## UP TO THE STRIKERS

### MEN MUST DECIDE WHETHER FIGHT IS TO CONTINUE.

### TRUST'S POSITION IS RE-STATE.

### TERMS OF PEACE DISCUSSED AT LENGTHY CONFERENCE.

Labor Leaders and Civic Representatives Meet With the Steel Officials and Learn on What Basis They Will Negotiate.

New York, Sept. 4.—The Evening Telegram says: "Charles M. Schwab's proposal to the strikers was that the company shall retain as 'open' mills all those which it has succeeded in starting and operating since the strike was declared. All the mills which the strikers have kept closed Mr. Schwab has agreed shall remain union mills. These terms will be submitted to President Shaffer and the executive board of the Amalgamated association."

New York, Sept. 4.—Terms of peace in the steel strike were discussed at length today at a secret conference in which sat officials of the United States Steel corporation, leaders of union labor and representatives of the civic organizations which have intervened. Unusual safeguards of secrecy were resorted to in order to preserve the privacy of the proceedings, but it was evident that no conclusion was reached and that the decision either to terminate or continue the strike must be made by the strikers.

The nature of the agency from the Amalgamated association held by the labor leaders who participated in the discussion is not known, but it is believed they possessed an outline of the terms from President Shaffer, and that they will place before him and his associates the terms resubmitted by President Schwab, of the United States Steel corporation. It was also apparent at the conclusion of the discussion that if the conference is to be resumed or any further action toward peace taken, the strikers must take the initiative. The labor leaders were in communication with Pittsburgh during the day, and it was anticipated they would further discuss the subject with the Amalgamated men before they proceeded any further with the peace plan.

Prominent Leaders Present. The participants in the conference today were: President C. M. Schwab, United States Steel corporation; President W. E. Corey, Carnegie Steel company; Beryl Preston, United States Steel corporation; President Samuel Gompers, American Federation of Labor; President John Mitchell, United Mine Workers' association; Secretary Harry White, Garment Makers' association; Professor Jenks, industrial commission; and Ralph M. Easley, secretary of the National Civic Federation. Several officials of companies controlled by the United States Steel corporation were called to the conference chamber during the day.

The conference was asked for in behalf of President Gompers and President Mitchell, and the request reached President Schwab early today. He made a favorable reply at two o'clock, just before 2 o'clock the labor leaders, accompanied by other intermediaries who participated in the Pittsburgh meetings last week, reached the office of the United States Steel corporation. The session lasted continuously for more than six hours.

No statement as to the proceedings were made by any of the participants. One of the steel officials made the brief statement: "Nothing was accomplished by the conference. The strike is in just the same position as it was before the conference was held. The steel corporation re-stated its position, and the men themselves must elect what they will do."

### SAY THE STRIKE IS BROKEN.

Steel Officials Report Return of Many More Workers—Men Uneasy.

Pittsburgh, Sept. 4.—Uneasiness prevails in the ranks of the strikers tonight due to the apparently unfavorable developments of the day. The leaders, however, profess to be satisfied with the present conditions and claim that ultimate victory will be theirs.

Much was hoped for from the peace conference at New York, but the announcement of the failure to reach a decision has put a damper on these hopes. Still, many hold to the belief that the matter now being up to the strike leaders to accept or reject whatever may have been the proposition made to them, a settlement will speedily be reached. President Shaffer had no comment to make when shown the announcement of adjournment without decision.

Shaffer's Course Upheld. The following was handed to the Associated Press today without comment by President Shaffer: "We, the members of Crescent lodge, A. A. of I. S. & T. W., assembled, denounce the statements made by J. D. Hickey, when he says that this strike was instigated by President Shaffer and is not constitutional, as absolutely false and not worthy of any consideration by the members of the A. A. We deny the assertion that 72

## per cent of the mills of the United States Steel corporation are at work.

(Signed) Steve Dawson, president; W. G. Evans, secretary.

The above, together with a telegram received by Shaffer today from President Gompers, of the American Federation, denying that there was a meeting at Buffalo to consider the charges made by Hickey, would indicate that the charges would fall flat.

### Break in Strikers' Ranks.

The steel officials are in a confident mood tonight and appear to think the strike is broken effectually. The return of 400 tube workers at McKeesport, with the report that 150 or more had went in at the Pennsylvania tube works, and the protection given by Sheriff McKinley and seventy-five deputies at Decatur, where a start will be made tomorrow, give weight to this belief. In addition, the steel officials claim increased numbers at the Star, Lindsay & McCutcheon, Painters and Clark mills.

Organizer Schwartz, of the American Federation, who organized the Pennsylvania tube workers, said that not a man of the organized tube workers at that plant had gone to work, and that the report 150 of them had gone in today was false. The Anchor nail and tack works, transformed into a sheet mill and operated as an independent plant by strikers from the Wellsville plant of the United States Steel corporation, was tied up today.

### Poison Not Resorted To.

San Francisco, Sept. 4.—There is absolutely no truth in the report, circulated today, that fifty hoxes belonging to McNab & Smith, draymen, had been poisoned by strikers.

## M'KINLEY AT EXPO

### CHEERED BY THOUSANDS HE ENTERS BUFFALO THROUGH PAN-AMERICAN GROUNDS.

Buffalo, Sept. 4.—President McKinley, in whose honor Thursday, Sept. 5, has been set aside on the Pan-American exposition calendar, entered Buffalo tonight through the portals of the Rainbow City. Screaming whistles and booming guns greeted the president's arrival of the railroad terminus at the exposition grounds to await the arrival of the president. At 6:30 o'clock the blowing of whistles at the factories north of the exposition grounds announced the approach of the train. A few minutes later President and Mrs. McKinley, surrounded by the reception committee, emerged from the entrance to the terminal station. A great cheer went up from the thousands who caught a glimpse of the party, and it was taken up and re-echoed by others farther back.

### Ride by Cheering Throngs.

President and Mrs. McKinley and John G. Milburn, president of the exposition company, entered the first carriage, which was drawn by four handsome bays. The carriages proceeded slowly toward the Lincoln parkway entrance through a cheering throng. The president acknowledged the salutations of the crowd by bowing and raising his hat. Mrs. McKinley, who looked remarkably well after the tiresome journey, also smiled happily. The carriages paused a moment on the triumphal bridge to give the members of the party a moment to take in the beauties of the grounds. They were then driven rapidly out of the Lincoln parkway entrance, up Parkway to Delaware avenue, to the home of Mr. Milburn, whose guests President and Mrs. McKinley and the members of the party will be during their stay in the city.

A train carrying the members of the diplomatic corps from Washington who will be present tomorrow during the exposition at the Pan-American exposition arrived tonight.

The president remained quietly in the house during the evening, retiring early.

McInton, Sept. 4.—President and Mrs. McKinley, accompanied by the latter's daughter, Mary and Ida Barber, and members of the household and executive forces, left at 1 o'clock today in a special train over the Pennsylvania road for Buffalo. The train is scheduled to reach Buffalo at five this evening.

## FRANCE HITS AT TURKEY.

### Sultan's Spies Are to Be Forthwith Expelled from the Country.

Paris, Sept. 4.—The Associated Press learns that the French government has decided upon the first coercive measure against the sultan of Turkey. A decree has been drawn up, and probably will be signed tomorrow, expelling a number of Turkish agents whose mission has been to spy on the "Young Turks" in France. It is also learned that the sultan has telegraphed Munir Bey, recalling him to Constantinople.

An evening paper today reported that orders had been sent to Toulon to fit out three vessels to proceed to Turkey and land troops at the Turkish Sporades (a sub-division of the Grecian archipelago) until the sultan yielded. Inquiry made at Toulon elicited the statement that no such orders had been received there.

### Sultan Looks to the Czar.

London, Thursday, Sept. 5.—The Daily Telegraph's correspondent at Vienna says: "The sultan wired the czar on Monday, begging him to intervene in the Constantinian dispute."

Constantinople, Sept. 4.—Munir Bey, Turkish ambassador to France, was ordered to return to Constantinople.

## FOUGHT WITH FILIPINOS.

### American Deserter Howard a Prisoner at Manila—Denies Identity.

Manila, Sept. 4.—Lieutenant Hazzard, Third cavalry, has brought in Arthur Howard, an American deserter, who was recently captured by the lieutenant while in command of some Macabebe scouts in the island of Mindoro. He was placed in jail and will shortly be court-martialed.

Howard denies that he ever was an American soldier. He claims he was born in Spain, that his father was English and his mother Spanish, and that he espoused the cause of the Filipinos. In 1896, after peace was declared, he says he went to Hong Kong and returned in 1898 as Aguinaldo's chief of artillery. While in that position, Howard says, he made friends with many Americans before the insurrection, including General Green. He cast his lot with Aguinaldo at the time of the rupture with the Americans, and says he brought in sixteen American prisoners, under a flag of truce, at Angeles in September, 1899. Howard denies he commanded the force at San Mateo which killed General Lawton. He speaks like an educated Englishman. Lieutenant Hazzard says he himself saw Howard at Angeles in 1899. However, two former California volunteers today identified Howard as a deserter from their regiment, named Walley, of Company A, who deserted in 1899.

## ROOSEVELT RETURNS TO EAST.

### Chicago, Sept. 4.—Vice President Roosevelt passed through the city this morning, enroute from Minneapolis to the East.

## CHINA BEGS PARDON

### ENVOY PRINCE CHUN READS THE KAISER A PENITENT LETTER WRITTEN IN YELLOW INK.

Potsdam, Sept. 4.—Emperor William received Prince Chun at noon today in the presence of the royal princes, the principal ministers, generals and court dignitaries. The Chinese emperor's letter to the kaiser, written in yellow ink, was read by the prince. It confessed "penitence and shame for the crime," the murder of Baron von Ketteler (German minister to Peking), which he had been unable to prevent.

Emperor William's reply, in part, was that while he was ready to believe the emperor of China had stood aloof from the murder, all the heavier guilt resting on his advisors and government, the latter must not delude themselves with the belief that they are able to obtain atonement and pardon for their guilt by an expiatory mission alone, but would be judged by their future conduct, in accordance with the laws of the nations.

### Marked by Severity.

Berlin, Sept. 4.—Emperor William's reception of the Chinese mission of expiation headed by Prince Chun, which took place today at Potsdam, was marked with all the severity consistent with an audience nominally friendly.

The Chinese imperial envoy on entering the palace was not accorded a salute by the Garde du Corps. The emperor received him seated. The buttons and epaulettes of his majesty's white uniform were enveloped in crape. Prince Chun bowed thrice on entering, and Emperor William remained seated during the reading of the Chinese address.

Afterwards, however, the kaiser relaxed his stern demeanor and welcomed the envoy courteously. Subsequently, accompanied by an adjutant, he called upon Prince Chun at the orangery. Later the emperor, Prince Chun and a dozen members of the expiatory mission took tea on an island in the Havel. The emperor evidently arranged the entire ceremony with the view of impressing Prince Chun with the feeling that the ceremony meant expiation for a foul crime, and that only through expiation had Prince Chun acquired the right to be treated with princely honors.

The imperial envoy seemed deeply impressed with the solemnity of the occasion; and when summoned to the throne room showed visible embarrassment. He bowed repeatedly while approaching the throne, and his voice was agitated while he was reading the imperial address. Prince Chun retired backward from the throne room, bowing profusely. There apparently was but little public interest in the mission among the people of Berlin.

## SCHLEY'S REQUEST GRANTED.

### Asks That Witnesses Be Brought to Washington for Consultation.

Washington, Sept. 4.—Admiral Schley has made the request of the navy department that a number of the witnesses which he expects to call before the court of inquiry be brought to Washington at this time in order to permit a conference between them and his counsel. In response, Acting Secretary Hackett today advised the admiral that if he furnished a list of those he desired to come they would be brought here as rapidly as the circumstances permit.

## GERMAN WARSHIP LOST.

### Battleship Sinks a Cruiser During Manoeuvres in the Baltic.

Berlin, Sept. 4.—The commander of the German fleet manoeuvring in the Baltic telegraphed today from Sassnitz, island of Rugen, that the third-class cruiser Wacht had sunk off Arkona after a collision with the battleship Sachsen. It is not known whether there was any loss of life.

Later—the latest advices regarding the sinking of the cruiser show there was no loss of life.

## SAIL CLOSE RACE

### COLUMBIA AND CONSTITUTION AGAIN PUZZLE YACHTSMEN.

### NEW BOAT A TRIPLE THE FASTER.

### ASTONISHING SPEED AGAIN MADE BY THE CHALLENGER.

### Shamrock Shows Herself a 15-Knot Craft—Alleged Big Bet at Pittsburgh Denied—Workmen Dis-mantling Independence.

New York, Thursday, Sept. 5.—The World this morning says: "From private sources it is learned Columbia has been chosen to defend America's cup."

Newport, R. I., Thursday, Sept. 5.—The Associated Press is unable to confirm the report that Columbia has been chosen to meet Lipton's challenger.

Newport, R. I., Sept. 4.—In the trial race today between Columbia and Constitution, sailed over a fifteen-mile windward and a fifteen-mile leeward course, Columbia won by seventeen seconds corrected time. Columbia led throughout, but started one minute and thirteen seconds ahead of Constitution. Constitution, however, sailed the first fifteen miles thirty-two seconds faster than Columbia and came home twenty-two seconds faster, which was not quite sufficient to cover the time allowance.

A mile from the finish Constitution's balloon jib was torn in halves, but Columbia took in her balloon jib immediately afterwards. About a quarter of a mile from the finish Columbia set her racing jib and crossed nineteen seconds ahead of Constitution.

The race was very exciting from start to finish and opens anew the question of superiority.

### Report of Bet a Canard.

Pittsburg, Sept. 4.—James A. Chambers, president of the American Window Glass company, tonight issued the following signed statement: "Regarding the alleged wager of \$250,000 to \$150,000 on the American cup defender said to have been made by a Pittsburg syndicate of which I am supposed to be a member, I want to say plainly and distinctly that there is no such wager as far as Pittsburgers are concerned. No syndicate of Pittsburgers was formed in New York or in this city to put up \$250,000 or any other sum, and no certified check on any bank for that purpose was issued here yesterday."

### Shamrock Again Astonishes.

New York, Sept. 4.—Although under sail for only two hours today, Shamrock II astonished those who followed her by her remarkable speed and ability to lie close to the wind. The yacht again demonstrated beyond question that she can sail when reaching with the wind abeam, at a speed varying from fourteen to fifteen knots, according to the strength of the wind.

Captain Robert Wringe, who will be substituted captain of Shamrock II, arrived today on the Majestic. Captain Wringe, when last here, sailed the ninety-footer Mimiola and is acquainted with the waters in which the yacht races will be sailed.

### Lawson's Boat Being Broken Up.

Boston, Sept. 4.—Under orders from Thomas W. Lawson, workmen today began breaking up the yacht Independence at South Boston.

### ACCIDENT ON CYCLE TRACK.

Johnny Nelson Badly Hurt and Cannot Ride for a Year.

New York, Sept. 4.—Johnny Nelson, the motor-paced rider from Chicago, was badly injured at Madison Square Garden tonight. He was scheduled to ride a fifteen mile motor-paced race against Jimmy Michael. The riders had traveled about two miles when a tire on Nelson's motor exploded and the machine and Nelson went to the ground along with Michael's motor, which was trailing the other. Nelson's left leg was badly lacerated. Physician state he will be unable to ride again for a year.

## SLAVE DRIVERS ROUTED.

### Pitched Battle in Central Africa Is Won by Congo State Troops.

Brussels, Sept. 4.—Advices from Kattanga, Central Africa, report a pitched battle between a force of troops of the Congo Free State and 200 slave traders, resulting in the defeat of the slave traders and the capture of 150 rifles and an immense quantity of merchandise.

## MISSING CREW SAFE.

Chicago, Sept. 4.—The mystery regarding the fate of the crew of the Southan Driver, which capsized near Scotch Manitowish Island last Friday, has been cleared by the arrival of all five in Chicago.

### BAD FIRE IN KANSAS.

Emporia, Kas., Sept. 4.—Fire caused by an engine spark today destroyed a number of residences, Sprague's planing mill and lumber yard and the First Methodist church. The loss is \$100,000.

The Horrible Tortures of Rheumatism can be overcome and the dreaded disease expelled from your system by the use of

MARQUETTE, MICH., SEPT. 5

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The British forces in South Africa managed to kill eighteen Boers last week. Unless the slaughter rate can be increased the war there will last indefinitely.

For an army of a couple of hundred thousand men the achievement was not a great one, but it must be remembered that a Boer has to be caught before he can be killed, and that he is a mighty elusive kind of game for a British marching column.

Governor Bliss has had the charge brought by To-Day, a Detroit paper, that many revolting outrages on women were committed by members of the national guards during the annual encampment of the state troops at Manistee this year, thoroughly investigated, and has found it to be false.

The troops behaved as well as in any former year, and while there was some drinking the men did not conduct themselves in the lawless manner set forth in the sensational articles printed in the paper named.

It is felt in New York that there is about an even chance that when Shamrock II. returns to England she will take back the American cup. If she should, the good will of a generous people will go with the coveted prize, for next to having our yacht win the race would come the pleasure of losing it to so clever a gentleman as the owner of the Shamrock. If Sir Thomas Lipton finally lifts the cup there will be nothing too good for him in the United Kingdom when he returns with it in triumph, and there will be no heart burnings on this side over his success.

Vice President Roosevelt is keeping himself before the people in an entirely proper way, which is none the less effective because he is known to be willing to take the presidency if the people want his services in that high office. He may break the precedent that relegates the occupant of the position he is now filling to political desuetude, by vaulting from it to the higher one. Certain it is that he is keeping in close touch with the masses and is daily gaining a stronger hold on them. He may not secure the nomination in the next Republican convention, but he will have supporters in that body who will make an energetic effort to land it for their favorite.

A Detroit paper states that Justus S. Stearns will be in the list for the gubernatorial prize next year if the other candidates for the nomination who failed to win it last year make another try for it. He is willing to stay out and let Governor Bliss take a second term without a fight for it if the result will, but if there is to be a scramble for the nomination he wants to be in it. Mr. Stearns, however, has not been heard from directly, and the paper which asserts that he is thinking of being a candidate next year is very anxious to see Bliss retired with but one term, so its "guess" may be taken with some allowance for the wish behind it.

"A FOOL'S ADVICE." Alluding to the inflammatory remarks of one of the speakers at the big labor demonstration held Monday at Pittsburgh under the direction of the Amalgamated association, the Detroit News has this comment, which will, we feel sure, meet the approval of all sensible members of the labor organizations, as well as of well wishers of labor generally:

When one listens to the speeches of certain agitators there can be little wonder that organized labor is occasionally led into pitfalls and disaster. Naturally there must be leaders, but the leaders are not always as wise and far-sighted as could be wished. At Pittsburgh Monday, W. J. Brennan, who occupies the influential position of counsel for the Amalgamated association, makes marks him as either a brainless blatherer or a dangerous demagogue. He advises organized labor to revenge itself upon the United States Steel Co. by withdrawing all its money from the banks. This action, he argued, would bring the steel magnates to their knees by depriving them of their money. Any man of horse sense can foresee the disastrous folly of such a movement, and appreciate the reckless folly of the adviser. If the workmen of the United States should go to the banks en masse and demand their deposits, simply because the steel trust is at variance with its employees, the present prosperity would be suddenly turned into a universal panic. The steel trust would certainly suffer no more than any other industry from the effects of the panic and probably less than most others, because it has been preparing for trouble.

Eight years ago, when money became scarce, there was a tendency on the part of small depositors to withdraw their savings from the banks. Many of them did so, but wise counsel prevented a general run on the banks and averted a general disaster. As it was, the timidity of depositors made money abundant, there was a bank which had plenty of money were compelled to be prepared for a run, and money could not be obtained for legitimate enterprises on glittered security until the panicky feeling subsided. If Brennan's advice should be followed generally, the American workmen and business men would see a worse condition than prevailed in 1893 befall in the midst of this world-famous

Lower Michigan.

The work of demolishing the present union passenger depot in Lansing will be commenced in a few days.

The main belt which will be used in the power house of the Grand Rapids, Holland & Lake Michigan electric railroad at Jenison, is something of a belt. It is forty-four inches wide, three-quarters of an inch thick, eighty-nine feet long, and weighs several tons.

The new paper company, which was organized at Kalamazoo a few days ago, may not locate its mills in the celery city after all. Vicksburg business men are working hard to secure the mills for their village, and have offered some good inducements, which may result in their landing their prize.

Isaac Vanderhook of Newaygo, who was severely bitten by a rattler which lay coiled under a bunch of potato vines, is now considered out of danger. He pleaded with his wife to cauterize the wound when she fainted. He was given whisky freely, which he reluctantly partook of, being a strong temperance man, and this alone had the desired effect.

The last rail of the single track for the new railroad between Grand Rapids and Holland was spiked down on Saturday, and a car made a round trip over the line, for the first time. The electric equipment is not yet complete, however, and a dummy engine will be used to haul the cars until it is. The second track will be completed in about a month.

Organizer McLean, who is in Benton Harbor organizing labor unions among all classes of labor, struck a snag at the Farwell over factory, where the manager told the 200 girls if they formed a union they would be discharged. As a result union carpenters and longshoremen have declared a boycott on the Farwell factory and will not wear overalls made by the concern.

The question of public lighting is causing a good deal of discussion in the city just at present. The council has before it for consideration a proposition from a local milling company to furnish the service, but there is considerable opposition, and the latest suggestion is to have a special election called in order that the citizens may express their preferences in the matter.

While attempting to drive across the Michigan central track east of the station at Galesburg on Monday afternoon, James Macomber of Battle Creek was struck by the fast train going east due to about that hour, and instantly killed. The horse shared his fate and the buggy was reduced to kindling wood. The victim was seventy-five years of age and is the second person to be killed in the same manner at Galesburg within two weeks.

Ole Thompson, a well-to-do Norwegian farmer residing near Ambler, departed from Howard City for New York last week, where he expected to take a steamer for Norway. Word has just been received at Howard City that sharpers drugged him in New York and relieved him of all his money. He bought his steamer passage, which he has pawned for enough money to bring him back to Howard City. He lost about \$300. Thompson owns a farm which contains considerable mica which he believes to be gold.

During the yacht races on Monroe Monday pickpockets operated on the electric line running to the beach. Two complaints were made to the police—one from a Newporter, and another from a Toledo man, who lost \$10. Later the police arrested four men, who gave their names as Charles Johnson of Detroit, Charles Roy of Toledo, Edmund Standish of Toledo, and William Thompson of Toledo. They were thoroughly searched, but nothing was found upon them. They will be held pending further investigation.

The inquest in the case of the death of Leonard Green, the seventeen-year-old Eaton Rapids boy killed by a pop bottle thrown by Howard Burchfield on the night of the Elks' carnival at Charlotte last week, was completed Monday evening. The jury rendered a verdict that Green was maliciously killed by Burchfield, who has been in jail under a charge of assault with intent to do great bodily harm less than murder. His hearing had been set for Friday of this week, but it is probable that the charge will be changed to murder between now and Friday and he will be rearrested and arraigned on that charge.

The Rev. L. D. Appleton of Elkhardt, Ind., recently discovered that his father, Edmund Appleton, whom he supposed died during the civil war, was living in Arkansas. The finding of the father by the son also resulted in solving the mystery concerning the whereabouts of his sisters. Until four of the five daughters of the family were located the fifth sister was believed to be dead. By correspondence the entire family has been reunited. The missing sister was found in the person of Mrs. Sarah T. Tolman of Battle Creek, Mich. After the father went to the war the mother died and the son and daughters were scattered.

Officers at Niles Monday night succeeded in eliciting a confession from John Mitchell, a colored man under arrest on the charge of having burglarized the grocery store of G. B. Winter on the night of Aug. 29. Mitchell admits having taken \$101 from the safe, all of which he gave up with the exception of \$27, which amount he had spent. Mitchell, who is but twenty-two years of age, has served time in the Ionia reformatory for having robbed a grocery store at Niles three years ago. Mitchell claims he was assisted in the recent robbery by a tramp with whom he divided the spoils. However, this portion of his story is discredited by the police. It is thought Mitchell is responsible for several other robberies which have occurred in and about Niles of late.

Chas. Replogle of Atwater, O., was unable to work on account of kidney trouble. After using Foley's Kidney Cure four days he was cured. The Cure's Drug Store.

COPPER COUNTRY NEWS.

GAMBLING ON GREAT LAKES. No Law to Prevent It and Card Sharks Reap a Harvest.

The interesting fact has just been disclosed that there is no law which applies to gambling on the great lakes. The gamblers themselves have doubtless been aware of this fact for some time and this accounts for the fact that the game is allowed to flourish on many of the passenger boats that ply between upper and lower lake points.

A gambler, who came in on one of the boats a day or so ago and who was so modest that he refused to give his name, asserted to a representative of the News Tribune that he had been operating on the great lakes with a partner for the past four years and that "money had been more plentiful" this year than ever before.

"It's no trouble at all," said he, "to scare up a good game. People who patronize these boats are as a rule possessors of money and once they become interested in a game they will spend it. Those are the people we like to meet. As for the way, there are any number of them this season."

"How much have you raked in so far this year?" was asked by the reporter. "Oh, I can't tell you just off hand," came the reply, "but here is what we did on the last trip." The gambler then produced a roll of bills as big as a man's fist and which were of various denominations, ranging from "ones" to "twenties."

The gambler pointed with pride to the fact that United States district attorney at Cleveland, who was recently preparing to prosecute two men for gambling, found that there was no law governing the case and he therefore was obliged to discharge the prisoners. The men, it seems, were arrested at Jackson, Mich., on complaint of one J. C. Thomas, who claimed that while coming to Cleveland on a Buffalo boat he was induced to join in a game of poker with a couple of "gentlemanly strangers."

He arrived in Cleveland with the intention to show but experience. The other men had the money. He immediately swore out a warrant for their arrest, and the gamblers were locked up.

A few minutes before the time set for the hearing the district attorney discovered that the men were being held illegally—that there was nothing in a federal statute prohibiting gambling except in the District of Columbia.

"We can now look for floating gambling palaces on the great lakes," said the district attorney, "unless congress passes a law on the subject."—News-Tribune, Duluth.

HI HENRY HERE MONDAY.

Hi Henry's big minstrel aggregation, now the largest of its kind in the world, will appear at the Houghton Armory Opera House next Monday night. The Milwaukee Sentinel in a recent issue said of the performance there: "Standing room was at a premium at the Alhambra when Hi Henry's minstrels gave their opening performance. The veteran leader received a warm welcome. It is a pleasing novelty for an audience to be treated to high class minstrelsy at any time, and enjoyed again and again greeted the performers in their specialties of songs, dances or jokes. The first part was ideal, with its excellent scenic effects, costumes of blue, red and white satin, and its military band."

COPPERDOM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Bee Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

Miss Mary Parker of Hancock left yesterday, where she will spend several weeks.

Miss Maggie Driscoll of Ironwood is visiting her cousin, Miss Marie Harrington at Hancock.

The funeral of little Claude Miller, drowned in Portage lake, will take place this afternoon at 2:30 o'clock.

Miss Werten of Hancock left yesterday for Notre Dame, Ind., where she will attend school the coming year.

A \$5,000 residence is nearing completion at Greenland for Mrs. Twoly. The bank building also is practically finished.

The sixth annual ball of Klinghammer's orchestra of Houghton will be given Saturday night, Sept. 14, at St. Patrick's Hall, Hancock.

The funeral of the infant son of Thomas H. Williams, of the Quincy, was held from the house Tuesday afternoon, Rev. James Pascoe officiating.

Although the street railway company has its tracks laid on Oak street at Calumet it is not operating its cars on that thoroughfare, much to the dissatisfaction of the business men.

October second is the date set for the marriage of Oscar B. Brush, recently of Marquette, but now publisher of the Laurium Record, to Miss Nellie Amos of Calumet, formerly of Rhineland, Wis.

Joseph Borlace and W. Smith of Hancock have returned from Milwaukee and Chicago, where they purchased a full line of groceries for their new store soon to be opened in Hendricksen's old stand at Hancock.

Pryor's dredge of Houghton will do all the dredging work on the hard pan at the entry for the Duluth Dock & Dredge company, now at work on its contract there. The firm's dredge is not suited for the hard work.

A regular meeting of the common council of Houghton will be held at the village hall tonight. Street work will be a topic of interest and it is likely a commissioner to keep the thoroughfares in good condition will be appointed.

Fine progress is being made at the site of the new building for the Citizens' National bank at Houghton. The excavating is well under way and if the present good weather continues the structure will soon be going up fast.

A meeting of the council of Hancock was held yesterday afternoon. Regu-

COPPER COUNTRY NEWS.

GAMBLING ON GREAT LAKES. No Law to Prevent It and Card Sharks Reap a Harvest.

Three members of the Quincy band have received three new instruments from the Henry Distin music house of Philadelphia. The horns are known as altohorns and will make valuable acquisitions to the band. Each instrument cost \$75, and with the case \$85.

Two large additions will be built to the Lake Superior General hospital at Lake Linden, the present quarters being too small for the demands upon the institution. The first addition will go on at the west side and will be 27 by 33 feet in size; the second will adjoin it and will be 18 feet square. A basement will run under the entire new portion and will be used for laundry purposes. The work will soon be commenced and it is expected to be finished by Nov. 1.

Attorney J. McLennan of Hancock has received word that his brother, M. J. McLennan of Vancouver, B. C., secretary-treasurer of the Vancouver Lumber company, has been drowned at that place. The details of the fatality are not known to Mr. McLennan. The deceased was aged twenty-nine years and had been the West for four years. The funeral will be held Saturday, but Mr. McLennan will be unable to attend, as he could not reach Vancouver in time.

Henry L. Baer of Hancock, whose term as a trustee of the Hancock township school board, District No. 1, recently expired, has been re-elected. Mr. Baer had no opposition. At the meeting of the tax-payers Monday night it was voted that \$22,000 be raised for the ensuing year's expenses and that a sinking fund be established to redeem the bonds, amounting to \$12,000, which fall due in 1903. Six thousand dollars from the funds already on hand and \$2,000 of the amount to be raised will make a starter for the sinking fund.

The Congregationalists of the Lake Superior district churches closed the sessions of their twenty-eighth annual convention at the Hancock Congregational church last evening. The two days' program has proved most helpful to the delegates in attendance, many live topics of interest to the denomination having been discussed. The two most interesting addresses of yesterday were those of the Rev. R. A. Torrey, of the Moody church, Chicago. In the afternoon he took for his subject, "A Revival in the Church" and in the evening, "The Holy Spirit in the Church."

At the recent meeting of the tax-paying school district No. 1, which includes all Portage township, Dr. H. W. Jones of Houghton was re-elected to succeed himself as a trustee. It was the doctor's desire that some one else be selected for the place, but those in attendance could not see it that way. The amount of \$40,000 was voted to meet all requirements during the present school year. Five thousand dollars will be laid aside to be used for either the enlargement of the East Houghton school or the building of an additional one at that place. It is likely that the latter will be the case.

DEATH STOOD OFF.

E. B. Munday, a lawyer of Henrietta, Tex., once had a grave digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued the use until he was wholly cured. I am sure Electric Bitters saved his life."

This remedy cures malaria, kills disease germs and purges the blood, aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at Stafford's drug store.

"Now good digestion waits on appetite, and health on both is built." If it doesn't, try Burdock Blood Bitters.

"I had a running sore on my leg for seven years," writes Mrs. Jas. Forest of Chippewa Falls, Wis., "and spent hundreds of dollars in trying to get it healed. Two boxes of Banner Salve entirely cured it." Beware of substitutes. The People's Drug Store.

A KANSAS MINISTER.

Rev. L. S. Coulton of Circleville, Kas., says: "Dr. Warner—Your White Wine of Tar Syrup has been in my family and found to be as good and even more than you claim for it. It is a speedy cure for all throat and lung diseases." The Stafford Drug Co.

JUST REMEMBER THIS.

DeBell's Kidney Pills are the only remedy that ever cured diabetes. They will cure any disease that arises from the same cause, disordered kidneys, rheumatism, neuralgia, heart disease, nervousness, bladder troubles and female complaints all yield to DeBell's Kidney Pills. There can be no doubt, no uncertainty about the result of using DeBell's Kidney Pills. They will cure rheumatism or other kidney diseases as surely as pulling a decayed tooth cures toothache. Price 25 cents per box. Stafford Drug Co.

Educate Your Bowels.

Your bowels can be trained as well as your muscles or your brain. Cascarets Candy Cathartic train your bowels to do right. Genuine tablets stamped C. C. Never sold in bulk. All druggists, etc.

BOERS STAND FIRM

KITCHENER'S PROCLAMATION IS PRACTICALLY IGNORED.

CAUSING BUT FEW SURRENDERS.

LONDON LOSES FAITH IN EFFICACY OF PLAN.

Official Reports Show but Little Sign of Progress by the Army and the War Birds Fair to Drag for Many Months Longer.

Pretoria, Sept. 4.—Lord Kitchener's proclamation as yet has had little effect as far as the surrender of burghers is concerned; but, in response to an earnest appeal, they have given permission to many wives of Boers in the field to warn their husbands of the futility and consequences of further resistance.

London in Gloomy Mood. New York, Sept. 4.—A copyrighted cablegram from London to the Tribune says: British faith in the efficacy of proclamations is tested severely as the time limit set by Lord Kitchener and Mr. Chamberlain approaches.

Lord Kitchener's weekly report has disclosed an average list of Boer casualties and British captures, but the efforts made to clear the country by the large number of mounted columns. It is evident that these columns are marching and remarching through empty districts and that the bands of guerrillas, well informed respecting their movements, keep out of the way, and when pursued break up into small squads.

Never was there more exasperating fox hunting, General French's work is most difficult and there are few signs of progress. Commandos ranging from 300 to 100 men and boys are here, there and everywhere, and the Boer trail seems hot it is lost and the commando reappears at the end of the week a hundred miles away. Moreover there is no sense of security even in the strongly garrisoned centers like Pretoria and Johannesburg, as has been shown by the railway reverse at North Waterford.

Whatever may be the official time limit, the war seems destined to drag along month after month, until the British succeed in wearing out the guerrillas man by man. In the meanwhile they are feeding the bulk of the Dutch population, and many thousands of loyal refugees are starving and rusting in Cape Colony.

Invasion by American Trade. Washington, Sept. 4.—"British trade is envious of the vast strides made during the last four years in the exportation of manufactures and products of the United States, particularly to British colonies and dependencies," reports Consul General Stone at Cape Town. "It is suggested," continues the consul general, "that a coalition of those British manufacturers interested particularly in the mining, engineering, and allied trades, should be formed without delay to obtain sites in Johannesburg where stocks may be kept for the prompt delivery of goods."

"While the resumption of mining operations may portend much, I believe that there will be no immediate demand for mining machinery and appliances, for the reason that large orders have been placed in many of the United States and at the coast ports much machinery can be found waiting for a clear track to the Transvaal. The shortage of cars may be accounted for, not only by the destruction of the Boer commands, but also from the fact that the construction of new engines, hickory, the bodies of black walnut, and the metal work of steel. The superiority of these vehicles was doubtless due to the fact that mule wagons are largely used in America for the carriage of goods, as well as military transport. The manufacturers are, therefore, learned by practical experience what is

Ask Him Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows the formula, so ask him if there is anything better for purifying the blood, strengthening the digestion, and building up the nerves. Follow his advice, whatever it may be.

"I have taken Ayer's Sarsaparilla every spring since 1848. As a blood-purifying and nerve-strengthening medicine it cannot be equalled. S. T. Jones, Wichita, Kans. All druggists. J. C. AYER & Co., Lowell, Mass.

MILITIAMEN COMPETE.

Shoot Between Various State Teams Won by the New Jersey Men.

Sea Girt, N. J., Sept. 4.—The interstate military match of open teams of twelve men from each state or territory in the United States was won today by the New Jersey state team with a total score of 1,074 points.

SWAB TO BUILD A PALACE.

Buys a \$860,000 Site at New York for a \$2,000,000 Residence.

New York, Sept. 4.—The purchaser of the Orphan Asylum plot, the sale of which has aroused the keenest interest in real estate circles, was made public today. It is Charles M. Schwab of Pittsburgh, president of the United States Steel corporation. The price paid was definitely announced as \$850,000. Mr. Schwab's name has several times been mentioned as the buyer, but denied. It was said, on good authority, that as soon as he took title to the property Mr. Schwab would begin the erection of what will be one of the most magnificent houses in this city.

CONFERENCE ON RECIPROCIITY. Philadelphia, Sept. 4.—The executive committee of the National Association of Manufacturers today decided to call a national conference on reciprocity, at a date and place to be later named, for the purpose of a clear and comprehensive expression of public sentiment respecting reciprocal trade relations with foreign powers. Trade relations with Cuba will also be discussed. The date for the next convention of the National Association of Manufacturers was fixed for the third week in April. The question of calling a national reciprocity convention was referred to this committee at the convention held in Detroit last June.

LANDSLIDE KILLS AT CLEVELAND. Cleveland, Sept. 4.—Three men were killed and three others seriously injured today in a landslide at the New Lake Shore bridge over the boulevard entrance to Gordon Park. Seven hundred tons of earth, loosened by Sunday's flood, suddenly slid down from the bank, burying a force of laborers working on the bridge. The victims were all Italians.

GUILTY CHICAGO SLEUTHS OUT. Chicago, Sept. 4.—Chief of Police O'Neill today took a hand in the investigation of the city detective bureau by issuing an order discharging Detective Sergeant Cramer and Patrolman John J. Tracey, two of the three detectives found guilty by the civil service commission.

SCULLING RACE POSTPONED. Rat Portage, Ont., Sept. 4.—The two-race sculling championship of the world between Jake Gaudaur, champion, and George Towne, Australian, which was to have taken place this afternoon, was postponed until tomorrow owing to rough water.

TODAY'S WEATHER. Washington, Sept. 4.—The following is the weather bureau's forecast for Upper Michigan: Fair in eastern, partly cloudy and probably showers in western, portion Thursday; Friday, showers; fresh to brisk south to west winds.

A light lunch can be had at any time during the day or evening at Heppner's. (9-5-4)

CHURCHMEN FILED

LYNCHINGS IN AMERICA AND WAR ON BOERS DENOUNCED AT LONDON CONFERENCE.

London, Sept. 4.—The most striking feature of the ecumenical Methodist conference, which opened here today, was an impassioned plea by the colored Bishop Walters of Jersey City, who received the heartiest welcome of any of the American delegates. He declared that there was a systematic effort on foot on the part of the white Americans to destroy the good opinion which the English people had of the American negroes. He recapitulated the lynching figures of the year 1900, and declared that though ninety negroes had been lynched, in only eleven cases had assault on white women been proved.

South African War Scored. Another incident which attracted comment was the declaration of Sir Charles Skelton, formerly mayor of Sheffield, who, in welcoming the Americans, severely criticized the war in South Africa, exclaiming, "Hell is let loose in South Africa." He appealed to the visitors to go back and, by preaching and example, make such wars impossible.

Rev. Joseph Odell, in welcoming the delegates in behalf of the Primitive Methodists, struck the same chord, declaring that the United States represented a sovereign people and he hoped they would speed the time when military science would be a lost art. Dr. Potte of Toronto, replying in behalf of Canada, protested, in a heated, patriotic and imperialistic speech, against the statements made by Skelton and Odell.

Bishop Hurst of Washington dilated on the friendliness of the British and American nations, and conveyed to the delegates President McKinley's good wishes for the success of the conference. President Davison, in welcoming the delegates, paid a touching tribute to the memory of former President Benjamin Harrison.

DELAY IN CUBAN FREEDOM. United States Not to Relinquish Control Until Next Summer. Washington, Sept. 4.—American control of Cuba will not be relinquished until after the elections are held and a president has been installed. According to General Wood it will require seven or eight months to perform the work yet to be done before Cuba can be turned over to its people, therefore, it will be later in the spring or early in the summer before the Cubans will have absolute control. This is a delay of two or three months more than was anticipated a few months ago, as it was expected the Americans would leave Cuba Feb. 15, the third anniversary of the destruction of the Great Main.

It is provided in the new electoral law that the election of civil governors, senators, and representatives shall not take place until 112 days after the announcement of the election, and this announcement cannot be made until the convention agrees upon the details of the electoral law. It is also provided that the election of a president and vice president shall not take place until 112 days after the preceding election.

Governor Leonard Wood, who has recovered from his recent attack of typhoid fever, called today from Norfolk on the Kanawha on his return to Cuba. He stated that all reports received by him since he left Cuba show that favorable conditions prevail in the island. The government has a surplus of about \$1,000,000 in the treasury, and he is anxious in favor of a change in the tariff at this time. The present tariff is perfectly safe, he says, as the revenue to be derived from it is known, and it would be dangerous to install a new tariff which might not be satisfactory.

ROAD LETS BIG CONTRACTS. New York Central to Spend \$3,000,000 in Gotham Harbor. New York, Sept. 4.—Contracts let for more piers, marine repair shops, and a new ferry-house and slip at Westchavon, N. J., call attention to the great improvements now being made by the New York Central and Hudson River railroad on its property along the west side of the North river. The clearances represent an expenditure of more than \$3,000,000, and will be completed within two years. This outlay by the Vanderbilt interest is a result of the determined efforts which are being made by Baltimore, Buffalo, Newport News and Norfolk to compete and, if possible, control the foreign shipments of this country on the Atlantic coast.

As the tremendous tonnage which is now being shipped from these ports was once included in the shipping tonnage of New York, it will explain in large part the determination of the roads having facilities here to make the effort so that the metropolis shall hold its present position as the greatest shipping port in this country. For this reason the New York Central has determined to construct such terminal facilities that it will not only hold its immense tonnage for foreign export but there are now under construction one steel and brick elevator, whose machinery is to be operated by electricity, and which is to have a storage capacity of 2,900,000 bushels; a bulkhead over one mile and a quarter long, four piers, marine repair shops, and a ferry slip and house. It is expected that these improvements, together with four transfer bridges, two of which are now being built, ten more piers, and twenty-five miles of new track will be opened for active business within two years.

G. R. WATTS, Piano Tuner. Leave orders at G. N. Conklin's, Marquette; County Telephone 15, and E. Girzi's, Ishpeming.

HARD FIGHTING NEAR

GOVERNMENT TROOPS AND REBELS LINING UP FOR BATTLE IN COLOMBIA.

Colomb, Colombia, Sept. 4.—The United Fruit company's steamer, chartered by Her Beckman, German consul at Bogota del Toro, arrived here today with a view to obtaining the presence of the United States gunboat Machias at Bogota del Toro, where fighting is expected to begin at any moment, the government troops having advanced within a mile of Provision island, where the insurgents are, and now occupying a superior position. Herr Beckman failed to obtain the presence of the Machias at Bogota del Toro, as she is needed more urgently at Colon.

The Colombian government has brought troops artillery and ammunition by special train from Panama to Gatun, on the outskirts of Colon, owing to the threatening attitude of the rebels there. One thousand troops have arrived at Barranquilla from Honda, destined for Machia, where General Pinzon, the Colombian minister, has lately been busy mobilizing troops.

PLAN TO SMASH UNIONS. British Employers Bring Suit to Recover Losses Caused by Strikes. Swansea, Wales, Sept. 4.—At the session of the trades union congress here today a sensation was caused by the action of some employers in endeavoring to recover damages under the house of lords' decision of July 22 last from labor organizations for picketing their members.

A delegation from Blackburn was served with a writ yesterday restraining it and the members of the Blackburn and Odell of the Weavers, Winders and Wappers' association from picketing Banister & Moore's works, where a strike is now in progress. Damages and costs were claimed.

Besides this suit, the Taff Vale railroad is suing the Amalgamated Society of Railway Servants for \$100,000 damages incurred as a result of the strike of 1900. These suits will be defended strenuously, but their seriousness puts in the shade almost every other topic of discussion.

President Boverman devoted the principal part of his address to this topic, declaring that union funds were being used for the purpose of recovering damages under the house of lords' decision of July 22 last from labor organizations for picketing their members.

The Chronicle supports this view, maintaining that no association of workingmen can long stand against such litigation, and that if the decision regarding picketing is final then any unscrupulous capitalist will have his employees at his mercy and "the working classes will sink back again into an unorganized and impotent crowd."

The congress today passed resolutions against overtime work for women and children and in favor of raising the factory age limit to fifteen years. A resolution in favor of compulsory trade arbitration was overwhelmingly rejected.

SALT LAKE TO SAN FRANCISCO. Senator Clark's Surveyors Mapping Out a Route for an Electric Line. Sacramento, Cal., Sept. 4.—Senator Clark may have a railroad line into Sacramento in the near future. He already has surveyors in the field. It is his plan to run an electric railroad from Salt Lake City to San Francisco. The road is to be devoted exclusively to passenger traffic, and as it will aim to run at great speed, it will set older companies, which use steam power, to hustling. It is claimed that a line has been picked out for the electric road which will not require any tunneling through the mountains and no snow sheds will have to be built.

Chicago, Sept. 4.—Extreme dullness was the only feature in wheat today, but with all the inactivity and the efforts of the bears there was a strong undercurrent of the day. The opening was at a shade easier, on indifferent cables and liberal Northwest receipts. A fair cash demand and comparatively light local receipts were bull factors. A report of drought in Argentine also was a steady influence. The clearances of 1,000,000 bushels, while thirty-nine boatloads were reported taken for export. At Liverpool, spot was steady to 1/4 lower, with the futures down 1/2. The local receipts were 258 cars.

Very little business was transacted in corn, and the opening was quiet with the price a shade easier. The trading was mostly for local account, and the market was featureless. Heavy commission house buying, together with a fair cash demand, were strengthening features. The receipts were 404 cars. The oats market followed corn and wheat, with no special features to the note and the closing was a trifle lower, with a considerable selling pressure, but the offerings were well taken and the early loss was about all regained on covering by shorts and the outside demand.

The leading futures ranged: December wheat opened at 71 1/2; highest, 71 3/4; lowest, 70 1/2; closed, 71 1/2. December corn opened at 56 1/2; highest, 56 3/4; lowest, 55 1/2; closed, 56 1/2. December oats opened at 34 1/2; highest, 35; lowest, 34; closed, 34 1/2.

Receipts and shipments were as follows: Receipts. Shipments. Flour, barrels, . . . 65,000 35,000 Wheat, bushels, . . . 509,000 185,000 Corn, bushels, . . . 520,000 254,000 Oats, bushels, . . . 403,000 140,000

BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

POWERS' HEAD CUT

GOEBEL MURDER CONSPIRATORS QUARREL IN THE JAIL AT FRANKFORT.

Frankfort, Ky., Sept. 4.—James Howard, and ex-Secretary of State Caleb Powers, convicted as Goebel murder conspirators, quarrelled in the jail here today. Howard threw a heavy inkstand at Powers, striking him in the head. A branch of the temple artery was severed and a gash four inches long laid open. Howard afterwards expressed deep regret over the affair.

The quarrel was the result of a controversy over the division of the defense money that has been collected for Howard's trial, which begins next Monday. Powers' condition is serious.

STOCK VALUES SHOOT UPWARD. Evidence of Support Rout the Bears and They Rush to Cover. New York, Sept. 4.—Today's stock market was almost exclusively a professional affair, with evidence of participation by the speculative party which is rather vaguely characterized as "the western contingent" by traders about the exchange. This party has been active at intervals in the market ever since the corn crop prospects became an element in speculation. They continued the sale of stocks this morning, but early in the afternoon, with the notable paucity of offerings which were brought out under the pressure they put upon the market and reversed their position to the buying side.

The day's movement of prices seemed largely due to the manoeuvres by the contending professional operators following yesterday's sharp break, which in itself apparently was a testing operation by the capitalists who have supported the market for some time past. Their brokers were large buyers again today, especially of the United States Steel stocks, in which they were joined by "the western contingent." These stocks did not move upward until there had been sharp advances in Colorado Fuel and Tennessee Coal based upon the assumption that their business was largely increased as a result of the enforced idleness of the United States Steel corporation works.

Chicago Great Western continued strong on rumors of buying for control in the interest of a Western railroad community of interest, while the recent large accumulation of Mexican National was unabated today. A strong tone permeated the whole market as the day progressed, and the final hour showed many of the market leaders amongst the grangers, Pacifics, Southwesterns, coalers and specialties from 1 to 2 points over last night's closing level. Paine, Webber & Co. report final quotations as follows:

GRAINS DULL AND FEATURELESS. Undertone Is Strong, However, and the Prices Hold Up Well. Chicago, Sept. 4.—Extreme dullness was the only feature in wheat today, but with all the inactivity and the efforts of the bears there was a strong undercurrent of the day. The opening was at a shade easier, on indifferent cables and liberal Northwest receipts. A fair cash demand and comparatively light local receipts were bull factors. A report of drought in Argentine also was a steady influence. The clearances of 1,000,000 bushels, while thirty-nine boatloads were reported taken for export. At Liverpool, spot was steady to 1/4 lower, with the futures down 1/2. The local receipts were 258 cars.

Very little business was transacted in corn, and the opening was quiet with the price a shade easier. The trading was mostly for local account, and the market was featureless. Heavy commission house buying, together with a fair cash demand, were strengthening features. The receipts were 404 cars. The oats market followed corn and wheat, with no special features to the note and the closing was a trifle lower, with a considerable selling pressure, but the offerings were well taken and the early loss was about all regained on covering by shorts and the outside demand.

The leading futures ranged: December wheat opened at 71 1/2; highest, 71 3/4; lowest, 70 1/2; closed, 71 1/2. December corn opened at 56 1/2; highest, 56 3/4; lowest, 55 1/2; closed, 56 1/2. December oats opened at 34 1/2; highest, 35; lowest, 34; closed, 34 1/2.

\$50,000 THE BOOTY

COTTON BELT TRAIN ROBBERS GOT A RICH HAUL.

POSSES WITH DOGS GET CLUE.

FIVE OF THE SIX BANDITS DECLARED TO BE BOYS.

Trails Lead Back to Texarkana and the Search for the Juvenile Band and Its Adult Leader Is Now Confined to City.

Texarkana, Ark., Sept. 4.—The six men who held up the Cotton Belt passenger train at Elyau, Tex., last night are still at large. The robbers secured one package of \$10,000, and it is said the entire haul amounts to about \$35,000.

At noon today the pursuing officers returned to Texarkana and reported that they could not find a single clue as to the identity or whereabouts of the robbers. Two posses, one with bloodhounds, left this afternoon for Elyau to try for the trail where the train was first stopped. Texas sheriffs are rushing here from every direction, bringing deputies of every kind.

Got Big Bag of Gold. Later—Tonight the posses returned here, having called the bloodhounds from the track. It has been discovered that the robbers secured one bag of gold which required the combined efforts of two men to carry from the express car to the engine. While the dogs were trailing it is claimed enough was learned to place the guilt on persons believed to be Texarkana men, or at least one man, the remainder being boys. The amount of the booty is now said to reach about \$50,000. All the posses have been recalled, and the pursuit is now confined strictly to Texarkana.

Upper Peninsula. The Tribune at Iron Mountain has been designated as the paper in which the annual tax list for Dickinson county will be published. The Gazette made a fight for the patronage, Mayor Hammond being active in its behalf. The Gazette has been an administration paper. However, the administration influence failed to prevail and the Tribune is said to have won in a walk.

At Menominee Saturday and Sunday ten arrests of bicyclists, who were riding on the sidewalks, were made. Five were caught on Stephenson avenue by Officer Menier. The offenders were each fined \$1 and costs, the assessment against each individual being \$4.95. The bicycle ordinance is being rigidly enforced at Menominee and no leniency will be shown with those who disregard it.

The Green Bay & Lake Michigan Telephone company is receiving much encouragement at Menominee and there seems to be but little doubt that its system will be installed in that city. It is expected that no difficulty will be experienced in completing the installation of 300 subscribers which the company will have to have before it commences operations. Many contracts are being signed at Menominee and some stock is being placed.

It was in 1895 that the last Menominee county fair was held and it is expected that, after the interval of six years, the people will turn out generally and make the show this week, which is again to be an annual affair, an excellent success. The number of exhibitors will be large and there will be the customary circus acts and horse racing for entertainment. One of the features of the fair will be free marriages on the grounds.

The Menominee schools were opened for the year 1901-02 Tuesday morning, when 3,200 young people were enrolled in the several grades. This is the heaviest initial enrollment in the history of the city and the total attendance this year bids fair to exceed that of last year several hundred. Superintendent Hopkins, who is in charge of the system for the first time this year, expresses himself as pleased with the outlook for successful sessions.

Monday afternoon Henry Pichette, an Escanaba young man, suffered a painful wound through the abdominal area, which was a twenty-two calibre rifle, which he was cleaning in a shooting gallery. When the rifle was discharged Pichette's hand was near the muzzle. The bullet struck that member, but glanced off without penetrating the flesh, entering the upper part of the thigh. Physicians could not locate the bullet. Pichette does not know how the rifle came to be discharged. The wound is not serious and he will be out in the course of a few days.

John Matsush celebrated Labor Day at Iron Mountain. He got on a fine "edge." Late in the afternoon he entered the Tavaglia saloon, opposite the opera house. His employer came in. Matsush thought he would make a good fellow of himself, so he ordered the beers, tendering a five-dollar bill in payment and going off without his change. Later he thought of this and hurried back, but the saloon keeper gave him the merry laugh, refusing him money.

The following morning Matsush called on a justice to seek what could be done for the recovery of his money, but it appears that he is out \$4.90.

While Captain Robert Barclay, postmaster at Quinnesec, and his daughter, who is assisting in the Iron Mountain postoffice, were driving to Iron Mountain Tuesday morning, says the Tribune, the buggy caught on fire and considerable damage was done before it was discovered. Mr. Barclay had been smoking and cleaned out his pipe. A little time afterwards his daughter thought she detected the smell of something burning, but concluded it was dust. Later an investigation was made and it was found that fire from his pipe had set fire to an umbrella, under the seat. The hangings of the seat had burned and the floor of the buggy was smoldering

INVESTIGATE THIS Small and Large Investors. Get in on ground floor of a newly organized GOLD MINE. Company now owning and operating valuable properties. Special offer of treasury stock now made at low price. Experts report wonderful returns to us. An opportunity for a splendid investment. Money needed for mill equipment. WRITE TODAY for full particulars. This offer may be withdrawn at any time. GEO. O. HITCHCOCK, 82 Devonshire St., (9-5-10) Boston, Mass.

Specifications can be seen at town hall of Chocoyla every Saturday from 2 to 5 o'clock p. m. Township will furnish rec-ords. Carl F. Wittler, Township Clerk, Chocoyla, Mich. P. O. Board reserves the right to reject one or all bids. (8-27-1)

STOCK PILE AT PRESQUE ISLE. Will Contain Ore from the Cleveland Lake Mine at Ishpeming. The coming winter will see the accumulation of a goodly stockpile near Presque Isle, just north of the approach to the L. S. & I. dock, within stone's throw of the L. S. & I. depot. It will contain ore from the Cleveland Lake mine at Ishpeming and of the properties of the Cleveland-Cliffs Iron company. This mine is located on the edge of what was formerly the basin of Lake Angeline and, as the hills rise within a very few feet of the single shaft and the buildings, the room for stocking ore is too limited for the capacity of the mine, which is one of the heaviest producers in the county. For some time the officials have been pressed for room, much real inconvenience resulting. Now things are at such a pass that additional stocking facilities are absolutely essential. Various means of providing and they have been considered, the most satisfactory of which entails hauling the ore to Marquette to be held until required for shipment. Work has already been started at the site of the trestle which will be used in the handling of the ore at Presque Isle and it is expected that the work will be completed within a few weeks. The top of this trestle at the point where it leaves the dock will be some feet lower than the top of the dock. Railroad cars will not be run out on the trestle, but the cars will be on a system of tram cars which will carry the ore from the pocket, to be built at the dock, to the various points on the stock pile where it may be desired to place it. The bottom of the stockpile will be on the ground level and a railroad will be extended to its northwest side to furnish facilities for getting the ore to the boats waiting cargoes at the dock. The regular cars will be run in on this spur to be loaded from the stockpile by a steam shovel, which will be put at Presque Isle for this purpose and the cars will be loaded in the season. The cars loaded, they will be hauled back to be run up the approach onto the dock, where the ore will be handled into the steamers and vessels in the usual manner. The erection and equipment of the trestle will require considerable money and the cost of ore in the vessels will be somewhat increased by the necessity of rehandling it at Presque Isle, but under the circumstances the Cleveland-Cliffs people must go to the expense. They are making every provision for securing the greatest economy in the operation of the new plant. The stockpile, when it has attained its maximum capacity, will be 150 by 800 feet.

MONEY IN SONGS. Popular Compositions Which Have Proved Veritable Gold Mines. Talk about gold mines, said a leading London music publisher; why, I can assure you that there are scores of gold mines floated on a capital running into six figures, and not contented with as much of the precious mineral as a single lucky song which its composer may produce in half an hour's inspiration. I could name off-hand a dozen songs that have yielded a profit of \$50,000 each, and do not count in the early days of the copyright of which is today reckoned in the hundreds. Take, for instance, Mascagni's exquisite ballad, "For All Eternity." I should not like to say what weight of gold avoiditopsis that song has yielded, but not very long ago the copyright in it was considered to be worth \$11,200, a sum for which it has since sold. Pattick & Simpson, the auctioneers. And yet I believe that very song was originally offered to a London publisher for a \$50 note and refused by him. Think of refusing a thousand sovereigns for every one laid down!

But then, of course, one must remember the risk we publishers run. It is a fact, barely one is worth the cost of printing and publishing; and a song that will yield a few hundreds of profit is literally "one in a thousand." Among songs that have produced more than \$50,000 in profit should be mentioned first Sullivan's world-famous "Lost Chord." This song was substantially composed (under sad conditions, as you will remember) in less than an hour; and for that hour's work the composer received in royalties quite \$50,000, probably the largest sum any man has ever received for a single song. Compared with such payments as writers like Mr. Rudyard Kipling receive, princely, though they are, are too insignificant to mention. Then again, that evergreen song, "In Old Madrid," must have brought its publisher a profit of nearly \$100,000 by this time, for its popularity was at the flood for many years. Among other gold mines I should place "The Better Land," "The River of Years," "For Ever and For Ever," "Good-bye," "The Devout Lover," "Nancy Lee," mention only half a dozen, the aggregate profits from which cannot have been a penny less than \$300,000. Among recent favorites, which, however, are far from supplanting the older ones, are such as "The River of Life," "The Flight of Ages," and "Beauty's Eyes" promise to be quite as rich harvest-bringers to composers and publishers.

Of course, if a song has anything in it, it is a fatal thing to sell it outright to a publisher, as so many composers have done, to their lasting regret. It is old history that "Kathleen Mavourneen," which never seems to lose its charm for the public, was sold for \$25. I scarcely dare speculate how much the unhappy composer must have lost by this bargain. Some of Mr. Milton Welling's best songs changed hands for absurd prices, the composer scarcely receiving \$5 for every \$1,000 made by his publishers. Fancy being the possessor of such a song as "Some Day" for \$50, and making as many thousands by it! Alas! Such chances never come my way. "Nancy Lee" was at one time on offer for \$50 and refused, though for some years Mr. Maybrick's profits from this one song averaged over \$4,500 a year. That beautiful and ever-popular song, "To Anthea," was I believe, sold for \$10, and some of Mr. Henry Russell's songs, which at one time were in everybody's mouth, only brought him \$7.50. -1

MARINE MATTERS. Passed the Canal. Sault Ste. Marie, Sept. 4.-(Special) -Up-Hudson, 9:10; Leafield, Barham, 9:30; Brazil, Antrim, midnight; Manistowish, Delaware, Fillmore, Jeannette, 12:20; Buell, Tecumseh, Marengo, 1:31; Peck, 3:20; Forest City, McGregor, 4:30; Ogema, 8:30; Langell, Arena, Moore, Interlaken, Zenith City, Jenney, schooner Wolf, 10; Madden, Noquebay, Mantene, Jay Gould, 11 a. m.; Fleetwood, Moravia, 12:30; Alberta, 1:30; schooner Hannedosa, 3:30; City of Collingwood, 7:40 p. m.

CITY BRIEVITIES. Duchaine, the Negaunee chimney sweep, was around town yesterday. W. T. Potter of Ishpeming was a Marquette visitor yesterday. Mrs. Albion Strand of Calumet is in Marquette visiting Mr. and Mrs. John Steele. Harvey B. Hatch is very ill with typhoid-pneumonia. He is at St. Luke's hospital. Mrs. L. S. Humes and son Harold have returned to Duluth after a short visit with Marquette friends. Ray Barney, of the Standard Oil clerical force, has been transferred from the Marquette office to a better position at the Soo. Frank Sharon of Negaunee was among the limited number of up-the-river people who attended the county fair yesterday. The Fisher street school building is being painted in red and cream. It will be a much more slightly structure when the work is finished. Mrs. Don M. Dickinson and daughter of Detroit left for their home yesterday, they having concluded their summer's sojourn at the Huron Mountain club. The Marquette Juniors will hold a dance at Fraternity hall this evening, to which they invite all their friends. Good music will be in attendance and every arrangement will be made to give those who are present a good time. The city will be pretty well deserted today on account of the attractions of the fair. The streets were largely drained of their floating population yesterday and hundreds of more people will take in the second day of the big show. The training school conducted in connection with the Northern Normal will open in the Normal school building next Monday. The kindergarten and the third, fourth, fifth and sixth grades are still there. There are still some vacancies in the first and second grades. Friends of Mrs. Mary Clark of the Powder Mill location entertained her at a picnic at Presque Isle yesterday, the occasion being her birthday. She presided at the head of the table in a handsome willow rocker presented on behalf of the ladies by Mrs. Fred Cofford. Harold Johns, who has been assistant organist for the past ten years and secretary of the Sunday school at St. Paul's cathedral for five years, was presented with a purse by the choir and Sunday school yesterday as a token of appreciation for the good work he has done. He leaves for Houghton today to enter the College of Mines. He will be followed by the best wishes of his young associates. In his ten years connection with the choir and Sunday school of St. Paul's, Mr. Johns has not been absent from the services to exceed ten Sundays. Millie-Two treatments a week will put your complexion in fine shape. Bleach that red nose of yours. Take Rocky Mountain Tea as directed. 35c. The Stafford Drug Co.

PAN-AMERICAN EXPOSITION. "Buffalo, N. Y., May 1st to Oct. 31st-The D. S. & A. railway now has on sale some very low rate excursion tickets to Colorado, Utah and South Dakota. The D. DISCOVERED BILL NYE. Western Man Who Claims to Have Early Appreciated the Humorist. Colonel Bill Root of Laramie, Wyo., is probably entitled to the credit of having "discovered" Bill Nye, the humorist. Root now has charge of the Indian village at the Pan-American exposition, and tells the following story of how he first met the writer: "Bill Nye," when he was a young man, was not much; in fact, folks in Laramie wondered whether he would eventually dry up and blow away or just die of plain starvation. Things never would come his way, and that same way led through many rocky places. Everything to which he turned his hand seemed to whither under it, and he began to think that he was a "hoodoo." "Bill was a pretty discouraged sort of a chap when I said to him and his wife one day: 'Come out to the ranch and stay with me for awhile,' and they came. Long before this time Frances, Bill's wife, had made up her mind that Bill was cast in the mold of a lawyer, and nothing would do but Bill must study law. So Bill came along with his old books and would wander around the ranch trying to imbibe ozone and pages of Blackstone. But the rankerworm of worry was in his mind and the ozone and several of the things I had in a cupboard seemed to do little good."

Excursion fares to Marquette. Commencing Saturday, May 18, continuing every Saturday thereafter until further notice, the D. S. & A. railway will have on sale at Wetmore, Munising Junction and Au Train excursion tickets to Marquette and return at the very low rate of 75 cents. Tickets will be sold for the night express of Saturdays only and will be good for return leaving Marquette on the early morning express the Monday following. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A. (8-16-1)

HE HAS INVESTORS ON TAP. A List of People Who Have Money in This Man's Stock in Trade. "I ran across a man yesterday who is making money hand over fist by reating out a list of possible investors and speculators," said the man of experience. "Of course, his plan is nothing new, for everyone concerns that make a business of getting up just such lists and selling them outright to people who are mentally opulent, but financially impoverished, but this man has a special list of his own which is, he asserts, far superior to anything the general public can buy for a few dollars. The best part of his contention is that he wants make other people believe that what he says is true, and he is having no trouble in renting out that list to wild-eyed geniuses who, although on the verge of bankruptcy are willing to fork over their last dollar for the privilege of reading over a collection of names of men and women who are reported to have money to burn on the altar of enterprise. "This acquaintance of mine declares—and his way of living bears out his assertion—that this summer has been especially rich in schemes and schemers. Never before has he met so many people with plans to get rich in twenty minutes. These men of ideas and flat pocket-books are here from all parts of the country. The east, the west, the south, each contributes its share, and naturally New York is well represented. "But although the folks who have congregated here from remote sections all are distinguished by one common trait, and that is an intense desire to get at people with a bank account. How my friend runs across them all I cannot imagine, but somehow he manages to get them. He is so convincing are his arguments that he can charge a high price on the track of a sure backer that they part with their very hard money in exchange for a peep at that precious list of names. "One curious thing about the list is that it contains the names of very few people whose names are so well known in business circles and another thing that is composed largely of women. However, both these peculiarities are to its credit, so my friend maintains, for a man whose name is not a household word exercises less caution about his investment than one whose name is better known, so far as women are concerned, their fancy is inflammable and once it takes fire they delight in feeding the flames with hundred-dollar bills. This list has been compiled with exceeding care. It is revised once in three months, and contains absolutely no deadheads. Naturally, he charges a high price for the use of it, but the results obtained by the men of ideas evidently warrant the expenditure, for they patronize my friend so well that he has given up all other business and is actually living in clover." -New York Sun.

THE RETORT ERUDITE. A famous scholar, whose hobby was the derivation of words, had occasion to store his furniture while proceeding to the continent in quest of the origin of the term "Juggins." During his researches in Berlin he received from the warehouse company the following letter: "Sir: We have the honor to inform you that the mattress you sent to our store had the moth in it. Since the epidemic would expose the goods of other clients to injury, we have caused your mattress to be destroyed." The scholar replied: "Dear Sir: My mattress may, as you say, have had moth in it, but I am confident that it had an 'e' in it also." -London King.

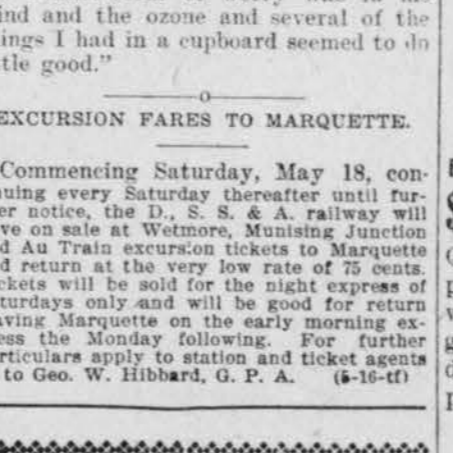

NOTICE TO CONTRACTORS. Sealed bids will be received by the undersigned until 10 o'clock a. m. of September 11, 1901, for a dining room at Marquette, Mich. Plans can be seen at our office. **MARRIED ANOTHER.**  
John Holland Returns from Ireland With Fair Young Bride.

There is sadness in the home of Mrs. Louise Zuleger; there is trouble in the home of Mr. John Holland, there is a suit on in Justice Trahen's court, all as a result of a trip to Ireland made by Holland.

John Holland was until recently a widower. Mrs. Zuleger is a widow, and until Tuesday had hopes of becoming a bride. These hopes have vanished, for the man whom she loved has married another, and the woman that he jilted is now heartbroken and inconsolable. Yesterday Mrs. Zuleger had her former lover arrested, charging him with assault and battery. The case is before Justice Trahen.

About three months ago John Holland, an old resident of this city, sold his home here and with the proceeds betook himself to Ireland, to visit old friends and relatives. He informed his acquaintances here that he would return in three or four months and then settle down. His friends inferred from this statement that John was contemplating matrimony and all were speculating on who the lucky lady would be. John had been a widower for the past ten years or more and in all probability would not have become a benedict had he not gone abroad to visit the land of his birth. True it is that he has been very kind and considerate to Mrs. Zuleger, but people thought nothing of this, as every one is kind to the old lady. But the widow interpreted John's kindness as something more than ordinary friendship, and to use her own expression, "had her cap set for the widower."

When John returned Monday with a wife it broke Mrs. Zuleger's heart. She decided to make Holland give her an explanation of his "disgraceful" conduct. Accordingly she visited his boarding place Monday afternoon. She was met at the door by Mrs. Holland, who informed her that Mrs. Holland would be down directly. Holland put in an appearance in a few moments, introducing his wife to Mrs. Zuleger as soon as he reached the reception room. Then the fun began.

Mrs. Zuleger demanded an explanation of his conduct toward her. John refused to give any, politely telling the woman that it was none of her business why he had married. According to Holland's story, the woman then threw her arms around him and acted in a manner that was shocking to his newly-wedded wife. He pushed the widow from him, but used no violence or unnecessary force. However, Mrs. Zuleger tells a different story, claiming to have been brutally treated by Holland, and denying in toto that she hugged the man or acted in an unladylike manner during the interview.

When the news of the arrest of Holland became noised about the streets yesterday it elicited much comment. It is the most laughable case that has been up in a justice court here in many months. Holland is at least fifty-five years of age, and Mrs. Zuleger, whom he is accused of jilting, is about five years his senior. Holland's Irish bride is still in the twenties and is a charming girl, possessing a rich, old country brogue. She became acquainted with her husband less than two months before they were wedded.

What the outcome of the affair will be remains to be determined. Mrs. Zuleger may bring suit to recover damages for breach of promise, but Holland says that she has no case, as he claims that he never proposed marriage to the widow or in any way intimated that such was his intention. Mrs. Holland takes the whole matter philosophically, saying that she has absolute faith in the integrity of her husband, and that the claims of the other woman are groundless.

**PIONEER DIES.**  
James Sullivan, who for the past thirty-five years has been a resident of Negaunee, died Tuesday morning at his home near the Jackson location from a complication of diseases. The deceased was sixty-nine years of age and had lived in this city ever since he came to this country from Ireland.

Mr. Sullivan had been in ill health for the past two years, suffering from abscesses. Last winter he was so low that he hoped his recovery was abandoned. Later he rallied in strength, but a few weeks ago suffered a relapse, which proved fatal. He is survived by a wife and nine children.

For over twenty years Mr. Sullivan was janitor of the Jackson school, and will long be remembered by the pupils who attended there in the early days. He gave up his position a few years ago when his health began to fail.

The funeral arrangements have not yet been made, but it is probable that it will be held Friday morning, from St. Paul's church. The burial services will be conducted by the Rev. Langner.

**QUIETLY WEDDED.**  
John Reichel and Miss Mary Trudell were married at 6 o'clock yesterday morning at St. Paul's church by the Rev. Langner in the presence of a few friends and relatives.

The bride was attended by Miss Stella McCombe and Herbert Rogers supported the groom. Miss Trudell was attired in a gray satin gown, trimmed with white silk and applique. Miss McCombe wore a blue lawn dress with black satin trimmings.

After the marriage ceremony a breakfast was served at the home of the bride's parents on Main street. Mr. and Mrs. Reichel have gone to Gladstone and Escanaba on a short wedding tour.

**NO RELIEF FOR TWENTY YEARS.**  
"I had bronchitis for twenty years," said Mrs. Minerva Smith of Danville, Ill., "and never got relief until I used Foley's Honey and Tar, which is a sure cure for throat and lung diseases." The People's Drug Store.

**Champion.**  
A SHAFT STARTED.

Ore Being Mined at the Champion Iron Co.'s New Exploration.

The hoisting plant recently installed at the Champion iron company's new exploration near the Chicago & Northwestern depot went into commission Tuesday. It is located a few feet from the track and about one hundred feet from the derrick. The plant is operated by air from the main engine house.

A gang of miners began work Wednesday sinking a shaft in the ledge about where the ore was first discovered. It is probable that a second gang will be put on with a view to working day and night. When a depth of fifty feet or so is reached stopping will be started. If it is found that the deposit is as large as appearances on surface indicate a permanent shaft will be put down, some thirty feet south, away from the vein and lagging.

The vein has been stripped a distance of about 400 feet east and west. On the west end it has been followed to within a few feet of the Northwestern track, though it does not go under the road. The vein takes a turn leading north and west where it was originally discovered and where the first mining work was done on the location. The stripping will not be extended any further in either direction this fall. All work is now confined to stripping the deposit and sinking the shaft.

A space nearly 200 feet square has been leveled off between the track and the pit. Much of this ground will be used for stocking the ore. If the find warrants operations on a large scale the ore hoisted through the working shaft to be started later will be stocked south of the pit. The north side, where the ore is now being piled, would not be a safe place for it, as it is directly above the hanging.

The little engine at the exploration was given a good test. The first thing hoisted from the opening was a boulder weighing about three tons. It came up without a hitch.

**HOUSE BURGLARIZED.**  
One day last week Mrs. Thomas Coin notified Officer Charles Lavigne that her home had been burglarized, the thief getting away with \$30 in cash. Mrs. Coin saw a couple of suspicious looking fellows near the house. She furnished the officer with a description of them and within two hours he had both the suspects in custody. He caught them at Republic.

When Lavigne returned with the men Mrs. Coin was not positive that they were the ones she had seen going up to Mrs. Coin's house. They talked with the description given the officer, but the fact of the matter was she did not care to get mixed up in the deal. Mrs. Coin was called in and she decided to let the matter drop. The prisoners were there for let go without a hearing.

Both men recently came from the copper country. One had in his possession a check on the Houghton National bank for \$45 and \$6.15 in currency. The other had \$14 in currency.

**FOOTBALL TEAM ORGANIZED.**  
The young men of the lower part of the village have organized a football team, composed of the following players: Ed Tourville, Fred Lavigne, W. Arsonault, Will Feely, John Arsonault, Ed and George Belhumer, Albert Langlois, Tom Baker, Tom Kabock, Ernest Carlson, James Goran, George Fourville and Frank Stewart. Ed Belhumer will manage the team. He reports that three games have already been scheduled, one each with the Calumet, Houghton and Lake Linden teams. Among the players are several who have been in the game before. W. G. May, the colored dining car porter, who did some coaching here last season, is expected back on his old job within the next week or so. An effort will be made to induce him to coach the team.

There is talk of the "Tigers" reorganizing and though the players have not yet had a meeting, all but three or four of last year's heavy team live up town. It is said that most of the old men are willing to play again this fall.

**A NIGHT OF TERROR.**  
"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she would die from pneumonia before morning," writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night. Further use entirely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1. Trial bottles free at Stafford's drug store.

**CHAMPION CHIPS.**  
The workmen of Champion did not lay off Labor Day.

The schools of the village opened Monday morning with a good attendance.

Herman Jung spent Tuesday in town in the interest of a Milwaukee liquor concern.

About a dozen Champion people took in the excursion to the copper country last Sunday.

Miss D. E. McNeve left Monday for Sparta, Minn., where she will teach the coming year.

M. E. Morriarity and family are away for ten days or so visiting friends in Wisconsin towns.

The baby daughter of Joe Laforest, Jr., died Sunday. The funeral took place Tuesday morning.

Miss Julie Schorlmer of St. Paul and her cousin, Nancy Schorlmer of Negaunee, are visiting in the village.

Miss Nellie Riopelle left Monday for Calumet, where she resumed her place as teacher in one of the schools.

Miss J. St. Peter of Quinnessee is visiting Miss Nellie Huber. She returned with the latter last Saturday.

Jake Levine has a "watch" dog. He says there are too many burglaries committed nowadays to let his store go unguarded. The dog is the means of

OFFERS FINE SPORT

NINETEENTH ANNUAL FAIR NOW OPEN TO PUBLIC.

EXHIBITS ARE SATISFACTORY.

FIRST-CLASS HORSE RACING OFFERED YESTERDAY.

Big Line of Attractive Circus Acts, With Balloon Ascension—This Is Neguance Day and Band Will Be Down.

The nineteenth annual fair of the Marquette County Agricultural association opened yesterday under auspicious circumstances.

It is not too much to say that the fair is up to the standard of previous exhibitions.

The attendance yesterday was in the neighborhood of 500 people, all from Marquette.

No one need remain away from the fair for fear of insufficient amusement.

There is an attractive line of circus acts and the horse racing, if the events of yesterday are any criterion, will be the best that have been seen on the Marquette track for years.

Today will be Neguance day and a large delegation of visitors is expected from that city.

An inspection of the grounds yesterday disclosed a number of improvements completed by the agricultural society.

In the building containing exhibits of women's handwork there is an attractive selection of fine needle work.

The horticulture building is well filled with flowers and the superintendent states that the display is far the best of recent years.

Administration hall is rather bare, although cosy corners have collections of art work.

There is a limited amount of stock and fancy poultry at the fair.

Dividing the interest with the purely industrial and agricultural features of the exhibition, is the amusement part of the show.

Good Entertainment. Dividing the interest with the purely industrial and agricultural features of the exhibition, is the amusement part of the show.

The buildings were inspected with the usual amount of interest yesterday and it was the universal opinion that there was no reason why the annual fair might not just as well be held on the early dates as in the latter part of September.

Helps young ladies to withstand the shock of sudden proposals, that's what Rocky Mountain Tea has done.

A full line of fine confectionery at Heppner's bakery.

The oyster season is now open. They are served in all styles at Prince's.

The event in the 2:10 class yesterday was one of the best seen here in years.

In this heat Little Johnny had been sliding along an easy leader for the greater part of the mile.

Little Tim then captured the two succeeding heats. In this event Little Johnny was second, E. W. L. third and Rob Rene fourth.

The entries in the race for Marquette county men, the horses to be driven by their owners, were Gaslight owned by Stewart, Pioneer, Menhennet, Vesta Medium, Shea, and Kittie. Gaslight won this event in three straight heats.

was one of the best seen here in years, it being won by Little Tim, owned by Louis Samm, in three out of four heats.

Little Tim then captured the two succeeding heats. In this event Little Johnny was second, E. W. L. third and Rob Rene fourth.

The entries in the race for Marquette county men, the horses to be driven by their owners, were Gaslight owned by Stewart, Pioneer, Menhennet, Vesta Medium, Shea, and Kittie.

Gaslight won this event in three straight heats, Pioneer, Vesta Medium and Kittie getting money in the order named.

The speed program today includes events for the 2:30 and 2:20 class, both mixed. There will be good fields of entries and the committee promises races which will compare with those enjoyed yesterday afternoon.

UNITED STATES COURT.

Its September Term Was Concluded Yesterday.

United States court, which convened for its September term here Tuesday, concluded its business and adjourned yesterday, the officials departing for their homes.

In the case of the American Fine Arts company vs. James Stowell, a joinder on demurrer was issued and the case will be submitted on briefs to the court at Grand Rapids.

In the case of the Chelsea Savings bank and the Bennington County Savings bank of Vermont vs. the City of Ironwood, a decree was entered for the complainants.

In the case of the United States vs. Napoleon LaFrance of Rockland, charged with a violation of the postal laws, the defendant was fined, on a plea of guilty, \$250, which he forthwith paid.

In the case of the United States vs. Nettie Sensiva, violation of the excise laws, the bond of \$200 put up for the appearance of the defendant was returned and forfeited, she failing to present herself for trial.

In the case of James P. Edwards vs. William A. Cornelius, E. J. Mapes, A. Matthews and others, a bill to set aside a United States patent was argued and submitted.

Attorney Lewis C. Black of Cincinnati was admitted to practice before the court.

"LOVERS' LANE."

It Entertained a Large Audience Last Evening.

Clyde Fitch's new play "Lovers' Lane," was given its first presentation in Marquette at the opera house last evening.

It was presented, with an ample scenic investment, by a large company travelling under the direction of William A. Brady.

The play was fairly well played, but in the hands of the original cast it must have been a much more effective and entertaining drama than it was last evening.

Some of these are so accented and distorted that they degenerate into mere caricatures. "Lovers' Lane" is diffuse, its people being on and off the stage in a bewildering fashion.

At Tuesday's session President Roe delivered the following address: "It becomes my duty under the new constitution and by-laws of our association, to make an address and I can assure you that I will make it brief, as I am neither lawyer nor statesman."

There is no person on the face of the earth, who is so miserable and wretched, as one who has a severe case of hay fever, or hay asthma and I am confident those of you who are so unfortunate as to have this trouble, will agree with me.

Helps young ladies to withstand the shock of sudden proposals, that's what Rocky Mountain Tea has done.

A full line of fine confectionery at Heppner's bakery.

The oyster season is now open. They are served in all styles at Prince's.

The event in the 2:10 class yesterday was one of the best seen here in years.

In this heat Little Johnny had been sliding along an easy leader for the greater part of the mile.

ONLY A HALF CROP

NOT AS MUCH HAY FEVER AS USUALLY THIS YEAR.

CLIMATIC CONDITIONS FAVORABLE

MARQUETTE THE BEST PLACE FOR THE SUFFERERS.

Successful Business Session Held—Western Association in Strong Conditions—Misunderstanding Concerning Rebates.

"There is only half a crop of hay fever this year." This statement is made by one of the officers of the Western Hay Fever association, which now has headquarters in Marquette.

The business session of the association at the Normal Tuesday afternoon was one of the most successful and best attended ever held here.

According to the report of the secretary and treasurer, the association is in very prosperous condition.

There is little change in the copper situation. The 'st seems to be strong and, in general, is holding its recent advance, while some stocks continue to gain.

Hayden, Stone & Co. wired the Laidley Commission company: "This is a market of specialists, Lawson, Arnold & Co. are very bullish on the market."

"The trade was stagnant today, but with all the dullness and the efforts of the bears the prices lost only 1/2 cent under last night."

"The trade was stagnant today, but with all the dullness and the efforts of the bears the prices lost only 1/2 cent under last night."

"The trade was stagnant today, but with all the dullness and the efforts of the bears the prices lost only 1/2 cent under last night."

not least, we are appreciated by the citizens of this city and we measure their appreciation by the rebate which we receive upon our transportation.

Association's Work. "My dear brothers and sisters stop for just one moment and ask yourself this question: What has this association accomplished? What has it done for each member? What has it cost to do this? For a number of years we were paying 25 cents per year for membership."

"You know, nothing. But we got all we were entitled to. Yes, this is true. We could not expect anything at that price, but we did finally, through the efforts of our officers, get permission to come to Marquette, if we promised to be good and not sneeze at her citizens and we were so good that they invited us to come again."

"Last year, as you know, you raised the fees to \$1. What has been the result? We had not all left this city before our worthy master of transportation, Mr. Cosgrove, had not only had an invitation from the good people of this city to return again this year, but a contract to give us the rebate on our transportation, the same as we had been getting in the past."

"I am proud of its success. I am proud of its growth. I am proud of its members, who are the kindest hearted people in the world. I am proud of our earnest endeavor to maintain its integrity and I know today when I look upon your faces, filled with bright smiles, because you are able to be here and enjoy the health giving breezes of this beautiful city, that you share the same feeling that I do."

"Your officers have all worked hard to make the association a great success in every particular. How well they have succeeded, is left for you to determine, when you have heard the report of our worthy secretary and treasurer."

"I would add this: Do not slacken your efforts, but labor to extend the limits of membership, as it costs no more to attend to the business of 2,500 members, than that of 100."

"I wish to thank you for your attention and to hope we may work together in peace and harmony and continue to do good work for the association and for our fellow creatures everywhere, and I sincerely hope you may all enjoy a season of rest and be free from hay fever during your stay in this city. I wish also to thank the officers of this association for their courteous treatment and energetic efforts in behalf of our association."

YOUR AUTOMATIC BLOOD COOLER.

You will never be overcome by the heat as long as your pores are open and active.

When the pores are not obstructive, any rise in the temperature of the blood causes an increase of perspiration, the evaporation of which acts as an automatic cooler of the body and prevents overheating.

The pores should be kept in an active condition by a daily bath during hot weather. Comfort and safety demand it. The luxury and effectiveness of bathing are doubled by adequate bath supplies. We have everything required: Fine sponges, pure soaps, refreshing sea salt, fragrant toilet waters, good bath brushes that increase the vigor of the skin.

DESJARDINS' PHARMACY, 417 North Third St. (5-12-10) Aug. 31
