PRICE FIVE CENTS.

THE DALLY MENNER JULINATE THENDAR STREET, NOTIENDERS, NOTIENDERS, 1901

THE DAILY MINING JOURNAL: TUESDAY MORNING, NOVEMBER 26, 1901.

(Additional.)

The book-keeper's nation renders him specially liable to stomach trouble. The hasty breakfast, the "quick hunch," the long hours spent in stooping over journal and ledger, with lack of exercise, all tend to the derangement of the stomach.

When the stomach is in a healthy condition the feeling after a meal is one of satisfaction and comfort. Whenever there is discomfort after eating it is a sign of stomach derangement or disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition perfectly this medicine are almost countless.

"I have taken one bottle of Dr. Pierce's Golden

ing unpleasant feelings." Don't be fooled into trading a sub-stance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every medicine. There are cures behind every claim made for the "Discovery," which for the coming year. no "just as good " medicine can show.

Dr. Pierce's Pleasant Pellets cleanse produce permanent benefit and do not react on the system.

LIFE IS GROWING LONGER.

From statistics and the result of cerain changes in the methods of living, it has been proven that the span of life is being lengthened. We are justified in believing this when we consider the great advances made in medicine during the past fifty years. The most noteworthy of them being Hostetter's Stomach Bitters, the old reliable for all ailments of the stomach, liver and bowels. It cures dyspepsia, indigestion, constipation, headache, sour stomach, belching, heartburn and biliousness. It is the best medicine in the world for run down systems, and has a record of fifty years

You can tell by the smell of Omega Oil that it is different from any other liniment you ever saw. It has a peculiar and pleasant odor. Besides being the best remedy in the world for stopping pains, it is also the nicest to use. It is not made of turpentine or ammonia, but the body of it is a pure vegetable oil. Into this oil is put four other ingredients, one of which is a green herb that stops pain a good deal on the same principle that a puff of wind blows out a lamp, or water quenches a fire.

A. B. Miner of the Miners' National Bank, has been appointed trustee for L. A. Proulx, who failed in business here ibout three weeks ago. The books are now in the hands of the trustee and the accounts of those who were indebted to Proulx at the time of . the failure are

being footed up and bills will be sent out within the next few days. Many of the

nother skip in the shaft that is used clusively for lowering timber into the For Thanksgiving Dinner! There is an immense amount of tim er piled in the vicinity of the mine. light men are employed steadily cutng the timber for the sets going in. chile several more are engaged in transerring it to the shaft. Three men stand at the shaft all day long loading it into the skip. More timber is going into the Cleveland Lake than is used at ny other mine in this section. The lake bottom presents a forbidding ppearance. The ground is gradually

opping as the stopes underneath ar corked out and now there are a number f treacherous holes in the bottom or the old lake. A number of pumps are operated day and night to keep the water from the basin. In this way the mud below is gradually drying, though it will be many years before the latter will be solid enough to hold firmly together when the surface is let down to till the openings in the mine.

THANKSGIVING ENTERTAINMENT.

Salisbury Bachelors Are Prenaring fo Their Annual Blowout.

The Bachelors of the Salisbury Methdist church are making preparations held. Since then other Catholics of the their Thanksgiving observance, and as a rule the church is never large enough to accommodate all who attend. The price of the supper is put so low that all can Rev. Langan reports that about \$17,afford to go. Only twenty-five cents is 000 has already been subscribed. The harged adults for supper and entertainparishioners are to pay the money in nent and children can feast and hear hree or four installments, covering a the entertainment for fifteen cents. period of one year. The crection of the Singly either entertainment or supper hurch will be started early in the spring ! costs but fifteen cents for the older peo and Rev. Langan expects that before a ple and ten for children. Supper will be year has passed there will be about \$40,served between 5 and 8 o'clock and at 000 in the hands of the church society's the latter hour the entertainment will treasurer. The individual operators in pine make more money, but as an employer of labor, as the basis for diversified industries and as a stable support for the se to sell higher. industries and people of a state, the hardwoods are its superior. Take the course of the lumber business throughout and this fact can be seen.

"Hardwood fimber is more generally than pine distributed among the people of the state. Where pine was held in large blocks by mill operators, the hardwoods are in all sorts of ownership, from the farmer or settler with 160 acres up to the big lumber companies with their thousands. Logging is more expensive in hardwoods, due to the larger number of people required and the more varied character of the operation. Again, the hardwood mills are of much smaller capacity than those which cut the pine. use more men in proportion, and do not cut so much per man. They are scatdventure is good." tered through the woods, giving life to Of the Wall street stocks, Walker hamlets which become the centers of ros. said: "The market opened steady agricultural communities and gradually build up other industries, whereas the pine mills were more largely centralized in cities like Saginaw, Muskegon, Cadil-

lac. Manistee and Menominee.

"The most important advantage however, that the hardwood industry has over the pine is that to a much preater extent it is the basis for other industries located in the state. By far the larger proportion of all the pine lumber ever Money was fairly easy." made in Michigan was shipped outside its borders. To what extent it was consumed at home there are no figures to indicate, but at least ten states depended wholly or in large part upon Michigan for the building supplies. On the other hand, the greater part of the hardwood products of a state are used within its borders in the hundreds .or thousands of factories that have been established all through the state. These heapest thing on the list. Compared are agricultural implement, furniture, with the other grains, it acts weak but wagon and carriage factories, car shops, that is generally the best time to buy and a host of miscellaneous establish nything. ments for which hardwood is an import-"Corn seored more record prices, but ant raw material. Thus, instead of a product being shipped out of the state at a total value of, say, \$12 to \$15 a id not hold all its advance. The market was nervous on small trade. The thousand, it is given a value by the inditions were good for the movement. work expended upon it of anywhere at the receipts were only 100 cars here from \$25 to \$100 or more a thousand. This work is farmished by the citizens today and there were no indications that the movement would likely inof the state itself and this larger rerease materially.
