LABOR LEADERS SIT

MYSTERIOUS ALL-DAY CONFERENCE HELD AT PITTSBURG.

MINE WORKERS ARE REPRESENTED.

SECURITY MAINTAINED BUT A SURPRISE IS HINTED AT.

Delegate Says Decided Change to Sorrow of Trust Is on the Tapis, but an Attempt at Compromise Is Suspected.

Pittsburg, Aug. 23.—A summary of the steel strike situation tonight shows the following condition: This city—Star mills, two mills running; strikers say five more men have left the plant and joined their ranks, but the management denies the statement. Painted mill, four mills running; fires lighted in their mill furnaces, but these failed to start as expected. Pennsylvania Tube works, mill idle; machinists say they will quit tonight. All the Carnegie mills running full.

McKeesport—Demmer tin plate plant idle and no attempt will be made to start it before next week. Everything else closed down.

Carbondale—Mills running with same force as yesterday, making two turns, and manager gives assurance that more men will be added tomorrow.

Wellsville—Situation is unchanged; twelve mills running.

Lisbon—Fires started in tin plate plant. Manager says everything is in readiness for a start soon, with plenty of men. The strikers voted today to remain out, and the mill is strongly picketed.

Wheeling—Everything tied up, and no apparent indication of an attempt to start any of the mills.

Bellaire—The National Steel company's idle plant will, it is said, be started next week by a full force.

No late advices have been received from either Bay View or Joliet, and the situation at those points is considered to be unchanged.

Strike Leaders' Session. A conference of labor leaders was the leading feature of the strike during the day. The Amalgamated officials all seemed pleased with the way things are moving, and one of them said, somewhat mysteriously, "In another six days you will see a decided change in the strike that will tell the greater effect on the trust and aid in hurrying the final outcome of this struggle." Just what this change is to be, was not said, but it was inferred strongly that the coming event hinged upon the conference that was taking place.

Two sessions were held by the conference, behind closed doors. Those present at the conference beside the Amalgamated officials were Mr. Jenks, a member of the industrial commission; Mr. Mitchell, president of the Mine Workers; Mr. Easty, secretary of Civic Federation, and Mr. White, general secretary of the United Garment Workers. The conference ended tonight about 9 o'clock and the conferees left for their homes.

Compromise Suggested. The labor conference this afternoon, Professor Jenks proposed that some interested persons should convey to Mr. Schwab, president of the steel corporation, information that a settlement might be effected provided the Amalgamated association officials should sign the wage agreement for the mills they controlled last year. Mr. Jenks left for the East at the conclusion of the conference.

Later—President Shaffer tonight said, in reference to the conference, that the whole strike situation was discussed. There was nothing of importance accomplished. He said no arrangements would be made to submit a new peace proposition to the corporation or further the proposal for arbitration, adding, however, that he did not know what individual action the conference might take in the future. No mention was made of the miners or other trades taking sympathetic action.

May Again Treat With Trust. It is believed that as a result of the meeting another effort will be made to induce the corporation to enter another conference.

LAWSON'S HORSE WINS RACE. \$2,500 Purse at Readville, Taken by Borlma in 2:07 1-4.

DECIDES IT NOT A LOTTERY. Attorney General Finds a Newspaper's Guessing Contest Lawful.

Washington, Aug. 23.—Attorney General Knox today rendered to Postmaster General Smith an opinion on the question whether a certain Western daily paper has violated the law prohibiting the use of the mails for advertising lotteries, gift concerns and similar enterprises. The paper some time ago inaugurated a guessing contest, advertising it would give fifteen hundred prizes, aggregating \$15,000, to the persons making the nearest estimates of the number of paid admissions to the Pan-American exposition from the day of opening to the day of closing.

The attorney general says that unless plainly forbidden by law, the remedy is with congress and not with the department. He says the contestants must go into a careful inquiry as to the facts about the exposition, the public interest and the daily attendance, and continued as follows: "Such estimates, therefore, would necessarily depend in many respects upon chance, are likewise affected by the intelligent calculations of the thoughtful observer. A fair construction of the words, 'dependent upon lot or chance,' excludes estimates which are based upon mental calculations, even though the factors which enter into such calculation may be uncertain and matters of conjecture."

PASSENGERS TERRORIZED. Chicago Woman and Two Sons Fight Imaginary Foe on Train.

Coming, N. Y., Aug. 23.—The passengers on the Erie limited had a lively experience between Elmira and Corning last night. A woman started running through the train, screaming and fighting off an imaginary foe with a big jack knife. With her were two sons, aged fourteen and seventeen, who were afflicted the same as the mother. The woman and her sons apparently had taken some strong narcotic which craved them temporarily. They were apparently all right tonight and were allowed to proceed to Chicago.

Palmyra, Wis., Aug. 23.—A startling case of attempted murder and suicide occurred here this afternoon. Mort Cartwright, aged eighteen, is at the sanitarium fatally wounded while his wife, aged fifteen, is at the home of her grandparents with a bullet in the back; she will recover.

It was only two weeks ago that the young people met and were married. They lived together at the home of his parents. Trouble arising, they separated, she going to Iowa. Later the trouble appeared to be settled and Mrs. Cartwright returned to Palmyra today. She went to the residence of her grandparents, where she was met by her husband. Constans Given Free Hand. Paris, Aug. 23.—While the officials of the French foreign office decline to confirm or deny the despatch from Constantinople announcing that French Ambassador Constans has sent the sultan a letter which is in the nature of an ultimatum, it is learned that M. Constans has been given a free hand. Any step he finds proper to take will be fully endorsed.

The foreign minister, M. Delcasse, if he deems it necessary, will withdraw the French embassy from Constantinople, and M. Munir Bey, Turkish ambassador, now in Switzerland, will be notified not to return to Paris. No naval demonstration is yet contemplated, but the sultan probably would be seriously incensed by the closure of the Turkish embassy here, which is the center of a detective bureau maintained to watch the numerous "Young Turks" and other disaffected Ottoman subjects who make their headquarters in Paris and who will have a free hand if diplomatic relations are broken off.

COPPERDOM MEN HEARD.

Representatives of Houghton County Address the Equalization Board.

The Lansing correspondent of the Detroit Journal, writing in his usual sarcastic vein of the proceedings at the state equalization board meeting, pays respects to the copper country representatives as follows:

Houghton, the mining county, has been heard from. R. H. Shields, "forty years an upper peninsula copper miner," started the ball rolling for the copper country at last night's session.

Shields stated that the true value of copper was about 17 cents a pound. Shields admitted that the price had remained at this figure for a year past, but figured that some combine was responsible for the inflated value.

Representative J. W. Kerr, who followed him, deplored the statement of the upper peninsula men who are being pitted against the lower peninsula in the matter of taxation.

However, Representative Kerr was anxious to show that the supervisors of Houghton county had boosted their valuation to \$88,000,000, which is the full value of the county.

Freeman, by a few pointed questions, brought out the fact that Robert Oakman had previously been working in the mines for two weeks.

As to Keweenaw county, the correspondent says: "Keweenaw county is profiting to the extent of a pound an acre. There are only three mines there being worked at all."

The foregoing all goes to show how the upper peninsula is loved by the lower. It was expected that the board would adjourn yesterday to meet again Sept. 16, at which time the figures of the tax commission will be reviewed, and objections to them heard.

Excitement at Redridge. Seven Finlanders indulged in a free-for-all fight.

Seven Finlanders who had indulged in a free-for-all fight at Redridge Thursday evening were brought from that place to Houghton yesterday afternoon by Deputy Sheriff Wilson and Under Sheriff Beck and landed in the county jail.

The complaint against the men was made yesterday by F. C. Coggin, superintendent of the Atlantic mill, of which most of the men were employees.

Excitement at Redridge. Seven Finlanders indulged in a free-for-all fight. The boarding houses where the Fin-

landers held out are those of Gasky's and Dixon's; and although there are no saloons in the place Mr. Wilson remarked that there may as well be, as houses of the kind to which the whisky is brought from other towns are decidedly worse.

During the revelry the Finlanders flourished knives, although no one was cut up. Yesterday no weapons of any kind were found on their persons, as they were evidently smart enough to throw them away.

COPPERDOM BREVITIES. The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dea Postoffice building, Houghton.

AMERICAN HARD HIT

PROPOSED NEW TARIFF SHOWS GERMANY DESPERATE.

BOUND TO KILL YANKEE TRADE.

PRESENT DUTIES MORE THAN DOUBLED IN SOME CASES.

Rates on Cereals and Provisions and on Manufactures, Especially Shoes and Bicycles, Made Particularly Heavy.

Washington, Aug. 23.—Consul General Mason has sent to the state department a complete synopsis of the new tariff law of Germany, which shows the desperate means resorted to by the emperor's government to drive out American competition.

The increase in the present treaty rate of 3.50 to 6.50 marks (83 cents to \$1.54) per 100 kilograms in the duty on wheat will affect most directly the United States, Argentina, and Russia, which countries exported to Germany in 1900 465,533, 479,228, and 278,195 metric tons of wheat respectively.

Shoes and Bicycles Hard Hit. In respect to American manufactures, the most notable advances made by the present bill are in the rates on shoes and bicycles, and these have been granted in deference to loud, long, and impassioned appeals from German manufacturers, who have professed to find the ruin of their industries in American competition.

The bill as now formally announced is incomplete to the extent that the federal council has not yet completed its discussion of certain provisions, but it is accepted as it stands as embodying what the government is willing to concede to the agrarian party, which, by virtue of its numerical compact organization, and determined purpose, exerts a dominant influence in the imperial parliament.

Of the whole schedule as now presented the following items will affect principally the import trade of Germany from the United States. In this synopsis are given under each head the present normal rate of duty, the minimum rate to which the present duties have been reduced under special treaties with certain favored nations, and the rates designated under the new statute. The rate is in all cases, unless otherwise specified, the net amount in marks and federal equivalent per double centner—i. e., 100 kilograms or 220.46 pounds:

Table with columns: Articles, Present duties, Treaty rates, New duties. Includes items like Wheat, Rye, Oats, Barley, Corn, Flour, Sausage, Pork, Butter, Eggs, Margarine, Cows and oxen, Young cattle, head.

AERONAUT'S CLOSE CALL. Unhurt by Fall, He Is Nearly Bitten to Death by Mosquitoes.

New York, Aug. 23.—Benjamin Benjamin of West Ninety-eighth street, who has been making balloon ascensions at the Plattdeutscher fest in Union Hill, N. J., fell a great distance yesterday and dropped into the Hackensack meadows, not far from the river of that name.

Persons in the vicinity of the aeronaut's final halt could not find him at first on account of the high grass. He was located at last by Harry Ross, who went up to the river to his neck and a little belated service after it had refused to open during the first part of the descent.

After being taken into the boat Benjamin relapsed into unconsciousness. Later he was attended by a physician who said that, although the man's body was in a bad condition from the bites, no bones had been broken.

TRADE ON THE GAIN

IS STEADILY ENLARGING WITH PRICES TENDING UPWARD.

BETTER EVEN IN CORN BELT.

EXCEPT IN SOME TEXTILES, SELLERS HAVE THE ADVANTAGE.

Crop Conditions Are Much Improved and the Week's Developments in the Steel Strike Have Gone Against the Men.

New York, Aug. 23.—Bradstreet's tomorrow will say:

"Evidence multiplies that the tide of trade has turned and that is now seeking strongly in the direction of enlarged business at steady or higher prices. Crop improvement, particularly in the Central West and Mississippi valley, has been the mainspring of the more cheerful tone of advices and the enlarged fall trade operations at such cities as Chicago, St. Louis and Kansas City.

The prices, except for some irregularity in the cereals, have been generally quite steady. Wheat was weak early on enlarged receipts at the Northwest and technical market conditions favoring a decline, but strengthened later on continued poor crop reports from abroad.

Steel Supplies Very Short. Iron and steel show little change. Tin plates and sheets are scarce and hard to get. The Chicago iron and steel jobbers are reported to be on their own account on better crop advices from the states east of the Mississippi, where timely rains have fallen.

Range of Money Rates. New York, Aug. 23.—Money on call ruled steady, at 2 1/2 to 2 3/4 per cent; last loan, 2 1/2. Prime mercantile paper, 4 1/2 to 5 per cent.

BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

GRAIN PRICES CRUMBLE. Chicago, Aug. 23.—In wheat today there was a fair trade, the fluctuations covering seven-eighths of a cent.

IOWA POPULISTS NOMINATE. Des Moines, Aug. 23.—About a score of middle-of-the-road Populists assembled in state convention today and nominated a ticket headed by L. H. Weller for governor.

BAD KENTUCKY FLOOD. Owensboro, Ky., Aug. 23.—Reports have reached here of a terrific water spout on Barnett's creek, in Ohio county. A number of houses were washed away and much livestock was drowned.

TO WAR ON DIPLOMA MILLS.

Springfield, Ills., Aug. 23.—The new state board of dental examiners organized tonight by electing Dr. T. W. Pritchell of Whitehall president.

SOUTHERN PACIFIC PRESIDENT. Chicago, Saturday, Aug. 24.—The Record-Herald says: "It is reported that J. T. Hurlbut, second vice president of the Illinois Central, has been offered the presidency of the Southern Pacific, succeeding Mr. Hays, resigned."

ATLANTA COLLISION SERIOUS. Atlanta, Ga., Aug. 23.—In a head-on collision on the River line of the Rapid Transit company this evening, Harry Williams was killed and seven others injured, three of them seriously.

ALLEGED SHORTAGE EXPLAINED. Jackson, Miss., Aug. 23.—State Treasurer Stowers gave out a statement today with regard to the alleged shortage of over \$100,000 in his accounts. He says the money was deposited with state banks on good collateral.

GOOD ADVICE. The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint.

SHAKE INTO YOUR SHOES. Allen's Foot-Ease, a powder. It cures painful, smarting, nervous and ingrowing nails, and instantly takes the sting out of corns and bunions.

PAN-AMERICAN EXPOSITION. For the above, the C. M. & St. P. railway is offering special rates by different routes to Buffalo and return.

PAN-AMERICAN EXPOSITION. George Toddish was killed in the Burns & Hicks saw mill at Menominee at 9:10 Wednesday evening by a sliver, nearly eight inches long and two inches in diameter, which was hurled from the edge, it striking him in the mouth and penetrating through the neck, says the Leader.

TO THE PAN-AMERICAN. The Michigan Central, "The Niagara Falls Route," has planned a delightful trip for you to the Pan-American exposition and to the eastern resorts, via Niagara Falls and Buffalo at reduced rates, with stop-over privileges.

LOW EXCURSION FARES.—Commencing Sunday, May 19, and continuing every Sunday thereafter until further notice, the D. S. & A. railway will sell excursion tickets to Munising and return at the very low rate of \$1.00. STOCK MARKET MORE ACTIVE. Professionals Put Up the Prices on Still Small Trading.

New York, Aug. 23.—The stock market had more an appearance of animation today than for a long time past. The persistent resistance of the market to any factors of depression and the continued scarcity of the stocks offered, apparently prompted professional traders to inaugurate a movement to put up the prices up.

UPPER PENINSULA. An Old Pastor.

One afternoon this week a portion of the dock at the Sawyer-Goodman company's yards at Menominee was given away and a pile of 18,000 feet of lumber fell into the river.

A son of George Hyofinka, who lives on a farm on the state road eleven miles north of Menominee, was seriously injured by the accidental discharge of a shot gun, with which he was playing, Tuesday.

A fellow pretending to be a pension examiner is traveling in parts of the upper peninsula, and pensioners should be on the look-out for him.

Ill. Scott returned Tuesday night to Menominee from Georgia, where he has been for four months cruising over pine tracts owned by the Illinois & Georgia Construction Co., of which President Soper of the Bay Shore Lumber company is a large stockholder.

But old age comes to the best of men. The rheumatics peculiar to advanced age had already begun its insidious ravages when it became necessary to find a remedy, if possible, that his days of usefulness might not be shortened.

An efficient nerve tonic that would stimulate the circulation, improve the digestion, and increase the tone and vigor of his whole system, was needed. The only remedy capable of meeting all these indications was found to be Peruna. In a recent letter to Dr. Hartman, he states:

"My attention was called some time ago to your medicine for rheumatic troubles by Mr. Cook, an old reliable druggist of this city, and take pleasure in saying that I have tried them and found them good. It is my opinion that the remedy, Peruna, is justly entitled to the fame which it has throughout the United States."

Lower Michigan. Saginaw stands a good chance of losing an industry which pays out about \$2,500 every month for labor.

Miss Mable Corson, a dining room girl at the Vincent hotel at Saginaw, took laudanum about 11 o'clock Wednesday morning because the young gentleman with whom she had been keeping company, went out Tuesday evening with another young lady.

At 9 o'clock Wednesday morning Mrs. Jane Reed, widow of the late Nathan Reed, of Ypsilanti, attended to the Michigan Central train at what is known as the "Baptist church crossing" at Galesburg, was struck by a west-bound freight and was instantly killed.

W. L. Churchill of Bay City gave it out Wednesday night that Bad Axe will have a beet-sugar factory ready for operation in the fall of 1902.

A mass meeting was held Wednesday to secure the necessary \$100,000 which the company required the citizens to raise. In a very few moments about \$80,000 was subscribed and there seems no question about the remaining \$20,000.

Mr. Churchill and his friends have agreed to take \$400,000 in stock, provided the citizens will be made at \$100,000. Arrangements will be made at an early date for securing an ample water supply, the lack of which has up to this time been the only hindrance to the project.

Potatoes reached the highest price in the history of the region near Traverse City Wednesday, when one load went at \$1.28 a bushel.

This price was forced by sharp competition by buyers, but the prevailing price is \$1.10 to \$1.15. Buyers are trying with little success to contract for the output of whole farms in this section at sixty cents, which is as high as the top notch price this spring for last year's potatoes.

The prevailing price averaged about forty cents last year. The acreage is about the same as last year, but the yield is heavier than for several years. The outlook is for dollar potatoes this fall; perhaps higher.

Two strangers driving a chestnut horse put up at Four-Mile Lake, east of Chelsea, Monday afternoon and hired a row boat of Henry Hinegar. At dark they had not returned, so the following morning Hinegar reported the matter to the local authorities.

Officers Wood and Lehman went to the lake and searched all day, and late Tuesday night they discovered the two bodies in the water. In the boat, which was also found, was a jug of cider and a book of the Niles German edition of Ann Arbor, in which was written the name of John Vehant. The men were identified as a John Vehant and one Neusang, whose first name is not known.

Both were farm hands employed near Lima.

Joseph E. Reau of Marquette is a member of the convention of leaders among the managers and agents of the Fidelity Mutual Life Insurance company to be held at Philadelphia from Aug. 26 to Sept. 7. These leaders comprise all the company's representatives who, for the

year ending Aug. 1, 1901, have remitted \$5,000 or over in premiums. The company defrays all the expenses of those agents and managers accredited to the convention. Probate Judge Kelsey has been advised that the commissioner of internal revenue has ruled that under the act of March 2, 1901, bonds of guardians, executors, administrators, also receivers or trustees appointed by the court require a fifty-cent stamp, if delivered on or after July 1, 1901.

The grading of the grounds at the Ely school has been completed and all the improvements are finished with the exception of the planting of the shrubbery. The environment of this building, which has heretofore been neglected, will henceforth be one of the most attractive to be found in the city. The Michigan Telephone company completed the removal of its dead wires on Washington street yesterday. Soon the poles will be razed. This improvement will do much to better the appearance of Washington street, as the removal of one pole line on Front will make that thoroughfare more sightly.

Robert Weaver, sent to Marquette prison from Kent county for the larceny of \$15 which he picked up off a saloon floor, has been recommended for pardon. Ishpeeming and its Environs. DUE TO CARELESSNESS. C. I. Co. Not Responsible for Death of Men Killed Wednesday.

Late Wednesday night, when the news that three of the Champion iron company's employees had been killed by the explosion of powder in a bucket while they were descending No. 5 shaft reached The Mining Journal, it was impossible to obtain all the facts. About the only conclusion that could be reached was that the explosive was set off by a jar of some kind, but such was not the case.

Upon investigation some very important information was communicated by John C. Smith, the man whose duty it was to attend to the landing of the bucket at the 25th level of the shaft. He says he gave the signal for the lowering of the three men after they had put the powder into a box in the bottom of the bucket; that in looking down the shaft and watching them descend he noticed one of the men lighting his pipe and that a moment later he saw a flame start up in the bucket, followed immediately by the explosion. To this Smith has made affidavit. It is therefore very clear that it was owing to this inexcusable carelessness that the three men lost their lives.

The Mining Journal representative, who visits Champion regularly, can state positively that every precaution has been adopted by the mine management to eliminate the risk in handling explosives. To that end the powder is kept at one end of the upper levels in each shaft, away from the locality of the active work, and is put in charge of a man whose sole duty it is to heat the powder and prepare it for the miners, who come for it as they need it.

Previous to the accident which occurred at the Champion in 1899, there had been no fatalities from the accidental firing of powder for fully eight years, thus showing that the use of gun powder is not a particularly dangerous work when ordinary care and judgment are used in handling it.

NEGAUNEE BOY CONVICTED.

James A. Johnson, Former City Recorder, Sentenced to a Year at Waupun.

News has been received that James A. Johnson, who for three terms held the office of recorder in this city, has been sentenced to the Wisconsin state prison at Waupun to serve one year at hard labor. He was convicted of wife abandonment at Menasha, Wis., being tried before the circuit court of Winnebago county.

There were two charges against Johnson, one of abandonment and another of bigamy. Both wives were in court during the trial. Mrs. Johnson No. 2 having been brought from Grand Rapids, Mich., to testify against the prisoner. Until he was confronted by the Michigan woman, Johnson stoutly maintained that he was not the man who was married in Grand Rapids, and that the charge was false, or else it was a case of mistaken identity. He is the christian name of Olof when he married the second time.

According to Wisconsin papers, the charge of bigamy was dropped, for the present, at least. The district attorney of Winnebago county has in his possession the marriage certificates of both weddings and has other evidence, with which it would be an easy matter to convict the prisoner. It is not made clear why Johnson was not tried on the bigamy charge, as the punishment for this offense is much greater than for abandonment.

Johnson is well known here, where he resided for a number of years. As stated above, he was elected to the office of city recorder for three years, making a model official during his first and second terms of office. During his last term discrepancies in his accounts were discovered, and he was forced to resign. His bondsmen made good the shortage and he escaped prosecution. Since he left the city's employment, his downfall has been rapid, despite the efforts of his friends and family to render him assistance.

SELDON'S STOCK COMPANY.

The sale of seats at Perkins' drug store will begin today for Seldon's Stock company, which opens a week's engagement at McDonald's opera house on the evening of Monday next for one of the evening of Monday next, presenting "The Burglar" with "Baby Patti" in the star parts. The Escanaba Mirror of last Tuesday said of this company:

"Seldon's Stock company opened its week's engagement at Peterson's opera house last evening with a really good production. Baby Patti the little daughter of Mr. and Mrs. D. C. Seldon, proved herself a great child actress and made a telling hit. She is one of the best child stage artists ever seen in Escanaba and in her work last evening fairly carried the audience by storm. The other members of the company were all good in their respective roles and the production as a whole was equal to any that might be given by a high-priced company. Between the acts several excellent and amusing specialties were introduced, much to the satisfaction of the audience."

PLACES FOR TEACHERS.

County Commissioner of Schools F. D. Davis of this city desires all legally qualified teachers who have not yet secured positions for the ensuing year to make application to him without delay. He has a number of places to which he will be able to give to Marquette county applicants.

At the meeting of the county board of examiners, consisting of Professors Waldo of Marquette, Dunton of Champion, and Commissioner Davis, held yesterday, two first-grade certificates, eight second and nine thirds, were issued. Most of the certificates were issued on the examinations last week in Marquette.

PIONEER VISITS NEGAUNEE.

Edward Jackson, One of This City's First Settlers, is Calling on Friends.

Edward Jackson, who was a resident of Negaunee back in the fifties, is in the city for a few days. It has been many years since he was here, as he left this county a long time ago. He lived in the copper country for a period after his departure. He was also a resident of the Republic for a number of years and his interests at the latter place are what brought him back at this time.

There are very few Negaunee men now living here, when Mr. Jackson knew intimately when he was in the city. He was an employee of the Jackson Iron company. He has a good recollection of the early mining at that property and during his visit will look over the old land marks about the abandoned mine with no little interest. He is quite well acquainted with P. B. Kirkwood and James F. Foley, also with William Sedgwick of Ishpeming. At the time he worked at the Jackson, the latter was employed in the office. From there he went to the Barnum mine at Ishpeming, taking a much more responsible position than he held here.

Mr. Jackson owns a large tract of land a few miles from Republic. There are large deposits of feldspar on it and when he arrived some weeks ago he expected to close an important deal that has been pending for some time. But the mining journal representative that the parties who are after his feldspar lands are not willing to pay anything like a reasonable price for the option and that he is afraid all negotiations would soon be declared off. He said he would not grant the option at their figure and that if they wanted the land they would have to come up at least somewhere near his price.

The trouble with feldspar is the uncertainty of the market for it. Mr. Jackson realizes that in case the lands pass into new hands the operators may have considerable difficulty disposing of large quantities of the mineral. The market for feldspar is limited and it is a question whether or not any great quantity of it can be sold within the next few years. The mineral on Mr. Jackson's land is first-class and the men after the option are anxious to secure it, but, according to the owner, they will never get it at their own price. Mr. Jackson has not been in the best of health for some time past. He suffers greatly at times from asthma and he could not live permanently in this country. While at Republic, his ailment bothered him and he is compelled to shorten his sojourn up here on that account. He is interested in mining properties at Cripple Creek, Colo., and is reported to have made considerable money there during the past few years. His family resides in Iowa, although he spends much of his time in Colorado.

The pavilion party, which was to have been held at Cleveland Park Friday evening, was held at Cyr's hall instead, on account of the inclement weather. The party was given by Misses Dagmar, Olga Anderson and Carrie Johnson.

Train No. 7 on the South Shore road, due at this station at 11:45, was two hours and forty-five minutes late Thursday night. There was a large crowd of Negaunee people at Marquette attending the G. A. R. reunion and they did not arrive home until the wee small hours of the morning.

J. O. Richards, who has the contract for the plumbing and steam fitting in the Jackson school, has received word from the Chicago supply house, which is furnishing the closets, that they have been shipped and will arrive in Negaunee today or tomorrow. The radiators are expected in a day or two. From present indications the school will be ready for occupancy when the term opens, Sept. 3.

Dave Pickett put up a bum show here Monday evening. The audience would have been justified in turning loose on most of the performers, not that they were vulgar, but that they were poor amateurs.

L'Anse Station Agent J. C. Hansen expects to move to Mass City in the near future. He will have charge of the Mineral Range station there. J. W. McKee will return to his old post at the South Shore station here.

Captain Hansen got his railroad boys out on the diamond last Sunday and played a friendly game of ball with the business men. It was interesting and well contested. The score favored the railroad boys, it being 14 to 13.

An interesting ball game is looked for tomorrow at Baraga between the home team and colored Giants who are touring the north. They are advertised as the best colored team in this country, and no doubt will put up a good game.

John W. Perkins and M. D. Kirby of the state board of tax commissioners were in town this week looking over valuations. They are pleasant gentlemen and seemed well pleased with their visit here. They left for Houghton Tuesday.

The news of the death of Pascal Perron, which occurred at Escanaba this week, was received by his many friends here with deep regret. Mr. Perron came here three years ago and engaged in the cedar pole business, which he conducted successfully up to the time of his death. Last winter he contracted a cold which settled on his lungs, forming an abscess for which he was operated on a short time ago and from which he never recovered. His wife and sons have the sympathy of the community here.

PLAN BIG PICNIC

MERCHANTS' ASSOCIATION WILL ECLIPSE LAST OUTING.

GAMES, SPORTS AND HORSE RACING.

SEPTEMBER 12 WILL BE A FULL HOLIDAY, WITH PARADE.

Up-the-Road People and Business Men Will Be Invited—Committees Are Now Actively Engaged With Preparation.

The Marquette Merchants' association is figuring on entirely eclipsing its first annual picnic held last year. It is realized that the accomplishment of this means hard work as the last outing was an unqualified success, but it is felt that it can be done. The picnic will again be held at the grounds of the Marquette County Agricultural association and the South Shore will run specials to carry the visitors to and from the park. There will be no admission and the privileges of the grand stand will be free.

The picnic last year was held after the county fair. The day was bright, but blustery and chilly. By setting it for the early part of September, it is expected that the weather will be entirely auspicious.

An invitation to participate in the picnic will be extended to Negaunee and Ishpeming business men and the citizens of these cities. This was done last year, but there was no general response, the fact being probably due to the circumstance that the outing was a new and unknown thing. Now it is established and if there is as much entertainment and healthy amusement to be derived from the picnic this year as last, there is no one in the county who can afford to miss it.

The program will resemble that of last fall. There will be sports and games of all descriptions and a matinee of horse racing. Good music will be in attendance and there will probably be dancing in one of the fair buildings. The details of the program remain to be worked out, but the business men will spare neither care nor money in assuring all their guests a fine time.

Committees Named. At an association meeting this week the following committees were appointed to assume charge of the picnic and were instructed to begin their activities forthwith:

Reception—Mayor John D. Mangum, George Hager and N. G. DeHaas. Horse Races—William Dorais, William Fassenbender and William Stewart. Sports—E. B. Palmer, A. Manthei, F. M. Gooding and M. L. Caspar. Refreshments—J. Seigel, H. Bittner, P. Delf, F. Heppner and J. F. Neidhart. Music—E. O. Stafford, F. Bureau and F. Kreig.

Decoration—L. J. Donseron, C. W. Hall and George French. In the morning there will be a street parade. All the merchants will be expected to have their rigs in line, gaily decorated, and it is believed that there will be a number of floats. The principal streets will be traversed.

Many people will seek the grounds at or before noon, but the traffic will not generally set in that direction until after the dinner hour, when the games, sports and racing will begin.

George French will act as marshal of the day.

MRS. WILLARD B. CROSS' DEATH. Her Husband Formerly Resided in Marquette.

Marquette friends of Willard B. Cross, who formerly resided in Marquette, leaving the city upwards of ten years ago, were shocked early this week to learn of Mrs. Cross' death. The following from the Duluth News-Tribune details the circumstances attending it: "Mrs. Willard B. Cross of this city, a member of a jolly outing party, at the summer home of Mr. and Mrs. F. A. Patrick at Deerwood, met with an accident Sunday morning which caused her death a few hours later and filled her large circle of friends in this city with unspeakable grief.

"Saturday night it was proposed by the merry-makers that on the following morning they would have an old-fashioned hayrack ride, the party to leave the Patrick home at 10 o'clock. All looked forward to the event with keen pleasure and none entered into the spirit of the occasion with more zest than Mrs. Cross. At the appointed hour the wagon was stopped in front of the house and the members of the party filed out to get aboard. A chair was brought into use to assist the ladies of the party onto the wagon. Several had preceded her and secured positions for the ride when Mrs. Cross stepped spryly upon the chair and with a merry laugh remarked: "Now, watch me climb up there all by myself."

"She had left the chair and taken a few steps up a ladder, which was leaned against the wagon, when in some manner she lost her balance and fell to the ground several feet below, the back of her head sustaining the full force. The injured woman was immediately taken into the house and, although she felt rather peculiar for several hours after the occurrence, it was not believed that she had sustained a serious injury. About 3 o'clock, however, alarming symptoms developed, and it was decided to send for Dr. Taylor. He made a careful examination of the wound and at once declared that a blood vessel had been ruptured at the base of the brain and that there was no hope of saving the woman's life. This announcement could hardly be believed by the guests of the Patrick home, but the prophecy of the physician proved only too true two hours later.

"Mrs. Cross was formerly the wife of J. M. Derby, of this city, a well-known land attorney of the firm of Derby & Thayer. Mr. Derby died about twelve

years ago. Five years ago she became the wife of Willard B. Cross, secretary of the F. A. Patrick company. She was president of the Ladies' Guild of St. Paul's Episcopal church and one of the most earnest workers. She was a sister of Mrs. W. M. Gallagher, of 414 East Third street, and the latter, when informed by a telegram from Mr. Patrick, was almost prostrated."

COPPERS QUIET BUT STRONG. Interest Centered in the New York Market Yesterday.

There seems little question that coppers are going to be "good" for some time to come. They were comparatively quiet, but notably strong, yesterday. Hayden, Stone & Co. wired the Laidley Commission Co.:

"All speculative interest centered today in the New York market, but the coppers were fairly strong. From the way the stocks are being taken, we believe we are going to have a good market this fall. The public are not large holders and when market becomes active, they will be buyers."

A. R. Jones & Co. said of wheat: "Wheat showed its independence today in its refusal to sympathize much with a very bad break in corn. It looks as though the trade was waking up to the fact that the present prices are about low enough and that all features adverse to the prices have been pretty well discounted. The market, in itself, looked good for a rally today, but it could not withstand the influence of corn. Wheat will soon show what it is good for."

FRENCH CHURCH FAIR. It Will Be Held the Week Beginning August 26.

The congregation of the church of St. Jean Baptiste will hold a fair at Fraternity hall the week beginning August 25. It will be the first entertainment of the kind arranged by the French people for many years and they expect to make it a notable success and to realize a big sum of money.

The proceeds will be used for the repair of the present church structure on Washington street, whatever of the funds are not employed for this purpose being laid aside as the nucleus of a building fund. The congregation is looking forward to the time when it will be able to provide itself with modern and more convenient quarters.

The ladies have been preparing for the coming fair for some months past and they have accumulated a large store of useful and fancy articles, knick-knacks, dolls, etc., etc., which they will place on sale at reasonable prices. There will be the usual fair entertainment nightly. Refreshments will be served each evening. The fair, needless to say, will be public and a general invitation to attend is extended.

"BIG BILL" DEVERE. He Will Be Seen Here in a New Play, "A Common Sinner."

"A Common Sinner" is the title of the new comedy in which William Devere, well known to Marquette theater-goers, will be seen here at an early date. The following original poem tersely describes the character of the "sinner," which was especially written for Mr. Devere:

He was just "A Common Sinner," But he'd buy a tramp a dinner, And he'd sort 'o' try to put him on his feet.

Tho' a fellow might be needy, An' his raiment rather seedy, Yet he'd stop an' visit with him on the street.

He made no more about it, Wouldn't bray around and shout it, Yet he did a heap to help his fellow man. When he found a fellow brother, In some easy way or other, He would boost him up to organize again.

When he'd money, why he spent it, Or he gave away or lent it, Seemed ex if the more he lost, the more he got.

Made all sorts of small donations, Dressed up all his poor relations, An' he staked an orphan to a house an' lot.

You could never hear him spoutin', Or a settin' 'round a shoutin', 'Bout the everlastin' wickedness of things.

But he jest went to a findin' Things to do and never mindin' Much about the "Crown" or "Harp with Golden Strings."

But that old dame Missus Grundy, Kinder noticed that on Sunday, He was always at a picnic or a play. Or perhaps for his diversion, He would tackle an excursion And invite some friends to pass a pleasant day.

So they voted him "The Devil," And a Sinner on the level, And when old "Death" came and caught him in the lurch,

Though the people all adored him, All the hypocrites, they scored him, Just because he never joined the proper church. William Devere.

Mr. Daniel Bantz, Otterville, Ia., says: "Have had asthma and a very bad cough for years, but could get no relief from the doctors and medicines I tried, until I took Foley's Honey and Tar. It gave immediate relief, and done me more good than all the other remedies combined." The People's Drug Store.

A KANSAS MINISTER. Rev. L. S. Coulton, of Circleville, Kas., says: "Dr. Warner's Your White Wine of Tar Syrup has been in my family and used to be all and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

TWO DAYS OF BASEBALL.

Single Game Today and a Double Header Tomorrow.

If the season, as a whole, has been rather barren of baseball, this will not be true of today and tomorrow, when there will be three games at the Fair grounds. This afternoon the Marquette and Lake Linden Juniors will meet. The contest will be called at 3:30 o'clock, the late hour being designated to give all office men and whoever of the business people can get away a chance to attend. After 2 o'clock the street cars will run every fifteen minutes, buses connecting at Fair avenue for the grounds.

There will be two games Sunday. Special trains will leave downtown at 1:30, 2 and 2:30 o'clock, returning at 6. The first contest, between the Marquette and Lake Linden Juniors, will be called at 1:45, immediately after the arrival of the first train. The second game will be between the Marquette and Ishpeming regular nines. It will be started at once on the conclusion of the first. Both games will be of seven innings.

The admission today will be twenty-five cents, likewise tomorrow, when the fans will have an opportunity of seeing two games for the price of one. It is expected that all three of the games will be well attended. Men have been employed at the grounds this week putting them in good condition and the players will not, as heretofore, work under great difficulties. If the weather is fair, there should be good crowds out both today and tomorrow, although the Sunday gathering will be by far the largest. A good up-the-road delegation is expected down tomorrow.

ABOLISHMENT OF MILK TICKETS. Menominee Health Officer Favors It to Protect the Public.

Health Officer P. J. Noer, in a lengthy and interesting communication to the city council, recommends the abolishment of milk tickets as used by vendors, as he believes they are conductors of disease, says the Leader. Several cases have been discovered where there is every evidence that germs were carried by the tickets. The doctor writes: "The health officer desires to call your attention to a practice which he believes to be a factor in the dissemination of certain infectious diseases. As you know the vendors of milk or cream commonly supply their customers with tickets which are collected upon delivery of milk or cream. These tickets find their way into the houses of all sorts and conditions of people. They are distributed and redistributed until so worn as to be unrecognizable.

"In a majority of families the tickets are in charge and are handled by the mothers of children, and in case of a child's sickness, the mother may and often goes directly from the patient to the pantry, and without ever washing her hands procures the ticket for the milk man. You will readily understand that in this manner the infection of such diseases as smallpox, scarlet fever, typhoid, diphtheria and measles can be easily deposited upon the milk tickets and thus conveyed subsequently to the homes of other people.

"Of course, I understand that milk vendors do not intentionally redistribute tickets collected from infected houses, but infectious diseases are constantly present in houses without being reported to the health officer, and in these cases the milk vendor, having no knowledge of the existence of such diseases, cannot be expected to exercise any precautions. Only three days ago the health officer discovered a well marked case of scarlet fever of two weeks' standing, that had not yet been reported, although a physician had been in attendance.

"Again many cases of the disease are so mild that no physician is called, hence they do not come under the observation and supervision of the health department. An instance also recently occurred in this city where smallpox existed in a family continuously for three months, each case being purposely concealed in order to avoid quarantine. During all this time the opportunity for the spread of the disease by milk tickets was doubtless present, and but for the general vaccination numerous cases would probably have occurred.

"In view of these facts the health department advises and recommends that vendors of milk be required to discontinue the present practice and substitute therefor some substitute device, such, for example, as a card which can be marked or punched."

The above suggestion is interesting. It is by no means new, but has been made and heard many times before. The pasteboard tickets, which every fair-minded person will readily admit might operate to carry contagion and spread disease, might be replaced with metallic checks, which could be boiled after their collection and, thus, thoroughly cleansed before they were sent into other homes.

THEIR SECRET IS OUT. All Sadleville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe attack of Whooping Cough." It positively cures Coughs, Colds, La-Grippe, Bronchitis, all Throat and Lung troubles.
