## PEACE HOPE DASHED

### STEEL FIGHT AGAIN LOOKS PROLONGED AND STUBBORN.

### FURTHER GAINS BY STRIKERS.

### TIEUP AT MCKEESPORT AND JOLIET MADE COMPLETE.

Trust Starts Another Mill and Is Im-  
porting Non-Unionists from the  
South—Danger Men Will Balk  
on Welsh Tin Plate.

Joliet, Aug. 16.—Samuel Adams, district  
vice president of the Amalgamated  
association, returned this afternoon  
from Pittsburg, where he had been in  
conference with President Shaffer.  
Adams at once issued a call for a joint  
conference of the four lodges tomorrow.  
He declined to tell the object of the  
meeting or to discuss the strike situation.

It is reported that a movement is on  
to unionize all the labor in the steel  
mills outside the Amalgamated association,  
bringing into the organization a  
thousand skilled men not now in the  
union and all the common laborers.

Six Thousand Affected.

All the Illinois Steel mills were  
closed this afternoon except the blast  
furnaces. The streets of the city present  
a holiday appearance. Those on  
strike now are:

Illinois Steel company (various de- partments) .....	2,500
Joliet Tin Plate company .....	500
Pressed Steel Car company .....	500
By the closing down of the Illinois works, idleness for lack of material is almost certain to come upon the following:	
American Steel & Wire .....	2,000
Joliet Slave Works .....	300
Phoenix Horseshoe company .....	500
Miscellaneous .....	200

There was no disorder whatever to-  
day.

Bay View Men Likely to Quit.

Milwaukee, Aug. 16.—The members of  
Bay View lodge of the Amalgamated  
Association of Iron, Steel & Tin Workers  
will tomorrow afternoon decide for  
the second time whether or not they  
will obey the strike order of President  
Shaffer. Michael F. Tighe, representing  
Shaffer, accompanied by Vice Presi-  
dent Davis, reached Milwaukee this af-  
ternoon, but not until late tonight did  
he have a conference with President  
Redfern, of the local lodge, relative to  
the date of the meeting.

As time goes on, the chances seem to  
favor strike, the sentiment in that di-  
rection seeming to have gained strength  
since the meet at Joliet decided to go  
out. There are, however, many con-  
servative members who favor remain-  
ing at work.

Michael Tighe, who was seen shortly  
before midnight upon his return from  
Bay View, expressed the opinion that  
the Bay View men would vote to go out  
at tomorrow's meeting.

Western News Cheers Strikers.

Pittsburg, Aug. 16.—The center of  
interest in the steel strike today shifted  
to the West, where Joliet finally swung  
into line with the strikers and Mil-  
waukee appointed tomorrow as the  
time for the final vote on the question.

The news that came from the West  
cheered the strikers throughout the  
districts in this vicinity as no other de-  
velopment since the labor war was  
declared, and are putting plans for a  
count on favorable action at Milwaukee  
tomorrow and, carrying their hopes  
still farther, say they will yet win  
Chicago over. These successes, they  
declare with apparent confidence, will  
make them masters of the situation and  
win the strike.

The steel operators, on the other  
hand, say the strikers are nearly at  
the flood tide of their success, and  
when the ebb comes it can never be  
stopped. They claim they are more  
than holding their own in the non-  
union plants that were unaffected or  
have been started since the strike be-  
gan, and are putting plans for the  
reopening of several plants now idle.  
They also claim that many of their  
men, particularly at McKeesport,  
Wheeling and Bellaire, were forced out  
by intimidation and will come back as  
soon as the excitement dies out and  
their safety is assured.

Talk of peace has been dropped for  
the time being, and it is agreed that in  
its present aspects the situation indi-  
cates a prolonged and stubborn con-  
flict.

Thousands Finding Other Work.

The recent gains here and at Joliet  
will bring the total number of men  
brought out by the third call of Presi-  
dent Shaffer to about thirty thousand,  
and brings the grand total to something  
over seventy thousand. Thousands of  
men have found other work, however,  
and the exact number now idle is un-  
known. The Amalgamated association  
has organized a series of employment  
bureaus and plans to provide work for  
many more of the idle men. President  
Shaffer announced today that the Amal-  
gamated men will receive a strike bene-  
fit of \$4 per week apiece, and some pro-  
vision will be made for men outside the  
organization.

Two hundred men employed in the  
National galvanizing works of the Na-  
tional Tube company at McKeesport  
struck today. They were the last re-  
maining workmen in the affected trades  
of the tube workers and, although on  
strike, have refused to join any union.

## TALK WITH SHIP 280 MILES OUT.

Wonderful Test Is Given Wireless Tele-  
graphy at Nantucket.

New York, Aug. 16.—The Cunard  
liner Lucaia, from Liverpool for New  
York, Aug. 10, was spoken through the  
medium of wireless telegraphy by the  
Nantucket lightship this evening, com-  
munication being maintained for nearly  
four hours, during which a summary of  
the news events of the world since the  
steamer's departure was sent to the  
passengers on the vessel. Captain Mc-  
Kay signalled that they were 280 miles  
from Sandy Hook, which he hoped to  
reach Saturday.

## CANADA'S CENSUS DISAPPOINTS.

Small Increase Causes Suspicion Figures  
of 1891 Were Padded.

Ottawa, Aug. 16.—The population of  
the Dominion of Canada, according to  
the census returns, which were given  
out today, is \$5,337,166, an increase of  
but 563,827 over the census of 1891. The  
result is disappointing, and the only ex-  
planation for the small increase is that  
the returns of 1891 were padded.

## ACCIDENT AT PORT ARTHUR.

Wind Blows Down a Circus Tent—Sev-  
eral Persons Hurt.

Winnipeg, Aug. 16.—The tent of an  
American circus which was exhibiting  
at Port Arthur today was blown down  
by the high wind. The poles fell upon  
the audience, and a number of persons  
were injured. No details are known.

## MARCHES ON BOERS

### KITCHENER PERSONALLY DIRECT- ING AN AGGRESSIVE MOVE.

### IMPORTANT BATTLE IMMINENT.

### ATTACK ON FORCE OF 4,000 UNDER BOTHA INTENDED.

Burgheers Are Camped on the Zululand  
Border—Taking of Fifty British Is  
Officially Reported—Hemmed  
in in Cape Colony.

Durban, Aug. 16.—Lord Kitchener,  
with a strong force, is moving on  
Hondweni, on the border of Zululand,  
where General Botha is reported to  
have concentrated four thousand Boers.  
An important engagement is expected  
to ensue.

Fifty Cavalrymen Trapped.

London, Aug. 16.—The war office has  
received the following despatch from  
Lord Kitchener, dated at Pretoria:

"While a party of fifty of French's  
scouts were proceeding to join the col-  
umn near Bethesda, they were sur-  
rounded in the hills by a superior force  
under Theron and surrendered. One  
was killed and three wounded. Captain  
Bethlehem dangerously."

Lord Kitchener does not give the  
date, but the casualty list indicates it  
was Aug. 8.

Invaders Hard Pressed.

Reporting upon the engagement be-  
tween Colonel Corringe and Command-  
ant Kritzinger at Middleburg, Lord Kit-  
chener says the British commander  
drove the Boers north to Ventorstrad in  
confusion. He asserts that General  
French's other column in Cape Colony  
is gradually driving the enemy north-  
ward.

GOLD STANDARD HELPS INDIA.

Surplus Shown Despite Crop Failures  
and Relief Expenditures.

London, Aug. 16.—The Indian secre-  
tary, Lord George Hamilton, in the  
house of commons today presented the  
financial statement for India. He said  
that in spite of the three years famine  
and acute depression in three agricul-  
tural staples—tea, indigo and cotton—he  
was able to present the most favor-  
able balance sheet since India came un-  
der the crown. The relief expenditures  
for three years totalled \$15,000,000, but  
the same period showed a surplus of  
\$2,377,000.

This season's rains, though below the  
normal, had been sufficient for agricul-  
tural purposes. The crop outlook was  
fair and there was a prospect of a ma-  
terial reduction in the relief expendi-  
tures.

The results of the gold standard pol-  
icy had more than realized the govern-  
ment's expectations.

BAN ON LIQUOR MEN LIFTED.

Catholic Foresters Decide to Admit Sa-  
loons, but at Higher Rate.

Detroit, Aug. 16.—The Catholic Order  
of Foresters today decided to admit sa-  
loon keepers to membership in the  
order. All members of the society en-  
gaged in the liquor business will have  
to pay an extra assessment, however.

The convention adjourned sine die  
this afternoon after selecting Dubuque,  
Ia., as the next meeting place, in 1903.

DEFEATS GEORGE DIXON.

Denver, Aug. 16.—"Young Corbett"  
was given the decision at the end of a  
ten-round go with George Dixon, ex-  
featherweight champion, at Coliseum  
Hall tonight. While Corbett was the  
aggressor at all times, Dixon punished  
him severely, and from the fifth round  
to the finish Corbett's face was bathed  
in blood.

## RIFLED REGISTERED LETTERS.

Chief Clerk of the Patent Office Is Sum-  
marily Dismissed.

Washington, Aug. 16.—Edward V.  
Shepard of Massachusetts, chief clerk of  
the patent office, was summarily dis-  
missed from his position today. The  
action was the culmination of an inves-  
tigation into the disappearance of cer-  
tain moneys contained in unclaimed re-  
gistered letters returned to the office.  
Shepard entered a stout denial of criminal  
intent and offered to make good any  
shortages.

## DIPLOMA SOLD FOR \$400.

More Charges Filed in the Illinois Den-  
tal Board Scandal.

Chicago, Aug. 16.—Three new war-  
rants were issued against Dr. Jacob H.  
Smyser today in connection with the  
state dental board scandal, alleging  
forgery, malfeasance in office and ac-  
cepting a bribe. Oscar C. Ingey al-  
leges that Smyser, while secretary of  
the board, issued to him a license to  
practice dentistry, though he was not  
a graduate of any dental college, for  
which Ingey paid Smyser \$400.

## PRINCE FREDERICK IN LONDON.

Heir to German Throne Arrives on Visit  
to Uncle, the King.

London, Aug. 16.—Crown Prince Fred-  
erick William of Germany arrived here  
today. He was met at the Victoria sta-  
tion by a large crowd and given a cor-  
dial greeting.

## CUPID ON BOARD

### MATRIMONY EPIDEMIC ATTACKS TRANSPORT THOMAS.

Nearly All from Different Schools and  
Acquaintance and Courtship Covers  
the Period of Ten Days in Sail-  
ing from San Francisco.

## VICTIMS TEACHERS FOR PHILIPPINES

### OF THE 400, SIXTY WED EN- ROUTE AT HONOLULU.

Carbondale, Ills., Aug. 16.—Among the  
four hundred American teachers who  
sailed on the transport Thomas from  
San Francisco to Manila, sixty of them  
on reaching Honolulu were married.

The teachers had been chosen from  
many normals and universities of the  
country and were all strangers to each  
other. Their acquaintanceship and  
courtship extended over a period of less  
than ten days.

The captain of the Thomas refused to  
permit weddings while enroute, and  
thirty couples upon their arrival at  
Honolulu sought out clergymen and  
were married. This information has  
reached this city from one of them who  
was appointed from this school.

## SOME DOUBT IN SAN FRANCISCO.

San Francisco, Aug. 16.—Full credence  
is not given here to the report of the  
marriage at Honolulu, Hawaii, of  
sixty teachers sent to Manila by the  
government. Honolulu papers and  
special correspondence announcing the  
arrival of the Thomas contain no allu-  
sion to such event.

## NABBED IN MILWAUKEE.

### German Accused of Heavy Defalcations Is Taken After Long Chase.

Chicago, Aug. 16.—Shadowed by the  
police of Paris, hounded by the detec-  
tives of Scotland Yard and looked for  
by the sleuths of New York, Philadel-  
phia and Cincinnati, Garhardt Terlin-  
den of Duisburg, Germany, accused of  
forgery and embezzlement by the Ger-  
man government, was captured in Mil-  
waukee today by Chicago detectives  
and brought to this city for safe-keep-  
ing.

The prisoner is wanted by the  
German authorities for having forged  
and hypothecated 1,500,000 marks' worth  
of securities of the Garhardt-  
Terlinden company of Duisburg, of  
which he was manager. The business  
was a land improvement investment en-  
terprise, and it is said a great number  
of poor persons were financially ruined  
by the defalcation of the manager.

The American equivalent of Terlin-  
den's booty is \$375,000. The officials  
here admitted tonight that a consid-  
erable part of the prisoner's supposed  
booty was found in his pockets and  
that more of it was on deposit in Chi-  
cago banks. They anticipate a fight  
against extradition.

## TAKU PORTS TO BE SPARED.

### Powers Unable to Agree on the Proposed Destruction.

Pekin, Aug. 16.—The troops of the  
powers have not yet evacuated the pub-  
lic buildings. The British and Ameri-  
cans propose to occupy the Temple of  
Heaven and the Temple of Agriculture  
until their barracks are ready.

Sir Ernest Satow, the British minis-  
ter, thinks it would not be wise to with-  
draw before the protocol has been signed  
in conjunction with the Chinese plenipo-  
tentiaries, as withdrawal would remove  
the chief inducement to the Chinese to  
sign. The opinion is growing that the  
court will refuse to return so long as  
the powers maintain such large forces  
in the province of Chi Li.

The protocol does not provide for the  
destruction of the forts, the ministers  
of the powers having failed to agree on  
this point.

## HAVOC AT MOBILE

### GALE BACKS UP WATER AND STREETS ARE FLOODED.

### DISASTERS ON BAY AND GULF.

### SOME LOSS OF LIFE IN THE WRECK- ING OF SHIPPING.

Crops Along the Coast Are Badly Dam-  
aged, New Orleans Reports Six  
Persons Drowned and Steamer  
Is Lost at Pensacola.

Mobile, Aug. 16.—The tropical storm  
which came up out of the Gulf on  
Wednesday and increased in force dur-  
ing the day following, is believed to  
have been the severest in the vicinity  
of Mobile. The wind blew at the rate  
of seventy miles an hour for some  
time.

Various reports of drowning in the  
bay have reached here, but it is im-  
possible to confirm them owing to the  
complete demolition of all means of  
communication.

The pleasure yacht Arc, bound for  
Fish river with a party of Mobile peo-  
ple on board, is reported to have pound-  
ed to pieces on the wharf at Bayou La  
Pretre on the eastern shore of the bay. Nothing  
has been heard of the crew. The  
pleasure yacht Mayflower, with a party  
of prominent people on board, reported  
lost this morning, has been heard from.  
All had found refuge on Cat island, but  
the boat was wrecked.

Alarm for Fort and Islands.

Nothing has been heard from Fort  
Morgan; two companies of coast ar-  
tillery are stationed there. The bar-  
racks undoubtedly received the full  
force of the blow.

No communication can be had with  
any of the islands in the Mississippi  
sound, just outside the bar, forty miles  
below here. All news concerning the  
islanders must come by boat, and this  
is anxiously awaited.

The fruit steamer Herald from  
Puerto Cortez arrived late tonight.  
She reports speaking to a two-masted  
schooner sixty-five miles southeast to-  
tally dismantled. The captain of the  
schooner declined assistance.

Logging camps and mill manufactur-  
ers have suffered considerable loss by  
the breaking of booms. Saw logs and  
square timber drifted into Mobile all  
day, much of it coming up on Royal  
street, three blocks from the water  
front.

Much Damage in the City.

Considerable damage was done in  
Mobile in the way of the uprooting of  
trees, unroofing of houses and toppling  
of chimneys. The river was backed by  
the southeast gale and overflowed the  
cotton wharf, and Commerce, Water  
and part of Royal streets, while the  
streets for several blocks north of St.  
Anthony were covered. The water  
was sixteen inches deep in the cotton  
exchange, and both the Western Union  
and Postal Telegraph offices were  
flooded. All business in the wholesale  
district was suspended.

The Mobile & Ohio is operating  
trains to Whistler, ten miles to the  
Louisville & Nashville received one  
train during the afternoon at Magazine  
Point from the north. No afternoon  
or night trains came over on that road  
from the south and none are expected  
tomorrow.

Several yachts and naphtha launches  
are reported wrecked, and the cannery  
factory at Bayou La Pretre, on the  
southern shore, was damaged.

No estimate of the financial loss can  
be made tonight. From points through-  
out the state come reports of great  
damage to crops and buildings by the  
storm, in some localities the cotton crop  
being injured to the extent of 20 per  
cent.

Little Havoc at New Orleans.

New Orleans, Aug. 16.—The storm  
has passed and seems to have done no  
great damage except along the river be-  
low the city, six fatalities occurring  
near the river's mouth. In the city  
the only injury was to lakeside resorts  
and to the section flooded by a break in  
the canal bank which was soon closed.  
Rice and orange farms on the lower  
coast were severely injured.

The loss of life occurred half a mile  
above the quarantine, where a large  
house containing fifteen persons was  
overturned. Mrs. Rose Walker and  
ten-year-old daughter Ida, Miss Bridie  
Cobden and Miss Ella Cobden were  
drowned. The crew of the tug boat  
Bloux sought refuge a few hundred  
yards away and two sailors, Blaine  
Davidson and Peter Yea, were drowned.  
The boat was lost.

Steamship a Wreck in Florida.

Pensacola, Fla., Aug. 16.—The French  
steamship Cyranos, which arrived this  
morning, reports that the American  
steamship Evelyn, ten days from New  
York for this port with a cargo valued  
at \$400,000, went aground yesterday  
about eight miles from Pensacola bar.  
She is listed and is fast going to pieces.  
Tugs have gone to her assistance. The  
storm last night was one of the wildest  
ever known here.

MILLER LOSES RACE IN FRANCE.

Paris, Saturday, Aug. 17.—Twenty-  
seven contestants, among them Miles of  
Chicago, started in an international bi-  
cycle race from Paris to Brest and re-  
turn, 1,200 kilometers, at 4:53 o'clock  
yesterday morning. Lesna arrived at  
Brest at 3:10 today.

MARQUETTE, MICH., AUG. 17

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

For a man who is dead sure of coming out a winner President Shaffer of the Amalgamated betrays a singular impatience and irritability in his speech and actions.

Canada has won something from us, but by a duke. However, the Canadians are as much entitled to an occasional stroke of luck as are other people.

Those steel workers at Joliet didn't know their own minds until Mr. Tighe, who had made the trip from Pittsburgh for the purpose, told them what President Shaffer had decided their action should be.

It seems that O. A. Sol hasn't quit roasting corn down in Indiana and Ohio yet. This is such a ternal big country that it is hard to keep everything going all right all the time in every part of it.

Republic.

Miss Kate Zeiler has gone to Chicago to spend a couple of weeks with friends.

A party of Republic people enjoyed an outing at Wahlstrom's farm Monday last.

Miss Mattie Kendall has taken a position in the Chicago Department store at Marquette.

John Peables of Milwaukee has been here visiting his brother, J. R. Peables, the past week or so.

Pat O'Donnell has been here from Mass City the past week or so visiting relatives and friends.

Miss Agnes Good of Quinnesec, formerly of this place, has been a visitor in town the past week or so.

The employees of the Republic Iron company will be paid on Saturday of this week for last month's work.

Dr. C. M. Owen, James Owen and the Misses Carroll and Dodge, visited Marquette and Presque Isle last Sunday.

Mrs. M. Sealy entertained a number of young people last Saturday evening in honor of James Owen of Milwaukee.

Mrs. Otto Eger and her four children spent several days here visiting friends. They returned to her home in Ishpeming Tuesday.

Emil Carlson and Frank Johnson have ample reason to feel almost broken hearted. Ask them about it and you will learn all.

A regular meeting of the Republic fire department was held Monday evening, when the expense bills of the tournament were squared up.

Phil Levine came up from Negaunee Wednesday to attend a picnic given that day by Mrs. D. T. Morgan in honor of her guest, Miss L. Carroll.

John and William Michaelson, William Kline and others, of Chicago, who spent the past ten days or so camping out from Republic, have returned home.

Mrs. Bert Martel left early in the week for Grand Rapids and other points in the lower peninsula on a visit to relatives and friends. She will be away at least three weeks.

A number here have counted the dots in the Mining Journal's contest. Hugo Erickson of this place recently got \$25 from a Detroit paper for having given the exact number in a similar contest.

William Zeiler intends to repair the business block at present occupied by the J. H. Bell as soon as it is vacated. He has three applications for the place but has not yet decided which one to accept.

B. Levine has a fine team of horses which he will sell cheap. He worked them on his farm during the busy season, but can get along without them now. Their weight is a little over 3,000 pounds.

The men engaged laying the new steel on the Chicago, Milwaukee & St. Paul line have reached town. They are doing a very thorough piece of work. New ties are being put in wherever they are needed.

A party of about twenty-five young people enjoyed an outing near the picnic grounds north of town Thursday. The time was spent in boating and other diversions. A fine lunch was a feature of the picnic.

Will Goggin, who has been at Quinnesec for some time past, will be married to Miss Kennedy of that place at a near date. Both of the young people have been in Republic visiting Mr. Goggin's people during the week.

James Owen of Milwaukee, for many years a resident of Republic, left Wednesday for home, after spending a couple of weeks here. Jim had a good time, as usual. He has many friends here, who are always glad to see him.

There will be an excursion from points in this county to Escanaba a week from next Sunday. The round trip fare from here will be \$1.50. The train will leave here at 7:30 a. m. and returning the excursionists will leave Escanaba at 8 o'clock p. m.

James Kukus of North Chicago, for many years a resident of Republic, is spending a few days in town. He was one of the early settlers of this place. It is about nine years since he left here. His oldest son will be married in September to a Chicago girl.

Seven wagon loads of machinery, including diamond drills, etc., were taken out to E. E. Brady's exploration of work Friday of last week. The workmen are pushing operations along at a very satisfactory rate and within the next two weeks most of the drills will be running.

B. Levine is building a large shed at his farm, to be used for housing his implements. He recently purchased a hay press and a stump puller, both of which he is using to good advantage these days. There will not be a stump on the entire tract of 300 hundred acres by the close of the summer. Mr. Levine is spending a good deal of money on his place and he intends making a first-class farm of it.

The Republic and Michigan baseball teams will come together Sunday afternoon on the local grounds. This will be their second game and as the teams are very evenly matched the contest is sure to be a good one. The Michigan men are trying to get a special train. If they succeed in this no less than 150 rooters will be over. The Republic team won the last game played, so that the visitors will do their best to break even.

Ed Gaunon of Marinette, Wis., was here early in the week looking over Ed Jackson's feldspar property. Mr. Jackson has deals pending, though it is not certain that any will be closed at a near date, as there is quite a difference between the price he asks and what the intending purchasers are willing to pay for the option. Mr. Jackson expects to leave here in a week or ten days for his home in the west. He will visit in Ishpeming and Negaunee for a few days before taking his departure.

Julius Unternahrer, who carried off the honors for fast coupling at the Crystal Falls tournament piece of the week with relatives and friends in Republic. He has been offered a position in Escanaba to go there and couple for the team that will be organized to go into the tournament at Negaunee next year. When the Amasa firemen returned home after the tournament the town was theirs. The home people met them with open arms and gave them a rousing reception. Unternahrer was carried on their shoulders.

The Quincy employees will be paid today.

The steamer City of Traverse has left Chicago for Portage Lake with a full load of passengers and every berth taken.

M. Brosnihan of Chicago, traveling freight agent for the Illinois Central railway, was a business visitor in Houghton yesterday.

David Palmer, the miner who was injured in an accident in the Calumet mine early in the week, died yesterday as a result. He was aged twenty-one.

The Abrams case, that of The People against Samuel Abrams of South Lake Linden on the charge of receiving stolen goods, will likely be taken up in circuit court today.

The Calumet & Hecla band's concert from the balcony of the Douglas House, Houghton, tomorrow evening will bring out a large crowd. Much interest in the event is being taken.

The Mandolin club of Hancock practiced at the home of Arnold Jaehning at the Franklin location Thursday night. The organization has the reputation of furnishing first class music for parties.

The Hancock Hibernians will hold forth at the Hancock grove today, the occasion being their annual picnic. A fine program of sports will be carried out. The Portage Lake band will furnish the music.

Frank Walstrom and Miss Madlina Juntilla, both of the Quincy, will be married this evening at the West Hancock Finnish church. Rev. Heidenman of Calumet will officiate. Mr. Walstrom is a popular Quincy miner.

An excursion to the entry will be given tomorrow by the Finnish Male Glee club of Hancock. Music and speaking will be the feature of the program at the entry. The Quincy band will accompany the excursionists.

At Haas' Park, East Houghton tomorrow afternoon, the Sons of Her Bay, Milwaukee and Chicago via C. & N. W. R. Y. daily except Sunday.

For Iron Mountain, Marinette, Menominee, Green Bay and Milwaukee via Republic and C. M. & St. P. R. Y. daily via train service and for Houghton, Linden, Soudaw, Ironwood, Ashland, Duluth, St. Paul, Minneapolis and all points west except Sunday (Baggage for the copper country will not be carried on this train).

For Detroit and the east, daily except Sunday. 1:30 P. M.

For Houghton and the copper country, daily except Sunday. 3:05 P. M.

For Chicago via Negaunee and the C. & N. W. R. Y. and Republic and Chicago via the C. M. & St. P. R. Y. daily via train service. 9:45 P. M.

For Houghton, Hancock, Calumet, Hurley, Ironwood, Ashland, Duluth and the west, daily via train service. 10:50 P. M.

TRAINS ARRIVING MARQUETTE, WHICH DO NOT RUN EAST. From Chicago and Milwaukee via C. & N. W. R. Y. and Negaunee daily. 8:05 A. M.

L'Anse and Baraga

Dan Hehard of Pequaming left on Tuesday for a short business trip to Philadelphia.

Mrs. Geo. C. Jackman of L'Anse is visiting friends in the copper country for a week.

Earl Edgerton and wife of Detroit were in L'Anse a few days this week visiting relatives.

Mrs. John F. Nester of Baraga and Miss Dyer of Detroit called on L'Anse friends this week.

Miss Kate Curry returned to L'Anse Monday from a month's visit with friends at Duluth.

Charles M. Turner of Lansing was in L'Anse on Sunday, renewing acquaintances with old friends.

D. J. Norton of Ontonagon was in L'Anse this week, looking after his lumber interests in this county.

Miss Nanie Turner of Houghton spent a few days at L'Anse this week, the guest of her aunt, Mrs. J. B. Smith.

Miss Adaline Beeher returned to Lansing Tuesday to resume her duties in the office of the secretary of state.

W. B. Harris expects to move from L'Anse with his family next week to the Mass mine, where he is now located.

The Hathaway Graphite Manufacturing Co. shipped two tons of first grade pulverized graphite to Pittsburgh this week.

Louis Menard, the popular liveryman of L'Anse, added a fine driving team and Concord buggy to his livery outfit this week.

Mr. and Mrs. Bennett of Cananadigua, X. Y. are at L'Anse for a few weeks with Mr. Bennett's sister, Mrs. T. H. Robinson and family.

School examinations were conducted in the court house at L'Anse Thursday and Friday. There were but five applicants for certificates.

Miss Elsie McKernan of L'Anse went to Houghton Tuesday to take her sister Allie's place in the postoffice while the latter takes her vacation.

The Detroit Graphite Co. is having a hundred tons of graphite from the company's mine loaded at the Taylor siding for shipment to Detroit.

Cord Johnston has disposed of his mail and stage line between L'Anse and Skanee to his nephew, Henry Johnston, who took charge this week.

Dave Pickett's aggregation of coons will exhibit at the town hall, L'Anse Monday evening next. Dave has been here before and always put up a pretty good show.

Mrs. Allen Johnston of L'Anse received a check from Patrick Cullinney, secretary of the A. O. U. W., on Wednesday, for \$2,000 insurance her late husband carried in that order.

J. W. McKee and wife, who left L'Anse about two months ago for the Pacific Coast, returned Monday evening. They are satisfied to reside on the shores of Lake Superior in the future.

Milton Botsford of L'Anse left Wednesday evening with Allie McKernan and Emma Penberthy of Houghton, to take in the sights of the Pan-American exposition. They will be gone two weeks.

J. B. Smith of L'Anse received a phone message from Algona informing him that his father was very sick last Sunday. He left in company with his brother John on the evening train for that place.

Mrs. L. J. Shepard of Calumet returned home Tuesday after a few days' visit at L'Anse the guest of Mr. and Mrs. S. T. Harris. She was accompanied by Grace Harris and her sister, Minnie Lloyd.

Christ Wolf, of the firm Wolf, Sayer & Haller of Chicago, spent Sunday at L'Anse, the guest of the Blankenhorn family. He did not leave on the Negaunee night train this time to meet any fishing party at Negaunee.

The Indians will hold their annual camp meeting at the Pequaming grounds this season, beginning next Wednesday for one week. Quite a number of people from Bay Mills and Odanah are expected to attend it.

Miss Mary Wallace returned to Houghton this week, after a ten days visit with friends at L'Anse, on her way home from the Pan-American. She was accompanied by Miss Lillie Thomas, who will visit the Wallace family for a week.

Wm. H. O'Brien of Stone quarry, manager of the L'Anse Brown Stone quarry, was in L'Anse this week looking over the property which has recently been put in shape for work. The company expects to ship some stone yet this season.

The Pequaming ball team visited L'Anse last Sunday to have a little fun on the diamond with the boys there, but the L'Anse players were out of practice, or couldn't play ball, so made but a slim showing on the score, which was 25 to 7 against them.

The Misses Thomas and Miss Rose Blankenhorn of L'Anse gave a drive and picnic to twenty-one of their girl friends last Saturday. The drive was to Rockbeach, Pequaming. The girls report having had as good a time as could be expected, considering that there were no young men along.

The Baraga ball team met its first defeat of the season last Sunday at the hands of the Lake Linden aggregation. The Baraga boys attribute their overthrow to the fact that some members of the team was out of town and the others had not fully recovered from their trip to Crystal Falls.

FOR WHOOPING COUGH. "Both my children were taken with whooping cough," writes Mrs. O. E. Dutton of Danville, Ill. "A small bottle of Foley's Home and Tar cured the cough and saved me a doctor's bill." The People's Drug Store.

COPPER COUNTRY NEWS.

(Additional.)

JURY LOCKED UP FOR NIGHT.

No Verdict in Arson Case After Extended Deliberation. The St. John arson case went to the jury at about 4:30 o'clock yesterday afternoon and after several hours' deliberation the jury was locked up for the night, the verdict in the morning being awaited with great interest. It is reported the verdict will be acquittal or disagreement.

Dennis St. John, the defendant, was on the stand for a short time in the morning, a few questions being asked him. The addresses to the jury then followed. Prosecuting Attorney Larson starting off. He spoke at some length, his principal argument being that it was the apparent object of the defense to place the blame of the alleged arson upon Mr. Miller, which idea was ridiculed as far as possible by the evidence, at hand. Louis N. Legris, one of the attorneys for the defense, spoke next. His line of argument was that not a particle of the evidence went to show the guilt of St. John.

The most important address of the day was that of George Gallup, also attorney for the defense. He spoke for an hour in the afternoon and his remarks were very pointed. The court room was well filled with people and the address was listened to with an eager interest. Mr. Larson followed with a forty-minute talk, winding up the case. The judge's instructions to the jury were then given and the twelve men filed out of the room to arrive at some conclusion.

COPPERDOM SURPRISED THEM.

Engineer and Officials of Milwaukee Road Express Amazed.

Wednesday locomotive No. 1208 of the Chicago, Milwaukee & St. Paul road arrived in Hancock. The engine is used for special services and was the first of its kind to appear in the copper country. It struck a snag in having a hard pull up the Hancock hill and the St. Paul engineer stated to the reporter that it was the worst hill he had ever seen in all his travels. A. C. Burge, second vice president; Charles Goodman, general superintendent; A. C. Manchester, superintendent of machinery; Mr. Bradley, mechanical engineer; D. W. Hastings, superintendent of the northern division, who had been here on a former trip, and W. E. Tyler, general freight agent, and E. Lytle, general superintendent of the South Shore, and J. C. Shields, superintendent of the Mineral Range and Hancock & Calumet, accompanied the party throughout the copper country, the visit winding up with a trip to the canal on Congressman Sheldon's yacht, "Sally W." all of which was delightfully enjoyed by the St. Paul people.

Mr. Goodman, general superintendent, expressed himself as greatly surprised at the magnitude of the great Calumet & Hecla mine, and the prosperous conditions of everything in general throughout the upper peninsula. Mr. Manchester, mechanical engineer, was perhaps the most surprised person in the party. He looked on in astonishment at the monstrous triple expansion engines and ponderous gigantic machinery plant of the Calumet & Hecla and Tamarack mines.

Ingot and specimens were furnished the parties as souvenirs. They all left the copper country Wednesday evening via the Mineral Range road for Ontonagon, highly pleased with their short but delightful trip to the copper country.

CEMENT WALKS GOING DOWN.

Good Start Made in Replacing the Wooden Affairs in Hancock.

Several cement walks have been laid in Hancock this summer and the improvement goes on. A good stretch of it was put down in front of the Evening Journal building yesterday. The walk greatly improves the appearance of both the immediate property and street and are gradually coming into popular favor. It is thought that after Quincy street is paved with brick property owners generally will take more pride in the appearance of their premises facing the thoroughfare and will put down the artificial stone walks.

Considerable preparatory work will have to be done on the thoroughfare before the brick can be laid. The telephone poles, which now stand in the street at the edge of the sidewalks, will have to be moved back at least a foot and a half, and that task will be started shortly before the real work of paving begins. Hancock people would be very pleased were the telephone wires placed in underground conduits before the street is paved, but the present outlook for that improvement is not very bright. However, there is a possibility of it being done at some future time.

THEIR SECRET IS OUT.

All Sadeville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who has for a long time endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough." It positively cures Coughs, Colds, La-Grippe, Bronchitis, all Throat and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Stafford's drug store.

HAY FEVER CAN BE CURED.

All druggists are authorized by the manufacturers of Dunsen's Cream Catarrh to refund the money where it fails to cure any case of Hay Fever no matter of how long standing. One application gives ease and rest. This is a new discovery and is the only Hay Fever remedy sold on a positive guarantee—No Cure, No Pay. Price 50 cents. For sale by Stafford Drug Co.

TRIPLE FATALITY.

Falling Rock Kills Three Men in the Tamarack Mine.

By a fall of rock in the Tamarack mine about 10 o'clock Thursday night, three men were killed and two others seriously injured. The dead were: RICHARD TREZONA, married; son of Captain Trezona. JOHN SIMMONS, single. MAJ STANISLA, Austrian. The injured men are: Sam Jacobson. Matt Amulic.

The triple fatality occurred in the twenty-eighth level of No. 2 shaft, about 4,000 feet underground. The men were engaged in cutting a stope, Trezona and Simmons being the block-holders and the others trammers, when the rock, weighing several tons, came down, catching the workers beneath. The ground was considered safe by the men, who were all experienced miners. At the coroner's inquest yesterday, testimony was given before a jury composed of miners. Several witnesses testified to the security of the timbering, while Captain Trezona declared this work had not been properly done, and to this he laid the accident. Captain Parnall, on behalf of the Tamarack company, demanded a personal investigation by the miner jury, and it was granted. No verdict will be rendered until the inspection is made.

LAUNCHES HAVE RACE.

Is an Interesting Feature of Children's Day at Yacht Clubhouse.

A feature of the day at the Ontonagon clubhouse, Houghton, yesterday when the children were entertained by the bachelors members were the yacht races. They were arranged by several interested members and the entries were the boats owned by Messrs. Sheldon, McKeever, E. M. Edwards, Rees and Goodell, Wittman, Case and Getchell. The racing started quite late in the afternoon on Portage lake near the Ontonagon club and afforded a great deal of pleasure. A distance of two and a half miles around a buoy were traveled by the "scratched" boats—the Morgan, owned by Allan F. Rees and H. Goodell and the Sally W., owned by Congressman Sheldon. The other boats were given handicaps. A delightful day was spent at the club and the annual affair was a complete success. The bachelors were royal entertainers and their guests were pleased beyond measure.

TIMBER FOR THE TAMARACK.

Ten Carloads of Logs, the First Shipment, Come from South Range.

Hall & Hughes, who have a contract from the Tamarack mining company calling for the getting out of a big cut of logs for use of mine purposes, made their first shipment yesterday. The logs are being cut near Lakewood, on the South Range, and will be transported to Houghton via the Copper Range road and then to Calumet over the Hancock & Calumet railway. Ten carloads were shipped yesterday and about that number will likely be sent forward every day until the contract is filled. Hall & Hughes have been busy all summer, but yesterday's shipment was the first made in several months.

LIGHT INFANTRY OFFICERS.

Non-Commissioned Appointments Made by Captain Shields.

The non-commissioned officers for Company G, Houghton Light Infantry, have been selected by Captain Irving Shields. They are: Joseph DeMaree, first duty sergeant; W. J. Carah, second duty sergeant; S. R. Penberthy, third duty sergeant; Ray Eggleston, fourth duty sergeant; Thomas Brimmo, corporal, and Nicholas Klimer, corporal. The appointments are popular ones with the company. It is the intention of Captain Shields to keep the company up to the same high standard it has been under the captaincy of Charles Hendricksen, now a major.

DEATH AT THE RIPLEY.

Mrs. Mary Staek died at the Ripley yesterday morning about 11 o'clock from a complication of diseases. She was aged fifty and had for thirty-eight years resided in the copper country. A husband and six children survive. The funeral will be held Sunday afternoon.

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely relieves this complaint. It relieves permanently because it allows the tired stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat and can't help but do you good. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Three spectres that threaten baby's life. Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

WOULD HAVE COST HIM HIS LIFE.

Oscar Bowman, Lebanon, Ky., writes: "I have been using Foley's Kidney Cure and take great pleasure in stating it gave me permanent cure of kidney disease which certainly would have cost me my life." Take none but Foley's. The People's Drug Store.

LADIES CAN WEAR SHOES.

one size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. It's the greatest comfort discovery of the age. Cures and prevents swollen feet, blisters, callous and sore spots. Allen's Foot-Ease is a certain cure for sweating, hot, aching feet. At all druggists and shoe stores, 25c. Trial package FREE by mail. Address, Allen S. Olmsted, Le Roy, N. Y.

NEW GIRLS AT CENTRAL.

Rumors of Strike at Houghton Eventually Now Borne Out.

For about a week or more there have been rumors both in Houghton and Hancock of a strike of the telephone girls in the Houghton "central" and the fact that their places have been for the most part filled by girls from Marquette verifies the report. Possibly subscribers have noticed of late that they get sweeter answers and that more pains are taken to get the number asked for. Why the girls will even ring two or three times to get the party required without being asked that many times to do so, and if they are unsuccessful they feel quite sorry and have their regrets. The change is truly surprising. But the new girls will have to have considerable patience, even as it is, and until the construction gang now at work on the system has its task completed they will have to withstand trouble with the old switchboard now in use. It was said yesterday that the grievances of the former central girls were about the hours they were required to work, and then they had their other troubles such as being sworn at over the wire; written about, and hauled over the coals in general. But all's well that ends well.

LINE NOW WELL EQUIPPED.

More New Rolling Stock Comes for the Street Railway.

In the way of equipment, the street railway company is now well fixed and during the past several months has been almost continuously adding to it for the other end of the extension. New cars have been arriving from the East—the very best that can be purchased, up-to-date in every respect—and they are being put into service. The Calumet and Wolverine and Centennial extensions made the enlargement of the equipment necessary, and the latest rolling stock received was four single truck cars from the J. G. Brill company of Philadelphia. They are ten feet shorter than the cars now in use and will be used on the local line between Houghton and Hancock and Red Jacket and Laurium. They have but four wheels and two motors, while the larger cars have eight wheels and four motors. It was thought last week that the extension to the Wolverine would be complete by tonight, but the work has been delayed and will not be finished until next week.

NEW COAL DOCKS STARTED.

In a previous issue of The Mining Journal, it was stated that the Quincy company would in the near future build a coal dock on the shore of Torch lake between its two mills in order to handle its coal direct and to save the expense of shipments from Hancock to the mills. Work on the dock has already commenced and it will be rapidly pushed to completion. The winter's supply of coal will then be put in.

The Peninsula Electric Light & Power company of Houghton is building an extension to the coal dock at the rear of its plant at West Houghton for the purpose of supplying more storage room. Much fuel has arrived during the past month, and as the dock along the lake shore is filled to its capacity the extension was made necessary.

BASEBALL AT LAKE LINDEN.

The Lake Linden ball team and the Soo Maroons will play two games, one this afternoon and the other tomorrow afternoon, at Athletic Park, Lake Linden, and the contests will no doubt give plenty of sport for their fans. Today's match begins at 4 o'clock and tomorrow's at 2. The Maroons had hoped to get a game on with the Portage Lake team but were disappointed, as the boys have disbanded for the season.

RACES TODAY AND TOMORROW.

The running races will continue at the Hancock Driving Park this afternoon, and tomorrow afternoon a similar program will be given. Five events will be pulled off each afternoon. The track, which was in heavy use during the week, is now in fine shape and conditions are favorable for fast time.

In cases of cough or croup give the little One Minute Cough Cure. Then rest easy and have no fear. The child will be all right in a little while. It never fails. Pleasant to take, always safe, sure and almost instantaneous in relief. Stafford Drug Co.; H. N. Meloche, Ishpeming.

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but two one dollar bottles of Foley's Kidney Cure effected a permanent cure. The People's Drug Store."

\$50 FOR A BOTTLE OF MEDICINE. This is to certify that my wife was for years afflicted with asthma and was so far gone that several physicians decided that her case must terminate in consumption. I was induced to try a bottle of Dr. Warner's White Wine of Tar Syrup. To our great satisfaction it gave almost immediate relief, and two bottles completely cured her. She is now well and healthy, but I would not be without the medicine if it cost fifty dollars a bottle.

Wm. H. Farris, Chn. Bd. Tr. of Whitton, Monroe Co., Wis. The Stafford Drug Co.

SCALD HEADS AND SALT RHEUM.

Boro-Carbol Salve will cure Scald Head and salt rheum when all other ointments have failed. It allays the itching, cures the itching, and prevents the itching from coming back. This is a new discovery and is the only remedy sold on a positive guarantee—No Cure, No Pay. Price 25 cents per box. For sale by Stafford Drug Co.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwall, Valley street, Saugerette, N. Y.

How Are Your Kidneys? Dr. Hobb's Special Pills cure all kidney ailments free. Add Special Remedy Co., Chicago or N. Y.

CONTROL OF COPPER MARKET.

Agreement Reported Signed at Boston by the Big Companies.

Paine, Webber & Co. yesterday wired from Boston that the current issue of the News Bureau of that city published the following: "It is reported that on Thursday there went into effect an agreement whereby the control of the copper market was affected. Colonel L. J. Livermore, superintendent for the Calumet & Hecla, and representatives of the Amalgamated copper company and the Rothschilds signed the agreement."

Decline Due to Manipulation.

The heaviness of tone that has for some time past been displayed by the market for copper, particularly in London where Standard copper is at the present time selling at a lower basis than at any time since 1898, comments the Boston Financial News, has led to uneasiness on the part of some persons who have seen in this downward tendency an indication that control of the market by Standard Oil and allied interests is not so strong now as it has been. On the other hand, large copper interests continue emphatic in their declarations that there has been no actual weakening of the situation, that control of the market is still held by those producers who are parties to the "gentlemen's agreement." The bulls say that the decline since 1898, comments the Boston Financial News, has been largely the result of manipulation, that there have been no important sales of Lake copper under 17 cents or of electrolytic under 16 cents, and that the present condition of affairs is not only what is desired by the Standard Oil interests, but has actually been brought about by them.

MAKING COPPER FAST.

Capt. Hosking Pleased With Peninsula Portion of Franklin Junior.

A letter just received at Boston from Captain Hosking, who is in charge of the work at the Franklin Junior mine, says: "I have just been through the Peninsula mine—a part of the Franklin Junior—and feel greatly encouraged by the present appearance of the mine. There is more copper showing in the openings today than I have ever seen. The mine is gradually being brought into shape for regular mining, but we have not reached the point that warrants any material increase in production. "According to the way the Peninsula mine is making copper at present, there would not be much trouble in securing a product of 300 tons per month (unless a great change for the worse should be experienced) with three heads, and with a fourth on the amygdaloid, we could reach the 400-ton mark monthly. "If the mine is to grow to any great extent, we should be opening up the ledge at other points, and it is time for us to be thinking about a second shaft."

Copper Gossip.

Copper was ten shillings higher at London yesterday, spot being quoted at £65, 18s, 9d and futures at £66, 7s, 6d. At New York the market was unchanged, at 16 1/2 @ 17 cents.

The steamer Peerless was at Portage Lake Thursday. Before clearing in the evening for the down trip two carloads of copper—ingot bars—were taken on at the Quincy smelters and two at the old Hancock smelters. Two carloads of manufactured copper were also taken from Dollar Bay.

"Now it is that Boston's pride, the grand old Calumet & Hecla, not only the greatest property on the globe, but about the only one of Boston's for these cowardly attacks. There is little fear of these attacks in this case, being successful for their intent. Today's match begins at 4 o'clock and tomorrow's at 2. The Maroons had hoped to get a game on with the Portage Lake team but were disappointed, as the boys have disbanded for the season."

A number of ranchers living in the Deer Lodge valley west of Butte, where they own 1,280 acres of land, have brought suits for damages against the Butte & Boston, Colusa Parrot, Colorado Parrot and Montana Ore Purchasing companies for \$110,000 damages from each. It is claimed that the smelters owned by the companies at Butte contaminated the water of the river so that for five years the ranchers have not been able to raise any crops, and that the land itself has been made non-productive by the poisonous acids from the smelters. The court is also asked to enjoin the companies from a continuation of the acid complained of.

IS A PROMISING PROPERTY.

Copper Country Men Putting Money In to the Union Gold, Arizona. Yesterday several thousand more shares of the Union Gold Mining company, owning rich claims in Arizona, were taken by copper country investors, with a number of inquiries coming in from outside points asking for information regarding the property. Among the latest subscribers for stock were several personal friends of Stephen Carkeek of Houghton, who has just returned from a thorough inspection of the mine and unhesitatingly recommends it as an A. No. 1 investment. Judging from the demand for the shares, the issue will be largely oversubscribed by Houghton country people alone, while the iron country is still to hear from; and it is thought significant, in this connection, that the assayers of rock taken from the property have subscribed for good-sized blocks. The flotation of the new company is already an assured success, and the copper country men interested are, of course, gratified. In reply to a request for details, The Mining Journal has secured the following statement:

The Union gold mine is situated in Yavapai county, Arizona, forty-two miles southeast of Prescott and twenty miles southwest of Mayer (the nearest railroad station), in the Bradshaw mountains. The mine consists of two claims, each 600 feet wide and 1,500 feet long; the lode or vein traverses the entire length of one of the claims, running northeast and southwest. The other is a claim commencing about 300 feet southwest of the northeast extremity of the former claim and extending 300 feet further southwest across a ravine or gulch, furnishing an ideal place for a mill at the mouth of the tunnel. The openings consist of a tunnel 500 feet

5 RUNNING RACES TODAY! AT THE Hancock Driving Park. Music by the QUINCY BAND. Ladies Free. NO. 5896. CITIZENS' NATIONAL BANK OF HOUGHTON. DOMESTIC AND FOREIGN EXCHANGE. OFFICERS: R. C. BLAZE AT THE SOO

BURNING OF A SAWMILL REPAIRERS 120 MEN IDLE.

LAMP UPSET AT A DANCE.

IT CAUSES A COSTLY FIRE AT SEATON, ILLS.

Practically the Entire Business Section Is Wiped Out, and at Landsville, Ind., Flames Leave but Four Buildings Standing.

Sault Ste. Marie, Mich., Aug. 16.—By the burning of Bradley & Watkins' big lumber, shingle and cedar mill to-night, one hundred and twenty men are out of employment. The loss is \$50,000. Wisconsin Town a Sufferer.

Glenwood, Wis., Aug. 16.—Fire today, which started in the water works pumping station, destroyed that plant, together with the electric light plant and the steel mill of the Glenwood Manufacturing company, adjoining. The town is without light or fire protection to-night. The loss is \$50,000.

Indiana Village Hard Hit. Marion, Ind., Aug. 16.—Fire this morning completely destroyed the village of Landsville. Nothing was left standing but a grain elevator, the passenger station and two store rooms.

The fire started in a barn and rapidly spread to the Odd Fellows block. This building, as well as the Studebaker stock pen and scales, a drug store and eleven residences, was destroyed. The total loss is estimated at \$70,000.

Fire Havoc in Illinois. Burlington, Aug. 16.—The business portion of Seaton, Ills., was practically wiped off the map by fire last night. Over a dozen buildings were destroyed with their stocks of merchandise, causing an estimated loss of \$50,000.

The burned buildings were Elrick's Opera House, the postoffice, the Independent newspaper office, Connor's Hotel and eight other business houses. The town was minus fire apparatus, and a call on Monmouth failed to reach lock of transportation facilities. The fire was started by the upsetting of a lamp at a dance.

WRECK SOLVES OCEAN MYSTERY.

Long Missing Manchester Now Known Lost in the South Pacific.

San Francisco, Aug. 16.—The story of a tragedy of the sea comes from the South Pacific. The wreckage of the missing ship Manchester was found three months ago in a small deserted island of the Marshall group, with indications that the captain, his wife and children and crew landed on the island and then had departed in two boats, as there was no water on the island. As no trace has been found of them, it is believed they perished of thirst before they were able to reach inhabited islands of the Marshall group.

The wreckage was found on Bikar Island, one of the most northerly of the Marshall group, which is without coconuts or water and is only visited by natives to secure the feathers of some rare birds that frequent it. The native schooner Marshelson put in there and the natives told the following story to Captain Henry of the island steamer Archer at Juluit:

"There were indications of wreckage ashore at Bikar, so we stood on our way to Juluit and found the beach covered with bits of American kerosene. On breaking the cases, we were found to be stamped with Chinese or Japanese lettering, suggesting the idea that a ship from New York bound to China or Japan had come to grief. On going through the wreckage we found there were between 400 and 500 cases and scattered among these were remnants of spars, masts and pieces of ships' rail. On further search the body of a man was found and from the appearance of the body death had not taken place much over forty-eight hours before we arrived. Mortification had not set in. In the clothing was found a first mate's certificate on parchment. The name was that of a Swede or a Norwegian, but we took it to the German resident at Juluit.

"During the search over the atoll a spot on a little shingly beach showed distinctly the tracks of two boats' keels as if they had been hauled up and again launched. The marks were quite fresh, and there were footprints on the sand. Among these footprints were those of a narrow foot, evidently the impression of a woman's foot, and a number of tiny impressions, apparently made by the feet of children. From these marks it was concluded the captain of the lost ship had with him his wife and family.

"A number of the native birds were found with their bodies punctured and their flesh uneaten, showing that the castaways had, in the absence of fresh water, sucked the blood of the birds. Some turtles were found that had been killed and partly eaten.

The missing ship Manchester, Captain F. Clemens, left New York one year ago loaded with kerosene for Yokohama. After that it was never seen, and Lloyd's posted it as missing last May after 90 per cent reimbursement had been paid. As it went by Cape of Good Hope, the Marshall group would not be far out of its course. The ship probably struck on the island at night and sank quickly before the crew could get out any water.

KILLED IN A STREET BRAWL. Lexington, Ky., Aug. 16.—William J. McNamara, a former magistrate of this city, was shot and killed today by John Meagher, a saloon clerk. McNamara attacked Meagher and tried to put him out of a saloon.

You can always get a light lunch with a cup of tea or cocoa, at Heppner's.

CENSURED IN COMMONS.

Editor and Manager of the Globe Apologize for Abuse of Irish.

London, Aug. 16.—In the house of commons today, G. E. Armstrong, former lieutenant in the British navy, editor of the Globe, and W. T. Madge, manager of that paper, appeared at the bar in the custody of the sergeant-at-arms, in accordance with the summons of the house in accusing the nationalist members of corruption in connection with private bill legislation. After the speaker had notified them of the cause of the summons, both expressed regret at the appearance of the article and apologized to the house. The speaker then ordered the delinquents to withdraw while the house considered the matter. Both editor and manager backed out amid derisive cheers by the nationalists.

After a protest from John Redmond, nationalist leader, against the inadequacy of an apology, the offenders were recalled and asked if they were prepared to withdraw the allegations. This they did in somewhat nervous tones. The speaker then severely reprimanded the two newspaper men, who were permitted to depart.

PLOT OF VENEZUELA WINS ON A FLUKE

DICTATOR CASTRO SAID TO PLAN SEIZURE OF THE ISTHMUS.

IS BACKING COLOMBIAN REBELS. IS FAVORED BY THE WIND.

HIS OBJECT TO HOLD UP UNITED STATES ON CANAL RIGHTS.

Old Treaty Binds Washington to Guard the Interests of Colombia, and Now the Battleship Iowa is Ordered to Panama.

Washington, Aug. 16.—A telegram has been prepared at the navy department for transmission to the battleship Iowa immediately upon her arrival at San Francisco, ordering her to prepare to once to go to sea. When the department is advised the vessel is ready an order will follow for her to proceed at once to Panama.

The little cruiser Sailer, which is at Sandiego, was ordered to sail today, but owing to her not being able to travel over six knots an hour, she would require almost fifteen days to reach her destination.

Conspiracy by Castro Charged.

Washington, Aug. 16.—Castro, the dictator president of Venezuela, is now credited with the design of seizing the isthmus of Panama. With the isthmus in his power he hopes to be able to compel the United States to pay him several million dollars for the canal concession.

President Castro, it is known, is furnishing the Colombian revolutionists with money and munitions of war, to be used in overthrowing the Colombian government. If Castro succeeds in overthrowing the government of Colombia, thus securing control of the isthmus of Panama and the Panama railroad, it will undoubtedly be necessary for the United States to interfere and restore the isthmus to its present owners.

By a treaty agreed upon in 1846 between the United States and Colombia this government guaranteed to protect the South American republic and to maintain the latter in its possession of the isthmus of Panama.

Advices received from Colon today show a grave condition of affairs. The revolutionists are attacking Panama and Colon almost daily, and both cities are believed to be in danger of falling.

American at Colombian Legation.

The state department today issued the following: "The department of state is advised by telegram from Mr. Russell charge d'affaires in Venezuela, that the departure of the Colombian minister from Caracas is voluntary and that he has an intention of returning to his post. Mr. Russell has taken charge of the Colombian legation property and archives during the minister's absence. Mr. Russell does not state that he assumed charge of Colombian interests as authorized to do if requested and with the assent of the Venezuelan government. It is inferred he was not asked to do so."

The Ranger, which is at Sandiego, Cal., has been ordered to Panama. It is expected she will be able to leave immediately.

Quiet Day on the Isthmus.

Colon, Aug. 16.—The situation yesterday was quiet everywhere, the government office being closed in commemoration of the feast of the Assumption. Since yesterday the trains have been crossing the isthmus without military escort. Several stations along the line have been garrisoned with small detachments of troops.

BASEBALL SCORES.

Table with columns for American League and National League, listing teams and scores.

Philadelphia . . . 3 9 0 Boston . . . 0 1 0 0 0 0 0 0 1 8 0 Batteries: Donohue and McFarland; Willis and Kittridge.

HUMAN FLESH ON MARKET.

Fearful Famine in Sian-Fu Brings People to Cannibalism.

Pekin, Aug. 16.—Two members of the missionary party that went from here to Tai Yuen-Fu have left this place, carrying relief funds for Sian-Fu. They are accompanied by Major Pereira, who escorted them from here. Reports have reached them that the famine at Sian-Fu was terrible. Human flesh was selling for three cents per pound. In southern Shansi also the distress is great, but in only isolated cases is there absolute starvation. The province of Shansi is composed principally of mountain villages which are difficult of access.

WEATHER FORECAST.

Washington, Aug. 16.—The following is the weather bureau's forecast for Upper Michigan: Fair Saturday; Sunday, showers and cooler; light to fresh northerly winds, increasing.

SISTER OF CZAR A MOTHER.

St. Petersburg, Aug. 16.—Grand Duchess Xenia, wife of Grand Duke Alexander Mikhailovitch, gave birth to a son yesterday. The child will be christened Dimitri.

CONSTITUTION DEFEATS COLUMBIA BY OVER 30 MINUTES.

CATCHES A BREEZE WHILE OLD DEFENDER IS BECALMED.

New Boat Upholds Her Reputation as a Wonder in Soft Airs, Yet Only Leads by Twenty Seconds in First Fifteen Miles.

Larchmont Yacht Club, New York, Aug. 16.—Constitution drifted across the finish line late this afternoon, winner over Columbia by thirty-one minutes and twenty-three seconds.

This difference in time, however, does not represent the difference in speed between the two yachts, a large part of the big margin being due to a fluke in the light air on the second round of the triangular course, fifteen miles. A sudden rain squall brought with it a good sailing breeze of which Constitution was enabled to take advantage while Columbia lay almost becalmed.

The contest of speed was altogether in the first round while the wind, which at all times was light, held true. On every leg the new boat gained and maintained her reputation as a wonderfully fast yacht in soft airs, but Columbia, with perfect sails, was also going fast; in fact, in the fifteen miles the new boat only made up twenty seconds over her time allowance.

Premiums Paid for Steel.

The iron and steel strike, shows little change, but an interesting fact is that, despite the lowered consumption growing out of the strike, the stocks of pig iron are smaller than they were a month ago on a comparatively trifling decrease in production. The finished products affected by the strike are very high, and the position of the canned goods manufacturers, the demand from whom is active, is rendered uncomfortable by the scarcity of tin plates. In structural materials, a large business is going forward and a heavy demand for light hardware is reported the country over.

Profit-Taking in Stocks.

Selling for Both Accounts Depresses Wall Street Prices. New York, Aug. 16.—The setback in prices which occurred today while influenced in a measure by the less favorable aspect of the strike situation, was primarily due to profit-taking sales on the week's rise.

Improvements had been made in prices from day to day, and the resultant sharp drop showed some striking profits on long account up to last night.

Naturally enough, the Western and Pacific stocks, which had made the largest gains recently, had to take the brunt of the selling. But little rallying power was displayed by these stocks at any time during the day, the temporary gains being immediately cancelled by renewed sales for both accounts. There were losses at the low point an average of a little more than 1 per cent. St. Paul figuring for an extreme decline of 1 1/2%.

While the Western division was generally under pressure, there was heavy buying at times of the bituminous and anthracite coal stocks, causing an improvement in Norfolk & Western of 1 1/2 points and in the Wheeling & Lake Erie of 2 1/2.

The southwestern railroad stocks were less prominent than heretofore, and the announcement of the acquisition by the Washab of the Omaha & St. Louis road failed to strengthen the Washab issues.

There were heavy purchases of Amalgamated Copper late in the day, and the stock rose 2 1/2 points on reports that a combination in which the company figured had secured control of the copper production of the country. Its top figure was not maintained, however, the price running off a point near the close, and it ended a point lower. There was no news to account for the conspicuous strength of People's Gas, which improved 2 1/2 points in the face of the heaviness elsewhere.

Reports that the United States Steel Corporation had secured control of the Republic Iron & Steel company caused more active dealings in the latter stocks, and they each ended a point higher. Large blocks of the United States Steel issues were dealt in at the opening, and it was at this period that the low price of the day was made for common. The final price for common was the lowest, and preferred closed only 1/2 above the lowest and is 1/2 down on the day.

The market was very dull in the closing dealings and ended weak, as follows:

TRADE STILL GAINS

BETTERMENT IN TONE AND DEMAND ALIKE IS NOTED.

EXPORTS OF WHEAT VERY HEAVY.

SHORT CROP OF CORN OFFSET BY THE HIGHER PRICES.

Steel Strike Brings Higher Quotations for Finished Forms, but Despite the Reduced Consumption of Pig Iron, Stocks Decline.

New York, Aug. 16.—Bradstreet's tomorrow says:

"Improvement alike in tone and demand is noted in trade circles this week, and fall trade may be said to have begun actively. While the most optimistic reports come from the Northwest, several large markets in the corn belt send more cheerful reports, based partially upon still further improvement in crop conditions, but likewise as a result of the growth of the feeling that, while the yields of most crops will be smaller than last year, the prices paid for the same will be higher and the purchasing power of the agricultural community as a whole will be little impaired. The advance in wheat, corn, oats and hog products supports this view.

Canned Goods Tending Upward.

"The weather and crop conditions in the Northwest combine to give that section specially generous yields and stimulate the jobbing demand in nearly all lines. Good crops in the Pacific Northwest are also reported, and the outlook for fall trade in that section is a cheerful one, the only flaw at present being the strike confronting the shipping interests at San Francisco.

"Fresh vegetables, fruits and country produce are scarce and high in price, while canned goods also tend high. The Southern trade advices are marred by the damage inflicted by the severe storm of Wednesday and Thursday, which appears to have hurt the Louisiana rice crop severely but is not thought to have hurt sugar and cotton very much.

"In the textiles, it is to be noted that the talk of strike, with necessary curtailment of production, has not strengthened print cloths, which are three-sixteenths lower on the week. Woolen goods appear to be better situated than those of cotton, and in raw products the lower and fine grades of wool are firm with some tending upward, while raw cotton is without change.

Receipts and Shipments were as follows:

Table with columns for Receipts and Shipments, listing various commodities and their quantities.

Receipts and Shipments were as follows:

Flour, barrels, 19,000 19,000 Wheat, bushels, 274,000 103,000 Corn, bushels, 133,000 68,000 Oats, bushels, 454,000 169,000

Exports of Wheat Very Heavy.

Chicago, Aug. 16.—There was a fair trade in wheat today, with the fluctuations frequent and covering 1 1/2 to 1 3/4 cents range.

The market opened firm and the initial trades showed an advance, but weakness developed later, followed by a complete recovery at the close, with gains of 3/8 to 1/2. The strength at the start was due to the cables, spot at Liverpool being steady to 1/4 lower, with the futures off only 1/8 to 1/4. After the opening the liquidation of long stuff caused the decline. Favorable weather in the Northwest and the bearish crop report of the Orange Juice Farm also were weakening factors early.

The clearances were liberal—\$29,000 bushels—and the seaboard reported thirty-four boatloads accepted for shipment. The local receipts were 118 cars. Strength at St. Louis, reports of adverse French crop news and the sharp bulge in corn were late bulwarks and induced shorts to cover, causing a complete recovery in prices.

In corn there was a large trade and a firmer feeling, the close showing gains of 1 1/2 to 1 3/4 cents. The offerings were not as free as of late, while the demand was better. The reports from Ohio and Indiana were quite bullish, the cables were surprisingly strong and the statistics of the Orange Juice Farm pointed to a crop of only 1,100,000,000, all of which tended to strengthen the situation.

At Liverpool, spot and futures were unchanged. The receipts were 133 cars.

Oats ruled fairly active, but were unsettled, being off early but higher later, and closed about at the top with an advance of a cent. The market followed the other grains. The offerings were moderate and well taken.

The leading futures ranged as follows: September wheat opened at 71 1/2 @ 71 3/4; highest, 72; lowest, 70 1/2; closed, 71 1/2. September corn opened at 57 1/2 @ 58; highest, 59; lowest, 57 1/2; closed, 58. September oats opened at 35 1/2 @ 36; highest, 36 1/2 @ 36; lowest, 35 1/2; closed, 36.

Receipts and shipments were as follows:

Table with columns for Receipts and Shipments, listing various commodities and their quantities.

Receipts and shipments were as follows:

Favorable weather in the Northwest and the bearish crop report of the Orange Juice Farm also were weakening factors early.

The clearances were liberal—\$29,000 bushels—and the seaboard reported thirty-four boatloads accepted for shipment.

The local receipts were 118 cars. Strength at St. Louis, reports of adverse French crop news and the sharp bulge in corn were late bulwarks and induced shorts to cover, causing a complete recovery in prices.

In corn there was a large trade and a firmer feeling, the close showing gains of 1 1/2 to 1 3/4 cents. The offerings were not as free as of late, while the demand was better.

The reports from Ohio and Indiana were quite bullish, the cables were surprisingly strong and the statistics of the Orange Juice Farm pointed to a crop of only 1,100,000,000, all of which tended to strengthen the situation.

proceeded this week on a steady and satisfactory scale throughout the East, and in the West and Southwest the relief from the long drouth and heat is beginning to be reflected in a larger retail trade, so that for the quarter the promise is held out of a larger business than last year.

"The crop condition in the territory most affected by the recent drouth is improving, and the weather has been highly favorable in nearly all districts east of the Missouri river, though rains have interrupted the spring wheat harvest.

"The steel strike has affected prices extensively, particularly on sales for immediate delivery. In tin plates, the advance has been the greatest, while hoop and sheet steel and skelp billets are sold at premiums. The quotations are too erratic for accurate record, and in many cases the sales are at private terms. Confidence is steadily shown by the placing of distant deliveries at regular prices."

Bank Clearings.

A statement compiled by Bradstreet's show the total of the bank clearings at the principal cities of the United States for the week to be \$1,670,252,727, an increase of 32 per cent. compared with the corresponding week of last year.

GRAINS SHOW FAIR GAINS.

Crop Statistics from France and at Home Turn Markets Strong.

Chicago, Aug. 16.—There was a fair trade in wheat today, with the fluctuations frequent and covering 1 1/2 to 1 3/4 cents range. The market opened firm and the initial trades showed an advance, but weakness developed later, followed by a complete recovery at the close, with gains of 3/8 to 1/2.

The strength at the start was due to the cables, spot at Liverpool being steady to 1/4 lower, with the futures off only 1/8 to 1/4. After the opening the liquidation of long stuff caused the decline. Favorable weather in the Northwest and the bearish crop report of the Orange Juice Farm also were weakening factors early.

The clearances were liberal—\$29,000 bushels—and the seaboard reported thirty-four boatloads accepted for shipment. The local receipts were 118 cars. The reports from Ohio and Indiana were quite bullish, the cables were surprisingly strong and the statistics of the Orange Juice Farm pointed to a crop of only 1,100,000,000, all of which tended to strengthen the situation.

At Liverpool, spot and futures were unchanged. The receipts were 133 cars. Oats ruled fairly active, but were unsettled, being off early but higher later, and closed about at the top with an advance of a cent. The market followed the other grains. The offerings were moderate and well taken.

The leading futures ranged as follows: September wheat opened at 71 1/2 @ 71 3/4; highest, 72; lowest, 70 1/2; closed, 71 1/2. September corn opened at 57 1/2 @ 58; highest, 59; lowest, 57 1/2; closed, 58. September oats opened at 35 1/2 @ 36; highest, 36 1/2 @ 36; lowest, 35 1/2; closed, 36.

Receipts and shipments were as follows:

A HEALTHY WOMAN.

Mrs. Clara Makemer, of The Florence Crittenden Anchoorage Mission, Chicago.

Mrs. Clara Makemer, formerly with the Christian Medical Hospital and Dispensary, of Chicago, and present housekeeper for the Florence Crittenden Anchoorage Mission, of Chicago, writes the following letter from 302 Chestnut street, Chicago:

"The Peruna Medicine Co., Columbus, O.: Gentlemen—Peruna is the best tonic I have ever known for general debility—a sure cure for liver complaint, and a never-failing adjuster in cases of dyspepsia. I have also used it in cases of female irregularities and weak nerves common to the sex, and have found it most satisfactory. For almost any internal trouble Peruna is an ideal medicine chest.

Mrs. D. Finlay, Potoskey, Mich., writes: "I never was better in my life than I am now. Peruna has cured me. I was fifty-seven years old last Friday

and don't feel as if I could be more than twenty. I was sick for five long years. I doctored all the time. Nothing helped me permanently until I heard of Dr. Hartman and his medicine and he cured me. I had been so sick, suffered almost death, vomiting three or four times daily, no strength, not able to walk, and now for one year and a half I have been a well woman. People are surprised to see me so well. I tell them that Dr. Hartman cured me with Peruna."

For all of that class of disorders known as female diseases, Peruna is without a rival, because it strikes at the source of these diseases. Peruna produces clean, healthy mucous membranes, without which no woman can be strong or beautiful. "Health and Beauty" sent free to women only, by The Peruna Medicine Co., Columbus, Ohio.

WM. G. COLES, Third Street MEAT MARKET.

MARRIED AT SAN FRANCISCO.

Charles H. Covell and Wife Have Sailed for the Philippines.

Charles H. Covell, who is mentioned in the following Ypsilanti dispatch to the Detroit Evening News, was principal of the Marquette high school last year.

"Word has been received that Professor Charles H. Covell, of St. Louis, Mich., recently appointed a teacher in the Philippines, and Miss Alice L. Heron, of Bozette, Idaho, were married in San Francisco, Cal., just before the transport, with the Philippine teachers on board, sailed for Manila.

"Mr. Covell graduated from the university and Miss Heron from the Normal school in 1895, and they first met the next fall, when they took charge of the St. Louis, Mich., high school. For the past two years Miss Heron has been teaching at her home, Boise City, but when Mr. Covell received his Philippine appointment, arrangements were quickly made for the wedding in San Francisco.

COPPERS LIVEN UP.

Mass and Adventure Showed Notable Strength Yesterday.

Yesterday was the liveliest day the copper market has seen for some time. A number of the stocks showed activity. There were numerous transactions in Mass and Adventure and they were reflected in the prices. Michigan also looked better. Paine, Webber & Co. said:

"Coppers were higher and active today. Good buying appeared in all. They were helped by the report that the Amalgamated interests and the Rothschilds had signed an agreement for the control of the metal market. Amalgamated was strong on heavy buying from New York. We think all the coppers are a buy, and we believe the South range group is as attractive as any."

Hayden, Stone & Co. wired the Laidley Commission Co. "Coppers have been strong today on good buying. We would confine purchases of coppers to such stocks as Adventure, Mohawk and Wolverine. Mass is strong, but we don't like the methods used to advance the stock. We would take profits on Mass for the time being."

COMMUNICATED.

"A Citizen" Who Would Like to See a Clean City.

To The Mining Journal—Having been a silent reader of the various articles pro and con, in regard to the duty of our board of health and the other city officials, I desire to ask if we, as a people, do not forget our own duties in this connection.

Is it not our duty to try and assist our city officials in carrying out all needed reforms? Go where you will in our city, are not the streets and certain lots in dilapidated condition? Then are not we, as citizens, neglecting our duties by not trying by every means in our power to abate these nuisances, so prominent to the public gaze?

Is our street commissioner doing his duty? If not, why? We should not expect a man to be a successful banker without qualification therefor, and, if we are dissatisfied, why not place a man in the office who has the qualifications requisite to make our streets and lots a pride instead of an eyesore?

Therefore, let us unite and assist to make our city "The Queen", in reality, as well as in name.

A. CITIZEN.

D., coadjutor bishop of Chicago, will preach at both the morning and evening services. There will be a service at Chocoyah at 3 p. m.

First Baptist church Rev. H. E. Prittton, pastor—Morning services, 10:30 o'clock; subject, "Three Great Nations of Antiquity and Their Contributions to Christianity." Evening subject, "The Wonders of the Heavens and Their Religious Message."

Methodist—The pastor will preach in the morning on, "Reasons for Gratitude." In the evening the subject will be, "The Judgment Day, When?" The Epworth league will meet in the auditorium at 6:45 p. m. All are welcome.

First Church of Christ, Scientist—Sunday services at the church hall, 109 Spring street, at 10:30 a. m. Subject, "Mind." All will be welcome.

St. Margaret's Mission (Episcopal), South Marquette—Sunday school at the usual hour.

We, the jury find that the deceased came to his death from heart failure, caused by not taking Rocky Mountain Tea made by Madison Medicine Co. The Stafford Drug Company.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

DOUBLE USE OF WIRES.

Telephone and Telegraph Operated Simultaneously by Northern Pacific.

St. Paul, Aug. 16.—C. H. Gaunt of the Northern Pacific telegraph department has invented a system for the simultaneous transmission of telephonic and telegraphic messages over the same wire. The Northern Pacific is making tests between St. Paul and White Bear Lake, and some remarkable results are being secured.

An official of the company said today that the apparatus has been in use for two or three weeks, and that it has given perfect satisfaction. After the system has been more extensively tested it will be adopted in connection with the transcontinental telephone system which the company is gradually installing. The line from Tacoma to Seattle has just been completed.

ARCH ROCK IS NO MORE.

Explosion in San Francisco Bay Successful—A Thrilling Sight.

San Francisco, Cal., Aug. 16.—Thirty tons of nitrogelatin were exploded under Arch rock, in San Francisco bay, twelve minutes after noon yesterday and thousands of spectators on shore three miles away witnessed the spectacle of Hell Gate in 1878.

Two acres of solid rock were lifted 300 feet into the air by the mighty force of the explosion, and when the maelstrom of foam and swirling waters had subsided Arch rock, always a menace to the lives of men and ships, had disappeared from view forever.

There was no tossing of tons of water high into the sunlight. The great bulk of green water, capped with foam, rose almost majestically into the air—100, 200, 300 feet—and then still higher. It was like a great black and green storm cloud crested with vapor. The cloud of water seemed to hover an instant when it had reached its greatest elevation. And it was at this instant that the tremendous force exerted by the thirty tons of nitrocelatin was seen and appreciated. For, as the mass hastened before its fall, great pieces of rocks could be seen tumbling about in the smothering volume of water 300 feet and more above the surface of the bay.

Then the huge bulk settled slowly back into the bay and the spot occupied by Arch rock ever since the memory of the oldest inhabitants began, was marked only by a slowly revolving mass of white foam.

It was not until the waters had sought their former level that the sound of the explosion's roar reached the people on shore. Then it came in a deep, diapason of sound that swelled to a mighty fortissimo and then died away.

It took many months of work with specially invented tools to drill and cross drill the thousands of holes in the base of Arch rock, but the culmination lasted only a minute, perhaps two. The explosion is said to be the greatest blast ever set off in this country. The blowing up of Hell Gate, in the harbor of New York, 1878 consumed a greater quantity of powder, but it was block powder, which did not have the destructive effect of the more modern explosives.

NOW LOCATED IN MARQUETTE.

The Sick Receiving Medical Services Free.

The Boston Specialists have located their offices at No. 423 North Front street. These eminent specialists treat all Chronic Diseases and Deformities of Men, Women and Children. The rich and the poor alike are treated. You need not bring money, as consultation and advice is free. **Ishpeeming and its Environs.**

**IMPROVEMENTS COMPLETED.**  
 Extensive Work at Miners' National Bank Just Finished.

Painters yesterday gave the interior of the Miners' National bank the finishing touches. The extensive improvements just completed were begun early in June and part of the time since they worked day and night with a view to getting the place in shape as soon as possible.

The interior is now as convenient as anyone could wish a banking house to be. All the officials and employees have ample room for their desks, and greatly enjoy the improvement in their environments.

The greatest and most important changes were made about the vaults. The old vault was removed from the center of the room to the wall on the west side. It will be time since they worked day and night with a view to getting the place in shape as soon as possible.

The vault is 12 feet long, 7 wide and 12 high. The money vault is 7 feet in length, 6 1/2 wide and twelve high. The outside of the latter is solid steel and it has raised iron lining. The stone work about both vaults is of unusual thickness and the fellow who undertakes to go through the walls of stone and iron will certainly have a job on his hands. The vaults are provided with time locks and both are fire proof.

In addition to the banking room there is a private office, which will be used by the officials of the institution. A space has also been reserved for the manager of the insurance department which the stockholders of the bank are conducting. The lobby is almost twice as large as formerly, allowing additional space that is at times much needed for the accommodation of patrons.

The stockholders of the banking house have reason to feel satisfied with the business being done. The deposits have increased within the last year from \$870,000 to \$1,100,000. The loan business has increased in the same period from \$312,000 to \$308,000.

Manager Smith of the insurance department informed the report recently that this branch of the stockholders' business is flourishing. He said that a great deal more new business had been written than the parties interested thought could be secured in so short a time.

**TEACHER SUES CITY.**  
 A Young Lady Known to Many Ishpeeming People Sues City of Ironwood.

Miss Etta Leininger has engaged W. T. Potter of this city and A. K. Sedgwick of Ironwood, formerly of this place, to look after her interests in a suit for \$2,000 damages against the city of Ironwood. The following, from a recent issue of the Ironwood News, gives information being on the case.

"Miss Etta Leininger, by her attorneys, W. T. Potter of Ishpeeming, and A. K. Sedgwick of this city, filed this week a claim of \$2,000 against the city of Ironwood with the city clerk for personal injuries received on the evening of June 7 on account of a defective piece of sidewalk on Pewabic street. "It will be remembered that Miss Leininger fell into a hole in the sidewalk on Pewabic street on the evening of June 7, while returning from a social held that evening. She not only received a sprained ankle but also injured her back and limbs. She was confined to her room for over a month and suffered intense pain as a result of the injury. The city council will consider the claim at its meeting Tuesday afternoon."

Miss Leininger is well known to many Ishpeeming people, and has relatives in this city. She has visited here at different times during the past few years. It is the belief of many Ironwood people that the young lady has a strong case and it is said that the officials of the city are disposed to settle with her. The outcome of the suit will be watched with no little interest here.

It is surprising that there are not more people looking for damages from cities on account of injuries received through defective walks. Hardly a day passes but reports come from different places in this section of persons being injured in that way. In Ishpeeming the walks are in much better shape than in most places on the upper peninsula.

**METERS ARE ORDERED.**  
 At a recent meeting of the board of public works a contract to supply the city with five hundred Tident water meters was awarded to the Neptune Water Meter company of Chicago.

While the Neptune company did not submit the lowest figure for supplying the meters, yet the contract it presented was far superior to the ones offered by the other concerns. Its guarantee is far more liberal than was any of the others. Taking everything into consideration, including the quality of the meters, the board feels that it has made no mistake in selecting the Tident meter.

The first consignment will arrive the latter part of next week and will be at once installed in the places, where the most water is consumed. This, of course, will be at the mines and the railroad water tanks. The saloons and other large consumers will be supplied with machines as soon as possible. The whole consignment of five hundred meters must be delivered to the city within the next three months so that they can be put in place before the cold weather sets in.

**WHAT A TALE IT TELLS.**  
 If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at Stafford's drug store.

Bargains in shelf hardware, cutlery, shears, and everything in our store closing out. Will sell at prices that will surprise you.  
**I. E. SWIFT & CO.**  
 (8-3-16d)

**WILL BUILD NEW SCHOOL.**  
 A Fine, Eight-Room Building Will be Erected at the Winthrop Location.

Contractors are now preparing their estimates on the cost of erecting a new school house at the Winthrop location. The matter of providing a new building between the proposed sites seems to have been under consideration for some time, but it has been a most difficult matter to determine where the school should be located. Some favor putting it down near the entrance to the location, while others want it up on the hill. Persons who live about midway between the proposed sites seem to have little choice and they will be satisfied no matter where the building goes.

Speaking of the site yesterday, Captain John Trebilcock said that the question would be determined within a few days, as soon as officials of the Oliver Iron company responded to a letter sent them a short time ago. They were asked to allow the building to be erected on the hill south of Section 21 mine engine house. In case permission is granted the old school site will be at the disposal of the company. The offer of an exchange of sites was made, but work about both vaults is of unusual thickness and the fellow who undertakes to go through the walls of stone and iron will certainly have a job on his hands.

The new building will be something like the school that was erected on Park street in Negaunee a couple of years ago. There will be eight school rooms, with a basement for the entire structure. It will be finished in the most modern style and the equipment will be up-to-date. Several bids have been received, but none of them have yet been opened. One contractor who asked an opportunity to bid is delayed in getting his figures in and the members of the school board granted him a few days more time.

It is not expected that the new building can be ready for use early in the school year, but an effort will be made to complete it by the commencement of the term immediately after the holidays.

Professor Norcross, who had charge of the Winthrop for some years, has given up the position and has accepted a principalship in a West Superior school. Mr. Norcross is preparing to move his family to his new home.

**TO REDUCE THE WATER.**  
 The officials of the Lake Superior Iron company have hit on a scheme to take care of a portion of the water that finds its way into Section 21 mine from surface and is later brought up by the pumps. The mine is one of the wettest in the county and at times the pumps are kept busy taking care of the surplus water.

There is a creek above the workings, just east of James Lucks' store. It is known that a great deal of water from it drains through into the workings. To prevent this a heavy launder will be put in, extending about 1,000 feet distant and leading to a point beyond the road that passes over the hill toward the Iron Cliffs location.

It will require in the neighborhood of 50,000 feet of lumber for the launder. Contractors Regstrom and Wahlman & Son are preparing estimates on the cost of furnishing the lumber and doing the work. It is likely that a little later a carpet department will be put in the second floor. In the event of this being done additional space aside from that taken up for the storage of the surplus stock will have to be secured.

**ENLARGING THEIR STORE.**  
 Kahn & Skud have had a force of carpenters at work the past week or more making changes in the rear of their store in the McKey block. Two additional rooms have been procured on the second floor to the rear and the surplus stock that was formerly kept in the rear down stairs will be stored above. The additional space below will be given up to the shoe and cloak departments. It is possible that a little later a carpet department will be put in the second floor. In the event of this being done additional space aside from that taken up for the storage of the surplus stock will have to be secured.

**GOOD ADVICE.**  
 The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent. of the people in the United States are afflicted with these diseases and their effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Gnawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, Low Spiritedness, etc. Go to your Druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac. The Stafford Drug Co.

Superior ice cream and choice fruits at Luff's candy palace. (7-15-17)

**NOTICE.**  
 I request all indebted to me to call at my office, 120 Main street, and settle their accounts prior to August 20. I have sold out my confectionery business and am anxious to close my books, as soon as possible.  
 H. C. CAIN.  
 (8-9-17)

Candy, made fresh every day, at Luff's candy palace. (7-15-17)

High living, intemperance, exposure and many other things bring on Bright's disease. Foley's Kidney Cure will prevent Bright's disease and all other kidney or bladder disorders if taken in time. Be sure to take Foley's. The People's Drug Store.

**MICHIGAN DAY AT BUFFALO,**  
 August 20th, 1901.

The D. S. S. & A. railway will sell excursion tickets to Buffalo and return at one cent per mile. Rate from Marquette will be \$13.20; from Houghton, \$15.05. Tickets will be on sale August 17 and 18 and will be good to return until the 26th.

**ISHPEMING IN BRIEF.**

Mrs. James Ames is home from a visit of a month or more with her daughter Eliza at West Superior.

Timothy F. Nolan has opened a law office in the Anderson block, occupying the rooms recently vacated by P. J. McGinty.

Rev. S. Polkinhorn, pastor of the Division street Methodist church, will occupy his pulpit tomorrow at morning and evening services.

Dr. W. S. Picotte has taken an additional room in the Anderson block, second floor, adjoining the room he has occupied for some time past.

Another of the series of Assembly parties will be given this evening at the Anderson hall. Trombley's orchestra will furnish the music.

Sam Blumenthal spent yesterday in the city. He stopped off here on his way home from Chicago, where he spent a few days buying goods for his Lake Linden store.

Superintendent R. D. Ewing of the Escanaba public schools is spending a few days in the city. He is out during his vacation in the interest of a book publishing house.

William Nichols is now owner of the house and lot at the corner of Second and Ely streets. He purchased the place from Mike Foss, who has lived there a number of years.

Richard Matthews got home yesterday from Lake Linden, where he spent a week visiting relatives. Mrs. Matthews and the children remained to visit a week or so longer.

Dr. Herbert of Detroit, who has been in the city visiting Dr. and Mrs. V. H. Vandevanter the past week or so, will leave for home today. Dr. Herbert is a brother of Mrs. Vandevanter.

The interior of the office rooms occupied by George Hayden and H. O. Young in the Miners' National bank building have been renovated and repainted during the past week or two.

The Ishpeeming baseball team will cross bats with the old Marquette nine at the Queen City grounds tomorrow afternoon. It is expected that a number will go down from here to take in the game.

Arthur Rittenberg and wife will celebrate the fifteenth anniversary of their marriage at the home on North Third street tomorrow evening. A number of friends have been invited to attend the function.

The Seldon Stock company will close its week's engagement this evening at the Ishpeeming Opera House. The bill tonight will be "Ten Nights in a Bar Room." This afternoon's bill will be "The Burglar."

Miss Louise Smith, who taught school here two years ago, was married a week ago last Wednesday to a Mr. Granville at her home in Ionia. They will reside at Grangeville, Idaho, where the groom has a good position.

There will be an admission of ten cents for the Johns-Dooly wrestling match to be held at Union Park tomorrow afternoon. It has been decided to charge this nominal figure instead of doing away with all fee.

Mrs. Johanna Meehan yesterday purchased the double house at 301-305 Oak street from the Ishpeeming Building & Loan association. The price paid was \$1,200, which is considered a reasonable figure. E. C. Cooley closed the deal.

M. J. Caley, manager of the Ishpeeming branch of the Swift Packing company, left last night for St. Paul, where he will spend a couple of days in the interest of the house. The Ishpeeming branch is under the direct supervision of the St. Paul managers.

The Elmore Sisters, who made such a big hit with the "Two Merry Tramps" company last year, are still with the show. In fact the same people who were out under Mr. Rice's management last season are still holding down their places. There has been no changes in the cast, but the play has been rewritten since its last production here.

Major Milsaps will conduct the meetings of the Salvation Army tonight and tomorrow, also next Tuesday evening. This evening at 8 p. m. he will discourse on "The Lights and Shadows of the Bible and Hell and Heaven." Tomorrow at 3 p. m. his talk will be on the regular salvation meeting. Tuesday evening at 8 p. m., there will be an interesting demonstration led by Major Milsaps and Staff Captain Waite. All will be made welcome.

George Oatman took a couple of Joe Gaboury's homing pigeons out to the Escanaba river Thursday. They made the trip back, about twelve miles, in just thirty-one minutes after starting in a direct line. The pigeons are young, and this was the first time they were away from home. The old pair that Joe sent out for a few experimental tests a few weeks ago flew back to Green Bay. They were taken to Michigamme one day and went from there to the Wisconsin city. Gaboury did not know what had become of them until he received a letter from the original owner of the birds stating that they were at his place.

Sleeplessness. You can't sleep in the stillest night, if your digestion is bad. Take Hood's Sarsaparilla—strengthens the stomach and establishes that condition in which sleep regularly comes and is sweet and refreshing.

James White, Bryantville, Ind., says DeWitt's Witch Hazel Salve healed running sores on both legs. He had suffered 6 years. Doctors failed to help him. Get DeWitt's. Accept no imitations. Stafford Drug Co.; H. N. Meloche, Ishpeeming.

**ALL PEOPLE KNOW.**  
 Why is the name DeBell's Kidney Pills imitated? Why are diamonds imitated? DeBell's Kidney Pills are the most valuable medicine the world has ever known. No other medicine will cure Bright's disease and diabetes. No other medicine has cured as many cases of Rheumatism, Heart Disease, Lumbago, Sciatica, Dropsy, Female Weakness, Urinary and Bladder Complaints, Nervous Diseases and disorders of the blood. And no other medicine has never disappointed. Price 25c per box. For sale by Stafford Drug Co.

# Sore Hands

Red, Rough Hands, Itching, Burning Palms, and Painful Finger Ends.

## One Night Treatment

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful, and points to a speedy cure of the most distressing cases when physicians and all else fail.

## MILLIONS USE CUTICURA SOAP

Assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations, and excoriations, for too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women and mothers. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odours. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

**Complete External and Internal Treatment for Every Humour,** Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales, and soften the thickest cuticle; CUTICURA OINTMENT, to instantly allay itching, inflammation, and irritation, and soothe and heal; and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humours, rashes, itchings, and irritations, with loss of hair, when all else fails. Sold throughout the world. British Depot: F. NEWBURY & SONS, 37, Charterhouse Sq., London, E. C. POTTER DRUG AND CHEM. CO., Sole Props., Boston, U. S. A.

### DESERTED BY HIS FAMILY.

Rev. J. A. Greene, a Former Negaunee Pastor, Has Trouble at McComb, O.

The following, from a recent issue of the Chicago Inter Ocean, relative to the departure of Rev. J. A. Greene's wife and two children from their home at McComb, O., caused no little surprise among the clergyman's many friends here:

"Because his twenty-year-old daughter wanted to go on the stage and his wife encouraged the girl in her infatuation, desolation now reigns in the household of the Rev. J. A. Greene, pastor of the First Presbyterian church of McComb, Ohio.

"Sunday Mr. Greene preached at a church five miles from home and went to Findlay to attend a camp meeting. He returned the following night and found his family—wife, daughter and son—up and dressed, although it was nearly 12 o'clock. He thought nothing of this, and retired to his own room. In the morning he found the house deserted, with a note lying on the table saying not to expect them back as they had gone to Buffalo, where the daughter, Cora, intended to become an actress. She is a beautiful girl with an unusual sweet soprano voice, and since her return from Chicago, where she took vocal lessons, she has been singing at the church. Mr. Greene is completely broken down over the affair, as he has not the slightest knowledge of his wife's intention. They have never had any strife except on this one question, but he vows he will never forgive them or take them back again.

"Cora Greene, the daughter, was her father's pet, and his grief over her adoption of a stage career surpasses that caused by her unnatural departure. It is said that the father himself was an actor before he took up the study of theology. He is strongly dramatic in the pulpit and the girl has inherited her father's histrionic talent."

Rev. Greene presides over the Presbyterian congregation in this city for over three years, up to a little over a year ago, when he removed to the Ohio town. There was never a pastor in charge of the church here since. He has friends there, but he and all express sympathy for him. He is a kindhearted man and was always trying to please his family. His efforts in that direction were not appreciated by his daughter Cora, who has had a craze for the stage for several years past.

Alvin Greene, son of the minister, and his wife, have gone east, and it is assumed they will visit Mr. Greene at McComb, before their return to Negaunee.

### WILL RETIRE FROM BUSINESS.

D. G. Stone, one of the oldest merchants in this part of the upper peninsula, has announced that he will dispose of his stock of groceries and retire from business. His store is at the head of Iron street, west, corner of Cyr street. He has been in business here off and on for the past forty years. His first venture in that line was in a building almost opposite the Cyr block, when he bought out a man who established a store there soon after the town sprung up.

Mr. Stone claims that there are more stores in Negaunee than a place of twice the population will support. There are some here who will agree with him in this, as it is an undisputed fact that the grocery business is badly cut up.

### WILL ORGANIZE HERE.

The "Hob" society organized in Ishpeming last Sunday furnished so much amusement for the members that the Ishpemingites propose to organize a branch in this city. It is understood that George Wanek and Odie LaCroix will be over here soon to perfect the organization. The idea of dressing like "hobs" at a picnic catches the fancy of many here and it is certain the crowd fellows from Ishpeming will have no trouble getting many signers to their character list. After the organization is perfected there will be a turnout of both branches. It is understood that no member shall be permitted to come to the picnic unless attired in the society's regulation uniform.

### LOCAL LAONICS.

C. H. Shafer was up from Marquette yesterday.

Joseph Kirkpatrick is now owner of a driving horse and trap.

Phil Abbott is building an eight room dwelling on Merry street. The frame was raised Thursday.

Bert Balcon has taken to peddling meat about town, with headquarters in the Lloyd building on Jackson street.

The Hooper hotel, opposite the South Shore depot, presents a much improved appearance since it was given a fresh coat of paint.

The twelve-year-old son of Moses Yell of Sands died last Saturday night after an illness of several months. Heart trouble caused his death.

A fakir who did business on the street corner Thursday evening disposed of some goods, but did not go away with his pockets very well lined.

The frame work was raised on Ben Neeley's new business block yesterday. Charles Muck has the house he is moving to Cherry street as far as Brown avenue.

Rev. Mgr. Langner has been suffering from rheumatism the past two weeks or so. He has an assistant temporarily and the regular masses will be celebrated tomorrow.

Weeds are thriving in the lawn at the Park street school. It will soon be up to the new janitor to put in some work there in order to get the lawn in presentable shape.

R. W. Olson has taken the upper peninsula agency for the British pens, something way ahead of the ordinaries. He can give employment to a few good agents.

J. C. Kirkpatrick and wife are up from Escanaba. Mr. Kirkpatrick will spend a few days in the woods at Spor-

### PLENTY OF ICE.

There Will Be No Famine in the Upper Peninsula This Year.

Richard Kappes, the local ice dealer, reports that so far as he has been able to ascertain none of the dealers who were caught with short supplies of ice last year will experience any trouble of that kind this season. He, for one, will not be scouring the country in search of ice to keep his patrons supplied, and feeling good about it. Last year he disposed of 450 cords, but he could have sold twice that amount if he had it. Dealers from all parts of the upper peninsula were after him, but his supply fell considerably short of meeting the demands at home. Last winter he stocked 500 cords, which will be sufficient to supply his patrons until next winter's product is available. Mr. Kappes has opposition here this year in the ice trade but in spite of this he figures on just as large a business as he has ever had in one season.

Most of the interest throughout this section learned a lesson last year. Those who were in a position to enlarge their storage houses did so, and all put up more ice than formerly. They could have made some easy money last summer if they had ice enough to send to some of the outside concerns that called for it.

Dealers report that this season's consumption up to date is about the same as it was last year. The heavy drain on the supply last year came about this time, when there was a continuous hot spell lasting several weeks.

### WILL NOT PICNIC.

The question of whether or not a picnic shall be held under direction of the local lodge of Odd Fellows has been considered by members of the society for several weeks past. Some favored having the outing on Labor Day at the Cleveland Park. When it was learned that the grove would be in possession of the labor unions of Ishpeming that day Presque Isle was talked of. At the regular meeting Thursday evening it was decided to drop the picnic project for this season. At the conclusion of the meeting the members had a social time that was voted one of the pleasantest functions the society has held in a long interval.

### A GOOD MAN COMING.

T. E. Ludlow, who recently gave up his position with J. M. Perkins, will be succeeded by an expert watch and clock repairer. The new man is A. J. Felkel, who has been engaged in the same line of work for some time past at Eau Claire, Wis. In looking around for a suitable man Mr. Perkins found one that was more highly recommended than the Wisconsin man. Mr. Felkel is an expert engraver and will be prepared to do work of any kind in that line. He will be here about the 25th of this month.

### THE TEACHERS' EXAMINATION.

Professor F. D. Davis, who has been at the Northern Normal the past two days conducting a teachers' examination, reports that there were twenty-three applicants. Two were men and twenty-one women. Eleven were examined for second grade certificates and twelve for third. Mr. Davis rather expected some applicants for first grade certificates, but there were none. On the whole the meetings were quite successful.

### ASTONISHED THE EDITOR.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50c at Stafford's.

Weeds are thriving in the lawn at the Park street school. It will soon be up to the new janitor to put in some work there in order to get the lawn in presentable shape.

R. W. Olson has taken the upper peninsula agency for the British pens, something way ahead of the ordinaries. He can give employment to a few good agents.

J. C. Kirkpatrick and wife are up from Escanaba. Mr. Kirkpatrick will spend a few days in the woods at Spor-

ley's camp, while his wife will visit with Mrs. Sporley in the city.

Miss Roraback, who has been in the city visiting at the home of F. D. Davis the past week or more, left yesterday for Brainerd, Minn., where she will remain a short time with friends.

Mr. and Mrs. John Uren mourn the death of their twin babies, a boy and girl, aged about eight months. One died a few hours before the other. The funeral of both took place yesterday.

The twin baby boy of Matt Abramson of the race course addition died Thursday. The other child is quite low and its recovery is doubtful. The babies were born about three months ago.

William Borlace, the new janitor at the Park street school building, started to work Thursday. He will be busy from now until the schools open on Tuesday, Sept. 3, cleaning the floors, desks, etc.

A meeting of the local court of the Catholic Order of Foresters will be held tomorrow afternoon at the society's new hall in the Mulvey block. The hall is a neat one and the Foresters are quite proud of it.

The farmers of this city and vicinity have finished their haying. Some of them figure on cutting a second crop, though it is not certain that it will pay them to do it. Last year some of the farmers did so and they say they were not repaid for their labor.

J. K. Vetter, advance man for the "Two Merry Tramps" company, spent yesterday in Negaunee billing the town. His show will be here next Friday evening, the 23rd. The company will bring out a large attendance here, as it gave excellent satisfaction last season.

York & Skerleck's Uncle Tom's Cabin company will hold the boards at McDonald's Opera House next Tuesday evening. The company is a large one and it is said that a fine band and orchestra is carried. The reserved seats tickets will be placed on sale today at Perkins' drug store.

Three vagrants appeared before Justice T. Trathen yesterday. One, a cripple, was advised to leave the city without delay. The last seen of him he was going up the Chicago & Northwestern track in the direction of Ishpeming. The other two will probably spend a time in the county jail.

Many of the Negaunee people who are building new homes are very much annoyed at the delays occasioned on account of the rush of work the plasterers and other mechanics are having. Some who expected to be occupying their places by this time are still waiting on the plasterers. Now they say they will be satisfied if they only get into their new homes before the cold weather sets in.

Peter Chevret's driving horse ran away Thursday, causing considerable excitement on Iron street. The owner's son was driving the horse and it appears that the nag took fright at an approaching street car. The lad was thrown from the buggy and the wheels passed over his body, but fortunately he escaped serious injury. John Ziegler caught the animal as it was running through the street.

O. O. Buck, Beirne, Ark., says: I was troubled with constipation until I bought DeWitt's Little Early Bitters. Since then have been entirely cured of my old complaint. I recommend them. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Mr. Daniel Bantz, Otterville, Ia., says: "Have had asthma and a very bad cough for years, but could get no relief from the doctors and medicines I tried, until I took Foley's Honey and Tar. It gave immediate relief, and done me more good than all the other remedies combined." The People's Drug Store.

### A KANSAS MINISTER.

Rev. L. S. Coulton, of Creveling, Kas., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

### MICHIGAN DAY AT BUFFALO.

The D. S. S. & A. railway will sell excursion tickets to Buffalo and return at one cent per mile. Rate from Marquette will be \$13.20; from Houghton, \$15.05. Tickets will be on sale August 17 and 18 and will be good to return until the 26th.

### THE RIGHT REMEDY.

Your druggist will refund your money if Bunsen's Pine Tar Cough Honey fails to cure. One dose brings relief. Take a bottle and your Cough or Cold will disappear. This is a new discovery and the only cough remedy sold on a positive guarantee—No Cure, No Pay. For sale by Stafford Drug Co.

YOU SHOULD BE PARTICULARLY CAREFUL In who you have make up your

## Seek Relief!

The great proportion of women who suffer never make a serious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, failing of the womb and leucorrhoea are blighting lives almost every home. No woman should neglect herself a moment after she sees indications of female diseases. Almost instant relief can be secured by the use of

## WINE OF CARDUI

It will relieve you right in your own home. Will you accept the testimony of Mrs. Beigler and thousands of other women and really seek relief today? All druggists sell \$1.00 bottles of Wine of Cardui.

109 Chicago Street, Fort Wayne, Ind., March 27, 1900.

Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Theoford's Black-Draught. And since I have started to use it I will not be without it in the house. It helped my sister in Toledo, who did not menstruate as she ought. She was sixteen years of age and nothing else helped her. I was in a very bad state myself before I used your medicine, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took Wine of Cardui. I would be very glad to write any poor woman and tell her how I suffered before I used Wine of Cardui.

Mrs. C. F. BEIGLER

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

## The Export and Table BEER

Brewed from the highest grade malt and hops and purest spring water. Result: A beer as it should be—pure. One bottle of U. P. B. Co.'s beer will make you a connoisseur.

It's the Beer That Makes Marquette Famous.

# GENETT AIR BRAKE

MARQUETTE MAN'S INVENTION TESTED SUCCESSFULLY.

FOR USE ON STREET CARS.

HE HAS BEEN PERFECTING IT FOR PAST FOUR YEARS.

It Operates Surely and Satisfactorily— It Is on the Market and There Is a Big Field for Its Introduction.

L. J. Genett has given his latest air brake for street cars a thorough test, on one of the motors of the local company, during the past several days and he is entirely pleased and satisfied with its showing. Experts who have witnessed the operation of the device say that it is undoubtedly a good thing and that the inventor should have no difficulty in placing it to good advantage. Among those who have observed its workings are Manager Howard Greer and C. H. Blomstrom of the Lake Shore Engine works. They think that the brake is a most efficient device. Mr. Greer says it is a great improvement on the brakes now in use.

Mr. Genett is no new hand in the air brake field, as Marquette people well know. A couple of brakes now being manufactured and marketed are being turned out by the use of patents originally owned by him. His early efforts in this field of invention brought him no financial returns. It was the old tale of the man who went down to Jericho.

This time Mr. Genett alone is interested in his patents and as he has worked out a brake which is a manifest and great improvement on his other devices, as well as on all other air brakes in use in this country, he has the utmost confidence that his labors will not be unattended with material advantage.

The new brake is on the market. Mr. Genett is ready to sell it, if he receives what he considers an adequate offer, or to arrange for its manufacture by a concern which will pay him a good royalty for every brake turned out. He is in correspondence with a number of parties in regard to the disposal of his invention, but he does not know what arrangement he will finally agree to. He expects Chicago men here within a few days to make a thorough inspection of the device. He does not anticipate that it will be on the market long, as there is a big and legitimate demand for just such a brake as he has invented.

### For Street Cars Only.

Of course it is understood that his device is intended for use on street cars only. Mr. Genett has been working on the air brake invention for upwards of ten years. His efforts were early attended with success and a number of years ago he patented his first device, with the result, outlined above, that he lost his inventions and reaped no pecuniary profit.

He realized that he was laboring in a field of legitimate endeavor and, not discouraged, he continued his research and study. The latest brake is the result of work extending over a period of the last four years.

The first device constructed in accordance with the new invention has been in use on Car No. 4, of the Marquette & Presque Isle company, for the past conditions and has been found to work perfectly. It handles the motor in a manner with which no fault can be found and is operated surely and easily by one of the regular motormen.

The brake is particularly valuable on the down hill runs, if it makes it possible to handle the car smoothly and evenly. As a saver of wear and tear on the motorman and car it is unexampled. It lightens the labors of the former many per cent and does away with much of the jarring and pounding of the motor which is unavoidable when the old style brake is used.

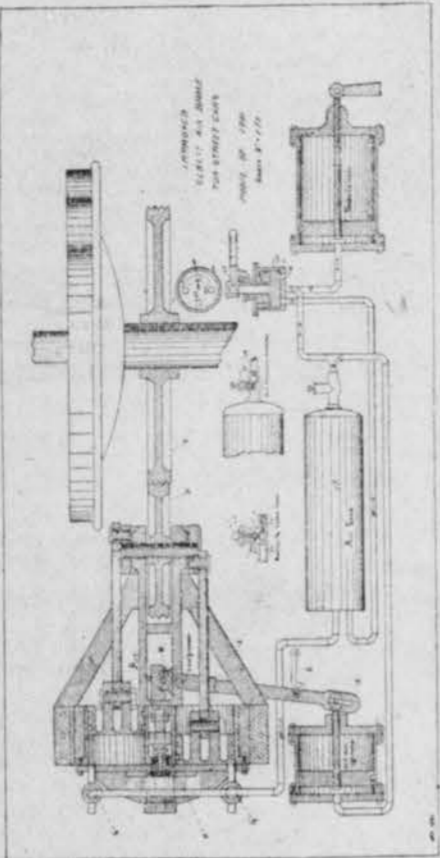

Probably the severest test of the brake is its use in making a stop while the car mounts Front street hill. It responds nobly, the motor coming to a standstill instantly and losing no ground when the brake is released and the current turned on to go ahead. The air is controlled by a small lever

located directly in front of the motorman in the middle of the platform. This lever and a dial, which records the air pressure, are the only things on the body of the car which bespeak the presence of the device. The first brake was installed on Car 4 under difficulties, as the motor had to be cut out on one of the regular runs during the day time. Mr. Genett made all his connections in the night and he was agreeably surprised when he found that they were, to all intents and purposes, perfect.

### Details of the Device.

It is not The Mining Journal's intention to enter into details concerning Mr. Genett's brake. All who want explicit information can obtain it by calling on, or addressing, the inventor here. Mechanical men will be able to get a good idea of the device from an inspection of the accompanying cut which illustrates how the brake lies under the floor of the car.

It should be understood that the invention compresses the air which is used in applying the brake shoes to the four wheels of the car. Its compressors are driven by friction wheels, one set of which is connected with the shaft on

which the gearing of the car turns. Friction being used at this important point, there is no appreciable wear.

By an ingenious arrangement, the compressors are thrown out of engagement when the air tank is under a pressure of some fifty pounds, being thrown in again when the pressure falls off to a certain figure. Thus the device is not running all the time, a fact which conserves it and gives it a longer lease of life.

There is a great field for the introduction of a practicable, simple and reasonably cheap air brake in the hundreds of street car systems operating in this country and Mr. Genett, as well as other mechanical men who have inspected the device, think his invention just about fills the bill.

### "TWO MERRY TRAMPS."

It Was Witnessed by a Packed House Last Evening.

"Two Merry Tramps" was the bill at the opera house last evening. The theater had been closed for the past two months and the fact that the entertainment public is amusement hungry was attested by a crowd which filled the capacity of the house. "Two Merry Tramps" is a nonsensical farce, the particular merit of which lies in the fact that, while it is about as entertaining and commendable as the ordinary run of such presentations, the scale of admission prices is less, by about half, than the usual charge. "Two Merry Tramps" is eked out with a large number of specialties, some of which are meritorious in their peculiar style. There is neither rhyme nor reason to the piece, which is simply a frame work on which to hang nonsense, noisy amusement and "turns." There was plenty of applause last evening and the house gave every evidence of being pleased. The company had many of the same people who appeared here when the farce was last presented in Marquette.

### BOYNTON HERE THIS EVENING.

Marquette Maccabees Will Meet the Father of the Order.

Major N. S. Boynton, popularly known as the father of the Maccabees and one of the leading lights of that important order, will be in Marquette this evening on his tour of upper peninsula points. He will meet Marquette Maccabees at Fraternity Hall, where it is desired that there be a full attendance of the members of the several local organizations. There is no necessity of urging this point, as Major Boynton is known by reputation to every member of the order and there will be a general desire to meet and hear him. The exercises will begin at 8 o'clock.

Mrs. W. H. Van Camp wants information about her son Arthur who left home last winter. Address, Mrs. W. H. Van Camp, Pinconning, Mich. (8-16-21)

Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by DeWitt's Witch Hazel Salve. Certain cure for piles. Beware of Counterfeits. Be sure you get the original—DeWitt's. Stafford Drug Co., H. N. Meloche, Ishpeming.

TO HEAL A HURT Use Banner Salve, the great healer. It's guaranteed for cuts, wounds, sores, piles and all skin diseases. Use no substitute. The People's Drug Store.

### CITY BREVITIES.

Today's weather: Generally fair; fresh easterly winds.

Yesterday's temperature: 7 a. m., 56 degrees; noon, 79 degrees; 7 p. m., 73 degrees. Maximum, 83 degrees, minimum, 59 degrees.

Charles McCabe is absent in Detroit on a visit.

Professor William Hogue will hold his regular weekly hop Monday evening instead of Tuesday as heretofore.

The Misses Atfield left for Chicago on the steamer Peerless yesterday morning. They will visit there for some days.

Ed Atfield has been visiting friends and relatives here the past several days. He is about to return to his home in Chicago.

The Michigan Telephone company's crew finished the task of removing the temporary Washington street cables yesterday.

Father McCabe, who has been visiting friends and relatives in Marquette for the past several weeks, has returned to his home in the west.

Manville Jenks of Ishpeming, a member of the state tax commission, and Captain Jim Wood of Milwaukee were in the city yesterday.

Mrs. Walter Curtis and two children are visiting H. A. Work, Mrs. Curtis' father, night clerk at the Hotel Marquette, at that hostelry.

The Right Reverend Charles P. Anderson, coadjutor bishop of Chicago, and Mrs. Anderson are visiting at the rectory with the Rev. Hugh Spencer and wife.

On account of Matthews and Bulger's engagement at the opera house, Professor Hogue will hold his dancing classes and hop at Fraternity hall Monday, instead of Tuesday, evening.

The Marquette and Ishpeming baseball teams will meet at the Fair grounds tomorrow afternoon. Buses will connect with the street cars at Fair avenue, running to the grounds.

The commissioner has confirmed the decisions of the Marquette land office in the cases of John LaBree vs. Frank Hildebrand, eighty acres in Alger county affected, and Nicholas Saul vs. Alex Hedman, forty acres in Marquette county affected. The decisions in both cases favor the first named party.

Yesterday was the hottest day experienced in some weeks. The air was warm and close and down town thermometers recorded temperatures of over ninety degrees. There was some little suffering from the heat, although it was by no means as intense as was the case on the famous hot days of the month of July.

A youngster, two and a half years old, fell through the opening between the front street window of Joe Smith's barber shop and the sidewalk to the floor of the cellar under the sidewalk about 8 o'clock last evening. No bones were broken and it is expected that the little one will be around shortly, although he received a severe shaking up.

On next Tuesday evening those clever comedians Matthews & Bulger will be seen at the opera house in their new musical comedy, "The Night Of The Fourth." The appearance of this much-praised pair is always hailed with more than passing interest, as their coming means an event of jollity seldom equalled on the stage. Their new piece is a hit and it has everywhere been well received since its initial presentation in San Francisco last August. They have a large supporting company.

Posters advertising the military ball which the Spanish-American war veterans will give at the Casino rink the night of Aug. 21, one of the evenings of the Upper Peninsula Veterans' association's annual reunion here, have been displayed about the city. The soldier boys have placed the arrangements in the hands of competent committees. Their last ball here, the evening of July 4, was a great success and they promise to duplicate it. The Marquette Ideal orchestra will furnish the music.

Constable Lavine of Champion brought two bad characters to the county jail yesterday. They were arrested at Champion, where they burglarized a store, obtaining a large and varied assortment of plunder. They give their names as John Anderson and James Reynolds and claim to live in the copper country. The officers do not believe that they belong in that section, but they think that they are toughs who roam at large wherever they can find good picking. Apparently they are old criminals. They will doubtless be tried in the next term of circuit court.

It has now been decided that steps will be taken by the defendant to carry the Mapes' demurrer case to the circuit court. It will probably be heard next term. As far as can be ascertained, all the city officials are in favor of such procedure. They believe that it is advisable to ascertain what the nuisance provisions of the city charter are worth in the eyes of the law and the extent of the powers and authority of the health officer. The case will serve appreciably to, enliven the proceedings of the term at which it is tried, that is if it is as "juicy" and entertaining as when it was ground through the justice court this week.

Write or call on C. M. Conry for information concerning homesteads and timber land in Oregon. Address all letters to C. M. Conry, Rockland, Mich. (8-17-1w)

We will give big discounts on all bicycle sundries for the next thirty days Now is your chance. R. L. Francis Co. (7-12-11)

Rex and other fine chocolates only 35c per box at Heppner's.

The Hawaiian woman's club at Honolulu debated the question: "Is it better to take Rocky Mountain Tea hot or cold?" Either way it magnifies your pleasure. The Stafford Drug Company.

MICHIGAN DAY AT BUFFALO, August 20th, 1901.

The D. S. S. & A. railway will sell excursion tickets to Buffalo and return at one cent per mile. Rate from Marquette will be \$13.20; from Houghton, \$15.05. Tickets will be on sale August 17 and 18 and will be good to return until the 20th.
