A MODEL COAL YARD
It must be that gives every one complete
satisfaction from its supply. That is what
you get every time when you buy our well
screened coal. For domestic or business
purposes there is none superior to it. It
gives more heat to the ton than any coal
you can burn.

SEVEN ARE KILLED

FATAL WRECK OCCURS ON SANTA
FE RAILROAD.

CARS TAKE FIRE AND BURN

SCENE OF AWFUL CONFUSION FOL-
LOWS CRASH.

One Train Drawn by Two Engines and
Another by One Collied—Locome-
tives Piled Up in Mass of
Twisted Steel.

Los Angeles, Cal., Nov. 20.—A fatal
wreck has occurred on the Santa Fe one
mile west of Franconia, Ariz., and twenty
miles east of Needles, Cal. Seven
trainmen were killed and three passen-
gers and fourteen trainmen injured.
Numbers 3 and 4 respectively, crashed
together while running at full speed.
Train No. 4 was drawn by two engines
while the west bound train had but one.
The three engines were crushed and
blown to pieces by the explosion which
followed the collision. Both trains were
made of combustible cars, and while
they stood the terrific shock and pro-
tected the passengers to a great extent,
several cars took fire and burned. The
dining cars of both trains, one Pullman
and two composite cars were destroyed.

List of the Dead.

The dead are:
P. M. ELIGOTT, engineer of train No. 4.
P. E. GOLDSMITH, fireman of train
No. 3.
F. F. BARNHARDT, a barber, train
No. 3.
W. L. CASE, fireman, train No. 4.
SAM BROWN, waiter, train No. 3.
A. H. ARMITAGE, fireman, train No. 4.
The bodies of the latter three are miss-
ing.

Those Who Were Injured.

Among the injured trainmen are: Joe
Morso, conductor on train No. 4, badly
cut and scalded; R. R. Higgins, conduc-
tor on No. 3, badly cut and scalded; J.
E. Williams, engineer on No. 3, cut and
bruised; L. W. Fair, waiter on No. 3,
bruised; H. W. Webb, porter on No. 4,
scalded; Otto Barse, chief cook on No. 3,
badly injured; Tony Larson, sec-
ond cook on No. 3, head and legs badly
burned; Monte Morton, waiter on No. 3,
badly cut about head and body, bruised;
F. Williams, waiter on No. 4, slightly
scalded; Thomas H. Owen, waiter on No.
4, face and feet cut and scalded; J. H.
Arnold, waiter on No. 4, slightly scalded;
J. W. Bryant, waiter on No. 4, hand and
face scalded; all of Chicago.

The passengers injured include: P. J.
Steenon, dislocated shoulder, left ankle,
left wrist strained and bruised, Passa-
dena, Cal.; W. L. Franklin, slightly
bruised, San Francisco; Mrs. H. H. Gil-
ben, slightly injured, Oakland, Cal.

Engine Boiler Exploded.

The boiler of the west bound train is
said to have exploded immediately after
the crash, sending to death those of the
engine crew not killed outright. The
bodies of Case, Armitage and Sam Brown
are missing and it is believed they were
crushed in the fire.

A scene of awful confusion followed
the crash. The massive engines piled up
in an indistinguishable mass of broken
and twisted steel while the dining cars,
the engine crew and the dining
car crews and setting the cars afire.

At the Santa Fe headquarters at Los
Angeles it was stated the blame was
not definitely fixed, but from all appear-
ances it rests with the crew of the west
bound train.

One Killed in Illinois.

Sterling, Ill., Nov. 20.—A Chicago,
Burlington & Quincy stock train broke
in two near Walnut this morning and
the rear section and caboose ran down
grade and collided with a freight engine,
killing one passenger, who was burned
in the wreck, and injuring nine others.
The dead:

JOHN J. BESSE, farmer, Erie, Ill.
The injured: J. A. Baker, Pleasant
Valley, Ia., slightly; Harry Buck, Iowa
City, Ia., head and legs injured; F. P.
Carl, Bennett, Ia., slightly; Daniel Don-
ovan, Iowa City, slightly; P. H. How-
son, Clinton, Ia., severely cut about
head; Benjamin D. Hughes, Iowa City,
slightly; G. M. Hunter, residence un-
known; internal injuries, serious; A. W.
Haley, Soton, Ia., internal injuries, se-
rious; Charles Swift, Morse, Ia., slightly.
Five carloads of cattle were wrecked,
and most of the animals were killed.

NEW CONSTITUTION CARRIES.

Montgomery, Ala., Nov. 20.—The gov-
ernor, secretary of state, and attorney
general opened and counted the vote on
the new constitution today. The result
shows a majority of 28,429 for the con-
stitution. The governor will issue his
proclamation in a few days, and ten
days thereafter the new law will go
into effect.

ADMITS MANY FORGERIES.

Indianapolis, Nov. 20.—John Verrill,
an Englishman traveling out of Cincin-
nati, walked into the police station to-
night and after admitting twenty or
more forgeries committed in various
parts of the country, said he wanted to
give himself up. The forgeries, he said,
aggregate \$12,000.

QUEEN OF SERVIA SHOT.

Unconfirmed Report of Attempted As-
sassination of Royal Lady.

Vienna, Nov. 20.—An unconfirmed re-
port that Queen Draga had been shot at
Belgrade. The Neue Freie Presse and
other Vienna papers publish the various
rumors, one declaring the Servian queen
was assassinated; another that she was
wounded, and a third that she committed
suicide.

Reports from other sources deny the
statement that Queen Draga was killed
and assert that the rumor of her death
was caused by a hysterical scene with
King Alexander.

There is no reliable information of
the subject here but it is generally be-
lieved that a serious crisis exists in Bel-
grade.

Paris, Nov. 21.—According to a dis-
patch from Vienna to the Echo de Paris
an attempt was made to assassinate the
Queen of Servia, three shots having been
fired at her while she was driving near
Semlin. A dispatch to the same paper
from Belgrade gives rumors that the
queen attempted suicide at Semlin.

THOUGHT HE SHOT WIFE.

Chicago Man, Crazed With Grief Over
Fancied Killing, Suicides.

Chicago, Nov. 20.—Believing he had
mortalized his wife while shoot-
ing a fancied burglar, William D. Brock-
man, a typewriter operator, turned a re-
volver upon himself and committed sui-
cide. His wife was uninjured.

MURDERER OF MONTGOMERY
BROTHERS SURRENDERS.

DETAILS OF HORRIBLE CRIME

NEGRO TELLS OF KILLING OF DE-
PUTY MARSHALS.

Held a Lamp While Mathis Shot Offi-
cers—Mattress Then Placed on Bod-
ies and Fired—Murderer's
Wife Present.

Oxford, Miss., Nov. 20.—Will Mathis,
charged with the murder of two deputy
marshals, the Montgomery brothers,
walked into Dallas tonight twelve
miles south of here, and surrendered him-
self. Mathis had been closely pursued
by a large posse with bloodhounds, and
realizing his capture was certain the fu-
gitive voluntarily gave himself up and
asked for protection. He was turned over
to the posse and started for Oxford,
but it is understood at a late hour to-
night that he will not be brought to this
city for fear of mob violence.

Threats of Lynching.

When the news reached Oxford the
streets filled with excited people. Bon-
fires were built and there were threats
of lynching on all sides, but at 11 o'clock
the excitement abated. The officers say
they will protect the prisoner at all haz-
ards.

A posse of citizens brought in George
Jackson this evening and placed him in
jail. He is a brother of Bill Jackson,
also in jail for being an accessory to
the killing of the two Montgomerys.
George Jackson, it is said, was with
Mathis until this morning. The negro,
Orlando Laster, arrested Sunday, has
confessed the details of the horrible
crime. He states Mathis induced the
officers to spend the night in his house
and shot them after they had gone to
bed, the negro holding the lamp. The
negro procured a gun for Mathis from
Mateons, Mathis' father-in-law. The lat-
ter loaded the gun with buckshot before
sending it to Mathis. Mrs. Mathis com-
plained to being in the house when her
husband did the killing. She left for her
father's soon afterward.

Bodies Were Robbed.

Mathis robbed the bodies of watches,
money and pistols, pulled the bodies
on to the floor, placed a straw mattress
over them, and set it on fire. Mrs. Math-
is and the negro both admit Bill Jack-
son, who left before the shooting oc-
curred, tried to prevail on Mathis not
to commit the crime.

A guard has been placed around the
jail as there are threats of lynching the
prisoners.

SECURED VOTERS ILLEGALLY.

Two Iowa Men Are Each Fined \$400 in
Federal Court.

Des Moines, Nov. 20.—John Benvers
and John Steubenauch of Knoxville,
Marion county, charged in the federal
court with having illegally secured nat-
uralization papers for a number of for-
eign coal miners in order to vote them
at the election in 1900, today entered
pleas of guilty and were \$400 each.
The illegal votes came within one of
making Marion county Democratic.

BIG INDIANA FIRE.

Frankfort, Ind., Thursday, Nov. 21.—
Fire which broke out in the three-story
brick building, occupied by Angbe Broth-
ers, shortly after midnight spread to ad-
joining buildings and at 2 o'clock \$30,000
worth of property was destroyed and
the fire was still burning fiercely.

COUNCIL IS INCOMPETENT.

The Hague, Nov. 20.—The administra-
tive council of the court of arbitration
decided today that it is incompetent to
consider the Boer appeal for interven-
tion in the war in South Africa.

SCHLEY IS INDEPENDENT.

Admiral Does Not Want Funds Raised
for His Benefit.

Knoxville, Tenn., Nov. 20.—Following
the report that the court of inquiry
would cost Admiral Schley \$20,000, the
Knoxville Sentinel on Nov. 18 sent him
a dispatch asking if he would consent to
public subscriptions to pay the cost of
the same. Today the Sentinel received
a personal letter from Admiral Schley
the purport of which was that he cannot
accept the offer. He says the report
as to the cost is a mistake, as the
amount is not as great as reported. He
suggests that the matter is "too deli-
cate" to discuss and trusts that his
friends will "appreciate his position in
respecting it."

BONINE JURY SECURED.

Testimony in Trial Will Probably Begin
This Morning.

Washington, Nov. 20.—A jury was se-
cured in the Bonine trial shortly after
3 p. m., as follows:
John D. Robinson, coal agent; Walter
J. Fry, coachman; W. P. Cobley, hotel
manager; W. L. Koonitz, coal dealer;
George B. Bury, druggist; Cornelius J.
Carmody, grocer; Harry E. Armstrong,
awning maker; Thomas F. Keane, car-
riage maker; George W. Thomas, car-
penter; Andrew J. Beyer, truck farmer;
Thomas Humphrey, plumber, and Au-
gust Goetze.

The court adjourned until morning,
when probably the taking of testimony
will begin.

BRIGANDS WILL NOT COME DOWN
ON RANSOM.

DICKINSON SENDS AN ULTIMATUM

BANDITS GIVEN SIX DAYS TO
ACCEPT SPECIFIED SUM.

If Agreement Is Not Arrived at in That
Time Consul Will Withdraw Offer
—Foreign Office Resents
Insinuations.

Sofia, Nov. 20.—The foreign office re-
sents the insinuations published abroad
that the government is acting in bad
faith in the matter of effecting the re-
lease of Miss Stone, and in explaining
its attitude toward Mr. Dickinson, diplo-
matic agent for the United States, af-
firms its entire readiness to take any
action suggested by him.

Village Was Searched.

The foreign office also avers that, act-
ing upon the suggestion of Mr. Dickin-
son, it caused the village of Gratchevo
to be surrounded and searched a fort-
night ago, but the brigands were not
there; also that Mr. Dickinson's later
information, to the effect that the band-
its were concealed in a defile in the
Belleritza mountains, in the district of
Dubnitza, could not be acted upon by it
as an inquiry showed the place in ques-
tion to be within Turkish territory.

The latest intelligence received here
sets forth that the brigands are holding
out for a high figure of ransom and it is
asserted they will be able to keep the
captives as long as this may be neces-
sary.

Brigands Must Decide.

Mr. Dickinson, according to the Ve-
nera Posta, whose editor was a mem-
ber of a former Macedonian committee,
sent an ultimatum to the brigands, giv-
ing them six days to accept a specified
sum as a ransom for Miss Stone. If
not accepted within the time mentioned
Mr. Dickinson's offer will be withdrawn.

Amount of Ransom Offered.

London, Thursday, Nov. 21.—U. S.
Consul Dickinson's ultimatum to the
brigands, according to a dispatch from
Sofia to the Telegraph, specifies £12,000.

BRECKENRIDGE IS OUT.

Court of Appeals Says He Must Retire
from Attorney General's Office.

Frankfort, Ky., Nov. 20.—The court of
appeals today reversed the judgment of
the Franklin circuit court, which sus-
tained the decision of the state contest
board in giving the office of attorney gen-
eral to Judge Robert J. Breckenridge,
and holds that Clifton H. Pratt of
Franklin county, the Republican nomi-
nee, is the legal officer. The decision of
the court is final and directs Brecken-
ridge to retire immediately from office.

CAN STILL MAKE EXTENSIONS.

C. F. Perkins Sues Union Pacific Has
Not "Bottled Up" Burlington.

Omaha, Nov. 20.—Charles F. Perkins,
former president of the Chicago, Burling-
ton & Quincy Railroad company, and a
member of the new board of directors
elected last Monday in New York, said
today that he did not think the Union
Pacific has "bottled up" the Burlington
in a way that would prevent the latter
road from making extensions. He said
the meaning of the recent financial deals
could not be understood until the smoke
has cleared away.

TWO CHILDREN BURNED.

Pomona, Mich., Nov. 20.—Two children
of Frank Stiver, aged eight and ten were
burned to death this evening. They were
in the house with their grandmother,
who was taken out of a window badly
burned. The children were in bed and
the house was destroyed.

100 MINERS DEAD

DISASTROUS FIRE IN TUNNEL OF
COLORADO GOLD MINE.

TWENTY-TWO BODIES RECOVERED.

SMOKE POURS IN AND FILLS ALL
THE STOPES.

Fire Starts at Mouth of Tunnel and
Spreads to Terminal Station—Day
Shift of Two Hundred Men
Had Just Entered.

Telluride, Nov. 20.—It is now believed
that the loss of life in the bullion tunnel
of the Smuggler Union gold mine will
reach a hundred. The first body was
taken out at 1 o'clock and at eight
twenty-two bodies had been recovered.
These have all been identified as follows:

August Jaanta, Allen Henderson,
Chris Maki, Tortemeter Knox, shift
boss, William Warfield; John Peterson;
William Jones; William Graham; Frank
Jadra; Matt Jadra; Gus Sundberg. Ohi-
ta Relatta; Anton Aneti, John Glosson,
Lewis Beggin, E. Dahlstrom, Joe Nelson,
John A. H. Noe, Mark Stark, Alex Solom-
on, Sorey Barkley, time boss; James
Sundstrum.

Hugh J. O'Neill, an engineer, was tak-
en out alive but is not expected to re-
cover. Every physician in Telluride has
been summoned to the mine and they are
kept busy attending the rescuers, who
were overcome with gas.

Seventeen Found on One Level.

Seventeen of the twenty-two bodies
were found on the seventh level. Between
seventy-five and ninety men were work-
ing on the ninth level and this has not
yet been explored. On account of the
gas and smoke these levels could not be
entered because of the danger of suffoca-
tion, for twelve hours after the flames
started.

The fire originated in a building at the
mouth of the tunnel and spread to the
terminal station which, with the ore
bins, machinery and supplies, is in a
mass of ruins.

The day shift of 200 men had entered
the mine and reached their stations
when the fire broke out. The tunnel
acted as a fire flue, and the smoke
poured in and filled the stopes.

The fire rapidly burned itself out but
the mine was so filled with smoke it
was six hours before rescuing parties
could penetrate the stopes where the
loss fortunate were. At 1 o'clock the
first body was recovered and at 6:30
seventeen of the dead had been removed
from the mine.

UNION STRIKER KILLED.

Allis-Chalmers Difficulty Results in
Death of One.

Chicago, Nov. 20.—The contest be-
tween the union and non-union men at
the Allis-Chalmers shop in this city,
where a strike has been in progress
several months, resulted tonight in the
killing of a union man patrolling the
factory district in disregard of Judge
Kohlsaat's injunction. The dead man is
supposed to be George Trapp. The slay-
er was Andrew Burkhauser, who recently
came here from Baltimore.

Trapp, in company with another man,
attacked Burkhauser and another non-
union man and felled Burkhauser with
a piece of gas pipe. While he lay on
the ground Burkhauser drew a revolver
and fired at Trapp, the bullet striking
him in the left eye. Death resulted in-
stantly. Burkhauser was arrested.

MILITARY ACADEMY WINS.

West Point Cadets Defeat University of
Pennsylvania.

West Point, Nov. 20.—The Uni-
versity of Pennsylvania football
team was defeated by the West
Point Military Academy today,
and incidentally suffered one of the
worst defeats in her football history.
The score of twenty-four to nothing
shows how West Point outplayed the
Pennsylvanians, he visitors put up a
stiff game, however, and were beaten
simply by the fact that West Point
played a superior article of football. At
the end of the first half West Point was
12 and Pennsylvania 0. The final score
gave West Point 24 and Pennsylvania 0.

SAVAGE AGAINST COMBINES.

Nebraska's Governor Will Join in With
Minnesota and Washington.

Lincoln, Neb., Nov. 20.—Governor
Savage said today regarding the consol-
idation of railroads that Nebraska would
join Minnesota and Washington in rig-
idly enforcing laws against combina-
tions, which in this state he regarded
plain and unmistakable.

INTERNAL REVENUE REPORT.

Washington, Nov. 20.—The annual re-
port of the commissioner of internal
revenue shows that the total receipts
for the year ended June 30, 1901, were
\$306,871,669, or \$11,555,561 in excess of
the estimates, about the same amount in
excess of the receipts for the year end-
ed June 30, 1900, and \$33,000,000 in ex-
cess of the receipts for 1899.

TODAY'S WEATHER.

Washington, Nov. 20.—The following
is the weather bureau's forecast for Up-
per Michigan: Fair Thursday; light to
fresh southerly winds; Friday partly
cloudy, probably snow and colder in
western portion.

COUNTED OUT!
Few people can understand the feelings of the pug-nut as he is being counted out. He hears the second ticked off. He struggles to rise, but struggles in vain. He has lost the fight.
There are some who are making a losing fight for life that can appreciate this; those whose lungs are diseased. With every tick of the watch, they know that they are being counted out.
The great question is how can a quick rally be made to continue the fight against disease? Many who have asked that question have found a satisfactory answer in the use of Dr. Pierce's Golden Medical Discovery. It cures bronchitis, rheumatism, deep-seated coughs, hemorrhage, night-sweats, emaciation, and other conditions which if neglected or unskillfully treated may find a fatal termination in consumption.
When I commenced taking Dr. Pierce's Golden Medical Discovery, writes Mr. John T. Reed, of Jefferson, Jefferson Co., Ark., "I was very low with a cough, and would at times spit up blood. I was unable to do any work at all, and my head was dizzy. The first bottle I took did me so much good that I had faith in it and continued until I had taken twelve bottles. Now I do not look like I feel like the same man as I was a year ago. People were astonished and said they did not think I could live. I can thankfully say that I am entirely cured of a disease from which had I not been for your wonderful 'Discovery' I would have died."
There are cures behind every claim made for the "Discovery," which is "not just as good" medicine can show.
Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

MARQUETTE, MICH., NOV. 21.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.
It has leaked out at Washington that the verdict of the court of inquiry in the Schley case will completely vindicate that gallant officer, and entirely disconcert the little cabal in the naval service which has persistently and meanly sought to rob him of justly-earned fame and his good name as well. The verdict of the court of inquiry could not well do less, in view of the testimony bearing on the conduct of Admiral Schley in the Santiago fight elicited in the course of the hearing. It is also hinted that Secretary Long will soon resign, not because of the verdict in Schley's favor. He has desired to retire from the cabinet for some time, it is said, and will now take that step. Should that happen it will give the President an opportunity to place a man at the head of the navy department who will give the naval service a needed shaking up, which wouldn't be at all a bad thing for either the navy or the country.

Armed with two revolvers and a hatchet, and commanding a big and powerful tug, Deputy Game Warden Brewster attacked a fleet of six fishing tugs that were engaged in taking up nets in Michican waters off Michigan City, and put them all to flight, capturing three of them, Monday afternoon. The fishermen were taking fish in violation of the law of the state, the fishing season not opening until the 15th of next month, so the brave deputy had authority for his procedure. He rammed one of the tugs twice, nearly capsizing it, before it "struck its colors" to him. Three of the tugs found violating the law belong to the marauding Booth Fish company. The nets and fish taken will be confiscated, and the lesson taught the fishermen in that vicinity will be likely to deter them from further infractions of the fishing laws. Brewster is a terror to the violators of the game and fish laws of the state. It is a pity that he can't spend some of his time in the upper peninsula just now, when there are so many deer hunters in the woods who need close watching to see that they don't kill more deer than they have the right to under the present game law.
Homer Warren succeeds Tom Navin as chairman of the Detroit Republican city committee. At its annual meeting, held Monday for the election of officers, the committee first re-elected Navin chairman. He declined to continue at the head of the committee, suggesting that the selection of some one else would conduce to needed harmony in the party. Mr. Navin was taken at his word and Mr. Warren was chosen for the place. The choice was wisely made, as Mr. Warren is a skillful politician and popular with all classes. The "ripper" element in the party had a candidate for the chairmanship, but he stood no show against the genial Homer.

Alonso Vincent of St. Joseph, who will take charge of the Jackson prison as warden, is a hotel man of many years experience, and has been remarkably successful in the business. He has taken an active interest in politics and served three terms as a member of the state central committee of the Republican party. His knowledge of the hotel business should in some measure qualify Mr. Vincent for taking charge of the big "convicts' resort" at Jackson, where he will have to "feed and sleep" a large number of unwilling guests regularly. They will not be found quite as pleasant folk to meet as those Mr. Vincent has hitherto mixed with in the role of "mine host," but he will not have to maintain espionage over any of them to guard against having them get away without paying their bills. The appointment is well received, the consensus of opinion being that Mr. Vincent will make an excellent warden.
Herr Von Holleben, the German ambassador to the United States, is back at his post, after having spent his summer vacation in Europe. He brings to us the comforting assurance that the German emperor and his people have only the kindest feeling for this country, and have no desire to lead in a movement to form a commercial and industrial coalition against the United States among the nations of the old world. He also brands as false the statement that his country is seeking to gain a foothold in South America and West Indian waters, in disregard of the Monroe doctrine as we interpret and propose to apply it. It is pleasing to have Herr Von Holleben's assurance that the German government and people feel so well disposed toward us, but as a matter of fact we have not been greatly disturbed by the reports to the contrary which have been coming to us for some time latterly, mainly through the medium of the British press. Our British friends have been so much concerned over the alleged designs against us of Germany that disposal of either bias against us, or hostile purpose, on the part of his country will have its use in allaying the anxiety of the Britons on our account. They are having so much trouble of their own just now that it is a kindness to set their minds at rest regarding the affairs of their beloved American cousins.

Rev. A. A. Dahlberg, pastor of the Swedish Lutheran church, has been ill and confined to the house the past few days.
John Whimmen and wife were called to the copper country the latter part of last week on account of the death of a relative.
Ambrose Nord of Champion spent Monday in Republic. He is about to begin housekeeping and was here buying stoves.
Ferrault & McDonald have engaged two expert shingle cutters to work at their mill here. The strangers hail from Menominee.
The boys and girls of the village have enjoyed skating on School lake the past week or so. The ice has been rough since the storm of last Friday.
The diamond drill operated the past few weeks at the Erie mine has been moved to Section 18, where E. P. Brant is doing considerable exploratory work. William Hocking has been ill and unable to work the past few days.
John Homer has been filling his position as deliveryman for J. A. Kingstedt.
Moy A. Lon, the local Celestial, spent last Sunday in the woods, but he returned without a deer. Moy vows he will bring down a deer before the close of the season.
Messames Matt Gibson, William Hocking and William Polkinghorn spent Monday at Marquette on business connected with the estate of the late William Polkinghorn.
Saturday was pay day at the Republic mine. A number of the men were out late that night and there was quite a lively time for a while. The smashing of one saloon front was about the only damage done.
J. R. Peebles knows what it is to be lost in the woods. Monday of last week he was lost in a swamp near Witbeck. After seven hours of hard tramping he struck the St. Paul track about three miles from Republic.
The young men who gave the minstrel performance here last winter are planning on getting together again sometime after the holidays. Some new talent will be taken in this time and it is expected that a rousing entertainment will be given.
Mrs. M. Wiley will organize a dancing class at Woodmen's hall on Thursday evening of next week. A number of young people of the village have expressed a desire to take instructions from her and it is quite certain that there will be a good turnout the first evening.
Mrs. C. M. Swartz, of Albion, who conducted the millinery business at the Republic Store company's place during the past two months or more, has returned to her home. She did an excellent business and it is likely she will return in the spring, to remain a few weeks.
The entertainment and supper given on Wednesday evening of this week under direction of the local camps of the Woodmen and Royal Neighbors was a most successful affair. The program rendered was pleasing and the spread was enjoyed by all who partook of it. The attendance was quite large.
Six Culmen men who spent the past week out near the Fence river came in from there Sunday with twelve deer. One of the party had a deer coupon attached to a rabbit. He got two deer, and he wanted to use the third coupon, so he put it on the rabbit and shipped the diminutive carcass by express to a friend in copperdom.
The boys who frequent the fire department's hall and disarrange the furniture and other things there will get into trouble if they do not keep away from the building. The kids seem to find pleasure in throwing pebbles, shells and other rubbish about the floor. The officers of the department will not tolerate the youngsters' nonsense much longer.
Some of the popular boys of the village will manage a hop to be given at Woodmen's hall on Thanksgiving night. Good music will be obtained from outside and it is expected that the party will be one of the pleasantest given in the village in some months. Invitations will be issued before the close of this week. The tickets will be 81 per couple.
The Sons of Orisis will be introduced as a side rank by the Woodmen lodge here. The members expect to have no little amusement at the regular meetings of the camp during the winter months. A number of applications have already been received for admission to the side rank. Work in the rank will be given for the first time on Thursday evening of this week.
The Republic high school has been placed on the diploma list of the Michigan university. The work of the instructors was examined a short time ago by Professor Whitney, who is identified

After Dinner
To assist digestion, relieve distress after eating or drinking too heartily, to prevent constipation, take
Hood's Pills
Sold everywhere. 25 cents.

Republic.
Iver Lallerstadt of Ishpeming did business in Republic on Monday.
Mrs. William Hocking of "Pork City" visited friends in Ishpeming Sunday.
Louis Laclair of Michigamme visited Louie Laforias here early in the week.
A number of Champion and Michigamme boys spent last Sunday in the village.
Miss Maggie Swartzman of Neguinee visited Mrs. Al. Hocking here during the week.
D. T. Morgan and wife have returned from Chicago, where they spent the past month or so.
Merten Sturges, bookkeeper for E. F. Brant, left Sunday evening for Canada on a business mission.
Miss Mollie Carlson of this place and Oscar Carlson of Calumet will be united in marriage on Wednesday of next week.
Mrs. Isaac Nikki is suffering from an injury she received one day last week as a result of a fall on a slippery walk.
Monday was the liveliest day Republic business men have had for some months. The pay at the mine caused quite a rush.
Rev. A. A. Dahlberg, pastor of the Swedish Lutheran church, has been ill and confined to the house the past few days.
John Whimmen and wife were called to the copper country the latter part of last week on account of the death of a relative.
Ambrose Nord of Champion spent Monday in Republic. He is about to begin housekeeping and was here buying stoves.
Ferrault & McDonald have engaged two expert shingle cutters to work at their mill here. The strangers hail from Menominee.

The Republic high school has been placed on the diploma list of the Michigan university. The work of the instructors was examined a short time ago by Professor Whitney, who is identified

with the state institution. Superintendent Walker received notice a few days ago that the school had been placed on the list. Such recognition as this speaks well for the high school.
The South Shore company will soon enlarge its platform at the St. Paul depot. The timber is on the ground and it is expected that carpenters will be along any day now to do the work.

COPPER COUNTRY NEWS.
(Additional.)
"SHAKY" COPPER MINES.
A Montana Paper Thinks Curtailment of Production Their Salvation.
Discussing the effect of restricting production on the copper mining interest, the Butte, Mont., Inter Mountain, published at a point where it has closed down several mines and through business has been forced to close its doors, has this to say in approval of the step:
"Had the Amalgamated people allowed the copper market to be smashed, the business and labor interests of this community would have been seriously affected. With a high price for copper, the market has been flooded by a temporary curtailment of the supply. With a low price for copper, the curtailment would have been greatly prolonged as far as the big companies are concerned, while the smaller concerns would have gone out of business entirely. That the danger in this respect is not copper has grown perceptibly less owing to the sagacious policy of the copper magnates is a matter for public congratulation, for cheap copper meant ruin to many a shaky copper company in a number of copper states. The peril is not yet ended, but as European manufacturers find soon to come into the market, it is good reason to hope for the best results to all interests connected with copper mining."
There may be "shaky" copper mines out west, but it is worthy of note that all the old producers in the Lake district were running on copper when selling for less than 12 cents. The properties in this region that have since become producers can make a nice profit on 12-cent copper, and those about to become producers give every indication of ability to do equally as well when they begin placing metal on the market. Of course the Lake mines are not hankering for 12-cent copper, nor do they anticipate a material reduction in the selling price of the metal for years to come, but when it comes they will be found doing business just the same, though they will not be able to pay such large dividends.

Float Rich Copper Rock.
Last week some float rich copper rock was found in the Old Colony shaft which must be down close to bed rock. Finding this displaced rock rich in copper may not mean anything for Old Colony or it may mean a good deal. No one can tell just yet, but those pieces must come from some rich lode far away if not near the formation the company is seeking to prove up. Almost any day now the bottom of the shaft may touch bed rock, and if that is the case it may be like will not take long. A few blasts may tell the story, but the company is quite satisfied that there is a nice bunch of copper there.—Native Copper Times.
The management of the Teemsh still has a force of men engaged in sinking No. 1 shaft on the Osceola amygdaloid lode in hope of finding copper in paying quantities.
The Champion mine and location at Painesdale will soon be lighted by electricity. The plant will be installed by the General Electric company of Schenectady, N. Y. Part of the equipment is already on the ground.
No important developments have resulted from the work under way at the Rhode Island mine. Although operations are conducted in an economical and judicious manner a large amount of money has been expended and an assessment will be required in the course of a few months.
At the Mass mine at Miss City the new office is completed and the mine operations are being conducted there. Captain Lynch expects to sink two new shafts on the property and two combination rock and shaft houses will be erected. Captain Wilcox's new residence at the location will soon be ready for occupancy. The plumbing in this house and also in the office building is now being finished this week.
If a cut should come in the price of copper Lake copper mines would likely be found in as good trim to withstand the reduction as any mines in the world. The producers are in splendid physical condition for they have been preparing for any emergency that may arise. Rock has been mined and manipulated that would not have been had the price of copper been much lower than the present market price, consequently reserves are bristling with the metal in different sizes and grades as well as in large quantities.—Native Copper Times.

Where to Stop When in Detroit.
Hotel Metropole, Woodward Ave. opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50
ASTOUNDING DISCOVERY.
From Copperville, Mich., comes word of a wonderful discovery of a pleasant tasting liquid that when used before retiring by any one troubled with a bad cough always ensures a good night's rest. It will soon cure the cough too, writes Mrs. S. Himelburger, "for three generations of our family have used Dr. King's New Discovery for Consumption and Colds." It's an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles 50c and \$1.00 at Stafford's. Trial bottles free.
SPECIAL EXCURSION RATES
Between Points in Northern Michigan for Thanksgiving Day, Nov. 28, 1901.
For Thanksgiving Day the D. S. S. & A. railway will sell excursion tickets between all stations at greatly reduced rates. Tickets will be on sale Nov. 27 and 28 and will be good for return passage until Dec. 2, 1901, inclusive. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, G. I. A., Marquette, Mich. (11-15-28)

Additional Ishpeming
ISHPEMING IN BRIEF.
The Trombly orchestra's fourth hop will be given tomorrow evening at the Anderson hall.
The members of the Pioneer club were entertained Tuesday evening by Miss Larue Outwater.
G. W. Kaufmann & Son have a cartload of heavy horses at their stables on East Pearl street in this city.
A number of Ishpeming music lovers will attend the concert given at Marquette this evening by the Calumet & Hecla band.
Madame Cleiro, a palmist of note, is at the Nelson House for a few days. Her advertisement in this issue speaks for itself.
Contractor John Haine has half a dozen or more men at work on the Mortley block. The owner expects to occupy the building about the first of the year.
The special cloak sale at S. Johnson & Co.'s store is proving a big success. This is the third day of the sale, and ladies who are in need of cloaks will find it to their interest to call.
Professor T. Wells of Calumet will give an entertainment at the Salvation Army barracks on Thanksgiving night. The admission will be fifteen cents for adults and ten for children.
A marriage license has been issued to Fred Zhulkie and Miss Rose Amel, both young people who have lived at the Deer Lake location a number of years and are well known in the city.
J. W. Robertson, special agent of the London & Lancashire Fire Insurance company, and D. W. Wells, state agent and adjuter of the Fire association of Philadelphia, were Ishpeming visitors yesterday. Recorder John Delbridge represents both companies here.
James Ames has sold his residence property on West Ridge street to William Zhulkie, of the Deer Lake location. Mr. Zhulkie's son Fred will occupy it for the winter and in the spring his parents will likely move in from the location. Mr. Ames has broken up housekeeping, his folks all being away at this time. His household goods will be stored until such time as the family returns.
J. M. Forvilly has rented the rear room in the Dundon block, facing on Cleveland avenue, and will move his saloon business from his present stand before the close of the week. He intends to have a grand opening there on Saturday evening, when there will be a free lunch, music, etc. A Gilbert, a banjo player, singer and dancer from Oshkosh, has been engaged for the occasion.
THAT THROBBING HEADACHE
I would quickly leave you, if I could. Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25c. Money back if not cured. Sold by Stafford, druggist.

THREE BURIED ALIVE.

"PORTAGE LAKE SHIP CANALS."
 Finnish Laborers Meet With Accident and One May Die.

Major Marr, Government Inspector, Explains Meaning of Phrase.
 Major Marr of Houghton, who is in charge of the government improvement work being done on the Portage Lake Ship canals, made his last trip of inspection to Portage River, where the work of dredging to straighten out the bends in the water way is under way, Tuesday. He said yesterday that the dredges are doing "beautiful work" and expressed himself as hopeful that the weather would continue favorable for at least ten days longer.

James Pryor of Son, of Houghton, who are conducting the dredging operations for the Duluth Dock & Dredge Co., which has the government contract for the work, are now employed in the waterway, or canal route through Portage River, in the vicinity of Snake river, which is said by Major Marr to be one of the worst places for boats to navigate successfully of all the bad places in the waterways across Keweenaw Point.

Now that they are right into the work, and the route through Portage River is being improved, it will go along nicely, providing conditions are favorable, and a week or ten days longer will see the wind up of the work there. About 400 feet remains to be dredged out at that place and it should be finished this fall, for it will be a hard job to get back into it again if the work has to be discontinued before the job is completed. The digging is exceedingly hard and the dredge is now cutting through a regular sandstone formation.

The major has not yet had the government boat Transit laid up for "the winter." The little craft made one of its regular trips to the canal proper yesterday. Speaking of the Portage Lake Ship Canals the major said that many people, especially newspaper men and some marine men, also, he was sorry to say, have an erroneous idea as to the construction of the phrase, "Portage Lake Ship canals." It is too often taken to mean just the canal at the west side of the point, where a great deal of improvement work has been done. The waterway includes Portage River from the east side of the point as well, for the government is expending as much money in improving it as at any other place across the point. A regular passage way, or canal route, for boats is marked off through Portage River by means of buoys, which act as a guide for all vessels crossing the point, and it is the work of dredging out the bends at the bottom of the passage way that it now being done.

"Too many people talk Portage Lake too much," said Major Marr. "When Portage Lake is spoken of the government means the Portage Lake down on the east shore of Lake Michigan, and newspapers especially are apt to misconstrue telegraphic news in reference to the same. That is especially true when appropriations for improvements are made, as was evidenced by the mistake some of the papers made a short time ago when appropriations for Portage Lake on the east shore of Lake Michigan was made. The waterways here are called by the government the waterways across Keweenaw Point or the 'Portage Lake Ship Canals.'"

The major speaking further said that many boat captains who pass through Portage River fail to make a report, as is required of vessels passing through government canals, and when questioned for the same state that they never went through any canal. He finally became tired of always explaining that Portage River is as much a part of the canal system as the canal at the other side of the point and had a large sign with the words, "Portage Lake Ship Canals," put up at the mouth of the river or Portage Entry, where all captains could see it. Since then he has not had so much trouble in that respect.

Major Marr believes it would be desirable for the lighthouse service to have another red buoy placed at Grosse Point for the benefit of captains who are unacquainted with the lay of the ground at that place. Grosse Point is between Torch Bay and Portage Lake on the north shore and is an easy place for boats to pass if the red buoy at that place is given quite a wide berth. Experienced captains always do so but occasionally a "green" one will get his vessel on what is known as Hogback reef, which extends out from the point. The reef continues south of the buoy and makes a turn towards the shore further out than the red buoy on the Point indicates. Another buoy at the turn of the reef would make the matter right.

The steamer Thomas Maytham, loaded with 2,400 tons of coal for Duluth, which went on the reef at Grosse Point the latter part of last week, has been released and has continued on its way. The captain steered his vessel too close to the buoy and went aground, said to be due to gross carelessness, as there is a wide stretch of deep water to the west of it.

STEAMER'S GOOD RECORD.

The Buffalo Courier in a recent issue says: "Of all the vessels which ply the great lakes, probably none have made a better record for the number of valuable cargoes carried this season than the Hanna steamer George A. Flagg. That one vessel should be able to add nearly \$10,000,000 to the commercial receipts of the port of Buffalo within a period of six months, conveys some idea of the importance of the lake marine. The steamer now has a record of eleven trips for the season and on Tuesday cleared for the twelfth trip to Lake Linden. This will be her last. With twelve cargoes to her credit the Flagg has brought to Buffalo copper ore valued at not less than \$9,600,000."

MARRIED AT ATLANTIC.

Gabriel Kaspar, a prominent Huron-town man, and Miss Minnie Reed, of the Atlantic, were married at 11 o'clock yesterday morning at the home of the bride's parents at Atlantic by Rev. H. H. Culver of Houghton. Mr. and Mrs. Kaspar left in the afternoon for a ten days' wedding trip to Chicago and Detroit after which they will make their home at Hurontown.

FINNISH LABORERS MEET WITH ACCIDENT AND ONE MAY DIE.

While digging a sewer alongside the Redridge Hotel at Redridge yesterday morning the stone foundation fell in without warning, covering up three Finnish laborers, John Johnson, Jake Klala and Alec Saleme. All three were internally injured. Saleme was completely covered and had it been sand instead of rock would have been smothered. His condition is serious and he may die.

HIGHWAYMAN IS CAUGHT.

John Peura Arrested by Sheriff Willis at the Baltic Mine.

Sheriff Willis has succeeded in capturing John Peura, who is wanted for highway robbery committed on the night of Nov. 19 at Hancock. The victim was a Finnish resident who was driving to his home in Hancock. He was stopped and an attempt was made to take \$18 in cash from him. Peura's partner, Will Neiman, was arrested the next morning but Peura skipped out and has been at large ever since. The sheriff was on his trail, however, and finally located him at the Baltic mine, where he had found employment. He was arrested while going to work Tuesday night. Both Neiman and Peura are well known to the authorities as hard characters and they have been frequent inmates of the county jail. Their jail record is a long one and the arrests in this particular case are considered important.

BIG LOGGING OPERATIONS.

Will Be Conducted by Bay Mills Firm on the South Range.

W. Sparring, of Bay Mills, arrived in Houghton yesterday to make arrangements for extensive logging operations on the South range, which will be conducted this winter by Hall & Munson, a Bay Mills firm. Mr. Sparring will look after the interest of the loggers and superintend the work. Camps will soon be started and about sixty men will be employed. Over 3,000,000 feet of pine will be cut during the winter and will be transported to Houghton over the Copper Range road. From Houghton the logs will be towed through the water ways to Bay Mills. Mr. Sparring has in the city a few weeks ago and made arrangements with the Copper Range people for the transportation of the logs and all that now remains to be done is to get the men and the outfit on the ground for the commencement of the work. Logging operations will be as extensive on the South range this winter as they were last and the Copper Range will be busy with log shipments.

REPAIR WORK CONTINUES.

Telephone Construction Crews Still Busy in Copperdom.

Telephone construction and general repair work throughout the county, principally in and about Houghton and Calumet, is still going on with several crews of men and will continue, it is said, as long as the weather is favorable and until the system is thoroughly overhauled. This week all of the overhead wires stretched on the poles through East Houghton will be taken down as they are of no further use. Wires to East Houghton are now in cables, an arrangement giving better satisfaction. Several new wires are being strung to Redridge.

New poles have been put up in the vicinity of the county bridge and others taken down; new cables stretched from Houghton to Hancock; new cross pieces for the reception of wires put out from the county bridge; and repairs made in general. In places the wires have been put through cables and the network of old ones taken down, thus greatly improving the appearance of the poles, and on Houghton's main thoroughfare the wires have been placed in underground conduits. It was said yesterday that the new switchboard for the Houghton "central" has been shipped. It will be installed as soon as it arrives and people will then look for better service. The board will be strictly up-to-date. At Calumet much work is also being done. Wires are being placed underground on Red Jacket's main thoroughfare and practically the same work is going on there as was done in Houghton. The Calumet "central" will also be supplied with a new switchboard. Work in Laurium, it is said, will be pushed next year.

DAN SURPRISED THE BUNCH.

Many deer hunting stories have been told of the season here to date but the following from the Calumet News about takes the cake: "Dan Sullivan, of Laurium, has quite an attraction in the live deer he brought home from his hunting trip. He has quite a story to tell of its capture. His comrades when they got upon their hunting ground were so anxious to start upon the search for deer that they refused to help him raise the tent and prepare camp. They left him and had been gone but a short time, when, while at work putting up the tent in the corner of an old logging camp which had the doors and windows on, but had no roof, he was surprised by a deer bounding in through the open door and rushing past him to the further end of the building. He at once closed the door. After the deer had got accustomed to his new surroundings it became quiet and Sullivan was enabled to tie it up with a rope. When his hunting partners returned that day empty handed they were surprised at the luck Dan had."

ANOTHER HANCOCK ROW.

Another disgraceful fight occurred in J. H. Steinbeck's saloon on Tezucno street, Hancock, Tuesday night. Bad whiskey was usual was the cause of the trouble. Eric Kangas was struck on the head by a chair and badly done up. Isaac Tolonen was arrested for the assault and was arraigned before Judge Olivier at Hancock yesterday morning and heavily fined.

KEYES HIGH AND DRY.

Captain Stevens' Scow Will Not Be a Total Wreck.

Captain D. E. Stevens, who has been in Houghton the past few days, looking after his scow, Keyes, which broke away from the tug Mystic about two weeks ago during the heavy weather on Lake Superior, has returned to Duluth. The scow is high and dry on the rocks less than 1,000 feet from the Thirteen Mile light and will be released and repaired in the spring. The Keyes was not a total wreck, which would mean a loss of between \$4,000 and \$5,000 to Captain Stevens, but the damage will be heavy. The captain is a popular man in Duluth and he will undoubtedly be the choice of the Republicans of that city for their next mayor.

SPREADS LIKE WILDFIRE.

When things are "the best" they become a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudinous of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Price 50 cents. Sold by Stafford, druggist.

COPPERUM BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Deo Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

JOHN HAYES, OF ONTANOGON, IS SPENDING A FEW DAYS IN HOUGHTON.

The Calumet Dancing club will give a dancing party at the Light Guard Armory tomorrow evening.

A meeting of Pilgrim lodge, I. O. O. F., Houghton, will be held tomorrow evening for work on the first degree. A large attendance is desired.

The promenade concert by the Calumet & Hecla band which was set for this evening has been postponed on account of the Marquette concert to be given by the musicians.

A social party will be given at the Houghton Armory tomorrow evening by several of the ladies of the village. There will be good music and dancing will be indulged in.

Anyone finding a small fox terrier with brown marks on the head and back in Houghton will confer a great favor by returning the canine to Joe Bertrand in R. Skiff Sheldon's office, Houghton.

The tag Carpenter, belonging to Porter Bros., the Duluth contractors, who built the government breakwaters at the canal, has left Portage Lake for Duluth, where it will remain through the winter.

Charles Maclean, a son of Dr. Maclean of Hancock, was painfully hurt in a high school football game at Detroit last Saturday. He suffered a severe injury to his leg and will be laid up for some time.

Albert C. Krause has resigned his position as superintendent of the new Champion stamp mill at Redridge. His successor has not yet been named. It is understood that Mr. Krause's resignation takes effect a month hence.

A meeting of the business board of Company C, Houghton Light Infantry, was held last evening at the Armory. The resignation of Major Hendriksen as manager of the Armory Opera House and other important matters were taken up.

Alfred Ross, of Hancock, was arraigned before Judge Brand at Houghton yesterday afternoon on the charge of larceny. It being alleged that Ross appropriated a Hancock man's overcoat. He pleaded guilty and was given a choice of a fine or twenty days in jail. He took the latter.

Mrs. J. F. Hambliter, of Houghton, entertained at a 6 o'clock dinner Tuesday night in honor of the birthday anniversary of her daughter, Mabel. A small number of Miss Hambliter's friends were present and she was the recipient of handsome presents. The evening was enjoyably spent in various amusements.

W. Kramer, of Chicago, an expert draughtsman, has arrived in Hancock to assist the three young engineers, graduates of the Michigan College of Mines, in making geological and topographical maps of St. Louis county, Minn., for the United States government. The boys will be engaged in the work about two months longer.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c. per bottle.

Hall's Family Pills are the best.

THE CHILDREN'S FRIEND.

For coughs, croup, bronchitis, grip and other winter complaints One Minute Cure never fails. Pleasant to the taste and perfectly safe. C. B. George, Winchester, Ky.: "Our little girl was attacked with croup one night and so hoarse she could hardly speak. We gave her a few doses of One Minute Cure. It relieved her immediately. When she awoke next morning she had no signs of hoarseness or croup." Stafford Drug Co.; H. N. McLoche, Ishpeming.

How Are Your Kidneys?
 Dr. Hobb's Spargan Pills cure all bladder ills. Sold by all druggists. Price 25c. per box.

TWENTY-SECOND ANNUAL.

Irish Relief Club to Give Party at Hancock Thanksgiving Night.

The twenty-second annual party of the Irish Relief Club of Hancock, to be given at St. Patrick's hall, Hancock, Thursday evening, Nov. 28, promises to be a very enjoyable affair. The Calumet & Hecla orchestra has been engaged to furnish the music. A committee, comprised of Dr. J. E. Scallon, Thomas J. Russell, R. T. Looney, J. F. Ryan, Martin Conway, Thomas Coughlin and T. J. Kearney, has been appointed to look after the arrangements.

CHURCH IS DEDICATED.

The new Congregational church at Redridge was dedicated with appropriate services Tuesday evening. The sermon was delivered by Rev. W. H. Warren of Lansing, state secretary of the Home Missionary society. Rev. Edwin More, Jr., of Hancock, Rev. Henry Harris of South Lake Linden and others were present. The society was organized and the church erected through the efforts of Rev. Mr. Harris and the structure was dedicated free of debt. The cost of the church was \$1,000. It will have a congregation of about sixty and the Sunday school membership will number seventy-five.

ASSISTANT PASTOR APPOINTED.

Rev. R. T. Hicks has been appointed assistant pastor to Rev. H. A. Lesson of Calumet by Presiding Elder C. M. Thompson and will have charge of the Tamarack Junior and Centennial fields. Services will hereafter be conducted at both places on Sundays. Sunday afternoon Mr. Hicks will preach at the Centennial and in the evening at the Tamarack Junior, alternating on each Sunday following until the close of the year. It is very likely that the two places will be made a separate district early next year.

PEST HOUSE IMPROVEMENTS.

One of the members of the county snailpox board said yesterday that next summer the county board would very likely decide to have another story built on the nest house and a cellar excavated so that furnaces to heat the building during the winter could be installed. During the present winter, however, the building of the additions will be the extent of the work of enlarging and improving the hospital.

NOW MASTER MECHANIC.

Samuel W. Rawlings, formerly with the Lake Shore Iron works at Marquette, has been appointed master mechanic of the Mass Consolidated Mining company's mines. Mr. Rawlings has been connected more or less with several of the iron and foundry companies of the upper peninsula for some time past and is well known. He is thoroughly competent for his new position.

ATTACK ON COLON

LIBERALS GAIN VICTORY OVER GOVERNMENT TROOPS.

GEN. PATINO KILLED IN SKIRMISH

WEGUE AFFAIR IS OVER IN LESS THAN THREE HOURS.

United States Gunboat Machias Lands Blue Jackets at Colon to Take Charge of Railroad Station as Matter of Precaution.

Colon, Nov. 19.—The liberals made an unexpected attack on Colon at 8 o'clock last night. The government was not prepared and there was little resistance. After some fighting in front of the quarter and in certain streets for an hour and a half the liberals gained possession of all the public offices of the town of Colon. The prefect guardia is prisoner. Over twelve men were killed and thirty wounded. The United States gunboat Machias, now here, took no part in the proceedings. There has been no telegraphic communication with Panama since last evening and it is surmised here that Panama is now being attacked. Detachment Under Patino.

On receipt of the news that General Alban, military commander at the isthmus, had started an attack on the liberals at Chorrera, near Panama, the United States gunboat Machias, which had been detached from Colon to Panama yesterday evening at Las Cascales station, previously cutting the telegraphic communication across the isthmus. Arriving at the outskirts of Colon where the government usually maintained a small guard, the liberals left the train and in an initial skirmish General Patino was killed.

The command of the liberals developed on Colonel Frederico Barrera, and they continued the march on Colon, arriving there a few minutes before the train, thus surprising the whole town. The government troops at Colon were outnumbered by the liberals. The fighting immediately began at the quarter barracks, which were soon taken. There Senor Jaen, a judge of the criminal court, was killed, and Senor Muskus, district representative of the department of the interior was mortally wounded.

Fighting at Town Hall. Fighting subsequently occurred at the town hall, which was also taken by the liberals. Among the prisoners captured by the liberals were the prefect guardia and the comandante of police, Senor Peredes, the mayor, managed to reach the gunboat General Pinxton, which sailed last night for a destination unknown, probably Cartagena. The whole affair was over in less than three hours. Communication with Panama was restored today. This revealed that no fighting had occurred there, everything is quiet and the city is still in the hands of the government.

The issue now depends on the result of the result of the fighting which is doubtless occurring at Chorrera, news of which is anxiously awaited here. The United States gunboat Machias landed a detachment of marines this morning. They are now guarding the railroad station and other property of the road.

State Department Notified. Washington, Nov. 20.—The state department has received official confirmation of the capture of Colon by the liberals. Transit was interrupted for a brief period but is now restored. Captain Perry of the Iowa, senior naval officer at Panama, has been instructed to land marines if necessary from Commander McCrea saying that 100 blue jackets have been landed from the Machias at Colon and have taken charge of the railway station as a matter of precaution.

Heroism. The Colombian charge here, says that all depends upon the result of General Alban's expedition to Chorrera to engage the insurgents. If he is successful the recapture of Colon should be comparatively easy, but if the government expedition is defeated the results will undoubtedly be disastrous for the insurgents then would have, temporarily at least, undisputed sway over the entire isthmus.

KNIGHTS OF COLUMBUS. New Haven, Conn., Nov. 20.—The committee on revision of rates, appointed three years ago by the national convention of the Knights of Columbus, announced today that a new schedule would be promulgated Jan. 1. The system adopted by the committee is known as the "step" rate and the old level rate plan will be abolished. In some instances rates are lower under the new plan, but the assessment of the older members of the order will be somewhat increased.

Lazy Liver When the liver goes wrong, everything is wrong. You have dyspepsia, coated tongue, constipation, biliousness, sick headache, nausea, general debility. One of Ayer's Pills each night, just one, gently starts the liver and removes all trouble.

"I have used Ayer's Pills for liver complaint, and have found them to be the best thing I have ever tried."

E. N. North, Sidel, Ill. J. C. Ayer Co., Lowell, Mass.

CARDINAL GIBBONS PRESIDED.

Annual Meeting of Trustees of Catholic University is Held.

Washington, Nov. 20.—At the annual meeting of the trustees of the Catholic University today Cardinal Gibbons, chancellor of the university, presided and many other prominent prelates were present.

The treasurer reported that the total receipts during the year were \$160,511 and disbursements \$137,599, leaving a cash balance of \$22,912. Of the disbursements \$27,000 was paid on the indebtedness, reducing the item to \$205,000, and \$40,000 was added to the endowment fund.

The case of Dr. Henebery, recently dismissed from the Gaelic chair of the university, and whose case has attracted wide-spread attention, was discussed in secret. Later an authorized statement was given out that the board had no intention of divesting the Ancient Order of Hibernian fund for the instruction of Gaelic; that the board firmly declined to reappoint Dr. Henebery, but that every effort would be made to secure an instructor for the Gaelic, to be engaged until such a time as a regular professor may be fully equipped for the work, to which he will devote his entire time.

LYNCH WILL SUCCEED. Irish Colonel Sure of Winning in Galway Parliamentary Contest.

Dublin, Nov. 20.—It is now regarded as certain that the Colonel Arthur Lynch will succeed in the parliamentary contest in Galway, where he is opposed by Horace Plunkett, Unionist, in spite of the fact that he claims rank as a colonel in the Boer army and if he sets foot on English soil he will be arrested and sent to South Africa for trial.

Bad weather has tended to cool electioneering, but there was considerable disorder again today, which kept a large force of police busy. There are continual calls for the police to prevent or suppress disorders. The prisoners are awaiting with arrested persons, and it was a common sight today to see persons walking about with bandaged heads.

THE RECIPROCITY CONVENTION. Representative Committee Submits Resolutions to President Roosevelt.

Washington, Nov. 20.—The representative committee from the national reciprocity convention today submitted to President Roosevelt the resolutions adopted by the convention. The president told them in general terms that he had given considerable attention to the subject and hoped his attitude would be satisfactory to them. But he did not particularize.

The session of the reciprocity convention tonight was devoted mainly to the question of the reciprocal trade relations with Canada. Several papers were read, after which some routine business was disposed of and the convention finally adjourned.

SPARKS FROM THE WIRES. Indianapolis, Nov. 20.—The Indiana grand lodge of Odd Fellows today contributed \$500 to the McKinley memorial fund.

Boston, Nov. 20.—Honorable Patrick Collins was named for mayor at the Democratic municipal convention tonight.

Cincinnati, Nov. 20.—Eddie Burns of Detroit and Mike Schreck of Reading, O., fought ten rounds to a draw here tonight.

Chicago, Nov. 20.—The Glass Manufacturers' association today decided to cut prices twenty per cent. below the present scale.

Madrid, Nov. 20.—An explosion of cartridges in the barracks at Coruna today killed three artillerymen and wounded seventeen others.

St. Louis, Nov. 20.—Captain John Lawson, who built the first locomotive engine in England, and the oldest engineer in the United States, died today.

Des Moines, Nov. 20.—Colonel Dorus M. Fox, a publisher and author of considerable note, died this morning aged eight-four. He served throughout the civil war.

Harrisburg, Pa., Nov. 20.—The official returns of the recent election in this state were tabulated today. Harris, the Republican state treasurer, has a plurality of 45,470.

South Bend, Ind., Nov. 20.—Honorable Clem Studebaker, one of the best known men in the United States, is dying and it is extremely doubtful if he will survive the night.

Santiago de Chile, Nov. 20.—It is said that the forces of the Argentine Republic have crossed the line of demarcation between Chile and Argentine into Chilean territory.

Milwaukee, Nov. 20.—Indications are that Hickey's new baseball league will have a club here next season. It is also probable that the American league's team will remain here.

Washington, Pa., Nov. 20.—Major William Wayne, president of the Society of Cincinnati and for several years president of the Sons of the Revolution, died aged seventy-two.

Madison, Wis., Nov. 20.—Mrs. C. K. Adams has presented the Madison Art association with her jewels, valued at \$10,000. They will be sold and the proceeds applied to furthering the objects of the society.

London, Nov. 20.—The speech of Secretary Hay Tuesday night at the banquet of the New York chamber of commerce has aroused keen discussion in London papers. The comments are generally friendly.

St. Joseph, Mo., Nov. 20.—The state beer inspection law has been attacked in the federal court here today by Pabst, of Milwaukee. He refuses to pay the increased tax of ten cents a gallon on the ground that the act is a violation of the fourteenth amendment of the constitution.

TAX ON OLEOMARGARINE. Lewiston, Me., Nov. 20.—The National Congress today adopted resolutions urging congress to institute a tax of ten cents a pound on oleomargarine and all substitutes for dairy butter, and in favor of universal peace of the congress in connection with the exposition at Charleston. Officers were chosen among them being Aaron Holmes of Indiana, worthy master; Geo. W. DeJord of Wisconsin, gate keeper; Mrs. M. W. Wilson of Magnolia, Ill., cere.

SCALED HIGH CLIFF

WONDERFUL FEAT PERFORMED BY MAJOR WALLER'S MEN.

IN ATTACK ON SOJOTOU, SAMAR

THREE INSURGENT CAMPS ARE DESTROYED.

Trails Leading to Rebel Stronghold Lined With Poisoned Spears Sticking from Ground and Filled With Pitfalls.

Manila, Nov. 20.—Major L. W. T. Waller, of the marine corps, has cabled a detailed account of the attack Nov. 7 by the men of his command upon the rebel stronghold at Sojotou, near Basey, in Samar. Three insurgent camps were destroyed, forty bamboo cannon captured and much rice and other stores destroyed.

Stronghold Almost Impregnable. The rebel's stronghold was almost impregnable. Trails leading to it were lined with poisoned spears sticking from the ground and were filled with hidden pitfalls. Major Waller's command attacked the enemy unexpectedly. To do this they had to scale a cliff 200 feet high. They climbed barefooted over bamboo ladders. At the top they found bonfires piled ready to be precipitated upon the attacking party.

Major Waller says he personally was not present at the action. He praises Captain Porter and Captain Bears for their splendid work and says too much praise cannot be given the marines themselves, whose behavior he characterizes as brilliant in every respect. The major considers the scaling of the cliffs 200 feet high a new feature in warfare, and says such men would be able to do anything anywhere. Thirty of the enemy were killed. The marines sustained a few trifling wounds.

Aguinaldo Writes Chaffee. Aguinaldo has written General Chaffee, asking permission to go before congress and express the desires of the Filipino people. Aguinaldo further requests that he be accompanied by eight friends whom he designates, four of whom are prisoners at Guam, while others are prominent in Manila.

COLLERAN IS GUILTY. Chief of Chicago Detectives Unfaithful to His Duty.

Chicago, Nov. 20.—Captain Collieran, chief of the detective bureau in this city, was found guilty today by the civil service commission, and by the order of Chief of Police O'Neill was discharged from the police department. This brings to a close the long line of scandals in connection with the detective department, which were aired before the merit board.

The testimony on which Collieran was found guilty showed that several well known crooks, including conviction through the neglect of the detective department, and that evidence that was to have been used to convict them was destroyed.

CONVICTS GUILTY OF MURDER. Coroner's Jury Returns Verdict in Killing of Guard Waldrup.

Leavenworth, Kas., Nov. 20.—The coroner's jury investigating the killing of Guard Waldrup, who was shot by one of the escaped prisoners from Fort Leavenworth prison Nov. 8, today returned a verdict, holding Fred Robinson, Gilbert Mullins, Frank Thompson and James Wilson, the ring leaders, guilty of murder, and the other twenty-two mutineers guilty of conspiracy to commit murder.

Four principals were armed with shot guns. Nine convicts are still at large.

BISHOP OF LONG ISLAND. New York, Nov. 20.—Reverend Frederick Burgess of Grace Episcopal church, Brooklyn, was tonight elected bishop of Long Island on the tenth ballot.

The vote was: Burgess— Clerical, 54; lay, 46; McConnell—Clerical, 51; lay, 30. The election must now be approved by a majority of the diocese of the United States.

DIVORCE IN HIGH LIFE. London, Nov. 20.—Truth today says that the hereditary prince of Hohenzollern-Langenburg and the prince of Hohenzollern-Gesringen visited Emperor William at Potsdam Nov. 15, and acquainted him with the fact that the grand duke and grand duchess of Hesse would be divorced on the ground of "insuperable personal aversion," all efforts to arrange a modus vivendi having failed.

MODERN SURGERY SURPASSED. "While suffering from piles," says G. F. Carter, Atlanta, Ga., "I got DeWitt's Fitch Hazel Salve and was entirely cured." Cuts, burns, bruises quickly cured. Beware of counterfeits. Stafford Drug Co.; H. N. Meloche, Islip, N. Y.

Winter is here, put your bicycle where it will be taken care of. R. L. Francis will store it free. Leave your address. (11-19) (f)

Ten thousand demons gnawing away at one's vitals couldn't be much worse than the tortures of itching piles. Yet there's a cure. Doan's Ointment never fails.

Keep Your Bowels Strong. Constipation or diarrhea when your bowels are out of order. Cascarets Candy Cathartic will make them act naturally. Genuine tablets stamped C. C. C. Never sold in bulk. All druggists, 10c.

WALL STREET STOCKS.

Characteristic of Yesterday's Market Was Decreasing Interest Shown.

New York, Nov. 20.—The principal characteristic of today's market was the decreasing interest shown, even by professional operators, who have had the market practically to themselves for some time past. The fact that no further gold would go out tomorrow beyond the \$500,000 engaged yesterday afforded some relief from the feeling of depression, there having been apprehension that the French steamer sailing tomorrow would carry away several millions.

Professional bulls sought to stimulate this into a renewed movement for an advance and in this intent there was large buying and an active manipulation of a limited number of stocks at the hands of speculative pools. The growing evidence of a common purpose among the executives of the Northwestern states to combat the purposes of the Northern Securities company and seek the aid of additional legislation for that purpose has an unsettling influence upon the street sentiment. The local traction continued in large demand, but were irregular on occasional realizing.

The money market was distinctly easier today and the call loan bill loans did not rise at all to five points, which has been the recent maximum, and fell away decidedly in the late dealings. Foreign exchange continued firm and the opinion is still held that gold will go out on Saturday to London direct, especially as remittances are due for American subscriptions to the last installment on the British consol issue, which is payable in London on Dec. 5.

Closing prices of stocks are reported by Paine, Webber & Co. as follows: Wash. Fed., 102 1/2; U. S. Steel, 42 1/2; Republic Steel, 28 1/2; C. & N. W., 73; Peoples Gas, 98 1/2; M. & T., 52; Atchison, 100; West'n Union, 47; Pfd., 100; Pacific 100; Smelter, 47; Pfd., 100.

Range of Money Rates. Money on call, firm, at 4 1/2 per cent; last loan, 4. Prime mercantile paper, 4 1/2 to 5 per cent. Exchange, firm, demand at 84.88 and sixty days at 84.84 1/2 per cent. Bar silver, 50 1/2.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 20.—In wheat today there was a good trade with an active market early, the chief feature being buying by yesterday's sellers. Later the market turned rather quiet, reacting some from the top figures, but the close showed 3/4 @ 1/2 advance. Outside interest was more in evidence, and the market displayed a broadening tendency. Dry weather over the winter wheat belt was possibly an indirect but factor. Liverpool was strong and there was no change in spot, but the futures were up 1/4 d. The exports were smaller, at 242,000 bushels, and thirteen boatloads were reported taken for shipment. The local receipts were fifty-six cars.

There was a very fair trade in corn with a better undertone to the market. There was an advance of 1/2 cent, the market followed by a break of 1/2, the market recovering some and closing 1/2 @ 1/4 higher. The feature of the market was an active call from floor traders and professionals, shorts coming in on the advance, the selling being chiefly by commission houses. At Liverpool spot was steady and unchanged, with the futures 3/4 higher. The receipts were eighty-nine cars.

Oats were traded in liberally on the whole, but the market was quiet and early. The prices closed off slightly early, but advanced 3/8 @ 1/2, touching the best figure on the crop and closed firm at a net gain of 1/2 @ 3/4. There was active covering by shorts and more outside buying.

The leading futures ranged as follows: Wheat, 2 1/2 @ 3/4; Corn, 1 1/2 @ 1/4; Oats, 1 1/2 @ 1/4.

SYRUP OF FIGS. NEVER IMITATED IN QUALITY. An Excellent Combination. The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from any objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are compressed, yet stand like the pyramids unshaken in the love and confidence of the people. Rocky Mountain Tea made by Madison Medicine Co. 35c. The Stafford Drug company.

Builds up the system; puts pure rich blood in the veins, makes men and women strong and healthy. Burdock Blood Bitters. At any drug store.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. No. 5c. 10c. O. C. Pills, druggists refund money.

"PEPPERMINT DAYS" "KASKOLA DAYS"

Kaskola Tablets. The great indication cure for young and old. 15 and 20 cents at drug stores. Sample and "Pisco Hoster" free by writing THE P. L. ABBEY COMPANY, Kalamazoo, Mich. (Image of a woman and child)

December wheat opened at 71 1/2 @ 3/4; highest, 72 1/4; lowest, 71 1/4; closed, 72 1/4 @ 3/4. December corn opened at 59 1/2 @ 3/4; highest, 60 1/2; lowest, 59 1/2 @ 3/4; closed, 60 1/2 @ 3/4. December oats opened at 39 1/2 @ 3/4; highest, 40 1/2; lowest, 39 1/2 @ 3/4; closed, 40 1/2 @ 3/4.

Receipts and shipments were as follows: Flour, barrels, 60,000; 33,000; Wheat, bushels, 219,000; 127,000; Corn, bushels, 201,000; 67,000; Oats, bushels, 309,000; 384,000.

BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Adventure, 300 Mohawk, 50; Alouza, 200 Old Colony, 350; Arcadian, 200 Oseola, 100; Aral Copper, 3500 Troutmountain, 100; Baltic, 50; Phoenix, 100; Anaconda, 50; Santa Fe, 100; Copper Range, 300 Quincy, 100; Centennial, 100; Rhode Island, 100; C. & H., 15; Tamarack, 10; Elm River, 300; Franklin, 50; U. S. Mining, 100; Mayflower, 100; Utah, 200; Parrot, 50; Victoria, 150; Iron Range, 100; Winona, 400; Mass., 700; Wolverine, 400; Michigan, 700; Wyanotte, 100.

Wednesday's sales on the Boston stock exchange, in shares, were in part as follows: Adventure, 300; Mohawk, 50; Alouza, 200; Old Colony, 350; Arcadian, 200; Oseola, 100; Aral Copper, 3500; Troutmountain, 100; Baltic, 50; Phoenix, 100; Anaconda, 50; Santa Fe, 100; Copper Range, 300; Quincy, 100; Centennial, 100; Rhode Island, 100; C. & H., 15; Tamarack, 10; Elm River, 300; Franklin, 50; U. S. Mining, 100; Mayflower, 100; Utah, 200; Parrot, 50; Victoria, 150; Iron Range, 100; Winona, 400; Mass., 700; Wolverine, 400; Michigan, 700; Wyanotte, 100.

Lower Michigan.

The test well which has been going down at Grayling for some time past has struck rock salt, and should the vein prove thick enough to work profitably another good industry will be added to the lumber interests of that section.

The hay crop of Sanilac county this year is a record-breaker, but the farmer will not be able to get any more hard cash for it than in past years—not till spring, anyway. The inability to secure cars to ship it to market is the reason.

The plaster manufacturers of Grand Rapids take no stock in the report that a gypsum combine is being formed. The report stated that the leading concerns of the country were in the deal, but the three Grand Rapids companies rank among the big ones and they have received no proposition from the promoters of the alleged trust.

The resignation of Charles G. Turner of Traverse City as a member of the parson board has been accepted by Governor Bliss, who appointed ex-State Senator Charles W. Giddings of St. Louis, Gratiot county, to fill the vacancy. The term will expire on the 29th inst. but it is understood that Senator Giddings will be reappointed for the full term.

For nearly fifty days there have been lying in the Big Four yards at Benton Harbor 107 cars of steel rails for the West Michigan Traction company, and neither have they been released by the eastern steel company that shipped them nor has the \$1,650 freight charge been paid. The Big Four company has shipped the rails in the yard and will hold them for freight charges. The West Michigan Traction company is the proprietor of the proposed tunnel under Benton Harbor. This company, it seems, is unable to realize on \$1,500,000 bonds recently issued and, being at sea to meet its bills, has made a change in its officers at Benton Harbor.

Unless there is something done to keep the big seas from rolling into the harbor at Ludington this winter, the proposed harbor appropriation of \$75,000 will not go far toward improving the harbor next year. The prevailing winds this year have been from the west and north, and for the past two weeks there has been almost continually an unusually heavy sea rolling into the channel. This has had the effect of undermining large sections of the old slab dock between the ferry slip and the life saving station. There are about twelve acres of built-up land adjoining the washout, and if the wind and seas continue the whole tract will probably slide into the lake. Cracks and crevices along the shore show how the action of the waves is undermining the land.

It has endured the storms of imitation and competition, yet stands like the pyramids unshaken in the love and confidence of the people. Rocky Mountain Tea made by Madison Medicine Co. 35c. The Stafford Drug company.

Builds up the system; puts pure rich blood in the veins, makes men and women strong and healthy. Burdock Blood Bitters. At any drug store.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. No. 5c. 10c. O. C. Pills, druggists refund money.

COMBS THAT COMB. It's a question what some combs are made for: they don't comb. When combs fail to penetrate the hair it is because the teeth have been merely sawed out—they should be hand finished. Hand finished combs are the ones that satisfy, and we can sell you such combs for what you have paid for poor ones. Have a full line of pocket, dressing and fine combs. Some that are practically unbreakable. The latter cost more to begin with, but a good deal less in the long run.

COMBS THAT COMB. I suffered for months from sore throat. Electric Oil cured me in twenty-four hours. M. S. Gist, Havesville, Ky. Correct and life-like attitudes. Deer heads a specialty. Guaranteed moth proof. M. M. Stierle, 301 South Front street. (10-14-11)

OLD BROCTON WINE. Can be procured at Stafford Drug Co.'s store. (10-19-11)

HIGH ART TAXIDERMRY. Correct and life-like attitudes. Deer heads a specialty. Guaranteed moth proof. M. M. Stierle, 301 South Front street. (10-14-11)

MAYOR MANGUM WARM. His Honor Found Lake Street Like the Rocky Road to Dublin. Mayor Mangum was a little "warm under the collar" the other evening—at the session of the council—and administered a real hard "scolding" to the city dads in general. His honor recently had occasion to drive down the Cherry street road, and in going and returning he found Lake street in very bad condition and, as he put it, almost impassable for teaming. The thoroughfare is probably the most important leading into the city, being heavily traveled by farmers and others, and naturally the mayor was after somebody with a shovel stick. Mr. Mangum remarked that the road was full of boulders and heaps of dirt—of course, due to the railroad construction and the relaying of the gas mains, though that was no excuse—and that he had been informed it had been in that condition for the past two months. This was a state of affairs, he thought, it behooved the street committee to look into, the expression of which opinion brought out the remark from a member of the committee that it had not as yet found time to attend to their work, so many duties must of necessity suffer, and that anyway the street commissioner ought to keep his eyes peeled and remedy matters without being especially instructed to.

This drew the response from the chair that the committee had been appointed to look after certain phases of the city government, and that there was no excuse for any lax in this regard. His honor further stated that if he were an alderman and were a member of a committee, he would make it a point to see that all its duties were attended to, that if he found he was unable through any cause to do so, he would tender his resignation from the committee. The upshot of the matter was that the street committee promised to look into the matter of Lake street and have the railroad people or the street commissioner put the highway in passable condition.

ENJOYABLE EVENING. Guests of Peter White Had It at the Snowshoe Clubhouse. A merry time was had at the snowshoe clubhouse last evening by some one hundred and twenty-five friends of Hon. Peter White. Drs. Drummond and Craig of Montreal were the honored guests, and Mr. White acted as the master of ceremonies. Announcement in advance that "Pierre LaBlanc" would officiate at that position assured a thoroughly enjoyable evening, and not one of the gathering, which dispersed at a late hour, came home disappointed.

Cars boarded at 6 o'clock brought the great majority of the guests to the club, where the serving of a toothsome luncheon and the program of the evening then began. There was dancing and the recitation by Dr. Drummond of several dialect pieces of his own composition. These caught the house, so to speak, particularly that relating to the "Cure of Calumet." Dr. Craig sang two selections in splendid style, spending the evening in the "light fantastic" rendition of "Kelley and Burke," and paraded entertained its auditors. Dancing concluded the evening's enjoyment, winding up one of the jolliest informal social gatherings held in a long time. Drs. Drummond and Craig, who have been spending the deer hunting season at Peter White's camp, leave today on their return to Montreal. Dr. Drummond, who is a writer of note, is the author of the famous history of Marquette with its pleasing reference to Mr. White, mentioned recently in these columns.

METAL MARKET STRONG. But Bullish Statement by Stanton Has No Effect on Speculation. John Stanton, that noted authority on the copper situation, was out yesterday with a bullish summary of the position of the red metal, but aside from confirming the general belief in the strength of the situation it had no effect as far as speculation was concerned. The market of steel and iron was firm, the offerings continued very meagre, pressed a tight squeeze when the shorts do attempt to cover. As one brokerage concern said in its daily letter, "holders have no occasion to be worried," but it would brighten them up a little to see a stronger and livelier market.

Paine, Webber & Co. said: "There have been no new developments in the copper situation today. John Stanton is quoted as saying he believes the Metals Selling company has worked off a large portion of its supplies and that there will be only a few months' supply. The demand for copper is very strong. The supply of good copper stocks continues small; at times today there was next to no offerings on the exchange at any price. We do not feel that holders have need for much worry." The Stanton interview referred to above was also telegraphed here by Paine, Webber & Co. It was from yesterday's Boston News Bureau, and was as follows: "John Stanton, who has recently returned from an extended trip to the lakes, says: 'It is possible, but hardly probable, that the United Metals Selling company will reduce the price of refined copper. The electrical field has been only partially developed and within a very few years there will not be nearly enough copper to supply the demand, and of course the price must advance as the demand exceeds the supply. It will be able to talk the substitution of platinum for copper as an electrical conductor, since the supply of platinum is settled. All recognize that copper is indispensable and while the supply is for the moment slightly in excess of the demand, this condition will last but a short time. I believe that practically all the larger producers will agree to curtail production until the demand catches up. There has been a better demand lately among consumers for copper, and buyers are urging quick deliveries. Many producers outside the Amalgamated concern have been compelled to turn away business simply because they found themselves unable to make deliveries within the time required. The Amalgamated has undoubtedly been able to work off a large part of its surplus stock. The fact that copper exports have been increasing in recent months is an important factor in the situation.'"

Hayden, Stone & Co. wired the Laidley Commission company: "There is absolutely nothing to tell on coppers today." HIS MIND DERANGED. Young Miller, Who Shot Britz for Deer, Found at Carlshead. News reached the city yesterday that George Miller, the boy who shot and killed Matt Britz several days ago in mistake for a deer, had been found at Carlshead, to the east of Lathrop on the Munising railroad. The lad was found at the home of a homesteader by his father and several friends who had conducted the search since young Miller disappeared. It is said the boy has gone insane, or that his mind is badly deranged, and that he knew nothing of his wanderings. Young Miller was taken back to his home at Lathrop during the day. CITY BREVITIES. Today's weather: Partly cloudy, light variable winds shifting to southeasterly probably becoming fresh. M. E. Ashe has returned from Chicago. F. O. Clark got back yesterday from Lansing. Tom Harris of Lake Linden was a visitor in the city yesterday. Marquette lodge of the Knights of Pythias will meet this evening. The second dance of the series of Masonic parties to be held this winter will take place Friday evening of this week. All bills against the county should be handed in at the clerk's office by this evening to assure their payment this month. Captain Parker's fish tug Theora is again in commission, being engaged in conveying machinery and boilers to the new saw mill at Big Bay. Lansley & Co., located in the old L'Hullier stand on Washington street, are advertising a special three-day sale. Note their ad in another column. The steamer Schuykill left Buffalo on the 16th and is expected here about Friday. It will be the last of the Anchor line boats in here this season. The curtain at the opera house this evening will rise at 8:10 o'clock sharp. Those who agreed to take tickets and have not already called at Bigelow's are requested to do so this morning. The steamer Buell arrived yesterday with sixteen carloads of general freight consigned to Marquette parties. Included in the lot were about four carloads of pipe for the gas company. The St. Paul train arriving here yesterday morning made an unusually fast run from Milwaukee. It left that city two hours late, the Chicago train having been delayed, and pulled into Marquette about on time, the distance being made in eight and a quarter hours. The social reunion held by the members of St. Agnes' school last evening in A. O. U. W. hall proved to be the enjoyable affair anticipated and the children are eagerly looking forward to a repetition of the same. Harry Siegel, Mrs. Jellison and Mrs. Little captured the prize cake for the best cake-walkers, about 5 o'clock last evening the fire department had a long run up Washington street—to the lumber plant of F. W. Read & Co. The blaze was in the shavings bin in the engine house, and was drowned out in short order. The loss is but nominal, but as usual the fire effected considerable excitement. One of the largest boats ever to put into the harbor is the Steinbrenner, which arrived at the L. S. & I. dock yesterday. The steamer, which has just been completed, is here on its maiden trip and will take out about 6,200 tons of ore. It is built of steel and is 440 feet in length. The Steinbrenner belongs to the Minch fleet of Cleveland. J. J. Wirtz has accepted the agency for Frederick E. Parker & Co., brokers of Chicago, and offers some rare inducements to investors. The earnings range from 30 to 40 per cent. monthly, the business being conducted on the cooperative plan. Further details can be learned by a perusal of Mr. Wirtz's ad. The attraction at the opera house next Monday evening will be the favorite melodrama "The Span of Life" with its thrilling sensational effects, strong situations, beautiful heart story, brilliant scenery, marvelous mechanical effects, its great lighthouse scene and the daring and skillful formation of the human bridge by the famous Donazetta trio of acrobats. One of the largest and most enjoyable dances of the year was held in Fraternity Hall last evening, when Dixy Queen gave, L. O. T. M., entertained. About 400 persons were in attendance, and the affair was not only a great success financially but socially as well. Supper was served to nearly 300 of the dancers. As concerns the quilt, No. 129 should see the committee. The Washington street car is to be operated this winter, and the work of clearing the track will be commenced this morning. The decision to again put on the car is because the skating rink at the Polygon works is shortly to go into commission, the plan of building a new rink having been shelved for this season. It is expected the rink will be ready for the skaters by the first of December. The attention of the council has been called to the condition of Spruce street, where, it is said, the street car people in plowing the snow from the tracks have so filled up the thoroughfare that two teams cannot pass each other, and that only one side of the road is suitable for teaming. The committee on public conveniences will look into the matter and will also see that the occurrence does not happen again either on Spruce street or any other in the city. Beautifying methods that injure the skin and health are dangerous. Be beautiful without discomfort by taking Rocky Mountain Tea. Sunshine faces follow its use. 3c. The Stafford Drug company.

One of the largest boats ever to put into the harbor is the Steinbrenner, which arrived at the L. S. & I. dock yesterday. The steamer, which has just been completed, is here on its maiden trip and will take out about 6,200 tons of ore. It is built of steel and is 440 feet in length. The Steinbrenner belongs to the Minch fleet of Cleveland. J. J. Wirtz has accepted the agency for Frederick E. Parker & Co., brokers of Chicago, and offers some rare inducements to investors. The earnings range from 30 to 40 per cent. monthly, the business being conducted on the cooperative plan. Further details can be learned by a perusal of Mr. Wirtz's ad. The attraction at the opera house next Monday evening will be the favorite melodrama "The Span of Life" with its thrilling sensational effects, strong situations, beautiful heart story, brilliant scenery, marvelous mechanical effects, its great lighthouse scene and the daring and skillful formation of the human bridge by the famous Donazetta trio of acrobats. One of the largest and most enjoyable dances of the year was held in Fraternity Hall last evening, when Dixy Queen gave, L. O. T. M., entertained. About 400 persons were in attendance, and the affair was not only a great success financially but socially as well. Supper was served to nearly 300 of the dancers. As concerns the quilt, No. 129 should see the committee. The Washington street car is to be operated this winter, and the work of clearing the track will be commenced this morning. The decision to again put on the car is because the skating rink at the Polygon works is shortly to go into commission, the plan of building a new rink having been shelved for this season. It is expected the rink will be ready for the skaters by the first of December. The attention of the council has been called to the condition of Spruce street, where, it is said, the street car people in plowing the snow from the tracks have so filled up the thoroughfare that two teams cannot pass each other, and that only one side of the road is suitable for teaming. The committee on public conveniences will look into the matter and will also see that the occurrence does not happen again either on Spruce street or any other in the city. Beautifying methods that injure the skin and health are dangerous. Be beautiful without discomfort by taking Rocky Mountain Tea. Sunshine faces follow its use. 3c. The Stafford Drug company.

ley Commission company: "There is absolutely nothing to tell on coppers today." HIS MIND DERANGED. Young Miller, Who Shot Britz for Deer, Found at Carlshead. News reached the city yesterday that George Miller, the boy who shot and killed Matt Britz several days ago in mistake for a deer, had been found at Carlshead, to the east of Lathrop on the Munising railroad. The lad was found at the home of a homesteader by his father and several friends who had conducted the search since young Miller disappeared. It is said the boy has gone insane, or that his mind is badly deranged, and that he knew nothing of his wanderings. Young Miller was taken back to his home at Lathrop during the day. CITY BREVITIES. Today's weather: Partly cloudy, light variable winds shifting to southeasterly probably becoming fresh. M. E. Ashe has returned from Chicago. F. O. Clark got back yesterday from Lansing. Tom Harris of Lake Linden was a visitor in the city yesterday. Marquette lodge of the Knights of Pythias will meet this evening. The second dance of the series of Masonic parties to be held this winter will take place Friday evening of this week. All bills against the county should be handed in at the clerk's office by this evening to assure their payment this month. Captain Parker's fish tug Theora is again in commission, being engaged in conveying machinery and boilers to the new saw mill at Big Bay. Lansley & Co., located in the old L'Hullier stand on Washington street, are advertising a special three-day sale. Note their ad in another column. The steamer Schuykill left Buffalo on the 16th and is expected here about Friday. It will be the last of the Anchor line boats in here this season. The curtain at the opera house this evening will rise at 8:10 o'clock sharp. Those who agreed to take tickets and have not already called at Bigelow's are requested to do so this morning. The steamer Buell arrived yesterday with sixteen carloads of general freight consigned to Marquette parties. Included in the lot were about four carloads of pipe for the gas company. The St. Paul train arriving here yesterday morning made an unusually fast run from Milwaukee. It left that city two hours late, the Chicago train having been delayed, and pulled into Marquette about on time, the distance being made in eight and a quarter hours. The social reunion held by the members of St. Agnes' school last evening in A. O. U. W. hall proved to be the enjoyable affair anticipated and the children are eagerly looking forward to a repetition of the same. Harry Siegel, Mrs. Jellison and Mrs. Little captured the prize cake for the best cake-walkers, about 5 o'clock last evening the fire department had a long run up Washington street—to the lumber plant of F. W. Read & Co. The blaze was in the shavings bin in the engine house, and was drowned out in short order. The loss is but nominal, but as usual the fire effected considerable excitement. One of the largest boats ever to put into the harbor is the Steinbrenner, which arrived at the L. S. & I. dock yesterday. The steamer, which has just been completed, is here on its maiden trip and will take out about 6,200 tons of ore. It is built of steel and is 440 feet in length. **...YOUR FATE...
 Is in Your Hand.**
 Madame Cheiro the Celebrated Scientific Palmist, and Clairvoyant, sister of Cheiro the world renowned Palmist, whose book on Palmistry is the only recognized authority in the world, is in the city for a short time only. She comes from the copper country where she has been for the past three months, and she comes endorsed by the best people there. The Madame's readings are based on science only, and should not be compared to the cheap incompetent people who usually travel as Palmists and Clairvoyants.
YOUR HAND
 betrays your life, past, present and future, and will tell you whether you will be a success or failure in your business, also what you are best adapted for, in fact there is no trouble, no matter how great, that cannot be advised upon and told its outcome. Madame Cheiro prophesied McKinley's death, and has a print of his hand on exhibition.
 She prophesied Gov. Tanner's defeat and death; also Bryan's defeat at the beginning of his career. She has been consulted by Ex-President Grover Cleveland, Miss Rose Cleveland, Madame Patti, Lillian Russell, Ellen Terry, H. T. Stead, Editor Review of Reviews, London, England, and a host of others too numerous to mention.
 The Madame can be consulted daily at the Nelson House Parlors. Her prices are: Palm Reading \$1.00 and \$2.00; Clairvoyance, \$3.00.
 HOURS: 10 A. M. to 9 P. M. daily.

 (Additional Ishpeming on Page 2.)
RIBERTY'S BODY RECOVERED.
 Workmen Succeed in Finding It at the Lake Superior's No. 6 Mine.
 On the 29th of August Edlford Riberty, a carpenter in the employ of the Lakes Superior Iron company, was carried in to No. 6 mine by a cave-in from the surface. He was working on top, making some changes about a pulley stand that rested on the ground, and the earth dropped before he had time to get away. A few minutes before the unfortunate man went down he was warned by the dropping of ground near by, and he moved from the place where he was working. A few minutes later he concluded to return for the tools he had left behind, and while in the act of recovering them the cave-in occurred.
 The task of recovering the body was started soon after, and the work has progressed night and day ever since. The undertaking was difficult and it was necessary to exercise unusual care and good judgment in possessing the work, as the loose ground through which the men had to work was moving almost constantly.
 The body was recovered yesterday afternoon between 3 and 4 o'clock. On Tuesday the workmen first saw part of the body. One arm and a part of one leg were visible, but it was impossible to get at it just then, as additional timber was necessary to keep the dirt from falling. The men worked cautiously and the rock was removed from around the body a little at a time. Between the time it was first seen and when it was taken out three complete sets of timber were put in. For a time yesterday afternoon the body hung suspended by one foot, but even then the removal of the few rocks that held it fast could not be attempted without proper timbering.
 The news spread about the location during the day that the body would be recovered at almost any moment, and when it was finally brought to surface there were hundreds of persons standing on the bank.
 Captain John McEnroe was in charge of the work and it is to his credit that it was so successfully completed, as the driving of the drift and the sinking of the shaft was a most difficult task. The ground was treacherous at all times and it was often feared that the sides of the shaft would come together. The depth of the shaft was forty-five feet. Something like fifty feet of drifting was done before the shaft was started. Stopes were run in all directions at the top of the shaft, also at different points while the sinking was being done. It was supposed the body would be found at a point directly below where the carpenter went down, but he was carried off some distance and taken below the hanging. It was in one of the stopes that the workmen first discovered they were going in the right direction. The feeling of something soft, which later proved to be the man's clothing, was the first indication that they were near the body.
 The Lake Superior people have expended quite a sum in the work and they are commended by the dead man's friends in what they have done. The officials are pleased that they were successful in recovering the body.
 A coroner's jury was empaneled yesterday afternoon and after the body had been viewed an adjournment was taken until today, when witnesses will be summoned to appear before the jury and give testimony in the case.
 Riberty was a member of the French tent of the Macabees of this city and also of the local French organization. He held an insurance policy in the former for \$2,000. This will now be paid to the widow. Payment has been held pending the finding of the body.
Hard Colds—People whose blood is pure are not nearly so likely to take hard colds as are others. Hood's Sarsaparilla makes the blood pure; and this great medicine restores the system after a cold as no other medicine does. Take Hood's.
 Our business is increasing daily. It's all because we give better values in all lines. You should call. Finnish Mercantile association. (10-25-17)

TRYING TO GET FOOTBALL GAME.
 Effort Being Made to Bring Some Strong Team Here from Outside.
 The management of the Ishpeming high school football team has kept the wires pretty warm all this week in an effort to induce a good team to come to Ishpeming next Saturday afternoon. Telegrams were sent to the high school elevens at Marinette, White Water, Appleton and Oshkosh, said to be the four strongest teams in Wisconsin. Replies had been received last evening from the three first named, all to the effect the elevens are unable to come. It is expected the Oshkosh team will be heard from this morning. An invitation was also extended to the Ashland and Duluth elevens, but these two come together at Duluth on Saturday, so that neither could accept it.
 Mr. Mayne thinks Lansing stands a good chance of winning the pennant in the lower peninsula. In every game the team has played, the chance has been above 50, while the opposing teams have not scored a point. The team is either very strong or the elevens it has played are very weak. The former seems most probable, so that if Ishpeming meets Lansing for the state championship the local players will have no easy task.
 The boys are out every evening for an hour or two and they will continue their practice work until the day before they leave for the lower peninsula.

CHURCH BAZAAR TUESDAY.
 The ladies of Grace church have decided to hold their bazaar Tuesday afternoon and evening of next week at the Anderson hall. Preparations for the bazaar have been under way for several weeks past. The ladies have been busy making fancy and useful articles to be sold from the tables. There will be three tables, one conducted by the Women's auxiliary; one by the Chancel society and one by St. Agnes' guild. On the tables will be found many things that will be suitable for holiday gifts. The ladies of the Chancel society will also conduct a candy table. Fancy home made candies will be on sale at very reasonable prices. Miss Carrie Sweet will have charge of a cake and pie table. These articles will be fresh and there will be a large supply on hand. Supper will be served, commencing at 5:30 o'clock and continuing until all have been waited on. The charge for the meal will be only twenty-five cents.

DROWNED AT DULUTH.
 Charles Velanecy, a young man quite well known in Ishpeming, was drowned at Duluth Tuesday evening, while skating. He spent nearly a month in the city recently, visiting Guy Canfield, and during the time he was here made many friends. Mr. Canfield received a telegram yesterday advising him of his friend's fate. The deceased was employed in the hardware house of Marshal, Wells Co.

THE TURKEY SHOOT.
 The local men who will conduct the turkey shoot on Thanksgiving day at the hill where the ski tournament took place last winter in the eastern part of the city are planning on giving all who participate in the sport a whole lot of fun. They have arranged to deliver a number of turkeys to the winners and there will be no shortage, no matter how many prizes are won. Clay plates will be used as targets.
FINE DRAFT HORSES.
 Parties wanting fine draft horses for work in the woods or elsewhere will find it to their interest to call at our stables and examine the new ones just received. Call early as they are going rapidly. G. W. Kaufmann & Son, Pearl street, Ishpeming. (11-21-17)
 The crowds do not visit our store for mere curiosity. Can't you guess? It's bargains. We have snaps in clothing and dry goods. Finnish Mercantile association. (10-25-17)

BOLLMAN WAS MURDERED. Former Negauneeite Killed by Robbers in His Saloon at Rhinelander, Wis.

The Herald of Rhinelander, Wis., a copy of which arrived in Negaunee yesterday, gave the following account of the murder of Ernest Bollman, whose death was mentioned in yesterday's issue.

Ernest Bollman, who keeps the Little Jumbo saloon in the district known as 'hungry hollow,' was found dead in his place of business last (Friday) night between the hours of 10 and 11 o'clock.

Bollman was a married man, twenty-eight or thirty years of age, and was not of a disposition that would cause him to commit suicide, and while a few believe it may have been self destruction, everything goes to show it was not.

Bollman was a married man, twenty-eight or thirty years of age, and was not of a disposition that would cause him to commit suicide, and while a few believe it may have been self destruction, everything goes to show it was not.

Champion.

A daughter was born Sunday to Mr. and Mrs. Fred Libbey.

Miss Francis Gerome has visited Ishpeming friends during the week.

Charles Eichenbaum has been in town the past few days visiting friends.

Anthony Nord, the grocer, was on the sick list the latter part of last week.

Henry Mayott has taken a position with Harry Davidson.

Miss Esther Levine of Republic spent Sunday in Champion visiting her uncle and aunt, Mr. and Mrs. Jake Levine.

James Garrison shot a fine buck weighing 196 pounds one day last week.

The cheap rate of fare from Marquette county points to the copper country were taken advantage of by several Champion people Sunday last.

Adolph Horngren is suffering from a sprained ankle, caused by a fall from the snow fence being built along the St. Paul line leading to the Champion mine.

Mrs. F. Beauchamp was up from Escanaba early in the week visiting her husband, who is conducting logging operations in the woods out from Champion.

Sam Davey and wife have given up the management of the big boarding house at Beacon.

Ed and George Tourville, John Parent and Albert Plankey of this place took in the Marquette-Negaunee football game at the Union park grounds last Saturday.

The employees of the Champion Iron company were paid on Friday last week for labor performed in October.

Eddie Gill, the lad who ran away from his uncle's home here a week ago last Sunday, has gone to his people at Munising.

Mrs. George Hutchins has returned to her home at Ely, Minn., after spending a few weeks with relatives here.

Albert Lamont, who held a job as cook in the Silverthorn Lumber company's camp, out from here, one day last week and went to Baraga, where he accepts a similar job with a concern doing business there.

Several Champion men spent Sunday on Lake Michigan searching for the bodies of the four young men drowned there Nov. 3.

Charles Penil, a well known resident of the village, has gone to Greenland, where he expects to remain permanently.

The jobs operating the camps out from Champion are doing good work.

The Champion House, under the management of Archie Abbott, was opened for business the latter part of last week.

G. A. Lindstrom, the baker, has a few of Ira R. Hicks' celebrated almanacs which he will sell to parties wanting them.

George Dishno had an unpleasant experience one of the stormy days of last week.

The Bessemer Herald of last Saturday had the following mention of the death of a former resident of Champion:

A telegram received by Mr. and Mrs. P. V. Dishno on Monday announced the death of their eldest daughter, Mrs. Ray Richards, at her home in Butte City, Mont.

George W. Wink, representative of the Menominee house of Carpenter-Cook company, did business in Champion the latter part of last week.

The Blues

is one signal which foretells physical decay. Another is pale lifeless skin.

The muscles shrink and become flabby; the body becomes emaciated, and there is an early tendency to round shoulders.

This condition is called Nervous Debility. It is cured by the use of

Sexine Pills

They feed the hungry nerves, revive the weakened organs and make life brighter and sweeter to any man or woman who has suffered from physical drains.

Sold Only at PEOPLE'S DRUG STORE, Marquette.

SLAUGHTER GREAT

HUNDREDS OF DEER DAILY
KILLED BY HUNTERS.

NEW LAW EASY TO ROUND

SUCCESSFUL NIMRODS USE UP
OTHERS' COUPONS.

Does Not Appear at All Difficult to Buy
Venison on the Quiet, and the \$25
Fee Does Not Keep Non-Residents Out.

The reports published in outside papers to the effect that the \$25 license fee charged non-resident hunters, with other features of the new game law, would have the result of curtailing the annual deer slaughter, is not borne out by information reaching here from every section of the upper peninsula. The killing is not only not curtailed, but it is showing an increase over last year's unprecedented record.

In years past the number of nimrods from outside the state to visit the woods of northern Michigan has been very small, the upper peninsula not being the Mecca of "the Ohio hunter" of whom so much peevishness has been heard in northern Wisconsin. The non-residents who have come to Michigan have been men who in the main came for the sport of hunting, not for pot-hunting purposes, and have been men to whom the payment of almost any fee would be immaterial. Though always small in numbers, the outside hunters are here again this year, and if it was desired to keep them out by enforcing a tax of \$25, that part of the new law may be classed as a failure.

That portion of the game law which prohibits the sale of venison may also be said to be, if not a dead letter, equally inadequate to cut down the slaughter. In the first place, it has stimulated the license business, in every county more hunters having taken out permits than last year, men who in past seasons have purchased their venison now being numbered among the nimrods. Many of these, novices in hunting, go to the woods with friends more conversant with the ways of the deer, and when the party returns to town the novice is found to have been as fortunate as his companions—who has killed his deer, however, is a mystery. It is the same way with the lower Michigan hunters who are in the upper peninsula woods; at least it cannot well be doubted that the more fortunate shots are not only up their coupons but those of their associates as well. As to the sale of venison itself, there is little question that those who desire the meat have little trouble in securing it. The hotels and restaurants only seem to be hit by this provision.

This season there are not only more local nimrods in pursuit of game, but the hunters from other sections of the state are largely in excess of last year according to a perusal of the upper peninsula papers which come to this office. In Chippewa county alone, it is estimated there are several thousand outside hunters, particularly in the vicinity of Eckerman and Strongs, while the woods in other counties in the eastern end of the peninsula also fairly teem with southern Michigan men. The deer killed by these hunters probably number hundreds daily, and with those sent in by the home nimrods the express companies, farmers and livermen are kept busy handling the carcasses. That the deer will not last long at the present rate of slaughter is a fact generally realized here; and one solution offered is to prohibit the killing of the does. As far as Marquette is concerned, the number of does being brought in is in excess of the bucks, and the rule probably holds good in other sections.

So far this season, the list of hunting

(abilities—that is, where men have been mistaken for deer and shot—has been remarkably small despite the fact there are more nimrods in the woods than ever before. So many cases have occurred in past years that the taking of precautions has been stimulated. It is no uncommon sight nowadays to see hunters girded in fiery red sweaters or jackets, while several instances are chronicled, where landowners and others who have occasion to go into the woods wear cowls around their necks.

Notes of the Chase.
Mr. and Mrs. August Thoney and a party of friends left yesterday to spend a week hunting deer in the vicinity of the Thoney cottage, this side of Sauk's Head. Mrs. Thoney has taken out a hunting license and left with the intention of bagging at least one deer.
Fred H. Begole is through deer hunting this season, having killed three of the animals and thus cancelled his coupons.

Dan Curry has so far killed two deer in the woods near his logging camp at Nestoria. One was a buck which Dan claims weighed 240 pounds. None larger have been reported killed this season.

Clerk Yeazel of the Hotel Marquette, Fred Needham, Frank Hoard and two other gentlemen, who have been in camp near Chatham, Alger county, made a killing of fourteen deer—at least one of the party seen yesterday "made oath" to that effect.

Traveling Engineer Green, in referring to the speed of deer, says that the other day the South Shore passenger train running west to Baraga separated a doe from her two fawns. The engine was making fully thirty miles an hour, but despite this the doe ran on the track ahead of the locomotive and then crossed over to the side on which were the fawns. It was apparently no great effort for the deer to make that speed.

Last week Peter Hansen of Ontonagon shot a deer which he found in deplorable condition. A piece of telegraph wire was imbedded in the flesh about the neck, and on the animal being cut open it was discovered that the flesh as well as the entrails were in an advanced state of decomposition. The wire is thought to have been part of a snare set for fawn. The animal was left where it had fallen.

John Dooley is responsible for the story that a certain young hunter residing within a hundred miles of John's house went out in the woods near Forestville on Monday in quest of one of the wolverines which have been seen in that locality recently. While stalking through the brush he got sight of a deer. Taking careful aim he was about to blaze away when it occurred to him that he had no license. Of course he did not care to violate the law, and so stole carefully away and returned forthwith to town. He was over to the court house bright and early the next morning waiting for County Clerk Ross, and when that official opened his office the young hunter "ponyed" up his seventy-five cents and was in possession of the legal right to bring in venison. He immediately took to the woods, and, strange to say, about just where he had seen the deer the day before, he again spied the animal, this time with fatal results to the member of the Cervus Virginianus family. Friends of the young gentleman—and of Mr. Dooley—are suspicious that the deer was tied up, or rather hung up, when the hunter again attended his way to the woods with his license, but this is totally ungrounded according to John.

SMEATON STILL STICKS.
Three Tugs Unable to Stir the Schooner
Fast on Au Train Shore.

After nearly three days spent at the scene, the tugs Favorite, Schenck and Bosobel yesterday gave up the attempt to release the big steel schooner John Smeaton, stranded near Au Train, and returned to the city, the Favorite clearing in the afternoon for Chicago. The steel vessel is on a rocky bottom, and the tugs were unable to stir her. It is evident that the bottom of the craft is quite badly punctured, or else a rock is projecting up through the hull, as four of the eight compartments are full of water. The Smeaton lies about 250 feet from deep water. The crew is still aboard. All hope of freeing the boat this season has not been abandoned. Captain Kidd, of the Pittsburg Steamship company, being still here, but what other measures are to be taken have not yet been decided. The general opinion is that a relaunching will be necessary.

BUILDING ERECTED IN A DAY.

One of the quickest feats in the building line ever performed in the city was enacted one day early in the week on Third street just north of Ohio. It became necessary for Lindstrom & Co., dealers in meats, to change the location of their stand in short order. Accordingly, the corner lot was purchased, and bright and early the next morning carpenters were at work putting up a structure in which to house the market. By nightfall, the building—of course a small one—was completed, and Lindstrom & Co. was attending to customers as if there had been no interruption. The little structure is intended for but temporary purposes, and already a larger and permanent building is going up at the corner which the meat men expect to occupy by the first of the week.

BAND CONCERT THIS EVENING.

The sale of the seats yesterday guarantees that a big assemblage will greet the Calumet & Hecla band this evening at the opera house. The demand was heavy, and by nightfall the chart was pretty well thinned out; there are a few choice seats remaining, however, particularly in the first three rows of the parquette, and those who signed the subscription list and who have not yet called at Bigelow's should do so this morning. It is promised by Colonel Cox that the concert will be a musical treat never before equalled here.

HARBOR OF REFUGE

SCHEME TO CONSTRUCT A BIG
ONE HERE.

TO SHELTER HUNDREDS OF BOATS

COUNCIL TAKES FAVORABLE ACTION
IN MATTER.

Petition Is to Be Laid Before Congress
and a Committee Appointed by
the Mayor to "Lobby" for
the Appropriation.

A movement has been launched, or rather relaunched, having for its object the making of this port a harbor of refuge commensurate with the growing importance of the commerce of Lake Superior. The plan is to persuade congress to appropriate sufficient funds for the construction of a breakwater running about in line with the present structure and extending in the direction of Rock point, and another jutting out from the shore at the latter point and extending to nearly a junction with the other. This scheme will allow two entrances for vessels, and will at the same time afford ample and safe anchorage for a fleet of several hundred boats.

The proposition came before the council at its meeting Monday evening in the form of a communication from Hiram Burt suggesting the petitioning of congress and enclosing a draft of the document to be presented to the nation's senators. It was received with much favor, and a resolution, offered by Alderman Ball, was adopted requesting the mayor to appoint a committee of three prominent citizens, with himself as a member of ex-officio, to lay the matter before the national legislature. The move is a commendable one, the necessity for the proposed work could not well be greater, and the scheme should be pushed with all vigor. The draft of the proposed petition to congress formulated by Mr. Burt outlines the great benefit of a harbor of refuge at this point, and is published in full as follows:

The common council of the city of Marquette respectfully represents to your honorable body that there is urgent need of a further extension of the breakwater at this city; in fact, for its completion, at as early a day as possible, in accordance with the plans presented on the accompanying map, which, we understand, is in harmony with the plan approved by the board of engineers some years since having under consideration the project to make at this port a harbor of refuge commensurate with the requirements of the growing commerce of Lake Superior.

The project of making a harbor of refuge at Marquette is an old one, and has always had the support of the lake transportation interests. It is sixteen years since this body called the attention of congress to the importance of extending this breakwater, with the result that 1,000 feet was added, making the total length of the breakwater about 3,500 feet, at a total cost of \$501,230.

At that time the great vessel owners had much to say of the importance of Marquette as a harbor of refuge. Captain Thomas Wilson, managing owner of ten of the largest steamers and consort on the lakes, then said: "The importance of Marquette as a place of refuge for vessels is hardly second to its importance as a commercial port. I know of no harbor on the lakes whose importance is greater, or to which immediate attention should be given, than that of Marquette, which is more deserved than Marquette."

Captain Geo. P. McKay, a pioneer navigator of Lake Superior, manager of the Cleveland Transportation company's ten steamers and consorts, said: "The manager of this company has for thirty-four years, as sailing master, owner and manager, been familiar with the requirements and necessities of the several great ports on the lakes, and he knows of no harbor on all the lakes whose demands are more urgent at the present time than the harbor of Marquette. We hope that congress will give immediate attention to the harbor of Marquette, and make liberal appropriation therefor."

W. D. Rees, president of the Republic Iron company and manager of its fleet of ore carriers, said: "It is well known that the harbor at Marquette is insufficient at times to accommodate the vessels that load and discharge at that port, together with those running in for protection from storms on their way up and down from the head of Lake Superior."

David Whitney, Jr., of Detroit, owner of many of the largest class of vessels, said: "The importance of the proposed enlargement of Marquette harbor can hardly be overestimated, either to vessels engaged in direct Marquette trade or to those who may be obliged to trade it as a harbor of refuge, as the present and fast increasing crowded state of the harbor is the cause of much inconvenience and often serious injury to vessels."

Other owners and managers reiterate or endorse the statements above set forth, among whom we mention: Evans, of Buffalo, manager Lake Superior Transit company; Ward, Detroit, manager Ward's Detroit and Lake Superior line; Spencer, secretary Lake Michigan and Lake Superior line; Winslow, Cleveland, a veteran ship owner; Bradley, the largest individual owner of vessels on the lakes; H. J. Webb & Co., controlling vessels of 200,000 tonnage; Moore, Barlow & Gibeister, C. P. Minch, H. H. Brown, Palmer & Johnson, Cleveland; Farwell, P. J. Ralph & Co., Parker & Mellen, Detroit; Ira Owen, of Escanaba & Lake Michigan Transportation company, Chicago, who said: "I can safely say that there is no harbor on our lakes that is more in need of increased room than Marquette."

The interval of fifteen years has not lessened the importance of this port, both as to local commerce and as a harbor of refuge to through commerce. The local commerce has grown from a million of gross tons to three million. The size of vessels entering the port has grown from 2,500 tons to 8,000 tons, and

from a length of 250 to 300 feet, and boats of this size to forty feet to those having a length of 500 feet and beam of fifty feet.

For the past two days there have been sheltered here more than thirty vessels, which have sought this harbor as a refuge from the northwest storm that caught them in mid-lake, and at other times since the fall storms began the harbor and docks have been crowded with boats, whose only reason for being here was shelter. How many have thus come to this port cannot be exactly stated, but it is known that the number exceeds 200.

No dredging has ever been done by the government in this harbor. Nor is any required to permit the deepest laden craft to float in safety within the harbor limits, if made on the plan here presented. When completed according to this plan the harbor will have an area of about one (1) square mile available for craft at anchor, the length being two miles from Light House point to Point of Rocks on the southern shore line and an average width of half a mile of anchorage water.

We respectfully submit that this project is none too large to meet the requirements of the near future, and that it will be adequate for years to come.

The conditions for economical construction are exceptionally good, as has been attested in the past in the construction of the existing breakwater. Especially commending to the congress, for its consideration, the importance of this work to general commerce, separate and apart from all local considerations, and hoping for favorable action, your petitioners will ever pray.

GREAT LUCK OF AN EDITOR.
For two years all efforts to cure Eczema in the palms of my hands failed," writes Editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases! Only 25c. at Stafford's.
