The citizen's committee from Buffalo, officers of the army and navy and friends followed. As the procession swept from the Sixth street station into Pennsylvania avenue, with bared heads and no murmur or sound a great throng of people watched with tear-stained eyes the last homecoming of President McKinley. SOUTH AFRICAN TRADE.

The United States consul at Cape Town has sent to the state department report on trade with South Africa. He isserts that the British are envious of the great advance in trade with the United States.

It is suggested, he says, that "a coaliion of British manufacturers interested in the mining, engineering and allied success. rades should be formed without delay to obtain sites in Johannesburg, where stocks may be kept for prompt delivery of goods. "This," says the consul, "is to forestall possible similar action on he part of American manufacturers to ecure the Transvaal mining trade. While the resumption of mining operations may portend much, I believe that there will be no immediate demand for mining machinery and appliances, because large orders have been placed (many in the United States), and at the coast ports much machinery, etc., can be found waiting for a clear track to the Transvaal.
