

HEALTH

The general health of a woman is inseparably related to the local womanly health. When the delicate womanly organism is diseased, the body loses plumpness, the cheeks lose their roses, and a nervous and fretful condition becomes habitual.

Thousands of sick women who have been cured of diseases peculiar to the sex by the use of Dr. Pierce's Favorite Prescription have testified to the restoration of the general health when the local disease was cured.

"Favorite Prescription" establishes regularity, dries unhealthy drains, heals inflammation and ulceration and cures female weakness.

Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only.

MARQUETTE, MICH., SEPT. 24.
Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Quite a number of people who a few days ago thought the top could never be reached in coppers are now apprehensive that the bottom has dropped out of the boom for good and all.

It would simplify matters considerably in the copper market if all who are interested in good copper propositions would turn their holdings over to Tom Lawson and his associates for a nominal consideration and be done with it.

After all Senator Platt of New York may prove to have been of real service to his country on at least one occasion. But for his shrewd and persistent work in the last Republican national convention some man of much less ability and more limited experience in public life than Roosevelt might have been nominated for the vice presidency.

Governor La Follette of Wisconsin has been quite ill for some time, and the stalwarts who are planning to retire him at the end of his present term want him to admit that he is so seriously incapacitated for the duties of his office that he should turn them over to the lieutenant-governor.

That a game is being worked in the copper share market is obvious, and that it has its aim the advantage of the manipulators of the market goes without saying. When these win the public losses, the systematic pounding down of Amalgamated is palpably for the purpose of weakening the general list, and the aim of this can only be to enable the powerful capitalists behind the Amalgamated company to gain control of certain groups of valuable copper properties.

While the nation has been profoundly stirred with horror at the awful deed, with grief at the loss of a devoted president, and with sympathy for his invalid wife, still the machinery of government, commerce and industry almost instantly recovered from the terrible shock and quiet continued on its usual course.

Iron and Steel has this comment on the collapse of the steel strike:
A more ignominious end than that of the great steel strike it would be difficult to conceive.

PAN-AMERICAN EXPOSITION.
Buffalo, N. Y., May 1st to Oct 31st—
The D. S. & A. railway now has on sale at all stations Pan-American excursion tickets to Buffalo, N. Y., at very low rates with a choice of six different routes covering both rail and lake trips.

as under his illustrious predecessor. There will be no change in our foreign policy, which is one of peace; and there will be no changes in home affairs, except those indicated in President McKinley's memorable last speech at Buffalo, and which are strictly in line with the country's demands and progress.

So far, then, as the change in the executive is concerned, there is absolutely no occasion for uneasiness. Happily, Secretaries Hay and Gage will remain in office to work out the policies already adopted. Talk of resignation is sheer folly, because there never was material for a panic, either in political, financial or business circles.

THE REACTION.
There has been, no doubt, much mischievous ranting tolerated in this country, and it has had an injurious effect in exciting and perpetuating discontent among the badly informed and dangerously disposed of the people.

HAS FAITH IN ROOSEVELT.
The Detroit News-Tribune of Sunday prints a special from a correspondent at Cleveland giving an interview with Senator Hanna which is of interest at this time, inasmuch as it bears on the relations between the new president and the man who stood closest to his murdered predecessor.

Yes, I suppose I did say last night that I would never submit to another interview, but this is a time when weakness of the spirit may cause us to say many things. I certainly cannot refrain from giving my personal estimate of President Roosevelt. It is the patriotic duty of all men to give him full support to the utmost limit of endeavor.

I know that President Roosevelt is determined to carry out the policies advocated by President McKinley. I know that our new president is sincere in every word he uttered to that effect at Buffalo. I know that he means to its full purpose every word of like effect that he has uttered since.

What the country wants at this time is an assurance that the future is set, that there is to be no radical change, no departure from the policy with whose general trend people have become familiar. I cannot praise too highly the admirable tact and truly patriotic wisdom shown by President Roosevelt in all that he has said and done thus far.

I believe that everyone feels now that what had become known as the era of McKinley prosperity will be unshaken and will be continued, and successfully developed. The initial assurance of President Roosevelt, that he would carry out unbroken the policy of President McKinley, finds practical and convincing reinforcement in his continuance in office of the McKinley cabinet, and in the achievement of their call to duty by all the members of the cabinet.

Touching on the question of taking precautions against a repetition of the dreadful tragedy enacted at Buffalo, the senator said:
No man in public life can be safe if any man for the future is to succeed in his own life to kill him.

Iron and Steel has this comment on the collapse of the steel strike:
A more ignominious end than that of the great steel strike it would be difficult to conceive. Mills individually and millmen individually have this week been returning to former activity, with even the terms of settlement by mutual consent proposed.

NEW MACHINES PURCHASED.
Houghton High School Now Has Five Smith-Premier Typewriters.

R. G. Lee, the upper peninsula representative for the Smith-Premier Typewriter company, has closed a deal with the Houghton High school board whereby the latter has purchased two Smith-Premier typewriters to be used at the high school for the commercial course.

BIG COAL CONSUMPTION.
Hundreds of Thousands of Tons Used Yearly at Mines.

Coal shipments into the copper country have not yet ceased and will not, it is believed, until the close of the season of navigation. Much of the fuel is yearly consumed by the mines. Hundreds of thousands of tons of the "dusky diamonds" have already been unloaded at the numerous docks along the shores of Torch and Portage lakes.

FLAG STILL FLOATS.
Stars and Stripes Planted on Hill Five Years Ago Continues to Wave.

Travelers passing through Michigan on the South Shore train have probably noticed a particularly high bluff a short distance to the north of the track east of the depot. The bluff looms up to a great height and although there is another bluff of the same height in the distance, it is a four-foot bluff.

WORKING NIGHT AND DAY.
The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fog into mental power.

COPPERDOM BREVITIES.
The annual ball of the Hancock firm will take place about Nov. 1. Chief Scott has already begun to receive samples of badges for the event.

Copper Country Department

(Additional Copper County on Page 2.)
KILLED BY A BLAST.
Italian Laborer Is Struck by a Piece of Wood and Dies.
LABORER IS MISSING.
Employe of Porter Bros. at Portage Lake Canal Has Disappeared.
Porter Bros., government contractors at the Portage Lake ship canal, are much concerned about the disappearance of James Thomas, an employe of the firm. Thomas is a laborer and had been working for the contractors only two days. He came to the canal from Houghton Tuesday and on Thursday afternoon complained of not feeling well. He went on shore to the camp and from indications left camp that evening minus most of his wearing apparel. His coat and many of his belongings were left behind, including his pipe and tobacco. A thorough search has been made in the woods and along the shore of Lake Superior for some distance from the camp but no trace of the missing man had been found Saturday night. Thomas is an entire stranger to the contractors and all in camp at the canal. It is not known where he came from, but it is supposed that he had been working in some camp or mining location before coming to Houghton to go to the canal. The missing man is described as being short and thick set and rather inclined to corpulence. He was from thirty-five to forty years old. Porter Bros., whose address is Desmond, the postoffice at the canal, would be glad to hear from any person who can give any clue to the identity of the missing laborer.

VENTURESOME LITTLE RUNAWAYS.
Two Small Girls Escape from Mission and Go to Houghton.
The Catholic mission at Assinins, near Baraga, is not a prison or a reformatory or anything of the kind, but two little girls who were inmates of the institution seem to think it isn't a good place to stay and last Sunday morning they picked up their duds and ran away. They boarded the train to the copper country, but did not get on at the mission. They were out for that, for they knew it would be useless, as they would be sent back to the school. So early Sunday morning the girls—both are about twelve or thirteen years old—got up real early and walked eight miles up the track to Arnieha, which is a flag stop for South Shore trains. The train from Marquette due in Houghton at 11:10 came along shortly after their arrival at that place and was flagged by the runaways.
The train came to a stop of course and the conductor seeing the new passengers took them in hand and asked where they were going. Their story was told. They were without money, but were determined to get to Houghton, or any place just to get away from the mission, so the conductor took them on to Houghton. When he arrived there he summoned the marshal and placed the girls in the latter's care. Mr. Coetsch then took the runaways before Judge Brand, who questioned them. It was learned that their homes were in Lake Linden and his honor decided to send the little offenders there.
The girls were put in charge of the conductor of the Lake Linden train on the Hancock & Calumet road and he was instructed to find their parents.

WAS PURELY ACCIDENTAL.
Shooting, Which May Result Fatally, Was Not Intended.
It seems that the shooting affair at Coburntown known as Helltown, at the Quincy location, Sunday morning was purely accidental. The victim is not expected to live. No complaint has been issued for the arrest of the one who did the shooting and it is not likely there will be. The shooting occurred in a business house. Both men concerned are employes of the Quincy Mining Company, Hend Leinonen, the man who did the shooting, being a trapper and Matt Pirainen, who was shot, a miner. Leinonen and Pirainen are good friends and room together at the boarding house. When Leinonen got up Sunday morning his partner was still in bed. He picked up a revolver which has been around the room for some time and commenced handling it, unaware that it was loaded. In fact he was sure no cartridges were in the gun as he had examined it several times previously.
It was while whirling around the cylinder and pulling the trigger that the revolver went off pointing in the direction of Pirainen. The ball entered the body of the unfortunate man six inches to the left of the median line and about seven inches below the nipple. Yesterday the wound was considered fatal. The bullet had not been located Sunday by the several physicians who were called in, but yesterday afternoon Dr. George Gallun of Hancock was to perform an operation in a search for the lead. If found the man will have a possible chance for recovery.
Both Leinonen and Pirainen have been in this region about a year and a half, coming here from Finland. Both are well known and respected men and the unfortunate affair is to be regretted. All possible care is being given the injured man in the hopes that he will live. Neither of the two have relatives in this country. It was said yesterday that several days ago the landlord of the boarding house found the cartridge that did the work on the floor and placed it in the revolver unbeknown to either Leinonen or Pirainen.

A SHOCKING CALAMITY.
"Lately befell a railroad laborer," writes Dr. A. Kellett of Williford, Ark. "His foot was badly crushed, but Buckner's Ankle Salve quickly cured him. It's simply wonderful for burns, boils and all skin eruptions. It's the world's champion healer. Cure guaranteed. 25c. Sold by Stafford."
One of nature's remedies; cannot harm the weakest; never fails to cure summer complaints of young and old. Dr. Fowler's Extract of Wild Strawberry.

WORKED THE THIRTY-THIRD.
Houghton lodge, F. & A. M., worked the thirty-third degree at a regular meeting last evening. Tonight the Houghton and Hancock Masons will go to Calumet on the regular evening train to attend a school of instruction to be held by Grand Lecturer Lou B. Windsor at the Calumet lodge rooms. Arrangements were made to leave Calumet for the return trip at 1 o'clock on a special train over the Mineral Range road. The fare will be fifty cents. All Masons are cordially invited to attend in case the evening train is late a special will be provided.

THOROUGHERED RUNS AWAY.
George H. Nichols' thoroughbred Kentucky saddle horse met with painful but not serious injuries at Hancock Sunday morning. The hostler was leading the horse from the barn to the store when it became frightened near the Lake View house on Tezecko and Hancock streets. The animal ran into a hitching post, tearing large gashes in its flesh. It then collided with a horse belonging to Johnson & Holtz, the saloon keepers. One of the legs of the latter animal was broken and the horse was otherwise so injured as to necessitate its being shot.

BRAIN-FOOD NONSENSE.
Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. Green's reliable remedies at The Stafford Drug Company.

SPECIAL EXCURSIONS.
To Colorado, Utah and South Dakota.
The D. S. S. & A. railway now has on sale some very low rate excursion tickets to points in Colorado, Utah and South Dakota. Tickets are good for return passage until Oct. 31, 1901.
For full particulars apply to station and ticket agents, or to Geo. W. Hubbard, G. P. A., Marquette, Mich. (7-20-9-30)

NO FOUNDATION FOR REPORT.

Rumor of Sharp Reduction in Price of Copper is Not Confirmed.
The Amalgamated dividend reduction and gossip prior to yesterday's action gave rise to reports that a sharp reduction in the price of copper from the present level of about 16 1/2 cents would be made at once to fifteen cents. The New York Journal of Commerce says that inasmuch as this report could be obtained, but it had a disturbing effect, particularly in view of the recent publication of statements calculated to show that the Amalgamated Copper company is heavily overstocked with copper. Copper producers estimate that the demands of the trade ordinarily will take care of a 10 per cent increase in the production from year to year, whereas the rate of increase for several years past has been much below 10 per cent annually, while for the current year there has been a small decrease in the output of domestic mines. Against this consideration, however, is the unsatisfactory volume of foreign trade this year, the exports of copper this year having been about 63,000 tons, against about 116,000 tons for the first eight months of 1900, while imports of the metal have increased considerably, so that the surplus of copper to be taken care of by the home demand is considerably over 50,000 tons. The home demand, however, has been the largest this year of any year ever known, and in part, therefore, must have offset the decline in consumption abroad.

FUTURE IS BRIGHT.
Boston Mining Man Speaks Highly of Ontonagon Mines.
In an interview with the Boston News Bureau a Boston mining man who has just returned from a visit to Lake Superior says:
"The future for the Ontonagon mines seems to be very bright judging from the operations at the Mass mine, which, as is well known, has made the greatest showing with one head of stamps on an amygdaloid lode that was ever made at Lake Superior."
"The Adventure mine is making a wonderfully fine showing in its various lodes, and I believe that when its mill is completed, it will show up even better than the Mass."
"The Victoria is working in an epidote supposed to be the Evergreen lode which is found at the Adventure, Mass, Michigan and National mines. At the 1,200 foot level a very fine showing of copper has been uncovered, but up to this point the showing had been disappointing. The Victoria has a water power supply sufficient to operate the entire machinery and appliances used for the extraction of the red metal is not doubted. In addition to this very promising proposition the Michigan has a valuable property. It has a large average and is crossed by all the lodes of the adjoining mines. The openings on the Calico lode have been very satisfactory as the returns from a mill run of this lode was over one per cent. With a sufficient amount of ground opened this lode would give good returns."
"In my opinion the greatest mine in Ontonagon country is the Old Minnesota, now known as the Michigan. It is under the well-known Stanton management and is superintended by Samuel Brady who has for his underground assistant Captain Thomas. Mr. Brady is an up-to-date and wide-awake mine manager and is reopening the old mine in a very intelligent and economical manner."
"The showing in the Michigan today is sufficient in my judgment to very soon warrant the calling of an assessment for a new mill and the stockholders have every reason to congratulate themselves on the present condition of their property in the limited time and under the various difficulties that Superintendent Brady has had to contend with. Judging from what I saw in the Michigan mine I believe that it will become in time one of the greatest producers of the Lake."
"The Old National which lies between the Michigan and Victoria remains idle. The mine evidently did not shut down by reason of having poor rock to work upon. I have not seen better rock in the Lake district than at the National. How long it will remain idle is one of the questions which remain to be solved."
"The Belt mine is being opened by Nathan Leopold of Arcadian fame and is said to be making a good showing of copper. This mine was formerly exploited by an English syndicate which sank a million or more on the property. The bulk of their money was spent on the surface and very little underground. The Belt mine carries all the lodes of the Ontonagon district."

QUINCY EMPLOYEES TAPPY.
Rebate for Extra Rent, Included in Pay Checks, Pleases All.
Saturday was Quincy pay day and the mine employes were contented and happy. All came out of the mine office smiling because of the reduction of house rent to their figures. The checks were not only for the full amount, but included a rebate for the extra house rent paid last month. This was in strong contrast with the personal feelings of the miners when they received their checks last pay day, at which time the raise on house rent went into effect. Another favorable incident in the mine office was the fact that the miners and when they realized what had happened the men assembled and appointed a committee to wait on the agent and request a reduction of the rent to the old rate. The matter was laid before the eastern management by Agent Harris and the request was granted.

DEMAND UNUSUALLY HEAVY.
Messrs. Phelps, Dodge & Co. have this to say regarding the present copper situation: "During the past few months we have found the demand for refined copper to be unusually heavy. We are sold up two months ahead, and orders continue to come in in unusual volume. It came during the first few weeks in September have been as heavy as ever before in our history. Our price for electrolytic copper is 16 1/2 cents per pound, which is as high as it has sold this year."
"As to whether the assertion made in the H. L. Cassey circular, issued last week, that the United States and Canadian Metals Selling company has in hand 135,000,000 pounds of refined copper is true or false, of course we have no means of knowing, but the figures do not seem to be absurd. Every producer must keep copper on hand. The United States and Canadian Metals Selling company is a large producer and must maintain a large stock of copper on hand. The slight condition of the market has been favorable and it is said to be making a good showing of copper. This mine was formerly exploited by an English syndicate which sank a million or more on the property. The bulk of their money was spent on the surface and very little underground. The Belt mine carries all the lodes of the Ontonagon district."

DIVIDEND BASIS UNCHANGED.
Amalgamated Was Launched as 6 Per Cent Stock and Pays That Today.
After all has been said and done the fact remains that the directors of the Amalgamated Copper company have not disturbed the dividend basis of the stock. They launched Amalgamated as a 6 per cent stock and pay it today, and doubtless will so continue. They saw fit, and have since seen fit up to Friday, to company the quarterly declaration with an extra dividend of 1/2 of 1 per cent. This extra was absolutely free from pledge, or promise, concerning the stock, and it was not in any doubt that other extra dividends would be made in due time, as conditions warrant. Nor does any large number of copper people believe that the company will ever show less than 8 per cent paid in dividends per fiscal year. The chances are strongly the other way, favoring 10 per cent rather than anything less than eight.

ANACONDA'S NEW SMELTER.
It is alleged in Amalgamated circles that if the Amalgamated dividend is reduced from 8 to 6 per cent as a basis, it will not be wholly the result of a copper acreage increase, but of the expenditure of \$5,000,000 for the new Anaconda smelter, which will not be completed until next July. The Anaconda is now working at a depth of 1,800 feet, and although some very rich streaks have been encountered at that depth, which is considered very important, the output as a whole and the yield per ton of rock are both decreasing with the depth. Upon one of the Anaconda company's claims a depth of 2,800 feet has been reached.
Butte people do not quite understand why Heine is fighting the Boston and Montana, and is not pressing his case against the Anaconda. Singular as it

REORGANIZATION EFFECTED.
E. F. Sutton Company Files Renewed Articles of Incorporation.
The E. F. Sutton company of Lake Linden has been reorganized and renewed articles of incorporation have been filed with the county clerk. The capital stock of the company is \$40,000 and the stockholders are: Mary Sutton, Martha Plews, James Hoar and Thomas Dunstan, Lake Linden; Charles Briggs, Calumet; Elizabeth Benedict, Chicago; W. H. Mills, Detroit.

LOAFERS MUST MOVE.
Hancock Municipal Authorities Object to Cigarette Smokers in Fire Hall.
Hancock municipal authorities are much annoyed by loungers who congregate in the fire hall and make themselves obnoxious by smoking cigarettes and defiling the floor of the engine house. These hangers on are a great annoyance to the drivers of the fire teams and although the city hall is quite a public place the authorities have decided to stop the nuisance. Marshal Malherbe issued the edict Saturday night and posted large placards in on the hall the first floor of the city building prohibiting loafing on the premises.

SLEEPLESSNESS. You can't sleep in the stillest night, if your digestion is bad. Take Hood's Sarsaparilla—it strengthens the stomach and establishes that condition in which sleep regularly comes and is sweet and refreshing.

DEATH STOOD OFF.
E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at Stafford's drug store.

Sid Darling, 1012 Howard street, Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risars are far the best pills I have ever used." They never grip.

Staford Drug Co.; H. N. Meloche, Ishpeming.

CANDY GATARRH
carets
BEST FOR THE BOWELS
Genuine stamped C. C. C. Never sold in bulk.
Beware of the dealer who tries to sell "something just as good."
Nasal GATARRH
In all stages there should be cleanliness.
Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.
Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents by mail.

MINE CLOSED DOWN. MAY NOT BUILD THIS YEAR.

No Work to Be Done at Section 21 for Two or Three Weeks.

Erection of New Library May Be Postponed Until 1902.

Section 21 mine, owned and operated by the Lake Superior Iron Mining Company, was closed down last evening and will remain idle for the next two or three weeks. During this interval extensive repairs will be made to the machinery and the hoisting equipment. The discontinuance of work at the Winthrop throws about two hundred men out of employment. For some time past the Lake Superior Iron Company has had in contemplation making improvements at Section 21 mine. The machinery there is old and badly in need of repairs. Before work is resumed it will have been put in the best of condition. The company will also install new boilers of a larger size than those at present in use. Perhaps the greatest improvement will be the installation of new skips. Heretofore two-ton skips have been in use. These will be discarded, and will be replaced with five-ton buckets. The company will employ as many men as possible on the projected repair work while the mine is closed down. But the number employed will not be large, and over two hundred miners, trammers and other laborers will be out of work while the improvements are being made.

A CLEVER PRODUCTION.

"Daniel in the Lion's Den," a drama, was produced last evening at the Ishpeeming Opera House by the dramatic club of the Mitchell Methodist church of Negaunee. Last evening was the third time the club has appeared in the piece, and the last production was the best given. The house was well filled and the audience very enthusiastic. The proceeds, which amounted to considerable, go to the Division Street Methodist church of this city. For the benefit of which the performance was given. A male quartet, composed of Bert Truin, F. C. Bennett, John Rale and John Delbridge, rendered several selections very acceptably between the acts.

ATTENDED THE FUNERAL.

T. H. Dawson, who returned from New York and other eastern points Saturday evening, attended the funeral rites held over the remains of the late president at Canton last Thursday afternoon. In speaking of the services, Mr. Dawson said they were simple but very impressive. The Ohio state militia, which attended in a body, gave the ceremony a distinctive military tone. Mr. Dawson said that he was never in such a jam before. Canton's streets were packed and it was the next thing to impossible to get about. While in the east Mr. Dawson purchased a large supply of notions and other goods for his holiday trade.

TWO GOOD ATTRACTIONS.

Two clever theatrical attractions will appear at the Ishpeeming Opera House during the present week. Lincoln J. Carter's celebrated "New Fast Mail" will hold the boards Friday evening and on the following night Mahara's minstrels will furnish entertainment. Both are strong attractions. "The Fast Mail" has been in Ishpeeming before and has always played to large houses. It is said that the piece has been improved by its author and that this year's production eclipses the performance of previous years. Tickets are now on sale at Tillson's drug store.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she would die from pneumonia before morning," writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night. Further use entirely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1. Trial bottles free at Stafford's drug store.

J. H. Mortley is prepared to turn out ladies' garments of all kinds. New stock very complete. Come in and inspect the goods. (9-19-1m)

STOLEN—A promissory note for \$300, signed by Frank Gustafson, payable to Nels Danielson. In case any person should endeavor to sell or hypothecate said note please notify Nels Danielson, 135 New York street, Ishpeeming, Mich. (9-23-17)

When doctors fail, try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering with a cough doctors told me was incurable. One bottle relieved me, the second and third almost cured. Today I am a well man." Stafford Drug Co.; H. N. Meloche, Ishpeeming.

How Are Your Kidneys? 27 Hoober's Special Pills cure all kidney trouble. Add Hooper's Remedy Co., Chicago or N.Y.

All the Jewish merchants closed their stores yesterday. Mrs. Losselyong, North Pine street, returned yesterday from Calumet, where she has been for the past few days visiting friends. The street commissioner has a gang of men at work repairing the curb on West Barnum street. The old curb planks are being relaid. Members of the Bethany Swedish Lutheran Sunday school are soliciting funds for the Swedish Orphans' homes, located at Andover, Mass., and Joliet, Ill. Rev. Edward Schuch of Negaunee preached at the Bethany Swedish Lutheran church Sunday evening in the place of the regular pastor, Rev. Isaacson. W. H. Anderson, chemist at the Lake Superior mine, left yesterday for Buffalo to attend the Pan-American. He will be absent from the city for a week or ten days. Ten Ishpeeming people took advantage of the excursion route to Detroit yesterday. On Sunday the D. S. S. & A. road sold one hundred and three tickets to the Soo from this city.

Arthur Sandberg has gone to Ann Arbor to enter the medical department of the university. His brother Charles will resume his studies at that institution sometime next week. He also is studying medicine. The last Assembly club party will be given at Anderson's hall Friday evening. Trombly's full orchestra will furnish the music. The party was to have taken place last Friday evening, but owing to the death of President McKinley it was postponed. Mrs. Johanna Beerling, aged 62, died Sunday afternoon at her home on North Main street. Mrs. Beerling's health has been very poor for the past two or three years and her death was caused by general debility. The deceased is survived by three grown children. The funeral will be held tomorrow afternoon at 2:30 o'clock from the Swedish Lutheran church. Rev. Isaacson will officiate.

SCHLEY STUCK TO THE FLAG.

A Notable Decision He Made While a Midshipman. It was at the time that the first embassy sent by Japan to the civilized world visited this country, and its mission being completed the government, as a compliment, ordered the fine frigate Niagara to convey its members home. The ship was lying in New York harbor, and there Midshipman Schley joined her in June, 1869, just after his graduation from Annapolis. She went to Japan by way of the Cape of Good Hope, and did not get back to the United States until April, 1861, and then in the midst of the excitement following the attack on Fort Sumpter. The navy was largely a southern institution, as no small proportion of its best officers had been appointed from the disaffected states. They were resigning daily, and their action was being precipitated by the peremptory demand from Washington that the oath of allegiance to the Union should at once be taken by every person in a southern institution. Hardy had the Niagara anchored in the harbor of Boston when printed forms were distributed, and instant signatures required. The midshipmen's mess mainly complied immediately. Schley, a Marylander, had no knowledge as to what course his relatives and friends had adopted, but after thinking it all out, boy fashion, as well as he could, he decided for himself. This made a little delay. At last he brought the signed paper to Captain McKean, in his cabin, and handed it to him in silence. "God bless you," exclaimed the old officer, as he glanced at it. "I cannot tell you how anxiously I have waited for this. But I knew you'd do it, my boy—I knew you'd do it," and he threw his arms around the youngster, with tears rolling down his cheeks. Thus Midshipman Schley, of Maryland, made his decision for the old flag—American Monthly Review of Reviews.

EYES TESTED FREE.

W. Thurtell, the scientific optician and refractionist, is again in Ishpeeming. Office hours from 3 to 9 p. m., at the Urban House parlors. A thorough examination free. Glasses ground to fit each difficult case and all work guaranteed. (9-24-1m)

J. H. Mortley is showing the largest and most stylish line of cloths for suits and overcoats he has ever had. All orders receive prompt attention. (9-19-1m)

Don't wait until you become chronically constipated, but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. Stafford Drug Co.; H. N. Meloche, Ishpeeming.

MOTHER GRAY'S SWEET POWDERS for Children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists, 25c. Sample sent FREE. Address Allen S. Olmsted, Le Roy, N. Y.

NOTICE.

A. W. Reckmeyer & Co., the well-known and reliable Detroit furriers, wish to announce that Miss Laura Leary is their responsible and authorized representative. There is no such fur house in Detroit as G. W. Zanger, which statement is given out by our competitors, but Mr. G. W. Zanger who was always connected with A. W. Reckmeyer is proprietor of that house and guarantees every order taken by Miss Leary to be first-class in every detail. All garments to be fitted personally by that lady. We wish it understood that the Reckmeyer firm of Milwaukee is not nor has ever been connected with the above firm at any time. (9-24-17)

ISHPEMING IN BRIEF.

Sheriff Penglase was up from Marquette yesterday. Robert L. Lyons spent Sunday at the Soo visiting friends. Miss Clara Martin spent Sunday at Michigan visiting her parents. Charles Venzel of St. Ignace was here yesterday transacting business. Captain Thomas Walters left yesterday for Ironwood on a business trip. Albert Rogers of Akron, Ohio, is in the city, the guest of his brother and sisters. Attorneys H. O. Young and George Hays transacted legal business at Marquette yesterday. A. H. Montgomery and N. P. Flodin of Marquette were in the city yesterday on a business mission. Miss Lulu Anderson of Marquette spent Sunday at the guest of her brother, W. H. Anderson. Dr. and Mrs. J. H. Andrus gave a dinner party at the golf club last evening in honor of Mr. Osbourne of New York. A large delegation of Ishpeeming people attended the dance given at Negaunee last night by the ladies of the French society. Yesterday was the Day of Atonement and was duly observed by all the orthodox Jews in this city. The observance began at 6 o'clock Sunday evening and continued until the same hour last evening.

LAST BARS DOWN

NEW RAILROAD CAN GO ON WITH CONSTRUCTION WORK.

INJUNCTION SUIT IS ARGUED.

INVOLVED THE RIGHT-OF-WAY THROUGH LAKE STREET.

Court Dissolves the Restraining Order on Condition Bonds Are Fied for Payment of Any Property Damage That May Be Allowed.

The Marquette & Southeastern railroad is now virtually free to go ahead with the building of its line through the city. Yesterday, in the circuit court, the last obstacle in the way of the work of construction was removed by Judge Stone, and as a result it is likely that in the immediate future dirt will be flying along the right of way of the new road within the city limits.

The matter came before the court on the hearing on the temporary injunctions secured some time ago by Edward Breitling and Mrs. N. M. Kaufman. These orders restrained the Marquette & Southeastern from laying its tracks in Lake street in front of the property of the petitioners, and yesterday it lay with the railroad company to show cause why the injunctions should not be made permanent.

It was contended by the complainants that the building of the railroad in front of their property would work a great detriment to it, and because of this reason it was alleged that they were entitled to compensation and damages adequate to fit the case. This point was argued at length.

The position taken by the attorneys for the railroad company was that the tracks are to be laid south of the center line of the thoroughfare, and the claim was set forth that the law does not require the payment of damages to owners of property abutting the opposite, or north, side of the street. It was further contended that the complainants had no particular rights in the premises further than those of the public at large, and the public at large, through its authorized representatives, had given the said railroad company permission to lay its tracks on the south side of the street in question.

higher court, take proceedings to condemn the property involved. As the case now stands, it is simply a question as to whether the complainants are entitled to damages, on the score of detriment to property, caused by the railroad putting its tracks on the side of the street opposite the property alleged to be affected. The company may go ahead with its proposed construction work on the filing of the nominal bonds above mentioned.

EXCITING BOAT RACE.

Steamers Peerless and Buell Try Contests Enroute Here.

The Chicago liner Peerless and the freight steamer F. R. Buell participated in an exciting race on their way up the lake to Marquette yesterday. On the way from the Soo the Peerless, after putting in at Grand Marais, made for Munising to unload freight and on leaving that port discovered while off Grand Island that the Buell was ahead by about half an hour's sailing distance. It was then a question of which boat would reach Marquette first in order to obtain the better dock facilities.

The contest is described as having been a pretty one. All steam possible was put into service, and the crews of both boats did all in their power to develop the speed of which their respective craft were capable. The Peerless steadily gained, however, and just on rounding the Marquette breakwater got on even terms with its rival. At this point the master of the Chicago craft managed to get the inside "track," and a short spurt landed the Peerless at the dock a trifle ahead of the Buell. The result was that the freighter had to be content with but a corner of the wharf, while the Peerless lay full alongside, giving it considerable advantage in unloading and preventing the delay that threatened when the task of overhauling the Buell was undertaken off Grand Island.

Charges Against the Buell.

The steamer Buell is the craft which, it is charged, refused assistance to the barge Jupiter, waterlogged in a storm on Lake Huron some days ago. The Jupiter went down and Owner Ragan, the result was that the freighter had to be content with but a corner of the wharf, while the Peerless lay full alongside, giving it considerable advantage in unloading and preventing the delay that threatened when the task of overhauling the Buell was undertaken off Grand Island.

It will be recalled that after the sentence of Foster and Manning, and just before they were taken to Detroit, they announced they would plea for executive clemency, and set up strange grounds. They claimed that because they had been brought into court handcuffed together, this prejudiced their case in the mind of the judge and made him more severe than would otherwise have been the case. The sentence, however, was generally considered light, and the court announced that it was made in consideration of the families of the men.

Don't get side-tracked in business. Dullness sometimes passes for death. Men with brains reach the goal. Rocky Mountain Tea puts gray matter into one's head. 35c. Stafford Drug Co.

A light lunch can be had at any time during the day or evening at Heppner's.

FINE COURTHOUSE.

Alger County's New Headquarters to Be Munising Proud.

The Northern Construction company of Milwaukee, which has been awarded the contract, at \$29,448, for the construction of Alger county's new courthouse, to be erected at Munising under plans prepared by Charlton, Gilbert & Demar of this city, will begin the work of excavating within a few days. The foundation will be completed this fall.

The building will be 70 by 106 feet, with two stories and a basement. The structure will be of brick with trimmings of Rock River sandstone. The court room will be one of the finest anywhere in the upper peninsula. From skylights in the dome light will be admitted to the court room in abundance, a feature that is found in few court rooms in the country.

The treasurer's and the clerk's office will each be provided with bay windows and all the offices of the county officers will be convenient and well lighted. Taken all in all, the new building will be one of the best and most convenient in the upper peninsula and a credit to the people of Alger county.

CALUMET POSTOFFICE ROBBERS.

Foster and Manning Soon to Be Released from Jail Here.

There are two prisoners shortly to be released from the county jail who helped to cause considerable excitement in the copper country about four years ago. They are William Manning and Wallace Foster, brothers, although known under different names.

The men have just completed a term at the Detroit House of Correction, having been sentenced by Judge Severens on Monday, July 18, 1898, for the robbery of the postoffice at Calumet. The men pleaded guilty when arraigned in the United States court and were each given a sentence of three years and ten months at Detroit, then to stand committed to the Marquette county jail under a fine of \$100 each. Carson, the third man implicated, was given a longer term at the Detroit institution and is still serving time there. Manning and Foster, in lieu of paying the fine, are spending thirty days in the sheriff's bastle here; they will be released next week.

It will be recalled that after the sentence of Foster and Manning, and just before they were taken to Detroit, they announced they would plea for executive clemency, and set up strange grounds. They claimed that because they had been brought into court handcuffed together, this prejudiced their case in the mind of the judge and made him more severe than would otherwise have been the case. The sentence, however, was generally considered light, and the court announced that it was made in consideration of the families of the men.

WITH ISHPEMING SATURDAY.

Marquette High School Team Has Hard Football Game in Store.

The high school football team will get in some good hard practice work this week, under the direction of Coaches MacPherran and Primeau, preparatory to meeting Ishpeming on the gridiron next Saturday afternoon. The game will be played at the new fair grounds, and easy means of reaching the scene of the fray will be arranged for the benefit of the large crowd expected to be present.

The locals played a splendid game last Saturday against the heavier alumni aggregation and demonstrated that they are worthy of all the financial support the business men and others can give them. The Ishpeming team made a strong showing in its contest with the Champions eleven last Saturday, winning without trouble, and the coming contest here apparently will be nip and tuck until the last play is made. As far as can now be judged, the teams are evenly matched, although Ishpeming has the prestige of numerous victories.

The schedule so far arranged for the boys calls for several hard games, and it may be stated that the locals are in the field for the championship with a vim. Games will be played as follows: Schedule of Other Games.

Sept. 28—Ishpeming High school; at Marquette.

Oct. 5—Hancock High school; at Marquette.

Oct. 12—Ishpeming High school; at Ishpeming.

Oct. 19—Escanaba High school; at Escanaba.

Oct. 26—Hancock High school; at Hancock.

Nov. 2—Ironwood or Menominee; place not yet decided upon.

Gladstone Defeats Escanaba.

The correspondent of The Mining Journal at Gladstone sends the following under date of Sunday: "The much tooted Escanaba football team came over to this city yesterday prepared to wipe the earth with the Gladstone team and incidentally give it a few pointers on how to play. To the great surprise of the visitors, the Gladstone team defeated them decisively by a score of eleven to nothing. The game was fast, exciting and hotly contested throughout. It is needless to say that the Gladstone boys are greatly elated while the boys from Escanaba are as sore a crowd as could be found anywhere."

It will be recalled that after the sentence of Foster and Manning, and just before they were taken to Detroit, they announced they would plea for executive clemency, and set up strange grounds. They claimed that because they had been brought into court handcuffed together, this prejudiced their case in the mind of the judge and made him more severe than would otherwise have been the case. The sentence, however, was generally considered light, and the court announced that it was made in consideration of the families of the men.

FLEECING THE LAMBS IN WALL STREET

is a daily occurrence, but the bulls and bears can't do it any slicker than we can cut one up and trim it for your table. Our Spring Lamb and veal, broiling chickens and capons are delicacies that an epicure can appreciate. Our prime ribs of beef, mutton and cooked ham in flavor and quality can't be beat.

FRANK W. HATHAWAY, PALACE MEAT MARKET.

SEVENTH SEMI-ANNUAL OPENING!

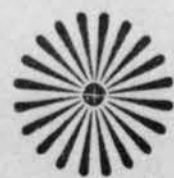

Week Beginning Wednesday, October 2nd.

Owing to unavoidable delays in the New York market since the death of our beloved president it will be impossible to have our opening this week as intended, but we will be well prepared for the event next Wednesday.

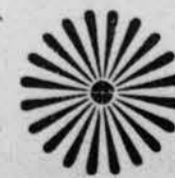

Three weeks of diligent search in the mills and factories, and a careful investigation of the fashionable retail centers combined with a determination on our part to make the Opera Block Dry Goods House the most popular trading store in Northern Michigan this season will result in showing next week the best values in Suits, Cloaks, Dry Goods and Carpets we have ever been able to offer.

It is not enough that we should have the best values obtainable for correctness of style is all important. It will not be necessary to select your Dress Goods, Silks, Trimmings, etc., from Milwaukee or Chicago agents from samples. You have an up-to-date dry goods house at home (patronize it). We buy our goods from the same mills, factories and agents as do the Chicago and Milwaukee houses. We sell them to you for less money; you pay no express charges and see the goods in the piece, besides you are helping to build up a house in your own city that you can be proud of. We are not forgetful of the loyal support of so many of Marquette city and county patrons.

Our new Dress-Making Parlors will be formally opened on Oct. 2nd. Miss Haster may be found in our suit department this week. Read our announcements this week.
