## STRIKERS GIVE IT UP

### EFFORT TO CLOSE THE CARNEGIE MILLS IS ABANDONED.

### MAN MOBBED AT PITTSBURG.

### IMPATIENCE NOW CROPPING OUT IN DISORDERLY ACTS.

### Steel Workers, Led by Shaffer, Participate in Monster Parade While Iron Masters Keep on Increasing Their Operations.

Pittsburg, Sept. 2.—The big Labor Day demonstration monopolized the attention here and in surrounding towns, but the steel manufacturers went on preparing for opening plants that are shut down by the strike and increasing the number of men at the mills already in partial operation.

Public interest in the strike itself is lagging, as the contest seems to have settled down to an issue of endurance. Only unusual incidents connected with each day's doings receive notice by those not directly affected by the struggle. Evidences of impatience are cropping out on the side of the strikers, and there are fears that the unlawful acts participated in by the strikers last night and today about the Star tin plant may multiply and spread to other quarters.

### Suspected Non-Unionist Attacked.

The officials of the Star plant claim that today the pickets held up a special delivery boy from the postoffice with a letter for the office and inspected the letter before he was allowed to proceed. The matter will be reported to the postal authorities.

The aggressiveness of the strikers was demonstrated this afternoon, when a mob surrounded William Jones, a colored man who was mistaken for a non-union man from the Star works. He had a narrow escape from serious injury and possibly death by the appearance of policemen who came to his rescue. The prompt arrival of a large force probably saved Jones from being lynched as the mob appeared desperate and demands were made that he be strung up. During the parade most of the pickets were away from the Star mills and the company secured several new men.

The Lindsay & McCutcheon plant at Allegheny did not start today, as the management said, because the men wanted to celebrate Labor Day. The painter mills started with increased forces.

### Strikers Fail at Duquesne.

The failure of the Amalgamated to cripple the Carnegie open hearth plant at Duquesne this morning is looked upon by the steel officials as the death blow of the strike, in the Carnegie mills at least. The strikers, who had been trying for a week to get the employees of the plant to come out, made their last stand this morning and failed. Notwithstanding a house-to-house canvass by the strikers last night, only two men refused to quit work and the plant is in full operation.

While there is no visible indication that the National Tube company intends starting the plant at McKeesport soon, foremen in the mill say tonight that the entire plant will be in operation next week.

Thousands of workmen from almost every branch of trade joined in the Labor Day parade here today. The first division was given up to Amalgamated strikers, who were led by President Shaffer. The best of feeling prevailed and there was no disorder. The parade was a monster one.

### Exciting Speeches Made.

The principal addresses were made by President Shaffer and William J. Brannan, counsel for the Amalgamated. Mr. Brannan presided, Shaffer in an address that wrought his hearers up to a high pitch of enthusiasm. He advised them to guard the ballot as the "ark of labor's covenant" and told them it was their ultimate salvation. He reviewed the present troubles and closed by proposing a remedy, which he denominated "labor's injunction," to "union and restrain the banks" from loaning your money to trusts.

Giving a mass of statistics, Brannan said: "Of 6,167,000 depositors in banks, one-third at least are union men and friends of labor. When labor commences to run on the banks Mr. Morgan will know that there is something to arbitrate. Demand your money. Have every friend of labor demand his. Deprive the trust of its life—money. Be united to a man and the trust will cry for quarter within a week."

Shaffer said: "What is the remedy for the labor troubles? It is in combination. Let them use the workers combine. Let them use the ballots in their own behalf. Let them vote as they marched today. I do not care if you call this socialism, or what you call it, just so when election day comes around you'll march up and cast your vote for workmen, no matter on what ticket they are running."

### Mayor Refuses Protection.

McKeesport, Sept. 2.—The delay in starting the Denmler mill is due to Mayor Black's hesitancy in guaranteeing police protection. Black was informed by the tin plate company, it is said, that he would be notified when the strike would be made and would be expected to furnish protection. If he re-

fused the company would start impeachment proceedings. The mayor is said to have refused protection to "scabs." The company, it is said, has appealed to Governor Stone and he has promised to send state militia if necessary. Mayor Black's final answer is still pending.

### FRANCE TO SEND A FLEET.

Said Naval Division Will Be Ordered to Turkish Waters.

Paris, Sept. 2.—It is rumored late tonight that a naval division will be ordered to Turkish waters tomorrow. Munir Bey will only return to Paris against the wishes of the French government unless the dispute is settled.

### Turkish Minister Ordered Out.

Paris, Sept. 2.—As a result of Munir Bey, the Turkish ambassador, coming to Paris, in spite of the rupture of Franco-Turkish relations, and holding a feat in the most open way at the Turkish embassy yesterday in honor of the anniversary of the sultan's accession to the throne, the French government sent him a request to leave France immediately. Munir Bey departed for Switzerland last evening.

### Disorders in the Balkans.

Advices received here from Turkey indicate a disquieting international situation. Disorders and military uprisings are reported in Armenia, Macedonia, Albania and in the neighborhood of Mecca.

### Sultan Appeals to Germany.

Constantinople, Sept. 2.—The reports that the sultan has appealed to Germany to use her good offices to settle the dispute with France are confirmed. Germany, it is understood, will advise the porte to settle with France as soon as possible.

### CZAR LANDS IN DENMARK.

King Christian and Family Greet the Russian Autocrat.

Elsinore, Denmark, Sept. 2.—The Russian imperial yacht Standart, with the czar and zarina on board, anchored here this afternoon. The imperial party were received by King Christian and all the members of the royal family.

### Kaiser and Czar Negotiating.

Berlin, Sept. 2.—In spite of the effort made to preserve a non-political aspect to the coming meeting between Emperor William and the czar, the Schlessische Zeitung's St. Petersburg correspondent declares that the czar has been in autographic correspondence with the emperor, a special courier visiting Berlin twice weekly bearing letters which have not passed through the hands of any of the officials.

### NOT TO KNEEL TO KAISER.

Berlin Waives the Point and China's Envoy Resumes His Journey.

Basle, Switzerland, Sept. 2.—Prince Chun and his entourage have gone to Berlin. Before starting a member of the mission said that Emperor William had decided to waive the ceremony of kneeling and that the only persons to be received by him in ceremonial audience would be Prince Chun and King Chang. The mission will remain in Berlin for a fortnight and has received and accepted invitations from the British, Italian, American, Belgian and Japanese governments.

### PROMINENT BOER JAILED.

Dr. Krause Arrested at London on the Charge of High Treason.

London, Tuesday, Sept. 3.—Dr. Krause, former governor of Johannesburg and a prominent official of the late Transvaal government, was arrested in London last night on the charge of high treason. He will be arraigned today at the Bow Street police court. It is alleged that after signifying allegiance to the British crown he secretly forwarded information to the Boers. It was Dr. Krause who handed Lord Roberts the keys to Johannesburg on surrender.

### SHAH'S THRONE TOTTERING.

Revolutionary Movement Follows Loan Secured from Russia.

Cologne, Sept. 2.—A dispatch from Teheran, dated Aug. 31, says: "A widespread revolutionary movement is going on in Persia, fostered by discontent with the government on account of the new loan negotiations with Russia. The grand vizier is accused of selling the country and failing to make reforms. Martial law has been proclaimed in the capital and its environs."

### COLOMBIA WILL FIGHT.

Virtually Takes Up the Gauntlet Thrown by Venezuela.

Caracas, Sept. 2.—The Official Gazette today published a memorandum of the minister of foreign affairs to all friendly nations, explaining the complaints made by Venezuela against Colombia. The case is considered to be casus belli. There is much excitement here.

### NEW ARMY FOR GERMANY.

Organization of the Colonial Forces is Planned by Von Buelow.

Berlin, Sept. 2.—Chancellor Von Buelow, it is announced, is formulating proposals, which he will submit to the German states, for the formation of a colonial army.

### DENMARK WILL SELL.

American Offer (\$425,000) for West Indian Islands Is Approved.

Copenhagen, Sept. 2.—It is announced that the new Danish ministry has decided to accept the United States' offer of sixteen million kroner for the Danish West Indies.

## NEW BOAT DRUBBED

### COLUMBIA AGAIN OUTSAILS THE CONSTITUTION.

### RACE, HOWEVER, IS NOT FINISHED

### YACHTS FORCED TO QUIT FOR LACK OF WIND.

### First Leg Is Contested in Fair Breeze and Is Productive of the Worst Beating the Latest Bristol Yacht Has Yet Received.

Newport, R. I., Sept. 2.—The second official trial of Columbia and Constitution today practically had no result. The yachts, for lack of wind, were unable to finish within the time limit.

After crossing the line exactly at the same moment, with Constitution in the windward berth, Columbia worked out and, getting her wind free, forged ahead. Constitution tacked off shore and, shortly after, Columbia followed, going up to the windward and passing her. From then to the windward mark it was nothing but a steady gain for the old boat. When both rounded it was found that Columbia had gained four minutes and fifty-five seconds, the worst beating Constitution had yet received.

On the second leg the wind fell very light. After rounding the second mark four minutes and thirty seconds behind, in starting for home Constitution caught all the wind there was and passed her rival. The breeze came up again, however, and Columbia shot ahead. Shortly afterward the race was called off, with Columbia in the lead.

### BETTING ON CUP RACE HEAVY.

English Agent's \$150,000 Soon Covered and He Cables for More.

New York, Sept. 2.—Walter J. Kingsley, who placed \$150,000 of English money on Shamrock against \$250,000 of Pittsburg money on Constitution or Columbia, went to Pittsburg today to make the final arrangements for the bet. The articles will be signed and the money put in the hands of a stakeholder agreeable to both sides. Mr. Kingsley did not expect to make the bet so easily and now that all the money he brought over with him has been placed he has called for more and expects to be able to make more bets later in the week.

He will have no trouble finding takers in this city. Many yachtsmen are anxious to make a few bets on the American boat successfully defending the cup against Shamrock, and are not at all dismayed at Constitution's poor showing in the first of the trial races. Even if Columbia should be selected to defend the cup they will still be just as confident the cup will remain on this side of the Atlantic.

Several Wall street men have formed a pool and have money to wager, and any one who has money to bet on Shamrock can be accommodated easily. One firm has \$10,000 it wants to place at the prevailing odds of 5 to 3 against Shamrock, and another firm has \$5,000. The odds two weeks ago were 10 to 7 against Shamrock, but the big bet has made the price more favorable to the foreigners and has established a market price.

Several Englishmen are coming over to see the races, and it is expected they will have money to bet on the betting on the coming races will be greater than ever before in the history of the American cup.

### WAYLAIED BY NEGROES.

Iowa Farmer's Daughter Attacked on Her Way to Church.

Des Moines, Sept. 2.—Yesterday while going to Sunday school, Ada Ware, aged sixteen, the daughter of a farmer living near the city, was waylaid by a gang of negroes. After most of her clothing had been torn from her body the girl escaped and returned home. Her father and a hired man captured two negroes, one of whom, Seymour Washington, a stranger in the community, the girl identified as one of her assailants. After a preliminary examination yesterday, Washington was held to the grand jury and was brought here today and jailed for safe-keeping.

### BRITISH OWNERS ATTACKED.

Washington Smeltersmen's Union Files Sensational Charges.

Spokane, Wash., Sept. 2.—Sensational charges are made in the reply of the North Port Smeltersmen's union to an injunction suit and restraining order. The union charges that the majority of the stock of the company is owned by British subjects who have no right to own lands in this state. The superintendent of the smelter, Mr. Kedish, is accused of offering a bribe of \$2,000 to an officer of the union to break it up.

### CARNEGIE REWARDS MINERS.

Gives \$500 Each to Four Who Rescued Imperiled Comrades.

London, Sept. 2.—Andrew Carnegie has given £100 each to Sheddon, Law, Jones and Dick, the four miners who displayed conspicuous bravery in the rescue of their comrades at the recent Donnibrishle (Perthshire) colliery disaster.

London, Sept. 2.—Andrew Carnegie has given £100 each to Sheddon, Law, Jones and Dick, the four miners who displayed conspicuous bravery in the rescue of their comrades at the recent Donnibrishle (Perthshire) colliery disaster.

## HAWAIIAN COURTS DIVIDED.

### Question of Constitution Following Flag Causing Much Trouble.

Honolulu, Aug. 26, via San Francisco, Sept. 2.—The territorial courts do not agree regarding the question of the constitution following the flag to Hawaii.

The supreme court has handed down a decision to the effect that "during the period between the annexation of the island and the organization of the territorial government, persons accused of crime could lawfully be prosecuted without the intervention of a grand jury and convicted by nine of twelve jurors," the decision remanding back to jail seven defendants who had been released on habeas corpus by Circuit Judge Geer of the first circuit.

Judge Geer held that the provision in the Newland resolution to the effect that the "laws of Hawaii not contrary to the constitution of the United States remained in force" meant that laws that were contrary to the constitution were annulled. On this ground he held that the trial of a man charged with an infamous crime without an indictment by grand jury and his conviction without a unanimous verdict, as provided by the constitution and decisions of the United States supreme court, were null and void.

The supreme court holds it was not the intent of congress to repeal the Hawaiian laws that were in conflict with the constitution, and that the old Hawaiian laws as to convictions by nine jurors and under indictments brought without grand jury were not abrogated.

### OHIO LOOKS TO BRYAN.

His Help Wanted Despite Overturn by the State Convention.

Columbus, O., Sept. 2.—Chairman Dougherty, of the democratic state committee, today announced that Bryan would be invited to participate in the Ohio campaign this fall, despite the fact the state convention turned down silver and Bryanism.

Later—the state executive committee later this afternoon decided to open the campaign at Bucyrus on Sept. 28. No action, however, was taken on the matter of inviting W. J. Bryan or David B. Hill to speak in Ohio. It is expected, however, they will be invited.

### Walsh's Views on Candidates.

Kansas City, Sept. 2.—Secretary Walsh, of the Democratic national committee, said in an interview today: "There is no real discussion now of candidates for the Democratic nomination for president in 1904. Of course, a final arrangement is mentioned and talked about. The names are Hill, Olney, Dockery, Dave Francis, W. J. Stone and Senator Cockerell, but it is a long time until 1904. A candidate who gets 'into the push' too early is liable to get 'crystallized' out before the campaign is reached."

### MINERS STRIKE THREATENS.

Magnates at New York to Be Asked to Right the Grievances.

Wilkesbarre, Pa., Sept. 2.—President Mitchell, district president, has arranged to go to New York to confer with the presidents of the coal carrying roads relative to the settlement of the grievances complained of at the Hazelton convention. Unless negotiations prove successful it is thought strikes will be ordered at several collieries in the Wyoming region.

Middlesboro, Ky., Sept. 2.—President Howe, representing the miners, and the operators of the Jellico district have signed the wage scale. The minor points of difference have been referred to a board of arbitration. All the miners in the Jellico district are now running full time.

### HAVANA PLAY SUPPRESSED.

Is a Vile Production Insulting to the United States.

Havana, Sept. 2.—Civil Governor Nunez has suppressed a French play, translated into Spanish and presented by a Spanish company, entitled "Pork Kings, or Uncle Sam." Governor Nunez described it as an "insult to American womanhood."

La Lucha, protesting against the production in the strongest terms, says: "This play consists of vile and useless malvolence which is heaped upon the entire American nation, instead of a small group."

### HOLIDAY WIDELY OBSERVED.

More Workmen Participate in Celebrations Than Ever Before.

Chicago, Sept. 2.—Organized labor in Chicago and vicinity celebrated Labor Day with numerous picnics and a huge parade. The Board of Trade, stock exchange and business houses generally were closed.

Similar celebrations were held at Philadelphia, Boston, Cincinnati, Denver, St. Louis, Omaha, San Francisco, Milwaukee, Columbus, St. Joseph and many other points, more workmen participating in the parades than heretofore.

### ENGINE SPARK CAUSED IT.

Fire at Muskegon Destroys Planning Mill Plant Worth \$50,000.

Muskegon, Mich., Sept. 2.—The planning, shingle and sash factory of N. McGrath & Son, at Lakeside, burned today, together with the finished stock. The loss is \$50,000 and insurance half. The fire caught from a passing freight engine.

### THROWS HAMMER 172 FEET.

New York, Sept. 2.—John Flanagan threw the sixteen-pound hammer 172 feet and nine inches at the Irish Athletic association games at Celtic Park today. This is a new world's record.

The Horrible Tortures of Rheumatism can be overcome and the dreaded disease expelled from your system by the use of

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It is likely that Mayor Harrison of Chicago heaved many heartfelt sighs of regret last week when he saw the pined shores of Huron Mountain.

The season for cargo records on the lakes has again been reached. Early in the past month the steamer Isaac L. Ellwood brought a cargo of 7,322 tons of iron ore to Ashabula, on Lake Erie.

There comes a tale of woe from Newberry. It has been impossible to hold a meeting of the village council for over two months through the inability of the officials to get a quorum of members of the board together.

A small mining excitement has been started in the southeastern part of Massachusetts and the adjoining section of Rhode Island, where ores carrying gold, silver and copper are said to have been found.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint.

can cover a good deal of country now neglected by them. GREAT NEWSPAPER FIELD.

The upper peninsula appears to be a great newspaper field. It has, considering its population and the nature of this population in some of the mining centers, an unusually large number of English journals.

The new Lake Superior Journal is edited by C. H. Chapman, deputy state railroad commissioner. It will be rock-ribbed Republican as to politics, although, in its vocabulary, it announces that it will not hesitate to tell the G. O. P., either locally or at large, when it is making false steps or those which promise disaster.

Then, at Escanaba, a city which is also supporting all the newspapers that it can reasonably be expected to read and furnish with business, there is a rumor that George Gallup is about to embark on a journalistic venture.

The press of Escanaba will, no doubt, hail with no inconsiderable satisfaction the rumored intelligence that the Hon. George Gallup is the power behind the throne in the establishment of another daily newspaper in this city.

The Non-Irritating Cathartic Hood's Pills Easy to take, easy to operate—

COPPER COUNTRY NEWS. (Additional.) ANOTHER TRIMOUNTAIN CASE. Advance in Mass Regarded at Boston as Very Significant.

The present advancing tendency of Mass copper stock, which is attracting such widespread attention in local copper share circles, certainly has the appearance of a more substantial backing than manipulation or a scattered public buying, says the Boston Journal.

The Boston Journal also says: There is good reason for believing that plans are on foot for an early resumption of work under the Standard Oil syndicate national copper mine.

Another report, and one that is believed to be more reasonable, has it that certain local capitalists, including a well-known banking house, are engaged in negotiations at a price—said to be about \$5 per share—which will result in control of the property and management.

GOOD ADVICE. NEW MILL FOR THE PHOENIX. Its Construction Decided Upon and the Contract Awarded.

MADE FORTUNE IN COPPERS. Ex-Senator Thompson of Detroit Is \$40,000 to the Good.

per district cannot realize the magnitude of the mineral wealth of our state, as is represented by the producing copper mines and also by the newer properties in the various stages of development.

The lucky stocks were Copper Range, Mohawk and Mass. He is not out of the game yet, and expects to make a good deal more.

ISLE ROYALE TRAMMERS QUIT. Miners Are Granted Shorter Hours but Still Hold Out for Higher Pay.

A SHOCKING CALAMITY. "Lately befell a railroad laborer," writes Dr. A. Kellett of Williford, Ark. "His foot was badly crushed, but Bucklen's Arnica Salve quickly cured him."

ITCHING AND BURNING. Eczema, Tetter, Piles. No Cure, No Pay. Boro-Carbol Salve absorbs the tumors, allays the itching at once.

FULLY 1,500 MEN IN LINE.

Labor Day Parade at Portage Lake a Big Success.

Labor Day in the copper country was generally observed yesterday. Calumet and Hancock each had elaborate programs prepared. The parade of the labor unions of Hancock through Hancock and Houghton at 2:30 in the afternoon was one of the best features of Hancock's celebration. Fully 1,500 men were in line. The line of march was from Hancock to Houghton, where a counter march was taken back to Hancock. The several unions represented by a goosly body of men were: Longshoremen, lodge 119, of Hancock; iron makers; brick layers; journeymen stone cutters; tailors; and the Federation of Labor. The newsboys of Portage Lake were also in line. The Calumet & Hecla band headed the parade, with the Quincy band further back in the ranks. Various floats of Portage Lake industries were represented, including the Portage Lake Foundry & Machinery company; six wagons of the Hancock Fuel & Supply company; Ed Haas & Co. of Houghton; and Jacob Gartner of Hancock. The Hancock council rode in carriages.

**CHURCH CONVENTION.**  
 Congregationalists of This District in Session at Hancock.

Today and tomorrow the twenty-eighth annual convention of the Congregational churches of the Lake Superior district will be held at the Hancock Congregational church. An excellent program which will no doubt prove very beneficial to all in attendance has been prepared for the two days' session. Rev. R. A. Torrey, D. D., pastor of the Moody church at Chicago and general superintendent of the Moody Bible Institute, will deliver four addresses during the course of the convention and much interest will be taken in his remarks. A large attendance of delegates and representatives of other Protestant denominations is expected present. Today's program is as follows:  
 2:00 to 2:30 p. m.—Devotional exercises. A. F. MacDonald, prayer service, led by Rev. John Best and wife.  
 2:30—Organization: Appointing of nominating, credentials and resolution committees by the moderator; calling of roll; miscellaneous business. General subject, "The Church."  
 3:00—"The Church in the Early Ages," Rev. Arthur Metcalf; discussion.  
 4:00—Music. Rev. John Best.  
 4:10—"How to Get the People into the Church," Rev. R. A. Torrey, D. D.; social hour.  
 7:30—Service of praise and devotion, led by Rev. John Best.  
 7:30—"The moderator's address, "Congregationalism"; music by church choir; sacrament of the Lord's supper.

**PAVING TO BEGIN APRIL 1.**

Hancock Council Will Tomorrow Discuss Preliminary Details.

A meeting of the Hancock council will be held tomorrow afternoon at the village hall at which time the regular monthly business will be transacted. Matters relating to paving will be the most interesting and important feature of the meeting, and incidentally the village attorney will present resolutions legalizing all the necessary preliminary acts for the street work. No paving will be done this year—that is already settled. However, it may not be thought that matters relative to paving will be dropped until next year, for it is the intention of the council to keep on with the preparations so that work may be started early in the spring. April 1 is the date set for the beginning of the job, which does not give much too much time for the perfection of the preliminaries. Bids are already being received for the job, both from contractors in this part of the country and Milwaukee. A set of plans is on exhibition in Hancock and another at Milwaukee, and those who desire to put in bids have either to call at one of the two places or the plans being too voluminous to send out. The contract will be let about Oct. 1. The successful bidder will then be informed by the council that he must have all his material on hand and everything ready to start work on the first of April. The brick, cement, etc., will be shipped to Hancock during the winter months. The action of the council in deciding not to have the pavement put down this year is commendable. It is estimated that the work could not be completed much before December and by that time a foot or more of snow would cover the brick, so that the condition of the pavement could not be ascertained until spring.

**COPPERDOME BREVITIES.**

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Bee Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

The tug Crosby has returned to Portage Lake. William Bub of Ishpeming was a Portage Lake visitor yesterday. Milton Dickens of Houghton was a Marquette visitor yesterday. Mat. Northey of Houghton has had a steam heating plant installed in his residence. The home of E. G. Emmons at East Houghton is about completed and ready for occupancy. J. R. Cary of Chicago is visiting H. I. Johnson, of the St. Paul road's commercial office, Houghton.

Michael O'Brien of the Soo, formerly of Paine, Webber & Co.'s Houghton office, spent Sunday and yesterday in Houghton. The attraction at the Lake Linden Opera House tonight is "The Convict's Daughter," which is now making a tour of the copper country.

Mayor A. J. Scott of Hancock has returned from his fishing trip to northern Wisconsin. He visited two or three of the lakes and enjoyed some excellent black bass fishing. The recreation did Mr. Scott a great deal of good.

The general heating plant at Houghton is now in good shape for the winter. The work of raising the chimney fifteen feet is finished.

The Hancock High school will have a rugby football team this year, and games with other schools in the county are already being solicited.

H. A. Borsson of Marquette was in Hancock yesterday visiting his brother, Otto Borsson. In the afternoon the gentlemen visited the mines at Calumet.

MASS AND ADVENTURE.

What the Commissioner of Mineral Statistics Will Say of Them.

[From the Coming Report of the Commissioner of Mineral Statistics.]  
 The Mass mine began production in the last week of July, 1901, though it was found impossible, for several reasons, to furnish the mill with a full supply of rock. The mill is of size for two stamps, of which one is now in use, and it is hoped that the second may be in commission early next year. Many exasperating delays have been encountered in getting the mill ready for use, but it is now crushing about 400 tons daily, and is securing even better results than had been hoped for by the most enthusiastic believer in the future of the property.

While yet too early to give detailed figures regarding the production, it may be safely stated that the mine is starting off on a two per cent basis, a figure higher than that of any other mine in the Lake district, except the Calumet & Hecla. It is almost too much to expect that this percentage will be permanently maintained, but there is every reason to believe that the mine can maintain a large production as a percentage that will place it well to the front among the best amygdaloid mines of the district. The production of heavy copper continues large, and some of the stamp rock is among the richest ever mined in the district. The actual yield will be greater, however, as determined by the proportion of stamp rock obtainable from the various lodes, there being no question that the Mass Consolidated, at certain points, is among the richest ever opened in the Lake district—a fact demonstrated by the past history of the Ridge and Mass mines, both of which are now parts of the present consolidation.

The Mass mine of today is the property once known as the Ridge, but the old Mass mine, adjoining, is to be reopened. The management of the Mass Consolidated company underrated the value of the property when the mine, when the corporation was organized two and a half years ago, and has been very chary of calling on shareholders for funds, but the present directorate has recently taken the bull by the horns, and in July, 1901, levied an assessment of \$4 per share. This money will be used to increase the underground development at the mine, and it is probable that the first direction in which the policy of expansion will be pushed will be in the reopening of the old Mass mine proper. Although this mine has never paid a dividend, as the Ridge did, it was considered of exceptional richness, and was never given the capital or equipment necessary to insure its success.

The same remark is true of practically all the old mines of Ontonagon county, the only mines that were ever given anything like a fair chance being the Minnesota and National, and work in the former was suspended at a time when a reasonable amount of equipment would have obviated such an unfortunate step. The shareholders of the Minnesota, after having received nearly two millions in dividends within a few years, were afraid to raise the small sum that every penny less actual operating expenses, over to shareholders in dividends. Such a policy is suicidal, with even the best of mines, and the Lake property that does not put part of its earnings back into new openings and betterments of plant will inevitably come to grief some time, no matter how rich the mine may be in copper.

The Mass possesses a very large tract, consisting of more than 2,400 acres, all located on the copper belt. This tract is so situated that it will be possible to mine to very great depths on the underlay, all of the shafts except No. 3 being so located that they can go down for a full mile or more on the Mass lodes.

The Mass is well equipped for production, and the new fifty-drum compressor was put in commission in June last. When the mill was started, late in July, the force at the mine was materially increased, and the mill is now running on ten additional rock drills were set at work, to stop ground for the mill, and thirty-five drills are now running. The number of both men and machines will be increased gradually, as circumstances require, and with the putting in commission of the second head, about June 1, 1902, the force will necessarily be considerably enlarged. The mine is now opened to a point where it can easily keep one stamp supplied, but it will require much more opening to insure selected rock for two stamps, although the amount of opening already accomplished is not inconsiderable.

At first view, owing to the Mass possessing five parallel copper-bearing amygdaloids, continuations of five of the lodes opened on the Adventure. The latter named mine has two lodes which the Mass has not yet secured, and which possibly are non-existent on the Mass tract, although it is quite likely that one, and perhaps both, will be found later.

C. A. Lamb of Boston was elected president of the company at the last annual meeting, and has made several visits to the mine, exhibiting a commendable desire to thoroughly acquaint himself with the property and its possibilities in use there. C. H. Krause has been placed in local charge of the surface work and mill, and Captain James Wilcox, formerly of the Arcadian, is in full charge of the underground work. Captain R. M. Trezona, who was previously superintendent, and who has since gone to the Minnesota iron fields, has been much criticised for his work at the Mass, but the criticisms directed at him are unjust. The Mass has not had as much money to spend as some of its neighbors, and, considering his limitations, Captain Trezona deserves praise for the manner in which he has handled matters at the property. He is a thorough mining man and his work at the Mass speaks for itself. Affairs at the mill were in a chaotic condition when Mr. Krause took hold, but under

his experienced hand matters have shaped themselves in better order, and the mill, while its location is perhaps not of the best, is now in shape to do excellent work—and is doing it.

Adventure.  
 There is no property in the Lake district that has come into public favor more rapidly in the past year than the Adventure. This is reflected in the market price of the shares, now selling at about \$45 each, an advance of nearly one thousand per cent in the past fifteen months. The property has many friends, and is now owned very extensively in the copper district, a sign favorable to the future of the mine, as the residents of the mining district rarely purchase heavily in new mines unless the properties possess unusual merit.

The management of the Adventure saw fit to levy an assessment of \$6 per share early in 1901. This was at first regarded as an effort to freeze out the smaller holders, but this opinion has been changed after more careful investigation into the facts of the case. The cost of opening a new mine, or properly reopening an old mine, in this district, does not fall under a half million dollars, and will more frequently reach or exceed a million dollars. The showing at the Adventure is a very promising one, and it is the part of good business judgment to develop the mine as rapidly as possible, and upon a large scale. Even the best mine finds it hard to make adequate profits when poorly opened and insufficiently supplied with machinery, while with all good mines, the percentage of profit secured from the product depends largely upon the extent of underground openings and the perfection and extent of the mechanical equipment at the mine and mill. The Adventure has the same general management as the Quincy, and that alone is a guarantee that the directors will not take any snap action, or do anything unfair to even the smallest shareholder. The talk held at first, after the levying of the \$6 assessment, has stopped, and confidence in the integrity and ability of the management remains unimpaired.

Conditions at the Mass and Adventure mines are different from those found at mines in other parts of the Lake district. The Adventure carries no less than seven parallel copper-bearing amygdaloids in a distance of about one thousand feet across the formation, measured in cross section. These beds are of varying width and value, but even the narrowest is of workable size, and the richest carries copper in quantities sufficient to justify exploratory work. The high hill on the Adventure property south of Adventure Gap, and the opening of these successive amygdaloids by adits, allow the mining of a very high "back" of good stopping ground at the most conservative basis throughout. It is favorably located for opening, breaking and hoisting. Work was first started by the present company on the Knowlton lode, and the principal development remains on that lode, but considerable attention has been paid of late to several other strata, and the mine is now being developed in several directions simultaneously. As a rule the copper mines of the Lake district may be said to have two dimensions only—length and breadth—as they are opened on single lodes, but in the case of the Adventure the third dimension is added, and it is thus possible to develop an enormous amount of productive ground with the minimum amount of opening work. The Butler lode is the northernmost, and outcrops on the lowest ground, the other cupiferous strata occurring in the following order, from north to south: Merchants', Mass, North Butler, Butler, Ogima and Evergreen. The Butler outcrops on nearly the ridge of the hill, and the North Butler is a new lode, discovered last year, carrying stamp rock in promising quantities. The values of these seven lodes can be forecasted to some extent, but the actual test of stamping will be required to permanently fix their relative position as profit-makers.

The annual report of the Adventure company is clear, complete and satisfactory in the details it gives to shareholders desirous of keeping themselves fully informed regarding their property. The amount of money raised by the Adventure Consolidated Copper company to date is \$1,400,000, of which \$250,000 was paid for the real estate, leaving \$1,150,000 for the reopening and equipment of the mine and the construction of a mill. This is a large sum of money, but the last assessment of \$600,000 is sufficient large to give the directorate all the cash required to open the mine and complete the mill upon a very considerable scale, and shareholders will not be called upon for further contributions. The mine should become a producer late in 1902, as it is not likely that the mill can be placed in running order before that time.

The total amount of opening made to the close of 1900 was 8,109 feet, of which 1,151 feet were in shafts; 2,004 feet in crosscuts, and 5,954 feet in drifts. These openings have been added to quite largely in the seven months that have since elapsed, and the property is rapidly growing to look like a mine of good size. A considerable amount of opening is being built up, and the later buildings at the mine are all of a permanent nature. Because of the peculiar formation encountered at the Adventure property, sinking is not being done as rapidly as would otherwise be the case, a great deal of the energy devoted to the mine being required to extend the openings on a horizontal plane, which are unusually extensive in proportion to the incline openings, owing to the succession of parallel copper-bearing strata, and the high bluff that allows the opening of the copper levels by adits, as before explained.

The main line of the Copper Range railroad passed some distance from the shafts, but a branch track is now being constructed to the mine, and at this writing, early in August, has been graded and will soon be in running operation.

A mill site was chosen on the shore of Lake Superior, west of the Atlantic and Baltic mills. The company had in view a site east of Ontonagon, but it would have been costly to utilize it, as it would have required the construction of a private railroad through a rather difficult country, and the site, when reached, was scarcely as desirable as the one finally selected. The site of the mouth of the Salmon Trout was secured from the Copper Range company in consideration of a traffic agreement executed by the mining company, under the terms of

The Butler lode is the northernmost, and outcrops on the lowest ground, the other cupiferous strata occurring in the following order, from north to south: Merchants', Mass, North Butler, Butler, Ogima and Evergreen. The Butler outcrops on nearly the ridge of the hill, and the North Butler is a new lode, discovered last year, carrying stamp rock in promising quantities. The values of these seven lodes can be forecasted to some extent, but the actual test of stamping will be required to permanently fix their relative position as profit-makers.

The annual report of the Adventure company is clear, complete and satisfactory in the details it gives to shareholders desirous of keeping themselves fully informed regarding their property. The amount of money raised by the

ROOSEVELT SPEAKS

IS ORATOR AT OPENING OF MINNESOTA STATE FAIR.

DWELLS ON THE FOREIGN POLICY.

GREAT CROWD GIVES HIM AN ENTHUSIASTIC OVATION.

Vice President Shakes Hands With Thousands of People, Sees Exhibits and, With Gen. Miles, Reviews the National Guard.

Minneapolis, Sept. 2.—Vice President Roosevelt had a strenuous day. He was the orator at the formal opening of the Minnesota state fair, shook thousands of hands at the reception following, was the guest of the fair association at lunch, and reviewed the Third infantry and First artillery. He occupied the judges' stand with General Miles, Archbishop Ireland and Governor Van Sant. The grand stand was packed and when the governor asked the ladies to wave their handkerchiefs and the men to give three cheers, the result was a response which the vice president will long remember. The audience was responsive throughout the address and the speaker had frequently to pause.

Vice President Roosevelt in beginning his address paid a high tribute to the character and energy of the men descended, he said, from a race of pioneers which had pushed westward into the wilderness and laid the foundations for new commonwealths. The men with ax and pick and plow, who, he said, had pushed to completion the dominion of our people over the American wilderness, had shown by their qualities of daring, endurance and far-sightedness that they recognized in practical form the fundamental law of success in American life—the law of worthy work; the law of resolve, high endeavor.

Continuing, he said: "It seems to me that the simple acceptance of this fundamental fact of American life, will help us to start aright in facing not a few of the problems that confront us from without and from within. We cannot possibly do our best work as a nation unless all of us know how to act in combination as well as to act each individually for himself. This acting in combination can take many forms, but of course its most effective form must be when it comes in shape of law; that is, of action by the community as a whole through the law-making bodies. No hard and fast rule can be laid down as to where our legislation shall stop in interfering between man and man, between interest and interest.

"All that can be said is that it is highly undesirable on the one hand, that in a constantly increasing number of cases, we shall find it necessary in the future to shackle cunning as in the past we have shackled force. It is not highly desirable, but necessary that there should be legislation which shall carefully shield the interests of wage-workers, and which shall discriminate in favor of the honest and humane employer by removing the disadvantage under which he stands when compared with unscrupulous competitors who have no conscience and will do right only under fear of punishment. Nor can legislation stop with what are termed labor questions. The individual and corporate fortunes, the vast combinations of capital, which have marked the development of our industrial system, create new conditions and necessitate a change from the old attitude of the state and nation toward prosperity."

There was, he contended, but the scientist justification for the outcries against men of wealth, as such, and it ought to be unnecessary, he said, to state that any appeal, which finally entails the possibility of lawlessness and violence, was an attack upon the fundamental properties of American citizenship.

"Our interests are at bottom common," he continued. "In the long run we go up or down together. Yet more and more it is evident that the state, and if necessary the nation, has got to possess the right of supervision and control as regards the great corporations which are its creatures; particularly as regards the great business combinations which derive a portion of their importance from the existence of some monopolistic tendency."

As to our relations with foreign powers, Vice President Roosevelt said that our nation, while first of all seeking to its own domestic wellbeing, must not shrink from playing its part among the great nations without. "Our duty," he said, "may take many forms in the future as it has taken many forms in the past. Nor is it possible to lay down a hard and fast rule for all cases. We must ever face the fact of our shifting national needs, of the always changing

opportunities that present themselves. But we may be certain of one thing: whether we wish it or not, we cannot avoid hereafter having duties to do in the face of other nations. All that we can do is to settle whether we shall perform these duties well or ill."

He counseled courtesy and respect in all dealings with any foreign power with whom the government might come in contact. On this point he added: "Let us make it evident that we intend to do justice. Then let us make it equally evident that we will not tolerate injustice being done us in return. Let us further make it evident that we use no words which we are not prepared to back up with deeds, and that while our speech is always moderate, we are ready and willing to make good. Such an attitude will be the surest possible guarantee of that self-respecting peace, the attainment of which is and must ever be the prime aim of a self-governing people. This is the attitude we must take as regards the Monroe doctrine."

"We do not by this doctrine intend to sanction any policy of aggression by one American commonwealth at the expense of any other, nor any policy of commercial discrimination against any foreign power whatsoever. Commercially, as far as this doctrine is concerned, all we wish is a fair field and no favor, but if we are wise we shall strenuously insist that under no pretext whatsoever shall there be any territorial aggrandisement on American soil by any European power, and this, no matter what form the territorial aggrandisement may take."

Vice President Roosevelt concluded with a discussion of the subject of expansion and a review of what had been accomplished in Cuba and the Philippines toward establishing a free and independent commonwealth of the former, and "ultimately a self-governing people" of the latter.

The vice president was followed in a few remarks by General Miles. Two hours of the afternoon were spent by the party in viewing the exhibits.

During the review of the troops Colonel Roosevelt rode down the line, followed by General Miles and Governor Van Sant, after which he took a position on the race track, where the troops marched in review.

Tonight the vice president was the honored guest at a dinner at the Minneapolis club given by National Committee Chairman Shubin. About one hundred invited guests were in attendance and the function was formal and elaborate.

MR. YU DOUBTS IT.

Washington, Sept. 2.—Owing to the fact that before the Boxer troubles developed in China the government appointed Kwei Chun to the post of minister to St. Petersburg, Minister Wu is not inclined to credit the London dispatch that the Chinese minister is to be transferred to St. Petersburg and Mr. Wu to London.

FATAL PITTSBURG FIRE.

Pittsburg, Sept. 2.—The destruction of the Hotel McKee this morning resulted in the burning to death of Harry McKee, aged eleven, son of the proprietor; injury to four others, and narrow escapes for many more. The fire was caused by the explosion of a gasoline stove.

MISS JONES WINS AT TENNIS.

Niagara-on-the-Lake, Ont., Sept. 2.—Marion Jones, daughter of Senator Jones of Nevada, won the ladies' international tennis championship today, by beating Carrie Neely of Chicago in a four-set match.

GUAM'S GOVERNOR A TYRANT.

Former Secretary of Lieut. Schroeder Makes Carling Charges.

Oakland, Cal., Sept. 2.—W. B. Smith, brother of Police Judge Mortimer Smith, has returned from Guam, where he went to serve as private secretary to Military Governor Schroeder. He was forced to resign after three months' service owing to ill-health, and the treatment he received from the governor. "Governor Schroeder," says Smith today, "will be investigated by congress. Schroeder is a South Carolinian and naturally a tyrant. In his opinion, apparently, a soldier is a cur, and every officer should abuse.

"In three months there were seventy summary courts martial of enlisted men and twelve courts martial of a general nature, making a total of eighty-two men out of 150 marines who were confined, starved, and overworked in the heat of the tropic islands. To escape the persecutions and merciless treatment the men are forced to flee to the hills without food or shelter, and they return only when starvation drives them from the barren hillsides.

"The government maintains an ice plant on the island and pays quantities of ice are manufactured every day, yet a civilian could not purchase a single pound of ice are thrown away every day. The fever-stricken clerks were denied the smallest comfort. "Governor Schroeder refused transportation to civilians, although their appointments called for it, many were forced to stay away in order to leave the island."

Smith says the death rate on the island is remarkably high.

WOULD MEAN REBELLION.

Congressman Hull Declares Mindanao No Place for Missionaries.

San Francisco, Sept. 2.—Congressman Hull of Iowa, who recently returned from Manila and is spending a few days in this city, declares that if missionaries are allowed to go to the island of Mindanao, where the Moro tribe is dominant, it will cost our hands a rebellion which will cost immense sums to suppress. He said: "At present everything is very quiet in Mindanao, but if missionaries ever get down there will be serious trouble. The Moros are Mohammedans, and polygamy is part of their religion. Just as soon as preachers set to work among them, preaching against plural wives, our difficulties will begin, and when these people rebel we will have our hands full. They are fierce, warlike men, who do not know what surrender means. Like all Moslems, they are fanatical to the last degree and will fight for their religion till the very last. Spain never made any attempt to govern them and thus avoided trouble. There are 300,000 Moros, and war with them would make our trouble with the Filipinos look like child's play.

SUES LODGE FOR \$10,000.

Indiana Locomotive Fireman Claims Loss of Eye During Initiation. Wahash, Ind., Sept. 2.—Glenn Johnson, a fireman on the Chicago & Erie railroad, who lives at Huntington, has retained an attorney to commence a suit for damages against the Brotherhood of Locomotive Firemen. Two years ago Johnson was initiated at Huntington, and during the ceremony he claims one of his eyes was injured so that the sight has been permanently destroyed. He asks \$10,000 damages.

QUEER SUIT IN INDIANA.

Man Who Refused to Stop Street Fight Is Sued for \$10,000. Terre Haute, Ind., Sept. 2.—Porter Bond, at Coal City, has sued Ed Morris and not act as peacekeeper and prevent Abe Bailey from hitting off Bond's finger. The injury caused blood poisoning, and Bond's arm was amputated to save his life. He alleges in his complaint that Morris was called on to interfere and stop the fight, but refrained from doing so.

"You are witnessing a battle between labor and the great steel trust. The trust is using its money to buy a court to rule by injunction is to dispense with jury and condemn a man for violating a law the court itself made. "Under the system a number of employers can organize themselves and go into court and get an order prohibiting others from organizing. The employers can organize to crush labor, but others are forbidden to organize. "I am opposed to government by injunction, not that it is directed especially against the laboring man, but that it does away with trial by jury. It is a menace to all. It is within the power of the laboring man to do away with the system."

Bryan denounced the action of the South Carolina mill men who forbade the men to celebrate Labor Day or join unions. Mr. Bryan later went to Kansas City, Kas., where he addressed an open air meeting of ten thousand, going over the same ground as here. Tonight he made a short address at the Democratic club. Last week I went about, Full of trouble and of doubt. Now I'm smiling and dance with delight, I had some Rocky Mountain Tea last night. The Stafford Drug Co.

Strawberry and chocolate ice cream by the dish? Oh, yes, we have it. Heppner's.

SPEND SUNDAY IN MUNISING.

Low Excursion Fares—Commencing Sunday, Sept. 2.—The D. S. & A. railway will sell excursion tickets to Munising on the very low rate of \$1.10. Tickets will be on sale for the early morning train of Sundays and will be good for return passage on the night express of same day. For further particulars apply to depot ticket agent or to Geo. W. Hibbard, G. P. A. (8-15-10)

BRYAN HITS TRUSTS

SCORES MONOPOLY IN SPEECH AT KANSAS CITY.

IS THE LABOR DAY ORATOR.

RIDES AT HEAD OF PARADE OF 5,000 WORKINGMEN.

Evils That Beseet the Toilers Through Combines Treated in Address on "Muzzle Not Mouth of Ox That Treadeth Out the Corn."

Kansas City, Sept. 2.—Labor Day was marked by the largest and most imposing parade of unions ever seen here and by the participation of Wm. J. Bryan in the procession and exercises. Eight thousand men marched. Bryan occupied a carriage at the head of the line and was cheered wherever recognized. He was the orator for the afternoon and took for his text the Bible verse, "Muzzle Not the Mouth of the Ox That Treadeth Out the Corn." In part, he said: "Each decade of history shows a greater production of wealth and the men who produce it have less to show for it. Is this a good condition, a right condition, where the solution of the problems that confront us is in legislation, not in legislation for or against classes, but for equal justice before law. The strike is the only weapon the laborer has, but it is weak, and inefficient. "If the laboring men were half as enforceable on election day as in the enforcement of strikes, they would wield a force that would right the evils which beset them. The greatest danger today is private monopoly. Not that any one monopoly is worse than others, but the principle is bad which tolerates any private monopoly.

"I have heard that the true solution of the problem is for the laboring man to divide the profits with the trusts. Such a thing would be immoral and impolitic. It would be like dividing the spoils of a highwayman. It would be permitting a man to rifle your pockets and offer to divide the proceeds with you. The only people who are sympathetic with you are those who toil. "When trust prices get so high the farmers cannot buy, they'll eat the products of their own industry. Their wives can go back to the primitive method of making clothes by weaving. But when the farmer can no longer pay the trust prices, there'll be no more demand for the labor of your toil and you can make no more wages. "The offer of trusts to divide is a pitfall. How many would like to try a law suit when the judge on the bench is an opposing party to the suit? There are good judges and good juries, yet do you want judges and juries to try your cases where they're interested in the outcome? When you permit private monopoly to dictate the terms of division, you place yourselves at their mercy.

"You are witnessing a battle between labor and the great steel trust. The trust is using its money to buy a court to rule by injunction is to dispense with jury and condemn a man for violating a law the court itself made. "Under the system a number of employers can organize themselves and go into court and get an order prohibiting others from organizing. The employers can organize to crush labor, but others are forbidden to organize. "I am opposed to government by injunction, not that it is directed especially against the laboring man, but that it does away with trial by jury. It is a menace to all. It is within the power of the laboring man to do away with the system."

Bryan denounced the action of the South Carolina mill men who forbade the men to celebrate Labor Day or join unions. Mr. Bryan later went to Kansas City, Kas., where he addressed an open air meeting of ten thousand, going over the same ground as here. Tonight he made a short address at the Democratic club. Last week I went about, Full of trouble and of doubt. Now I'm smiling and dance with delight, I had some Rocky Mountain Tea last night. The Stafford Drug Co.

CANADA'S CENSUS DOCTORED.

Frauds Charged and Royal Commission Will Investigate.

Windsor, Ont., Sept. 2.—It is said that because of the small increase in Canada's population as shown by the last census a royal commission will be formed for the purpose of looking into causes. "Conservative politicians are strong in the belief that the enumerators were 'fixed' by representatives of the government in Quebec and Nova Scotia in order that the basis of parliamentary representation may give the government an increased majority at Ottawa, while in Ontario, Manitoba, and British Columbia, all strongly Conservative provinces, a heavy decrease is reported.

MARINE MATTERS.

Passed the Canal. Sault Ste. Marie, Mich., Sept. 2.—(Special.)—Up.—Selwyn Eddy, Hiawatha, City Genoa, 8:30 p. m.; Sitka, 10:50; Castle, Rhodes, 11:20; Madagascar, midnight; Fryer, Wade, Neptune, 12:20 a. m.; Livingston, Worthington, Wilbur, Martin, 3:40; Phoenix, 6; Houghton, Maderia, Panther, Louisiana, 8:30; Montana, Samuel Mitchell, Chickamauga, China, 10:42; Cadillac, 11:30 a. m.; Hoyt (whaleback), America Tyrone, Myles, 11; Harvey Brown, Roumania, Iron Age, Hutchinson, 2 p. m.; Corsica, 3; Presque Isle, 3:40; Westcott, Bedford, 5:30; Jno. Mitchell, Fairburn, Martha, 6:30; Rensselaer, Krupp, Carlington, 8.

CITY BRIEVITIES.

Miss Edna G. Thompson has arrived home, after spending several weeks with friends at Grand Marais and the Soo. Frank P. Maher and sister of Chicago are in the city. Mr. Maher is a postoffice inspector and he will be engaged here with official business this week. "Witch of the Woods" was given a second presentation at the opera house last evening. Saturday evening's success was duplicated. There was a good attendance.

Fred Haven of 217 Bluff street, lost a two-and-a-half-year old boy yesterday morning. The little one succumbed to cholera infantum. The funeral will be held this afternoon at 2 o'clock from the home. Martin Adson, W. W. Walker and W. F. Fitch, general manager of the South Shore road, left Saturday evening for Gary, Minn., where they will turn their dogs and guns loose on the prairie chickens, which are ready for the slaughter out there. Mr. Adson and party will return to Duluth early Tuesday morning. Duluth News-Tribune.

The new Lake Shore boulevard has been surveyed. It is to extend through from Hewitt avenue to the Pine street drive. Some work is now being done near the lower end of Hewitt avenue. The road is simply to be cut out and paved this section, the grading being postponed until another year. The appropriation which will be expended on the improvement this fall amounts to \$10,000.

M. D. Goodman, secretary of the Western Hay Fever association, arrived in Marquette yesterday to spend his usual summer vacation. A business meeting of the association will be held Tuesday afternoon at the Normal auditorium. It is desired that there be a full attendance of all hay feverites now visiting in the city. Secretary Goodman is prepared to issue certificates of membership. He may be found at the Mayor's office today, and every day for the remainder of the season, from 10 o'clock until 12 noon.

One of the best effects in stage realism are the apple trees in Wm. A. Brady's production of "Lovers' Lane" by Clyde Fitch, which will be seen here Wednesday. The trees in the third and fourth acts are marvels of workmanship in the third supposed to represent the fall of the year, the trees heavily laden with fruit and the fourth act, springtime the trees in full bloom, with its blossom which seem to permeate the atmosphere with perfume, at a great cost and the best skilled workman. Mr. Brady has triumphed and has succeeded in getting away from the time worn painted stage trees of old.

The past few days has witnessed the assembling here of the several outdoor men and women who teach in the Marquette schools. They are now all in the city ready to begin work next Monday, the extra week's vacation being, to them, an unexpected pleasure. There has been a number of departures, but also been a number of graduates of the Normal to other upper peninsula cities where they have accepted positions in the grade schools. There is a large and steady demand for the Normal girls, as most of the boards of school trustees are now requiring Normal training in the people they put in their schools.

A deal is about to be closed at Iron Mountain, whereby Charles Goodman of Marquette, and A. R. Goodman of New York City, representing a company of capitalists, will get control of the water power on the Pine river, two miles west of that city. They will build a dam and harness the steam and expect to develop 1,800 horsepower. An electric light and power plant will be erected. It is their intention to build an electric railway from Iron Mountain to Norway, touching at Quimmesee, and from the latter place to build a spur to Niagara, Wis. The same capitalists are also looking over sights at Spread Eagle, near Iron Mountain, with a view to erecting a large summer resort.—Iron River Reporter.

The copper country Shriners are making preparations to send a big delegation to Marquette on the tenth and eleventh of this month, when the upper peninsula Shriners will gather at the Queen City for their annual celebration, says the Houghton Mining Gazette. Conference Committees will hold a stated convocation at the asylum here on Friday night of this week. There will also be a gathering of the Shriners on Wednesday night. On both Friday and Wednesday there will be drills under the direction of Sir Knight James Collier of Lake Linden. It is requested that all the Sir Knights of the commandery who are available attend the Marquette gathering be on hand on both nights. It

is not yet known exactly how many copper-country knights will take in the Marquette meeting, but Embert Comandumler North has arranged for accommodations for at least fifty at the Marquette hotels.

SHOOTING RECORD BROKEN.

New York, Sept. 2.—The district of Columbia team of twelve men took the Hilton trophy match at St. Clair today from eleven teams of twelve men each. The winning team broke the record which it established in 1895, making a score of 1098.

M'KINLEY TO REVIEW THE VETS.

Cleveland, Sept. 2.—A committee went to Canton today and invited President McKinley to review the Grand Army naval parade, as well as the military parade, and reported on returning that the president has consented to do so.

TODAY'S WEATHER.

Washington, Sept. 2.—The following is the weather bureau's forecast for Upper Michigan: Fair Tuesday, warmer in western portion; Wednesday, fair; winds mostly light southeasterly. Sid Darling, 1012 Howard street, Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Ulcers, open or obstinate sores, scalds and piles, quickly cured by Bannar Salve, the most healing medicine in the world. The People's Drug Store.

MILWAUKEE INDUSTRIAL EXPOSITION, MILWAUKEE, WIS., SEPTEMBER 7th TO 28th, 1901.

For the above occasion the D. S. & A. railway will sell tickets to Milwaukee, Wis., and return at rate of fare and one-third for the round trip; children five years of age and under twelve half fare. Tickets will be on sale Tuesday, Thursdays and Saturdays during the continuance of the exposition and will be good for return passage until the following Monday in each case. For particulars, apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (8-29-10)

G. A. R. NATIONAL ENCAMPMENT

Cleveland, Ohio, Sept. 10-14, 1901.

For the above occasion, the D. S. & A. railway will sell tickets to Cleveland, Ohio, and return at 1 cent per mile. Tickets will be on sale Sept. 7 to 11, inclusive, and will be good for return passage leaving Cleveland up to and including Sept. 15, with the privilege of extension of return limit to Oct. 15 by depositing tickets and paying a fee of 50 cents. This will be a good opportunity to visit the Pan-American exposition, as you can purchase tickets at Cleveland for Buffalo and return at rate of \$2.00 and upwards. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (8-27-10)

HOME SEEKERS' EXCURSION.

For the above, the C. M. & St. P. railway is offering special rates. Northwest, West and Southwest, including California, tickets on sale July 2 and 15 Aug. 15 and Sept. 3 and 17. For full particulars, apply to agents D. S. & A., or to S. H. Vaughan, commercial agent, Houghton. (7-3-10)

TO THE PAN-AMERICAN.

The Michigan Central, "The Niagara Falls Route," has planned a delightful trip for you to the Pan-American exposition and to the eastern resorts, via Niagara Falls and Buffalo at reduced rates, with stop-over privileges. Send for illustrated souvenir to W. Ruggles, general passenger and ticket agent, Chicago. (6-18-10)

SPECIAL EXCURSIONS

To Colorado, Utah and South Dakota. The D. S. & A. railway now has on sale some very low rate excursion tickets to points in Colorado, Utah and South Dakota. Tickets are good for return passage until Oct. 31, 1901. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (7-29-10)

MINNESOTA STATE FAIR

Hamline, Minn., Sept. 2-7, 1901.

For the above occasion, the D. S. & A. railway will sell excursion tickets to St. Paul or Minneapolis and return at rate of single fare for the round trip. Children five years of age and under twelve, half rates. Tickets will be on sale August 31st and Sept. 1st and 2nd and 3rd and will be good for return passage until September 9th, inclusive. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (8-23-10)

EXCURSION FARES

To the Famous Fishing Grounds east of Marquette—Commencing Sunday, May 15, 1901, and continuing every Sunday thereafter until further notice, the D. S. & A. railway will sell excursion tickets to the following points at the very low rates named: From Marquette to Ishpeming, 40c; to Sault Ste. Marie, 1.00; to DeSauter, 1.25; to Ontonagon, 1.25; to Rock River, 1.25; to Au Train, 1.25; to Munising Junction, 1.25; to Wetmore, 1.25; to Shingleton, 1.00; to Oronoco, 1.25. Tickets will be sold for the early morning express of Sundays and will be good for return passage on the night express of same day. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A. (8-15-10)

Get What You Ask For!

When you ask for Cascarets Candy Cathartic be sure you get them. Genuine tablets stamped C. C. C. Never sold in bulk. A substitute is always a cheat and a fraud. Beware! All druggists, roc.

SYRUP OF FIGS. NEVER IMITATED IN QUALITY. An Excellent Combination. The pleasant method and beneficial effects of the well known remedy SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fever, gently yet promptly and enabling you to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative. In the process of manufacturing figs are used, as they are pleasant to the taste, and the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. ONLY GET THE BENEFICIAL EFFECTS AND TO AVOID IMITATIONS, PLEASE REMEMBER THE FULL NAME OF THE COMPANY PRINTED ON THE FRONT OF EVERY PACKAGE. CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y. Wholesale by all Druggists.—Price 50c per bottle.

A Wig. You don't see very many wigs nowadays. People have been educated how to care for the hair. That's one reason. Another is, Ayer's Hair Vigor makes wigs unnecessary. Nothing its equal for feeding the hair. "For many years my hair has come out so fast every time that I had to wear a wig. I tried Ayer's Hair Vigor. It stopped the falling, and made my hair grow so that last winter I did not use my wig at all." Sarah F. Lewis, Pittsburg, Pa. All Druggists. J. C. AYER CO., Lowell, Mass.

TO RENT-Two or three rooms furnished for a great number of years the great bulk of potatoes which go to supply the general market is raised in latitudes where climatic conditions are similar to those of the upper peninsula. To avoid spraying these potatoes are planted late regardless of variety. They look well through the winter, but the great trouble is that they do not ripen. They will keep for a certain length of time in cellars or pits, and for a long time in the modern cold storage houses. They suit the jobber because he has no choice in his source of supply, but they fall far from suiting the consumer, who is the customer and judge, and he is the fellow who is doing the "kicking" the jobber needs but to hear of a new source of supply where the consumer can get what he wants, when he will be anxious to place his orders there. The special climatic conditions of the upper peninsula not only insure a complete success in the raising of the right kind of potatoes, but as the conditions are not enjoyed by other regions, the upper peninsula farmer may in time enjoy a monopoly of the high grade potato market.

FOR SALE-Fine launch, twenty-five feet over an eight and a half beam, quarter cabin, double cylinder, six-horse power gasoline engine. Nearly new and in first-class condition. For particulars address M. H. Board, Marquette, Mich. 7-11-11

WANTED-A good cook. Apply at 423 East Ohio street. 6-26-11

FOR SALE-Residence on East Michigan street formerly occupied by W. W. Manning. Inquire of Eldredge & Miller, Nester Block. 4-29-11

FOR SALE-Exploring outfit, engine, boiler, iron tubular boiler. Also tubular boiler or six ft. iron piping and pulleys. F. B. Spear. 7-14-11

FOR SALE-Choice building lots in Nester addition for sale cheap for cash. On time at low rate of interest. For particulars inquire at office of Peter White. 8-8-11

DESIRABLE REAL ESTATE FOR SALE. Store property at 125 Superior street. Three hundred and thirty feet of harbor water front, between Genesee and Mesnard streets. Lot 1 of Block 2, North Marquette addition, formerly occupied by W. W. Manning. E. C. WILKINSON AND A. E. MILLER. 4-29-11 Assignees.

G. R. WATTS, Piano Tuner. Leave orders at G. N. Conklin's, Marquette; County Telephone 15, and E. Girz's, Ishpeming.

PROPOSALS WANTED. Bids will be received at Chocology township clerk's office for macadamizing state road. Bids to be opened on Sept. 14th, at 3 o'clock p. m. Specifications can be seen at town hall of Chocology every Saturday from 2 to 5 o'clock p. m. Township will furnish rock-crusher. Address all communications to W. F. Powell, also a contract to be let at same time for furnishing and laying about 700 feet 4-inch water pipe, with hydrants.

NOTICE TO CONTRACTORS. Sealed proposals will be received by the building committee of the new county poor house, at Room 4, Harlow block, until 5 o'clock p. m. Tuesday, September 10th. For the furnishing of material and laying a sewer from Garden street along certain streets and alleys to the county poor house. Plans and specifications can be seen at the office of D. W. Powell. Also a contract to be let at same time for furnishing and laying about 700 feet 4-inch water pipe, with hydrants.

MINERAL RANGE RAILROAD COMPANY-HANCOCK & CALUMET RAILROAD COMPANY-Notice is hereby given that the choice of stockholders of the Mineral Range Railroad company and the Hancock & Calumet Railroad company, for the election of directors and the transaction of any other business that may lawfully be brought before said meetings, will be held at the office of said companies in the City of Marquette, Mich., on Thursday, September 13, 1901, at 2 o'clock p. m.

MARQUETTE, HOUGHTON & ONTONAGON RAILROAD COMPANY-Notice is hereby given that the annual meeting of the stockholders of the Marquette, Houghton & Ontonagon Railroad company for the election of directors and the transaction of any other business that may lawfully be brought before the meeting, will be held at the office of the company in the City of Marquette, Mich., on Thursday, September 13, 1901, at 2 o'clock p. m.

EGGS FOR "QUAKER DOCTORS." They Were Refused License Yesterday by Recorder Donovan.

An attempt was made to egg "Brother Paul" of the "Quaker Doctor" combination last evening. He escaped unscathed and the "fruit" took effect on members of the large and eager audience which had assembled to witness the evening performance. It was the largest that has been heard of the "Quakers" and the entire peeling caused no little interest and excitement. Upwards of a couple of dozen eggs were thrown. The showers came at three different times during the evening. The people who were at the business end of the odoriferous misadventure escaped detection and no arrests were made. Naturally Brother Paul warmed up at the assault on his person and dignity. His remarks were caustic and vehement. At one stage of the proceedings he dismounted from his wagon and gave chase to an offender. One of the police officers who tore his trousers while in chase of one of the egg shiers was reimbursed for the cost of the garment on the spot. Brother Paul chucking him a \$10 bill. The eggling did not interfere with the demonstrations nor with the consequent sale of medicine.

The evening's disturbance was preceded by Recorder Donovan's refusal to issue the combination any more licenses, he taking this course on account of the numerous complaints registered by people who regard the "Quaker Doctors" as fakes, pure and simple. They have been getting their licenses from day to day and their usual turn-down occurred yesterday afternoon.

The "Doctors," upon the recorder's action, paid some \$30 advance fees into the treasurer's office, rented the vacant lot on Superior street and proceeded with their usual performance with the result outlined above. The usual fall harvest, as by the usual fall harvesting. As the result of the experiment will be given the widest publication all over the United States, farmers of every county in the upper peninsula will be asked to co-operate with the Experiment Station and conduct similar experiments according to instructions furnished by the officers.

"As I am fully convinced that the experiment will be highly successful," said Leo M. Geismar, superintendent of the station, "it is hard to compute in dollars and cents the great benefit which the upper peninsula will derive from it. For a great number of years the great bulk of potatoes which go to supply the general market is raised in latitudes where climatic conditions are similar to those of the upper peninsula. To avoid spraying these potatoes are planted late regardless of variety. They look well through the winter, but the great trouble is that they do not ripen. They will keep for a certain length of time in cellars or pits, and for a long time in the modern cold storage houses. They suit the jobber because he has no choice in his source of supply, but they fall far from suiting the consumer, who is the customer and judge, and he is the fellow who is doing the "kicking" the jobber needs but to hear of a new source of supply where the consumer can get what he wants, when he will be anxious to place his orders there. The special climatic conditions of the upper peninsula not only insure a complete success in the raising of the right kind of potatoes, but as the conditions are not enjoyed by other regions, the upper peninsula farmer may in time enjoy a monopoly of the high grade potato market.

Furthermore, seedsmen, as well as all progressive growers, know that the further north a plant or seed can be sown the harder it becomes, and this experiment may well be calculated to make of the upper peninsula a market for seed potatoes. The result means an increased demand and consequently higher prices, besides bringing the upper peninsula into the market of the whole world, as a field of special as well as of unlimited resources."

BANNER CAMPING MONTH.

There Are No Mosquitoes and But Few Flies in September.

September is generally considered the banner camping month of the year. Certainly it is a favorite with people who go to the woods for rest and recreation. This has been so in the past and this fall will be no exception, judging from the number of people who are now seeking the various lake shore and interior resorts.

September owes its popularity with the campers to the fact that it is a month practically free of mosquitoes and a month which witnesses the gradual decline of the swarms of flies that make sylvan life anything but complete bliss at earlier times of the year. The woods may be sought with almost absolute impunity from "bites" and insect pests.

There are now, probably, more people in the woods and at the lake shore camps than at any previous time this season and the various resorts will be comfortably filled for a couple of weeks to come. An inspection of the camps that are grouped at Middle Island point and along the beach just beyond will show that they are all full and are keeping open house. These same conditions obtain at the majority of the camps, where the comparative absence of the fly and mosquito pests is even more welcome than is the case on the lake shore, owing to the greater severity of the interior visitations of the insects.

The fall is generally admitted to be the most acceptable time of the year for camping and is being enjoyed more and more popular each succeeding season.

OUT OF THE ORDINARY.

"Lovers' Lane" Is a Unique and Distinctive Drama.

The new Clyde Fitch play, "Lovers' Lane," so successful for five months in New York and all summer in Chicago, will be produced by William A. Brady at the opera house Wednesday evening. It is radically different from all the other Clyde Fitch plays. The two characters are plain folk in simple homespun, such as to make up an average small community. The central figures are a liberal-minded young clergyman, graduated from Amherst, and the girl whom he loves. Around them are grouped the various types of the small town where people are brought into closer companionship the fires of intrigue and opposing factions blaze even more fiercely than in the crowded city.

Mr. Fitch has developed from these rustic, social and church conditions a story that depicts the serious sentiments as well as the brightly humorous side of life. In strength of cast and beauty and realism of stage effects, "Lovers' Lane" takes rank with "Way Down East" and the many other notable productions that have made Mr. Brady's name synonymous with all that is daring, liberal, artistic and enterprising.

NOTICE.

A business meeting of the members of the Western Hay Fever association will be held at the Normal auditorium Tuesday afternoon, Sept. 3, at 2:30. It is earnestly requested that every member attend, as matters of importance are to be acted upon.

M. D. GOODMAN, Secretary.

The secretary is prepared to issue certificates for the ensuing year and will do so at the mayor's office today and every day hereafter from 10 to 12 o'clock a. m. (9-3-11)

You can always get a light lunch, with a cup of tea or cocoa, at Heppner's. (8-6-11)

JUST REMEMBER THIS. DeBell's Kidney Pills are the only remedy that ever cured diabetes. They will cure any disease that arises from the same cause, disordered kidneys, rheumatism, neuralgia, heart disease, nervousness, bladder troubles and female complaints all yield to DeBell's Kidney Pills. There can be no doubt, no uncertainty about the result of using DeBell's Kidney Pills. They will cure rheumatism or other kidney diseases as surely as pulling a decayed tooth cures toothache. Price 25 cents per box. Stafford Drug Co.

CASH PAID FOR OLD SCHOOL BOOKS.

HOW TO CURE CUCUMBERS.

Leo M. Geismar Gives Some Professional Information on the Point.

Leo M. Geismar, superintendent of the upper peninsula state experiment farm, in sending a consignment of cucumbers to a friend, recently wrote: "I do not suppose you have a garden, nor that you raise much in it if you have one. I shall therefore send you a box of the miscellaneous truck, and I thought I would let you know before hand. Among the assortment you will find some cucumbers of the long green variety, the only kind of long green which farmers can raise, the other kind being more successfully raised by railroads."

"Perhaps you are afraid of cucumbers, like a good many other people are, and you may see in them a vision of griping, distress and agony such as most experimental station farmers will be subjected to in the hereafter. But there need not be any cause for alarm, it is all in the way of preparing the cucumbers, and none of us have ever suffered from them, although we often eat a bushel of them. Some expert cook said once that cucumbers are as harmless as bread, providing they are properly handled, and the way to do it is to cut them up very fine and mix with salt and pepper on them. Leave them stand in the dark for an hour, well covered up. Then put vinegar on them and leave them stand uncovered in front of a closed window, so as to keep them out of a draught and give them plenty of light."

"Now we have a method which is just as good and which gives more satisfaction. From the time they are received until they are put on the table, they must be kept cool, the colder the better. After peeling, slice them very thin, not any thicker if possible than a ten cent, or at most, a twenty-five cent piece and leave them in a colander, not as to drain them. Mix them with two good sized onions cut very fine, season them with pepper and very little salt, a small teaspoonful full of vinegar and a large teaspoonful of sour cream. This is for four cucumbers and if no sour cream will cure any disease that arises from the same cause, disordered kidneys, rheumatism, neuralgia, heart disease, nervousness, bladder troubles and female complaints all yield to DeBell's Kidney Pills. There can be no doubt, no uncertainty about the result of using DeBell's Kidney Pills. They will cure rheumatism or other kidney diseases as surely as pulling a decayed tooth cures toothache. Price 25 cents per box. Stafford Drug Co.

Do you like a sandwich and a cup of coffee with cream? If so, go to Heppner's. (8-6-11)

**EGGAN RE-ELECTED.** Little Interest Taken in Election, Only 67 Votes Being Cast.

Fred J. Eggan was again elected school trustee from the first district by a large majority, only one vote being cast against him and that ballot was voted for Joseph Schilling. It was a foregone conclusion that Eggan would be chosen to succeed himself as he had no opposition. Mr. Schilling was not in the field and at no time mentioned himself as a candidate. The total vote cast was sixty-seven, Mr. Eggan receiving sixty-six.

At the annual meeting held yesterday morning Director William Sedgewick submitted a lengthy report, giving a detailed account of the expenses incurred by the board during the past year. The document also gave a report of the number of children of school age living in the district and the percent of these attending school.

The moneys it is expected to use are the same as last year, \$46,000. It is thought that this amount will be sufficient to run the school during the ensuing year, as there is a balance of \$24,000 in the school fund at the present time, this amount having accumulated from year to year. The amount appropriated will be raised by taxation.

The director's report showed conclusively that the school was in a financially sound position. Never before in the history of the board was the condition so favorable. At the present time there are sixty-four teachers employed by the board, five male and the balance women. The aggregate salary paid during the year is \$83,000 or about seven-ninths of the total amount appropriated for running the schools.

**ASK A RECONSIDERATION.** Citizens of Winthrop Petition School Board for It.

The Ishpeeming school board will be asked to reconsider its action on the rule it recently passed, making it obligatory for non-resident pupils to pay \$20 a year tuition. Citizens of Uden township, and especially residents at the Winthrop, are doing all in their power to have the rule repealed. So far they have been unsuccessful, but beginning with today they will commence a systematic campaign to secure free scholarships for the children at that location.

A mass meeting of the citizens of the Winthrop was held Friday evening, at which ways and means for carrying out their fight for free tuition were considered. Many speeches were made and those present were very bitter against the school trustees who favor making residents of that location pay for the tuition of children attending the Ishpeeming schools.

Many of the points outlined in Saturday's issue of The Mining Journal were brought forward, especially the one referring to the amount of money repaid by residents of that place in Ishpeeming. One man stated that almost everything that was used by the people of the Winthrop came from the Hemet city, also that the contract for their new school, now in the course of construction, was awarded to an Ishpeeming concern. It was the opinion of one of the speakers that at least \$40,000 of Tilden township money is spent monthly in Ishpeeming.

Another point that was strongly dwelt on was that years ago, when the Badger Hill location was incorporated into the city of Ishpeeming, the children from that place continued for more than a year to attend the Winthrop school. This was not objected to, and no tuition charge was assessed on these children. When the Salisbury school was erected the children were transferred. It is estimated that if Ishpeeming was charged tuition for these children the sum would amount to many times that asked by the Ishpeeming board from the residents of the outlying townships.

It is probable that an effort will be made to obtain an expression of the views of Ishpeeming business men on the matter. It is thought that if their attention is called to the action of the school board that pressure will be brought to bear on its members that will induce the trustees to reverse their ruling. The following committee was appointed and instructed to use all honorable means to secure reconsideration of its action by the board: Captain John Trebilcock, Thomas Trebilcock, Dr. N. D. Kean, W. W. Brooks, William Tuppen and Henry P. Johnson. The committee will begin work at once and is hopeful of success.

**TAKES MILWAUKEE POSITION.** George Hensel, who for the past two years has been employed at F. P. Tilden's drug store as prescription clerk, has resigned his position to accept a similar one with the A. Speigel Drug company of Milwaukee. Mr. Hensel left for the Cream City last evening and will begin his work at once. While in Ishpeeming Mr. Hensel made many friends, all of whom are sorry to see him go. His parents reside in Milwaukee and they are anxious that he be with them, otherwise he would not have made the change. The A. Speigel company is the largest retail drug concern in Milwaukee.

Recuperation—There is not so much in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla, which refreshes the tired blood, sharpens the dulled appetite, restores the lost courage. Take Hood's Sarsaparilla this summer.

The store at 101 Main street, Voelker block, is for rent. Apply to J. A. Veelker. (8-28-10)

Childs Art Gallery, Ishpeeming, will be closed from the 5th to the 20th of September. C. D. Cole, manager. (8-29-10)

Don't wait until you become chronically constipated, but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. Stafford Drug Co.; H. N. Meloche, Ishpeeming.

ford has been located in the copper country for some months past, being in the employ of the Mineral Range road.

The Ladies' Aid society of the Division street Methodist church will give a social Wednesday afternoon at the residence of Mrs. William Bowden. The admission will be ten cents and the proceeds will go into the society's general fund.

Mrs. William Shea and children left yesterday for the copper country, where they will hereafter reside. Mr. Shea is employed by the L. E. Swift Hardware company. He will leave for Houghton in a week or ten days to join his family.

John Lacey, chief of the fire department, who had been attending the convention of the fire chiefs of the United States at Indianapolis, returned Sunday night. Enroute home he stopped off at Escanaba to attend the Ishpeeming Light Guards' excursion.

The Country club will hold a regular meeting at the Country clubhouse this afternoon. The buss will leave Wm. Sedgewick's residence, on Canal street, at 3 p. m. and another to accommodate those who cannot go by the first conveyance will leave the Peninsula bank at 5 o'clock.

**NEW DIAMOND FIELDS DISCOVERED.** Advice reach us of new diamond fields discovered in British Guiana. Dealers consider these stones superior to the South African diamonds and equal in quality to those of Brazil. Although these new fields are not easy of access, it is presumed that many adventurers will be attracted to them. Things of great value are always sought after. That is the reason Hostetter's Stomach Bitters is always preferred by those who have a reliable medicine for stomach, liver, kidney and bowel disorders. There is no medicine so good for dyspepsia, indigestion, constipation, biliousness or malaria, fever and ague. It also cures nervousness, insomnia, and acts as a tonic to the run down system. Try it, but insist on having the genuine. It never fails.

**Lower Michigan.**

The council at Benton Harbor has resolved to go in special session to grant franchises for two roads leading to control the right of way to desirable parts of the city. One proposes to reach the desired point by tunnel, the other by cutting through the woods. It is considered the biggest railroad fight ever on at Benton Harbor, and both sides are backed by eastern capitalists.

The twenty-ninth annual reunion of the old Twenty-first Michigan Infantry will be held in Grand Rapids Tuesday, Oct. 8. The late Wm. B. McCree, of Flint, was colonel of this regiment, and a souvenir consisting of a pamphlet containing the experiences of the colonel while confined in Libby prison, written by himself, will be presented to the members who attend the reunion.

In place of the annual fair of the Northern Indiana and Southern Michigan Agricultural society, on the grounds between South Bend and Mishawaka, the farmers will have a grand picnic, or field day, on Tuesday, Sept. 10. The celebration will be under the auspices of the St. Joseph county grange at Niles, and the national lecturer of the grange, N. J. Rochester, of New Hampshire, will be present.

Co. F of Manistee held a special meeting at the city on Friday night, which was attended by a large number of citizens, including city and county officials. Capt. Broadhead presided, and after indignant discussion of the sensational stories of brutality during the encampment, appointed Sheriff Lloyd, Marshal Stuart, Prosecutor Chamberlain, Lieut. Waite and Sergt. Estes a committee to draft resolutions expressing the feeling in the community. Their report, which was unanimously adopted, declare the stories false, demand proof from the paper publishing them, request Gov. Bliss to make a thorough investigation and asks state papers to publish the resolutions or their purport.

**DEATH STOOD OFF.** E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave digger. He says: "My father was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at Stafford's drug store.

The ladies of Ishpeeming and vicinity should note that we are going to have a monster cloak, jacket and skirt opening this year. A big line will arrive within the next ten days or so and our display will surpass anything ever seen here. There will be a large variety of fur garments included. We can save you money, so it will pay to wait. Finnish Co-operative association. (8-29-10)

**NOTICE.** We wish to hereby announce that the undersigned members of The Ideal Plumbing Co. have dissolved partnership. Mr. Olson retires from the business and Mr. Robinson will collect all outstanding accounts and also pay all claims against said firm. (Signed) OLE OLSON SAMUEL ROBINSON. (8-26-10)

"Now good digestion waits on appetite, and health on both." If it doesn't, try Burdock Blood Bitters.

**CONSUMPTION THREATENED.** C. Unger, 212 Maple St., Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since." The People's Drug Store.

**BROTHER ACCUSES BROTHER.**

Donato Corso was arrested yesterday for assaulting his brother Martino. The latter claims that Donato had a knife in his possession and would have stabbed him if bystanders had not interfered. On the other hand, Donato contends that Martino caused the trouble and that he have the knife in a false pocket and without the slightest foundation. From all that could be learned it appears that both men were under the influence of liquor and got to wrangling over some trivial matter. Donato will have his hearing in Justice Kennedy's court Thursday morning at 10 o'clock.

**NEW PRINCIPAL AT WINTHROP.**

Professor Frank Ellis Dunstan, formerly of Dollar Bay, has been appointed principal of the Winthrop school to succeed Mr. Norcross, who has gone to West Superior to become principal of one of the schools in that city. Mr. Dunstan comes to this vicinity very well recommended and it was with great regret that the school officials of the copper country town parted with him. He has been engaged in educational work for a number of years.

**ORE CRUSHER REBUILT.**

The repairs to the ore crusher plant at the Cliff shaft mines are nearing completion. The carpenters have finished their work and today the painters will commence their part of the job. The plant was badly damaged by fire about six weeks ago, though temporary repairs were made which permitted the operation to go on after an interval of two days. Since the fire the carpenters had been at work re-building the structure.

**ISHPEMING IN BRIEF.**

Nels Majhamm of Michigan was a visitor in the city yesterday.

August Duclou of Michigan was a Hemetite City visitor yesterday.

Robert Shand of Ironwood formerly of this city, is here visiting friends and relatives.

George Hughes of Escanaba was in the city Sunday and Monday visiting friends and relatives.

Morris Ready, son of Michael Ready, has enlisted in the United States army, and is now located at Manila.

All the stores were closed yesterday because of Labor Day. The mines and banks also discontinued business.

Samuel Byrne and wife of Houghton, who were visiting in the city, returned to their home in the copper country yesterday.

Mrs. O. E. Hardy, wife of the former superintendent of schools, is in the city, the guest of Mrs. Fred Tommerson. Mr. and Mrs. Hardy are now located in Chicago.

Marshal Farm has in his possession a bicycle found on Cleveland avenue. The owner can have the same by calling at the marshal's office and identifying the property.

The Houghton Mining school students had been in this vicinity for the past month or more departed yesterday for the copper country. There were about a dozen in the party.

John Beerling, who is employed by the copper country branch of the L. E. Swift company, was in the city Sunday visiting his wife and children. He left for Houghton last evening.

Mrs. C. Kennedy will leave this morning for Chicago to visit her daughter, Mrs. F. A. Harper. Word was received yesterday that a baby girl arrived at the Harper home Sunday.

The basket picnic given yesterday at Iron Mountain by the members of the choir of the Division street Methodist church was largely attended. About fifty young people participated in the picnic.

All the public schools in Ishpeeming will open today and it is anticipated there will be some increase over last year's attendance. The convent school of St. John's church will also resume today for the fall term.

Mrs. W. J. Whitford and children left yesterday for Houghton, where they will reside in the future. Mr. Whit-

FIRST AID TO THE INJURED.

POND'S EXTRACT

For Burns, Sprains, Wounds, Bruises or Any Sort of Pain. USED INTERNALLY AND EXTERNALLY.

CAUTION! Avoid the weak, watery Witch Hazel preparations, represented to be "the same as" POND'S EXTRACT, which easily sour and often contain "wood alcohol," an irritant externally and, taken internally, a deadly poison.

Negaunee and Vicinity.

[Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.]

NEAUNEE MAN KILLED.

Charles Anderson Meets His Doom in a Minnesota Mine.

Word was received here Sunday of the death of Charles C. Anderson, who was killed Saturday in a mine accident at Eveleth, Minn. No particulars were given and his relatives here know nothing of the fatality occurred.

Anderson left Negaunee about a month ago to work in one of the mines on the Mesaba range. His family still resides in this city and is left in destitute circumstances. There are four small children. The oldest is fourteen years of age and the youngest a mere infant. He remains will probably be brought to this city for burial.

Later—a dispatch from Eveleth, Minn., gives the following details of the accident:

"A terrible accident occurred at the Fayal iron mine here last evening (Friday) about 5:30 o'clock. Two miners, Charles C. Anderson and Andrew Pearson, were instantly killed by an explosion of dynamite. The bodies were terribly mangled and the men were barely in condition to be recognized. The two men were working in a drift underground at Shaft No. 2 at the Fayal mine. Just how the accident occurred will probably never be known. The trammers were away at the foot of the shaft with a car of ore. They heard the explosion, but saw no men coming out of the drift as usual and hurried back to the end of the drift, where the bodies of the two men were discovered.

They were removed to the morgue of J. C. Poole. Both men will probably be buried here. Anderson has a wife and family living at Negaunee, Mich., who have been notified of the accident, but as yet no reply has been received here. Pearson leaves a wife and a three-months-old child."

A VETERAN DRAYMAN.

This city can likely boast of having more old men in the draying business than any place of its size in Michigan, although there are, of course, some young men also doing draying. There is one drayman in particular who has been actively engaged in the work in Negaunee for about a quarter of a century. He is Henry Pascoe. The old gentleman is now seventy-five years of age, but he is still a hustler and can get around as lively as any of the younger draymen. He enjoys excellent health and it is seldom that he misses a day from his regular occupation.

Mr. Pascoe has been a resident of Negaunee for a long time past. In fact he is one of the pioneers of the city and is known to every old resident of the place. He is upright and honest and has the esteem and respect of all his acquaintances.

Barring accidents or unavoidable sickness, Mr. Pascoe is good for many years of active work. He is a man who has always taken the best of care of himself, abstaining entirely from the use of intoxicants and tobacco. The old man owns his own home and enjoys life as much as anyone in the city.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham of Marchis, Me., when the doctors said she would die from pneumonia before morning," writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, and cured her of consumption. After taking, she slept all night. Further use entirely cured her. This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and 1c. Trial bottles free at Stafford's drug store.

Geo. W. Lane, Pawamio, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay for it if it fails. This far I have never paid." Stafford Drug Co.; H. N. Meloche, Ishpeming.

A LITTLE KNOWN FACT.

That the majority of serious diseases originate in disorder of kidneys. Foley's Kidney Cure is guaranteed. Be sure to get Foley's. The People's Drug Store.

How Are Your Kidneys?

Foley's Kidney Cure is guaranteed. Be sure to get Foley's. The People's Drug Store.

Both the D. S. S. & A. and the L. S. & I. railroads carried large crowds down to Marquette yesterday. The weather was perfect and many took advantage of the fine day to take an outing. The towns up-the-line also received a share of the holiday excursions.

John Hampton, aged twenty-three, died Saturday evening at his home on Snow street, from an attack of typhoid fever. The deceased was sick but a short time. The funeral was held yesterday afternoon at 2:30 o'clock from the Mitchell Methodist church, the Rev. Isaac Wilcox officiating.

The Ishpeming Labor Union picnic, held at Cleveland Park yesterday, was largely attended by Negaunee people. Many car loads of men, women and children were carried out to the grounds by the street car company. In the morning the Lake Superior band rode through the city, in one of the cars, advertising the picnic. The band rendered music at the park during the day.

Mr. G. A. Stillman, a merchant of Tampico, Ill., writes: "Foley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health, and Foley's Kidney Cure has made it such." The People's Drug Store.

AFTER TIMBER CLAIMS.

Charles Taylor, Sr., and B. J. Goodman, Jr., Leave for Portland, Ore.

Charles Taylor, Sr., left Saturday evening for Portland, Oregon. He will see what there is in that country in the way of timber claims. B. J. Goodman, Jr., took his departure for there last night. He will join Mr. Taylor in St. Paul and both will journey the remainder of the trip together.

It is likely that Mr. Taylor will be back within a short time, after he satisfies himself that it will or will not pay to take up a claim in that section. There is a possibility, however, of Mr. Goodman remaining out there. He has been anxious for some time past to make a start for himself and he believes that there is no place that affords better opportunities for a young man in his line of business than Oregon. Bernie has had considerable experience in the timber business and he is a hustler. In addition to this he is a young man who will make friends very quickly and who will get along anywhere. He goes out prepared to rough it, if necessary, and if there are any good young men as good as reported, Mr. Goodman will surely win out.

Both he and Taylor will look over the timber lands in different parts of Oregon and the best claims available will be none too good for them. If they find the country as reported, they hope to strike a good thing, though they realize that it will require no little hard work and some fine figuring to make a stake.

Bernie Goodman has a host of friends in this county, who will wish him all manner of success in the new field. During the last few years he has been active in the management of his father's business, getting just the experience he will need in the west.

A great many people are taking up timber claims in Oregon. Some of the oldest and best lumbermen of this section are taking claims or buying timber from men who already have them. Some of the finest timber to be found anywhere in this country is at present engaged from that state. Many of the larger corporations of the upper peninsula are getting some of their better grade timber from there. While much of the pine obtained in northern Michigan in years past has been quite satisfactory, and for many years was used in the more important work about the mines, the best of it never compared with the pine that is now coming from Oregon.

LOCAL LACONICS.

A. S. Cameron was up from Marquette Sunday.

Miss E. M. Griffith of Niles, Mich., spent Sunday in Negaunee visiting friends.

Mrs. R. G. Patterson of Marquette was in the city yesterday visiting friends.

Charles Barth of Escanaba spent Sunday and yesterday in the city visiting friends.

Many people from Negaunee attended the Oddfellows' picnic held at Presque Isle yesterday.

Mrs. Gordon Murray left yesterday for the copper country to visit friends at Houghton and Hancock.

Harry Jackson, son of Robert G. Jackson, was up from Marquette, Wis., Sunday. He returned Sunday evening.

Mrs. E. B. Trathen, who has been visiting with Thomas Trathen for the past three weeks, returned to her home in Laurium yesterday.

Miss Minnie Tourville of Lake Linden, who has been visiting her parents for the past week, returned to the copper country yesterday.

The finder of a bunch of keys lost between the postoffice and Frank Sharon's barn will greatly oblige the owner by leaving them with Tom Trathen.

Miss Clara O'Leary, who has been visiting in the city for the past few days, left yesterday for Calumet, where she will teach during the ensuing year.

Mrs. Chaussee of Joliet, Ontario, is in the city the guest of her son, L. E. Chaussee. She is accompanied by her daughter-in-law, Mrs. O. Chaussee.

Hand bills advertising the Labor Day ball at the Casino rink, Marquette, were distributed in the city yesterday. Many from here went down to the Queen City to attend the function.

Rex R. Seeber of Painesdale, Houghton county, was in the city Sunday and yesterday visiting friends and relatives. Mr. Seeber formerly lived here and for many years was chemist at the Negaunee mine.

Both the D. S. S. & A. and the L. S. & I. railroads carried large crowds down to Marquette yesterday. The weather was perfect and many took advantage of the fine day to take an outing. The towns up-the-line also received a share of the holiday excursions.

John Hampton, aged twenty-three, died Saturday evening at his home on Snow street, from an attack of typhoid fever. The deceased was sick but a short time. The funeral was held yesterday afternoon at 2:30 o'clock from the Mitchell Methodist church, the Rev. Isaac Wilcox officiating.

The Ishpeming Labor Union picnic, held at Cleveland Park yesterday, was largely attended by Negaunee people. Many car loads of men, women and children were carried out to the grounds by the street car company. In the morning the Lake Superior band rode through the city, in one of the cars, advertising the picnic. The band rendered music at the park during the day.

Mr. G. A. Stillman, a merchant of Tampico, Ill., writes: "Foley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health, and Foley's Kidney Cure has made it such." The People's Drug Store.

Upper Peninsula.

Friday at an executor's sale at Iron Mountain the estate of the late Joseph Fleishman realized nearly \$1,000. The holdings in realty of the deceased were disposed of and the bidding was active. Some desirable property was disposed of at good prices and the estate realized handsomely. This week the library owned by Mr. Fleishman will be offered for sale.

It is expected that the Menominee library will be moved into the Spies block about Oct. 1. If the rental is not entirely too high this will be the case. The matter will be brought before the city council. Several possible locations for the library have been inspected but that of the Spies block is by far the most suitable and centrally located. The library is now closed for a month while inventory is being taken.

A severe electrical storm prevailed in the northern and eastern parts of Menominee county Thursday night and the damage wrought by it will amount to \$5,000. Many reports of barns being struck have been received and the heavy rain and hail damaged the crops. The old Crozer saw mill building at Arthur Bay was struck by lightning and burned to the ground. It was owned by William & Jurgen and had considerable valuable fishing material stored in it.

The Menominee school census enumeration which has just been completed by Charles J. Borchardt indicates that the population of Menominee is nearly 16,000, which would be about 3,000 more than the government census taken two years ago. The government census gave Menominee a population of 12,818, and Marinette 10,925. The school census of Marinette gave them nearly 5,000 between the ages of 5 and 18 years. There are 2,110 boys of school age in this city and 2,225 girls, an increase of 200 over 1900.

This has been a busy season at Fim & McCann's camp down on the Manistique & Northwestern R'y. During the peeling season, their crew of men took off 2,000 cords of bark, and the loading and shipping of it will be completed within the next month. Their bark is being shipped to the tannery at the Soo. In addition to their bark contract, they have logged and skidded most of the timber from which the bark has been taken. The timber is owned by the Chicago Lumbering Co. and is being shipped to Manistique.

Mr. Ambro Bettes has returned from Detroit to L'Anse, where he went to attend a meeting of the stockholders of the Detroit Construction company. Mr. Bettes will continue to have charge of the lumbering interests of the company in this section. It is understood that the company will construct and operate a sawmill on Hiron Bay, about twenty miles east of L'Anse, and engage in the lumbering business quite extensively.

Mr. Bettes' headquarters will be in L'Anse for the fall and winter.

D. C. Dillabough of Rapid River is experimenting in the manufacture of oil of cedar, and although the apparatus for producing it is somewhat crude, has made a sufficient quantity to assure himself that the undertaking may be a profitable success.

Mr. Dillabough has several gallons of the oil on exhibition at his hardware store, and experts have pronounced it of a most excellent quality. At present some important improvements are being made in the plant with a view to producing the oil on quite a large scale. Oil of cedar wholesales at \$4 per gallon, with a steady market.

When the steam barge Garden City cleared from Menominee Friday evening for the east she towed out the barge Saveland, which carries a cargo of lumber valued at \$50,000. Her cargo consists of over 600,000 feet of good lumber which was loaded at the Bay Shore Lumber Co.'s dock and about 400,000 feet loaded at other docks. Her cargo is the most valuable taken out of Menominee in years, and it is also one of the largest. The Saveland is a three mast barge, and has three hatches. It cost over \$400 to load her. The lumber was shipped by J. S. Conan and is consigned to the Eastern Lumber Co.

Judge Langley and father of Munising were at Chatham recently to take a look at the experiment station and to do a little fishing, says the Lake Superior Pilot. They caught a nice string of brook trout. The judge says that the crops at the state farm are looking fine, and from the experiments being conducted there he thinks that Mr. Geismann possesses a thorough knowledge of the soil and climatic conditions of this region, judging from the success he is meeting with. Alfalfa is being grown at the station this year, and the experiment proves that it can be grown with great success in this region. Apples and cherries are particularly well. Corn is over ten feet in height and, in fact, all crops are looking fine at the station.

If the Iron Port is authoritatively informed, ere the dawn of Christmas day, Escanaba will be infested by another newspaper. The story goes that George Gallup, ex-mayor of the city, has interested a Wisconsin gentleman in such an enterprise, and that an order has already been placed for press and material, the new paper to be a red-hot, dyed-in-the-wool Republican daily, with Associated Press dispatches and special correspondents at every cross-roads throughout the commonwealth. This notwithstanding the local field is already supplied by three republican papers. It must be that Friend Gallup is desirous of injecting large and luscious decorations of his sort of Republicanism into the community if the tale be true.—Escanaba Iron Port.

An improvement association has been organized by the citizens of Ironwood. Its aims and purposes are set forth in the following extract from resolutions passed at the meeting at which it was formed: "Regarding the necessity of providing a place of amusement for the people, and of otherwise beautifying and improving the city, we have organized ourselves under the name of the Public Improvement Association, of Ironwood, Mich., the object of which is to organize and maintain a public park, build roads and driveways, encourage the planting of trees and shrubs, the beautifying of homes, etc., in short to make

Ironwood a beautiful city, the pride of its citizens, and the admiration of visitors. It is expected that the association will be a powerful influence in improving Ironwood's condition and appearance.

Clinging to a spile at the end of the Stephenson dock at Escanaba, one night recently, a young man shouted in vain for help until nearly midnight, when some of the men employed on the C. & N. W. docks heard his cries and after some trouble located and rescued him from the water. The man would not give his name, but stated that he had fallen into the bay from the dock about 10:30 and had managed to swim to one of the spiles where he clung in desperation and screamed for help until finally exhausted. When his shouts were finally heard, Tim Dunn, a checker on the docks, got a megaphone and with its aid succeeded in learning where the cries came from and what was wanted. He reported the matter to one of the tug crews and the young fellow was soon rescued from his predicament and sent to the hospital to recuperate. The man would not state what he was doing on the dock at that hour of the night nor how he came to fall into the water.

The Northtown and the Northeastern were both in port at Escanaba Friday. The Northtown left Friday night and the Northeastern left Saturday afternoon. These boats are two of those constructed by the Northeastern Steamship Co., of Chicago for ocean freighting and both of them have made a successful round trip to Liverpool. Going over both took package freight from Chicago and returning were loaded with foreign goods and provisions. Manager Clark of the company, was a passenger on board the Northtown. He came up to see how the boats would load with iron ore. Their construction differs greatly from the boats commonly used in the ore business but it is thought they will do very well. The very worst drawback to these boats is their great depth. Both draw 21 feet of water when carrying 3,100 tons in salt water. To be able to steam safely through the rivers and straits of the great lakes they cannot draw more than 18 feet and as fresh water is not as dense as salt water they were only able to take out 2,500 tons of ore.

Enticed by a villain to his room, then intoxicated, and after losing possession of his mental faculties to be robbed and locked in the room is the experience which William Bova, a young man from Menominee, had in Marinette Thursday evening, says the Leader. He was met by a man of good appearance, a "Mr. Smooth," who gave him the name as Lyons, upon the pretense that a good job would be offered him, Bova went with Lyons to his room in the Arlington Hotel. The two imbibed liquor freely, for which Lyons paid, and soon the villain had his victim intoxicated. The young man stupefied, fell asleep, and taking advantage of this Lyons left the room, locking his victim in and boarded the Northwestern train with Bova's vest containing a gold watch and chain and \$25 in money concealed under his coat. Fortunately the theft was soon discovered and the officers telegraphed to Green Bay and Lyons was arrested. He is a smooth rogue. He seemed to have plenty of money and about \$150 to the Arlington clerk on his first appearance there. The man had been loafing, with no apparent business. He was brought back and will be arraigned in the Marinette police courts this week.

Saturday afternoon the factory, saw mill and dry kiln of the A. W. Clark Lumber company at Menominee was totally destroyed by fire, the loss being about \$200,000, with \$30,000 insurance. The fire originated, presumably, from a spark of a locomotive in the yard which is at the north end of the plant. When discovered the mill was a mass of flames which spread rapidly to the dry kiln, newly built, and containing a full stock of lumber, and thence to the matchlock factory. When the fire department reached the scene the building was entirely enveloped and the heat became so intense that working on the fire was difficult. The department did good work in saving the office, several residences and store sheds of the Menominee Electric Manufacturing company not one hundred feet away. The matchlock factory, saw mill and planing mill with complete machinery is a total loss, and a big stock of mouldings, sash, and doors, mouldings and dimension stuff also about 60,000 feet of lumber in the dry kilns. Mr. Cronkrite said that the plant will probably be rebuilt at once, but not on as large scale as the old mill. The sash and door factory will be utilized. A. W. Clark is nearly prostrated over his loss. He was taken home suffering from great mental strain.

The new saw mill of the Escanaba Woodensaw company was put in operation with a full force of employees last week, it employing thirty or forty men, who will be increased by fifteen or twenty hands when the shingle mill is started three or four weeks later. The new saw mill was built this summer under the supervision of Dan J. O'Brien, who is its foreman. The building is 150 feet in length by 32 feet wide, and has two wings along the south side, together with a boiler house of corrugated iron, separate from the main structure. The main building is two and one-half stories in height, the top floor being used as a filing room. It is a frame structure, but has a roof of corrugated iron. The manufacturing of lath from hemlock boiler houses will be commenced within the next ten days and it is expected that the shingle mill will be started by a fortnight later. Cedar will be used exclusively for this latter product. The capacity of the saw mill is estimated at from 50,000 to 80,000 feet of lumber per day and it is the intention of the company to

keep it running at its full capacity. All kinds of lumber will be sawed and in the near future planing machines will be added in order to supply the market with a finished product. The equipment of the mill includes one band and one gang saw, and all the machinery is of the most modern style. The estimated capacity of the shingle mill is 20,000 per day, but it is not yet known how many lath can be turned out.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering with a cough doctors told me was incurable. One bottle relieved me, the second and third almost cured. Today I am a well man." Stafford Drug Co.; H. N. Meloche, Ishpeming.

ANNUAL MEETING OF BOARD OF SCHOOL TRUSTEES.

**GEORGE C. BARNES ELECTED.**

HE SUCCEEDED HIMSELF WITHOUT ANY OPPOSITION.

There Was Practically No Interest and Vote Was Light—Erection of Froebel School Boosts Aggregate of Expenditures.

The school trustees of this district held their annual meeting yesterday. This meeting consisted mainly of the election of a member of the board to succeed George C. Barnes and as there was no candidate in the field beyond Mr. Barnes himself the election was simply a formality in which there was no question of the outcome.

Of course the vote was light, the total of ballots being but 60, all in favor of the only candidate. Mr. Barnes had candy for the ladies, cigars for the gentlemen and peanuts for the children, being desirous of doing things up in real campaign style, opposition or no opposition.

The day's sitting consisted of a weary waiting for the limited number of voters, who only averaged one to every ten minutes, or thereabouts. The quietness of the election was in marked contrast to the interest taken in others of recent years, when there have been contesting tickets in the field.

**Annual Report.**

At the regular session of the trustees last evening the annual report for the year ending September 2, 1901, was read. It showed that the board's disbursements for these twelve months were far and away the heaviest of recent years, this of course owing to the erection and furnishing of the Froebel school.

The disbursements aggregated \$84,929.89. Of this amount \$42,903.70 went for the building of the Froebel school, including the erection of the boiler house and the installation of the heating and ventilating plant. This expenditure has not been duplicated at any one time for many years.

The next highest item on the list is teachers' wages, \$22,698. The payment of loans contracted by the trustees demanded \$4,500. Then comes the item of fuel, \$2,199.80, followed by that of repairs, 2,041.80, this sum not covering all the work now being completed in the ward buildings. Janitors' wages are down at \$1,934; interest coupons on bonds, \$1,248.15; insurance, \$1,351.85 and school supplies, \$1,519.10. There is now in the hands of the assessor \$349.84.

There will be available for the coming school year \$39,762.89, to be drawn from the following sources: Money in the hands of the assessor, \$349.84; money raised by taxes, in the hands of the city treasurer, \$29,500; from one mill tax, \$6,413.04; from primary school interest fund (estimated), \$3,500. This aggregate of \$39,762.89 will suffice to run the schools, defraying all the ordinary expenses.

The cost of any building operations, and it is likely that the new Ridge street group will be completed, will be borne from money derived from the sale of bonds.

**BEATS LITTLE JOHNNY.**

E. W. L. Took Free-for-All at the Soo Sunday—Gaslight Also Won.

It was Marquette day at the Sault Driving club Saturday, said the Soo Times, the Queen City horse, E. W. L., capturing the free-for-all event, the most important one on the card. It was not taken without a struggle, however, Little Johnny giving the lanky brown a battle royal and crowding him under the wire every heat. Ed Dingman's "Paritide" was not in it at any stage and finished third in the four heats it took to decide a winner. There were five entries in the free-for-all, but Belle Wilkes, the Cheboygan horse, of which much was expected, was withdrawn, and was John Hotton's "Payrock," the latter suffering from an injured knee.

Belle Wilkes was taken home to Cheboygan on Friday. In the first heat Little Johnny drew the pole, with Paritide second, and E. W. L. on the outside. Little Johnny started off with a magnificent stride with Paritide crowding him close. The Marquette horse got a bad start off. At the end of the third quarter, Little Johnny held the lead with Paritide a length behind and the brown gelding a good four lengths to the rear. Good driving forced him rapidly to the front, however, and he took second place, hanging on to Little Johnny's wheel. The second heat was taken by the Marquette horse. E. H. Forbes, driver of Little Johnny, claimed a foul, averring that Paritide took the pole before the quarter was reached, contrary to the rule. The judges would not allow the complaint, however. The third and fourth heats were also taken by the horse from Marquette, with Little Johnny hanging to the brown's shoulder in both events.

In the three-minute class "Gaslight," owned by William Stewart, of Marquette, had everything his own way. "Kitty," owned by A. Trombley, of this city, got second money. "Dr. Pigott," owned by W. L. Orr, of Manistique, ran away in the third heat and quite badly injured himself. His driver escaped unhurt.

Bring any medalion tickets you have to Verner's gallery and save money. (9-2-1f)

**NOTICE.**

All persons having accounts against me will please present the same to me for settlement before Sept. 15th, as I will leave Marquette soon after that date. (8-31-2w) F. HEPPNER.

**QUIET LABOR DAY.**

There Was No Formal Observance in Marquette.

A general suspension of business in shops and stores was the only thing that betokened the passing of Labor Day. There was no formal observance of the holiday. The people were left absolutely to their own devices and they employed the time to get in picnics, excursions and various other outings, which were made entirely enjoyable by the perfection of the weather. The latter was all that possibly could be asked. It was warm enough and cool enough, the wind blowing briskly, but not too brisk.

There was but little traffic away from Marquette, while there was considerable to the city. The only formal observance of the day in the county was a picnic given by the Ishpeming labor unions at Cleveland Park and it attracted but a limited number from here. On the other hand, there were large up-the-road delegations in Marquette. Ishpeming and Negaunee were represented, while many people from the towns in the western end of the county were down. The South Shore road handled a business which compared favorably with that usually enjoyed on Sundays, while the L. S. & L.'s only passenger train, that which arrives at Presque Isle in the morning, carried a big delegation to the resort, which was the headquarters for an up-the-road picnic.

Again, thanks to the holiday, the fine weather and an absence of other attractions, the street railway company enjoyed a large business, many Marquette people seeking Presque Isle to spend the day, in whole or in part. The traffic was fair in the morning and in the afternoon it attained very respectable proportions.

In the evening the ball given by the Grafton lodge of the A. O. U. W. at the Casino rink attracted a large delegation. The rink was in spick and span order for the reception of the guests and the arrangements were admirable. The attendance was large and there was nothing in the conduct of the function that could be regretted. The Marquette ideal orchestra furnished the music and supper was served by Ed Quarters in the vacant store in the Bertha block. Dancing continued until an early hour this morning.

**TWO UP AND ONE TO PLAY.**

Louis Egan of Marquette Won U. P. Golf Championship.

The open upper peninsula championship golf tournament which commenced last Saturday, was finished yesterday. It marks the beginning of an era in this game in this section which, it is hoped, will continue for all time. The zeal and zest shown by the different players gathered together from all points of the upper peninsula, the enthusiasm of the spectators and the general good feeling on the part of all engaged in play, whether fortunate or unfortunate, certainly marks a favorable future for the upper peninsula association, the outcome of this first general gathering. A pleasant and more agreeable lot of gentlemen could not be found than the visiting golf players, whose efforts associated with those of the home club,

served to make the tournament so successful and popular. It is to be hoped Marquette will be fortunate enough at an early date in the coming season to be again favored with their presence as well as that of their different organizations.

The morning was devoted to the semifinals for the championship cup, Messrs. Egan and Duncan leading off, followed by Messrs. Allen and Welton. These games were very popular, the players being followed by a large number of spectators, who displayed much interest in their outcome. At one time in their game, Mr. Egan was six holes up on Mr. Duncan, who gathered himself together at this point and played remarkable golf, winning the next six holes and making the game stand dormie at the seventeenth hole. The eighteenth hole was captured by Mr. Egan, who thereby entered the finals. Mr. Duncan plays a very fine game of golf and will certainly be heard from again. The contest between Messrs. Allen and Welton was won by the former by three up and one to play, after good golf by both parties. The driving of Mr. Welton is remarkable for its distance and direction, both being decidedly good.

The driving contest began the afternoon play, the honors going to Mr. Guy D. Welton of Sault Ste. Marie, who made the remarkable drive of 184 yards, almost this entire distance being in the carry of the ball, the soil of the home course making the run of the ball very short. The second best drive was made by Mr. Maitland of Negaunee, who covered nearly 170 yards, an excellent drive.

Immediately following this contest Messrs. Egan and Allen of this city started in the finals, which contest was a decidedly close one, full of brilliant drives, approaches and green playing, being finally won by Mr. Egan, by 2 up and one to play, who thereby captured the championship cup. Mr. Allen getting the prize for second best play, also a beautiful cup.

The consolation prize, the contestants for which were Messrs. Newett and Wood of Ishpeming, was won by the latter after exceedingly close play, the score at the finish being one hole up. Mr. Wood is therefore entitled to play with the set of clubs offered for this event. Messrs. Wood and Newett both play a good game of golf, and will no doubt be heard of again in other tournaments.

The "Also Ran" contest, participated in by those not entered in any of the other contests mentioned, was won by Mr. Jackman of Janesville, Wis., who defeated Mr. Maitland of Negaunee after a close and well fought game. Both gentlemen are to be congratulated on the excellent quality of their golf.

Helps young ladies to withstand the shock of sudden proposals, that's what Rocky Mountain Tea has done. 35c. Made by Madison Medicine Co. The Stafford Drug Co.

Rex and other fine chocolates only 35c per box at Heppner's.

**Fall Announcement!**

We leave for New York and other markets today. Our new goods will soon commence to arrive. Our stock will be complete in all departments. Our showing in Tailor-Made Suits and Cloaks will be correct and will comprise all the latest novelties. It is an established fact that the correct thing in outer garments cannot be obtained until September 1st, hence our delay in going to market.

Our Dress Making Parlors will be open during the latter part of September; exact date will be announced later. Owing to the large amount of work in this department we find it necessary to confine the work in this department to goods purchased in our store, thereby assuring our patrons of prompt delivery.

Our showing of exclusive Dress Patterns will be all that can be desired. Beginning today our store will close at 6 o'clock p. m. each day until further notice, Saturday excepted.
