS ON.

Utah Bad Man Is Killed in a Street Duel With Miner.

Salt Lake, Utah, Aug. 12.—A special dispatch to The News from State Line, Utah, says that Jim Hedges was killed in a street duel yesterday by Jim Glendenning, a miner. Hedges, for years had the reputation of being a "bad man," and during his twenty years' residence in the border town had killed three men in street encounters.

Yesterday Hedges and Glendenning got into a controversy over their respective merits as revolver experts. Hedges challenged Glendenning to a fight. Hedges went after his revolver and, mixing in a crowd, shot Glendenning through the arm before the latter was aware of his presence. Glendenning returned the fire and put two bullets through Hedges' heart within two inches of each other.

COMMONS HITS AT MINISTRY.

Government Loses on Proposition to Cut Factory Hours.

London, Aug. 12.—The government was defeated in the House of commons tonight in the course of the debate on the factory bill. The house supported by 163 to 141 a proposal, opposed by the government, that the textile factories close at noon, instead of 1 o'clock p. m., as now. The opposition and Irish members cheered wildly.

Mr. Ritchey, the home secretary, announced that the government would accept the decision. Timothy Healy, amid laughter, remarked that the home secretary had shown great resignation, but not the sort of resignation the house wanted.

DENTAL BOARD IS OUSTED.

Granting of Illegal Diplomas Is Charged in Illinois.

Springfield, Ill., Aug. 12.—Governor Yates tonight demanded the resignations of all the members of the state board of dental examiners. This action is due to a report that has come from Germany of which there are no minutes on the records of the board. United States Consul Worman, at Munich, Germany, has in his possession a number of alleged illegal diplomas given by certain schools of Chicago who have no right to "practice dentistry." The resignations of all have been sent in, and a new board will be appointed within ten days.

ALL SERENE AT PEKIN.

Protocol Is Signed and Tariff Is Soon to Take Effect.

Washington, Aug. 12.—The state department today received a cablegram from Commissioner Rockhill, at Peking, reporting that the draft of the final protocol had been agreed upon.

A tariff of 5 per cent ad valorem will be put in force two months after the signing of the protocol, excepting on goods shipped within ten days after the signing, and will continue until the conversion to specific rates has been effected by an expert commission. The Chinese free list includes rice, foreign cereals, flour and gold and silver.

FROM POVERTY TO RICHES.

Farrs Laborer Falls Heir to Large Fortune in Denmark.

Deadwood, S. D., Aug. 12.—Peter Nelson Oagne, for whom relatives have been searching for twenty-one years, left today for Denmark to take possession of a fortune amounting to eleven millions of dollars which is awaiting him there. The man was located on a farm in the Black Hills, where he was known as Peter Nelson.

MARQUETTE, MICH., AUG. 13.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Chauncey M. Dewey gives out that he will submit to no more interviews. This need not be regarded as a national calamity, however, as that chattering statesman has told all he knows with such tiresome frequency that the public was ready to give him a rest long before he decided to take it.

Lord Kitchener's proclamation of banishment against the Boers who don't surrender before the fifteenth of this month may prove effective, but that it will may well be doubted. The men who have been dodging his "flying columns" all these months will have little difficulty in keeping out of the way of his proclamation.

A suit for divorce has been brought by David Nantz, husband of the famous hot-shot swinger. Dave can hardly be blamed for asking the courts to dissolve the tie that binds him to a woman who has acquired such facility in the use of so dangerous an implement of destruction as a hatchet, and popular sympathy is with him in his effort to obtain it.

Docks at the lower lake ports are crowded with ore so that vessels are being delayed in discharging their cargoes. If the steel strike continues this condition is going to grow worse rather than better as the season advances toward the close. It is already reported that vessels are not finding cargoes readily and that ore freights show indications of weakening. The hurtful effect of the strike is touching every branch of the iron and steel business, and whether the strikers win or not their leaders will have the poor satisfaction of knowing that they have caused a general disturbance in the iron and steel industries, as well as in the country's business generally.

COURTING TROUBLE

Taking note of the movement instituted by the so-called "stalwart" element of the Republican party in Wisconsin to shelve Governor La Follette, the Grand Rapids Herald is moved to address to the politicians enlisted in it those words of warning, which it might be well for them to heed:

The Wisconsin republicans may not be in need of advice, but that so-called stalwart element which is lining up to renominate him naturally is excitedly constructed as assaults upon the measures the people favor. Chief among the reforms which Governor La Follette stands for is that of primary elections to take the place of caucuses and nominating conventions. This system he would apply to the entire political system of the state, and in support of it he argues if the people were permitted to make nominations by direct vote in primary elections, instead of through delegated authority, a world of corruption and dishonesty would be eliminated from politics. In his contention, the various conditions of the state, those which obtain in Michigan, it is not strange that he has many and warm supporters in his own state and hearty sympathizers in other states. The method he advocates for making nominations, if adopted, would place politics above the gutter and put the political striker on the shelf. Perhaps it is for this reason the Wisconsin politicians are organizing this early against him. The politicians, at any rate, have declared war upon Governor La Follette, and Wisconsin politics the coming year will be as picturesque as the promises in the same article in South Carolina.

A STRIKE-STRIKEN CITY

The Pennsylvania city of McKeesport is likely to have cause to long remember the present steel strike. It is a thoroughly "unionized" city, its government being in the control of avowed sympathizers with the union-labor element, which controls in its municipal elections and dominates everything in the place. When the strike was ordered by its mayor, a mouthy fool named Black, announced that he would not allow the police force to be used to protect men who might be employed by the Steel corporation in its plants there in place of the strikers, and that if non-union men were brought in he would have them arrested as disturbers of the peace. Non-union men were all things and ruffians, he declared, and he would not tolerate the presence of such in McKeesport. Finding that it was to have no chance to handle its business there unless it consented to give the Amalgamated people entire control in its plants, the Steel corporation decided to remove these from the city bodily, and the work of dismantling them is already well under way.

And now the people of McKeesport are dismayed. The city has a population of 43,000, and its mainstay has been the Dewees-Wood mill and the National Tube works of the Steel corporation. There are two daily papers published in the city, and half a dozen banks have found business there. If the Steel corporation carries out its purpose of taking its plants away from there the city is doomed, for it can find nothing

to take their place. This will cause great hardship to many persons there who have had nothing to do with producing the conditions that have decided the Steel corporation to remove its plants from the place, but they are not the first who have suffered for the bad conduct of others.

The Dewees plant at McKeesport is one of the oldest and best known in Pennsylvania. It was founded nearly forty years ago, and its shoos and mills cover from twelve to fourteen acres. It employed an average of 900 men, but in the busiest times the pay roll carried twelve hundred names. The company recently announced its intention of expanding a large sum of money in improvements, but the order to dismantle the mill terminates that plan. The National Tube company's plant cost \$10,000,000, and was valued at \$17,000,000 when it went into the tube trust. It employs 8,500 men. At Conneaut Harbor, O., whether it is purposed to remove this plant, Andrew Carnegie now owns five thousand to seven thousand acres of land. He purchased it before the formation of the United States Steel corporation, and designed to erect a great tube plant in opposition to the McKeesport works. When the combination was formed that scheme fell through, but it seems that Conneaut is likely to have its great tube works after all, as one of the results of the steel strike.

IN A COMPROMISING POSITION

We reproduce this article setting forth the faultiness of the position taken by the Amalgamated association in its contention with the United States Steel corporation from the American Manufacturer, published at Pittsburg, the seat of government of that powerful labor organization:

The Amalgamated association of iron, steel and tin plate workers has been compromised by its officers. The fight against the United States Steel corporation has resolved itself into a breaking of all contracts. It is a strike against honest methods. It should not win; the wrong should not be permitted even at so great a sacrifice as the ruin of the Amalgamated association. J. Pierpont Morgan and Charles M. Schwab, who will bear the brunt of the approaching storm, must stand by the contracts signed by the Amalgamated association officers and compel their fulfillment. They would prove a bad thing for all business interests if contracts are to be allowed to be abrogated at will by workmen.

President Theodore Shaffer of the Amalgamated association has been given full control by the strikers. This may have been done because the advisory board refused to acknowledge the agreement signed by President Shaffer and Secretary Williams, and it will allow Mr. Shaffer to settle the strike without further interference. If it has been done for the purpose of continuing the strike so as to cripple the United States Steel corporation, it will have a woeful end.

The strike cannot but help arouse the worst passions of the unruly classes. The workmen themselves may desire to remain peaceable but as soon as the corporation makes an effort to operate its plants, as it had a right to do, so soon will trouble and angry governments will have to aid the manufacturers in securing control of their properties and operating them. This is liable to entail bloodshed.

In the meantime the loss to business will be enormous. Already mills not connected with the steel industry have been compelled to shut down because they cannot get material. This will cause idleness at plants where the owners are not interested in the fight between the disputants.

If the strike is extended many months, as it promises to be, the greatest in the history of any corporation in the world. It will gain historical significance and will settle, once and for some time at least, the question as to whether a manufacturer must abide by the free decision of a few officers of an association, not at all connected with him, or whether the men must make individual contracts.

The strike does not involve questions of shorter hours, nor is there a demand for more money. It merely relates as to whether the United States Steel corporation will employ men who are free to work for or against the steel industry. They will return the latter part of the week to spend a few days longer in Houghton, when they will leave for their home at Horicon, Wis.

Al Witting, Fred Schroeder, William Brandenburg, Joseph Witting and Hugh McDonald left Hancock Sunday evening on Mr. Witting's launch "Homestead" for Misery Bay, where the parties will spend the week fishing and enjoying outdoor life. The gentlemen will build a temporary shanty to live in during their stay there.

Today the postponed picnic of the Hancock Congregational Sunday school will be given at the canal on the pleasure barge Pilgrim, towed by the tug Hennes. The Calumet & Hecla hand will accompany the excursionists and at the canal will render a concert program. Arthur Finley, the Hancock grocer, will preside over the refreshments stand, where lemonade and pop and coffee and sandwiches may be purchased. The public generally is invited.

TO HEAL A HURT

Use Banner Salve, the great healer. It is guaranteed for cuts, wounds, sores, piles and all skin diseases. Use no substitute. The People's Drug Store.

\$50 FOR A BOTTLE OF MEDICINE

This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.

COPPER COUNTRY NEWS

(Additional)

DEAD AT THE WYANDOT.

Mrs. Williams, the daughter of Captain Bismuth of the Wyandot, died at her home at Hurontown Sunday night at about 9 o'clock after a short illness. She was aged twenty-nine years. Funeral arrangements have not as yet been made.

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dea Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

Mrs. John F. Nester of Baraga visited in Houghton yesterday.

C. A. Wright, Sr., of Hancock is a business visitor in Chicago.

Miss Bae Morrison of Hancock has returned from her visit to the Pan-American.

J. A. Donovan and wife are visiting Mr. and Mrs. W. H. Thomson at East Houghton.

A marriage license was yesterday issued to Matti Joensuu of Mass City and Miss Mary Orni of Hancock.

T. D. Hall of Negaunee, deputy insurance inspector for the upper peninsula, was a Houghton visitor yesterday.

Professor Waldo, principal of the Northern Normal school at Marquette, will be at Portage Lake today on school business.

William O'Connor of the Quincy has returned from Newark, N. J., where he attended the consecration of his relative, Bishop O'Connor.

The foundation for the new addition to the First National bank at Hancock is nearly completed. The upper portion will soon be started.

The Mineral Range road is shipping a cargo of coal to the Quincy mine and one to the Franklin from the Quincy's docks on Portage lake.

The eight-month-old daughter, Katie, of John Barsch of Dollar Bay, died Saturday. The funeral will take place today from the Catholic church.

A son was born to Mr. and Mrs. J. A. Shields yesterday morning. Mr. Shields is the assistant superintendent of the Tamarack-Oscoda mills.

Wood & Ward, the well-known comedians, will present "Two Merry Tramps" at St. Patrick's Hall, Hancock, Aug. 20. Seats will soon be on sale.

Congressman Carlos D. Sheldon, William Calverley and Dr. Jackson of Houghton left Sunday morning for Huron River for a two days fishing trip.

Extensive preparations are being made by the Sons of Hermann of Houghton for their picnic which will be held at Haas' Park, East Houghton, next Sunday.

The Quincy band played at the races at the Hancock Driving Park yesterday afternoon. A street concert was given at Houghton just before the cars were boarded for the park.

The steam barge Noque Bay & Bay City is unloading a cargo of coal at the Quincy docks, Hancock. The barge Lizzie Madden is at Van Orden's docks, Houghton, with a cargo of coal.

A party of ten young people from the Quincy location left yesterday morning for Redridge, where they will spend this week berry picking. The party consisted of nine young men and one young woman. They will be accompanied by a driver and a cook.

The hook and ladder wagon of the Hancock fire department was taken to Paul Exley's shop yesterday morning for repairs. The present front gear is too light and a new and heavier arrangement will be installed.

Herman Salinsky of Escanaba and Benjamin Salinsky of New York city are in the copper country and will remain here a week visiting the mines.

The former is proprietor of a large department store at Escanaba and his brother is a New York broker.

Peter Stroberg & Co. of Hancock have decided to open a branch store at the Mass mine and will carry a general line such as the firm now handles in Hancock. There is a good opening at the mine for a store of the kind and the venture should prove a profitable one.

Mr. and Mrs. Mart Rich and daughter, Miss Phila, who have been visiting Mrs. L. M. Dickens at Houghton, left Saturday morning for Ontonagon and Victoria. They will return the latter part of the week to spend a few days longer in Houghton, when they will leave for their home at Horicon, Wis.

On motion of Alderman Ward, the street commissioner was instructed to prepare a report on the status of the city streets.

Moved by Alderman Jones, supported and carried that the matter of the delinquent taxes and other claims of the city against the Marquette City & Presque Isle Railway Company be referred to the committee on claims and litigation for investigation.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

On motion of Alderman Ball, the following was unanimously adopted: That the city commissioner be and he is hereby, instructed to cause a commission to be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

Resolved, That pursuant to Section 3499 of the Compiled Laws of Michigan, of 1897, the common council do hereby, and for this city, a commission be appointed for the destruction of noxious weeds, and to enforce the provisions of law in reference to the destruction of noxious weeds.

MARQUETTE COMMON COUNCIL PROCEEDINGS

(Official)

Marquette, Mich., Aug. 13, 1901.

A regular session of the common council was called to order by the mayor, the Hon. Alderman Donovan presiding.

Present—Aldermen Ball, Donovan, Ekstrom, Fleury, Gorman, Gustafson, Jacobs, Jones, O'Neill, Reau, Shea, Siegel and Ward.

Aldermen Bush and O'Neill appeared later and took their seats.

The record of the session of July 15 was approved.

An invitation from the G. A. R. Veteran association to be present at a camp fire to be held at the Marquette Opera House the evening of August 22d, was presented, and on motion of Alderman Jacobs, said invitation was accepted.

The recorder presented a communication from the G. A. R. Veteran association, requesting a fund for the sum of \$250 payable to aid in entertaining the old veterans at their annual reunion to be held August 22d and 23d.

Moved by Alderman Ward, supported and carried, that an order be drawn on the general fund for the sum of \$250 payable to A. D. Blanchard, president, to aid in entertaining the old veterans on August 22d and 23d.

Yeas—Aldermen Ekstrom, Gorman, Gustafson, Jacobs, Jones, Siegel and Ward—7.

HARD TO GET A JURY.

Necessary to Summon Talesmen at the Miller Arson Trial.

Yesterday the case of The People versus Dennis St. John, who is to be tried this week in circuit court on a charge of arson, was on call. The case was taken up at the opening of court in the morning and then went to the task of impaneling the jury of twelve men who will determine whether St. John is guilty or not of setting fire to Miller's store at Houghton, supposedly to cover up alleged stealing of goods.

All morning was spent by the lawyers for the defense and prosecuting attorney Larson in running through the list of jurors for satisfactory men. The whole panel, twenty-five men in all, was exhausted and shortly before noon it became necessary to draw up a new panel, which was done. A list of thirty-six new names was added, and the sheriff and his assistants went to summon the new jurors. At the opening of court yesterday afternoon the work of selecting the jury continued, being completed at five, when the twelve men had been chosen.

The St. John case is so well-known throughout the copper country that it caused no surprise that difficulty was encountered in getting a satisfactory jury to listen to the arguments of the case. The history of the Miller fire trouble and the implication of St. John in copperdom, and men, women and even children have formed opinions about it. Genuine interest is being taken in the case.

After the jury had been secured, the opening plea was made by Prosecutor Larson. It is expected all the evidence for the state will be in today. St. John has able attorneys in George Gallup of Escanaba and Louis N. Legris of Houghton.

DRAW HIT A SCOW.

Traffic Over the County Bridge Is Again Much Delayed. What might have been a serious occurrence was narrowly avoided by the tender of the draw of the county bridge Sunday evening. As it was the draw was opened for thirty-five minutes, it being impossible to budge it owing to the machinery being thrown out of order.

At 7:25 the engineer in charge opened the draw for a passing tug but did not hear the whistle of a tug towing several large scows coming in the opposite direction and as soon as the first tug started to close the draw. The second tug was at that time very close and its scows were in such a position that it was impossible to avoid a collision with the end of the draw. At least fifty people stood on the draw and all, with the exception of one young fellow, seemed so excited that they did not think of telling the engineer to stop the machinery. The latter was informed by the one cool head in the lot, however, but as it was the draw struck one of the scows just about the time it came to a stop. The shock was enough to upset things for a while and until the machinery was fixed the draw remained open and the people who were on it had to stay there all during the day.

WANTED—A WIFE.

German Applied to Houghton Employment Agency for a Spouse

One of the employment agencies at Houghton received a call on Saturday from a German who was not looking for work but for a wife, and he thought he had come to the right place to get one. The visitor was very earnest and finally implored the proprietor to do what he could toward securing an estimable frau for him. After receiving a satisfactory reply the German went away happy, leaving the proprietor in a rather amused state of mind at his strange customer. It seems that the German has been without a home for some time and misses the comforts of one, for he is a widower with four children, the oldest of whom is thirteen years and the others ten, seven and four, respectively. He is a man of thirty-eight years of age, is steady and industrious, being well liked by those who know him, and has a position the remuneration from which is amply sufficient to support a home well. All he now lacks is a wife. He wants a good woman, German preferred, and one who would make a home pleasant in return for which he offers his protection and affection. If there is such a woman anywhere who would be willing to fill the bill, she may do so by applying at the office of O. H. Obenhoff, manager of the Houghton employment agency.

THEIR SECRET IS OUT.

All Sadsville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough." It positively cures Coughs, Colds, La Grippe, Bronchitis, all Throat and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Stafford's drug store.

ALL PEOPLE KNOW.

Why is the name DeBell's Kidney Pills imitated? Why are diamonds imitated? DeBell's Kidney Pills are the most valuable medicine the world has ever known. No other medicine will cure Bright's disease and diabetes. No other medicine has cured as many cases of Rheumatism, Heart Disease, Lumbago, Sciatica, Dropsy, Female Weakness, Urinary and Bladder Complaints, Nervous Diseases and disorders of the blood. And no other medicine has never disappointed. Price 25 cts. per box. For sale by Stafford Drug Co.

WILL BE HANDSOME BLOCK.

Plans for Houghton's New Bank Building Are Exhibited.

Yesterday the plans for the Citizens' National bank's new building to be erected at the corner of Sheldon and Quincy streets, Houghton, were exhibited. They were prepared by Quincy, Gilbert & Demar and C. A. Pearce, architects.

Contractors are already figuring on the work and as soon as sufficient time is given them to get their bids in the contract will be let, for it is the purpose of C. H. Houghton, U.S. marshal, whose expense the structure is to be erected, to have the building enclosed by the time snow flies.

It is to be a three-story building of pressed brick, 100 by 50 feet in dimensions, with bronze and stone trimmings on the fronts facing Sheldon and Quincy streets. The basement will have apartments for an up-to-date barber shop; large grocery store; cold storage department, and a boiler room. On the first floor will be located the bank quarters and store apartments, extending the full depth of the building. The second floor will be divided into two streets with plate glass windows and the apartments in the rear will have prismatic lights so that good light will be had throughout the first floor. The vestibules will be of marble and tile. Ten large offices will be put in on the second floor, which also have a large hall, a corridor and a vault. On the third floor a large assembly hall will occupy the full width of the building. It will have a balcony off for dining rooms.

Throughout the woodwork will be of oak, and steam heat, electric lights, open plumbing and all modern conveniences will be supplied. The entire structure is to be strictly modern and the plans are of elaborate design. Houghton people are much interested in the new building and applications are already being received for office room. The assembly hall of the building will fill a long felt want and will be much in demand for parties.

HOUGHTON COUNTY'S BIG BOOST.

Assessed Valuation This Year More Than Double That of 1896.

A table of no small amount of interest in view of the approaching meeting of the state board of equalization has been prepared by Auditor General Powers. It shows in what counties of the state the greatest increase in taxable property has been made since 1896. The last board of equalization met for the purpose of comparison the equalization of the upper peninsula counties in 1896 is given in the first column, and the present assessed valuation in the second column, as follows:

Table with 2 columns: County Name and Assessed Valuation. Rows include Alger, Baraga, Chippewa, Delta, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Luce, Mackinac, Marquette, Menominee, Ontonagon, Schoolcraft.

In 1896 the equalized valuation of the entire state totalled \$1,105,100,000, while the assessed valuation this year is \$1,328,632,691. While the assessed valuation is less this year than the equalized valuation in 1896 in many of the purely agricultural counties, such as Branch, Cass, Clinton, Hillsdale and others, there has been a heavy increase in the mining counties, and those containing large cities. Houghton county furnishes a notable confirmation of this fact. Five years ago it was equalized at \$425,000, and this year it is assessed for \$1,022,825,697. About \$850,000 is also added to Wayne county, but the proportion of increase is less than in several other counties. The valuation of Presque Isle is trebled, and the timber counties do not show any appreciable falling off in value according to the assessors' books.

RACES AGAIN A BIG CARD.

The races at the Hancock Driving Park yesterday afternoon were attended as on the two previous days of the sport by a large and very interested crowd. The afternoon was exceedingly pleasant and the track in fine condition, notwithstanding the recent heavy rains. The races were five in number and resulted as follows:

- Half-mile—McNutt; time, 53; jockey, Wooster.
Three- and a half furlongs—Grace Leach; time, 44; jockey, Wooster.
Half-mile—Wheatland; time, 52; jockey, McLaughlin.
Half-mile—Golden Rod; time, 51; jockey, Riley.
Five-eighths of a mile—Elizabeth K; time, 63; jockey, Riley.
The meet will continue today.

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely removes this complaint. It relieves permanently because it allows the tired stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat and can't help but do you good. Stafford Drug Co.; H. N. Meloche, Ishpeeming.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Constiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Comings of Food after Eating, Loss of Spirit, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

Three spectres that threaten baby's life. Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them. Wm. Finn of Lima, O., obtained excellent results from the use of Foley's Kidney Cure. "It relieved my backache and severe pain over the hips. It toned my system and gave me new vim and energy. It is an honest and reliable remedy, a sure cure for all kidney diseases." The People's Drug Store.

CHANCES FOR TONTINE VICTIMS.

Suit to Begin Against Promoters—Said to Have Plenty of Money.

The certificate holders of the late Michigan Tontine Surety company have been served notice by Frank B. Stevens, assignee of the New Jersey Tontine Surety company, successor of the Michigan corporation, that they must file with him a sworn statement of the amount of their claims against the respective surety companies.

It will be remembered that Attorney General Owen Laving decided that the Michigan company was engaged in an illegal business, the New Jersey company was formed, and everything transferred from the former company to the latter, the same people being in both cases. Their certificates, however, holders proceeded to get together in an endeavor to rescue some part of their departed cash, and George B. Yerkes was appointed receiver of the Michigan company, Flowers & Maloney of Detroit being solicitors for the receiver.

A New York official of the Montana Ore Purchasing company says: "The litigation in Montana is in much the same position that it has been in for the past few months. There are still over sixty suits pending before the courts, and it will take at least two years to dispose of them, even though none of them are appealed. Roughly estimated, I should say that the suits affect \$200,000 worth of property. The property under litigation has an earning power of \$600,000 a month when running without hindrance, but these suits have tied the property up, so that practically no income can be derived from them, until the suits are finally terminated.

The Montana litigation has forced an expense upon the Amalgamated Copper company and Mr. Heinze, equal to the cost of producing 100,000,000 pounds of copper. In view of this tremendous expense it is no wonder that the Amalgamated interested interests be desirous of reaching an agreement, if it can be done without putting them in such a position as to appear to have backed down. You may rest assured that Mr. Heinze has no desire to terminate the litigation, for the majority of the cases have been decided in his favor to date and all indications point to continued victory.

MASS' PHENOMENAL RECORD.

Output of Heavy Copper About Forty Tons in Two Weeks.

The Mass continues its phenomenal record of production of all grades of copper. During the past two weeks the output of mass and barrel copper has been about forty tons. The mine management is constantly increasing the working force, in addition to furnishing one head of stamps with rock. New openings are being pushed forward rapidly.

Copper Gossip.

The eighth level drift in the Michigan mine continues in very good ground. The Franklin mine is treating more rock than in any previous period in its history, and preparations are being made for a still larger increase.

Work preparatory to the opening up of the Globe property is under way. It is expected that the diamond drill will reveal the whereabouts of the Baltic lode.

The bridge crew of the Mineral Range road went to Keweenaw Bay yesterday morning to put in railroad scales to be used in connection with the Mass mill at that place.

The Atlantic, Baltic and Quincy mines shipped 600 tons of copper Saturday. It is estimated that the Tamarack, Osceola and Isle Royale companies have 7,000 tons of copper on the Dollar Bay docks.

At the Teumseh property sinking is still in progress in No. 2 shaft. Although lodes meriting further attention have been out, no work will be done on these until the Osceola amygdaloid is encountered.

Copper at New York was quoted featureless and unchanged yesterday, at 16 1/2 cts. for Lake Superior and 16 3/4 cts. for casting and electrolytic. The London prices showed a decline of 2s. 6d. to 266 for spot and 266, 8s. 9d for futures.

The fact that the Centennial is not building a stamp mill has created a belief at Boston, according to yesterday's Boston News Bureau, that this property will figure in a consolidation of Lake properties. The Centennial is confining its operations to the Kearsarge lode.

The three-head addition to the Osceola mill is in an advanced stage of construction. Many minor improvements in the way of supply warehouses, offices, etc., are under way at the South Kearsarge branch of the mine. That this part of the mine is destined to become a large producer is admitted by all familiar with the richness of the lode.

Following is the comparative statement of foreign copper consumption in Germany for the six months ending June 30, 1901, in long tons:

Table with 2 columns: Month and Consumption in long tons. Rows include 1901, 1900, Imports including scrap, Exports including scrap.

Apparent consumption... 28,321 39,996. The rock-breaking machinery is now installed in the new shaft and rock house at the Tamarack No. 5 shaft. Three Hodge crushers of the reciprocating jaw type are going in at present, but it will be necessary to install five more when the shaft becomes a heavy producer. The concrete foundation for the new Nordberg hoisting engine, a duplicate of the one now in commission, is building and will be installed in the same engine house.

CHANCES FOR TONTINE VICTIMS.

Suit to Begin Against Promoters—Said to Have Plenty of Money.

The certificate holders of the late Michigan Tontine Surety company have been served notice by Frank B. Stevens, assignee of the New Jersey Tontine Surety company, successor of the Michigan corporation, that they must file with him a sworn statement of the amount of their claims against the respective surety companies.

It will be remembered that Attorney General Owen Laving decided that the Michigan company was engaged in an illegal business, the New Jersey company was formed, and everything transferred from the former company to the latter, the same people being in both cases. Their certificates, however, holders proceeded to get together in an endeavor to rescue some part of their departed cash, and George B. Yerkes was appointed receiver of the Michigan company, Flowers & Maloney of Detroit being solicitors for the receiver.

OFFICERS: R. C. Pryor, President; C. H. Hall, Vice-President; C. H. Moss, Cashier; W. R. Tompson, Asst.-Cashier. DIRECTORS: R. C. Pryor, C. H. Hall, C. H. Moss, B. F. Chynoweth, J. H. Jasberg, W. A. Burnham, Frank H. A. F. McDonald, George W. Quirk.

The Haas Brewing Co.

ESTABLISHED IN 1859, Houghton, Mich.

Recently equipped and expanded to the largest and most modern brewing plant in the upper peninsula Capacity, 200 bbls per day.

Fine Table Beer Our Specialty:

MANHOOD RESTORED "CUDIENE" This great Vegetable Vitalizer, the prescription of a famous French physician, will quickly cure you of all nervous or diseased of the generative organs, such as, Loss of Manhood, Impotency, Pains in the Back, Seminal Emissions, Nervous Debility, Protrusion of the Testicles, etc. CUDIENE is the only medicine that cures these troubles. It is a powerful tonic and restores the vitality of the system. It is a powerful tonic and restores the vitality of the system. It is a powerful tonic and restores the vitality of the system.

HOME FROM OREGON.

Ontonagon County Man Tells of Claims in the West. Joseph Ouellette, of Bohemia township, stopped in Ontonagon Tuesday on his way home from Oregon, where he spent five weeks ago for the purpose of looking over the country and to secure a timber claim. Mr. Ouellette spent considerable time in the forests in the southern part of the state, but did not locate a claim owing to the fact that all timber land of a desirable location has already been filed upon.

There was a stabbing affray at a Hurontown man the victim of a row at Wedding Festivity. Calumet & Hecla locomotive No. 25 met with a mishap Saturday which resulted in the wrecking of part of the engine and the injury of John R. Clark, the engineer, who had his leg hurt. The locomotive struck a rock car standing on a siding near the Tamarack-Osceola coal docks, not quite clear of the main track. The cab was demolished and the damage to the engine might have been more if it were not for the quickness of Mr. Clark, who brought the engine to a stop almost immediately. During the mix-up his leg was badly hurt.

A MINER FOR FIFTY YEARS.

The funeral of Lathiel Williams, who died very suddenly Sunday morning from heart failure, will be held today from the Peewabie M. E. church, at the Quincy location. Mr. Williams had been in the copper country for forty years and in the employ of the Quincy company for thirty-eight years of that time. He was an expert miner. Mr. Williams came to this country from England when he was quite a young man, going first to Copper Falls, where he worked in the mines. While there he met with a serious accident, his eyes being badly injured by a blast. It was necessary for him to return to his old home to regain his eyesight, but in a year or so he returned to the copper country and entered the Quincy company's employ.

Where to Stop When in Detroit.

Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

Health for 10 Cents.

A lively liver, pure blood, clean skin, bright eyes, perfect health—Cascarets Candy Cathartic will obtain and secure them for you. Genuine tablets stamped C. C. C. Never sold in bulk. All druggists, roc.

Smoke.... FLOR DE NICOLLET Famous 10c Cigarettes

HAY FEVER CAN BE CURED. All druggists are authorized by the manufacturers of Bunsen's Cream Catarrhal to refund the money where it fails to cure any case of Hay Fever no matter of how long standing. One application gives ease and rest. This is new discovery and is the only Hay Fever remedy sold on a positive guarantee—No Cure. No Pay. Price 50 cents. For sale by Stafford Drug Co.

DIVERS FIND GOLD

\$65,000 MORE OF THE STOLEN BULLION IS RECOVERED.

\$85,000 STILL IN THE WATER.

PRISONER MAY GO FREE, AND WITH A REWARD.

Said He Will Be Paid for Diving Hiding Place of Booty, Taken to Ascents, to Procure Funds to Build an Airship.

Vallejo, Cal., Aug. 12.—It was stated at the office of the Selby Smelting company at noon that the force of divers had today taken \$65,000 worth of gold from the spot where it was hidden by Winters, making nearly \$200,000 now recovered. It is expected the remainder of the stolen treasure, amounting to \$80,000, will be recovered inside of twenty-four hours.

Their Claims Successful Invention.

San Francisco, Aug. 12.—John Winters, who robbed the Selby smelter at Vallejo of \$285,000 in gold bullion, declares he stole the money in order to build an airship. He says he has the model of the airship, and that it will fly. Besides he claims he will get enough out of the robbery to help him carry out his plans. He is intensely interested in Santos-Dumont's attempts to fly, and says the Brazilian is on the right line to succeed.

Certain to Receive Reward.

It is certain that Winters will be rewarded for returning the gold. While the story that he would be given \$25,000 is denied absolutely, ex-Chief of Police Lees admits that certain concessions were made. He said: "We made him no offers. He made certain demands, and certain concessions were made to him. We kept law in view, and nothing was done that has not been done before."

It is generally believed Winters will plead guilty and escape with light punishment. Detective Seymour speaks in slighting terms of Winters' recovery of the gold he acted with wonderful care and nerve. The moment he fastened his hands on the bullion he acted like an idiot. There is something radically wrong with that man. He has confessed and claims to have done the entire job unaided. I believe that is true. We cannot make use of his confession in court."

Story of the Prisoner.

Winters' story of the robbery, as he related it last evening, is as follows: "I committed the greatest robbery of the century and I did it alone. These stories about my having committed other small robberies are false. When I plan a job I plan a big one. On Monday evening, when I took the bullion out of the vault at the smelter I did the hardest night's work of my life. It took me the entire night to finish drilling through the bottom of the safe and to carry away the gold. If there had been more gold I would have taken \$100,000 I left behind. Daylight came too soon. When I saw that I would have to quit I dropped two bars on the beach. I preferred to lose them rather than to risk losing a quarter of a million.

It took me six weeks to dig the tunnel under the vault, and two nights to get through the brick foundation. I did a large part of the drilling the last night and forced through the bottom of the vault. Then I climbed up into the vault and threw down about half the gold to the outer end of the tunnel and went back and threw down the rest. Then I began to carry off the gold. "I made fourteen trips from my tunnel to the wharf, where I lowered the bullion into the bay. I made a mark on the wharf opposite where I dropped each bar, so that I could find them when

AN EXCELLENT COMBINATION. The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal, the laxative properties being in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectively, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative. In the process of manufacturing figs are used as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. CALIFORNIA FIG SYRUP CO. LOUISVILLE, KY. NEW YORK, N. Y. Price 50c per bottle.

I was ready. I planned the robbery well, but spoiled it all by leaving my pistol and the package of tacks in my cabin. The detectives did not have "dope" on me. The shovel I had I threw into the bay. I did not use that electric light they found. If the fools had looked they would have seen that it was burned out and would not make light. I used a little patent bicycle gas lamp to light the tunnel.

"The fact that I burned my clothes did not appeal to me as strange, because I had been for years in the habit of burning my old clothes. The shovel they found in my cabin had been there for several years, and I did not use it in digging the tunnel. The marks which they said were made by my spade were made by another implement which I threw into the water.

"I planned how I would get rid of the bullion without bringing suspicion on myself long before I committed the robbery. I planned to remove the gold in small lots at a time. I had intended to melt the gold, to mix it with alloy, and to dispose of it in quantities that would bring me about \$10,000. It would have been an easy matter at intervals of several months to sell the gold at different places. I intended to sell several years in disposing of the bullion."

"If my plan had been successful to the end and if I had gained the wealth I stole I would not have spent it in rich display, but would have lived as frugally and simply as I do now. I probably would have traveled to foreign countries. I wanted money with which to build an airship. I have the model in my cabin partly completed. It may take time, but it will complete my invention, and I will fly. I shall begin work on it as soon as I get back to Crockett."

TORCH BEARERS ESCORT COFFIN.

Body of Empress Frederick Taken from Cronburg to Potsdam.

Cronberg, Aug. 12.—The body of the dowager empress was removed by torchlight tonight from the church to the railway station with a ceremony similar to that of Saturday.

The coffin was borne from the church by twelve non-commissioned officers, the organ meanwhile playing. Following the coffin were the Crown Prince and Princess of Greece, Prince and Princess Charles of Hesse and a number of other court officials. A crowd of townspeople closed the procession. The cortege was accompanied on either side by torch bearers, and troops lined the whole route.

The coffin was deposited in a car specially prepared and draped for its reception. This done, a drum sounded a muffled roll, the troops presented arms and the funeral train started for Potsdam at 9:50 p. m.

Potsdam, Aug. 12.—King Edward and Queen Alexandra arrived here at seven this evening and were met at Wild Park station by Emperor William and the empress, and their eldest three sons.

MOSQUITOES ATTACK SHIPS.

Novel Experience on Two Vessels on the South Atlantic.

Washington, Aug. 12.—A scourge of mosquitoes on shipboard remote from any land is the story brought into port by two vessels arrived at Southern ports from the stations last week. The matter has been officially reported to the marine hospital service by the surgeons at the South Atlantic station, the report being made in accordance with the late theory that mosquitoes sometimes spread infectious and contagious diseases from one station to another. The vessels were attacked by swarms of mosquitoes was the ship America. The ship was about ten miles from Chantler Island, in the Gulf of Mexico, when the insects appeared.

The other case was considered more remarkable. It was that of the Spanish bark Maria Blanquet. This vessel was twenty-two days out from Rio de Janeiro, several hundred miles from any known land, when great swarms of mosquitoes seemed to rise up out of the sea, so sudden was their appearance. Life on the ship was made miserable by the swarms of insects, which were fatigued to kill the mosquitoes, and then the pests were gathered up with shovels and thrown overboard.

CHILD'S MIRACULOUS ESCAPE.

Falls With Horse and Carriage Over Precipice and Lives.

San Francisco, Aug. 12.—A horse attached to a carriage containing the two-year-old baby of Dr. Wilbur M. Sweet, a well known San Francisco oculist, became frightened and plunged over a precipice 100 feet high on Tiburon boulevard yesterday afternoon.

The carriage fell, a battered wreck, on rocks at the foot of the cliff, the horse being instantly killed, but the little child was found nestling among cushions of the smashed rig, alive and without a scratch.

Mrs. Sweet was driving when the horse became frightened. Finding she could not stop the animal, she jumped out and ran to its head. She was too late.

BASEBALL SCORES.

Table with columns for National League and American League, listing teams and scores.

PARTY OF THREE LOST.

Yacht Capsizes While Running the Rapids at Ogdensburg, N. Y.

Ogdensburg, N. Y., Aug. 12.—Charles White, James Whitney and Edgar Lane were drowned this afternoon by the sinking of the private yacht Rhea while running the Galoup rapids.

CAUGHT IN MOUNTAIN FLOOD.

Mother and Three Daughters of Lexington, Va., Are Drowned.

Lexington, Va., Aug. 12.—Assistant Postmaster John G. Pole and family, while attempting to cross a mountain stream six miles from here were swept down by the waters of a cloudburst yesterday. His wife and three daughters, aged from one to eight, were drowned. Pole and one daughter escaped.

QUIT VENEZUELA CAPITAL.

Colombia's Minister and Staff Take Their Departure from Caracas.

Willemsted, Curacao, Aug. 12.—The Colombian legation left Caracas today.

Washington, Aug. 12.—The state department has authorized Russell, the American charge at Caracas, Venezuela, to use his good offices to bring about the resignation of the Colombian minister at the Venezuelan capital leaves that country. This is in response to Mr. Russell's request for instructions.

CUTS ABSCESS FROM SNAKE'S JAW

Dangerous Operation Performed by Surgeon at New York Zoo.

New York, Aug. 12.—One of the most dangerous operations for the person performing it was performed successfully in Bronx Park yesterday morning, when Curator Dittmar removed an abscess from the left side of a king cobra's jaw. Nearly twenty minutes were occupied in performing the operation, and every instant of the time Curator Dittmar's arm and hand were within striking distance of the fangs of a snake whose venom is the most deadly of any poisonous reptile known to naturalists. A whipsnake was fed to the cobra. When half consumed the curator dragged the cobra to the front of the cage by means of the whipsnake's tail. The cobra was turned on his back and the abscess removed by means of tweezers.

DESERTERS CLAIM AMERICAN OFFER.

The police of Southampton have arrested seven deserters from the Northumberland Fusilier Regiment, which has just returned from South Africa. The men arrested tell a story that an agent of the United States government offered them \$10, a civilian outfit, a free passage, and a further promise of reward to enter the American army and navy. An inquiry will be held.

STILL LARGE BOER ARMY CLAIMED.

Brussels, Aug. 12.—President Kruger's friends here say he has received a report that the Boer army in the north of the Orange River consists of more than one yeomanry battalion of his account was kept of advances made to the rank and file in South Africa. The war office authorities, consequently, cannot tell what amounts are now due to some of the men, and they have decided to report that the claims until proper accounts have been rendered. The affair is becoming a perfect scandal, and is certainly not simplifying the work of the recruiting sergeant. In some instances men have actually been obliged to pawn the medals which they recently received at the hands of the war office.

WAR PAY ROLLS MUDDLED.

Many of the English Yeomen Who Fought Boers Still Unpaid.

London, Aug. 12.—Many imperial yeomen who have returned from South Africa are still complaining that their arrears of pay are not yet received. The yeomen have not only received their arrears of pay, but they are still unpaid for more than one yeomanry battalion of his account was kept of advances made to the rank and file in South Africa. The war office authorities, consequently, cannot tell what amounts are now due to some of the men, and they have decided to report that the claims until proper accounts have been rendered. The affair is becoming a perfect scandal, and is certainly not simplifying the work of the recruiting sergeant. In some instances men have actually been obliged to pawn the medals which they recently received at the hands of the war office.

TO KEEP THE ISTHMIAN OPEN.

United States Bound by Treaty to Do It—Precedent of 1885.

Washington, Aug. 12.—The attitude of the United States in preserving free traffic across the isthmus of Panama was clearly defined in 1885, when extensive naval operations were carried on there. An outbreak somewhat similar to the present one occurred early in the year, and the insurgents captured Panama, and burned the Aspinwall. When traffic became effectively blocked, the United States sent the North Atlantic squadron, under Rear Admiral Jouett, to the isthmus. At the same time the navy department sent an expeditionary force from New York, consisting of 750 seamen and marines, commanded by Commander McCalla and including three Gatlings and three three-inch rifle guns.

Admiral Jouett arrived at the isthmus April 10, landed marines, and issued orders to open transit across the isthmus. Two armored cars, fitted with Hotchkiss, Gatling and Hotchkiss guns, were sent over the line, clearing the way, and making the entire transit. Garrisons of marines were placed at Aspinwall and Matachin, the latter place being the point at which the revolutionists have their forces and headquarters. Commander McCalla's expedition established headquarters at Panama. Here the revolutionary leader, Aizpuru, was in full control, and was erecting barricades, expecting a battle with the Colombian army. Commander McCalla gathered his forces and occupied Panama on April 24, arrested Aizpuru and the other leaders, and held them prisoners until an agreement was signed that fighting should not take place within the city. Three days later the Colombian army arrived, and at a conference between the government generals, Aizpuru and Admiral Jouett the insurgents capitulated. All of the United States forces were then withdrawn, and were back in New York on May 16.

The secretary of the navy, in reporting the incident, pointed out that the sole purpose of the expedition was to enforce free transit across the isthmus, and that our interference ceased the moment this object had been accomplished. President Cleveland's message to Secretary Bayard, also made clear that the sole purpose of the United States in employing force was to fulfill its guaranty under the treaty of 1846, to keep the transit open across the isthmus.

ROME SEEKERS' EXCURSION.

For the above, the C. M. & St. P. railway is offering special rates, Northwest, West and Southwest, including California. Tickets on sale July 2 and 16, Aug. 6 and 20 and Sept. 3 and 17. For full particulars apply to agents D. S. & A. or to S. H. Vaughan, Commercial Agent, Houghton. (7-3-11)

HEAVY BOER LOSSES

KITCHENER REPORTS NEARLY 1,000 CASUALTIES IN WEEK.

MUCH SUPPLIES ALSO TAKEN.

PROMINENT LEADERS AMONG THE MEN IN BRITISH HANDS.

Gradual Expulsion of the Cape Colony Invaders and Release of Peace Envoy Rumored Executed by Burgers Also Reported.

London, Aug. 12.—Lord Kitchener cables confirmation of the report of the release of Peace Envoy Wessels, who was reported executed by the Boers under orders from Dewet.

British Gains Reported.

Later—in a long dispatch, issued tonight, reporting the operations of the various columns, Lord Kitchener said: "I am glad to be able to send you the largest report I have yet had for one week. Since Aug. 5, the columns report thirty-nine Boers killed, twenty wounded (including Commandant Moll, dangerously), 685 prisoners (including Wolmarans, late chairman of the first volksraad), eighty-five surrenders (including Commandant De Villiers) and the capture of 294,000 rounds of ammunition, 754 wagons, 5,580 horses and large quantities of stock. Most of the captures were made in Orange River colony."

In the course of a description of the operations, Lord Kitchener says that General French, in Cape Colony, is "gradually driving the enemy's scattered bands northward."

Deserters Claim American Offer.

The police of Southampton have arrested seven deserters from the Northumberland Fusilier Regiment, which has just returned from South Africa. The men arrested tell a story that an agent of the United States government offered them \$10, a civilian outfit, a free passage, and a further promise of reward to enter the American army and navy. An inquiry will be held.

Still Large Boer Army Claimed.

Brussels, Aug. 12.—President Kruger's friends here say he has received a report that the Boer army in the north of the Orange River consists of more than one yeomanry battalion of his account was kept of advances made to the rank and file in South Africa. The war office authorities, consequently, cannot tell what amounts are now due to some of the men, and they have decided to report that the claims until proper accounts have been rendered. The affair is becoming a perfect scandal, and is certainly not simplifying the work of the recruiting sergeant. In some instances men have actually been obliged to pawn the medals which they recently received at the hands of the war office.

Fortune Expended for Liberty.

In his will Crispi requests that he be buried without religious ceremony. He declares that his patrimony and savings were lost during the campaign for liberation in Sicily and in the service of his country.

CLAIMS MANHATTAN LAND.

Woman to Bring Suit for \$100,000,000 in New York.

New York, Aug. 12.—Out of the provisions of an old will material has been drawn for law suits which will effect 280 property owners in Manhattan, and the estate of which is estimated to be worth \$100,000,000. Rebecca Ann McDonald of Binghamton is the claimant, while some of the property is held by estates under deeds dating back nearly a hundred years.

SAW BABY SEA SERPENT.

Mariner Who Crossed Atlantic in Sloop Takes Liner for Home.

London, Aug. 12.—Captain Howard Blackburn, who recently crossed the Atlantic from Gloucester, Mass., in the twenty-five foot sloop Great Republic, arriving at Lisbon on July 20, the passage having occupied forty-one days, sailed on a steamer from Southampton for New York yesterday. He claims that while he was crossing in the Great Republic he saw a baby sea serpent, which resembled a snake, with a tail like an eel. It was fifteen feet long, its body was light gray in color, and its head was like that of a snake.

NEW AIRSHIP IS ENTERED.

Rival Flying Machine Will Compete With Dumont for Paris Prize.

Paris, Aug. 12.—A new airship, called the Avia, has been completed and is being inflated at Colombes. It is forty-five meters long and can carry eight passengers. It will compete for the prize of 100,000 francs offered by M. Deutsch for any machine that will make the trip from St. Cloud to the Eiffel tower and back within thirty minutes. Numerous applications for seats for the first ascent have already been put in.

BALKS AT NIAGARA RAPIDS.

Niagara Falls, N. Y., Aug. 12.—Captain Billy Johnson, who at one time had a swimming school in Chicago, leaving there to go to one of his islands, here he became a surf guard, failed to swim the Niagara rapids as it was announced he would. Supposing he would enter the water on the American side, a small crowd gathered at the pool this afternoon. Soon after 3 o'clock the Canadian side, he is to be electrically equipped, and the British Westinghouse concern has the contract, despite strenuous British and Continental European competition. All the machinery will be manufactured in the United States.

ROME SEEKERS' EXCURSION.

BLOODY BATTLE IN CHURCH.

Killing of Seven Persons Follows a Murder in Austria.

London, Tuesday, Aug. 13.—"A murder, resulting from a vendetta of twenty years' duration," says a dispatch to The Daily Mail from Vienna, "occurred in a church on the 11th Sunday. A general fight ensued in the church between the respective partisans, with the result that seven persons were killed and twenty-three wounded."

BICYCLE RECORDS CLIPPED.

Grand Circuit Meet Opens at the Buffalo Exposition.

Buffalo, Aug. 12.—Several world's records were lowered at the international grand circuit meet of the National Cycling association for the Pan-American stadium today. The program was divided between professionals and amateurs.

POPE PRAYS FOR CRISPI.

Learns With Sorrow the Death of His Ancient Enemy.

Rome, Aug. 12.—The pope when informed today of the death of Crispi sorrowfully exclaimed: "Providence has evidently really decreed that I shall be the last of my generation to go. Well, Crispi was a good fighter. A few moments later the pope was on his knees at his prie-dieu, praying for the soul of his ancient enemy."

To Have Military Funeral.

Naples, Aug. 12.—Signor Crispi has received a telegram of condolence from King Victor Emmanuel and Queen Helena, saying: "Your husband was a venerable and valiant patriot, and he will always be remembered as one of the founders of Italian unity." The funeral will take place Aug. 15 and interment will probably be in the pantheon of San Domenico, in Palermo.

The body of Crispi was removed tonight from the death chamber to the drawing room, which had been converted into a chapel ardente. It lies enveloped in the flag of Garibaldi. A guard of veterans is in attendance, and the roads leading to the residence are guarded by troops.

The entire garrison of Naples will participate in the funeral procession. The body will be borne on a gun carriage, and the highest military honors will be rendered.

Fortune Expended for Liberty.

In his will Crispi requests that he be buried without religious ceremony. He declares that his patrimony and savings were lost during the campaign for liberation in Sicily and in the service of his country.

CLAIMS MANHATTAN LAND.

Woman to Bring Suit for \$100,000,000 in New York.

New York, Aug. 12.—Out of the provisions of an old will material has been drawn for law suits which will effect 280 property owners in Manhattan, and the estate of which is estimated to be worth \$100,000,000. Rebecca Ann McDonald of Binghamton is the claimant, while some of the property is held by estates under deeds dating back nearly a hundred years.

SAW BABY SEA SERPENT.

Mariner Who Crossed Atlantic in Sloop Takes Liner for Home.

London, Aug. 12.—Captain Howard Blackburn, who recently crossed the Atlantic from Gloucester, Mass., in the twenty-five foot sloop Great Republic, arriving at Lisbon on July 20, the passage having occupied forty-one days, sailed on a steamer from Southampton for New York yesterday. He claims that while he was crossing in the Great Republic he saw a baby sea serpent, which resembled a snake, with a tail like an eel. It was fifteen feet long, its body was light gray in color, and its head was like that of a snake.

NEW AIRSHIP IS ENTERED.

Rival Flying Machine Will Compete With Dumont for Paris Prize.

Paris, Aug. 12.—A new airship, called the Avia, has been completed and is being inflated at Colombes. It is forty-five meters long and can carry eight passengers. It will compete for the prize of 100,000 francs offered by M. Deutsch for any machine that will make the trip from St. Cloud to the Eiffel tower and back within thirty minutes. Numerous applications for seats for the first ascent have already been put in.

BALKS AT NIAGARA RAPIDS.

Niagara Falls, N. Y., Aug. 12.—Captain Billy Johnson, who at one time had a swimming school in Chicago, leaving there to go to one of his islands, here he became a surf guard, failed to swim the Niagara rapids as it was announced he would. Supposing he would enter the water on the American side, a small crowd gathered at the pool this afternoon. Soon after 3 o'clock the Canadian side, he is to be electrically equipped, and the British Westinghouse concern has the contract, despite strenuous British and Continental European competition. All the machinery will be manufactured in the United States.

ROME SEEKERS' EXCURSION.

For the above, the C. M. & St. P. railway is offering special rates, Northwest, West and Southwest, including California. Tickets on sale July 2 and 16, Aug. 6 and 20 and Sept. 3 and 17. For full particulars apply to agents D. S. & A. or to S. H. Vaughan, Commercial Agent, Houghton. (7-3-11)

CROP REPORT BREAKS STOCKS.

Shorts Cover, However, and Loss is More Than Regained.

New York, Aug. 12.—The government crop had a depressing effect on railroad stocks at the opening of the market today and some sharp declines were made, particularly in Rock Island, Missouri Pacific, Union Pacific and Atchafalaya.

The selling continued pretty general throughout the first hour, traders offering stocks down more confidently when the grain prices rose strongly. The trading then lapsed into semi-stagnation, but the fluctuations were unimportant until near the close, when shorts bought all around and lifted the market substantially above Saturday's closing prices. This movement was not sufficiently explained, but there was a vague report current that the steel strike was settled.

The fact that the strike order was not obeyed in some districts aroused a better feeling toward the United States Steel stocks, and they were in pretty fair demand throughout the day. The final prices indicated net gains respectively of 1% and 2 points.

The free selling of sugar attracted some attention, the price dropping 4 points when a report was circulated that the president of the company was seriously ill, but recovering 2 points when the illness of Mr. Havemeyer was denied.

The upward movement in the railroad list carried a number of stocks up from 1 to 2 1/2 points above the early low prices, with the improvement most pronounced in Missouri Pacific, Union Pacific, Southern Pacific, St. Paul and Atchafalaya.

Paine, Webber & Co. report closing quotations as follows: American Zinc 12 1/2, West'n Union 9 1/4, Car Foundry 2 1/4, Leather 43, Central Oil 8, U. S. Steel 43 1/2, Glucose 92 1/2, Pfd. 92 1/2, Smelter 51 1/2, Peoples Gas 110 1/2, Illinois Cent 143 1/2, Atchafalaya 72 1/2, Republic Steel 143 1/2, Pfd. 94 1/2, Wabash Pfd. 38 1/2, North Pacific M & N T 52 1/2, Pfd. 52 1/2, Alton 36 1/2, Union Pacific 95 1/2, C & N W 100, Texas Pac 42, Mo Pacific 100 1/2, Southern Ry 84 1/2, Manhattan 116 1/2, N Y Cent 150 1/2, C & O 54 1/2, Erie 64 1/2, So Pacific 54 1/2, Sugar 131 1/2, Reading 40 1/2, C B & Q 137 1/2, Third Avenue 166 1/2, Rock Island 157 1/2, Metropolitan 166 1/2, St Paul 158 1/2, Canadian Pac 108 1/2, B & O 73 1/2, E & O 96 1/2, Rabbit Pfd. 100 1/2, T C I 60 1/2, C & F I 100 1/2, C G W 21 1/2, Amer Tobacco 143 1/2, Pennsylvan 143 1/2, Cont Tobacco 32 1/2, L & N 101 1/2.

Range of Money Rates.

Money on call closed steady, at 2 1/2 per cent; last loan, 2. Prime paper, 4 1/2 to 5 per cent. Exchange, steady, demand at 4.87 1/2 to 5 and sixty days at 4.85 to 4 1/2.

CEREALS IN ACTIVE DEMAND.

Government Crop Report Boosts the Prices in All the Pits.

Chicago, Aug. 12.—The decline in the spring wheat condition of 15 points as shown by the government report, higher cables, the advance in corn, a decrease in the visible and a falling off in the primary movement caused wheat to open active and higher today. Shorts covered and there was fair investment buying. The close showed 25 1/2 to 26 1/2 cents gain. Liverpool was 1/2 to 1 1/4 higher. The visible decreased 2,150,000 bushels. The clearings were 1,508,000 bushels, and seven boatloads were taken on the coast.

Corn opened active and higher on the government report being the bullish influence. Shorts covered freely, and there was good buying by local bulls. The volume of business was very large and the close was 3/4 to 1 1/4 cents higher. The clearings were 16,000 bushels.

The leading futures ranged: September wheat opened at 73 1/4 to 74 1/4; highest, 74 1/4; lowest, 73; closing, 73 3/4. September corn opened at 60 1/4 to 61 1/4; highest, 61 1/4; lowest, 60; closing, 60 1/4. September oats opened at 37 1/2 to 38 1/2; highest, 37 1/2; lowest, 36 1/2; closing, 36 3/4.

Receipts and shipments were as follows: Receipts, Shipments, Flour, barrels, 20,000 17,000, Wheat, bushels, 288,000 451,000, Corn, bushels, 163,000 189,000, Oats, bushels, 448,000 195,000.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

A BAILER STARTED.

Negaunee Mine Already Practically Free of Water.

The mechanical force at the Negaunee mine has been doing some energetic bustling ever since the ground dropped from under the hoisting plant about a month ago. Much extra time has been put in by several of the men, and still there is considerable to do before all the machinery will be in permanent quarters and in good running order.

A little over a week ago there was a mishap to the pumping apparatus and since then the miners have not been able to go into the lower levels of the mine. Two large Prescott pumps have been running steadily, but it was evident to Captain Piper from the start that to get the surplus water out at a near date the employment of a bailer would be necessary. The bailer was got in position Sunday morning and was immediately started. It worked splendidly and Captain Piper expected that all the workings would be freed of water by last night, barring accidents. At the time the bailer was started about seven feet of water was in the mine.

The captain says that everything about the mine is looking as well as could be expected in view of the setbacks experienced within the past month. The hoisting plant is working as well in its new location as it did at the old engine house. The foundation is firm and rapid hoisting is being done. Ore is coming from both shafts again and as large a tonnage is coming to surface now as before the cave-in.

Ground has been broken for the foundation of the new engine house. There are three boilers at the mine. Two furnish all the steam required to run the different plants, so that the moving of one at a time will be undertaken. In this way it will not be necessary to curtail hoisting.

The engine house proper has been enclosed and it will be completed within the next few days. Captain Piper says it is his intention to install the air compressors, plant under the same roof as the hoisting machinery. A section of the house will also be given up to the machine shop. With the entire outfit of machinery practically under one roof the Negaunee mine people will be in better shape than ever before to increase the output, and at the same time reduce the cost of raising the ore. It is figured that all the boilers can be put on their new foundations within the next three weeks.

The surface in the vicinity of the boiler house has not shown indications of further settling for the past two weeks or so. It is now thought that there will be no further caving, at least for the present. Everything included in the building will be torn down and utilized at the new engine house. All the brick, also much of the lumber, will be worked into the new structure.

OFF TO THE MEETING.

A large delegation of medical men from this section will attend the joint meeting of the Michigan, Wisconsin and Minnesota state boards of health, to be held in Duluth today. Besides the doctors, many officers and operators of lumbering camps in these three states will be present. The meeting is called for the purpose of devising ways and means to prevent small-pox from becoming epidemic in the districts that were infected with the malady last winter.

A majority of the cities in the upper peninsula sent their health officers to Duluth to attend the session. Dr. Hudson of this city will be present at the meeting, as will also Dr. Picotte of Ishpeming. The convention is considered by medical men one of the most important they have held in this section for a number of years. The states represented have all been fighting small-pox for the past year, and it is thought that much benefit will be derived from an interchange of ideas.

In regard to the small-pox situation and the convention at Duluth, the Milwaukee Free Press said in Sunday's issue:

"Reports have been received by Dr. U. O. B. Wingate, secretary of the state board of health, from towns and villages in the northern part of the state showing that the number of cases of small-pox is decreasing and in many places where the disease had a firm footing last winter and this spring, it has now been stamped out entirely."

"At the joint meeting of the health boards of Minnesota, Wisconsin and Michigan at Duluth next Tuesday and to which representatives of all the large lumber and logging companies have been invited, an effort will be made to induce all lumbermen to make it a condition of employment that all men brought in the camps shall be vaccinated before being received. It is also proposed to disinfect all lumber camps in the three states and to cause old ones that would be hard to place in proper condition, to be burned."

O. O. Buck, Peirce, Ark., says: I was troubled with constipation until I bought DeWitt's Little Early Risers. Since then have been entirely cured of my old complaint. I recommend them. Stafford Drug Co.; H. N. Meloche, Ishpeming.

WOULD HAVE COST HIM HIS LIFE.

Oscar Bowman, Lebanon, Ky., writes: "I have been using Foley's Kidney Cure and take great pleasure in stating it gave me permanent cure of kidney disease which certainly would have cost me my life." Take note but Foley's. The People's Drug Store.

SCALD HEADS AND SALT RHEUM.

Boro-Cerbol Salve will cure Scald Head and salt rheum when all other ointments have failed. It allays the itching at once, acts like a poultice and gives instant relief. This is a new discovery and is the only remedy sold on a positive guarantee—No Cure, No Pay. Price 25 cents per box. For sale by Stafford Drug Co.

LOCAL LAONICS.

Miss Julia Sauviemoy of Republic visited friends in the city Sunday.

E. S. Wright of Marinette, Wis., was a business visitor here yesterday.

Harry Sawbridge of Detroit, son of J. H. Sawbridge, is in the city visiting his parents.

Ben Stinchfield and wife of Ashland, Wis., were in the city for a few hours yesterday.

Mr. Emerson McNeil of Crystal Falls is visiting at the home of her parents, Mr. and Mrs. P. C. Peterson.

Mr. and Mrs. Robert Finley, Thomas Eddy and wife, and Mrs. Thomas Trathen drove to Marquette Sunday.

Sister Anna Helena, who has been visiting her brother, Thomas J. Flynn, for the past month, returned to the convent at St. Louis yesterday.

The infant daughter of Dr. and Mrs. H. S. Smith died in Chicago last Wednesday. The child was taken to that city to have an operation performed.

Walter Maas came up from Twin Lake camp Sunday evening. The balance of the party, who have been at the resort for the past ten days, will return tonight.

No services were held at St. Paul's church Sunday. Father Lanier, the pastor, was suddenly taken with an attack of rheumatism and was unable to celebrate mass.

The Sunday school class of the Swedish Lutheran church will hold a picnic at Teal Lake Grove on Thursday, Aug. 15. All members of the congregation are invited to attend.

There will be a special meeting of the Negaunee lodge of the Modern Woodmen tonight at Thomas Trathen's office. A large attendance is desired, as important business will be transacted.

Mrs. S. Kline and Mrs. Thomas M. Wells are expected to arrive home from Buffalo today. Both have been absent from the city for the past ten days, attending the Pan-American exposition.

Many complaints have been heard lately of hunters and sharpshooters using their guns promiscuously in the woods near the city. The practice is dangerous and the proper authorities should exert themselves to stop it.

The Negaunee and Ishpeming branches of the Upper Peninsula Singers' union have been invited to participate in a concert, to be given in Calumet by Professor Mustonen on Sunday evening, Sept. 1. It is probable that the local society will accept the invitation.

The repair work on the city building is progressing rapidly. The tinmiths have completed repairing the cornice, and it is expected that the painters will begin their work the latter part of the week. The work of renovating the council chamber has not yet been commenced.

The five men arrested Sunday on the charge of being drunk and disorderly were taken into court yesterday morning. Justice Verran, who tried one of the offenders, sentenced the man to serve a fifteen-day term in the county jail. The others got off on payment of the usual fine and costs.

ASTONISHED THE EDITOR.

Editor S. A. Brown, of Bennettville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50c at Stafford's.

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but two one dollar bottles of Foley's Kidney Cure effected a permanent cure. The People's Drug Store."

In cases of cough or croup give the little one Minute Cough Cure. Then rest easy and have no fear. The child will be all right in a little while. It never fails. Pleasant to taste, always safe, sure and almost instantaneous in effect. Stafford Drug Co.; H. N. Meloche, Ishpeming.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley street, Saugerette, N. Y.

FOR WHOOPING COUGH.

"Both my children were taken with whooping cough," writes Mrs. O. E. Dutton of Danville, Ill. "A small bottle of Foley's Honey and Tar cured the cough and saved me a doctor's bill." The People's Drug Store.

A Bad Disease

There is a certain disease that has come down to us through many centuries and is older than history itself, yet very few outside of those who have learned from bitter experience know anything of its nature or characteristics. At first a little ulcer or sore appears, then a hard lump of the neck or groin swells; pimples break out on the breast, back or some other part of the body and fill with yellow pustular matter; the mouth and throat become sore and the tongue is at all times badly coated. Headaches are frequent, and muscles and joints throb and hurt, especially during damp, rainy weather. These are some of the symptoms of that most loathsome of all diseases, Contagious Blood Poison.

This strange poison does not affect all alike; some are literally eaten up with it within a short time after being inoculated, while others show but slight evidence of any taint for a long time after exposure, but its tendency in every case is to complete destruction of the physical system, sooner or later.

S. S. S. is a safe and infallible cure for this bad disease—the only antidote for this specific poison. It cures Contagious Blood Poison in every form and stage thoroughly and permanently. S. S. S. contains no Mercury, Potash or other harmful minerals, but is strictly and entirely a vegetable remedy, and we offer \$1,000.00 reward for proof that it is not.

OUR MEDICAL which was established years ago, work in relieving suffering. Give our physicians a short history of your case and get their advice. This will cost you nothing, and what you say will be held in strictest confidence. With their help and a copy of our book on Contagious Blood Poison you can manage your own case and cure yourself at home.

SWIFT SPECIFIC CO., Atlanta, Ga.

UPPER PENINSULA HOTELS

ALL READY FOR THEM

HEADQUARTERS HAVE BEEN OPENED FOR HAY FEVERITES.

PRESIDENT ROE IS IN CHARGE

OTHER OFFICERS AND MANY SUPPORTERS NOW EXPECTED.

Should Be an Influx of Visitors This Week—Bad Year for Northern Resorts—Season at Up-the-Lake Clubs.

A fairly large influx of summer visitors is expected here this week. August is always the banner month for Marquette, in its role as a popular resort, and it is figured that, as the strangers have been coming rather slowly so far this year, the transient population of the city should be considerably swelled during the next few days, that is on the hypothesis that it is going to attain any considerable proportions this year.

The hay feverites are heading this way. The advance guard, including President Roe of the Western association, is already in the city. President Roe expects to be joined by his brother officers very shortly.

He has opened the association's headquarters at the mayor's office in the city hall where he may be found between 10 and 12 a. m. daily. Here hay feverites active to accommodations, or the city and its points of interest. President Roe's address is 503 North Front street, where he may also be found by members of the association. It is desired that all hay fever people and their friends call at the headquarters for the purpose of making themselves known to the officers of the association.

Earlier in the season it was thought that the gathering of hay feverites this year would be the largest in the city's history, but the comparatively light representation of resorters to date has led many of the hotel men, keepers of lodgings to revise their predictions and now it is generally remarked that if the members of the association come to Marquette in the usual numbers the city will fare well.

This is undeniably an off year for the northern resorts, contrary to the forecasts of the spring and early summer. Travel has set, and is continuing, eastwards, this condition being largely attributed to the Pan-American exposition. It is only within the last ten days or so that the Grand Hotel at Mackinac has been doing anything like its average business, the early guests being comparatively few and far between. This condition obtains at other well-known northern hotels and it has been observed at the Superior here, where the average number of guests has hardly been as large as it was a year ago, this in face of a campaign of intelligent advertising and "booming."

At the Clubs. The two sly-an clubs within easy distance of the city, that at Huron Mountain and the So-sa-wa-gaming at the Yellow dog, have been open for some weeks past and they are now approaching the heights of their seasons. Both resorts, particularly the Huron Mountain club, have now good quotas of guests.

The season at the latter resort is proving somewhat of a surprise to the officers. It was anticipated with some question, as the withdrawal of the Long-year steamer, City of Marquette, left the club members without any regular means of transportation, either up or down the lake. For a time it was thought that some outsider might put a suitable craft in this port, but, although a couple of people looked over the ground, nothing was done to replace the Marquette.

The loss of this craft has lately been compensated for by the chartering of the tug Schenck, which was given passenger license and which now makes regular trips up the lake. This craft, together with the gasoline launches, seems to fill the Marquette's place satisfactorily, judging by the traffic to Huron Mountain, which, while not so heavy as it was in previous seasons, is gratifying.

There are now over 100 guests at this resort and the number approaches, reasonably, the high water mark of former seasons. The average of visitors during this month will be large, both at the Huron Mountain and So-sa-wa-gaming clubs.

VITRIFIED BRICK PAVEMENT.

The Modus Operandi of Laying It in Readiness for Use.

The following description of the manner of laying a vitrified brick pavement, such as will, in all probability, be put in here, is from a Duluth exchange: "A sand cushion is first spread over a cement foundation and made perfectly smooth and level. The brick, each one of which weighs about nine pounds, are then laid and an inspector goes over and culls out all that seem defective in shade, appearance or quality. When that is done a roller is run over them and they are pressed in the sand. Once again an inspector goes over and culls out all that appear defective. Then a mixture of Portland cement and sand, called Portland cement grout, mixed in about the consistency of cream, is poured over and thoroughly broomed in every crack and crevice; two coats of this are applied and finally about two inches of damp sand is spread over and the work is done."

"A comparatively new feature to be used in the laying of the Duluth paving is the placing of what is called an expansion joint. It consists in placing along the curb on either side of the street, a strip of paving composition about an inch wide, a combination of tar and asphalt, to allow for the expansion of the brick. This is also placed at intervals of fifty feet across the street from curb to curb. In hot weather

er the brick is liable to expand somewhat, and if it is wedged in tightly the result will be a bulge in the center. To obviate this the expansion joint was adopted and is said to have entirely eliminated the trouble in cities where used."

"JUST AN IDLE DREAM."

Reichel's Resignation Far From an Assured Fact.

It is now quite evident that when Street Commissioner George Reichel told Mayor Mangum that he might be considered as having tendered his resignation to take effect on the first of the coming month he did not mean what he said. The written resignation has not been forthcoming, but a statement of the street commissioner to the effect that he would not give up the job has it would seem—what other interpretation is there?—that Mr. Reichel made a "bluff" without expecting that it would be promptly "called" by the mayor.

Last evening, answering an inquiry, Mayor Mangum said that he had seen nothing of the formal resignation and he intimated that he did not expect to receive it. Mr. Reichel's verbal resignation is, to all intents and purposes, no resignation at all, and as far as it is concerned he may hold down his present job until December.

MARQUETTE COUNTY FARMERS.

How They May Win Prizes at the Annual State Fair.

The Michigan State Agricultural society is interesting itself in the agricultural progress of the "ever farming sections of the state and to stimulate their activity has offered generous prizes for their exhibits at the coming state fair, to be held at Pontiac, September 23 to 27. The society has divided the new counties into three groups, of which the upper peninsula forms one. For this district the prizes are offered as follows:

First—For the best exhibit of fruit to be shown at the State Fair from any county in the upper peninsula. Number of varieties and quality to be considered, but one premium to be awarded to any one county. First, \$50; second \$30; third, \$20.

Second—For the best exhibit from any county in the upper peninsula, as above, of grain and vegetables, grains to be shown in peck lots and in straw; and vegetables in half dozen and peck lots—variety and quality to be considered, and but one premium to be paid to any but one county, \$50, \$30, \$20.

In order to make a large display of varieties, farmers or producers can make a collective exhibit to be entered as a county exhibit which will be allowed to compete for above premiums on the same terms as individual exhibits.

FEW FEATURES.

Decline of C. & H. and Isle Royale Attracts Attention.

Coppers still continue uninteresting and practically featureless. The decline of Isle Royale, which has slid off to 41, and of Calumet & Hecla, is attracting attention. Paine, Webber & Co. said: "The undertone of coppers was very strong today with the exception of Calumet & Hecla. There seems to be continued selling of small lots since the publication of the annual statement. We believe Baltic a big purchase around the present price for a notable movement later on."

Hayden, Stone & Co. wired the Laidley Commission Co.: "Stackpole and Gay, who did quite a business for the Lake have been the principal sellers of Isle Royale, which has declined to 41. That, with the selling of Calumet & Hecla, has made up the market in coppers. We see some selling of coppers by New York houses which have been and are still carrying good sized lines of stocks. Gossip is guessing that the decline in Calumet & Hecla is, in part, an effort to depress the shares for effect and for the ultimate advantage of Amalgamated. It looks like selling induced by features of the recent annual report."

A. R. Jones & Co. said of wheat: "The government report on wheat was not remarkably bullish, nevertheless higher cables and the relative cheapness of this grain brought good support to the market today. The first prices were nearly 2 cents better than Saturday's close. Commission houses bought a world of wheat today. Everyone can see the bull side of wheat now, which they could not do when prices were ten cents cheaper. We would buy for scalps on any recession, or buy at any price to hold."

TO SAVE HER CHILD

From frightful disfigurement Mrs. Nannie Galleger, of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on head and face, and writes its quick cure exceeded all hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by Stafford, the druggist.

Ask Sterling & Co. by phone to send you samples of their boys' suits at \$1.00, \$2.00 and \$3.00. (8-13-14)

If you want a bicycle, want it cheap, want it good, go to R. L. Francis Co. (7-12-14)

Do you like a sandwich and a cup of coffee with cream? If so, go to Heppner's (8-6-14)

Twenty-five gas lamps for bicycles—going at a bargain. R. L. Francis Co. (7-12-14)

Rex and other fine chocolates only 35c per box at Heppner's.

Half the ills that man is heir to come from indigestion. Burdock Blood Purifiers strengthens and tones the stomach; makes indigestion impossible.

PUZZLING OVER THE DOTS.

Their Count Is a Most Perplexing and Exacting Feat.

The Mining Journal's dot counting competition continues to create much interest among its readers and additional counts are being received daily. Old heads and young are puzzling over the problem of determining the exact number of dots in the few square inches of space occupied by the cut published in other columns of the paper and all who have worked at it pronounce the task most difficult and exacting.

Of course it would be a practical impossibility to plunge in anywhere and count the dots, without some provision for checking off and setting aside those already enumerated. There is room for the display of considerable ingenuity in making a correct count and not a few "systems" for obtaining exact determinations have been devised. These are all more or less "infallible."

It has been the experience, in other cities where this contest has been used, that the most carefully devised plan for making the count frequently leads to astoundingly incorrect conclusions, so no one need feel hesitation at this time to make an attempt to win some of the prize money. Many similar competitions have been won by people who submitted their figures at the eleventh hour.

The contest is one of those things which look, but which are not, easy. If this doesn't strike you as being a feat, why pick up the cut and endeavor to make some progress with the dot counting.

A well known Marquette county photographer claims that he could determine the number of dots exactly, but the process he has in mind would be both tedious and expensive. He would photograph the dot bespecked cut and then enlarge the photograph until he could check up the individual dots without difficulty. Such a scheme might prove effective and practicable and then, again, it might not.

NOT A FINANCIAL SUCCESS.

But Crystal Falls Tournament Gave Visitors a Good Time.

As a financial venture the tournament was not a success, says the Crystal Falls Diamond Drill editorially. This comes from the fact that people in outside towns kept expressing the opinion that Crystal Falls would not be able to take care of the crowd that would be in attendance. So freely was this doubt expressed that over 1,000 people were kept from coming here that would have been with us had the "knockers" kept their doubts to themselves. The only redeeming feature of this part of the affair is the fact that we could have taken care of the usual crowd, although it cost the association about \$400 to do so. That sum was paid for rental and freight on cots that were not used. The lack of attendance likewise affected the income from the grand stand and the money spent in town. Not more than half of what was expected to be taken in was realized from the grand stand.

We have the consolation, however, of knowing that we provided several days entertainment for the people of Crystal Falls that they could never have had otherwise. The boys and girls had a chance to see the races and get an idea of what our boys have to do when they go away to the tournaments.

Likewise we have found some friends through the peninsula. The press of the peninsula was very friendly to us and we feel under special obligation to the Marquette Mining Journal for the kind words and assistance it gave us. G. F. VanWyck, of the Soo, deserves great credit for his efforts to make our tournament a success. At a personal expense of hundreds of dollars he brought a hand along and likewise drummed up a crowd of nearly 125 people to accompany him here. J. B. Abbott of Iron River also comes in for a share of the gratitude of Crystal Falls people for his very kind assistance. There are many other persons and papers that deserve to be mentioned in this connection and to all that have rendered us assistance we are thankful.

NEW SINGLE DESKS.

School Trustees Have Placed Large Order for Them.

The school trustees have just placed an order for upwards of 600 new single, stationary desks with a Manitowoc, Wis., concern. They are to be shipped immediately, so that they may be put in before the fall term opens. They will replace all the old style double desks now used in the ward buildings and will give all the structures a modern, approved equipment. Some of the desks which will be taken out have been used in the Marquette schools for the past two or three decades.

There was some question of the advisability of the purchase of adjustable desks, with which one room of the city schools is now equipped, but the final decision was in favor of the stationary style, which was ordered in several sizes to be used with discrimination in the different grades. The new desks will be placed, for the most part, in the lower grade rooms.

The improvement work at the several buildings is now in full swing, but there is so much of it to be done that the painters, carpenters, plumbers and steam fitters will be busy right up to the end of the month and the trustees and school officers will be well pleased if the improvements are finished by the beginning of September. The work in hand calls for the thorough overhauling of every old building in the Marquette system.

The board has authorized the installation of water closets at the Hampton street building, the last school of the system where outside privies have been in use. This step is in line with the latest recommendation of the health officer and it is calculated to insure better sanitary conditions at the South Marquette structure.

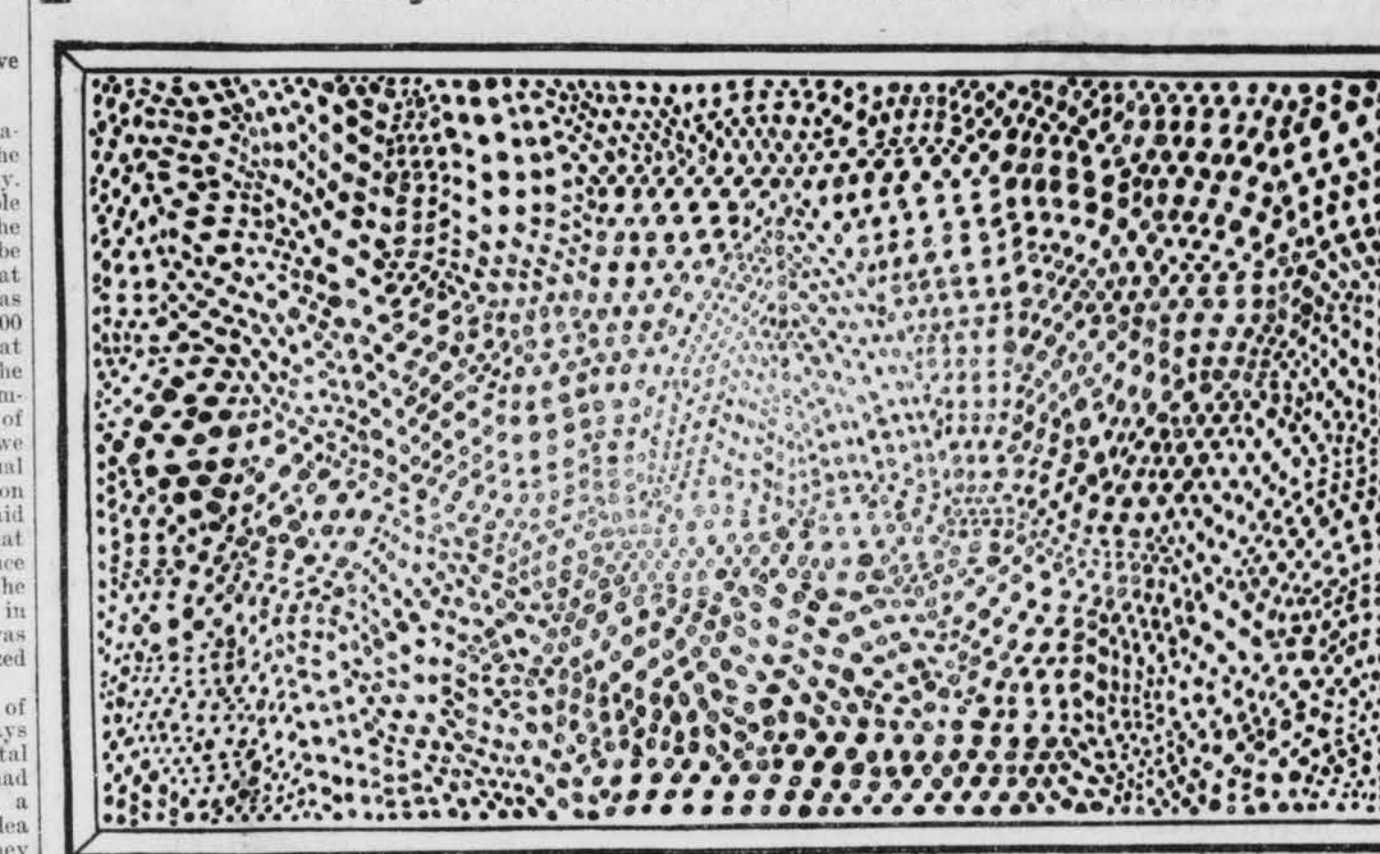

Call up Sterling & Co. They will send some boys' suits up for your inspection. (8-13-14)

Makes assimilation perfect, healthy blood, firm muscles, strong nerves. Quickens the brain, makes and keeps you well. Great medicine, Roscy Mountain Tea. 35c. The Stafford Drug company.

COUNT THE DOTS! IF YOU CAN'T COUNT THEM, GUESS THEM. THE MINING JOURNAL'S GREAT TWO-WEEKS COUNTING CONTEST. \$45.00 IN CASH PRIZES!

FREE TO ALL MINING JOURNAL SUBSCRIBERS who are paid up, and to all who subscribe for one month to The Daily Mining Journal, or three months to The Weekly Mining Journal. Every one who is a subscriber to the Mining Journal, and whose subscription is paid up, is entitled to one chance in the contest.

THE SUBSCRIPTION PRICE OF THE MINING JOURNAL IS: Daily, 60 Cents Per Month by Carrier. Daily, 50 Cents Per Month by Mail. Weekly, 50 Cents for three Months.

The Mining Journal offers its readers an opportunity to figure on a new edition of one of the most interesting puzzles which has ever been presented to newspaper readers. The puzzle has been prepared especially for subscribers of The Mining Journal, and the valuable prizes we offer for the nearest correct count will make it well worth your time to try your skill in counting the dots. Young and old will find it an interesting diversion. There is no trick about the puzzle; it is simply a matter of counting the dots correctly.

THE PRIZES: 1st Prize \$20.00, 2nd Prize 10.00, 3rd Prize 5.00, 10 Prizes \$1.00 each, \$45.00

CONDITIONS: To the one giving us the first correct or nearest correct number we will give \$20.00. To the next giving us the correct or nearest correct number \$10.00. The third correct or nearest \$5.00. The next ten correct or nearest correct \$1.00 each.

TAKE NOTICE. All payments and counts must be made direct to The Mining Journal by mail or personally. No count will be received unless accompanied by one-months subscription. This Contest Closes at 12:00 O'Clock Noon of Saturday, August 31st.

USE THIS BLANK IN ALL CASES. THE MINING JOURNAL CO., (Ltd.) Enclosed find \$ to apply on my subscription account. Name, Street and No., Postoffice, State.

TO CONTESTANTS:—The Mining Journal, upon receipt of 10¢cents, will send 'at the close of the contest a diagram of the above puzzle so constructed as to prove the correct answer to the satisfaction of all contestants. N. B.—No one connected with The Mining Journal directly or indirectly will be allowed to enter this contest.

... ANOTHER ... WHEEL! will be offered in the same manner as the last one. This time we will reduce the price \$1.00 for each day that it remains unsold.

HARTFORD WHEEL The regular selling price is \$35.00. The dollar reduction commences with July 29th.

PALMER'S BAZAAR, Washington St., Marquette. 600 POUNDS
