GAINS BY STRIKERS

FEW HUNDRED MORE MEN BY SHAFER'S ORDER.

BRING TOTAL OUT TO 62,000.

ADVANTAGE, HOWEVER, IS STILL WITH THE MILL OWNERS.

But Ten Workers Quit at the Carnegie Group, and Other Steel Plants, Though Short-Handed, Are Kept in Operation.

Pittsburg, Aug. 13.—Neither side moved decisively today in the great industrial conflict between the employers and employees in the steel trade, and the result is still in the balance.

The strikers have made gains at Pittsburg, McKeesport, Wheeling and Bellaire in the last twenty-four hours, but in the main the advance is still in the mill owners. Both sides claim to be preparing moves that will bring confusion to their opponents, but neither side has shown its hand.

Summary of the Situation.

The general situation tonight can be briefly summarized as follows:

Ten men quit at the Lower Union mill of the Carnegie company in Pittsburg and joined the strikers. Their defection represented the first break in the Carnegie forces.

The Bellaire plant, at which the men struck Sunday, was finally closed down today after working short-handed until yesterday afternoon.

Several hundred boys employed at the National Tube works at McKeesport went out during the night and day, and their action was followed by the strikers to finally tie the plants up. The works are going ahead short-handed, but the ranks of the workers are thinning and the supply of material is limited.

The strikers have made gains at Wheeling, and the steel officials admit that the Benwood plant will be closed down.

A break in the ranks of the men who struck at the Painters mill is expected, but the strike managers deny that one will occur. Another break is reported possible at New Castle.

The American Tin Plate company has sent forces at the Crescent plant in Cleveland, and is planning a resumption at other points with non-union men.

The Steel corporation has ordered that the Charters plant at Carnegie be dismantled and removed to Leechburg.

Intimidation Charged.

So far good order has prevailed, although the steel officials assert there has been intimidation at Wheeling, McKeesport and Pittsburg.

Both sides express confidence in ultimate victory and are actively carrying forward their respective campaigns. President Shaffer, of the Amalgamated association, leaves tomorrow for Wheeling, where he will address the strikers.

The number of men out as a result of the general order is now roughly estimated at sixteen thousand, and on the three orders at sixty-two thousand.

The Steel corporation has held its ground at Chicago, Joliet, Bay View, Youngstown, Columbus, the Kiskimuntis valley, and the Carnegie group with the exception of the one instance named.

The strikers are considering plans for breaking the region of Chicago, Joliet and Bay View to stand with the steel companies, but what they plan to do has not been made clear. They are charging some of the Western men with both dishonesty and disloyalty and there is a general desire among the members of the Amalgamated here for some form of inquiry.

Overtures from Independents Denied.

President Shaffer spent the day at headquarters, conferring with his lieutenants, receiving reports and issuing orders to the state districts. He was not inclined to talk much for publication. Several times during the day he expressed satisfaction with the progress of the conflict, but would make no statement.

Mr. Shaffer denied he had been approached by independent steel men with a view to prolonging the strike to the point where the United States Steel corporation would lose its rush orders. He also declined to talk about the Western situation.

Reports from the affected districts tonight indicate that the good order which has characterized the strike since it began still prevails.

Youngstown reports that announcement of the removal of the Warren plant has been made there.

Output of Trust Much Reduced.

Later—The Commercial Gazette to-morrow will say: "The steel workers' strike has, since the start of this week, cut off over 31 per cent of the combined steel and finished product tonnage of the United States Steel Corporation."

Fifteen locomotive firemen employed at the National Tube company's plant at McKeesport have struck. Three-fourths of the shippers also struck tonight.

Tin Plate Works Resumes.

(Cleveland, O., Aug. 13.—The American Tin Plate company succeeded in getting one mill out of six at the Crescent works started this morning with non-union men." The strikers made no attempt to prevent them from going to the works.

F. W. HOLLS FINDS UNFRIENDLY FEELING IN EUROPE

BUT COMBINE TALK RIDICULOUS.

ONLY RESULT MAY BE ADOPTION OF PROTECTIVE DUTIES.

These He Thinks Mean Reciprocity and Should Be Welcomed—Monroe Doctrine Generally Recognized and Peace Grows Stronger.

London, Aug. 13.—Frederick W. Holls, United States member of the international court of arbitration at The Hague, who is in London after a protracted visit at St. Petersburg, Berlin and Vienna, will sail for New York on the Kaiser Wilhelm der Grosse tomorrow. In talking tonight of his impressions of the relations between the European powers and America, Mr. Holls said:

Bright Outlook for Peace.

"Although my trip was of a professional and private character, I have had opportunity of seeing leading statesmen and foreign ministers, as well as numerous publicists and international lawyers. From all we have heard, we believe that the outlook for peace among the great powers and for a gradual but unmistakable development of the intent of the peace conference could hardly be better. No European people wants war any more than do the Americans."

It would be folly to say there is no longer danger of war, for popular excitement in any one quarter may upset all calculations. Still, the existence of a permanent tribunal to decide international disputes, the well recognized economic breakdown which war now means for all belligerents, the lessons of the Boer war and the frightful fiasco in China—all these elements of the situation are working powerfully for peace.

Feeling Toward United States.

"The present feeling in Europe regarding the United States cannot be characterized in one phrase. That it is not everywhere friendly must, I fear, be admitted. But this is not strange. The strength and prosperity of the great peaceful, unitary republic is not pleasing to the opponents and critics of our institutions. Then, there is the natural jealousy in commercial and industrial circles of our great progress."

"Talk about a combine of European powers against the United States is fanciful and impracticable. They have greater causes for quarrels among themselves than any of them has against the United States. All talk to the contrary in parliaments and press is, in my opinion, merely a cover for an increase in tariffs by particular powers. Of this we certainly cannot complain. It vindicates our own policy of protection. Moreover, it is a question whether it is not even desirable for us, for it will compel us to adopt policy of reciprocity, which ought to be a permanent benefit to the country."

Monroe Doctrine Recognized.

"Whatever objections are raised to our assertions concerning the Monroe doctrine come from the east only and, as far as my observation goes, meet with no popular approval whatever. Our claim to control and own absolutely and exclusively any and all isthmian canals is cordially recognized, not only on the continent, but by most authorities and organs of public opinion in Great Britain."

"With skillful diplomacy on our part, it ought to be easy to arrive at an agreement which would be entirely satisfactory to American public opinion without impairing in the least the present cordial relations existing between the two great English-speaking nations."

ROYAL PARTY IN NATAL.

Duke and Duchess of Cornwall Land at Durban and Get an Ovation.

Durban, Aug. 13.—The steamer Ophir, having on board the Duke and Duchess of Cornwall and York, arrived here today. The duke and duchess landed at eleven.

An immense crowd was on the dock, including Zulu Indians, as well as whites. All cheered enthusiastically, the fort meanwhile saluting. The duke and duchess were welcomed on the pier by the governor of Natal, members of the colonial cabinet, a committee of prominent residents representing the municipality of Durban and a large number of naval and military officers. The governor of Mozambique, representing Portugal, was presented to the duke and duchess.

The party drove to the city park, where a great reception was held. Loyalty addresses were presented by various societies and the duke responded. During the afternoon the mayor of Durban banquetted the duke and duchess at the Royal Hotel, the guests including all the high colonial officials. Immediately after luncheon the duke and duchess took a train for Pietermaritzburg.

TWO FOR INVADER

THIRD CUP RACE IS PRESENTED TO THE CHALLENGER.

FOULED BY CADILLAC AT START.

DETROIT BOAT AT ONCE WITHDRAWN FROM THE COURSE.

Its Place Taken by Milwaukee in a Scrub Match and the Canadian Out-sails the Freak Yacht in Easy Fashion.

Chicago, Aug. 13.—William Hale Thompson, Cadillac's skipper, presented Invader with the third race of the international yachting match for Canada's cup today by fouling the Canadian boat at the start.

Captain Jarvis, of Invader, declined to fly a protest flag, but the judges steamed after Cadillac and notified Captain Thompson that his boat was disqualified, whereupon Cadillac gybed around and left the race.

Invader sailed over the course and was raced by Milwaukee, the Oshkosh boat that so hotly contested with Cadillac the honor of defending the cup, and the sailing match was followed all around the triangular course of twenty-one nautical miles by the usual fleet of steam and sailing yachts. Invader beat the Oshkosh boat handsomely at all points of sailing in the light wind.

Foul That Cost the Race.

There was a light breeze from east southeast when the judges signalled the racing captains that a triangular course would be sailed, with the first leg to the windward. There was a little jockeying between the two yachts before the start. Captain Thompson chose the former buoy and Captain Jarvis was content to do the same at the other end of the line.

It was plain to see that if Thompson stayed out northeast of the buoy he must come to the starting line on the port tack, when he would have two choices, one to cross on that tack and stand on across Invader's bows, provided, of course, that Jarvis should be twenty seconds slow in getting over the line; the other, to come about just before reaching the line and whip up on the wind around the buoy, then standing out into the lake on the starboard tack.

Captain Thompson chose the former chance and came down toward the buoy on the port tack, meeting Invader on the opposite tack just before they got to the line and close to the buoy. Cadillac, of course, was trapped unless Captain Thompson brought his boat about under its stern, splitting the tackle, or came about on the starboard tack, fouling Invader's lee, he ran the risk of fouling either that boat or the buoy as he wore around. He therefore elected to squeeze through while holding to the port tack, and the consequence was he plainly fouled his rival.

Captain Jarvis promptly inuffed his boat, to save her as much as possible, and one of Cadillac's crew tried to fend Invader off with his hands. Cadillac was then to the weather of Invader, and Jarvis, finding his rival shutting off half of his wind, came about and crossed astern of Cadillac, splitting the tackle.

By skillful work Captain Jarvis managed to get his opponent under his lee and soon began to work further to the windward, while footing equally as fast as his rival. By this time the judges' boat had run alongside of Cadillac and notified Captain Thompson that his boat was disqualified. He at once wore away, gybed around and left the race.

Milwaukee Tries Conclusion.

At this juncture, Milwaukee, which was in the tending fleet to the leeward of the racers, went about and stood after Invader. Captain Jarvis quickly realized the Oshkosh boat's intention of attempting to administer to Invader a good beating before the large gallery even if it became necessary to cut into the international race in order to do so, and apparently he as quickly decided to teach the presumptuous newcomer a lesson. The Canadian skipper luffed his boat to allow Milwaukee to get on fairly even terms. Then he went on and beat the "freak" boat sailing on the wind; but her on the second leg at her own game, which is reaching, and beat her still more on the spinnaker run home on the third leg.

Captain Jarvis said after he got ashore that he felt no satisfaction in getting a cup race in this way, but that he was pleased his boat had an opportunity to beat Milwaukee. Commodore Gooderham, of the Royal Canadian Yacht club, said he regretted sincerely that such a thing had happened, and added, "More particularly as I think Invader would have won anyhow."

QUARRY LEASE EXTENDED.

County Board Grants Concessions to Operator of Marble Workings.

Yesterday morning the question of what shall be done with the marble quarry in Dickinson county owned by Houghton county but held under lease until recently by E. W. Eldredge of Chicago was before the supervisors.

The history of the quarry is quite well known to Mining Journal readers. Mr. Eldredge's extension of time on his lease has expired, but it is his desire to continue in the operation of the quarry so that he may get back some of the money which he has sunk in it.

Mr. Eldredge owes the county on back royalties \$1,000 and by the terms of his lease was obliged to pay the county each year \$400 whether any marble were produced or not.

Mr. Eldredge, owing to his present predicament in having sunk most of his money in the quarry without any return to speak of, prayed that the county board grant him certain concessions.

Mr. Eldredge's extension of time on his lease has expired, but it is his desire to continue in the operation of the quarry so that he may get back some of the money which he has sunk in it.

The product already gotten out of the quarry by Mr. Eldredge and his associates is a very inferior grade and is scarcely marketable.

The product already gotten out of the quarry by Mr. Eldredge and his associates is a very inferior grade and is scarcely marketable.

A short time ago W. J. Wykoff, of the Mohawk rock, accompanied by Mr. Miller, visited the Dickinson county quarry to examine it thoroughly.

The equipment at the quarry and the amount of work already accomplished was related in detail. The amount of material taken out is estimated at 3,000 tons, 300 of which are made up of blocks of three to five tons each.

Mr. Wykoff stated that it was of no value as a building or ornamental stone, but, like Mr. Eldredge, also holds the opinion that the quality of the material may get better with depth.

The supervisors examined specimens of the stone which were brought back by Mr. Miller and in which the faults were plainly discernible.

It was finally decided an analysis of the rock be made at the Michigan College of Mines to determine if possible whether the checks, seams, etc., are characteristic of a quarry at a greater depth.

All Sadsville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble.

"It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough."

A KANSAS MINISTER. Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner's White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases."

LAFORTUNE TRIPPED UP.

Evidence of State Witness Proves in Favor of St. John.

The trial of Dennis St. John on the charge of arson was begun in earnest yesterday morning and the greater part of the day was spent in examining and cross-examining Louis LaFortune, the janitor of the Miller building at the time of the fire and who afterwards made a statement implicating himself, St. John and another clerk, Silverman, who has never been captured.

It is conservative Lake opinion that the Mohawk rock is not exceeded by any good amygdaloid mine in this district. When the mill, operating two heads, starts next July the mine will have four shafts having an average depth of 800 feet with most extensive openings, and Mohawk will be able to produce copper as cheaply as any mine at the Lake.

\$300 for Tract at Bear Lake.

Charles Smith, son of "Squatter" Charles Smith, who will be remembered as a principal in the trouble with the government over land at the canal, offered the county \$3 an acre for 700 acres of land owned by the county along the lake shore not far north of Bear Lake.

The largest load of general merchandise brought to Portage Lake so far this season is attributed to the steamer Schuyler, of the Anchor line, which was in port last Sunday.

CONTROL OF COPPER MINING.

Only a Question of Time When the Standard Oil Will Have It.

Over two years have elapsed since Standard Oil efforts to concentrate control of the copper mining industry of the country partially crystallized in the formation of the Amalgamated Copper company. Today, to the outside observer, judging matters superficially, the consummation of the desired end is not a great deal nearer than it was at that time.

Copper Share Situation.

The Statist in its issue of Monday sums up last week's Boston market as follows: At no time was there anything approaching a genuine movement in any of the coppers, interest in these issues coming at low ebb.

The agreement between the principal producers of this country is still in effect, as it is undoubtedly continue to until Amalgamated plans are perfected and while that agreement remains effective, the only reasonable view to take of the copper market is that it will at least continue steady.

OFFICERS IN DISTANT SEAS TO BE BROUGHT HOME.

Secretary Declines to State Who Will Be Called but Says All Cognizant With Campaign Will Be on Hand to Testify.

Washington, Aug. 13.—Acting Secretary Hackett, of the navy department, gave out a statement today in regard to the witnesses to be summoned before the Schley court of inquiry. It is as follows:

"There have been numerous inquiries by gentlemen of the press as to who are to be witnesses in the Schley court of inquiry. I recognize the intense public interest that attends the conducting of this court. I also take into account and respect the professional zeal of the press.

"It has been found necessary, however, to say something to put an end to the daily inquiries on the subject. This is done with no purpose or desire to keep anything from the public.

"The court will convene on Sept. 12. What witnesses will be brought before the court in behalf of Admiral Schley is for the admiralty to decide. No one can possibly know what witnesses the court is going to summon before it.

List Filed by Schley.

"The judge advocate of the court on July 29 addressed a letter to Admiral Schley requesting the admiral to communicate with him in regard to the witnesses, if any of them, who he thought he might wish to have appear before the court. This was done because it was taken for granted that most of them were officers of the navy. It was highly important that they should be within reach when wanted to testify. Admiral Schley responded with a partial list of those whom he thought he would be likely to want to present, stating that there doubtless would be others. He was then told he would have the right to call others as witnesses, and was also informed that some of the persons named by him might possibly be called by the judge advocate.

Mum as to Sampson.

Beyond this statement Secretary Hackett declined to answer specific questions as to particular witnesses, and particularly as to whether Admiral Sampson was on the list prepared by the judge advocate of the court; and he further announced that hereafter he would decline to answer all inquiries relating to the Schley court.

WOULD PROVE KOCH'S THEORY.

Colorado Man Willing to Risk Life If Family Is Provided For.

Denver, Colo., Aug. 13.—T. L. Monson, state dairy commissioner of Colorado, offers to sacrifice his life, if need be, to prove or disprove the correctness of Dr. Koch's latest theory, that animal tuberculosis is not communicable to human beings.

There are physicians in Denver who would rather be shot at at close range than do what Monson offers to do. Scientists assert that Monson is practically committing suicide if his offer is accepted and he carries it out in good faith.

Mr. Monson, who is in robust health, is fully aware that he is risking his life to test an unproved theory, but he is in earnest. He declares that some one must make the sacrifice in the interests of humanity. His offer is as follows: "I firmly believe in Dr. Koch's latest theory that animal tuberculosis is not communicable to human beings. I am willing, providing a suitable annuity is provided for my family, to offer myself as a test of the theory. If proper provisions are made I will either eat or allow in any manner whatsoever tubercular germs to be introduced into my body, providing such germs are all taken from cattle or other animals. This offer is made in all sincerity and is instigated by a bona fide desire to test a valuable theory and by my firm belief that Dr. Koch is right."

In order to show that he is in earnest Commissioner Monson goes into practical details. He has given the matter considerable thought, and his proposal was not announced without premeditation. Discussing his offer tonight, he said: "If citizens or scientists interested in the prevention of contagion will provide a sum of \$25,000 to create an annuity for my family in case my experiment terminates fatally I shall be willing to subject myself to any test or tests with animal tuberculosis germs which they may prescribe. I would not add the money to be given to me if it were not the fact that I feel it is my duty to make some provision for my family in case of my death."

While Mr. Monson did not inform any member of his family of his intention to make his startling proposition, he says now that it has been made he will not allow any persuasions to interfere with the carrying out of his part of the experiment, providing it is accepted. He does not minimize the risk, but he says the man who proves the correctness of Dr. Koch's theory will contribute much to scientific information concerning one of the most deadly disease forms of humanity.

FAST TIME IN CYCLE MEET.

Ten Thousand Persons See New Records Established at Buffalo.

Buffalo, Aug. 13.—Ten thousand spectators watched the National Cycling association bicycle races at the Pan-American stadium today.

The final of the ten-mile motor tandem championship was won by Henshaw and Hedstrom of Springfield, Mass., the team breaking every world's competitive record from one to ten miles with the exception of the fourth. The ten miles were covered in thirteen minutes and twenty-two seconds. Sager and Hoyt of New York got second place. Four teams started.

G. W. Holley of Buffalo lowered the motor bicycle record for an exhibition ride for every mile from one to five. The time for five miles was 7:10.15.

FORGED REPORTS THE CHARGE.

Arrest Follows Discovery of Illegal Dentistry Diplomas Granted in Illinois.

Chicago, Aug. 13.—Dr. Jacob H. Snyder, secretary of the state board of dental examiners, was arrested tonight on two warrants issued by George Kavanaugh, charging him with forgery and with issuing forged reports for the state board.

The arrest was made at the instance of James H. Worman, United States consul at Munich, Bavaria, and brought to a climax his charges against the state board which caused Governor Yates to demand the resignation of the members of that body. Consul Worman declares it is but the first step in what will be one of the greatest sensations of several years in Chicago.

Dr. Snyder was immediately taken to the Wabash Hotel, where Judge Kavanaugh was waiting. Snyder was accompanied by his counsel, W. S. McEwen, who became his surety in bonds of \$3,000. The hearing on the case will be had Friday, when Judge Kavanaugh will sit as the examining magistrate.

FIGHTING IN COLOMBIA.

Consul Malrose Reports Guerrilla Warfare at Different Points.

Washington, Aug. 13.—Oscar Malrose, United States consul at Colon, Colombia, reports to the state department, under date of July 29, that according to reports guerrilla fighting has been going on at different points between Colon and Panama.

Three Towns Raided.

Consul General Guider, writing to the state department from Panama under date of July 29, reports that on July 26 and 27 about seventy-five revolutionists entered the towns of Gatun, Bohio and San Pablo, on the line of the Panama Canal, and Panama and Colon, and made prisoners of all the alcaldes and several policemen and retired to the mountains, taking with them what arms and provisions they could find. He says reports are current of revolutionary gatherings at other points, and that an attack on Panama is feared. A general uprising seemed imminent and the government was becoming alarmed at the situation.

New York, Wednesday, Aug. 14.—The Times morning says that according to El Conservador, a semi-official newspaper published at Barranquilla, Colombia, General Rafael Uribe Uribe was killed at San Cristobal, Venezuela, on July 27 while fighting with the Venezuelan troops against the Colombian invaders.

HEINZE SUES FOR A HAT.

Accidental Exchange in a Hotel Leads to Litigation. New York, Aug. 13.—Augustus Heinze, who is involved in a controversy with the Amalgamated Copper company over a verdict recently given in the West whereby he was awarded property worth about \$10,000,000, is the plaintiff in a suit which has been brought in the second district court in Newark for recovery of the value of a new Panama hat.

R. G. Solomon, a wealthy tanner, is the defendant. It all came about through an accidental exchange of hats, as Mr. Solomon left the dining room of the West End Hotel at Long Branch one day early in June while Mr. Heinze was a patron of the establishment, and what seemed at first a matter for speedy and amicable adjustment has grown into a suit at law.

Whatever Mr. Solomon had agreed to about the hat was upset by W. E. Hildreth of the hotel showing him a letter from Mr. Heinze. Instead of hastening to straighten out the matter Mr. Solomon took an opposite tack. He sent, instead of the hat, this letter to the Montana multi-millionaire:

"Dear Sir: Your letter to the West End Hotel was read to me by Mr. Hildreth, manager, and I consider the hat a piece of impudence. By your own admission, you ran away, taking my hat with you, and your hat is now hanging in my room, 13 Cliff cottage, and, of course, I would not wear your hat or that of any one else. Instead of your returning my hat to me, you demand that I shall call upon you. Perhaps you are wearing my hat now, and I would not wear it again, as it is, as I do not wear second-hand clothes or second hand hats. If you will deliver it to me at my rooms in proper shape and have a new lining in it, I will return yours to you; but I will not go to New York expressly for you or any one else. No correspondence is desired, as I am here for rest and comfort. Yours, etc., R. G. Solomon."

EMPERESS' FUNERAL IS HELD.

Body of Frederick at Rest Beside That of Her Husband.

Potsdam, Aug. 13.—The remains of Dowager Empress Frederick were interred today beside those of her husband in the mausoleum of Friedenskirche, near Potsdam.

Between eight and nine this morning the bells of all the churches here were tolled. Shortly after ten Emperor William and the other members of the imperial family, the visiting princes, high court officials, military dignitaries, members of the cabinet, knights of the Black Eagle, members of the reichstag and foreign ambassadors assembled at the Wilhelmstrasse station.

At 10:30 o'clock the funeral train arrived and twenty non-commissioned officers of the dowager empress' hussar regiment bore the coffin from the train to the royal hearse. Slowly and solemnly the procession formed in the shady avenue extending from Wilm Park to the new palace. Here the public had its only opportunity to see the procession and got only the slightest view of it, although immense crowds had assembled on the streets.

When the procession reached the mausoleum the coffin was borne across its threshold, the cathedral choir sang, Berlin singing. Dr. Persins, the chaplain, offered prayer, after which the choir sang. Only the empress, empress and members of the imperial family, King Edward, Queen Alexandra and other members of the British royal family and the princes of the highest rank followed by Charley Herd and his family. When their majesties left the mausoleum the procession was dissolved.

Many Memorial Services.

London, Aug. 13.—A memorial service, attended by many persons prominent in social, political and diplomatic circles, was held today in the Chapel Royal at St. James palace simultaneously with the funeral of Empress Frederick at Potsdam.

Dispatches from all parts of the continent announce the celebration of memorial services in honor of the dead empress.

ATTACKED BY GIRL KISSERS.

Indiana Man Is Victim of Novel Assault and Causes Arrests.

Evansville, Ind., Aug. 13.—Six of the best-known young women of Taswell laid violent hands upon Robert Foss in the main street of the town yesterday and kissed him until he cried for mercy. Soon afterward the girls were arrested at the instance of their victim and held for trial on the charge of assault and battery.

For public discomfiture was brought about by a boast which he made at several social gatherings recently, that he had never been kissed by a woman. He of the erstwhile virgin lips is a music teacher, about thirty years old, the manner of which he distinguished himself by flouting his hearers and aroused the feminine pride of the six belles who were the principals in the escapade. They decided to waylay Foss and hurl him from his pedestal of chastity.

Their opportunity came when they encountered Foss in the business part of the town at a time when there were a considerable number of people abroad, including some of their friends, who had been let into the secret. They made a concerted attack, and in spite of his protestations, covered him with kisses. Foss struggled vainly to free himself, but his tormentors were merciless. When he was finally liberated Foss, with flaming cheeks rushed to the justice's office and swore out warrants against the conspirators. The latter were easily captured and promptly gave bond for their appearance tomorrow.

APPLE CROP WILL BE SHORT.

Falling Off of 50 to 65 Per Cent Is Estimated by Growers. Toronto, Ont., Aug. 13.—Representative American and Canadian apple men met here yesterday and talked of the average crop of the different parts of the country. Their reports estimated the crop of Ontario to be 50 per cent of an average crop. New England, 35 per cent; New Jersey, 40 per cent; Pennsylvania, 40 per cent; New York, 20 per cent; Maryland, 50 per cent; Virginia, 65 per cent; West Virginia, 65 per cent; Kentucky, 35 per cent; Tennessee, 35 per cent; Ohio, 40 per cent; Michigan, 30 per cent; Illinois, 40 per cent; Missouri, 50 per cent.

NEW LAKE FLEET.

Cleveland Company to Build Five Steamers to Cost \$1,500,000. Cleveland, O., Aug. 13.—The National Transportation company, which will be incorporated in New Jersey, has completed plans for building five steel steamers on the lakes to come out at the opening of navigation next season. The deal, which was closed here today, was engineered by Captain W. W. Brown. The steamers will range in size from 4,800 tons capacity to 6,200 tons. The boats are to be completed on April 15, 1902, and will cost about \$1,500,000.

RUSH OF SALOONS AT LAWTON.

Sixty-Two Start in One Day on the Lifting of the Ban. Lawton, O. T., Aug. 13.—The ban on saloons was lifted yesterday and before 9 o'clock sixty-two were opened here. While the country was in Indian reservation, even the introduction of liquor was prohibited, and after the opening, saloons were barred for a few days merely as a precaution.

STOCKS TREND UPWARD.

Sugar a Notable Exception to the Day's Strength on Bear Raid. New York, Aug. 13.—The business today was on a small scale, but there was a white distribution of dealings. Strength was shown by many important stocks, but the general movement continued irregular.

The opening was higher on a resumption of yesterday's strength and the good tone of the London market. The first prices were not long maintained as traders realized, but when a demand arose for the Eastern trunk lines and the bituminous coal roads the stocks of the entire market rallied sharply. Sugar was about the only notable exception to the day's strength, the bears lowering it 2 points at one time and selling steadily when it rallied.

TUB TRUTHS. A DROP of ink will color a whole glass of water. It is an inch of yeast which makes a pan of bread rise, and a single cake of soap containing unabsorbed alkali can ruin a hundred times its cost in laces and fine embroidery. After all, it is wise to take such risks with common soap? Of course you can get along without Ivory Soap—but it goes hard.

WHEAT GROWERS IN LUCK.

French Shortage of 60,000,000 Bushels Means High Prices Here.

Washington, Aug. 13.—Farmers of the United States who have large crops of wheat undoubtedly have a prosperous season before them, as the partial failure of the corn crop will make a larger demand for wheat, and, in addition to this, France, which has not imported any wheat for three years, will require nearly 60,000,000 bushels because of the shortage in its wheat crop.

Three-fourths of the French wheat crop has been harvested at a much earlier period than usual, and according to an official report from Consul General Skinner at Marseilles, there is no longer any doubt that there will be a serious shortage, and that France will become again an importing nation.

"The expectation of those who have given the matter study," reports the consul general at Marseilles, "based upon previous experience, is that France will be obliged to look abroad during the coming year for perhaps 50,000,000 bushels, including the hard wheat not produced in the United States and usually imported from Russia and Algeria."

GRAIN MARKETS EASIER.

Close Finds Wheat and Corn Off and Oats Up a Little. Chicago, Aug. 13.—The wheat trade today was moderate, the market being quite and inactive at times and within a range of 1/8 to 1/4 cents. A rather easier tone was manifested, the closing figures being a trifle under those of yesterday. The action of the market was influenced by indifferent cables, favorable harvesting weather in the Northwest, a liberal local movement and increasing supplies. Liverpool was unchanged at 4 1/2 higher. Among the bull factors were large exports—1,543,000 bushels—and the estimate of the American consul at Marseilles that France would require about 60,000,000 bushels of corn and wheat owing to the deficient yield there. The Illinois state report was bearish, indicating a yield of 21,000,000 bushels. The clearances were 1,553,000, and the seaboard reported four loads taken for export.

Corn was moderately active, with the trade local and within a range of 1/4 to 1 cent. The feeling manifested was easier on the whole and the close showed losses of 1/4 to 1/2. Disappointing cables, the effect of yesterday's liquidation, and further realizing early today were features. Liverpool was unchanged to 1/4 higher. The clearances were 44,000 bushels, and eight boatloads were taken on the coast. The country acceptances were more liberal than for some time back.

Oats started weaker, rallied later with wheat and corn and closed steady, at 1/4 to 1/2 cent better. A good part of the business was changing from the near to the distant months. There was fair selling early and liberal buying by commission houses at the close.

The leading futures ranged as follows: September wheat opened at 1 1/2 @ 1 3/4; highest, 73%; lowest, 73 1/2%; closing, 73%. September corn opened at 59 1/2 @ 60; highest, 60%; lowest, 59 1/2; closed, 59 1/2. September oats opened at 36 1/2; highest, 36 1/2; lowest, 36 1/2; closed, 36 1/2.

Receipts and shipments were as follows: Flour, barrels, 18,000 15,000 Wheat, bushels, 391,000 172,000 Corn, bushels, 245,000 36,000 Oats, bushels, 291,000 188,000

THE MANURE ORDINANCE. The Mining Journal Quotes It in Full, on Request.

The Mining Journal herewith quotes in full, by request, what may be termed the "manure" ordinance of the city charter:

"The keeper of any livery stable or any other stable shall keep the stable and stable yard clean, and shall not permit between the first day of June and the first day of November any manure to accumulate in or near the same, in such quantities as to be offensive to the public."

"Why, in the name of common sense, with such an ordinance in our charter, should there be any such litigation as is now progressing in Justice Byrne's court," said a disgusted citizen last evening.

BRITISH NAVY DEFECTIVE. Glaring Truths Learned from the Recent Manoeuvres.

London, Aug. 13.—The Outlook commenting on the naval manoeuvres says: "Undoubtedly the admiralty's reason for winding up the campaign in a week instead of ten days was because of the sufficiency of unpalatable truths forced upon the admiralty."

ANNEXATION OF CUBA. Sentiment Favoring It Gaining Ground Among the People of the Island.

Washington, Aug. 13.—Reports which are now being received from the island of Cuba indicate that as the Cubans realize the importance and magnitude of the task which they are attempting in the formation of an independent republic, sentiment in favor of annexation to the United States increases.

NO MORE CUT-RATE DRUGS. Chicago Concerns Come to an Agreement to Keep Up Prices.

Chicago, Aug. 13.—Cut-rate drugs for Chicago are a thing of the past. With one exception the largest drug concerns, the department stores along State street, as well as the smaller companies, have agreed to maintain legitimate prices.

HEARING ABUNDANT WITH ENTERTAINING FEATURES.

Plaintiff Claims Actual Damages and Balm for Wounded Feelings—Crocker Argues His Case, Brown Appearing for Defendants.

The hearing in the case of E. J. Mapes vs. Marshal T. J. Maney, Health Officer Russell C. Markham and two teamsters, trespass, was not concluded in Justice Byrne's court yesterday, an adjournment being taken at 5 o'clock until 9:30 a. m. today.

The great mass of the testimony on either side was heard and there should be no difficulty in bringing the case to a close today.

It has been many months since any proceedings in a justice court have attracted an equal amount of attention. It was about 11 a. m. yesterday before the testimony began to be submitted.

After dinner the gathering was somewhat larger, running between fifty and seventy-five people all through the afternoon.

Multitude of Witnesses.

The features of this most entertaining hearing are the multiplicity of witnesses and the electric flashes for which the attending assemblage is indebted to Messrs. Crocker and Brown.

There were numerous sharp passages between these limbs of the law, some of which were provocative of sallies of merriment which were slow to subside.

And the witnesses. They were far too numerous to list and included men, women and youths. They had all sorts of tales to tell and they related them with more or less adroitness.

The important witnesses yesterday were the plaintiff, E. J. Mapes, the defendants, Marshal T. J. Maney, Health Officer Russell C. Markham and the two teamsters, Drs. Flynn and Boyce, and N. M. Dellaas.

Defense Has Most Testimony.

The defense is submitting by far the greater part of the testimony, the plaintiff having comparatively few witnesses, he and Mr. Crocker evidently banking on their severe cross examination of the people sent to the stand by Mr. Brown.

Of course, there is a captivating divergence of testimony. Henry Britzell, the mail carrier, who has been passing the manure heap, which has been located on Mr. Mapes' premises, for years, has never noticed any stench arising from it.

According to some of the witnesses, the heap was a perfectly harmless, almost desirable, landscape adjunct to the neighborhood, while others would have it that its appearance was most repulsive and that it fairly reeked with stenches and offensive odors.

Again some were positive that it had never, at any time during the past five or six years, been moved, but a witness who testified that he personally carried intended a complete inhibition of the pile about a year ago was produced by the plaintiff.

Wanted a Personal Inspection.

mer of settling the case would be to take the jury to South Marquette for a personal inspection of the manure pile in its present environment, he insisting that, even after it had been disturbed and carted through the city, it would be found so sweet and pure that the "good men and true" would at once decide that it should be forthwith transported back to the plaintiff's premises.

Yesterday's proceedings would furnish the foundations for an excellent treatise on manure heaps, their advantages and drawbacks. The several people who stayed the whole performance out are now well informed on the subject.

Worth \$2 a Load.

Mr. Mapes wants actual damages and also compensation for the outrage of his and his family's feelings as a result of the unbidden entry on his premises by Marshal Maney and his men.

Onlookers yesterday, noting the earnestness and intensity with which the parties to the case went about acquitting themselves of their several parts in the hearing, were free in their predictions that, irrespective of the side on which winged victory finally perches, the question will go to a higher court for adjudication.

There will again be a general attendance at the hearing this morning. The arguments should prove attractive and entertaining.
