RUHLIN A QUITTER

AKRON GIANT SHOWS A DECIDED YELLOW STREAK.

WILTS IN FIFTH AND GIVES UP

NO ONE IS MORE SURPRISED AT OUTCOME THAN JEFFRIES.

Defeated Man Intimates He Was Unfairly Handled—Claims Blow on Stomach Did the Work—Cries of Fake Raised.

San Francisco, Nov. 15.—In one of the most unsatisfactory prize fights ever witnessed in this country James J. Jeffries proved the victor tonight over (as Ruhlín, the Akron giant, in the fifth round of what was to have been a twenty-round struggle Ruhlín wilted and then surrendered to his peer to the utter amazement and disgust of the assembled thousands. No one was more surprised at the outcome than Jeffries himself, who asserted that while he had delivered one telling blow in the second round he did not expect to win the victory so easily. Ruhlín's sole explanation of the outcome of the fight is that he received a chance blow which disabled him, and that Jeffries persisted in fighting him low.

While Ruhlín will make no absolute charge of Jeffries having committed a foul, he intimates that he was unfairly handled and injured as a result. Ruhlín received the support of his seconds in this stand, who say his was a hopeless case after the second round.

Was an Easy Victory.

When seen in his dressing room after the fight Jeffries said:

"I was certainly surprised at my easy victory and Ruhlín's amazing defeat. While it is true he did not punch me hard enough during the five rounds to cause me any alarm, I believed him strong and cautious up to the moment of his collapse, and was surprised when he quit. I certainly had no trouble whipping him, and had the fight gone on the result must have been the same. Ruhlín was inane and in poor wind, and I cannot say he even had the courage and force I expected to encounter in him."

"Ruhlín took a stiff punch in the stomach in the fourth round, which, I presume, gave him trouble. Nevertheless, I expected him to lose harder than he did. Ruhlín can doubtless best explain his own position, and as for myself I'm willing to meet Sharkey next month, and thereafter defend as best I can the title I hold."

Complained of No Pain.

When Ruhlín went to his dressing room he was followed by a very depressed retinue. The defeated man complained of no pain and moved about without assistance. He stated:

"I believed from the lap of the game I would win but as the fight progressed I was beaten down until I received the blow on the stomach, which I must say was very low. It may not have been foul but no living man could have survived it. Jeffries departed from the written rules and from the common regulations of boxing when he threw himself upon me and wrestled rather than sparred. I believe, and did not receive the stomach punch which ended me in the fifth round. I would have worn down Jeffries. A few rounds later and beaten him as a matter of endurance. I'm ready to fight him again and believe in time I will have an opportunity of showing I can defeat him. That is all I can say."

Too Much Zeal in Training.

In the opinion of James Kennedy and Jack Gleason of the Twentieth Century club, which brought off the event, Ruhlín was drawn too fine and went to pieces because of his great zeal in training.

Lou Houseman, George Siler and George Harting, the official timekeeper for the club, declared Ruhlín greatly overestimated, his blows weak and easily blocked, and he was positively without endurance, while some expressions were heard in the throng after the fight placing the stigma of a fake affair on the management. It was the consensus of opinion that Ruhlín fought a losing battle in order to obtain the short end of an enormous prize.

Boxing in San Francisco has not been helped by this event. The city supervisors at the ringside tonight expressed great dissatisfaction, and even went so far as to name a suspicion in their minds of a listie swindle. It is estimated that something over \$40,000 was realized at the box office. Of this 62 1/2 per cent, divided in purses of 75 and 25 per cent, goes to the participants in the event.

San Francisco, Nov. 15.—Before an assemblage of 10,000 people at Mechanics' Pavilion, which has been the scene of many bitter and important struggles in the past, James J. Jeffries of Los Angeles, Cal., met Gus Ruhlín, the Akron giant tonight and fought for the title he has held since his memorable battle with Fitzsimmons.

Never in the history of San Francisco has there been such a crush of humanity at a pugilistic event. Hardly had the sun hidden itself behind the hills toward the ocean before the great pavilion began to fill with the enthusiastic crowd which gathered to watch the championship contest.

Thousands Enter Gallery.

Thousands poured into the gallery when the doors finally opened and long before the first preliminary was called the upper portion of the pavilion was black with spectators. People coming from points between Vancouver and

Mexico and embracing well known state officials, members of the judiciary and prominent sporting people early took possession of the high priced seats.

At 8:15 a stir at the east end of the pavilion indicated that one of the principals had arrived and was proceeding to his dressing room. Word was soon passed that Gus Ruhlín, the Akron giant, had reached the scene of the conflict and an uproar ensued. Ruhlín went at once to his dressing room, accompanied by Billy Madden, "Denver" Ed Martin, Charlie Goff and Young Gibbs, who later appeared in his corner when the fight was called.

A rumor emanating from Oakland reached the crowd early in the evening to the effect that Jeffries had suffered an injury to one of his hands before starting for San Francisco, but popular sentiment condemned the story as a canard and the betting was unaffected. M. H. De Young, the millionaire editor, Mayor J. D. Phelan, Mayor-Elect Schmidt, and almost the entire bench of the county was early at the ringside.

Preliminaries Were Announced.

When the preliminaries were announced and the first fight was brought on, the assembled thousands betwined, in some part, the extent of their excitement and wrought up feelings, and cheered vociferously although the curtain risers were unimportant.

Jeffries, accompanied by Billy Deane, Bob Armstrong, Kid Eagan, his brother Jack, and Dewitt Van Court, reached San Francisco shortly after 8 o'clock. The champion entered the building while the first preliminary was in progress and proceeded to his dressing room, while the throng made a demonstration. The crowd took but a passing interest in the preliminaries.

The first preliminary between Billy Condon and Mike Curtin, an eight-round affair at 140 pounds, was a fast and interesting mill. It was declared a draw.

Betting Steadied Down.

The betting at the ringside steadied down just before the big struggle to odds of two to one, although there were bursts of enthusiasm from either side in which longer odds were offered. Ed Kelly, a Chicago bookmaker, had \$3,000 which he sought to place at ten to four and a half. Of this amount \$1,000 was covered by Ruhlínites. A miner named Bell, just arrived from the Klondike, wagered \$500 at the same odds. Aside from this the betting was commonplace.

The second preliminary resulted in a victory for "Spider" Joe Welch over Joe Felds, four rounds. A moment later a burst of lime light of 235,000 candle power illuminated the vast reaches of the pavilion and came to further enthrall the great host of spectators as the immediate forerunner of the championship struggle, George Marling, the official time-keeper of the Twentieth Century club, took his position to the south of the ring with Phil Wand, time-keeper for Ruhlín, closely following.

At 9:28 Jeffries entered the ring, shading his eyes. After him came his trainer, Billy Deane, George Marling, Bob Armstrong and his brother, Jack, Harry Corbett, the referee, then stepped in.

At 9:30 Ruhlín entered the ring followed by his seconds.

Ruhlín Won the Toss.

They tossed for corners and Ruhlín won, taking the southwest corner. The extreme heat from the powerful light over the ring made itself felt from the very beginning, but it was not as intense as that which hampered the Sharkey-Jeffries fight. Two minutes after the men entered the ring they were announced by Bill Jordan, who then presented Referee Harry Corbett. Deafening cheers greeted the big fighters but an instant later, when Police Captain Wirtman entered the ring to examine the gloves, grams and filled the vast auditorium.

Jeffries in a flaring red sweater, and chewing gum in violent impatience, sat demurely in his corner. Ruhlín talked earnestly with "Denver" Ed Martin. On behalf of Tom Sharkey Tim McGrath challenged the winner of tonight's contest.

The men will break at the order of the referee.

Time was called at 9:37.

Battle by Rounds.

Round One.—Ruhlín leads for the head and lands lightly with his left. Clinch. Both men are cautious. Jeffries' feet go around Ruhlín's head but no damage. Jeffries tapped Gus lightly on the head with his left. The latter cleverly ducked a light left. Jeffries' upper left hand landed on the body but Ruhlín landed a left on the body but missed another for the head. Ruhlín countered with his left. Jeffries swung again but missed. Gus blocked a left jab for the face. Jeffries rushed, but Ruhlín came into a clinch. Jeffries' right hand landed on the body but the Ohio man got out of harm's way. Jeffries was smiling. The round was tame with the champion having slightly the advantage.

Round Two.—Clinch. Ruhlín was boxed around the neck with a left. He accused Jeff of foul fighting. The Akron man then shot in his right and found Jeff's ribs, following this up with an ineffectual left swing for the head. Jeffries waxed aggressive. Ruhlín planted a right and left to face and then rushed, landing on the body. The champion led with a left and was countered. Ruhlín found Jeff's head and in a short exchange neither had the advantage. The men fought at closer range. Gus again landing on Jeff's face and stopping the latter's attempt to retaliate with a strong right. Ruhlín fainted with his right and shot a straight left on Jeff's nose but the Low was partially blocked. The men wrestled when the round closed. This was decidedly Ruhlín's round.

Both Came Up Strong.

Round Three.—The men came up strong and Ruhlín shot in with his right and left, which were stopped. Jeff eluded his way back and forth and caught the Akron man with a terrific left to the neck. Jeff pursued Gus and swung with both hands. In the rush Jeff landed a weak body blow. Ruhlín again appealed to the referee. Gus ducked and was met with a straight

GETS GOLD MEDAL

HEROIC CONDUCT OF LIEUTENANT NEWCOMB REWARDED.

FOUGHT IN WAR WITH SPAIN

HUDSON COMMANDER WHO RESCUED WINSLOW CREW.

Each Officer Under Lieutenant Newcomb Gets Silver Medal and Each Member of Crew a Bronze Medal.

Washington, Nov. 15.—The only gold medal authorized by congress for heroic conduct during the war with Spain was forwarded today to Lieutenant Frank H. Newcomb, now at Patchogue, N. Y., by Assistant Secretary Taylor of the treasury.

During the Spanish war Lieutenant Newcomb commanded the revenue cutter Hudson and rescued the officers and crew of the Torpedo boat Winslow from their perilous position off Cardenas, Cuba, while the action of May 11, 1898, was in progress. Each of the officers under Lieutenant Newcomb was awarded a silver medal and each member of his crew a bronze medal.

The medal sent Lieut. Newcomb contains about \$750 worth of gold, is ornamented on one side by an engraving of the goddess of war, looking down upon the scene of the rescue, and on the other side by a representation of Fame writing a story of the deeds of Lieutenant Newcomb and crew.

In forwarding the medal Secretary Taylor said:

"You are a proud distinction, being the only commissioned officer in any service to whom congress awarded a gold medal for heroism in battle during the war with Spain. I take pleasure in presenting to you the medal awarded and congratulate you upon the recognition bestowed by the national legislature."

WHISKY DEAL OFF.

Combination of Distilling Interests Falls Through.

Pittsburg, Nov. 15.—The Gazette tomorrow will say:

The deal for the combination of all the distilling interests of the country with a capital of \$200,000,000, has fallen through.

The scheme by which Thomas Dalton of New York was to combine all the dry whisky distillers in western Pennsylvania with a \$75,000,000 capital, and subsequently merge this company into the Distilling Company of America, miscarried. Distillers here say the plan could not be carried out, individual distillers having as the chief article of their trade their special brands of whisky.

The Distilling Company of America, with \$125,000,000 capital, has taken over more than sixty per cent of the bourbon distilleries of the country.

BIG RAILROAD DEAL.

Omaha & St. Louis Deeds Property and Franchise to Wabash.

Council Bluffs, Ia., Nov. 15.—A deed was filed today conveying to the Wabash Railroad company the franchise and property of the Omaha & St. Louis railroad for a consideration of \$2,357,000, of which \$50,000 is cash and the balance first mortgage bonds held by the Guaranty Trust company.

A trust deed was also filed by the Wabash to the Bowling Green Trust company to secure a mortgage of \$7,500,000, of which \$500,000 is provided shall be used in the betterment of the Omaha & St. Louis road and the purchase of new equipment \$1,354,000 for the payment of receivership obligations, and the balance for the holders of certificates of deposit in the first mortgage bonds of the Omaha & St. Louis.

WARNING TO GERMANY.

London Newspaper Comments on Senator Lodge's Speech.

London, Nov. 15.—The Spectator, commenting upon Senator Lodge's "very important speech last Saturday night in Boston, will say tomorrow: Europe is in a tight strait to acquire even a coaling station in either of the Americas. As Great Britain and France already have possessions in America this can only refer to Germany alone. The warning is to her and it will stimulate Emperor William's plans for creating a great fleet.

The Outlook, reviewing the position of the navies of the world, predicts that the United States will yet have a fleet second only to that of Great Britain.

SIGNS WITH DETROIT.

Frank Dwyer to Be Playing Manager of New Baseball Club.

Detroit, Nov. 15.—Frank Dwyer, a former Cincinnati pitcher and umpire, after a conference with the new management of the Detroit baseball club, tonight signed a contract as playing manager.

HANCOCK IS ASHORE.

United States Transport Grounded in Straits of Shimohoseki.

Nagasaki, Japan, Nov. 15.—The United States transport Hancock is ashore on the south side of the Straits of Shimohoseki. A German gunboat is assisting her. The transport is grounded on a sandy bottom.

HARD ON TICKET AGENTS.

Over 10,000 West of Chicago Prohibited from Requesting Passes.

Chicago, Nov. 15.—The Chronicle tomorrow will say:

After January 1 over 10,000 ticket agents in the territory west of Chicago will be prohibited from requesting passes for themselves or members of their families over roads other than those on which they are employed. It developed today that at a recent meeting of the executive officers of western roads in Chicago, when the pass question was in general consideration, a special action regarding ticket agents was taken. In the new agreement for the coming year one of the provisions is that all applications for passes from ticket agents of other roads must be made through the general manager or general passenger agents, or other general officers of the road by which the applicant is employed, or must be indorsed by one of them. Further provision relates to a ticket agent issuing transportation to a ticket agent of another line without such application or indorsement by the general officer of the applicant's road will be subject to a fine of \$100 for each offense.

RESULTS IN FAILURE.

Test of Gathmann Gun and Shell at Sandy Hook.

New York, Nov. 15.—The test of the Gathmann gun and shell took place this morning at the proving ground at Sandy Hook and resulted in a failure. The shell did no material damage to the target. The failure of Gathmann's theory is ascribed by him to an imperfect detonation of the fuse in the interior of the shell. Army officers, however, claim they have found convincing proof to the contrary, and say everything in connection with the test was as perfect as it was possible to make it in accordance with the inventor's ideas.

The board has decided to give a second trial, to which the inventor is entitled, tomorrow morning. The second Gathmann shell shot from the test will be overhauled in the presence of Gathmann for the purpose of guarding against imperfections.

On the other hand a test made later in the day with a regulation gun was a complete success.

BOERS ENGAGE BRITISH.

Lord Kitchener Reports Engagements in Which Officers Are Killed.

London, Nov. 15.—A dispatch from Lord Kitchener, dated at Pretoria today, says a strong patrol of yeomanry, while reconnoitering Nov. 3 at Brakspruit, near Zerst in the transvaal colony 140 miles west of Pretoria, was surrounded by 200 Boers and lost six killed and sixteen wounded. Some troopers were captured but were subsequently released.

The rear column of Colonel Byrnes' column was attacked near Heilbron, Orange River Colony, Nov. 14, by 400 Boers, said to be under the command of General Dewet. After two hours of fighting the Boers retired, leaving eight dead. Of Colonel Byrnes' column Lieutenant Hughes and one sergeant were killed, while three officers and nine men were wounded.

BIG MICHIGAN FIRE.

Business Portion of Village of West Branch Swept by Flames.

West Branch, Mich., Nov. 15.—The business portion of this place was swept by fire early today and for a time the destruction of the village was threatened. The West Branch Hotel, the Commercial Hotel, Norton's Hotel, the A. R. Hall, two groceries, two residences, a grocery store and a photograph gallery were destroyed. The losses will reach \$20,000. The town is without a hotel.

Kansas City, Nov. 15.—Fire in the evening building of Goddard Parking establishment destroyed the building with a large stock of canned meats. The loss is estimated at \$110,000.

SUFFERING GREAT HARDSHIPS.

Husband of Madam Tsilka Gets Letter from His Wife.

Berlin, Nov. 16.—The Lokai Anzeiger today publishes a dispatch from Sofia to the effect that the husband of Madam Tsilka has received a letter from his wife in which she says Miss Stone and herself are still alive but are suffering great hardships. Madam Tsilka expresses the belief that they will both be released shortly at, or in the vicinity of Salonika. The letter is undated.

Sofia, Nov. 15.—Consul General Dickinson, at Constantinople, has handed the foreign minister here his credentials as diplomatic agent of the United States to Bulgaria.

IRISH HAVING ROWS.

Parliamentary Contests in Galway Marked by Succession of Fights.

Dublin, Nov. 15.—The parliamentary contest in Galway is being marked by a succession of fights and it takes the constabulary of the neighborhood to keep the contestants within bounds. Horace Plunkett, a unionist and a former member of parliament for the south division of Dublin county, is opposing Colonel Arthur Lynch, who served with the Second Irish brigade on the Boer side. Sticks, stones, bricks and bottles were thrown in the daily encounters. The police were obliged on several occasions to charge with batons to disperse the mobs. There is a long list of injured.

TRIES TO KILL WIFE.

Wisconsin Man Makes Ineffectual Attempt at Murder but Kills Self.

Eau Claire, Wis., Nov. 15.—Oscar Israel, thirty-five years old, tonight shot his wife with a Winchester rifle and then fired a bullet through his own head. The wife will recover but the husband died immediately.

WHERE THERE'S SMOKE

There's fire, the saying runs, and so as a general rule the saying holds true. The fire is unseen, hidden, but the ascending smoke makes its presence undoubted.

Similarly you can argue from eruptions of the skin to corrupt blood. You can't see the blood, but the pimples, boils, etc., which mar the skin surely indicate impure blood.

For this reason the medicine which cures these surface blemishes must cure them through the blood. Dr. Pierce's Golden Medical Discovery purifies the blood, removes the waste which corrupts it, and thus cures diseases which originate in impure blood, such as boils, pimples, salt-rheum, tetter, eczema, sores, and other painful and disfiguring diseases.

Medical Discovery also increases the activity of the blood-making glands, thus increasing the supply of pure blood, rich in the red corpuscles of health.

It gives me much pleasure to testify to the merits of Dr. Pierce's Golden Medical Discovery. I was afflicted with a skin disease which was very obstinate and would not yield to any other medicine.

Accept no substitute for Golden Medical Discovery. There is nothing just as good for diseases of the stomach, blood, and lungs.

Dr. Pierce's Pleasant Pellets regulate the bowels.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Subscription Rates: Per month, by carrier \$3.00; Per year, by mail \$30.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The October production of pig iron in the United States went beyond any previous record for a single month.

Notwithstanding which, we hear no alarmist prattle about the danger of over-production of iron, or the likelihood of an accumulation of stocks that will affect the market.

It required five war ships to secure for France what the United States obtained with one, boasting shouts an exchange in commenting on the procedure adopted by each country to collect a claim against Turkey.

It is announced that the United States Steel corporation has its entire output of steel rails for 1902 covered by contracts, and that roads which have not yet placed their rail orders for summer delivery will find difficulty in closing contracts save for small lots.

There is to be no extra session of the legislature. Governor Bliss says he has no intention of calling one, and sees no occasion for assembling the legislature in extraordinary session at this time.

I have had numerous requests to convene the legislature and they came from different parts of the state. There is a sentiment in favor of the Normal school and the Ward-Lowry bills which I vetoed for reasons that seemed good to me.

It would certainly be bad business policy to call an extra session in order to give the legislature a chance to pass bills that the governor would feel it his duty to veto.

"An Ann Arbor clergyman 'spoke his mind'—and incidentally much truth—concerning the craze for football in our educational institutions in the course of a sermon delivered recently.

"It has come to this," declared he, "that the president of a college counts for little in comparison with the captain of its football team."

When the Republicans of Illinois elected Yates governor they flattered themselves with the belief that he would be an improvement on Tanner.

That is what is required by every organ of the body, for the proper performance of its functions. It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

W. P. Keeton, Woodstock, Ala., took Hood's Sarsaparilla to make his blood pure. He writes that he had not felt well for some time.

Years of suffering believed in a night. Itching piles yield at once to the curative properties of Doan's Ointment.

Modern Surgery Surpassed. "While suffering from piles," says G. F. Carter, Atlanta, Ga., "I got DeWitt's Witch Hazel Salve and was entirely cured."

state institution unless he is a Republican," declared Dr. Hirsch, in explaining why he resigned from the board of membership on which Yates appointed him.

MISPLACED SYMPATHY. Alluding to the proposal of "Father Boynton" of the Macabees, to have the membership of the order contribute enough to make up the \$60,000 defalcation of its unfaithful finance keeper, C. D. Thompson, the Grand Rapids Herald has this comment:

This is the kind of sentimentalism which breeds defaulter and embezzler. Carried into execution, it takes away the fear of the law, removes the sting of shame and makes the first impulse of those caught in wrongdoing to throw themselves on the mercy and compassion of their friends.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years."

M. L. Wiley of the Soo has been chosen as one of the three debaters to represent the literary department at the annual debate of the university.

A CARD. We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold.

Michigan. The storm of Thursday afternoon and night was the worst experienced here in years so early in November.

Tom Lacombe, who was lodged in the jail here early in the week, was given a hearing before a local justice Wednesday.

The search for the bodies of George W. and Albin and Emil and Albin Carlson, who were drowned in the lake here a week ago last Sunday, was continued all week.

One of the strangest and most remarkable accidents of this hunting season or any other year, occurred near Stephenson, Menominee county, one day this week.

Miss Kate Shanda, dining-room girl at the Stephenson hotel, Menominee, paid a fine of \$25 before Judge Osborn in that city one day this week.

BURNING IN MID-AIR IN SIGHT OF HUNDREDS

MAN AND WOMAN ON LIVE WIRE Ida Jantz, Looking at a Fire from a Roof, Falls Off and Hangs, Screaming in Agony, Across an Electric Wire

—Thomas H. Bell, After Releasing Her, Loses His Balance and Falls Upon the Same Wire —The Woman Dies; He is Saved.

Cleveland, Nov. 15.—A woman hanging in mid-air, screaming in agony, held the gaze of hundreds of horror-stricken people who had gathered near the Wright House on Ontario street.

Attracted by a slight fire in that vicinity, a number of employees and others got on the roof of the building to see the blaze. Ida Jantz was one of the number and, while looking over the coping, unthinkingly took hold of a live electric wire.

The shock from the heavily charged wire threw her writing, over the edge of the roof upon the wire and she hung there while the crowd below looked on, powerless to help.

School Director Thomas H. Bell, was near and saw the woman's terrible predicament. The only way he could reach her was by a window overlooking Ontario street, and to this he rushed.

He climbed out and up a tree escape till he was opposite the woman, who by this time was unable longer to cry out.

On a level with the roof, Mr. Bell reached out and, with great effort, grasped the woman by the arm and pulled her from the wire until she was within reach of those above who lifted her senseless form over the coping.

But, when the strain was over, Bell's foot slipped. To save himself from a frightful fall to the pavement he grasped wildly and fell across the same wire from which he had just rescued the woman.

The woman died but Mr. Bell was taken to the General Hospital, where the doctors found him suffering from a very severe nervous shock in addition to being frightfully burned.

Later he was removed to his home where he was confined for eleven months. During the first three months of his illness it was found necessary to resort to skin grafting in order to heal his wound.

His many friends responded and over three thousand pieces of skin were used to cover over the raw flesh. In speaking of his restoration to health, Mr. Bell said to an interviewer:

"My recovery from the dreadful shock, of course, was slow. I suffered untold tortures. My nervous system was a complete wreck; I had spells of dizziness, and when I attempted to walk, a numbness came over my whole body.

"I had been so at restful or natural and I always awoke tired out. My appetite was poor and at times I suffered from violent nervous headaches. The powerful electric shock had undermined my whole system. In spite of the doctor's care, I didn't seem to improve. I had been idle a whole year and grew anxious to return to my work, but my condition remained so bad that I was very much discouraged and feared I would never regain my health.

"I heard of a case similar to mine which Dr. Williams' Pink Pills for Pale People had cured. I determined to try this medicine. By the time I had taken half the second box I could notice a marked improvement. The headaches disappeared, my nerves became sturdier and I slept well. I took the pills for a month and after I resumed my work I continued till I was perfectly well. They certainly did wonders for me and I take pleasure in recommending them."

The above is a plain, straightforward statement of facts. The horrible incident occurred on the evening of June 17, 1895, and the story of it was published by the newspapers at the time. The sequel, which is known to many and is told in Mr. Bell's own words, cannot be doubted. He is well known in Cleveland, not only through his prominence in school matters, but as a hero—the man who risked his life in a vain attempt to save a woman from a terrible death.

Mr. Bell's accident was not one of the sort which falls to the lot of many people but the results that followed were the same, in kind, as the many nervous troubles with which thousands of persons are afflicted. Only in his case they were unusually severe. His nervous system was wrecked—almost beyond repair—and no medicine did him any good until he tried Dr. Williams' Pink Pills for Pale People. They cured him.

Those pills have become famous all over the world for their wonderful efficacy in cases of this kind. They have cured who the trouble was as severe as Mr. Bell's and they cure lesser nervous disorders without fail. Acting directly on the nerves and blood, they are a unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale man and sallow complexions and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent post-paid on receipt of price, fifty cents a box, or six boxes for two dollars and fifty cents (they are never sold in bulk or by the hundred) by addressing Dr. Williams' Medicine Company, Schenectady, N. Y. These pills are not a purgative and contain nothing which could injure the most delicate system.

TREASURY DEPARTMENT—OFFICE OF COMPTROLLER OF THE CURRENCY. Washington, D. C., October 29, 1901. Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that the MARQUETTE NATIONAL BANK, in the City of Marquette, in the County of Marquette and State of Michigan, is authorized to commence the business of banking as provided in Section 5119 of the Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of banking;

Now therefore, I, Wm. B. Rugely, Comptroller of the Currency, do hereby certify that the MARQUETTE NATIONAL BANK, in the City of Marquette, in the County of Marquette and State of Michigan, is authorized to commence the business of banking as provided in Section 5119 of the Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of banking; in testimony whereof, my hand and seal of office this twenty-ninth day of October, 1901.

WM. B. RUGELY, Comptroller of the Currency. Seal of the Comptroller of the Currency. No. 633. (117 SW)

Copper Country Department

SMALL-POX IN JAIL. Dreaded Disease Shows Up on Houghton County Prisoner.

Small-pox has broken out in the Houghton county jail and the institution is now under a strict quarantine. The discovery that the scourge existed in the bastille was made yesterday by Under Sheriff Beck and the victim is Fred Nordstrom, a prisoner serving a thirty day's sentence for disorderly conduct.

Nordstrom was brought from Calumet last Friday and when placed in the jail seemed to be in the best of health, although it developed later that he had been ill. Yesterday he took a bath and immediately afterward a rash showed up on his body. It was detected by the under sheriff, who called County Physician Matchette. The latter made an examination and stated that the patient had small-pox.

A quarantine was immediately established and the thirty-six prisoners confined in the jail were vaccinated. Sheriff Wills and Under Sheriff Beck were included in the quarantine but it is understood they will be allowed their liberty today, after being thoroughly fumigated and disinfected.

All of the prisoners have been placed temporarily in the upper portion of the jail and the lower portion will be thoroughly disinfected. The jail will be held under strict quarantine for at least two weeks and it is thought there is no danger of the disease spreading, especially as the one patient does not seem to have it in an aggravated form.

NEW LUMBER MILL. That of Calumet & Hecla Company is Nearly Finished.

The Calumet & Hecla company's new lumber mill at the head of Torch Lake is practically finished and will soon be ready for operation. The last of the machinery, which is of the latest and most improved pattern, is being installed and by the first of the year it is expected the plant will be running to its full capacity. The mill is built on the kind steel has been used in the construction of the frame work and the roof and concrete flooring has been put down. A branch track has been built to the mill, it is said that the mill will employ in the neighborhood of seventy-five men who will be taken from the company's employ at Calumet. Then the old mill at the mine will practically go out of commission.

The new mill will save the company much unnecessary labor and expense for the timber will not require as much handling at the new mill as at the old. The logs will be taken directly out of the water into the mill and then loaded on cars and shipped to the shafts direct. It is estimated that at present there are over 2,000,000 feet of logs at the head of the lake.

COUNTY AGENT BUSY. County Agent W. F. Miller, of Houghton, is kept exceedingly busy rounding up youngsters throughout the county, especially at Calumet, who make it miserable for some people by petty thievery and willful wrong doing. Several boys were arrested during the week and heavily fined in Calumet justice courts and it is thought it will have good effect in putting a stop to their antics. One young fellow, eighteen years old, has been sentenced to the industrial school for five years in order that he may become a good citizen.

COPPERDUM BREVIETIES. The copper country branch office of The Mining Journal is located in Room 3, second floor of the Dece Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

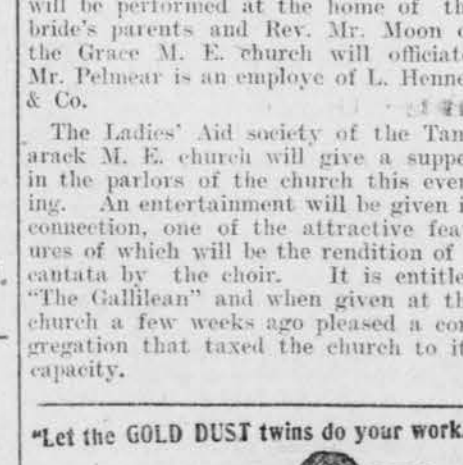

Mrs. John R. Dee of Houghton is ill with tonsillitis. Mr. and Mrs. Adolph Ruhl and Miss Turner, of Houghton, have returned from a Chicago visit.

The big vault for the Citizens' National bank of Houghton, is now being installed in the building now under construction. The progress on the structure is necessarily slow on account of the lack of stone cutters and the inclemency of the weather.

The marriage of William T. Pelmar of Houghton to Miss Lily Thomas, daughter of W. H. Thomas, Houghton, will take place Nov. 27. The ceremony will be performed at the home of the bride's parents and Rev. Mr. Moon of the Grace M. E. church will officiate. Mr. Pelmar is an employe of L. Hennessy & Co.

The Ladies' Aid society of the Tamarrack M. E. church will give a supper in the parlors of the church this evening. An entertainment will be given in connection, one of the attractive features of which will be the rendition of a cantata by the choir. It is entitled "The Gallilean" and when given at the church a few weeks ago pleased a congregation that taxed the church to its capacity.

"Let the GOLD DUST twins do your work."

Three times a day, 1005 times a year the GOLD DUST twins will make your dish-washing easy.

THE N. K. FAIRBANK COMPANY, Chicago

THE TRUE COPPER SITUATION. Immense Accumulation of the Metal Seems To Be a Myth.

[Copyright, 1901, by Horace J. Stevens.] The last shipments of copper by lake vessels are being made, and the season of navigation will end in a few days, as far as the forwarding of copper is concerned, as all the Lake smelters are located on the Portage Lake waterways, which are arms of Lake Superior, the ports of which are closed by ice several weeks before the last boated steamer drags her ice-encrusted tow down the length of Lake Superior, early in December. For three years past the Lake mines have shipped steadily by rail, starting immediately after the close of lake navigation, and continuing until April following. The winter promises to see similar rail shipments, beginning in December, despite the many published statements of an immense surplus of copper held by the Amalgamated company, or its sales agency, the United Metals Selling company.

By the way, this immense accumulation of copper stored? Who are the men who have seen it with their own eyes, or failing such, who and where are the men who have seen the men who have seen the copper? Two months ago the largest known accumulation of copper in the world was actually employed by the Amalgamated sales agency, in which it was stated that the Amalgamated company has accumulated 135,000,000 pounds of unsold copper. Who and where is Mr. Casey, and why did he philanthropically send his copper to every broker handling copper shares, and why was he "fired" if he was fired, and if he wasn't fired, why wasn't he, and where are the men who know Mr. Casey personally, and can make public statement that Mr. Casey is a real entity? And should there be those who can identify Casey, can they also affirm that he was actually employed by the Amalgamated company or the United Metals Selling company, and if so, in what capacity? And now that these questions have been asked, all sorts and conditions of men can think of a great variety of other questions to ask, but the most common is: "That surplus copper stored? That surplus, all unsuspected by everyone, until Mr. Casey irradiated the gloom by his remarkable circular in simulated type-writing, and ostensibly calculated for the copper consumers, but which found its way to all dealers in copper shares? That surplus suddenly discovered, was stated by the moister and retiring Casey to be 135,000,000 pounds, and now, by the aid of the press, it has swelled to a round two hundred million pounds. Two hundred million pounds of copper amounts to one hundred thousand tons, and that is twice the annual production of the Calumet & Hecla. It would load five thousand freight cars of twenty-ton capacity—thirty-five miles of solid freight train. On what siding between Yavapai county, Arizona, and Bound Brook, New Jersey, are there five thousand cars of copper, each loaded from public gaze? The copper is not in Houghton county. The smelters here are bare. It is not in Europe—the visible supply there is carefully watched, and is now the smallest for many years. Will the gentlemen who assured us that there was a domestic surplus of 65,000 to 100,000 tons of copper in this country please name the place or places where it is secreted?

The sad truth of the matter is that the average speculator is a lobster-pardon the impropriety of the term, but none other fits—and is puffed with great case by the speculator, who in a few weeks ago the speculative world was rock-sure that the Amalgamated Copper company had the metal situation so well in hand that it could never escape, and at present the average man interested in coppers is in trepidation lest the unfortunate Amalgamated company (which was able to pay only \$2,325,000 for its last quarterly dividend), should be forced to the wall some night while he is asleep. Perhaps the truth lies midway between the hot fit and the cold fit. Is it not possible that the Amalgamated company, not omnipotent last August, and that it is not altogether powerless today?

The Amalgamated people are old hands at the speculative game. They learned the business in Standard Oil, which was for many years a stock that kept its owners guessing—guessing whether they were coming millionaires or present paupers. The time chosen for the formation of the Amalgamated company was either the best or the worst of times, according to the point of view—the best of times for placing stock, because copper shares were booming and the public hot for speculation; the worst of times if the company was organized to secure permanent control of the best mines, because the metal was then selling so high that control of mines could be had only at top prices. Is it not possible that the Amalgamated people—the real power behind the company, not the owners of small lots of its shares—were playing a dual game—not a double game, as might be asserted by the losers, but a game with two distinct objects in view, one of which objects might be the domination of the copper market by the same interests, and the other object, the making of money by the rise and fall of the shares (as it is said money has been made by the same people in the rise and fall of Standard Oil shares)—is not this possible?

Thunder rarely comes from a clear sky, and clouds are seen before the rain falls. In the natural world, coming events cast their shadows before, but in the world of finance, the shadows are not to be darkest afterward. Why was there such a sudden change from apparent mastery of the situation to apparent loss of control? And, by the way, what are the Amalgamated people actually saying? Others are talking for them, but to just what have the prudent managers of the Amalgamated company committed themselves?

It is easier to ask questions than to answer them, and this letter is one of questions rather than answers. Its mission is to make people think—to cause those who have temporarily gone out of the thinking business to cease from taking everything second-hand. The questions about the copper surplus are pertinent. If it exists, where is it? After considerable search for my own information, I am unable to find but a small part of the alleged surplus. It is only fair that those who assure us of its existence should give a few detailed figures. There are many interested parties, and the confirmation of our worst fears by cold statistics would afford at least a melancholy satisfaction, akin to that of following the remains of a friend to their last resting place.

If the Amalgamated company has actually accumulated a surplus of 200,000,000 pounds, while holding the price of the metal at 17 cents, it has been guilty of a very gross imprudence, and one that must seriously impair the confidence of thinking men, not in the probability, but in the business judgment and common sense of its management. To hold its own copper to the value of \$35,000,000 while permitting its rivals to obtain the full benefit of the high price maintained by the Amalgamated would be supreme folly—yet this is what the majority of people seem to think has been done. If true, the action shows the Amalgamated management to be lacking in the rudiments of business sagacity, that is, unless the entire plan of operations of the Amalgamated was been akin to a bunco game, and this would scarcely be maintained by even the most critical. Wall street morality is a peculiar article, but there are limits beyond which even the boldest operators would not care to go. The Amalgamated, therefore, in its present attitude toward market prices, and derive both satisfaction and profit therefrom, is composed of men who could scarcely afford to engage in the gold-briek game, even were they disposed in that direction.

Let the men who have facts be heard from. There is a need of a clear sufficiency of guessing, and some of the guesswork has been very coarse.

LAKE LINDEN MLN IN LUCK. Hold Controlling Interest in a Rich Gold Property Out West.

The Montana Daily Record, published at Helena in that state, in its number of Monday, gives this account of the arrival there of Lake Linden men who are interested in a promising gold property in the vicinity, and of the outlook for the property. "With a twelve-foot vein of free-milling ore running \$12 a ton starting them in the face, five of the principal stockholders of the Columbia Gold Mining and Milling company, whose names are at York, have arrived from Lake Linden, Mich., for the purpose of personally inspecting the property preparatory to increasing the capacity of the stamp mill on the site of the mine. At present a ten-stamp mill is being operated, but if the new developments of the mine prove to be as represented, the board of directors will undoubtedly endeavor to induce the stockholders to install a new mill of perhaps thirty, possibly fifty stamps. A number of other improvements are contemplated.

"Messrs. Joseph Bosch, a wealthy brewer; J. H. Wilson, editor of the Natick News; C. L. Frederick, manager of the Columbia company, and Frank M. Keiser, all of Lake Linden, Mich., arrived in Helena last night and registered at the Grandon. These men are all heavy stockholders in the Columbia company and will today drive to the mine to personally inspect the workings with a view of making recommendations at the next meeting of the board of directors for such increase of capacity of the mill and other improvements as the recent development of the mine will justify.

"When the present ten-stamp mill was installed, the vein was narrow and the ore did not carry over \$1 per ton. Even on that basis the mine has been paying. Recently the vein widened to twelve feet, so it is claimed, and the capacity for handling the immense body of ore was not adequate. It was the good fortune of the Columbia company that brought the principal stockholders out from Michigan to see for themselves.

"Granting that the vein is twelve feet wide and continuous, the Columbia property will be the greatest in the country, for a free milling proposition with a body of ore that will run an average of \$10 a ton, is a gold mine that you read about. The average value of the ore mined from the great Homestake in the Black Hills is less than \$5 a ton. Of course it must be taken in consideration that the Homestake company has in its consolidated mills in the city of Lead about six hundred stamps pounding incessantly day and night.

"The first thing in the line of improvement that will be installed at the Columbia mines will be compressors for power drills, one of which will do the work of ten men.

"The Columbia company has a number of claims in the vicinity of York, but so far but one of the claims has been developed. Others have been prospected and have shown up well.

"The company is capitalized at 600,000 shares. Some of the stock is held by Helena people, but the bulk of it is held in and about Lake Linden, Mich.

Copper Gossip. The force of men who have been employed by the Centennial Mining company to ascertain the depth of the sandstone ledge from the surface on its lands located on the east shore of Torch Lake and from Lake Linden, and upon which the company expects to build a stamp mill next year, have finished work for the winter. The ledge was located in various places. It is very likely that the Centennial people will decide to put up their stamp mill there as the site is considered an excellent one.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver, and kidneys strong and active. Burdock Blood Bitters does it.

SURGICAL OPERATIONS. Many of Them Unnecessary. Mrs. Pinkham's Advice and Medicine Have Saved Many Women From the Surgeon's Knife.

Hospitals in our great cities are sad places to visit. Three-fourths of the patients lying on those snow-white beds are women and girls. Why should this be the case? Because they have neglected themselves.

Here is Proof, Undeniable Proof, That Many Operations May Be Avoided. "DEAR MRS. PINKHAM:—As I am a great sufferer of female trouble I thought I would write to you to see if you thought there was any positive help for me."

"DEAR MRS. PINKHAM:—When I wrote to you last fall in regard to my health, death would have been a welcome visitor to me, but I followed your advice and am now well.

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000 which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission.

Ishpeming and its Environs.

SKIISTS ON THE QUI VIVE.

Two Hills Have Been Prepared for Tournaments the Coming Winter.

All signs point to a lively season for the members of the Ishpeming Ski club. Last winter closed with a number of the ski enthusiasts of the city regretting that a start with the tournaments had not been made earlier in the season. There were two tournaments last winter, but it would seem from the way the members of the local organization are now talking that more than that number will be held during the coming winter months.

Within the last three or four weeks a couple of men have been employed by the club getting two hills in shape so that they will be ready for use on short notice after sufficient snow falls. One is at the bluff where the first tournament took place last winter, when the Minnesota riders were here. All the rocks have been removed from the course and in places where the surface was too rough the bumps have been cut down. The course to be used this season is a little to the north of the one used last year.

The other hill is a little to the south of the J. Shaft mine, a short distance from M. M. Duncan's residence. The underbrush and other obstacles have been removed and it is said that the hill is in fine trim for rapid riding and high jumping. Mr. Duncan gave the club permission to prepare the hill and will offer no objections to its being used for sliding purposes.

Posts have been placed along the sides of both hills. Ropes will be stretched from these to keep the spectators out of the riders' way. At the tournaments last winter the spectators got up so close to the track that some of the riders were nervous. It is the purpose of the club to keep all spectators outside the ropes this year.

The membership of the ski club is not as large as the officers would like to have it. There are about thirty active workers in the organization. The list will be increased this winter. President Carl Tellefsen and Secretary Albert Aas are now prepared to supply application blanks to all who desire them. It is the president's intention to call the members together soon for a discussion of plans for the winter's sport. If there is sufficient ground on the ground the first tournament will take place in January.

It is expected that there will be a ski tournament at Red Wing, Minn., this winter. When the riders and their friends from that city were here last winter they stated that they would surely arrange a tournament and invite the Ishpeming riders to compete for the prizes. The Minnesota men found a couple of the local riders pretty warm competitors and they are anxious to make better records against them than they did here last winter.

MOTHERS' MEETING.

The primary children of Miss B. W. Lacy's room at the Cleveland school issued invitations for a mother's meeting, which was held yesterday afternoon at 1:30 o'clock. Despite the heavy storm, nearly all the mothers of children attending the school were present. The usual program of work was followed till 3 o'clock, when the little ones were dismissed, after which Miss Lacy gave the mothers a very interesting talk on "The Relation of Parent to the School and Teacher." The talk was very much enjoyed by the ladies and all went away with the wish that they would have another mothers' meeting at a near date.

Unimpeachable—If you were to see the unequalled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would uphold yourself for so long delaying to take this effective medicine for that blood disease from which you are suffering. 6.

A PHYSICIAN TESTIFIES.

"I have taken Kodol Dyspepsia Cure and never used anything that did me the good that did," says County Physician Geo. W. Scroggs, Hall county, Ga. "As a physician I have prescribed it with the best results." If food remains undigested in your stomach it decays. To prevent this by dieting means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer neither dyspepsia nor starvation. Stafford Drug Co.; H. N. Meloche, Ishpeming.

Eradicate Your Terrors With Cascarets. Candy Cathartic, cure constipation forever. Use, See. H. C. C. Co. mail, druggists refund money.

DEER HUNTER KILLED.

Matt Britz of Lathrop Was Shot Yesterday by George Miller.

The first fatality among the deer hunters of Marquette county occurred yesterday afternoon at Lathrop, when Matt Britz, a well known resident of that place, was shot by George Miller, a lad fifteen years of age. A message came over the wire from the operator at Lathrop a few minutes after news of the fatality was reported at the location, stating that Britz died instantly, the bullet having passed through his body.

Young Miller and two men living at the location went into the woods early in the morning. Britz is a jobber in the town and at the time the party started for the woods he had no intention of going out for deer. It became so stormy later in the day that he concluded he could not do much at his work, so he took his gun and went back from the location about three miles. It appears that Miller and his companions did not know Britz was out. The boy fired two shots, but only one took effect. Britz was some distance from the lad, who mistook him for a deer. It was snowing at the time and the boy could not tell just what he had fired at. Britz and the Miller family have lived neighbors for years. Young Miller is a son of a saloon keeper at Lathrop.

Britz was quite well known in Ishpeming and Negaunee, as he did business with several persons in both towns. He was about forty years of age and married, and is survived by his widow, but leaves no children.

TWO DEATHS YESTERDAY.

Peter Fish and Mrs. John O'Brien, Both Old Residents, Pass Away.

Mrs. John O'Brien, who has lived at the Winthrop location for a number of years past, died Thursday night about 10:30 o'clock. She had been ailing quite a while and her death was expected.

Deceased was fifty years of age. She is survived by her husband and three adult daughters. The funeral will take place Monday morning at 9 o'clock from St. John's church.

Peter Fish, a pioneer resident of the city, died yesterday morning at an early hour at his home on West Johnson street. Old age was the cause of death. He had passed his eighty-fifth birthday. His wife is still alive and is just two years younger than her late husband. The funeral will take place tomorrow afternoon from St. Joseph's church.

THAT THROBBING HEADACHE would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by Stafford, druggist.

ISHPEMING IN BRIEF.

John H. Curnow of Vuleau did business in the city yesterday.

The carpenters did not work at Grace church yesterday on account of the storm.

R. C. Mann, auditor of the Cleveland-Cliffs iron company, is in the city for a few days.

Mrs. J. L. Bradford entertained a few friends last evening at her home on North Fourth street.

Louis Trombley is quite ill at the home of his parents on North First street. The lad is suffering from pneumonia.

George A. Newett got in from the woods south of Ishpeming yesterday afternoon. He brought in two deer.

Lumber for the Mortley block is being unloaded at the site. The contractor will put several men to work next week.

Will Donette, an old resident of this city, is dangerously ill at his home at the Barnum location. He is suffering from diabetes.

The new rack Harold Trosig is building for the Ishpeming fire department's hook and ladder sleigh will soon be ready for use.

Captain John Sineox and wife, who spent the greater part of the week in the city, returned to their home at Bessemer yesterday.

The members of the Finnish Gymnasium club will give a hop this evening at the Anderson hall. The City Band orchestra will furnish the music.

D. J. Slaney, bookkeeper at the Lake Superior Iron company's office, met with quite an unusual accident Thursday evening. While in the kitchen of his home a coffee can filled with the "hot stuff" was in some manner overturned

and the contents spilled over his right foot.

The sidewalk plow was in use the greater part of yesterday and the snow was removed from all the principal walks of the city during the day.

Tommy Richards, who has been employed at Child's Art gallery for some months past, has given up the position and accepted a place in the main office of the Cleveland-Cliffs company.

Marshal Farm took young Penola to the county jail yesterday. He will leave Monday in charge of the boy on his journey to the reform institution at Lansing.

M. H. Crocker has been confined to his home by an attack of rheumatism the past few days. He expects to be able to get down to his office the early part of next week.

The ground being prepared at the East New York mine for the reception of ore during the winter season will soon be ready for use. The men and teams working there will have the dump down to the required level within the next few days.

H. J. Wessinger, mechanical engineer of the United States Steel corporation, was in the city yesterday, coming down from Houghton on the morning train. He was here looking over the boilers in the different engine houses at the concern's mining plants in this city and Negaunee.

A little boy six years of age brought a unique picture to his teacher in one of the schools yesterday. It represented the Ishpeming and Escanaba football teams on the gridiron. One part of the card showed the visitors as they stood between the goal posts when the Ishpeming were kicking goal. The other represented the Escanabas piled up in a heap and an Ishpeming player making for their goal with the ball. Considering the age of the tot the work was creditable to the lad's talent. The little chap witnessed the game and got his inspiration from what he saw that afternoon.

Where to Stop When in Detroit.

Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

Poor Indeed

are those weighed down by mental depression. Men rise in this world through buoyant nerve force. The loss of this force daily drags down to failure some of the world's brightest minds. Such a condition is commonly known as Nervous Debility. When you lose self-confidence and feel your strength, energy and nerve force are slipping away, it is high time you seek sensible aid. You prefer health and success to misery and failure.

Sexine Pills

have no equal as a nerve restorer. A couple of boxes will dispel that heavy feeling the unnatural weakness disappears and replaces vigor with new force and vigor of body and brain. Six boxes will cure any ordinary case of nervous debility. If not, you get your money back. \$1.00 per box; 6 for \$5.00, mailed in plain package. Book free.

DEATH WAS ACCIDENTAL.

Coroner's Jur: Finds Oliver Iron Co. Not to Blame for John Lasko's Death.

After hearing the testimony of several witnesses in the examination in the case of John Lasko, the miner killed Wednesday night at the Blue mine, the coroner's jury rendered a verdict of accidental death, exonerating the company from all blame.

It appears Lasko and his partner had fired two holes in the drift where they were employed. Within a few minutes after the holes went off they returned to the drift. The place was still full of smoke and they were unable to see what condition the timbering and the ground was in. Lasko was the first to enter. As he went in some of the timber fell and caught him. Some dirt then came down and covered his body. His partner was not more than five or six feet distant, but could render the unfortunate man no assistance. In fact he thought more of the ground would come away and catch him also, so he made a hasty retreat.

Lasko was about thirty-five years of age. He was a good miner and was well liked by all who knew him. The funeral will take place tomorrow afternoon from the Finnish Lutheran church.

IMPROVING BROODER HOUSE.

Eldridge Barabee is constantly improving his henery here. At present he is arranging for the installation of a heating plant at his brooder house. This is about sixty feet in length and when the plant is in position it will be thoroughly equipped in every way. Mr. Barabee has seven buildings in use at his place. He is doing a good business, and he reports that he is unable to supply the demand for fresh eggs though he has in the henery about 1,700 hens. He sold a great many chickens during the past year. Many local people purchased their eggs and chickens from him.

FOOTBALL TODAY.

Despite the fact that considerable snow came down yesterday the Negaunee and Marquette school teams will meet on the gridiron this afternoon at Union park. B. O. Greening, who is managing the local team, was at the park yesterday afternoon and he is satisfied with the condition of the grounds. He reports that there is some snow in places, but not enough piled up in drifts to interfere with the contest being pulled off as advertised. The game will take place at 2:30 o'clock and the admission will be twenty-five cents.

GAVE THEIR PICTURES.

The four Negaunee girls—Mabel Jackson, Louise Tourville, Grace and Annie Murray—who spent a few days in the woods near Saults on a hunting expedition are receiving no little attention from the newspapers of the state. One day this week the Detroit Journal published the pictures of the girls. Although the young ladies did not shoot a deer they have no reason to blush for their appearance in the paper. It would indeed be hard to find a better looking quartet of young ladies.

WILL EXPLORE AT THE PLATT.

Cole & McDonald, the diamond drill contractors, are preparing to put a drill in operation at the Platt mine on the Cascade range. Equipment necessary to get the work started was taken to the mine yesterday, it having arrived here the previous day. Cole & McDonald have had a drill in operation at the Barabee mine for some weeks past.

Steps the Cough and Works Off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cts.

Diphtheria relieved in twenty minutes. Almost instantaneous. Dr. Thomas' Electric Oil. At any drug store.

GET YOUR STORM SASH.

If you intend to put on storm windows and you have not yet placed your order for them consult Andrew Lindquist. He makes a specialty of storm sash and he can furnish them at reasonable prices. Many orders are coming in. Get yours in right away, as now is the time to have them put on. Sash of any size or style provided on short notice. (11-9-1w)

THE SNOW STORM.

Street Car Employees Labored Under Difficulties Yesterday.

Old residents of Negaunee are unable to recall the time when a worse snow storm than that which prevailed for twenty-four hours prior to yesterday noon occurred here at this time of the year. In places the snow drifted from two to four feet, while at other points the wind took it away, leaving the ground bare and unfit for sleighing.

The railroad men had all they could do to bring the passenger and freight trains through on time. A few of the freights were delayed somewhat. The yard men did not relish their work about the ore cars and shipments were retarded on account of the storm.

The employees of the street car line were unable to run the cars on schedule time. The snow piled up in drifts at points along the route and extra men were put on to shovel it from the track. At times the cars would be stalled for some minutes. The cars were out as early as usual but the first trip over the line was made with no little difficulty. The snow was wet and heavy and it stuck to the rails. The plow was not brought into requisition.

The city plow was out at an early hour and most of the walks were cleared when the business men got out. Such service as that on the part of the street commissioner is very much appreciated by those living away from the business district.

The dealers in snow shovels did a good business. The walks in the business district contained considerable snow and no little shoveling was necessary to make a good passage. The north side of Iron street was in very bad condition. As a rule more snow lodges there than on the opposite side of the street.

There is very good sleighing in all parts of the city and sleighs have been substituted for wagons. It is said that there are a number of bare spots on the road between here and Ishpeming, making the sleighing very poor.

ASTOUNDING DISCOVERY.

From Coopersville, Mich., comes word of a wonderful discovery of a pleasant tasting liquid that when used before retiring by any one troubled with a bad cough always ensures a good night's rest. "It will soon cure the cough too," writes Mrs. S. Himelburger, "for three generations of our family have used Dr. King's New Discovery for Consumption and Colds. It's an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles 50c and \$1.00 at Stafford's. Trial bottles free.

LOCAL LACONICS.

A child of Leonard Mateson, residing at Swanzy, died yesterday.

Alexander Maitland got home yesterday morning from a business trip down the line.

Superintendent Orr Schultz of the Negaunee schools did business at Marquette yesterday.

Members of the Negaunee Literary society are planning on giving an entertainment soon, possibly on the evening of the 23rd inst.

The workmen employed in that part of the Blue mine where John Lasko met his death Wednesday night have taken a layoff until after the funeral.

Carl Kirkpatrick came up from Escanaba Thursday evening. He left yesterday for the camp where C. L. Sporley and others are spending a few days.

Dealers who handle rubbers did a good business in that line yesterday. Many who had not previously worn rubbers found the snow too damp to go longer without them.

The work of laying the new pipe to the Chicago & Northwestern Railway company's water tank was completed Thursday. The workmen had some difficulty digging through the clinders near the old furnace site.

The funeral of John Lasko, who was killed at the Quince mine Wednesday, will be held from the Finnish church tomorrow afternoon under direction of the Finnish Temperance society, of which the deceased was a member.

Reserved seat tickets for Camilla Urso's concert at the high school auditorium, Ishpeming, next Monday evening, are on sale at Kirkwood & O'Donoghue's drug store. A section of the chart has been left there and all the

seats put aside for Negaunee people are desirable. A number here will attend the concert.

The employees of the Negaunee mine will be held today for last month's work. The workmen at the Regent group will get their money on Wednesday next. The Cambria & Lillie will probably pay off on Monday or Tuesday.

A regular meeting of the local court of the Catholic Order of Foresters will be held tomorrow afternoon at 1:30 o'clock. It is the wish of the officers that a large number of the members attend. The question of providing entertainment at the meetings during the winter season will be considered.

The construction work at the Shea block is moving along very satisfactorily despite the bad weather of the past week. The lathers have started work but the plasterers will not do anything until the building is entirely enclosed and heated. The front has not yet arrived and it may be some time before it will be in position.

SPECIAL SALE.

Of all ladies' trimmed hats, commencing Friday, Nov. 15, and continuing for two weeks, at Mrs. M. J. Arland's. Don't miss this chance. (11-16-1d)

THE CHILDREN'S FRIEND.

For coughs, croup, bronchitis, grip and other winter complaints One Minute Cough Cure never fails. Pleasant to the taste and perfectly safe. C. B. George, Winchester, Ky.: "Our little girl was attacked with croup one night and so hoarse she could hardly speak. We gave her a few doses of One Minute Cough Cure. It relieved her immediately. When she awoke next morning she had no signs of hoarseness or croup." Stafford Drug Co.; H. N. Meloche, Ishpeming.

THROUGH SLEEPING CAR SERVICE.

Beginning Sunday, Oct. 13, a through sleeping car will be run between Marquette and Milwaukee via the D. S. S. & A. and C. M. & St. P. railways. Chicago passengers can transfer to the Chicago car at Republic after the car is attached to the "St. Paul" train, thus avoiding the transfer across the station platform. (10-12-1f)

Omega Oil

Hundreds of thousands of people have seen this picture of the Omega Oil Boy and Geese,

and wondered what it had to do with Omega Oil. It has nothing at all to do with it. It is just a picture to attract attention and cause people to talk about Omega Oil. Its purpose is the same as that of a Salvation Army girl when she beats a drum. Beating a drum attracts a crowd to hear a sermon. The Boy and Geese attract a crowd to hear what a good liniment Omega Oil is for aches and pains of every nature in the arms, legs, back, knees, shoulders and feet. If just plain advertising were used, not nearly so many people would have their attention attracted to this good Omega Oil.

To Gain "INDEPENDENCE" you must have "GOLD COIN."

SECURE BOTH BY BUYING STOCK IN

THE COPPER ROCK GOLD MINING & MILLING CO.

now selling at 20 cents per share par value \$1.00 and NON-ASSESSABLE. The price will shortly be ADVANCED to 30 CENTS per share. EXTRA! EXTRA! EXTRA!

THE SAVINGS BANK

HAS MADE AN EXTRA CUT IN PRICES.

We Realize that we have but 60 Days in which to Dispose of Our Stock,

thus giving us a limited time to clear our shelves and counters of all merchandise. It is very evident that we must hustle and consume these 60 days to the best possible advantage. No inducement could be more tempting than this EXTRA CUT IN PRICES, which means that you buy good desirable fall merchandise much less than actual cost. We still have thousands of dollars worth of goods left and you'll find many of our departments complete. Should we be out of such articles as you desire we will gladly secure them for you at a small additional cost to cover mail or express charges. You will readily understand our reasons for

SLAUGHTERING GOODS THIS WAY.

WE MUST POSITIVELY VACATE THE STORE BY JANUARY 1ST, 1902.

BIG BOAT ASHORE

SMOKE TOW BARGE SNEATON A WRECK NEAR AU TRAIN.

PARTED FROM HER STEAMER.

DRIVEN INTO SHALLOW WATER BY BLINDING BLIZZARD.

Life Saving Crew Goes to Scene by Special Train, but Sailors Decide to Stick by the Ship—Loss Is Very Heavy.

The life saving crew had a thrilling run by special train yesterday to Rock River station, around the bay from here, bound on a mission of the rescue of sailors reported to be in grave peril but who, on the scene being reached, were found to be "very comfortable, thank you," and who, although in a somewhat hazardous position, declined the services of "Cap" Cleary and his gallant men.

Big Ship Terribly Pounded.

Early yesterday morning the big steel tow barge John Smeaton, after having parted from her steamer during the blinding blizzard which lashed the lake to fury, ran ashore at a point between Au Train island and the mainland. She first struck the bottom about a quarter of a mile from land, but the sea was so heavy and the wind so strong that the vessel was pounded and driven until it finally ended up hardfast in six feet of water and about a hundred feet from shore. It seems a wonder that the craft held to pieces, but as it is, it is badly damaged and if ever released, it will not likely be this year.

The wreck as it lays presents a rather sorry looking sight. The boat is bulged up in the center, and it is very evident that the bottom suffered severely from the terrible pounding it received while the craft was being driven shoreward. The Smeaton lies on a sandstone bottom at a point about a mile and a half from Rock river and about five miles northwest of Au Train; and it is the opinion of persons who visited the scene yesterday that in order to ever get the craft out in deep water again a relaunching will be necessary.

Reported Going to Pieces.

Captain Cleary was first advised of the wreck at 4 o'clock in the morning, a telephone message conveying the information, though at the time the identity of the ship was not known. Later, about 12 o'clock, a request for the services of the crew came from Au Train, from which place it looked as though the stranded vessel was rapidly going to pieces. Arrangements were at once made with the South Shore officials, and a special train to carry the surfmen and their outfit was secured. The lifeboat and cart and other paraphernalia were loaded onto two flat cars, and a coach was provided for the men, a representative of The Mining Journal accompanying the expedition.

The special left here about ten minutes after one, and a rapid run to Rock River was made, the train arriving there shortly after two. The boat was loaded onto the cart and the journey to the lake shore, distant about a mile and a half, was made by wagon road. Arriving at the scene it was at once seen that, although the vessel was in bad plight, it was in no immediate danger of breaking up. However, preparations were made for the launching of the surf boat, but this the sailors signalled was not necessary—they had decided to stick to the ship despite the fact that spray was continually washing over it, that it was snowing and blowing very hard and that the lake was rolling high.

The Smeaton is lying broadside to the shore and virtually forms a breakwater, the space between the boat and the land being comparatively calm so that if the worst comes, and not too suddenly, the mariners would not have great difficulty in launching their boats and reaching terra firma. This being the case, Captain Cleary acted in accordance with the sailors' decision and the life-savers soon after left the scene, arriving home on the special at 5 o'clock in the evening.

Was Bound Up Light.

The surf was roaring so loudly that it was impossible to make out what the men on board the Smeaton were shouting in answer to questions from shore, and because of that reason no details of the parting of the tow line could be ascertained. It is known, however, that the barge passed the Soo last Monday, bound up light, in tow of the steamer Harvard. Evidently the boats had laid up for shelter at some point and had again started out, with the disastrous result chronicled above.

The John Smeaton was built at West Superior in 1899, and is one of the United States Steel corporation fleet. It is one of the largest boats on the lakes, being 458 feet in length, with a fifty-foot beam and a depth of twenty-five feet. It measures 5,049 gross tonnage, and will carry close to 6,500 tons of ore. The vessel is classed at A1. The Harvard is also a big craft, being 461 feet in length and of 5,054 gross tonnage.

During the day reports of all kinds were in circulation as to the craft which had gone aground, one rumor being that a steamer and two consortships had been wrecked and a number of persons had perished. For this reason great interest was taken in all reports from the nearest station, especially by marine men, and much relief was felt when it was learned the first stories had been much exaggerated.

BIG LOSS TO VESSELS.

Weatherbound Fleet Out Considerable Because of the Heavy Blow.

After raging fiercely all night and all day, the snow storm which set in on Thursday quieted down somewhat yesterday afternoon, although the wind continued to blow quite strong from the northwest, accompanied by some snow, and increasing gales during the night were predicted. At times, especially during the early hours of yesterday, the storm took on the appearance of a blizzard and the snow was driven with stinging force. At many points about town big drifts were piled up as a result of the wintry visitation, but the street cars were able to stick close to their schedule and were not badly inconvenienced. Practically no trouble was had by the South Shore road, and the trains came in on time.

No attempt to go out was made by any of the big fleet of boats sheltered in the harbor, the sea being too rough for the best of the craft, while the weather bureau reported other gales heading this way. Some of the vessels have been in the harbor for five days, waiting for the lake to calm down, and the delay, figuring in the carrying charges and wages, will according to a lake captain amount to several thousand dollars for the boats in this port alone.

DEER PLENTIFUL THERE.

One Party Has So Far Bagged Thirteen Near Nestoria.

Albert Wallace, who came down yesterday from Nestoria, near which place the party of which he is a member is hunting, reports deer very plentiful in that vicinity. So far the party has bagged thirteen of the animals, almost the legal quota for each of the men, and an early breakup is planned. The hunting has been done within two miles of the station. One of the members of the party is Rev. Mr. Howe, aged seventy-two, a Methodist divine of Mackinac City. With regard to the wolf which was killed by Mr. Wallace and associates, the fact seven bullets were planted in its body shows the party possesses some good marksmen. The animal was over a thousand feet distant, on the brow of a hill, and not one of the bullets driven by the black powder figured in the killing, the smokeless doing the business. Several foxes have been seen by the party since it went into camp on the first day of the hunting season.

Notes of the Chase.

N. M. Kaufman, who is in camp near Onota, shipped a deer up from that station yesterday. It was a fine buck and was shot by Mr. Kaufman on Thursday. George C. Higbee is also among the fortunate Marquette nimrods. He has so far bagged two deer near his camp at Whitefish.

Henry Duquette has killed two deer near Whitefish. They came up yesterday, Mr. Duquette accompanying them.

County Clerk Ross has received a hundred additional licenses from the secretary of state and will probably have enough now. In last season's output, if not, he has the promise of more. With the number issued yesterday, about fourteen hundred permits have been taken out.

SUNDAY TRAIN DISCONTINUED.

Faster Service to Be Provided Between Marquette and Duluth.

Commencing next Sunday, the 17th, the South Shore train service will be operated on the winter schedule. The only important changes from the present time card affecting this end of the line will be: First, the discontinuance of the Sunday train which has been run between Marquette and Michigan Lake during the warmer months, and, second, the inauguration of a faster schedule for the train leaving here at 8:20 in the morning for the head of the lakes. This faster service will bring passengers into West Superior at seven in the evening and at Duluth fifteen minutes later, or at 7:15 o'clock. This is forty minutes earlier than the present time of arrival at those two cities.

GREAT LUCK OF AN EDITOR.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes Editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25c. at Stafford's.

\$1,000 will be paid to any one who produces a good an all-round life savor as Rocky Mountain Tea made by Madison Medicine Co. 35c. Stafford Drug Co.

A "hen party" tonight at Graham's, 412 South Front street. (11-16-14)

GOIN FOR SCHOOL

\$25,538 NOW TO BE DISBURSED IN MARQUETTE COUNTY.

IS SHARE OF STATE FUND

APPORTIONMENT THE LARGEST IN MICHIGAN'S HISTORY.

For Each Child of School Age \$2 Is Awarded and This City Gets \$5,688, Isbeping \$8,338 and Negaunee \$4,252—Official Notice.

Over twenty-five thousand dollars—two dollars per capita—are to be disbursed among the schools of Marquette county this fall. The money will come from the primary school interest fund, and is the largest apportionment ever made.

The available funds are divided among the various counties of the state twice a year, in May and November, the apportionment being made by the auditor general and the state superintendent of instruction on the basis of the number of children attending school. Last May, 40 cents per capita was the basis of the division, and Marquette county received as its share \$5,107.00, making, with the payment now at hand, a total of \$30,645.00 for the present year. This is an increase of \$5,577.10 over the amount awarded this county last year, the comparative figures being:

1900	Capita	Children	Apportionment.
May	\$.50	12,404	\$ 6,202.00
November	1.65	12,404	20,466.50
Total			\$26,668.50
1901			
May	\$.40	12,769	\$ 5,107.00
November	2.00	12,769	25,538.00
Total			\$30,645.00

How It Is Divided.

The amount of the funds now to be divided to which each township and city in the county is entitled is given as follows in a communication from State Superintendent Deios Fall to County Clerk Ross:

	Children	Amount
Champion	611	\$1,222
Chocoma	247	494
Ely	126	252
Forsyth	167	334
Humboldt	65	130
Isbeping township	91	182
Isbeping City	4,169	8,338
Marquette township	57	114
Marquette City	2,844	5,688
Michigan	368	736
Negaunee township	16	32
Negaunee City	2,126	4,252
Republic	82	164
Richmond	181	362
Sands	70	140
Skandia	123	246
Tilden	323	646
Turin	39	78
West Branch	103	206
Total	12,769	\$25,538

As far as the state as a whole is concerned, a total of \$1,441,248 is to be distributed among the various counties, the total number of children of school age, between five and twenty years, being 720,924. The upper peninsula apportionment is as follows:

	Children	Amount.
Alger	1,448	\$ 2,896
Baraga	1,480	2,960
Chippewa	5,978	11,956
Delta	6,971	13,942
Dickinson	5,719	11,438
Gogebic	4,930	9,860
Houghton	20,516	41,032
Iron	2,264	4,528
Keweenaw	849	1,698
Lapeer	703	1,406
Mackinac	2,410	4,820
Marquette	12,769	25,538
Menominee	9,186	18,372
Ontonagon	1,559	3,118
Schoolcraft	2,098	4,196

Whence Comes the Money.

The fund from which the money is disbursed to the schools is kept up by the proceeds from the sales of all lands that have been granted by the United States to the state for educational purposes, and the proceeds of all lands or other property given by individuals or appropriated by the state for like purposes. The fund is a perpetual fund, the interest and income of which, together with the rents of all such lands as may remain unsold, are appropriated and applied exclusively to the support of the primary schools. In addition, all lands the titles to which shall fall from a defect of heirs, escheat to the state and the interest on the clear proceeds from the sales thereof go to swell the school money.

The primary school fund is separate and distinct from the fund from the proceeds of which the school libraries are supported. Into this last fund go all fines assessed and collected in the several townships and counties for any breach of the penal laws, and the more lawlessness, the larger is the apportionment.

PRESENTS TO CUSTOMERS.

On New Year's day I will give the following prizes to my customers: First prize, a 810 meerschaum pipe; second prize, a \$4.50 amber cigar holder; third prize, box of 84 cigars; fourth prize, a \$3.75 briar pipe; fifth prize, a five-pound box of candy, valued at \$3. One ticket free with each ten-cent purchase. (11-15-14) FRED DONCKERS.

LUNCHES FOR HUNTERS.

A nice lunch made up of sandwiches, doughnuts, pies and spice cake, can always be got at Hopper's bakery to take with you on hunting trips. (11-7-14)

"Hen Party"

Tonight at Graham's, Mgr., 412 S. Front street. (11-16-14)

UNEQUALED VALUES IN SILKS THIS WEEK

AT

GRABOWER'S

THREE FLOORS; 125 ft. Each Floor

THREE DAYS OF SILK SELLING,

THURSDAY, FRIDAY AND SATURDAY.

We will sell 300 yards of Taffetta Silks in all desirable shades for 48c a yard. These goods are usually retailed for 85c and \$1.00 per yard. We will also sell a lot of Black Taffetta at a very low price.

Do Your Children Wear Nazareth Waists?

It's an underwaist we recommend because we know it's the best, most practical and satisfactory underwaist made for Boys and Girls.

Knitted—for elasticity, for growth, for comfort to the growing child. Taped over shoulder—for strength, for supporting skirts or trousers, for resistance to strains.

Buttons—the kind you know are good—sewed on to stay. Isn't it a happy combination? All sizes too, boy or girl. Price, 25c

Thoroughly, Good Cotton Comforts.

Buying Cotton Comforts is risky business. It's mighty easy to make a mistake and get the cheap, no account, shoddy-filled apologies for bed clothing which soon wear in holes and become "bunchy," but we sell the "Snow Flake" and "Olympia" Cotton Comforts, which are made by the largest and best-known manufacturers of this class of goods. The filling is put in evenly and smoothly and so fastened that it will stay that way during the life of the covering.

AND THE COVERING! You never saw such a host of unique and attractive patterns in every conceivable color, combinations and effect.

PRICE: Well they're mighty modest. These examples will give you an idea of the entire stock.

Comforts at \$1.50, \$2.00, \$2.50, \$3.00 and \$4.00.

SHOES AND RUBBERS.
